Section 4 - Matters Related to Accountants and Financial Statements

Item 4.02 (a) Non - Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

After review of the accounting policies of Dragon Pharmaceutical Inc. ("Dragon") and applicable accounting pronouncements, the Board of Directors of Dragon decided that the reduction of a future retirement benefit obligation

Edgar Filing: DRAGON PHARMACEUTICAL INC - Form 8-K

related to the acquisition of a land use right from an unrelated former state-owned enterprise in China by Oriental Wave Holding Limited ("Oriental Wave") in July 2003 should have been accounted for as a reduction to the recorded cost of the land use right instead of as a non-operating gain from extinguishment of debt, as previously disclosed in Oriental Wave's 2004 financial statements. As a result, Oriental Wave's 2004 financial statements and Dragon's financial statements for the quarterly periods ended March 31, 2005 and June 30, 2005 have been or will be restated to reflect such change in accounting treatment.

During the preparation of Dragon's financial statements for the quarter ended June 30, 2005, the Company's independent auditors, Ernst & Young, raised an issue as to the propriety of the application of an accounting principal in connection with the reduction in future retirement benefits related to certain prior employees of a former state-owned enterprise in China assumed by Oriental Wave, which is a wholly-owned subsidiary of the Company. Dragon also held discussions with the subsidiary's former independent accountants, Webb & Company, as to this change in accounting treatment.

After substantial review of the facts and circumstances surrounding this transaction, and extensive discussion and review of appropriate accounting pronouncements, the Board of Directors determined that the transaction should be recorded as a reduction to the recorded cost of the land use rights, and adopted this position on September 16, 2005. The reduction of the future retirement benefit obligation during 2004, totaling \$1,135,238, which had been recognized as a non-operating gain, has now been recorded as a reduction to the cost of the land use right. This adjustment also resulted in a reduction of depreciation expense of \$11,352 during 2004. On a going forward basis, any similar reduction of the retirement benefit obligation will be treated as a reduction to the recorded cost of the land use rights. This position was conveyed to Dragon's independent accountant and Oriental Wave's former independent accountant, each of whom concurred with this decision.

As a result, Oriental Wave's 2004 financial statements will be restated to reflect the change in accounting treatment and Dragon will file a Form 8-K to file Oriental Wave's restated financial statements. In addition, Dragon will amend its Form 10-QSB for the quarter ended March 31, 2005 to reflect this change. Dragon's Form 10-QSB for the quarter ended June 30, 2005 was filed with the Securities and Exchange Commission on September 21, 2005 to reflect this restatement.
