WADDELL & REED FINANCIAL, INC.

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business and Significant Accounting Policies

Waddell & Reed Financial, Inc. and Subsidiaries

Waddell & Reed Financial, Inc. and subsidiaries (hereinafter referred to as the Company, we, our and us) derive revenues from investment management, investment product underwriting and distribution, and shareholder services administration provided to the Waddell & Reed Advisors Group of Mutual Funds (the Advisors Funds), Ivy Funds (the Ivy Funds), Ivy Funds Variable Insurance Portfolios (the Ivy Funds VIP), and InvestEd Portfolios (InvestEd) (collectively, the Advisors Funds, Ivy Funds, Ivy Funds VIP and InvestEd are referred to as the Funds), and institutional and separately managed accounts. The Funds and the institutional and separately managed accounts operate under various rules and regulations set forth by the United States Securities and Exchange Commission (the SEC). Services to the Funds are provided under investment management agreements, underwriting agreements are subject to annual review and approval by each Fund's board of trustees and shareholders. Our revenues are largely dependent on the total value and composition of assets under management. Accordingly, fluctuations in financial markets and composition of assets under management can significantly impact revenues and results of operations.

Basis of Presentation

We have prepared the accompanying unaudited consolidated financial statements included herein pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to such rules and regulations, although we believe that the disclosures are adequate to enable a reasonable understanding of the information presented. The information in this Quarterly Report on Form 10-Q should be read in conjunction with Part I, Item 2 Management s Discussion and Analysis of Financial Condition and Results of Operations and our audited financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2010 (the 2010 Form 10-K). Certain amounts in the prior period financial statements have been reclassified for consistent presentation.

The accompanying unaudited consolidated financial statements are prepared consistently with the accounting policies described in Note 2 to the consolidated financial statements included in our 2010 Form 10-K, which include the following: use of estimates, cash and cash equivalents, disclosures about fair value of financial instruments, investment securities and investments in mutual funds, property and equipment, software developed for internal use, goodwill and identifiable intangible assets, deferred sales commissions, revenue recognition, advertising and promotion, share-based compensation, accounting for income taxes and derivatives and hedging activities.

In our opinion, the accompanying unaudited consolidated financial statements reflect all adjustments (consisting of only a normal and recurring nature) necessary to present fairly our financial position at September 30, 2011, the results of operations for the three and nine months ended September 30, 2011 and 2010, and cash flows for the nine months ended September 30, 2011 and 2010 in conformity with accounting principles generally accepted in the United States.

2. Accounting Pronouncements Not Yet Adopted

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). This ASU was issued concurrently with International Financial Reporting Standard (IFRS) 13, *Fair Value Measurements* (IFRS 13), to provide largely identical guidance about fair value measurement and disclosure requirements. The new standards do not extend the use of fair value but, rather, provide guidance about how fair value should be applied where it already is required or permitted under IFRS or U.S. GAAP. For U.S. GAAP, most of the changes are clarifications of existing guidance or wording changes to align with IFRS 13. This standard is effective for interim and annual periods beginning after December 15, 2011 and is required to be applied prospectively. In the period of adoption, a reporting entity will be required to disclose a change, if any, in valuation technique and related inputs that result from applying the ASU and to quantify the total effect, if practicable. The Company expects that the adoption of ASU 2011-04 in 2012 will not have a material impact on its consolidated financial statements.

In June 2011, the FASB issued ASU 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income* (ASU 2011-05). Under this ASU, an entity will have the option to present the components of net income and comprehensive income in either one or two consecutive financial statements. The ASU eliminates the option in U.S. GAAP to present other comprehensive income in the statement of changes in equity. This ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011 and is required to be applied retrospectively. The Company is currently in compliance with this standard.

In September 2011, the FASB issued ASU 2011-08, *Intangibles Goodwill and Other (Topic 350): Testing Goodwill for Impairment* (ASU 2011-08). This ASU permits an entity to make a qualitative assessment of whether it is more likely than not that a reporting unit s fair value is less than its carrying value before applying the two-step goodwill impairment test. If an entity concludes it is not more likely than not that the fair value of a reporting unit is less than its carrying value, it need not perform the two-step impairment test. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. The Company will comply with this standard upon adoption in 2012.

3. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and short-term investments. We consider all highly liquid investments with maturities upon acquisition of 90 days or less to be cash equivalents. Cash and cash equivalents restricted represents cash held for the benefit of customers segregated in compliance with federal and other regulations.

4. Investment Securities

Investment securities at September 30, 2011 and December 31, 2010 are as follows:

September 30, 2011	Amortized cost	Unrealized gains (in thousar	Unrealized losses nds)	Fair value

Total temporarily impaired securities	\$	810	(10)	2,857	(212)	3,667	(222)

Based upon our assessment of these municipal bonds, corporate bonds and mutual funds, the time frame investments have been in a loss position, our intent to hold mutual funds until they have recovered and our history of holding bonds until maturity, we determined that a write-down was not necessary at September 30, 2011.

Mortgage-backed securities, municipal bonds and corporate bonds accounted for as available for sale and held as of September 30, 2011 mature as follows:

	Ar	nortized	
		cost	Fair value
		(in thousands)
Within one year	\$	14,845	14,684
After one year but within 10 years		29,777	29,718
After 10 years		1,001	976
	\$	45,623	45,378

Mortgage-backed securities, municipal bonds and corporate bonds accounted for as trading and held as of September 30, 2011 mature as follows:

	ir value housands)
After one year but within 10 years	\$ 13,424
After 10 years	64
	\$ 13,488

Table of Contents

We determine the fair value of our investments using broad levels of inputs as defined by related accounting standards as follows:

• Level 1 Investments are valued using quoted prices in active markets for identical securities at the reporting date. Assets classified as Level 1 include mutual funds classified as available for sale and mutual funds and common stock classified as trading.

• Level 2 Investments are valued using other significant observable inputs, including quoted prices in active markets for similar securities. Assets classified as Level 2 include mortgage-backed securities, municipal bonds and corporate bonds.

• Level 3 Investments are valued using significant unobservable inputs, including the Company s own assumptions in determining the fair value of investments.

The following table summarizes investment securities recognized on our balance sheet using fair value measurements based on the differing levels of inputs:

	Sep	September 30, 2011	
		(in thousan	lds)
Level 1	\$	64,710	189,445
Level 2		58,866	3,166
Level 3			
Total	\$	123,576	192,611

5. Goodwill and Identifiable Intangible Assets

Goodwill represents the excess of the purchase price over the tangible assets and identifiable intangible assets of an acquired business. Our goodwill is not deductible for tax purposes. Goodwill and identifiable intangible assets (all considered indefinite-lived) are as follows:

September 30, 2011 (in thousands)	December 31, 2010

Table of Contents

6. Indebtedness

On January 13, 2006, the Company issued \$200.0 million in principal amount 5.60% senior notes due 2011 (the Notes) resulting in net proceeds of approximately \$198.2 million (net of discounts, commissions and estimated expenses). Interest was payable semi-annually on January 15 and July 15 at a fixed rate of 5.60% per annum. During the first quarter of 2010, we repurchased \$10.0 million of the Notes.

On August 31, 2010, the Company entered into an agreement to complete a \$190.0 million private placement of senior unsecured notes that were issued and sold in two tranches: \$95.0 million bearing interest at 5.0% and maturing January 13, 2018 (the Series A Notes) and \$95.0 million bearing interest of 5.75% and maturing January 13, 2021 (the Series B Notes) (collectively, the Senior Notes). The agreement contained a delayed funding provision that allowed the Company to draw down the proceeds in January 2011 when the Notes matured. The Company used the proceeds of the issuance and sale of the Senior Notes to repay in full the Notes. Interest is payable semi-annually in January and July of each year. The most restrictive provisions of the agreement require the Company to maintain a consolidated leverage ratio not to exceed 3.0 to 1.0 for four consecutive quarters and a consolidated interest coverage ratio of not less than 4.0 to 1.0 for four consecutive quarters. The Company was in compliance with these covenants and similar covenants in prior facilities for all periods presented.

Debt is reported at its carrying amount on the consolidated balance sheet. The fair value of the Company s outstanding indebtedness is approximately \$188.2 million as of September 30, 2011 compared to the carrying value of \$190.0 million. The following is a summary of long-term debt at September 30, 2011 and December 31, 2010:

	Se	ptember 30, 2011	December 31, 2010
		(in thousands)
Principal amount unsecured 5.0% senior notes due in 2018	\$	95,000	
Principal amount unsecured 5.75% senior notes due in 2021		95,000	
Principal amount unsecured 5.60% senior notes due in 2011			190,000
Discount on unsecured 5.60% senior notes due in 2011			(1)
Total	\$	190,000	189,999

7. Income Tax Uncertainties

As of January 1, 2011 and September 30, 2011, the Company had unrecognized tax benefits, including penalties and interest, of \$6.6 million (\$4.6 million net of federal benefit) and \$8.4 million (\$6.0 million net of federal benefit), respectively, that if recognized, would impact the Company s effective tax rate. Unrecognized tax benefits that are not expected to be settled within the next 12 months are included in other liabilities in the consolidated balance sheets; unrecognized tax benefits that are expected to be settled within the next 12 months are included in income taxes payable.

The Company s accounting policy with respect to interest and penalties related to income tax uncertainties is to classify these amounts as income taxes. As of January 1, 2011, the total amount of accrued interest and penalties related to uncertain tax positions recognized in the consolidated balance sheet was \$1.9 million (\$1.5 million net of federal benefit). The total amount of penalties and interest, net of federal benefit, related to income tax uncertainties recognized in the statement of income for the nine month period ended September 30, 2011 was \$0.3 million. The total

amount of accrued penalties and interest related to uncertain tax positions at September 30, 2011 of \$2.2 million (\$1.8 million net of federal benefit) is included in the total unrecognized tax benefits described above.

In the ordinary course of business, many transactions occur for which the ultimate tax outcome is uncertain. In addition, respective tax authorities periodically audit our income tax returns. These audits examine our significant tax filing positions, including the timing and amounts of deductions and the allocation of income among tax jurisdictions. The 2008, 2009 and 2010 federal income tax returns are open tax years that remain subject to potential future audit. Nearly all state income tax returns for all years after 2007, and in certain states, income tax returns for 2006 and 2007, are subject to potential future audit by tax

Table of Contents

authorities in the Company s major state tax jurisdictions. The 2005, 2006 and 2007 tax years also remain open to a limited extent on federal and certain state income tax returns due to capital loss carryback claims.

The Company is currently being audited in various state jurisdictions. It is reasonably possible that the Company will settle the audits in these jurisdictions within the next 12-month period. It is estimated that the Company s liability for unrecognized tax benefits, including penalties and interest, could decrease by approximately \$0.2 million to \$1.9 million (\$0.2 million to \$1.3 million net of federal benefit) upon settlement of these audits. Such settlements are not anticipated to have a significant impact on the results of operations.

8. Pension Plan and Postretirement Benefits Other Than Pension

We provide a non-contributory retirement plan that covers substantially all employees and certain vested employees of our former parent company (the Pension Plan). Benefits payable under the Pension Plan are based on employees years of service and compensation during the final ten years of employment. We also sponsor an unfunded defined benefit postretirement medical plan that covers substantially all employees, including Waddell & Reed and Legend advisors. The medical plan is contributory with retiree contributions adjusted annually. The medical plan does not provide for post age 65 benefits with the exception of a small group of employees that were grandfathered when such plan was established.

The components of net periodic pension and other postretirement costs related to these plans are as follows:

	Pension Ber Three months September	ended	Oth Postretir Benef Three mont Septemb	ement fits hs ended	Pension B Nine mo ende Septemb	onths d	Othe Postretir Benef Nine mo ende Septemb	ement fits onths ed
	2011	2010	2011	2010	2011	2010	2011	2010
		(in thousa	nds)			(in thousa	nds)	
Components of net periodic benefit cost:								
Service cost	\$ 1,775	1,535	139	111	5,326	4,605	418	332
Interest cost	1,799	1,649	100	91	5,397	4,947	301	273
Expected return on								
plan assets	(2,191)	(1,875)			(6,573)	(5,624)		
Actuarial loss								
amortization	451	404			1,353	1,212		
Prior service cost	100	100					10	
amortization	139	139	14	11	417	417	42	34
Transition obligation amortization	1	1			3	3		
Total	\$ 1,974	1,853	253	213	5,923	5,560	761	639

During the first quarter of 2011, we made a \$10.0 million contribution to the Pension Plan. We do not expect to make additional contributions to the Pension Plan for the remainder of 2011.

9. Stockholders Equity

Earnings per Share

The components of basic and diluted earnings per share were as follows:

	Three months ended September 30,			Nine months ended September 30,	
		2011	2010	2011	2010
		(ii	thousands, except per s	share amounts)	
Net income	\$	39,834	40,533	135,437	110,594
Weighted average shares outstanding - basic		85,776	85,438	85,951	85,683
Dilutive potential shares from stock options		6	10	13	32
Weighted average shares outstanding -					
diluted		85,782	85,448	85,964	85,715
Earnings per share:					
Basic	\$	0.46	0.47	1.58	1.29
Diluted	\$	0.46	0.47	1.58	1.29

Anti-dilutive Securities

Options to purchase 27 thousand shares of our common stock were excluded from the diluted earnings per share calculation for the three months ended September 30, 2011 because they were anti-dilutive. There were no anti-dilutive options for the nine months ended September 30, 2011. Options to purchase 401 thousand shares and 327 thousand shares of our common stock were excluded from the diluted earnings per share calculation for the three and nine months ended September 30, 2010, respectively, because they were anti-dilutive.

Dividends

On July 20, 2011, the Board of Directors approved a dividend on our common stock in the amount of \$0.20 per share to stockholders of record as of October 3, 2011 to be paid on November 1, 2011. The total dividend to be paid is approximately \$17.1 million.

Common Stock Repurchases

The Board of Directors has authorized the repurchase of our common stock in the open market and/or private purchases. The acquired shares may be used for corporate purposes, including shares issued to employees in our stock-based compensation programs. There were 651,878 shares and 37,087 shares repurchased in the open market or privately during the three months ended September 30, 2011 and 2010, respectively, which included 1,355 shares and 27,087 shares repurchased from employees who elected to tender shares to cover their minimum income tax withholdings with respect to vesting of stock awards during the three months ended September 30, 2011 and 2010, respectively. There were 1,609,551 shares and 1,916,297 shares repurchased in the open market or privately during the nine months ended September 30, 2011 and 2010, respectively, which included 341,527 shares and 299,417 shares repurchased from employees who elected to tender shares to cover their minimum income tax withholdings with respect to vesting of stock awards during the open market or privately during the nine months ended September 30, 2011 and 2010, respectively, which included 341,527 shares and 299,417 shares repurchased from employees who elected to tender shares to cover their minimum income tax withholdings with respect to vesting of stock awards during each of these two periods.

10. Share-Based Compensation

A summary of stock option activity and related information for the nine months ended September 30, 2011 is presented in the table below. All options outstanding expire prior to December 31, 2013.

	Options	Weighted average exercise price
Outstanding, December 31, 2010	298,295	\$ 29.98
Granted		
Exercised	(156,112)	30.89
Terminated/Cancelled	(76,347)	29.21
Outstanding, September 30, 2011	65,836	\$ 28.70
Exercisable, September 30, 2011	65,836	\$ 28.70

11. Contingencies

The Company is involved from time to time in various legal proceedings, regulatory investigations and claims incident to the normal conduct of business, which may include proceedings that are specific to us and others generally applicable to business practices within the industries in which we operate. A substantial legal liability or a significant regulatory action against us could have an adverse effect on our business, financial condition and on the results of operations in a particular quarter or year.

Michael E. Taylor, Kenneth B. Young, individuals, on behalf of themselves individually and on behalf of others similarly situated v. Waddell & Reed, Inc. and DOES 1 through 10 inclusive; Case No. 09-CV-2909 AJB (WVG); in the United States District Court for the Southern District of California.

In this action filed December 28, 2009, the Company, along with various of its affiliates, were sued in an individual action, class action and Fair Labor Standards Act (FLSA) nationwide collective action by two former advisors asserting misclassification of financial advisors as independent contractors instead of employees. Only Waddell & Reed, Inc. remains as a defendant in the case. Plaintiffs assert claims under the FLSA for minimum and overtime wages, claims under California Labor Code Statutes, and a claim for Unfair Business Practices under the California Business & Professions Code. Plaintiffs seek declaratory and injunctive relief and monetary damages. Plaintiffs have moved to conditionally certify the purported FLSA collective action, asking the court to allow certain financial advisors the opportunity to opt in to the lawsuit. The Company has opposed this request. If the court conditionally certifies the FLSA collective action, certain current and former financial advisors will be provided written notice of the lawsuit and offered the opportunity to participate as plaintiffs. If conditional certification is granted, the scope and cost of the case would increase, particularly where there is a high participation rate by those notified. The Company intends to continue vigorously contesting plaintiffs claims.

In the opinion of management, the ultimate resolution and outcome of this matter is uncertain. At this stage of the litigation, the Company is unable to estimate the expense or exposure, if any, that it may represent. The ultimate resolution of this matter, or an adverse determination against the Company, could have a material adverse impact on the financial position and results of operations of the Company. However, this

possible impact is unknown and not reasonably determinable; therefore, no liability has been recorded in the consolidated financial statements.

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which reflect the current views and assumptions of management with respect to future events regarding our business and industry in general. These forward-looking statements include all statements, other than statements of historical fact, regarding our financial position, business strategy and other plans and objectives for future operations, including statements with respect to revenues and earnings, the amount and composition of assets under management, distribution sources, expense levels, redemption rates and the financial markets and other conditions. These statements are generally identified by the use of such believe, forecast, estimate, plan. should, would, anticipate, intend, outlook, words as may, could. expect, project, statements of a future or forward-looking nature. Readers are cautioned that any forward-looking information provided by or on behalf of the Company is not a guarantee of future performance. Actual results may differ materially from those contained in these forward-looking statements as a result of various factors, including but not limited to those discussed below. If one or more events related to these or other risks, contingencies or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may differ materially from those forecasted or expected. Certain important factors that could cause actual results to differ materially from our expectations are disclosed in the Risk Factors section of our Annual Report on Form 10-K for the year ended December 31, 2010, which include, without limitation:

• The introduction of legislative or regulatory proposals or judicial rulings that change the independent contractor classification of our financial advisors at the federal or state level for employment tax or other employee benefit purposes;

• The adverse ruling or resolution of any litigation, regulatory investigations and proceedings, or securities arbitrations by a federal or state court or regulatory body;

• Non-compliance with applicable laws or regulations and changes in current legal, regulatory, accounting, tax or compliance requirements or governmental policies;

• A decline in the securities markets or in the relative investment performance of our Funds and other investment portfolios and products as compared to competing funds;

•

The loss of existing distribution channels or inability to access new distribution channels;

• A reduction in assets under our management on short notice, through increased redemptions in our distribution channels or our Funds, particularly those Funds with a high concentration of assets, or investors terminating their relationship with us or shifting their funds to other types of accounts with different rate structures;

A decrease in, or the elimination of, any future quarterly dividend paid to stockholders; and

N

Our inability to hire and retain senior executive management and other key personnel.

•

The foregoing factors should not be construed as exhaustive and should be read together with other cautionary statements included in this and other reports and filings we make with the Securities and Exchange Commission, including the information in Item 1 Business and Item 1A Risk Factors of Part I and Item 7 Management s Discussion and Analysis of Financial Condition and Results of Operations of Part II to our Annual Report on Form 10-K for the year ended December 31, 2010 and as updated in our quarterly reports on Form 10-Q for the year ending December 31, 2011. All forward-looking statements speak only as the date on which they are made and we undertake no duty to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Table of Contents

Overview

We are one of the oldest mutual fund and asset management firms in the country, with expertise in a broad range of investment styles and across a variety of market environments. Our earnings and cash flows are heavily dependent on financial market conditions. Significant increases or decreases in the various securities markets can have a material impact on our results of operations, financial condition and cash flows.

We derive our revenues from providing investment management, investment product underwriting and distribution, and shareholder services administration primarily to mutual funds and institutional and separately managed accounts. Investment management fees are based on the amount of average assets under management and are affected by sales levels, financial market conditions, redemptions and the composition of assets. Our underwriting and distribution revenues consist of commissions derived from sales of investment and insurance products, Rule 12b-1 asset-based service and distribution fees, distribution fees on certain variable products, fees earned on fee-based asset allocation products, and related advisory services. The products sold have various commission structures and the revenues received from those sales vary based on the type and amount sold. Shareholder service fee revenue includes transfer agency fees, custodian fees from retirement plan accounts, portfolio accounting and administration fees, and is earned based on assets under management or number of accounts.

One of our distinctive qualities is that we are a significant distributor of investment products. Our retail products are distributed through our Advisors channel sales force of independent financial advisors or through our Wholesale channel, which includes third-parties such as other broker/dealers, registered investment advisors (including the retirement advisors of Legend) and various retirement platforms. We also market our investment advisory services to institutional investors, either directly or through consultants, in our Institutional channel.

Third Quarter Highlights

During the third quarter, we operated in a period of high volatility in the financial markets. Over the three month period the Dow Jones Industrial Average declined 12% and the Standard & Poor s 500 Index declined 14%. Our assets under management decreased from \$91.7 billion to \$77.5 billion, or 16%, during this period. Our average assets under management of \$87.4 billion during the third quarter grew 21% compared to the third quarter of 2010, resulting in an increase in revenues in this year s third quarter.

Net income decreased 2% compared to the third quarter of 2010, however our operating margin improved to 25.2%, an improvement of 170 basis points compared to last year s third quarter. Compared to the second quarter of 2011, net income decreased 20% and our operating margin decreased 30 basis points.

During the quarter, our trading investment portfolio experienced a decline of \$3.4 million and we recorded a write-down on a partnership interest of \$1.0 million. Because of these adjustments, our tax valuation allowance was increased by \$1.6 million to account for the potential of not realizing past capital loss carryforward claims in the future. The resulting impact of these investment and tax adjustments on our quarterly earnings for the third quarter totaled \$4.4 million. Our results for the quarter were also impacted by our decision to write-off software capitalization costs of \$1.8 million due to the discontinuation of use of certain software licenses.

In our Wholesale channel, our continuing efforts to diversify sales resulted in sales of products other than Asset Strategy accounting for 46% of total sales during the third quarter of 2011, an improvement compared to 40% of total sales for fiscal 2010, but less than the 53% achieved during the second quarter of 2011.

We believe our balance sheet is strong, and we ended the quarter with cash and investments of \$440.1 million. In January 2011, the Company drew down the proceeds from a \$190.0 million private placement of Senior Notes and used the proceeds to repay in full its existing senior notes.

Table of Contents

Assets Under Management

Assets under management decreased to \$77.5 billion on September 30, 2011 compared to \$91.7 billion on June 30, 2011 due primarily to market depreciation of \$15.6 billion, partially offset by net flows of \$1.3 billion.

Net income for the nine months ended September 30, 2011 was \$135.4 million, or \$1.58 per diluted share, compared to net income of \$110.6 million, or \$1.29 per diluted share, for the same period in 2010.

Table of Contents

Total Revenues

Total revenues increased 17% to \$297.7 million for the three months ended September 30, 2011 compared to the three months ended September 30, 2010 due to a rise in average assets under management of 21% and an increase in gross sales of 38%. Revenues were \$904.3 million for the nine months ended September 30, 2011, an increase of 18% over revenues for the same period in 2010, attributable to a rise in average assets under management of 23% and an increase in gross sales of 17% for the nine months ended September 30, 2011 compared to the same period in the prior year.

Total revenues	\$	904,268	763,640	18%	

Investment Management Fee Revenues

Investment management fee revenues are earned for providing investment advisory services to the Funds and to institutional and separate accounts. Investment management fee revenues increased \$22.3 million, or 20%, from last year s third quarter and \$70.2 million, or 21%, for the nine month period ended September 30, 2011 compared to the same period in 2010.

Revenues from investment management services provided to our retail mutual funds, which are distributed through the Advisors, Wholesale and Institutional channels, were \$123.4 million for the quarter ended September 30, 2011. Revenues increased \$20.6 million, or 20%, compared to the third quarter of 2010, while the related retail average assets increased 20% to \$76.9 billion. For the nine months ended September 30, 2011, revenues from investment management services provided to our retail mutual funds increased \$63.6 million, or 21%, to \$373.5 million compared to the first nine months of 2010, while the related retail average assets increased 22% to \$77.9 billion. For the nine month comparison period, investment management fee revenues increased less than the related retail average assets due to the effect of recording management fee waivers, mostly for money market funds, as an offset to investment management fees beginning in the second half of 2010.

Institutional account revenues were \$10.1 million for the third quarter of 2011, representing an increase of \$1.7 million, or 21%, from last year s third quarter, and were \$30.6 million for the nine month period ended September 30, 2011, an increase of 28% compared to the same period in 2010. For both comparative periods, average assets increased approximately 30%. Account revenues increased less than the related average assets due to a decline in the average management fee rate, attributable to the lower management fee rates of recent, significant mandates.

Long-term redemption rates (which exclude money market fund redemptions) in the Advisors channel were 10.0% in this year s third quarter and 9.9% year-to-date, compared to 10.0% in the third quarter of

Table of Contents

2010 and 9.2% for the first nine months of 2010. In the Wholesale channel, long-term redemption rates were 31.0% for the quarter ended September 30, 2011, compared to 29.2% in the third quarter of 2010. For the nine months ended September 30, 2011, the Wholesale channel s long-term redemption rate decreased to 27.6% compared to 30.6% for the same period in 2010. We expect the Advisors channel long-term redemption rate to remain lower than that of the Wholesale channel due to the personal and customized nature in which our financial advisors provide service to our clients.

Long-term redemption rates for our Institutional channel were 27.8% and 34.4% for the third quarter of 2011 and 2010, respectively, and decreased to 25.5% for the nine month period ended September 30, 2011 compared to 30.1% for the same period in 2010.

Our overall redemption rates of 22.9% and 20.7% for the third quarter and first nine months of 2011, respectively, remain low compared to the year to date industry average of 27%, based on data from the ICI.

Underwriting and Distribution Fee Revenues and Expenses

The following tables summarize our underwriting and distribution fee revenues and expenses segregated by distribution method within the respective Advisors or Wholesale channel:

	Advisors	Third Quarter 2011 Wholesale (in thousands)	Total
Revenue	\$ 70,088	60,913	131,001
Expenses			
Direct	49,748	65,526	115,274
Indirect	24,761	11,901	36,662
	74,509	77,427	151,936
Net Underwriting & Distribution	\$ (4,421)	(16,514)	(20,935)

	Advisors	Third Quarter 2010 Wholesale (in thousands)	Total
Revenue	\$ 60,862	53,209	114,071
Expenses			
Direct	43,472	56,351	99,823
Indirect	21,142	11,892	33,034
	64,614	68,243	132,857

	Advisors	Year to Date 2010 Wholesale (in thousands)	Total
Revenue	\$ 182,843	158,909	341,752
Expenses			
Direct	129,163	171,127	300,290
Indirect	65,734	34,205	99,939
	194,897	205,332	400,229
Net Underwriting & Distribution	\$ (12,054)	(46,423)	(58,477)

Underwriting and distribution revenues earned in this year s third quarter increased \$16.9 million, or 15%, compared with the third quarter of 2010. Revenues from fee-based asset allocation products increased \$9.1 million compared to the prior year. Rule 12b-1 asset-based service and distribution fee revenues increased \$8.4 million as a result of an increase in average mutual fund assets under management. Variable annuity revenues increased \$0.6 million compared to 2010, but the increase was offset by a decrease in other front-load product sales revenue period over period.

Underwriting and distribution revenues earned for the nine months ended September 30, 2011 increased \$59.4 million, or 17%, compared with the same period in 2010. Over half of this increase in revenues was due to higher Rule 12b-1 asset-based service and distribution fee revenues of \$30.6 million as a result of an increase in average mutual fund assets under management. Revenues from fee-based asset allocation products increased \$25.8 million compared to the prior year. Variable annuity revenues increased \$6.2 million compared to 2010, but the increase was offset by a decrease in other front-load product sales revenue period over period.

Underwriting and distribution expenses increased by \$19.1 million, or 14%, compared to the third quarter of 2010. A significant portion of this increase was attributed to higher direct expenses in the Wholesale channel of \$9.2 million as a result of an increase in average wholesale assets under management and higher sales volume year over year. We incurred higher dealer compensation paid to third party distributors and increased Rule 12b-1 asset-based service and distribution expenses. Wholesaler commissions expense increased due to higher sales volumes. These increases were partially offset by lower amortization expense of deferred sales commissions. Direct expenses in the Advisors channel increased \$6.3 million, or 14%, compared to the third quarter of 2010 due to increased commissions related to the sale of fee-based asset allocation products of \$6.6 million and higher Rule 12b-1 asset-based service and distribution commissions of \$1.3 million. Indirect expenses increased \$3.6 million compared to the quarter ended September 30, 2010 due to increased employee compensation and benefits expenses, higher marketing costs and higher convention costs.

Underwriting and distribution expenses increased by \$60.9 million, or 15%, compared to the first nine months of 2010. A significant portion of this increase was attributed to higher direct expenses in the Wholesale channel of \$30.4 million as a result of an increase in average wholesale assets under management and higher

Table of Contents

sales volume year over year. We incurred higher dealer compensation paid to third party distributors and increased Rule 12b-1 asset-based service and distribution expenses. Wholesaler commissions expense increased due to higher sales volumes. These increases were partially offset by lower amortization expense of deferred sales commissions. Direct expenses in the Advisors channel increased \$23.9 million, or 18%, compared to the first nine months of 2010 due to increased commissions related to the sale of fee-based asset allocation products of \$17.6 million and higher Rule 12b-1 asset-based service and distribution commissions of \$7.2 million. Indirect expenses increased \$6.7 million compared to the first nine months of 2010, related to increased employee compensation and benefits expenses, higher marketing costs and higher convention costs.

Shareholder Service Fees Revenue

Shareholder service fees revenue primarily includes transfer agency fees, custodian fees from retirement plan accounts, and portfolio accounting and administration fees. Portfolio accounting and administration fees are asset-based revenues or account-based revenues, while transfer agency fees and custodian fees from retirement plan accounts are based on the number of accounts. During the third quarter of 2011, shareholder service fees revenue increased \$3.7 million, or 12%, over the third quarter of 2010. Of this increase, \$2.6 million is due to higher asset-based fees quarter over quarter in certain share classes and \$1.1 million is attributable to account-based revenues due to a 3% increase in the average number of accounts. For the nine month period ended September 30, 2011, shareholder service fees revenue increased \$11.0 million, or 13%, compared to the same period in 2010. Of this increase, \$10.2 million is attributable to account-based revenues due to a 2% increase in the average number of accounts and \$0.8 million is due to higher asset-based fees in certain share classes.

Total Operating Expenses

Operating expenses increased \$27.7 million, or 14%, in the third quarter of 2011 compared to the third quarter of 2010, primarily due to increased underwriting and distribution expenses and general and administrative costs. For the nine months ended September 30, 2011, operating expenses increased \$92.5 million, or 16%, compared to the same period in 2010, primarily due to increased underwriting and distribution expenses, compensation and related costs and general and administrative costs. Underwriting and distribution expenses are discussed above.

		2011	2010	Variance
		(in thousands,	except percentage data)	
Underwriting and distribution	\$	151,936	132,857	14%
Compensation and related costs		37,052	36,164	2%
General and administrative		22,491	16,022	40%
Subadvisory fees		7,291	6,481	12%
Depreciation		3,980	3,526	13%
Total operating expenses	\$	222,750	195,050	14%

	Nine Months Ended September 30,				
		2011	2010	Variance	
	(in thousands, except percentage data)				
Underwriting and distribution	\$	461,159	400,229	15%	
Compensation and related costs		119,619	103,444	16%	

General and administrative	59.622	48.417	23%
	39,022	40,417	23 10
Subadvisory fees	23,684	20,441	16%
Depreciation	11,426	10,457	9%
Total operating expenses	\$ 675,510	582,988	16%

Compensation and Related Costs

Compensation and related costs increased \$0.9 million compared to the third quarter of 2010, due to higher base salaries and payroll taxes of \$1.9 million associated with increased headcount and annual salary increases and decreased capitalized software development activities of \$1.0 million, partially offset by lower incentive compensation expense of \$3.2 million. Share-based compensation increased \$0.7 million compared to the third quarter of 2010 due to higher amortization expense associated with our April 2011 and December 2010 grants of nonvested stock compared to grants that became fully vested in 2011 partially offset by lower non-employee advisor (independent contractor) stock award amortization expense in 2011 compared to 2010.

Compensation and related costs for the nine months ended September 30, 2011 increased \$16.2 million compared to the same period in 2010, primarily due to higher base salaries and payroll taxes of \$5.4 million attributable to increased headcount and annual salary increases, higher incentive compensation expense of \$2.3 million and decreased capitalized software development activities of \$1.7 million. Group insurance costs also increased \$700 thousand. Share-based compensation increased \$4.4 million compared to the first nine months of 2010 primarily due to higher amortization expense associated with our April 2011, December 2010 and April 2010 grants of nonvested stock compared to grants that became fully vested in 2011.

General and Administrative Costs

General and administrative expenses increased \$6.5 million to \$22.5 million for the third quarter of 2011 compared to the third quarter of 2010. Included in the current quarter is a \$1.8 million charge related to the write-off of software capitalization costs due to the discontinuation of use of certain software licenses. The remaining variance is due to increased dealer services costs of \$2.0 million, higher computer services and software costs of \$1.2 million, increased legal expenses, costs incurred for our national branding campaign that was launched in the first quarter of 2011, and higher fund expenses of \$0.5 million.

General and administrative expenses of \$59.6 million for the first nine months of 2011 represents an increase of \$11.2 million, or 23%, compared to the first nine months of 2010. Excluding the write-off mentioned above as well as a \$1.3 million charge due to a trade order execution error recorded in the first quarter of 2010, expenses increased \$10.7 million. This increase is due to increased dealer services costs of \$3.4 million, higher legal fees, costs incurred for our national branding campaign, and increased computer services and software costs of \$2.2 million, partially offset by lower fund expenses of \$1.2 million. Fee waivers were previously recorded as part of fund expenses; however, beginning in the second half of 2010, fee waivers are netted against management fee revenues.

Subadvisory Fees

Subadvisory fees represent fees paid to other asset managers for providing advisory services for certain mutual fund portfolios. These expenses reduce our operating margin since we pay out approximately half of our management fee revenue received from subadvised products. Gross management fee revenues for products subadvised by others were \$14.5 million for the three months ended September 30, 2011 compared to \$13.0 million for the third quarter of 2010 due to a 12% increase in average net assets. For the nine months ended September 30, 2011, gross management fee revenues for products subadvised by others were \$47.0 million compared to \$40.6 million for the same period in 2010 due to a 16% increase in average net assets. Subadvisory expenses followed the same pattern of increase compared to 2010.

Other Income and Expenses

Investment and Other Income, Interest Expense and Taxes

Investment and other loss was \$4.4 million for the quarter ended September 30, 2011, compared to income of \$3.9 million in the same period a year ago. In our mutual fund trading portfolio, we recorded losses of \$3.4 million during the quarter, compared to gains of \$4.7 million in the same period last year. Included in the current quarter was a \$1.0 million write-down of the Company s investment in limited partnerships, compared to a write-down of \$1.5 million during the third quarter of 2010. We also recorded

Table of Contents

gains of \$0.3 million from the sale of available for sale mutual fund holdings during the third quarter of 2011 and 2010.

Investment and other loss was \$0.9 million for the nine months ended September 30, 2011, compared to income of \$3.2 million for the nine months ended September 30, 2010. In our mutual fund trading portfolio, we recorded losses of \$2.6 million during the first nine months of 2011, compared to gains of \$2.8 million in the same period last year. During 2011, we recorded gains of \$2.2 million from the sale of available for sale mutual fund holdings compared to gains of \$1.1 million in 2010. The current year included a \$1.0 million write-down of the Company s investment in limited partnerships, while 2010 included a \$1.5 million write-down.

Interest expense was \$2.8 million in the third quarter of 2011 compared to \$3.1 million for the third quarter of 2010. We incurred lower costs related to both our long-term debt and our \$125.0 million revolving credit facility. Interest expense was \$8.6 million in the first nine months of 2011 compared to \$9.8 million for the same period in 2010. In addition to lower costs related to our long-term debt and our revolving credit facility, the first quarter of 2010 included costs associated with the repurchase of \$10.0 million of our senior notes.

Our effective income tax rate was 41.2% for the third quarter of 2011, as compared to 33.1% for the third quarter of 2010. Due to the sale of a subsidiary in 2009, the Company has deferred tax assets related to capital loss carryforwards that are available to offset current and future capital gains. In 2009, a valuation allowance was recorded on a portion of these capital losses due to the limited carryforward period permitted by law on losses of this character. During the third quarter of 2011, the fair value of the Company s investment portfolios declined, which led to an increase in the valuation allowance through a charge to income tax expense and, as a result, increased our effective tax rate. During the third quarter of 2010, an increase in the fair value of the Company s investment portfolios allowed for a release of the valuation allowance through a charge to income tax expense in 2011 as compared to 2010 was largely attributable to the increase of the valuation allowance through tax expense in 2011 as compared to the decrease in the valuation allowance through tax expense in 2011 and 2010 effective income tax rates, removing the effects of the valuation allowance, would have been 39.0% and 37.8%, respectively. The increase in the adjusted effective income tax rate is due to changes in state legislation in jurisdictions in which the Company operates as well as a charge to income tax expense on tax positions for which the outcome is uncertain in tax years in which the statute of limitations remains open.

Our effective tax rate was 38.2% for the nine months ended September 30, 2011, as compared to 36.5% for the nine months ended September 30, 2010. Excluding the increase to the valuation allowance recorded for the nine months ended September 30, 2011, the effective tax rate would have been 38.0%. Excluding the decrease to the valuation allowance recorded for the nine months ended September 30, 2010, the effective tax rate would have been 37.5%. The increase in the adjusted effective income tax rate is due to a favorable outcome in 2010 on a tax position previously considered partially uncertain.

The Company expects its future effective tax rate, exclusive of any increases or reductions to the valuation allowance, state tax incentives, unanticipated state tax legislative changes, and unanticipated fluctuations in earnings to range from 37% to 39%.

Liquidity and Capital Resources

Our operations provide much of the cash necessary to fund our priorities, as follows:

- Finance internal growth
- Pay dividends
- Repurchase our stock

Finance Internal Growth

We use cash to fund growth in our distribution channels. Our Wholesale channel, which has a higher cost to gather assets, requires cash outlays for wholesaler commissions and commissions to third parties on deferred load product sales. We continue to invest in our Advisors channel by providing additional support to our advisors through wholesaling efforts and enhanced technology tools, including compliance-related technology.

Dividends

We paid quarterly dividends on our common stock that resulted in financing cash outflows of \$51.7 million for the first nine months of 2011. The dividends paid on our common stock during the first nine months of 2010 resulted in financing cash outflows of \$49.0 million.

Repurchases

We repurchased 1,609,551 shares and 1,916,297 shares of our common stock in the open market or privately during the nine months ended September 30, 2011 and 2010, respectively, resulting in cash outflows of \$57.1 million and \$61.4 million, respectively.

Operating Cash Flows

Cash from operations is our primary source of funds and increased \$110.5 million for the nine months ended September 30, 2011 compared to the previous year. The increase is due to higher net income and non-cash share-based compensation expense, as well as significant net sales and maturities of trading securities in 2011 compared to net purchases of trading securities in 2010.

The payable to investment companies for securities account can fluctuate significantly based on trading activity at the end of a reporting period, and from December 31, 2009 to September 30, 2010 there was a significant decrease in Fund shareholder investments received prior to the balance sheet date that were in the process of being invested in the Funds. On December 31, 2009, the Company changed the trustee of its 401(k) plan. Approximately \$100.0 million of the payable to investment companies for securities balance was due to the transfer of assets between trustees. As a result, on our consolidated balance sheet there was a decrease in both the payable to investment companies and a decrease in the cash and receivable accounts from December 31, 2009 to September 30, 2010. On the statement of cash flows, there were corresponding increases and decreases to cash from operations. There is little impact to the Company s liquidity and operations for the variations in these accounts.

During the first quarter of 2011, we made a \$10.0 million contribution to our non-contributory retirement plan and do not expect to make an additional contribution for the remainder of 2011.

Investing Cash Flows

Investing cash flows consist primarily of the purchase, sales and maturities of available for sale investment securities, as well as capital expenditures. We expect our 2011 capital expenditures to be in the range of \$18.0 to \$20.0 million.

Table of Contents

Financing Cash Flows

As noted previously, dividends and stock repurchases accounted for a majority of our financing cash outflows in the first nine months of 2011 and 2010.

Additionally, during 2010 we repurchased \$10.0 million of our \$200.0 million aggregate principal amount 5.6% senior notes due January 2011 (the Notes). On August 31, 2010, the Company entered into an agreement to complete a \$190.0 million private placement of senior unsecured notes that were issued and sold in two tranches: \$95.0 million bearing interest at 5% and maturing January 13, 2018 (the Series A Notes) and \$95.0 million bearing interest of 5.75% and maturing January 13, 2021 (the Series B Notes) (collectively, the Senior Notes). The agreement contained a delayed funding provision that allowed the Company to draw down the proceeds in January 2011 when the Notes matured. The Company used the proceeds of the issuance and sale of the Senior Notes to repay in full the Notes. Interest is payable semi-annually in January and July of each year.

Future Capital Requirements

Management believes its available cash, marketable securities and expected cash flow from operations will be sufficient to fund its short-term operating and capital requirements. Expected short-term uses of cash include dividend payments, interest payments on outstanding debt, income tax payments, seed money for new products, share repurchases, payment of deferred commissions to our financial advisors and third parties, capital expenditures and home office leasehold improvements, and could include strategic acquisitions.

Expected long-term capital requirements include indebtedness; payment of upfront fund commissions for Class B shares, Class C shares and certain fee-based asset allocation products; operating leases; purchase obligations and income tax payments. Other possible long-term discretionary uses of cash could include capital expenditures for enhancement of technology infrastructure and home office expansion, strategic acquisitions, payment of dividends, seed money for new products, pension funding and repurchases of our common stock.

Critical Accounting Policies and Estimates

Management believes certain critical accounting policies affect its more significant judgments and estimates used in the preparation of its consolidated financial statements. The Company s critical accounting policies and estimates are disclosed in the Critical Accounting Policies and Estimates section of our 2010 Form 10-K.

Supplemental Information

	Third Quarter 2011	Third Quarter 2010	Change	Year to Date 2011	Year to Date 2010	Change

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company has had no significant changes in its Quantitative and Qualitative Disclosures About Market Risk from that previously reported in the Company s 2010 Form 10-K.

Item 4. Controls and Procedures

The Company maintains a system of disclosure controls and procedures that is designed to provide reasonable assurance that information, which is required to be timely disclosed, is accumulated and communicated to management in a timely fashion. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. The Company s Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the Company s disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this quarterly report, have concluded that the Company s disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company s management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified in the SEC s rules and forms.

The Company s internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f) and 15d-15(f)) is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. There were no changes in the Company s internal control over financial reporting that

occurred during the Company s most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company s internal control over financial reporting. However, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

Part II. Other Information

Item 1. Legal Proceedings

The Company is involved from time to time in various legal proceedings, regulatory investigations and claims incident to the normal conduct of business, which may include proceedings that are specific to us and others generally applicable to the business practices within the industries in which we operate. A substantial legal liability or a significant regulatory action against us could have an adverse effect on our business, financial condition and on the results of operations in a particular quarter or year. Information required to be reported under this Part II., Item 1. has been previously disclosed in Note 11 to the consolidated financial statements in Part I. above and is incorporated herein by reference.

Item 1A. Risk Factors

The Company has had no material changes to its Risk Factors from those previously reported in the Company s 2010 Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth certain information about the shares of common stock we repurchased during the third quarter of 2011.

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share		Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Program
July 1 - July 31	40,910	\$	36.61	40,910	n/a(1)
August 1 - August 31	444,468		30.36	444,468	n/a(1)
September 1 - September 30	166,500		26.71	166,500	n/a(1)
Total	651,878	\$	29.82	651,878	

⁽¹⁾ On August 31, 1998, we announced that our Board of Directors approved a program to repurchase shares of our common stock on the open market. Under the repurchase program, we are authorized to repurchase, in any seven-day period, the greater of (i) 3% of our outstanding common stock or (ii) \$50 million of our common stock. We may repurchase our common stock through the New York Stock Exchange, other national or regional market systems, electronic communication networks or alternative trading systems. Our stock repurchase program does not have an expiration date or an aggregate maximum number or dollar value of shares that may be repurchased. Our Board of Directors reviewed and ratified the stock repurchase program in July 2004. During the third quarter of 2011, all stock repurchases were made pursuant to the repurchase program including 1,355 shares, reflected in the table above, that were purchased in connection with funding employee income tax withholding obligations arising from the vesting of nonvested shares.
