EXECUTIVE COMPENSATION

The Compensation Committee Report on Executive Compensation

The fundamental philosophy of Investors Title Company's compensation program is to provide competitive compensation opportunities for all employees based on the individual's personal performance, experience and contribution to the growth of the Company. In addition, it is the Company's goal to provide compensation opportunities that are comparable to those offered by other

Edgar Filing: INVESTORS TITLE CO - Form PRE 14A

businesses in the area, thus allowing the Company to attract and retain experienced corporate officers and key employees with outstanding ability and to motivate them to perform to their fullest extent. The Company's compensation package is competitive with the compensation benefits of other employers of comparable size in its area of operation.

In evaluating the performance and establishing the incentive compensation of the Chief Executive Officer and other members of senior management, the Compensation Committee has reviewed management's success in maximizing its sales efforts by expanding operations in other market areas.

In reviewing management performance and compensation, the Compensation Committee also has taken into account management's consistent commitment to the long-term success of the Company through new innovations and intra-Company restructuring.

Based upon the evaluation of these factors, the Compensation Committee believes that the senior management of the Company continues to be dedicated to achieving long-term growth and that the compensation approved by the Compensation Committee has contributed to achieving this end.

Compensation for each of the named executive officers, as well as other senior executives, consists of a base salary, a cash and/or stock bonus, incentive stock options and a contribution under a Simplified Employee Pension Plan. The Compensation Committee considers the total compensation of each of the named executive officers and other senior executives in establishing each element of compensation.

2

Each year, the Chief Executive Officer makes salary recommendations. He then reviews with the Compensation Committee the proposed annual salaries, and the Committee recommends any modifications it deems appropriate based on industry standards, national surveys, individual contribution and performance. The Compensation Committee also fixes the base salary of the Chief Executive Officer based on the same criteria and the Committee's assessment of his past performance and expectations as to future leadership of the Company's business.

Stock and cash bonuses awarded to the executive officers named in the Summary Compensation Table appearing below and other senior executives are based on their performance throughout the year.

In determining the Chief Executive Officer's bonus award for 2001, the Compensation Committee considered, in addition to the factors discussed above pertaining to expanded markets and innovations, the performance of the Company's competitors, as well as more subjective criteria.

Periodically, the Compensation Committee considers issuing stock options, which are designed to link the concerns of the executives with those of the shareholders. Stock option grants provide an incentive that focuses the executive's attention on managing the Company from the perspective of an owner with an equity stake in the business. The Compensation Committee believes that past grants have successfully focused the Company's senior management on building profitability and shareholder value. The Chief Executive Officer is eligible to participate in the same executive compensation plans available to other senior executives.

In establishing grants of stock options, the Chief Executive Officer reviews with the Compensation Committee the proposed option awards. Options may be granted to key employees, officers and directors of the Company.

SHAREHOLDER PROPOSALS FOR 2003 ANNUAL MEETING

Shareholder proposals to be presented at the 2003 Annual Meeting of Shareholders must be received by the Company on or before December 17, 2002 to be considered for inclusion in the Company's proxy materials relating to that meeting. If a shareholder notifies the Company after March 1, 2003 of an intent to present a proposal at the Company's 2003 Annual Meeting of Shareholders, the Company will have the right to exercise its discretionary voting authority with respect to such proposal without including information regarding such proposal in its proxy materials.

ITEM 2 PROPOSAL - APPROVAL OF AMENDMENT TO ARTICLES OF INCORPORATION TO LIMIT DIRECTOR LIABILITY

The Board of Directors proposes that the shareholders approve an amendment to the Company's Articles of Incorporation, as amended, to limit the liability of the Company's directors for certain acts as allowed by Section 55-2-02(b)(3) of the North Carolina General Statutes. The proposed amendment adds the following provision as new Article XV to the Company's Articles of Incorporation:

To the fullest extent permitted by the North Carolina Business Corporation Act as it exists or may hereafter be amended, no person who is serving or who has served as a director of the corporation shall be personally liable to the corporation or any of its shareholders for monetary damages for breach of his or her duty as a director. No amendment or repeal of this article, nor the addition of any provision to these Articles of Incorporation inconsistent with this article, shall eliminate or reduce the protection granted herein with respect to any matter that occurred prior to such amendment, repeal, or addition.

Edgar Filing: INVESTORS TITLE CO - Form PRE 14A

The North Carolina Business Corporation Act was amended in 1987 to permit a North Carolina corporation to include a provision in its articles of incorporation for the purpose of limiting or eliminating the personal liability of each director of the corporation for monetary damages arising from a claim by the corporation or a shareholder of the corporation for breach of the director's duty as a director. Under North Carolina law, however, no such provision may limit or eliminate directors' liability for monetary damages for

- . acts or omissions not made in good faith that the director knew or believed were in conflict with the best interests of the corporation,
- . certain actions with respect to illegal dividends, stock repurchases, or distributions during liquidation,
- . any transaction in which the director derives an improper personal benefit, or
- . acts or omissions occurring before the date the provision is included in the corporation's articles of incorporation.

The 1987 amendment to the North Carolina Business Corporation Act was enacted to alleviate concerns regarding the liability of corporate directors, including the difficulty some corporations were experiencing in attracting and retaining the most qualified individuals to serve as directors and the increasingly expensive insurance rates for directors' liability insurance. Upon the enactment of the amendment in 1987, provisions limiting the liability of directors were widely incorporated into the articles of incorporation of North Carolina corporations.

The duties of a director referred to in the proposed amendment mean the obligations of a director to discharge his or her duties in good faith and with the diligence and care that an ordinarily prudent person would exercise under similar circumstances. Without the amendment to the Company's Articles of Incorporation, a breach of the duty of care by a director, such as by failing to exercise sufficient care in reaching decisions and otherwise attending to his or her responsibilities as a director, may give rise to liability for monetary damages to the Company or its shareholders. The proposed amendment does not eliminate or place limitations on the directors' duty of care. Rather, it eliminates monetary damages that may be awarded for breach of that duty. Nonmonetary damages, such as injunctive relief, remain available to aggrieved corporations and shareholders.

The Board of Directors strongly believes that the proposed amendment is in the best interests of the Company and its shareholders. The Board of Directors does not believe that the elimination of liability for monetary damages as provided by the proposed amendment would result in the directors of the Company acting with less concern for the Company or with a lower level of care. It is the opinion of the Board of Directors that the diligence exercised by the directors on behalf of the Company stems from the directors' desire to act in the best interests of the Company, and not from fear of litigation and monetary damage awards. Shareholders should note, however, that the adoption of the proposed amendment would limit remedies available to a shareholder dissatisfied with an act or omission of a director to the extent that the act or omission is protected by the new Article XV.

The amendment is not being proposed in response to any resignation or threat of resignation of any director or nominee. The Company is not aware of any existing or proposed takeover proposal for the Company and the proposed amendment is not being submitted to the shareholders in anticipation of a takeover proposal. The Company further is not aware of any pending or threatened claims that could be covered by the new Article XV.

Vote Required and Board Recommendation

The affirmative vote of holders of a majority of the shares of Common Stock entitled to vote at the meeting is required to approve the proposed amendment. If the shareholders do not approve the amendment, the Company's Articles of Incorporation, which do not limit or eliminate the liability of directors, will continue in effect. The Board of Directors recommends a vote "FOR" the proposal to approve the amendment to the Articles of Incorporation to limit director liability.

In evaluating this recommendation, shareholders should recognize that the members of the Board of Directors may benefit personally from the adoption of the proposed amendment. Accordingly, the interests of the members of the Board of Directors may conflict with those of the shareholders.

ITEM 3
PROPOSAL - APPROVAL OF AMENDMENT TO ARTICLES OF
INCORPORATION TO INCREASE AUTHORIZED CAPITAL STOCK

The Board of Directors proposes that the shareholders approve an amendment to the Company's Articles of Incorporation, as amended, to increase the number of authorized shares of capital stock to 11,000,000 shares, comprised of 10,000,000 shares of Common Stock and 1,000,000 shares of preferred stock. The amendment would replace Article IV of the Company's Articles of Incorporation with the following:

The number of shares the corporation is authorized to issue is 11,000,000, consisting of (i) 10,000,000 shares of Common Stock and (ii) 1,000,000 shares of Preferred Stock.

Each outstanding share of Common Stock shall be entitled to one vote with respect to all matters upon which such Stock is entitled to vote. The Board of Directors shall determine the preferences, limitations and relative rights of the Preferred Stock and any series thereof. Each share of Preferred Stock shall be entitled to vote to the extent provided by the Board of Directors in the resolution establishing the preferences, limitations and relative rights of the Preferred Stock.

The amendment has the effect of both increasing the number of authorized shares of Common Stock from 6,000,000 shares to 10,000,000 shares and authorizing the issuance of preferred stock.

Common Stock

On March 25, 2002, the Company had 2,855,744 shares of Common Stock outstanding. On that date, an additional 566,991 shares of Common Stock were reserved for issuance pursuant to the Company's stock option and restricted stock plans.

The additional authorized shares of Common Stock would be available for future issuance by the Company and would give the Company flexibility in its corporate planning and in responding to future business developments, including possible financings and acquisition transactions, stock splits or dividends, issuances under the Company's stock-based plans and other general corporate purposes. Except for shares needed for stock-based benefit plans, the Company has no present plans to issue additional shares of Common Stock. The Board believes that the availability of the shares will allow the Company to act

Edgar Filing: INVESTORS TITLE CO - Form PRE 14A

promptly, and without the delay and expense involved in convening special shareholder meetings to authorize additional shares, in the event opportunities requiring the issuance of additional shares of Common Stock arise.

The Board of Directors may issue authorized shares of Common Stock from time to time without further shareholder approval, except in situations where shareholder approval is required by state law or the rules of the Nasdaq National Market. The additional shares of Common Stock, if authorized, would have the same rights and privileges as the shares of Common Stock presently outstanding. Shareholders of the Company have no preemptive right to acquire additional shares of Common Stock.

While the Board of Directors believes it advisable to increase the number of authorized shares of Common Stock for the reasons stated above, the Board realizes that the increase in the number of authorized shares could be used for anti-takeover purposes as the Company could issue additional shares to make more difficult or discourage an attempt to acquire control of the Company. The Company is not aware of any effort to accumulate its securities or obtain control by means of a tender offer, proxy contest or otherwise.

Preferred Stock

The proposed amendment would authorize the Company to issue from time to time, as determined by the Board of Directors, up to 1,000,000 shares of preferred stock, without par value. If the proposed amendment is approved, the Board of Directors would be empowered, without requiring further action or authorization by the Company's shareholders except as provided in a specific case by applicable law or rules of the Nasdaq National Market, to authorize the issuance of shares of preferred stock from time to time in one or more series or classes, and to fix by resolution the designations, preferences, limitations and relative rights of each such series or class.

9

Each series or class of preferred stock could, as determined by the Board of Directors at the time of issuance, rank senior to the Company's shares of Common Stock with respect to dividends and liquidation rights. No preferred stock is presently authorized by the Company's Articles of Incorporation.

The proposed amendment would provide the Company with authorized and unissued shares of preferred stock that the Company may use for any proper corporate purpose. Such purposes might include, without limitation, issuance as part or all of the consideration paid by the Company in the acquisition of other businesses or properties, or issuance in public or private sales to obtain additional capital for use in the Company's business and operations. The authorization of preferred stock would enable the Company to act promptly and without additional expense if appropriate circumstances arise that require the issuance of preferred stock. There are no transactions presently under review by the Board of Directors that contemplate the issuance of shares of preferred stock. The Board of Directors is considering, however, implementing a shareholder rights plan, pursuant to which holders of shares of Common Stock would receive rights to acquire a series or class of preferred stock.

The precise effects of the authorization of shares of preferred stock upon the rights of the holders of the Company's Common Stock cannot be determined until the Board of Directors establishes the respective preferences, limitations and relative rights of the holders of each class or series of preferred stock. However, such effects might include:

- . reducing the amount otherwise available for payment of dividends on

Edgar Filing: INVESTORS TITLE CO - Form PRE 14A

Common Stock, to the extent dividends are payable on any issued shares of preferred stock;

- . restricting dividends on Common Stock;
- . diluting the voting power of the Common Stock, to the extent that the shares of preferred stock have voting rights;
- . diluting the Common Stock through conversion of shares of preferred stock into shares of Common Stock at prices determined by the Board of Directors, which could include conversion at prices below the fair market value or original issue price of shares of Common Stock; and
- . precluding the holders of shares of Common Stock from sharing in the Company's assets upon liquidation until satisfaction of any liquidation preference granted to holders of shares of preferred stock.

Although the Board of Directors would authorize the issuance of shares of preferred stock based on its judgment as to the best interests of the Company and its shareholders, the issuance of authorized shares of preferred stock could have the effect of diluting both the voting power and book value per share of outstanding Common Stock. In addition, the preferred stock could, in certain circumstances, render more difficult or discourage a merger, tender offer, or proxy contest and thus potentially have an "anti-takeover" effect, especially if shares of preferred stock were issued in response to a takeover threat. Further, issuances of authorized shares of preferred stock can be implemented, and have been implemented by some companies, with voting or conversion privileges intended to make acquisition of the Company more difficult or more costly. Such an issuance could deter the types of transactions that may be proposed or could discourage or limit the shareholders' participation in certain types of transactions that might be proposed -- such as a tender offer, whether or not such transactions were favored by the majority of the shareholders, and could enhance the ability of officers and directors to retain their positions.

As noted above, the Board of Directors is considering adopting a shareholder rights plan that would involve the issuance of rights to acquire preferred stock to holders of Common Stock. Commonly known as "poison pills," these plans have a deterrent effect against unfriendly takeovers because they tend to make an acquisition of a company more expensive for an unfriendly acquirer. These plans generally are structured to permit the target company's shareholders, other than the unfriendly acquirer, to purchase additional shares of stock at a substantial discount. The plans thus generally force potential acquirers of a target company to negotiate the terms of any acquisition with the target company's Board of Directors, who have the power to redeem rights issued under the plan at a nominal price.

Vote Required and Board Recommendation

The affirmative vote of holders of a majority of the shares of Common Stock entitled to vote at the meeting is required to approve the proposed amendment. If the shareholders do not approve the amendment, the Company's Articles of Incorporation, which do not authorize the issuance of any preferred stock, will continue in effect and the number of authorized shares of Common Stock will not be increased. The Board of Directors recommends a vote "FOR" the proposal to approve the amendment to the Articles of Incorporation to increase authorized common stock.
