EXPLANATORY NOTE: This Form 10-Q/A is being filed to provide additional segment reporting footnote disclosure related to our homebuilding operations. We have restated the accompanying unaudited condensed consolidated financial statements to revise our segment disclosure for all periods presented to disaggregate our homebuilding operations into regional reporting segments. See revised disclosures in Note 10 to the Unaudited Condensed Consolidated Financial Statements. Unless otherwise indicated, no information in this Form 10-Q/A has been updated for any subsequent information or events from the original filing.

For the convenience of the reader, this Form 10-Q/A sets forth the entire December 31, 2005 Quarterly Report on Form 10-Q. However, this Form 10-Q/A amends and restates only Part I Items 1, 2 and 4 of the December 31, 2005 Form 10-Q, in each case solely to be responsive to certain disclosure comments, primarily relating to segment reporting, received from the Division of Corporation Finance of the Securities and Exchange Commission. The aforementioned changes to the Unaudited Condensed Consolidated Financial Statements have no effect on the Company s financial position as of December 31, 2005 and September 30, 2005 or its results of operations and cash flows for the three months ended December 31, 2005 and 2004.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Beazer Homes USA, Inc. (Beazer Homes or the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Such financial statements do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the Company s opinion, all adjustments (consisting solely of normal recurring accruals) necessary for a fair presentation have been included in the accompanying financial statements. Certain items in prior period financial statements have been reclassified to conform to the current presentation. For further information, refer to the Company s audited consolidated financial statements appearing in the Company s Annual Report on Form 10-K/A for the fiscal year ended September 30, 2005 (the 2005 Annual Report).

In February 2005, the Company s Board of Directors approved a three-for-one stock split. The stock split was effected in the form of a stock dividend paid on March 22, 2005 to stockholders of record at the close of business on March 10, 2005. All share and per share amounts (except par value) have been retroactively adjusted to reflect the split. There was no net effect on stockholders equity as a result of the stock split.

(2) Summary of Significant Accounting Policies

A discussion of the Company s significant accounting policies other than those discussed below is included in the notes to the consolidated financial statements included in Beazer Homes Consolidated Financial Statements for the fiscal year ended September 30, 2005 as filed with the Securities and Exchange Commission in the Annual Report on Form 10-K/A.

Stock-Based Compensation

In the first quarter of fiscal 2006, the Company adopted Statement of Financial Accounting Standards (SFAS) 123R, *Share-Based Payments*, which revises SFAS 123, *Accounting for Stock-Based Compensation*. Prior to fiscal year 2006, the Company accounted for stock awards granted to employees under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees, and related Interpretations*. As a result, no compensation expense was previously recognized for stock options granted to employees because all stock options granted had exercise prices not less than the market value of Beazer Homes stock on the date of the grant in periods prior to fiscal year 2006.

SFAS 123R applies to new awards and to awards modified, repurchased, or cancelled after the required effective date, as well as to the unvested portion of awards outstanding as of the required effective date. The Company uses the Black-Scholes model to value its new stock option grants under SFAS 123R, applying the modified prospective method for existing grants which requires the Company to value stock options prior to its adoption of SFAS 123R under the fair value method and expense the unvested portion over the remaining vesting period. SFAS 123R also requires the Company to estimate forfeitures in calculating the expense related

to stock-based compensation. In addition, SFAS 123R requires the Company to reflect the benefits of tax deductions in excess of recognized compensation cost to be reported as both a financing cash inflow and an operating cash outflow upon adoption.

Nonvested stock granted to employees is valued based on the market price of the common stock on the date of the grant. The Company accounts for stock awards issued to non-employees under the recognition and measurement principles of SFAS 123R and Emerging Issues Task Force Issue No. 96-18: *Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services*. Stock options issued to non-employees are valued using the Black-Scholes option pricing model. Nonvested stock granted to non-employees is initially valued based on the market price of the common stock on the date of the grant and is adjusted to fair value until vested. During the three months ended December 31, 2005, the Company issued 120,249 shares of nonvested stock at a grant date price of $62.02 with a weighted average vesting period of 4.4 years.

Compensation cost arising from nonvested stock granted to employees and from non-employee stock awards is recognized as expense using the straight-line method over the vesting period. Unearned compensation is included in paid-in capital beginning in the first quarter of fiscal 2006 upon adoption of SFAS 123R. As of December 31, 2005, there was $18.3 million of total unrecognized compensation cost related to nonvested stock. That cost is expected to be recognized over a weighted average period of 3.8 years. For the three months ended December 31, 2005, the Company s total stock-based compensation expense was $2.3 million ($1.4 million net of tax). Included in this total stock-based compensation expense was incremental expense for stock options of $1.1 million ($710,000 net of tax) for the quarter ended December 31, 2005.

The following table illustrates the effect (in thousands, except per share amounts) on net income and earnings per share for the three months ended December 31, 2004 as if the Company s stock-based compensation had been determined based on the fair value at the grant dates for awards made prior to fiscal 2006, under those plans and consistent with SFAS 123R:

Three Months Ended December 31, 2004		
Net income, as reported	$	69,704
Add: Stock-based employee compensation included in reported net income, net of related tax effects		1,349
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects		(2,292)
Pro forma net income	$	68,761
Earnings per share:		
Basic - as reported	$	1.73
Basic - pro forma	$	1.71
Diluted - as reported	$	1.57
Diluted - pro forma	$	1.55

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions used for grants issued in the first quarter of fiscal 2006 and 2005:

	Q1 2006	Q1 2005
Risk free interest rate	**4.51**%	3.39%
Expected life	**5.0 years**	5.0 years
Expected volatility	**43.14**%	43.64%
Expected dividend yield	**0.33**%	0.33%

Expected life of the options granted is computed using the mid-point between the vesting period and contractual life of the options granted. Expected volatilities are based on the historical volatility of the Company s stock and other factors.

The following table summarizes stock options outstanding as of December 31, 2005 as well as activity during the three months then ended:

	Shares	Weighted-Average Exercise Price
Outstanding at September 30, 2005	1,654,751	$ 23.91
Granted	221,727	62.02
Exercised	(329,599)	18.45
Forfeited	(12,445)	37.19
Outstanding at December 31, 2005	1,534,434	30.48
Exercisable at December 31, 2005	738,092	17.68

At December 31, 2005, the weighted-average remaining contractual life of options outstanding and exercisable was 5.7 years and 5.8 years, respectively.

At December 31, 2005, the aggregate intrinsic value of options outstanding and options exercisable was $65.0 million and $40.7 million, respectively. (The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option.) The weighted-average grant date fair value of stock options granted during the three months ended December 31, 2005 and 2004 was $26.08 and $14.94, respectively. The intrinsic value of stock options exercised during the three months ended December 31, 2005 and 2004 were $16.0 million and $5.9 million, respectively.

New Accounting Pronouncements

In November 2004, the FASB issued SFAS 151, *Inventory Costs, an Amendment of ARB No. 43, Chapter 4*. SFAS 151 provides clarification of the accounting for abnormal amounts of freight, handling costs, and wasted material and requires that these items be recognized as current period charges. SFAS 151 is effective for inventory costs incurred beginning in the first quarter of fiscal 2006. The adoption of SFAS 151 did not have a material impact on our consolidated results of operations or financial position for the quarter ended December 31, 2005.

In May 2005, the FASB issued SFAS 154, *Accounting Changes and Error Corrections*, which will be effective in the first quarter of fiscal year 2007. This statement addresses the retrospective application of such changes

and corrections and will be followed if and when necessary. The Company will follow the provisions of this standard in the event of any future accounting changes.

(3) Inventory

(in thousands)		December 31, 2005		September 30, 2005
Homes under construction	**$**	**1,277,524**	$	1,040,193
Development projects in progress		**1,547,756**		1,519,554
Unimproved land held for future development		**46,049**		44,809
Model homes		**45,906**		66,526
Consolidated inventory not owned		**346,444**		230,083
	$	**3,263,679**	$	2,901,165

Homes under construction includes homes finished and ready for delivery and homes in various stages of construction. Excluding model homes, Beazer Homes had 514 completed homes (valued at $106.4 million) and 414 completed homes (valued at $72.2 million) at December 31, 2005 and September 30, 2005, respectively, that were not subject to a sales contract. Development projects in progress consist principally of land and land improvement costs. Certain of the fully developed lots in this category are reserved by a deposit or sales contract.

The Company acquires certain lots by means of option contracts. Option contracts generally require the payment of cash for the right to acquire lots during a specified period of time at a certain price. Under option contracts, both with and without specific performance provisions, purchase of the properties is contingent upon satisfaction of certain requirements by us and the sellers. Beazer Homes obligation with respect to options with specific performance provisions is included on the Company s consolidated balance sheets in other liabilities. Under option contracts without specific performance obligations, the Company s liability is generally limited to forfeiture of the non-refundable deposits, letters of credit and other non-refundable amounts incurred, which aggregated approximately $365.9 million at December 31, 2005. This amount includes letters of credit of approximately $49.6 million. Below is a summary of amounts, net of cash deposits, committed under all options at December 31, 2005 *(in thousands)*:

		Aggregate Exercise Price of Options
Options with specific performance	$	13,677
Options without specific performance		2,900,689
Total options	$	2,914,366

Certain of the Company s option contracts are with sellers who are deemed to be Variable Interest Entities (VIE s) under FASB Interpretation No. 46, *Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51* (FIN 46). FIN 46 defines a VIE as an entity with insufficient equity investment to finance its planned activities without additional financial support or an entity in which the equity investors lack certain characteristics of a controlling financial interest. Pursuant to FIN 46, an enterprise that absorbs a majority of the expected losses or receives a majority of the expected residual returns of a VIE is deemed to be the primary beneficiary of the VIE and must consolidate the VIE.

The Company has determined that Beazer Homes is the primary beneficiary of certain of these option contracts. The Company s risk is generally limited to the option deposits that it pays, and creditors of the sellers generally have no recourse to the general credit of the Company. Although Beazer Homes does not have legal title to the optioned land, for those option contracts for which the Company is the primary beneficiary, Beazer Homes is required to consolidate the land under option at fair value. The Company believes that the exercise prices of its option contracts approximate their fair value. The Company s condensed consolidated balance sheets at December 31, 2005 and September 30, 2005 reflect consolidated inventory not owned of $346.4 million and $230.1 million, respectively. Obligations related to consolidated inventory not owned totaled $247.8 million at December 31, 2005 and $166.2 million at September 30, 2005. The difference between the balances of consolidated inventory not owned and obligations related to consolidated inventory not owned represents cash deposits paid under the option agreements. The above disclosures of amounts committed under options include Beazer Homes obligations related to consolidated inventory not owned.

(4) Investments in and Advances to Unconsolidated Joint Ventures

The Company participates in a number of land development joint ventures in which Beazer Homes has less than a controlling interest. The Company s joint ventures are typically entered into with developers, other homebuilders and financial partners to develop finished lots for sale to the joint venture s members and other third parties. Beazer Homes accounts for its interest in these joint ventures under the equity method. The Company recognizes its share of profits from the sale of lots to other buyers. Beazer Homes share of profits from lots purchased from the joint ventures are deferred and treated as a reduction of the cost of the land purchased from the joint venture. Such profits are subsequently recognized at the time the home closes and title passes to the homebuyer.

The Company s joint ventures typically obtain secured acquisition and development financing. In some instances, Beazer Homes and its joint venture partners have provided varying levels of guarantees of debt of the Company s unconsolidated joint ventures. At December 31, 2005 and September 30, 2005, the Company had a repayment guarantee of $10.7 million and $10.4 million, respectively, related to our portion of debt of one of our unconsolidated joint ventures and loan-to-value maintenance guarantees of $70.7 million and $84.6 million, respectively, related to certain of the Company s unconsolidated joint ventures. The repayment guarantee requires the repayment of Beazer Homes share of debt of the unconsolidated joint venture in the event the joint venture defaults on its obligations under the borrowings. The loan-to-value maintenance guarantees only apply if the borrowings of the unconsolidated joint venture exceed a specified percentage of the value of the collateral (generally land and improvements) securing the borrowings. The Company has not recorded a liability for the non-contingent aspect of these guarantees as such amounts are not material. In assessing the need to record a liability for the contingent aspect of these guarantees, the Company considers its historical experience in being required to perform under the guarantees, the fair value of the collateral underlying these guarantees and the financial condition of the applicable unconsolidated joint ventures. In addition, the Company monitors the fair value of the collateral of these unconsolidated joint ventures to ensure that the related borrowings do not exceed the specified percentage of the value of the property securing the borrowings. To date, Beazer has not incurred any obligations related to repayment or loan-to-value maintenance guarantees. Based on these considerations, the Company has determined that it is remote that it will have to perform under the contingent aspects of these guarantees and, as a result, has not recorded a liability for the contingent aspects of these guarantees. To the extent the recording of a liability related to such guarantees would be required, the recognition of such liability would result in an increase to the carrying value of the Company s investment in the associated joint venture.

(5) Interest

The following table sets forth certain information regarding interest (in thousands):

	Three Months Ended December 31, 2005		Three Months Ended December 31, 2004	
Capitalized interest in inventory, beginning of period	**$**	**51,411**	$	44,121
Interest incurred and capitalized		**25,533**		20,389
Capitalized interest amortized to cost of sales		**(18,175)**		(15,959)
Capitalized interest in inventory, end of period	**$**	**58,769**	$	48,551

(6) Earnings Per Share

Basic and diluted earnings per share were calculated as follows (in thousands, except per share amounts):

	Three Months Ended December 31, 2005		Three Months Ended December 31, 2004	
Basic:				
Net income	**$**	**89,913**	$	69,704
Weighted average number of common shares outstanding		**40,958**		40,295
Basic earnings per share	**$**	**2.20**	$	1.73
Diluted:				
Net income	**$**	**89,913**	$	69,704
Interest on convertible debt - net of taxes		**1,344**		1,325
Net income available to common shareholders	**$**	**91,257**	$	71,029
Weighted average number of common shares outstanding		**40,958**		40,295
Effect of dilutive securities:				
Shares issuable upon conversion of convertible debt		**3,499**		3,499
Options to acquire common stock		**594**		535
Restricted stock		**556**		972
Diluted weighted average common shares outstanding		**45,607**		45,301
Diluted earnings per share	**$**	**2.00**	$	1.57

Basic and diluted earnings per share amounts and weighted average shares outstanding for December 31, 2004 have been retroactively restated to reflect the effect of the Company s March 2005 three-for-one stock split.

Emerging Task Force Issue No. 04-8: *The Effect of Contingently Convertible Debt on Diluted Earnings Per Share* (EITF 04-8) requires that shares issuable upon conversion of contingently convertible debt instruments (Co-Cos) be included in diluted earnings per share computations using the if-converted method regardless of whether the issuer s stock price exceeds the contingent conversion price. EITF 04-8, which applies to the Company s $4^5/_8$ % Convertible Senior Notes issued in June 2004, was effective beginning with the first quarter of Beazer Homes 2005 fiscal year.

(7) Borrowings

At December 31, 2005 we had the following borrowings *(in thousands)*:

Debt	Due	Amount
Revolving Credit Facility	August 2009	$ 50,000
8 5/8% Senior Notes	May 2011	200,000
8 3/8% Senior Notes	April 2012	350,000

Revolving Credit Facility - In August 2005 we entered into a new $750 million (expandable up to $1 billion), four-year unsecured revolving credit facility (the Revolving Credit Facility) with a group of banks that matures in August 2009. The Revolving Credit Facility replaced our former $550 million revolving credit facility and $200 million Term Loan. The Revolving Credit Facility includes a $50 million swing line commitment and has a $350 million sublimit for the issuance of standby letters of credit. Substantially all of the Company s significant subsidiaries are guarantors of the obligations under the Revolving Credit Facility (see Note 11). The Revolving Credit Facility contains various operating and financial covenants. The Company was in compliance with such covenants at December 31, 2005. The Company has the option to elect two types of loans under the Revolving Credit Facility which incur interest as applicable based on either the Alternative Base Rate or the Applicable Eurodollar Margin (both as defined in the Revolving Credit Facility).

Available borrowings under the Revolving Credit Facility are limited to certain percentages of homes under contract, unsold homes, substantially improved lots, lots under development, raw land and accounts receivable. At December 31, 2005, we had $50.0 million borrowings outstanding, and had available borrowings of $585.6 million under the Revolving Credit Facility. The borrowings outstanding under the Revolving Credit Facility bore interest at 5.5% as of December 31, 2005. There were no borrowings outstanding under the Revolving Credit Facility at September 30, 2005.

Senior Notes - The Senior Notes are unsecured obligations ranking pari passu with all other existing and future senior indebtedness. All of our significant subsidiaries are full and unconditional guarantors of the Senior Notes and our obligations under the Revolving Credit Facility, and are jointly and severally liable for obligations under the Senior Notes, and the Revolving Credit Facility. Each guarantor subsidiary is a 100% owned subsidiary of Beazer Homes.

The indentures under which the Senior Notes were issued contain certain restrictive covenants, including limitations on payment of dividends. At December 31, 2005, under the most restrictive covenants of each indenture, approximately $314.7 million of our retained earnings was available for cash dividends and for share repurchases. Each indenture provides that, in the event of defined changes in control or if our consolidated tangible net worth falls below a specified level or in certain circumstances upon a sale of assets, we are required to offer to repurchase certain specified amounts of outstanding Senior Notes.

We periodically acquire land through the issuance of notes payable. As of December 31, 2005 and September 30, 2005, we had outstanding notes payable of $53.5 million and $46.1 million related to land acquisitions, respectively. These notes payable expire at various times through 2010 at variable rates ranging from 5.0% to 8.8% at December 31, 2005.

Mortgage Warehouse Credit Facility Through December 31, 2005, Beazer Mortgage provided mortgage origination services only, and did not retain or service the mortgages that it originated. These mortgages were funded by a network of mortgage lenders. Effective January 11, 2006, Beazer Mortgage entered into a 364-day credit agreement with a number of banks to fund the origination of residential mortgage loans (the Warehouse Line). This Warehouse Line provides for a maximum available borrowing capacity of $250 million to $350 million based on commitment periods as defined in the Warehouse Line and will be secured by certain mortgage loan sales and related property. The Warehouse Line is neither guaranteed by Beazer Homes USA, Inc. nor any of its subsidiaries that are guarantors of the Senior Notes or Revolving Credit Facility. Beginning in the second quarter of fiscal 2006, Beazer Mortgage will finance certain of our mortgage lending activities with borrowings under the Warehouse Line. The Warehouse Line contains various operating and financial covenants, including covenants to the effect that Beazer Mortgage will (i) maintain minimum tangible net worth and adjusted tangible net worth, (ii) maintain a total debt to adjusted tangible net worth ratio of not more than 12 to 1, and (iii) have net income of at least $1.00 during each fiscal quarter (as defined in the Warehouse Line).

(8) Contingencies

Trinity Claims Beazer Homes and certain of its subsidiaries have been and continue to be named as defendants in various construction defect claims, complaints and other legal actions that include claims related to moisture intrusion and mold. The Company has experienced a significant number of such claims in its Indiana market and particularly with respect to homes built by Trinity Homes LLC, a subsidiary which was acquired in the Crossmann acquisition in 2002.

As of December 31, 2005, there were eleven pending lawsuits related to such complaints received by Trinity. All eleven suits are by individual homeowners, and the cost to resolve these matters is not expected to be material, either individually or in the aggregate. Additionally, a class action suit was filed in the State of Indiana in August 2003 against Trinity Homes LLC. The parties in the class action reached a settlement agreement which was approved by the court on October 20, 2004.

The settlement class includes, with certain exclusions, the current owners of all Trinity homes that have brick veneer, where the closing of Trinity s initial sale of the home took place between June 1, 1998 and October 31, 2002. The settlement agreement establishes an agreed protocol and process for assessment and remediation of any external water intrusion issues at the homes which includes, among other things, that the homes will be repaired at Trinity s expense. The settlement agreement also provides for payment of plaintiffs attorneys fees and for Trinity to pay an agreed amount for engineering inspection costs for each home for which a claim is filed under the settlement.

Under the settlement, subject to Trinity s timely performance of the specified assessments and remediation activities for homeowners who file claims, each homeowner releases Trinity, Beazer Homes Investment Corp. and other affiliated companies, including Beazer Homes, from the claims asserted in the class action lawsuit, claims arising out of external water intrusion, claims of improper brick installation, including property damage

claims, loss or diminution of property value claims, and most personal injury claims, among others. No appeals of the court s order approving the settlement were received by the court within the timeframe established by the court. The Company sent out the claims notices on December 17, 2004, and the class members had until February 15, 2005 to file claims. A total of 1,312 valid claims were filed (of the 2,161 total class members), of which 613 complaints had been received prior to the Company s receipt of the claim notices. Class members who did not file a claim by February 15, 2005 are no longer able to file a class action claim under the settlement or pursue an individual claim against Trinity.

Beazer Homes warranty reserves at December 31, 2005 and September 30, 2005 include accruals for the Company s estimated costs to assess and remediate all homes for which Trinity had received complaints related to moisture intrusion and mold, including a provision for legal fees. Warranty reserves also include accruals for class action claims received, pursuant to the settlement discussed above, from class members who had not previously contacted Trinity with complaints.

The following is a rollforward of total complaints received as of December 31, 2005 and 2004:

	Three Months Ended December 31,	
	2005	**2004**
Complaints outstanding at beginning of period	**1,543**	887
Complaints received during the period	**3**	51(1)
Complaints resolved during the period	**(14)**	(34)
Complaints outstanding at end of the period	**1,532**	904

---

(1) Excludes 251 class claims for which remediation costs were accrued at December 31, 2004, which were received after December 31, 2004, but prior to issuance of our December 31, 2004 financial statements.

The cost to assess and remediate a home depends on the extent of moisture damage, if any, that the home has incurred. Homes for which the Company receives complaints are classified into one of three categories: 1) homes with no moisture damage, 2) homes with isolated moisture damage or 3) homes with extensive moisture damage.

As of December 31, 2005 and September 30, 2005, the Company accrued for its estimated cost to remediate homes that it had assessed and assigned to one of the above categories, as well as the Company s estimated cost to remediate those homes for which a complaint had not been received, and for which an assessment had not yet been performed. For purposes of the Company s accrual, the Company has historically assigned homes not yet assessed to categories based on its expectations about the extent of damage and trends observed from the results of assessments performed to date. In addition, the Company refined its cost estimation process to consider the subdivision of the claimant along with the categorization discussed above. Once a home is categorized, detailed budgets are used as the basis to prepare the Company s estimated costs to remediate such home.

During fiscal 2004, the Company initiated a program under which it offered to repurchase a limited number of homes from specific homeowners. The program was concluded during the first quarter of fiscal 2005. The Company has repurchased a total of 54 homes under the program. During the three months ended December 31, 2005, the Company sold two of the repurchased homes. The remaining 46 homes were acquired for an

16

aggregate purchase price of $15.2 million. The accrual at December 31, 2005 includes the estimated costs to sell homes that the Company has repurchased, and the Company s estimated losses on the sale of those homes, if any.

Changes in the accrual for Trinity moisture intrusion and related mold issues during the period were as follows (in thousands):

	Three Months Ended December 31,			
		2005		**2004**
Balance at beginning of period	**$**	**80,708**	$	42,173
Provisions				10,000
Payments		**(2,652)**		(6,273)
Balance at end of period	**$**	**78,056**	$	45,900

The accruals at December 31, 2005 represent the Company s best estimates of the costs to resolve all asserted complaints. Actual costs to assess and remediate homes in each category and subdivision, the extent of damage to homes not yet assessed, estimates of costs to sell repurchased homes, and losses on such sales could differ from the Company s estimates. As a result, the costs to resolve existing complaints could differ from the Company s recorded accruals and have a material adverse effect on the Company s earnings in the periods in which the matters are resolved. Additionally, it is possible that the Company will incur additional losses related to these matters, including additional losses related to homes for which the Company has not yet received complaints. However, the amount or range of such losses cannot be determined at this time.

Warranty Reserves Beazer Homes provides a limited warranty (ranging from one to two years) of workmanship and materials with each of its homes. Such warranty covers defects in plumbing, electrical, heating, cooling and ventilating systems and construction defects. In addition, the Company provides a limited warranty (generally ranging from a minimum of ten years up to the period covered by the applicable statute of repose) with each home, covering only certain defined construction defects. Since Beazer Homes subcontracts its homebuilding work to subcontractors who generally provide the Company with an indemnity and a certificate of insurance prior to receiving payments for their work, many claims relating to workmanship and materials are the primary responsibility of the subcontractors.

As noted above, the Company s warranty reserves at December 31, 2005 and September 30, 2005 include accruals for Trinity moisture intrusion and related mold issues. Warranty reserves are included in other payables and accrued liabilities in the condensed consolidated balance sheets. The Company records reserves covering anticipated warranty expense for each home closed. Management reviews the adequacy of warranty reserves each reporting period based on historical experience and management s estimate of the costs to remediate the claims and adjusts these provisions accordingly. While the Company believes that its warranty reserves are adequate, historical data and trends may not accurately predict actual warranty costs, or future developments could lead to a significant change in the reserve.

Changes in the Company s warranty reserves, which include amounts related to the Trinity moisture intrusion and mold issues discussed above, during the period are as follows (in thousands):

	Three Months Ended December 31,			
	2005		2004	
Balance at beginning of period	$	**138,033**	$	86,163
Provisions		**5,858**		18,315
Payments		**(12,086)**		(10,847)
Balance at end of period	$	**131,805**	$	93,631

Other Contingencies - The Company and certain of its subsidiaries have been named as defendants in various claims, complaints and other legal actions, including matters relating to moisture intrusion and related mold claims, construction defects and product liability. Certain of the liabilities resulting from these actions are covered in whole or part by insurance. With respect to certain general liability exposures, including construction defect, moisture intrusion and related mold claims and product liability claims, interpretation of underlying current and future trends, assessment of claims and the related liability and reserve estimation process is highly judgmental due to the complex nature of these exposures, with each exposure exhibiting unique circumstances. In particular, for construction defect liability there is a high degree of uncertainty relating to the extent of insurance coverage, when losses occur, the size of each loss, expectations for future interpretive rulings concerning contract provisions and the extent to which the assertion of these claims will expand geographically. In the Company s opinion, based on its current assessment, the ultimate resolution of these matters will not have a material adverse effect on Beazer Homes financial condition, results of operations, or cash flows.

We had performance bonds and outstanding letters of credit of approximately $517.4 million and $61.0 million, respectively, at December 31, 2005 related principally to our obligations to local governments to construct roads and other improvements in various developments in addition to the letters of credit of approximately $60.3 million relating to our land option contracts discussed in Note 3. We do not believe that any such letters of credit or bonds are likely to be drawn upon.

(9) Stock Repurchase Program

On November 18, 2005, as part of an acceleration of Beazer s comprehensive plan to enhance stockholder value, the Company s Board of Directors authorized an increase in the Company s stock repurchase plan to ten million shares of the Company s common stock. Shares may be purchased for cash in the open market, on the NYSE or in privately negotiated transactions. During the three months ended December 31, 2005, the Company repurchased 1,014,600 shares for an aggregate purchase price of $67.0 million or approximately $66 per share pursuant to the plan. The Company has recently entered into a plan under Rule 10b5-1 of the Securities Act of 1934 to execute a portion of the share repurchase program, and may also make opportunistic purchases in the open market or in privately negotiated transactions.

(10) Segment Information (As Restated)

As defined in SFAS 131, *Disclosures About Segments of an Enterprise and Related Information* , we have 31 homebuilding operating segments operating in 22 states and one financial services segment. Revenues in our homebuilding segments are derived from the sale of homes which we construct and from land and lot sales. Revenues in our financial services segment are derived primarily from mortgage originations provided

18

predominantly to customers of our homebuilding operations. Historically, the Company has reported its homebuilding operations in one reportable segment. Subsequent to the issuance of our condensed consolidated financial statements for the quarter ended December 31, 2005, we have concluded that we should revise our segment disclosure for all periods presented by aggregating our homebuilding segments into four reportable segments, described below, for our homebuilding operations and one reportable segment for our financial services operations. The Company has restated the accompanying condensed consolidated financial statements to revise its segment disclosures for all periods presented. The segments reported have been determined to have similar economic characteristics including similar historical and expected future operating performance, employment trends, land acquisition and land constraints, and municipality behavior and meet the other aggregation criteria in SFAS 131. The reportable homebuilding segments, and all other homebuilding operations not required to be reported separately, include operations conducting business in the following states:

West: Arizona, California, Nevada and New Mexico

Mid-Atlantic: Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia and West Virginia

Florida

Southeast: Georgia, North Carolina, South Carolina and Nashville, Tennessee

Other Homebuilding: Colorado, Indiana, Kentucky, Mississippi, Ohio, Texas and Memphis, Tennessee

Management s evaluation of segment performance is based on segment operating income, which for our homebuilding segments is defined as homebuilding and land sale revenues less the cost of home construction, land development and land sales and certain selling, general and administrative expenses which are incurred by or allocated to our homebuilding segments. Segment operating income for our Financial Services segment is defined as revenues less costs associated with our mortgage operations and certain selling, general and administrative expenses incurred by or allocated to the Financial Services segment. The accounting policies of our segments are those described in the notes to the consolidated financial statements in our 2005 Annual Report and Note 2 herein. The following information is in thousands:

	Three Months Ended December 31,	
	2005	**2004**
Revenue		
West	**$ 368,592**	$ 384,442

Corporate and unallocated (a)	**(21,237)**	(40,072)
Total operating income	**139,752**	110,878
Equity in income (loss) of unconsolidated joint ventures	**352**	(102)
Other income, net	**4,103**	2,564
Income before income taxes	**$ 144,207**	$ 113,340

	December 31, 2005	September 30, 2005
Assets		
West	**$ 1,106,508**	$ 992,959
Mid-Atlantic	**572,748**	520,787
Florida	**334,337**	308,102
Southeast	**410,156**	376,417
Other homebuilding	**634,515**	626,032
Financial Services	**93,216**	92,730
Corporate and unallocated (b)	**701,239**	853,489
Consolidated total	**$ 3,852,719**	$ 3,770,516

(a) Corporate and unallocated includes amortization of capitalized interest and numerous shared services functions that benefit all segments, the costs of which are not allocated to the operating segments reported above including information technology, national sourcing and purchasing, treasury, corporate finance, legal, branding and other national marketing costs. The three months ended December 31, 2004 include $10.0 million of warranty costs associated with construction defect claims from water intrusion in Indiana (see Note 8).

(b) Primarily consists of cash and cash equivalents, consolidated inventory not owned, deferred taxes, and capitalized interest and other corporate items that are not allocated to the segments.

(11) Supplemental Guarantor Information

As discussed in Note 7, Beazer Homes obligations to pay principal, premium, if any, and interest under certain debt are guaranteed on a joint and several basis by substantially all of its subsidiaries. The guarantees are full

and unconditional and the guarantor subsidiaries are 100% owned by Beazer Homes USA, Inc. The Company has determined that separate, full financial statements of the guarantors would not be material to investors and, accordingly, supplemental financial information for the guarantors is presented.

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW:

Homebuilding. We design, sell and build single-family homes in the following geographic regions which are presented as our reportable segments. Those remaining homebuilding operations not separately reportable as segments are included in Other :

West	Mid-Atlantic	Florida	Southeast	Other
Arizona	Delaware	Florida	Georgia	Colorado
California	Maryland		Nashville, TN	Indiana
Nevada	New Jersey		North Carolina	Kentucky
New Mexico	New York		South Carolina	Memphis, TN
	Pennsylvania			Mississippi
	Virginia			Ohio
	West Virginia			Texas

We intend, subject to market conditions, to expand in our current markets through focused product expansion and price point diversification and to consider entering new markets either through expansion from existing markets or through acquisitions of established homebuilders. Our business strategy emphasizes further increasing our market penetration in those markets in which we currently operate most profitably, while continuously reviewing opportunities to curtail or limit investment in less profitable markets.

Our homes are designed to appeal to homeowners at various price points across various demographic segments, and are generally offered for sale in advance of their construction. Our objective is to provide our customers at each price-point with homes that incorporate exceptional value and quality while seeking to maximize our return on invested capital. To achieve this objective, we have developed a business strategy which focuses on the following elements:

Geographic Diversity and Growth Markets. We compete in a large number of geographically diverse markets in an attempt to reduce our exposure to any particular regional economy. Within these markets, we build homes in a variety of projects. Our business strategy entails further increasing our market penetration and investing in our most profitable markets.

Leverage of National Brand. Our national branding strategy presents us as one company with one name, one logo, one message and one purpose. We feel that this strengthened, national brand identity better positions us to consistently address the needs of our customers across all of our markets.

Leverage Size, Scale and Capabilities to Achieve Optimal Efficiencies. We have implemented specific profitability initiatives which focus on leveraging our size, scale and capabilities in order to achieve enhanced gross profit and operating profit margins. These initiatives include:

- leveraging our size to create economies of scale in purchasing and construction;
- standardizing best practices and product designs;

using branding and increased market penetration to maximize efficiency of land use; and

leveraging our fixed cost infrastructure by selectively increasing depth and breadth in markets where

we have an established presence.

Quality Homes at Various Price-Points to Meet the Needs of Increasingly Diverse Homebuyers. We seek to maximize customer satisfaction by offering homes which incorporate quality materials, distinctive design features, convenient locations and competitive prices. During the first quarter of fiscal year 2006, the average sales price of our homes closed was approximately $280,300. Our product strategy entails addressing the needs of an increasingly diverse profile of buyers as evidenced by demographic trends including, among others, increased immigration, changing profiles of households, the aging of the baby-boomers, and the rise of the echo-boomers (children of the baby-boomers) into the ranks of homeownership. Our product offering is broken down into the following product categories:

Economy. These homes are targeted primarily at entry-level buyers, are generally 1,500 square feet or less in size, and are intended to meet the needs of those buyers for whom price is the most important factor in the buying decision.

Value. These homes are targeted at entry-level and move-up buyers, generally range from 1,500 to 2,500 square feet in size, and are intended to appeal to buyers who are more interested in style and features, but are still somewhat price-focused.

Style. These homes are targeted at more affluent move-up buyers, are generally greater than 2,500 square feet in size, and are intended to appeal to buyers in the more luxurious segment of the market, who place greater emphasis on style and features.

In addition, we also offer homes to the active adult market which are targeted to buyers over 55 years of age, in communities with special amenities. We offer these homes within the Economy, Value and Style categories described above. Within each product category, we seek to provide exceptional value and to ensure an enjoyable customer experience.

Seasonal and Quarterly Variability: Our homebuilding operating cycle generally reflects escalating new order activity in the second and third fiscal quarters and increased closings in the third and fourth fiscal quarters.

Financial Services: Recognizing the homebuyer s desire to simplify the financing process, we originate mortgages on behalf of our customers through our subsidiary Beazer Mortgage Corporation, or Beazer Mortgage. Beazer Mortgage originates, processes and brokers mortgages to third party investors. Beginning in the second quarter of fiscal year 2006, Beazer Mortgage financed certain of our mortgage lending activities under its warehouse line of credit or from general corporate funds prior to selling the loans and their servicing rights to third-party investors. We also provide title services to our customers in many of our markets.

***Additional Products and Services for Homebuyers*.** In order to maximize our profitability and provide our customers with the additional products and services that they desire, we have incorporated design centers and mortgage origination operations into our business. Recognizing that our customers want to choose certain components of their new home, we offer limited customization through the use of design studios in most of our markets. These design studios allow the customer to select certain non-structural customizations for their homes such as cabinetry, flooring, fixtures, appliances and wall coverings.

Critical Accounting Policies: Some of our critical accounting policies require the use of judgment in their application or require estimates of inherently uncertain matters. Although our accounting policies are in compliance with accounting principles generally accepted in the United States of America, a change in the facts and circumstances of the underlying transactions could significantly change the application of the accounting policies and the resulting financial statement impact. Listed below are those policies that we believe are critical and require the use of complex judgment in their application.

Inventory Valuation

Housing projects and land held for development and sale are stated at cost (including direct construction costs, capitalized indirect costs, capitalized interest and real estate taxes) unless facts and circumstances indicate that the carrying value of the assets may be impaired. We assess these assets for recoverability in accordance with the provisions of Statement of Financial Accounting Standards (SFAS) 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. SFAS 144 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets is measured by comparing the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If these assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets.

These evaluations for impairment are significantly impacted by estimates of revenues, costs and expenses and other factors. Due to uncertainties in the estimation process, it is reasonably possible that actual results could differ from those estimates. Our assumptions about future home sales prices and volumes require significant judgment because the residential homebuilding industry is cyclical and is highly sensitive to changes in economic conditions. We continue to evaluate the carrying value of our inventory and, based on historical results, believe that our existing estimation process is accurate and do not anticipate the process to materially change in the future.

Goodwill

We test goodwill for impairment annually or more frequently if an event occurs or circumstances change that more likely than not reduce the value of a reporting unit below its carrying value. For purposes of goodwill impairment testing, we compare the fair value of each reporting unit with its carrying amount, including goodwill. Each of our operating divisions is considered a reporting unit. The fair value of each reporting unit is determined based on expected discounted future cash flows. If the carrying amount of a reporting unit exceeds its fair value, goodwill is considered impaired. If goodwill is considered impaired, the impairment loss to be recognized is measured by the amount by which the carrying amount of the goodwill exceeds implied fair value of that goodwill.

Inherent in our fair value determinations are certain judgments and estimates, including projections of future cash flows, the discount rate reflecting the risk inherent in future cash flows, the interpretation of current economic indicators and market valuations and our strategic plans with regard to our operations. A change in these underlying assumptions would cause a change in the results of the tests, which could cause the fair value of one or more reporting units to be less than their respective carrying amounts. In addition, to the extent that there are significant changes in market conditions or overall economic conditions or our strategic plans change, it is possible that a future goodwill impairment charge could result, which could have a material effect on our financial position and results of operations.

Our goodwill has been assigned to reporting units in different geographic locations. Therefore, potential goodwill impairment charges resulting from changes in local market and/or local economic conditions or changes in our strategic plans may be isolated to one or a few of our reporting units. However, our business is concentrated in the homebuilding industry and, as such, a widespread decline in the homebuilding industry or a significant deterioration of economic conditions could have a negative impact on the estimated fair value of a larger number of our reporting units.

While we believe that no impairment existed as of December 31, 2005, future economic or financial developments, including general interest rate increases or poor performance in either the national economy or individual local economies, could lead to impairment of goodwill, prospectively.

Homebuilding Revenues and Costs

Revenue from the sale of a home is recognized when the closing has occurred and the risk of ownership is transferred to the buyer. All associated homebuilding costs are charged to cost of sales in the period when the revenues from home closings are recognized. Homebuilding costs include land and land development costs (based upon an allocation of such costs, including costs to complete the development, or specific lot costs), home construction costs (including an estimate of costs, if any, to complete home construction), previously capitalized indirect costs (principally for construction supervision), capitalized interest and estimated warranty costs. Sales commissions are included in selling, general and administrative expense when the closing has occurred. All other costs are expensed as incurred.

Warranty Reserves

We provide a limited warranty (ranging from one to two years) of workmanship and materials with each of our homes. Such warranty covers defects in plumbing, electrical, heating, cooling and ventilating systems and construction defects. In addition, we provide a limited warranty (generally ranging from a minimum of ten years up to the period covered by the applicable statute of repose) with each of our homes, covering only certain defined construction defects. Since we typically subcontract our homebuilding work to subcontractors who generally provide us with an indemnity and a certificate of insurance prior to receiving payments for their work, many claims relating to workmanship and materials are the primary responsibility of our subcontractors.

Warranty reserves are included in other liabilities in the consolidated balance sheets. We record reserves covering our anticipated warranty expense for each home closed. Management reviews the adequacy of warranty reserves each reporting period, based on historical experience and management s estimate of the costs to remediate the claims, and adjusts these provisions accordingly. Factors that affect our warranty liability include the number of homes sold, historical and anticipated rates of warranty claims, and cost per claim. Based on historical results, we believe that our existing estimation process is accurate and do not anticipate the process to materially change in the future. Our warranty reserves at December 31, 2005 and September 30, 2005 include accruals for certain moisture intrusion issues. Our estimation process for such accruals is discussed in Note 8 to the Unaudited Condensed Consolidated Financial Statements. While we believe that our warranty reserves at December 31, 2005 are adequate, there can be no assurances that historical data and trends will accurately predict our actual warranty costs or that future developments might not lead to a significant change in the reserve.

RESULTS OF OPERATIONS:

($ in thousands)	Three Months Ended December 31, 2005	2004
Revenues:		
Homebuilding	**$ 1,073,427**	$ 902,874
Land and lot sales	**24,955**	1,215
Financial Services	**10,978**	10,854
Intercompany elimination	**(3,744)**	(3,116)
Total	**$ 1,105,616**	$ 911,827
Cost of home construction and land sales:		
Homebuilding	**$ 811,277**	$ 698,299
Land and lot sales	**25,253**	1,172
Intercompany elimination	**(3,744)**	(3,116)
Total	**$ 832,786**	$ 696,355
Gross Profit	**$ 272,830**	$ 215,472
Selling, general and administrative (SG&A) expenses:		
Homebuilding	**$ 122,395**	$ 96,813
Financial Services	**10,683**	7,781
Total	**$ 133,078**	$ 104,594
As a percentage of total revenue:		
Gross Margin	**24.7%**	23.6%
SG&A - homebuilding	**11.1%**	10.6%
SG&A - Financial Services	**1.0%**	0.9%

Revenues: Revenues increased by 21.3% for the three months ended December 31, 2005 compared to the same period in the prior year as the number of homes closed and the average sales price of homes closed increased by 7.1% and 11.0%, respectively. Home closings increased in our Florida and Mid-Atlantic regions, in parts of the Southeast, most notably in South Carolina, in Arizona in our West region and in our Colorado and Texas markets. These increases were partially offset by declines in closings in our Indiana markets and in California and Nevada in our West region. Prior quarter community opening delays and moderation of demand compared to last year resulted in decreased closings in California and Nevada. Average sales price increased in most of our regions due to healthy demand and continued constraints on the supply of available housing in many of our markets. Prices increased most significantly in our Florida, Southeast and Mid-Atlantic regions.

In addition, we had approximately $25 million of land and lot sales in the first quarter of fiscal 2006 as we continued to review opportunities to minimize underperforming investments and reallocate funds to investments that will optimize overall returns.

New Orders and Backlog: New orders increased to 3,872 units, or 9.2%, during the three month period ended December 31, 2005, compared to 3,545 units for the same period in the prior year. The growth in new home orders for the quarter resulted from increases in almost all of the markets in our Florida and Southeast regions and in our Texas, Colorado, and Indiana markets. This growth was partially offset by lower orders in both the Mid-Atlantic and West regions. In the West, increased new home orders in California were offset by declines in Arizona and Nevada resulting from timing issues associated with community openings and moderating incremental demand. In the Mid-Atlantic region, Virginia and Maryland experienced lower demand coupled with higher cancellations compared to the extremely high number of new orders received in the first quarter of last fiscal year.

The aggregate dollar value of homes in backlog at December 31, 2005 of $2.78 billion increased 18.3% from $2.35 billion at December 31, 2004, reflecting a 10.1% increase in the number of homes in backlog and a 7.5% increase in the average price of homes in backlog, from $278,900 at December 31, 2004 to $299,800 at December 31, 2005. The increase in the number of homes in backlog is driven primarily by strong order trends in a majority of the markets in our Florida and Southeast regions and in our Texas, Colorado and Indiana markets. The increase in average price of homes in backlog is due to our ability to raise prices in most of our markets, particularly in our Southeast, West and Mid-Atlantic regions.

Gross Margin: Gross margins increased from 23.6% for the three months ended December 31, 2004 to 24.7% for the quarter ended December 31, 2005. The increase was driven by the execution of profit improvement and price point diversification initiatives and a strong pricing environment in several markets. The 2004 results also include warranty costs associated with construction defect claims from water intrusion at Trinity Homes LLC of $10.0 million or approximately 110 basis points. For further discussion of these additional warranty expenses, please refer to Note 8 to the Unaudited Condensed Consolidated Financial Statements.

Selling, General and Administrative Expense: Selling, general and administrative expense (SG&A) totaled $133.1 million and $104.6 million for the three months ended December 31, 2005 and 2004, respectively. Our SG&A expense as a percentage of total revenues for the three months ended December 31, 2005 increased by 50 basis points compared to

the same period of the prior year primarily related to costs associated with a number of strategic company-wide programs, higher sales commissions and higher incentive compensation.

West: Homebuilding revenues decreased for the three months ended December 31, 2005 compared to the same period of the prior year due to decreased closings in Nevada and California, related to timing issues with community openings, and decreased average sales prices in certain of our California markets due to change in product mix and higher incentives offered to generate sales as compared to last year. Gross margins were 24.9% for the three months ended December 31, 2005 compared to 29.6% for the comparable period of fiscal 2005. Operating margins were 17.3% and 23.9% for the three months ended December 31, 2005 and 2004, respectively. The decrease in gross and operating margins is primarily due to softer market conditions in our California and Nevada markets along with higher subdivision maintenance costs.

Mid-Atlantic: Increased closings and higher average sales prices due to healthy demand and continued constraints on the supply of available housing resulted in increased homebuilding revenues for the three months ended December 31, 2005 compared to December 31, 2004. Gross margins were 33.5% and 27.6% for the three months ended December 31, 2005 and 2004, respectively. Operating margins also increased for the three months ended December 31 to 24.8% for 2005 from 18.5% for 2004. The increase in both gross and operating margins for the three months ended December 31 is primarily due to a strong pricing environment and the related increased contribution from higher average sales prices.

Florida: Homebuilding revenues increased for the three months ended December 31, 2005 compared to the same period of the prior year due to increased closings and increased average sales prices. Gross margins increased to 30.7% from 26.9% for the three months ended December 31, 2005 and 2004, respectively. Operating margins increased to 21.0% from 14.5% for the three months ended December 31, 2005 and 2004, respectively. The increase in gross and operating margins is primarily due to the aforementioned increase in average sales prices, which resulted in a higher leverage of fixed overhead.

Southeast: For the three months ended December 31, 2005 compared to December 31, 2004, homebuilding revenues increased in a majority of the markets within the Southeast driven by increased average sales prices in most of our markets and increased closings in our Georgia and South Carolina markets, offset partially by decreased closings in our Charlotte and Nashville markets. New product offerings in Georgia and the South Carolina markets, including our Atlantic Station community in Georgia, and an improved product mix throughout the region contributed toward the increased average sales prices. Gross margins were 20.3% and 20.8% for the three months ended December 31, 2005 and 2004, respectively. Operating margins were 9.1% and 10.5% for the three months ended December 31, 2005 and 2004, respectively. The decrease in both gross and operating margins was primarily related to additional costs related to new communities in our South Carolina markets and higher subdivision maintenance costs throughout the region.

Other homebuilding: The increase in homebuilding revenues for the three months ended December 31, 2005 from December 31, 2004 reflected strong closings in a majority of our markets. Gross margins for our other homebuilding markets decreased from 15.5% for the three months ended December 31, 2004 to 12.8% for comparable period of 2005. Operating margins decreased from 2.9% to 0.3% for the three months ended December 31, 2004 and 2005, respectively. The decrease in both gross and operating margins was primarily due to a $300,000 loss on $19.0 million of land and lot sales in the quarter ended December 31, 2005.

Financial Services: Our capture rate (the percentage of mortgages we originate as a percentage of homes closed) of mortgages originated for customers of our homebuilding business, which is the most significant source of revenue in this segment, increased for the three months ended December 31, 2005 from December 31, 2004 due primarily to our continued focus on serving our customer base. All costs related to Financial Services are included in selling, general and administrative expenses. Operating income for Financial Services decreased for the three months ended December 31, 2005 from the comparable period of 2004 due primarily to higher price concessions and incentives offered in response to competitive pressures in the refinancing market.

Corporate and unallocated: Corporate and unallocated costs totaled $21.2 million and $40.1 million for the three months ended December 31, 2005 and 2004, respectively. The decrease in corporate and unallocated costs relates primarily to $10.0 million of warranty expenses associated with Trinity construction defect claims recorded in 2004 and a reduction in capitalized inventory costs.

Income Taxes: Our effective income tax rate was 37.65% for the three-month period ended December 31, 2005 and 38.5% for the three month period ended December 31, 2004.

Recent Accounting Pronouncements:

In November 2004, the FASB issued SFAS 151, *Inventory Costs, an Amendment of ARB No. 43, Chapter 4*. SFAS 151 provides clarification of the accounting for abnormal amounts of freight, handling costs, and wasted material and requires that these items be recognized as current period charges. SFAS 151 is effective for

inventory costs incurred beginning in the first quarter of fiscal 2006. The adoption of SFAS 151 did not have material impact on our consolidated results of operations or financial position.

In December 2004, the FASB issued SFAS 123R, *Share Based Payments,* which is effective for the quarter ended December 31, 2005. This statement eliminated the ability to account for share-based compensation transactions using APB Opinion 25, *Accounting for Stock Issued to Employees*, and requires instead that compensation expense be recognized based on the fair value on the date of the grant. The recognition of compensation expense for stock options reduced net income by approximately $710,000 for the quarter ended December 31, 2005. We elected the modified prospective method for our adoption of SFAS 123R. SFAS 123R also requires the benefits of tax deductions in excess of recognized compensation cost to be reported as a financing cash flow, rather than as an operating cash flow as required under current literature. This requirement reduced net operating cash flows and increased net financing cash flows beginning with its adoption in the quarter ended December 31, 2005.

In May 2005, the FASB issued SFAS 154, *Accounting Changes and Error Corrections*, which will be effective in the first quarter of fiscal year 2007. This statement addresses the retrospective application of such changes and corrections and will be followed if and when necessary. We will follow the provisions of this standard in the event of any future accounting changes.

FINANCIAL CONDITION AND LIQUIDITY:

Our sources of cash liquidity include, but are not limited to, cash from operations, amounts available under our revolving credit facility, proceeds from senior notes and other bank borrowings, the issuance of equity securities and other external sources of funds. Our short-term and long-term liquidity depend primarily upon our level of net income, working capital management (accounts receivable, accounts payable and other liabilities) and bank borrowings. We believe that available short-term and long-term capital resources are sufficient to fund capital expenditures and working capital requirements, scheduled debt and dividend payments, and interest and tax obligations for the next twelve months. However, any material variance of our operating results or land acquisitions from our projections or investments in or acquisitions of businesses, could require us to obtain additional equity or debt financing. We plan to use cash generated to invest in growing the business, to fund land acquisitions and operations, pay dividends and to repurchase our common stock. We have targeted using $200-$250 million for repurchases of our common stock in fiscal 2006, subject to market conditions and other factors. We will fund this share repurchase program (discussed further below) by limiting or curtailing operations in underperforming markets, reinvesting in higher margin markets and accelerating cash generation through increased profitability.

At December 31, 2005, we had cash of $12.1 million, compared to $297.1 million at September 30, 2005. The decrease in cash was primarily due to the increase in inventory related to an increased land bank and slightly higher quarter-end backlog and stock repurchases. Our net cash used in operating activities for the quarter ended December 31, 2005 was $285.2 million compared to $195.0 million in the same period of fiscal 2005, as increased inventory supply and options for future growth and payments of income taxes and incentive compensation more than offset increased net income.

Net cash used in investing activities was $23.0 million for the three months ended December 31, 2005 compared to $25.1 million for the same period of fiscal 2005, as we invested in unconsolidated joint ventures to support our land acquisition strategy. Net cash provided by financing activities was $23.2 million for the three months ended December 31, 2005 as proceeds from stock option exercises, increased book overdrafts and net

borrowings under our Revolving Credit Facility more than offset $67.0 million of common stock repurchases. Net cash used in financing activities of $9.6 million for the three months ended December 31, 2004 related primarily to other debt repayments.

At December 31, 2005 we had the following borrowings *(in thousands)*:

Debt	**Due**		**Amount**
Revolving Credit Facility	August 2009	$	50,000
8 5/8% Senior Notes	May 2011		200,000
8 3/8% Senior Notes	April 2012		350,000
6 1/2% Senior Notes	November 2013		200,000
6 7/8% Senior Notes	July 2015		350,000
4 5/8% Convertible Senior Notes	June 2024		180,000
Other Notes Payable	Various Dates		53,487
Unamortized debt discounts			(4,000)
Total		$	1,379,487

Revolving Credit Facility - In August 2005 we entered into a new $750 million (expandable up to $1 billion), four-year unsecured revolving credit facility (the Revolving Credit Facility) with a group of banks that matures in August 2009. The Revolving Credit Facility replaced our former $550 million revolving credit facility and $200 million Term Loan. The Revolving Credit Facility includes a $50 million swing line commitment and has a $350 million sublimit for the issuance of standby letters of credit. Substantially all of the Company s significant subsidiaries are guarantors of the obligations under the Revolving Credit Facility (see Note 11). The Revolving Credit Facility contains various operating and financial covenants. The Company was in compliance with such covenants at December 31, 2005. The Company has the option to elect two types of loans under the Revolving Credit Facility which incur interest as applicable based on either the Alternative Base Rate or the Applicable Eurodollar Margin (both as defined in the Revolving Credit Facility).

Available borrowings under the Revolving Credit Facility are limited to certain percentages of homes under contract, unsold homes, substantially improved lots, lots under development, raw land and accounts receivable. At December 31, 2005, we had $50.0 million borrowings outstanding, and had available borrowings of $585.6 million under the Revolving Credit Facility. The borrowings outstanding under the Revolving Credit Facility bore interest at 5.5% as of December 31, 2005. There were no borrowings outstanding under the Revolving Credit Facility at September 30, 2005.

Senior Notes - The Senior Notes are unsecured obligations ranking pari passu with all other existing and future senior indebtedness. Substantially all of our significant subsidiaries are full and unconditional guarantors of the Senior Notes and our obligations under the Revolving Credit Facility, and are jointly and severally liable for obligations under the Senior Notes, and the Revolving Credit Facility. Each guarantor subsidiary is a 100% owned subsidiary of Beazer Homes.

The indentures under which the Senior Notes were issued contain certain restrictive covenants, including limitations on payment of dividends. At December 31, 2005, under the most restrictive covenants of each indenture, approximately $314.7 million of our retained earnings was available for cash dividends and for share repurchases. Each indenture provides that, in the event of defined changes in control or if our

consolidated

tangible net worth falls below a specified level or in certain circumstances upon a sale of assets, we are required to offer to repurchase certain specified amounts of outstanding Senior Notes.

We periodically acquire land through the issuance of notes payable. As of December 31, 2005 and September 30, 2005, we had outstanding notes payable of $53.5 million and $46.1 million related to land acquisitions and development, respectively. These notes payable mature at various times through 2010 at variable rates ranging from 5.0% to 8.8% at December 31, 2005.

As of December 31, 2005, future maturities of long-term debt are as follows *(in thousands)*:

	Payments Due by Period (in Thousands)				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Senior Notes, Revolving Credit Facility and Other Notes Payable	$ 1,383,487	$ 24,506	$ 28,628	$ 50,353	$ 1,280,000
Interest commitments under interest bearing notes	828,524	99,035	195,463	188,611	345,415
Total contractual cash obligations relating to debt	$ 2,212,011	$ 123,541	$ 224,091	$ 238,964	$ 1,625,415

Our long-term debt and other contractual obligations (principally operating leases) are further described in notes 7, 8 and 10 to our Consolidated Financial Statements which appear in our Annual Report on Form 10-K/A for the year ended September 30, 2005.

Mortgage Warehouse Credit Facility Through December 31, 2005, Beazer Mortgage provided mortgage origination services only, and did not retain or service the mortgages that it originated. These mortgages were funded by a network of mortgage lenders. Effective January 11, 2006, Beazer Mortgage entered into a 364-day credit agreement with a number of banks to fund the origination of residential mortgage loans (the Warehouse Line). This Warehouse Line provides for a maximum available borrowing capacity of $250 million to $350 million based on commitment periods as defined in the Warehouse Line and will be secured by certain mortgage loan sales and related property and the Warehouse Line is neither guaranteed by Beazer Homes USA, Inc. nor any of its subsidiaries that are guarantors of the Senior Notes or Revolving Credit Facility. Beginning in the second quarter of fiscal 2006, Beazer Mortgage will finance certain of our mortgage lending activities with borrowings under the Warehouse Line. The Warehouse Line contains various operating and financial covenants, including covenants to the effect that Beazer Mortgage will (i) maintain minimum tangible net worth and adjusted tangible net worth, (ii) maintain a total debt to adjusted tangible net worth ratio of not more than 12 to 1, and (iii) have net income of at least $1.00 during each fiscal quarter (as defined in the Warehouse Line).

In February 2005, the Company s Board of Directors approved a three-for-one stock split. The stock split was effected in the form of a stock dividend paid on March 22, 2005 to stockholders of record at the close of business on March 10, 2005. All share and per share amounts (except par value) have been retroactively adjusted to reflect the split. There was no net effect on stockholders equity as a result of the stock split.

On November 18, 2005, as part of an acceleration of Beazer s comprehensive plan to enhance stockholder value, our Board of Directors authorized an increase in our stock repurchase plan to ten million shares of the Company s common stock. Shares may be purchased for cash in the open market, on the NYSE or in privately negotiated transactions. During the three months ended December 31, 2005, we repurchased 1,014,600 shares

for an aggregate purchase price of $67.0 million or approximately $66 per share pursuant to the plan. We have recently entered into a plan under Rule 10b5-1 of the Securities Act of 1934 to execute a portion of the share repurchase program, and may also make opportunistic purchases in the open market or in privately negotiated transactions.

We believe that our cash and cash equivalents on hand and current borrowing capacity, together with anticipated cash flows from operations, is sufficient to meet liquidity needs for the foreseeable future. There can be no assurance, however, that amounts available in the future from our sources of liquidity will be sufficient to meet future capital needs. The amount and types of indebtedness that we may incur may be limited by the terms of the indentures governing our Senior Notes and our Term Loan and Revolving Credit Facility. We may consider expansion opportunities through acquisition of established regional homebuilders and such opportunities could require us to seek additional capital in the form of equity or debt financing from a variety of potential sources, including additional bank financing and/or securities offerings.

OFF-BALANCE SHEET ARRANGEMENTS:

We acquire certain lots by means of option contracts. Option contracts generally require the payment of cash for the right to acquire lots during a specified period of time at a certain price. Under option contracts, both with and without specific performance provisions, purchase of the properties is contingent upon satisfaction of certain requirements by us and the sellers. Our obligation with respect to options with specific performance provisions is included on our consolidated balance sheets in other liabilities. Under option contracts without specific performance obligations, our liability is generally limited to forfeiture of the non-refundable deposits, letters of credit and other non-refundable amounts incurred, which aggregated approximately $365.9 million at December 31, 2005. This amount includes letters of credit of approximately $49.6 million. Below is a summary of amounts, net of cash deposits, committed under all options at December 31, 2005 *(in thousands)*:

		Aggregate Exercise Price of Options
Options with specific performance	$	13,677
Options without specific performance		2,900,689
Total options	$	2,914,366

We expect to exercise all of our option contracts with specific performance obligations and, subject to market conditions, substantially all of our option contracts without specific performance obligations. We have historically funded the exercise of land options through a combination of operating cash flows and borrowings under our Revolving Credit Facility. We expect these sources to continue to be adequate to fund anticipated future option exercises. Therefore, we do not anticipate that the exercise of our land options will have a material adverse effect on our liquidity.

Certain of our option contracts are with sellers who are deemed to be Variable Interest Entities (VIE s) under FASB Interpretation No. 46, Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51 (FIN 46). FIN 46 defines a VIE as an entity with insufficient equity investment to finance its planned activities without additional financial support or an entity in which the equity investors lack certain

characteristics of a controlling financial interest. Pursuant to FIN 46, an enterprise that absorbs a majority of the expected losses or receives a majority of the expected residual returns of a VIE is deemed to be the primary beneficiary of the VIE and must consolidate the VIE.

We have determined that we are the primary beneficiary of certain of these option contracts. Our risk is generally limited to the option deposits that we pay, and creditors of the sellers generally have no recourse to the general credit of the Company. Although we do not have legal title to the optioned land, for those option contracts for which we are the primary beneficiary, we are required to consolidate the land under option at fair value. We believe that the exercise prices of our option contracts approximate their fair value. Our condensed consolidated balance sheets at December 31, 2005 and September 30, 2005 reflect consolidated inventory not owned of $346.4 million and $230.1 million, respectively. Obligations related to consolidated inventory not owned totaled $247.8 million at December 31, 2005 and $166.2 million at September 30, 2005. The difference between the balances of consolidated inventory not owned and obligations related to consolidated inventory not owned represents cash deposits paid under the option agreements.

We participate in a number of land development joint ventures in which we have less than a controlling interest. We enter into joint ventures in order to acquire attractive land positions, to manage our risk profile and to leverage our capital base. Our joint ventures are typically entered into with developers, other homebuilders and financial partners to develop finished lots for sale to the joint venture s members and other third parties. We account for our interest in these joint ventures under the equity method. Our condensed consolidated balance sheets include investments in joint ventures totaling $98.2 million and $78.6 million at December 31, 2005 and September 30, 2005 respectively.

Our joint ventures typically obtain secured acquisition and development financing. In some instances, we and our joint venture partners have provided varying levels of guarantees of debt of our unconsolidated joint ventures. At December 31, 2005 and September 30, 2005, we had a repayment guarantee of $10.7 million and $10.4 million, respectively, related to our portion of debt of one of our unconsolidated joint ventures and loan-to-value maintenance guarantees of $70.7 million and $84.6 million, respectively, related to certain of our unconsolidated joint ventures(see Note 4 to the Unaudited Condensed Consolidated Financial Statements for additional information regarding our joint ventures and related guarantees).

There have been no material changes to our aggregate contractual commitments as disclosed in our Annual Report on Form 10-K/A for the year ended September 30, 2005.

OUTLOOK:

The current sales environment in many markets is more difficult than previously anticipated. In addition, as we proactively optimize our capital base and are exiting those markets and selling certain land positions returning less than our overall cost of capital, we do incur some incremental period costs. As such, as of April 27, 2006 we broadened our range for fiscal 2006 diluted earnings per share to $10.00 - $10.50 per share to explicitly address these factors. This represents growth over adjusted 2005 earnings per share of $8.72 or 15-20%. This outlook assumes no further deterioration in new order trends during the remaining spring and summer months of this year.

We remain committed to our stated goal of enhancing margins and profitability by executing our Profitable Growth Strategy. As part of this strategy, we will continue to reallocate capital to those investments which will

yield the highest returns, and return capital to our stockholders through our share repurchase program while maintaining a sound financial position.

Cautionary Statement Pursuant to Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995:

This quarterly report on Form 10-Q/A contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements represent our expectations or beliefs concerning future events, and it is possible that the results described in this quarterly report will not be achieved. These forward-looking statements can generally be identified by the use of statements that include words such as estimate, project, believe, expect, anticipate, intend, plan, foresee, likely, will, goal, target or othe phrases. All forward-looking statements are based upon information available to us on the date of this quarterly report. Except as may be required under applicable law, we do not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

These forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside of our control, that could cause actual results to differ materially from the results discussed in the forward-looking statements, including, among other things, the matters discussed in this quarterly report in the sections captioned Outlook and Financial Condition and Liquidity. Additional information about factors that could lead to material changes in performance is contained Item 1A. Risk Factors of our Annual Report on Form 10-K/A as of September 30, 2005. Such factors may include:

economic changes nationally or in local markets;

volatility of mortgage interest rates and inflation;

increased competition;

shortages of skilled labor or raw materials used in the production of houses;

increased prices for labor, land and raw materials used in the production of houses;

increased land development costs on projects under development;

the cost and availability of insurance, including the availability of insurance for the presence of mold;

the impact of construction defect and home warranty claims;

a material failure on the part of Trinity Homes LLC to satisfy the conditions of the class action settlement agreement;

any delays in reacting to changing consumer preference in home design;

terrorist acts and other acts of war;

changes in consumer confidence;

delays or difficulties in implementing initiatives to reduce production and overhead cost structure;

delays in land development or home construction resulting from adverse weather conditions;

potential delays or increased costs in obtaining necessary permits as a result of changes to, or complying with, laws, regulations, or governmental policies and possible penalties for failure to comply with such laws, regulations and governmental policies;

changes in accounting policies, standards, guidelines or principles, as may be adopted by regulatory agencies as well as the FASB; or

other factors over which the Company has little or no control.

Any forward-looking statement speaks only as of the date on which such statement is made, and, except as required by law, we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time and it is not possible for management to predict all such factors.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to a number of market risks in the ordinary course of business. Our primary market risk exposure relates to fluctuations in interest rates. We do not believe that our exposure in this area is material to cash flows or earnings. As of December 31, 2005, we had $103.5 million of variable rate debt outstanding. Based on our outstanding borrowings under our variable rate debt at December 31, 2005, a one-percentage point increase in interest rates would negatively impact our annual pre-tax earnings by approximately $1 million.

Item 4. Controls and Procedures

As of the end of the period covered by this report on Form 10-Q/A, management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures. Based upon, and as of the date of that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective, in all material respects, to ensure that information required to be disclosed in the reports we file and submit under the Exchange Act is recorded, processed, summarized and reported as and when required. Further our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures have been designed to ensure that information required to be disclosed in reports filed by us under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to management including the Chief Executive Officer and Chief Financial Officer, in a manner to allow timely decisions regarding the required disclosure.

In accordance with Exchange Act Rules 13a-15 and 15d-15, the Company has re-evaluated, under the supervision and with the participation of management, including the Company s Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based upon that re-evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company had reasonable support for its original position and that the design and operation of these disclosure controls and procedures are still effective. The Company has considered the effects of the restatement discussed in Note 10 to the unaudited condensed consolidated financial statements in arriving at this conclusion. The Company does not believe the change in segment disclosure represents a material weakness in disclosure controls and procedures for a number of reasons. The long-standing historical practice of all large, geographically diverse homebuilders has been to report homebuilding operations as one segment. While the new disclosure represents a change in judgment as to the application of SFAS 131, the additional disclosure did not result in any change to the Company s consolidated financial position or its results of operations and cash flows for any of the periods presented. Also, the Company s disclosures in Management s Discussion and Analysis of Financial Condition and Results of Operations have

historically included extensive disclosure regarding performance of the Company s various markets, including disclosures regarding differences in its various geographic regions. While the additional footnote disclosure includes certain additional information, it does not represent a material change in the information provided regarding the Company s performance by region.

There were no significant changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) identified in connection with the foregoing evaluation that occurred during the quarter ended December 31, 2005, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In November 2003, the Company received a request for information from the EPA pursuant to Section 308 of the Clean Water Act seeking information concerning the nature and extent of storm water discharge practices relating to certain of our projects completed or under construction. The EPA has since requested information on additional projects and has conducted site inspections at a number of locations. In certain instances, the EPA or the equivalent state agency has issued Administrative Orders identifying alleged instances of noncompliance and requiring corrective action to address the alleged deficiencies in storm water management practices. As of December 31, 2005, no monetary penalties have been imposed in connection with such Administrative Orders. The EPA has reserved the right to impose monetary penalties at a later date, the amount of which, if any, cannot currently be estimated. The Company has taken action to comply with the requirements of each of the Administrative Orders and is working to otherwise maintain compliance with the requirements of the Clean Water Act.

The Company and certain of its subsidiaries have been named as defendants in various claims, complaints and other legal actions, including claims relating to moisture intrusion and related mold claims, construction defects and product liability. Certain of the liabilities resulting from these actions are covered by insurance. In our opinion, the ultimate resolution of these matters will not have a material adverse effect on our financial condition or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During November and December 2005, the Company repurchased shares of Beazer common stock under an increased ten million stock repurchase program authorized by the Board of Directors on November 18, 2005[(a)]. Under this program, the Company may purchase shares at any time in the open market or in private transactions as market conditions warrant.

The following table sets forth information on the Company s common stock repurchase program activity for the three months ended December 31, 2005. (Amounts in thousands, except per share data):

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Partof Publicly Announced Programs	Maximum Dollar Value of Shares that May Yet be Purchased Under the Programs
November 1 November 30, 2005	778,600	$ 64.78	778,600	(b)
December 1 December 31, 2005	236,000	$ 70.22	236,000	(b)

(a) The Company s stock repurchase program was originally approved in February 2003 and authorized the Company to repurchase up to three million (stock split adjusted) shares of the Company s common stock.

(b) The program was not structured with a maximum dollar amount. As of December 31, 2005, there were approximately 8 million shares available remaining under this program.

Item 6. Exhibits

(a) Exhibits:

31.1	Certification pursuant to 17 CFR 240.13a-14 promulgated under Section 302 of the Sarbanes-Oxley of 2002
31.2	Certification pursuant to 17 CFR 240.13a-14 promulgated under Section 302 of the Sarbanes-Oxley of 2002
32.1	Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.2	Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
