SECURITIES AND EXCHANGE COMMISSION

Washington, DC 20549

FORM 10-K

(Mark One)

ý **ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the fiscal year ended December 31, 2007

OR

o **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

Commission File Number 1-31987

Hilltop Holdings Inc.

(Exact name of registrant as specified in its charter)

MARYLAND	**84-1477939**
(State or other jurisdiction of incorporation or organization)	(IRS Employer Identification No.)

200 Crescent Court, Suite 1330	
Dallas, Texas	**75201**
(Address of principal executive offices)	(zip code)

(214) 855-2177
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common Stock, par value $0.01 per share	New York Stock Exchange
Series A Cumulative Redeemable Preferred Stock, par value $0.01 per share	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes o No ý

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act. Yes o No ý

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ý No o

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer o Accelerated filer ý Non-accelerated filer o Smaller reporting company o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes o No ý

The aggregate market value of the common stock of the registrant held by non-affiliates of the registrant, computed by reference to the price at which the common stock was last sold on the New York Stock Exchange on June 29, 2007, was approximately $468 million. For purposes of this computation, all officers, directors and 10% stockholders were deemed to be affiliates. This determination should not be construed as an admission that such officers, directors and 10% stockholders are affiliates.

The number of shares of the registrant's common stock outstanding at March 17, 2008 was 56,444,059.

Unless the context otherwise indicates, all references in this Annual Report on Form 10-K to the "Company," "Hilltop," "HTH," "we," "us," "our" or "ours" or similar words are to Hilltop Holdings Inc.(formerly known as Affordable Residential Communities Inc.) and its direct and indirect wholly-owned subsidiaries.

FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, included in this report that address results or developments that we expect or anticipate will or may occur in the future, that are preceded by, followed by or include the words "believes," "expects," "may," "will," "would," "could," "should," "seeks," "approximately," "intends," "plans," "projects," "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases, including such things as our business strategy, our financial condition, our litigation, our efforts to make strategic acquisitions, our liquidity and sources of funding, our capital expenditures, our products, market trends, operations and business, are forward-looking statements. These forward-looking statements are based on our beliefs, assumptions and expectations of our future performance taking into account all information currently available to us. These beliefs, assumptions and expectations are subject to risks and uncertainties and can change as a result of many possible events or factors, not all of which are known to us. If an event occurs or further changes, our business, business plan, financial condition, liquidity and results of operations may vary materially from those expressed in our forward-looking statements. Certain factors that could cause actual results to differ include, among others:

- changes in the acquisition market;
- our ability to find and complete strategic acquisitions with suitable merger or acquisition candidates or find other suitable ways in which to invest our capital;
- the adverse impact of external factors, such as changes in interest rates, inflation and consumer confidence;
- our corporate debt ratings;
- the condition of capital markets;
- actual outcome of the resolution of any conflict;
- our ability to use net operating loss carryforwards to reduce future tax payments;
- the impact of the tax code and rules on our financial statements;
- failure of NLASCO, Inc.'s insurance subsidiaries to maintain their respective A.M. Best ratings;
- failure to maintain NLASCO, Inc.'s current agents;
- lack of demand for insurance products;
- cost or availability of adequate reinsurance;
- changes in key management;

severe catastrophic events in our geographic area;

failure of NLASCO, Inc.'s reinsurers to pay obligations under reinsurance contracts;

failure of NLASCO, Inc. to maintain sufficient reserves for losses on insurance policies;

failure of NLASCO, Inc. to maintain appropriate insurance licenses; and

failure of HTH to realize the benefits from the sale of substantially all of its manufactures home business in July 2007.

For a further discussion of these and other risks and uncertainties that could cause actual results to differ materially from those contained in our forward-looking statements, please refer to "Risk Factors" in this report. Consequently, all of the forward-looking statements made in this report are qualified by these cautionary statements, and there can be no assurance that the actual results or developments anticipated by us will be realized, or even substantially realized, and that they will have the expected consequences to, or effects on, us and our business or operations. Forward-looking statements made in this report speak as of the date of this report or as of the date specifically referenced in any such statement set forth in this report. We undertake no obligation to update or revise any forward-looking statements in this report.

MARKET AND INDUSTRY DATA AND FORECASTS

Market and industry data and other statistical information and forecasts used throughout this Annual Report on Form 10-K are based on independent industry publications, government publications and reports by market research firms or other published independent sources. We have not sought or obtained the approval or endorsement of the use of this third-party information. Some data also is based on our good faith estimates, which are derived from our review of internal surveys, as well as independent sources. Forecasts are particularly likely to be inaccurate, especially over long periods of time.

PART I

ITEM 1. BUSINESS

General Information

Hilltop Holdings Inc., formerly known as Affordable Residential Communities Inc., was organized in July 1998 as a Maryland corporation that was primarily engaged in the acquisition, renovation, repositioning and operation of all-age manufactured home communities, the retail sale and financing of manufactured homes, the rental of manufactured homes and other related businesses, all exclusively to residents in those communities.

On January 31, 2007, we acquired NLASCO, Inc., or NLASCO, a privately held property and casualty insurance holding company. NLASCO is a Delaware corporation that specializes in providing fire and homeowners insurance to low value dwellings and manufactured homes primarily in Texas and other areas of the south, southeastern and southwestern United States. NLASCO operates through its wholly-owned subsidiaries, National Lloyds Insurance Company, or NLIC and American Summit Insurance Company, or ASIC.

On July 31, 2007, we sold our manufactured home communities, retail sales and financing of manufactured home businesses to American Residential Communities LLC, or the Farallon Transaction, as discussed in Note 14 of the accompanying consolidated financial statements, and retained ownership of the recently acquired NLASCO. In conjunction with this sale, we transferred the rights to the "Affordable Residential Communities" name, changed our name to Hilltop Holdings Inc., and moved our headquarters to Dallas, Texas. Our insurance operations are headquartered in Waco, Texas.

We are a holding company that is endeavoring to make additional opportunistic acquisitions or a business combination. In connection with that strategy, we are identifying and evaluating potential targets on an ongoing basis. At December 31, 2007, we had approximately $738 million of available cash and cash equivalents that could be used for this purpose. No assurances, however, can be given that we will be able to identify suitable targets, consummate acquisitions or a combination or, if consummated, successfully integrate or operate the acquired business.

Our common stock is listed on the New York Stock Exchange, or the NYSE under the symbol "HTH". Our Series A Cumulative Redeemable Preferred Stock is listed on the NYSE under the symbol "HTH-PA".

Our principal office is located at 200 Crescent Court, Suite 1330, Dallas, Texas 75201, and our telephone number at that location is (214) 855-2177. Our internet address is www.hilltop-holdings.com. We currently are subject to the reporting requirements of the Securities Exchange Act of 1934 and, therefore, we file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission, or the SEC. These filings, and amendments to these filings, may be accessed, free of charge, on the investor relations page of our website as soon as reasonably practicable after they are electronically filed with, or furnished to, the SEC. Additionally, any materials that we file with, or furnish to, the SEC may be read and copied at the SEC's Public Reference Room at 100 F Street, NE, Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for more information regarding the operations of the SEC Public Reference Room. The SEC also maintains a website, www.sec.gov, that contains reports, proxy and information statements and other information regarding issuers, such as ourselves, that file electronically with the SEC. Our codes of conduct and ethics, including amendments to, and waivers of, those codes, our corporate governance guidelines, director independence criteria and board committee charters can be accessed, free of charge, on our website, as well. We will provide, at no cost, a copy of these documents upon request by telephone or in writing at the above phone number or address, attention: Investor Relations. The references to our

website address do not constitute incorporation by reference of the information contained on our website into, and should not be considered a part of, this Annual Report on Form 10-K.

In 2007, our Chief Executive Officer certified to the NYSE, pursuant to Section 303A.12 of the NYSE's listing standards, that he is unaware of any violation by us of the NYSE's corporate governance listing standards.

Company Background

We were formed in 1998 under the name "Affordable Residential Communities Inc." as a Maryland corporation that elected to be taxed as a real estate investment trust, or REIT. Until July 2007, we primarily engaged in the acquisition, renovation, repositioning and operation of all-age manufactured home communities, the retail sale and financing of manufactured homes, the rental of manufactured homes and other related businesses, including acting as agent in the sale of homeowners' insurance and related products, all exclusively to residents and prospective residents of those communities. Our primary operations previously were conducted through an operating partnership, in which we owned a general partnership interest.

On February 18, 2004, we completed our initial public offering, or IPO. Through the year ended December 31, 2005, we were organized as a fully integrated, self-administered and self-managed equity REIT for U.S. federal income tax purposes. In 2006, we revoked our election as a REIT for U.S. federal income tax purposes.

In January 2007, we acquired NLASCO. NLASCO was incorporated in Delaware in 2000, but its origins trace back to 1948 through one of its subsidiaries, NLIC. In 1964, C. Clifton Robinson, who is currently the Chairman of NLASCO and a member of our board of directors, along with other investors, purchased NLIC and moved its headquarters from San Antonio, Texas to Waco, Texas. Following various acquisitions and dispositions of equity in NLIC by Mr. Robinson and others, including the re-acquisition of NLIC in conjunction with the acquisition of ASIC in 2000, Mr. Robinson held 100% of NLASCO and its subsidiaries, NLIC and ASIC, from 2001 until we acquired NLASCO in 2007.

On July 31, 2007, we sold substantially all of the operating assets used in our manufactured home communities business and our retail sales and financing business in the Farallon Transaction. We received gross proceeds of approximately $890 million in cash, which represents the aggregate purchase price of $1.794 billion less the indebtedness assumed by the buyer in the Farallon Transaction. After giving effect to expenses and taxes and after giving effect to our continued outstanding preferred stock and senior notes, our net cash balance was approximately $550 million, subject to certain post-closing adjustments. We used a portion of the proceeds from the Farallon Transaction for general working capital, liquidation of our operating partnership units, and to repay certain outstanding obligations. We intend to make opportunistic acquisitions with certain of the remaining proceeds from the Farallon Transaction and, if necessary or appropriate, from additional equity or debt financing sources.

Since we sold our manufactured home communities business and our retail sales and financing business in July 2007, the results of operations and financial position of these businesses are now reflected as discontinued operations for all periods presented in this report.

Following the completion of the Farallon Transaction, our current operations have consisted solely of those of NLASCO and its subsidiaries. Therefore the remainder of our discussion focuses on the property and casualty insurance operations of NLASCO and its subsidiaries. Although we present information on NLASCO for prior years, they are only included in operations since the acquisition at January 31, 2007.

Insurance Operations

NLASCO specializes in providing fire and limited homeowners insurance for low value dwellings and manufactured homes primarily in Texas and other areas of the south, southeastern and southwestern United States. NLASCO targets underserved markets that require underwriting expertise that many larger carriers have been unwilling to develop given the relatively small volume of premiums produced by local agents. Within these markets, NLASCO attempts to capitalize on its superior local knowledge to identify profitable underwriting opportunities. NLASCO believes that it distinguishes itself from competitors by delivering products that are not provided by many larger carriers, providing a high level of customer service and responding quickly to the needs of its agents and policyholders. NLASCO applies a high level of selectivity in the risks it underwrites and uses a risk-adjusted return approach to capital allocation, which NLASCO believes allows it to consistently generate underwriting profits.

Many insurance buyers, agents and brokers use the ratings assigned by A.M. Best and other rating agencies to assist them in assessing the financial strength and overall quality of the companies from which they purchase insurance. A.M. Best assigned NLIC a financial strength rating of "A" (Excellent) in 2007 and ASIC a rating of "A-" (Excellent) in 2007. An "A" rating is the third highest of 15 rating categories used by A.M. Best, and an "A-" rating is the fourth highest of 15 rating categories.

The Insurance Industry

The property and casualty insurance industry provides protection from pre-specified loss events, such as damage to property or liability claims by third parties. Property and casualty insurance can be broadly classified into two lines; personal lines, in which insurance is provided to individuals, and commercial lines, in which insurance is provided to business enterprises. In the U.S., personal and commercial insurance products are written in admitted and non-admitted markets, also known as the excess and surplus lines market. NLASCO provides insurance products in the personal line and the commercial line markets.

In the admitted market, insurers are authorized by state insurance departments to do business, insurance rates and forms are generally highly regulated and coverage tends to be standardized. Within the admitted market, NLASCO focuses on underserved segments that do not fit into the standard underwriting criteria of national insurance companies due to several factors, such as type of business, location and the amount of premium per policy. This portion of the market tends to have limited competition. Therefore, NLASCO believes it has greater flexibility in pricing and product design relative to most admitted market risks.

The non-admitted market focuses on harder-to-place risks that admitted insurers typically do not write. In this market, risks are underwritten with more flexible policy forms and rates, resulting in more restrictive and expensive coverage. NLASCO writes in this market for its dwelling fire, homeowner, and mobile home business in Louisiana.

The property and casualty insurance industry, historically, has been subject to cyclical fluctuations in pricing and availability of insurance coverage. "Soft" markets are often characterized by excess underwriting capital and involve intense price competition, expanded policy terms and conditions, erosion of underwriting discipline and poor operating performance. These market conditions usually lead to a period of diminished underwriting capacity after insurance companies exit unprofitable lines and exhibit greater underwriting discipline, increase premium rates and implement more restrictive policy terms and conditions. This latter market condition is called a "hard" market. The insurance market may not always be hard or soft; rather, it could be hard for one line of business and soft for another. The market at the start of 2008 is likely to be characterized as soft for property risks in NLASCO's operating area; however, in coastal areas, due to the hurricane activity in recent years, those markets are considered hard.

Product Lines

Personal and Commercial Lines

The NLASCO companies specialize in writing fire and homeowners insurance coverage for low value dwellings and manufactured homes. The vast majority of NLASCO's property coverage is written on policies that provide actual cash value payments, as opposed to replacement cost. Under actual cash value policies, the insured is entitled to receive only the cost of replacing or repairing damaged or destroyed property with comparable new property, less depreciation. Additionally, most of NLASCO's property policies exclude coverage for water and mold damage.

NLASCO's business is conducted with two product lines, its personal lines and its commercial lines. The personal lines include homeowners, dwelling fire, manufactured home, flood and vacant policies. The commercial lines include commercial, builders risk, builders risk renovation, sports liability and inland marine policies. Set forth below is certain financial data broken down by line of business (in millions):

	For The Year Ended December 31,		
	2007	2006	2005
Gross Premiums Written			
Personal lines	$ 131.1	$ 134.8	$ 141.2
Commerical lines	6.1	5.9	5.3
Total	$ 137.2	$ 140.7	$ 146.5
Net Operating income			
Personal lines	$ 14.4	$ 18.9	$ 25.6
Commerical lines	1.3	1.7	1.0
Total	$ 15.7	$ 20.6	$ 26.6
Total Assets			
Personal lines	$ 253.2	$ 234.9	$ 243.7
Commerical lines	23.3	21.6	9.3
Total	$ 276.5	$ 256.5	$ 253.0

Geographic Markets

The following table sets forth NLASCO's total gross written premiums by state for the periods shown (in millions):

	For The Year Ended December 31,		
	2007	2006	2005
Gross Written Premiums			
Texas Flood	$ 4.1	$ 3.7	$ 3.2
Texas North	24.1	24.8	26.2
Texas South	34.6	34.5	35.6
Texas Central	9.1	8.6	8.9
Texas West	11.1	10.9	10.6
Texas Panhandle	7.4	7.3	7.1
Texas East	11.9	11.3	11.2
Texas Total	102.3	101.1	102.8
Arizona	12.8	14.1	15.3
Tennessee	8.7	9.6	10.8
Oklahoma	5.5	5.8	5.6
Louisiana	2.8	3.0	2.3
Missouri	1.5	1.6	1.1
Nevada	1.4	1.5	1.7
Mississippi	0.1	1.9	4.4
All other states	2.1	2.1	2.5
TOTAL	$ 137.2	$ 140.7	$ 146.5

NLASCO underwrites insurance coverage primarily in Texas as well as other states in the south and southwest regions. In 2005, NLASCO withdrew from the Mississippi market to mitigate its catastrophe exposure in that geographic area.

Distribution

NLASCO distributes its insurance products through a broad network of independent agents in 23 states and a select number of managing general agents, referred to as MGAs. NLASCO has a preference for doing business with agents that desire a long-term relationship that will result in mutual profitability and value for both parties. NLASCO believes that "relationship" agents are more oriented to the long-term and desire a meaningful relationship with their customers and the insurers they represent. NLASCO's top ten agents accounted for only 12.1% and 10.8% of direct premiums written in 2007 and 2006, respectively, and as of December 31, 2007, the average tenure of the top 25 agencies was over 12 years.

Underwriting and Pricing

NLASCO applies its regional expertise, underwriting discipline and a risk-adjusted, return-on-equity based approach to capital allocation to offer primarily short-tail insurance products in its target markets. NLASCO's underwriting process involves securing an adequate level of underwriting information from its independent agents, identifying and evaluating risk exposures and then pricing the risks it chooses to accept.

NLASCO employs a disciplined underwriting approach that incorporates the continuously refined stratification of its target markets to permit it to tailor its policies to individual risks and adopt pricing

structures that will be supported in the applicable market. NLASCO utilizes underwriting principles and processes that reflect the knowledge and experience it has acquired during its 40-year history of underwriting risks. NLASCO has started to use advanced modeling software on an individual risk basis that will allow it to underwrite risks at the time of quotation in high risk areas, such as the seacoast. NLASCO believes that this comprehensive process capitalizes on its knowledge and expertise and results in better underwriting decisions.

Pricing levels are established by NLASCO's senior management with the assistance of a consulting actuary. Pricing balances NLASCO's return requirements along with the legal/regulatory environment in each particular geographic region. Management reviews pricing on a quarterly basis to monitor any emerging issues, such as the mold crisis that hit Texas in 2003. NLASCO's statistical database allows this analysis to be performed on a specific coverage or geographic territory.

Catastrophe Exposure

NLASCO maintains a comprehensive risk management strategy, which includes actively monitoring its catastrophe prone territories by zip code to ensure a diversified book of risks. NLASCO's catastrophe exposure primarily results from property policies in Cameron, Harris, Jefferson and Nueces Counties in Texas, which include the densely populated Houston metropolitan area and the cities extending from the northern tip to the southern point on the Texas Gulf Coast. All of this territory is exposed to potential wind storm activity from the Gulf of Mexico. NLASCO is also exposed to hail and other catastrophic events in the Texas panhandle and the plains states. The coastal area represents 13.5% of Texas state-wide premiums; however, only 7% of these coastal policies include full wind coverage. The panhandle represents 7% of Texas state-wide premiums. Over the years, NLASCO has adjusted its business based on its perceived risk of catastrophe losses. For example, in 2005, ASIC withdrew from the Mississippi market to mitigate its catastrophe exposure in that area, and in 2006, it stopped writing new policies that cover wind damage along the seacoast of Louisiana.

Terrorism Risk Insurance Act of 2002, Terrorism Risk Insurance Extension Act of 2005 and Terrorism Risk Insurance Program Reauthorization Act of 2007

On November 26, 2002, the Terrorism Risk Insurance Act of 2002 was enacted into Federal law and established the Terrorism Risk Insurance Program, or the Program. This is a Federal program that provides for a system of shared public and private compensation for insured losses resulting from acts of terrorism or war. The Program was scheduled to terminate on December 31, 2005. On December 22, 2005, the Terrorism Risk Insurance Extension Act of 2005 was enacted into Federal law, reauthorizing the Program through December 31, 2007, while reducing the Federal role under the Program. On December 26, 2007, the Terrorism Risk Insurance Program Reauthorization Act, or the Reauthorization Act, was enacted into Federal law, reauthorizing the Program through December 31, 2014 and implementing several changes to the Program. In order for a loss to be covered under the Program, as presently constituted, aggregate industry losses of $100 million must be satisfied. Further, the losses must be the result of an event that is certified as an act of terrorism by the U.S. Secretary of the Treasury, Secretary of State and Attorney General. The original Program excluded from participation certain of the following types of insurance: Federal crop insurance, private mortgage insurance, financial guaranty insurance, medical malpractice insurance, health or life insurance, flood insurance and reinsurance. The 2005 Act exempted from coverage certain additional types of insurance, including commercial automobile, professional liability (other than directors and officers), surety, burglary and theft and farm-owners multi- peril. In the case of a war declared by Congress, only workers' compensation losses are covered by the Program. The Program generally requires that all commercial property and casualty insurers licensed in the United States participate in the Program. Under the Program, a participating insurer is entitled to be reimbursed by the Federal government for a percentage of subject losses, after an insurer deductible, subject to an annual cap. The Federal

reimbursement percentage was fixed by the Reauthorization Act at 85%. The deductible is calculated by applying the deductible percentage to the insurer's direct earned premiums for covered lines. The deductible under the Program is fixed at 20%. NLASCO's deductible under the Program was $1.2 million for 2007 and is estimated to be $1.3 million in 2008. The annual cap limits the amount of aggregate subject losses for all participating insurers to $100 billion. Once subject losses have reached the $100 billion aggregate during a Program year, there is no additional reimbursement from the U.S. Treasury and an insurer that has met its deductible for the program year is not liable for any losses that exceed the $100 billion cap. When insured losses under the Program exceed the $100 billion cap, the insured losses are subject to pro-rata sharing based upon regulations promulgated by the U.S. Treasury. Additionally, under the Reauthorization Act, the timing of mandatory recoupment of the Federal reimbursement through policyholder surcharges was accelerated. NLASCO had no terrorism-related losses in 2007.

Reinsurance

NLASCO purchases reinsurance to reduce its exposure to liability on individual risks and claims and to protect against catastrophe losses. NLASCO's management believes that less volatile, yet reasonable, returns are in the long-term interest of NLASCO, and as a result maintains a conservative reinsurance program. NLASCO generated direct premiums written totaling $134 million, net of flood policies, in 2007 and paid approximately $11 million in catastrophe reinsurance premiums prior to any reinstatement premiums.

Reinsurance involves an insurance company transferring, or ceding, a portion of its risk to another insurer, the reinsurer. The reinsurer assumes the exposure in return for a portion of the premium. The ceding of risk to a reinsurer does not legally discharge the primary insurer from its liability for the full amount of the policies on which it obtains reinsurance. Accordingly, the primary insurer remains liable for the entire loss if the reinsurer fails to meet its obligations under the reinsurance agreement and, as a result, the primary insurer is exposed to the risk of non-payment by its reinsurers.

We believe that NLASCO's financial stability is substantially protected from catastrophic events through several excess of loss reinsurance contracts that combine to provide a mix of coverage against various types and combinations of catastrophe losses. As noted in the section titled "Risk Factors," NLASCO is exposed to catastrophic losses that could exceed the limits of reinsurance and negatively impact its financial position and results of operations. NLASCO purchases reinsurance of a modeled exposure for a one-in 500 year event.

In formulating its reinsurance programs, NLASCO believes that it is selective in its choice of reinsurers and considers numerous factors, the most important of which are the financial stability of the reinsurer, its history of responding to claims and its overall reputation. In an effort to minimize exposure to the insolvency of reinsurers, NLASCO evaluates the acceptability, and continuously monitors the financial condition, of each reinsurer. NLASCO enters into reinsurance agreements only with reinsurers that have an A.M. Best financial strength rating of "A- (Excellent)" (fourth highest of 15 categories) or better, or at least an "A" rating by Standard & Poors. If a reinsurer rating subsequently drops below "A- (Excellent)," NLASCO can cancel or replace the reinsurer. As of December 31, 2007, 100% of NLASCO's paid loss recoverables were from reinsurers rated "A- (Excellent)" or better by A.M. Best. To further minimize exposure to reinsurer insolvency, NLASCO spreads reinsurance treaties among many reinsurers. NLASCO reviews retention levels each year to maintain a balance between the growth in surplus and the cost of reinsurance. NLASCO's losses from unrecoverable reinsurance in 2007 were nominal.

NLASCO's ten largest net receivable balances from reinsurers as of and for the year ended December 31, 2007 were as follows (in millions):

	Year Ended December 31, 2007				
	A.M. Best Financial Strength Rating	Ceded Premiums	Balances Due from Reinsurance Companies	Prepaid Reinsurance Premiums	Net Receivable Balance(1)
Federal Emergency Management Agency	N/A	$ 4.9	$ 0.5	$ 2.6	$ 3.1
Swiss Re Underwriters	A+		0.5		0.5
Lloyds LIB 4472	A	0.1	0.3		0.3
Platinum Underwriters Reinsurance Inc.	A	1.9	0.2		0.2
R&V Versicherung	A	0.8	0.2		0.2
Lloyds AML 2001	A	0.9	0.1		0.1
Arch Reinsurance Company	A	0.9	0.1		0.1

Lloyds GSC 958	A	0.5	0.1		0.1
Lloyds MMX 2010	A	0.6	0.1		0.1

(1) The net receivable balance includes balances due from reinsurance companies, contingent commissions, prepaid reinsurance premiums and ceded contingent commissions, less balances due to reinsurance companies.

As of December 31, 2007, NLIC had reinsurance for up to $194 million of losses per event in excess of a $6 million retention by NLIC. This reinsurance is comprised of six layers of protection: $8 million in losses in excess of a $6 million retention by NLIC; $11 million in excess of a $14 million loss; $25 million in excess of a $25 million loss; $50 million in excess of a $50 million loss; $80 million in excess of $100 million loss; and $20 million in excess of $180 million loss. NLIC retains no participation in any of the layers, other than the first $6 million retention. The projected premiums on these treaties are $13.4 million in 2008.

As of December 31, 2007, ASIC had reinsurance for up to $199 million of losses per event in excess of a $1 million retention by ASIC. This reinsurance is comprised of seven layers of protection: $3 million in excess of a $1 million retention; $10 million in excess of a $4 million loss; $11 million in excess of a $14 million loss; $25 million in excess of a $25 million loss; $50 million in excess of a $50 million loss; $80 million in excess of $100 million loss; and $20 million in excess of $180 million loss. The projected premiums on these treaties are $1.1 million in 2008.

In addition to the catastrophe reinsurance noted above, both NLIC and ASIC participate in an excess of loss program with General Reinsurance Corporation. The General Reinsurance Corporation program is limited to each risk with respect to property and liability in the amount of $800,000 and $850,000 for NLIC and ASIC, respectively. NLIC retains $200,000 and ASIC retains $150,000 in this program.

The only rate increase for 2007 was in Missouri on NLASCO's low value dwelling and homeowner programs. The size of rate increases varies by geographic region based upon actuarially justified costs and wind-related exposures. Rates in Missouri were filed and approved with the department of insurance in Missouri. In Texas NLASCO still qualifies for a rate increase, which is subject to Article 5.13-2C small company exemption from rate filing and approval requirements. NLASCO did not use this exemption to increase rates in 2007.

Liabilities for Unpaid Losses and Loss Adjustment Expenses

NLASCO's liabilities for losses and loss adjustment expenses include liabilities for reported losses, liabilities for incurred but not reported, or IBNR, losses and liabilities for loss adjustment expenses, or LAE, less a reduction for reinsurance recoverables related to those liabilities. The amount of liabilities for reported claims is based primarily on a claim-by-claim evaluation of coverage, liability, injury severity or scope of property damage, and any other information considered relevant to estimating exposure presented by the claim. The amounts of liabilities for IBNR losses and LAE are estimated on the basis of historical trends, adjusted for changes in loss costs, underwriting standards, policy provisions, product mix and other factors. Estimating the liability for unpaid losses and LAE is inherently judgmental and is influenced by factors that are subject to significant variation. Liabilities for LAE are intended to cover the ultimate cost of settling claims, including investigation and defense of lawsuits resulting from such claims. Based upon the contractual terms of the reinsurance agreements, reinsurance recoverables offset, in part NLASCO's gross liabilities.

Significant periods of time can elapse between the occurrence of an insured loss, the reporting of the loss to the insurer and the insurer's payment of that loss. NLASCO's liabilities for unpaid losses represent the best estimate at a given point in time of what it expects to pay claimants, based on facts, circumstances and historical trends then known. During the loss settlement period, additional facts regarding individual claims may become known and, consequently, it often becomes necessary to refine and adjust the estimates of liability.

The table below presents one-year development information on changes in the liability for losses and LAE and a reconciliation of liabilities on a direct premiums written and net premiums written basis for the eleven months ended December 31, 2007 (in thousands):

Balance February 1, 2007*	$	18,664
Less reinsurance recoverables		(1,509)
Net balance at February 1, 2007		17,155
Incurred related to:		
Current Year		52,074
Prior Year		
Total incurred		52,074
Payments related to:		
Current Year		(46,230)
Prior Year		(7,600)
Total payments		(53,830)
Net balance at December 31, 2007		15,399
Plus reinsurance recoverables		2,692
Balance at December 31, 2007	$	18,091

* Includes purchase price adjustment of $2.9 million.

NLASCO's claims reserving practices are designed to set liabilities for losses and LAE that in the aggregate are adequate to pay all claims at their ultimate loss cost, net of anticipated salvage and subrogation. Thus, NLASCO's estimates are not discounted for inflation or other factors.

Loss development

NLASCO estimates the aggregate amount of losses and LAE ultimately required to settle all claims for a given period. The following tables present the development of estimated liability for losses and LAE, net of reinsurance, for the years 1998 through 2007 of NLIC and ASIC. These tables present accident or policy year development data. The first line of the table shows, for the years indicated, net liability, including IBNR, as originally estimated. For example, as of December 31, 1998, NLIC estimated that $12.8 million would be a sufficient net liability to settle all claims retained by it not already settled that had occurred prior to December 31, 1998, whether reported or unreported. The next section of the table sets forth the re-estimates in later years of incurred losses, including payments, for the years indicated. For example, as indicated in that section of the table, the original net liability of $12.8 million was re-estimated to be $12.5 million at December 31, 2005. The decrease from the original estimate is caused by a combination of factors, including: (1) claims being settled for amounts different than originally estimated; (2) the net liability being increased or decreased for claims remaining open as more information becomes known about those individual claims; and (3) more or fewer claims being reported after December 31, 1998 than had occurred prior to that date. The bottom section of the table shows, by year, the cumulative amounts of net losses and LAE paid as of the end of each succeeding year. For example, with respect to the liability for net losses and LAE of $12.8 million as of December 31, 1998, by the end of 2005 (seven years later), $12.5 million had actually been paid in settlement of the claims.

The "net cumulative redundancy (deficiency)" represents, as of December 31, 2007, the difference between the latest re-estimated net liability and the net liability as originally estimated for losses and LAE retained by us. A redundancy means the original estimate was higher than the current estimate; a deficiency means that the original estimate was lower than the current estimate. For example, as of December 31, 2007 and based upon updated information, NLIC re-estimated that the net liability which was established as of December 31, 1998 was $372,000 redundant.

The following tables are presented using statutory accounting practices for the insurance industry.

Because NLASCO did not own ASIC prior to January 1, 2001, the information in the table above prior to that date with respect to ASIC was developed by a different management group. Since NLASCO's acquisition of ASIC in 2001, NLASCO has modified the development of estimated liability for losses and LAE for ASIC, and the numbers for the years prior to 2001 may not be comparable to 2001 and subsequent years.

Current loss reserve development has been positive. In the years 2004, 2005 and 2006, the developed reserve as of December 31, 2007 were $9.4 million, $1.9 million and $3.9 million, respectively, less than the initial carried reserve for each year. For the years 1998 through 2003 the reserves on average were $5.2 million positive. Starting in 2002, incurred but not reported loss reserves were strengthened, contributing to the positive development in years 2002, 2003 and 2004. This strengthening of reserves was due to increases in direct written premium and increased net written premium from reductions in quota share, a form of pro rata insurance, reinsurance.

Ratings

Many insurance buyers, agents and brokers use the ratings assigned by A.M. Best and other rating agencies to assist them in assessing the financial strength and overall quality of the companies from which they purchase insurance. A.M. Best assigned NLIC a financial strength rating of "A" (Excellent) in 2007 and ASIC a rating of "A-" (Excellent) in 2007. An "A" rating is the third highest of 15 rating categories used by A.M. Best, and an "A-" rating is the fourth highest of 15 rating categories. In evaluating a company's financial and operating performance, A.M. Best reviews a company's profitability, leverage and liquidity, as well as its book of business, the adequacy and soundness of its reinsurance, the quality and estimated market value of its assets, the adequacy of its liabilities for losses and LAE, the adequacy of its surplus, its capital structure, the experience and competence of its management and its market presence. This rating is intended to provide an independent opinion of an insurer's ability to meet its obligations to policyholders and is not an evaluation directed at investors. This rating assignment is subject to the ability to meet A.M. Best's expectations as to performance and capitalization on an ongoing basis, including with respect to management of liabilities for losses and LAE, and is subject to revocation or revision at any time at the sole discretion of A.M. Best. NLASCO cannot ensure that NLIC and ASIC will maintain their present ratings.

Investments

HTH's primary investment objectives, as a holding company, are to preserve capital and possess available cash resources to utilize in making strategic acquisitions. Accordingly, HTH has investments in available-for-sale equities with a fair value of $43.0 million, or 6% of its total cash and investments as of December 31, 2007. We also had $738.7 million in short-term cash equivalent investments as of December 31, 2007. HTH's management regularly monitors investment performance.

Our insurance operating subsidiary, NLASCO, has primary investment objectives to preserve capital and manage for a total rate of return in excess of a specified benchmark portfolio. The investment strategy of NLASCO's insurance subsidiaries is to purchase securities in sectors that represent what is expected to possess the most attractive relative value. Bonds, cash and short-term investments constituted $183 million, or 95%, of NLASCO's investments at December 31, 2007. NLASCO insurance subsidiaries have custodial agreements with A.G. Edwards and Wells Fargo Bank and investment management agreements with Hyperion Brookfield Asset Management, Inc.

NLASCO's investment guidelines reflect the desire and intent to assure the prudent investment of capital and surplus, keeping in mind the long-term nature of some insurance reserves, while recognizing the uncertainty of expected cash flows, the shorter term characteristics of and the desire to supplement insurance underwriting gains and offset losses with portfolio income and realized gains in order to maintain adequate capital and surplus. All investments are made in compliance with all state and Federal laws and regulations applicable to such investments and the company involved. State insurance laws and regulations limit the amount of investments in asset classes below certain "quality" levels. NLASCO currently maintains a quality structure exceeding the minimum requirements imposed on the portfolio by state insurance laws and regulations, which is known as the Investment of Insurer's Model Act, or National Association of Insurance Commissioners Act. Currently NLASCO has no investments in subprime mortgages.

Liquidity and preservation of policyholder surplus can be limiting factors in achieving a favorable return on invested assets, as sufficient funds need to be maintained to meet ongoing near term financial obligations. Funds not immediately needed to offset withdrawals may be invested in short-term securities on a continuous basis. A maturity structure must be maintained to invest cash flows from operations and reinvest investment income, as well as to provide a source of liquidity and flexibility to meet changing market, tax and other operating considerations.

Notwithstanding the above, the underlying objective of NLASCO's investment policy is to obtain a favorable total return on invested assets to augment the growth of surplus from operations. Total return comes both from income and capital growth, so a portion of the funds are invested in assets other than fixed income securities, including common stocks, growth oriented preferred stocks and common or preferred stock mutual funds. In managing these investment choices, market volatility, the absolute level of NLASCO's capital and surplus relative both to existing liabilities and the level of premium revenue, as well as to total assets, are the limiting factors that influence the portion of assets invested in assets other than fixed income investments.

Performance is measured by comparing the total return, for each period, of each major sector of NLASCO's investment portfolio to an appropriate market index, as well as comparing the total return of NLASCO's investment portfolio to an average of the market indices, weighted by the portfolio's average exposure to each other particular sector during the period. The assets are managed with the goal of exceeding these market indices, with volatility of return similar to or less than the indices.

NLASCO's investment committee meets regularly to review the portfolio performance and investment markets in general. NLASCO's management generally meets monthly to review the performance of investments and monitor market conditions for investments that would warrant any revision to investment guidelines.

The following table sets forth information concerning the composition of NLASCO's investment portfolio at December 31, 2007 (in thousands):

	December 31, 2007			
	Cost and Amortized Cost	**Fair Value**	**Carrying Value**	**Percent of Carrying Value**
Available-for-sale securities:				
Fixed maturities:				
Government securities	$ 46,274	$ 47,416	$ 47,416	32.0%
Mortgage-backed securities	12,661	12,815	12,815	8.7%
Corporate debt securities	71,318	71,673	71,673	48.4%
	130,253	131,904	131,904	
Equity securities	9,902	9,360	9,360	6.3%
	140,155	141,264	141,264	
Held-to-maturity securities:				
Fixed maturities:				
Government securities	6,784	6,819	6,784	4.6%
	$ 146,939	$ 148,083	$ 148,048	100.0%

At December 31, 2007, NLASCO's fixed maturity portfolio had a fair value of approximately $138.7 million. All of the fixed maturity investments are rated as investment grade. As a result, the market value of these investments may fluctuate in response to changes in interest rates. In addition, we may experience investment losses to the extent our liquidity needs require disposition of fixed maturity securities in unfavorable interest rate environments.

The amortized cost (original cost for equity securities), gross unrealized holding gains and losses, and fair value of available-for-sale and held-to-maturity securities by major security type and class of security at December 31, 2007 for NLASCO's investment portfolio were as follows (in thousands).

	December 31, 2007			
	Cost and Amortized Cost	Gross Unrealized Holding Gains	Gross Unrealized Holding Losses	Fair Value
Available-for-sale securities:				
Fixed maturities:				
Government securities	$ 46,274	$ 1,275	$ (133)	$ 47,416
Mortgage-backed securities	12,661	155	(1)	12,815
Corporate debt securities	71,318	863	(508)	71,673
	130,253	2,293	(642)	131,904
Equity securities	9,902		(542)	9,360
	140,155	2,293	(1,184)	141,264
Held-to-maturity securities:				
Fixed maturities:				
Government securities	6,784	35		6,819
	$ 146,939	$ 2,328	$ (1,184)	$ 148,083

As of December 31, 2007, the NLASCO portfolio included 22 fixed maturity investments and nine equity investments; in an unrealized loss position for less than twelve months. One of the fixed maturity investments was trading below 90% of cost or amortized cost. This investment was deemed impaired by management and written down by $228,600 to market value. All of NLASCO's investments are considered to have been held less than twelve months since NLASCO was purchased by us on January 31, 2007 and the investments were marked to fair value at that time. All of the fixed maturity investments in an unrealized loss position and assigned a rating by commercial rating companies are rated investment grade. While all of these investments are monitored for potential impairment, our experience indicated that they generally do not present a great risk of impairment, as fair value recovers over time. Management believes that the analysis of each of these investments support the view that these investments were not other-than-temporarily impaired. This analysis includes reviewing volatility of market price, percentage of market value lost and other market information on the individual investment.

The following table presents the maturity profile of NLASCO's fixed maturity investments as of December 31, 2007. Actual maturities may differ from contractual maturities because certain borrowers may have the right to call or prepay obligations with or without penalties. The schedule of fixed

maturities available-for-sale and held-to-maturity at December 31, 2007 by contractual maturity is as follows (in thousands).

	December 31, 2007	
	Amortized Cost	**Fair Value**
Available-for-sale fixed maturities:		
Due within one year	$ 9,328	$ 9,338
Due after one year through five years	47,124	47,739
Due after six years through ten years	42,319	43,115
Due after ten years	18,821	18,897
Mortgage-backed securities	12,661	12,815
	$ 130,253	$ 131,904
Held-to-maturity debt securities:		
Due within one year	$ 5,138	$ 5,167
Due after one year through five years	1,228	1,234
Due after six years through ten years		
Due after ten years	418	418
	$ 6,784	$ 6,819

We are subject to various market risk exposures, including interest rate risk and equity price risk. Our primary risk exposure is to changes in interest rates. We manage market risk through our investment committee and through the use of an outside professional investment management firm. We are vulnerable to interest rate changes, like other insurance companies, because we invest primarily in fixed maturity securities, which are interest-sensitive assets. Mortgage-backed securities, which make up approximately 9% of our investment portfolio, are particularly susceptible to interest rate changes.

The value of our equity investments is dependent upon general conditions in the securities markets and the business and financial performance of the individual companies in the portfolio. Values are typically based on future economic prospects that are perceived by investors in the equity market.

Competition

NLASCO competes with a large number of other companies in its selected lines of business, including major U.S. and non-U.S. insurers, regional companies, mutual companies, specialty insurance companies, underwriting agencies and diversified financial services companies. The personal lines market in Texas is dominated by a few large carriers and their subsidiaries and affiliates, including State Farm, Allstate, Farmers and USAA. According to the Texas Department of Insurance, the top ten insurers writing homeowners insurance accounted for approximately 83% of the market in 2006. NLASCO competes for business on the basis of a number of factors, including price, coverages offered, customer service, relationships with agents (including ease of doing business, service provided and commission rates paid), size and financial strength ratings. In its personal lines business, NLASCO's competitors include Republic Companies Group, Inc., Columbia Lloyds, Foremost, American Modern Home Group and American Reliable. In its commercial lines business, NLASCO's competitors include Travelers, Safeco and Republic. NLASCO seeks to distinguish itself from its competitors by targeting underserved market segments that provide NLASCO with the best opportunity to obtain favorable policy terms, conditions and pricing.

Regulation of Insurance Activities

NLASCO's insurance subsidiaries, NLIC and ASIC, are subject to regulation and supervision in each state where they are licensed to do business. This regulation and supervision is vested in state

agencies having broad administrative power over the various aspects of the business of NLIC and ASIC.

State insurance holding company regulation

NLASCO controls two operating insurance companies, NLIC and ASIC, and is subject to the insurance holding company laws of Texas, the state in which those insurance companies are domiciled. These laws generally require NLASCO to register with the Texas Department of Insurance and periodically to furnish financial and other information about the operations of companies within its holding company structure. Generally under these laws, all transactions between an insurer and an affiliated company in its holding company structure, including sales, loans, reinsurance agreements and service agreements, must be fair and reasonable and, if satisfying a specified threshold amount or of a specified category, require prior notice and approval or non-disapproval by the Texas Department of Insurance.

Changes of control

Before a person can acquire control of an insurance company domiciled in Texas, prior written approval must be obtained from the Texas Department of Insurance. Prior to granting approval of an application to acquire control of an insurer, the Texas Department of Insurance will consider the following factors among others:

- the financial strength of the applicant;
- the integrity and management experience of the applicant's board of directors and executive officers;
- the acquirer's plans for the management of the domestic insurer;
- the acquirer's plans to declare dividends, sell assets or incur debt;
- the acquirer's plans for the future operations of the domestic insurer;
- the impact of the acquisition on continued licensure of the domestic insurer;
- the impact on the interests of Texas policyholders; and
- any anti-competitive results that may arise from the consummation of the acquisition of control.

Pursuant to the Texas insurance holding company statutes, "control" means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of the company, whether through the ownership of voting securities, by contract (except a commercial contract for goods or non-management services) or otherwise. Control is presumed to exist if any person directly or indirectly owns, controls or holds with the power to vote 10% or more of the voting securities of the company; however, the state's insurance department, after notice and a hearing, may determine that a person or entity that directly or indirectly owns, controls or holds with the power to vote less than 10% of the voting securities of the company nonetheless "controls" the company. Because a person acquiring 10% or more of NLASCO's common stock would indirectly control the same percentage of the stock of ASIC and two affiliated corporations controlling NLIC, the change of control laws of the State of Texas would apply to such a transaction.

These laws may discourage potential acquisition proposals and may delay, deter or prevent change of control transactions involving NLASCO's insurance subsidiaries and affiliates, including those that some or all of the Company's stockholders might consider to be desirable.

National Association of Insurance Commissioners

The National Association of Insurance Commissioners, or *NAIC* is a group consisting of state insurance commissioners that discusses issues and formulates policy with respect to regulation, reporting and accounting for insurance companies. Although the NAIC has no legislative authority and insurance companies are at all times subject to the laws of their respective domiciliary states and, to a lesser extent, other states in which they conduct business, the NAIC is influential in determining the form in which such laws are enacted. Certain Model Insurance Laws, Regulations and Guidelines, or Model Laws, have been promulgated by the NAIC as a minimum standard by which state regulatory systems and regulations are measured. Adoption of state laws that provide for substantially similar regulations to those described in the Model Laws is a requirement for accreditation by the NAIC.

The NAIC provides authoritative guidance to insurance regulators on current statutory accounting issues by promulgating and updating a codified set of statutory accounting practices in its Accounting Practices and Procedures Manual. The Texas Department of Insurance has generally adopted these codified statutory accounting practices.

Texas has also adopted laws substantially similar to the NAIC's risk based capital, or RBC laws, which require insurers to maintain minimum levels of capital based on their investments and operations. Domestic property and casualty insurers are required to report their RBC based on a formula that attempts to measure statutory capital and surplus needs based on the risks in the insurer's mix of products and investment portfolio. The formula is designed to allow the Texas Department of Insurance to identify potential inadequately capitalized companies. Under the formula, a company determines its RBC by taking into account certain risks related to its assets (including risks related to its investment portfolio and ceded reinsurance) and its liabilities (including underwriting risks related to the nature and experience of its insurance business). Among other requirements, an insurance company must maintain capital and surplus of at least 200% of the RBC computed by the NAIC's RBC model (known as the "Authorized Control Level" of RBC). At December 31, 2007, NLASCO's capital and surplus levels exceeded the minimum RBC requirements that would trigger regulatory attention. In their 2007 statutory financial statements, both NLIC and ASIC complied with the NAIC's RBC reporting requirements.

The NAIC's Insurance Regulatory Information System, or IRIS, was developed to assist state insurance departments in executing their statutory mandates to oversee the financial condition of insurance companies. IRIS identifies twelve industry ratios and specifies a range of "usual values" for each ratio. Departure from the usual values on four or more of the ratios can lead to inquiries from state insurance commissioners as to certain aspects of an insurer's business. For 2007, all ratios for both NLIC and ASIC were within the usual values.

The NAIC has recently adopted an amendment to its "Model Audit Rule" in response to the passage of the Sarbanes-Oxley Act of 2002, or SOX. The amendment is effective for financial statements for accounting periods after January 1, 2010. This amendment addresses auditor independence, corporate governance and, most notably, the application of certain provisions of Section 404 of SOX regarding internal control reporting. The rules relating to internal controls apply to insurers with gross direct and assumed written premiums of $500 million or more, measured at the legal entity level (rather than at the insurance holding company level), and to insurers that the domiciliary commissioner selects from among those identified as in hazardous condition, but exempts SOX compliant entities. Neither NLIC nor ASIC currently has direct and assumed written premiums of at least $500 million, but it is conceivable that this may change in the future, however, NLASCO must still be SOX compliant because it is owned by HTH.

Legislative changes

From time to time, various regulatory and legislative changes have been, or are, proposed that would adversely affect the insurance industry. Among the proposals that have been, or are being, considered are the possible introduction of Federal regulation in addition to, or in lieu of, the current system of state regulation of insurers and proposals in various state legislatures (some of which proposals have been enacted) to conform portions of their insurance laws and regulations to various Model Laws adopted by the NAIC. NLASCO is unable to predict whether any of these laws and regulations will be adopted, the form in which any such laws and regulations would be adopted, or the effect, if any, these developments would have on its financial condition or results of operations.

In 2002, in response to the tightening supply in certain insurance and reinsurance markets resulting from, among other things, the September 11, 2001 terrorist attacks, the Terrorism Risk Insurance Act, or TRIA, was enacted. TRIA was modified and extended by the Terrorism Risk Insurance Extension Act of 2005 and extended again by the Terrorism Risk Insurance Program Reauthorization Act of 2007. These Acts created a Federal Program designed to ensure the availability of commercial insurance coverage for terrorist acts in the United States. This Program helped the commercial property and casualty insurance industry cover claims related to terrorism-related losses and requires such companies to offer coverage for certain acts of terrorism. As a result, NLASCO is prohibited from adding certain terrorism exclusions to the policies written by its insurance company subsidiaries. The 2005 Act extended the Program through 2007, but eliminated commercial auto, farm-owners and certain other commercial coverages from its scope. In addition, the event trigger was increased for 2006 and again for 2007, and industry retentions and deductibles also escalate through 2007. Although NLASCO is protected by federally funded terrorism reinsurance as provided for in the TRIA, there is a substantial deductible that must be met, the payment of which could have an adverse effect on its financial condition and results of operations. NLASCO's deductible for 2007 was $1.2 million. Potential future changes to the TRIA could also adversely affect NLASCO by causing its reinsurers to increase prices or withdraw from certain markets where terrorism coverage is required.

In 2003, legislation was passed in Texas that significantly changed the regulation of homeowners insurance, and, to a lesser extent, automobile insurance. Prior to 2003, certain types of insurers, including insurance companies that participate in Lloyd's, reciprocals, county mutuals and farm mutuals that wrote these lines of insurance were generally exempt from rate regulation. The 2003 legislation eliminated, or severely reduced, these exemptions, and imposed a new rate regulation regime for all insurers writing these lines of insurance. This legislation also included limitations on the use of credit scoring and territorial distinctions in underwriting and rating risks. Further, the Texas Commissioner of Insurance has been given broader authority under the law to order refunds to policyholders when rates charged have been deemed excessive or unfairly discriminatory.

State insurance regulations

State insurance authorities have broad powers to regulate U.S. insurance companies. The primary purposes of these powers are to promote insurer solvency and to protect individual policyholders. The extent of regulation varies, but generally has its source in statutes that delegate regulatory, supervisory and administrative power to state insurance departments. These powers relate to, among other things, licensing to transact business, accreditation of reinsurers, admittance of assets to statutory surplus, regulating unfair trade and claims practices, establishing actuarial requirements and solvency standards, regulating investments and dividends, and regulating policy forms, related materials and premium rates. State insurance laws and regulations require insurance companies to file financial statements prepared in accordance with accounting principles prescribed by insurance departments in states in which they conduct insurance business, and their operations are subject to examination by those departments.

As part of the broad authority that state insurance commissioners hold, they may impose periodic rules or regulations related to local issues or events. An example is the state of Louisiana's prohibition on the cancellation of policies for nonpayment of premium in the wake of Hurricane Katrina. Due to the extent of damage and displacement of people, inability of mail to reach policyholders and inaccessibility of entire neighborhoods, the state of Louisiana prohibited insurance companies from canceling policies for a period of time following that named storm.

Periodic financial and market conduct examinations

The insurance departments in every state in which NLASCO's insurance companies do business may conduct on-site visits and examinations of its insurance companies at any time to review the insurance companies' financial condition, market conduct and relationships and transactions with affiliates. In addition, the Texas Department of Insurance will conduct comprehensive examinations of insurance companies domiciled in Texas every three to five years. Examinations are generally carried out in cooperation with the insurance departments of other licensing states under guidelines promulgated by the NAIC. The Texas Department of Insurance completed its last triennial financial examination of NLIC in 2001 and ASIC in 2003. The state did not reveal any material adverse findings in its reports of examination.

The Texas Department of Insurance is currently conducting an examination of NLIC from January 31, 2002 through December 31, 2006, and ASIC from January 1, 2004 through December 31, 2006. As of March 14, 2008 we have received no information of any significant compliance issues.

State dividend limitations

The Texas Department of Insurance must approve any dividend declared or paid by an insurance company domiciled in the state if the dividend, together with all dividends declared or distributed by that insurance company during the preceding twelve months, exceeds the greater of (1) 10% of its policyholders' surplus as of December 31 of the preceding year or (2) 100% of its net income for the preceding calendar year. The greater number is known as the insurer's extraordinary dividend limit. As of December 31, 2007, the extraordinary dividend limit for NLIC and ASIC, is $17.1 million and $4.2 million, respectively. In addition, NLASCO's insurance companies may only pay dividends out of their earned surplus.

Statutory accounting principles

Statutory accounting principles, or SAP are a comprehensive basis of accounting developed to assist insurance regulators in monitoring and regulating the solvency of insurance companies. SAP rules are different from generally accepted accounting principles, or GAAP and are intended to reflect a more conservative view of the insurer. SAP is primarily concerned with measuring an insurer's surplus to policyholders. Accordingly, SAP focuses on valuing assets and liabilities of insurers at financial reporting dates in accordance with insurance laws and regulatory provisions applicable in each insurer's domiciliary state.

While GAAP is concerned with a company's solvency, it also stresses other financial measurements, such as income and cash flows. Accordingly, GAAP gives more consideration to appropriate matching of revenues and expenses and accounting for management's stewardship of assets than does SAP. As a direct result, different assets and liabilities and different amounts of assets and liabilities will be reflected in financial statements prepared in accordance with GAAP as opposed to SAP. SAP, as established by the NAIC and adopted by Texas regulators, determines the statutory surplus and statutory net income of the NLASCO insurance companies and thus determines the amount they have available to pay dividends.

Guaranty associations

In Texas, and in all of the jurisdictions in which NLIC and ASIC are, or in the future may be, licensed to transact business, there is a requirement that property and casualty insurers doing business within the jurisdiction must participate in guaranty associations, which are organized to pay limited covered benefits owed pursuant to insurance policies issued by impaired, insolvent or failed insurers. These associations levy assessments, up to prescribed limits, on all member insurers in a particular state on the basis of the proportionate share of the premiums written by member insurers in the lines of business in which the impaired, insolvent or failed insurer was engaged. States generally permit member insurers to recover assessments paid through full or partial premium tax offsets.

Prior to June 30, 2006, no assessments levied against NLASCO's insurance subsidiaries with respect to guaranty associations had been material. In July 2006, NLASCO incurred an assessment of $0.4 million with respect to guaranty associations. NLASCO incurred no levies in 2007. Property and casualty insurance company insolvencies or failures may result in additional guaranty fund assessments at some future date. At this time NLASCO is unable to determine the impact, if any, that these assessments may have on its financial condition or results of operations. NLASCO has established liabilities for guaranty fund assessments with respect to insurers that are currently subject to insolvency proceedings.

National Flood Insurance Program

NLASCO voluntarily participates as a Write Your Own carrier in the National Flood Insurance Program, or NFIP. The NFIP is administered and regulated by the Federal Emergency Management Agency. NLASCO operates as a fiscal agent of the Federal government in the selling and administering of the Standard Flood Insurance Policy. This involves the collection of premiums belonging to the Federal government and the paying of covered claims by directly drawing on funds of the United States Treasury. NLASCO receives allowances from NFIP for underwriting administration, claims management, commission and adjuster fees.

Participation in involuntary risk plans

NLASCO's insurance companies are required to participate in residual market or involuntary risk plans in various states where they are licensed that provide insurance to individuals or entities that otherwise would be unable to purchase coverage from private insurers. If these plans experience losses in excess of their capitalization, they may assess participating insurers for proportionate shares of their financial deficit. These plans include the Georgia Underwriting Association, Texas FAIR Plan Association, TWIA, the Louisiana Citizens Property Insurance Corporation, the Mississippi Residential Property Insurance Underwriting Association and the Mississippi Windstorm Underwriting Association. For example in 2005, following Hurricanes Katrina and Rita, the above plans levied collective assessments totaling $10.4 million on NLASCO's insurance subsidiaries. Additional assessments, including emergency assessments, may follow. In some of these instances, NLASCO's insurance companies should be able to recover these assessments through policyholder surcharges, higher rates or reinsurance. The ultimate impact hurricanes have on the Texas and Louisiana facilities is currently uncertain and future assessments can occur whenever the involuntary facilities experience financial deficits.

Other

Insurance activities are subject to state insurance laws and regulations as determined by the particular insurance commissioner for each state in accordance with the McCarran-Ferguson Act, as well as subject to the Gramm-Leach-Bliley Act and the privacy regulations promulgated by the Federal Trade Commission.

Changes in any of the laws governing our conduct could have an adverse impact on our ability to conduct our business or could materially affect our financial position, operating income, expense or cash flow.

Employees

As of December 31, 2007, we had 146 full-time equivalent employees. Of these 146 employees, 3 work for HTH, and the remaining 143 work for NLASCO. The NLASCO employees perform underwriting, claims, marketing, and administrative functions for the insurance business. We consider our employee relations to be good.

ITEM 1A. RISK FACTORS

The following risk factors identify important factors, including material risks and uncertainties, that could cause actual results to differ materially from those reflected in forward-looking statements or in our historical results. Each of the following risk factors, among others, could adversely affect our ability to meet the current expectations of our management.

Risks Related to Our Substantial Cash Position and Related Strategies for its Use

We intend to use a substantial portion of the proceeds from the Farallon Transaction to make acquisitions or effect a business combination.

We are endeavoring to make opportunistic acquisitions or a business combination with a substantial portion of the proceeds from the Farallon Transaction. No assurances, however, can be given that we will be able to identify suitable targets, consummate acquisitions or a combination or, if consummated, successfully integrate personnel and operations. Even if we identify suitable targets, we may not be able to make acquisitions or a combination on commercially acceptable terms, if at all. The success of any acquisition or combination will depend upon, among other things, the ability of management and our employees to integrate personnel, operations, products and technologies effectively, to retain and motivate key personnel and to retain customers and clients of targets. In addition, any acquisition or combination we undertake may involve certain other risks, including consumption of available cash resources, potentially dilutive issuances of equity securities and the diversion of management's attention from other business concerns. We also may need to make further investments to support the acquired or combined company and may have difficulty identifying and acquiring the appropriate resources. There can be no assurance that any acquisition or combination we undertake will perform as expected. We may enter, on our own and through acquisitions or a combination, into new lines of business or initiate new service offerings, whether related or unrelated to our insurance business. Our success in any such endeavor will depend upon, among other things, the ability of management to identify suitable opportunities, successfully implement sound business strategies and avoid the legal and business risks of any new line of business or service offering and/or an acquisition related thereto. There can be no assurance that we will be able to do any of the foregoing. In addition, any such undertakings may result in additional costs without an immediate increase in revenues and may divert management's attention from the operation and growth of our current lines of business.

Since we have not definitively selected a particular target business to acquire or combine with, our stockholders are unable to currently ascertain the merits or risks of the industry or business in which we may ultimately primarily operate.

We may consummate any acquisition or business combination with a company in any industry and are not limited to any particular type of business. Accordingly, there is no current basis for you to evaluate the possible merits or risks of the particular industry in which we may ultimately conduct our primary ongoing operations or the target business which we may ultimately acquire. To the extent we

complete an acquisition of, or business combination with, a financially unstable company or an entity in its development stage, we may be affected by numerous risks inherent in the business operations of those entities. If we complete an acquisition of, or business combination with, an entity in an industry characterized by a high level of risk, we may be affected by the currently unascertainable risks of that industry. Although our management will endeavor to evaluate the risks inherent in a particular industry or target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors. Even if we properly assess those risks, some of them may be outside of our control or ability to affect.

We may change our primary lines of business without stockholder approval, which may result in riskier lines of business than our current lines of business.

Depending on the structure of an acquisition or business combination, it may result in us conducting our primary operations in lines of business that are different from, and possibly more risky than, our current business without stockholder approval.

Resources could be expended in researching acquisitions that are not consummated, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business.

It is anticipated that the investigation of each specific target business and the negotiation, drafting, and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys and others. If a decision is made not to complete a specific acquisition or business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, even if an agreement is reached relating to a specific target business, we may fail to consummate our acquisition or combination for any number of reasons, including those beyond our control, such as if our or the target's stockholders do not approve the transaction. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business.

Competition from other motivated purchasers may hinder our ability to consummate an acquisition in the near term.

Since 2003, based upon publicly available information as of March 7, 2008, approximately 156 blank check companies have completed initial public offerings. Of these companies, only 47 companies have consummated a business combination, while 22 companies have announced a business combination, but have not consummated such business combination, and 13 companies have failed to complete business combinations and have either dissolved or announced their intention to dissolve and return trust proceeds to their stockholders. Accordingly, as of March 7, 2008, there were approximately 74 blank check companies with approximately $14.0 billion in trust that are seeking initial business combinations. Furthermore, there are a number of additional offerings for blank check companies that are still in the registration process but have not completed initial public offerings and there are likely to be more blank check companies filing registration statements for initial public offerings. While some of those companies must complete a business combination in specific industries, a number of them may consummate a business combination in any industry they choose. Therefore, we may be subject to competition from these and other companies with available cash seeking to consummate an acquisition.

We expect to encounter intense competition from entities in addition to blank check companies having a business objective similar to ours, including venture capital funds, private equity funds, leveraged buyout funds and other operating businesses competing for acquisitions. Many of these entities are well established and have extensive experience in identifying and effecting acquisitions or business combinations directly or through affiliates. Many of these competitors possess greater technical, human and other resources than we do and our financial resources may be relatively limited when contrasted with those of many of these competitors. While we believe that there are numerous

potential target businesses that we could acquire with the net proceeds from the Farallon Transaction, our ability to compete in acquiring certain sizable target businesses may be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Because, as of March 7, 2008, only 69 of the 156 blank check companies that have gone public in the United States since 2003 have either consummated a business combination or announced a business combination and 13 companies have failed to complete business combinations and have either dissolved or announced their intention to dissolve and return trust proceeds to their stockholders, it may indicate that there are fewer attractive target businesses available to such entities like our company or that many privately held target businesses are not inclined to enter into these types of transactions with publicly held companies like ours. For these reasons, we cannot assure you that we will be able to effectuate an acquisition or business combination in the near term.

Subsequent to our consummation of an acquisition, we may be required to subsequently take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our stock price.

Even if we conduct extensive due diligence on a target business with which we acquire, we cannot assure you that this diligence will surface all material issues that may be present inside a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations or incur impairment or other charges that could result in us reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining post-acquisition debt financing.

We may issue additional common or preferred shares to complete an acquisition or combination or under an employee incentive plan after consummation of an acquisition or combination, which would dilute the interest of our stockholder and likely present other risks.

We may issue a substantial number of additional shares of common or preferred stock to complete an acquisition or business combination or under an employee incentive plan after consummation of the transaction. The issuance of additional shares of common or preferred stock:

- may significantly dilute the equity interest of our stockholders;
- may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change in control if a substantial number of common stock is issued, which may affect, among other things, our ability to use our net operating loss carry forwards; and
- may adversely affect prevailing market prices for our common stock.

We may be unable to obtain additional financing to complete an acquisition or business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular acquisition or business combination.

Although we believe the net proceeds from the Farallon Transaction, including the amounts earned on investment of those proceeds, will be sufficient to allow us to consummate an acquisition or business combination, because we have not yet definitively selected any definitive target business, we cannot ascertain the exact capital requirements for any particular transaction. If the net proceeds from the

Farallon Transaction, either because of the size of the acquisition or business combination or the depletion of available funds in search of a target business, are insufficient, we may be required to seek additional financing. We cannot assure you that such financing will be available on acceptable terms, if at all. To the extent that additional financing proves to be unavailable, when needed, to consummate an acquisition or business combination, we would be compelled to either restructure the transaction or abandon that particular acquisition or business combination and seek an alternative target business candidate. Even if we do not need additional financing to consummate an acquisition or business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target.

There may be tax consequences with respect to an acquisition or business combinations that may adversely affect us.

While we expect to undertake any merger or acquisition so as to minimize taxes both to the acquired business and/or asset and us, such acquisition or business combination might not meet the statutory requirements of a tax-free reorganization, or the parties might not obtain the intended tax-free treatment upon a transfer of shares or assets. A non-qualifying reorganization could result in the imposition of substantial taxes.

Our net operating loss and other carryovers may be limited if we undergo an ownership change. Generally, an ownership change occurs if certain persons or groups increase their aggregate ownership in us by more than 50 percentage points looking back over the prior three-year period. If an ownership change occurs, our ability to use our net operating losses, or NOLs, to reduce income taxes is limited to an annual amount, or a Section 382 limitation, equal to the fair market value of our common stock immediately prior to the ownership change multiplied by the long term tax-exempt interest rate, which is published monthly by the Internal Revenue Service, or IRS. In the event of an ownership change, NOLs that exceed the Section 382 limitation in any year will continue to be allowed as carryforwards for the remainder of the carryforward period and such excess NOLs can be used to offset taxable income for years within the carryforward period subject to the Section 382 limitation in each year. Whether or not an ownership change occurs, the carryforward period for NOLs is either 15 or 20 years from the year in which the losses giving rise to the NOLs were incurred. If the carryforward period for any NOL were to expire before that NOL had been fully utilized, the unused portion of that NOL would be lost. Our use of new NOLs arising after the date of an ownership change would not be affected by the Section 382 limitation (unless there were another ownership change after those new NOLs arose).

Based on our knowledge of stockholder ownership of Hilltop, we do not believe that an ownership change has occurred since our initial public offering, or IPO, that would limit our post-IPO NOLs. Accordingly we believe that there is no annual limitation under Section 382 of the Code imposed on our use of post-IPO NOLs to reduce future taxable income. Our pre-IPO NOLs are subject to an annual limitation of approximately $17 million annually. This annual limitation may cause $13 million of our pre-IPO NOLs not to be used before the pre-IPO NOLs expire.

The determination of whether an ownership change has occurred or will occur is complicated and, therefore, no assurance can be provided as to whether an ownership change has occurred or will occur. We have not obtained, and currently do not plan to obtain, an IRS ruling or opinion of counsel regarding our conclusions as to whether the pre-IPO NOLs or post-IPO NOLs are subject to any such limitations. In addition, limitations imposed by Section 382 may prevent us from issuing additional common stock to raise capital or to acquire businesses or properties. To the extent not prohibited by our charter, we may decide in the future that it is necessary or in our interest to take certain actions that could result in an ownership change.

If we are deemed to be an investment company, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete strategic acquisitions or combinations.

We do not plan to operate as an investment fund or investment company, or to be engaged in the business of investing, reinvesting or trading in securities. Our plan is to acquire, hold, operate and grow for the long term one or more operating businesses in an industry that will strategically align with or complement our current operations. We do not plan to operate as a passive investor or as a merchant bank seeking dividends or gains from purchases and sales of securities.

If we were deemed to be an investment company under the Investment Company Act of 1940, or the 1940 Act, we would be required to become registered under the 1940 Act (or liquidate) and our activities would be subject to a number of restrictions, including, among others:

- corporate governance requirements and requirements regarding mergers and share exchanges;
- restrictions on the nature of our investments;
- restrictions on our capital structure and use of multiple classes of securities; and
- restrictions on our use of leverage and collateral,

each of which may make it difficult for us to consummate strategic acquisition or combination.

In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company;
- adoption of a specific form of corporate structure;
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations;

compliance with which would reduce the funds we have available to consummate strategic acquisitions or a combination.

In order not to be regulated as an investment company under the 1940 Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in an initial business other than investing, reinvesting or trading of securities and that our activities do not include investing, reinvesting, owning, holding or trading "investment securities." Our business, in addition to our insurance operations, will be to identify and consummate an acquisition or business combination and, thereafter, to operate the acquired business or businesses for the long term. We do not plan to buy businesses to be a passive investor. We do not believe that our anticipated principal activities will subject us to the 1940 Act. If we were deemed to be subject to the 1940 Act, compliance with these additional regulatory burdens would require additional expense for which we have not accounted.

Risks Related to NLASCO's Business and NLASCO's Industry

Our management has limited prior experience operating an insurance company like NLASCO, and therefore, may have difficulty in successfully and profitably operating NLASCO or complying with regulatory requirements applicable to insurance companies.

Our management has limited experience operating an insurance company like NLASCO or complying with regulatory requirements applicable to insurance companies like NLASCO. Operating an insurance company is complex. The insurance industry is highly competitive and has historically been characterized by periods of significant price competition, alternating with periods of greater pricing discipline during which competitors focus on other factors. In addition, insurance companies are subject to comprehensive regulation and supervision in those states in which they write insurance policies and

in which they are domiciled. Significant changes in the political and regulatory climate could result in changes in these laws and regulations and could make it more expensive or less profitable for us to manage an insurance company. Because we could encounter difficulties in operating an insurance company and complying with regulatory requirements applicable to insurance companies, you should be especially cautious in drawing conclusions about the ability of our management team to execute its business strategies as they relate to NLASCO.

The occurrence of severe catastrophic events may have a material adverse effect on NLASCO, particularly because NLASCO conducts business in a concentrated geographic area.

NLASCO expects to have large aggregate exposures to natural and man-made disasters, such as hurricanes, hail, tornados, windstorms, floods, wildfires and acts of terrorism. NLASCO expects that its loss experience generally will include infrequent events of great severity. Hurricanes Katrina and Rita, which occurred on August 29 and September 24, 2005, respectively, are such examples. The risks associated with natural and man-made disasters are inherently unpredictable, and it is difficult to predict the timing of these events with statistical certainty or estimate the amount of loss any given occurrence will generate. Although NLASCO may attempt to exclude certain losses such as terrorism and other similar risks from some coverage's NLASCO writes, it may be prohibited from, or may not be successful in, doing so. The extent of losses from a catastrophe is a function of both the total amount of policyholder exposure in the geographic area affected by the event and the severity of the event. The occurrence of losses from catastrophic events may have a material adverse effect on NLASCO's ability to write new business and on its financial condition and results of operations. Increases in the values and geographic concentrations of policyholder property and the effects of inflation have resulted in increased severity of industry losses in recent years, and NLASCO expects that these factors will increase the severity of losses in the future. Factors that may influence NLASCO's exposure to losses from these types of events, in addition to the routine adjustment of losses, include: exhaustion of reinsurance coverage; increases in reinsurance rates; unanticipated litigation expenses; unrecoverability of ceded losses; impact on independent agent operations and future premium income in areas affected by catastrophic events; unanticipated expansion of policy coverage or reduction of premium due to regulatory, legislative and/or judicial action following a catastrophic event; and unanticipated demand surge related to other recent catastrophic events, among others.

NLASCO writes insurance primarily in the states of Texas, Arizona, Tennessee, Oklahoma and Louisiana. In 2007, Texas accounted for 73.8%, Arizona 9.6%, Tennessee 6.5%, Oklahoma 4.1%, Louisiana 2.1%, and the other states we do business in accounted for the other 3.9% of our premiums. As a result, a single catastrophe, destructive weather pattern, wildfire, terrorist attack, regulatory development or other condition or general economic trend affecting this region or significant portions of this region could adversely affect NLASCO's financial condition and results of operations more significantly than other insurance companies that conduct business across a broader geographic area. Although NLASCO purchases catastrophe reinsurance to limit its exposure to these types of catastrophes, in the event of one or more major catastrophes resulting in losses to it in excess of $200 million, NLASCO's losses would exceed the limits of its reinsurance coverage.

NLASCO is exposed to claims related to severe weather and the occurrence of severe weather may result in an increase in claims frequency and exposure amount and could materially adversely affect its financial condition.

NLASCO is subject to claims arising out of severe weather, such as hurricanes, tornados, rainstorms, snowstorms, hailstorms, windstorms and ice storms that may have a significant effect on its financial condition and results of operations. The majority of its business is written in Texas, Arizona and Oklahoma, which have experienced extreme drought conditions, making the risk of loss from wildfires more prevalent. The incidence and severity of weather conditions are inherently unpredictable.

Some forecasters predict that the world is currently in a cycle of more numerous and more severe hurricanes.

NLASCO's insured risks generally exhibit higher losses in the second and third quarters of the year due to a seasonal concentration of weather-related events in its primary geographic markets. Although weather-related losses (including hail, high winds, tornadoes and hurricanes) can occur in any calendar quarter, the second quarter historically has experienced the highest frequency of losses associated with these events. For example, for the last five years, the contribution of weather-related catastrophes to the consolidated second quarter net loss ratio was on average approximately four points greater than the average contribution of such catastrophes in the other three quarters. However, hurricanes are more likely to occur in the third quarter.

NLASCO incurred $6.0 million (including loss adjustment expenses) in catastrophic related losses for the year ended December 31, 2007. For the year ended December 31, 2007, NLASCO's net catastrophic loss experience was $5.1 million after reinsurance. Most of the expense in 2007 relates to claims being paid or reserved on Hurricane Rita due to lawsuits filed in 2007. For Hurricane Rita, all related reinsurance treaties are exhausted and we will not recoup any additional reinsurance on those paid claims. NLASCO incurred $6.0 million (including loss adjustment expenses) in catastrophe related losses for the year ended December 31, 2006. For the year ended December 31, 2006, NLASCO's net catastrophe loss experience was $4.5 million after reinsurance. In addition, NLASCO is exposed to an increase in claims frequency and exposure amount under the homeowners and dwelling fire insurance it writes because property damage may result from severe weather conditions.

Due to the inherent inability to accurately predict the severity and frequency of catastrophe losses, higher than expected catastrophe losses could materially adversely affect NLASCO's financial condition.

NLASCO utilizes catastrophe modeling to assess its probable maximum insurance losses from hurricane and other wind/hail perils and to structure its catastrophe reinsurance program to minimize its exposure to high severity/high frequency types of losses. Hurricane Katrina highlighted the challenges inherent in predicting the impact of catastrophic events, such as a severe hurricane. The catastrophe models generally failed to adequately project the financial impact of Hurricane Katrina. This experience highlights the limitations inherent in the use of modeling as a means of risk assessment/abatement. If the exposure amount and frequency of catastrophe losses are higher than predicted under NLASCO's modeling, NLASCO's financial condition may be materially adversely affected.

If NLASCO cannot price its business accurately, its profitability and the profitability of its insurance companies could be materially adversely affected.

NLASCO's results of operations and financial condition depend on its ability to underwrite and set premium rates accurately for a wide variety of risks. Adequate rates are necessary to generate premiums sufficient to pay losses, loss adjustment expenses and underwriting expenses and to earn a profit. To price its products accurately, NLASCO must (1) collect and properly analyze a substantial amount of data, (2) develop, test and apply appropriate pricing techniques, (3) closely monitor and recognize changes in trends in a timely manner and (4) project both severity and frequency of losses with reasonable accuracy. NLASCO's ability to undertake these efforts successfully and price its products accurately is subject to a number of risks and uncertainties, some of which are outside its control, including:

- the availability of sufficient reliable data and NLASCO's ability to properly analyze available data;
- changes in applicable legal liability standards and in the civil litigation system generally;
- NLASCO's selection and application of appropriate pricing techniques;

NLASCO's ability to obtain regulatory approval, where necessary;

the uncertainties that inherently characterize estimates and assumptions; and

NLASCO's ability to obtain adequate premium rates to offset higher reinsurance costs.

Consequently, NLASCO could under-price risks, which would adversely affect its profit margins, or it could overprice risks, which could reduce its competitiveness and sales volume. In either case, its profitability and the profitability of its insurance companies could be materially adversely affected.

If NLASCO's actual losses and loss adjustment expenses exceed its loss and expense estimates, its financial condition and results of operations could be materially adversely affected.

NLASCO's financial condition and results of operations depend upon its ability to assess accurately the potential losses associated with the risks that it insures. NLASCO establishes reserve liabilities to cover the payment of all losses and loss adjustment expenses incurred under the policies that it writes. These liability estimates include case estimates, which are established for specific claims that have been reported to NLASCO, and liabilities for claims that have been incurred but not reported, or IBNR. Loss adjustment expenses represent expenses incurred to investigate and settle claims. To the extent that losses and loss adjustment expenses exceed estimates, NLIC and ASIC will be required to increase their reserve liabilities and reduce their income before income taxes in the period in which the deficiency is identified. In addition, increasing reserves causes a reduction in policyholders' surplus and could cause a downgrade in the ratings of NLIC and ASIC. This in turn could hurt the ability to sell insurance policies.

The liability estimation process for NLASCO's casualty insurance coverage possesses characteristics that make case and IBNR reserving inherently less susceptible to accurate actuarial estimation than is the case with property coverage's. Unlike property losses, casualty losses are claims made by third parties of which the policyholder may not be aware and therefore may be reported a significant time after the occurrence, sometimes years later. As casualty claims most often involve claims of bodily injury, assessment of the proper case estimates is a far more subjective process than claims involving property damage. In addition, in determining the case estimate for a casualty claim, information develops slowly over the life of the claim and can subject the case estimation to substantial modification well after the claim was first reported. Numerous factors impact the casualty case reserving process, such as venue, the amount of monetary damage, legislative activity, the permanence of the injury and the age of the claimant.

The effects of inflation could cause the severity of claims from catastrophes or other events to rise in the future. Increases in the values and geographic concentrations of policyholder property and the effects of inflation have resulted in increased severity of industry losses in recent years, and NLASCO expects that these factors will increase the severity of losses in the future. As NLASCO observed in 2005, the severity of some catastrophic weather events, including the scope and extent of damage and the inability to gain access to damaged properties, and the ensuing shortages of labor and materials and resulting demand surge, provide additional challenges to estimating ultimate losses. NLASCO's liabilities for losses and loss adjustment expenses include assumptions about future payments for settlement of claims and claims handling expenses, such as medical treatments and litigation costs. To the extent inflation causes these costs to increase above liabilities established for these costs, NLASCO expects to be required to increase its liabilities with a corresponding reduction in its net income in the period in which the deficiency is identified.

Estimating an appropriate level of liabilities for losses and loss adjustment expenses is an inherently uncertain process. Accordingly, actual loss and loss adjustment expenses paid will likely deviate, perhaps substantially, from the liability estimates reflected in NLASCO's consolidated and combined financial statements. Claims could exceed NLASCO's estimate for liabilities for losses and

loss adjustment expenses, which could have a material adverse effect on its financial condition and results of operations.

If NLASCO cannot obtain adequate reinsurance protection for the risks it underwrites, NLASCO may be exposed to greater losses from these risks or may reduce the amount of business it underwrites, which may materially adversely affect its financial condition and results of operations.

NLASCO uses reinsurance to protect itself from certain risks and to share certain risks it underwrites. During 2007, NLASCO's personal lines ceded 11% of its direct premiums written (primarily through excess of loss, quota share and catastrophe reinsurance treaties) and its commercial lines ceded 11% of its direct premiums written (primarily through excess of loss and catastrophe reinsurance treaties). The total cost of reinsurance, inclusive of per risk excess and catastrophe, decreased 2% in 2007 due to no major catastrophes occurring in 2006. This includes additional catastrophe limits purchased. Reinsurance cost will likely increase, in part due to the frequency and severity of hurricanes and/or the lack of capacity in the reinsurance market.

From time to time, market conditions have limited, and in some cases have prevented, insurers from obtaining the types and amounts of reinsurance that they have considered adequate for their business needs. Accordingly, NLASCO may not be able to obtain desired amounts of reinsurance. Even if NLASCO is able to obtain adequate reinsurance, it may not be able to obtain it from entities with satisfactory creditworthiness or negotiate terms that it deems appropriate or acceptable. Although the cost of reinsurance is, in some cases, reflected in NLASCO's premium rates, NLASCO may have guaranteed certain premium rates to its policyholders. Under these circumstances, if the cost of reinsurance were to increase with respect to policies for which NLASCO guaranteed the rates, NLASCO would be adversely affected. In addition, if NLASCO cannot obtain adequate reinsurance protection for the risks it underwrites, it may be exposed to greater losses from these risks or it may be forced to reduce the amount of business that it underwrites for such risks, which will reduce NLASCO's revenue and may have a material adverse effect on its results of operations and financial condition.

NLASCO could face unanticipated losses from war, terrorism and political unrest, and these or other unanticipated losses could have a material adverse effect on NLASCO's financial condition and results of operations.

Although NLASCO believes that it does not have exposure to the events of September 11, 2001 because it did not have insurance in-force at that time with respect to exposure to such events, NLASCO has exposure to unexpected losses resulting from future man-made catastrophic events, such as acts of terrorism and political instability. These risks are inherently unpredictable. It is difficult to predict the timing of such events with statistical certainty or to estimate the amount of loss that any given occurrence will generate. In certain instances, NLASCO specifically insures risks resulting from acts of terrorism. Even in cases where NLASCO attempts to exclude losses from terrorism and certain other similar risks from some coverage's it writes, NLASCO may be prohibited from, or may not be successful in, doing so. Irrespective of the clarity and inclusiveness of policy language, a court or arbitration panel may limit enforceability of policy language or otherwise issue a ruling adverse to NLASCO. Accordingly, while NLASCO believes its reinsurance programs, together with the coverage provided under the Terrorism Act, the Terrorism Extension Act, and the Reauthorization Act, are sufficient to reasonably limit its net losses relating to potential future terrorist attacks, its reserves may not be adequate to cover losses when they materialize. Under the Terrorism Act, after an act of terrorism is certified by the Secretary of the Treasury, NLASCO may be entitled to be reimbursed by the Federal government for a percentage of subject losses, after an insurer deductible and subject to an annual cap. The Terrorism Act covers an insurance company's operations for up to 85% of its losses for 2007 and thereafter, in each case subject to certain mandatory deductibles. The deductible is calculated by applying the deductible percentage to the insurer's direct earned premiums for covered lines from

the calendar year immediately prior to the applicable year. Although the Terrorism Act, the Terrorism Extension Act, and the Reauthorization Act provide benefits in the event of certain acts of terrorism for losses in 2005 though 2014, such Acts may not be extended beyond 2014 or their benefits may be reduced. It is not possible to eliminate completely NLASCO's exposure to unforecasted or unpredictable events, and to the extent that losses from such risks occur, NLASCO's financial condition and results of operations could be materially adversely affected.

If NLASCO's reinsurers do not pay losses in a timely fashion, or at all, NLASCO may incur substantial losses that could materially adversely affect its financial condition and results of operations.

As of December 31, 2007, NLASCO had $2.7 million in reinsurance recoverables, including ceded paid loss recoverables, ceded losses and loss adjustment expense recoverables and ceded unearned premiums. NLASCO expects to continue to purchase substantial reinsurance coverage in the foreseeable future. Since NLASCO remains primarily liable to its policyholders for the payment of their claims, regardless of the reinsurance it has purchased relating to those claims, in the event that one of its reinsurers becomes insolvent or otherwise refuses to reimburse NLASCO for losses paid, or delays in reimbursing NLASCO for losses paid, its liability for these claims could materially and adversely affect its financial condition and results of operations. As an example, if one of NLASCO's catastrophe reinsurers experienced financial difficulties following one of the major hurricanes in 2005 and had been unable to meet its obligations to NLASCO, NLASCO could have experienced difficulty meeting its obligations to its policyholders.

NLASCO relies on independent insurance agents to distribute its products, and if the agents do not promote NLASCO's products successfully, NLASCO's results of operations and financial condition could be adversely affected.

NLASCO's business depends, in large part, on the efforts of independent insurance agents to market its insurance products and on its ability to offer insurance products and services that meet the requirements of the customers. While NLASCO strives to offer products its agents require, NLASCO competes for business with other carriers based on the scope of coverage provided in its products, services, commissions and rates. NLASCO's competitors may offer coverage that is more attractive to particular customers than it offers for a specific product, may price their insurance products more aggressively, may offer higher agent commissions and may devote additional resources to improve their services. Accordingly, NLASCO's agents may find it easier to promote the programs of NLASCO's competitors rather than NLASCO's. If NLASCO's agents fail or choose not to market its insurance products successfully, its growth may be limited and its financial condition and results of operations may be adversely affected. Additionally, rather than utilizing an independent agent to buy their insurance, consumers may elect to deal with direct-writers or mass marketers who utilize the Internet to advertise and/or underwrite their business. Industry developments that centralize and commoditize insurance products could be detrimental to NLASCO's agency distribution model of doing business.

Because NLASCO relies on managing general agents, referred to as MGAs, to underwrite some of its products and to administer claims, such managing general agents could expose NLASCO to liability or allocate business away from NLASCO, which could cause NLASCO's financial condition and results of operations to be adversely affected.

NLASCO has developed programs with MGAs, whereby the MGA will, within the guidelines established by NLASCO, underwrite insurance policies on NLASCO's insurance subsidiaries' behalf with oversight by NLASCO. An MGA is a person, firm or corporation that has supervisory responsibility for the local agency and field operations of an insurer in the state where it is organized or that is authorized by an insurer to accept or process on the insurer's behalf insurance policies produced and sold by other agents. While NLASCO exercises care in the selection of its MGA relationships and regularly audits the performance of its MGAs, NLASCO is at risk for their conduct as a result of the authority it has delegated to them. If one of NLASCO's MGAs binds NLASCO's

insurance subsidiaries to policies that expose it to unexpected losses or fails to appropriately report claims, NLASCO's financial condition and results of operations could be adversely affected. For example, if a terminated MGA fails to continue to appropriately report claims during the runoff period, then liabilities for losses and loss adjusted expenses could be deficient, which would impact NLASCO's results of operations in future periods. Furthermore, subject to contractual limitations, MGAs have the ability to change carriers or increase or decrease the allocation to a particular carrier. An MGA might choose to change carriers or allocations for reasons such as pricing, service, conditions in the reinsurance market or a change in ownership of an MGA.

A decline in NLIC's and/or ASIC's financial strength ratings by A.M. Best could cause either of their sales or earnings, or both, to decrease.

Ratings have become an increasingly important factor in establishing the competitive position of insurance companies. A.M. Best maintains a letter scale rating system ranging from "A++ (Superior)" to "F (In Liquidation)" to rate the financial strength of insurance enterprises. NLIC has been rated "A (Excellent)" by A.M. Best, which is the third highest of fifteen rating levels. ASIC has been rated "A- (Excellent)" by A.M. Best, which is the fourth highest.

Each of NLIC's and ASIC's financial strength ratings is subject to periodic review by, and may remain the same, be revised downward, upward or revoked at the sole discretion of, A.M. Best. A decline in either NLIC's or ASIC's rating or an announced negative outlook on the rating can cause concern about their viability among agents, brokers and policyholders, resulting in a movement of business away from NLASCO and its insurance company subsidiaries to more highly-rated carriers. In addition, the errors and omissions insurance coverage of many of NLASCO's independent agents does not provide coverage if the covered agents sell policies from insurers with an A.M. Best financial strength rating of "B+ (Very Good)" or below. As a result, the loss of NLIC's or ASIC's A.M. Best financial strength rating, or a reduction to "B+ (Very Good)" or worse, may adversely impact NLASCO's ability to retain or expand its policyholder base. Periodically, A.M. Best changes its rating methodology and practices. Such changes could result in a reduction of NLIC's or ASIC's A.M. Best rating.

A decline in NLASCO's ratings, coupled with a change of control, could result in a default under one of its debt agreements.

NLASCO is a party to an indenture under which an aggregate of $20 million in notes are outstanding, which provides that (i) if a person or group becomes the beneficial owner, directly or indirectly, of 50% or more of its equity securities and (ii) if NLASCO's ratings are downgraded by a nationally recognized statistical rating organization (as defined in the Securities Exchange Act of 1934), then each holder of the notes governed by such indenture has the right to require that NLASCO purchase such holder's notes in whole or in part at a price equal to 107.5% of the outstanding principal amount prior to March 10, 2010, or 100.0% thereafter. A change of control under the indenture occurred as a result of the acquisition of NLASCO by Hilltop. As a result, if a downgrading occurs following the acquisition, the note holders under the indenture would have the right to require NLASCO to repurchase its notes. This required repayment risk could cause liquidity issues to both NLASCO and Hilltop, could impair NLASCO's ability to obtain additional financing and would likely increase the cost of any financing that it does obtain.

The failure of any of the loss limitation methods NLASCO employs could have a material adverse effect on its financial condition and results of operations.

At the present time, NLASCO employs a variety of endorsements to its policies that limits its exposure to known risks, such as exclusions for mold losses and water damage. NLASCO's policies are also not designed to provide coverage for claims related to exposure to potentially harmful products or substances, including among others, lead paint and silica. NLASCO's homeowners' policies, other than

policies specifically written for flood coverage, specifically exclude coverage for losses caused by flood, but generally provide coverage for damage caused by wind. In addition, NLASCO's policies contain conditions requiring the prompt reporting of claims and its right to decline coverage due to late claim reporting. NLASCO's policies also include limitations restricting the period during which a policyholder may bring a breach of contract or other claim against it, which in many cases is shorter than the applicable statutory limitations for such claims. It is possible that a court or regulatory authority could nullify or void exclusion or legislation could be enacted modifying or barring the use of endorsements and limitations in a way that would adversely affect NLASCO's loss experience, which could have a material adverse effect on its financial condition and results of operations.

The effects of emerging claim and coverage issues on NLASCO's business are uncertain.

As industry practices and legal, judicial, social and other environmental conditions change, unexpected and unintended issues related to claims and coverage may emerge. These issues may adversely affect NLASCO's business by either extending coverage beyond its underwriting intent or by increasing the number or size of claims. In some instances, these changes may not become apparent until long after NLASCO has issued insurance policies that are affected by the changes. As a result, the full extent of liability under NLASCO's insurance policies may not be known until after a contract is issued. Changes in other legal theories of liability under NLASCO's insurance policies or the failure of any loss limitation it applies could also adversely impact NLASCO's financial condition and results of operations.

Because NLASCO's main source of premiums written is in Texas, unfavorable changes in the economic and/or regulatory environment in that state may have a material adverse effect on its financial condition and results of operations.

Texas accounted for approximately 74% and 72% of NLASCO's direct premiums written in 2007 and 2006, respectively. The loss of a significant amount of NLASCO's premiums written in Texas, whether due to an economic downturn, competitive changes, regulatory or legislative developments or other reasons, could have a material adverse effect on its financial condition and results of operations.

If NLASCO is unsuccessful in competing against other competitors in the insurance industry, its financial condition and results of operations could be adversely affected.

The insurance industry is highly competitive and has historically been characterized by periods of significant price competition, alternating with periods of greater pricing discipline during which competitors focus on other factors. In the current market environment, competition in NLASCO's industry is based primarily on the following:

- products offered;
- service;
- experience;
- the strength of agent and policyholder relationships;
- reputation;
- speed and accuracy of claims payment;
- perceived financial strength;
- ratings;
- scope of business;

35

- commissions paid; and
- policy and contract terms and conditions.

NLASCO competes with many other insurers, including large national companies who have greater financial, marketing and management resources than NLASCO. Many of these competitors also have better ratings and market recognition than NLASCO. NLASCO seeks to distinguish itself from its competitors by providing a broad product line and targeting those market segments that provide the best opportunity to earn an underwriting profit.

NLASCO also faces competition from entities that self-insure, primarily in the commercial insurance market. From time to time, established and potential customers may examine the benefits and risks of self-insurance and other alternatives to traditional insurance.

In addition, a number of new, proposed or potential industry developments could also increase competition in NLASCO's industry. These developments include, but are not necessarily limited to, changes in practices and other effects caused by the Internet (including direct marketing campaigns by NLASCO's competitors in established and new geographic markets), which have led to greater competition in the insurance business and increased expectations for customer service. These developments could prevent NLASCO from expanding its book of business.

NLASCO also faces competition from new entrants into the insurance market. New entrants do not have historic claims or losses to address and, therefore, may be able to price policies on a basis that is not favorable to NLASCO. New competition could reduce the demand for NLASCO's insurance products, which could have a material adverse effect on its financial condition and results of operations.

NLASCO's investment performance may suffer as a result of adverse capital market developments or other factors, which may affect its financial results and ability to conduct business.

NLASCO invests the premiums it receives from policyholders until they are needed to pay policyholder claims or other expenses. As of December 31, 2007, NLASCO's invested assets consisted of $138.7 million in fixed maturity securities and $9.4 million in equity securities. For the year ended December 31, 2007, NLASCO had $8.1 million of net investment income, representing 7% of NLASCO's total revenues and 37% of its income before taxes. Although NLASCO's investment policies stress diversification of risks, conservation of principal and liquidity, its investments are subject to a variety of investment risks, including those relating to general economic conditions, market volatility, interest rate fluctuations, liquidity risk and credit and default risk. In particular, the volatility of NLASCO's claims may force it to liquidate securities, which may cause it to incur capital losses. If NLASCO's investment portfolio is not appropriately matched with its insurance liabilities, it may be forced to liquidate investments prior to maturity at a significant loss to cover these liabilities. Investment losses could significantly decrease its asset base and statutory surplus, thereby adversely affecting its ability to conduct business and potentially its A.M. Best financial strength rating. Further, developments in the world's financial and capital markets, including federal and state legislation related to terrorism insurance and reinsurance, such as the extension of or replacement for the Terrorism Risk Insurance Program Reauthorization Act of 2007, could adversely affect the performance of NLASCO's investments. Additionally, inflation could increase beyond investment income.

NLASCO holds $12.8 million (or 8.7%) of its investment portfolio in mortgage backed securities. These securities have all been issued by either the Federal Home Loan Mortgage Corporation or the Federal National Mortgage Association and, as of this report have not been adversely affected by the sub-prime financing market declines.

NLASCO's investment results may be adversely affected by interest rate changes.

NLASCO's operating results are affected, in part, by the performance of its investment portfolio. NLASCO's investment portfolio contains instruments, such as bonds, that may be adversely affected by

increases in interest rates. Because bond trading prices decrease as interest rates rise, a significant increase in interest rates could have a material adverse effect on NLASCO's financial condition and results of operations. On the other hand, decreases in interest rates could have an adverse effect on NLASCO's investment income and results of operations. For example, if interest rates decline, investment of new premiums received and funds reinvested will earn less. Interest rates are highly sensitive to many factors, including governmental monetary policies, domestic and international economic and political conditions and other factors beyond NLASCO's control.

As of December 31, 2007, mortgage-backed and asset-backed securities constituted 6.7% of NLASCO's cash and invested assets. As with other fixed-income investments, the fair market value of these securities fluctuates depending on market and other general economic conditions and the interest rate environment. Changes in interest rates can expose NLASCO to prepayment risks on these investments. When interest rates fall, mortgage-backed securities typically are prepaid more quickly and the holder must reinvest the proceeds at lower interest rates. NLASCO's mortgage-backed securities currently consist of securities with features that reduce the risk of prepayment, but NLASCO can make no assurances that it will invest in other mortgage-backed securities that contain this protection. In periods of increasing interest rates, mortgage-backed securities typically are prepaid more slowly, which may require NLASCO to receive interest payments that are below the then prevailing interest rates for longer time periods than expected.

The debt agreements of NLASCO and its controlled affiliates contain financial covenants and impose restrictions on its business.

NLASCO's loan agreement governing its note due October 2008, with an outstanding principal balance of approximately $4.0 million at December 31, 2007, contains restrictions on its ability to, among other things:

- create liens;
- sell assets;
- incur additional indebtedness;
- declare or pay dividends;
- consolidate or merge;
- engage in certain businesses;
- make certain loans, advances or investments;
- compensate its owners and executives; and
- enter into transactions with affiliates.

NLASCO's indenture governing its LIBOR plus 3.40% notes due 2035 contains restrictions on its ability to, among other things, declare and pay dividends and merge or consolidate. In addition, this indenture contains a change of control provision, which provides that (i) if a person or group becomes the beneficial owner directly or indirectly of 50% or more of NLASCO's equity securities and (ii) if NLASCO's ratings are downgraded by a nationally recognized statistical rating organization (as defined in the Exchange Act), then each holder of the notes governed by such indenture has the right to require that NLASCO purchase such holder's notes, in whole or in part, at a price equal to 107.5% of the outstanding principal amount at any time prior to March 10, 2010, and at 100% of the outstanding principal amount thereafter.

NLIC's surplus indentures governing its LIBOR plus 4.10% notes due 2033 and ASIC's surplus indenture governing its LIBOR plus 4.05% notes due 2034 contain restrictions on dividends and

mergers and consolidations. In addition, NLASCO has other credit arrangements with its affiliates and other third parties.

NLASCO's ability to comply with these covenants may be affected by events beyond its control, including prevailing economic, financial and industry conditions. The breach of any of these restrictions could result in a default under the loan agreements or indentures governing the notes or under its other debt agreements. An event of default under its debt agreements would permit some of its lenders to declare all amounts borrowed from them to be due and payable, together with accrued and unpaid interest. If NLASCO were unable to repay debt to its secured lenders, these lenders could proceed against the collateral securing that debt. In addition, acceleration of its other indebtedness may cause NLASCO to be unable to make interest payments on the notes.

Other agreements that NLASCO or its insurance company subsidiaries may enter into in the future may contain covenants imposing significant restrictions on their businesses that are similar to, or in addition to, the covenants under their existing agreements. These restrictions may affect NLASCO's ability to operate its business and may limit its ability to take advantage of potential business opportunities as they arise.

The regulatory system under which NLIC and ASIC operate, and potential changes to that system, could have a material adverse effect on their respective business activities.

NLIC and ASIC are subject to comprehensive regulation and supervision in those states in which they are domiciled and write insurance policies. Though NLIC and ASIC currently write most of their policies in Texas, Arizona, Tennessee, Oklahoma and Louisiana, NLIC is licensed in 18 states and ASIC is licensed in 27 states. Laws and regulations pertaining to NLIC and ASIC are generally administered by state insurance departments and relate to, among other things:

- standards of solvency, including risk-based capital measurements;
- restrictions on the nature, quality and concentration of investments;
- required methods of accounting;
- rate and policy form regulation and other market conduct; and
- potential assessments for the provision of funds necessary for covered claims under certain policies provided by impaired, insolvent or failed insurance companies.

These state insurance departments also conduct periodic examinations of insurance companies and require the filing of annual and other reports relating to financial condition, holding company issues and other matters. Current or future regulatory requirements may adversely affect or inhibit each of the insurance company's ability to achieve some or all of its business objectives.

NLIC and ASIC may not be able to obtain or maintain necessary licenses, permits, authorizations or accreditations in states where they are currently licensed or in new states they intend to enter, or they may be able to do so only at a significant cost. In addition, they may not be able to comply fully with, or obtain appropriate exemptions from, the wide variety of laws and regulations applicable to insurance companies and insurance holding companies, which could result in restrictions on their operating flexibility and could subject them to fines and other sanctions that may have a material adverse effect on their business.

Significant changes in the political and regulatory climate could result in changes in applicable laws and regulations and could make it more expensive and/or less profitable to manage their business. In recent years, the U.S. insurance regulatory framework has come under increased federal scrutiny, and some state legislators have considered or enacted laws that may alter or increase state regulation of insurance and reinsurance companies and holding companies. Moreover, the NAIC and state insurance regulators regularly reexamine existing laws and regulations and develop new laws. Changes in laws and

regulations or their interpretation could have a material adverse effect on the insurance companies' financial condition and results of operations.

The activities of the insurance companies' MGAs are subject to licensing requirements and regulation under the laws of the states in which they operate. The insurance companies' MGAs' businesses depend on the validity of, and continued good standing under, the licenses and approvals pursuant to which they operate, as well as compliance with pertinent laws and regulations.

Company licensing laws and regulations vary from jurisdiction to jurisdiction. In all jurisdictions, the applicable company licensing laws and regulations are subject to amendment or interpretation by regulatory authorities. Generally these authorities are vested with relatively broad discretion to grant, renew and revoke licenses and approvals for various reasons, including the violation of law and conviction of crimes. Other sanctions may include the suspension of individual employees, limitations on engaging in a particular business for specified periods of time, revocation of licenses, censures, redress to policyholders and fines. Although NLASCO and its insurance subsidiaries endeavor to follow practices based on good faith interpretations of laws and regulations, or those generally followed by the industry, these practices may prove to be different from those that the regulatory authorities require.

If the states in which NLIC and ASIC write insurance drastically increase the assessments that insurance companies are required to pay, their and NLASCO's financial condition and results of operations will suffer.

NLIC and ASIC are subject to a variety of taxes, fines, levies, license fees, tariffs and other assessments that may, from time to time, be material. These assessments are made by the states in which NLIC and ASIC operate and include participation in residual market or involuntary risk plans in various states that provide insurance coverage to individuals or entities that otherwise are unable to purchase such coverage from private insurers. Due to this participation, NLIC and ASIC may be exposed to material losses. They are also subject to assessments in the states in which they write insurance for various purposes, including the provision of funds necessary to fund the operations of various insurance guaranty associations, which pay covered claims under certain policies issued by impaired, insolvent or failed insurance companies. These assessments are generally set based on an insurer's percentage of the total premiums written in the relevant state within a particular line of business for the relevant time period. From 1999 to 2004, NLASCO's other assessments in any year did not exceed $1.0 million. For the year ended December 31, 2004, NLASCO paid no other assessments. For the years ended December 31, 2005 and 2006, NLASCO's other assessments were $10.4 million with $4.4 million paid in 2005 and $6.0 million paid in 2006, principally related to Hurricanes Katrina and Rita in Louisiana, Mississippi and Texas (see next paragraph), and additional or emergency hurricane-related assessments could follow. For the year ended December 31, 2006, NLASCO paid an assessment of $0.4 million to cover the claims of an impaired insurer in Texas. For the year ended December 31, 2007, NLASCO paid no assessments. As NLIC's and ASIC's total premiums written grow, NLASCO's share of any assessments may increase. However, NLASCO cannot predict with certainty the amount of future assessments, because such assessments depend on factors outside NLASCO's control, such as the insolvencies of other insurance companies, the market shares of other insurance companies writing in a particular state and the degree to which other companies write in coastal areas.

NLASCO is subject to assessments from the Georgia Underwriting Association, Louisiana Citizens Property Insurance Corporation, or LCPIC, Mississippi Windstorm Underwriting Association, or MWUA, the Texas FAIR Plan Association and the Texas Windstorm Insurance Association, or TWIA.

LCPIC, MWUA and TWIA have estimated plan losses due to losses incurred from the hurricanes that struck Louisiana and Texas in the third quarter of 2005, and are thereby able to levy regular and emergency assessments to participating companies and policyholders, respectively. During the years ended December 31, 2006 and 2007, NLASCO's insurance company subsidiaries paid no assessments based on estimated losses and NLASCO's market shares in Louisiana, Mississippi and Texas. Additional

assessments may follow. NLASCO does not expect such assessments to have a net financial statement impact, as all such assessments are recoverable (subject to treaty limits) under its reinsurance treaties. Further, NLASCO may be able to recoup a regular assessment through a surcharge to policyholders. Such recoupments will be refunded to reinsurers as the related premiums are written and collected. NLASCO is required to collect emergency assessments directly from residential property policyholders and remit them to LCPIC as they are collected.

NLASCO continues to monitor developments with respect to various state facilities, such as the Georgia Underwriting Association, LCPIC, MWUA, the Texas FAIR Plan Association and the TWIA. The ultimate impact of Hurricanes Katrina and Rita on these facilities is currently uncertain, but could result in the facilities recognizing a financial deficit different than the level currently estimated. They may, in turn, have the ability to assess participating insurers when financial deficits occur. However, NLASCO will not incur any net expense or loss from any such assessments due to reinsurance recoveries.

NLASCO may be subject to high retaliatory taxes in several states as a result of its multistate operations, which could have a material adverse impact on its financial condition and results of operations.

Nearly all states impose a retaliatory tax on insurers operating in their state that are domiciled in another state. Retaliatory taxes are based on the principle that if the aggregate taxes, fees and obligations imposed by an insurer's domiciliary state are greater than the aggregate taxes, fees and obligations imposed by the taxing state, then the difference is payable to the taxing state as a retaliatory tax. For example, the State of Texas imposes various premium-based taxes that, in the aggregate, total approximately 2.0% of gross written premiums in Texas. The State of Illinois imposes various premium-based taxes that, in the aggregate, total approximately 0.5% of gross written premiums in Illinois. The Illinois retaliatory tax provisions would require a Texas-domiciled insurer operating in Illinois to pay the 0.5% aggregate Illinois taxes plus a 1.5% incremental amount, which represents the difference between the Texas effective rate and the Illinois effective rate. Thus, a Texas-domiciled insurer would pay a 2.0% effective tax in Illinois, while an Illinois-domiciled insurer would only pay a 0.5% effective tax. Insurance companies with multistate operations, like NLASCO, may find themselves subject to high retaliatory taxes in several states, which could have a material adverse impact on NLASCO's financial condition and results of operations.

NLASCO's ability to meet ongoing cash requirements and pay dividends may be limited by its holding company structure and regulatory constraints.

NLASCO operates as a holding company. Dividends and other permitted payments from its operating subsidiaries are expected to be its primary source of funds to meet ongoing cash requirements, including any future debt service payments and other expenses, and to pay dividends, if any, to HTH. NLIC and ASIC are subject to significant regulatory restrictions and limitations under debt agreements limiting their ability to declare and pay dividends, which could in turn limit NLASCO's ability to meet its ongoing cash requirements, including any future debt service payments and other expenses, or to pay dividends.

Current legal and regulatory activities, investigations, litigation proceedings or other activities relating to the insurance industry, including investigations into contingent commission arrangements and insurance quotes regarding NLIC and ASIC, could affect NLASCO's business, financial condition and results of operations.

Recently, the insurance industry has experienced substantial share price volatility as a result of current litigation, investigations and regulatory activity by various insurance, governmental and enforcement authorities concerning certain practices within the insurance industry. These practices include the payment of contingent commissions by insurance companies to insurance brokers and agents and the extent to which such compensation has been disclosed and the solicitation and provision

of fictitious inflated or mischaracterized quotes for insurance coverages. NLASCO paid less than 25% of its 2007 gross written premiums to its independent agents pursuant to contingent commission contracts.

NLASCO is unable to predict the potential effects, if any, that these investigations may have upon these arrangements in particular or upon the insurance markets and industry business practices in general or what, if any, changes may be made to laws and regulations regarding the industry and financial reporting. Any of the foregoing could materially and adversely affect its business, financial condition and results of operations.

NLIC and ASIC are subject to periodic financial and market conduct examinations by state insurance departments. If these examinations identify significant findings or recommend significant changes to its operations, either insurance company could lose its licenses and/or its financial condition and results of operations could be affected.

The insurance departments in every state in which NLASCO's insurance companies do business may conduct on-site visits and examinations of its insurance companies at any time and generally for any purpose, including review of NLASCO's insurance companies' financial condition, market conduct and relationships and transactions with affiliates. In addition, the Texas Department of Insurance will conduct comprehensive examinations of NLASCO's insurance companies every three to five years. NLIC's last regulatory exam was a full scope financial examination by the Texas Department of Insurance covering the period from January 1, 1997 through December 31, 2001, including material transactions and/or events occurring after December 31, 2001. ASIC's last regulatory exam was a full scope financial examination by the Texas Department of Insurance covering the period from January 1, 2001 through December 31, 2003, including certain material transactions and/or events occurring after December 31, 2003. Neither examination resulted in any significant regulatory compliance issues being raised by the Texas Department of Insurance.

The Texas Department of Insurance is currently conducting an examination of NLIC from January 31, 2002 through December 31, 2006, and ASIC from January 1, 2004 through December 31, 2006. As of the date of this Annual Report on Form 10-K, we have received no information of any significant compliance issues.

The March 26, 2002 Market Conduct Examination Report for ASIC issued by Arizona's Department of Insurance contained a recommendation that the Arizona Director of Insurance determine if cause existed to take disciplinary action against ASIC for various apparent law violations cited in the report. Subsequent to the issuance of the report, ASIC entered into a voluntary Consent Order with the Arizona Department of Insurance pursuant to which ASIC agreed to undertake various remedial actions in respect of the apparent law violations cited in the report. ASIC made reports to the Arizona Department required by the Consent Order, and the Arizona Department of Insurance has advised that, while compliance with the Consent Order is subject to further verification upon future examination, the Arizona Department of Insurance is satisfied that ASIC has completed the remedial requirements of the Consent Order. While there were no material adverse findings or recommended changes to NLASCO's or its insurance company subsidiaries' operations identified in the recently completed financial examinations conducted by the departments of insurance of other states, there can be no assurance that there will not be adverse findings or recommended changes identified by these or other state insurance departments in the future. In addition, significant adverse findings could lead to a revocation of NLASCO's or its insurance company subsidiaries' licenses. Any adverse findings or recommended changes resulting from such financial examinations, or from any future examinations, could have a material adverse effect on NLASCO's or its insurance company subsidiaries' financial condition and results of operations.

NLASCO relies on its information technology and telecommunications systems, and the failure or disruption of these systems could disrupt its operations and adversely affect its results of operations.

NLASCO's business is highly dependent upon the successful and uninterrupted functioning of its information technology and telecommunications systems. NLASCO relies on these systems to process new and renewal business, issue policies, provide customer service, make claims payments and facilitate collections and cancellations, as well as to perform actuarial and other analytical functions necessary for pricing and product development. NLASCO's systems could fail of their own accord or could be disrupted by factors such as natural disasters, power disruptions or surges, failure of third party systems or support, computer hackers, terrorist attacks or other factors beyond its control. Failure or disruption of these systems, or the back-up systems, for any reason could disrupt its operations and adversely affect its results of operations.

Failures in NLASCO's electronic underwriting system could adversely affect its financial condition and results of operations.

NLASCO's Internet-based Policy Agency Claim System, or PACS, was primarily developed in-house. PACS is fully integrated and is able to process quotes, policy issuance, billings, payments and claims. The system is designed for ease of use by agents and employees. PACS is an integral part of NLASCO's success, and the growth of its business is highly dependent upon it. Almost all applications are submitted online. Problems or errors of which NLASCO is not currently aware may have occurred in connection with the installation, upgrading or maintenance of this system or any of its other systems or may result from a major physical disaster or other calamity that causes damage to NLASCO's systems generally. A loss of PACS or any of NLASCO's other systems for a sustained period of time could have an adverse impact on its financial condition and results of operations.

Failure to develop an adequate knowledge transfer or a succession plan for NLASCO's information technology personnel could adversely affect its financial condition and results of operations.

The success of PACS and NLASCO's other systems depend heavily on the incumbent information technology team that developed the system. A loss of key members of this team without adequate knowledge transfer or a succession plan could disrupt NLASCO's operations and adversely affect its results of operations.

Claims by third parties that NLASCO infringes their proprietary technology could adversely affect NLASCO's financial condition and results of operations.

If NLASCO discovers that any of its products or technology that it licenses from third parties violates third party proprietary rights, NLASCO may not be able to reengineer its products or obtain a license on commercially reasonable terms to continue using the products or technology without substantial reengineering, or to otherwise modify programs. In addition, product and technology development is inherently uncertain in a rapidly evolving technology environment in which there may be numerous patent applications pending for similar technologies, many of which are confidential when filed. In addition, much of the software used by NLASCO may be used subject to a licensing agreement, and NLASCO's failure to comply with the terms for usage under any such licensing agreement could subject it to claims which could adversely impact its business. Although NLASCO sometimes may be indemnified by third parties against claims that licensed third party technology infringes proprietary rights of others, this indemnity may be limited, unavailable or, where the third party lacks sufficient assets or insurance, ineffective. NLASCO currently does not have liability insurance to protect against the risk that its technology or future licensed third party technology infringes the proprietary rights of others. Any claim of infringement, even if invalid, could cause NLASCO to incur substantial costs defending against the claim and could distract its management from the business. Furthermore, a party making such a claim could secure a judgment that requires NLASCO to pay substantial damages. A judgment could also include an injunction or other court order

that could prevent NLASCO from using the products and technologies. Any of these events could have a material adverse effect on NLASCO's business, operating results and financial condition.

Acquisitions could result in operating difficulties, dilution and other harmful consequences.

From time to time, NLASCO may engage in discussions regarding potential acquisitions, including potential acquisitions that could be material to its financial condition and results of operations. NLASCO may acquire whole businesses or books of business that fit its underwriting competencies from insurance companies, MGAs and other agents. In addition, NLASCO may expand its business, product offerings and policyholder base by acquiring businesses in areas in which NLASCO has limited operating experience. The process of integrating an acquired company or book of business may create unforeseen operating difficulties and expenditures. In particular:

- NLASCO has achieved its prior success by applying a disciplined approach to underwriting and pricing in select markets that are not well served by its competitors. NLASCO may not be able to successfully implement its underwriting, claims management, pricing and product strategies in companies or books of business it acquires;

- NLASCO may not be able to retain the agents associated with acquired businesses and, as a result, fail to realize the anticipated potential benefits of the acquisition;

- NLASCO could be required to implement or remediate controls, procedures and policies for an acquired privately-held company that prior to acquisition may not have been required;

- An acquisition could present cultural challenges associated with integrating employees from the acquired company into the organization, which could result in a loss of employees from the businesses NLASCO acquires and other adverse consequences;

- NLASCO's management may have to divert its time and energy from operating the business to integration challenges;

- NLASCO could have no prior experience operating the type of business that it acquires, which could create difficulties and result in NLASCO failing to realize many of the anticipated potential benefits of the acquisition; and

- An acquisition could dilute NLASCO's book value per share or after-tax return on average equity.

The anticipated benefits of any acquisition may not materialize. Future acquisitions could result in the incurrence of debt or an assumption of inadequate liabilities for losses and loss adjusted expenses or claims management structures, any of which could harm NLASCO's financial condition. Future acquisitions may require NLASCO to obtain additional equity or debt financing, which may not be available on favorable terms or at all.

Risks Related to Ownership of the Senior Exchangeable Notes, or the Notes

The Notes are effectively subordinated to our existing and future secured indebtedness.

The Notes are unsecured and rank equally with our operating partnership's existing and future unsecured senior debt. The notes are effectively subordinated to all of our operating partnership's secured debt and to all other debt of Hilltop and its other, direct and indirect, subsidiaries, since the Notes are not guaranteed by Hilltop or its other, direct and indirect, subsidiaries. At December 31, 2007, Hilltop and its consolidated subsidiaries, other than the operating partnership, had approximately $51.5 million of debt, all of which is effectively senior to the notes. At December 31, 2007, the operating partnership did not have any indebtedness for borrowed money, except for the Notes. In the event of a bankruptcy, liquidation or dissolution, the assets that serve as collateral for any secured

indebtedness and the assets of Hilltop and its subsidiaries, other than the operating partnership, will be available to satisfy the obligations of that indebtedness before any payments are made on the Notes.

There are no restrictive covenants in the indenture relating to our ability to incur future indebtedness or complete other financing transactions.

The indenture governing the Notes does not contain any financial or operating covenants or restrictions on the payment of dividends, the incurrence of indebtedness, transactions with affiliates, incurrence of liens or the issuance or repurchase of securities by us or any of our subsidiaries. Therefore, we may incur additional indebtedness, including secured indebtedness that would be effectively senior to the Notes to the extent of the value of the assets securing such indebtedness, or indebtedness at the subsidiary level to which the Notes would be structurally subordinated. We cannot assure that we will be able to generate sufficient cash flow to pay the interest on our indebtedness, including the Notes, or that future working capital, borrowings or equity financing will be available to pay or refinance any such indebtedness.

An adverse rating of the Notes may cause their trading price to fall.

If rating agencies reduce, or indicate that they may reduce, their ratings in the future, the trading price of the Notes could significantly decline. If we elect to satisfy our exchange obligation to holders by paying the cash value of our common stock into which the Notes are exchangeable or by a combination of cash and shares of our common stock, upon exchange of all or a portion of their Notes, holders may not receive any shares of our common stock, or they might receive fewer shares of our common stock relative to the exchange value of the Notes. In addition, there will be a significant delay in settlement, and because the amount of cash and/or common stock that a holder will receive in these circumstances will be based on the sales price of our common stock for an extended period between the exchange date and settlement date, holders will bear the market risk with respect to the market price of the common stock for such extended period. Finally, our liquidity may be reduced to the extent that we choose to deliver cash rather than shares of common stock upon exchange of the Notes.

The failure of our results to meet the estimates of market analysis could adversely affect the trading price of the Notes and our common stock.

We have not in the past provided, and do not intend in the future to provide estimates of our future financial performance to the investor markets. Certain analysts, however, provide their own estimates of our future financial performance based on their review of our public financial information. In the past, our actual results have been below the expectations of such analysts. In the event our results continue to be less than analyst estimates, the trading price of our common stock could be adversely affected, which could, in turn, adversely affect the trading price of the Notes.

Risks Related to the Securities Markets and Ownership of Our Common Stock

The transfer of our securities is restricted through the inclusion of transfer restrictions in our charter.

In order to reduce the risk of an ownership change in the future, our stockholders approved an amendment to our charter to restrict certain acquisitions of our securities in order to preserve the benefit of our NOLs. The charter amendment generally prohibits any direct or indirect sale, transfer, assignment, conveyance, pledge or other disposition of our shares of stock or warrants, rights or options to purchase our stock or any other interests that would be treated as our stock under the income tax regulations promulgated under the Internal Revenue Code of 1986, as amended, if as a result of such sale, transfer, assignment, conveyance, pledge or other disposition any person or group would beneficially own five percent or more of the market value of the total outstanding shares of our common stock or the percentage of our common stock owned by a five percent or greater stockholder would be increased. Beneficial ownership is determined utilizing Treasury Regulation Section 1.382-2T(g). The transfer restrictions were implemented in January 2007, and we expect that

the restrictions will remain in force as long as the NOLs are available. We cannot assure you, however, that these restrictions will prevent an ownership change. If any of our stockholders increase their beneficial ownership percentage in our common stock through future acquisitions, there is an increased possibility that the provisions under the charter amendment may be triggered. Any attempted transfer of shares in violation of the charter prohibitions will be void, and the intended transferee will not acquire any right in those shares. We have the right to take any lawful action that we believe is necessary or advisable to ensure compliance with these ownership and transfer restrictions and to preserve our NOLs, including refusing to recognize any transfer of stock in violation of our charter. These ownership and transfer restrictions of our charter may have the effect of discouraging or preventing a third party from attempting to gain control of us without the approval of our board of directors. Accordingly, it is less likely that a change in control, even if beneficial to stockholders, could be effected without the approval of our board of directors.

Applicable insurance laws may make it difficult to effect a change of control of Hilltop.

NLIC and ASIC are domiciled in Texas. Before a person can acquire control of an insurance company domiciled in Texas, prior written approval must be obtained from the Texas Department of Insurance. Acquisition of control would be presumed on the acquisition, directly or indirectly, of 10% or more of Hilltop's outstanding voting stock, unless the regulators determine otherwise. Prior to granting approval of an application to acquire control of a domestic insurer, the Texas Department of Insurance will consider factors such as:

- the financial strength of the acquirer;
- the integrity and management experience of the acquirer's board of directors and executive officers;
- the acquirer's plans for the management of the insurer;
- the acquirer's plans to declare dividends, sell assets or incur debt;
- the acquirer's plans for the future operations of the domestic insurer;
- the impact of the acquisition on continued licensure of the domestic insurer;
- the impact on the interests of Texas policyholders; and
- any anti-competitive results that may arise from the consummation of the acquisition of control.

These laws may discourage potential acquisition proposals of Hilltop and may delay, deter or prevent a change of control of Hilltop, including transactions that some or all of our stockholders might consider desirable.

Additional issuances of equity securities and exchange of the Notes for our common stock will dilute the ownership interest of our existing stockholders, including former Note holders who had previously exchanged their Notes for common stock.

The exchange of some or all of the Notes will dilute the ownership interests of our existing stockholders, including former Note holders who had previously exchanged their Notes for common stock. Any sales in the public market of our common stock to be issued upon such exchange could adversely affect prevailing trading price of our common stock. In addition, the existence of the Notes may encourage short selling by market participants because the exchange of the Notes could depress the price of our common stock. We may issue equity in the future in connection with strategic transactions, including acquisitions, to adjust our ratio of debt-to-equity, including through repayment of outstanding debt, to fund expansion of our operations, upon exchange of the Notes, or for other purposes. To the extent we issue additional equity securities, the percentage ownership into which the Notes would exchange could be reduced.

Our common stock price may experience substantial volatility, which may affect your ability, following any exchange, to sell our common stock at an advantageous price and could impact the market price, if any, of the Notes.

Price volatility of our common stock may affect your ability to sell our common stock at an advantageous price. In addition, this may result in greater volatility in the market price, if any, of the Notes than would be expected for non-exchangeable debt securities. Market price fluctuations in our common stock may be due to acquisitions, dispositions or other material public announcements, including those regarding dividends or changes in management, along with a variety of additional factors including, without limitation, other risks identified in "Risk Factors" and "Forward-looking Statements." In addition, the stock markets in general, including the NYSE, recently have experienced extreme price and trading fluctuations. These fluctuations have resulted in volatility in the market prices of securities that often have been unrelated or disproportionate to changes in operating performance. These broad market fluctuations may adversely affect the market price of our common stock, and the market price of the Notes.

Our rights and the rights of our stockholders to take action against our directors and officers are limited.

We are organized under Maryland law, which provides that a director or officer has no liability in that capacity if he or she performs his or her duties in good faith, in a manner he or she reasonably believes to be in our best interests and with the care that an ordinarily prudent person in a like position would use under similar circumstances. In addition, our charter eliminates our directors' and officers' liability to us and our stockholders for money damages except for liability resulting from actual receipt of an improper benefit in money, property or services or active and deliberate dishonesty established by a final judgment and which is material to the cause of action. Our bylaws require us to indemnify our directors and officers for liability resulting from actions taken by them in those capacities to the maximum extent permitted by Maryland law. As a result, we and our stockholders may have more limited rights against our directors and officers than might otherwise exist under common law. In addition, we may be obligated to fund the defense costs incurred by our directors and officers.

Consequently, all of the forward-looking statements made in this report are qualified by these cautionary statements and there can be no assurance that the actual results or developments anticipated by us will be realized, or even substantially realized, and that they will have the expected consequences to, or effects on, us and our business or operations. Forward-looking statements made in this report speak as of the date hereof or as of the date specifically referenced in any such statement set forth herein. We undertake no obligation to update or revise any forward-looking statements in this report.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 3. LEGAL PROCEEDINGS

We are a party to various legal actions resulting from our operating activities. These actions consist of litigation and administrative proceedings arising in the ordinary course of business, some of which are covered by liability insurance, and none of which is expected to have a material adverse effect on our consolidated financial condition, results of operations or cash flows taken as a whole.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not applicable.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our common stock is listed on the New York Stock Exchange under the symbol "HTH". Our common stock has no public trading history prior to February 12, 2004. The initial public offering price of our common stock on February 12, 2004 was $19.00 per share. Our common stock closed at $10.48 on March 12, 2008. As of March 12, 2008, there were 56,444,059 shares of our common stock outstanding with approximately 224 stockholders of record.

Our Series A Cumulative Redeemable Preferred Stock is listed on the New York Stock Exchange under the symbol "HTH-PA". Our Series A preferred stock has no public trading history prior to February 12, 2004. Our Series A preferred stock closed at $24.85 on March 13, 2008. At our IPO, the Company issued 5,000,000 shares of Series A preferred stock at an initial public offering price of $25.00 per share. The Series A Preferred Stock has no stated par value and a liquidation preference of $25.00 per share, plus all accumulated, accrued and unpaid dividends.

As of March 12, 2008, there were 5,000,000 shares of our Series A preferred stock outstanding with approximately 9 stockholders of record.

We have not paid, and do not intend to pay in the foreseeable future, cash dividends on our common stock. Any declaration of dividends on our common stock will be at the discretion of our Board of Directors and will depend on the earnings, financial condition, capital requirements, contractual restrictions with respect to payment of dividends and other factors. The payment of dividends from our insurance subsidiaries is subject to significant regulatory restrictions and limitations under debt agreements limiting their ability to declare and pay dividends. *See* Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources Restrictions on Dividends and Distributions."

The following table sets forth the cash dividends declared and paid in 2007 and 2006 with respect to our Series A Preferred Stock:

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Series A Preferred Stock				
2007				
Date of declaration	March 14, 2007	April 26, 2007	September 17, 2007	December 13, 2007
Date of record	April 13, 2007	July 13, 2007	October 15, 2007	January 15, 2008
Date paid	April 30, 2007	July 30, 2007	October 30, 2007	January 30, 2008
Distribution per share	$0.5156	$0.5156	$0.5156	$0.5156
Total dollars (in thousands)	$ 2,578	$ 2,578	$ 2,578	$ 2,579
2006				
Date of declaration	March 2, 2006	June 8, 2006	September 20, 2006	December 14, 2006
Date of record	April 14, 2006	July 14, 2006	October 13, 2006	January 15, 2007
Date paid	April 28, 2006	July 28, 2006	October 30, 2006	January 31, 2007
Distribution per share	$0.5156	$0.5156	$0.5156	$0.5156
Total dollars (in thousands)	$ 2,578	$ 2,578	$ 2,578	$ 2,579

As of December 31, 2007, we had accrued $1.7 million of the preferred stock dividend, representing the portion of the dividend earned by preferred shareholders but unpaid through that date.

The following table discloses the high and low stock prices per quarter for our common and preferred stock during 2007 and 2006:

	Common Stock		Series A Preferred Stock	
December 31, 2007	**High**	**Low**	**High**	**Low**
First Quarter	$ 13.28	$ 10.46	$ 25.85	$ 23.70
Second Quarter	$ 13.07	$ 11.00	$ 25.70	$ 23.88
Third Quarter	$ 12.13	$ 10.79	$ 24.85	$ 19.75
Fourth Quarter	$ 12.25	$ 10.40	$ 23.00	$ 20.90
December 31, 2006	**High**	**Low**	**High**	**Low**
First Quarter	$ 10.78	$ 8.83	$ 22.00	$ 18.95
Second Quarter	$ 11.16	$ 8.90	$ 22.85	$ 21.53
Third Quarter	$ 11.09	$ 9.25	$ 24.24	$ 23.05
Fourth Quarter	$ 11.95	$ 9.44	$ 25.40	$ 22.78

As of December 31, 2007, we had approximately 937,440 warrants outstanding with an exercise price of approximately $15.60 per share. In addition, as of December 31, 2007, we had issued and outstanding 1,135,775 shares and options under our 2003 Equity Incentive Plan, with approximately 856,612 additional shares authorized for issuance.

Please see the table setting forth the securities authorized for issuance under our equity compensation plan in "Item 12 Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters Equity Compensation Plan Information."

ITEM 6. SELECTED FINANCIAL AND OPERATING DATA

Our historical consolidated balance sheet data as of December 31, 2007 and 2006 and our consolidated statement of operations data for the years ended December 31, 2007, 2006 and 2005 have been derived from our audited historical financial statements included elsewhere in this Form 10-K. The following table shows our selected historical financial data for the periods indicated (in thousands, except per share data). You should read our selected historical financial data, together with the notes thereto, in conjunction with the more detailed information contained in our financial statements and related notes and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in this Form 10-K.

	Year Ended December 31,				
	2007	2006	2005	2004	2003
Income Statement Data:					
Direct premium written	$ 122,708	$	$	$	$

(1) All years have been adjusted to reflect the disposal of our manufactured home community properties and related business, except for NLASCO.

(2) Commencing with the third quarter 2005, we suspended declaration of dividends on our common stock. We have, however, continued to pay the full accrued dividends on our outstanding preferred stock.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the consolidated historical financial statements and notes appearing elsewhere in this Form 10-K and the financial information set forth in the tables below. All dollar amounts in the following discussion are in thousands except per share amounts.

Unless the context otherwise indicates, all references in this Management's Discussion and Analysis and Financial Condition and Results of Operations, or MD&A, to the "Company," "Hilltop," "HTH," "we," "us," "our" or "ours" or similar words are to Hilltop Holdings Inc.(formerly known as Affordable Residential Communities Inc.) and its direct and indirect wholly-owned subsidiaries.

OUR GENERAL STRUCTURE

At December 31, 2007, HTH is a holding company that owns all of the outstanding shares of NLASCO, Inc, or NLASCO. NLASCO, in turn owns National Lloyds Insurance Company, or NLIC and American Summit Insurance Company, or ASIC, both of which are licensed property and casualty insurers operating in multiple states. In addition, NLASCO also owns the Nalico GA general agency that operates in Texas. NLIC commenced business in 1949 and currently operates in 15 states, with its largest market being the state of Texas. NLIC carries a financial strength rating of "A" (Excellent) by A.M. Best. ASIC was formed in 1955 and currently operates in 13 states, its largest market being the state of Arizona. ASIC carries a financial strength rating of "A-"(Excellent) by A.M. Best. Both of these companies are regulated by the Texas Department of Insurance.

Beginning in 1995, we were founded as several companies under the name "Affordable Residential Communities" or "ARC", now known as Hilltop Holdings Inc. or "HTH," for the purpose of engaging in the business of acquiring, renovating, repositioning and operating manufactured home communities, as well as certain related businesses. In 1998 we formed a Maryland corporation for the purpose of acting as the investment vehicle for, and a co-general partner of, our operating partnership, Affordable Residential Communities LP. In May 2002, we completed a reorganization in which we acquired substantially all the other real property partnerships and other related businesses we had previously organized and operated.

Through the year ended December 31, 2005, we were organized as a fully integrated, self-administered and self-managed equity real estate investment trust, or REIT for U. S. Federal income tax purposes. In 2006, we revoked our election as a REIT for U.S. Federal income tax purposes.

In January 2007, we acquired NLASCO. NLASCO was incorporated in Delaware in 2000 but its origins trace back to 1948 through one of its subsidiaries, NLIC. In 1964, C. Clifton Robinson, who is currently the Chairman of NLASCO and a member of our Board of Directors, along with other investors, purchased NLIC and moved its headquarters from San Antonio, Texas to Waco, Texas. Following various acquisitions and dispositions of equity in NLIC by Mr. Robinson and others, including the re-acquisition of NLIC along with the acquisition of ASIC in 2000, Mr. Robinson held 100% of NLASCO and its subsidiaries, NLIC and ASIC, from 2001 until we acquired NLASCO in 2007.

On July 31, 2007, we sold substantially all of the operating assets used in our manufactured home communities business and our retail sales and financing business, or the Farallon Transaction. We received gross proceeds of approximately $890 million in cash, which represents the aggregate purchase price of $1.794 billion, less the indebtedness assumed by the buyer. After giving effect to expenses, taxes, and our continued outstanding preferred stock and senior notes, our net cash balance was approximately $550 million, subject to certain post-closing adjustments. We used a portion of the proceeds from the Farallon Transaction for general working capital, liquidation of our operating

partnership units, and to repay certain outstanding obligations. We intend to make opportunistic acquisitions with certain of the remaining proceeds from the Farallon Transaction, and, if necessary or appropriate, from additional equity or debt financing sources.

RECENT DEVELOPMENTS

During the reporting period, we granted stock options to two senior executive officers and cash settled SARs to a consultant

On October 25, 2007, the Compensation Committee of our Board of Directors approved the grant of an aggregate 100,000 non-qualified stock option awards to two senior executive officers of the Company pursuant to our 2003 Equity Incentive Plan at an exercise price of $12.06 per share, the closing price of HTH's common stock on the New York Stock Exchange on the date of grant. The options have a term of five years from the date of the award. Under the terms of the grants, 20% of the options vested on the grant date, and the balance of the options vest ratably over a four-year period with 20% of the award amount vesting on the first anniversary of the award and 20% each anniversary thereafter. Vesting is accelerated in certain circumstances, including in the event of the death of the award recipient or in the event of a change of control of the Company.

On December 12, 2007, the Compensation Committee of our Board of Directors approved the grant of 40,000 cash-settled stock appreciation rights, or SARs, to a related party consultant of the Company at an exercise price of $10.96 per share, the closing price of HTH's common stock on the New York Stock Exchange on the date of grant. Under the terms of the grant, 20% of the SARs vested on grant date, and the balance of the SARs vest ratably over a four-year period with 20% of the award amount vesting on the first anniversary of the award and 20% each anniversary thereafter. The SARs have a term of five years from the date of the award. Upon exercise, the consultant is entitled to receive in cash the difference between the current market price and the exercise price. Vesting is accelerated in certain circumstances, including in the event of the death of the award recipient or in the event of a change of control of the Company.

We had modifications to our loan agreements

On October 27, 2007, NLASCO renewed its line of credit with a financial institution. The line allows for borrowings by NLASCO up to $5 million and is secured by substantially all of NLASCO's assets. The line of credit bears interest equal to a base rate, less 0.5% (6.75% at December 31, 2007), which is due quarterly. This line of credit will expire in October 2008.

OVERVIEW OF RESULTS

For the year ended December 31, 2007, net income available to common stockholders was $282.9 million or $5.10 per share, as compared to a net loss of $27.7 million, or $0.63 per share, for the year ended December 31, 2006, and a net loss of $194.8 million or $4.50 per share, for the year ended December 31, 2005.

Our results for 2007 include gains on sales of discontinued operations of $366.9 million. This gain comes from the sale of substantially all of our assets used in the manufactured home communities business and its manufactured home retail sales and financing business. In 2007, we also incurred an $11.1 million loss from discontinued operations.

In addition, we have recast the operations of this line of business as discontinued operations in the accompanying consolidated statements of operations for the twelve months ended December 31, 2007, 2006, and 2005, and recorded gains of $366.9 million and $31.9 million for the years 2007 and 2006 respectively, and a loss of $0.7 million for 2005. During 2006, we sold discontinued operations assets for $85.4 million in cash, net of related debt, defeasance and other closing costs of $75.0 million. Our

results for 2006 include gains on sales of assets of discontinued operations of $31.9 million and a loss from discontinued operations of $36.3 million. In 2005, the Company recorded losses from discontinued operations of $180.0 million, including a goodwill impairment charge of $78.8 million, a write-down of discontinued assets for $32.1 million, and executive severance costs of $2.1 million.

Segments

On July 31, 2007, the Company sold the manufactured home communities, retail sales and financing of manufactured home businesses to American Residential Communities LLC and retained ownership of NLASCO. NLASCO operates through its wholly-owned subsidiaries, NLIC and ASIC. Given the homogeneity of our products, the regulatory environments in which we operate, the nature of our customers and our distribution channels, we now monitor, control and manage our business lines as an integrated entity offering fire and homeowners insurance to low value dwellings and manufactured homes primarily in Texas and other areas of the south, southeastern and southwestern United States. Accordingly, the segment information previously provided is no longer used to monitor us, as we only have insurance company segment information to disclose.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We have prepared our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, or GAAP, which require us to make certain estimates and assumptions that affect the recorded amount of assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results may differ from these estimates. We have provided a summary of our significant accounting policies in Note 1 to the accompanying consolidated financial statements as of and for the year ended December 31, 2007. We have summarized below those accounting policies that require our most difficult, subjective or complex judgments and that have the most significant impact on our financial condition and results of operations. Our management evaluates these estimates on an ongoing basis. These estimates are based on information currently available to management and on various other assumptions management believes are reasonable.

Discontinued Operations. In accordance with guidance provided by SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, or SFAS 144, we measure our assets of discontinued operations held for sale at the lower of its carrying amount or fair value, less cost to sell at the balance sheet date and re-cast any applicable balances and corresponding liabilities related to the discontinued operations in all comparable periods presented. Depreciation of the assets held for sale, if applicable, is suspended at the date of the determination of discontinuance. Interest and other expenses attributable to the liabilities of the assets of discontinued operations as held for sale continues to be accrued. The results of operations and cash flows of the assets sold and those classified as held for sale are reported as discontinued operations for all periods presented. We recognize any estimated losses on the sales of assets of discontinued operations in the period in which the operations are discontinued and recognize any resulting gains on the sales of assets when realized. A description of the facts and circumstances leading to the expected disposal, the expected manner and timing of that disposal, and, if not separately presented on the face of the balance sheet, the carrying amounts of the major classes of assets and liabilities included as part of the disposal group is disclosed in the notes to the financial statements. We disclose in the notes to our financial statements (and on the face of the income statement) the gain or loss recognized in accordance with SFAS 144 and, if applicable, the amounts of revenue and pretax profit or loss reported in discontinued operations.

Losses and Loss Adjustment Expenses. The liability for losses and loss adjustment expenses represents estimates of the ultimate unpaid cost of all losses incurred, including losses for claims that have not yet been reported. The amount of loss reserves for reported claims is based primarily on a case-by-case evaluation of the type of risk involved, knowledge of the circumstances surrounding each

claim and the insurance policy provisions relating to the type of loss. The amounts of loss reserves for unreported claims and loss adjustment expenses are determined using historical information by line of business as adjusted to current conditions. Inflation is ordinarily implicitly provided for in the reserving function through analysis of costs, trends, and reviews of historical reserving results over multiple years.

When a claim is reported, a "case reserve" is established for the estimated amount of the ultimate payment. This estimate reflects an informed judgment based upon general insurance reserving practices and the experience and knowledge of the Company. The estimate considers the nature and value of the specific claim, the severity of injury or damage, and the policy provisions relating to the type of loss. Case reserves are adjusted as more information becomes available.

We maintain incurred but not reported, IBNR, reserves to provide for already incurred claims that have not yet been reported and developments on reported claims. The IBNR reserve is estimated based on the volume of premiums written and is reviewed quarterly by third party actuaries.

These liabilities are necessarily based on estimates and, while management believes that the amount is adequate, the ultimate liability may be in excess of, or less than, the amounts provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed, and any adjustments are reflected in earnings currently. The liability for losses and loss adjustment expenses has not been reduced for reinsurance recoverables.

Investment Securities. At December 31, 2007, investment securities consist of U.S. Government, mortgage-backed, corporate debt and equity securities. We classify our fixed maturities in one of three categories: trading, available-for-sale or held-to-maturity. Our equity securities are classified as trading or available-for-sale. Trading securities are bought and held principally for the purpose of selling them in the near term. Held-to-maturity debt securities are those securities in which we have the ability, and intent, to hold the security until maturity. All securities not included in trading or held-to-maturity are classified as available-for-sale.

Trading and available-for-sale securities are recorded at fair value. Held-to-maturity debt securities are recorded at amortized cost, adjusted for the amortization or accretion of premiums or discounts. Unrealized holding gains and losses on trading securities are included in earnings. Unrealized holding gains and losses, net of the related tax effect, on available-for-sale securities are excluded from earnings and are reported as a separate component of other comprehensive income until realized. Realized gains and losses from the sale of trading and available-for-sale securities are determined on a specific-identification basis.

The Company regularly reviews its investment securities to assess whether the amortized cost is impaired and if impairment is other than temporary. A decline in the market value of any available-for-sale or held-to-maturity security below cost that is deemed to be other-than-temporary results in a reduction in carrying amount to fair value. The impairment is charged to earnings and a new cost basis for the security is established. To determine whether impairment is other-than-temporary, the Company considers whether it has the ability and intent to hold the investment until a market price recovery and considers whether evidence indicating the cost of the investment is recoverable outweighs evidence to the contrary. Evidence considered in this assessment includes the reasons for the impairment, the severity and duration of the impairment, changes in value subsequent to year-end, and forecasted performance of the investee.

Premiums and discounts are amortized or accreted over the life of the related held-to-maturity or available-for-sale security as an adjustment to yield using the effective-interest method. Dividend and interest income are recognized when earned.

Deferred Acquisition Costs. Costs of acquiring insurance vary with, and are primarily related to, the production of new and renewal business, primarily consisting of commissions, premium taxes and underwriting expenses, are deferred and amortized over the terms of the policies or reinsurance treaties

to which they relate. Proceeds from reinsurance transactions that represent recovery of acquisition costs reduce applicable unamortized acquisition costs in a manner that net acquisition costs are capitalized and charged to expense in proportion to net revenue recognized. Future investment income is considered in determining the recoverability of deferred acquisition costs. The Company regularly reviews the categories of acquisition costs that are deferred and assesses the recoverability of this asset. A premium deficiency, and a corresponding charge to income, is recognized if the sum of the expected loss and loss adjustment expenses, unamortized acquisition costs, and maintenance costs exceed related unearned premiums and anticipated investment income. At December 31, 2007, there was no premium deficiency.

Revenue Recognition. Property and liability premiums are recognized as revenue on a pro rata basis over the policy term. The portion of premiums that will be earned in the future are deferred and reported as unearned premiums. The Company routinely evaluates the premium receivable balance to determine if an allowance for uncollectible accounts is necessary. Other income consists of premium installment charges, which are recognized when earned, and other miscellaneous income.

Reinsurance. In the normal course of business, the Company seeks to reduce the loss that may arise from catastrophes or other events that cause unfavorable underwriting results by reinsuring certain levels of risk in various areas of exposure with other insurance enterprises or reinsurers. Net premiums earned, losses and LAE and policy acquisition and other underwriting expenses are reported net of the amounts related to reinsurance ceded to other companies. Amounts recoverable from reinsurers related the portions of the liability for losses and LAE are reported as assets. Amounts recoverable from reinsurers are estimated in a manner consistent with the reinsured policy.

The Company accounts for reinsurance contracts under the provisions of Statement of Financial Accounting Standards No. 113, "*Accounting and Reporting for Reinsurance on Short-Duration and Long-Duration Contracts,*" or SFAS 113. Net premiums earned, losses and LAE, and policy acquisition and other underwriting expenses are reported net of the amounts related to reinsurance ceded to other companies. Amounts recoverable from reinsurers related to the portions of the liability for losses and LAE and unearned premiums ceded to them are reported as assets. Reinsurance assumed from other companies, including assumed premiums written and earned and losses and LAE, is accounted for in the same manner as direct insurance written.

Income Taxes. In 2005 and prior years, we operated in a manner intended to enable us to qualify as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended. Under those sections, a REIT which distributes at least 90% of its REIT taxable income to its stockholders each year and which meets certain other conditions will not be taxed on that portion of its taxable income which it distributes to its stockholders. In 2006 we revoked our election as a REIT for U. S. Federal income tax purposes. We have been in a taxable loss position since our inception and as a result we have substantial net operating loss carry-forwards to offset taxable income and capital gains from the sale of discontinued assets. We have established a tax provision under the rules set forth in Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*, or SFAS 109, beginning on January 1, 2006. We allocate income taxes between continuing and discontinued operations in accordance with SFAS 109, specifically paragraph 140.

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recorded for the estimated future tax effects related to the temporary difference between the tax basis and book basis of assets and liabilities reported in the accompanying consolidated balance sheets. The provision for income tax expense or benefit differs from the amounts of income taxes currently payable because certain items of income and expense included in the consolidated financial statements are recognized in different time periods by taxing authorities.

Effective January 1, 2007, we adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, or FIN 48. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with SFAS 109, Accounting for Income Taxes. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 requires that we determine whether the benefits of our tax positions are more likely than not of being sustained upon audit based on the technical merits of the tax position. For tax positions that are more likely than not of being sustained upon audit, we recognize the largest amount of the benefit that is more likely than not of being sustained in our consolidated financial statements. For tax positions that are not more likely than not of being sustained upon audit, we do not recognize any portion of the benefits in our consolidated financial statements. The provisions of FIN 48 also provide guidance on derecognition, classification, interest and penalties, accounting in interim periods, and disclosure.

The cumulative effect of the adoption of the recognition and measurement provisions of FIN 48 resulted in no change to the January 1, 2007 balance of retained deficit. Our policy for interest and penalties related to income tax exposures is to recognize interest and penalties as incurred within the provision for income taxes in the consolidated statements of operations.

Deferred tax assets, including net operating loss and tax credit carry forwards, are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that any portion of these tax attributes will not be realized. At December 31, 2007 and 2006, a valuation allowance of $4.6 million and $84.4 million, respectively, was recorded to reduce deferred tax assets to the amount expected to be recoverable.

From time to time, management must assess the need to accrue or disclose a possible loss contingency for proposed adjustments from various Federal, state and foreign tax authorities that regularly audit the company in the normal course of business. In making these assessments, management must often analyze complex tax laws of multiple jurisdictions.

Goodwill and Other Indefinite Lived Intangible Assets. Goodwill for HTH represents the excess of the cost over the fair value of the assets of NLASCO. Goodwill is tested annually for impairment and is tested more frequently if events and circumstances indicate that the asset might be impaired. An impairment loss is recognized to the extent that the carrying amount exceeds the asset's fair value. For goodwill, the impairment determination is made at the reporting unit level and consists of two steps. First, the Company determines the fair value of a reporting unit and compares it to its carrying amount. Second, if the carrying amount of a reporting unit exceeds its fair value, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation, in accordance with FASB Statement No. 141, *Business Combinations*. The residual fair value after this allocation is the implied fair value of the reporting unit goodwill.

RESULTS OF OPERATIONS

Comparison of the Year Ended December 31, 2007 to the Year Ended December 31, 2006

Results of insurance operations. The following table shows the underwriting gain or loss as well as other revenue and expense items included in the financial results of NLASCO for the year ended December 31, 2007. NLASCO's underwriting gain or loss consists of net premiums earned less loss and LAE and policy acquisition and other underwriting expenses. NLASCO's underwriting performance is one of the most important factors in evaluating the overall results of operations given the fluctuations that can occur in loss and LAE due to weather related events as well as the uncertainties involved in

the process of estimating reserves for losses and LAE. The underwriting results and fluctuations in other revenue and expense items of NLASCO are discussed in greater detail below (in thousands).

	Year Ended December 31, 2007
Underwriting gain	
Homeowners	$ 5,680
Fire	4,993
Mobile Home	2,076
Commercial	868
Other	199
Total underwriting gain	$ 13,816
Other revenue (expense items)	
Net investment income	8,107
Net realized gains (losses) in investments	32
Other income	6,487
Depreciation and amortization	(2,069)
Interest expense	(4,655)
Total other revenue (expense) items	7,902
Operating income before federal income taxes	21,718
Federal income taxes on operating income	7,577
Net income from continuing operations of NLASCO	$ 14,141

Revenue. Revenue for the year ended December 31, 2007 was $131.3 million compared to $2.1 million from continuing operations in 2006. This increase is due to the purchase of NLASCO with revenues of $111.5 million and investment gains and income for the parent company of $17.1 million. The $131.3 million in revenue is comprised of net premiums earned of $96.8 million, net investment income of $24.8 million, net gains realized on investments of $3.2 million, and other income of $6.5 million. Revenues related to the manufactured housing business lines prior to the execution of the Farallon Transaction have been reclassified to discontinued operations and are presented net in the caption "Loss from discontinued operations."

Underwriting Results. The following table shows the components of NLASCO's underwriting gain for the year ended December 31, 2007. NLASCO's underwriting gain or loss consists of net premiums

earned less loss and LAE and policy acquisition and other underwriting expenses. The underwriting results are discussed below (in thousands).

		Year Ended December 31, 2007
Direct premiums written	$	122,708
Net premiums written	$	118,357
Net premiums earned	$	96,804
Loss and LAE		52,074
Policy acquisition and other underwriting expenses		30,914
Underwriting gain	$	13,816
Loss and LAE ratio		53.8%
Policy acquisition and other underwriting expense ratio		28.9%
Combined ratio		82.7%

NLASCO seeks to operate at a combined ratio of no greater than 85.0%. The loss ratio is the ratio that expresses the relationship of losses to premiums. Loss and LAE ratio is loss and LAE expenses divided by net premiums earned for the same period. Policy acquisition and other underwriting expense ratio is policy acquisition and other underwriting expense divided by net premiums earned for the same period. Combined ratio gives you the sum of both previous ratios.

The industry aggregate for combined ratio for 2006, was 92.5%, well above the combined ratio for NLIC of 78.9% for the same period. NLIC was rated #2 in National Underwriters Property and Casualty magazine 50 Profit Champions. NLIC six year average combined ratio was 80.7%, well below the industry six year average of 102.4%.

Premiums. The property and casualty insurance industry is affected by soft and hard market business cycles. During a soft market, price competition tends to increase as insurers are willing to reduce premium rates in order to maintain growth in premium volume. The soft market makes it more difficult to attract new business as well as retain exposures which are adequately priced. Although we recognize the need to remain competitive in the marketplace, the Company remains committed to its disciplined underwriting philosophy accepting only risks that are appropriately priced, while declining risks which are under priced for the level of coverage provided.

Direct premiums written by major product line for the year ended December 31, 2007 are presented in the table below (in thousands):

		Year Ended December 31, 2007
Direct Premiums Written:		
Homeowners	$	54,378
Fire		46,554
Mobile Home		15,714
Commercial		5,685
Other		377
	$	122,708

As compared to the historical operations of the NLASCO insurance entities prior to their acquisition by the Company, total direct premiums written decreased slightly for the year ended December 31, 2007 for all of the insurance products, due in part on management's decision not to

renew business in certain markets, as well as, the overall soft insurance market. The lower volume of policies written was partially offset by a slight increase in the average premium per policy written.

Net premiums written by major product line for the year ended December 31, 2007 are presented in the table below (in thousands):

		Year Ended December 31, 2007
Net Premiums Written		
Homeowners	$	52,456
Fire		44,897
Mobile Home		15,156
Commercial		5,484
Other		364
	$	118,357

Total net premiums written were down for the year ended December 31, 2007, as a direct result of the lower volume of direct written premiums.

Net premiums earned by major product line for the year ended December 31, 2007 are presented in the table below (in thousands):

		Year Ended December 31, 2007
Net Premiums Earned:		
Homeowners	$	42,746
Fire		36,900
Mobile Home		12,396
Commercial		4,470
Other		292
	$	96,804

Net premiums earned for the year ended December 31, 2007 were below prior years due to written premium decreases. The premium revenue is earned over the life of the policies, generally twelve months. On the date NLASCO was acquired by Hilltop, the unearned premium balance was adjusted to fair market value as required under GAAP.

Policy Acquisition and Other Underwriting Expenses. Policy acquisition and other underwriting expenses for the year ended December 31, 2007 were as follows (in thousands):

		Year Ended December 31, 2007
Amortization of deferred policy acquisition costs	$	14,762
Other underwriting expenses		16,152
Other income		(2,979)
Total policy acquisition and other underwriting expenses	$	27,935
Net premiums earned	$	96,804
Expense ratio		28.9%

Loss and Loss Adjustment Expenses. Loss and loss adjustment expenses are recognized based on formula and case basis estimates for losses reported in respect to direct business, estimates of

unreported losses based on past experience and deduction of amounts for reinsurance placed with reinsurers. Since NLASCO was acquired by HTH in January 2007, no loss and loss adjustment expenses were incurred by HTH in 2006. The loss and loss adjustment expense ratio for the year ended December 31, 2007 of 53.8% has been adjusted to remove the effect of losses attributable to the prior owner.

The Company's net loss and LAE and the gross loss and LAE ratios for the year ended December 31, 2007 are shown in the tables below (in thousands, except claim count figures):

	Year Ended December 31, 2007
Loss and LAE:	
Homeowners	$ 23,415
Fire	20,123
Mobile Home	6,361
Commercial	2,175
	$ 52,074
Incurred Claim Count:	
Homeowners	7,970
Fire	5,552
Mobile Home	2,270
Commercial	307
	16,099
Average Loss and LAE per Claim:	
Homeowners	$ 2,938
Fire	3,624
Mobile Home	2,802
Commercial	7,085
Loss and LAE Ratio:	
Homeowners	54.8%
Fire	54.5%
Mobile Home	51.3%
Commercial	48.7%

General and Administrative Expense. General and administrative expense for 2007 was $9.4 million as compared to $7.5 million for 2006, an increase of $1.9 million, or 26%. This increase is primarily due to $0.3 million in severance paid to a former executive, $0.8 million in stock options that vested upon the closing of the Farallon Transaction, and $0.7 million in bonuses paid in 2007.

Depreciation and Amortization Expense. Depreciation and amortization expense was $2.1 million in 2007. This expense was primarily caused by amortization of intangibles recorded as a result of the NLASCO acquisition. Depreciation and amortization for 2006 was reclassed to discontinued operations.

Interest Expense. Interest expense was $11.5 million for 2007, as compared to $7.4 million for 2006, an increase of $4.1 million, or 55%. The increase in interest expense is due to $51 million in debt acquired in the NLASCO purchase, partially offset by a $5.8 million reduction in HTH senior exchangeable notes. Included in interest expense was $0.2 million in loan origination fee amortization for each of the years 2007 and 2006.

Minority Interest. Losses allocated to minority interest for 2007 was $0.1 million as compared to $0.2 million for 2006. This reflects the improved results in 2007; however, minority interest only affected the first seven months of 2007, as all minority interest holders were eliminated on July 31, 2007.

Income Taxes. Income tax expense for 2007 related to operations was $10.6 million and we also incurred income tax expense of $77.7 million on the sale of our discontinued operations. The company had no aggregate income tax expense or benefit for the year ended December 31, 2006. We allocate income taxes between continuing and discontinued operations in accordance with Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*, or SFAS 109.

Discontinued Operations. On July 31, 2007, the Company sold certain of its assets, including the operating assets of the Company's manufactured home businesses, to American Residential Communities LLC, an affiliate of Farallon Capital Management, L.L.C., Helix Funds LLC and GEM Realty Capital, Inc. The Company received gross proceeds of $889.3 million in cash, which represents the amount of the excess of the purchase price of $1.794 billion over the indebtedness assumed by American Residential Communities LLC. The Company recorded a gain on the sale of the manufactured home business of $366.9 million in 2007. In July, when this transaction occurred, the Company accrued for expenses related to the sale. As of December, all expenses related to the sale have been paid and the accrual was reduced, resulting in an additional $2.6 million gain on sale in the fourth quarter of 2007.

In accordance with the provisions of Statement of Financial Accounting Standards No. 144, "*Accounting for the Impairment or Disposal of Long-lived Assets*," or SFAS 144 all of the operating assets of the Company's manufactured home line of business have been classified as discontinued operations and those not sold prior to December 31, 2006 have been classified as assets held for sale. We have included $1,509.6 million of assets related to this line of business as assets held for sale in the accompanying consolidated balance sheet as of December 31, 2006, and $992.7 million of accounts payable and other obligations related to this line of business as liabilities related to assets held for sale. In addition, we have recast the operations for these assets as discontinued operations in the accompanying consolidated statements of operations for the years ended December 31, 2007 and 2006.

Operations of the discontinued manufactured home line of business for the twelve months ended December 31, 2007 and 2006 recorded losses of $11.1 million and $36.3 million, respectively, and gains were recorded on the sale of discontinued operations of $366.9 million and $31.9 million for the years 2007 and 2006, respectively. The 2006 gain was produced from the sale of discontinued operations previously discontinued, which was sold for $85.4 million in cash net of related debt, defeasance and other closing costs of $75.0 million.

For discontinued operations, we considered a manufactured home community to be discontinued when: (i) management commits to a plan to sell the asset, supported by a Board resolution granting approval to proceed with the sale; (ii) the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets; (iii) an active program to locate a buyer and other actions required to complete the plan to sell the asset have been initiated; (iv) the sale of the asset is probable, and transfer of the asset is expected to qualify for recognition as a completed sale, within one year; (v) the asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value; and (vi) actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. In accordance with the guidance provided by SFAS 144 we measure each of our assets held for sale at the lower of its carrying amount or fair value, less cost to sell at the balance sheet date and re-cast any applicable balances and corresponding liabilities related to the asset identified in all comparable periods presented. Depreciation of the assets held for sale, if applicable, is suspended at the date of the determination of discontinuance. Interest and other expenses attributable to the liabilities of the asset classified as held for sale continues to be accrued. The results of operations and cash flows of the assets sold and those classified as held for sale are reported as discontinued operations for all periods presented. We recognize any estimated losses on the sales of assets in the period in which the properties are discontinued and recognize any resulting gains on the sales of assets when realized. A description of the facts and circumstances leading to the expected disposal, the expected manner and

timing of that disposal, and, if not separately presented on the face of the balance sheet, the carrying amounts of the major classes of assets and liabilities included as part of the disposal group is disclosed in the notes to the financial statements. We disclose in the notes to our financial statements (and on the face of the income statement) the gain or loss recognized in accordance with SFAS 144 and, if applicable, the amounts of revenue and pretax profit or loss reported in discontinued operations. If circumstances arise that previously were considered unlikely and, as a result, we decide not to sell assets previously classified as held for sale, the assets will be reclassified as held and used. An asset that is reclassified shall be measured at the lower of its (a) carrying amount before the asset was classified as held for sale, adjusted for any depreciation expense that would have been recognized had the asset been continuously classified as held and used, or (b) fair value at the date of the subsequent decision not to sell.

Preferred Stock Dividend. In each of the years ended December 31, 2007 and 2006, we recorded four quarterly preferred stock dividends declared at the annual rate of 8.25%, or $2.0625 per share on the 5.0 million shares of Series A Preferred Stock outstanding.

Net Income (Loss) Attributable to Common Stockholders. As a result of the foregoing, our net income attributable to common stockholders was $282.9 million for 2007, as compared to a net loss of $27.7 million for 2006, an increase of $310.6 million. The majority of this is due to the sale of the manufactured housing communities' line of business and its manufactured housing retail sales and finance line of business.

Comparison of the Year Ended December 31, 2006 to the Year Ended December 31, 2005

Interest Income. Interest earned on cash and cash equivalents, restricted cash and loan reserves was $2.1 million for the year ended December 31, 2006 and $2.3 million for the year ended December 31, 2005. The decrease primarily is due to higher average cash balances in 2005 that resulted from the issuance of the $96.6 million senior exchangeable notes in August 2005.

General and Administrative Expense. General and administrative expense for the year ended December 31, 2006, was $7.5 million, as compared to $11.0 million for the year ended December 31, 2005, a decrease of $3.5 million, or 32%. This decrease primarily was due to lower salaries and benefits of approximately $0.9 million from decreased staffing levels and lower professional fees $2.5 million.

Interest Expense. Interest expense for the year ended December 31, 2006 was $7.4 million, as compared to $2.8 million for the year ended December 31, 2005, an increase of $4.6 million. The increase is due to the $96.6 million senior notes issued on August 15, 2005 which were outstanding for the full year ended December 31, 2006. Included in interest expense was $0.2 million and $0.1 million in loan origination fee amortization for each of the years 2006 and 2005, respectively.

Income Taxes. The company had no aggregate income tax expense or benefit for the years ended December 31, 2006 and 2005. This is due to the reclassification as discontinued operations of substantially all of the company's operations for 2006 and 2005, and the company's status as a REIT for federal tax purposes in 2005. We allocate income taxes between continuing and discontinued operations in accordance with SFAS 109.

Minority Interest. Losses allocated to minority interest owners for the year ended December 31, 2006 was $0.2 million as compared to $0.5 million for the year ended December 31, 2005, a decrease of $0.3 million. The decrease primarily was due to a lower average minority interest ownership percentage.

Discontinued Operations. In accordance with the provisions of SFAS 144, all of the operating assets of the Company's manufactured home line of business have been classified as discontinued operations and those not sold prior to December 31, 2006 have been classified as assets held for sale. As a result of this action, we have recast the operations for these assets as discontinued operations in

the accompanying consolidated statements of operations for the years ended December 31, 2006 and 2005.

Operations of the discontinued manufactured home line of business for the twelve months ended December 31, 2006 and 2005 recorded losses of $36.3 million and $180.0 million, respectively, and a gain was recorded on the sale of discontinued operations of $31.9 million for 2006 and a loss of $0.7 million for 2005. On December 15, 2005, the Company held an auction in which it offered 71 communities for sale. The Company ultimately entered into contracts to sell 38 of these communities. In 2006, the Company entered into contracts to sell another three communities, bringing the total number of discontinued communities to 41. During 2006, the Company closed 40 of these community sales. The 2005 loss included a goodwill impairment charge of $78 million, interest charges of $72.5 million, a write-down of discontinued assets for $21.8 million, and executive severance costs of $2.1 million.

Preferred Stock Dividend. For both of the years ended December 31, 2006 and 2005, we have recorded four quarterly preferred stock dividends declared at the annual rate of 8.25%, or $2.0625 per share, on the 5.0 million shares of Series A Preferred Stock outstanding.

Net Loss Attributable to Common Stockholders. As a result of the foregoing, our net loss attributable to common stockholders was $27.7 million for the year ended December 31, 2006, as compared to $194.8 million for the year ended December 31, 2005, a reduction in net loss of $167.1 million. Our results for 2006 include gains on sales of discontinued operations of $31.9 million. Results for 2006 also include a total of $1.1 million of charges related to early termination of debt and a loss on the sale of an airplane. Our results for 2005 were impacted by the following charges totaling $108.8 million, net of minority interest: (i) goodwill impairment of $78.8 million; (ii) real estate and retail home asset impairment of $21.8 million; (iii) $10.3 million of impairment related to discontinued operations; and (iv) employee severance of $2.9 million related to the termination of executive officers.

LIQUIDITY AND CAPITAL RESOURCES

HTH is a holding company whose assets primarily consist of the stock of its subsidiaries and invested assets with a combined value of $1,085 million at December 31, 2007. HTH's primary investment objectives as a holding company are to preserve capital and have available cash resources to utilize in making opportunistic acquisitions, and, if necessary or appropriate, from additional equity or debt financing sources.

On July 31, 2007, we sold substantially all of our operating assets used in our manufactured home community business and our manufactured home retail sales and financing businesses in the Farallon Transaction. We received gross proceeds of $889.3 million in cash and the buyer also assumed all of our approximately $943 million in debt related to this line of business.

As of December 31, 2007, we had approximately $783.0 million in cash and cash equivalents, consisting of approximately $738.7 million owned by the parent company and $44.3 million owned by NLASCO and its subsidiaries. At December 31, 2007, we had total investments of approximately $191.0 million, consisting investments in available-for-sale equities of with a fair value of $43.0 million, and approximately $148.0 million in fixed maturities and equity securities owned by NLASCO and its subsidiaries. This is compared to $29.3 million of cash and cash equivalents from continuing operations at December 31, 2006.

As of December 31, 2007, we had approximately $142.4 million of debt, consisting of approximately $90.9 million of senior exchangeable notes and approximately $51.5 million of debt owed by NLASCO and its subsidiaries.

Our short-term liquidity needs as of December 31, 2007 include (a) funds for dividend payments on the $125 million Series A cumulative redeemable preferred stock bearing a dividend rate of 8.25%

per annum (approximately $10.3 million annually), (b) funds to pay claims of NLASCO and subsidiaries, (c) funds to service the $90.9 million of senior exchangeable notes, and (d) funds to service the debt owed by NLASCO and its subsidiaries.

Our insurance operating subsidiary, NLASCO, has primary investment objectives to preserve capital and manage for a total rate of return in excess of a specified benchmark portfolio. NLASCO's strategy is to purchase securities in sectors that represent the most attractive relative value. Bonds, cash and short-term investments constituted $183 million, or 95%, of NLASCO's $192.4 million in investments at December 31, 2007. NLASCO had $9.4 million, or 5% of its investments, in equity investments as of December 31, 2007. NLASCO has no investments in subprime mortgages. NLASCO has custodial agreements with A.G. Edwards and Wells Fargo Bank and an investment management agreement with Hyperion Brookfield Asset Management, Inc.

NLASCO liquidity requirements are met primarily by positive cash flow from operations and investment activity. Primary sources of cash from insurance operations are premiums and other considerations, net investment income and investment sales and maturities. Primary uses of cash include payments of claims, operating expenses and income taxes and purchases of investments. NLASCO's insurance subsidiaries have regulatory restrictions on the amount of dividends they can declare.

NLASCO's investment committee meets regularly to review the portfolio performance and investment markets in general. Our management generally meets monthly to review the performance of investments and monitor market conditions for investments that would warrant any revision to investment guidelines.

We believe that existing cash and investment balances, when combined with anticipated cash flows from operations and dividends from our insurance companies, will be adequate to meet our expected liquidity needs for the reasonably foreseeable future. We will continue to pursue and investigate possible strategic investments. In that regard, we may need to secure external financing. We cannot assure you that we will be successful in obtaining any such financing or in the implementation of our business plan. See "Item 1A. Risk Factors" starting on page 24.

Restrictions on Dividends and Distributions

Aside from investment income on our invested assets, as a holding company we rely on dividends and other permitted distributions from our subsidiaries. The payment of dividends from our insurance subsidiaries NLIC and ASIC are subject to significant regulatory restrictions and limitations under debt agreements limiting their ability to declare and pay dividends.

Under Texas State Insurance Law for property and casualty companies, all dividends must be distributed out of earned surplus only. Furthermore, without the prior approval of the Commissioner, dividends cannot be declared or distributed which exceed the greater of ten percent of the company's surplus, as shown by its last statement on file with the Commissioner, or one hundred percent of net income for such period. NLIC and ASIC did not pay any dividends to NLASCO during the eleven months ended December 31, 2007. At December 31, 2007, the maximum aggregate dividend that may be paid from NLIC and AISC to NLASCO in 2008 without regulatory approval is approximately $21.3 million.

Regulations of the Texas Department of Insurance require insurance companies to maintain minimum levels of statutory surplus to ensure their ability to meet their obligations to policyholders. At December 31, 2007, NLASCO's insurance subsidiaries had statutory surplus in excess of the minimum required.

Also, the National Association of Insurance Commissioners, or NAIC, has adopted risk-based capital, or RBC, requirements for insurance companies that establish minimum capital requirements

relating to insurance risk, credit risk, interest rate risk and business risk. The formula is used by the NAIC and certain state insurance regulators as an early warning tool to identify companies that require additional scrutiny or regulatory action. At December 31, 2007, the Company's insurance subsidiaries' RBC ratio exceeded the level at which regulatory action would be requirements.

We believe that restrictions on liquidity resulting from restrictions on the payments of dividends by our subsidiary companies will not have a material impact on our ability to carry out our normal business activities, including dividend payments on our Series A cumulative redeemable preferred stock and debt payments on our senior exchangeable notes.

CASH FLOWS

Comparison of the Year Ended December 31, 2007 to the Year Ended December 31, 2006

Cash used by operations was $46.9 million in 2007, as compared to $37.0 million provided by operations in 2006. Cash used in operations decreased primarily because of the sale of the manufactured housing business and subsequent reclass to discontinued operations, and the $69.6 million payment for taxes related to the gain in connection with the Farallon Transaction.

Cash provided by investing activities was $742.0 million and $135.5 million in 2007 and 2006, respectively. The increase in cash from investing activities primarily was due to proceeds from discontinued operations of $881.1 million, cash acquired in the NLASCO purchase of $45.5 million, proceeds of securities sold and matured of $50.1 million, partially offset by $115.4 million in cash used in the NLASCO acquisition and $117.8 million used to purchase securities. In 2006 we invested $1.7 million in the NLASCO acquisition and $137.2 million was generated from sales of discontinued assets.

Cash provided by financing activities was $58.6 million in 2007, compared with $171.2 million used by financing activities in 2006. The increase in cash from financing activities primarily was due the common stocks rights offering in 2007 of $80.0 million and the issuance of $20.0 million in common stock. This was partially offset by the $17.9 million paid to OP unit holders, the $10.3 million payment of preferred dividends, the $5.8 million reduction in debt, and $6.2 million used to pay debt related to discontinued operations. In 2006, we made debt payments related to discontinued operations of $159.4 million, and paid $10.3 million in preferred dividends.

Comparison of the Year Ended December 31, 2006 to the Year Ended December 31, 2005

Cash provided by operations was $37.0 million and $7.0 million in 2006 and 2005, respectively. In 2006 there was a $32.9 million gain on discontinued operations compared to a loss of $9.0 million in 2005.

Cash provided by investing activities in 2006 was $135.5 million, compared to $112.9 million used by investing activities in 2005. The increase in cash from investing activities in 2006 was due to proceeds from sales of discontinued assets of $137.2 million compared to purchases of assets related to discontinued operation of $112.9 million in 2005.

In 2006 $171.2 million was used by financing activities, compared with $101.0 million provided by financing activities in 2005. The decrease in cash from financing activities in 2006 was primarily due to repayment of $159.4 million in discontinued operations debt, compared to the 2005 proceeds from issuance of debt related to discontinued operations of $160.4 million. Cash proceeds from 2005 were partially reduced by payment of $35.1 million in dividends on common stock and OP units, the $10.3 million payment of preferred dividends, $8.9 million of cash spent to repurchase OP units and PPUs, and $3.7 million in cash used related to loan origination costs.

INFLATION

Inflation in the U.S. has been relatively low in recent years and did not have a material impact on our results of operations for the years ended December 31, 2007, 2006 and 2005. Although the impact of inflation has been relatively insignificant in recent years, it remains a factor in the U.S. economy and may increase the cost of labor and utilities.

COMMITMENTS

At December 31, 2007, we have $142.4 million of outstanding indebtedness. It consists of the following: $90.9 million, or 64%, of our total indebtedness is fixed rate and $51.5 million, or 36%, is variable rate. At December 31, 2007, we had the following indebtedness outstanding with the following repayment obligations (in thousands):

	Principal Commitments			Interest Commitments			Total Debt Commitments		
	Fixed	Variable	Total	Fixed	Variable(1)	Total	Fixed	Variable	Total
2008	$ 0	$ 4,018	$ 4,018	$ 6,814	$ 4,567	$ 11,381	$ 6,814	$ 8,585	$ 15,399
2009				6,814	4,341	11,155	6,814	4,341	11,155
2010				6,814	4,341	11,155	6,814	4,341	11,155
2011				6,814	4,341	11,155	6,814	4,341	11,155
2012				6,814	4,341	11,155	6,814	4,341	11,155
Thereafter	90,850	47,500	138,350	86,330	93,129	179,459	177,180	140,629	317,809
Commitments	$ 90,850	$ 51,518	$ 142,368	$ 120,400	$ 115,060	$ 235,460	$ 211,250	$ 166,578	$ 377,828

(1) For variable rate debt, interest commitments were calculated as expected interest payments based on the weighted average interest rate.

At December 31, 2007 the following table shows our outstanding commitments for leases (in thousands).

	Payments Due by Period		
Lease Obligations	Less than 1 year	1-3 years	Total
Total lease obligations	$ 578	$ 618	$ 1,196

NLASCO's loss reserves do not have contractual maturity dates. However, based on historical payment patterns, the following table estimates when management expects the loss reserves to be paid. The timing of payments is subject to significant uncertainty. NLASCO maintains a portfolio of investments with varying maturities to provide adequate cash flows for the payment of claims.

	Reserves in thousands
2008	$ 15,016
2009	1,990
2010	543
2011	180
2012	181
Thereafter	181
	$ 18,091

The following table sets forth certain information with respect to our indebtedness outstanding as of December 31, 2007 excluding indebtedness related to assets held for sale (in thousands):

	Year Ended December 31,	
	2007	2006
Senior exchangeable notes due 2025, 7.50% per annum	$ 90,850	$ 96,600
Insurance company line of credit due October 2008, base rate less 0.5% per annum (6.75% at December 31, 2007)	4,018	
NLIC note payable due May 2033, three-month LIBOR plus 4.10% (8.80% at December 31, 2007)	10,000	
NLIC note payable due September 2033, three-month LIBOR plus 4.05% (8.75% at December 31, 2007)	10,000	
ASIC note payable due April 2034, three-month LIBOR plus 4.05% (8.75% at December 31, 2007)	7,500	
Insurance company note payable due March 2035, three-month LIBOR plus 3.40% (8.10% at December 31, 2007)	20,000	
	$ 142,368	$ 96,600

RECENT ACCOUNTING PRONOUNCEMENTS

In September 2006, the FASB issued SFAS No.157, *Fair Value Measurement,* or SFAS 157, which addresses how companies should measure fair value when they are required to use a fair value measure for recognition or disclosure purposes under GAAP. SFAS 157 provides a common definition of fair value to be used throughout GAAP. The FASB believes that the new standard will make the measurement of fair value more consistent and comparable and improve disclosures about those measures. SFAS 157 is effective for companies with fiscal years beginning after November 15, 2007. We are currently evaluating the impact that SFAS 157 will have on our financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities including an amendment of FAS 115*, or SFAS 159. SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS 159 is expected to expand the use of fair value measurement, which is consistent our long-term measurement objectives of accounting for financial instruments. SFAS 159 is effective for companies with fiscal years beginning after November 15, 2007. We are currently evaluating the impact that SFAS 159 will have on our financial statements.

In December 2007, the FASB issued SFAS No. 141R, *Business Combinations*, or SFAS 141R. SFAS 141R broadens the guidance of SFAS 141, extending its applicability to all transactions and other events in which one entity obtains control over one or more other businesses. It broadens the fair value measurement and recognition of assets acquired, liabilities assumed, and interests transferred as a result of business combinations; and stipulates that acquisition related costs be expensed rather than included as part of the basis of the acquisition. SFAS 141R expands required disclosures to improve the ability to evaluate the nature and financial effects of business combinations. SFAS 141R is effective for all transactions entered into on or after January 1, 2009. We do not believe SFAS 141R will have a material impact on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements An Amendment of ARB No. 51,*or SFAS 160. SFAS 160 requires a noncontrolling interest in a subsidiary to be reported as equity and the amount of consolidated net income specifically

attributable to the Noncontrolling interest to be identified in the consolidated financial statements. SFAS 160 also calls for consistency in the manner of reporting changes in the parent's ownership interest and requires fair value measurement of any noncontrolling equity investment retained in a deconsolidation. SFAS 160 is effective on January 1, 2009. We do not believe SFAS 160 will have a material impact on our consolidated financial statements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our future income, cash flows and fair values relevant to financial instruments are dependent upon prevalent market interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates. We currently do not use derivative financial instruments to manage, or hedge, interest rate risks related to our borrowings. We do not use derivatives for trading or speculative purposes and only enter into contracts with major financial institutions based on their credit rating and other factors.

As of December 31, 2007 our total debt outstanding was $142.4 million, comprised of approximately $90.9 million of indebtedness subject to fixed interest rates. Approximately $51.5 million, or 36%, of our total consolidated debt is variable rate debt.

If LIBOR and the prime rate were to increase by one eighth of one percent (0.125%), the increase in interest expense on the variable rate debt would decrease future earnings and cash flows by approximately $64,000 annually.

Interest risk amounts were determined by considering the impact of hypothetical interest rates on our financial instruments. These analyses do not consider the effect of any change in overall economic activity that could occur in that environment. Further, in the event of a change of that magnitude, we may take actions to further mitigate our exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, these analyses assume no changes in our financial structure.

The fair value of debt outstanding as of December 31, 2007 was approximately $155.1 million.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Our financial statements required by this item are submitted as a separate section of this annual report on Form 10-K. See "Financial Statements," commencing on page F-1 hereof.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None

ITEM 9A. CONTROLS AND PROCEDURES

CONCLUSION REGARDING THE EFFECTIVENESS OF DISCLOSURE CONTROLS AND PROCEDURES

Our management, with the participation of our Chief Executive Officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and principal financial officer have concluded that, as of the end of such period, our disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports that we file or submits under the Exchange Act and are effective in ensuring that information required to be disclosed by us in the reports that we

file or submits under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, as a process designed by, or under the supervision of, our principal executive and principal financial officers and effected by our board of directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;

- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorization of our management and directors; and

- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2007. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control-Integrated Framework*. Based on our assessment, management concluded that, as of December 31, 2007, our internal control over financial reporting is effective.

The effectiveness of our internal control over financial reporting at December 31, 2007, has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm as stated in their report, which appears on Page F-2 of this Annual Report on Form 10-K.

CHANGES IN INTERNAL CONTROLS

There have not been any changes in our internal controls over financial reporting during the quarter ended December 31, 2007 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

ITEM 9B. OTHER INFORMATION

None

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

BOARD OF DIRECTORS

General

Our board of directors consists of eleven positions, with nine members presently serving. Our board is not classified and, thus, all of our directors are elected annually. As of the date of this Annual Report on Form 10-K, the following is a list of our directors and their respective ages and brief biographies:

Name	Age	Position	Term Expires at Annual Meeting in Year
Gerald J. Ford	63	Chairman of the Board and Director	2008
Larry D. Willard	65	President, Chief Executive Officer and Director	2008
Rhodes Bobbitt	62	Director	2008
W. Joris Brinkerhoff	56	Director	2008
Charles R. Cummings	71	Director	2008
J. Markham Green	64	Director	2008
C. Clifton Robinson	70	Director	2008
James R. "Randy" Staff	60	Director	2008
Carl B. Webb	58	Director	2008

Business Experience of Directors

Gerald J. Ford. Mr. Ford has served as Chairman of the Board of Hilltop since August 1, 2007, and has served as a director of Hilltop since June 30, 2005. Mr. Ford is a banking and financial institutions entrepreneur who has been involved in numerous mergers and acquisitions of private and public sector financial institutions, primarily in the Southwest United States, over the past 30 years. In that capacity he acquired and consolidated 30 commercial banks from 1975 to 1993, forming First United Bank Group, Inc., a multi-bank holding company for which he functioned as Chairman of the Board and Chief Executive Officer until its sale in 1994. During this period he also led investment consortiums that acquired numerous financial institutions, forming in succession, First Gibraltar Bank, FSB, First Madison Bank, FSB and First Nationwide Bank. Mr. Ford also served as Chairman of the Board of Directors and Chief Executive Officer of Golden State Bancorp Inc. and its subsidiary, California Federal Bank, FSB, from 1998 to 2002. He currently participates on numerous boards of directors, including Triad Financial Corporation, for which he also is Chairman of the Board, First Acceptance Corporation, for which he also is Chairman of the Board, McMoRan Exploration Co., Freeport McMoRan Copper and Gold Inc., Scientific Games Corporation and MAFS Acquisition Corp. Mr. Ford also currently serves on the Board of Trustees of Southern Methodist University. Hilltop's general counsel and secretary, Corey Prestidge, is the son-in-law of Mr. Ford.

Larry D. Willard. Mr. Willard has served as Chief Executive Officer and a director of Hilltop since September 28, 2005 and June 30, 2005, respectively, and has served as Hilltop's president since August 1, 2007. Mr. Willard previously served as Chairman of the Board of Hilltop from September 28, 2005 until August 1, 2007. Mr. Willard retired as Chairman of the Board of Wells Fargo Bank, N.A., New Mexico Region, where he had served as Regional President of the New Mexico and West Texas

Region of Wells Fargo and Company from 1998 through 2004. Mr. Willard also served from 1994 to 1998 as Chairman of the Board, Chief Executive Officer and Regional President of Norwest Corporation, an affiliate of Norwest Bank New Mexico, N.A. Prior to that, he spent 18 years with United New Mexico Financial Corporation and Ford Bank Group, Inc. serving in various capacities.

Rhodes Bobbitt. Mr. Bobbitt has served as a director of Hilltop since November 29, 2005. Mr. Bobbitt is retired. From 1987 until June 30, 2004, he served as a Managing Director and the Regional Office Manager of the Private Client Service Group of Credit Suisse First Boston/Donaldson, Lufkin & Jenrette. Mr. Bobbitt was formerly Vice President of Security Sales in the Dallas office of Goldman, Sachs & Company from 1969 until 1987. He is actively involved with the University of Texas as a member of the University of Texas Development Board, was Co-Chairman of the Dallas Leadership Council Capital Raising Campaign, and a member of the University of Texas MBA Investment Fund Advisory Board. He also serves on the Board of Directors of First Acceptance Corporation, including the Nominating and Corporate Governance, Investment, and Audit Committees of that company.

W. Joris Brinkerhoff. Mr. Brinkerhoff has served as a director of Hilltop since June 30, 2005. Mr. Brinkerhoff founded a Native American owned joint venture, Doyon Drilling Inc. J.V., in 1981 and served as its operations Chief Executive Officer and Chief Financial Officer until selling his venture interests in 1992. Doyon Drilling Inc. J.V. designed, built, leased and operated state of the art mobile drilling rigs for ARCO and British Petroleum in conjunction with their development of the North Slope Alaska petroleum fields. Mr. Brinkerhoff currently manages, on a full-time basis, family interests, including oil and gas production, a securities portfolio and various other business interests. He actively participates in numerous philanthropic organizations.

Charles R. Cummings. Mr. Cummings has served as a director of Hilltop since October 28, 2005. Mr. Cummings has served as Chairman and Chief Executive Officer of Opthalmic Innovations International, a manufacturer of intraocular lenses, since September 1998. Concurrently from April 2005 to the present, Mr. Cummings has been a partner with Bravo Equity Partners II, L.P., an equity investments group targeting growth companies with a focus on the Hispanic market. He was a co-founder of IESI Corporation in 1994, serving as a director until the sale of the company in January 2005. From December 2001 to January 2005, Mr. Cummings served as the Chairman of the Audit Committee for IESI. From July 1999 to the present, Mr. Cummings has served as President of CB Resources, Inc., a petroleum and gas company, where he is responsible for handling all financial transactions on behalf of the company. He also is a former audit partner with Arthur Young & Company.

J. Markham Green. Mr. Green has served as a director of Hilltop since February 2004. Mr. Green is a private investor. From 2001 to 2003, he served as Vice Chairman of the Financial Institutions and Governments Group in investment banking at JP Morgan Chase. From 1993 until joining JP Morgan Chase, Mr. Green was involved in the start-up, and served on the boards, of eight companies, including Affordable Residential Communities Inc., the predecessor company to Hilltop Holdings Inc. Mr. Green serves on the board of Root Markets Inc. From 1973 to 1992, Mr. Green served in various capacities at Goldman, Sachs & Co. in investment banking. He was a general partner of the company and co-head of the Financial Services Industry Group at the time of his retirement in 1992.

C. Clifton Robinson. Mr. Robinson has served as a director of Hilltop since March 8, 2007. From 2000 until its acquisition by a subsidiary of Hilltop in January 2007, Mr. Robinson was Chairman of the Board and Chief Executive Officer of NLASCO, an insurance holding company domiciled in Texas. Mr. Robinson continues to serve as Chairman of the Board of NLASCO. In 2000, Mr. Robinson formed NLASCO in conjunction with the acquisition of American Summit Insurance Company and the reacquisition of National Lloyds Insurance Company, which he had initially acquired in 1964 and later sold. In 1979, he organized National Group Corporation for the purpose of purchasing insurance

companies and related businesses. In 1964, he became the President and Chief Executive Officer of National Lloyds Insurance Company in Waco, Texas, one of the two current insurance subsidiaries of NLASCO. From 1964 to the present, Mr. Robinson has participated in the formation, acquisition and management of numerous insurance business enterprises. Mr. Robinson established the Robinson-Lanham Insurance Agency in 1961. He previously has held positions with various insurance industry associations, including Vice-Chairman of the Board of Texas Life and Health Guaranty Association, President of the Independent Insurance Agents of Waco-McLennan County and membership on the board of directors of the Texas Life Insurance Association and the Texas Medical Liability Insurance Underwriting Association. Mr. Robinson currently serves on the Board of Trustees of the Scottish Rite Hospital for Children in Dallas, Texas.

James R. "Randy" Staff. Mr. Staff has served as a director of Hilltop since June 30, 2005. Mr. Staff has been a consultant to Hunter's Glen/Ford, Ltd., an investment partnership of which Mr. Ford serves as general partner, since November 2002. He also is Chairman of the Board of Directors of Ganado Bancshares, Inc., Citizens State Bank, ABNA Holdings, Inc. and American Bank, N.A. Previously, Mr. Staff was an Executive Vice President and the Chief Financial Advisor of Golden State Bancorp Inc. and its subsidiary, California Federal Bank, FSB, from October 1994 until November 2002. During this period he also served as a Director of First Nationwide Mortgage Corporation and Auto One Acceptance Corporation.

Carl B. Webb. Mr. Webb has served as a director of Hilltop since June 30, 2005. Mr. Webb has served as the interim President and Chief Executive Officer of Triad Financial Corporation since August 2005, and as a consultant to Hunter's Glen/Ford, Ltd., an investment partnership of which Mr. Ford serves as a general partner, since November 2002. Previously, Mr. Webb was the President, Chief Operating Officer and a Director of Golden State Bancorp Inc. and its subsidiary, California Federal Bank, FSB, from September 1994 until his departure in November 2002. Prior to his affiliation with California Federal Bank, FSB, Mr. Webb was the President and Chief Executive Officer of First Madison Bank, FSB (1993 to 1994) and First Gibraltar Bank, FSB (1988 to 1993), as well as President and a Director of First National Bank at Lubbock (1983 to 1988). Currently, Mr. Webb sits on the Boards of Directors of M & F Worldwide Corp. and AMB Property Corporation.

EXECUTIVE OFFICERS

General

Our executive officers are elected annually by our board of directors and serve at the discretion of our board of directors. In March 2008, we reviewed the officer positions that had been identified as executive officer positions and compared the duties and responsibilities of those officer positions against the definition of "executive officer," as set forth in the rules and regulations of the SEC. Based on that review, we identified the following officers as executive officers, consistent with the definition of that term as used by the SEC:

Name	Age	Position(s)	Officer Since
Larry D. Willard	65	President, Chief Executive Officer and Director	2005
Darren Parmenter	45	Senior Vice President Finance	2007
Corey G. Prestidge	33	General Counsel and Secretary	2008
Greg Vanek	46	President of NLASCO, Inc.	2007

Business Experience of Executive Officers

Information concerning the business experience of Mr. Willard is set forth above under "*Business Experience of Directors*."

Darren Parmenter. Mr. Parmenter has served as Senior Vice President of Finance of Hilltop since June 24, 2007. From January 3, 2000 to June 24, 2007, Mr. Parmenter was with Hilltop's predecessor, Affordable Residential Communities, and served as the Controller of Operations from April 1, 2002 to June 24, 2007. Prior to 2000, Mr. Parmenter was employed by Albertsons Inc., as an Assistant Controller.

Corey G. Prestidge. Mr. Prestidge has served as General Counsel and Secretary of Hilltop since January 21, 2008. From November 1, 2005 to January 18, 2008, Mr. Prestidge was the Assistant General Counsel of Mark Cuban Companies. Prior to that, Mr. Prestidge was an associate in the corporate and securities practice group at Jenkens & Gilchrist, a Professional Corporation, which is a former national law firm that is no longer providing legal services. Mr. Prestidge is the son-in-law of our Chairman of the Board, Gerald J. Ford.

Greg Vanek. Mr. Vanek has served as President and Chief Operating Officer of NLASCO since 2001, and National Lloyds Insurance Company and American Summit Insurance Company, subsidiaries of NLASCO, since 1997 and 2001, respectively, except for a brief period during 2000 when he was self-employed. Prior to his service in those capacities, Mr. Vanek also has previously served as Vice President of Marketing and as an underwriter for National Lloyds Insurance Company since joining the company in 1986. He is a member of various insurance industry associations, including a member and officer of the Association of Fire and Casualty Companies of Texas Legislative Committee and a board member of Southwestern Insurance Information Service.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires officers and directors, and persons who beneficially own more than ten percent of our stock, to file initial reports of ownership and reports of changes in ownership with the SEC. Officers, directors and greater than ten percent beneficial owners are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file.

Based solely on a review of the copies furnished to us and representations from our officers and directors, we believe that all Section 16(a) filing requirements for the year ended December 31, 2007, applicable to our officers, directors and greater than ten percent beneficial owners were satisfied, except that:

- each of Messrs. Brinkerhoff, Staff and Webb were late in filing one Form 4 to report director compensation shares that were awarded to them in July 2007;

- Darren Parmenter, our Senior Vice President-Finance, was late in filing his Form 3; and

- James F. Kimsey, a former director and our former President and Chief Operating Officer, was late in reporting a purchase in January 2007.

Based on written representations from our officers and directors, we believe that all Forms 5 for directors, officers and greater than ten percent beneficial owners that have been filed with the SEC are the only Forms 5 required to be filed for the period ended December 31, 2007.

Code of Ethics

We have adopted a senior officer code of ethics applicable to our Chief Executive Officer, Chief Financial Officer and Principal Accounting Officer. We also have adopted a code of business conduct and ethics applicable to all officers, directors and employees. Both codes are available on our website at www.hilltop-holdings.com under the heading "Investor Relations Governance Corporate Governance Documents." Copies also may be obtained upon request by writing our Corporate Secretary at 200 Crescent Court, Suite 1330, Dallas, Texas 75201. Amendments to, and waivers from, our senior officer code of ethics and our code of business conduct and ethics will be disclosed at the same website address provided above and in such filings as may be required pursuant to applicable law or listing standards.

Corporate Governance

We have a standing audit committee established in accordance with Section 3(a)(58)(A) of the Exchange Act. The audit committee helps our board of directors ensure the integrity of our financial statements, the qualifications and independence of our independent registered public accounting firm and the performance of our internal audit function and independent registered public accounting firm. In furtherance of those matters, the audit committee assists in the establishment and maintenance of our internal audit controls, selects, meets with and assists the independent registered public accounting firm, oversees each annual audit and quarterly review and prepares the report that federal securities laws require be included in our annual proxy statement. Mr. Cummings has been designated as Chairman, and Messrs. Green and Bobbitt have been appointed as members, of the audit committee. Our board of directors has determined that Mr. Cummings qualifies as an "audit committee financial expert," as defined by the rules of the SEC, and is independent for purposes of audit committee members, as set forth in the New York Stock Exchange's listing standards.

ITEM 11. EXECUTIVE COMPENSATION

DIRECTOR COMPENSATION

General

Members of our board of directors who are also full-time employees do not receive any compensation for their service on the board of directors or any board committee. All other directors receive the following compensation for their service on the board of directors:

- $40,000 ($30,000 prior to October 1, 2007) annual retainer; and
- $2,000 ($1,000 prior to October 1, 2007) fee for participation in each meeting of the board of directors at which attendance in person is requested (one-half of that fee is paid for participation in any meeting at which attendance is requested by telephone).

In addition, members of board committees receive the following additional compensation:

- Audit Committee $65,000 annual fee for chairperson of the committee;
- Nominating and Corporate Governance Committee $10,000 annual fee for chairperson of the committee;
- Compensation Committee $10,000 annual fee for the chairperson of the committee;
- Investment Committee $25,000 ($10,000 prior to October 1, 2007) annual fee for the chairperson of the committee; and
- $1,000 fee for participation in each meeting of that board committee (commenced October 1, 2007).

Members of our board of directors may elect to receive their aggregate board of directors and board committee compensation:

- entirely in the form of cash;
- entirely in the form of common stock; or
- one-half in cash and one-half in common stock.

Cash and shares of common stock are paid and issued, respectively, in arrears on a calendar quarterly basis, with no vesting requirements. Customarily, these payments and issuances occur by the 15th day of the month following the applicable calendar quarter-end. The value of the common stock awarded is based upon the average closing price per share of our common stock for the last ten consecutive trading days of the applicable calendar quarter. In lieu of fractional shares of common stock that would otherwise be issuable to directors, we pay cash to the director based upon the value of those fractional shares at the value the shares are awarded to the director. If a director does not serve for the entire calendar quarter, that director is compensated based upon the time of service during the applicable calendar quarter.

Each member of our board of directors is reimbursed for out-of-pocket expenses associated with his service on behalf of, and attendance at, board of directors or board committee meetings. Other than as described above, members of our board of directors receive no additional compensation for their service on the board of directors or board committees.

2007 Director Compensation

Director Compensation Table for 2007(a)

Name	Fees earned or paid in cash ($)	Stock awards ($)	All other compensation ($)	Total ($)
Rhodes Bobbitt	55,500			55,500
W. Joris Brinkerhoff	21,032	20,968		42,000
Charles R. Cummings	107,000			107,000
Gerald J. Ford	53,500			53,500
J. Markham Green	43,500			43,500
C. Clifton Robinson	32,917			32,917
James R. "Randy" Staff	18	42,982		43,000
Carl B. Webb	25	52,475		52,500
Larry D. Willard				

(a) Fees earned for services performed in 2007 include annual retainers, meeting fees and chairperson remuneration. Aggregate fees paid to non-employee directors for annual retainers and committee chairmanships were paid quarterly in arrears. Cash was paid in lieu of the issuance of fractional shares. Service for any partial quarter is calculated and paid on the basis of time served during the applicable calendar quarter. Non-employee directors are solely responsible for the payment of taxes payable on remuneration paid by the Company. Value of stock awarded was determined based upon the average closing price per share of our common stock for the last ten consecutive trading days of the calendar quarter during which the stock was earned.

As described above, the 2007 stock awards were issued to each non-employee director who elected to receive all or part of his director compensation in the form of our common stock, generally within 15 days following each applicable calendar quarter-end. All of our personnel, as well as non-employee directors, are subject to trading restrictions with regard to our common stock, and trading may only

occur during a "trading window." Provided that any such party does not possess material, non-public information about us, this trading period commences on the second business day after the public release of quarterly or annual financial information and ends one month after the public release of that information.

The following numbers of shares of our common stock were issued to our directors for services performed during 2007: W. Joris Brinkerhoff 1,801 shares; James R. "Randy" Staff 3,697 shares; and Carl B. Webb 4,504 shares. Certain of the foregoing shares were issued in 2008 for services performed in the fourth quarter of 2007. For more information regarding cost recognition for the issuance of stock, refer to the disclosure in "Notes to Consolidated Financial Statements Note 1 Business, Basis of Presentation and Summary of Significant Accounting Policies Summary of Significant Accounting Policies *Stock Based Compensation*" commencing on page F-13 of this Annual Report on Form 10-K.

Each of the above directors had outstanding the following aggregate numbers of shares of our common stock awarded for services performed on behalf of us from election or appointment through the end of fiscal 2007: Rhodes Bobbitt 1,562 shares; W. Joris Brinkerhoff 3,973 shares; Charles R. Cummings 5,379 shares; Gerald J. Ford 2,893 shares; J. Markham Green 3,309 shares; James R. "Randy" Staff 5,869 shares; and Carl B. Webb 7,397 shares. For further information about the stock holdings of these directors and our management, see "Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters *Security Ownership Security Ownership of Management*" commencing on page 94 of this Annual Report on Form 10-K.

COMPENSATION DISCUSSION AND ANALYSIS

In the paragraphs that follow, we will discuss the overall objectives of our compensation program and what it is designed to reward participants over the life of the program, each element of compensation that we provide, and an explanation of the reasons for the compensation decisions we have made regarding the following individuals, whom we refer to as our "named executive officers" for 2007:

Larry D. Willard President and Chief Executive Officer.

Darren Parmenter Senior Vice President of Finance (principal financial officer).

James F. Kimsey Former President and Chief Operating Officer (resigned in connection with the Farallon Transaction, which closed on July 31, 2007).

Lawrence E. Kreider Former Executive Vice President, Chief Financial Officer and Chief Information Officer (resignation announced on June 20, 2007).

Greg Vanek President of NLASCO.

Following this discussion, we provide specific information about compensation earned or awarded to our named executive officers during 2007.

OUR EXECUTIVE COMPENSATION PROGRAMS

Our compensation programs include a combination of salary, at-risk incentives and equity incentives linked to performance and the creation of stockholder value. In structuring our compensation programs, the Compensation Committee has been particularly mindful of several key issues. We have had to address the difficulty of attracting exceptional talent and retaining existing talent. We believe that it is critical to our long-term prospects to establish compensation programs that attract and retain those with the talent, skill and experience necessary for us to realize our strategic objectives.

With this in mind, the following principles help to guide our decisions regarding compensation of our named executive officers:

Compensation opportunities should be competitive with market practices. In order to attract and retain the executives with the experience and skills necessary to lead our company and deliver strong performance to our stockholders, we are committed to providing total annual compensation opportunities that are competitive. We target all elements of our compensation program base salary, annual incentive and equity incentive opportunities to be consistent with practices of comparable organizations.

A substantial portion of compensation should be performance-based. Our executive compensation program emphasizes pay for performance. This means that corporate performance, as assessed under the management incentive plan, and the potential value associated with stock option awards, represent between 40% to 50% of each named executive officer's potential compensation assuming target levels of annual incentive awards and estimated potential value associated with stock options were achieved.

Management's interests should be aligned with those of our stockholders. Our long-term incentive compensation is delivered in the form of stock options, the value of which is ultimately dependent upon the performance of our stock price. Although we have no mandatory requirement of stock ownership by our employees, including our named executive officers, stock ownership is encouraged.

Compensation should be perceived as fair and equitable. We strive to create a compensation program that will be perceived as fair and equitable, both internally and externally. In addition to conducting analyses of market pay levels, we consider the pay of the named executive officers relative to one another and to other members of the management team.

HOW WE DETERMINE AND ASSESS EXECUTIVE COMPENSATION GENERALLY

Role of the Compensation Committee.

The Compensation Committee of our Board of Directors is responsible for reviewing and approving all aspects of the compensation programs for our named executive officers and making all decisions regarding specific compensation to be paid or awarded to them. The Compensation Committee is responsible for, among its other duties, the following:

- Review and approval of corporate incentive goals and objectives relevant to compensation;
- Evaluation of individual performance results in light of these goals and objectives;
- Evaluation of the competitiveness of the total compensation package; and
- Approval of any changes to the total compensation package, including, but not limited to, salary, annual and long-term incentive award opportunities and payouts and retention programs.

The Compensation Committee is responsible for determining all aspects of compensation of the Chief Executive Officer, as well as assessing his individual performance.

The Compensation Committee may, in its discretion, consider (i) the transferability of managerial skills, (ii) the relevance of each named executive officer's experience to other potential employers, and (iii) the readiness of the named executive officer to assume a different or more significant role, either within our organization or with another organization. When making pay-related decisions, the Compensation Committee also has considered our specific circumstances and the associated difficulties with attraction, retention and motivation of talent and its importance in supporting achievement of our strategic objectives.

Information about the Compensation Committee and its composition, responsibilities and operations can be found in the "Investor Relations-Governance" section of our website.

Role of the Chief Executive Officer in Compensation Decisions.

Mr. Willard, as the Chief Executive Officer, recommends to the Compensation Committee any compensation changes affecting the other named executive officers. Within the framework of the compensation programs approved by the Compensation Committee and based on management's review of market competitive positions, each year Mr. Willard recommends the level of base salary increase, reviews and approves the specific individual objectives in the annual incentive program and recommends the long-term incentive grant value for the other named executive officers. His recommendations are based upon his assessment of the individual officer's performance, performance of the officer's respective business or function and employee retention considerations. The Compensation Committee reviews Mr. Willard's recommendations and must approve any compensation changes affecting our officers or executives. Mr. Willard does not play any role with respect to any matter impacting his own compensation.

Role of Compensation Consultant.

The Compensation Committee retained Towers Perrin to provide market data and to advise on market trends and practices in connection with determining compensation payable in 2007 and 2006. The Compensation Committee then made its own determinations regarding 2007 and 2006 compensation of the named executive officers, considering the data and advice provided by Towers Perrin, among other factors. Since the Compensation Committee has determined not to increase the 2008 compensation of the named executive officers, we have not retained the services of a compensation consultant in 2008.

Market Data.

The Compensation Committee considers compensation levels, programs and practices of other companies to assist in assessing and establishing the competitiveness of our executive compensation programs. In 2007, we referenced compensation practices and survey data for general industry, the real estate industry and a select group of comparable companies in the real estate industry. This included an assessment of pay levels among the following set of companies:

American Land Lease;

Apartment Investment and Management Co;

Builders FirstSource Inc.;

Cavalier Homes Inc.;

Cavco Industries Inc.;

Champion Enterprises Inc.;

Equity Lifestyle Properties Inc.;

Modtech Holdings Inc.;

Nobility Homes Inc.;

Palm Harbor Homes Inc.;

Skyline Corp.;

Sun Communities Inc.; and

United Mobile Homes Inc.

Information on the compensation levels, programs and practices of these companies and industry data is used to provide context for our compensation decisions, rather than as a direct determinant of pay levels for our named executive officers.

Other Factors.

While market data is important, it is not the only factor the Compensation Committee considers when determining compensation of our named executive officers. Pay decisions are made following a review and discussion of both the financial and operational performance of our businesses and the annual performance reviews of the named executive officers and other members of the management team.

ELEMENTS OF OUR EXECUTIVE COMPENSATION PROGRAM

Overall, our executive compensation program is designed to be consistent with the objectives and principles set forth above. The basic elements of our 2007 executive compensation program are summarized below, followed by a more detailed discussion of those programs.

Our compensation policies and programs are considered by the Compensation Committee in a total rewards framework, considering both "pay" base salary, annual incentive compensation and long-term incentive compensation; and "benefits" benefits, perquisites and executive benefits and other compensation. Our executive compensation program consists primarily of the following components:

Compensation Component	Purpose
Base Salary	Fixed component of pay intended to compensate the individual fairly for the responsibility level of the position held.
Annual Incentives	Variable component of pay intended to motivate and reward the individual's contribution to achieving our short-term/annual objectives.
Long-term Incentives	Variable component of pay intended to motivate and reward the individual's contribution to achieving our long-term objectives.
Perquisites	Fixed component of pay intended to provide an economic benefit to us in attracting and retaining executive talent.
Post-Termination Compensation (Severance and Change in Control)	Fixed component of pay intended to provide a temporary income source following an executive's involuntary termination and, in the case of a change-in-control, to also provide continuity of management during that event.

Base Salary.

We provide base salaries for each named executive officer, commensurate with the services each provides to us, because we believe a portion of total direct compensation should be provided in a form that is fixed and liquid. For 2007, base salary represented approximately 50% to 60% of total direct

compensation, assuming target levels of annual incentive awards and estimated potential value associated with stock options were achieved (base salary, plus target annual incentive, plus the expected value of long-term incentives at date of grant). The 2007 base salary for each named executive officer did not increase from the base salary paid in 2006, other than Messrs. Parmenter and Vanek, who were not executive officers during 2006.

Annual Incentive Awards.

Our named executive officers and other employees are eligible to receive annual incentive plan awards based upon our financial performance and other factors, including individual performance. The Compensation Committee believes that this element of compensation is important to focus management efforts on, and provide rewards for, annual financial and strategic results that are aligned with creating value for our stockholders. For 2007, target management incentive plan award opportunities to named executive officers represented approximately 40% to 75% of base salary and approximately 20% to 40% of total direct compensation (total annual cash compensation plus the expected value of long-term incentives at date of grant), assuming target levels of annual incentive awards and estimated potential value associated with stock options were achieved. Further discussion of this plan is found after the Grants of Plan Based Awards section below.

Financial and strategic objectives are established each year based on a business plan developed by management and approved by our Board of Directors. Performance against these goals is assessed at the end of the year and is a principal determiner of individual annual incentive award determinations. The Compensation Committee also has the authority to make adjustments to the performance objectives in recognition of unusual or non-recurring events. With respect to the incentive compensation plan for 2007 approved by the Compensation Committee, for Hilltop a threshold level of performance below which no compensation would be earned was specified at 85% of budgeted income before minority interest, a target level of performance was specified at 100% of budgeted income before minority interest, and the maximum level of performance beyond which no additional compensation would be earned was specified at 115% of the budgeted income before minority interest.

With respect to the award payable to Mr. Vanek, the thresholds are based upon a combined ratio. The level of performance below which no compensation would be earned was specified at a combined ratio of 91% or greater, the target level of performance was specified at a combined ratio of 90% or less and the maximum level of performance beyond which no additional compensation would be earned was set at a combined ratio of 85% or less. Due to the sale of substantially all of our real estate operations in July 2007, a change in control (as defined in the plans) of us occurred resulting in our former named executive officers, other than Mr. Kreider, who resigned prior to the change in control, receiving 7/12ths of their target incentive compensation for 2007.

The Compensation Committee, in its sole discretion, determines the amount of each participant's award based on attainment of the applicable performance goals and assessments of individual

performance. For 2007 performance, we paid the following bonuses under the management incentive plan to the named executive officers:

Name	Amount of Cash Bonus
Larry D. Willard	$ 500,000
Darren Parmenter	$ 178,750
Greg Vanek	$ 206,250
James F. Kimsey*	$ 151,667
Lawrence E. Kreider**	

* Represent 7/12ths of the target award for Mr. Kimsey that was paid as a result in the change in control in July 2007.

** Mr. Kreider forfeited his right to a bonus for 2007 when he resigned in June 2007.

The management incentive plan provides that upon a change in control (as defined in the plan), each participant (which includes each of the named executive officers) would be entitled to payment of a pro-rata bonus for the year in which the change of control occurs, the amount of which would be determined assuming the maximum level of performance had been achieved. The consummation of the Farallon Transaction constituted a change in control under this plan. At its July 26, 2007 meeting, the Compensation Committee determined that we would pay certain former executive officers that were employed by us immediately prior to the closing of the transaction 7/12ths of the target award for 2007. Accordingly, Mr. Kimsey received $151,667.

Long-Term Incentive Awards.

As described above, we believe that a portion of each named executive officer's compensation should be tied to the performance of our company's stock price, aligning the officer's interest with that of our stockholders. In this regard, our long-term incentive compensation is delivered in the form of stock options, the value of which is ultimately dependent upon the performance of our stock price. The expected value of these long-term incentive awards represents approximately 5 to 30% of each named executive officer's total direct compensation opportunity, assuming target levels of annual incentive awards and estimated potential value associated with stock options were achieved. Further discussion of the 2003 equity incentive plan pursuant to which such options are awarded is found after the "Grants of Plan Based Awards" section below.

On March 8, 2007, the Compensation Committee granted 10,000 stock options to Mr. Willard, 7,000 options to Mr. Kimsey and 4,000 stock options to Mr. Kreider. Mr. Kreider forfeited his options when he resigned in June 2007. On October 25, 2007, the Compensation Committee granted 50,000 stock options to each of Mr. Parmenter and Mr. Vanek. The Compensation Committee granted the stock options to Messrs. Willard, Kimsey and Kreider in March 2007 in order to offset, in part, the dilutive effect that the rights offering conducted by the Company in January 2007 had on the stock options awarded to them in July 2006. The number of shares granted was consistent with the provisions of other instruments that were adjusted as a result of the rights offering. In determining the number of stock options granted to Messrs. Parmenter and Vanek, the Compensation Committee did not take into account specific individual performance factors, but rather considered the awards previously made to other executive officers.

The consummation of the Farallon Transaction on July 31, 2007 constituted a change in control under this plan. Accordingly, the following stock options then outstanding became fully vested: Mr. Willard 210,000 stock options and Mr. Kimsey 147,000 stock options.

We have not adopted a formal policy for the timing of grants of equity awards. However, the Compensation Committee follows an informal practice of annually reviewing and determining whether to grant equity awards. If off-cycle awards, such as in the case of new hires, promotions or special retention awards, were required to be considered, the Compensation Committee would determine the applicability and amount of any such awards on a case-by-case basis.

All option awards made to eligible employees, including the named executive officers, are made pursuant to the 2003 equity incentive plan. All stock options issued under the terms of the plan are granted with an exercise price equal to the fair market value of our common stock on the date of grant. For this purpose, the market value is deemed to be the closing price of the common stock on the New York Stock Exchange on the date of grant of the stock options. Options awards are not subject to re-pricing.

All stock option awards made to the named executive officers are made by the Compensation Committee and not pursuant to delegated authority.

Perquisites and Other Benefits. We provide a limited number of perquisites and other benefits to our named executive officers. Generally, our named executive officers receive only medical benefits, life insurance and long-term disability coverages, as well as supplemental contributions to the Company's 401(k) program, on the same terms and conditions as available to all employees. These medical and insurance benefits generally consist of group medical coverage with applicable deductibles and co-pays and complementary long-term disability capped at $50,000, with the option to purchase additional coverage.

In addition, in connection with the Company's move in principal headquarters from Colorado to Dallas, Texas, we have reimbursed Mr. Willard, on a tax grossed-up basis, for certain expenses for housing, private aircraft and automobile use and we have reimbursed Mr. Parmenter, on a tax grossed-up basis, for certain housing expenses.

Severance and Other Post-Termination Compensation.

Currently, we do not maintain any severance or change in control program for the named executive officers. Historically, we, however, have paid severance, the amount of which is generally determined both by length of Company tenure and level of compensation, when termination occurs other than for cause and pursuant to which certain benefits may be provided to the named executive officers. Absent the negotiation of specific agreements with the named executive officers, their severance benefits would be provided on the same basis as provided to other employees of the Company.

Currently, Mr. Parmenter and we are a party to an employment agreement pursuant to which we agreed that if he is terminated without reasonable cause, he will be entitled to one year of base salary, plus bonus.

We entered into a severance agreement, effective as of February 18, 2004, with Mr. Kreider. This severance agreement had a term of three years, with automatic one-year renewals commencing on the first anniversary of the severance agreement, unless either party to the agreement provided 60 days notice of non-renewal. The severance agreement provides that if, following a change in control, the executive's employment is terminated by us other than for "cause" (as defined in the severance agreements), or by the executive with good reason, the executive was entitled to certain severance payments and benefits. As a result of Mr. Kreider's resignation in June 2007, we are obligated to pay Mr. Kreider his 2007 base salary ($330,000) in accordance with our ordinary payroll schedule for the

one year period immediately following his resignation. Due to his resignation prior to the consummation of the Farallon Transaction, however, his unvested restricted stock and all of his stock options were forfeited.

In connection with their efforts to consummate the Farallon Transaction, we agreed to pay, and did pay, each of Mr. Kimsey and Kreider a bonus of $125,000 upon the completion of that transaction.

Further discussion of the severance agreements and payments made pursuant thereto may be found in the "Employment Contracts, Termination of Employment and Change in Control Arrangements" section below.

The 2003 equity incentive plan, pursuant to which stock option awards are granted to the named executive officers, contains specific termination and change-in-control provisions. We determined to include a change in control provision in the plan to be competitive with what we believe to be the standards for the treatment of equity upon a change in control and so that employees who remain after a change of control would be treated the same with regard to equity as the general stockholders who could sell or otherwise transfer their equity upon a change in control. Under the terms of the plan, if a change of control event (as defined under the plan) were to occur, all awards then outstanding would become vested and/or exercisable and any applicable performance goals with respect thereto would be deemed to be fully achieved. The consummation of the Farallon Transaction constituted a change in control under this plan. Further discussion of the change in control payments made pursuant to the 2003 equity incentive plan may be found in the "Employment Contracts, Termination of Employment and Change in Control Arrangements" section below.

OTHER PROGRAMS AND POLICIES

Stock Ownership Requirements.

Our senior executives are encouraged to own a meaningful amount of our common stock; however, there is no formal policy that requires such stock ownership. Each of the named executive officers owns common stock of the Company, as specified in "Item 12. Security ownership of certain beneficial owners and management and related stockholder matters" beginning on page 94 of this Annual Report on Form 10-K.

Tax Considerations.

Section 162(m) of the Internal Revenue Code, or the Code, imposes a $1.0 million limit on the tax-deductibility of compensation paid to our five most highly paid executives, which includes the named executive officers. Exceptions are provided for compensation that is "performance-based" and paid pursuant to a plan meeting certain requirements of Section 162(m) of the Code. The Compensation Committee has carefully considered the implications of Section 162(m) of the Code and believes that tax deductibility of compensation is an important consideration. Accordingly, where possible and considered appropriate, the Compensation Committee strives to preserve corporate tax deductions. The Compensation Committee, however, reserves the flexibility, where appropriate, to approve compensation arrangements that may not be tax deductible to the Company, such as base salary and awards of time-based restricted stock. The Compensation Committee will continue to review the Company's executive compensation practices to determine if other elements of executive compensation constitute "qualified performance-based compensation" under Section 162(m) of the Code.

We also continue to monitor the regulatory developments under Section 409A of the Code, which was enacted as part of the American Jobs Creation Act of 2004. Section 409A imposes substantial limitations and conditions on nonqualified deferred compensation plans, including certain types of equity compensation and separation pay arrangements.

Accounting Considerations.

Differing forms of equity awards will have comparable accounting treatments under FAS 123 (R), and therefore, we expect that accounting treatments will not influence our selection of forms of equity compensation.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis contained in this Annual Report on Form 10-K. Based on its review, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Annual Report on Form 10-K.

The foregoing report has been submitted by the following members of the Compensation Committee:

Carl B. Webb (Chairman)
W. Joris Brinkerhoff

EXECUTIVE OFFICER COMPENSATION

The following tables set forth information concerning the compensation earned for services performed during 2007 and 2006 by the named executive officers, who were either serving in such capacities on December 31, 2007 or during 2007 or are reportable pursuant to applicable SEC regulations.

Summary Compensation Table

Name and principal position	Year	Salary ($)	Bonus(b) ($)	Option awards(c) ($)	Non-equity incentive plan compensation ($)	All other compensation ($)	Total ($)
Larry D. Willard	2007	500,000		40,422(d)	500,000(f)	131,599(h)	1,172,021
President and Chief Executive Officer	2006	500,000		788,365(d)	500,000(f)	86,394(h)	1,874,759
Darren Parmenter	2007	263,462		155,037(e)	178,750(f)	13,745(i)	610,994
Senior Vice President Finance							
Greg Vanek	2007	275,000		155,037(e)	206,250(f)	19,063(j)	655,350
President of NLASCO, Inc.							
James F. Kimsey	2007	233,333(a)	125,000	28,295(d)	151,667(g)		538,295
Former President and Chief Operating Officer	2006	400,000		551,855(d)	320,000(f)		1,271,855
Lawrence E. Kreider	2007	165,000(a)	125,000	16,169(d)		140,569(k)	446,738
Former Executive Vice President, Chief Financial Officer and Chief Information Officer	2006	330,000		315,346(d)	214,500(f)		859,846

(a)
Represent salary earned through date of resignation. Messrs. Kimsey and Kreider resigned effective July 31, 2007 and June 20, 2007, respectively.

(b)
Represent bonuses earned for the successful completion of the Farallon Transaction on July 31, 2007. *See* "**Item 13. Certain Relationships and Related Transactions, Director Independence** ***Certain Relationships and Related Party Transactions*** *Transaction with Farallon Capital Management, L.L.C. and its affiliates.*"

(c)
Represent the 2007 and 2006 FAS 123(R) expense recognized for stock options granted in fiscal 2007 and 2006, respectively. For more information regarding outstanding stock options held by the named executive officers, refer to the section *"Outstanding Equity Awards at Fiscal Year-End"* beginning on page 88 of this Annual Report on Form 10-K.

(d)
Represent stock options granted in July 2006 and March 2007 to Messrs. Willard, Kimsey and Kreider. Pursuant to the terms of their issuance, these stock options were to vest in equal installments over a three year period; however, pursuant to the plan and agreements governing their issuance, all unvested shares of these stock options became fully vested on July 31, 2007, as a result of the consummation of the Farallon Transaction. *See* "**Item 13. Certain Relationships and Related Transactions, Director Independence** ***Certain Relationships and Related Party Transactions*** *Transaction with Farallon Capital Management, L.L.C. and its affiliates*."

(e)
Represent stock options to purchase 50,000 shares of common stock at an exercise price of $12.06 per share granted on October 25, 2007 to each of Messrs. Parmenter and Vanek. Pursuant to the terms of their issuance, these options vest in five equal installments on October 25, 2007, 2008, 2009, 2010 and 2011.

(f)
Represent the cash awards earned for 2007 and 2006 performance, as applicable, under the management incentive plan. For more information regarding this plan, see below and also refer to "**COMPENSATION DISCUSSION AND ANALYSIS"** beginning on page 75 of this Annual Report on Form 10-K.

(g)

Represents the cash award earned for 2007 performance under the management incentive plan. This amount represents 7/12ths of the target 2007 performance award, which was approved for payment by the compensation committee.

(h)

Represent the aggregate payments and amounts attributed to Mr. Willard for income tax purposes, on a tax grossed-up basis, made by the Company in 2007 and 2006 to reimburse Mr. Willard for housing (2007 -$98,241; 2006 -$58,522), private aircraft (2007 $15,179; 2006 $8,017) and auto (2007 $18,178; 2006 $19,855) use. Prior to August 2007, this related to costs incurred by Mr. Willard in connection with his travel to, and time in, Colorado. In connection with Mr. Willard's and

the Company's relocation to Texas in August 2007, the Company continues to provide Mr. Willard with an apartment and certain auto transportation needs for his use in Texas.

(i)

Represents aggregate payments and amounts attributed to Mr. Parmenter for income tax purposes, on a taxed grossed-up basis, made by the Company in 2007 to reimburse Mr. Parmenter for housing in connection with his relocation to Texas.

(j)

Represent aggregate payments and amounts attributed to Mr. Vanek for income tax purposes, on a taxed grossed-up basis, made by the Company in 2007 to reimburse Mr. Vanek for country club dues ($5,863) and Mr. Vanek's car allowance ($13,200).

(k)

Represents severance amount paid to Mr. Kreider in 2007 following his resignation on June 20, 2007.

Grants of Plan-Based Awards

The following table supplements the **Summary Compensation Table**, providing information concerning incentive compensation opportunities provided to each named executive officer during 2007. For more information regarding these annual and long-term incentive plan awards, refer to "**COMPENSATION DISCUSSION AND ANALYSIS**" beginning on page 75 of this Annual Report on Form 10-K.

Grants of Plan-Based Awards Table for 2007

		Estimated future payouts under non-equity incentive plan awards(b)					
Name	**Grant Date(a)**	**Threshold ($)**	**Target ($)**	**Maximum ($)**	**All other option awards: number of securities underlying options(c) (#)**	**Exercise or base price of options awards(d) ($/Sh)**	**Grant date fair value of stock and option awards(e) ($)**
Larry D. Willard President and Chief Executive Officer	January 1, 2007 March 8, 2007	250,000	375,000	500,000	10,000	11.28	40,422
Darren Parmenter Senior Vice President Finance	October 25, 2007 October 25, 2007	82,500	137,500	178,750	50,000	12.06	155,037
Greg Vanek President of NLASCO, Inc.	October 25, 2007 October 25, 2007		103,125	206,250	50,000	12.06	155,037
James F. Kimsey(f) Former President and Chief Operating Officer	January 1, 2007 March 8, 2007	160,000	240,000	320,000	7,000	11.28	28,295
Lawrence E. Kreider(g) Former Executive Vice President, Chief Financial Officer and Chief Information Officer	January 1, 2007 March 8, 2007	99,000	165,000	214,000	4,000	11.28	16,169

(a)

Represent the effective dates of grant of cash bonus awards under the management incentive plan and stock options under the 2003 equity incentive plan. See below for a further discussion of these plans. Grants of non-equity incentive plan awards (cash bonuses) are disclosed as of January 1, 2007, the date of commencement of the bonus period, although the specific parameters for their issuance were approved by the compensation committee at its April 26, 2007 meeting.

(b)

Represent the value of potential payments under the management incentive plan to each of the named executive officers based on 2007 performance. Management incentive award amounts shown above represent potential awards that may have been earned based on performance during 2007. The actual management incentive plan awards earned for 2007 are reported in the "**Summary Compensation Table**" above. For more information

regarding the management incentive plan, see below and also refer to "**COMPENSATION DISCUSSION AND ANALYSIS**" beginning on page 75 of this Annual Report on Form 10-K.

(c)

Represent the number of shares of common stock underlying stock options granted to each of the named executive officers in 2007. Stock option grants are made under the 2003 equity incentive plan pursuant to the terms of the non-qualified stock option agreements, which also govern their issuance. The figures above represent the number of shares that were vested,

and became vested as a result of the Farallon Transaction (*See* "**Item 13. Certain Relationships and Related Transactions, Director Independence** ***Certain Relationships and Related Party Transactions*** *Transaction with Farallon Capital Management, L.L.C. and its affiliates*) at December 31, 2007, except for the grants to Messrs. Parmenter and Vanek, of which 20% vested on the date of grant. For more information regarding these grants and plan payouts, refer to "**COMPENSATION DISCUSSION AND ANALYSIS**" beginning on page 75 of this Annual Report and "**Notes to Consolidated Financial Statements Note 12 Common Stock, Preferred Stock, Dividends and Minority Interest Related Transactions**" commencing on page F-32 of this Annual Report on Form 10-K.

(d) Represent the exercise prices of stock options, which equal the closing market price of our common stock on the date of the grant.

(e) Represents the full grant date fair value of each stock option granted to the named executive officers in 2007, computed in accordance with FAS123(R). Pursuant to the terms of their issuance, stock options currently outstanding and granted prior to July31, 2007 are fully vested as a result of the Farallon Transaction. For more information regarding these grants and plan payouts, refer to the Company's disclosure in "**Notes to Consolidated Financial Statements Note 12 Common Stock, Preferred Stock, Dividends and Minority Interest Related Transactions"** commencing on page F-32 of this Annual Report on Form 10-K.

(f) Mr. Kimsey resigned from all positions with the Company and its subsidiaries effective July 31, 2007.

(g) Mr. Kreider resigned from all positions with the Company and its subsidiaries on June 20, 2007, which resulted in the forfeiture of his stock options and his right to the cash bonus award under the management incentive plan.

Management Incentive Plan.

We have adopted a management incentive plan, which provides for cash bonus awards to those key employees of us and our subsidiaries selected by our compensation committee for participation in the plan. A participant may receive a cash bonus under the management incentive plan based upon the attainment, during each performance period, of performance objectives that are established by our compensation committee. These performance objectives may be based on one or more of the following criteria, determined in accordance with generally accepted accounting principles, where applicable:

- total stockholder return;
- earnings per share (which may include the manner in which such earnings goals were met);
- net income (before or after taxes);
- earnings before interest, taxes, depreciation and amortization;
- revenues;
- return on assets;
- market share;
- business plan goals;
- cost reduction goals;

- funds from operations; or

- any combination of, or a specified increase in, any of the foregoing.

Performance objectives may be applied to one or more of the following, among others, our company as a whole, any of our subsidiaries or affiliates or any of our divisions or strategic business units, and may be applied to performance relative to a market index or a group of other companies. The compensation committee possesses the authority to make adjustments to the performance objectives in recognition of unusual or non-recurring events. The performance goals may include a threshold level of performance below which no compensation will be earned, levels of performance at which specified compensation will be earned and a maximum level of performance beyond which no additional compensation will be earned.

The amount of each participant's bonus will be based upon a bonus formula determined by our compensation committee, in its sole discretion, that ties such bonus to the attainment of the applicable performance goals, and will, unless otherwise determined by our compensation committee, range from 75% to 125% of certain specified target amounts. Under the management incentive plan, none of our executive officers may receive a bonus payment for any performance period that exceeds 125% of his base salary. Except as otherwise provided in a participant's employment or other individual agreement, the payment of a cash bonus to a participant for a performance period will be conditioned upon the participant's continued employment on the last day of the performance period. In the event of a change in control (as defined in the management incentive plan), the performance period then in effect will be deemed to have been completed, the maximum level of performance will be deemed to have been achieved and all participants will receive payment within ten business days after the change in control, regardless of whether the individual is then employed by us or any of our affiliates. On July 31, 2007, a change in control (as defined in the management incentive plan) of us occurred as a result of the consummation of the Farallon Transaction (*See* "**Item 13. Certain Relationships and Related Transactions, Director Independence** ***Certain Relationships and Related Party Transactions*** *Transaction with Farallon Capital Management, L.L.C. and its affiliates*"). At its July 26, 2007 meeting, the compensation committee determined that we would pay certain former executive officers that were employed by us immediately prior to the closing of that transaction 7/12ths of the target award for 2007 (See "**Summary Compensation Table**" above). We may amend, suspend or terminate the management incentive plan at any time, provided that no amendment of the plan may adversely affect an award granted prior to the amendment without the participant's consent.

2003 Equity Incentive Plan.

On December 23, 2003, we adopted the 2003 equity incentive plan, which provides for the grant of equity-based incentives, including restricted shares of our common stock, stock options, grants of shares and other equity-based awards, to our directors, officers and other employees and those of our subsidiaries selected by our compensation committee for participation in the plan. At inception, 1,992,387 shares were authorized for grant pursuant to this plan. All shares outstanding, whether vested or unvested, are entitled to receive dividends and to vote, unless forfeited. No participant in our 2003 equity incentive plan may be granted awards in any fiscal year covering more than 500,000 shares of our common stock.

The 2003 equity incentive plan is administered by our Compensation Committee, which has the discretion, among other things, to determine the persons to whom awards will be granted, the number of shares of our common stock to be subject to awards and the other terms and conditions of the awards. Performance objectives may be applied to one or more of the following, among others: our company as a whole, any of our subsidiaries or affiliates or any of our divisions or strategic business units, or may be applied to performance relative to a market index or a group of other companies. The compensation committee possesses the authority to make adjustments to the performance objectives in recognition of unusual or non-recurring events. The 2003 equity incentive plan provides that in no event will the compensation committee be authorized to reprice stock options, or to lower the base or exercise price of any other award granted under the plan, without obtaining the approval of our stockholders.

Stock options granted under the 2003 equity incentive plan may be either "incentive stock options" within the meaning of Section 422 of the Internal Revenue Code or nonqualified stock options. Generally, holders of restricted stock will be entitled to vote and receive dividends on their restricted shares, but our compensation committee may determine, in its discretion, that dividends paid while the shares are subject to restrictions may be reinvested in additional shares of restricted stock. Except as otherwise permitted by our compensation committee, awards granted under the 2003 equity incentive plan will be transferable only by will or through the laws of descent and distribution, and each stock

option will be exercisable during the participant's lifetime only by the participant or, upon the participant's death, by his or her estate. Director compensation that is paid in the form our common stock, whether at our or the director's election, is issued through this plan.

In the event of a change in control of us (as defined in the 2003 equity incentive plan), all awards then outstanding under the 2003 equity incentive plan will become vested and, if applicable, exercisable, and any performance goals imposed with respect to then-outstanding awards will be deemed to be fully achieved. On July 31, 2007, a change in control of us (as defined in 2003 equity incentive plan) occurred as a result of the consummation of the Farallon Transaction (*See* "**Item 13. Certain Relationships and Related Transactions, Director Independence** ***Certain Relationships and Related Party Transactions*** *Transaction with Farallon Capital Management, L.L.C. and its affiliates*). Accordingly, all awards then outstanding became fully vested.

Outstanding Equity Awards at Fiscal Year-End

The following table presents information pertaining to all outstanding equity awards held by the named executive officers as of December 31, 2007, which consisted solely of stock options awarded during 2006 and 2007.

Outstanding Equity Awards at Fiscal Year-End 2007

		Option Awards			
Name	**Grant Date**	**Number of securities underlying unexercised options (#) exercisable**	**Number of securities underlying unexercised options (#) unexercisable**	**Option exercise price(d) ($)**	**Option expiration date**
Larry D. Willard President and Chief Executive Officer	July 27, 2006 March 8, 2007	200,000(a) 10,000(a)		10.74 11.28	July 27, 2016 July 27, 2016
Darren Parmenter Senior Vice President Finance	October 25, 2007	10,000(b)	40,000	12.06	October 25, 2012
Greg Vanek President of NLASCO, Inc.	October 25, 2007	10,000(b)	40,000	12.06	October 25, 2012
James F. Kimsey Former President and Chief Operating Officer	July 27, 2006 March 8, 2007	140,000(c) 7,000(c)		10.74 11.28	July 31, 2009(c) July 31, 2009(c)
Lawrence E. Kreider(e) Former Executive Vice President, Chief Financial Officer and Chief Information Officer	July 27, 2006 March 8, 2007	(e) (e)	(e) (e)		(e) (e)

(a)
These stock options became fully vested and exercisable as result of the consummation of the Farallon Transaction (*See* "**Item 13. Certain Relationships and Related Transactions, Director Independence** ***Certain Relationships and Related Party Transactions*** *Transaction with Farallon Capital Management, L.L.C. and its affiliates"*).

(b)
These stock options vest in five equal installments on each of October 25, 2007, 2008, 2009, 2010 and 2011.

(c)
These stock options became fully vested and exercisable as a result of the consummation of the Farallon Transaction (*See* "**Item 13. Certain Relationships and Related Transactions, Director Independence** ***Certain Relationships and Related Party Transactions*** *Transaction with Farallon Capital Management, L.L.C. and its affiliates*"). These options originally expired on July 27, 2016; however, due to his resignation on July 31, 2007, the expiration date was accelerated to July 31, 2009.

(d)

Represent the exercise prices of stock options held by the named executive officers, which are the closing market prices of Company common stock on the dates of grant of the stock options.

(e)
Mr. Kreider resigned from all positions with the Company and its subsidiaries effective June 20, 2007, and as a result, forfeited his right to all stock options held by him.

Option Exercises and Stock Vested

The table below shows the total number and the value of shares vested for each named executive officer in 2007. No named executive officer exercised any stock options in 2007.

Stock Vested Table for 2007

	Stock Awards	
Name	**Number of shares acquired on vesting(a) (#)**	**Value realized on vesting(b) ($)**
Larry D. Willard President and Chief Executive Officer		
Darren Parmenter Senior Vice President Finance		
Greg Vanek President of NLASCO, Inc.		
James F. Kimsey Former President and Chief Operating Officer		
Lawrence E. Kreider Former Executive Vice President, Chief Financial Officer and Chief Information Officer	1,000	11,910

(a)
Represents restricted shares that vested on February 18, 2007. These restricted shares vested based upon continued employment with the Company on that date. Excludes 2,000 unvested restricted shares that were forfeited as a result of his resignation on June 20, 2007.

(b)
Represents the value of stock awards that vested in 2007. The value is based on the closing market price of Company common stock on the date of vesting, or February 18, 2007 ($11.91), multiplied by the number of shares vesting.

EMPLOYMENT CONTRACTS, TERMINATION OF EMPLOYMENT AND CHANGE IN CONTROL ARRANGEMENTS

Set forth below is a summary of the employment agreement with Mr. Parmenter, the severance agreement with Mr. Kreider and a description of benefits payable following a change of control. The Compensation Committee believes that the arrangements described below serve our interests and the interests of our stockholders because they help secure the continued employment and dedication of our senior officers prior to or following a change of control without concern for his own continued employment. We believe that it is in the best interest of our stockholders to have plans in place that will allow management to pursue all alternatives for us without undue concern for their own financial security. We also believe that these agreements and arrangements are important as recruiting and retention devices, as most companies with which we compete for executive talent have similar agreements or arrangements in place for their senior employees.

Employment Contract

On October 25, 2007, we entered into an employment agreement with Darren Parmenter. The employment agreement is for a term of three years with an annual base salary of $275,000. Additionally, in accordance with the agreement, Mr. Parmenter is entitled to participate in all of our management incentive bonus plans and receive any annual performance bonus awarded to him by the Board of Directors pursuant to such plan. In 2007, Mr. Parmenter is entitled to a bonus of $137,500, which is payable in a lump sum in April 2008. The employment agreement provides that if Mr. Parmenter is terminated without reasonable cause, he will be entitled to (i) full vesting of any bonus or equity incentive awards, (ii) health benefits for a period of 18 months and (iii) a lump sum payment of (a) any accrued but unused vacation time, (b) one year of base salary, (c) the average annual bonus earned over the most recent years, and (d) the pro rata portion of the bonus for the year in which the termination occurs. The employment agreement also provides that if Mr. Parmenter is terminated as a result of his death or disability, he, or his estate, will be entitled to (i) full vesting of any bonus or equity incentive awards, (ii) in the case of disability, continued health benefits for a period of 18 months and (iii) a lump sum payment of (a) any earned but unpaid salary and previously accrued but unpaid bonuses and (b) the pro rata portion of the bonus for the year in which the termination occurs. The employment agreement provides that we shall pay Mr. Parmenter all accrued but unpaid amounts, if any, to which he is entitled under any of our compensation or benefit plans.

Under the employment agreement, Mr. Parmenter has agreed that during the period of employment and for 12 months following his termination: (i) he will not solicit any person who is employed by us or any of our affiliates or otherwise interfere with our employee relations; and (ii) he will not contact any of our customers, suppliers or other business contacts or otherwise interfere with our customer or supplier relations. Mr. Parmenter has also agreed all confidential records, material and information concerning the Company or its affiliates shall remain our exclusive property and Mr. Parmenter shall not divulge such information to any person.

Severance Agreement

We entered into a severance agreement, effective as of February 18, 2004, with Mr. Kreider. This severance agreement had a term of three years, with automatic one-year renewals commencing on the first anniversary of the severance agreement, unless either party to the agreement provided 60 days notice of non-renewal. The severance agreement provides that if, prior to a change in control, the executive's employment is terminated by us other than for "cause" (as defined in the severance agreement) or by the executive for any reason, the executive was entitled to receive continued payment of his then-current base salary, paid in accordance with our ordinary payroll schedule, for the one-year period immediately following termination of employment. As a result of Mr. Kreider's resignation in June 2007, we were obligated to pay Mr. Kreider his 2007 base salary ($330,000) in accordance with our ordinary payroll schedule for the one year period immediately following his resignation. Due to his resignation prior to the consummation of the Farallon Transaction, however, his unvested restricted stock and all of his stock options were forfeited.

This severance agreement also contained confidentiality provisions that apply indefinitely, and non-competition and non-solicitation provisions that apply during the employment period and for a one-year period thereafter. The severance agreement required us make an additional tax gross-up payment to the executive if any amounts paid or payable to the executive pursuant to his severance agreement or otherwise in connection with a change in control would be subject to the excise tax imposed on certain so-called "excess parachute payments" under Section 4999 of the Code.

Accelerated Benefits Upon a Change of Control

The non-qualified stock option agreements pursuant to which all option awards are granted provide for acceleration of vesting upon a change of control or the death of the option holder. Our 2003 equity incentive plan has a complex definition of "change in control" Generally speaking, a change in control occurs if: (i) with certain exceptions, any person becomes the owner of 50% or more of the combined voting power of our outstanding stock and other voting securities; (ii) a majority of the directors serving on our Board of Directors are replaced other than by new directors approved by at least two-thirds of the members of our Board of Directors; (iii) we are not the surviving company after a merger or consolidation; or (iv) with certain exceptions, our stockholders approve a plan of complete liquidation or dissolution or an agreement for the sale or disposition of all or substantially all of our assets is consummated.

Our 2003 equity incentive plan is a "single-trigger" plan, meaning that stock option acceleration occurs upon a change of control even if the option holder remains with us after the control change, regardless of whether options are assumed or substituted by the surviving company. On July 31, 2007, all stock option awards under our 2003 equity incentive plan outstanding before the completion of the Farallon Transaction vested in full.

The following table provides a quantitative delineation of monetary benefits from benefit plan acceleration that:

- were realized by our named executive officers no longer employed by us as a result of the Farallon Transaction (*See* "**Item 13. Certain Relationships and Related Transactions, Director Independence** ***Certain Relationships and Related Party Transactions*** *Transaction with Farallon Capital Management, L.L.C. and its affiliates*"), and

- may be realized by our named executive officers currently employed by us, if a change of control event, as defined in the plan(s), had occurred on the last business day of 2007.

In addition to acceleration of benefits upon a change of control event, the non-qualified stock option agreements pursuant to which all option awards are granted provide for acceleration of vesting upon the death of the option holder. No other rights of acceleration are provided for under the terms of the Company's benefit plans.

Accelerated Benefits Upon a Change of Control Table 2007

	Cash Payments	Option Awards	Stock Awards
Name	**Due under Mangement Incentive Plan(a) ($)**	**Value realized on acceleration and exercise under benefit plans(s)(b) ($)**	**Value realized on vesting under benefit plan(s) ($)**
Larry D. Willard President and Chief Executive Officer	500,000(c)	41,184(f)	
Darren Parmenter Senior Vice President Finance	178,750(c)	(g)	
Greg Vanek President of NLASCO, Inc.	206,250(c)	(g)	
James F. Kimsey Former President and Chief Operating Officer	151,667(d)	28,829(f)	
Lawrence E. Kreider Former Executive Vice President, Chief Financial Officer and Chief Information Officer	(e)	(e)	

(a) Pursuant to the provisions of the management incentive plan under which cash bonus awards are made, if a change of control event, as defined under the plan, were to occur while any awards under the plan remain outstanding, then any applicable performance period would be deemed to have been completed and the respective performance goals would be deemed to have been fulfilled at the maximum level of performance set forth therein. Under such circumstances each participant in the bonus plan would be entitled to payment of the pro-rata portion of such bonus amount, payable within 10 business days following such a change of control event, regardless of whether then employed by the Company. The Company would have the right to withhold from any bonus amounts to be paid any taxes it may be required to withhold or to make such other arrangements for withholding as it deems satisfactory.

(b) Pursuant to the provisions of the 2003 equity incentive plan under which issuances of stock option awards are made, if a change of control event, as defined under the plan, were to occur, all awards then outstanding would become vested and, if applicable, exercisable and any applicable performance goals with respect thereto would be deemed to be fully achieved. The Company has the discretion to require payment by the option holder of any amount it deems necessary to satisfy its liability to withhold income or any other taxes incurred by reason of exercise of options. Further, pursuant to the terms of the non-qualified stock option agreements that govern the issuance of options, upon the death of the option holder all options become fully vested and exercisable.

(c) Represents the amount of cash bonus that would have been due to Messrs. Willard, Parmenter and Vanek under the management incentive plan upon a change in control, if the event occurred on the last business day of 2007.

(d) Represents the actual amount paid to Mr. Kimsey as a result of the consummation of the Farallon Transaction ((*See* "**Item 13. Certain Relationships and Related Transactions, Director Independence** ***Certain Relationships and Related Party Transactions*** *Transaction with Farallon Capital Management, L.L.C. and its affiliates*").

(e)
Mr. Kreider forfeited his potential cash bonus, stock options and unvested restricted stock effective upon his resignation on June 20, 2007, which was prior to the consummation of the Farallon Transaction.

(f)
Represents the benefit realized by Messrs. Willard and Kimsey when the unvested portions of their respective stock options became fully vested and exercisable as a result of the Farallon Transaction. The value realized assumes the exercise of all their respective stock options that became vested as a result of the event and is calculated as the difference between the option exercise price per share and the closing market price on July 31, 2007 ($11.36).

(g)
Represents the value of unvested stock option grants that would vest upon a change in control, assuming a change of control event on the last business day of 2007. The value realized assumes the exercise of all their respective stock options that became vested as a result of the event and is calculated as the difference between the option exercise price per share and the closing market price on December 31, 2007 ($10.92).

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During fiscal year 2007, directors Carl B. Webb (Chairman), Gerald J. Ford and W. Joris Brinkerhoff served on the Compensation Committee. During fiscal year 2007:

(i)
none of our executive officers served as a member of the compensation committee of another entity, one of whose executive officers served on our compensation committee;

(ii)
none of our executive officers served as a director of another entity, one of whose executive officers served on our compensation committee; and

(iii)
none of our executive officers served as a member of the compensation committee of another entity, one of whose executive officers served as one of our directors.

In order to raise $80 million to provide a source of funding for a portion of the acquisition of NLASCO, Inc., we conducted a rights offering to our stockholders. In the rights offering, all holders of our common stock as of the record date, December 19, 2006, received one non-transferable right to purchase 0.242 shares of our common stock for each share held. The price at which the additional shares were purchased was $8.00 per share. Gerald J. Ford, one of our directors and the beneficial owner of approximately 16.0% of our common stock at that date, through an affiliate, Hunter's Glen/Ford, Ltd., backstopped the rights offering. This means it agreed to purchase all shares of our common stock that remained unsubscribed for in the rights offering (other than those beneficially acquired by Mr. Ford in a private placement). Hunter's Glen/Ford, Ltd. purchased 391,549 shares that were not purchased in the rights offering by the stockholders of record on the record date, at the rights offering price per share of $8.00. Mr. Ford, directly and through an affiliate, ARC Diamond, LP, agreed to purchase in a private placement the full number of shares of our common stock that they would otherwise have been entitled to subscribe for in the rights offering at $8.00 per share. Accordingly, Mr. Ford, ARC Diamond LP and Hunter's Glen/Ford, Ltd. acquired an aggregate of 1,759,400 additional shares of our common stock pursuant to this private placement. As of the date of this Annual Report on Form 10-K, Mr. Ford is deemed to be the beneficial owner of 9,421,642 shares of our common stock, or 16.7% of our outstanding common stock.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

SECURITY OWNERSHIP

Principal Stockholders

The following table sets forth information regarding our common stock beneficially owned on March 1, 2008 by any person or "group," as that term is used in Section 13(d)(3) of Exchange Act, known to us to beneficially own more than five percent of the outstanding shares of our common stock.

Name and Addresss of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percent of Class(a)
Gerald J. Ford(b) 200 Crescent Court, Suite 1350 Dallas, Texas 75201	9,421,642	16.7%
Farallon Funds and affiliated entities(c) c/o Farallon Capital Management, L.L.C. One Maritime Plaza, Suite 2100 San Francisco, CA 94111	5,635,582	10.0%
Wells Fargo & Company and subsidiaries(d) 420 Montgomery Street San Francisco, CA 94163	5,480,006	9.7%

(a) Based on 56,465,021 shares of common stock outstanding on March 1, 2008. Shares issuable under instruments to purchase our common stock that are currently exercisable within 60 days of March 1, 2008, are treated as if outstanding for computing the percentage ownership of the person holding these instruments, but are not treated as outstanding for purposes of computing the percentage ownership of any other person.

(b) The shares beneficially owned by Mr. Ford include: (i) 9,026,607 shares of common stock owned by ARC Diamond, LP and (ii) 391,549 shares of common stock owned by Hunter's Glen/Ford, Ltd. Mr. Ford is the sole stockholder and president of ARC Diamond GP, Inc, the general partner of ARC Diamond, LP, a general partner of Hunter's Glen/Ford, Ltd. and the sole stockholder of Ford Diamond Corporation, the other general partner of Hunter's Glen/Ford, Ltd. Mr. Ford has sole voting and dispositive power of these shares.

(c) Based solely on Schedule 13D (Amendment No. 2) filed with the SEC on August 3, 2007, includes (i) 2,127,546 shares of common stock beneficially owned by Farallon Capital Partners, L.P., (ii) 2,555,539 shares of common stock beneficially owned by Farallon Capital Institutional Partners, L.P., (iii) 147,425 shares of common stock beneficially owned by Farallon Capital Institutional Partners II, L.P., (iv) 181,580 shares of common stock beneficially owned by Farallon Capital Institutional Partners III, L.P., (v) 67,813 shares of common stock beneficially owned by Tinicum Partners, L.P., (vi) 326,509 shares of common stock beneficially owned by Farallon Capital Offshore Investors II, L.P. (each of the preceding entities referred to collectively as the "Farallon Funds"), and (vii) 247,170 shares of common stock beneficially owned by Farallon Capital Management, L.L.C. (the "Management Company" and, with respect to the shares held by a certain account managed by the Management Company, such account, identified herein as the "Managed Account").

The common stock reported by the Farallon Funds is owned directly by the Farallon Funds and each of the funds has shared voting and dispositive power with respect to the shares owned by it. The shares of common stock reported by the Management Company on behalf of the Managed

Account are owned directly by the Managed Account. Farallon Partners, L.L.C., the general partner of each of the Farallon Funds (the "Farallon General Partner"), in its capacity as general partner to the Farallon Funds, may be deemed to be the beneficial owner of all such shares owned by the Farallon Funds and has shared voting and dispositive power with respect to all such shares. The Management Company, in its capacity as investment adviser to the Managed Account, may be deemed to be the beneficial owner of all such shares owned by the Managed Account and has shared voting and dispositive power with respect to all such shares. In addition, each of the following persons, who are managing members of both the Farallon General Partner and the Management Company, in such capacity, may each be deemed to be the beneficial owner of all such shares owned by the Farallon Funds and the Managed Account: (i) Chun R. Ding, (ii) William F. Duhamel, (iii) Richard B. Fried, (iv) Monica R. Landry, (v) Douglas M. MacMahon, (vi) William F. Mellin, (vii) Stephen L. Millham, (viii) Jason E. Moment, (ix) Ashish H. Pant, (x) Rajiv A. Patel, (xi) Derek C. Schrier, (xi) Thomas F. Steyer and (xii) Mark C. Wehrly. Each of the Management Company, the Farallon General Partner and the foregoing managing members disclaims beneficial ownership of any of such shares.

(d) Based solely on Schedule 13G (Amendment No. 1) filed with the SEC on January 23, 2008. Includes Wells Fargo & Company, Wells Capital Management Incorporated and Wells Fargo Funds Management, LLC. Wells Fargo & Company, Wells Capital Management Incorporated and Wells Fargo Funds Management, LLC have sole voting power of 5,427,038, 1,312,424 and 4,114,614 shares, respectively. Wells Fargo & Company, Wells Capital Management Incorporated and Wells Fargo Funds Management, LLC have sole dispositive power of 5,480.006, 5,365,013 and 114,993 shares, respectively.

Security Ownership of Management

The following table sets forth information regarding the number of shares of our common and preferred stock beneficially owned on March 1, 2008, by:

- each of our directors;
- each of our named executive officers; and
- all of our directors and named executive officers presently serving, as a group.

Except as otherwise set forth below, the address of each of the persons listed below is c/o Hilltop Holdings Inc., 200 Crescent Court, Suite 1330, Dallas, Texas 75201. Except as otherwise indicated in the footnotes to this table, the persons named in the table have specified that they have sole voting and

investment power with respect to all shares of stock shown as beneficially owned by them, subject to any applicable community property law.

	Common Stock		Series A Cumulative Redeemable Preferred Stock

All Directors and Named Executive Officers, as a group (10 persons)(j)	11,457,196	20.2%	10,000	*

* Represents less than 1% of the outstanding shares of such class.

(a) Based on 56,465,021 shares of common stock outstanding on March 1, 2008. Shares issuable under instruments to purchase our common stock that are currently exercisable within 60 days of March 1, 2008, are treated as if outstanding for computing the percentage ownership of the person holding these instruments, but are not treated as outstanding for purposes of computing the percentage ownership of any other person.

(b) Based on 5,000,000 shares of Series A Cumulative Redeemable Preferred Stock outstanding on March 1, 2008.

(c) Includes 62,100 shares of common stock held in an IRA account for the benefit of Mr. Bobbitt.

(d) The shares beneficially owned by Mr. Ford include: (i) 9,026,607 shares of common stock owned by ARC Diamond, LP and (ii) 391,549 shares of common stock owned by Hunter's Glen/Ford, Ltd. Mr. Ford is the sole stockholder and president of ARC Diamond GP, Inc, the general partner of ARC Diamond, LP, a general partner of Hunter's Glen/Ford, Ltd. and the sole stockholder of Ford Diamond Corporation, the other general partner of Hunter's Glen/Ford, Ltd. Mr. Ford has sole voting and dispositive power of these shares.

(e) Includes 210,000 shares of common stock acquirable pursuant to the exercise of stock options. Also includes 1,116 shares of common stock held in individual trusts for Mr. Willard's three grandchildren. Mr. Willard is the custodian of these trusts and, therefore, may be deemed to beneficially own the shares held in the trusts. Mr. Willard disclaims beneficial ownership of the shares held in those trusts.

(f)

Includes 10,000 shares of common stock acquirable pursuant to the exercise of a stock option. Excludes 40,000 shares of common stock acquirable pursuant to the exercise of a stock option that will not vest with 60 days of March 1, 2008.

(g)

Includes 10,000 shares of common stock acquirable pursuant to the exercise of a stock option. Excludes 40,000 shares of common stock acquirable pursuant to the exercise of a stock option that will not vest with 60 days of March 1, 2008.

(h)

Mr. Kimsey resigned from all positions with the Company on July 31, 2007. Includes (i) 37,185 shares of common stock held in an IRA account for the benefit of Mr. Kimsey and (ii) 147,000 shares of common stock acquirable pursuant to the exercise of stock options.

(i)

Mr. Kreider resigned from all positions with the Company on June 20, 2007.

(j)

Represents eleven persons and includes 230,000 shares of common stock acquirable pursuant to the exercise of stock options. Excludes 80,000 shares of common stock acquirable by our current directors and named executive officers pursuant to the exercise of stock options that will not vest within 60 days of March 1, 2008 and all shares beneficially owned by our named executive officers no longer employed with us.

EQUITY COMPENSATION PLAN INFORMATION

The following table provides information regarding the status of our existing equity compensation plans at December 31, 2007.

	Equity Compensation Plan Information		
Plan Category	**Number of securities to be issued upon exercise of outstanding options, warrants and rights**	**Weighted-average exercise price of outstanding options, warrants and rights**	**Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in first column)**
Equity compensation plans approved by security holders*	541,000	$ 11.00	856,612
Equity compensation plans not approved by security holders			
Total	541,000	$ 11.00	856,612

*

Excludes shares of restricted stock granted, as all of these shares are vested. No exercise price is required to be paid upon the vesting of restricted shares of common stock granted.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

General

Transaction with related persons are governed by our Code of Business Conduct and Ethics, which applies to all officers, directors and employees. This code covers a wide range of potential activities, including, among others, conflicts of interest, self-dealing and related party transactions. Waiver of the policies set forth in this code will only be permitted when circumstances warrant. Such waivers for directors and executive officers, or that provide a benefit to a director or executive officer, may be made only by the board of directors, as a whole, or the audit committee of the board of directors and must be promptly disclosed as required by applicable law or regulation. Absent such a review and

approval process in conformity with the applicable guidelines relating to the particular transaction under consideration, such arrangements are not permitted.

Transaction with Farallon Capital Management, L.L.C. and its affiliates.

On July 31, 2007, we closed the sale of certain of our assets, including the operating assets of our manufactured home businesses, to American Residential Communities LLC, an affiliate of Farallon Capital Management, L.L.C., or Farallon, Helix Funds LLC and GEM Realty Capital, Inx. We received gross proceeds of $889.3 million in cash, which represents the amount of the purchase price of $1.794 billion less the indebtedness assumed by American Residential Communities LLC. We recorded a gain on the sale of the manufactured home business of $366.9 million in the twelve months ended December 31, 2007. Farallon and its affiliates were the beneficial owner of 5,653,582 shares of our common stock, or ten percent of our outstanding common stock, on the date the transaction was consummated. The consummation of this transaction constituted a change in control of us under certain of our benefit plan, resulting the acceleration and payment of those benefits to participants.

The NLASCO Acquisition.

ARC Insurance Holdings Inc., or Holdings, a subsidiary of us, on the one hand, and C. Clifton Robinson, C.C. Robinson Property Company, Ltd. and The Robinson Charitable Remainder Unitrust, on the other hand, entered into a stock purchase agreement, dated as of October 6, 2006, which is referred to as the NLASCO Agreement. Pursuant to the NLASCO Agreement, on January 31, 2007, Holdings acquired all of the outstanding shares of capital stock of NLASCO, Inc., or NLASCO, a privately held property and casualty insurance holding company domiciled in the state of Texas. In exchange for the stock, NLASCO's shareholders, consisting of C. Clifton Robinson and affiliates, as specified above, received $105.75 million in cash and 1,218,880 shares of our common stock issued to Mr. Robinson, for a total consideration of $122.0 million. The NLASCO Agreement included customary representations, warranties and covenants, as well as indemnification provisions, and the purchase price is subject to specified post-closing adjustments that have the potential to either increase or reduce the aggregate consideration paid by Holdings and us in this regard. The parties also entered into several ancillary agreements, including a non-competition agreement, a registration rights agreement, a release, employment agreements and a share lock-up agreement.

In order to raise $80 million to provide a source of funding for a portion of the acquisition of NLASCO, we conducted a rights offering to our stockholders. In the rights offering, all holders of our HTH common stock as of the date of record, December 19, 2006, received one non-transferable right to purchase 0.242 shares of our common stock for each share held. The price at which the additional shares were purchased was $8.00 per share. The rights offering expired on January 23, 2007, and the Company issued approximately 7.8 million shares of the common stock to existing shareholders upon completion of the rights offering. In addition, Gerald J. Ford, one of our directors and the beneficial owner of approximately 16.0% of our common stock as of the record date, through an affiliate, Hunter's Glen/Ford, Ltd., backstopped the rights offering. This means it agreed to purchase all shares of common stock that remained unsubscribed for in the rights offering (other than those beneficially acquired by Mr. Ford in a private placement). Pursuant that backstop, Hunter's Glen/Ford, Ltd. purchased 391,549 shares that were not purchased in the rights offering by the stockholders of record on the record date at the rights offering price per share of $8.00. Mr. Ford, directly and through an affiliate, ARC Diamond, LP, agreed to purchase in a private placement the full number of shares of our common stock that they would otherwise have been entitled to subscribe for in the rights offering at $8.00 per share. Accordingly, Mr. Ford, ARC Diamond LP and Hunter's Glen/Ford, Ltd. acquired an aggregate of 1,759,400 additional shares of our common stock pursuant to this private placement. As of the date of this Annual Report on Form 10-K, Mr. Ford is deemed to be the beneficial owner of 9,421,642 shares of our common stock, or 16.7% of our outstanding common stock.

In addition, Flexpoint Fund, L.P., a fund managed by Flexpoint Partners, LLC of Chicago, Illinois, invested $20 million to purchase our common stock at the leading ten-day average market price of our common stock on the date the agreement was signed, subject to certain anti-dilution provisions. Mr. Ford is a limited partner of Flexpoint Fund, L.P, which is managed by Flexpoint Partners, LLC. As a limited partner, Mr. Ford is *pari passu* with all other limited partners and has no financial interest in, or management authority of, its managing general partner.

C. Clifton Robinson relationship with ARC.

In furtherance of the terms of the NLASCO Agreement, C. Clifton Robinson, Chairman of NLASCO and a member of our board of directors, entered into certain ancillary agreements with us, including, among others, an employment agreement, a non-competition agreement, a lock-up agreement and a registration rights agreement.

In conjunction with the closing of the NLASCO acquisition, NLASCO entered into an employment agreement with C. Clifton Robinson that provides that he will serve as chairman of NLASCO and will be paid $100,000 a year. In addition, NLASCO entered into an employment agreement with Mr. Robinson's son, Gordon B. Robinson, the former vice chairman and deputy chief executive officer of NLASCO, pursuant to which he will serve in an advisory capacity to NLASCO and for which he will be paid $100,000 per year. Each employment agreement is for a one-year term with automatic one-year extensions by agreement of the parties. The employment agreements also include non-competition and non-solicitation provisions similar to that in the non-competition agreement discussed below, but with a term until two years after the termination of employment. Further, each of the Robinsons entered into a non-competition agreement pursuant to which he has agreed not to, directly or indirectly, engage or invest in, own, manage, operate, finance, control, or participate in the ownership, management, operation, financing, or control of, be employed by, lend credit to, or render services to, any business whose products, services or activities compete with those of NLASCO or any of its subsidiaries within certain states. Each non-competition agreement also includes customary non-solicitation provisions. The term of the non-competition agreements is five years. Finally, C. Clifton Robinson executed a share lock-up agreement pursuant to which he has agreed not to offer, sell, contract to sell, hypothecate, pledge, sell or grant any option, right or warrant to purchase, or otherwise dispose of, or contract to dispose of, our common stock until 20 months after the closing date of the NLASCO acquisition. Upon the closing of the NLASCO acquisition in January 2007, NLASCO became a wholly owned subsidiary of us.

In connection with the closing of our acquisition of NLASCO, and the issuance of shares of our common stock to Mr. Robinson, as described above, on January 31, 2007, we entered into a Registration Rights Agreement, or the Robinson Registration Rights Agreement, with Mr. Robinson. In accordance with that agreement, we have agreed to prepare and file with the SEC, within 18 months after the date of the Robinson Registration Rights Agreement, a registration statement with respect to the resale of the 1,218,880 shares of our common stock issued to Mr. Robinson.

Mr. Robinson was appointed to our board of directors in March 2007 pursuant to the terms of the NLASCO Agreement.

Assumption of NLASCO, Inc. Subsidiary Office Leases.

With the acquisition of all of the capital stock of NLASCO, we also assumed all assets and liabilities of its wholly owned subsidiaries. In that regard, we now lease office space for NLASCO and its affiliates in Waco, Texas from affiliates of Mr. Robinson, a member of our board of directors. There are three separate leases. The first lease is a month-to-month lease for office space at a rate of $900 per month. The second lease is a month-to-month lease at a monthly rental rate of $3,500 per month. The third lease requires payments of $40,408 per month and expires on December 31, 2009, but does

have renewal options at the discretion of the lessee. Aggregate office space under lease with regard to the foregoing is approximately 33,800 square feet.

Larry D. Willard prior affiliation with Wells Fargo Bank, N.A.

Mr. Willard, a director of the Company since June 30, 2005, Chairman of the Board from September 28, 2005 to August 2007 and Chief Executive Officer since September 28, 2005, retired as Chairman of the Board of Wells Fargo Bank, N.A., New Mexico Region, where he had served as Regional President of the New Mexico and West Texas Region of Wells Fargo from 1998 through 2004. Mr. Willard continues to function in an honorarium capacity as an uncompensated advisory director on behalf of Wells Fargo.

From October 2005 through February 2006, we conducted an analysis of competitive advantages and disadvantages with regard to the placement of our banking relationship, deciding in February 2006 to transfer our commercial banking relationship to Wells Fargo Bank. The decision to change banking relationships was based upon pricing, service and product considerations, and neither Wells Fargo nor Mr. Willard received any compensation or special consideration in the decision-making process as a result of their prior affiliation or the initiation of this business relationship.

Directors Holding OP Units.

One of our directors, J. Markham Green., held OP units through which Mr. Green had deferred gains associated with certain properties we formerly owned. The decision by our board of directors to dispose of these properties in which Mr. Green had an interest could have tax consequences for Mr. Green.

In connection our decision to sell these properties in the Farallon Transaction described above, our board of directors determined that Mr. Green did not have a material financial interest in the transaction that was different from the interests of stockholders generally, and accordingly, did not require him to abstain from voting or participating in discussions with respect to the transaction.

Consultant

On December 12, 2007, we granted 40,000 cash-settled stock appreciation rights, or SARs, to a related party consultant of the Company at an exercise price of $10.96 per share, the closing price of HTH's common stock on the New York Stock Exchange on the date of grant. Under the terms of the grant, 20% of the SARs vested on grant date, and the balance of the SARs vest ratably over a four-year period with 20% of the award amount vesting on the first anniversary of the award and 20% each anniversary thereafter. The SARs have a term of five years from the date of the award. Upon exercise, the consultant is entitled to receive in cash, the difference between the current market price and the exercise price. Vesting is accelerated in certain circumstances, including in the event of the death of the award recipient or in the event of a change of control of the Company. The fair values for the SARs granted during the year ended December 31, 2007 were estimated using the Black-Scholes option pricing model with an expected volatility of 25%, a risk-free interest rate of 3.5%, a dividend yield rate of zero, a five-year expected life of the options, and a forfeiture rate of fifteen percent. Based on calculations using the Black-Scholes option pricing model, the grant date fair value of the SARs granted during the quarter approximated $2.73 per share. The expected volatility is based on the historical volatility in the price of our common stock since our IPO. The risk-free interest rate is the five-year Treasury rate, based on the term of the SARs. The dividend yield assumption is based on our history and expectation of dividend payments on common stock. The expected life of the SARs represents the period in which the stock options are expected to remain outstanding.

DIRECTOR INDEPENDENCE

Of our nine directors, six have been determined by our board of directors to be independent for purposes of the New York Stock Exchange's listing standards. In determining director independence, we reviewed whether any transactions or relationships currently exist, or during the past three years existed, between each director and us and our subsidiaries, affiliates and equity investors or independent auditors. Our board of directors also examined whether there were any transactions or relationships between each director and members of our senior management or their respective affiliates. As a result of this review, our board of directors affirmatively determined at a meeting held March 6, 2008, that all of our directors, except for Messrs. Ford, Willard and Robinson, were independent under the standards set forth in the Company's Director Independence Criteria and by the New York Stock Exchange and this group of directors is hereinafter referred to, both individually and collectively, as "independent." The full text of the Director Independence Criteria was attached as Appendix A to the 2007 Annual Meeting of Stockholders proxy statement and also can be found in the "Investor Relations Governance" section of our website at www.hilltop-holdings.com. A copy also may be obtained upon request by writing the Company's Corporate Secretary at 200 Crescent Court, Suite 1330, Dallas, Texas 75201.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

INDEPENDENT AUDITOR FEES

For the fiscal years ended December 31, 2007 and 2006, the total fees paid to our independent registered public accounting firm, PricewaterhouseCoopers LLP, were as follows:

	Fiscal Year Ended	
	2007	**2006**
Audit Fees	$ 1,903,360	$ 1,705,000
Audit-Related Fees	97,000	360,000
Tax Fees		
All Other Fees	2,400	2,400
Total	$ 2,002,760	$ 2,067,400

Audit Fees

Represents fees billed for the audit of the Company's consolidated financial statements for the years ended December 31, 2007 and 2006, for the reviews of the consolidated financial statements included in the Company's Quarterly Reports on Form 10-Q and for other attest services primarily related to comfort letters and consents associated with SEC registration statements for the Company, including our operating partnership subsidiary, Affordable Residential Communities LP. The increase in fees from 2006 to 2007 is primarily attributable to SOX work, related to the NLASCO acquisition.

Audit-Related Fees

In 2006 and 2007, these fees related to due diligence work performed in connection with our acquisition of NLASCO in January 2007.

All Other Fees

In 2006 and 2007, these fees related to subscriptions for accounting references and financial statement disclosure checklists.

AUDIT COMMITTEE PRE-APPROVAL POLICY

In accordance with applicable laws and regulations, the audit committee reviews and pre-approves any non-audit services to be performed by PricewaterhouseCoopers LLP to ensure that the work does not compromise their independence in performing their audit services. The audit committee also reviews and pre-approves all audit services. In some cases, pre-approval is provided by the full committee for up to a year, and relates to a particular category or group of services and is subject to a specific budget. In other cases, the chairman of the audit committee has the delegated authority from the committee to pre-approve additional services, and such pre-approvals are then communicated to the full audit committee.

The policy contains a de minimis provision that operates to waive the approval or pre-approval requirement and provide retroactive approval for permissible non-audit services under certain circumstances. No services were provided by PricewaterhouseCoopers LLP during either 2006 or 2007 that fell under this provision.

Report of Independent Registered Public Accounting Firm

To The Board of Directors and Stockholders of Hilltop Holdings Inc.:

In our opinion, the consolidated financial statements listed in the index appearing under Item 15(a)(1) present fairly, in all material respects, the financial position of Hilltop Holdings Inc. and its subsidiaries (the "Company") at December 31, 2007 and 2006, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2007 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedules listed in the index appearing under Item 15(a)(2) present fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedules, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control Over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedules, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2007, 2006 and 2005

1. Business, Basis of Presentation and Summary of Significant Accounting Policies

Business

Hilltop Holdings Inc., formerly known as Affordable Residential Communities Inc., or Hilltop, or HTH, or the Company, was organized in July 1998 as a Maryland corporation that was engaged in the acquisition, renovation, repositioning and operation of primarily all-age manufactured home communities, the retail sale and financing of manufactured homes, the rental of manufactured homes and other related businesses, all exclusively to residents in its communities.

On January 31, 2007, we acquired all of the stock of NLASCO, Inc., or NLASCO, a privately held property and casualty insurance holding company. NLASCO is a Delaware corporation that specializes in providing fire and homeowners insurance to low value dwellings and manufactured homes primarily in Texas and other areas of the south, southeastern and southwestern United States. NLASCO operates through its wholly-owned subsidiaries, National Lloyds Insurance Company, or NLIC and American Summit Insurance Company, or ASIC. Texas is our largest market area and comprises approximately 74% of our business, with Arizona (10%), Tennessee (7%), Oklahoma (4%) Louisiana (2%), and the remaining states in which we do business makes up the other 3%.

On July 31, 2007, the Company closed the sale of the manufactured home communities, retail sales and financing of manufactured home businesses to American Residential Communities LLC as discussed in Note 14 and retained ownership of the recently acquired NLASCO. In conjunction with this sale, the Company transferred the rights to the "Affordable Residential Communities" name, changed its name to Hilltop Holdings Inc., and moved its headquarters to Dallas, Texas. Our insurance operations are headquartered in Waco, Texas.

Our common stock is listed on the New York Stock Exchange under the symbol "HTH". Our Series A Cumulative Redeemable Preferred Stock is listed on the New York Stock Exchange under the symbol "HTH-PA". We have no public trading history prior to February 12, 2004.

Basis of Presentation

The financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, or GAAP, and in conformity with the rules and regulations of the Securities and Exchange Commission.

The preparation of financials statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent liabilities, and the reported amount of revenues and expenses during the reported period. Operating results and cash flows of NLASCO are for the eleven months from the date of acquisition, January 31, 2007, through December 31, 2007. Actual results may differ from previously estimated amounts.

The consolidated financial statements presented herein reflect all adjustments that are necessary to fairly present the financial position, results of operations and cash flows of the Company, and all such adjustments are of a normal and recurring nature.

We have reclassified certain prior period amounts to conform to the current year presentation.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

1. Business, Basis of Presentation and Summary of Significant Accounting Policies (Continued)

Summary of Significant Accounting Policies

Investment Securities

Investment securities at December 31, 2007 consisted of U.S. Government, mortgage-backed, corporate debt and equity securities. We classify our fixed maturities in one of three categories: trading, available-for-sale or held-to-maturity. Our equity securities are classified as trading or available-for-sale. Trading securities are bought and held principally for the purpose of selling them in the near term. Held-to-maturity debt securities are those securities in which we have the ability and intent to hold the security until maturity. All securities not included in trading or held-to-maturity are classified as available-for-sale.

Trading and available-for-sale securities are recorded at fair value. Held-to-maturity debt securities are recorded at amortized cost, adjusted for the amortization or accretion of premiums or discounts. Unrealized holding gains and losses on trading securities are included in earnings. Unrealized holding gains and losses, net of the related tax effect, on available-for-sale securities are excluded from earnings and are reported as a separate component of other comprehensive income until realized. Realized gains and losses from the sale of trading and available-for-sale securities are determined on a specific-identification basis.

The Company regularly reviews its investment securities to assess whether the amortized cost is impaired and if impairment is other than temporary. A decline in the market value of any available-for-sale or held-to-maturity security below cost that is deemed to be other-than-temporary results in a reduction in carrying amount to fair value. The impairment is charged to earnings and a new cost basis for the security is established. To determine whether impairment is other-than-temporary, the Company considers whether it has the ability and intent to hold the investment until a market price recovery and considers whether evidence indicating the cost of the investment is recoverable outweighs evidence to the contrary. Evidence considered in this assessment includes the reasons for the impairment, the severity and duration of the impairment, changes in value subsequent to year-end, and forecasted performance of the investee.

Premiums and discounts are amortized or accreted over the life of the related held-to-maturity or available-for-sale security as an adjustment to yield using the effective-interest method. Dividend and interest income are recognized when earned.

Cash and Cash Equivalents

Cash and cash equivalents include all cash and liquid investments with maturities less than 90 days from the date of purchase.

Premiums Receivable

Premiums receivable include premiums written and not yet collected. The Company regularly evaluates premiums receivable and establishes valuation allowances as appropriate. At December 31, 2007, the Company determined no valuation allowance was necessary.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

1. Business, Basis of Presentation and Summary of Significant Accounting Policies (Continued)

Deferred Acquisition Costs

Costs of acquiring insurance vary with and are primarily related to the production of new and renewal business, primarily consisting of commissions, premium taxes and underwriting expenses, and are deferred and amortized over the terms of the policies or reinsurance treaties to which they relate. Proceeds from reinsurance transactions that represent recovery of acquisition costs reduce applicable unamortized acquisition costs in such a manner that net acquisition costs are capitalized and charged to expense in proportion to net revenue recognized. Future investment income is considered in determining the recoverability of deferred acquisition costs. The Company regularly reviews the categories of acquisition costs that are deferred and assesses the recoverability of this asset. A premium deficiency and a corresponding charge to income is recognized if the sum of the expected loss and loss adjustment expenses, unamortized acquisition costs, and maintenance costs exceed related unearned premiums and anticipated investment income. At December 31, 2007, there was no premium deficiency.

Reinsurance

In the normal course of business, the Company seeks to reduce the loss that may arise from catastrophes or other events that cause unfavorable underwriting results by reinsuring certain levels of risk in various areas of exposure with other insurance enterprises or reinsurers. Amounts recoverable from reinsurers are estimated in a manner consistent with the reinsured policy.

The Company accounts for reinsurance contracts under the provisions of Statement of Financial Accounting Standards, or SFAS 113, "*Accounting and Reporting for Reinsurance on Short-Duration and Long-Duration Contracts*." Net premiums earned, losses and LAE and policy acquisition and other underwriting expenses are reported net of the amounts related to reinsurance ceded to other companies. Amounts recoverable from reinsurers related to the portions of the liability for losses and LAE and unearned premiums ceded to them are reported as assets. Reinsurance assumed from other companies, including assumed premiums written and earned and losses and LAE, is accounted for in the same manner as direct insurance written.

Goodwill and Other Intangible Assets

Goodwill is the excess of cost over fair value of net assets acquired. Goodwill is tested annually for impairment and is tested more frequently if events and circumstances indicate that the asset might be impaired. An impairment loss is recognized to the extent that the carrying amount exceeds the asset's fair value. For goodwill, the impairment determination is made at the reporting unit level and consists of two steps. First, the Company determines the fair value of a reporting unit and compares it to its carrying amount. Second, if the carrying amount of a reporting unit exceeds its fair value, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation, in accordance with FAS 141, *Business Combinations*. The residual fair value after this allocation is the implied fair value of the reporting unit goodwill. In connection with an acquisition made by NLASCO prior to its acquisition by HTH, the Company may make additional contingent acquisition payments of up to $1.5 million based on attainment of certain financial targets. Other indefinite lived intangible

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

1. Business, Basis of Presentation and Summary of Significant Accounting Policies (Continued)

assets consist of $3.0 million of estimated fair value of state licenses acquired in the NLASCO purchase.

Finite Lived Intangible Assets

We record finite lived intangible assets at the estimated fair value of the assets acquired and amortize the assets over their estimated useful lives. The following finite lived intangible assets were acquired when the Company purchased NLASCO (in thousands).

	Estimated Fair Value	Estimated Useful Life
Customer relationships	$ 6,100	12 years
Agent relationships	3,600	13 years
Trade name	3,500	15 years
Software	1,500	5 years
Total	$ 14,700	

Customer and agent relationships are amortized using the sum of the years digits method to approximate the non-renewal rate of customers and attrition of agents. The trade name and software are amortized using the straight-line method.

Property and Equipment

We carry property and equipment at cost, less accumulated depreciation. We expense maintenance and repairs as incurred. Depreciation is computed primarily using the straight-line method over the estimated useful lives of the assets. The estimated useful lives of the various classes of furniture and equipment assets are as follows:

Asset Class	Estimated Useful Lives (Years)
Furniture and other equipment	5
Computer software and hardware	3

Loan Origination Costs

We capitalize loan origination costs associated with financing of debt. These costs are amortized on a straight-line basis, which approximates the effective interest method, over the repayment term of the loans. We amortized $0.2 million of loan origination costs for the years ended December 31, 2007 and 2006, and $0.1 million of loan origination costs in 2005, which is included in interest expense. Accumulated amortization was $0.5 million and $0.3 million as of December 31, 2007 and 2006, respectively.

Other Assets

Included in prepaid expenses and other assets are prepaid insurance of $1.1 million, $0.7 million held by the state as guaranty assessments, and other miscellaneous prepaid expenses.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

1. Business, Basis of Presentation and Summary of Significant Accounting Policies (Continued)

Reserve for Losses and Loss Adjustment Expenses

The liability for losses and loss adjustment expenses includes an amount determined from loss reports and individual cases and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on estimates and, while management believes that the amount is adequate, the ultimate liability may be in excess of or less than the amounts provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed, and any adjustments are reflected in earnings currently. The liability for losses and loss adjustment expenses has not been reduced for reinsurance recoverable.

Income Taxes

In 2005 and prior years, we operated in a manner intended to enable us to qualify as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended. Under those sections, a REIT which distributes at least 90% of its REIT taxable income to its stockholders each year and which meets certain other conditions will not be taxed on that portion of its taxable income which it distributes to its stockholders. In 2006 we revoked our election as a REIT for U.S. Federal income tax purposes. We have been in a taxable loss position since our inception and as a result we have substantial net operating loss carry-forwards to offset operating profits and capital gains from profits from asset sales. We have established a tax provision under the rules set forth in Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*, or SFAS 109 beginning on January 1, 2006. We allocate income taxes between continuing and discontinued operations in accordance with SFAS 109, specifically paragraph 140.

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recorded for the estimated future tax effects of the temporary difference between the tax basis and book basis of assets and liabilities reported in the accompanying consolidated balance sheets. The provision for income tax expense or benefit differs from the amounts of income taxes currently payable because certain items of income and expense included in the consolidated financial statements are recognized in different time periods by taxing authorities.

Effective January 1, 2007, we adopted FASB Interpretation No. 48 *Accounting for Uncertainty in Income Taxes, or* FIN 48. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with SFAS 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 requires that we determine whether the benefits of our tax positions are more likely than not of being sustained upon audit based on the technical merits of the tax position. For tax positions that are more likely than not of being sustained upon audit, we recognize the largest amount of the benefit that is more likely than not of being sustained in our consolidated financial statements. For tax positions that are not more than likely than not of being sustained upon audit, we do not recognize any portion of the benefits in our consolidated financial statements. The provisions of FIN 48 also provide guidance on derecognition, classification, interest and penalties, accounting in interim periods, and disclosure.

The cumulative effect of the adoption of the recognition and measurement provisions of FIN 48 resulted in no change to the January 1, 2007 balance of retained deficit. Our policy for interest and

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

1. Business, Basis of Presentation and Summary of Significant Accounting Policies (Continued)

penalties related to income tax exposures is to recognize interest and penalties as incurred within the provision for income taxes in the consolidated statements of operations.

Deferred tax assets, including net operating loss and tax credit carry forwards, are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that any portion of these tax attributes will not be realized. At December 31, 2007 and 2006, a valuation allowance of $4.6 million and $84.4 million, respectively, was recorded to reduce deferred tax assets to the amount expected to be recoverable.

From time to time, management must assess the need to accrue or disclose a possible loss contingency for proposed adjustments from various Federal, state and foreign tax authorities that regularly audit the company in the normal course of business. In making these assessments, management must often analyze complex tax laws of multiple jurisdictions.

Convertible Debt

In August 2005, our Operating Partnership, or OP issued $96.6 million aggregate principal amount of senior notes which are exchangeable at an initial rate of 69.8812 shares of common stock per $1,000 principal amount of the notes and callable under certain circumstances. The notes are treated as a combined instrument and not bifurcated to separately account for any embedded derivative instruments principally because in accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, (i) the conversion feature is indexed to HTH's common stock and would be classified in stockholders' equity if it were a freestanding derivative and (ii) the put and call option features are clearly and closely related to the notes at fixed conversion amounts. As a result of our rights offering in January 2007, at which we offered shares of our common stock for sale at a below-market price of $8 per share, the exchangeable rate of our convertible debt was adjusted to 73.95 shares of common stock per $1,000 principal amount of the notes equal to an initial exchange rate of $13.52 per share.

Stock Based Compensation

On December 16, 2004, the Financial Accounting Standards Board, or FASB issued Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment*, or SFAS 123(R), which is a revision of SFAS No. 123, *Accounting for Stock-Based Compensation*. SFAS No. 123(R) became effective on January 1, 2006 and we have adopted the standard using the modified prospective method. Since our only share based payments through December 31, 2005 were nominal restricted stock issuance and shares issued to members of the board of directors as compensation, the implementation of SFAS 123(R) did not have a material impact on our financial position, results of operations or cash flows.

Effective January 1, 2006, we adopted the fair value recognition provisions of SFAS 123(R), using the modified prospective transition method and, therefore, have not restated results for prior periods. Under this transition method, stock-based compensation expense for the year ended December 31, 2006 includes compensation expense for all share-based payment awards granted prior to, but not yet vested, at December 31, 2005, based on the grant date fair value estimated in accordance with the provisions of SFAS 123(R). Stock-based compensation expense for all share-based payment awards granted after December 31, 2005 is based on the grant date fair value estimated in accordance with the

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

1. Business, Basis of Presentation and Summary of Significant Accounting Policies (Continued)

provisions of SFAS 123(R). We recognize these compensation costs for only those awards expected to vest over the service period of the award. Prior to the adoption of SFAS 123(R) we recognized stock-based compensation expense in accordance with Accounting Principles Board, or APB Opinion No. 25, *Accounting for Stock Issued to Employees,* APB 25. In March 2005, the SEC issued Staff Accounting Bulletin No. 107, *Share-Based Payment, or* SAB 107, regarding their interpretation of SFAS 123(R) and the valuation of share-based payment awards for public companies. We have applied the provisions of SAB 107 in our adoption of SFAS 123(R).

We consider the number of vested shares issued under our 2003 equity incentive plan as common stock outstanding and include them in the denominator of our calculation of basic earnings per share. We also consider the total number of unvested restricted shares granted under our 2003 equity incentive plan in the denominator of our calculation of diluted earnings per share if they are dilutive. We return shares forfeited to the 2003 equity incentive plan as shares eligible for future grant and adjust any compensation expense previously recorded on such shares in the period the forfeiture occurs.

Warrants

On August 9, 2000, while the Company was privately held, 1,250,000 warrants were issued to all existing shareholders at the time of entering into a significant cash equity contribution agreement with a new shareholder. The warrants give each holder the right to purchase one share of our common stock at an original exercise price of $11.70 per share. The Company received no cash or other consideration from the existing shareholders for the warrants. Because the warrants were issued in conjunction with an equity contribution, they are considered a cost of equity issuance and there is no impact on the financial statements from the issuance of the warrants because all transactions are recorded within additional paid-in capital. Because the Company received no consideration for the warrants and because there was no active market for our common stock or warrants at the time of issuance in 2000, we determined that the fair value of the warrants was immaterial. The warrants remain outstanding and expire if not exercised prior to 5:00 PM, New York City time, on July 23, 2010.

The warrants, which represent a written call option on our common shares, originally allowed for the purchase of the Company's shares at a fixed price per share of $11.70. On January 23, 2004, in preparation for the IPO, we affected a 0.519-for-1 reverse split of our common stock. Subsequent to this, we have declared cash dividends, issued common stock and paid stock compensation to our non-management directors. As a result, the exercise price per share under the outstanding warrants has been adjusted to $15.60 and the total number of shares of our common stock issuable upon exercise of all warrants was adjusted to 937,440 as of December 31, 2007. The closing price of our common stock was $10.92 as of December 31, 2007, significantly below the warrant exercise price of $15.60.

The accounting for our warrants is governed by Emerging Issues Task Force 00-19, *Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock*, or EITF 00-19. We can settle our warrants only through physical settlement or net share settlement. According to EITF 00-19 the initial classification and measurement is in equity at fair value. Subsequently, the Company's warrants should continue to be classified in equity with no changes in fair value being recorded after the initial measurement. The Company believes equity classification for its warrants is appropriate based upon its analysis in accordance with "The Model" outlined in

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

1. Business, Basis of Presentation and Summary of Significant Accounting Policies (Continued)

EITF 00-19. The Company was not required to revalue the warrants in subsequent periods in accordance with EITF 00-19, paragraph 39. The Company will prospectively continue to re-evaluate the appropriateness of the warrants' treatment at each balance sheet date consistent with EITF 00-19.

Accumulated Other Comprehensive Income

Amounts recorded in accumulated other comprehensive income as of December 31, 2007 represent unrecognized losses on our investment portfolio. Our comprehensive losses for the year ended December 31, 2007 was $1.1 million, net of income taxes of $0.6 million.

Revenue Recognition

Property and liability premiums are recognized as revenue on a pro rata basis over the policy term. The portion of premiums that will be earned in the future are deferred and reported as unearned premiums. Other income consists of premium installment charges, which are recognized when earned, and other miscellaneous income.

Discontinued Operations

In accordance with guidance provided by SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets,* we measure our assets in discontinued operations as held for sale at the lower of its carrying amount or fair value, less cost to sell at the balance sheet date and re-cast any applicable balances and corresponding liabilities related to the discontinued operations in all comparable periods presented. Depreciation of the assets held for sale, if applicable, is suspended at the date of the determination of discontinuance. Interest and other expenses attributable to the liabilities of the assets in discontinued operations classified as held for sale continues to be accrued. The results of operations of the assets sold and those classified as held for sale are reported as discontinued operations for all periods presented. We recognize any estimated losses on the sales of assets in the period in which the properties are discontinued and recognize any resulting gains on the sales of assets when realized. A description of the facts and circumstances leading to the expected disposal, the expected manner and timing of that disposal, and, if not separately presented on the face of the balance sheet, the carrying amounts of the major classes of assets and liabilities included as part of the disposal group is disclosed in the notes to the financial statements. We disclose in the notes to our financial statements (and on the face of the income statement) the gain or loss recognized in accordance with SFAS 144 and, if applicable, the amounts of revenue and pretax profit or loss reported in discontinued operations.

Statutory Accounting Practices

NLASCO is required to report its results of operations and financial position to insurance regulatory authorities based upon statutory accounting practices, or SAP. The significant differences between SAP and GAAP are: 1) NLASCO is required to expense all sales and other policy acquisition costs as they are incurred rather than capitalizing and amortizing them over the expected life of the policy as required by GAAP. The immediate charge off of sales and acquisition expenses and other conservative valuations under SAP generally causes a lag between the sale of a policy and the emergence of reported earnings. Because this lag can reduce the Company's gain from operations on a SAP basis, it can have the effect of reducing the amount of funds available for dividends from

insurance companies; 2) under SAP certain assets are designated as "non admitted" and are charged directly to unassigned surplus, whereas under GAAP, such assets are included in the balance sheet net of an appropriate valuation reserve; 3) under SAP investments are carried at amortized book value and under GAAP, certain investments are carried at fair value; 4) surplus notes are classified as capital and surplus under SAP but classified as notes payable under GAAP; 5) ceded reinsurance receivables are netted against reserves under SAP, but are classified as assets under GAAP; 6) under SAP, while statutory deferred incomes taxes are provided on temporary differences between the statutory and tax basis of assets and liabilities, statutory deferred tax assets are limited based on admissibility tests and allowed deferred income taxes are recorded in unassigned statutory surplus rather than the income statement; and 7) the statutory statement of cash flows follows a prescribed method included in the annual statement instructions issued by the National Association of Insurance Commissioners to present changes in amounts in balance sheet accounts which may not reflect actual cash flows from transaction or operations; whereas under GAAP, cash flows are presented in accordance with Financial Accounting Standards Board Statement No. 95.

Use of estimates

We are required by GAAP to make estimates and assumptions that affect our reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of our financial statements and our reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates. These estimates and assumptions are particularly important in determining revenue recognition, reserves for losses and loss adjustment expenses, deferred policy acquisition costs, reinsurance receivables and potential impairment of assets.

Recently Adopted Accounting Pronouncements

In February 2006, the FASB issued SFAS No. 155, *Accounting for Certain Hybrid Financial Instruments, an amendment of FASB Statements No. 133 and 140*, or SFAS 155. SFAS 155 improves financial reporting by eliminating the exemption from applying SFAS 133 to interest in securitized financial assets so that similar instruments are accounted for similarly regardless of the form of the instrument. SFAS 155 also improves financial reporting by allowing a preparer to elect fair value measurement at acquisition, at issuance, or when a previously recognized financial instrument is subject to a re-measurement event, on an instrument-by-instrument basis, in cases in which a derivative would otherwise be bifurcated. Upon the adoption of SFAS 155, any difference between the total carrying amount of the individual components of any existing hybrid financial instrument and the fair value of the combined hybrid financial instrument should be recognized as a cumulative-effect adjustment to our beginning retained earnings. SFAS 155 is effective for all financial instruments acquired or issued after January 1, 2007. The application of SFAS 155 had no material impact on our financial position, results of operations or cash flows.

In September 2006, the SEC issued Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*, or SAB 108. SAB 108 addresses the diversity in practice in quantifying financial statement misstatements and the potential under current practice for the build up of improper amounts on the balance sheet.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

1. Business, Basis of Presentation and Summary of Significant Accounting Policies (Continued)

SAB 108 is effective for fiscal years beginning after November 15, 2006. The application of SAB 108 had no impact on our financial position, results of operations or cash flows.

Recently Issued Accounting Pronouncements

In September 2006, the FASB issued SFAS No.157, *Fair Value Measurement,* or SFAS 157, which addresses how companies should measure fair value when they are required to use a fair value measure for recognition or disclosure purposes under GAAP. SFAS 157 provides a common definition of fair value to be used throughout GAAP. The FASB believes that the new standard will make the measurement of fair value more consistent and comparable and improve disclosures about those measures. SFAS 157 will become effective for HTH on January 1, 2008 and we are still evaluating its impact on or financial position and results of operations.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities- including an amendment of FAS 115*, or SFAS 159. SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS 159 is expected to expand the use of fair value measurement, which is consistent with the Board's long-term measurement objectives for accounting for financial instruments. SFAS 159 is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted provided we also elect to apply the provisions of SFAS 157. We are still evaluating the impact that SFAS 159 will have on our financial position, results of operations and cash flows.

2. NLASCO Acquisition and Associated Equity Issuances

On January 31, 2007, we acquired all of the stock of NLASCO, a privately held property and casualty insurance holding company. In exchange for the stock, NLASCO's shareholders, consisting of C. Clifton Robinson and affiliates, received $105.75 million in cash and 1,218,880 shares of HTH common stock for a total consideration of $122.0 million. In addition, Flexpoint Fund, L.P., a fund managed by Flexpoint Partners, LLC of Chicago, Illinois, invested $20 million to purchase 2,154,763 shares of common stock of the Company at the leading ten-day average market price of our common stock on the date the agreement was signed, subject to certain anti-dilution provisions.

In order to raise $80 million to provide a source of funding for a portion of the acquisition of NLASCO, we conducted a rights offering to our stockholders. In the rights offering, all holders of HTH common stock as of the record date of December 19, 2006 received one non-transferable right to purchase 0.242 shares of common stock of the Company for each share held. The price at which the additional shares were purchased was $8.00 per share. The rights offering expired on January 23, 2007, and the company issued approximately 7.8 million shares of common stock to existing shareholders upon completion of the rights offering. In addition, Gerald J. Ford and certain affiliates controlled by him purchased approximately 1.8 million shares that they would have been entitled to in the rights offering in a separate private placement transaction. Gerald J. Ford, one of the Company's directors and the beneficial owner of approximately 16.0% of HTH's common stock as of the record date, and certain of his affiliates also backstopped the rights offering and purchased another approximately

HILLTOP HOLDINGS INC.

2. NLASCO Acquisition and Associated Equity Issuances (Continued)

400,000 shares that were not purchased in the rights offering by the stockholders of record on the record date, at the rights offering price per share of $8.00.

The results of NLASCO's operations for the eleven months ended December 31, 2007 are included in these consolidated financial statements.

The total cash and equity consideration paid for the acquisition of NLASCO is as follows (in thousands):

Purchase price paid in cash	$ 105,750
Fair value of HTH shares issued to shareholder of NLASCO	13,359
Other consideration	2,945
Total consideration received by seller	122,054
Other acquisition expenditures	10,044
Total cash, equity and other consideration	$ 132,098

The source of funds for the above cash and equity consideration is as follows (in thousands):

Cash received from Flexpoint Partners for common stock	$ 20,000
Cash raised in the rights offering	80,000
Fair value of HTH shares issued to shareholder of NLASCO	13,359
Liability for future payment	2,945
Consideration paid by HTH from existing lines of credit	15,794
	$ 132,098

The total purchase price of NLASCO including liabilities assumed in the acquisition consists of the following (in thousands).*

Total cash and equity consideration	$ 129,153
Other consideration	2,945
Notes payable assumed at fair value (including $5.6 million paid by HTH)	56,680
Loss and loss adjustment expense liability assumed	18,664
Unearned premiums assumed	49,571
Accounts payable and other liabilities assumed	8,428
Total purchase price including transaction costs and assumed liabilities	$ 265,441

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

3. Investments

The amortized cost (original cost for equity securities), gross unrealized holding gains and losses, and fair value of available-for-sale and held-to-maturity securities by major security type and class of security at December 31, 2007 were as follows (in thousands).

	December 31, 2007			
	Cost and Amortized Cost	Gross Unrealized Holding Gains	Gross Unrealized Holding Losses	Fair Value
Available-for-sale securities:				
Fixed maturities:				
Government securities	$ 46,274	$ 1,275	$ (133)	$ 47,416
Mortgage-backed securities	12,661	155	(1)	12,815
Corporate debt securities	71,318	863	(508)	71,673
	130,253	2,293	(642)	131,904
Equity securities	55,607		(3,271)	52,336
	185,860	2,293	(3,913)	184,240
Held-to-maturity securities:				
Fixed maturities:				
Government securities	6,784	35		6,819
	$ 192,644	$ 2,328	$ (3,913)	$ 191,059

In conjunction with the purchase of NLASCO on January 31, 2007, all "available-for-sale" securities were marked to their fair market value. While some of the securities held in the investment portfolio have decreased in value since the date of acquisition, the Company has the ability and intent to hold these securities until maturity or until the value recovers and therefore does not feel any other than temporary impairments exist as of December 31, 2007, on any security other than the one management impaired. Management impaired one held-to-maturity security that was impaired by over 10% of its value. We wrote that security to market, taking a loss of $228,600 during the fourth quarter of 2007.

Fair values of investment securities are based on quoted market prices. Gross realized investment gains and losses for the year ended December 31, 2007 are summarized as follows (in thousands).

	Year Ended December 31, 2007		
	Gross Gains	Gross Losses	Total
Fixed maturities	$ 199	$ (347)	$ (148)
Equity securities	3,361	(8)	3,353
	$ 3,560	$ (355)	$ 3,205

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

3. Investments (Continued)

Sales of available-for-sale investment securities resulted in the following during the year ended December 31, 2007 (in thousands):

	2007
Proceeds	$ 30,541
Gross gains	$ 3,560
Gross losses	$ (355)

Expected maturities may differ from contractual maturities because certain borrowers may have the right to call or prepay obligations with or without penalties. The schedule of fixed maturities available-for-sale and held-to-maturity at December 31, 2007 by contractual maturity is as follows (in thousands).

	December 31, 2007	
	Amortized Cost	Fair Value
Available-for-sale fixed maturities:		
Due within one year	$ 9,328	$ 9,338
Due after one year through five years	47,124	47,739
Due after six years through ten years	42,319	43,115
Due after ten years	18,821	18,897
Mortgage-backed securities	12,661	12,815
	$ 130,253	$ 131,904
Held-to-maturity debt securities:		
Due within one year	$ 5,138	$ 5,167
Due after one year through five years	1,228	1,234
Due after six years through ten years		
Due after ten years	418	418
	$ 6,784	$ 6,819

Net investment income for the year ended December 31, 2007 is as follows (in thousands).

	Twelve Months Ended December 31,		
	2007	2006	2005
Cash equivalents	$ 18,504	$ 2,133	$ 2,266
Fixed maturities	5,781		
Equity securities	748		
	25,033	2,133	2,266

	Twelve Months Ended December 31,		
Investment expenses	204		
Net investment income	$ 24,829	$ 2,133	$ 2,266

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

3. Investments (Continued)

At December 31, 2007, the Company had on deposit in custody for various State Insurance Departments investments with carrying values of approximately $7.0 million.

4. Property and Equipment

The following summarizes property and other fixed assets (in thousands).

	December 31, 2007
Other equipment	$ 782
Less accumulated depreciation	(249)
	$ 533

Property and equipment related to the manufactured housing business, sold effective July 31, 2007 have been reclassed to assets held for sale for all periods presented.

5. Deferred Acquisition Costs

Policy acquisition expenses, primarily commissions, premium taxes and underwriting expenses related to issuing a policy incurred by NLASCO are deferred and charged against income ratably over the terms of the related policies The activity in deferred acquisition costs for the twelve months ended December 31, 2007 is as follows (in thousands).

	Year Ended December 31, 2007
Beginning of period deferred acquisition cost	$
Acquisition expenses	29,283
Amortization charged to income	(14,762)
End of period deferred acquisition costs	$ 14,521

6. Goodwill and Intangible Assets

Goodwill and intangible assets for HTH represents the excess of the cost over the fair value of the assets of NLASCO. The changes in the carrying amount of goodwill and indefinite lived intangible assets for the year ended December 31, 2007 are as follows (in thousands):

	Goodwill	Indefinite Lived Intangibles
Beginning balance	$	$
Acquisition activity during the year	23,613	3,000
Impairments		
Balance as of December 31, 2007	$ 23,613	$ 3,000

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

6. Goodwill and Intangible Assets (Continued)

At December 31, 2007, we determined that no impairment existed with respect to goodwill and intangible assets.

The following table reflects the balances of our definite lived intangible assets at December 31, 2007 (in thousands):

	Gross Carrying Amount	Accumulated Amortization
Customer relationships	$ 6,100	$ (860)
Agent relationships	3,600	(471)
Trade name	3,500	(214)
Software	1,500	(275)
Total	$ 14,700	$ (1,820)

Future amortization of intangible assets for the next five years is as follows (in thousands):

2008	1,878
2009	1,761
2010	1,643
2011	1,525
2012	1,132
	7,939

Amortization for the year ended December 31, 2007 was $1,820,000.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

7. Disclosures About the Fair Value of Financial Instruments

In the normal course of business, the Company invests in various financial assets and incurs various financial liabilities. The fair value estimates of financial instruments presented below are not necessarily indicative of the amounts the Company might pay or receive in actual market transactions. Potential taxes and other transaction costs have not been considered in estimating fair value. The disclosures that follow do not reflect the fair value of the Company as a whole since a number of the Company's significant assets (including deferred policy acquisition costs and deferred income taxes) and liabilities are not considered financial instruments and are not carried at fair value. Other assets and liabilities considered financial instruments such as cash and cash equivalents, premiums receivable, reinsurance receivable, prepaid reinsurance premiums, loss and loss adjustment expenses outstanding, unearned premiums, and reinsurance balances payable are generally of a short-term nature. Their carrying values are deemed to approximate fair value. The notes payable with variable interest rates are periodically adjusted to market interest rates; therefore, the unpaid principal balance of the variable interest rate loan approximates fair value (in thousands).

	December 31, 2007	
	Carrying Value	Fair Value
Financial assets		
Fixed maturities	$ 138,688	$ 138,723
Equity securities	52,336	52,336
Financial liabilities		
Notes payable	$ 142,368	$ 155,100

8. Notes Payable

The following table sets forth certain information regarding our debt in thousands:

	Year Ended December 31,	
	2007	2006
Senior exchangeable notes due 2025, 7.50% per annum	$ 90,850	$ 96,600
Insurance company line of credit due October 2008, base rate less 0.5% per annum (6.75% at December 31, 2007)	4,018	
NLIC note payable due May 2033, three-month LIBOR plus 4.10% (8.80% at December 31, 2007)	10,000	
NLIC note payable due September 2033, three-month LIBOR plus 4.05% (8.75% at December 31, 2007)	10,000	
ASIC note payable due April 2034, three-month LIBOR plus 4.05% (8.75% at December 31, 2007)	7,500	
Insurance company note payable due March 2035, three-month LIBOR plus 3.40% (8.10% at December 31, 2007)	20,000	
	$ 142,368	$ 96,600

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

8. Notes Payable (Continued)

Senior Exchangeable Notes Due 2025

In August 2005, our OP issued $96.6 million aggregate principal amount of 7.50% senior exchangeable notes due 2025 to qualified institutional buyers in a private transaction. The notes are senior unsecured obligations of the OP and are exchangeable, at the option of the holders, into shares of HTH common stock at an initial exchange rate of 69.8812 shares per $1,000 principal amount of the notes (equal to an initial exchange price of approximately $14.31 per share), subject to adjustment and, in the event of specified corporate transactions involving HTH or the OP, an additional make-whole premium. Upon exchange, the OP has the option to deliver, in lieu of shares of HTH common stock, cash or a combination of cash and shares of HTH common stock.

According to the terms of the notes, their initial exchange rate is adjusted for certain events, including the issuance to all holders of HTH common stock of rights entitling them to purchase HTH common stock at less than their current market price. Accordingly, as a result of our rights offering in January 2007, in which we offered all holders of HTH common stock the right to purchase shares at $8.00 per share, the initial exchange rate of the notes was adjusted to 73.95 shares per $1,000 principal amount of the notes (equal to an initial exchange rate of $13.52 per share).

Prior to August 20, 2010, the notes are not redeemable at the option of the OP. After August 20, 2010, the OP may redeem all or a portion of the notes at a redemption price equal to the principal amount plus accrued and unpaid interest, if any, on the notes, if the closing price of HTH common stock has exceeded 130% of the exchange price for at least 20 trading days in any consecutive 30-trading day period.

Holders of the notes may require the OP to repurchase all or a portion of the notes at a purchase price equal to the principal amount plus accrued and unpaid interest, if any, on the notes on each of August 15, 2010, August 15, 2015, and August 15, 2020, or after the occurrence of certain corporate transactions involving HTH or the OP.

In conjunction with the closing of the asset sale on July 31, 2007, certain holders of the Company's Senior Exchangeable Notes redeemed their holdings for cash resulting in a $5.75 million reduction in notes outstanding.

Insurance Company Line of Credit

NLASCO has a line of credit with a financial institution. The line allows for borrowings by NLASCO up to $5 million and is secured by substantially all of NLASCO's assets. The line of credit bears interest equal to a base rate less 0.5% (6.75% at December 31, 2007) which is due quarterly. This Line of Credit was renewed for another twelve months and will expire in October 2008.

NLIC Notes Payable

NLIC has two unsecured $10 million notes payable to unaffiliated companies. The notes payable bear interest at three-month LIBOR plus 4.05% and three-month LIBOR plus 4.10% (8.75% and 8.80% at December 31, 2007). Interest is due quarterly and principal is due at maturity in September 2033 and May 2033, respectively. The notes are subordinated in right of payment to all policy claims and other indebtedness of NLIC. Further, all payments of principal and interest require

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

8. Notes Payable (Continued)

the prior approval of the Insurance Commissioner of the State of Texas and are only payable to the extent that the statutory surplus of NLIC exceeds $30 million.

ASIC Note Payable

ASIC has an unsecured $7.5 million note payable to an unaffiliated company. The note payable bears interest at three-month LIBOR plus 4.05% (8.75% at December 31, 2007). Interest is due quarterly and principal is due at maturity in April 2034. The note is subordinated in right of payment to all policy claims and other indebtedness of ASIC. Further, all payments of principal and interest require the prior approval of the Insurance Commissioner of the State of Texas and are only payable to the extent that the statutory surplus of ASIC exceeds $15 million.

Insurance Company Notes Payable

NLASCO has an unsecured $20 million note payable to an unaffiliated company which bears interest equal to the three-month LIBOR plus 3.40% (8.10% at December 31, 2007). Interest is due quarterly and the principal is due at maturity in March 2035.

NLASCO's loan agreements relating to the notes payable contain various covenants pertaining to limitations on additional debt, dividends, and officer and director compensation, and minimum capital requirements. The Company was in compliance with the covenants as of December 31, 2007.

NLASCO has entered into an indenture relating to the notes payable which provides that (i) if a person or group becomes the beneficial owner directly or indirectly of 50% or more of its equity securities and (ii) if NLASCO's ratings are downgraded by a nationally recognized statistical rating organization (as defined in the Securities Exchange Act of 1934, as amended, or the Exchange Act), then each holder of the notes governed by such indenture has the right to require that NLASCO purchase such holder's notes in whole or in part at a price equal to 107.5% of the outstanding principal amount prior to March 10, 2010, or 100.0% thereafter. A change of control under the indenture occurred as a result of an acquisition of NLASCO by Hilltop. If NLASCO's debt were to be downgraded, then each holder of notes under the indenture would have the right to require NLASCO to repurchase its notes. This required repayment risk could cause liquidity issues to both NLASCO and Hilltop, could impair NLASCO's ability to obtain additional financing and would likely increase the cost of any financing that it does obtain.

Note Payable Principal Maturities

The aggregate amount of annual principal maturities subsequent to December 31, 2007 is as follows (in thousands):

	Principal Commitments		
	Fixed	Variable	Total
2008	$	$ 4,018	$ 4,018
2013 and Thereafter	90,850	47,500	138,350
Commitments	$ 90,850	$ 51,518	$ 142,368

9. Reserve for Unpaid Losses and Loss Adjustment Expenses

A roll-forward of the reserve for unpaid losses and loss adjustment expenses for the eleven months ended December 31, 2007 is as follows (in thousands).

Balance February 1, 2007*	$ 18,664
Less reinsurance recoverables	(1,509)
Net balance at February 1, 2007	17,155
Incurred related to:	
Current Year	52,074
Prior Year	
Total incurred	52,074
Payments related to:	
Current Year	(46,230)
Prior Year	(7,600)
Total payments	(53,830)
Net balance at December 31, 2007	15,399
Plus reinsurance recoverables	2,692
Balance at December 31, 2007	$ 18,091

* Includes purchase price adjustment of $2.9 million.

The reserve for losses and loss adjustment expenses includes amounts that may be due to or from the sellers of NLASCO by January 2010 based on actual losses incurred applicable to the reserve as of the acquisition date.

10. Reinsurance Activity

NLASCO limits the maximum net loss that can arise from large risks or risks in concentrated areas of exposure by reinsuring (ceding) certain levels of risk. Substantial amounts of business are ceded, and these reinsurance contracts do not relieve NLASCO from its obligations to policyholders. Such reinsurance includes quota share, excess of loss, catastrophe, and other forms of reinsurance on essentially all property and casualty lines of insurance. Net premiums earned, losses and LAE and policy acquisition and other underwriting expenses are reported net of the amounts related to reinsurance ceded to other companies. Amounts recoverable from reinsurers related to the portions of the liability for losses and LAE and unearned premiums ceded to them are reported as assets. Amounts recoverable from reinsurers related the portions of the liability for losses and LAE are reported as assets. Failure of reinsurers to honor their obligations could result in losses to NLASCO; consequently, allowances are established for amounts deemed uncollectible as NLASCO evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic regions, activities, or economic characteristics of the reinsurers to minimize its exposure to significant losses from reinsurer insolvencies. At December 31, 2007, reinsurance receivables have a carrying value of approximately $2.7 million. There was no allowance for uncollectible accounts as of

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

10. Reinsurance Activity (Continued)

December 31, 2007. Reinsurers with a balance in excess of 5% of our outstanding receivables at December 31, 2007 are listed below (in thousands):

	Balances due from Reinsurance Companies
Federal Emergency Management Agency	$ 404
Swiss Re Underwriters	431
Lloyds LIB 4472	248
Platinum Underwriters Reinsurance Inc.	169
R&V Versicherung	155
	$ 1,407

The effect of reinsurance on premiums written and earned for the year ended December 31, 2007 is as follows (in thousands):

	Year Ended December 31, 2007	
	Written	Earned
Premiums from direct business	$ 122,708	$ 103,542
Reinsurance assumed	6,539	3,847
Reinsurance ceded	(10,890)	(10,585)
Net premiums	$ 118,357	$ 96,804

The effect of reinsurance incurred losses was as follows:

	Year Ended December 31, 2007
Loss and Loss Adjustment (LAE) expense incurred	$ 54,335
Reinsurance recoverables	(2,261)
Net loss and LAE incurred	$ 52,074

Multi-line excess of loss coverage

For all lines of business, ASIC's retention on any one risk for 2007 is $150,000 and NLIC's is $200,000.

Catastrophic coverage

NLASCO had 8 levels of catastrophic excess of loss reinsurance providing for coverage up to $200 million in 2007 above $1 million in retention for ASIC and $6 million for NLIC. NLASCO has an automatic reinstatement provision after the first loss for each layer to provide coverage in the event of subsequent catastrophes during the year. Coverage will lapse after the second or third event depending on the coverage

layer, in which case NLASCO will evaluate the need for a new contract for the remainder of the year. During 2007 the first 5 layers can be reinstated twice for 100% of the original

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

10. Reinsurance Activity (Continued)

premium each time and the next three layers can be reinstated one time for 100% of the original premium.

11. Income Taxes

At December 31, 2007, the Company had net operating loss carry-forwards for Federal income tax purposes, subject to certain limitations, of approximately $81.7 million and $83.0 million for regular income tax and alternative minimum tax, respectively. These net operating loss carry-forwards expire in 2018 through 2024. The net operating loss carry-forwards for alternative minimum Federal income taxes generally are limited to offsetting 90% of the alternative minimum taxable earnings for a given period.

In conjunction with the sale of the Company's manufactured housing business lines that closed on July 31, 2007, approximately $282.6 million of the Company's net operating loss carry forwards were utilized and $175.2 million of temporary taxable differences were recognized.

As of December 31, 2007 we had a net deferred tax asset of $26.8 million which was reduced by a valuation allowance of $4.6 million. During the year ended December 31, 2007, we experienced a reduction in our valuation allowance of $79.8 million, of which $43.4 million relates to the disposition of the communities business, $32.2 million relates to the acquisition of NLASCO, $4.8 million relates to the change in tax rate, offset by $0.6 million increase in valuation allowance. Our 35% statutory rate reflects a change from the 40% due to the expectation that future taxable income of our insurance business will primarily be subject to Federal but not state income taxes. Insurance companies are generally not taxed in most states on income taxes as they pay premium taxes in states where they generate premium revenue.

The Company did not have aggregate income tax benefits or expense for the year ended December 31, 2006.

Effective January 1, 2007, we adopted FIN 48 which required the measurement of unrecognized tax benefits. Unrecognized tax benefits are the difference between a tax position taken, or expected to be taken in a tax return, and the benefit recognized for accounting purposes. For the period ending December 31, 2007 we had no unrecognized tax benefits.

We file tax returns as prescribed by the tax laws of the jurisdictions in which we operate. We are subject to tax audits in numerous jurisdictions in the U.S. until the applicable statute of limitation expire. The following is a summary of the tax years open to examination:

U.S. Federal	2003 through 2006
U.S. States	2002 through 2006

As of December 31, 2007 there are were no material Federal or State tax audits.

Under special IRS rules (the "Section 382 Limitation"), cumulative stock purchases by 5% shareholders exceeding 50% during a three year period can limit a company's future use of net operating losses (NOL's). We had a Section 382 ownership change in February 2004 at the time of the IPO. Due to section 382-limited NOLs expiring before they can be utilized, there is a potential loss of $13.2 million of NOLs. The deferred tax valuation allowance fully reserves for the tax effected amount.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

11. Income Taxes (Continued)

The significant components of the provision for income taxes are as follows (in thousands):

	For the Year Ended December 31, 2007		
	Continuing Operations	Discontinued Operations	Total
Current tax expense	$ (5,642)	$ (77,744)	$ (83,386)
Deferred tax expense	(4,419)	(43,402)	(47,821)
Allowance	(574)	43,402	42,828
Income tax expense benefit	$ (10,635)	$ (77,744)	$ (88,379)

The provision for income taxes differs from the amount that would be computed by applying the statutory Federal income tax rate of 35% to income before income taxes as a result of the following (in thousands):

	For the Year Ended December 31, 2007		
	Continuing Operations	Discontinued Operations	Total
Tax at statutory rate	$ (8,846)	$ (124,507)	$ (133,353)
Permanent differences	(57)	21,148	21,091
State taxes	(1,158)	(17,787)	(18,945)
(Increase)decrease in valuation allowance	(574)	43,402	42,828
Income tax expense	$ (10,635)	$ (77,744)	$ (88,379)

	For the Year Ended December 31, 2006
Tax at statutory rate	$ (6,096)
Permanent differences	(1,379)
State taxes	(871)
Increase in valuation allowance	8,346
Income tax provision	$

Total gross deferred tax liabilities	$ 10,565	$ 74,990
Net Deferred Tax Asset	$ 22,219	$

12. Common Stock, Preferred Stock, Dividends and Minority Interest Related Transactions

Common Stock

In accordance with SFAS No. 123(R) total compensation expense recorded in general and administrative expenses for the years ended December 31, 2007, 2006 and 2005 related to stock-based compensation was $1.7 million, $0.7 million and $0.4 million, respectively. Stock compensation expense is included as part of additional paid-in capital on the consolidated balance sheets.

The company issued approximately 7.8 million shares for $80.0 million in a rights offering that expired on January 23, 2007, see Note 2 for more details.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

12. Common Stock, Preferred Stock, Dividends and Minority Interest Related Transactions (Continued)

At December 31, 2007, there were no outstanding OP Units that were owned by non-affiliated limited partners. OP Units are convertible into common stock at an initial exchange ratio of one share for each OP Unit. According to the terms of the partnership agreement, the initial exchange rate of the OP Units is adjusted for certain events, including the issuance to all holders of HTH common stock of rights entitling them to purchase HTH common stock at less than their current market price. Accordingly, as a result of our rights offering in January 2007, in which we offered all holders of HTH common stock the right to purchase shares at $8.00 per share, the initial exchange rate of the OP Units was adjusted to approximately 1.06 shares for each OP Unit. During 2007, 2006 and 2005, respectively, we issued approximately 104,000, 360,500 and 71,100 shares of our common stock to redeem OP units.

As of December 31, 2007, there were no outstanding restricted stock grants. In 2007 as a result of the Farallon Transaction the change in control provision fully vested the remaining 7,000 shares of restricted stock. Also during 2007, 2,000 shares of restricted stock were forfeited. As of December 31, 2006 and 2005, there were 9,000 and 12,000 shares outstanding respectively. During both of the years ended December 31, 2006 and 2005, 3,000 shares vested.

As of December 31, 2007, the Company has outstanding warrants to certain shareholders authorizing the purchase of up to 937,440 shares of common stock at $15.60 per share, as adjusted for common stock issued and dividends paid. The warrants expire on July 23, 2010. To date, no warrants have been exercised.

On October 25, 2007, the Compensation Committee of our Board of Directors approved the grant of an aggregate 100,000 non-qualified stock option awards to two senior executive officers of the Company pursuant to our 2003 Equity Incentive Plan at an exercise price of $12.06 per share, the closing price of HTH's common stock on the New York Stock Exchange on the date of grant. The options have a term of five years from the date of the award. Under the terms of the grants, 20% of the options vested on the grant date, and the balance of the options vest ratably over a four-year period with 20% of the award amount vesting on the first anniversary of the award and 20% each anniversary thereafter. Vesting is accelerated in certain circumstances, including in the event of the death of the award recipient or in the event of a change of control of the Company. The fair value for the stock options granted during the year ended December 31, 2007 were estimated using the Black-Scholes option pricing model with an expected volatility of 25%, a risk-free interest rate of 4.0%, a dividend yield rate of zero, a five-year expected life of the options, and a forfeiture rate of fifteen percent. Based on calculations using the Black-Scholes option pricing model, the grant date fair value of the options granted during the quarter approximated $3.10 per share. The expected volatility is based on the historical volatility in the price of our common stock since our IPO. The risk-free interest rate is the five-year Treasury rate, based on the term of the options. The dividend yield assumption is based on our history and expectation of dividend payments on common stock. The expected life of the stock options represents the period in which the stock options are expected to remain outstanding.

In March 2007, four senior executives of HTH were granted options to acquire a total of 25,000 shares of common stock at $11.28 per share to compensate for dilution from the rights offering. The options have a term of ten years from the date of the award. Under the terms of the grants, the options vest ratably over a three-year period with the first third of the award amount vesting on the first anniversary of the award with one-third vesting each anniversary thereafter. Vesting is accelerated

12. Common Stock, Preferred Stock, Dividends and Minority Interest Related Transactions (Continued)

in certain circumstances, including in the event of the death of the award recipient or in the event of a change of control of the Company. The fair values for the stock options granted during the year ended December 31, 2007 were estimated using the Black-Scholes option pricing model with an expected volatility of 30%, a risk-free interest rate of 5.1%, a dividend yield rate of zero, a six-year expected life of the options, and a forfeiture rate of ten percent. Based on calculations using the Black-Scholes option pricing model, the grant date fair value of the options granted during the quarter approximated $4.04 per share. The expected volatility is based on the historical volatility in the price of our common stock since our IPO. The risk-free interest rate is the ten-year Treasury rate, based on the term of the options. The dividend yield assumption is based on our history and expectation of dividend payments on common stock. The expected life of the stock options represents the period in which the stock options are expected to remain outstanding.

In July 2006, the Compensation Committee of our Board of Directors approved the grant of 500,000 non-qualified stock option awards to four senior executive officers of the Company pursuant to our 2003 Equity Incentive Plan at an exercise price of $10.74 per share, the closing price of HTH's common stock on the New York Stock Exchange on the date of grant. The options have a term of ten years from the date of the award. Under the terms of the grants, the options vest ratably over a three-year period with the first third of the award amount vesting on the first anniversary of the award with one-third vesting on the date of grant and each anniversary thereafter. Vesting is accelerated in certain circumstances, including in the event of the death of the award recipient or in the event of a change of control of the Company. The fair values for the stock options granted during the year ended December 31, 2006 were estimated using the Black-Scholes option pricing model with an expected volatility of 30%, a risk-free interest rate of 5.1%, a dividend yield rate of zero, a six-year expected life of the options, and a forfeiture rate of ten percent. Based on calculations using the Black-Scholes option pricing model, the grant date fair value of the options granted during the quarter approximated $4.38 per share. The expected volatility is based on the historical volatility in the price of our common stock since our IPO. The risk-free interest rate is the ten-year Treasury rate, based on the term of the options. The dividend yield assumption is based on our history and expectation of dividend payments on common stock. The expected life of the stock options represents the period in which the stock options are expected to remain outstanding.

In April 2005, the board of directors approved an award of 80,000 shares of restricted stock to Scott D. Jackson, the Company's former Chief Executive Officer, under the Company's 2003 equity incentive plan. Pursuant to the terms of the grant, 20,000 shares vested immediately and the remaining 60,000 shares were forfeited upon Mr. Jackson's resignation from the Company in December 2005.

During 2007, 2006 and 2005, we granted approximately 9,430, 14,400 and 6,250 common shares, respectively, to independent members of our board of directors for service rendered to the Company during the periods.

Preferred Stock

In 2004, the Company issued 5,000,000 shares of Series A preferred stock at an initial public offering price of $25.00 per share that have no stated par value and a liquidation preference of $25.00 per share, plus all accumulated, accrued and unpaid dividends. The holders of our Series A preferred

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

12. Common Stock, Preferred Stock, Dividends and Minority Interest Related Transactions (Continued)

stock are entitled to receive cash dividends at a rate of 8.25% per annum on the $25.00 liquidation preference. The Series A preferred stock has no voting rights and no stated maturity. We may not redeem the shares of our Series A preferred stock prior to February 18, 2009. On and after February 18, 2009, we may, at our option, redeem our Series A preferred stock, in whole or from time to time in part, at a cash redemption price equal to $25.00 per share, plus all accumulated, accrued and unpaid dividends, if any, to and including the redemption date. Our Series A preferred stock is not convertible into or exchangeable for any of our other properties or securities.

Stockholder Rights Plan

On July 11, 2006, we entered into a Stockholder Rights Plan (the "Rights Plan") under which one right was distributed as a dividend for each share of our common stock held by stockholders of record as of the close of business on July 17, 2006. The Rights Plan was adopted as a means to preserve the use of previously accumulated net operating losses. Effective with the revocation of our REIT election in March 2006, we have been taxed as a corporation for U.S. Federal income tax purposes and our net income has been subject to taxation at regular (or alternative minimum) corporate rates without the benefit of a dividends paid deduction. We have net operating losses, or NOLs from prior years that are expected to substantially offset our taxable income, if any. Therefore, the preservation of such NOLs is the key to minimizing our U.S. Federal income tax liability. U.S. Federal income tax law imposes significant limitations on the ability of a corporation to use its NOLs to offset income in circumstances where such corporation has experienced a "change in ownership." Generally, there is a change in ownership if, at any time, one or more 5% shareholders have aggregate increases in their ownership in the corporation of more than 50 percentage points looking back over the prior three year period. One of the principal reasons for adopting the Rights Plan was to preserve the use of the NOLs by dissuading investors from aggregating ownership in HTH and triggering such a change in ownership. The Rights Plan was designed to reduce the likelihood of a change in ownership by, among other things, discouraging any person or group from acquiring additional shares such that they would beneficially own 5% or more of the outstanding shares of our common stock. The Rights Plan was not adopted in response to any effort to acquire control of the Company. Under the Rights Plan, each right initially entitled stockholders to purchase a fraction of a share of preferred stock at a purchase price of $50.00, subject to adjustment as provided in the Rights Plan. Subject to the exceptions and limitations contained in the Rights Plan, the rights generally were exercisable only if a person or group acquired beneficial ownership of 5% or more of our common stock or commenced a tender or exchange offer upon consummation of which such person or group would have beneficially owned 5% or more of our common stock.

To help preserve the benefit of the NOLs, we submitted for stockholder approval an amendment to our charter to restrict certain acquisitions of our common stock so as to reduce the likelihood of triggering a change in ownership. Upon shareholder approval of the charter amendment in January 2007 the Rights Plan was terminated.

Minority Interest

As of December 31, 2007, there were no minority interests outstanding in the OP.

At December 31, 2006, minority interest consisted of 1,455,615 OP Units that were issued to various limited partners. Each OP Unit outstanding is paired with 1.9268 shares of our special voting stock (each a "Paired Equity Unit") that allows each holder to vote an OP Unit on matters as if it were a common share of our stock. Each OP Unit is redeemable for cash, or at our election, for 1.06 shares of our common stock. During the third quarter of 2007, 55,621 OP Units were redeemed for common stock valued at approximately $.7 million and 1,355,729 OP Units were redeemed for $17.6 million in cash, including a premium paid of $7.7 million.

The Preferred Partnership Units, or PPUs outstanding as of December 31, 2006 consisted of 705,688 Series "C" units. The Series "C" PPUs carried a liquidation preference of $25 per unit and earned cash distributions at the rate of 6.25% per annum, payable quarterly. In January 2007, all 705,688 units of our Series "C" PPUs were redeemed according to their terms for 1,628,410 shares of HTH common stock.

According to the terms of the Series "B" PPU's, in July 2005 the unitholders requested redemption of their 300,000 units and the OP elected to repurchase them for approximately $2.5 million in cash and notes payable totaling approximately $5.0 million.

We recorded an equity transfer adjustment between additional paid-in capital and the minority interest in our consolidated balance sheet as of September 30, 2007 to account for changes in the respective ownership in the underlying equity of the OP.

DECEMBER 31, 2007, 2006 and 2005

12. Common Stock, Preferred Stock, Dividends and Minority Interest Related Transactions (Continued)

The following table rolls forward the minority interest from December 31, 2005 to December 31, 2007 (in thousands):

Minority interest at December 31, 2005	$ 31,902
Minority interest allocation	200
Transfer from stockholders' equity	831
Redemption of OP Units	(3,688)
Distributions to PPU holders	(1,103)
Minority interest at December 31, 2006	$ 28,142
Minority interest allocation	(610)
Transfer from stockholders' equity	1,373
Redemption of OP Units for stock	(1,000)
Redemption of OP Units for cash	(10,196)
Distributions to PPU holders	(67)
Redemption of Series "C" PPUs	(17,642)
Minority interest at December 31, 2007	$

All retained earnings of our insurance subsidiary are unappropriated.

13. General and Administrative Expense

During the years ended December 31, 2007, 2006 and 2005, we incurred general and administrative expense as follows (in thousands):

	Year Ended December 31,		
	2007	**2006**	**2005**
Salaries and benefits	$ 4,693	$ 2,822	$ 3,758
Travel	145	710	852
Professional services	3,483	2,631	5,156
Insurance	740	1,088	795
Rent	235	22	143
Other administrative expense	118	204	292
	$ 9,414	$ 7,477	$ 10,996

14. Discontinued Operations

On July 31, 2007, the Company closed the sale of certain of its assets, including the operating assets of the Company's manufactured home businesses, to American Residential Communities LLC, an affiliate of Farallon Capital Management, L.L.C., Helix Funds LLC and GEM Realty Capital, Inc. The Company received gross proceeds of $889.3 million in cash, which represents the amount of the excess of the purchase price of $1.794 billion over the indebtedness assumed by American Residential Communities LLC. The Company recorded a gain on the sale of the manufactured home business of $366.9 million in 2007. In July, when this transaction occurred, the Company accrued for expenses related to the sale. As of December 31, 2007, all expenses related to the sale have been paid and the accrual was reduced, resulting in an additional $2.9 million gain on sale in the fourth quarter of 2007.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

14. Discontinued Operations (Continued)

In accordance with the provisions of Statement of Financial Accounting Standards No. 144, "*Accounting for the Impairment or Disposal of Long-lived Assets*," or SFAS 144 all of the operating assets of the Company's manufactured home line of business have been classified as discontinued operations and those not sold prior to December 31, 2006 have been classified as assets held for sale. We have included $1,509.6 million of assets related to this line of business as assets held for sale in the accompanying consolidated balance sheet as of December 31, 2006, and $992.7 million of accounts payable and other obligations related to this line of business as liabilities related to assets held for sale. In addition, we have recast the operations for these assets as discontinued operations in the accompanying consolidated statements of operations for the years ended December 31, 2007 and 2006.

Operations of the discontinued manufactured home line of business for the twelve months ended December 31, 2007 and 2006 recorded losses of $11.1 million and $36.3 million, and gains were recorded on the sale of discontinued operations of $366.9 million and $31.9 million for the years 2007 and 2006 respectively. The 2006 gain was produced from the sale of discontinued operations previously discontinued, which was sold for $85.4 million in cash net of related debt, defeasance and other closing costs of $75.0 million.

In 2005, we had a loss from discontinued operations of $180.0 million and a gain from sale of discontinued operations of $0.7 million. The 2005 loss included a goodwill impairment charge of $78 million, interest charges of $72.5 million, a write-down of discontinued assets for $21.8 million, and executive severance costs of $2.1 million.

For the discontinued operations, we considered a manufactured home community to be discontinued when: (i) management commits to a plan to sell the asset, supported by a Board resolution granting approval to proceed with the sale; (ii) the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets; (iii) an active program to locate a buyer and other actions required to complete the plan to sell the asset have been initiated; (iv) the sale of the asset is probable, and transfer of the asset is expected to qualify for recognition as a completed sale, within one year; (v) the asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value; and (vi) actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. In accordance with the guidance provided by SFAS 144 we measure each of our assets held for sale at the lower of its carrying amount or fair value, less cost to sell at the balance sheet date and re-cast any applicable balances and corresponding liabilities related to the asset identified in all comparable periods presented. Depreciation of the assets held for sale, if applicable, is suspended at the date of the determination of discontinuance. Interest and other expenses attributable to the liabilities of the asset classified as held for sale continues to be accrued. The results of operations and cash flows of the assets sold and those classified as held for sale are reported as discontinued operations for all periods presented. We recognize any estimated losses on the sales of assets in the period in which the properties are discontinued and recognize any resulting gains on the sales of assets when realized. We disclose the gain or loss recognized in accordance with SFAS 144 and, if applicable, the amounts of revenue and pretax profit or loss reported in discontinued operations. If circumstances arise that previously were considered unlikely and, as a result, we decide not to sell assets previously classified as held for sale, the assets will be reclassified as held and used. An asset that is reclassified shall be measured at the lower of its (a) carrying amount before the asset was classified as held for sale,

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

14. Discontinued Operations (Continued)

adjusted for any depreciation expense that would have been recognized had the asset been continuously classified as held and used, or (b) fair value at the date of the subsequent decision not to sell.

The following table summarizes combined balance sheet and income statement information for the discontinued operations noted above (in thousands):

	December 31, 2006
Assets Held for Sale	
Restricted cash	$ 6,784
Tenant receivables	4,651
Rental and other property, net	1,390,564
Intangible assets	6,457
Loan origination fees	46,378
Notes receivable	29,904
Prepaid expenses and other assets	24,854
	$ 1,509,592
Liabilities Related to Assets Held for Sale	
Accounts payable and accrued expenses	$ 24,789
Other liabilities	17,974
Notes payable	949,900
	$ 992,663

	Year Ended December 31,		
	2007	2006	2005
Statement of Operations			
Revenue	$ 151,626	$ 253,265	$ 280,364
Operating expenses	(162,750)	(289,574)	(450,150)
Asset impairment charges			(10,254)
Loss from discontinued operations	$ (11,124)	$ (36,309)	$ (180,040)

15. Employee Savings Plan

We provide our employees a qualified retirement savings plan, or Plan designed to qualify under Section 401 of the Internal Revenue Code. The Plan allows our employees and employees of our subsidiaries to defer a portion of their compensation on a pre-tax basis subject to certain maximum amounts. The Plan provides for matching contributions to be made by us to employee accounts at the rate of 100% of the first 3% of compensation and 50% of the next 2% of compensation. In 2007, the Company match was $0.1 million.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

16. Related Party Transactions

On December 12, 2007, the Compensation Committee of our Board of Directors approved the grant of 40,000 cash-settled stock appreciation rights, or SARs to a related party consultant of the Company at an exercise price of $10.96 per share, the closing price of HTH's common stock on the New York Stock Exchange on the date of grant. Under the terms of the grant, 20% of the SARs vested on grant date, and the balance of the SARs vest ratably over a four-year period with 20% of the award amount vesting on the first anniversary of the award and 20% each anniversary thereafter. The SARs have a term of five years from the date of the award. Upon exercise, the consultant is entitled to receive in cash, the difference between the current market price and the exercise price. Vesting is accelerated in certain circumstances, including in the event of the death of the award recipient or in the event of a change of control of the Company. The fair values for the SARs granted during the year ended December 31, 2007 were estimated using the Black-Scholes option pricing model with an expected volatility of 25%, a risk-free interest rate of 3.5%, a dividend yield rate of zero, a five-year expected life of the options, and a forfeiture rate of fifteen percent. Based on calculations using the Black-Scholes option pricing model, the grant date fair value of the SARs granted during the quarter approximated $2.73 per share. The expected volatility is based on the historical volatility in the price of our common stock since our IPO. The risk-free interest rate is the five-year Treasury rate, based on the term of the SARs. The dividend yield assumption is based on our history and expectation of dividend payments on common stock. The expected life of the SARs represents the period in which the stock options are expected to remain outstanding.

On March 8, 2007, the Company's board of directors appointed C. Clifton Robinson (70) as a director of the Company. Mr. Robinson is the former chief executive officer of NLASCO. At the closing of the NLASCO acquisition, C. Clifton Robinson and his son, Gordon Robinson, the former vice chairman and deputy chief executive officer of NLASCO, entered into employment agreements with NLASCO. C. Clifton Robinson's employment agreement provides that he will serve as chairman of NLASCO and will be paid $100,000 per year. Gordon Robinson's employment agreement provides that he will serve as a senior advisor to NLASCO and will be paid $100,000 per year. Both employment agreements are for a one-year term with automatic one-year extensions by agreement of the parties.

As part of the NLASCO acquisition, there will be a settlement of the reserves for losses and loss adjustment expense based on the runoff of the actual NLASCO loss reserves that were in existence and recorded on the NLASCO books and records as of the transaction closing date January 31, 2007. This settlement is to occur at a date estimated to be June 30, 2010. Depending on actual experience in disposition of these claims, additional payment would be due Mr. Robinson and related selling parties if claim settlement experience is favorable relative to the original amount reserved; or if claim settlement experience is unfavorable relative to the original reserves, Mr. Robinson and related selling parties would be required to reimburse the Company for any inadequate reserve. The additional payment to Mr. Robinson and related selling parties, or refund from Mr. Robinson and related selling parties, would be 65% of the variance of actual losses versus loss reserves in existence at the transaction closing date, plus 8% interest on this balance due, accruing from the date 18 months after the transaction closing date, July 31, 2008. At December 31, 2007, the Company estimates this is currently a payable to Mr. Robinson of $3.8 million, and is reflected in our "Other Liabilities" on the consolidated Balance Sheet.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

16. Related Party Transactions (Continued)

The Company also leases office space for NLASCO and its affiliates in Waco Texas from affiliates of Mr. Robinson. There are 3 separate leases. The first lease is a month to month lease for office space at a rate of $900 per month. The second lease is a month to month lease at a monthly rental rate of $3,500 per month. The third lease requires payments of $40,408 per month and expires on December 31, 2009, but does have renewal options at the discretion of the lessee. These terms of these related party transactions were negotiated prior to acquisition of NLASCO, and as such management is comfortable that these terms are reasonable and are arm's-length transactions.

During 2005 one of our subsidiaries provided accounting services to six communities that are controlled by our former Chief Executive Officer under a year-to-year asset management agreement for which we received $28,000 in compensation. Also, during 2005 we billed these same companies controlled by our former Chief Executive Officer $238,000 for property management expenses in accordance with those agreements. In addition, we leased an airplane hangar from a company controlled by our former Chief Executive Officer for which we paid $54,000 in 2005. At December 31, 2006 and 2005, companies owned by our former Chief Executive Officer had immaterial balances due to or from the Company.

17. Commitments and Contingencies

At December 31, 2007 the following table shows our outstanding commitments for leases (in thousands).

	Payments Due by Period		
Lease Obligations	**Less than 1 year**	**1-3 years**	**Total**
Total lease obligations	$ 578	$ 618	$ 1,196

Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment and/or remediation can be reasonably estimated.

We are a party to various legal actions resulting from our operating activities. These actions consist of litigation and administrative proceedings arising in the ordinary course of business, some of which are covered by liability insurance, and none of which is expected to have a material adverse effect on our consolidated financial condition, results of operations or cash flows taken as a whole.

18. Quarterly Financial Information (Unaudited)

Net earning and loss per share for the 2006 and the first two quarters of 2007 have been restated to reflect the Farallon sale. The following is quarterly financial information for the years ended December 31, 2007 and 2006 (in thousands except per share data):

	Quarter ended			
	Mar 31	Jun 30	Sep 30	Dec 31
For the quarters ended 2007:				
Total revenue	$ 19,433	$ 30,277	$ 38,010	$ 43,563
Total expenses	$ 20,663	$ 33,040	$ 28,350	$ 23,957
Net income (loss)	$ (8,965)	$ (9,933)	$ 291,653	$ 10,167
Basic income (loss) per share	$ (0.17)	$ (0.18)	$ 5.17	$ 0.18
Diluted income (loss) per share	$ (0.17)	$ (0.18)	$ 5.12	$ 0.18
For the quarters ended 2006:				
Total revenue	$ 423	$ 448	$ 255	$ 1,007
Total expenses	$ 3,454	$ 3,589	$ 4,035	$ 3,835
Net income (loss)	$ (7,057)	$ (2,720)	$ (7,850)	$ (10,104)
Basic income (loss) per share	$ (0.16)	$ (0.06)	$ (0.19)	$ (0.23)
Diluted income (loss) per share	$ (0.16)	$ (0.06)	$ (0.19)	$ (0.23)

19. Statutory Net Income and Capital and Surplus

The Company's insurance subsidiaries, which are domiciled in the State of Texas, prepare their statutory financial statements in accordance with accounting principles and practices prescribed or permitted by the Texas Department of Insurance, which Texas recognizes for determining solvency under Texas State Insurance Law. The Commissioner of the Texas Department of Insurance has the right to permit other practices that may deviate from prescribed practices. Prescribed statutory accounting practices are those practices that are incorporated directly or by reference in state laws, regulations, and general administrative rules applicable to all insurance enterprises domiciled in Texas. Permitted statutory accounting practices encompass all accounting practices that are not prescribed; such practices differ from state to state, may differ from company to company within a state, and may change in the future. The Company's insurance subsidiaries have no such permitted statutory accounting practice deviations.

The Company's insurance subsidiaries' statutory financial statements are presented on the basis of accounting practices prescribed or permitted by the Texas Department of Insurance. Texas had adopted the National Association of Insurance Commissioners' statutory accounting practices as the basis of its statutory accounting practices with certain differences which are not significant to the company's statutory equity.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

19. Statutory Net Income and Capital and Surplus (Continued)

Following is a summary of statutory capital and surplus as of December 31, 2007 and statutory net income of each insurance subsidiary for the year ended December 31, 2007 (in thousands).

		Year Ended December 31, 2007
National Lloyds Insurance Company		
Surplus	$	99,229
Statutory net income	$	17,092
American Summit Insurance Company		
Capital and surplus	$	25,663
Statutory net income	$	4,207

20. Capital and Dividend Restrictions

The funding of the cash requirements (including debt service) of NLASCO is primarily provided by cash dividends from NLASCO's wholly-owned insurance subsidiaries. Dividends paid by the insurance subsidiaries are restricted by regulatory requirements of the Texas Department of Insurance. Under Texas State Insurance Law for property and casualty companies, all dividends must be distributed out of earned surplus only. Furthermore, without the prior approval of the Commissioner, dividends cannot be declared or distributed which exceed the greater of ten percent of NLASCO's surplus, as shown by its last statement on file with the Commissioner, or one hundred percent of net income for such period. The subsidiaries paid no dividends to NLASCO during the eleven months ended December 31, 2007. At December 31, 2007, the maximum dividend that may be paid to NLASCO in 2007 without regulatory approval is approximately $21.3 million.

Regulations of the Texas Department of Insurance require insurance companies to maintain minimum levels of statutory surplus to ensure their ability to meet their obligations to policyholders. At December 31, 2007, the Company's insurance subsidiaries had statutory surplus in excess of the minimum required.

Also, the NAIC has adopted the RBC formula for insurance companies that establishes minimum capital requirements relating to insurance risk, asset credit risk, interest rate risk and business risk. The formula is used by the NAIC and certain state insurance regulators as an early warning tool to identify companies that require additional scrutiny or regulatory action. At December 31, 2007, the Company's insurance subsidiaries' RBC ratio exceeded the level at which regulatory action would be required.

DECEMBER 31, 2007, 2006 and 2005

21. Income (Loss) per Share

In accordance with SFAS No. 128, *Earnings per Share*, our historical basic and diluted weighted average shares outstanding have been increased by a factor of approximately 1.06 to reflect the impact of our January 2007 rights offering in which ten million shares of our common stock were purchased by our stockholders at the below-market price of $8.00 per share. The following reflects the calculation of income (loss) per share on a basic and diluted basis (in thousands, except per share information):

	Year Ended December 31,		
	2007	2006	2005
Income (Loss) per share from discontinued operations:			
Loss from discontinued operations	$ (11,124)	$ (36,309)	$ (180,040)
Gain (Loss) on sale of discontinued operations	366,859	31,871	(678)
Income tax (expense) benefit on discontinued operations	(77,744)		
Minority interest in discontinued operations	494	(378)	7,323
Net income (loss) from discontinued operations	$ 278,485	$ (4,816)	$ (173,395)
Basic income (loss) per share from discontinued operations	$ 5.02	$ (0.11)	$ (4.01)
Diluted income (loss) per share from discontinued operations	$ 4.94	$ (0.11)	$ (4.01)
Income (Loss) per share from continuing operations:			
Income (Loss) from continuing operations	$ 14,750	$ (12,602)	$ (11,078)
Preferred stock dividends	(10,313)	(10,313)	(10,312)
Net income (loss) from continuing operations	$ 4,437	$ (22,915)	$ (21,390)
Basic income (loss) per share from continuing operations	$ 0.08	$ (0.52)	$ (0.49)
Diluted income (loss) per share from continuing operations	$ 0.08	$ (0.52)	$ (0.49)
Income (Loss) per share per common stockholders:			
Net income (loss) per common stockholders	$ 282,922	$ (27,731)	$ (194,785)
Basic income (loss) per share to common stockholders	$ 5.10	$ (0.63)	$ (4.50)
Diluted income (loss) per share to common stockholders	$ 5.02	$ (0.63)	$ (4.50)
Weighted average share information			
Basic shares outstanding	55,421	43,681	43,277
Diluted shares outstanding	56,326	43,681	43,277
Weighted average equivalent shares excluded from diluted loss per share because they would be anti-dilutive:			
Operating partnership units(a)		1,609	2,289

	Year Ended December 31,		
Preferred partnership units(b)		1,603	2,413
Stock warrants	937	886	808
Senior exchangeable Notes	6,718	6,762	6,762
Restricted stock		10	52
Total	7,655	10,870	12,324

(a) We redeemed 1,455,615, 375,346 and 572,567 OP units in 2007, 2006 and 2005, respectively.

(b) In July 2005, we redeemed all of the Series B PPUs. In January 2007, we redeemed all of the Series C PPUs.

HILLTOP HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

DECEMBER 31, 2007, 2006 and 2005

22. Segments

On July 31, 2007, the Company closed the sale of the manufactured home communities, retail sales and financing of manufactured home businesses to American Residential Communities LLC and retained ownership of NLASCO. NLASCO operates through its wholly-owned subsidiaries, NLIC and ASIC. Given the homogeneity of our products, the regulatory environments in which we operate, the nature of our customers and our distribution channels, we now monitor, control and manage our business lines as an integrated entity providing fire and homeowners insurance to low value dwellings and manufactured homes primarily in Texas and other areas of the south, southeastern and southwestern United States. Accordingly, the segment information previously provided is no longer used to monitor the company and we only disclose insurance company segment information.

23. Subsequent Events

Pursuant to the terms of the acquisition agreement of Nalico GA, made by NLASCO prior to its acquisition by HTH, NLASCO paid the former owner $375,000 in additional purchase price on January 31, 2008 based on attainment of certain financial targets. The Company may make additional contingent acquisition payments up to $1.1 million based on attainment of certain financial targets in future periods.
