UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-K

ý ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For The Fiscal Year Ended February 26, 2011

OR

o TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For The Transition Period From To Commission File Number 1-5742

RITE AID CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

23-1614034

(I.R.S. Employer Identification No.)

30 Hunter Lane, Camp Hill, Pennsylvania (Address of principal executive offices)

17011

(Zip Code)

Registrant's telephone number, including area code: (717) 761-2633

Securities registered pursuant to Section 12(b) of the Act:

Title of each classCommon Stock, \$1.00 par value

Name of each exchange on which registered New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ý No o

Indicate by check mark if the registrant is not required to file reports pursuant to section 13 or section 15(d) of the Exchange Act. Yes o No \acute{v}

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes \circ No o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files). Yes \(\times \) No o

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. Yes ý No o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "Accelerated Filer" and "Large Accelerated Filer" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer o

Non-Accelerated Filer o

Smaller reporting company o

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes o No ý

The aggregate market value of the voting and non-voting common stock of the registrant held by non-affiliates of the registrant based on the closing price at which such stock was sold on the New York Stock Exchange on August 28, 2010 was approximately \$568,118,447. For purposes of this calculation, executive officers, directors and 5% shareholders are deemed to be affiliates of the registrant.

As of April 14, 2011 the registrant had outstanding 890,240,871 shares of common stock, par value \$1.00 per share.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the proxy statement for the registrant's annual meeting of stockholders to be held on June 23, 2011 are incorporated by reference into Part III.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This report, as well as our other public filings or public statements, include forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are often identified by terms and phrases such as "anticipate," "believe," "intend," "estimate," "expect," "continue," "should," "could," "may," "plan," "project," "predict," "will" and similar expressions and include references to assumptions and relate to our future prospects, developments and business strategies.

Factors that could cause actual results to differ materially from those expressed or implied in such forward-looking statements include, but are not limited to:

our ability to maintain the listing of our common stock on the New York Stock Exchange (the "NYSE"), and the resulting impact on our indebtedness, results of operations and financial condition; and

other risks and uncertainties described from time to time in our filings with the Securities and Exchange Commission ("the SEC").

We undertake no obligation to update or revise the forward-looking statements included in this report, whether as a result of new information, future events or otherwise, after the date of this report. Our actual results, performance or achievements could differ materially from the results expressed in, or implied by, these forward-looking statements. Factors that could cause or contribute to such differences are discussed in the sections entitled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations Overview and Factors Affecting Our Future Prospects" included in this annual report on Form 10-K.

Table of Contents

PART I

Item 1. Business

Overview

We are the third largest retail drugstore chain in the United States based on revenues and number of stores. We operate our drugstores in 31 states across the country and in the District of Columbia. As of February 26, 2011, we operated 4,714 stores.

In our stores, we sell prescription drugs and a wide assortment of other merchandise, which we call "front end" products. In fiscal 2011, prescription drug sales accounted for 67.8% of our total sales. We believe that our pharmacy operations will continue to represent a significant part of our business due to favorable industry trends, including an aging population, increased life expectancy, anticipated growth in the federally funded Medicare Part D prescription program as "baby boomers" start to enroll, expanded coverage for uninsured Americans as the result of the Patient Protection and Affordable Care Act and the discovery of new and better drug therapies. We carry a full assortment of front end products, which accounted for the remaining 32.2% of our total sales in fiscal 2011. Front end products include over-the-counter medications, health and beauty aids, personal care items, cosmetics, household items, beverages, convenience foods, greeting cards, seasonal merchandise and numerous other everyday and convenience products, as well as photo processing. We attempt to distinguish our stores from other national chain drugstores, in part, through our wellness+ loyalty program, private brands and our strategic alliance with GNC, a leading retailer of vitamin and mineral supplements. We offer a wide variety of products under our private brands, which contributed approximately 16.0% and 15.0% of our front end sales in the categories where private brand products were offered in fiscal 2011 and fiscal 2010, respectively.

The overall average size of each store in our chain is approximately 12,500 square feet. The average size of our stores is larger in the western United States. As of February 26, 2011, 59% of our stores are freestanding; 51% of our stores include a drive-thru pharmacy; 35% include one-hour photo shops; and 43% include a GNC store-within-Rite Aid-store.

Our headquarters are located at 30 Hunter Lane, Camp Hill, Pennsylvania 17011, and our telephone number is (717) 761-2633. Our common stock is listed on the New York Stock Exchange under the trading symbol of "RAD." We were incorporated in 1968 and are a Delaware corporation.

Industry Trends

The rate of pharmacy sales growth in the United States in recent years has slowed driven by the decline in new blockbuster drugs, a longer FDA approval process, drug safety concerns, higher copays, the loss of individual health insurance with the rise of unemployment and an increase in the use of generic (non-brand name) drugs, which are less expensive but generate higher gross margins. However, we expect prescription sales to grow in the coming years due to the aging population, increased life expectancy, "baby boomers" becoming eligible for the federally funded Medicare prescription program and new drug therapies. Furthermore, we expect the estimated additional 32 million people who will be covered by health insurance in 2014, and the closing of the "donut hole" in Medicare Part D to be good for our business.

Generic prescription drugs help lower overall costs for customers and third party payors. We believe the utilization of existing generic pharmaceuticals will continue to increase. Further, a significant number of new generics are expected to be introduced in the next few years as many popular branded drugs are scheduled to lose patent protection. The gross profit from a generic drug prescription in the retail drugstore industry is greater than the gross profit from a brand drug prescription.

Table of Contents

The retail drugstore industry is highly competitive and has been experiencing consolidation. We believe that the continued consolidation of the drugstore industry, continued new store openings, increased competition from internet based providers and aggressive generic pricing programs at competitors such as Wal-Mart and various supermarket chains will further increase competitive pressures in the industry. The pharmacy business has become increasingly promotional, which contributes to additional competitive pressures.

The retail drugstore industry relies significantly on third party payors. Third party payors, including the Medicare Part D plans and the state sponsored Medicaid agencies, at times change the eligibility requirements of participants or reduce certain reimbursement rates. These changes and reductions are expected to continue. When third party payors, including the Medicare Part D program and state sponsored Medicaid agencies, reduce the number of participants and/or reduce their reimbursement rates, sales and margins in the industry could be reduced, and profitability of the industry adversely affected. These possible adverse effects can be partially or entirely offset by controlling expenses, dispensing more higher margin generics and dispensing more prescriptions overall.

Strategy

Our primary goal for fiscal 2012 is to grow same stores sales, which is critical for our future financial success. Same store sales growth will enable us to take full advantage of the improvements that we have made in the areas of cost control and working capital management. We have several initiatives that are either already in place or planned to be implemented in fiscal 2012 that we expect to drive same store sales growth and long term shareholder value. Following is a description of these initiatives:

wellness + We rolled out our wellness + loyalty program in April of 2010. We made a substantial initial investment in launching this program in Fiscal 2011. Wellness + is a card based loyalty program that provides benefits to cardholders based on the accumulation of points for certain front end and prescription purchases. This program provides significant value to customers who achieve Gold and Silver tier levels in the program and has been very well received by our customers. As of April 2011, we had over 36 million members enrolled in the wellness + program. At the end of our fiscal year, wellness + members accounted for 67% of front end sales and 58% of prescriptions filled. Wellness + members have higher basket sizes than non-members and also have a much higher rate of prescription retention. Wellness + members also are eligible to receive plus-up rewards, which are discounts on certain items featured in our weekly circular and provide members with additional savings for return shopping trips. We believe that the wellness + program has contributed to the improvement in our sales trends in the fourth quarter of fiscal 2011. We plan on making additional incremental investments in wellness + in fiscal 2012, both in terms of additional discounts and advertising dollars, as we believe that this program is a key element of building a loyal customer base.

Script file purchases We intend to significantly increase the amount of capital allocated to the purchase of prescription files from \$24.2 million in fiscal 2011 to \$75.0 million in fiscal 2012.

Immunization services During fiscal 2011, we tripled the amount of immunizing pharmacists to 7,400, expanded our immunization services to over 3,000 stores and administered 675,000 flu shots. We plan to further expand immunization services to the remainder of the stores in the chain in fiscal 2012. We expect to spend incremental training dollars in fiscal 2012 to support this initiative.

Private brands During fiscal 2011, we began the rollout of a new private brand architecture, which includes the consolidation of our private brands in three separate tiers. We have converted over 1,000 skus to the new architecture and have improved our private brand penetration over the prior year. We expect to have 2,900 skus in these brands in fiscal 2012. Many of the new skus are in our new price

Table of Contents

fighter brand, Simplify, and we believe customers have found these products to be of high quality and provide great value.

Customer service We have put programs in place in store operations to stress the importance of greeting our customers more frequently and assisting them with their purchases. We made investments in technology in fiscal 2011 that make it easier for our store associates to perform necessary tasks, such as price changes and backroom inventory management, which will free up their time to focus on the customer. During fiscal 2012, we intend to increase the amount of dollars spent on training our store and field associates on customer service skills.

In stock conditions We are focusing on improving our in-stock conditions for both ad and non-ad merchandise through improvement in our forecasting processes and the accuracy of our perpetual inventory system.

Segmentation We are also continuing to build upon our segmentation strategy and are experimenting with different store formats that are better tailored to the needs of the particular market that the store is in. During fiscal 2011, we entered into a ten store pilot with Save-a-Lot, a subsidiary of SUPERVALU, Inc. The co-branded Save-A-Lot/Rite Aid pilot stores have a full grocery shop including meat, produce and dairy, traditional drugstore offerings and a full service pharmacy. While we are still in a pilot phase, early results, especially on the front end sales side, have been encouraging. We are also piloting a value store format. These stores have lower front end prices, a more focused front end sku selection, a wall of values and a larger dollar section as well as a full service pharmacy. These stores are designed to better compete in markets where pricing is the main competitive differentiator. In March 2011, we opened six new wellness stores. These stores have a new look with a new décor package, lower shelf height with a clear view of the pharmacy, wider aisles and brighter lighting. There are significant changes to our merchandising in these stores, including the addition of an expanded selection of organic foods, all natural personal care products and homeopathic medicines. These stores will also have expanded clinical pharmacy services, including diabetes care specialists and medication therapy management experts.

To support our segmentation initiatives and to make other necessary improvement to our store base, we plan to complete approximately 500 remodels in fiscal 2012.

We made significant reductions to our SG&A expense in fiscal 2010 and fiscal 2011 through better control of store labor and other controllable costs in the stores, consolidation of our distribution center network, a centralized indirect procurement function for all non-merchandise purchases and through initiatives aimed to simplify our processes in the stores and at our Corporate office. We will continue to focus on controlling costs in Fiscal 2012 so that we can maximize the benefits of our sales initiatives. We have also made significant improvements in our working capital management in fiscal 2010 and 2011 and will continue to control inventory levels through reduction of backroom inventories and improvements in our ad ordering system and sales forecasting techniques.

Products and Services

Sales of prescription drugs represented approximately 67.8%, 67.9%, and 67.2% of our total sales in fiscal years 2011, 2010 and 2009, respectively. In fiscal years 2011, 2010 and 2009, prescription drug sales were \$17.0 billion, \$17.4 billion, and \$17.6 billion, respectively. See "Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations" and our consolidated financial statements.

We carry a full assortment of non-prescription, or front end products. The types and number of front end products in each store vary, and selections are based on customer needs and preferences and

Table of Contents

available space. No single front end product category contributed significantly to our sales during fiscal 2011. Our principal classes of products in fiscal 2011 were the following:

	Percentage of
Product Class	Sales
Prescription drugs	67.8%
Over-the-counter medications and personal care	9.8%
Health and beauty aids	5.2%
General merchandise and other	17.2%

We offer a wide variety of products under our private brands, which contributed approximately 16.0% of our front end sales in the categories where private brand products were offered in fiscal 2011. We intend to increase the number of private brand products during fiscal 2012, many of which will be in our new price fighter brand, Simplify. We have found that our customers found these products to be of high quality and provide great value.

We have a strategic alliance with GNC under which we have opened over 2,000 GNC "stores-within-Rite Aid-stores" as of February 26, 2011 and a contractual commitment to open additional stores by December 2014. We incorporate the GNC store-within-Rite Aid-store concept into many of our new and relocated stores. GNC is a leading nationwide retailer of vitamin and mineral supplements, personal care, fitness and other health related products.

Technology

All of our stores are integrated into a common information system, which enables our customers to fill or refill prescriptions in any of our stores throughout the country, reduces chances of adverse drug interactions, and enables our pharmacists to fill prescriptions more accurately and efficiently. This system can be expanded to accommodate new stores. Our customers may also order prescription refills over the Internet through www.riteaid.com, or over the phone through our telephonic automated refill systems for pick up at a Rite Aid store. We have automated pharmacy dispensing units in high volume stores, which are linked to our pharmacists' computers that fill and label prescription drug orders. The efficiency of these units allows our pharmacists to spend more time consulting with our customers. Additionally, each of our stores employs point-of-sale technology that supports sales analysis and recognition of customer trends. This same point-of-sale technology facilitates the maintenance of perpetual inventory records which, together with our sales analysis, drives our automated inventory replenishment process.

Suppliers

During fiscal 2011, we purchased brand pharmaceuticals and some generic pharmaceuticals, which amounted to approximately 91.4% of the dollar volume of our prescription drugs, from a single wholesaler, McKesson Corp ("McKesson"), under a contract, which runs through April 1, 2013. Under the contract, with limited exceptions, we are required to purchase all of our branded pharmaceutical products from McKesson. If our relationship with McKesson was disrupted, we could temporarily have difficulty filling prescriptions for brand-named drugs until we executed a replacement wholesaler agreement or developed and implemented self-distribution processes, which could negatively affect our business.

We purchase almost all of our generic (non-brand name) pharmaceuticals directly from manufacturers which account for approximately 76% of our prescription volume. We believe the loss of any one generic supplier would not disrupt our ability to fill generic (non-brand name) prescriptions but could negatively impact our results.

We purchase our non-pharmaceutical merchandise from numerous manufacturers and wholesalers. We believe that competitive sources are readily available for substantially all of the non-pharmaceutical

Table of Contents

merchandise we carry and that the loss of any one supplier would not have a material effect on our business.

We sell private brand and co-branded products that generally are supplied by numerous competitive sources. The Rite Aid and GNC co-branded PharmAssure vitamin and mineral supplement products and the GNC branded vitamin and mineral supplement products that we sell in our stores are developed by GNC, and along with our Rite Aid brand vitamin and mineral supplements, are manufactured by GNC.

Customers and Third Party Payors

During fiscal 2011, our stores filled approximately 290 million prescriptions and served an average of 2.1 million customers per day. The loss of any one customer would not have a material adverse impact on our results of operations.

In fiscal 2011, 96.2% of our pharmacy sales were to customers covered by third party payors (such as insurance companies, prescription benefit management companies, government agencies, private employers or other managed care providers) that agree to pay for all or a portion of a customer's eligible prescription purchases based on negotiated and contracted reimbursement rates. During fiscal 2011, the top five third party payors accounted for approximately 60.9% of our pharmacy sales, the largest of which represented 23.8% of our pharmacy sales. During fiscal 2011, Medicaid related sales were approximately 11.5% of our pharmacy sales, of which the largest single Medicaid payor was approximately 3.1% of our pharmacy sales. During fiscal 2011, approximately 27.0% of our pharmacy sales were to customers covered by Medicare Part D.

Competition

The retail drugstore industry is highly competitive. We compete with, among others, retail drugstore chains, independently owned drugstores, supermarkets, mass merchandisers, discount stores, dollar stores and mail order pharmacies. We compete on the basis of store location and convenient access, customer service, product selection and price. We believe continued consolidation of the drugstore industry, the aggressive discounting of generic drugs by supermarkets and mass merchandisers and the increase of promotional incentives to drive prescription sales will further increase competitive pressures in the industry.

Marketing and Advertising

In fiscal 2011, marketing and advertising expense was approximately \$367 million, which was spent primarily on weekly circular advertising. Our marketing and advertising activities centered primarily on the following:

Product price promotions to draw customers to our stores;

Our wellness+ loyalty program, which benefits members based on accumulating points for certain front end and prescription purchases, and offers + UP rewards to provide members additional savings;

Our value plus concept pilot stores and our Save-A-Lot Rite Aid combination pilot stores offer our customers specific shopping experiences and products in addition to those found in a traditional drug store;

Emphasis on the value of our private brand products;

Support of specific initiatives and stores, including competitor market intrusion and prescription file buys; and

Our vision to be the customer's first choice for health and wellness products, services and information.

Table of Contents

Under the umbrella of our "With Us It's Personal" brand positioning, we promote educational programs focusing on specific health conditions and incentives for patients to transfer their prescriptions to Rite Aid. We are also emphasizing our automated courtesy refill service. We believe all of these programs will help us improve customer satisfaction and grow profitable sales.

Associates

We believe that our relationships with our associates are generally good. As of February 26, 2011, we had approximately 91,800 associates: 13% were pharmacists, 44% were part-time and 26% are represented by unions. Associate satisfaction is critical to the success of our strategy. We have surveyed our associates to obtain feedback on various employment-related topics, including job satisfaction and their understanding of our core values and mission. We have also instituted an internal group, consisting of managers and staff from all components of our business that is responsible for using feedback from associates throughout the Company to create a better work environment.

As a result of more licensed pharmacists and new graduates seeking positions in many markets, the national shortage of pharmacists has eased over the past 12 months. Although this is occurring nationally, there is still an unmet demand for pharmacists in certain regions of the country that are challenging to staff. We continue to offer competitive compensation plans to retain and attract current and future pharmacists, work with colleges of pharmacy across the U.S. to recruit both pharmacy interns and pharmacy graduates and conduct a recruiting program for international pharmacists.

Research and Development

We do not make significant expenditures for research and development.

Licenses, Trademarks and Patents

The Rite Aid name is our most significant trademark and the most important factor in marketing our stores and private brand products. We hold licenses to sell beer, wine and liquor, cigarettes and lottery tickets. As part of our strategic alliance with GNC, we have a license to operate GNC "stores-within-Rite Aid-stores." We also hold licenses to operate our pharmacies and our distribution facilities. Collectively, these licenses are material to our operations.

Seasonality

We experience moderate seasonal fluctuations in our results of operations concentrated in the first and fourth fiscal quarters as the result of the concentration of the cough, cold and flu season and the holidays. We tailor certain front end merchandise to capitalize on holidays and seasons. We increase our inventory levels during our third fiscal quarter in anticipation of the seasonal fluctuations described above. Our results of operations in the fourth and first fiscal quarters may fluctuate based upon the timing and severity of the cough, cold and flu season, both of which are unpredictable.

Regulation

Our business is subject to federal, state, and local government laws, regulations and administrative practices. We must comply with numerous provisions regulating health and safety, equal employment opportunity, minimum wage and licensing for the sale of drugs, alcoholic beverages, tobacco and other products. In addition we must comply with regulations pertaining to product content, labeling, dating and pricing.

Pursuant to the Omnibus Budget Reconciliation Act of 1990 ("OBRA") and comparable state regulations, our pharmacists are required to offer counseling, without additional charge, to our customers about medication, dosage, delivery systems, common side effects and other information

Table of Contents

deemed significant by the pharmacists and may have a duty to warn customers regarding any potential adverse effects of a prescription drug if the warning could reduce or negate such effect.

The appropriate state boards of pharmacy must license our pharmacies and pharmacists. Our pharmacies and distribution centers are also registered with the Federal Drug Enforcement Administration and are subject to Federal Drug Enforcement Agency regulations relative to our pharmacy operations, including regulations governing purchasing, storing and dispensing of controlled substances. Applicable licensing and registration requirements require our compliance with various state statutes, rules and/or regulations. If we were to violate any applicable statute, rule or regulation, our licenses and registrations could be suspended or revoked or we could be subject to fines or penalties. Any such violation could also damage our reputation and brand.

In recent years, an increasing number of legislative proposals have been enacted (including the Patient Protection and Affordable Care Act), introduced or proposed in Congress and in some state legislatures that affect or would affect major changes in the healthcare system, either nationally or at the state level. The legislative initiatives include changes in reimbursement levels, changes in qualified participants, changes in drug safety regulations and e-prescribing. We cannot predict the timing of enactment of any such proposals to the extent not yet approved or the long-term outcome or effect of legislation from these efforts on our business.

Our pharmacy business is subject to patient privacy and other obligations, including corporate, pharmacy and associate responsibility imposed by the Health Insurance Portability and Accountability Act. As a covered entity, we are required to implement privacy standards, train our associates on the permitted uses and disclosures of protected health information, provide a notice of privacy practice to our pharmacy customers and permit pharmacy customers to access and amend their records and receive an accounting of disclosures of protected health information. Failure to properly adhere to these requirements could result in the imposition of civil as well as criminal penalties.

We are also subject to laws governing our relationship with our associates, including minimum wage requirements, overtime, working conditions and unionizing efforts. Increases in the federal minimum wage rate, associate benefit costs or other costs related to associates could adversely affect our results of operations.

In addition, in connection with the ownership and operations of our stores, distribution centers and other sites, we are subject to laws and regulations relating to the protection of the environment and health and safety matters, including those governing the management and disposal of hazardous substances and the cleanup of contaminated sites. Violations or liabilities under these laws and regulations as a result of our current or former operations or historical activities at our sites, such as gasoline service stations and dry cleaners, could result in significant costs.

Corporate Governance and Internet Address

We recognize that good corporate governance is an important means of protecting the interests of our stockholders, associates, customers and the community. We have closely monitored and implemented relevant legislative and regulatory corporate governance reforms, including provisions of the Sarbanes-Oxley Act of 2002 ("Sarbanes-Oxley"), the rules of the SEC interpreting and implementing Sarbanes-Oxley and the corporate governance listing standards of the NYSE.

Our corporate governance information and materials, including our Certificate of Incorporation, Bylaws, Corporate Governance Guidelines, the charters of our Audit Committee, Compensation Committee and Nominating and Governance Committee, our Code of Ethics for the Chief Executive Officer and Senior Financial Officers, our Code of Ethics and Business Conduct and our Related Person Transaction Policy are posted on the corporate governance section of our website at www.riteaid.com and are available in print upon request to Rite Aid Corporation, 30 Hunter Lane.

Table of Contents

Camp Hill, Pennsylvania 17011, Attention: Corporate Secretary. Our Board will regularly review corporate governance developments and modify these materials and practices as warranted.

Our website also provides information on how to contact us and other items of interest to investors. We make available on our website, free of charge, our annual reports on Form 10-K, quarterly reports on Form 10-Q, Extensible Business Reporting Language (XBRL) data files of our annual report and quarterly reports beginning with our fiscal 2011 second quarter 10-Q, current reports on Form 8-K and all amendments to these reports, as soon as reasonably practicable after we file these reports with, or furnish them to, the SEC.

Item 1A. Risk Factors

Factors Affecting our Future Prospects

Set forth below is a description of certain risk factors which we believe may be relevant to an understanding of us and our business. Security holders are cautioned that these and other factors may affect future performance and cause actual results to differ from those which may be anticipated. See "Cautionary Statement Regarding Forward-Looking Statements."

Risks Related to Our Financial Condition

Current economic conditions may adversely affect our industry, business and results of operations.

The United States economy is continuing to feel the impact of the economic downturn that began in late 2007, and the future economic environment may not fully recover to levels prior to the downturn. This economic uncertainty has and could further lead to reduced consumer spending for the foreseeable future. If consumer spending continues to decrease or does not recover, we will likely not be able to improve our same store sales. In addition, reduced or flat consumer spending may drive us and our competitors to offer additional products at promotional prices, which would have a negative impact on our gross profit. We operate a number of stores in areas that are experiencing a lower recovery than the economy on a national level. A continued softening or slow recovery in consumer spending may adversely affect our industry, business and results of operations. Reduced revenues as a result of decreased consumer spending may also reduce our liquidity and otherwise hinder our ability to implement our long term strategy.

We are highly leveraged. Our substantial indebtedness could limit cash flow available for our operations and could adversely affect our ability to service debt or obtain additional financing if necessary.

We had, as of February 26, 2011, \$6.2 billion of outstanding indebtedness and stockholders' deficit of \$2.2 billion. We also had additional borrowing capacity under our existing \$1.175 billion senior secured revolving credit facility of approximately \$1.0 billion, net of outstanding letters of credit of \$143.0 million. Our earnings were insufficient to cover fixed charges and preferred stock dividends for fiscal 2011, 2010, 2009, 2008 and 2007 by \$564.8 million, \$498.4 million, \$2.6 billion, \$340.6 million and \$50.8 million, respectively.

Our high level of indebtedness will continue to restrict our operations. Among other things, our indebtedness will:

limit our flexibility in planning for, or reacting to, changes in the markets in which we compete; place us at a competitive disadvantage relative to our competitors with less indebtedness;

render us more vulnerable to general adverse economic, regulatory and industry conditions; and

require us to dedicate a substantial portion of our cash flow to service our debt.

Table of Contents

Our ability to meet our cash requirements, including our debt service obligations, is dependent upon our ability to substantially improve our operating performance, which will be subject to general economic and competitive conditions and to financial, business and other factors, many of which are beyond our control. We cannot provide any assurance that our business will generate sufficient cash flow from operations to fund our cash requirements and debt service obligations.

We believe we have adequate sources of liquidity to meet our anticipated requirements for working capital, debt service and capital expenditures through fiscal 2012 and have no material maturities prior to June 2014. However, if our operating results, cash flow or capital resources prove inadequate, or if interest rates rise significantly, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt and other obligations or otherwise be required to delay our planned activities. If we are unable to service our debt or experience a significant reduction in our liquidity, we could be forced to reduce or delay planned capital expenditures and other initiatives, sell assets, restructure or refinance our debt or seek additional equity capital, and we may be unable to take any of these actions on satisfactory terms or in a timely manner. Further, any of these actions may not be sufficient to allow us to service our debt obligations or may have an adverse impact on our business. Our existing debt agreements limit our ability to take certain of these actions. Our failure to generate sufficient operating cash flow to pay our debts or refinance our indebtedness could have a material adverse effect on us.

Borrowings under our senior secured credit facility are based upon variable rates of interest, which could result in higher expense in the event of increases in interest rates.

As of February 26, 2011, approximately \$1.4 billion of our outstanding indebtedness bore interest at a rate that varies depending upon the London Interbank Offered Rate ("LIBOR"). Borrowings under our Tranche 5 Term Loan due March 2018 are subject to a minimum LIBOR floor of 125 basis points. Our Tranche 2 Term Loan due June 2014 and borrowings under our senior secured revolving credit facility are most sensitive to LIBOR fluctuations because there is no floor. If LIBOR rises, the interest rates on outstanding debt will increase. Therefore an increase in LIBOR would increase our interest payment obligations under those loans and have a negative effect on our cash flow and financial condition. We currently do not maintain hedging contracts that would limit our exposure to variable rates of interest.

The covenants in the instruments that govern our current indebtedness may limit our operating and financial flexibility.

The covenants in the instruments that govern our current indebtedness limit our ability to:

incur debt and liens;
pay dividends;
make redemptions and repurchases of capital stock;
make loans and investments;
prepay, redeem or repurchase debt;
engage in acquisitions, consolidations, asset dispositions, sale-leaseback transactions and affiliate transactions;
change our business;
amend some of our debt and other material agreements;
issue and sell capital stock of subsidiaries;

Table of Contents

restrict distributions from subsidiaries; and

grant negative pledges to other creditors.

The senior secured credit facility contains covenants which place restrictions on the incurrence of debt beyond the restrictions described above, the payment of dividends, sale of assets, mergers and acquisitions and the granting of liens. The Company's credit facility has a financial covenant which requires us to maintain a minimum fixed charge coverage ratio. The covenant requires that, if availability on the revolving credit facility is less than \$150.0 million, the Company maintain a minimum fixed charge coverage ratio of 1.00 to 1.00 which increases to 1.05 to 1.00 at the end of the fourth quarter of fiscal 2012. As of February 26, 2011, we had availability under its revolving credit facility of approximately \$1.0 billion and was in compliance with the senior secured credit facility's financial covenant.

Our stockholders will experience dilution if we issue additional common stock.

Subject to any required approval under the Stockholder Agreement (as defined below), we are generally not restricted from issuing additional shares of our common shares or preferred stock, including, subject to the terms of our outstanding debt instruments, any securities that are convertible into or exchangeable for, or that represent the right to receive, common shares or preferred stock or any substantially similar securities, whether for cash, as part of incentive compensation or in refinancing transactions. Any additional future issuances of common stock will reduce the percentage of our common stock owned by investors who do not participate in such issuances. In most circumstances, stockholders will not be entitled to vote on whether or not we issue additional shares of common stock. The market price of our common stock could decline as a result of issuances of a large number of shares of our common stock or the perception that such issuances could occur.

Subject to certain limitations, Jean Coutu Group may sell Rite Aid common stock at any time, which could cause our stock price to decrease.

The shares of Rite Aid common stock that the Jean Coutu Group currently holds are generally restricted, but Jean Coutu Group may sell these shares under certain circumstances, including pursuant to a registered underwritten public offering under the Securities Act or in accordance with Rule 144 under the Securities Act. We have entered into a registration rights agreement with Jean Coutu Group, which will give Jean Coutu Group the right to require us to register all or a portion of its shares at any time (subject to certain exceptions). The sale of a substantial number of our shares by Jean Coutu Group or our other stockholders within a short period of time could cause our stock price to decrease, make it more difficult for us to raise funds through future offerings of Rite Aid common stock or acquire other businesses using Rite Aid common stock as consideration.

We are in compliance with all New York Stock Exchange continued listing requirements. However, if we do not continue to maintain compliance with such requirements, our common stock may be delisted.

On March 1, 2011, we were notified by the NYSE that, as of March 1, 2011, we regained compliance with the NYSE minimum share price listing requirement. We are now in compliance with all NYSE listing rules, have actively been taking steps to maintain our listing and expect our efforts to maintain our NYSE listing will be successful. However, there can be no assurance that we will maintain compliance with the NYSE minimum share price rule or other continued listing requirements. In the event of a delisting, all holders of our \$64 million of outstanding 8.5% Convertible Notes due May 2015 ("Convertible Notes") would be entitled to require us to repurchase their Convertible Notes. Our senior secured credit facility permits us to make such a repurchase of the Convertible Notes; provided that, before and after such transaction, no default or event of default shall have occurred and be continuing under the senior secured credit facility and we have at least \$100.0 million of availability

Table of Contents

under our revolving credit facility. Our ability to pay cash to holders of the Convertible Notes may be limited by our financial resources at the time of such repurchase. We cannot assure you that sufficient financing will be available on terms acceptable to us if necessary to make any required repurchase of the Convertible Notes.

Risks Related to Our Operations

We need to improve our operations in order to improve our financial condition, but our operations will not improve if we cannot effectively implement our business strategy or if our strategy is negatively affected by worsening economic conditions.

We have not yet achieved the sales productivity level of our major competitors. We believe that improving the sales of existing stores is important to improving profitability and operating cash flow. If we are not successful in implementing our strategies, including our efforts to increase sales and further reduce costs, or if our strategies are not effective, we may not be able to improve our operations. In addition, any further adverse change or continued weakness in general economic conditions or major industries can adversely affect drug benefit plans and reduce our pharmacy sales. Adverse changes in general economic conditions could affect consumer buying practices and consequently reduce our sales of front end products, and cause a decrease in our profitability. Failure to improve operations or a continued weakness in major industries or general economic conditions would adversely affect our results of operations, financial condition and cash flows and our ability to make principal or interest payments on our debt.

For so long as Jean Coutu Group (and, subject to certain conditions, certain members of the Coutu family) maintain certain levels of Rite Aid stock ownership, Jean Coutu Group (and, subject to certain conditions, certain members of the Coutu family) could exercise significant influence over us.

At February 26, 2011, Jean Coutu Group owned approximately 27.4% of the voting power of Rite Aid. As a result, Jean Coutu Group (and, subject to certain conditions, certain members of the Coutu family) generally has the ability to significantly influence the outcome of any matter submitted for the vote of our stockholders. The stockholder agreement (the "Stockholder Agreement") that we entered into at the time of the Brooks Eckerd acquisition provides that Jean Coutu Group (and, subject to certain conditions, certain members of the Coutu family) has the right to designate four of the fourteen members of our board of directors, subject to adjustment based on its ownership position in us. Accordingly, Jean Coutu Group generally is able to significantly influence the outcome of all matters that come before our board of directors. As a result of its significant interest in us, Jean Coutu Group may have the power, subject to applicable law (including the fiduciary duties of the directors designated by Jean Coutu Group), to significantly influence actions that might be favorable to Jean Coutu Group, but not necessarily favorable to our financial condition and results of operations. In addition, the ownership position and governance rights of Jean Coutu Group could discourage a third party from proposing a change of control or other strategic transaction concerning us. Additionally, the Stockholder Agreement provides Jean Coutu Group with certain preemptive rights that provide Jean Coutu Group with the ability to maintain their ownership percentage in Rite Aid and in certain circumstances, requires two thirds of our Board to approve certain transactions.

Conflicts of interest may arise between us and Jean Coutu Group, which may be resolved in a manner that adversely affects our business, financial condition or results of operations.

Following the Brooks Eckerd acquisition, Jean Coutu Group has continued its Canadian operations but no longer has any operations in the United States, and we currently have no operations in Canada. Despite the lack of geographic overlap, conflicts of interest may arise between us and Jean Coutu Group in areas relating to past, ongoing and future relationships, including corporate opportunities, potential acquisitions or financing transactions, sales or other dispositions by Jean Coutu

Table of Contents

Group of its interests in us and the exercise by Jean Coutu Group of its influence over our management and affairs.

A number of the directors on our board of directors are persons who are also officers or directors of Jean Coutu Group or its subsidiaries. Service as a director or officer of both Rite Aid and Jean Coutu Group or its other subsidiaries could create conflicts of interest if such directors or officers are faced with decisions that could have materially different implications for Rite Aid and for Jean Coutu Group. Apart from the conflicts of interest policy contained in our Code of Ethics and Business Conduct and applicable to our directors, we and Jean Coutu Group have not established any formal procedures for us and Jean Coutu Group to resolve potential or actual conflicts of interest between us. There can be no assurance that any of the foregoing conflicts will be resolved in a manner that does not adversely affect our business, financial condition or results of operations.

We are dependent on our management team, and the loss of their services could have a material adverse effect on our business and the results of our operations or financial condition.

The success of our business is materially dependent upon the continued services of our executive management team. The loss of key personnel could have a material adverse effect on the results of our operations, financial condition or cash flows. Additionally, we cannot assure you that we will be able to attract or retain other skilled personnel in the future.

We are substantially dependent on a single wholesaler of branded pharmaceutical products to sell products to us on satisfactory terms. A disruption in this relationship may have a negative effect on our results of operations, financial condition and cash flow.

We purchase all of our brand prescription drugs from a single wholesaler, McKesson, pursuant to a contract that runs through April 1, 2013. Pharmacy sales represented approximately 67.8% of our total sales during fiscal 2011, and, therefore, our relationship with McKesson is important to us. Any significant disruptions in our relationship with McKesson would make it difficult for us to continue to operate our business until we executed a replacement wholesaler agreement or developed and implemented self-distribution processes. There can be no assurance that we would be able to find a replacement wholesaler on a timely basis or that such a wholesaler would be able to fulfill our demands on similar terms, which would have a material adverse effect on our results of operations, financial condition and cash flows.

Risks Related to Our Industry

The markets in which we operate are very competitive and further increases in competition could adversely affect us.

We face intense competition with local, regional and national companies, including other drugstore chains, independently owned drugstores, supermarkets, mass merchandisers, dollar stores and internet pharmacies. Competition from discount stores and mail order has significantly increased during the past few years. Our industry also faces growing competition from companies who import drugs directly from other countries, such as Canada, as well as from large-scale retailers that offer generic drugs at a substantial discount. Some of our competitors have or may merge with or acquire pharmaceutical services companies or pharmacy benefit managers, which may further increase competition. We may not be able to effectively compete against them because our existing or potential competitors may have financial and other resources that are superior to ours. In addition, we may be at a competitive disadvantage because we are more highly leveraged than our competitors. The ability of our stores to achieve profitability depends on their ability to achieve a critical mass of loyal, repeat customers. We believe that the continued consolidation of the drugstore industry will further increase competitive

Table of Contents

pressures in the industry. We cannot assure you that we will be able to continue to effectively compete in our markets or increase our sales volume in response to further increased competition.

Drug benefit plan sponsors and third party payors could change their plan eligibility criteria and further encourage or require the use of mail-order prescriptions which could decrease our sales and reduce our margins and have a material adverse effect on our business.

An adverse trend for drugstore retailing has been initiatives to contain rising healthcare costs leading to the rapid growth in mail-order prescription processors. These prescription distribution methods have grown in market share relative to drugstores as a result of the rapid rise in drug costs experienced in recent years and are predicted to continue to rise. Mail-order prescription distribution methods are perceived by employers and insurers as being less costly than traditional distribution methods and are being encouraged, and, in some cases, required, by third party pharmacy benefit managers, employers and unions that administer benefits. As a result, some labor unions and employers are requiring, and others may encourage or require, that their members or employees obtain medications from mail-order pharmacies which offer drug prescriptions at prices lower than we are able to offer.

Another adverse trend for drugstore retailing has been for drug benefit plan sponsors and third party payors to change their plan eligibility requirements resulting in fewer beneficiaries covered and a reduction in the number of prescriptions allowed.

Mail-order prescription distribution and drug benefit plan eligibility changes have negatively affected sales for traditional chain drug retailers, including us, and we expect such negative effect to continue in the future. There can be no assurance that our efforts to offset the effects of mail order and eligibility changes will be successful nor can we predict whether the recently adopted health care reform legislation will exacerbate this risk.

The availability of pharmacy drugs is subject to governmental regulations.

The continued conversion of various prescription drugs, including the planned conversion of a number of popular medications, to over-the-counter medications may reduce our pharmacy sales and customers may seek to purchase such medications at non-pharmacy stores. Also, if the rate at which new prescription drugs become available slows or if new prescription drugs that are introduced into the market fail to achieve popularity, our pharmacy sales may be adversely affected. The withdrawal of certain drugs from the market or concerns about the safety or effectiveness of certain drugs or negative publicity surrounding certain categories of drugs may also have a negative effect on our pharmacy sales or may cause shifts in our pharmacy or front end product mix.

Changes in third party reimbursement levels for prescription drugs and changes in industry pricing benchmarks could reduce our margins and have a material adverse effect on our business.

Sales of prescription drugs reimbursed by third party payors, including the Medicare Part D plans and state sponsored Medicaid agencies, represented 96.2% of our business in fiscal 2011.

The continued efforts of the Federal government, health maintenance organizations, managed care organizations, pharmacy benefit management companies, other State and local government entities, and other third-party payors to reduce prescription drug costs and pharmacy reimbursement rates, as well as litigation relating to how drugs are priced, may impact our profitability. In addition, some of these entities may offer pricing terms that we may not be willing to accept or otherwise restrict our participation in their networks of pharmacy providers. Any significant loss of third-party business could have a material adverse effect on our business and results of operations.

Table of Contents

Certain provisions of the Deficit Reduction Act of 2005 ("DRA") sought to reduce federal spending by altering the Medicaid reimbursement formula for multi-source (i.e., generic) drugs ("AMP"). Although those reductions did not go into effect, the Patient Protection and Affordable Care Act, signed into law on March 23, 2010 (the "Patient Care Act") enacted a modified AMP reimbursement formula for multi-source drugs. The modified formula, when implemented, may reduce Medicaid reimbursements which could affect our revenues and profits. There have also been a number of other recent proposals and enactments by the Federal government and various states to reduce Medicare Part D and Medicaid reimbursement levels in response to budget problems. We expect other similar proposals in the future.

We are subject to governmental regulations, procedures and requirements; our noncompliance or a significant regulatory change could adversely affect our business, the results of our operations or our financial condition.

Our business is subject to numerous federal, state and local regulations. Changes in these regulations may require extensive system and operating changes that may be difficult to implement. Untimely compliance or noncompliance with applicable regulations could result in the imposition of civil and criminal penalties that could adversely affect the continued operation of our business, including: (i) suspension of payments from government programs; (ii) loss of required government certifications; (iii) loss of authorizations to participate in or exclusion from government reimbursement programs, such as the Medicare and Medicaid programs; (iv) loss of licenses; or (v) significant fines or monetary penalties. The regulations to which we are subject include, but are not limited to, federal, state and local registration and regulation of pharmacies; applicable Medicare and Medicaid regulations; the Health Insurance Portability and Accountability Act or ("HIPAA"); laws and regulations relating to the protection of the environment and health and safety matters, including those governing exposure to and the management and disposal of hazardous substances; regulations of the U. S. Federal Trade Commission, the U. S. Department of Health and Human Services and the Drug Enforcement Administration as well as state regulatory authorities, governing the sale, advertisement and promotion of products we sell; anti-kickback laws; false claims laws and federal and state laws governing the practice of the profession of pharmacy. We are also governed by federal and state laws of general applicability, including laws regulating matters of wage and hour laws, working conditions, health and safety and equal employment opportunity.

Certain risks are inherent in providing pharmacy services; our insurance may not be adequate to cover any claims against us.

Pharmacies are exposed to risks inherent in the packaging and distribution of pharmaceuticals and other healthcare products, such as with respect to improper filling of prescriptions, labeling of prescriptions, adequacy of warnings, unintentional distribution of counterfeit drugs and expiration of drugs. In addition, federal and state laws that require our pharmacists to offer counseling, without additional charge, to their customers about medication, dosage, delivery systems, common side effects and other information the pharmacists deem significant can impact our business. Our pharmacists may also have a duty to warn customers regarding any potential negative effects of a prescription drug if the warning could reduce or negate these effects. Although we maintain professional liability and errors and omissions liability insurance, from time to time, claims result in the payment of significant amounts, some portions of which are not funded by insurance. We cannot assure you that the coverage limits under our insurance programs will be adequate to protect us against future claims, or that we will be able to maintain this insurance on acceptable terms in the future. Our results of operations, financial condition or cash flows may be adversely affected if in the future our insurance coverage proves to be inadequate or unavailable or there is an increase in liability for which we self-insure or we suffer reputational harm as a result of an error or omission.

Table of Contents

We will not be able to compete effectively if we are unable to attract, hire and retain qualified pharmacists.

As a result of more licensed pharmacists and new graduates seeking positions in many markets, the national shortage of pharmacists has eased over the past 12 months. Although this is occurring nationally, there is still an unmet demand for pharmacists in certain regions of the country that are challenging to staff. We continue to offer competitive compensation plans to retain and attract current and future pharmacists, work with colleges of pharmacy across the U.S. to recruit both pharmacy interns and pharmacy graduates and conduct a recruiting program for international pharmacists, but if the shortage recurs in one or more markets, our ability to compete effectively in any market could be adversely impacted.

We may be subject to significant liability should the consumption of any of our products cause injury, illness or death.

Products that we sell could become subject to contamination, product tampering, mislabeling or other damage requiring us to recall our private brand products. In addition, errors in the dispensing and packaging of pharmaceuticals could lead to serious injury or death. Product liability claims may be asserted against us with respect to any of the products or pharmaceuticals we sell and we may be obligated to recall our private brand products. A product liability judgment against us or a product recall could have a material, adverse effect on our business, financial condition or results of operations.

If we fail to protect the security of personal information about our customers and associates, we could be subject to costly government enforcement actions or private litigation.

Through our sales and marketing activities, we collect and store certain personal information that our customers provide to purchase products or services, enroll in promotional programs, register on our web site, or otherwise communicate and interact with us. We also gather and retain information about our associates in the normal course of business. We may share information about such persons with vendors that assist with certain aspects of our business. Despite instituted safeguards for the protection of such information, security could be compromised and confidential customer or business information misappropriated. Loss of customer or business information could disrupt our operations, damage our reputation, and expose us to claims from customers, financial institutions, payment card associations and other persons, any of which could have an adverse effect on our business, financial condition and results of operations. In addition, compliance with tougher privacy and information security laws and standards may result in significant expense due to increased investment in technology and the development of new operational processes. For example, in July 2010, settlement orders between us and the Federal Trade Commission and U.S. Department of Health and Human Services, Office for Civil Rights were accepted by the agencies. The agencies' allegations were that we failed to protect patient and associate identifiable information. As a result of these settlement orders, we, without admitting any liability, agreed to pay a \$1.1 million penalty and are required to establish a comprehensive information security program, revise HIPAA-related policies and procedures and retain an independent assessor to conduct periodic compliance reviews.

Item 1B. Unresolved SEC Staff Comments

Table of Contents

Item 2. Properties

As of February 26, 2011, we operated 4,714 retail drugstores. The overall average selling square feet of each store in our chain is 10,000 square feet. The overall average total square feet of each store in our chain is 12,500. The stores in the eastern part of the U.S. average 8,800 selling square feet per store (11,000 average total square feet per store). The stores in the western part of the U.S. average 15,200 selling square feet per store (19,600 average total square feet per store).

Our Customer World store prototype has an overall average selling square footage of 11,700 and an overall average total square feet of 14,900. The new Customer World store prototype in the eastern parts of the U.S. averages 11,000 selling square feet (14,000 average total square feet per store). The Customer World store prototype in the western part of the U.S. averages 14,000 selling square feet (17,500 average total square feet per store).

The table below identifies the number of stores by state as of February 26, 2011:

State	Store Count
Alabama	94
California	593
Colorado	20
Connecticut	78
Delaware	43
District of Columbia	7
Georgia	191
Idaho	13
Indiana	10
Kentucky	117
Louisiana	66
Massachusetts	157
Maine	79
Maryland	144
Michigan	284
Mississippi	27
North Carolina	232
Nevada	1
New Hampshire	68
New Jersey	268
New York	641
Ohio	229
Oregon	71
Pennsylvania	559
Rhode Island	46
South Carolina	96
Tennessee	84
Utah	22
Vermont	38
Virginia	193
Washington	139
West Virginia	104
Total	4,714

Table of Contents

Our stores have the following attributes at February 26, 2011:

Attribute	Number	Percentage
Freestanding	2,798	59.4%
Drive through pharmacy	2,404	51.0%
One-hour photo development department	1,669	35.4%
GNC stores-within a Rite Aid-store	2,009	42.6%

We lease 4,456 of our operating drugstore facilities under non-cancelable leases, many of which have original terms of 10 to 22 years. In addition to minimum rental payments, which are set at competitive market rates, certain leases require additional payments based on sales volume, as well as reimbursement for taxes, maintenance and insurance. Most of our leases contain renewal options, some of which involve rent increases. The remaining 258 drugstore facilities are owned.

We own our corporate headquarters, which is located in a 205,000 square foot building at 30 Hunter Lane, Camp Hill, Pennsylvania 17011. We lease 366,400 square feet of space in various buildings near Harrisburg, Pennsylvania for document warehousing use and additional administrative personnel. We own additional buildings near Harrisburg, Pennsylvania which total 105,800 square feet and house our model store and additional administrative personnel.

We operate the following distribution centers and satellite distribution locations, which we own or lease as indicated:

		Approximate
	Owned or	Square
Location	Leased	Footage
Rome, New York(2)	Owned	283,000
Utica, New York(1)(2)	Leased	172,000
Geddes, New York(1)(2)	Leased	300,000
Poca, West Virginia	Owned	255,000
Dunbar, West Virginia(1)	Leased	110,000
Perryman, Maryland	Owned	885,000
Perryman, Maryland(1)	Leased	262,000
Tuscaloosa, Alabama	Owned	230,000
Cottondale, Alabama(1)	Leased	224,000
Pontiac, Michigan	Owned	325,000
Woodland, California	Owned	513,000
Woodland, California(1)	Leased	200,000
Wilsonville, Oregon	Leased	547,000
Lancaster, California	Owned	914,000
Charlotte, North Carolina	Owned	585,500
Charlotte, North Carolina(1)	Leased	291,000
Dayville, Connecticut	Owned	460,000
Liverpool, New York	Owned	828,000
Philadelphia, Pennsylvania	Owned	245,000
Philadelphia, Pennsylvania(1)	Leased	415,000

(1) Satellite distribution locations.

(2) Locations identified for closure.

The original terms of the leases for our distribution centers and satellite distribution locations range from 5 to 22 years. In addition to minimum rental payments, certain distribution centers require tax reimbursement, maintenance and insurance. Most leases contain renewal options, some of which

Table of Contents

involve rent increases. Although from time to time, we may be near capacity at some of our distribution facilities, particularly at our older facilities, we believe that the capacity of our facilities is adequate.

We also own a 55,800 square foot ice cream manufacturing facility located in El Monte, California.

On a regular basis and as part of our normal business, we evaluate store performance and may reduce in size, close or relocate a store if the store is redundant, underperforming or otherwise deemed unsuitable. We also evaluate strategic dispositions and acquisitions of facilities and prescription files. When we reduce in size, close or relocate a store or close distribution center facilities, we often continue to have leasing obligations or own the property. We attempt to sublease this space. As of February 26, 2011, we had 9,351,693 square feet of excess space, 4,827,532 square feet of which was subleased.

Item 3. Legal Proceedings

We are currently a defendant in several putative collective or class action lawsuits filed in federal or state courts in Pennsylvania, New Jersey, New York, Maryland and Oregon, purportedly on behalf of, in some cases (i) current and former assistant store managers, or (ii) current and former store managers and assistant store managers, respectively, working in our stores at various locations. The lawsuits allege violations of the Fair Labor Standards Act and of certain state wage and hour statutes. The lawsuits seek various combinations of unpaid compensation (including overtime compensation), liquidated damages, exemplary damages, pre- and post-judgment interest as well as attorneys' fees and costs. In one of the cases, Craig et al v. Rite Aid Corporation et al, pending in the United States District Court for the Middle District of Pennsylvania, brought on behalf of current and former assistant store managers, the Court, on December 9, 2009, conditionally certified a nationwide collective group of individuals who worked for us as assistant store managers since December 9, 2006. Notice of the Craig action has been sent to the purported members of the collective group (approximately 6,700 current and former store managers) and approximately 1,100 have joined the Craig action. In another of the cases, Indergit v. Rite Aid Corporation et al, pending in the United States District Court for the Southern District of New York, brought on behalf of current and former store managers and assistant store managers, the Court, on April 2, 2010, conditionally certified a nationwide collective group of individuals who worked for us as store managers since March 31, 2007. The Court ordered that Notice of the *Indergit* action be sent to the purported members of the collective group (approximately 7,000 current and former store managers) and approximately 1,550 have joined the *Indergit* action. At this time, we are not able to predict the outcome of these lawsuits, or any possible monetary exposure associated with the lawsuits. Our management believes, however, that the lawsuits are without merit and not appropriate for collective or class action treatment. We are vigorously defending all of these claims.

We are currently a defendant in several putative class action lawsuits filed in state courts in California alleging violations of California wage and hour laws pertaining primarily to pay for missed meals and rest periods. These suits purport to be class actions and seek substantial damages. At this time, we are not able to predict the outcome of these lawsuits, or any possible monetary exposure associated with the lawsuits. Our management believes, however, that the plaintiffs' allegations are without merit and that their claims are not appropriate for class action treatment. We are vigorously defending all of these claims.

We were served with a United States Department of Health and Human Services Office of the Inspector General ("OIG") Subpoena dated March 5, 2010 in connection with an investigation being conducted by the OIG, the United States Attorney's Office for the Central District of California and the United States Department of Justice Commercial Litigation Branch. The subpoena requests records related to any gift card or similar programs for customers who transferred prescriptions for drugs or

Table of Contents

medicines to our pharmacies, and whether any customers who receive federally funded prescription benefits (e.g. Medicare and Medicaid) may have benefited from those programs. We are in the process of producing records in response to the subpoena and are unable to predict with certainty the timing or outcome of the investigation.

We do not believe that any of these matters will have a material adverse effect on our business or financial condition. We cannot give assurance, however, that an unfavorable outcome in one or more of these matters will not have a material adverse effect on our results of operations for the period in which they are resolved.

We are subject from time to time to various claims and lawsuits and governmental investigations arising in the ordinary course of our business. While our management cannot predict the outcome of these claims with certainty, our management does not believe that the outcome of any of these legal matters will have a material adverse effect on our business, consolidated results of operations or financial position.

Item 4. Removed and Reserved

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuers Purchases of Equity Securities.

Our common stock is listed on the NYSE under the symbol "RAD." On April 15, 2011, we had approximately 26,643 stockholders of record. Quarterly high and low closing stock prices, based on the composite transactions, are shown below.

Fiscal Year	Quarter	High	Low
2012 (through April 15, 2011)	First	\$ 1.31	\$ 0.98
2011	First	1.74	1.08
	Second	1.18	0.88
	Third	1.10	0.87
	Fourth	1.41	0.88
2010	First	1.22	0.21
	Second	1.74	1.22
	Third	2.24	1.26
	Fourth	1.66	1.26

We have not declared or paid any cash dividends on our common stock since the third quarter of fiscal 2000 and we do not anticipate paying cash dividends on our common stock in the foreseeable future. Our senior secured credit facility and some of the indentures that govern our other outstanding indebtedness restrict our ability to pay dividends.

We have not sold any unregistered equity securities during the period covered by this report, nor have we repurchased any equity securities, during the period covered by this report.

Our Chief Executive Officer certified to the NYSE on June 29, 2010 that he was not aware of any violation by the Company of the NYSE's corporate governance listing standards.

Table of Contents

STOCK PERFORMANCE GRAPH

The graph below compares the yearly percentage change in the cumulative total stockholder return on our common stock for the last five fiscal years with the cumulative total return on (i) the Russell 1000 Consumer Staples Index and (ii) the Russell 1000 Index, over the same period (assuming the investment of \$100.00 in our common stock and such indexes on March 4, 2006 and reinvestment of dividends).

For comparison of cumulative total return, we have elected to use the Russell 1000 Consumer Staples Index, consisting of 52 companies including the three largest drugstore chains, and the Russell 1000 Index. This allows comparison of the company to a peer group of similar sized companies. We are one of the companies included in the Russell 1000 Consumer Staples Index and the Russell 1000 Index. The Russell 1000 Consumer Staples Index is a capitalization-weighted index of companies that provide products directly to consumers that are typically considered nondiscretionary items based on consumer purchasing habits. The Russell 1000 Index consists of the largest 1000 companies in the Russell 3000 Index and represents the universe of large capitalization stocks from which many active money managers typically select.

Item 6. Selected Financial Data

The following selected financial data should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the audited consolidated financial statements and related notes.

Selected financial data for the fiscal years 2009, 2008 and 2007 have been adjusted to reflect the operations of our 28 stores in the Las Vegas market area as a discontinued operations as we entered into an agreement to sell the prescription files and terminate the operations of these stores during the fourth quarter of fiscal 2008.

24

Table of Contents

Selected financial data for March 1, 2008 includes Brooks Eckerd results of operations for the thirty-nine week period ended March 1, 2008.

- (3) Selling, general and administrative expenses for fiscal 2007 has been adjusted by \$32,019 for the effect of discontinued operations.
- (4)

 Includes stock-based compensation expense. Stock based compensation expense for all fiscal years presented was determined using the fair value method set forth in ASC 718, "Compensation Stock Compensation."
- (5) Income tax benefit for fiscal 2007 has been adjusted by \$1.635 for the effect of discontinued operations.
- (6)
 Total debt included capital lease obligations of \$140.3 million, \$152.7 million, \$193.8 million, \$216.3 million and \$189.7 million, as of February 26, 2011, February 27, 2010, February 28, 2009, March 1, 2008 and March 3, 2007, respectively.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Net loss for fiscal 2011 was \$555.4 million or \$0.64 per basic and diluted share, compared to net loss for 2010 of \$506.7 million or \$0.59 per basic and diluted share and a net loss for fiscal 2009 of \$2,915.4 million or \$3.49 per basic and diluted share. Fiscal 2009 included significant non-cash charges related to goodwill impairment, store impairment and an additional tax valuation allowance against deferred tax assets that accounted for \$2.2 billion or \$2.70 per diluted share. Excluding these significant non-cash charges, fiscal 2009's net loss would have been \$640 million or \$0.79 per diluted share. Our operating results are described in detail in the Results of Operations section of this Item 7. Some of the key factors that impacted our results in fiscal 2011, 2010 and 2009 are summarized as follows:

Write-Off of Goodwill: During fiscal 2009, we impaired all of our existing goodwill, which resulted in a non-cash charge of \$1.81 billion. This entry was required due to the fact that the market value of Rite Aid Corporation, as indicated by the trading price of our common stock, was less than the carrying value of our net assets as of February 28, 2009.

Income Tax: Net loss for fiscal 2011 included income tax expense of \$9.8 million and was primarily comprised of an accrual for state and local taxes, adjustments to unrecognized tax benefits and the need for an accrual of additional state taxes resulting from the receipt of a final audit determination. We maintain a full valuation allowance against the net deferred tax assets. ASC 740, "Income Taxes" requires a company to evaluate its deferred tax assets on a regular basis to determine if a valuation allowance against the net deferred tax assets is required. A cumulative loss in recent years is significant negative evidence in considering whether deferred tax assets are realizable. Based on the negative evidence, ASC 740 precludes relying on projections of future taxable income to support the recognition of deferred tax assets.

Net loss for fiscal 2010 included income tax expense of \$26.8 million. The income tax expense was primarily due to an accrual for state and local taxes net of federal tax recoveries and adjustments to unrecognized tax benefits. Net loss for fiscal 2009 included income tax expense of \$329.3 million related to a non-cash write-down of our remaining net federal and state deferred tax assets through an adjustment to our valuation allowance. This change was primarily due to a decline in actual results from our previous forecast as a result of the impact of current economic conditions on fiscal 2009 results.

Store Closing and Impairment Charges: We recorded store closing and impairment charges of \$210.9 million in fiscal 2011 compared to \$208.0 million in fiscal 2010 and \$293.7 million in store closing and impairment charges in fiscal 2009.

LIFO Charges: We record the value of our inventory on the Last-In, First-Out (LIFO) method. We recorded non-cash LIFO charges of \$44.9 million, \$88.5 million and \$184.6 million in fiscal 2011, 2010 and 2009, respectively. The higher LIFO charge in fiscal 2009 was due to higher inflation on front end products in that year.

Table of Contents

Debt Refinancing: In fiscal years 2011, 2010 and 2009, we took several steps to extend the terms of our debt and obtain more flexibility. In fiscal 2011, we repaid all borrowings under our existing revolving credit facility and cancelled all commitments thereunder and replaced the facility with a new \$1.175 million revolving credit facility. Additionally, in fiscal 2011 we issued \$650.0 million of 8.00% Senior Secured Notes due August 2020, the proceeds of which were used to repay and retire all borrowings and accrued interest under our \$647.7 million Tranche 4 Term Loan. We recorded a loss on debt modification related to the Tranche 4 Term Loan transaction in fiscal 2011. The prepayment of the Tranche 4 Term Loan occurred prior to the second anniversary of the borrowing and therefore a 3.0% penalty of the principal amount outstanding was paid totaling \$19.4 million which is included in the loss on debt modifications. The loss on debt modifications and retirements also includes the write-off of debt issue costs of \$13.1 million and net unamortized original issuance discount of \$11.4 million. In fiscal 2010, we refinanced our first and second lien securitization facilities, refinanced and extended the maturity of our revolving credit facility, and repaid all the borrowings outstanding under our Tranche 1 term loan. These refinancings were funded via the issuance of our \$650.0 million Tranche 4 Term Loan under our senior secured credit facility, \$410.0 million of 9.75% senior secured notes due June 2016 and \$270.0 million of 10.25% Senior Secured Notes due October 2019. We incurred fees of \$60.2 million to consummate the fiscal 2010 refinancings and recorded a loss on debt modification of \$0.9 million. In fiscal 2009, we recorded a loss on debt modification of \$39.9 million related to the early repayment of several notes.

In addition, on March 3, 2011, we entered into a new \$343.0 million Tranche 5 Term Loan under our senior secured credit facility, the proceeds of which were used to repay and retire all borrowings under our Tranche 3 Term Loans. In connection with the Tranche 3 Term Loan repayment and retirement we recorded a loss on debt modification of \$22.4 million during the first quarter of fiscal 2012 due to the write off of debt issue costs of \$2.7 million and unamortized original issuance discount of \$19.7 million. These transactions are described in more detail in the "Liquidity and Capital Resources" section below.

Dilutive Equity Issuances. At February 26, 2011, 890.3 million shares of common stock were outstanding and an additional 128.5 million shares of common stock were issuable related to outstanding stock options, convertible preferred stock and convertible notes.

At February 26, 2011, our 128.5 million shares of potentially issuable common stock consisted of the following (shares in thousands):

Strike price	Outstanding Stock Options(a)(b)	Preferred Stock	Convertible Notes	Total
\$0.99 and under	13,560	Stock	110003	13,560
\$1.00 to \$1.99	32,787			32,787
\$2.00 to \$2.99	5,200		24,800	30,000
\$3.00 to \$3.99	1,255		ŕ	1,255
\$4.00 to \$4.99	9,243			9,243
\$5.00 to \$5.99	3,502	29,391		32,893
\$6.00 and over	8,751			8,751
Total issuable shares	74,298	29,391	24,800	128,489

(a) The exercise of these options would provide cash of \$183.2 million.

(b)
On March 21, 2011, we launched a stock option exchange offer providing eligible associates the opportunity to surrender certain stock options for a lesser number of new stock options with a strike price that was determined based on the closing market price

Table of Contents

on April 21, 2011, the day the exchange offer concluded. The number of new options was determined by applying exchange ratios that resulted in providing new stock options with an aggregate fair value that approximates the aggregate fair value of the options they replaced. A total of 14.0 million options with an exercise price in excess of \$1.77 were cancelled and 5.3 million new options were granted with an exercise price of \$1.03.

Revenues

Fiscal 2011 compared to Fiscal 2010: The 1.8% decline in revenue was primarily driven by a reduction in our store base and a decline in same store sales, which decreased 0.7% compared to prior year. This decline consisted of 0.9% pharmacy same store sales decrease and a 0.3% decrease in front end same store sales. Additionally, revenues decreased 0.2% compared to the prior year due to revenue deferrals related to our wellness + loyalty program. Same store sales trends for fiscal 2011 and fiscal 2010 are described in the following paragraphs. We include in same store sales all stores that have been open at least one year. Stores in liquidation are considered closed. Relocation stores are not included in same store sales until one year has lapsed.

Pharmacy same store sales decreased 0.9%. Same store prescriptions decreased 1.2%. The decline in same store prescriptions was impacted by a slower start and overall softer cough, cold and flu season, coupled with an increase in 90-day prescriptions compared to last year. Same store sales were negatively impacted by lower reimbursement rates, increased generic penetration and the prescription decline. These trends improved during our fourth quarter as the cough, cold and flu season intensified contributing to same store pharmacy sales increased 0.8%.

Front end same store sales decreased 0.3% from the prior year due to weakness in the overall economic environment and its impact on consumer spending behavior, partially offset by various

Table of Contents

management initiatives, such as our wellness+ loyalty card program. The trend improved during our fourth quarter due largely to the later cough, cold and flu season and our wellness+ loyalty card program, which resulted in a front-end same store sales increase of 1.0% compared to the fourth quarter last year.

Fiscal 2010 compared to Fiscal 2009: The 2.4% decline in revenue was primarily driven by a reduction in our store base and a decline in same store sales, which decreased 0.9% compared to prior year. This decline consisted of 0.1% pharmacy same store sales increase offset by a 2.9% decrease in front end same store sales.

Pharmacy same store sales increased 0.1%. Same store prescription growth was 0.8% for fiscal 2010, which was positively impacted by the growth of our Rx Savings Card, a strong flu season and growth in our automated refill reminder program and other prescription compliance programs. The impact on sales of the increase in our prescription count was partially offset by an increase in generic sales and reductions in pharmacy reimbursement rates.

Front end same store sales decreased 2.9% from the prior year, due to weakness in the overall economic environment and its impact on consumer shopping behavior and the impact of some of our initiatives, including our efforts to reduce costs, to reduce inventory, and to make changes to operating procedures for low volume stores.

Costs and Expenses

	February 26, 2011 (52 Weeks)		Year Ended February 27, 2010 (52 Weeks)			ebruary 28, 2009 (52 Weeks)
	(Dollars in thousands)

(Gain) loss on sale of assets, net		(22,224)		(24,137)		11,581

Cost of Goods Sold

Gross margin rate was 26.5% for fiscal 2011 compared to 26.6% in fiscal 2010. The decline in gross margin was due primarily to deferred revenue related to our wellness+ customer loyalty program and a slight reduction in pharmacy gross margin, partially offset by lower product costs and new generic introductions. There was a negative impact from the reductions in Medicare reimbursements resulting from the AWP rollback which was fully cycled in September 2010. The pharmacy margin pressure slowed as we continued to cycle the more significant maximum allowable costs ("MAC") of new generics which occurred last year. Front-end gross margin was lower due primarily to an increase in deferred revenue related to our wellness+ customer loyalty program and related discounts. Partially offsetting the lower gross margin discussed above was a reduction in LIFO and inventory cost capitalization charges.

Table of Contents

Gross margin rate was 26.6% for fiscal 2010 compared to 26.8% in fiscal 2009. The decline in gross margin rate for fiscal 2010 was driven primarily by pharmacy margin decline due to reductions in reimbursement rates including reductions in Medicaid reimbursements resulting from the AWP rollback, fewer new generics and fewer price reductions on existing generics. Front end gross margin was lower, as improvements in shrink and distribution costs and lower inventory capitalization costs were more than offset by a higher mix of promotional sales and revenue deferrals related to our wellness+ customer loyalty program. Partially offsetting the decline in front end and pharmacy margins was a reduction in LIFO expense.

We use the last-in, first-out (LIFO) method of inventory valuation. The LIFO charge was \$44.9 million in fiscal 2011, \$88.5 million in fiscal 2010, and \$184.6 million in fiscal 2009. The higher LIFO charge in fiscal 2009 was due to higher inflation on front end products in that year.

Selling, General and Administrative Expenses

SG&A for fiscal 2011 was 25.6% as a percentage of revenue, compared to 25.7% in fiscal 2010. The decrease in SG&A as a percentage of revenues is mostly due to a decrease in salaries and benefit costs due to better labor control and reductions in store operating expenses and corporate administrative expenses resulting from our various cost reduction initiatives. Additionally, we incurred no securitization fees due to our elimination of the receivables securitization facilities on October 26, 2009. These cost reductions were partially offset by an increase in debit and credit card fees, and higher workers' compensation and general liability costs due to a reserve reduction caused by favorable claims experience recorded in the prior year.

SG&A for fiscal 2010 was 25.7% as a percentage of revenue, compared to 26.6% in fiscal 2009. The decrease in SG&A as a percentage of revenues is mostly due to a decrease in salaries and benefit costs due to better labor control and reductions in store operating expenses and corporate administrative expenses resulting from our various cost reduction initiatives.

Goodwill Impairment

In fiscal 2009, we impaired all of our existing goodwill, which resulted in a non-cash charge of \$1.81 billion. This entry was required due to the fact that our market value, as indicated by the trading price of our common stock, was less than the carrying value of our net assets as of February 28, 2009.

Lease Termination and Impairment Charges

Lease termination and impairment charges consist of amounts and number of locations as follows:

		Year Ended					
	February 26, 2011 (52 Weeks)		February 27, 2010 (52 Weeks)		February 28, 2009 (52 Weeks)		
		(Dollars in thousands)					
Impairment charges	\$	115,121	\$	75,475	\$	157,334	
Facility and equipment lease exit charges		95,772		132,542		136,409	
	\$	210,893	\$	208,017	\$	293,743	
Number of Stores		864		670		815

		865		671		815	
Lease exit charges							
Number of Stores		52		108		162	
Number of Distribution Centers		1		1			
		53		109		162	
		33	3			102	

Table of Contents

Impairment Charges. These amounts include the write-down of long-lived assets to estimated fair value at stores that were identified for impairment as part of our on-going store performance review at all of our stores or management's intention to relocate or close a specific store.

Facility and Equipment Lease Exit Charges. Charges to close a store, which principally consist of lease termination costs, are recorded at the time the store is closed and all inventory is liquidated, pursuant to the guidance set forth in ASC 420, "Exit or Disposal Cost Obligations." We calculate our liability for closed stores on a store-by-store basis. The calculation includes the discounted effect of future minimum lease payments and related ancillary costs, from the date of closure to the end of the remaining lease term, net of estimated cost recoveries that may be achieved through subletting properties or favorable lease terminations. We evaluate these assumptions each quarter and adjust the liability accordingly.

As part of our ongoing business activities, we assess stores and distribution centers for potential closure. Decisions to close stores in future periods would result in charges for store lease exit costs and liquidation of inventory, as well as impairment of assets at these stores.

Interest Expense

In fiscal 2011, 2010, and 2009, interest expense was \$547.6 million, \$515.8 million and \$477.6 million, respectively. The increase in interest expense in fiscal 2011 compared to fiscal 2010 is primarily due to the prior year refinancing of our senior secured credit facility and the elimination of our securitization program which was previously recorded in SG&A, partially offset by savings from our current year refinancing of our \$650.0 million senior secured credit facility term loan. The increase in interest expense in fiscal 2010 compared to fiscal 2009 is due to higher cost debt incurred as part of our fiscal 2010 refinancing partially offset by lower LIBOR rates and decreased borrowings under the revolving credit facility.

The annual weighted average interest rates on our indebtedness in fiscal 2011, 2010 and 2009 were 7.5%, 6.8% and 6.6%, respectively.

Income Taxes

Income tax expense of \$9.8 million, \$26.8 million and \$329.3 million, has been recorded for fiscal 2011, 2010 and 2009, respectively. Net loss for fiscal 2011 included income tax expense of \$9.8 million and was primarily comprised of an accrual for state and local taxes, adjustments to unrecognized tax benefits and the need for an accrual of additional state taxes resulting from the receipt of a final audit determination. We maintain a full valuation allowance against our net deferred tax assets. ASC 740, "Income Taxes" requires a company to evaluate its deferred tax assets on a regular basis to determine if a valuation allowance against the net deferred tax assets is required. In determining whether a valuation allowance is required, we take into account all available positive and negative evidence with regard to the recognition of a deferred tax asset including our past earnings history, expected future earnings, the character and jurisdiction of such earnings, unsettled circumstances that, if unfavorably resolved, would adversely affect recognition of a deferred tax asset, carryback and carryforward periods, and tax planning strategies that could potentially enhance the likelihood of realization of a deferred tax asset. A cumulative loss in recent years is significant negative evidence in considering whether deferred tax assets are realizable. Based on the negative evidence, ASC 740 precludes relying on projections of future taxable income to support the recognition of deferred tax assets. The ultimate realization of deferred tax assets is dependent upon the existence of sufficient taxable income generated in the carryforward periods.

The fiscal 2010 income tax expense of \$26.8 million was primarily comprised of an accrual for state and local taxes net of federal tax recoveries and adjustments to unrecognized tax benefits. The fiscal 2009 income tax expense included non-cash tax expense of \$673.1 million related to the write-down of

Table of Contents

our remaining net federal and state deferred tax assets through an adjustment to our valuation allowance. This change was primarily due to a decline in actual results from our previous forecast as a result of the impact of current economic conditions on fiscal 2009 results.

We monitor all available evidence related to our ability to utilize our remaining net deferred tax assets. We maintained a full valuation allowance of \$2,199.3 million and \$1,984.5 million against remaining net deferred tax assets at fiscal year end 2011 and 2010, respectively.

Liquidity and Capital Resources

General

We have three primary sources of liquidity: (i) cash and cash equivalents, (ii) cash provided by operating activities, and (iii) borrowings under the revolving credit facility under our senior secured credit facility. Our principal uses of cash are to provide working capital for operations, to service our obligations to pay interest and principal on debt and to fund capital expenditures.

Credit Facility

Our senior secured credit facility consists of a \$1.175 billion revolving credit facility and two term loans. Borrowings under the revolving credit facility bear interest at a rate per annum between LIBOR plus 3.25% and LIBOR plus 3.75%, if we choose to make LIBOR borrowings, or between Citibank's base rate plus 2.25% and Citibank's base rate plus 2.75% in each case based upon the amount of revolver availability as defined in the senior secured credit facility. We are required to pay fees between 0.50% and 0.75% per annum on the daily unused amount of the revolver, depending on the amount of revolver availability. Amounts drawn under the revolver become due and payable on August 19, 2015, provided that such maturity date shall instead be April 18, 2014 in the event that on or prior to April 18, 2014 we do not repay, refinance or otherwise extend the maturity date of our Tranche 2 Term Loan (as defined below) to a date that is at least 90 days after August 19, 2015 and, in the case of a repayment or refinancing, we must have at least \$500.0 million of availability under the revolver.

Our ability to borrow under the revolver is based upon a specified borrowing base consisting of accounts receivable, inventory and prescription files. At February 26, 2011, we had \$28.0 million outstanding under the revolver and had letters of credit outstanding against the revolver of \$143.0 million, which resulted in additional borrowing capacity of \$1.004 billion.

The credit facility also includes our \$1.105 billion senior secured term loan (the "Tranche 2 Term Loan"). The Tranche 2 Term Loan will mature on June 4, 2014 and currently bears interest at a rate per annum equal to LIBOR plus 1.75%, if we choose to make LIBOR borrowings, or at Citibank's base rate plus 0.75%. We must make mandatory prepayments of the Tranche 2 Term Loan with the proceeds of asset dispositions and casualty events (subject to certain limitations), with a portion of any excess cash flow generated by us (as defined in the senior secured credit facility) and with the proceeds of certain issuances of equity and debt (subject to certain exceptions). If at any time there is a shortfall in our borrowing base under our senior secured credit facility, prepayment of the Tranche 2 Term Loan may also be required.

As of February 26, 2011, we also had a \$342.1 million senior secured term loan (the "Tranche 3 Term Loan") outstanding under our existing senior secured credit facility. On March 3, 2011, we refinanced the Tranche 3 Term Loan with a \$343.0 million senior secured term loan (the "Tranche 5 Term Loan"). The Tranche 5 Term Loan matures on March 3, 2018, although the maturity shall instead be December 1, 2014 in the event that we do not repay or refinance our outstanding 8.625% senior notes due 2015 prior to that time, or September 16, 2015, in the event that we do not repay or refinance our outstanding 9.375% senior notes due 2015 prior to that time. The Tranche 5 Term Loan bears interest at a rate per annum equal to LIBOR plus 3.25% with a 1.25% LIBOR floor, and is

Table of Contents

subject to a 1% prepayment fee in the event it is refinanced within the first year after issuance with the proceeds of a substantially concurrent issuance of new loans or other indebtedness incurred for the primary purpose of repaying, refinancing or replacing the Tranche 5 Term Loan. We must make mandatory prepayments of the Tranche 5 Term Loan with the proceeds of asset dispositions and casualty events (subject to certain limitations), with a portion of any excess cash flow generated by us (as defined in the senior secured credit facility) and with the proceeds of certain issuances of equity and debt (subject to certain exceptions). If at any time there is a shortfall in our borrowing base under our senior secured credit facility, prepayment of the Tranche 5 Term Loan may also be required.

The senior secured credit facility also restricts us and the subsidiary guarantors from accumulating cash on hand in excess of \$200.0 million at any time when revolving loans are outstanding (not including cash located in our store deposit accounts, cash necessary to cover our current liabilities and certain other exceptions) and from accumulating cash on hand with revolver borrowings in excess of \$100.0 million over three consecutive business days. The senior secured credit facility also states that if at any time (other than following the exercise of remedies or acceleration of any senior obligations or second priority debt and receipt of a triggering notice by the senior collateral agent from a representative of the senior obligations or the second priority debt) either (a) an event of default exists under our senior secured credit facility or (b) the sum of revolver availability under our senior secured credit facility and certain amounts held on deposit with the senior collateral agent in a concentration account is less than \$100.0 million for three consecutive business days (a "cash sweep period"), the funds in our deposit accounts will be swept to a concentration account with the senior collateral agent and will be applied first to repay outstanding revolving loans under the senior secured credit facility, and then held as Collateral for the senior obligations until such cash sweep period is rescinded pursuant to the terms of our senior secured credit facility.

The senior secured credit facility allows us to have outstanding, at any time, up to \$1.5 billion in secured second priority debt and unsecured debt in addition to borrowings under the senior secured credit facility and existing indebtedness, provided that not in excess of \$750.0 million of such secured second priority debt and unsecured debt shall mature or require scheduled payments of principal prior to three months after June 4, 2014. The senior secured credit facility allows us to incur an unlimited amount of unsecured debt with a maturity beyond three months after June 4, 2014; however, other outstanding indebtedness limits the amount of unsecured debt that can be incurred if certain interest coverage levels are not met at the time of incurrence of said debt. The senior secured facility also allows, so long as the senior secured credit facility is not in default, for the repurchase of any debt with a maturity on or before June 4, 2014, for the voluntary repurchase of debt with a maturity after June 4, 2014 and the mandatory repurchase of our 8.5% convertible notes due 2015 if we maintain availability on the revolving credit facility of at least \$100.0 million.

Our senior secured credit facility contains covenants, which place restrictions on the incurrence of debt beyond the restrictions described above, the payment of dividends, sale of assets, mergers and acquisitions and the granting of liens. Our credit facility has a financial covenant, which is the maintenance of a fixed charge coverage ratio. The covenant requires that, if availability on the revolving credit facility is less than \$150.0 million, we maintain a minimum fixed charge coverage ratio of 1.00 to 1.00 for the quarter ending February 26, 2011 and for the three subsequent quarters. This ratio increases to 1.05 to 1.00 in the last quarter of Fiscal 2012 and remains at that level for the remaining term of the facility. As of February 26, 2011, we were in compliance with this financial covenant.

The senior secured credit facility provides for events of default including nonpayment, misrepresentation, breach of covenants and bankruptcy. It is also an event of default if we fail to make any required payment on debt having a principal amount in excess of \$50.0 million or any event occurs that enables, or which with the giving of notice or the lapse of time would enable, the holder of such debt to accelerate the maturity or require the repurchase of such debt. The August 2010 amendments

Table of Contents

to the senior secured credit facility exclude the mandatory repurchase of the 8.5% convertible notes due 2015 from this event of default.

The indentures that govern our secured and guaranteed unsecured notes contain restrictions on the amount of additional secured and unsecured debt that can be incurred by us. As of February 26, 2011, the amount of additional secured debt that could be incurred under these indentures was approximately \$1.1 billion (which amount does not include the ability to enter into certain sale and leaseback transactions). However, we could not incur any additional secured debt as of February 27, 2010 assuming a fully drawn revolver and the outstanding letters of credit. The ability to issue additional unsecured debt under these indentures is governed by an interest coverage ratio test.

At the end of March 2011, we made an excess cash flow repayment of \$39.8 million of the Tranche 2 Term Loan and the Tranche 5 Term Loan, as required under our senior secured credit facility. This excess cash flow payment will be in lieu of scheduled amortization payments over the next three fiscal years.

Other 2011 Transactions

In August 2010, we issued \$650.0 million of our 8.00% senior secured notes due August 15, 2020. These notes are unsecured, unsubordinated obligations of Rite Aid Corporation and rank equally in right of payment with all other unsubordinated indebtedness. Our obligations under these notes are guaranteed, subject to certain limitations, by the same subsidiaries that guarantee the obligations under the senior secured credit facility and our 9.75% senior secured notes due 2016. These guarantees are shared, on a senior basis, with debt outstanding under the senior secured credit facility and our 9.75% senior secured notes due 2016. The indenture that governs the 8.00% notes contains covenant provisions that, among other things, allow the holders of the notes to participate along with the term loan holders and holders of our 9.75% senior secured notes due 2016 in the mandatory prepayments resulting from the proceeds of certain asset dispositions (at the option of the noteholder) and include limitations on our ability to pay dividends, make investments or other restricted payments, incur debt, grant liens, sell assets and enter into sale-leaseback transactions.

In July 2010, we repurchased \$93.8 million of our \$158.0 million outstanding 8.5% convertible notes. The remaining 8.5% convertible notes require us to maintain a listing on the NYSE or certain other exchanges. In the event of a NYSE delisting, holders of these notes could require us to repurchase them, which we have the ability to do under the terms of our senior secured credit facility. On July 30, 2010 we received a notice of non-compliance from the NYSE because the price of our common stock has fallen below the NYSE's minimum share price rule. Our common stock continued to trade as usual on the NYSE and on March 1, 2011, we received notice that we have regained compliance with the NYSE's minimum share price listing requirement. We are currently in compliance with all NYSE listing rules.

Other 2010 Transactions

In October 2009, we issued \$270.0 million of our 10.25% senior secured notes due October 15, 2019. The notes are unsecured, unsubordinated obligations of Rite Aid Corporation and rank equally in right of payment with all other unsubordinated indebtedness. Our obligations under these notes are guaranteed, subject to certain limitations, by the same subsidiaries that guarantee the obligations under the senior secured credit facility. The guarantees are secured by shared second priority liens with holders of the 10.375% senior secured notes due 2016 and 7.5% senior secured notes due 2017. The indenture that governs the 10.25% notes contains covenant provisions that, among other things, include limitations on our ability to pay dividends, make investments or other restricted payments, incur debt, grant liens, sell assets and enter into sale-leaseback transactions. The 10.25% senior secured notes due October 2019 were issued at 99.2% of par.

Table of Contents

In June 2009, we issued \$410.0 million of 9.75% senior secured notes due June 12, 2016. These notes are unsecured, unsubordinated obligations of Rite Aid Corporation and rank equally in right of payment with all other unsubordinated indebtedness. Our obligations under these notes are guaranteed, subject to certain limitations, by the same subsidiaries that guarantee the obligations under the senior secured credit facility and our 8.00% senior secured notes due 2020. These guarantees are shared, on a senior basis, with debt outstanding under the senior secured credit facility and our 8.00% senior secured notes due 2020. The indenture that governs the 9.75% notes contains covenant provisions that, among other things, allow the holders of the notes to participate along with the term loan holders and holders of our 8.00% senior secured notes due 2020 in mandatory prepayments resulting from the proceeds of certain asset dispositions (at the option of the noteholder) and include limitations on our ability to pay dividends, make investments or other restricted payments, incur debt, grant liens, sell assets and enter into sale-leaseback transactions. The 9.75% senior secured notes due June 2016 were issued at 98.2% of par.

Sale Leaseback Transactions

During fiscal 2010 we sold a total of three owned stores to independent third parties. Net proceeds from these sales were \$8.0 million. Concurrent with these sales, we entered into agreements to lease the stores back from the purchasers over minimum lease terms of 10 to 20 years. We accounted for all of these leases as operating leases. A gain on the sale of these stores of \$5.3 million was deferred and is being recorded over the minimum term of these leases.

2009 Transactions

On June 4, 2008, we conducted a tender offer and consent solicitation under which we offered to repurchase all outstanding amounts of our 8.125% senior secured notes due May 2010, our 7.5% senior secured notes due January 2015 and our 9.25% senior notes due June 2013. On July 9, 2008 we repaid \$348.9 million of the outstanding balance of our 8.125% notes due May 2010, \$199.6 million of our 7.5% notes due January 2015 and \$144.0 million of the outstanding balance of our 9.25% notes due June 2013 pursuant to the tender offer. Subsequent to the tender offer we redeemed the remaining outstanding 7.5% notes due 2015. As a result of this tender and consent solicitation, the indentures governing these notes were amended to eliminate substantially all of the restrictive covenants therein including limitations on our ability to incur additional debt and grant liens against assets. In addition, the guarantees on each series were eliminated. We did the transaction because these notes had restrictions on secured debt that prohibited us from fully drawing on our revolving credit facility under certain circumstances. We incurred a loss on debt modification related to this transaction of \$36.6 million.

These transactions were financed via the issuance of a senior secured term loan (the Tranche 3 Term Loan) and the issuance of a \$470.0 million aggregate principal amount of 10.375% senior secured notes due July 2016. These notes are unsecured unsubordinated obligations of Rite Aid Corporation and rank equally in right of payment with all other unsubordinated indebtedness. Our obligations under the notes are guaranteed, subject to certain limitations, by subsidiaries that guarantee the obligations under our senior secured credit facility. The guarantees are secured by shared second priority liens with holders of our 7.5% senior secured notes due 2017 and our 10.25% senior secured notes due 2019. The indenture that governs the 10.375% senior secured notes due 2016 contains covenant provisions that, among other things, include limitations on our ability to pay dividends, make investments or other restricted payments, incur debt, grant liens, sell assets and enter into sale-leaseback transactions. The 10.375% senior secured notes due July 2016 were issued at 90.588% of par.

In May 2008 we issued \$158.0 million of 8.5% convertible notes due May 2015. These notes are unsecured and are effectively junior to our secured debt. The notes are convertible, at the option of the holder, into shares of our common stock at a conversion price of \$2.59 per share, subject to

Table of Contents

adjustments to prevent dilution, at any time. Proceeds from the issuance of these notes were used to fund the redemption of our 6.125% notes due December 2008. We recorded a loss on debt modification of \$3.3 million related to the early redemption of the 6.125% notes due 2008, which included payment of a make whole premium to the noteholders and unamortized debt issue costs on the notes. As of February 26, 2011, \$64.2 million aggregate principal amount of the notes remained outstanding.

Preferred Stock Transactions

In the fourth quarter of fiscal 2009 the holder of substantially all of the outstanding shares of our Series G preferred stock converted its shares into 27.1 million shares of our common stock at a conversion rate of \$5.50 per share.

In the third quarter of fiscal 2009, the remaining outstanding 2.4 million shares of Series I preferred stock automatically converted into common stock, at a rate of 5.6561 common shares per preferred share, which resulted in the issuance of 13.7 million shares of our common stock.

Sale Leaseback Transactions

During fiscal 2009 we sold a total of 72 owned stores to independent third parties. Net proceeds from these sales were \$193.0 million. Concurrent with these sales, we entered into agreements to lease the stores back from the purchasers over minimum lease terms of 20 years. We accounted for 67 of these leases as operating leases and the remaining five were initially accounted for using the financing method as these lease agreements contain a clause that allow the buyer to force us to repurchase the properties under certain conditions. A gain on the sale of these stores of \$5.2 million was deferred and is being recorded over the minimum term of these leases. Subsequent to February 28, 2009, the clause that allowed the buyer to force us to repurchase the property lapsed on three of these leases. Therefore, these leases are now accounted for as operating leases.

Off Balance Sheet Obligations

Until October 26, 2009, we maintained securitization agreements (the "First Lien Facility") with several multi-seller asset-backed commercial paper vehicles ("CPVs"). Under the terms of the First Lien Facility, we sold substantially all of our eligible third party pharmaceutical receivables to a bankruptcy remote Special Purpose Entity ("SPE") and retained servicing responsibility. The SPE then transferred an interest in these receivables to various CPVs. We also maintained a \$225.0 million second priority accounts receivable securitization term loan ("Second Lien Facility").

On October 26, 2009, we terminated both accounts receivable securitization facilities and replaced them with senior secured notes, increased borrowing capacity under our existing senior secured revolving credit facility and an increase in borrowings under our Tranche 4 Term Loan. As part of this refinancing, we incurred a prepayment penalty of \$2.3 million in relation to the Second Lien Facility and recognized \$3.8 million of unamortized discount related to the Second Lien Facility. These charges were recorded as a component of selling, general, and administrative expenses.

As of February 26, 2011, we had no material off balance sheet arrangements, other than operating leases included in the table below.

Table of Contents

Contractual Obligations and Commitments

The following table details the maturities of our indebtedness and lease financing obligations as of February 26, 2011, as well as other contractual cash obligations and commitments.

	1	Less Than	Payment due by period						
	1 Year		1	to 3 Years	3	to 5 Years	After 5 Years		Total
				(I	Doll	Pollars in thousands)

Total commitments	\$	2,380,733	\$	3,542,164	\$	5,264,519	\$	10,236,529	\$ 21,423,945

⁽¹⁾ Includes principal and interest payments for all outstanding debt instruments. Interest was calculated on variable rate instruments using rates as of February 26, 2011.

- (3) Represents the minimum lease payments on non-cancelable leases.
- (4) Represents value of redeemable preferred stock at its redemption date.
- (5)
 Includes the undiscounted payments for self-insured medical coverage, actuarially determined undiscounted payments for self-insured workers' compensation and general liability, and actuarially determined obligations for defined benefit pension and nonqualified executive retirement plans.
- (6) Represents commitments to purchase products from certain vendors.
- (7)

 Represents lease guarantee obligations for 127 former stores related to certain business dispositions. The respective purchasers assume the obligations and are, therefore, primarily liable for these obligations.

⁽²⁾ Represents the minimum lease payments on non-cancelable leases, including interest, but net of sublease income.

Obligations for income tax uncertainties pursuant to ASC 740, "Income Taxes" of approximately \$109.0 million are not included in the table above as we are uncertain as to if or when such amounts may be settled.

Net Cash Provided By (Used In) Operating, Investing and Financing Activities

Cash flow provided by operating activities was \$395.8 million in fiscal 2011. Cash flow was positively impacted by a reduction in inventory and an increase in accounts payable due to the timing of purchases. Additionally, the reductions in accounts receivable are no longer offset by repayments to the receivables securitization facility which was eliminated in the third quarter of fiscal 2010.

37

Table of Contents

Cash flow used in operating activities was \$325.1 million in fiscal 2010. Cash flow was negatively impacted by the repayments of the accounts receivable securitization facilities totaling \$555.0 million and a decrease in accounts payable offset by a reduction in inventory and accounts receivable. The decreases in accounts receivables, inventory and accounts payable were due to operating fewer stores and various working capital initiatives.

Cash flow provided by operating activities was \$359.9 million in fiscal 2009. Cash flow was positively impacted by net proceeds from our accounts receivable securitization, reductions in accounts receivable and inventory, partially offset by a decrease in accounts payable. The decrease in inventory is primarily due to the efforts made by management to reduce excess inventory and a decrease in purchasing volume, which also impacted accounts payable.

Cash used in investing activities was \$156.7 million in fiscal 2011. Cash was used for the purchase of property, plant and equipment and prescription files which was partially offset by proceeds from asset dispositions

Cash used in investing activities was \$120.5 million in fiscal 2010. Cash was used for the purchase of property, plant and equipment and prescription files which was offset in part by proceeds from asset dispositions.

Cash used in investing activities was \$346.4 million in fiscal 2009. Cash was used for the purchase of property, plant and equipment and prescription files which was offset in part by proceeds from our sale leaseback transactions and proceeds from asset dispositions.

Cash used in financing activities was \$251.7 million in fiscal 2011 and was primarily due to the refinancing activity that occurred during the second quarter of fiscal 2011, the repurchase of \$93.8 million of the Convertible Notes, other scheduled debt repayments and a small decrease in our zero balance cash accounts.

Cash provided by financing activities was \$397.1 million in fiscal 2010 due to proceeds from refinancings offset by a reduction in borrowings on our revolving credit facility and the payment of financing fees related to the refinancings.

Cash used in financing activities was \$17.3 million in fiscal 2009 due to the net impact of proceeds from the issuance of convertible notes and redemption of various notes, amending of our credit facility and principal payments on long term debt.

Capital Expenditures

We plan to make total capital expenditures of approximately \$300.0 million during fiscal 2012, consisting of approximately 10% related to the new store construction and store relocation, 42% related to store remodels, 25% related to prescription file purchases and 23% for infrastructure and maintenance requirements. Management expects that these capital expenditures will be financed primarily with cash flow from operating activities and use of the revolving credit facility.

Future Liquidity

We are highly leveraged. Our high level of indebtedness: (i) limits our ability to obtain additional financing; (ii) limits our flexibility in planning for, or reacting to, changes in our business and the industry; (iii) places us at a competitive disadvantage relative to our competitors with less debt; (iv) renders us more vulnerable to general adverse economic and industry conditions; and (v) requires us to dedicate a substantial portion of our cash flow to service our debt. Based upon our current levels of operations, we believe that cash flow from operations together with available borrowings under the senior secured credit facility and other sources of liquidity will be adequate to meet our requirements for working capital, debt service and capital expenditures at least for the next twelve months. Based on

Table of Contents

our liquidity position, which we expect to remain strong throughout the year, we do not expect the restriction on our credit facility, that could result if we fail to meet the fixed charge covenant in our senior secured credit facility, to have any impact on our business in the next twelve months. We will continue to assess our liquidity position and potential sources of supplemental liquidity in light of our operating performance, and other relevant circumstances. Should we determine, at any time, that it is necessary to obtain additional short-term liquidity, we will evaluate our alternatives and take appropriate steps to obtain sufficient additional funds. There can be no assurance that any such supplemental funding, if sought, could be obtained or if obtained, would be on terms acceptable to us. From time to time, we may seek deleveraging transactions, including entering into transactions to exchange debt for shares of common stock or may seek to refinance our outstanding debt or may otherwise seek transactions to reduce interest expense and extend debt maturities.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to inventory shrink, impairment of long-lived assets, revenue recognition, self insurance liabilities, lease exit liabilities, income taxes and litigation. We base our estimates on historical experience, current and anticipated business conditions, the condition of the financial markets and various other assumptions that are believed to be reasonable under existing conditions. Variability reflected in the sensitivity analyses presented below is based on our recent historical experience. Actual results may differ materially from these estimates and sensitivity analyses.

The following critical accounting policies require the use of significant judgments and estimates by management:

Inventory shrink: The carrying value of our inventory is reduced by a reserve for estimated shrink losses that occur between physical inventory dates. When estimating these losses, we consider historical loss results at specific locations (including stores and distribution centers), as well as overall loss trends as determined during physical inventory procedures. The estimated shrink rate is calculated by dividing historical shrink results for stores inventoried in the most recent six months by the sales for the same period. Shrink expense is recognized by applying the estimated shrink rate to sales since the last physical inventory. There have been no significant changes in the assumptions used to calculate our shrink rate over the last three years. Although possible, we do not expect a significant change to our shrink rate in future periods. A 10 basis point difference in our estimated shrink rate for the year ended February 26, 2011, would have affected pre-tax income by approximately \$9.4 million.

Impairment of Long-Lived Assets: We evaluate long-lived assets for impairment annually, or whenever events or changes in circumstances indicate that the assets may not be recoverable. We have identified each store as an asset group for purposes of performing this evaluation. Our evaluation of whether possible impairment indicators exist includes comparing future cash flows expected to be generated by the store to the carrying value of the store's assets. If the estimated future cash flows of the asset group (store level) are less than the carrying amount of the store's assets, we calculate an impairment loss by comparing the carrying value of the store's assets to the fair value of such assets. We determine fair value by discounting the estimated future cash flows of the store discussed above.

Cash flows are calculated utilizing the detailed store financial plan for the year immediately following the current year end. To arrive at cash flow estimates for additional future years, we project sales growth by store (consistent with our overall business planning objectives and results), and

Table of Contents

determine the incremental cash flow that such sales growth will contribute to that store's operations. The discount rate used is our credit adjusted risk-free interest rate.

The assumptions utilized in calculating impairment are updated annually. Should actual sales growth rates and related incremental cash flow differ from those forecasted and projected, we may incur future impairment charges related to the stores being evaluated. Changes in our discount rate of 50 basis points would not have a material impact on the total impairment recorded in fiscal 2011.

Revenue recognition: For all sales other than third party pharmacy sales, we recognize revenue from the sale of merchandise at the time the merchandise is sold. For third party pharmacy sales, revenue is recognized at the time the prescription is filled, which is or approximates when the customer picks up the prescription. We record revenue net of an allowance for estimated future returns. Return activity is immaterial to revenues and results of operations in all periods presented.

On April 18, 2010, we launched our wellness+ loyalty card program chain wide. We currently have over 36 million members enrolled in this program. Members participating in our wellness+ loyalty card program earn points on a calendar year basis for eligible front end merchandise purchases and qualifying prescriptions. One point is awarded for each dollar spent towards front end merchandise and 25 points are awarded for each qualifying prescription.

Members reach specific wellness+ tiers based on the points accumulated during the calendar year, which entitle them to certain future discounts and other benefits upon reaching that tier. For example, any customer that reaches 1,000 points in a calendar year achieves the "Gold" tier, enabling the customer to receive a 20% discount on qualifying purchases of front end merchandise for the remaining portion of the calendar year and the next calendar year. There are also similar "Silver" and "Plus" levels with lower thresholds and benefit levels.

As wellness+ customers accumulate points, we defer the retail value of the points earned as deferred revenue (included in other current and noncurrent liabilities, based on the expected usage). The amount deferred is based on historic and projected customer activity (e.g., tier level, spending level). As customers receive discounted front end merchandise, we recognize an allocable portion of the deferred revenue. If the achieved combined Gold and Silver levels differ from the assumptions by 5.0% then the revenue deferral changes by \$1.0 million. If the assumed spending levels, which are the drivers of future discounts, differ by 5.0% then the revenue deferral changes by \$1.9 million.

Self-insurance liabilities: We expense claims for self-insured medical, dental, workers' compensation and general liability insurance coverage as incurred including an estimate for claims incurred but not paid. The expense for self-insured medical and dental claims incurred but not paid is determined by multiplying the average claim value paid over the most recent twelve months by the average number of days from the same period between when the claims were incurred and paid. There have been no significant changes in assumptions used to determine days lag over the last three years. Should a greater amount of claims occur compared to what was previously estimated or medical costs increase beyond what was anticipated, expense recorded may not be sufficient, and additional expense may be recorded. A one day change in days lag for the year ended February 26, 2011, would have affected pretax income by approximately \$0.6 million.

The expense for self-insured workers' compensation and general liability claims incurred but not paid is determined using several factors, including historical claims experience and development, severity of claims, medical costs and the time needed to settle claims. We discount the estimated expense for workers' compensation to present value as the time period from incurrence of the claim to final settlement can be several years. We base our estimates for such timing on previous settlement activity. The discount rate is based on the current market rates for Treasury bills that approximate the average time to settle the workers' compensation claims. These assumptions are updated on an annual

Table of Contents

basis. A 25 basis point difference in the discount rate for the year ended February 26, 2011, would have affected pretax income by approximately \$1.8 million.

Lease exit liabilities: We record reserves for closed stores based on future lease commitments, anticipated ancillary occupancy costs and anticipated future subleases of properties. The reserves are calculated at the individual location level and the assumptions are assessed at that level. The reserve for lease exit liabilities is discounted using a credit adjusted risk free interest rate. Reserve estimates and related assumptions are updated on a quarterly basis.

A substantial amount of our closed stores were closed prior to our adoption of ASC 420, "Exit or Disposal Cost Obligations." Therefore, if interest rates change, reserves may be increased or decreased. In addition, changes in the real estate leasing markets can have an impact on the reserve. As of February 26, 2011, a 50 basis point variance in the credit adjusted risk free interest rate would have affected pretax income by approximately \$2.8 million for fiscal 2011.

Income taxes: We currently have net operating loss ("NOL") carryforwards that can be utilized to offset future income for federal and state tax purposes. These NOLs generate significant deferred tax assets which are currently offset by a valuation allowance. We regularly review the deferred tax assets for recoverability considering the relative impact of negative and positive evidence including our historical profitability, projected taxable income, the expected timing of the reversals of existing temporary differences and tax planning strategies. The weight given to the potential effect of the negative and positive evidence is commensurate with the extent to which it can be objectively verified. We establish a valuation allowance against deferred tax assets when we determine that it is more likely than not that some portion of our deferred tax assets will not be realized. There have been no significant changes in the assumptions used to calculate our valuation allowance over the last three years. However, changes in market conditions and the impact of the acquisition of Brooks Eckerd on operations have caused changes in the valuation allowance from period to period which were included in the tax provision in the period of change.

We recognize tax liabilities in accordance with ASC 740, "Income Taxes" and we adjust these liabilities when our judgment changes as a result of the evaluation of new information not previously available. Due to the complexity of some of these uncertainties, the ultimate resolution may result in a payment that is materially different from our current estimate of the tax liabilities.

Litigation reserves: We are involved in litigation on an on-going basis. We accrue our best estimate of the probable loss related to legal claims. Such estimates are based upon a combination of litigation and settlement strategies. These estimates are updated as the facts and circumstances of the cases develop and/or change. To the extent additional information arises or our strategies change, it is possible that our best estimate of the probable liability may also change. Changes to these reserves during the last three fiscal years were not material.

Non GAAP Measures

In addition to net income determined in accordance with GAAP, we use certain non-GAAP measures, such as "Adjusted EBITDA", in assessing our operating performance. We believe the non-GAAP measures serve as an appropriate measure to be used in evaluating the performance of our business. We define Adjusted EBITDA as net loss excluding the impact of income taxes, interest expense and securitization costs, depreciation and amortization, LIFO adjustments, charges or credits for facility closing and impairment, inventory write-downs related to store closings, stock-based compensation expense, debt modifications and retirements, sale of assets and investments, revenue deferrals related to customer loyalty programs and other items. We reference this particular non-GAAP financial measure frequently in our decision-making because it provides supplemental information that facilitates internal comparisons to the historical operating performance of prior periods and external

Table of Contents

comparisons to competitors' historical operating performance In addition, incentive compensation is based on Adjusted EBITDA and we base certain of our forward-looking estimates on Adjusted EBITDA to facilitate quantification of planned business activities and enhance subsequent follow-up with comparisons of actual to planned Adjusted EBITDA.

The following is a reconciliation of Adjusted EBITDA to our net loss for fiscal 2011, 2010 and 2009:

	February 26, 2011 (52 weeks)	ruary 27, 2010 2 weeks)	ebruary 28, 2009 (52 weeks)
Net loss	\$ (555,424)	\$ (506,676)	\$ (2,915,420)
Interest expense and securitization costs	547,581	552,625	503,691
Income tax expense	9,842	26,758	329,257
Depreciation and amortization expense	505,546	534,238	586,208
LIFO charges	44,905	88,450	184,569
Goodwill impairment charge			1,810,223
Lease termination and impairment charges	210,893	208,017	293,743
Stock-based compensation expense	17,336	23,794	31,448
(Gain) loss on sale of assets, net	(22,224)	(24,137)	11,629
Loss on debt modifications and retirements, net	44,003	993	39,905
Incremental acquisition costs			85,633
Closed facility liquidation expense	9,881	14,801	19,353
Severance costs	4,883	6,184	15,754
Customer loyalty card programs revenue deferral	41,669		
Other	71	(73)	(4,846)
Adjusted EBITDA	\$ 858,962	\$ 924,974	\$ 991,147

In addition to Adjusted EBITDA, we occasionally refer to several other Non-GAAP measures, on a less frequent basis, in order to describe certain components of our business and how we utilize them to describe our results. These measures include but are not limited to EBITDA Gross Margin (gross margin adjusted for non-EBITDA items), EBITDA SG&A (SG&A expenses adjusted for non-EBITDA items), FIFO Gross Margin (gross margin before LIFO charges) and Free Cash Flow (cash provided from operations less cash used in investing activities).

We include these non-GAAP financial measures in our earnings announcements and guidance in order to provide transparency to our investors and enable investors to better compare our operating performance with the operating performance of our competitors including with those of our competitors having different capital structures. Adjusted EBITDA or other non-GAAP measures above should not be considered in isolation from, and is not intended to represent an alternative measure of, operating results or of cash flows from operating activities, as determined in accordance with GAAP. Our definition of these non-GAAP measures may not be comparable to similarly titled measurements reported by other companies.

Table of Contents

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Our future earnings, cash flow and fair values relevant to financial instruments are dependent upon prevalent market rates. Market risk is the risk of loss from adverse changes in market prices and interest rates. Our major market risk exposure is changing interest rates. Increases in interest rates would increase our interest expense. We enter into debt obligations to support capital expenditures, acquisitions, working capital needs and general corporate purposes. Our policy is to manage interest rates through the use of a combination of variable-rate credit facilities, fixed-rate long-term obligations and derivative transactions. We currently do not have any derivative transactions outstanding.

The table below provides information about our financial instruments that are sensitive to changes in interest rates. The table presents principal payments and the related weighted average interest rates by expected maturity dates as of February 26, 2011.

	2012	2013	2014	2015 (Dollar	2016 rs in thousan	Thereafter ds)	Total	Fair Value at February 26, 2011
Long-term debt, including current portion, excluding capital lease obligations								
Fixed Rate	\$ 5,231	\$ 114	\$ 190,852	\$	\$ 974,188	\$ 3,533,000	\$ 4,703,385	\$ 4,596,011
Average Interest Rate	1.25%	7.00%	6.95%	0.00%	8.93%	8.90%	8.82%	
Variable Rate	\$ 39,812	\$	\$ 3,838	\$ 1,373,088	\$ 28,000	\$	\$ 1,444,738	\$ 1,406,579
Average Interest Rate	2.98%	0.00%	2.92%	2.98%	5.50%	0.00%	3.03%	

Our ability to satisfy our interest payment obligations on our outstanding debt will depend largely on our future performance, which, in turn, is subject to prevailing economic conditions and to financial, business and other factors beyond our control. If we do not have sufficient cash flow to service our interest payment obligations on our outstanding indebtedness and if we cannot borrow or obtain equity financing to satisfy those obligations, our business and results of operations will be materially adversely affected. We cannot be assured that any replacement borrowing or equity financing could be successfully completed.

The interest rate on our variable rate borrowings, which include our revolving credit facility and our Tranche 2 Term loans and Tranche 5 Term loans, are all based on LIBOR. However, the interest rate on our Tranche 5 Term loans has a LIBOR floor of 125 basis points. If the market rates of interest for LIBOR changed by 100 basis points as of February 26, 2011, our annual interest expense would change by approximately \$11.1 million.

A change in interest rates generally does not have an impact upon our future earnings and cash flow for fixed-rate debt instruments. As fixed-rate debt matures, however, and if additional debt is acquired to fund the debt repayment, future earnings and cash flow may be affected by changes in interest rates. This effect would be realized in the periods subsequent to the periods when the debt matures.

Item 8. Financial Statements and Supplementary Data

Our consolidated financial statements and notes thereto are included elsewhere in this report and are incorporated by reference herein. See Item 15 of Part IV.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Item 9A. Controls and Procedures

(a) Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure controls and procedures are effective.

(b) Internal Control Over Financial Reporting

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in "Internal Control Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our management has concluded that, as of February 26, 2011, we did not have any material weaknesses in our internal control over financial reporting and our internal control over financial reporting was effective.

Attestation Report of the Independent Registered Public Accounting Firm

The attestation report of our independent registered public accounting firm, Deloitte & Touche LLP, on our internal control over financial reporting is included after the next paragraph.

(c) Changes in Internal Control Over Financial Reporting

There has not been any change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our fourth fiscal quarter ended February 26, 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of Rite Aid Corporation Camp Hill, Pennsylvania

We have audited the internal control over financial reporting of Rite Aid Corporation and subsidiaries (the "Company") as of February 26, 2011, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of February 26, 2011, based on the criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended February 26, 2011 of the Company and our report dated April 26, 2011 expressed an unqualified opinion on those financial statements and financial statement schedule.

Table of Contents

In reviewing the agreements included as exhibits to this Annual Report on Form 10-K please remember they are included to provide you with information regarding their terms and are not intended to provide any other factual or disclosure information about Rite Aid Corporation, its subsidiaries or the other parties to the agreements. The agreements may contain representations and warranties by each of the parties to the applicable agreement. These representations and warranties have been made solely for the benefit of the other parties to the applicable agreement and:

should not in all instances be treated as categorical statements of fact, but rather as a way of allocating the risk to one of the parties if those statements prove to be inaccurate;

have been qualified by disclosures that were made to the other party in connection with the negotiation of the applicable agreement, which disclosures are not necessarily reflected in the agreement;

may apply standards of materiality in a way that is different from what may be viewed as material to you or other investors; and

were made only as of the date of the applicable agreement or such other date or dates as may be specified in the agreement and are subject to more recent developments.

Accordingly, these representations and warranties may not describe the actual state of affairs as of the date they were made or at any other time. Additional information about Rite Aid Corporation may be found elsewhere in this report and the Company's other public filings, which are available without charge through the SEC's website at http://www.sec.gov.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Rite Aid Corporation Camp Hill, Pennsylvania

We have audited the accompanying consolidated balance sheets of Rite Aid Corporation and subsidiaries (the "Company") as of February 26, 2011 and February 27, 2010, and the related consolidated statements of operations, stockholders' (deficit) equity, and cash flows for each of the three years in the period ended February 26, 2011. Our audits also included the financial statement schedule listed in the Index at Item 15(a)(2). These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Rite Aid Corporation and subsidiaries as of February 26, 2011 and February 27, 2010, and the results of their operations and their cash flows for each of the three years in the period ended February 26, 2011, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of February 26, 2011, based on the criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 26, 2011 expressed an unqualified opinion on the Company's internal control over financial reporting.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

1. Summary of Significant Accounting Policies

Description of Business

The Company is a Delaware corporation and through its wholly-owned subsidiaries, operates retail drugstores in the United States of America. It is one of the largest retail drugstore chains in the United States, with 4,714 stores in operation as of February 26, 2011. The Company's drugstores' primary business is pharmacy services. The Company also sells a full selection of health and beauty aids and personal care products, seasonal merchandise and a large private brand product line.

The Company's operations consist solely of the retail drug segment. Revenues are as follows:

		Y	ear Ended		
	February 26, 2011 (52 Weeks)		February 27, 2010 (52 Weeks)		ebruary 28, 2009 (52 Weeks)
Db1		. `			
Pharmacy sales	\$ 17,036,027	\$	17,355,964	\$	17,604,284
Front end sales	8,081,576		8,213,388		8,581,115
Other revenue	97,304		99,765		103,869

\$ 25,214,907 \$ 25,669,117 \$ 26,289,268

Sales of prescription drugs represented approximately 67.8%, 67.9%, and 67.2% of the Company's total sales in fiscal years 2011, 2010 and 2009, respectively. The Company's principal classes of products in fiscal 2011 were the following:

Product Class	Percentage of Sales
Prescription drugs	67.8%
Over-the-counter medications and personal care	9.8%
Health and beauty aids	5.2%
General merchandise and other	17.2%

Fiscal Year

The Company's fiscal year ends on the Saturday closest to February 29 or March 1. The fiscal years ended February 26, 2011, February 27, 2010 and February 28, 2009 included 52 weeks.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and all of its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

1. Summary of Significant Accounting Policies (Continued)

Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand and highly liquid investments, which are readily convertible to known amounts of cash and which have original maturities of three months or less when purchased.

Allowance for Uncollectible Receivables

Approximately 96% of prescription sales are made to customers that are covered by third-party payors, such as insurance companies, government agencies and employers. The Company recognizes receivables that represent the amount owed to the Company for sales made to customers or employees of those payors that have not yet been paid. The Company maintains a reserve for the amount of these receivables deemed to be uncollectible. This reserve is calculated based upon historical collection activity adjusted for current conditions.

Inventories

Inventories are stated at the lower of cost or market. Inventory balances include the capitalization of certain costs related to purchasing, freight and handling costs associated with placing inventory in its location and condition for sale. The Company uses the last-in, first-out ("LIFO") method of accounting for substantially all of its inventories. At February 26, 2011 and February 27, 2010, inventories were \$875,012 and \$831,113, respectively, lower than the amounts that would have been reported using the first-in, first-out ("FIFO") method. The Company calculates its FIFO inventory valuation using the retail method for store inventories and the cost method for distribution facility inventories. The LIFO charge was \$44,905, \$88,450 and \$184,569 for fiscal years 2011, 2010, and 2009, respectively. During fiscal 2011, 2010 and 2009, a reduction in inventories related to working capital initiatives resulted in the liquidation of applicable LIFO inventory quantities carried at lower costs in prior years. This LIFO liquidation resulted in a \$2,647, \$33,085 and \$13,777 cost of sales decrease, with a corresponding reduction to the adjustment to LIFO for fiscal 2011, fiscal 2010 and fiscal 2009, respectively.

Impairment of Long-Lived Assets

Asset impairments are recorded when the carrying value of assets are not recoverable. For purposes of recognizing and measuring impairment of long-lived assets, the Company categorizes assets of operating stores as "Assets to Be Held and Used" and "Assets to Be Disposed Of". The Company evaluates assets at the store level because this is the lowest level of identifiable cash flows ascertainable to evaluate impairment. Assets being tested for recoverability at the store level include tangible long-lived assets and identifiable, finite-lived intangibles that arose in purchase business combinations. Corporate assets to be held and used are evaluated for impairment based on excess cash flows from the stores that support those assets.

The Company reviews long-lived assets to be held and used for impairment annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If the sum of the undiscounted expected future cash flows is less than the carrying amount of the asset, the Company recognizes an impairment loss. Impairment losses are measured as the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In thousands, except per share amounts)

1. Summary of Significant Accounting Policies (Continued)

amount by which the carrying amount of the asset exceeds the fair value of the asset. When fair values are not available, the Company estimates fair value using the expected future cash flows discounted at a rate commensurate with the risks associated with the recovery of the asset.

Property, Plant and Equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and amortization. The Company provides for depreciation using the straight-line method over the following useful lives: buildings 30 to 45 years; equipment 3 to 15 years.

Leasehold improvements are amortized on a straight-line basis over the shorter of the estimated useful life of the asset or the term of the lease. When determining the amortization period of a leasehold improvement, the Company considers whether discretionary exercise of a lease renewal option is reasonably assured. If it is determined that the exercise of such option is reasonably assured, the Company will amortize the leasehold improvement asset over the minimum lease term, plus the option period. This determination depends on the remaining life of the minimum lease term and any economic penalties that would be incurred if the lease option is not exercised.

Capitalized lease assets are recorded at the lesser of the present value of minimum lease payments or fair market value and amortized over the estimated useful life of the related property or term of the lease.

The Company capitalizes direct internal and external development costs associated with internal-use software. Neither preliminary evaluation costs nor costs associated with the software after implementation are capitalized. For fiscal years 2011, 2010 and 2009, the Company capitalized costs of approximately \$4,759, \$4,256 and \$4,990, respectively.

Intangible Assets

The Company has certain finite-lived intangible assets that are amortized over their useful lives. The value of favorable and unfavorable leases on stores acquired in business combinations are amortized over the terms of the leases on a straight-line basis. Prescription files acquired in business combinations are amortized over an estimated useful life of ten years on an accelerated basis, which approximates the anticipated prescription file retention and related cash flows. Purchased prescription files acquired in other than business combinations are amortized over their estimated useful lives of five years on a straight-line basis.

Deferred Financing Costs

Costs incurred to issue debt are deferred and amortized as a component of interest expense over the terms of the related debt agreements. Amortization expense of deferred financing costs was \$23,797, \$20,789 and \$13,410 for fiscal 2011, 2010, and 2009, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

1. Summary of Significant Accounting Policies (Continued)

Revenue Recognition

For all sales other than third party pharmacy sales, the Company recognizes revenue from the sale of merchandise at the time the merchandise is sold. For third party pharmacy sales, revenue is recognized at the time the prescription is filled, which is or approximates when the customer picks up the prescription. The Company records revenue net of an allowance for estimated future returns. Return activity is immaterial to revenues and results of operations in all periods presented.

On April 18, 2010, the Company launched its wellness+ loyalty card program chain wide. There are currently over 36 million members enrolled in this program. Members participating in the wellness+ loyalty card program earn points on a calendar year basis for eligible front end merchandise purchases and qualifying prescriptions. One point is awarded for each dollar spent towards front end merchandise and 25 points are awarded for each qualifying prescription.

Members reach specific wellness+ tiers based on the points accumulated during the calendar year, which entitles such customers to certain future discounts and other benefits upon reaching that tier. For example, any customer that reaches 1,000 points in a calendar year achieves the "Gold" tier, enabling them to receive a 20% discount on qualifying purchases of front end merchandise for the remaining portion of the calendar year and also the next calendar year. There are also similar "Silver" and "Plus" levels with lower thresholds and benefit levels.

As wellness+ customers accumulate points, the Company defers the retail value of the points earned as deferred revenue (included in other current and noncurrent liabilities, based on the expected usage). The amount deferred is based on historic and projected customer activity (e.g., tier level, spending level). As customers receive discounted front end merchandise, the Company recognizes an allocable portion of the deferred revenue.

Cost of Goods Sold

Cost of goods sold includes the following: the cost of inventory sold during the period, including related vendor rebates and allowances, LIFO charges, costs incurred to return merchandise to vendors, inventory shrink costs, purchasing costs and warehousing costs which include inbound freight costs from the vendor, distribution payroll and benefit costs, distribution center occupancy costs and depreciation expense and delivery expenses to the stores.

Vendor Rebates and Allowances

Rebates and allowances received from vendors relate to either buying and merchandising or promoting the product. Buying and merchandising related rebates and allowances are recorded as a reduction of cost of goods sold as product is sold. Buying and merchandising rebates and allowances include all types of vendor programs such as cash discounts from timely payment of invoices, purchase discounts or rebates, volume purchase allowances, price reduction allowances and slotting allowances. Certain product promotion related rebates and allowances, primarily related to advertising, are recorded as a reduction in selling, general and administrative expenses when the advertising commitment has been satisfied.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

1. Summary of Significant Accounting Policies (Continued)

Rent

The Company records rent expense on operating leases on a straight-line basis over the minimum lease term. The Company begins to record rent expense at the time that the Company has the right to use the property. From time to time, the Company receives incentive payments from landlords that subsidize lease improvement construction. These leasehold incentives are deferred and recognized on a straight-line basis over the minimum lease term.

Selling, General and Administrative Expenses

Selling, general and administrative expenses include store and corporate administrative payroll and benefit costs, occupancy costs which include retail store and corporate rent costs, facility and leasehold improvement depreciation and utility costs, advertising, repair and maintenance, insurance, equipment depreciation and professional fees.

Repairs and Maintenance

Routine repairs and maintenance are charged to operations as incurred. Improvements and major repairs, which extend the useful life of an asset, are capitalized and depreciated.

Advertising

Advertising costs, net of specific vendor advertising allowances, are expensed in the period the advertisement first takes place. Advertising expenses, net of vendor advertising allowances, for fiscal 2011, 2010 and 2009 were \$367,412, \$375,118 and \$375,790, respectively.

Insurance

The Company is self-insured for certain general liability and workers' compensation claims. For claims that are self-insured, stop-loss insurance coverage is maintained for workers' compensation occurrences exceeding \$1,000 and general liability occurrences exceeding \$2,000. The Company utilizes actuarial studies as the basis for developing reported claims and estimating claims incurred but not reported relating to the Company's self-insurance. Workers' compensation claims are discounted to present value using a risk-free interest rate.

A majority of the Company-sponsored associate medical plans are self-insured. The remaining Company-sponsored associate medical plans are covered through guaranteed cost contracts.

Benefit Plan Accruals

The Company has several defined benefit plans, under which participants earn a retirement benefit based upon a formula set forth in the plan. The Company records expense related to these plans using actuarially determined amounts that are calculated under the provisions of ASC 715, "Compensation Retirement Benefits." Key assumptions used in the actuarial valuations include the discount rate, the expected rate of return on plan assets and the rate of increase in future compensation levels.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

1. Summary of Significant Accounting Policies (Continued)

Stock-Based Compensation

The Company has several stock option plans, which are described in detail in Note 14. The Company accounts for stock-based compensation under ASC 718, "Compensation Stock Compensation," which requires companies to account for share-based payments to associates using the fair value method of expense recognition. Fair value for stock options can be calculated using either a closed form or open form calculation method. ASC 718 requires companies to recognize option expense over the requisite service period of the award, net of an estimate for the impact of award forfeitures.

Store Pre-opening Expenses

Costs incurred prior to the opening of a new or relocated store, associated with a remodeled store or related to the opening of a distribution facility are charged against earnings when incurred.

Litigation Reserves

The Company is involved in litigation on an ongoing basis. The Company accrues its best estimate of the probable loss related to legal claims. Such estimates are developed in consultation with in-house counsel, and are based upon a combination of litigation and settlement strategies.

Facility Closing Costs and Lease Exit Charges

When a store or distribution center is closed, the Company records an expense for unrecoverable costs and accrues a liability equal to the present value at current credit adjusted risk-free interest rates of the remaining lease obligations and anticipated ancillary occupancy costs, net of estimated sublease income. Other store or distribution center closing and liquidation costs are expensed when incurred.

Income Taxes

Deferred income taxes are determined based on the difference between the financial reporting and tax bases of assets and liabilities. Deferred income tax expense (benefit) represents the change during the reporting period in the deferred tax assets and deferred tax liabilities, net of the effect of acquisitions and dispositions. Deferred tax assets include tax loss and credit carryforwards and are reduced by a valuation allowance if, based on available evidence, it is more likely than not that some portion of the deferred tax assets will not be realized. Changes in valuation allowances from period to period are included in the tax provision in the period of change.

The Company has net operating loss ("NOL") carryforwards that can be utilized to offset future income for federal and state tax purposes. These NOLs generate a significant deferred tax asset. The Company regularly reviews the deferred tax assets for recoverability considering historical profitability, projected taxable income, the expected timing of the reversals of existing temporary differences and tax planning strategies.

The Company recognizes tax liabilities in accordance with ASC 740, "Income Taxes" and management adjusts these liabilities with changes in judgment as a result of the evaluation of new

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

1. Summary of Significant Accounting Policies (Continued)

information not previously available. Due to the complexity of some of these uncertainties, the ultimate resolution may result in a payment that is materially different from the current estimate of the tax liabilities.

Sales Tax Collected

Sales taxes collected from customers and remitted to various governmental agencies are presented on a net basis (excluded from revenues) in the Company's statement of operations.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Significant Concentrations

The Company's pharmacy sales were primarily to customers covered by health plan contracts, which typically contract with a third party payor that agrees to pay for all or a portion of a customer's eligible prescription purchases. During fiscal 2011, the top five third party payors accounted for approximately 60.9% of the Company's pharmacy sales. The largest third party payor represented 23.8%, 21.2%, and 18.7% of pharmacy sales during fiscal 2011, 2010, and 2009, respectively. Third party payors are entities such as an insurance company, governmental agency, health maintenance organization or other managed care provider, and typically represent several health care contracts and customers. During fiscal 2011, state sponsored Medicaid agencies accounted for approximately 11.5% of the Company's pharmacy sales, the largest of which was approximately 3.1% of the Company's pharmacy sales. During fiscal 2011, approximately 27.0% of the Company's pharmacy sales were to customers covered by Medicare Part D. Any significant loss of third-party payor business could have a material adverse effect on the Company's business and results of operations.

During fiscal 2011, the Company purchased brand pharmaceuticals and some generic pharmaceuticals which amounted to approximately 91.4% of the dollar volume of its prescription drugs from a single wholesaler, McKesson Corp. ("McKesson"), under a contract expiring April 1, 2013. With limited exceptions, the Company is required to purchase all of its branded pharmaceutical products from McKesson. If the Company's relationship with McKesson was disrupted, the Company could have temporary difficulty filling prescriptions for brand named drugs until a replacement wholesaler agreement was executed, which would negatively impact the business. The Company purchases almost all of its generic (non-brand name) pharmaceuticals directly from manufactures which account for approximately 76% of its prescription volume. The loss of any one of the generic suppliers would not disrupt the Company's ability to fill generic (non-brand name) prescriptions but could negatively impact the Company's results.

1. Summary of Significant Accounting Policies (Continued)

Certain Business Risks and Management's Plans

The U.S. economy is currently in a continued downturn and the future economic environment may not fully recover to levels prior to the downturn. The Company is highly leveraged and its substantial indebtedness could limit cash flow available for operations and could adversely affect its ability to service debt or obtain additional financing. As a result of the current condition of the credit markets, the Company may not be able to obtain additional financing on favorable terms, or at all. If the Company's operating results, cash flow or capital resources prove inadequate, or if interest rates rise significantly, the Company could face substantial liquidity problems and might be required to dispose of material assets or operations to meet its debt and other obligations or otherwise be required to delay its planned activities.

Management believes that the Company has adequate sources of liquidity to meet its anticipated requirements for working capital, debt service and capital expenditures through fiscal 2012. The Company has a \$1,175,000 senior secured revolving credit facility of which \$28,000 was outstanding at February 26, 2011.

Derivatives

The Company may enter into interest rate swap agreements to hedge the exposure to increasing rates with respect to its variable rate debt, when the Company deems it prudent to do so. Upon inception of interest rate swap agreements, or modifications thereto, the Company performs a comprehensive review of the interest rate swap agreements based on the criteria as provided by ASC 815, "Derivatives and Hedging." As of February 26, 2011 and February 27, 2010, the Company had no interest rate swap arrangements or other derivatives.

Discontinued Operations

For purposes of determining discontinued operations, the Company has determined that the store level is a component of the entity within the context of ASC 360, "Property, Plant and Equipment." A component of an entity comprises operations and cash flows that can be clearly distinguished, operationally and for financial reporting purposes, from the rest of the Company. The Company routinely evaluates its store base and closes non-performing stores. The Company evaluates the results of operations of these closed stores both quantitatively and qualitatively to determine if it is appropriate for reporting as discontinued operations. Stores sold where the Company retains the prescription files are excluded from the analysis as the Company retains direct cash flows resulting from the migration of revenue to existing stores.

2. Loss Per Share

Basic loss per share is computed by dividing loss available to common stockholders by the weighted average number of shares of common stock outstanding for the period. Diluted loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

3. Lease Termination and Impairment Charges

Lease termination and impairment charges consisted of amounts and number of locations as follows:

	February 26, 2011 (52 Weeks)		ar Ended ruary 27, 2010 2 Weeks)	, February 28 2009		
Impairment charges	\$ 115,121	\$	75,475	\$	157,334	
Facility and equipment lease exit charges	95,772		132,542		136,409	
	\$ 210,893	\$	208,017	\$	293,743	
Impairment charges Number of Stores Number of Distribution Centers	864 1		670 1		815	
	865		671		815	
Lease exit charges						
Number of Stores	52		108		162	
Number of Distribution Centers	1		1			
	53		109		162	

Impairment Charges

These amounts included the write-down of long-lived assets at stores that were assessed for impairment because of management's intention to relocate or close the store, or because of changes in circumstances that indicated the carrying value of an asset may not be recoverable.

Facility and Equipment Lease Exit Charges

Charges to close a store, which principally consist of lease termination costs, are recorded at the time the store is closed and all inventory is liquidated, pursuant to the guidance set forth in ASC 420, "Exit or Disposal Cost Obligations." The Company calculates its liability for closed stores on a store-by-store basis. The calculation includes the discounted effect of future minimum lease payments and related ancillary costs, from the date of closure to the end of the remaining lease term, net of estimated cost recoveries that may be achieved through subletting properties or through favorable lease terminations. The Company evaluates these assumptions each quarter and adjusts the liability accordingly.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

3. Lease Termination and Impairment Charges (Continued)

The following table reflects the closed store charges that relate to new closures, changes in assumptions and interest accretion.

	oruary 26, 2011 2 Weeks)	Fe	ear Ended bruary 27, 2010 52 Weeks)	bruary 28, 2009 52 Weeks)
Balance beginning of year	\$ 412,654	\$	381,411	\$ 329,682
Provision for present value of noncancellable lease payments of closed stores	51,369		80,331	97,667
Changes in assumptions about future sublease income, terminations and change of				
interest rate	19,585		31,014	20,947
Interest accretion	26,234		26,693	19,837
Cash payments, net of sublease income	(104,492)		(106,795)	(86,722)
Balance end of year	\$ 405,350	\$	412,654	\$ 381,411

The Company's revenues and income before income taxes for fiscal 2011, 2010, and 2009 included results from stores that have been closed or are approved for closure as of February 26, 2011. The revenue and operating losses of these stores for the periods are presented as follows:

		Yea	r Ended	
	ruary 26, 2011 2 Weeks)	2	ruary 27, 2010 Weeks)	oruary 28, 2009 2 Weeks)
Revenues	\$ 140,155	\$	417,701	\$ 966,190
Loss from operations	(2,385)		(1,648)	(76,995)
Included in these stores' loss from operations are:				
Depreciation and amortization	1,669		7,424	16,902
Inventory liquidation charges	4,897		5,236	9,881
(Gain) loss from sales of assets	(16,458)		(33,078)	13,820

The above results are not necessarily indicative of the impact that these closures will have on revenues and operating results of the Company in the future, as the Company often transfers the business of a closed store to another Company store, thereby retaining a portion of these revenues. The amounts indicated above do not include the results of operations for stores closed related to discontinued operations.

The Company prioritizes inputs used in measuring the fair value of its nonfinancial assets and liabilities into a hierarchy of three levels: Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs other than quoted prices included within Level 1 that are either directly or indirectly observable; and Level 3 unobservable inputs in which little or no market activity exists, therefore requiring an entity to develop its own assumptions about the assumptions that market participants would use in pricing.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

3. Lease Termination and Impairment Charges (Continued)

Long-lived assets are measured at fair value on a nonrecurring basis for purposes of calculating impairment using Level 2 and Level 3 inputs as defined in the fair value hierarchy. The fair value of long-lived assets using Level 2 inputs is determined by evaluating the current economic conditions in the geographic area for similar use assets. The fair value of long-lived assets using Level 3 inputs is determined by estimating the amount and timing of net future cash flows and discounting them using a risk-adjusted rate of interest. The Company estimates future cash flows based on its experience and knowledge of the market in which the store is located.

The table below sets forth by level within the fair value hierarchy the long-lived assets as of the impairment measurement date for which an impairment assessment was performed.

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Obs I	nificant Other servable nputs evel 2)	Une	ignificant observable Inputs Level 3)	ir Values as of pairment Date		tal Charges bruary 26, 2011

Total	\$	\$	35,201	\$	4,262	\$ 39,463	\$ (75,475)

4. Discontinued Operations

During the fourth quarter of fiscal 2008, the Company entered into agreements to sell the prescription files of 28 of its stores in the Las Vegas, Nevada area. The Company owned four of these stores and the remaining stores were leased. The Company assigned the lease rights of 17 of those stores to other entities and closed the remaining leased stores. The Company has sold three of the owned stores and plans to sell the remaining one owned store. The sale and transfer of the prescription files has been completed and the inventory at the stores has been liquidated.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

4. Discontinued Operations (Continued)

The Company has presented the operating results of and the gain on the sale of Las Vegas as a discontinued operation in the statement of operations for fiscal 2009. The following amounts have been segregated from continuing operations and included in discontinued operations:

	February 2 (52) (Dol	Ended uary 28, 2009 Weeks) Ilars in usands)
Revenues	\$	267
Costs and expenses:		
Cost of goods sold		1,652
Selling, general and administrative expenses		1,936
Loss (gain) on sale of assets		48
Total costs and expenses		3,636
Loss from discontinued operations before income taxes		(3,369)
Income tax benefit		
Net loss from discontinued operations	\$	(3,369)

The assets and liabilities of the divested stores for the year ended February 28, 2009 are not significant and have not been segregated in the consolidated balance sheets.

5. Income Taxes

The provision for income taxes was as follows:

	20	February 26, 2011 (52 Weeks)		February 26, February 27, 2011 2010		2010		uary 28, 2009 Weeks)
Current tax

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

5. Income Taxes (Continued)

A reconciliation of the expected statutory federal tax and the total income tax benefit was as follows:

	bruary 26, 2011 52 Weeks)	Fe	ear Ended bruary 27, 2010 52 Weeks)	bruary 28, 2009 52 Weeks)
Expected federal statutory expense at 35%	\$ (190,956)	\$	(167,972)	\$ (903,974)
Nondeductible expenses	1,354		2,941	9,445
State income taxes, net	(18,139)		(24,662)	(54,921)
Increase of previously recorded liabilities	647		18,359	9,737
Recoverable AMT tax due to special 5-year NOL carryback			(4,790)	
Goodwill Impairment				595,856
Valuation allowance	216,936		202,882	673,114
Total income tax expense	\$ 9,842	\$	26,758	\$ 329,257

Net loss for fiscal 2011 included income tax expense of \$9,842 and was primarily comprised of an accrual for state and local taxes, adjustments to unrecognized tax benefits and the need for an accrual of additional state taxes resulting from the receipt of a final audit determination. The Company maintains a full valuation allowance against its net deferred tax assets. ASC 740, "Income Taxes" requires a company to evaluate its deferred tax assets on a regular basis to determine if a valuation allowance against the net deferred tax assets is required. According to ASC 740, a cumulative loss in recent years is significant negative evidence in considering whether deferred tax assets are realizable. Based on the negative evidence, ASC 740 precludes relying on projections of future taxable income to support the recognition of deferred tax assets. The ultimate realization of deferred tax assets is dependent upon the existence of sufficient taxable income generated in the carryforward periods.

The fiscal 2010 income tax expense was primarily comprised of an accrual for state and local taxes net of federal tax recoveries and adjustments to unrecognized tax benefits. The income tax expense for fiscal 2009 included \$673,114 related to the write-down of our remaining net federal and state deferred tax assets through an adjustment to our valuation allowance. The increase to the valuation allowance for fiscal 2009 was primarily related to the impact of the current economic conditions on fiscal 2009 operating results.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

5. Income Taxes (Continued)

The tax effect of temporary differences that gave rise to significant components of deferred tax assets and liabilities consisted of the following at February 26, 2011 and February 27, 2010:

	2011	2010
Deferred tax assets:		
Accounts receivable	\$ 39,021	\$ 21,934
Accrued expenses	266,523	284,383
Liability for lease exit costs	175,547	193,073
Pension, retirement and other benefits	188,658	187,240
Long-lived assets	233,317	148,404
Other	2,166	3,842
Credits	71,526	71,070
Net operating losses	1,578,714	1,411,692
Total gross deferred tax assets	2,555,472	2,321,638
Valuation allowance	(2,199,302)	(1,984,468)
Total deferred tax assets	356,170	337,170
Deferred tax liabilities:		
Inventory	356,170	337,170
Total gross deferred tax liabilities	356,170	337,170
Net deferred tax assets	\$	\$

A reconciliation of the beginning and ending amount of unrecognized tax benefits was as follows:

	2011	2010	2009
Unrecognized tax benefits	\$ 300,707	\$ 280,394	\$ 233,014
Increases to prior year tax positions	8,872	8,661	5,395
Increases to prior year tax positions for Brooks Eckerd Acquisition			40,670
Decreases to tax positions in prior periods	(16,940)	(306)	(2,532)
Increases to current year tax positions	821	12,669	5,189
Settlements	(2,498)		(811)
Lapse of statute of limitations	(4,010)	(711)	(531)
Unrecognized tax benefits balance	\$ 286,952	\$ 300,707	\$ 280.394

The amount of the above unrecognized tax benefits at February 26, 2011, February 27, 2010 and February 28, 2009 which would impact the Company's effective tax rate, if recognized, was \$109,030, \$116,972 and \$100,995, respectively. Additionally, any impact on the effective rate may be mitigated by the valuation allowance that is maintained against the Company's net deferred tax assets.

The Company is indemnified by Jean Coutu Group for certain tax liabilities incurred for all years ended up to and including June 4, 2007. Although the Company is indemnified by Jean Coutu Group,

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

5. Income Taxes (Continued)

the Company remains the primary obligor to the tax authorities with respect to any tax liability arising for the years prior to the acquisition. Accordingly, as of February 26, 2011, February 27, 2010 and February 28, 2009, the Company had a corresponding recoverable indemnification asset of \$158,209, \$146,053 and \$131,681 from Jean Coutu Group, included in the "Other Assets" line of the Consolidated Balance Sheets, to reflect the indemnification for such liabilities.

Over the next 12 months, the Company believes that it is reasonably possible that the unrecognized tax positions reflected in the table above could decrease by \$202,151 (\$62,896 of which would impact the effective tax rate) if our tax positions are sustained upon audit, the controlling statute of limitations expires or we agree to a disallowance. The primary driver of the decrease is contingent upon the timing of the conclusion of the pre-acquisition period's audit of the consolidated U.S. income tax returns for Brooks Eckerd and will impact the effective rate by \$38,816 and the overall decrease of unrecognized tax benefits by \$168,477. The Company believes that it is reasonably possible that approximately \$33,674 of its remaining unrecognized tax positions, each of which are individually insignificant, may be recognized by the end of the fiscal year as a result of concluding audits or lapse of statute of limitations.

The Company recognizes interest and penalties related to tax contingencies as income tax expense. Prior to the adoption of ASC 740, "Income Taxes," the Company included interest as income tax expense and penalties as an operating expense. The Company recognized expense for interest and penalties in connection with tax matters of \$8,937, \$12,267 and \$9,527 for fiscal years 2011, 2010 and 2009, respectively. As of February 26, 2011 and February 27, 2010 the total amount of accrued income tax-related interest and penalties was \$67,379 and \$58,443, respectively.

The Company files U.S. federal income tax returns as well as income tax returns in those states where it does business. The consolidated federal income tax returns have been subject to examination by the Internal Revenue Service (IRS) through fiscal 2008. However, any net operating losses that were generated in these prior closed years may be subject to examination by the IRS upon utilization. The IRS has completed the examination of the consolidated U.S. income tax returns for Brooks Eckerd for the periods leading up to the acquisition which include fiscal years 2004 through 2007. A revenue agent report (RAR) has been received for each of the three audit cycles, with the last RAR received in the third quarter of fiscal 2011. The Company is appealing these audit results. Management believes that the Company has adequately provided for any potential adverse results. Furthermore, pursuant to the tax indemnification referenced above, Jean Coutu Group is required to reimburse the Company for any assessment that may arise. State income tax returns are generally subject to examination for a period of three to five years after filing of the respective return. However, as a result of filing amended returns, the Company has statutes open in some states from fiscal 2004.

Net Operating Losses and Tax Credits

At February 26, 2011, the Company had federal net operating loss (NOL) carryforwards of approximately \$3,823,542, the majority of which will expire, if not utilized, between fiscal 2019 and 2022.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

5. Income Taxes (Continued)

At February 26, 2011, the Company had state NOL carryforwards of approximately \$5,953,877, the majority of which will expire between fiscal 2020 and 2028.

At February 26, 2011, the Company had federal business tax credit carryforwards of \$58,475, the majority of which will expire between 2012 and 2020. In addition to these credits, the Company had alternative minimum tax credit carryforwards of \$3,221.

Valuation Allowances

The valuation allowances as of February 26, 2011 and February 27, 2010 apply to the net deferred tax assets of the Company. The Company maintained a full valuation allowance of \$2,199,302 and \$1,984,468 against net deferred tax assets at February 26, 2011 and February 27, 2010, respectively.

6. Accounts Receivable

The Company maintains an allowance for doubtful accounts receivable based upon the expected collectibility of accounts receivable. The allowance for uncollectible accounts at February 26, 2011 and February 27, 2010 was \$25,116 and \$31,549, respectively. The Company's accounts receivable are due primarily from third-party payors (e.g., pharmacy benefit management companies, insurance companies or governmental agencies) and are recorded net of any allowances provided for under the respective plans. Since payments due from third-party payors are sensitive to payment criteria changes and legislative actions, the allowance is reviewed continually and adjusted for accounts deemed uncollectible by management.

Until October 26, 2009, the Company maintained securitization agreements (the "First Lien Facility") with several multi-seller asset-backed commercial paper vehicles ("CPVs"). Under the terms of the First Lien Facility, the Company sold substantially all of its eligible third party pharmaceutical receivables to a bankruptcy remote Special Purpose Entity ("SPE") and retained servicing responsibility. The SPE then transferred an interest in these receivables to various CPVs. The Company also maintained a \$225,000 second priority accounts receivable securitization term loan (the "Second Lien Facility").

On October 26, 2009, the Company terminated both accounts receivable securitization facilities and replaced them with senior secured notes, increased borrowing capacity under the Company's existing senior secured revolving credit facility and an increase in borrowings the Company's Tranche 4 Term Loan. The new borrowings are discussed in more detail in Note 10. As part of this refinancing, the Company incurred a prepayment penalty of \$2,250 in relation to the Second Lien Facility and recognized \$3,822 of unamortized discount related to the Second Lien Facility. These charges are recorded as a component of selling, general, and administrative expenses.

At October 26, 2009, prior to the termination of the First Lien Facility, the total outstanding receivables that had been transferred to CPV's were \$250,000. At February 28, 2009, the total outstanding receivables that had been transferred to CPVs were \$330,000.

The table below details receivable transfer activity for the years ended February 26, 2011, February 27, 2010 and February 28, 2009. Note that for the fifty-two period ended February 27, 2010,

(In thousands, except per share amounts)

6. Accounts Receivable (Continued)

receivables securitization activity is reflected through October 26, 2009, the date of the termination of the securitization facilities.

	February 26, 2011 (52 Weeks)	Fe	ear Ended ebruary 27, 2010 52 Weeks)	ebruary 28, 2009 52 Weeks)
Average amount of outstanding receivables transferred	\$	\$	226,521	\$ 471,319
Total receivable transfers	\$	\$	2,240,000	\$ 6,940,000
Collections made by the Company as part of the servicing arrangement on behalf of the				
CPVs	\$	\$	2,320,000	\$ 7,045,000

The program fee under the First Lien Facility was LIBOR plus 2.0% of the total amount advanced under the facility. The liquidity fee was 3.5% of the total facility commitment of \$345,000. The program and the liquidity fees were recorded as a component of selling, general and administrative expenses. Program and liquidity fees for fiscal 2010 and 2009 were \$11,980 and \$24,903, respectively. There were no program and liquidity fees for fiscal 2011.

Financing fees related to the Second Lien Facility for fiscal 2010 and 2009 were \$24,882 and \$1,161, respectively and were recorded as a component of selling, general, and administrative expenses.

7. Property, Plant and Equipment

Following is a summary of property, plant and equipment, including capital lease assets, at February 26, 2011 and February 27, 2010:

	2011	2010
Land	\$ 261,909	\$ 267,938
Buildings	743,525	749,741

Construction in progress	67,947	73,901
	4,640,669	4,809,343
Accumulated depreciation	(2,601,286)	(2,516,190)
Property, plant and equipment, net	\$ 2,039,383	\$ 2,293,153

Depreciation expense, which included the depreciation of assets recorded under capital leases, was \$331,927, \$349,282 and \$383,671 in fiscal 2011, 2010 and 2009, respectively.

Included in property, plant and equipment was the carrying amount of assets to be disposed of totaling \$4,608 and \$26,003 at February 26, 2011 and February 27, 2010, respectively.

(In thousands, except per share amounts)

8. Goodwill and Other Intangibles Assets

At February 28, 2009, the Company impaired all of its existing goodwill, which resulted in a non-cash charge of \$1,810,223. This entry was required due to the fact that the Company's market value, as indicated by the trading price of its common stock, was less than the carrying value of its net assets as of February 28, 2009.

The Company's intangible assets are finite-lived and amortized over their useful lives. Following is a summary of the Company's intangible assets as of February 26, 2011 and February 27, 2010.

		Gross Carrying Amount		2011 ccumulated mortization	Remaining Weighted Average Amortization Period		Gross Carrying Amount		2010 ccumulated mortization	Remaining Weighted Average Amortization Period
Favorable leases and other	\$	620,786	¢	(335,692)	10 years	\$	658,590	¢	(305,791)	11 years
Prescription files	φ	1,217,212	φ	(856,129)	,	φ	1,204,348	φ	(734,059)	,
Goodwill					·					·
Total	\$	1,837,998	\$	(1,191,821)		\$	1,862,938	\$	(1,039,850)	

Also included in other non-current liabilities as of February 26, 2011 and February 27, 2010 are unfavorable lease intangibles with a net carrying amount of \$93,952 and \$106,910, respectively.

Amortization expense for these intangible assets and liabilities was \$173,618, \$184,956 and \$202,537 for fiscal 2011, 2010 and 2009, respectively. The anticipated annual amortization expense for these intangible assets and liabilities is 2012 \$136,932; 2013 \$111,798; 2014 \$86,079; 2015 \$68,715 and 2016 \$56,970.

9. Accrued Salaries, Wages and Other Current Liabilities

Accrued salaries, wages and other current liabilities consisted of the following at February 26, 2011 and February 27, 2010:

	2011	2010
Accrued wages, benefits and other personnel costs	\$ 386,226	\$ 372,434
Accrued sales and other taxes payable	98,433	97,512
Accrued store expense	200,786	171,403
Other	363,961	323,772

(In thousands, except per share amounts)

10. Indebtedness and Credit Agreement (Continued)

Credit Facility

The Company has a senior secured credit facility that consists of a \$1,175,000 revolving credit facility and two term loans. Borrowings under the revolving credit facility bear interest at a rate per annum between LIBOR plus 3.25% and LIBOR plus 3.75% if the Company chooses to make LIBOR borrowings, or between Citibank's base rate plus 2.25% and Citibank's base rate plus 2.75%, in each case based upon the amount of revolver availability, as defined in the senior secured credit facility. The Company is required to pay fees between 0.50% and 0.75% per annum on the daily unused amount of the revolver depending on the amount of revolver availability. Amounts drawn under the revolver become due and payable on August 19, 2015, provided that such maturity date shall instead be April 18, 2014 in the event that on or prior to April 18, 2014 the Company does not repay, refinance or otherwise extend the maturity date of its Tranche 2 Term Loan (as defined below) to a date that is at least 90 days after August 19, 2015 and, in the case of a repayment or refinancing, the Company must have at least \$500,000 of availability under the revolver.

The Company's ability to borrow under the revolver is based upon a specified borrowing base consisting of accounts receivable, inventory and prescription files. At February 26, 2011, the Company had \$28,000 of borrowings outstanding under the revolver and had letters of credit outstanding thereunder of \$142,686 which gave the Company additional borrowing capacity of \$1,004,314.

The credit facility also includes a \$1,105,000 senior secured term loan (the "Tranche 2 Term Loan"). The Tranche 2 Term Loan will mature on June 4, 2014 and currently bears interest at a rate per annum equal to LIBOR plus 1.75%, if the Company elects LIBOR borrowings, or at Citibank's base rate plus 0.75%. Mandatory prepayments are required to be made from proceeds of asset dispositions and casualty events (subject to certain limitations), a portion of excess cash flows (as defined in the senior secured credit facility) and proceeds from certain issuances of equity or debt (subject to certain exceptions). If at any time there is a shortfall in the borrowing base under the senior credit facility, prepayment of the Tranche 2 Term Loan may also be required.

The senior secured credit facility also restricts the Company and the subsidiary guarantors from accumulating cash on hand in excess of \$200,000 at any time when revolving loans are outstanding (not including cash located in the Company's store deposit accounts, cash necessary to cover the Company's current liabilities and certain other exceptions) and from accumulating cash on hand with revolver borrowings in excess of \$100,000 over three consecutive business days. The senior secured credit facility also states that if at any time (other than following the exercise of remedies or acceleration of any senior obligations or second priority debt and receipt of a triggering notice by the senior collateral agent from a representative of the senior obligations or the second priority debt) either (a) an event of default exists under the Company's senior secured credit facility and certain amounts held on deposit with the senior collateral agent in a concentration account is less than \$100,000 for three consecutive business days (a "cash sweep period"), the funds in the Company's deposit accounts will be swept to a concentration account with the senior collateral agent and will be applied first to repay outstanding revolving loans under the senior secured credit facility, and then held as Collateral for the senior obligations until such cash sweep period is rescinded pursuant to the terms of the Company's senior secured credit facility.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

10. Indebtedness and Credit Agreement (Continued)

The senior secured credit facility allows the Company to have outstanding, at any time, up to \$1,500,000 in secured second priority debt and unsecured debt in addition to borrowings under the senior secured credit facility and existing indebtedness, provided that not in excess of \$750,000 of such secured second priority debt and unsecured debt shall mature or require scheduled payments of principal prior to three months after June 4, 2014. The senior secured credit facility allows the Company to incur an unlimited amount of unsecured debt with a maturity beyond three months after June 4, 2014; however, other debentures limit the amount of unsecured debt that can be incurred if certain interest coverage levels are not met at the time of incurrence of said debt. The senior secured facility also allows, so long as the senior secured credit facility is not in default, for the repurchase of any debt with a maturity on or before June 4, 2014, for the voluntary repurchase of debt with a maturity after June 4, 2014, and the mandatory repurchase of the Company's 8.5% convertible notes due 2015 if the Company maintains availability on the revolving credit facility of at least \$100,000.

The senior secured credit facility contains covenants, which place restrictions on the incurrence of debt beyond the restrictions described above, the payments of dividends, sale of assets, mergers and acquisitions and the granting of liens. The credit facility has a financial covenant, which is the maintenance of a fixed charge coverage ratio. The covenant requires that, if availability on the revolving credit facility is less than \$150.0 million, the Company must maintain a minimum fixed charge coverage ratio of 1.00 to 1.00 for the quarter ending February 26, 2011 and for the three subsequent quarters. This ratio increases to 1.05 to 1.00 in the last quarter of Fiscal 2012 and remains at that level for the remaining term of the facility. As of February 26, 2011, the Company was in compliance with this financial covenant.

The senior secured credit facility provides for events of default including nonpayment, misrepresentation, breach of covenants and bankruptcy. It is also an event of default if the Company fails to make any required payment on debt having a principal amount in excess of \$50,000 or any event occurs that enables, or which with the giving of notice or the lapse of time would enable, the holder of such debt to accelerate the maturity or require the repurchase of such debt. The August 2010 amendments to the senior secured credit facility exclude the mandatory repurchase of the 8.5% convertible notes due 2015 from this event of default.

Substantially all of Rite Aid Corporation's wholly-owned subsidiaries guarantee the obligations under the senior secured credit facility. The subsidiary guarantees of the senior secured credit facility; the 9.75% senior secured notes due 2016 and the 8.00% senior secured notes due 2020 are secured by a senior lien on, among other things, accounts receivable, inventory and prescription files of the subsidiary guarantors. Rite Aid Corporation is a holding company with no direct operations and is dependent upon dividends, distributions and other payments from its subsidiaries to service payments due under the senior secured credit facility. The Company's 10.375% senior secured notes due 2016, the 7.5% senior secured notes due 2017 and the 10.25% senior secured notes due 2019 are guaranteed by substantially all of the Company's wholly-owned subsidiaries, which are the same subsidiaries that guarantee the senior secured credit facility, the 9.75% senior secured notes due 2020, and are secured on a second priority basis by the same collateral as the senior secured credit facility, the 9.75% senior secured notes due 2016 and the 8.00% senior secured notes

Table of Contents

RITE AID CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

10. Indebtedness and Credit Agreement (Continued)

notes due 2020. The 8.625% senior notes due 2015, the 9.375% senior notes due 2015 and the 9.5% senior notes due 2017 are also guaranteed by all of the same subsidiaries on an unsecured basis.

The subsidiary guarantees related to the Company's senior secured credit facility and secured notes and on an unsecured basis the guaranteed indentures are full and unconditional and joint and several, and there are no restrictions on the ability of the parent to obtain funds from its subsidiaries. Also, the parent company has no independent assets or operations, and subsidiaries not guaranteeing the credit facility and applicable indentures are minor. Accordingly, condensed consolidating financial information for the parent and subsidiaries is not presented.

The indentures that govern the Company's secured and guaranteed unsecured notes contain restrictions on the amount of additional secured and unsecured debt that can be incurred by the Company. As of February 26, 2011, the amount of additional secured and unsecured debt that could be incurred under these indentures was \$1,075,262 (which does not include the ability to enter into certain sale and leaseback transactions.) However, the Company could not incur any additional secured debt assuming a fully drawn revolver and the outstanding letters of credit. The ability to issue additional unsecured debt under these indentures is governed by an interest coverage ratio test.

The Company has an excess cash flow payment requirement under the senior secured credit facility. Included in these payments above is a repayment of \$39.8 million of the Tranche 2 Term Loan and the Tranche 5 Term Loan, as required under the Company's senior secured credit facility. This excess cash flow will be in lieu of scheduled amortization payments for the next three fiscal years.

Other 2011 Transactions

In August 2010, the Company issued \$650,000 of 8.00% senior secured notes due August 15, 2020. These notes are unsecured, unsubordinated obligations of Rite Aid Corporation and rank equally in right of payment with all other unsubordinated indebtedness. The Company's obligations under these notes are guaranteed, subject to certain limitations, by the same subsidiaries that guarantee the obligations under the senior secured credit facility and the 9.75% senior secured notes due 2016. These guarantees are shared, on a senior basis, with debt outstanding under the senior secured credit facility and the 9.75% senior secured notes due 2016. The indenture that governs the 8.00% notes contains covenant provisions that, among other things, allow the holders of the notes to participate along with the term loan holders and holders of the 9.75% senior secured notes due 2016 in the mandatory prepayments resulting from the proceeds of certain asset dispositions (at the option of the noteholder) and include limitations on the Company's ability to pay dividends, make investments or other restricted payments, incur debt, grant liens, sell assets and enter into sale-leaseback transactions.

In July 2010, the Company repurchased \$93,812 of its \$158,000 outstanding 8.5% convertible notes. The Company's remaining 8.5% convertible notes require that the Company maintains a listing on the NYSE or certain other exchanges. In the event of a NYSE delisting, holders of these notes could require the Company to repurchase them, which the Company has the ability to do under the terms of our senior credit facility. On July 30, 2010 the Company received a notice of non-compliance from the NYSE because the price of its common stock had fallen below the NYSE's minimum share price rule. The Company's common stock continued to trade as usual on the NYSE and on March 1, 2011, the

(In thousands, except per share amounts)

10. Indebtedness and Credit Agreement (Continued)

Company received notice that it had regained compliance with the NYSE's minimum share price listing requirement. The Company is currently in compliance with all NYSE listing rules.

2010 Transactions

In October 2009, the Company issued \$270,000 of 10.25% senior secured notes due October 15, 2019. These notes are unsecured, unsubordinated obligations of Rite Aid Corporation and rank equally in right of payment with all other unsubordinated indebtedness. The Company's obligations under these notes are guaranteed, subject to certain limitations, by the same subsidiaries that guarantee the obligations under the senior secured credit facility and the 9.75% senior secured notes due 2016. The guarantees are secured by shared second priority liens with holders of the 10.375% senior secured notes due 2016 and 7.5% senior secured notes due 2017. The indenture that governs the 10.25% notes contains covenant provisions that, among other things, include limitations on the Company's ability to pay dividends, make investments or other restricted payments, incur debt, grant liens, sell assets and enter into sale-leaseback transactions. The 10.25% senior secured notes due October 2019 were issued at 99.2% of par.

In June 2009, the Company issued \$410,000 of 9.75% senior secured notes due June 12, 2016. These notes are unsecured, unsubordinated obligations of Rite Aid Corporation and rank equally in right of payment with all other unsubordinated indebtedness. The Company's obligations under these notes are guaranteed, subject to certain limitations, by the same subsidiaries that guarantee the obligations under the senior secured credit facility and its 8.00% senior secured notes due 2020. These guarantees are shared, on a senior basis, with debt outstanding under the senior secured credit facility and its 8.00% senior secured notes due 2020. The indenture that governs the 9.75% notes and its 8.00% senior secured notes due 2020 contains covenant provisions that, among other things, allow the holders of the notes to participate along with the holders of the 8.00% senior secured notes due 2020 in the mandatory prepayments resulting from the proceeds of certain asset dispositions (at the option of the noteholder) and include limitations on the Company's ability to pay dividends, make investments or other restricted payments, incur debt, grant liens, sell assets and enter into sale-leaseback transactions. The 9.75% senior secured notes due June 2016 were issued at 98.2% of par.

2009 Transactions

In July 2008, pursuant to a tender offer and consent solicitation, the Company repurchased substantially all of the outstanding amounts of its 8.125% senior secured notes due May 2010, its 7.5% senior secured notes due January 2015 and its 9.25% senior notes due June 2013. This transaction was done because these notes had restrictions on the incurrence of liens securing the secured debt that prohibited the Company from fully drawing on its revolving credit facility under certain circumstances. The remaining outstanding amounts of such series no longer contain such restrictions and are no longer secured or guaranteed. The Company recorded a loss on debt modification related to these transactions of \$36,558 in fiscal 2009.

These transactions were financed via the issuance of a senior secured term loan (the Tranche 3 Term Loan described above) and the issuance of a \$470,000 aggregate principal amount of 10.375%

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In thousands, except per share amounts)

10. Indebtedness and Credit Agreement (Continued)

senior secured notes due July 2016. These notes are unsecured unsubordinated obligations of Rite Aid Corporation and rank equally in right of payment with all other unsubordinated indebtedness. The Company's obligations under the notes are guaranteed, subject to certain limitations, by subsidiaries that guarantee the obligations under its senior secured credit facility and the 9.75% senior secured notes. The guarantees are secured by shared second priority liens with holders of the Company's 7.5% senior secured notes due 2017 and 10.25% senior secured notes due 2019. The indenture that governs the 10.375% senior secured notes due 2016 contains covenant provisions that, among other things, include limitations on the Company's ability to pay dividends, make investments or other restricted payments, incur debt, grant liens, sell assets and enter into sale-leaseback transactions. The senior 10.375% secured notes due July 2016 were issued at 90.588% of par.

In May 2008, the Company issued \$158,000 of 8.5% convertible notes due May 2015. These notes are unsecured and are effectively junior to the secured debt of the Company. The notes are convertible, at the option of the holder, into shares of the Company's common stock at a conversion price of \$2.59 per share, subject to adjustments to prevent dilution, at any time. Proceeds from the issuance of these notes were used to fund the redemption of the Company's 6.125% notes due December 2008. The Company recorded a loss on debt modification of \$3,347 related to the early redemption of the 6.125% notes, which included payment of a make whole premium to the noteholders and unamortized debt issue costs on the notes. The remaining 8.5% convertible notes require the Company to maintain a listing on the NYSE or certain other exchanges. In the event of a NYSE delisting, holders of these notes could require the Company to repurchase them, which the Company has the ability to do under the terms of its senior secured credit facility. On July 30, 2010, the Company received a notice of non-compliance from the NYSE because the price of our common stock has fallen below the NYSE's minimum share price rule. The Company's common stock continued to trade as usual on the NYSE and on March 1, 2011, the Company received notice that it had regained compliance with the NYSE's minimum share price listing requirement. The Company is currently in compliance with all NYSE listing rules. As of February 26, 2011, \$64,188 aggregate principal amount of the notes remained outstanding.

Interest Rates and Maturities

The annual weighted average interest rate on the Company's indebtedness was 7.5%, 6.8%, and 6.6% for fiscal 2011, 2010, and 2009, respectively.

The aggregate annual principal payments of long-term debt for the five succeeding fiscal years are as follows: 2012 \$45,043; 2013 \$114; 2014 \$194,690; 2015 \$1,373,088 and \$4,535,188 in 2016 and thereafter.

11. Leases

The Company leases most of its retail stores and certain distribution facilities under noncancellable operating and capital leases, most of which have initial lease terms ranging from five to 22 years. The Company also leases certain of its equipment and other assets under noncancellable operating leases with initial terms ranging from 3 to 10 years. In addition to minimum rental payments, certain store

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

11. Leases (Continued)

leases require additional payments based on sales volume, as well as reimbursements for taxes, maintenance and insurance. Most leases contain renewal options, certain of which involve rent increases. Total rental expense, net of sublease income of \$9,662, \$11,027, and \$11,141, was \$965,665, \$961,519 and \$962,840 in fiscal 2011, 2010, and 2009, respectively. These amounts include contingent rentals of \$23,336, \$27,260 and \$31,605 in fiscal 2011, 2010, and 2009, respectively.

During fiscal 2011, the Company had no sale-leaseback transactions.

During fiscal 2010, the Company sold a total of 3 owned properties to independent third parties. Net proceeds from these sales were \$7,967. Concurrent with these sales, the Company entered into agreements to lease the stores back from the purchasers over minimum lease terms of 10 to 20 years. The Company accounted for all of these leases as operating leases. A gain on the sale of these stores of \$5,301 was deferred and is being recorded over the minimum term of these leases.

During fiscal 2009, the Company sold 72 owned stores to several independent third parties. Proceeds from these sales totaled \$192,819. The Company entered into agreements to lease these stores back from the purchasers over minimum lease terms of 20 years. Sixty-seven leases were accounted for as operating leases and five were accounted for under the financing method as of February 28, 2009, as these lease agreements contain a clause that allows the buyer to force the Company to repurchase the property under certain conditions. Gains on these transactions of \$5,157 have been deferred and are being recorded over the related minimum lease terms. Losses of \$501, which relate to certain stores in these transactions, were recorded as losses on the sale of assets for the year ended February 28, 2009. Subsequent to February 28, 2009, the clause that allowed the buyer to force the Company to repurchase the properties lapsed on three of the five leases. Therefore, these leases are now accounted for as operating leases. The Company recorded a financing lease obligation of \$6,564 related to the remaining leases.

The net book values of assets under capital leases and sale-leasebacks accounted for under the financing method at February 26, 2011 and February 27, 2010 are summarized as follows:

	2011	2010
Land	\$ 7,528	\$ 7,528
Buildings	148,262	152,973
Leasehold improvements	1,639	1,652
Equipment	22,515	23,120
Accumulated depreciation	(100,561)	(95,941)
	\$ 79,383	\$ 89,332

12. Redeemable Preferred Stock

In March 1999 and February 1999, Rite Aid Lease Management Company, a wholly owned subsidiary of the Company, issued 63,000 and 150,000 shares of Cumulative Preferred Stock, Class A, par value \$100 per share, respectively. The Class A Cumulative Preferred Stock is mandatorily redeemable on April 1, 2019 at a redemption price of \$100 per share plus accumulated and unpaid dividends. The Class A Cumulative Preferred Stock pays dividends quarterly at a rate of 7.0% per annum of the par value of \$100 per share when, as and if declared by the Board of Directors of Rite Aid Lease Management Company in its sole discretion. The amount of dividends payable in respect of the Class A Cumulative Preferred Stock may be adjusted under certain events. The outstanding shares of the Class A Preferred Stock were recorded at their estimated fair value of \$19,253 for the fiscal 2000 issuances, which equaled the sale price on the date of issuance. Because the fair value of the Class A Preferred Stock was less than the mandatory redemption amount at issuance, periodic accretions to expense using the interest method are made so that the carrying amount equals the redemption amount on the mandatory redemption date. Accretion was \$102 in fiscal 2011, 2010 and 2009. The amount of this instrument is \$20,481 and \$20,379 and is recorded in Other Non-Current Liabilities as of February 26, 2011 and February 27, 2010, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

13. Capital Stock

As of February 26, 2011, the authorized capital stock of the Company consists of 1,500,000 shares of common stock and 20,000 shares of preferred stock, each having a par value of \$1.00 per share. Preferred stock is issued in series, subject to terms established by the Board of Directors.

In fiscal 2006, the Company issued 4,820 shares of Series I Mandatory Convertible Preferred Stock ("Series I preferred stock") at an offering price of \$25 per share. Dividends on the Series I preferred stock were \$1.38 per share per year, and were due and payable on a quarterly basis in either cash or common stock or a combination of both at the Company's election. In the first quarter of fiscal 2009 the Company entered into agreements with several of the holders of the Series I preferred stock to convert 2,404 shares into Rite Aid common stock earlier than the mandatory conversion date, November 17, 2008, at a rate of 5.6561 which resulted in the issuance of 14,648 shares of Rite Aid common stock. On the mandatory conversion date, the remaining outstanding 2,416 shares of Series I preferred stock automatically converted at a rate of 5.6561 which resulted in the issuance of 13,665 shares of Rite Aid common stock.

The Company also has outstanding Series G and Series H preferred stock. The Series G preferred stock has a liquidation preference of \$100 per share and pays quarterly dividends at 7% of liquidation preference. In the fourth quarter of 2009, at the election of the holder, substantially all of the Series G preferred stock was converted into 27,137 common shares, at a conversion rate of \$5.50 per share. The remaining Series G preferred stock can be redeemed at the Company's election after January 2009. The Company has not elected to redeem the remaining Series G preferred stock as of February 26, 2011.

The Series H preferred stock pays dividends of 6% of liquidation preference and can be redeemed at the Company's election after January 2010. All dividends can be paid in either cash or in additional shares of preferred stock, at the election of the Company. Any redemptions are at 105% of the liquidation preference of \$100 per share, plus accrued and unpaid dividends. The Series H shares are convertible into common stock of the Company, at the holder's option, at a conversion rate of \$5.50 per share. The Company has not elected to redeem the Series H preferred stock as of February 26, 2011.

14. Stock Option and Stock Award Plans

The Company recognizes share-based compensation expense in accordance with ASC 718, "Compensation Stock Compensation." Expense is recognized over the requisite service period of the award, net of an estimate for the impact of forfeitures. Operating results for fiscal 2011, 2010 and 2009 include \$17,336, \$23,794 and \$31,448 of compensation costs related to the Company's stock-based compensation arrangements.

The Company reserved 22,000 shares of its common stock for the granting of stock options and other incentive awards to officers and key associates under the 1990 Omnibus Stock Incentive Plan (the 1990 Plan), which was approved by the shareholders. Options may be granted, with or without stock appreciation rights ("SAR"), at prices that are not less than the fair market value of a share of common stock on the date of grant. The exercise of either a SAR or option automatically will cancel any related option or SAR. Under the 1990 Plan, the payment for SARs will be made in shares, cash or a combination of cash and shares at the discretion of the Compensation Committee.

14. Stock Option and Stock Award Plans (Continued)

In November 1999, the Company adopted the 1999 Stock Option Plan (the 1999 Plan), under which 10,000 shares of common stock are authorized for the granting of stock options at the discretion of the Board of Directors.

In December 2000, the Company adopted the 2000 Omnibus Equity Plan (the 2000 Plan) under which 22,000 shares of common stock are reserved for granting of restricted stock, stock options, phantom stock, stock bonus awards and other stock awards at the discretion of the Board of Directors.

In February 2001, the Company adopted the 2001 Stock Option Plan (the 2001 Plan) which was approved by the shareholders under which 20,000 shares of common stock are authorized for granting of stock options at the discretion of the Board of Directors.

In April 2004, the Board of Directors adopted the 2004 Omnibus Equity Plan, which was approved by the shareholders. Under the plan, 20,000 shares of common stock are authorized for granting of restricted stock, stock options, phantom stock, stock bonus awards and other equity based awards at the discretion of the Board of Directors.

In January 2007, the stockholders of Rite Aid Corporation approved the adoption of the Rite Aid Corporation 2006 Omnibus Equity Plan. Under the plan, 50,000 shares of Rite Aid common stock are available for granting of restricted stock, stock options, phantom stock, stock bonus awards and other equity based awards at the discretion of the Board of Directors. The adoption of the 2006 Omnibus Equity Plan became effective upon the closing of the Acquisition.

In June 2010, the stockholders of Rite Aid Corporation approved the adoption of the Rite Aid Corporation 2010 Omnibus Equity Plan. Under the plan, 35,000 shares of Rite Aid common stock are available for granting of restricted stock, stock options, phantom stock, stock bonus awards and other equity based awards at the discretion of the Board of Directors. The adoption of the 2010 Omnibus Equity Plan became effective on June 23, 2010.

All of the plans provide for the Board of Directors (or at its election, the Compensation Committee) to determine both when and in what manner options may be exercised; however, it may not be more than 10 years from the date of grant. All of the plans provide that stock options may be granted at prices that are not less than the fair market value of a share of common stock on the date of grant. The aggregate number of shares authorized for issuance for all plans is 107,640 as of February 26, 2011.

(In thousands, except per share amounts)

14. Stock Option and Stock Award Plans (Continued)

Stock Options

The Company determines the fair value of stock options issued on the date of grant using the Black-Scholes-Merton option-pricing model. The following assumptions were used for options granted in fiscal 2011, 2010 and 2009:

	2011	2010	2009
Expected stock price volatility	79%	76%	50%
Expected dividend yield	0.00%	0.00%	0.00%
Risk-free interest rate	1.92%	2.50%	2.76%
Expected option life	5.5 years	5.5 years	5.25 years

The weighted average fair value of options granted during fiscal 2011, 2010, and 2009 was \$0.71, \$0.83, and \$0.42, respectively. Following is a summary of stock option transactions for the fiscal years ended February 26, 2011, February 27, 2010, and February 28, 2009:

	Shares	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Term	In	gregate trinsic Value

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

14. Stock Option and Stock Award Plans (Continued)

total intrinsic value of stock options exercised for fiscal 2011, 2010, and 2009 was \$81, \$44, and \$239, respectively.

Restricted Stock

The Company provides restricted stock grants to associates under plans approved by the stockholders. Shares awarded under the plans vest in installments up to three years and unvested shares are forfeited upon termination of employment. Following is a summary of restricted stock transactions for the fiscal years ended February 26, 2011, February 27, 2010, and February 28, 2009:

	Shares	Weighted Average Grant Date Fair Value
Balance at March 1,		
2008	9,972	5.39
Granted	2,647	0.94
Vested	(4,760)	5.19
Cancelled	(1,160)	4.86
Balance at February 28,		
2009	6,699	3.87
Granted	3,289	1.28
Vested	(3,387)	4.35
Cancelled	(657)	3.03
Balance at February 27,		
2010	5,944	2.26
Granted	4,574	1.07
Vested	(3,055)	3.21
Cancelled	(385)	1.65
Balance at February 26,		
2011	7,078	1.12

Compensation expense related to all restricted stock grants is being recorded over a three year vesting period of these grants. Non-employee director options granted, vest, and are subsequently exercisable in equal annual installments over a three-year period. Beginning in fiscal 2011, stock units granted to non-employee directors, vest 80% in year one, 10% in year two and 10% in year three. At February 26, 2011, there was \$4,951 of total unrecognized pre-tax compensation costs related to unvested restricted stock grants, net of forfeitures. These costs are expected to be recognized over a weighted average period of 1.85 years.

The total fair value of restricted stock vested during fiscal years 2011, 2010, and 2009 was \$9,819, \$14,726, and \$24,707, respectively.

15. Retirement Plans

Defined Contribution Plans

The Company and its subsidiaries sponsor several retirement plans that are primarily 401(k) defined contribution plans covering nonunion associates and certain union associates. The Company does not contribute to all of the plans. Per those plan provisions, the Company matches 100% of a participant's pretax payroll contributions, up to a maximum of 3% of such participant's pretax annual compensation. Thereafter, the Company will match 50% of the participant's additional pretax payroll contributions, up to a maximum of 2% of such participant's additional pretax annual compensation. Total expense recognized for the above plans was \$58,035 in fiscal 2011, \$59,531 in fiscal 2010 and \$64,111 in fiscal 2009.

The Chairman of the Board and a member of the Board of Directors are entitled to supplemental retirement defined contribution arrangements in accordance with their employment agreements, which vest immediately. The Company makes investments to fund these obligations. Other officers, who are not participating in the defined benefit nonqualified executive retirement plan, are included in a supplemental retirement plan, which is a defined contribution plan that is subject to a five year graduated vesting schedule. The expense (income) recognized for these plans was \$9,433 in fiscal 2011, \$10,989 in fiscal 2010, and \$(6,287) in fiscal 2009. The income recognized in fiscal 2009 is due to the impact of market conditions on the plan liabilities.

Defined Benefit Plans

The Company and its subsidiaries also sponsor a qualified defined benefit pension plan that requires benefits to be paid to eligible associates based upon years of service and, in some cases, eligible compensation. The Company's funding policy for The Rite Aid Pension Plan (The "Defined Benefit Pension Plan") is to contribute the minimum amount required by the Employee Retirement Income Security Act of 1974. However, the Company may, at its sole discretion, contribute additional funds to the plan. The Company made discretionary contributions of \$13,451 in fiscal 2011, \$2,681 in fiscal 2010, and \$1,174 in fiscal 2009.

The Company has established the nonqualified executive retirement plan for certain officers who, pursuant to their employment agreements, are not participating in the defined contribution supplemental retirement plan. Generally, eligible participants receive an annual benefit, payable monthly over fifteen years, equal to a percentage of the average of the three highest annual base salaries paid or accrued for each participant within the ten fiscal years prior to the date of the event giving rise to payment of the benefit. This defined benefit plan is unfunded.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

15. Retirement Plans (Continued)

The estimated net actuarial loss and prior service cost amounts that will be amortized from accumulated other comprehensive loss into net periodic pension expense in fiscal 2011 are \$1,731 and \$639, respectively.

The accumulated benefit obligation for the defined benefit pension plan was \$114,845 and \$103,247 as of February 26, 2011 and February 27, 2010, respectively. The accumulated benefit obligation for the nonqualified executive retirement plan was \$14,731 and \$14,780 as of February 26, 2011 and February 27, 2010, respectively.

The significant actuarial assumptions used for all defined benefit plans to determine the benefit obligation as of February 26, 2011, February 27, 2010, and February 28, 2009 were as follows:

		ined Benefi nsion Plan	t		5.50% 6.00%		
	2011	2010	2009	2011	2010	2009	
Discount rate	5.50%	6.00%	7.00%	5.50%	6.00%	7.00%	
Rate of increase in future compensation levels	5.00%	5.00%	5.00%	3.00%	3.00%	3.00%	

Weighted average assumptions used to determine net cost for the fiscal years ended February 26, 2011, February 27, 2010 and February 28, 2009 were:

		ined Benefi nsion Plan	t	Nonqualified Executive Retirement Plan				
	2011	2010	2009	2011	2010	2009		
Discount rate	6.00%	7.00%	6.50%	6.00%	7.00%	6.50%		
Rate of increase in future compensation levels	5.00%	5.00%	5.00%	3.00%	3.00%	3.00%		
Expected long-term rate of return on plan assets	7.75	7.75	7.75	N/A	N/A	N/A		

To develop the expected long-term rate of return on assets assumption, the Company considered the historical returns and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio. This resulted in the selection of the 7.75% long-term rate of return on plan assets assumption for fiscal 2011, 2010 and 2009.

The Company's pension plan asset allocations at February 26, 2011 and February 27, 2010 by asset category were as follows:

	February 26, 2011	February 27, 2010
Equity securities	58%	60%
Fixed income securities	42%	40%
Total	100%	100%

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

15. Retirement Plans (Continued)

The investment objectives of the Defined Benefit Pension Plan, the only defined benefit plan with assets, are to:

Achieve a rate of return on investments that exceeds inflation over a full market cycle and is consistent with actuarial assumptions;

Balance the correlation between assets and liabilities by diversifying the portfolio among various asset classes to address return risk and interest rate risk:

Balance the allocation of assets between the investment managers to minimize concentration risk;

Maintain liquidity in the portfolio sufficient to meet plan obligations as they come due; and

Control administrative and management costs.

The asset allocation established for the pension investment program reflects the risk tolerance of the Company, as determined by:

The current and anticipated financial strength of the Company;

the funded status of the plan; and

plan liabilities.

Investments in both the equity and fixed income markets will be maintained, recognizing that historical results indicate that equities (primarily common stocks) have higher expected returns than fixed income investments. It is also recognized that the correlation between assets and liabilities must be balanced to address higher volatility of equity investments (return risk) and interest rate risk.

The following targets are to be applied to the allocation of plan assets.

	Target
Category	Allocation
U.S. equities	45%
International equities	15%
U.S. fixed income	40%
Total	100%

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

15. Retirement Plans (Continued)

Common and Collective Trusts

Common collective trust funds are stated at fair value as determined by the issuer of the common collective trust funds based on the fair market value of the underlying investments.

Following are the future benefit payments expected to be paid for the Defined Benefit Pension Plan and the nonqualified executive retirement plan during the years indicated:

	Define	d Benefit	Nonqualified Executive	
Fiscal Year	Pensi	ion Plan	Retirement Plan	1
2012		5,927	1,58	32
2013		6,220	1,69	93
2014		6,392	1,67	72
2015		6,673	1,61	13
2016		6,810	1,55	50
2017 - 2021		38,072	5,43	34
Total	\$	70,094	\$ 13,54	14

Other Plans

The Company participates in various multi-employer union pension plans that are not sponsored by the Company. Total expenses recognized for the multi-employer plans were \$19,053 in fiscal 2011, \$19,328 in fiscal 2010 and \$10,924 in fiscal 2009.

16. Commitments, Contingencies and Guarantees

Legal Proceedings

The Company is currently a defendant in several putative collective or class action lawsuits filed in federal or state courts in Pennsylvania, New Jersey, New York, Maryland and Oregon, purportedly on behalf of, in some cases (i) current and former assistant store managers, or (ii) current and former store managers and assistant store managers, respectively, working in the Company's stores at various locations. The lawsuits allege violations of the Fair Labor Standards Act and of certain state wage and hour statutes. The lawsuits seek various combinations of unpaid compensation (including overtime compensation), liquidated damages, exemplary damages, pre- and post-judgment interest as well as attorneys' fees and costs. In one of the cases, *Craig et al v. Rite Aid Corporation et al*, pending in the United States District Court for the Middle District of Pennsylvania, brought on behalf of current and former assistant store managers, the Court, on December 9, 2009, conditionally certified a nationwide collective group of individuals who worked for the Company as assistant store managers since December 9, 2006. Notice of the *Craig* action has been sent to the purported members of the collective group (approximately 6,700 current and former store managers) and approximately 1,100 have joined the *Craig* action. In another of the cases, *Indergit v. Rite Aid Corporation et al*, pending in the United States District Court for the Southern District of New York, brought on behalf of current and former store managers and assistant store managers, the Court, on April 2, 2010, conditionally certified a

(In thousands, except per share amounts)

16. Commitments, Contingencies and Guarantees (Continued)

nationwide collective group of individuals who worked for the Company as store managers since March 31, 2007. The Court ordered that Notice of the *Indergit* action be sent to the purported members of the collective group (approximately 7,000 current and former store managers) and approximately 1,550 have joined the *Indergit* action. At this time, the Company is not able to predict the outcome of these lawsuits, or any possible monetary exposure associated with the lawsuits. The Company's management believes, however, that the lawsuits are without merit and not appropriate for collective or class action treatment. The Company is vigorously defending all of these claims.

The Company is currently a defendant in several putative class action lawsuits filed in state courts in California alleging violations of California wage and hour laws pertaining primarily to pay for missed meals and rest periods. These suits purport to be class actions and seek substantial damages. At this time, the Company is not able to predict the outcome of these lawsuits, or any possible monetary exposure associated with the lawsuits. The Company's management believes, however, that the plaintiffs' allegations are without merit and that their claims are not appropriate for class action treatment. The Company is vigorously defending all of these claims.

The Company was served with a United States Department of Health and Human Services Office of the Inspector General ("OIG") Subpoena dated March 5, 2010 in connection with an investigation being conducted by the OIG, the United States Attorney's Office for the Central District of California and the United States Department of Justice Commercial Litigation Branch. The subpoena requests records related to any gift card or similar programs for customers who transferred prescriptions for drugs or medicines to the Company's pharmacies, and whether any customers who receive federally funded prescription benefits (e.g. Medicare and Medicaid) may have benefited from those programs. The Company is in the process of producing records in response to the subpoena and is unable to predict with certainty the timing or outcome of the investigation.

The Company does not believe that any of these matters will have a material adverse effect on its business or financial condition. The Company cannot give assurance, however, that an unfavorable outcome in one or more of these matters will not have a material adverse effect on its results of operations for the period in which they are resolved.

The Company is subject from time to time to various claims and lawsuits and governmental investigations arising in the ordinary course of our business. While the Company's management cannot predict the outcome of these claims with certainty, the Company's management does not believe that the outcome of any of these legal matters will have a material adverse effect on our business, consolidated results of operations or financial position.

Guaranteed Lease Obligations

In connection with certain business dispositions, the Company continues to guarantee lease obligations for 127 former stores. The respective purchasers assume the Company's obligations and are, therefore, primarily liable for these obligations. Assuming that each respective purchaser became insolvent, an event which the Company believes to be highly unlikely, management estimates that it could settle these obligations for amounts substantially less than the aggregate obligation of \$209,051 as

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In thousands, except per share amounts)

16. Commitments, Contingencies and Guarantees (Continued)

of February 26, 2011. The obligations are for varying terms dependent upon the respective lease, the longest of which lasts through February 17, 2024.

In the opinion of management, the ultimate disposition of these guarantees will not have a material effect on the Company's results of operations, financial position or cash flows.

17. Supplementary Cash Flow Data

	Year Ended					
	F	ebruary 26, 2011	F	ebruary 27, 2010	Fe	ebruary 28, 2009

18. Related Party Transactions

There were receivables from related parties of \$81 and \$84 at February 26, 2011 and February 27, 2010, respectively.

In connection with the acquisition of Jean Coutu, USA, the Company entered into a transition services agreement with the Jean Coutu Group. Under the terms of this agreement, Jean Coutu Group provided certain information technology, network and support services to the Company. The agreement expired in September 2008. The Company recorded an expense of \$894 for services provided under this agreement for the year ended February 28, 2009. As of February 26, 2011, the Jean Coutu Group owned approximately 251,975 shares (27.4% of the voting power of the Company) of common stock.

During fiscal 2011, 2010 and 2009, the Company paid Leonard Green & Partners, L.P., fees of \$314, \$222 and \$227, for financial advisory services, respectively. These amounts include expense reimbursements of \$151, \$72 and \$90 for the fiscal years 2011, 2010 and 2009, respectively. Jonathan D. Sokoloff, director, is an equity owner of Leonard Green & Partners, L.P. The Company has entered

into a month-to-month agreement with Leonard Green & Partners, L.P., as amended whereby the Company has agreed to pay Leonard Green & Partners, L.P., a monthly fee of \$12.5, paid in arrears, for its consulting services. The consulting agreement also provides for the reimbursement of out-of-pocket expenses incurred by Leonard Green & Partners, L.P.

(1)

Loss per share amounts for each quarter may not necessarily total to the yearly loss per share due to the weighting of shares outstanding on a quarterly and year-to-date basis.

During the second quarter of 2011, the Company recorded a loss on debt modification related to the repayment of its Tranche 4 Term Loan as discussed in Note 10. During the fourth quarter of fiscal 2011, the Company recorded facilities impairment charges of \$111,923 and LIFO expense of \$825 as inflation was lower than at prior year end.

During the second quarter of 2010, the Company recorded a loss on debt modification related to the repayment of its Tranche 1 Term Loan as discussed in Note 10. During the fourth quarter of fiscal 2010, the Company recorded facilities impairment charges of \$58,134 and LIFO expense of \$44,140 as inflation was lower than at prior year end.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the Years Ended February 26, 2011, February 27, 2010 and February 28, 2009

(In thousands, except per share amounts)

20. Financial Instruments

The carrying amounts and fair values of financial instruments at February 26, 2011 and February 27, 2010 are listed as follows:

	2011				20	10)		
	Carrying		Fair	Carrying			Fair		
	Amount		Value		Amount		Value		
Variable rate indebtedness	\$ 1,425,019	\$	1,386,861	\$	2,120,618	\$	1,990,963		
Fixed rate indebtedness	\$ 4.654.548	\$	4,544,974	\$	4.097.590	\$	3,632,738		

Cash, trade receivables and trade payables are carried at market value, which approximates their fair values due to the short-term maturity of these instruments.

The following methods and assumptions were used in estimating fair value disclosures for financial instruments:

LIBOR-based borrowings under credit facilities:

The carrying amounts for LIBOR-based borrowings under the credit facilities, term loans and term notes are estimated based on the quoted market price of the financial instruments.

Long-term indebtedness:

The fair values of long-term indebtedness are estimated based on the quoted market prices of the financial instruments. If quoted market prices were not available, the Company estimated the fair value based on the quoted market price of a financial instrument with similar characteristics.

21. Subsequent Events

As of February 26, 2011, the Company had a \$342,125 senior secured term loan (the "Tranche 3 Term Loan") outstanding under the Company's existing senior secured credit facility. On March 3, 2011, the Company refinanced its Tranche 3 Term Loan with a \$343,000 senior secured term loan (the "Tranche 5 Term Loan"). The Tranche 5 Term Loan matures on March 3, 2018, although the maturity shall instead be December 1, 2014 in the event that the Company does not repay or refinance the outstanding 8.625% senior notes due 2015 prior to that time, or September 16, 2015, in the event that the Company does not repay or refinance the outstanding 9.375% senior notes due 2015 prior to that time. The Tranche 5 Term Loan bears interest at a rate per annum equal to LIBOR plus 3.25% with a 1.25% LIBOR floor, and is subject to a 1% prepayment fee in the event it is refinanced within the first year after issuance with the proceeds of a substantially concurrent issuance of new loans or other indebtedness incurred for the primary purpose of repaying, refinancing or replacing the Tranche 5 Term Loan. Mandatory prepayments are required to be made from proceeds of asset dispositions and casualty events (subject to certain limitations), a portion of excess cash flows (as defined in the senior secured credit facility) and proceeds from certain issuances of equity or debt (subject to certain exceptions). If at any time there is a shortfall in the borrowing base under the senior credit facility, prepayment of the Tranche 5 Term Loan may also be required. In connection with the Tranche 3 Term Loan repayment and retirement, the Company will record a loss on debt modification of \$22.4 million

21. Subsequent Events (Continued)

during the first quarter of fiscal 2012 due to the write off of debt issue costs of \$2.7 million and unamortized original issue discount of \$19.7 million.

On March 21, 2011, the Company launched a Stock Option Exchange Program ("Program") for eligible associates only. Under the Program, eligible associates had the opportunity to surrender certain stock options for a lesser number of new stock options with a strike price that was determined based on the closing market price on April 21, 2011, the day the Program concluded. The number of new options was determined by applying exchange ratios that resulted in providing new stock options with an aggregate fair value that approximates the aggregate fair value of the options they replaced. The new options vest over two years and have a five year life with an exercise price of \$1.03. A total of 14.0 million options with an exercise price in excess of \$1.77 were cancelled and 5.3 million new options were granted with an exercise price of \$1.03. The Company expects to recognize a minimal incremental compensation expense as a result of the Program.
