NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The interim consolidated financial statements included herein, presented in accordance with United States generally accepted accounting principles and stated in U.S. dollars, have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading.

These statements reflect all adjustments, consisting of normal recurring adjustments, which in the opinion of management, are necessary for fair presentation of the information contained therein. It is suggested that these condensed interim consolidated financial statements be read in conjunction with the financial statements of the Company for the period of inception (June 19, 2012) to March 31, 2014 and notes thereto included in the Company's Annual Report on Form 10-K dated June 30, 2014. The Company follows the same accounting policies in the preparation of interim reports. Results of operations for the interim period are not indicative of annual results.

Principles of consolidation

For the period from June 19, 2012 to December 31, 2014, the consolidated financial statements include the accounts of Alkaline Water Corp. (an Arizona Corporation) and Alkaline 88 LLC (formerly Alkaline 84, LLC) (an Arizona Limited Liability Company). For the period from April 1, 2013 to December 31, 2013 the consolidated financial statements include the accounts of The Alkaline Water Company Inc. (a Nevada Corporation), Alkaline Water Corp. (an Arizona Corporation) and Alkaline 84, LLC (an Arizona Limited Liability Company).

All significant intercompany balances and transactions have been eliminated. The Alkaline Water Company Inc. (a Nevada Corporation), Alkaline Water Corp. (an Arizona Corporation) and Alkaline 88, LLC (an Arizona Limited Liability Company) will be collectively referred herein to as the Company. Any reference herein to The Alkaline Water Company Inc., the Company, we, our or us is intended to mean The Alkaline Water Company Inc., including the subsidiaries indicated above, unless otherwise indicated.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid instruments with an original maturity of three months or less to be considered cash equivalents. The carrying value of these investments approximates fair value. We had \$130,422 and \$22,465 in cash and cash equivalents at December 31, 2014 and 2013, respectively.

Accounts Receivable and Allowance for Doubtful Accounts

The Company generally does not require collateral, and the majority of its trade receivables are unsecured. The carrying amount for accounts receivable approximates fair value. Accounts receivable consisted of the following as of December 31, 2014 and March 31, 2014:

	December 31 2014	March 31 2014
Trade receivables	\$ 325,951	\$ 176,404
Less: Allowance for doubtful accounts	(4,264)	(10,000)
Net accounts receivable	\$ 321,687	\$ 166,404

Accounts receivable are periodically evaluated for collectability based on past credit history with clients. Provisions for losses on accounts receivable are determined on the basis of loss experience, known and inherent risk in the account balance and current economic conditions.

Inventory

Inventory represents packaging items, empty bottles, finished goods and other items valued at the lower of cost or market with cost determined using the weight average method which approximates first-in first-out method, and with market defined as the lower of replacement cost or realizable value. As of December 31, 2014 and March 31 2014, inventory consisted of the following:

	December 31 2014	March 31 2014
Raw materials	\$ 308,840	\$ 24,022
Finished goods	72,796	33,943
Total inventory	\$ 381,636	\$ 57,965

Property and equipment

The Company records all property and equipment at cost less accumulated depreciation. Improvements are capitalized while repairs and maintenance costs are expensed as incurred. Depreciation is calculated using the straight-line method over the estimated useful life of the assets or the lease term, whichever is shorter. Depreciation periods are as follows for the relevant fixed assets:

Equipment	5 years
Equipment under capital lease	3 years or term of the lease

Stock-based Compensation

The Company accounts for stock-based compensation to employees in accordance with Accounting Standard Codification (ASC) 718. Stock-based compensation to employees is measured at the grant date, based on the fair value of the award, and is recognized as expense over the requisite employee service period. The Company accounts for stock-based compensation to other than employees in accordance with ASC 505-50. Equity instruments issued to other than employees are valued at the earlier of a commitment date or upon completion of the services, based on the fair value of the equity instruments and is recognized as expense over the service period. The Company estimates the fair value of stock-based payments using the Black-Scholes option-pricing model for common stock options and warrants and the closing price of the Company's common stock for common share issuances.

Revenue recognition

We recognize revenue when all of the following conditions are satisfied: (1) there is persuasive evidence of an arrangement; (2) the product or service has been provided to the customer; (3) the amount to be paid by the customer is fixed or determinable; and (4) the collection of such amount is probable.

The Company records revenue when it is realizable and earned upon shipment of the finished products. We do not accept returns due to the nature of the product. However, we will provide credit to our customers for damaged goods.

Fair Value Measurements

The valuation of our embedded derivatives and warrant derivatives are determined primarily by the multinomial distribution (Lattice) model. An embedded derivative is a derivative instrument that is embedded within another contract, which under the convertible note (the host contract) includes the right to convert the note by the holder, certain default redemption right premiums and a change of control premium (payable in cash if a fundamental change occurs). In accordance with Accounting Standards Codification ("ASC") 815 Accounting for Derivative Instruments and Hedging Activities, as amended, these embedded derivatives are marked-to-market each reporting period, with a corresponding non-cash gain or loss charged to the current period. A warrant derivative liability is also determined in accordance with ASC 815. Based on ASC 815, warrants which are determined to be classified as derivative liabilities are marked-to-market each reporting period, with a corresponding non-cash gain or loss charged to the current period. The practical effect of this has been that when our stock price increases so does our derivative liability resulting in a non-cash loss charge that reduces our earnings and earnings per share. When our stock price declines, we record a non-cash gain, increasing our earnings and earnings per share. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, there exists a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.
- Level 2 Inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.
- Level 3 Unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value. To determine the fair value of our embedded derivatives, management evaluates assumptions regarding the probability of certain future events. Other factors used to determine fair value include our period end stock price, historical stock volatility, risk free interest rate and derivative term. The fair value recorded for the derivative liability varies from period to period. This variability may result in the actual derivative liability for a period either above or below the estimates recorded on our consolidated financial statements, resulting in significant fluctuations in other income (expense) because of the corresponding non-cash gain or loss recorded.

Concentration

The Company has 2 major customers that together account for 41% (24% and 17%, respectively) of accounts receivable at December 31, 2014, and 3 customers that together account for 39% (15%, 14% and 10%, respectively) of the total revenues earned for the nine-month period ended December 31, 2014.

The Company has 4 vendors that accounted for 64% (18%, 17%, 16% and 13%, respectively) of purchases for the nine-month period ended December 31, 2014.

Basic and Diluted Loss Per Share

Basic and diluted earnings or loss per share (EPS) amounts in the consolidated financial statements are computed in accordance Accounting Standard Codification (ASC) 260 10 Earnings per Share , which establishes the requirements for presenting EPS. Basic EPS is based on the weighted average number of common shares outstanding. Diluted EPS is based on the weighted average number of common shares outstanding and dilutive common stock equivalents. Basic EPS is computed by dividing net income or loss available to common stockholders (numerator) by the weighted average number of common shares outstanding (denominator) during the period. Potentially dilutive securities were excluded from the calculation of diluted loss per share, because their effect would be anti-dilutive.

Reclassification

Certain accounts in the prior period were reclassified to conform to the current period financial statements presentation.

Recent pronouncements

In June 2014, the FASB issued ASU No. 2014-10, Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements, Including an Amendment to Variable Interest Entities Guidance in Topic 810, Consolidation. The amendments in this update remove the definition of a development stage entity from the Master Glossary of the Accounting Standards Codification, thereby removing the financial reporting distinction between development stage entities and other reporting entities from GAAP. In addition, the amendments eliminate the requirements for development stage entities to (1) present inception to-date information in the statements of income, cash flows, and shareholder equity, (2) label the financial statements as those of a development stage entity, (3) disclose a description of the development stage activities in which the entity is engaged, and (4) disclose in the first year in which the entity is no longer a development stage that in prior years it had been in the development stage. The Company early adopt ASU No. 2014-10 during the second quarter of the year ended March 31, 2015.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements Going Concern (Subtopic 205-40), Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern . Continuation of a reporting entity as a going concern is presumed as the basis for preparing financial statements unless and until the entity's liquidation becomes imminent. Preparation of financial statements under this presumption is commonly referred to as the going concern basis of accounting. Currently, there is no guidance under U.S. GAAP about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern or to provide related footnote disclosures. The amendments in this Update provide that guidance. In doing so, the amendments should reduce diversity in the timing and content of footnote disclosures. The amendments require management to assess an entity's ability to continue as a going concern by incorporating and expanding upon certain principles that are currently in U.S. auditing standards. Specifically, the amendments (1) provide a definition of the term substantial doubt, (2) require an evaluation every reporting period including interim periods, (3) provide principles for considering the mitigating effect of management's plans, (4) require certain disclosures when substantial doubt is alleviated as a result of consideration of management's plans, (5) require an express statement and other disclosures when substantial doubt is not alleviated, and (6) require an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). For the period ended December 31, 2014, management evaluated the Company's ability to continue as a going concern and concluded that substantial doubt has not been alleviated about the Company's ability to continue as a going concern. While the Company continues to explore further significant sources of financing, management's assessment was based on the uncertainty related to the amount and nature of such financing over the next twelve months.

NOTE 2 GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the recoverability and/or acquisition and sale of assets and the satisfaction of liabilities in the normal course of business. Since its inception, the Company has been engaged substantially in financing activities, developing its business plan and building its initial customer and distribution base for its products. As a result, the Company incurred accumulated net losses from Inception (June 19, 2012) through the period ended December 31, 2014 of \$(9,993,480). In addition, the Company's development activities since inception have been financially sustained through debt and equity financing.

F-7

The ability of the Company to continue as a going concern is dependent upon its ability to raise additional capital from the sale of common stock and, ultimately, the achievement of significant operating revenues. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

NOTE 3 PROPERTY AND EQUIPMENT

NOTE 4 EQUIPMENT DEPOSITS RELATED PARTY

The Company paid deposits on equipment to Water Engineering Solutions, LLC, a related party, as follows: May 1, 2014 \$690,000, June 27, 2014 \$21,500, July 1, 2014 \$115,000 August 7, 2014 \$10,000, August 5, 2014 \$5,000, August 19, 2014 \$2,000, August 22, 2014 \$100,000, October 14, 2014 \$70,000, November 4, 2014 \$7,676 and November 7, 2014 \$5,002. The Company received equipment valued at \$274,769 and reduced the deposit on equipment. As of December 31, 2014, the total amount of deposits for equipment is \$188,289. The equipment is being manufactured by and under an exclusive manufacturing contract from Water Engineering Solutions, LLC, an entity that is controlled and majority owned by Steven P. Nickolas and Richard A. Wright, for the production of our alkaline water.

NOTE 5 REVOLVING FINANCING

On February 20, 2014, The Alkaline Water Company Inc., and subsidiaries, Alkaline 88, LLC and Alkaline Water Corp., entered into a revolving accounts receivable funding agreement with Gibraltar Business Capital, LLC (Gibraltar). Under the agreement, from time to time, the Company agreed to tender to Gibraltar all of our accounts (which is defined as our rights to payment whether or not earned by performance, (i) for property that has been or is to be sold, leased, licensed, assigned or otherwise disposed of, or (ii) for services rendered or to be rendered, or (iii) as otherwise defined in the Uniform Commercial Code of the State of Illinois. Gibraltar will have the right, but will not be obligated, to purchase such accounts tendered in its sole discretion. If Gibraltar purchases such accounts, Gibraltar will make cash advances to us as the purchase price for the purchased accounts.

The Company assumed full risk of non-payment and unconditionally guaranteed the full and prompt payment of the full face amount of all purchased accounts. The Company also agreed to direct all parties obligated to pay the accounts to send all payments for all accounts directly to Gibraltar. All collections from accounts will be applied to our indebtedness, which is defined as the amount owed by us to Gibraltar from time to time, i.e., all cash advances, plus all charges, plus all other amounts owing from us to Gibraltar pursuant to the agreement, less all collections retained by Gibraltar from either purchased accounts or from us which are applied to indebtedness, unless Gibraltar elects to hold any such collections to establish reserves to secure payment of any purchased accounts.

In consideration of Gibraltar's purchase of the accounts, the Company agreed to pay Gibraltar interest on the indebtedness outstanding at the rate of 8% per annum plus the prime rate in effect at the end of each month with the prime rate for these purposes never being less than 3.25% per annum, calculated on a 360-day year and payable monthly. In addition, the Company agreed to pay to Gibraltar a monthly collateral/management fee in the amount of 0.5% calculated on the average daily borrowing amount for the given month and an unused line fee of 0.25% monthly based on the difference between the actual line of credit and the average daily borrowing amount for the given month. The Company also agreed to pay to Gibraltar upon execution of the agreement and as of the commencement of each renewal term, a closing cost of 1% of the initial indebtedness in addition to the amount of any other credit accommodations granted from Gibraltar, which amount will be deducted from the first cash advances.

The initial indebtedness is \$500,000. The Company may request an increase to the initial indebtedness in \$500,000 increments up to \$5,000,000, subject the Company's financial performance and/or projections are satisfactory to Gibraltar, and absent an event of default. The Company also granted to Gibraltar a security interest in all of our presently-owned and hereafter-acquired personal and fixture property, wherever located. The agreement will continue until the first to occur of (i) demand by Gibraltar; or (ii) 24 months from the first day of the month following the date that the first purchased account is purchased and will be automatically renewed for successive periods of 12 months thereafter unless, at least 30 days prior to the end of the term, we give Gibraltar notice of our intention to terminate the agreement. In addition, we will be able to exit the agreement at any time for a fee of 2% of the line of credit in place at the time of repayment. On December 31, 2014 the amount borrowed on this facility was \$158,780.

NOTE 6 DERIVATIVE LIABILITY

On November 7, 2013, the Company sold to certain institutional investors 10% Series B Convertible Preferred Shares (Series B Preferred Stock) which are subject to mandatory redemption and include down-round provisions that reduce the exercise price of a warrant and convertible instrument. As required by ASC 815 Derivatives and Hedging , if the Company either issues equity shares for a price that is lower than the exercise price of those instruments or issues new warrants or convertible instruments that have a lower exercise price, the investors will be entitled to down-round protection. The Company evaluated whether its warrants and convertible debt instruments contain provisions that protect holders from declines in its stock price or otherwise could result in modification of either the exercise price or the shares to be issued under the respective warrant agreements. The Company determined that a portion of its outstanding warrants and conversion instruments contained such provisions thereby concluding they were not indexed to the Company's own stock and therefore a derivative instrument.

Between April 16 and April 24, 2014, the Company redeemed 247 shares of the 10% Series B Preferred Stock for \$247,171 plus accrued interest of \$46,456 and \$10,212 penalty related to the delayed registration. The effect of this redemption resulted in a reduction of \$56,098 derivative liability.

On May 1, 2014, the Company completed the offering and sale of an aggregate of 17,333,329 shares of our common stock and warrants to purchase an aggregate of 8,666,665 shares of our common stock, for aggregate gross proceeds of \$2,599,999. Each share of common stock sold in the offering was accompanied by a warrant to purchase one-half of a share of common stock at an exercise price of \$0.15 per share for a period of five years from the date of issuance. Each share of common stock, together with each warrant was sold at a price of \$0.15. The warrants include down-round provisions that reduce the exercise price of a warrant and convertible instrument. As required by ASC 815 Derivatives and Hedging , if the Company either issues equity shares for a price that is lower than the exercise price of those instruments or issues new warrants or convertible instruments that have a lower exercise price, the investors will be entitled to down-round protection. The Company evaluated whether its warrants and convertible debt instruments contain provisions that protect holders from declines in its stock price or otherwise could result in modification of either the exercise price or the shares to be issued under the respective warrant agreements. The Company determined that a portion of its outstanding warrants and conversion instruments contained such provisions thereby concluding were not indexed to the Company's own stock and therefore a derivative instrument.

On August 20, 2014, the Company entered into a warrant amendment agreement with certain holders of the Company's outstanding common stock purchase warrants whereby the Company agreed to reduce the exercise price of the Existing Warrants to \$0.10 per share in consideration for the immediate exercise of the Existing Warrants by the Holders and the Holders are to be issued new common stock purchase warrants of the Company in the form of the Existing Warrants to purchase up to a number of shares of our common stock equal to the number of Existing Warrants exercised by the Holders, provided that the exercise price of the New Warrants will be \$0.125 per share, subject to adjustment in the New Warrants. Each New Warrant has a term of five years from the date of issuance. Each share of common stock, together with each warrant was sold at a price of \$0.125. The warrants include down-round provisions that reduce the exercise price of a warrant and convertible instrument. As required by ASC 815 Derivatives and Hedging, if the Company either issues equity shares for a price that is lower than the exercise price of those instruments or issues new warrants or convertible instruments that have a lower exercise price, the investors will be entitled to down-round protection. The Company evaluated whether its warrants and convertible debt instruments contain provisions that protect holders from declines in its stock price or otherwise could result in modification of either the exercise price or the shares to be issued under the respective warrant agreements. The Company determined that a portion of its outstanding warrants and conversion instruments contained such provisions thereby concluding they were not indexed to the Company's own stock and therefore a derivative instrument. The derivative liability was increased by \$167,384 as a result of the issued warrants.

On August 21, 2014, pursuant to the Warrant Amendment Agreement, the Company issued an aggregate of 9,829,455 shares of the Company's common stock upon exercise of the Existing Warrants at an exercise price of \$0.10 per share for aggregate gross proceeds of \$982,945. An aggregate of 8,666,664 shares of our common stock issued upon exercise of the Existing Warrants. The derivative liability was reduced by \$168,273 as a result of the warrants exercised.

Pursuant to the engagement agreement dated March 12, 2014 with H.C. Wainwright & Co., LLC (Wainwright), Wainwright agreed to act as our exclusive placement agent in connection with the offering. Pursuant to the engagement agreement, the Company, we issued warrants to purchase an aggregate of 5.5% of the aggregate number of shares of our common stock sold in the offering, or 953,333, to Wainwright and its designees. These warrants have an exercise price of \$0.1875 per share and expire on April 16, 2019. The warrants include down-round provisions that reduce the exercise price of a warrant and convertible instrument. As required by ASC 815 Derivatives and Hedging, if the Company either issues equity shares for a price that is lower than the exercise price of those instruments or issues new warrants or convertible instruments that have a lower exercise price, the investors will be entitled to down-round protection. The Company evaluated whether its warrants and convertible debt instruments contain provisions that protect holders from declines in its stock price or otherwise could result in modification of either the exercise price or the shares to be issued under the respective warrant agreements. The Company determined that a portion of its outstanding warrants and conversion instruments contained such provisions thereby concluding they were not indexed to the Company's own stock and therefore a derivative instrument.

NOTE 7 PREFERRED SHARES SUBJECT TO MANDATORY REDEMPTION

Redeemable Convertible Preferred Shares

On November 7, 2013, the Company sold to certain institutional investors an aggregate of 500 shares of our 10% Series B Convertible Preferred Stock (Series B Preferred Stock) at a stated value of \$1,000 per share of Series B Preferred Stock for gross proceeds of \$500,000. Additionally the investors also received Series A, Series B and Series C common stock purchase warrants. The Series A warrants will be exercisable into 1,162,791 shares of our common stock at an exercise price of \$0.55 per share, the Series B warrants will be exercisable into 1,162,791 shares of our common stock at an exercise price of \$0.43 per share and the Series C warrants will be exercisable into 1,162,791 shares our common stock at an exercise price of \$0.55 per share. Holders of the Series B Preferred Stock will be entitled to receive cumulative dividends at the rate per share (as a percentage of the stated value per share) of 10% per annum, payable semi-annually. Each share of the Series B Preferred Stock will be convertible at the option of the holder thereof into that number of shares of common stock determined by dividing the stated value of such share of the Series B Preferred Stock by the conversion price of \$0.43, subject to later adjustment. On November 4, 2013, we also entered into a registration rights agreement with the investors pursuant to which we are obligated to file a registration statement to register the resale of the shares of common stock issuable upon conversion of the Series B Preferred Stock and upon exercise of the Warrants.

Between April 16, 2014 and April 22, 2014, the holders of our Series B Preferred Stock exercised their right to have the Company redeem their shares whereby we redeemed 247.17 shares of Series B Preferred Stock for \$303,839, which included accrued interest of \$46,456 and a penalty for late registration of \$10,212. The remaining portion of the Series B Preferred Stock, or 252.83 shares, was converted into 796,566 of our common shares at a conversion price of \$0.3174 per share.

Effective November 7, 2013, the Company issued common stock purchase warrants to the placement agent and its designees as compensation for the services provided by the placement agent in connection with our private placement of 500.00028 shares Series B Preferred Stock, which was completed on November 7, 2013. The warrants issued to the placement agent and its designees are exercisable into an aggregate of 116,279 shares of our common stock with an exercise price of \$0.55 per share and have a term of exercise of five years. The Company issued the warrants to six accredited investors and paid certain transactional costs of \$78,000. For the period ended December 31, 2014 the Company recorded \$54,288 of amortization of the debt discount and deferred financing cost.

The Series B Preferred Stock included down-round provisions that reduce the exercise price of a warrant and convertible instrument as required by ASC 815 Derivatives and Hedging . The aggregate of the derivative liability at issuance was \$955,927, which was recorded as amortization of debt discount at issuance and amortized \$360,082 cost over the redemption period.

NOTE 8 STOCKHOLDERS EQUITY

Preferred Stock

On October 7, 2013, the Company amended its articles of incorporation to create 100,000,000 shares of preferred stock by filing a Certificate of Amendment to Articles of Incorporation with the Secretary of State of Nevada. The preferred stock may be divided into and issued in series, with such designations, rights, qualifications, preferences, limitations and terms as fixed and determined by our board of directors.

Grant of Series A Preferred Stock

On October 8, 2013, the Company issued a total of 20,000,000 shares of non-convertible Series A Preferred Stock to Steven A. Nickolas and Richard A. Wright (10,000,000 shares to each), our directors and executive officers, in consideration for the past services, at a deemed value of \$0.001 per share. The company valued these shares based on the cost considering the time and average billing rate of these individuals and recorded a \$20,000 stock compensation cost for the period ended December 31, 2014.

Common Stock

We are authorized to issue 1,125,000,000 shares of \$0.001 par value common stock. On May 31, 2013, we effected a 15-for-1 forward stock split of our \$0.001 par value common stock. All shares and per share amounts have been retroactively restated to reflect such split. Prior to the acquisition of Alkaline Water Corp., we had 109,500,000 shares of common stock issued and outstanding.

Edgar Filing: ALKALINE WATER Co INC - Form 10-Q

On May 31, 2013, we issued 43,000,000 shares in exchange for a 100% interest in Alkaline Water Corp. For accounting purposes, the acquisition of Alkaline Water Corp. by The Alkaline Water Company Inc. has been recorded as a reverse acquisition of a company and recapitalization of Alkaline Water Corp. based on the factors demonstrating that Alkaline Water Corp. represents the accounting acquirer. Consequently, after the closing of this agreement we adopted the business of Alkaline Water Corp. as wholly-owned subsidiary, Alkaline 88, LLC. As part of the acquisition, the former management of the Company agreed to cancel 75,000,000 shares of common stock.

Sales of Registered Shares of Common Stock

Gibraltar will have the right, but will not be obligated, to purchase such Accounts tendered in its sole discretion. If Gibraltar purchases such Accounts, Gibraltar will make cash advances to us as the purchase price for the purchased Accounts.

We assumed full risk of non-payment and unconditionally guaranteed the full and prompt payment of the full face amount of all purchased Accounts. We also agreed to direct all parties obligated to pay the Accounts to send all payments for all Accounts directly to Gibraltar. All collections from Accounts will be applied to our Indebtedness (as defined below) unless Gibraltar elects to hold any such collections to establish reserves to secure payment of any purchased Accounts.

In consideration of Gibraltar's purchase of the Accounts, we agreed to pay Gibraltar interest on the Indebtedness (which is defined as the amount owed by us to Gibraltar from time to time, i.e., all cash advances, plus all charges, plus all other amounts owing from us to Gibraltar pursuant to the agreement, less all collections retained by Gibraltar from either purchased Accounts or from us which are applied to Indebtedness) outstanding at the rate of 8% per annum plus the prime rate in effect at the end of each month with the prime rate for these purposes never being less than 3.25% per annum, calculated on a 360-day year and payable monthly. In addition, we agreed to pay to Gibraltar a monthly collateral/management fee in the amount of 0.5% calculated on the average daily borrowing amount for the given month and an unused line fee of 0.25% monthly based on the difference between the actual line of credit and the average daily borrowing amount for the given month. We also agreed to pay to Gibraltar upon execution of the agreement and as of the commencement of each renewal term, a closing cost of 1% of the Initial Indebtedness in addition to the amount of any other credit accommodations granted from Gibraltar to us, which amount will be deducted from the first cash advances.

The Initial Indebtedness is \$500,000. We may request an increase to the Initial Indebtedness in \$500,000 increments up to \$5,000,000, subject to our financial performance and/or projections are satisfactory to Gibraltar, and absent an event of default.

We also granted to Gibraltar a security interest in all of our presently-owned and hereafter-acquired personal and fixture property, wherever located.

The agreement will continue until the first to occur of (i) demand by Gibraltar; or (ii) 24 months from the first day of the month following the date that the first purchased Account is purchased and will be automatically renewed for successive periods of 12 months thereafter unless, at least 30 days prior to the end of the term, we give Gibraltar notice of our intention to terminate the agreement. In addition, we will be able to exit the agreement at any time for a fee of 2% of the line of credit in place at the time of prepayment.

On February 20, 2014, Gibraltar made the first cash advance in the amount of \$32,645. On December 31, 2014, the amount borrowed on this facility was \$158,780.

Lease Line of Credit Financing

Effective as of October 28, 2014, we entered into a master lease agreement with Veterans Capital Fund, LLC (the **Lessor**) for the secured lease line of credit financing in an amount not to exceed \$600,000. The lease is expected to be secured by three new alkaline generating electrolysis system machines. Our wholly-owned subsidiary, Alkaline 88, LLC, and Water Engineering Solutions, LLC acted as co-lessees. Water Engineering Solutions, LLC is an entity that is controlled and owned by our President, Chief Executive Officer, director and major stockholder, Steven P. Nickolas, and our Vice-President, Secretary, Treasurer and director, Richard A. Wright.

Pursuant to the master lease agreement, the Lessor agreed to lease to us the equipment described in any equipment schedule signed by us and approved by the Lessor. It is expected that any lease under the master lease agreement will be structured for a three year lease term with fixed monthly lease rental payments based on a monthly lease rate factor of 3.4667% of the Lessor's capital cost. In addition, because the Lessor from time to time may be required to fund various deposits and/or partial funding for the equipment that will be placed under the lease line of credit, we are expected to pay a daily rental equal to 1/30th of the monthly lease rental payment pro-rated to the amount funded by the Lessor from the initial funding (deposit) to the initial term start date of the specific lease schedule associated with the equipment funded. A prepayment of any lease schedule is subject to all applicable state and federal tax law requirements and a 5% penalty will be assessed to the then remaining lease payments.

So long as no default has occurred, we have the option to (i) purchase all but not less than all of the equipment under this master lease for the then fair market value (which will not exceed 25% of the Lessor's capital costs); (ii) extend the lease term for a minimum of 12 months at the then renewal lease rate factor not to exceed the current monthly lease

rental; or (iii) return all but not less than all of the equipment at the conclusion of the lease term along with a 5% re-stocking fee.

In connection with the entering into the master lease agreement, we paid the Lessor a one-time non-refundable commitment fee of \$12,000.

Effective as of October 22, 2014, we also entered into a warrant agreement with the Lessor, pursuant to which we agreed to issue a warrant to purchase 3,600,000 shares of our common stock to the Lessor and/or its affiliates at an exercise price of \$0.125 per share for a period of five years. 900,000 shares vested on October 22, 2014 and the remaining 2,700,000 shares will vest on a pro rata basis according to any amounts the Lessor funds pursuant to any lease schedules under the master lease agreement, provided that if we draws on 90% or more of the total lease line under the master lease agreement, then all such shares will be deemed to be vested. We issued the warrant to an accredited investor. The issuance the warrant was exempt from registration pursuant to Section 4(a)(2) of the Securities Act of 1933 and Rule 506 promulgated thereunder.

Effective as of October 22, 2014, we also entered into a registration rights agreement with the Lessor, pursuant to which we gave piggyback registration right to the Lessor. Subject to certain limitations, each time that we propose to register a public offering solely of our common stock, other than pursuant to a registration statement on Form S-4 or Form S-8, we agreed to offer the Lessor the right to request inclusion of 3,600,000 shares underlying the warrant issued under the warrant agreement with the Lessor, if such shares are not eligible for sale under Rule 144 promulgated under the Securities Act of 1933, and use our best efforts to cause such shares to be registered.

Cash Requirements

We expect that our cash flows from operations will not meet our present and near-term cash needs and thus we will require additional cash resources, including the sale of equity or debt securities, to meet our planned capital expenditures and working capital requirements for the next 12 months. We estimate that our capital needs over the next 12 months will be \$1,100,000 to \$4,100,000, depending on how we can continue to expand the distribution of our products across the country. We will require additional cash resources to purchase equipment, increase the production of our products, implement our strategy to expand our sales and marketing initiatives and increase brand awareness. If our own financial resources and then current cash-flows from operations are insufficient to satisfy our capital requirements, we may seek to sell additional equity or debt securities or obtain additional credit facilities. The sale of additional equity securities will result in dilution to our stockholders. The incurrence of indebtedness will result in increased debt service obligations and could require us to agree to operating and financial covenants that could restrict our operations or modify our plans to grow the business. Financing may not be available in amounts or on terms acceptable to us, if at all. Any failure by us to raise additional funds on terms favorable to us, or at all, will limit our ability to expand our business operations and could harm our overall business prospects.

Off-Balance Sheet Arrangements

We did not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

This item is not applicable as we are currently considered a smaller reporting company.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain "disclosure controls and procedures", as that term is defined in Rule 13a-15(e), promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934. Disclosure controls and

procedures include controls and procedures designed to ensure that information required to be disclosed in our company's reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and our principal financial officer to allow timely decisions regarding required disclosure.

As required by paragraph (b) of Rules 13a-15 under the Securities Exchange Act of 1934, our management, with the participation of our principal executive officer and our principal financial officer, evaluated our company's disclosure controls and procedures as of the end of the period covered by this quarterly report on Form 10-Q. Based on this evaluation, our management concluded that as of the end of the period covered by this quarterly report on Form 10-Q, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the fiscal quarter ended December 31, 2014 that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.
