NOTES TO FINANCIAL STATEMENTS (Unaudited)

Note 1

In the opinion of management, the unaudited financial statements include all adjustments (consisting of only normal, recurring adjustments) necessary to present fairly the financial position as of March 1, 2008, the cash flows for the three months ended March 1, 2008 and February 24, 2007, and the results of operations for the three months ended March 1, 2008 and February 24, 2007. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted pursuant to the rules and regulations promulgated by the Securities and Exchange Commission. However, management believes that the disclosures contained are adequate to make the information presented not misleading.

Note 2

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and expenses during the reporting period. Actual results could differ from those estimates.
