Form 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended June 30, 2015

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT of
1934

For the transition period from _____ to _____

Commission File Number: 0-19599

WORLD ACCEPTANCE CORPORATION

(Exact name of registrant as specified in its charter.)

South Carolina

57-0425114

(State or other jurisdiction of incorporation or
organization)

(I.R.S. Employer Identification Number)

108 Frederick Street

Greenville, South Carolina 29607

(Address of principal executive offices)

(Zip Code)

(864) 298-9800

(registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for shorter period than the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check One):

Large Accelerated Filer

Accelerated Filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Edgar Filing: WORLD ACCEPTANCE CORP - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes
No

The number of outstanding shares of the issuer's no par value common stock as of July 29, 2015 was 8,974,278.

WORLD ACCEPTANCE CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2015 and 2014
(Unaudited)

NOTE 1 – BASIS OF PRESENTATION

The consolidated financial statements of the Company at June 30, 2015, and for the three months ended were prepared in accordance with the instructions for Form 10-Q and are unaudited; however, in the opinion of management, all adjustments (consisting only of items of a normal recurring nature) necessary for a fair presentation of the financial position at June 30, 2015, and the results of operations and cash flows for the periods ended June 30, 2015 and 2014, have been included. The results for the interim periods are not necessarily indicative of the results that may be expected for the full year or any other interim period.

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities at the date of the consolidated financial statements and the reported amount of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The consolidated financial statements do not include all disclosures required by U.S. GAAP and should be read in conjunction with the Company’s audited consolidated financial statements and related notes for the fiscal year ended March 31, 2015, included in the Company’s 2015 Annual Report to Shareholders.

Certain prior period amounts have been reclassified to conform to current presentation. Such reclassifications had no impact on previously reported net income or shareholders' equity.

NOTE 2 – SUMMARY OF SIGNIFICANT POLICIES

Accounting Standards to be Adopted

Revenue from Contracts with Customers

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) No. 2014-09 which supersedes the revenue recognition requirements Topic 605 (Revenue Recognition), and most industry-specific guidance. ASU No. 2014-09 is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU No. 2014-09 also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. ASU No. 2014-09 is effective for fiscal years, and interim periods, beginning after December 15, 2017, with early adoption not permitted. We are currently evaluating the impact the adoption of this guidance will have on our consolidated financial statements.

Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern

In August 2014, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) 2014-15, which requires management to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern and to provide related footnote disclosures in certain circumstances. ASU 2014-15 is effective for

annual and interim periods beginning after December 15, 2016 with early adoption permitted. We do not believe the adoption of this guidance will have a material impact on our consolidated financial statements.

Simplifying the Presentation of Debt Issuance Costs

In April 2015, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2015-03, which requires an entity to present debt issuance costs on the balance sheet as a direct deduction from the related debt liability as opposed to an asset. Amortization of the costs will continue to be reported as interest expense. ASU 2015-03 is effective for annual and interim periods beginning after December 15, 2015 with early adoption permitted. We do not believe the adoption of this guidance will have a material impact on our consolidated financial statements.

Table of Contents

We reviewed all other newly issued accounting pronouncements and concluded that they are either not applicable to our business or are not expected to have a material effect on the consolidated financial statements as a result of future adoption.

NOTE 3 – FAIR VALUE

Fair Value Disclosures

The Company may carry certain financial instruments and derivative assets and liabilities at fair value on a recurring basis. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Company determines the fair values of its financial instruments based on the fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Financial assets and liabilities measured at fair value are grouped in three levels. The levels prioritize the inputs used to measure the fair value of the assets or liabilities. These levels are:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices that are observable for assets and liabilities, either directly or indirectly. These inputs include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in market that are less active.
- Level 3 – Unobservable inputs for assets or liabilities reflecting the reporting entity’s own assumptions.

The Company’s financial instruments for the periods reported consist of the following: cash and cash equivalents, loans receivable, and senior notes payable. Fair value approximates carrying value for all of these instruments. Loans receivable are originated at prevailing market rates and have an average life of approximately eight months. Given the short-term nature of these loans, they are continually repriced at current market rates. The Company’s revolving credit facility has a variable rate based on a margin over LIBOR and reprices with any changes in LIBOR.

The carrying amount and estimated fair values of the Company’s financial instruments summarized by level are as follows:

	June 30, 2015		March 31, 2015	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
ASSETS				
Level 1 inputs				
Cash and cash equivalents	\$17,210,770	\$17,210,770	\$38,338,935	\$38,338,935
Level 3 inputs				
Loans receivable, net	764,538,704	764,538,704	742,304,690	742,304,690
LIABILITIES				
Level 3 inputs				
Senior notes payable	488,950,000	488,950,000	501,150,000	501,150,000

There were no significant assets or liabilities measured at fair value on a non-recurring basis as of June 30, 2015 or March 31, 2015.

Table of Contents

NOTE 4 – ALLOWANCE FOR LOAN LOSSES

The following is a summary of the changes in the allowance for loan losses for the periods indicated:

	Three months ended June 30,	
	2015	2014
Balance at beginning of period	\$70,437,988	63,254,940
Provision for loan losses	26,228,009	30,893,266
Loan losses	(29,875,432)	(29,820,547)
Recoveries (1)	5,374,848	3,512,797
Translation adjustment	(205,444)	44,771
Balance at end of period	\$71,959,969	67,885,227

(1) Recoveries during the three months ended June 30, 2015 included \$1.8 million of recoveries resulting from the sale of previously charged-off loans.

The following is a summary of loans individually and collectively evaluated for impairment for the period indicated:

	Loans individually evaluated for impairment (impaired loans)	Loans collectively evaluated for impairment	Total
June 30, 2015			
Gross loans in bankruptcy, excluding contractually delinquent	\$4,692,823	—	4,692,823
Gross loans contractually delinquent	47,139,095	—	47,139,095
Loans not contractually delinquent and not in bankruptcy	—	1,098,836,752	1,098,836,752
Gross loan balance	51,831,918	1,098,836,752	1,150,668,670
Unearned interest, insurance and fees	(12,820,008)	(301,349,989)	(314,169,997)
Net loans	39,011,910	797,486,763	836,498,673
Allowance for loan losses	(34,518,532)	(37,441,437)	(71,959,969)
Loans, net of allowance for loan losses	\$4,493,378	760,045,326	764,538,704

	Loans individually evaluated for impairment (impaired loans)	Loans collectively evaluated for impairment	Total
March 31, 2015			
Gross loans in bankruptcy, excluding contractually delinquent	\$4,821,691	—	4,821,691
Gross loans contractually delinquent	48,262,853	—	48,262,853
Loans not contractually delinquent and not in bankruptcy	—	1,057,060,538	1,057,060,538
Gross loan balance	53,084,544	1,057,060,538	1,110,145,082
Unearned interest, insurance and fees	(13,115,117)	(284,287,287)	(297,402,404)
Net loans	39,969,427	772,773,251	812,742,678
Allowance for loan losses	(35,352,658)	(35,085,330)	(70,437,988)
Loans, net of allowance for loan losses	\$4,616,769	737,687,921	742,304,690

Table of Contents

June 30, 2014	Loans individually evaluated for impairment (impaired loans)	Loans collectively evaluated for impairment	Total
Gross loans in bankruptcy, excluding contractually delinquent	\$5,606,311	—	5,606,311
Gross loans contractually delinquent	30,213,323	—	30,213,323
Loans not contractually delinquent and not in bankruptcy	—	1,128,548,274	1,128,548,274
Gross loan balance	35,819,634	1,128,548,274	1,164,367,908
Unearned interest, insurance and fees	(7,472,523) (308,033,845) (315,506,368)
Net loans	28,347,111	820,514,429	848,861,540
Allowance for loan losses	(22,979,068) (44,906,159) (67,885,227)
Loans, net of allowance for loan losses	\$5,368,043	775,608,270	780,976,313

The average investment in impaired loans was \$52.5 million and \$32.6 million, respectively, for the periods ended June 30, 2015, and 2014. It is not practical to compute the amount of interest earned on impaired loans.

The following is an assessment of the credit quality for the period indicated:

	June 30, 2015	March 31, 2015	June 30, 2014
Credit risk			
Consumer loans- non-bankrupt accounts	\$1,145,206,726	1,104,179,016	1,158,372,205

Total gross loans	\$1,150,668,670	1,110,145,082	1,164,367,908
Consumer credit exposure			
Credit risk profile based on payment activity, performing	\$1,076,373,327	1,032,984,546	1,099,149,267
Contractual non-performing, 61 or more days delinquent ⁽¹⁾	74,295,343	77,160,536	65,218,641
Total gross loans	\$1,150,668,670	1,110,145,082	1,164,367,908
Delinquent refinance	\$24,677,336	23,957,779	23,857,699
Credit risk profile based on customer type			
New borrower	\$141,644,702	146,376,318	152,914,153
Former borrower	126,619,807	110,149,558	122,171,469
Refinance	857,726,825	829,661,427	865,424,587
Delinquent refinance	24,677,336	23,957,779	23,857,699
Total gross loans	\$1,150,668,670	1,110,145,082	1,164,367,908

(1) Loans in non-accrual status

Table of Contents

The following is a summary of the past due receivables as of:

	June 30, 2015	March 31, 2015	June 30, 2014	
Contractual basis:				
30-60 days past due	\$41,190,574	43,663,540	42,501,987	
61-90 days past due	24,566,924	26,027,649	32,171,291	
91 days or more past due	49,728,419	51,132,887	33,047,350	
Total	\$115,485,917	120,824,076	107,720,628	
Percentage of period-end gross loans receivable	10.0	% 10.9	% 9.3	%

NOTE 5 – AVERAGE SHARE INFORMATION

The following is a summary of the basic and diluted average common shares outstanding:

	Three months ended June 30, 2015	2014
Basic:		
Weighted average common shares outstanding (denominator)	8,588,647	9,548,108
Diluted:		
Weighted average common shares outstanding	8,588,647	9,548,108
Dilutive potential common shares stock options	123,313	156,555
Weighted average diluted shares outstanding (denominator)	8,711,960	9,704,663

Options to purchase 415,372 and 575,240 shares of common stock at various prices were outstanding during the three months ended June 30, 2015 and 2014 respectively, but were not included in the computation of diluted EPS because the option exercise price was anti-dilutive.

In connection with the preparation of the consolidated financial statements for the quarter ended September 30, 2014, errors in the computation and disclosure of earnings per share were identified. These errors resulted from the inclusion of restricted stock as outstanding in the basic weighted average common shares outstanding, as well as the inclusion of performance based restricted stock that had not met the necessary performance conditions as of the end of the reporting period as dilutive in the calculation of weighted average diluted shares outstanding.

Table of Contents

The Company evaluated the materiality of these errors in accordance with SEC Staff Accounting Bulletin No. 99, Materiality, SEC Staff Accounting Bulletin No. 108, Considering the Effects of Prior Year Misstatements When Quantifying Misstatements in Current Year Financial Statements, and Accounting Standards Codification 250, Accounting for Changes and Error Corrections, and concluded that these errors, individually and in the aggregate, were immaterial to all prior periods impacted. While the adjustments were immaterial, the Company has elected to revise its previously reported basic and diluted earnings per share as shown in the following table:

	Three months ended June 30, 2014	
	As Reported	As Revised
Net income (numerator)	22,555,335	22,555,335
Basic:		
Weighted average common shares outstanding (denominator)	10,001,196	9,548,108
Diluted:		
Weighted average common shares outstanding	10,001,196	9,548,108
Dilutive potential restricted stock and stock options	288,559	156,555
Weighted average common shares outstanding (denominator)	10,289,755	9,704,663
Net income per common share:		
Basic	2.26	2.36
Diluted	2.19	2.32

The corrections have no impact on the Company's consolidated balance sheets, net income, consolidated statement of comprehensive income, consolidated statements of shareholders equity, or consolidated statements of cash flows.

NOTE 6 – STOCK-BASED COMPENSATION

Stock Option Plans

The Company has a 2002 Stock Option Plan, a 2005 Stock Option Plan, a 2008 Stock Option Plan, and a 2011 Stock Option Plan for the benefit of certain directors, officers, and key employees. Under these plans, a total of 4,100,000 shares of authorized common stock have been reserved for issuance pursuant to grants approved by the Compensation and Stock Option Committee of the Board of Directors. Stock options granted under these plans have a maximum duration of 10 years, may be subject to certain vesting requirements, which are generally five years for officers, directors, and key employees, and are priced at the market value of the Company's common stock on the date of grant of the option. At June 30, 2015, there were a total of 255,388 shares available for grant under the plans.

Stock-based compensation is recognized as provided under FASB ASC Topic 718-10 and FASB ASC Topic 505-50. FASB ASC Topic 718-10 requires all share-based payments to employees, including grants of employee stock options, to be recognized as compensation expense over the requisite service period (generally the vesting period) in the consolidated financial statements based on their grant date fair values. The impact of forfeitures that may occur prior to vesting is also estimated and considered in the amount recognized. The Company has applied the Black-Scholes valuation model in determining the grant date fair value of the stock option awards. Compensation expense is recognized only for those options expected to vest, with forfeitures estimated based on historical experience and future expectations.

The weighted-average fair value at the grant date for options issued during the three months ended June 30, 2015 was \$32.05. There were no option grants during the three months ended June 30, 2014. Fair value was estimated at grant date using the weighted-average assumptions listed below:

Table of Contents

	Three months ended June 30,	
	2015	2014
Dividend Yield	—%	—%
Expected Volatility	37.64%	—%
Average risk-free rate	1.65%	—%
Expected Life	6.0 years	0.0 years

The expected stock price volatility is based on the historical volatility of the Company's stock for a period approximating the expected life. The expected life represents the period of time that options are expected to be outstanding after the grant date. The risk-free rate reflects the interest rate at grant date on zero coupon U.S. governmental bonds having a remaining life similar to the expected option term.

Option activity for the three months ended June 30, 2015 was as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Options outstanding, beginning of period	1,083,767	\$69.15		
Granted during period	2,800	82.51		
Exercised during period	(48,803)) 47.93		
Forfeited during period	(23,010)) 71.66		
Expired during period	—	—		
Options outstanding, end of period	1,014,754	\$70.15	7.22	\$3,947,612
Options exercisable, end of period	292,680	\$59.73	5.50	\$3,136,779

The aggregate intrinsic value reflected in the table above represents the total pre-tax intrinsic value (the difference between the closing stock price on June 30, 2015 and the exercise price, multiplied by the number of in-the-money options) that would have been received by option holders had all option holders exercised their options as of June 30, 2015. This amount will change as the stock's market price changes. The total intrinsic value of options exercised during the periods ended June 30, 2015 and 2014 was as follows:

	June 30, 2015	June 30, 2014
Three months ended	\$1,953,575	\$197,660

As of June 30, 2015, total unrecognized stock-based compensation expense related to non-vested stock options amounted to approximately \$16.0 million, which is expected to be recognized over a weighted-average period of approximately 3.0 years.

Restricted Stock

During Fiscal 2014 and 2013 the Company granted 8,590 and 70,800 Group A performance based restricted stock awards to certain officers. Group A awards vested on April 30, 2015 based on the Company's achievement of the following performance goals as of March 31, 2015:

EPS Target	Restricted Shares Eligible for Vesting (Percentage of Award)
\$10.29	100%
\$9.76	67%
\$9.26	33%

Below \$9.26

0%

14

Table of Contents

During Fiscal 2014 and 2013 the Company granted 56,660 and 443,700 Group B performance based restricted stock awards to certain officers. As of June 30, 2015, 347,360 remain unforfeited. Group B awards will vest as follows, if the Company achieves the following performance goals during any successive trailing four quarters during the measurement period ending on March 31, 2017:

Trailing 4 quarter EPS Target	Restricted Shares Eligible for Vesting (Percentage of Award)
\$13.00	25%
\$14.50	25%
\$16.00	25%
\$18.00	25%

Compensation expense related to restricted stock is based on the number of shares expected to vest and the fair market value of the common stock on the grant date. The Company recognized a net reduction of compensation expense of \$3.4 million for the three months ended June 30, 2015 and \$1.8 million of compensation expense for the three months ended June 30, 2014, which is included as a component of general and administrative expenses in the Company's Consolidated Statements of Operations.

As of June 30, 2015, there was approximately \$3.1 million of unrecognized compensation cost related to unvested performance based restricted stock awards, which is expected to be recognized over the next 1.5 years based on current estimates. In addition there was approximately \$8.5 million of unrecognized compensation cost related to unvested performance based restricted stock awards, which are not expected to vest based on current estimates. If these estimates change, the \$8.5 million will be expensed, accordingly, in future periods.

A summary of the status of the Company's restricted stock as of June 30, 2015, and changes during the three months ended June 30, 2015, are presented below:

	Shares	Weighted Average Fair Value at Grant Date
Outstanding at March 31, 2015	433,750	\$76.84
Granted during the period	—	—
Vested during the period	(60,390) 76.34
Forfeited during the period	(26,000) 74.08
Outstanding at June 30, 2015	347,360	\$77.14

Total share-based compensation included as a component of net income during the periods ended June 30, 2015 and 2014 was as follows:

	Three months ended June 30,	
	2015	2014
Share-based compensation related to equity classified awards:		
Share-based compensation related to stock options	1,276,961	1,892,821
Share-based compensation related to restricted stock units	(3,409,820) 1,802,816
Total share-based compensation related to equity classified awards	(2,132,859) 3,695,637

The Company no longer believes that achieving the earnings per share target of \$16.00 per share is probable during the measurement period which ends on March 31, 2017, therefore the Company released approximately \$3.4 million of compensation expense during the period ended June 30, 2015.

NOTE 7 – ACQUISITIONS

The Company evaluates each acquisition to determine if the acquired enterprise meets the definition of a business. Those acquired enterprises that meet the definition of a business are accounted for as a business combination under FASB ASC Topic 805-10 and all other acquisitions are accounted for as asset purchases. All acquisitions have been from independent third parties.

There were no acquisitions during the three months ended June 30, 2015. The following table sets forth the acquisition activity of the Company for the three months ended June 30, 2014:

	2014
Number of business combinations	—
Number of asset purchases	1
Total acquisitions	1
Purchase Price	339,963
Tangible assets:	
Net loans	277,095
Furniture, fixtures & equipment	—
	277,095
Excess of purchase prices over carrying value of net tangible assets	62,868
Customer lists	57,868
Non-compete agreements	5,000
Goodwill	—

When the acquisition results in a new branch, the Company records the transaction as a business combination, since the office acquired will continue to generate loans. The Company typically retains the existing employees and the branch location. The purchase price is allocated to the estimated fair value of the tangible assets acquired and to the estimated fair value of the identified intangible assets acquired (generally non-compete agreements and customer lists). The remainder is allocated to goodwill.

When the acquisition is of a portfolio of loans only, the Company records the transaction as an asset purchase. In an asset purchase, no goodwill is recorded. The purchase price is allocated to the estimated fair value of the tangible and intangible assets acquired.

The Company's acquisitions include tangible assets (generally loans and furniture and equipment) and intangible assets (generally non-compete agreements, customer lists, and goodwill), both of which are recorded at their fair values, which are estimated pursuant to the processes described below.

Acquired loans are valued at the net loan balance. Given the short-term nature of these loans, generally eight months, and that these loans are priced at current rates, management believes the net loan balances approximate their fair value.

Furniture and equipment are valued at the specific purchase price as agreed to by both parties at the time of acquisition, which management believes approximates their fair values.

The results of all acquisitions have been included in the Company's consolidated financial statements since the respective acquisition dates. The pro forma impact of these purchases as though they had been acquired at the beginning of the periods presented would not have a material effect on the consolidated results of operations as reported.

Table of Contents

NOTE 8 – DEBT

The Company's notes payable consist of a \$600.0 million senior revolving credit facility with borrowings of \$489.0 million outstanding on the borrowing facility and \$750,000 standby letters of credit related to workers compensation outstanding at June 30, 2015. To the extent that the letters of credit are drawn upon, the disbursement will be funded by the credit facility. There are no amounts due related to the letters of credit as of June 30, 2015 and they expire on December 31, 2015. The base credit facility will reduce from \$600.0 million to \$500.0 million on March 31, 2016 and to \$400.0 million on March 31, 2017. Subject to a borrowing base formula, the Company may borrow at the rate of LIBOR plus 4.0% with a minimum rate of 5.0%. At June 30, 2015 and March 31, 2015, the Company's effective interest rate, including the commitment fee, was 4.4% and 4.3%, respectively, and the unused amount available under the revolver at June 30, 2015 was \$110.3 million. The revolving credit facility has a commitment fee of 0.50% per annum on the unused portion of the commitment. Borrowings under the revolving credit facility mature on June 15, 2017.

Substantially all of the Company's assets, excluding the assets of the Company's Mexican subsidiaries, are pledged as collateral for borrowings under the revolving credit agreement.

NOTE 9 – INCOME TAXES

The Company is required to assess whether the earnings of our two Mexican foreign subsidiaries, Servicios World Acceptance Corporation de México, S. de R.L. de C.V. ("SWAC") and WAC de México, S.A. de C.V., SOFOM ENR ("WAC de Mexico"), will be permanently reinvested in the respective foreign jurisdiction or if previously untaxed foreign earnings of the Company will no longer be permanently reinvested and thus become taxable in the United States. If these earnings were ever repatriated to the United States, the Company would be required to accrue and pay taxes on the cumulative undistributed earnings. As of June 30, 2015, the Company has determined that approximately \$1.5 million of cumulative undistributed net earnings of SWAC and approximately \$18.9 million of cumulative undistributed net earnings of WAC de México, as well as the future net earnings and losses of both foreign subsidiaries, will be permanently reinvested.

As of June 30, 2015 and March 31, 2015, the Company had \$9.1 million and \$8.6 million, respectively, of total gross unrecognized tax benefits including interest. Approximately \$7.0 million and \$6.6 million, respectively, represent the amount of net unrecognized tax benefits that are permanent in nature and, if recognized, would affect the annual effective tax rate. At June 30, 2015, approximately \$4.6 million of gross unrecognized tax benefits are expected to be resolved during the next twelve months through the expiration of the statute of limitations and settlement with taxing authorities. The Company's continuing practice is to recognize interest and penalties related to income tax matters in income tax expense. As of June 30, 2015, the Company had \$1,074,670 accrued for gross interest, of which \$133,864 was a current period-end expense for the three months ended June 30, 2015.

The Company is subject to U.S. and Mexican income taxes as well as income taxation by various other state and local jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2011, although carry forward attributes that were generated prior to 2011 may still be adjusted upon examination by the taxing authorities if they either have been or will be used in a future period.

NOTE 10 – COMMITMENT AND CONTINGENCIES

See Part 1, Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations-Regulatory Matters-CFPB Investigation," for information regarding the Company's previously disclosed receipt of a Civil Investigative Demand ("CID") from the Consumer Financial Protection Bureau ("CFPB") on March 12,

2014 and the Company's response thereto.

As previously disclosed, on April 22, 2014, a shareholder filed a putative class action complaint, Edna Selan Epstein v. World Acceptance Corporation et al., in the United States District Court for the District of South Carolina (case number 6:14-cv-01606), against the Company and certain of its current and former officers on behalf of all persons who purchased or otherwise acquired the Company's common stock between April 25, 2013 and March 12, 2014. The complaint alleges that the Company made false and misleading statements in various SEC reports and other public statements in violation of federal securities laws preceding the Company's disclosure in a Form 8-K filed March 13, 2014 that it had received above-referenced CID from the CFPB. The original complaint seeks class certification, unspecified monetary damages, costs and attorneys' fees. The lead plaintiff's amended complaint contains similar allegations to the original complaint, but expands the class period and includes additional allegations that the Company's loan growth and volume figures were inflated because of a weakness in the Company's internal controls relating to its accounting treatment of certain small-dollar loan re-financings. The Company and the individual defendants subsequently moved to dismiss the amended complaint. On May 18, 2015, the Court issued an order denying the Company's motion to dismiss. On May 28, 2015, the Company filed a motion asking the Court to certify its May 18, 2015 order for immediate appeal to the United States Court of Appeals for the Fourth Circuit, pursuant to 28 U.S.C. Section 1292(b), and to stay proceedings pending the resolution of that appeal, on grounds that the Court's decision involves a controlling question of law over which there is substantial ground for difference of opinion and an immediate appeal may materially advance the ultimate termination of the litigation. This motion is still pending before the Court. On July 1, 2015, the Company filed an answer to the amended complaint, denying all liability.

In addition, from time to time the Company is involved in routine litigation matters relating to claims arising out of its operations in the normal course of business, including matters in which damages in various amounts are claimed.

Estimating an amount or range of possible losses resulting from litigation, government actions and other legal proceedings is inherently difficult and requires an extensive degree of judgment, particularly where the matters involve indeterminate claims for monetary damages, may involve fines, penalties or damages that are discretionary in amount, involve a large number of claimants or significant discretion by regulatory authorities, represent a change in regulatory policy or interpretation, present novel legal

Table of Contents

theories, are in the early stages of the proceedings, are subject to appeal or could result in a change in business practices. In addition, because most legal proceedings are resolved over extended periods of time, potential losses are subject to change due to, among other things, new developments, changes in legal strategy, the outcome of intermediate procedural and substantive rulings and other parties' settlement posture and their evaluation of the strength or weakness of their case against us. For these reasons, we are currently unable to predict the ultimate timing or outcome of, or reasonably estimate the possible losses or a range of possible losses resulting from, the matters described above. Based on information currently available, the Company does not believe that any reasonably possible losses arising from currently pending legal matters will be material to the Company's results of operations or financial condition. However, in light of the inherent uncertainties involved in such matters, an adverse outcome in one or more of these matters could materially and adversely affect the Company's financial condition, results of operations or cash flows in any particular reporting period.

NOTE 11 – SUBSEQUENT EVENTS

On July 15, 2015, an alleged shareholder filed, purportedly on behalf of the Company, a derivative complaint against the Company, certain of our current and former executive officers and our directors in the United States District Court for the District of South Carolina, captioned Irwin J. Lipton, derivatively on behalf of World Acceptance Corporation v. A. Alexander McLean, III, John L. Calmes, Jr., Mark C. Roland, James R. Gilreath, Charles D. Way, Ken R. Bramlett, Jr., Scott J. Vassalluzzo and Darrell E. Whitaker and World Acceptance Corporation (case number 6:15-cv-02796). The complaint alleges, among other things, breaches of fiduciary duties, unjust enrichment, waste of corporate assets, and misappropriation of information. The factual allegations underlying these claims are similar to the factual allegations described above in the Epstein case. The complaint seeks unspecified damages and restitution for the Company from the individual defendants, the payment of costs and attorney's fees, and that the Company be directed to reform certain governance and internal control practices.

WORLD ACCEPTANCE CORPORATION
AND SUBSIDIARIES
PART 1. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

The following table sets forth certain information derived from the Company's consolidated statements of operations and balance sheets, as well as operating data and ratios, for the periods indicated (unaudited):

	Three months ended June 30,		
	2015	2014	
	(Dollars in thousands)		
Average gross loans receivable ¹	\$1,127,524	1,135,815	
Average net loans receivable ²	822,270	829,116	
Expenses as a % of total revenue:			
Provision for loan losses	19.1	%	21.2 %
General and administrative	49.2	%	50.2 %
Total interest expense	4.0	%	3.8 %
Operating income ³	31.6	%	28.6 %
Return on average assets (trailing 12 months)	12.6	%	12.1 %
Offices opened or acquired, net	11	—	
Total offices (at period end)	1,331	1,271	

(1) Average gross loans receivable have been determined by averaging month-end gross loans receivable over the indicated period.

(2) Average net loans receivable have been determined by averaging month-end gross loans receivable less unearned interest and deferred fees over the indicated period.

(3) Operating income is computed as total revenues less provision for loan losses and general and administrative expenses as a percentage of total revenues.

Comparison of three months ended June 30, 2015 Versus three months ended June 30, 2014

Net income increased by \$1.1 million for the three months ended June 30, 2015, or 4.8%, from the three month period ended June 30, 2014. Operating income (revenue less provision for loan losses and general and administrative expenses) increased approximately \$1.7 million, or 4.1%, interest expense decreased by approximately \$0.1 million, or 1.7%, and income tax expense increased by \$0.7 million, or 5.4%.

Total revenue decreased \$8.7 million, or 6.0%, to \$137.2 million during the quarter ended June 30, 2015 from \$145.9 million for the corresponding quarter of the previous year. Revenue from the 1,248 offices open throughout both quarterly periods decreased by approximately 6.5%.

Table of Contents

Interest and fee income for the quarter ended June 30, 2015 decreased by \$7.2 million, or 5.5%, over the same period of the prior year. The interest and fees recognized on our average net loans receivable were negatively impacted during the quarter by an increase in loans 60 days or more past due. We experienced a 3.0% decrease in our average net loans receivable less loans that are 60 days or more contractually past due when comparing two corresponding periods for our US and traditional Mexican loans. The accrual of interest is discontinued when a loan becomes 60 days or more past the contractual due date and all unpaid accrued interest is reversed against interest income. Interest and fee income for the quarter were also negatively impacted by a continued decrease in volumes. Revenues from our Mexican operations were negatively impacted by a move in the exchange rate quarter over quarter. The move in the exchange rate had a negative impact of approximately \$2.0 million on the current quarter's revenue compared to the prior year.

Insurance commissions and other income decreased by approximately \$1.5 million, or 9.5%, between the two quarterly periods. Insurance commissions decreased by approximately \$0.8 million, or 6.5%, during the three months when compared to the same period in the prior year. Insurance commissions were impacted by a decrease in large loan volume during the quarter. Other income decreased by approximately \$0.7 million, or 18.0%. This decrease resulted primarily from a decrease in World Class Buying Club ("WCBC") sales revenue of \$720,000 and a decrease in the sales of motor club of \$350,000. These decreases were partially offset by an increase in Paradata revenue of \$410,000.

The provision for loan losses during the three months ended June 30, 2015 decreased by \$4.7 million, or 15.1%. This decrease is primarily due to a smaller increase in accounts that are fully reserved from March 31, 2015 to June 30, 2015 compared to the same period in the prior year. The Company also experienced lower net charge-offs for the three months ended June 30, 2015 compared to the same period in the prior year. The Company recorded two monthly sales of accounts previously charged-off totaling approximately \$1.8 million as recoveries during the current quarter. The buyer has been in contact with us and informed us recently that their early performance has not matched their projections. We are in the process of better understanding their collections strategy and results. This will likely have an impact on the timing of future payments from the buyer and could potentially impact the amounts received.

Accounts that were 60 days or more past due were 4.4% and 3.6% on a recency basis, and were 6.5% and 5.6% on a contractual basis at June 30, 2015 and June 30, 2014. We believe the increase in delinquent accounts is primarily due to a change in branch level incentives implemented in the second quarter of fiscal 2015. The accounts delinquent 60 days or more on a recency basis as of March 31, 2015 were also 4.4%. Net charge-offs as a percentage of average net loans decreased from 12.7% to 11.9% (annualized) when comparing the two quarter end periods. As mentioned above, the charge-off ratio benefited from two monthly sales of accounts previously charged-off. Net charge-offs as a percentage of average net loans on an annualized basis would have been 12.8% for the quarter without the benefit of the charge-off sales. When excluding the impact of payroll deduct loans in Mexico, the accounts 60 days or more past due were 4.2% on a recency basis and 5.8% on a contractual basis.

General and administrative expenses for the quarter ended June 30, 2015 decreased by \$5.8 million, or 7.9% over the same quarter of fiscal 2014. General and administrative expenses were impacted in the current quarter due to the release of expense previously accrued under the Group B performance based restricted stock awards. The Company no longer believes that achieving the earnings per share target of \$16.00 per share is probable during the measurement period which ends on March 31, 2017. The release resulted in a decrease in personnel expense of approximately \$3.4 million. G&A also decreased approximately \$1.2 million due to the reversal of long-term equity incentive accruals resulting from the resignation of a Senior Vice President during the quarter. This was partially offset by the accrual of approximately \$400,000 of severance-related expenses. The Company also reversed approximately \$1.0 million for certain long-term equity incentive accruals related to the planned retirement of the CEO on September 30, 2015. The Company also recorded an additional \$1.2 million of expense related to the previously announced bond offering. Overall, general and administrative expenses, when divided by average open offices, decreased by approximately 11.6% when comparing the two periods. The total general and administrative expense as a percent of total revenue

was 49.2% for the three months ended June 30, 2015 and was 50.2% for the three months ended June 30, 2014.

Interest expense decreased by approximately \$0.1 million when comparing the two corresponding quarterly periods as a result of a 6.6% decrease in the average debt balance. The effective interest rate was 4.4% and 4.3% for the quarters ended June 30, 2015 and June 30, 2014.

The Company's effective income tax rate remained relatively stable at 37.7% for the quarter ended June 30, 2015 compared to 37.6% for the prior year quarter.

Table of Contents

Regulatory Matters

CFPB Investigation

As previously disclosed, on March 12, 2014, the Company received a Civil Investigative Demand (“CID”) from the Consumer Financial Protection Bureau (the “CFPB”). The stated purpose of the CID is to determine whether the Company has been or is “engaging in unlawful acts or practices in connection with the marketing, offering, or extension of credit in violation of Sections 1031 and 1036 of the Consumer Financial Protection Act, 12 U.S.C. §§ 5531, 5536, the Truth in Lending Act, 15 U.S.C. §§ 1601, et seq., Regulation Z, 12 C.F.R. pt. 1026, or any other Federal consumer financial law” and “also to determine whether Bureau action to obtain legal or equitable relief would be in the public interest.” The Company responded, within the deadlines specified in the CID, to broad requests for production of documents, answers to interrogatories and written reports related to loans made by the Company and numerous other aspects of the Company’s business. Subsequent to the March 2014 CID, the Company has received and responded to, and is actively in the process of responding to, additional broad requests and demands for information from the CFPB and expects that there will continue to be additional requests or demands for information from the CFPB and ongoing interactions between the CFPB, the Company and Company counsel as part of the investigation. We are currently unable to predict the ultimate timing or outcome of the CFPB investigation. While the Company believes its marketing and lending practices are lawful, there can be no assurance that the CFPB’s ongoing investigation or future exercise of its enforcement, regulatory, discretionary or other powers will not result in findings or alleged violations of federal consumer financial protection laws that could lead to enforcement actions, proceedings or litigation and the imposition of damages, fines, penalties, restitution, other monetary liabilities, sanctions, settlements or changes to the Company’s business practices or operations that could have a material adverse effect on the Company’s business, financial condition or results of operations or eliminate altogether the Company’s ability to operate its business profitably or on terms substantially similar to those on which it currently operates. See Part I, Item 1, “Business- Government Regulation-Federal legislation” and Part I, Item 1A, “Risk Factors” in the Company’s Form 10-K for the year ended March 31, 2015 for a further discussion of these matters and federal regulations to which the Company’s operations are subject.

CFPB Proposed Rulemaking Initiative.

On March 26, 2015, the CFPB announced that it was considering proposing rules under its unfair, deceptive and abusive acts and practices rulemaking authority relating to payday, vehicle title, and similar loans. The proposal would cover short-term loans with a contractual term of 45 days or less, as well as “longer-term loans” with a term of longer than 45 days with an all-in annualized percentage rate of interest (“APR”) in excess of 36% in which the lender has either a non-purchase money security interest in the consumer’s vehicle or the right to collect repayment from the consumer’s bank account or paycheck. We believe the CFPB’s “longer-term” credit proposals seek to address a concern that consumers suffer harm if lenders fail to underwrite loans but take a security interest in the consumer’s vehicle or access to repayment from a consumer’s account or wages. Although the Company does not make loans with terms of 45 days or less or obtain access to a customer’s bank account or paycheck for repayment of any of its loans, it does make some vehicle-secured loans with an APR within the scope of the proposal. The proposals would require a lender, as a condition of making a covered longer-term loan, to first make a good-faith reasonable determination that the consumer has the ability to repay the covered longer-term loan without reborrowing or defaulting. The proposals would require lenders to verify income, “major financial obligations” and borrowing history. Lenders would also be required determine that a consumer is able to make all projected payments under the covered longer-term loan as those payments are due, while still fulfilling other major financial obligations and meeting living expenses. This ability to repay assessment would apply to both the initial longer-term loan and to any subsequent refinancing. In addition, the proposals would include a rebuttable presumption that customers seeking to refinance a covered longer-term loan lack an “ability to repay” if at the time of refinancing the borrower: (i) was delinquent or had recently been delinquent on an outstanding loan; (ii) stated or indicated an inability to make a scheduled payment or that the loan was causing

financial distress; (iii) is allowed to skip a payment or pays a smaller amount than a payment that would have been due on the loan, unless the refinancing provides a substantial amount of cash to the consumer; or (iv) is in default on the outstanding loan. To overcome this presumption of inability to repay, the lender would have to verify a change in the borrower's circumstances to indicate an ability to repay the additional extension of credit. These proposals are subject to several procedural requirements and to possible change before any final rules would be issued and implemented and we cannot predict what the ultimate rulemaking will provide. The Company does not believe that these proposals as currently described by the CFPB would have a material impact on the Company's existing lending procedures, because the Company currently underwrites all its loans (including those secured by a vehicle title that would fall within the scope of these proposals) by reviewing the customer's ability to repay based on the Company's standards. However, there can be no assurance that these proposals for longer-term loans, if and when implemented in final rulemaking, would not require changes to the Company's practices and procedures for such loans that could materially and adversely affect the Company's ability to make such loans, the cost of making such loans, the Company's ability to, or frequency with which it could, refinance any such loans, and the profitability of such loans. Any final rulemaking also could have effects beyond those contemplated in the initial proposal that could further materially and adversely impact our business and operations.

Table of Contents

As part of the CFPB's outline of the proposed rulemaking initiative described above, the CFPB also stated that it expects to conduct separate rulemaking to identify larger participants in the installment lending market for purposes of its supervision program. Though the timing of any such rulemaking is uncertain, the Company believes that the implementation of such rules would likely bring the Company's business under the CFPB's supervisory authority which, among other things, would subject the Company to reporting obligations to, and on-site compliance examinations by, the CFPB. See Part I, Item 1, "Business- Government Regulation-Federal legislation" and Part I, Item 1A, "Risk Factors" in the Company's Form 10-K for the year ended March 31, 2015 for a further discussion of these matters and federal regulations to which the Company's operations are subject.

New Mexico Rate Cap Bills

On February 4, 2015, Members of the New Mexico House Regulatory and Public Affairs subcommittee tabled measures that would have led to the introduction of House Bill 36 and House Bill 24, which were to propose a 36% rate cap on all financial lending products. The Company, through its state and federal trade associations, is working in opposition to this pending legislation; however, it is uncertain whether these efforts will be successful in preventing the passage of the legislation. The Company's operations are subject to extensive state and federal laws and regulations, and changes in those laws or regulations or their application could have a material adverse effect on the Company's business, results of operations, prospects or ability to continue operations in the jurisdictions affected by these changes. See Part I, Item 1, "Description of Business-Government Regulation" and Part I, Item 1A, "Risk Factors" in the Company's report on Form 10-K for the fiscal year ended March 31, 2015 for more information regarding these regulations and related risks.

Military Lending Act Regulations

On July 22, 2015 the Department of Defense (the "DoD") amended its regulations implementing the Military Lending Act (the "MLA") by issuing final regulations (the "Final Rule.") Prior MLA regulations prohibited creditors from making payday loans, non-purchase money motor vehicle title loans with a term of less than 181 days, and refund anticipation loans to "covered borrowers" (which includes members of the armed forces (i) on active duty; (ii) on active Guard and Reserve Duty; and (iii) their dependents) if the annual percentage rate of interest ("APR") exceeded 36%. The Company did not make any of the loans covered under the prior MLA regulations. However, the Final Rule expands the MLA and its 36% APR cap to cover a broader range of credit products. The Final Rule covers credit offered or extended to a "covered borrower" primarily for personal, family, or household purposes that is either subject to a finance charge or payable by a written agreement in more than four installments. The Final Rule mandates, among other things, that a creditor must provide both oral and written disclosures, including an all-inclusive APR referred to as the Military Annual Percentage Rate ("MAPR"), and must not require arbitration in agreements with "covered borrowers". Creditors may elect to check a borrower's status as a "covered borrower" either in a database maintained by the DoD or through a nationwide consumer reporting agency before entering into a consumer credit transaction. Doing so provides a creditor with a legally conclusive determination as to the borrower's status and affords the creditor a safe harbor from liability as to the "covered borrower" determination. While the Final Rule becomes effective on October 1, 2015, the limitations in the Final Rule apply only to consumer credit transactions or accounts for consumer credit consummated or established on or after October 3, 2016. The Company believes the implementation of the Final Rule may adversely affect its operations, in that it may (i) require the Company to modify the consumer disclosures, and possibly the terms and conditions of its loan products offered to covered borrowers, and (ii) prevent the Company from offering some of its loan products to covered borrowers. Additionally, the Final Rule may adversely affect the cost and efficiency of processing loans, due to performing confirming database checks during the application phase, including refinancings, on a much greater number of loans, in order to effectively protect the Company from litigation related to "covered borrower" status determinations. These or other consequences of Final Rule could materially and adversely affect the Company's business, results of operations, and financial condition.

Critical Accounting Policies

The Company's accounting and reporting policies are in accordance with U. S. GAAP and conform to general practices within the finance company industry. Certain accounting policies involve significant judgment by the Company's management, including the use of estimates and assumptions which affect the reported amounts of assets, liabilities, revenue, and expenses. As a result, changes in these estimates and assumptions could significantly affect the Company's financial position and results of operations. The Company considers its policies regarding the allowance for loan losses, share-based compensation and income taxes to be its most critical accounting policies due to the significant degree of management judgment involved.

Table of Contents

Allowance for Loan Losses

The Company has developed process and procedures for assessing the adequacy of the allowance for loan losses that take into consideration various assumptions and estimates with respect to the loan portfolio. The Company's assumptions and estimates may be affected in the future by changes in economic conditions, among other factors. Additional information concerning the allowance for loan losses is discussed under Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Credit Quality" in the Company's report on Form 10-K for the fiscal year ended March 31, 2015.

Share-Based Compensation

The Company measures compensation cost for share-based awards at fair value and recognizes compensation over the service period for awards expected to vest. The fair value of restricted stock is based on the number of shares granted and the quoted price of the Company's common stock, and the fair value of stock options is determined using the Black-Scholes valuation model. The Black-Scholes model requires the input of highly subjective assumptions, including expected volatility, risk-free interest rate and expected life, changes to which can materially affect the fair value estimate. In addition, the estimation of share-based awards that will ultimately vest requires judgment, and to the extent actual results or updated estimates differ from the Company's current estimates, such amounts will be recorded as a cumulative adjustment in the period estimates are revised. The Company considers many factors when estimating expected forfeitures, including types of awards and historical experience. Actual results, and future changes in estimates, may differ substantially from the Company's current estimates.

Income Taxes

Management uses certain assumptions and estimates in determining income taxes payable or refundable, deferred income tax liabilities and assets for events recognized differently in its financial statements and income tax returns, and income tax expense. Determining these amounts requires analysis of certain transactions and interpretation of tax laws and regulations. Management exercises considerable judgment in evaluating the amount and timing of recognition of the resulting income tax liabilities and assets. These judgments and estimates are re-evaluated on a periodic basis as regulatory and business factors change.

No assurance can be given that either the tax returns submitted by management or the income tax reported on the Consolidated Financial Statements will not be adjusted by either adverse rulings by the U.S. Tax Court, changes in the tax code, or assessments made by the Internal Revenue Service ("IRS"), state, or foreign taxing authorities. The Company is subject to potential adverse adjustments, including but not limited to: an increase in the statutory federal or state income tax rates, the permanent non-deductibility of amounts currently considered deductible either now or in future periods, and the dependency on the generation of future taxable income, including capital gains, in order to ultimately realize deferred income tax assets.

Under FASB ASC Topic 740, the Company will include the current and deferred tax impact of its tax positions in the financial statements when it is more likely than not (likelihood of greater than 50%) that such positions will be sustained by taxing authorities, with full knowledge of relevant information, based on the technical merits of the tax position. While the Company supports its tax positions by unambiguous tax law, prior experience with the taxing authority, and analysis of what it considers to be all relevant facts, circumstances and regulations, management must still rely on assumptions and estimates to determine the overall likelihood of success and proper quantification of a given tax position.

Liquidity and Capital Resources

The Company has financed and continues to finance its operations, acquisitions and office expansion through a combination of cash flows from operations and borrowings from its institutional lenders. The Company has generally applied its cash flows from operations to fund its loan volume, fund acquisitions, repay long-term indebtedness, and repurchase its common stock. As the Company's gross loans receivable increased from \$972.7 million at March 31, 2012 to \$1.1 billion at March 31, 2015, net cash provided by operating activities for fiscal years 2015, 2014 and 2013 was \$241.9 million, \$246.0 million and \$232.0 million, respectively.

The Company continues to believe stock repurchases to be a viable component of the Company's long-term financial strategy and an excellent use of excess cash when the opportunity arises. However, our amended credit facility now requires the Company to obtain prior written consent from our lenders holding at least 66-2/3% of the aggregate commitments before repurchasing additional shares and reduces the overall commitment to \$400 million over the next two years. As of July 29, 2015, the Company had \$8.1 million in aggregate board-approved outstanding stock repurchase authorizations.

Table of Contents

The Company plans to open or acquire at least 30 branches in the United States and 10 branches in Mexico during fiscal 2016. Expenditures by the Company to open and furnish new offices averaged approximately \$25,000 per office during fiscal 2015. New offices have also required from \$100,000 to \$400,000 to fund outstanding loans receivable originated during their first 12 months of operation.

The Company did not complete any acquisitions during the first three months of fiscal 2016. The Company believes that attractive opportunities to acquire new offices or receivables from its competitors or to acquire offices in communities not currently served by the Company will continue to become available as conditions in local economies and the financial circumstances of owners change.

The Company currently has a \$600.0 million revolving credit facility with a syndicate of banks. The revolving credit facility provides for revolving borrowings of up to the lesser of (1) the aggregate commitments under the facility and (2) a borrowing base, and includes a \$1.5 million letter of credit subfacility. The credit facility was amended in June of 2015 to extend its term through June 15, 2017. As amended, the current aggregate commitments will reduce from \$600 million to \$500 million on March 31, 2016 and from \$500 million to \$400 million on March 31, 2017. The borrowing base limitation is equal to the product of (a) the Company's eligible finance receivables, less unearned finance charges, insurance premiums and insurance commissions, and (b) an advance rate percentage that ranges from 79% to 85% based on a collateral performance indicator, as more completely described below. Further, the administrative agent under the revolving credit facility has the right at any time, and from time to time, in its permitted discretion (but without any obligation), to set aside reasonable reserves against the borrowing base in such amounts as it may deem appropriate, including, without limitation, reserves with respect to regulatory events or any increased operational, legal or regulatory risk.

Funds borrowed under the revolving credit facility bear interest at the LIBOR rate plus 4.0% per annum, with a minimum rate of 5.0% interest rate. During the three months ended June 30, 2015, the effective interest rate, including the commitment fee, on borrowings under the revolving credit facility was 4.4%. The Company pays a commitment fee equal to 0.50% per annum of the daily unused portion of the commitments. On June 30, 2015, \$489.0 million was outstanding under this facility, and there was \$110.3 million of unused borrowing availability under the borrowing base limitations.

The Company's obligations under the revolving credit facility, together with treasury management and hedging obligations owing to any lender under the revolving credit facility or any affiliate of any such lender, are required to be guaranteed by each of the Company's wholly-owned domestic subsidiaries. The obligations of the Company and the subsidiary guarantors under the revolving credit facility, together with such treasury management and hedging obligations, are secured by a first-priority security interest in substantially all assets of the Company and the subsidiary guarantors (including, without limitation, accounts receivable, equipment, inventory and other goods, intellectual property, contract rights and other general intangibles, cash, deposit accounts, equity interests in subsidiaries and joint ventures, investment property, documents and instruments, and proceeds of the foregoing), but excluding interests in real property.

The agreement governing the Company's revolving credit facility contains affirmative and negative covenants, including covenants that restrict the ability of the Company and its subsidiaries to, among other things, incur or guarantee indebtedness, incur liens, pay dividends and repurchase or redeem capital stock, dispose of assets, engage in mergers and consolidations, make acquisitions or other investments, redeem or prepay subordinated debt, amend subordinated debt documents, make changes in the nature of its business, and engage in transactions with affiliates. The agreement also contains financial covenants, including a minimum consolidated net worth of \$265.0 million, a minimum fixed charge coverage ratio of 2.5 to 1.0, a maximum ratio of total debt to consolidated adjusted net worth of 2.75 to 1.0, and a maximum ratio of subordinated debt to consolidated adjusted net worth of 1.0 to 1.0. The agreement allows the Company to incur subordinated debt that matures after the termination date for the revolving

credit facility and that contains specified subordination terms, subject to limitations on amount imposed by the financial covenants under the agreement. In addition, the agreement establishes a maximum specified level for the collateral performance indicator. The collateral performance indicator is equal to the sum of (1) a three-month rolling average rate of receivables at least sixty days past due and (2) an eight-month rolling average net charge-off rate. The Company was in compliance with these covenants at June 30, 2015 and does not believe that these covenants will materially limit its business and expansion strategy.

The agreement contains events of default including, without limitation, nonpayment of principal, interest or other obligations, violation of covenants, misrepresentation, cross-default to other debt, bankruptcy and other insolvency events, judgments, certain ERISA events, actual or asserted invalidity of loan documentation, invalidity of subordination provisions of subordinated debt, certain changes of control of the Company, and the occurrence of certain regulatory events (including the entry of any stay, order, judgment, ruling or similar event related to the Company's or any of its subsidiaries' originating, holding, pledging, collecting or enforcing its eligible finance receivables that is material to the Company or any subsidiary) which remains unvacated, undischarged, unbonded or unstayed by appeal or otherwise for a period of 60 days from the date of its entry and is reasonably likely to cause a material adverse change.

Table of Contents

The Company believes that cash flow from operations and borrowings under its revolving credit facility or other sources will be adequate to fund the expected cost of opening or acquiring new offices, including funding initial operating losses of new offices and funding loans receivable originated by those offices and the Company's other offices (for the next 12 months and for the foreseeable future beyond that). Except as otherwise discussed in this report and in the Company's Form 10-K for the year ended March 31, 2015, including, but not limited to, any discussions in Part 1, Item 1A, "Risk Factors" (as supplemented by any subsequent disclosures in information the Company files with or furnishes to the SEC from time to time, management is not currently aware of any trends, demands, commitments, events or uncertainties that it believes will or could result in, or are or could be reasonably likely to result in, any material adverse effect on the Company's liquidity. From time to time, the Company has needed and obtained, and expects that it will continue to need on a periodic basis, an increase in the borrowing limits under its revolving credit facility or additional sources of financing. The Company has successfully obtained such additional capacity in the past and anticipates that it will be able to do so in the future as the need arises; however, there can be no assurance that additional funding will be available (or available on reasonable terms) if and when needed.

Share Repurchase Program

The Company's historical long-term profitability has demonstrated over many years our ability to grow our loan portfolio (the Company's only earning asset) and generate excess cash flow. We have and intend to continue to use our cash flow and excess capital to repurchase shares, assuming we are able to obtain the required consent of our lenders and that the repurchased shares are accretive to earnings per share, which should provide better returns for shareholders in the future. We prefer share repurchases to dividends for several reasons. First, repurchasing shares should increase the value of the remaining shares. Second, repurchasing shares as opposed to dividends provides shareholders the option to defer taxes by electing to not sell any of their holdings. Finally, repurchasing shares provides shareholders with maximum flexibility to increase, maintain or decrease their ownership depending on their view of the value of the Company's shares, whereas a dividend does not provide this flexibility.

Since 1996, the Company has repurchased approximately 18.1 million shares for an aggregate purchase price of approximately \$849.2 million. As of June 30, 2015 our debt outstanding was \$489.0 million and our shareholders' equity was \$336.3 million, resulting in a debt-to-equity ratio of 1.5:1. Our first priority is to ensure we have enough capital to fund loan growth. To the extent we have excess capital and our lenders under the revolving credit facility provide consent, we intend to continue repurchasing stock, as authorized by our Board of Directors, which is consistent with our past practice. We will continue to monitor our debt-to-equity ratio and are committed to maintaining a debt level that will allow us to continue to execute our business objectives, while not putting undue stress on our consolidated balance sheet.

Historically, management has filed a Form 8-K with the SEC to announce any new authorization the Board of Directors has given regarding stock repurchases. Management plans to continue to make filings with the SEC or otherwise publicly announce future stock repurchase authorizations. When we have Board authorization to repurchase shares, we have historically repurchased shares in the open market and in accordance with applicable regulations regarding company repurchase programs and our own self-imposed trading policies. As mentioned above, when we have excess capital and the market price of our stock is trading at a level that is accretive to earnings per share, and if our lenders consent, we anticipate that we will continue to repurchase shares.

Inflation

The Company does not believe that inflation, within reasonably anticipated rates, will have a material adverse effect on its financial condition. Although inflation would increase the Company's operating costs in absolute terms, the Company expects that the same decrease in the value of money would result in an increase in the size of loans demanded by its customer base. It is reasonable to anticipate that such a change in customer preference would result in an increase in total loans receivable and an increase in absolute revenue to be generated from that larger amount of

loans receivable. That increase in absolute revenue should offset any increase in operating costs. In addition, because the Company's loans have a relatively short contractual term, it is unlikely that loans made at any given point in time will be repaid with significantly inflated dollars.

Quarterly Information and Seasonality

The Company's loan volume and corresponding loans receivable follow seasonal trends. The Company's highest loan demand occurs each year from October through December, its third fiscal quarter. Loan demand is generally the lowest and loan repayment is highest from January to March, its fourth fiscal quarter. Loan volume and average balances remain relatively level during the remainder of the year. This seasonal trend causes fluctuations in the Company's cash needs and quarterly operating performance through corresponding fluctuations in interest and fee income and insurance commissions earned. Consequently, operating results for the Company's third fiscal quarter are generally significantly lower than in other quarters and operating results for its fourth fiscal quarter are generally higher than in other quarters.

Forward-Looking Information

This report on Form 10-Q, including “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” contains various “forward-looking statements,” within the meaning of Private Securities Litigation Reform Act of 1995, that are based on management’s belief and assumptions, as well as information currently available to management. Statements other than those of historical fact, as well as those identified by the words “anticipate,” “estimate,” “intend,” “plan,” “expect,” “believe,” “may,” “will,” “should,” “would,” “could,” and any variation of the foregoing similar expressions are forward-looking statements. Although the Company believes that the expectations reflected in any such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to be correct. Any such statements are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, the Company’s actual financial results, performance or financial condition may vary materially from those anticipated, estimated or expected.

Among the key factors that could cause our actual financial results, performance or condition to differ from the expectations expressed or implied in such forward-looking statements are the following: recently enacted, proposed or future legislation and the manner in which it is implemented; the nature and scope of regulatory authority, particularly discretionary authority, that may be exercised by regulators, including, but not limited to, the CFPB, having jurisdiction over the Company’s business or consumer financial transactions generically; the unpredictable nature of regulatory proceedings and litigation; any determinations, findings, claims or actions made or taken by the CFPB, other regulators or other third parties in connection with or resulting from the CID that assert or establish that the Company’s lending practices or other aspects of its business violate applicable laws or regulations; the impact of changes in accounting rules and regulations, or their interpretation or application, which could materially and adversely affect the Company’s reported consolidated financial statements or necessitate material delays or changes in the issuance of the Company’s audited consolidated financial statements; the Company’s assessment of its internal control over financial reporting, and the timing and effectiveness of the Company’s efforts to remediate any reported material weakness in its internal control over financial reporting, which could lead to the Company to report further or unremediated material weaknesses in its internal control over financial reporting; changes in interest rates; risks relating to expansion and foreign operations; risks inherent in making loans, including repayment risks and value of collateral; the timing and amount of revenues that may be recognized by the Company; changes in current revenue and expense trends (including trends affecting delinquency and charge-offs); changes in the Company’s markets and general changes in the economy (particularly in the markets served by the Company). These and other risks are discussed in more detail in Part 1, Item 1A “Risk Factors” in the Company’s most recent report on Form 10-K for the Fiscal year ended March 31, 2015 filed with the SEC, and in the Company’s other reports filed with, or furnished to, the SEC made from time to time. The Company does not undertake any obligation to update any forward-looking statements it may make.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

As of June 30, 2015, the Company’s financial instruments consisted of the following: cash and cash equivalents, loans receivable and senior notes payable. Fair value approximates carrying value for all of these instruments. Loans receivable are originated at prevailing market rates and have an average life of approximately eight months. Given the short-term nature of these loans, they are continually repriced at current market rates. The Company’s outstanding

debt under its revolving credit facility was \$489.0 million at June 30, 2015. Interest on borrowing under this facility is based on the greater of 5.0% or one month LIBOR plus 4.0%.

Based on the outstanding balance at June 30, 2015, a change of 1.0% in the interest rates would cause a change in interest expense of approximately \$0.9 million on an annual basis.

Foreign Currency Exchange Rate Risk

In September 2005 the Company began opening offices in Mexico, where its local businesses utilize the Mexican peso as their functional currency. The consolidated financial statements of the Company are denominated in U.S. dollars and are therefore subject to fluctuation as the U.S. dollar and Mexican peso foreign exchange rates change. International revenue from our non-U.S. operations accounted for approximately 8.2% and 8.6% of total revenue during the three months ended June 30, 2015 and 2014, respectively. There have been, and there may continue to be, period-to-period fluctuations in the relative portions of our international revenue to total consolidated revenue.

Table of Contents

Our international operations are subject to risks, including but not limited to differing economic conditions, changes in political climate, social unrest, labor union dynamics that can affect the collectability of our payroll deduct product, differing tax structures, other regulations and restrictions, and foreign exchange rate volatility. Accordingly, our future consolidated financial position as well as our consolidated results of operations could be adversely affected by changes in these or other factors. Foreign exchange rate fluctuations may adversely impact our financial position as the assets and liabilities of our foreign operations are translated into U.S. dollars in preparing our consolidated balance sheet. Our exposure to foreign exchange rate fluctuations arises in part from balances in our intercompany accounts included on our subsidiary balance sheets. These intercompany accounts are denominated in the functional currency of the foreign subsidiaries and are translated to U.S. dollars at each reporting period end. Additionally, foreign exchange rate fluctuations may impact our consolidated results from operations as exchange rate fluctuations will impact the amounts reported in our consolidated statement of income. The effect of foreign exchange rate fluctuations on our consolidated financial position is recognized within shareholders' equity through accumulated other comprehensive income (loss). The net translation adjustment for the three months ended June 30, 2015 was a loss of approximately \$1.8 million. The Company's foreign currency exchange rate exposures may change over time as business practices evolve and could have a material effect on the Company's financial results. The Company will continue to monitor and assess the effect of foreign currency fluctuations and may institute hedging strategies.

The Company performs a foreign exchange sensitivity analysis on a quarterly basis which assumes a hypothetical 10% increase and decrease in the value of the U.S. dollar relative to the Mexican peso. The foreign exchange risk sensitivity of both net loans receivable and consolidated net income is assessed using hypothetical scenarios and assumes that earnings in Mexican pesos are recognized evenly throughout a period. The actual results may differ from the results noted in the tables below particularly due to assumptions utilized or if events occur that were not included in the methodology.

The foreign exchange risk sensitivity of net loans denominated in Mexican pesos and translated into US dollars, which were approximately \$57.3 million and \$62.5 million at June 30, 2015 and 2014, respectively, on the reported consolidated net loans receivable amount is summarized in the following table:

Foreign Exchange Sensitivity Analysis of Loans Receivable, Net Amounts				
As of June 30, 2015				
Foreign exchange spot rate, U.S. dollars to Mexican pesos	-10%	0%	10%	
Loans receivable, net	\$831,289,751	\$836,498,673	\$842,865,168

Item 4. Controls and Procedures

Changes in Internal Control over Financial Reporting

There were no changes to our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Evaluation of Disclosure Controls and Procedures

Based on management's evaluation, with the participation of our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), as of the end of the period covered by this report, our CEO and CFO have concluded that our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), are effective to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and is accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.
