(a) Pursuant to an agreement dated October 6, 2000, the Company paid \$4,000,000 for the acquisition of certain assets and technology relating to the production of Hepatitis B vaccine. The vendor of the transaction was a company named Alphatech Bioengineering Limited, incorporated in Hong Kong, with two shareholders who are both directors of the Company.

(b) Pursuant to an amended agreement dated June 5, 2001, in the event that the Company failed to find a joint venture partner, establish a production facility for the vaccine project or sell the project to a third party within nine months from the date of the amended agreement, Dr. Longbin Liu, a director of the Company (and President and CEO of the Company at the time of the transaction) and one of the shareholders of Alphatech, demanded to repurchase the project from the Company. The repurchase price of \$4.0 million is payable as follows:

8. Due from Related Party - Hepatitis B Vaccine Project (Continued)

- (i) \$500,000 at the date of repurchase; and
- (ii) the balance to be paid within eighteen (18) months of the date of repurchase with interest at 6% per annum. The interest will be accrued from six months after the date of repurchase.

In April 2002, the Company decided not to pursue the project and Dr. Liu has repurchased the project on the agreed terms.

The amount owing by Dr. Liu to the Company was unsecured. The Company chose, given the significant amount involved and the lack of security, to conservatively value the amount owing and set up a provision in fiscal 2002 for the full amount, less a nominal amount of \$100. Dr. Liu defaulted on repayment in September 2003 but subsequently renegotiated repayment terms with the Company (see note 5).

9. Patent Rights - Related Party

Pursuant to an agreement dated January 14, 2002, the Company entered into a Patent Development Agreement with the Dr. Longbin Liu, a director of the Company (and President and CEO of the Company at the time of the transaction) and a company controlled by the Dr. Liu entitling the Company to acquire one patent filed in the United States related to the discovery of a new gene or protein. Consideration for the right to acquire the patent was payment of \$500,000 (paid) and the issuance of warrants to acquire 1,000,000 common shares of the Company at a price of \$2.50 per share for a period of five years. The patent may be acquired prior to January 14, 2005 at no additional cost other than the reasonable legal costs of obtaining the patent.

The issuance and exercise of the warrants to acquire 1,000,000 common stock of the Company is contingent upon the success of the patent applications. The \$500,000 will be refunded to the Company if no patent applications have been filed by January 14, 2005. The Company has reached settlement with Dr. Liu on this and other projects (note 5) and the warrants have been cancelled

10. Licence and permit and other assets (Continued)

The estimated amortization expense for each of the five succeeding fiscal years is as follows:

2004	(balance of the year)	\$276,000
2005		\$552,000
2006		\$552,000
2007		\$552,000
2008		\$552,000

The above amortization expense forecast is an estimate. Actual amounts of amortization expense may differ from estimated amounts due to additional intangible asset acquisitions, changes in foreign currency exchange rates, impairment of intangible assets, accelerated amortization of licence and permit, and other events.

11. Income Taxes

- (a) Kailong and Huaxin are subject to income taxes in China on its taxable income as reported in its statutory accounts at a tax rate in accordance with the relevant income tax laws.

Allwin and Biotrade are not subject to income taxes. As at June 30, 2004, \$3.9 million of unremitted earnings attributable to international companies were considered to be indefinitely invested. No provision has been made for taxes that might be payable if these earnings were remitted to the United States. The Company's intention is to reinvest these earnings permanently or to repatriate the earnings when it is tax effective to do so. It is not practicable to determine the amount of incremental taxes that might arise were these earnings to be remitted.

As at June 30, 2004, the Company has estimated losses, for tax purposes, totalling approximately \$10,100,000, which may be applied against future taxable income. The potential tax benefits arising from these losses have not been recorded in the financial statements. The Company evaluates its valuation allowance requirements on an annual basis based on projected future operations. When circumstances change and this causes a change in management's judgement about the realizability of deferred tax assets, the impact of the change on the valuation allowance is generally reflected in current income.

- (b) The tax effect of temporary differences that give rise to the Company's deferred tax asset (liability) are as follows:

The Company accounts for its stock-based compensation plan in accordance with APB Opinion No. 25, under which no compensation is recognized in connection with options granted to employees except if options are granted with a strike price below fair value of the underlying stock. The Company adopted the disclosure requirements SFAS No. 123, Accounting for Stock-Based Compensation. Accordingly, the Company is required to calculate and present the pro forma effect of all awards granted. For disclosure purposes, the fair value of each option granted to an employee has been estimated as of the date of grant using the Black-Scholes option pricing model with the following assumptions: risk-free interest rate of 5.5%, dividend yield 0%, volatility of 90%, and expected lives of approximately 0 to 5 years. 17. Restatement

Edgar Filing: DRAGON PHARMACEUTICALS INC - Form 10QSB/A

These financial statements have been restated to reinstate the 250,000 common shares that were previously allotted to the Company's Sanhe Kailong Bio-pharmaceutical Limited. ("Kailong") Joint Venture partner.

Kailong was a Joint Venture through which the Company would manufacture and sell its EPO in China. Kailong was created to grant the Company's Joint Venture partner a 25% interest in the Company's EPO business in China. The Company then determined that it would take too long to bring Kailong into production and instead, acquired Nanjing Huaxin Bio-pharmaceutical Co. Ltd. ("Huaxin") which had an existing production facility and the required manufacturing licenses and sales permits.

In March 2000, the Company entered into an agreement with its Kailong Joint Venture partner to fulfil the Company's obligation to allow the Kailong Joint Venture partner to participate in the Company's EPO business and to eliminate the Joint Venture partner's claim to a 25% interest in Huaxin. Under the agreement, the Company agreed to pay \$250,000 and issue 250,000 common shares of the Company. The Company accounted for the transaction at the time by recording the shares allotted at the share price in effect at the time. The cash was paid in the year 2000, but the shares have not yet been issued.

In the second quarter of 2004, the Company was finalizing the share exchange agreement with Oriental Wave Holding Limited ("Oriental Wave") in which the Company would be required to issue shares to Oriental Wave based on the current shares outstanding and on obligations to issue shares in the future. At that time, the Company reversed the original allotment of the 250,000 shares on the basis that Kailong was going to be dissolved and the shares were not going to be issued.

It has subsequently been determined that the Company is still required to issue the 250,000 shares to its Kailong Joint Venture partner and the financial statements have been amended to reinstate the 250,000 common shares that were previously allotted.
