

ROTONICS MANUFACTURING INC/DE
Form 10-Q
October 28, 2003

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For quarterly period ended: September 30, 2003

Commission File number: 1-9429

ROTONICS MANUFACTURING INC.

(Exact name of registrant as specified in its charter)

DELAWARE

(State or other jurisdiction of
incorporation or organization)

36-2467474

(I.R.S. Employer
Identification Number)

17022 South Figueroa Street, Gardena, California 90248

(Address of principal executive offices) (Zip Code)

(310) 538-4932

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Edgar Filing: ROTONICS MANUFACTURING INC/DE - Form 10-Q

Yes No

Indicate by check mark whether the registrant is an accelerated filer (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding at September 30, 2003
Common Shares (\$01 stated par value)	12,325,191 Shares

ROTONICS MANUFACTURING INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1-INTERIM REPORTING:

Basis of Presentation

The interim financial information included herein is unaudited. This information reflects all adjustments (consisting solely of normal recurring adjustments), which are, in the opinion of management, necessary for a fair statement of operating results for the interim periods. This interim financial information should be read in conjunction with the Rotonics Manufacturing Inc. (the Company) Annual Report as filed on Form 10-K for the fiscal year ended June 30, 2003.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Rotocast Plastic Products of Tennessee, Inc. All intercompany accounts and transactions have been eliminated in consolidation.

Impact of Recent Accounting Pronouncements

Edgar Filing: ROTONICS MANUFACTURING INC/DE - Form 10-Q

In April 2003, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities. SFAS No. 149 is intended to result in more consistent reporting of contracts as either freestanding derivative instruments subject to SFAS No. 133 in its entirety, or as hybrid instrument with debt host contracts and embedded derivative features. In addition, SFAS No. 149 clarifies the definition of a derivative by providing guidance on the meaning of initial net investments related to derivatives. This statement was effective for contracts entered into or modified after June 30, 2003. The adoption of SFAS No. 149 did not have a material effect on our consolidated financial position, results of operation or cash flows.

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity. SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. SFAS No. 150 was adopted by the Company on July 1, 2003 and did not have an impact on the Company's financial statements.

NOTE 2 - INVENTORIES:

Inventories consist of:

	September 30, 2003	June 30, 2003
Raw materials	\$ 2,070,200	\$ 2,279,800
Finished goods	4,013,700	4,090,600
	\$ 6,083,900	\$ 6,370,400

NOTE 3 - PROPERTY, PLANT AND EQUIPMENT:

Property, plant and equipment consist of:

	September 30, 2003	June 30, 2003
Land	\$ 1,039,500	\$ 1,039,500
Buildings and building improvements	5,213,000	5,114,500
Machinery, equipment, furniture and fixtures	27,662,200	27,382,500
Construction in progress	627,100	548,200
	34,541,800	34,084,700
Less - accumulated depreciation and amortization	(20,144,200)	(19,622,700)
	\$ 14,397,600	\$ 14,462,000

NOTE 4 - INTANGIBLE ASSETS:

Intangible assets consist of:

	September 30, 2003	June 30, 2003
Patents	\$ 475,700	\$ 475,700
Less accumulated amortization	(224,500)	(213,100)
Net patents	\$ 251,200	\$ 262,600

NOTE 5 - BANK LINE OF CREDIT:

The Company has a \$5,000,000 revolving line of credit with Wells Fargo Bank, which was originally set to mature on October 1, 2004. The line is secured by the Company's machinery and equipment, accounts receivable and inventories. Interest is payable monthly at the bank's prime rate minus .25% (3.75% per annum at September 30, 2003). The loan agreement allows the Company to convert the outstanding principal balance in amounts no less than \$250,000 to a LIBOR-based loan for periods up to 90 days. At September 30, 2003, total borrowings under the Company's line of credit was \$727,100 of which \$500,000 was borrowed under the LIBOR option at a LIBOR rate of 2.12% maturing October 15, 2003. Proceeds from the loan were used for working capital purposes. On October 1, 2003 the bank extended the maturity date on the line of credit to October 1, 2005. At September 30, 2003, the Company had approximately \$4,272,900 available for future borrowings under the revolving line of credit.

NOTE 6 - LONG-TERM DEBT:

Long-term debt consists of:

	September 30, 2003	June 30, 2003
Note payable - Bank (A)	\$ 2,629,200	\$ 2,845,200
Less current portion	(864,300)	(864,300)
	\$ 1,764,900	\$ 1,980,900

(A) On October 1, 2000, the bank issued a \$6,050,000 seven year note due in monthly principal installments of \$72,000 plus interest at the bank's prime rate minus .25% (3.75% per annum at September 30, 2003). In addition, the

Edgar Filing: ROTONICS MANUFACTURING INC/DE - Form 10-Q

loan agreement allows the Company to convert all or a portion of the outstanding principal to a LIBOR-based loan for periods up to one year. At September 30, 2003, the total outstanding principal balance was under the LIBOR option at 2.37% per annum maturing October 15, 2003. The note is secured by the Company's machinery and equipment, accounts receivable and inventories and matures October 15, 2007.

At September 30, 2003 the Company had available a term-loan commitment in the amount of \$2,000,000 for future machinery and equipment purchases. On October 1, 2003, this term-loan commitment expired and was not replaced.

On August 15, 2002, the Company amended its interest rate swap agreement with the bank. The agreement allows the Company to fix a portion of its outstanding term and line of credit debt (\$3 million as of September 30, 2003) from a variable floating LIBOR rate to a fixed LIBOR rate in efforts to protect against future increases in the bank's LIBOR rate. The interest rate swap agreement matures August 15, 2006.

NOTE 7- ACCRUED LIABILITIES:

Accrued liabilities consist of:

	September 30, 2003		June 30, 2003
Salaries, wages, commissions and related payables	\$ 413,900	\$	572,900
Other	530,700		481,900
	\$ 944,600	\$	1,054,800

NOTE 8 - STOCK OPTION PLAN:

The Company has a stock option plan, which allows, at the discretion of the Board of Directors (the Board), for the granting of options to key employees, officers, directors, and consultants of the Company to purchase 1,000,000 shares of the Company s common stock. Under the terms and conditions set forth in the plan, the exercise price of the stock options will be a least 85% of the fair market value of the Company s common stock on the grant date. The maximum term for options granted under the plan is five years. The plan expires June 12, 2004.

There were no options outstanding as of September 30, 2003 and the Company had 841,500 shares available for future grants. On October 7, 2003, the Board adopted a new stock option plan for the granting of options to key employees, officers, directors and consultants of the Company to purchase 850,000 shares of the Company s common stock. This new plan will be put to shareholder vote in conjunction with our December 2003 Shareholder s meeting. If the plan is approved it automatically replace the existing plan.

Stock Option Activity:

	Outstanding Shares		Weighted Average Price Per Share
Balance outstanding at June 30, 2003	105,000	\$	1.125
Exercised	(96,000)	\$	1.125
Cancelled	(9,000)	\$	1.125
Balance outstanding at September 30, 2003			

NOTE 9 - COMMON STOCK:

Treasury stock is recorded at cost. At September 30, 2003 and June 30, 2003 there was no outstanding treasury stock. The Company continues to support its buyback as long as the market value per share continues to be under recognized by the stock market. During the three month ended September 30, 2003 the Company acquired 115,600 shares of common stock at a total cost of \$163,900.

On June 24, 2003, the Board of Directors declared a common stock dividend of \$.05 per common share, which was paid on July 25, 2003 to stockholders of record on July 14, 2003.

NOTE 10 - INCOME TAXES:

Edgar Filing: ROTONICS MANUFACTURING INC/DE - Form 10-Q

The components of the income tax provision were:

	For the three months ended September 30,	
	2003	2002
Current:		
Federal	\$ 130,000	\$ 200,000
State	24,700	34,400
	154,700	234,400
Deferred:		
Federal	(18,700)	(16,600)
State	(3,400)	(2,300)
	(22,100)	(18,900)
	\$ 132,600	\$ 215,500

At September 30, 2003, the Company had net operating loss (NOL) carryforwards of approximately \$6,511,300 for state income tax purposes. The NOL carryforwards, which are available to offset taxable income of the Company and are subject to limitations should a change in ownership as defined in the Internal Revenue Code occur, will begin to expire in 2004 if not utilized.

NOTE 11 - COMPUTATION OF EARNINGS PER SHARE:

Basic earnings per share (EPS) is computed by dividing reported earnings by weighted average shares outstanding. Diluted EPS include the effect of the potential shares outstanding, including dilutive securities using the treasury stock method. Potential dilutive securities for the Company include outstanding stock options.

The tables below detail the components of the basic and diluted EPS calculations:

	Three months ended September 30, 2003			Three months ended September 30, 2002		
	Income	Shares	EPS Amount	Income	Shares	EPS Amount
Basic EPS						
Net income	\$ 198,400	12,317,762	\$.02	\$ 361,700	12,573,450	\$.03
Effect of dilutive stock options						
		4,459			1,584	
Diluted EPS	\$ 198,400	12,322,221	\$.02	\$ 361,700	12,575,034	\$.03

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction

To the extent that this 10-Q Quarterly Report discusses matters which are not historical, including statements regarding future financial results, information or expectation about products or markets, or otherwise makes statements about future events, such statements are forward-looking and are subject to a number of risks and uncertainties that could cause actual and other results to differ materially from the statements made. These include, among others, fluctuations in costs of raw materials and other expenses, costs associated with plant closures, downturns in the markets served by the Company, the costs associated with new product introductions, as well as other factors described under this Item 2,

Management's Discussion and Analysis of Financial Condition and Results of Operations and Footnote 1 to Financial Statements. When used in this report, the words expects, anticipates, intends, plans, believes, seeks, estimates and similar expressions are generally intended to identify forward-looking statements. You should not place undue reliance on these forward-looking statements, which reflect our opinion only as of the date of the Quarterly Report. We undertake no obligation to publicly release any revisions to the forward-looking statements after the date of this document. You should carefully review the risk factors described in other documents including our Form 10-K, that we file from time to time with the Securities and Exchange Commission.

Results of Operations - Three Months Ended September 30, 2003 and 2002

Edgar Filing: ROTONICS MANUFACTURING INC/DE - Form 10-Q

Net sales for the three months ended September 30, 2003 remained consistent at \$8,874,900 as compared to \$8,894,800 for the same period last year. We were pleased that following a slow marketplace during the first two months of the current quarter, we experienced a significant increase in sales volumes in the last month that continues to show promising momentum into the next quarter. In particular, we realized notable growth in our contractor manufacturing, refuse and marine product groups of 3.8%, 22.2% and 19.2%, respectively. The growth in these product groups is attributed to prior period contract tooling projects that are now generating current period sales, our new line of refuse containers, the Solution Series, and our enhanced website that has improved the exposure of our multitude of products. These gains helped offset a drop in our industrial product group that continues to be burdened by a highly competitive and lackluster marketplace. We continue to closely follow these industry trends and remain optimistic that our marketing efforts coupled with our new technology-based roto molding machine at our Colorado facility will improve our competitive edge in the marketplace.

Cost of goods sold increased 2.9% to 76.5% of net sales for the three months ended September 30, 2003 compared to 73.6% for the same period last year. The increase continues to stem from higher raw material, natural gas and insurance costs in comparison to last year. We continue to incur higher workers compensation and general liability premiums year after year reflecting rates that are two to five times more than they were three years ago. Natural gas costs also remain inflated resulting in increased costs of \$77,900 in the current period in addition to contributing to inflated resin costs in spite of lower demand. Because we do not anticipate these trends to change in the near future, we continue to implement various manufacturing efficiency and cost savings technologies, which includes the addition of our new roto molding machine, to minimize future dilution to our operating margins.

Selling general and administrative (SG&A) expenses were consistent at \$1,722,500, or 19.4% of net sales, for the three months ended September 30, 2003 compared with \$1,720,300, or 19.3% of net sales, for the same period last year. We were extremely pleased in our efforts to keep SG&A costs in line with current sales volume levels.

Total interest expense decreased \$27,100 to \$54,900 for the three months ended September 30, 2003 compared to \$82,000 for the same period last year. The decrease is due to the \$576,100 reduction in the company's debt structure in comparison to amounts outstanding twelve months ago coupled with lower interest rates during the period. We anticipate these factors will continue to have a positive effect on reducing future interest rate costs.

Net income decreased \$163,300 to \$198,400, or \$.02 per common share, for the three months ended September 30, 2003 compared to \$361,700, or \$.03 per common share, for the same period last year. As previously mentioned, we realized improved sales volumes during the last month of the current quarter that was instrumental in maintaining comparable sales volumes between the two periods. However, the other obstacle that we did not completely overcome was to fully mitigate escalating resin, natural gas and insurance costs. Although we anticipate these costs to continue to challenge operating results in the near future, we also recognize factors pointing to our nation's economy hanging on the cusp of a strong recovery. We believe that our cost cutting initiatives, investments in equipment and marketing efforts have positioned us to capitalize on these potential positive trends. In the short-term, we remain committed to continue to expand exposure of our core product groups, maintain customer satisfaction, monitor industry trends and efficiently produce high quality products.

Financial Condition

Edgar Filing: ROTONICS MANUFACTURING INC/DE - Form 10-Q

Working capital increased \$352,000 to \$7,081,500 at September 30, 2003 compared to \$6,729,500 at June 30, 2003. The increase is related to the payment of capital expenditures and resin acquired in fiscal 2003 net of current period related reductions in inventory as well as reductions in accounts receivables. Cash flows from operations decreased \$1,755,000 to \$983,900 for the three months ended September 30, 2003 compared to \$2,783,900 for the same period last year. The decrease is related to the current period's \$163,300 reduction in net income, plus a considerable reduction in the current accounts payable balance in contrast to the prior period balance that included higher than usual resin and capital expenditure purchases, and the additional cash flows generated in the fiscal 2003 period from higher fourth quarter fiscal 2002 sales volumes.

We expended \$462,400 for property, plant and equipment (PP&E) during the three months ended September 30, 2003 compared to \$696,100 for the same period last year. The difference is attributed to costs related to our new technology-based roto molding machine expended during the prior year. The new machine is substantially completed and will be fully operational in the next quarter. We are pleased with the design and efficiency of this new machine that should enhance our competitive edge in the marketplace. Fiscal 2004 expenditures will be primarily focused on smaller machinery and equipment projects and new mold acquisitions. We anticipate expending \$1.2 - \$1.5 million on capital expenditures in fiscal 2004.

Net borrowing under the line of credit increased \$345,900 to \$727,100 between June 30, 2003 and September 30, 2003. The increase is due to the timing of payments for capital expenditure projects, federal income taxes and our \$.05 common stock dividend during the current period. Due to the timing of these types of payments, we can anticipate the line of credit to reflect temporary fluctuations throughout the year. Overall, our debt structure only increased by \$129,900 to \$3,356,300 due to these temporary line of credit borrowings.

Effective October 1, 2003, the bank extended the maturity date on the line of credit to October 1, 2005. In addition, we did not advance on the \$2,000,000 term loan commitment that subsequently expired on October 1, 2003 and was not renewed. All other terms and conditions surrounding our credit facility with bank remained the same.

During the three months ended September 30, 2003, we acquired 115,600 shares of common stock at a total cost of \$163,900. We plan to continue this program throughout fiscal 2004. In addition, we received \$108,000 from the exercise of stock options resulting in the issuance of 96,000 shares of common stock.

On June 24, 2003, the Board of Directors (the Board) declared a common stock dividend of \$.05 per common share (\$616,000) that was paid on July 25, 2003 to stockholders of record on July 14, 2003. This marked the seventh payment of dividends since 1996 on the Company's stock. The Board is committed to review a dividend program for our common stock on an annual basis.

Cash flows from operations in conjunction with our revolving line of credit are expected to meet our needs for working capital, capital expenditures, common stock repurchases and repayment of long term debt for the foreseeable future.

Recent Accounting Pronouncements

In April 2003, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities. SFAS No. 149 is intended to result in more consistent reporting of contracts as either freestanding derivative instruments subject to SFAS No. 133 in its entirety, or has hybrid instruments with debt host contracts and embedded derivative features. In addition, SFAS No. 149 clarifies the definition of a derivative by providing guidance on the meaning of initial net investments related to derivatives. This statement was effective for contracts entered into or modified after June 30, 2003. The adoption of SFAS No. 149 did not have a material effect on our consolidated financial position, results of operations or cash flows.

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity. SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. SFAS No. 150 was adopted by the Company on July 1, 2003 and did not have an impact on the Company's financial statements.

Off-Balance Sheet Arrangements and Contractual Obligations

The Company has no off-balance sheet arrangements or significant guarantees to third parties not fully recorded in our balance sheets or fully disclosed in our notes to consolidated financial statements. The Company's significant contractual obligations include our debt agreements.

Critical Accounting Policies

Edgar Filing: ROTONICS MANUFACTURING INC/DE - Form 10-Q

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States (GAAP). These accounting principles require us to make certain estimates, judgments and assumptions. We believe that the estimates, judgments and assumptions upon which we rely are reasonable based upon information available to us at the time that these estimates, judgments and assumptions are made. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities as of the date of the financial statements, as well as the reported amounts of revenues and expenses during the periods presented. To the extent there are material differences between these estimates, judgments or assumptions and actual results, our financial statements will be affected. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP and does not require management's judgment in its application. There are also areas in which management's judgment in selecting among available alternatives would not produce a materially different result. Our senior management has reviewed these critical accounting policies and related disclosures with our Audit Committee. See notes to Consolidated Financial Statement in our Form 10-K for fiscal 2003, which contain additional information regarding our accounting policies and other disclosures by GAAP.

The significant accounting policies that we believe are the most critical to aid in fully understanding and evaluating our reported financial results include the following:

Allowance For Doubtful Accounts

We make judgments as to our ability to collect outstanding receivables and provide allowances for the portion of receivables when collection becomes doubtful. Provisions are based on a percentage of net sales and a specific review of all significant outstanding receivable balances. Percentages applied may vary based on analysis of historical collection experience or current economic trends. If the data we use to calculate the allowance for doubtful accounts does not reflect the future ability to collect outstanding receivables, additional provisions for doubtful accounts may be needed and the results of operations could be affected.

Inventory Valuation

Finished goods inventory is valued at cost and management uses historical gross margin trends and other estimates to continually update labor and overhead allocations. The gross margin percentage reflects our estimate of the cost of, among other things, material, labor and overhead expenditures during the production process. Such cost are capitalized to inventory as products are manufactured. Although it is believed that the estimates are reasonable, it is possible that the actual labor and overhead costs will differ over time from the estimated amounts. Such differences could have a material impact on our results of operations and financial position.

Income Taxes

Under SFAS No. 109, Accounting for Income Taxes, income taxes are recorded based on the current amounts payable or refundable, as well as the consequences of events that give rise to deferred tax assets and liabilities based on differences in how those events are treated for tax purposes. We base our estimate of deferred tax assets and liabilities on current tax laws and rates and in certain cases expectations about future outcomes. Our accounting for deferred tax consequences represents management's best estimate of future events that can be appropriately reflected in accounting estimates. Although management believes that its estimates are reasonable, no assurance can be given that the final tax outcome of these matters will not be different than that which is reflected in our historical income tax provisions and accruals. Such differences could have a material impact on our results of operations and financial position.

In particular, we recorded a valuation allowance to reduce the deferred tax assets to the amount of future tax benefit that is more likely than not to be realized. While management has considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for the valuation allowance, there is no assurance that the valuation allowance would not need to be increased to cover additional deferred tax assets that may not be realized. Any increase in the valuation allowance could have a material adverse impact on our income tax provision and net income for the period in which such determination is made.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

Information regarding the Company's market risk relating to interest rate volatility was disclosed in the Company's Form 10-K for the fiscal year ended June 30, 2003 and should be read in conjunction with this interim financial information. Since June 30, 2003, there have been no significant changes in the Company's exposure to market risk.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed under the Securities and Exchange Act of 1934, as amended (the Exchange Act), is recorded, summarized and processed within time periods specified in the SEC s rules and forms. As of the end of the period, covered by this report (the Evaluation Date), we carried out an evaluation, under the supervision and with the participation of our management, including our president and chief executive officer and our chief financial officer, of the effectiveness of the design and operation of our disclosure controls procedures pursuant to Rule 13a-14 under the Exchange Act. Based upon this evaluation, our president and chief executive officer and our chief financial officer concluded that, as of the Evaluation Date, our disclosure controls and procedures were effective under Rules13a-14.

There has been no change in our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonable likely to materially affect, our internal controls over financial reporting.

ROTONICS MANUFACTURING INC.

PART II. OTHER INFORMATION

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits:

Exhibit No.	Exhibit Title
31.1	Certification pursuant to Rule 13a-14 under the Securities Exchange Act of 1934
31.2	Certification pursuant to Rule 13a-14 under the Securities Exchange Act of 1934
32.1	Certification pursuant to section 906 of the Sarbanes-Oxley Act

(b) Reports on Form 8-K

On July 23, 2003, we filed a current report of Form 8-K reporting under item 12, Results of Operations and Financial Condition, announcing our press release dated July 23, 2003 outlining our unaudited fiscal year June 30, 2003 earnings.

On September 24, 2003, we filed a current report of Form 8-K reporting under item 12, Results of Operations and Financial Condition, announcing our press release dated September 24, 2003 outlining our audited fiscal year June 30, 2003 earnings.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this Report to be signed on behalf by the undersigned thereunto duly authorized.
