Breakdown of Retail and Manufacturing/Wholesale Results

Retail Division

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

In the fourth quarter, year-over-year retail sales increased by 13.1 percent to EUR 531.2 million. Assuming constant exchange rates, retail sales for the quarter would have risen by 29.6 percent. Excluding OPSM, same store sales in U.S. Dollars for the quarter increased by 2.9 percent compared to the same period last year, an improvement when compared to the decline of 2.3 percent in the first nine months of 2003.

Retail operating income for the quarter was EUR 59.5 million. In U.S. Dollars, it increased by 46.9 percent. Retail operating margin was 11.3 percent.

In 2003, retail sales declined year-over-year by 9.2 percent to EUR 2,001.7 million. Assuming constant exchange rates, retail sales for the fiscal year would have increased by 6.7 percent. Excluding OPSM, same store sales in U.S. Dollars for the year declined year-over-year by 1.1 percent.

Retail operating income for the year was EUR 269.8 million, resulting in an operating margin of 13.5 percent.

Leonardo Del Vecchio, chairman of Luxottica Group, commented on the results of the Retail division: "Traditionally, one of the weakest quarters in our retail division, the fourth quarter was indeed satisfactory. Same store sales actually increased by 2.9 percent with the first signs of economic improvement in North America, interrupting the negative trend begun in the fourth quarter of 2001. This positive result was also attributable to the good sales performance during the holiday season especially at Sunglass Hut International. We expect this improving trend to continue into 2004."

Manufacturing/Wholesale Division

The Group's manufacturing/wholesale sales for the fourth quarter declined year-over-year by 7.6 percent to EUR 221.2 million. Assuming constant exchange rates manufacturing/wholesale sales for the period would have declined 2.8 percent.

The Group's manufacturing/wholesale sales for fiscal 2003 declined year-over-year by 11.8 percent to EUR 995.1 million. Assuming constant exchange rates, manufacturing/wholesale sales for the year would have declined 4.9 percent.

Manufacturing/wholesale operating income for 2003 was EUR 191.1 million, reflecting an operating margin of 19.2 percent.

Statement from the Chairman

Mr. Del Vecchio concluded: "2003 was a challenging year for our Group due to factors which negatively affected both our overall business and the worldwide economy.

The decrease by EUR 105 million in net income was partly due to the 16.4 percent devaluation of the U.S. Dollar against the Euro, which reduced net income by EUR 65 million.

I am optimistic about 2004, especially because of the investments we made in 2003. We launched three new brands: Prada, Versace and Ray-Ban ophthalmic. We consolidated our market share in Australia through the acquisition of OPSM. Finally during 2003, we started negotiations with Cole National which a few days ago led to the signing of a merger agreement, adding to the list of acquisitions made and self-financed in the past ten years. In fact, the Group's ability to generate significant cash flow before dividend, expected to be in the range of EUR 300-400 million per year in the next few years, will allow us to repay for these acquisitions in a limited number of years.

2

2004 presents new opportunities which make us optimistic in the future of our Group. Excluding the currency impact, we can confirm that we expect approximately 15 percent growth in net income. With a Euro/U.S. Dollars exchange rate of EUR 1.00 = US\$ 1.25 we expect to post earnings per share (EPS) for fiscal year 2004 of Euro 0.63, or EPADS of US\$ 0.79."

Other Corporate Developments

With reference to the merger agreement with Cole National announced on January 26, Luxottica Group stated that, as a clarification of news in the press, the merger agreement provides for the acquisition of Cole National through a merger of a subsidiary of Luxottica Group with Cole National and not through a tender offer. The merger if approved by the majority of Cole National shareholders would be binding for all shareholders who would receive cash for their securities.

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

In addition, Luxottica Group stated that the total purchase price for the acquisition of shares and options is U.S. Dollars 401 million and that Cole National's net debt as of November 1st, 2003 was U.S. Dollars 261 million.

Luxottica Group will fund the purchase and costs associated with this transaction from cash flow and credit facilities to be available at the closing. Luxottica Group management is confident that it will secure financing for the total purchase price.

Furthermore, Luxottica Group stated that customary conditions to which the merger agreement is subject refer to: the receipt of U.S. antitrust clearance, the conduct by Cole National management of the Company's operations in an ordinary course of business in all material respects and the lack of extraordinary and unpredictable events which may have a material adverse effect.

Finally, Luxottica Group stated that Larry Pollock, President and Chief Executive Officer of Cole National, has a shareholding of approximately 5 percent in Cole National. The largest shareholder has a 20 percent shareholding in Cole National.

Non-GAAP Financial Measures

Luxottica Group uses certain measures of financial performance that exclude the impact of fluctuations in currency exchange rates in the translation of operating results into Euro. The Company believes that these adjusted financial measures provide useful information to both management and investors by allowing a comparison of operating performance on a consistent basis. In addition, since the Luxottica Group has historically reported such adjusted financial measures to the investment community, the Company believes that their inclusion provides consistency in its financial reporting. Further, these adjusted financial measures are one of the primary indicators management uses for planning and forecasting in future periods. Operating measures that assume constant exchange rates between 2003 and the fourth quarter of 2003 and 2002 and the fourth quarter of 2002 are calculated using for each currency the average exchange rate for the twelve-month period and the three-month period ended December 31, 2002. Operating measures that exclude the impact of fluctuations in currency exchange rates are not measures of performance under accounting principles generally accepted in the United States (U.S. GAAP). These non-GAAP measures are not meant to be considered in isolation or as a substitute for results prepared in accordance with U.S. GAAP. In addition, Luxottica Group's method of calculating operating performance excluding the impact of changes in exchange rates may differ from methods used by other companies. See Table below for a reconciliation of the operating measures excluding the impact of fluctuations in currency exchange rates to their most directly comparable U.S. GAAP financial measures. The adjusted financial measures should be used as a supplement to U.S. GAAP results to assist the reader in better understanding the operational performance of the Company.

Notes:

- (1) Certain amounts presented in the prior year financial statements have been reclassified to conform with the current year presentation. Among them was a reclassification of certain revenue items of the retail division which were recorded in prior year as a reduction in the related costs and are now reflected as gross revenues and gross costs. The effect of this reclassification is an increase in sales for the year ended December 31, 2002 of U.S. Dollars 43.8 million, and an offsetting increase in costs for the same amounts
- (2) These consolidated adjusted amounts are a non-GAAP measurement. The company has included this measurement to give comparative information for the two periods discussed. They reflect the consolidation of OPSM results for the five-month period ended December 31, 2002. This information does not purport to be indicative of the actual result that would have been achieved had the OPSM acquisition been completed as of August 1, 2002
- (3) The North American retail division operates on a 52/53 week fiscal year. Fiscal 2003 is a 53-week year whereas fiscal 2002 was a 52-week year. Accordingly, the 53rd week in fiscal 2003 provided an additional U.S. Dollars 41.7 million in sales and an additional U.S. Dollars 10.9 million of operations income in the fourth quarter of fiscal 2003
