NUVEEN INVESTMENTS ACQUIRED BY TIAA-CREF

On October 1, 2014, TIAA-CREF completed its previously announced acquisition of Nuveen Investments, Inc., the parent company of your fund's investment adviser, Nuveen Fund Advisors, LLC ("NFAL") and the Nuveen affiliates that act as sub-advisers to the majority of the Nuveen Funds. TIAA-CREF is a national financial services organization with approximately \$851 billion in assets under management as of December 31, 2014 and is a leading provider of retirement services in the academic, research, medical and cultural fields. Nuveen is operating as a separate subsidiary within TIAA-CREF's asset management business.

Chairman's Letter

to Shareholders

Dear Shareholders,

A pattern of divergence has emerged in the past year. Steady and moderate growth in the U.S. economy helped sustain the stock market's bull run another year. U.S. bonds also performed well, amid subdued inflation, interest rates that remained unexpectedly low and concerns about the economic well-being of the rest of the world. The stronger domestic economy enabled the U.S. Federal Reserve (Fed) to gradually reduce its large scale bond purchases, known as quantitative easing (QE), without disruption to the markets, as well as begin to set expectations for a transition into tightening mode.

The story outside the U.S., however, was different. European growth was stagnating and Japan fell into a recession, contributing to the bouts of volatility in their markets. China's economy decelerated and, despite running well above the rate of other major global economies, investors feared it looked slow by China's standards. Compounding these concerns were a surprisingly steep decline in oil prices, the U.S. dollar's rally and an increase in geopolitical tensions, including the Russia-Ukraine crisis and terrorist attacks across the Middle East and Africa, as well as more recently in Europe.

While a backdrop of healthy economic growth in the U.S. and the continuation of accommodative monetary policy (with the central banks of Japan and potentially Europe stepping in where the Fed has left off) bodes well for the markets, the global outlook has become more uncertain. Indeed, volatility is likely to feature more prominently in the investment landscape going forward. Such conditions underscore the importance of professional investment management. Experienced investment teams have weathered the market's ups and downs in the past and emerged with a better understanding of the sensitivities of their asset class and investment style, particularly in times of turbulence. We recognize the importance of maximizing gains, while striving to minimize volatility.

And, the same is true for investors like you. Maintaining an appropriate time horizon, diversification and relying on practiced investment teams are among your best strategies for achieving your long-term investment objectives. Additionally, I encourage you to communicate with your financial consultant if you have questions about your investment in a Nuveen Fund. On behalf of the other members of the Nuveen Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

William J. Schneider Chairman of the Board March 26, 2015

Nuveen Investments

Portfolio Managers'

Comments

Nuveen Quality Preferred Income Fund (JTP) Nuveen Quality Preferred Income Fund 2 (JPS) Nuveen Quality Preferred Income Fund 3 (JHP)

The Funds are sub-advised by a team of specialists at Spectrum Asset Management, a wholly owned subsidiary of Principal Global Investors, LLC. Mark Lieb and Phil Jacoby lead the team. Here Mark and Phil discuss their management strategy and the performance of the Funds for the six-month reporting period ended January 31, 2015.

What key strategies were used to manage the Funds during the six-month reporting period ended January 31, 2015?

The investment objective of each Fund is to seek high current income consistent with capital preservation. Each Fund's secondary objective is to enhance portfolio value. Under normal market conditions, the Funds seek to invest at least 80% of their net assets in preferred securities and up to 20% of their net assets in debt securities, including convertible debt and convertible preferred securities.

Our underlying strategy is to maintain a balance between the individual investor-oriented \$25 par preferred securities often traded on securities exchanges and the institutional investor-oriented \$1,000 par preferred securities traded over-the-counter in the capital markets. Both types of securities offer performance opportunities which, together with the broad diversification benefits of this combined universe, help to produce potentially attractive risk-adjusted rates of return. We keep a risk-averse posture toward security structure and portfolio structure, which is an important core aspect of our efforts to preserve capital and provide attractive income relative to investment grade and senior corporate credit.

Extension risk is most prevalent in the \$25 par sector where most issues are perpetual fixed rate securities with 5-year call options. When yields decline, these call options go into-the-money, which reduces the option adjusted duration of the securities and commensurately can slow upside price progression, this is known as negative convexity. The implication of negative convexity is that duration can go up as rates go up which implies marginally higher risk than duration implies when call options are in the money. Spectrum is very aware of extension risk prevalent in most \$25 par securities and seeks to mitigate the risk through security selection. For example, we seek to maximize coupon and call option term which should reduce negative convexity. Importantly, investors demand a yield premium for the optionality purchased by the issuer, which helps to augment the income opportunity in the \$25 par sector. Within the context of income, we expect an increasing amount of the Fund's dividend flow to be qualified dividend income (QDI) due to the regulatory changes underway for global Tier-1 bank capital that have modified the structural features to pay dividends on U.S. issuance rather than interest payments. This will likely have supportive implications on the after-tax income flow to shareholders.

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views

expressed herein.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's (S&P), Moody's Investors Service, Inc. (Moody's) or Fitch, Inc. (Fitch). Credit ratings are subject to change. AAA, AA, A and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by these national rating agencies.

Refer to the Glossary of Terms Used in this Report for further definition of the terms used within this section.

Nuveen Investments

Portfolio Managers' Comments (continued)

How did the Funds perform during the six-month reporting period ended January 31, 2015?

During July, the U.S. Federal Reserve (Fed) Bank's Federal Open Market Committee provided more insight about its policymaking by raising concern over potential excesses created by its highly accommodative monetary policies. This ultimately led to a shallow correction in the S&P 500® in August and another correction in October, which marked the end to the Fed's bond buying intended to support the U.S. recovery. The European and Japanese economies, on the other hand, have not experienced any exuberance as deflation is becoming a chronic international problem. We believe that deflation risk should keep both the European Central Bank (ECB) and the Bank of Japan (BOJ) in accommodative positions for quite some time. More immediately, as the ECB is just about to begin a quantitative easing (QE) program of its own and the BOJ has one well underway, it is unlikely that U.S. bond prices will decline much while QEs are underway in Europe and Japan because of the attractive yield differential in favor of U.S. bond assets. The implication of easy money from the foreign central banks (moves that we characterize as the currency wars) is that the U.S. economy becomes a marginal loser as exports slow from persistent U.S. dollar strength. In addition, plummeting oil prices only adds more uncertainty to the geopolitical balance and investment in U.S. production. Ultimately, long U.S. Treasury bond yields dropped by 110 basis points (bps) during the reporting period to an all-time low of just 2.22%, which propelled current yield spreads on preferred securities about 90bps wider to 378 bps.

At the beginning of the fourth quarter the U.S. Fed expressed concern about the strength of the U.S. dollar and its suppressing impact on economic growth and inflation, which sent the equity markets into a short-term fret. Indeed, the accelerated currency wars among the developed economies led to a depreciation of the euro and the yen, and commensurately reaffirmed the U.S. dollar as the world's reserve currency. This overarching macroeconomic theme attracted more, primarily international, buyers to the preferred market as these securities were among the highest yielding alternatives available compared to traditional fixed-income. The retail (\$25 par) sector performed particularly well given its longer duration compared to the more intermediate duration of the institutional (\$1,000 par) sector.

The tables in the Performance Overview and Holding Summaries section of this report provide total return performance for each Fund for the six-month, one-year, five-year and ten-year periods ended January 31, 2015. For the six-month reporting period ended January 31, 2015, all three Funds' common shares at net asset value (NAV) underperformed the Barclays U.S. Aggregate Bond Index and the Blended Benchmark because of the very strong U.S. Treasury bond rally (helping the Aggregate Index) and some technical aspects which benefited the Blended Benchmark.

Overall, total return performance in preferred securities was aided by two factors: 1) the general decline in U.S. Treasury rates, and 2) a notable twist and flattening in the preferred yield curve where retail \$25 par yields declined and capital securities yields rose. Indeed, the yield compression in the U.S. Treasury market this reporting period was significant, but even more so for the 30-year bond (-110bps) than for the 10-year note (-35bps). Along this path to higher treasury prices, the retail preferred sector outperformed the institutional preferred sector because spreads widened 46bps less for the retail sector than for the institutional sector. Retail structures such as PNC 6.125% and Deutsche Bank 6.55% were among the better performing preferred securities. The Funds were slightly underweight the \$25 par sector to the underlying components of the Index. Although this held back relative performance somewhat as rates declined, underweighting this longer duration sector in favor of more intermediate duration capital securities helps to mitigate longer run interest rate risk in the Funds.

The Funds underperformed the benchmark primarily because they were underweight the retail sector, the best among the two benchmark sectors, in order to mitigate the extension risk of rising interest rates, which is prevalent in this sector. The impact of a lower concentration in the retail sector served to reduce the duration of the Fund by one year on average relative to the benchmark, which also caused some underperformance due to the measurable decline in interest rates during the reporting period. Specific holdings that detracted from performance included, institutional issues from State Street Corporation and Standard Chartered, which were among the worst performers during the reporting period for reasons more technical than fundamental.

Nuveen Investments

Fund

Leverage

IMPACT OF THE FUNDS' LEVERAGE STRATEGY ON PERFORMANCE

One important factor impacting the returns of the Funds relative to their benchmarks was the Funds' use of leverage through the use of bank borrowings. The Funds use leverage because our research has shown that, over time, leveraging provides opportunities for additional income and total return for common shareholders. However, use of leverage also can expose common shareholders to additional volatility. For example, as the prices of securities held by a Fund decline, the negative impact of these valuation changes on common share NAV and common shareholder total return is magnified by the use of leverage. Conversely, leverage may enhance common share returns during periods when the prices of securities held by a Fund generally are rising. The Funds' use of leverage had a positive impact on performance during this reporting period.

The Funds also continued to use swap contracts to partially fix the interest cost of leverage, which as mentioned previously, is through bank borrowings. During this reporting period, these swap contracts detracted modestly from overall Fund performance.

As of January 31, 2015, the Funds' percentages of leverage are shown in the accompanying table.

	JTP	JPS	JHP
Effective Leverage*	28.23%	28.08%	28.07%
Regulatory			
Leverage*	28.23%	28.08%	28.07%

^{*} Effective leverage is a Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative and other investments in a Fund's portfolio that increase the Fund's investment exposure. Regulatory leverage consists of preferred shares issued or borrowings of a Fund. Both of these are part of a Fund's capital structure. Regulatory leverage is subject to asset coverage limits set forth in the Investment Company Act of 1940.

THE FUNDS' REGULATORY LEVERAGE

Bank Borrowings

The Funds employ regulatory leverage through the use of bank borrowings. As of January 31, 2015, the Funds' outstanding bank borrowings are as shown in the accompanying table.

	JTP	JPS	JHP
Bank Borrowings	\$235,000,000	\$465,800,000	\$89,000,000
Refer to Notes to Fina	ncial Statements, Note 8	Borrowing Arrangement	s for further details.

Nuveen Investments

Common Share

Information

DISTRIBUTION INFORMATION

The following information regarding the Funds' distributions is current as of January 31, 2015. Each Fund's distribution levels may vary over time based on each Fund's investment activities and portfolio investment value changes.

During the current reporting period, each Fund's distributions to common shareholders were as shown in the accompanying table.

	Per (Common Share Amoເ	ınts
Ex-Dividend Date	JTP	JPS	JHP
August 2014	\$ 0.0520	\$ 0.0550	\$ 0.0520
September	0.0520	0.0550	0.0520
October	0.0520	0.0550	0.0520
November	0.0520	0.0550	0.0520
December	0.0530	0.0560	0.0535
January 2015	0.0550	0.0580	0.0560
Ordinary Income Distribution*	\$ 0.0905	\$ 0.0488	\$ 0.0634
Current Distribution Rate**	7.69%	7.44%	7.71%

^{*} Distribution paid in December 2014.

Each Fund in this report seeks to pay regular monthly dividends out of its net investment income at a rate that reflects its past and projected net income performance. To permit each Fund to maintain a more stable monthly dividend, the Fund may pay dividends at a rate that may be more or less than the amount of net income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it will hold the excess in reserve as undistributed net investment income (UNII) as part of the Fund's net asset value. Conversely, if a Fund has cumulatively paid in dividends more than it has earned, the excess will constitute a negative UNII that will likewise be reflected in the Fund's net asset value. Each Fund will, over time, pay all its net investment income as dividends to shareholders.

As of January 31, 2015, all of the Funds in this report had positive UNII balances, based upon our best estimate, for tax purposes. JTP and JPS had positive UNII balances, while JHP had a negative UNII balance for financial reporting purposes.

All monthly dividends paid by each Fund during the six months ended January 31, 2015, were paid from net investment income. If a portion of the Fund's monthly distributions was sourced from or comprised of elements other than net investment income, including capital gains and/or a return of capital, shareholders would have received a notice to that effect. For financial reporting purposes, the composition and per share amounts of each Fund's dividends for the reporting period are presented in this report's Statement of Changes in Net Assets and Financial Highlights, respectively. For income tax purposes, distribution

^{**} Current distribution rate is based on the Fund's current annualized monthly distribution divided by the Fund's current market price. The Fund's monthly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the fiscal year the Fund's cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a return of capital for tax purposes.

information for each Fund as of its most recent tax year end is presented in Note 6 Income Tax Information within the Notes to Financial Statements of this report.

Nuveen Investments

COMMON SHARE REPURCHASES

During August 2014, the Funds' Board of Trustees reauthorized an open-market share repurchase program, allowing each Fund to repurchase an aggregate of up to approximately 10% of its outstanding shares.

As of January 31, 2015, and since the inception of the Funds' repurchase programs, the Funds have cumulatively repurchased and retired their common shares as shown in the accompanying table.

	JTP	JPS	JHP
Common Shares Cumulatively			
Repurchased and Retired	5,000	0	60,000
Common Shares Authorized for			
Repurchase	6,465,000	12,040,000	2,370,000
During the current reporting period, the Fund	ds repurchased and i	retired common shares	at a weighted

average price and a weighted average discount per common share as shown in the accompanying table.

	JTP	JPS	JHP
Common Shares Repurchased and Retired	5,000	0	40,000

Repurchased and Retired	\$ 7.94	\$ 0	\$ 8.35
Weighted Average Discount Per Common			
Share Repurchased and Retired	13.98%	0%	12.95%
	_		

COMMON SHARE EQUITY SHELF PROGRAMS

JTP. JPS and JHP each filed registration statements with the SEC authorizing each Fund to issue an additional 6.4 million, 12.0 million and 2.3 million common shares, respectively, through equity shelf programs, which are not yet effective.

Under these equity shelf programs, the Funds, subject to market conditions, may raise additional capital from time to time in varying amounts and offering methods at a net price at or above each Fund's NAV per common share.

Refer to Notes to Financial Statements, Note 1 General Information and Significant Accounting Policies for further details and the Funds' equity shelf programs.

OTHER COMMON SHARE INFORMATION

As of January 31, 2015, and during the current reporting period, the Funds' common share prices were trading at premium/(discount) to their common share NAVs as shown in the accompanying table.

		JTP	JPS	JHP
Common Share NAV	\$	9.24	\$ 9.91	\$ 9.64
Common Share Price	\$	8.58	\$ 9.36	\$ 8.72
Premium/(Discount) to NAV		(7.14)%	(5.55)%	(9.54)%
6-Month Average Premium/(Discount) to NAV		(10.32)%	(9.06)%	(11.91)%
Nu	veen In	vestments		
	9)		

Risk

Considerations

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Shares of closed-end funds are subject to investment risks, including the possible loss of principal invested. Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

Investment, Market and Price Risk. An investment in common shares is subject to investment risk, including the possible loss of the entire principal amount that you invest. Your investment in common shares represents an indirect investment in the corporate securities owned by the Funds, which generally trade in the over-the-counter markets. Shares of closed-end investment companies like the Funds frequently trade at a discount to their NAV. Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

Leverage Risk. A Fund's use of leverage creates the possibility of higher volatility for a Fund's per share NAV, market price and distributions. Leverage risk can be introduced through regulatory leverage (issuing preferred shares or debt borrowings at the Fund level) or through certain derivative investments held in a Fund's portfolio. Leverage typically magnifies the total return of a Fund's portfolio, whether that return is positive or negative. The use of leverage creates an opportunity for increased common share net income, but there is no assurance that a Fund's leveraging strategy will be successful.

Tax Risk. The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations.

Issuer Credit Risk. This is the risk that a security in a Fund's portfolio will fail to make dividend or interest payments when due.

Interest Rate Risk. Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

Reinvestment Risk. If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original investment that generated the income.

Preferred Stock Risk. Preferred stocks are subordinate to bonds and other debt instruments in a company's capital structure, and therefore are subject to greater credit risk.

Call Risk or Prepayment Risk. Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower-yielding securities.

Non-U.S. Securities Risk. Investments in non-U.S securities involve special risks not typically associated with domestic investments including currency risk and adverse political, social and economic developments. These risks often are magnified in emerging markets.

Derivatives Strategy Risk. Derivative securities, such as calls, puts, warrants, swaps and forwards, carry risks different from, and possibly greater than, the risks associated with the underlying investments.

Counterparty Risk. To the extent that a Fund's derivative investments are purchased or sold in over-the-counter transactions, the Fund will be exposed to the risk that counter- parties to these transactions will be unable to meet their obligations.

Interest Rate Swaps Risk. The risk that yields will move in the direction opposite to the direction anticipated by a Fund, which would cause a Fund to make payments to its counterparty in the transaction that could adversely affect the Fund's performance.

Performance Overview and Holding Summaries as of January 31, 2015

Refer to the Glossary of Terms Used in this Report for further definition of the terms used within this section.

Average Annual Total Returns as of January 31, 2015

	Cumulative		Average Annual	
	6-Month	1-Year	5-Year	10-Year
JHP at Common Share NAV	3.92%	13.98%	12.93%	3.87%
JHP at Common Share Price	8.15%	17.91%	12.89%	3.41%
Barclays U.S. Aggregate				
Bond Index	4.36%	6.61%	4.57%	4.86%
Blended Benchmark				
(Comparative Index)	4.22%	12.20%	9.41%	4.57%

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares. Returns at NAV are net of Fund expenses, and assume reinvestment of distributions. Comparative index return information is provided for the Fund's shares at NAV only. Indexes are not available for direct investment.

Common Share Price Performance Weekly Closing Price

Nuveen Investments

This data relates to the securities held in the Fund's portfolio of investments as of the end of the reporting period. It should not be construed as a measure of performance for the Fund itself. Holdings are subject to change.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's, Moody's Investors Service, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by these national rating agencies.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (3) For fair value measurement disclosure purposes, investment classified as Level 2. See Notes to Financial Statements, Note 2 Investment Valuation and Fair Value Measurements for more information.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives.
- (5) Perpetual security. Maturity date is not applicable.
- (6) Investment, or a portion of investment, is out on loan as described in the Notes to Financial Statements, Note 8 Borrowings Arrangements, Rehypothecation. The total value of investments out on loan as of the end of the reporting period was \$24,599,000.
- (7) A copy of the most recent financial statements for the investment companies can be obtained directly from the Securities and Exchange Commission on its website at http://www.sec.gov.
- (8) Borrowings as a percentage of Total Investments is 28.2%.
- (9) The Fund may pledge up to 100% of its eligible investments (excluding any investments separately pledged as collateral for specific investments in derivatives, when applicable) as collateral for borrowings. As of the end of the reporting period, investments with a value of \$477,307,878 have been pledged as collateral for borrowings.
- (10) Other assets less liabilities includes the unrealized appreciation (depreciation) of the over-the-counter derivatives as presented on the Statement of Assets and Liabilities. The unrealized appreciation (depreciation) of exchange-cleared and exchange-traded derivatives is recognized as part of the receivable or payable for variation margin as presented on the Statement of Assets and Liabilities, when applicable.
- (11) Effective date represents the date on which both the Fund and counterparty commence interest payment accruals on each contract.
- 144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration, which are normally those transactions with qualified institutional buyers.
- Reg S Regulation S allows U.S. companies to sell securities to persons or entities located outside of the United States without registering those securities with the Securities and Exchange Commission. Specifically, Regulation S provides a safe harbor from the registration requirements of the Securities Act for

the offers and sales of securities by both foreign and domestic issuers that are made outside the United States.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

- (3) Investment, or a portion of investment, is out on loan as described in the Notes to Financial Statements, Note 8 Borrowings Arrangements, Rehypothecation. The total value of investments out on loan as of the end of the reporting period was \$61,674,000.
- (4) For fair value measurement disclosure purposes, investment classified as Level 2. See Notes to Financial Statements, Note 2 Investment Valuation and Fair Value Measurements for more information.
- (5) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives.
- (6) Perpetual security. Maturity date is not applicable.
- (7) A copy of the most recent financial statements for the investment companies can be obtained directly from the Securities and Exchange Commission on its website at http://www.sec.gov.
- (8) Borrowings as a percentage of Total Investments is 28.1%.
- (9) The Fund may pledge up to 100% of its eligible investments (excluding any investments separately pledged as collateral for specific investments in derivatives, when applicable) as collateral for borrowings. As of the end of the reporting period, investments with a value of \$966,570,586 have been pledged as collateral for borrowings.
- (10) Other assets less liabilities includes the unrealized appreciation (depreciation) of the over-the-counter derivatives as presented on the Statement of Assets and Liabilities. The unrealized appreciation (depreciation) of exchange-cleared and exchange-traded derivatives is recognized as part of the receivable or payable for variation margin as presented on the Statement of Assets and Liabilities, when applicable.
- (11) Effective date represents the date on which both the Fund and counterparty commence interest payment accruals on each contract.
- 144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration, which are normally those transactions with qualified institutional buyers.

Reg S Regulation S allows U.S. companies to sell securities to persons or entities located outside of the United States without registering those securities with the Securities and Exchange Commission. Specifically, Regulation S provides a safe harbor from the registration requirements of the Securities Act for the offers and sales of securities by both foreign and domestic issuers that are made outside the United States.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (3) For fair value measurement disclosure purposes, investment classified as Level 2. See Notes to Financial Statements, Note 2 Investment Valuation and Fair Value Measurements for more information.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives.
- (5) Perpetual security. Maturity date is not applicable.
- (6) Investment, or a portion of investment, is out on loan as described in the Notes to Financial Statements, Note 8 Borrowings Arrangements, Rehypothecation. The total value of investments out on loan as of the end of the reporting period was \$5,498,000.
- (7) A copy of the most recent financial statements for the investment companies can be obtained directly from the Securities and Exchange Commission on its website at http://www.sec.gov.
- (8) Borrowings as a percentage of Total Investments is 28.1%.
- (9) The Fund may pledge up to 100% of its eligible investments (excluding any investments separately pledged as collateral for specific investments in derivatives, when applicable) as collateral for borrowings. As of the end of the reporting period, investments with a value of \$185,872,857 have been pledged as collateral for borrowings.

- (10) Other assets less liabilities includes the unrealized appreciation (depreciation) of the over-the-counter derivatives as presented on the Statement of Assets and Liabilities. The unrealized appreciation (depreciation) of exchange-cleared and exchange-traded derivatives is recognized as part of the receivable or payable for variation margin as presented on the Statement of Assets and Liabilities, when applicable.
- (11) Effective date represents the date on which both the Fund and counterparty commence interest payment accruals on each contract.

144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration, which are normally those transactions with qualified institutional buyers.

Reg S Regulation S allows U.S. companies to sell securities to persons or entities located outside of the United States without registering those securities with the Securities and Exchange Commission. Specifically, Regulation S provides a safe harbor from the registration requirements of the Securities Act for the offers and sales of securities by both foreign and domestic issuers that are made outside the United States.

⁽b) The amounts shown are based on common share equivalents. During the fiscal year ended December 31, 2009, Quality Preferred Income (JTP) and Quality Preferred Income 2 (JPS) redeemed all of their

outstanding FundPreferred shares, at liquidation value.

(c) Total Return Based on Common Share NAV is the combination of changes in common share NAV, reinvested dividend income at NAV and reinvested capital gains distributions at NAV, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending NAV. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its NAV), and therefore may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Price is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

(d) After expense reimbursement from the Adviser, where applicable. As of June 30, 2010 and September 30, 2010, the Adviser is no longer reimbursing Quality Preferred Income (JTP) and Quality Preferred Income 2 (JPS), respectively, for any fees or expenses.

Nuveen Investments

Notes to

Financial Statements (Unaudited)

1. General Information and Significant Accounting Policies

General Information

Fund Information

The funds covered in this report and their corresponding New York Stock Exchange ("NYSE") symbols are as follows (each a "Fund" and collectively, the "Funds"):

- Nuveen Quality Preferred Income Fund (JTP) ("Quality Preferred Income (JTP)")
- Nuveen Quality Preferred Income Fund 2 (JPS) ("Quality Preferred Income 2 (JPS)")
- Nuveen Quality Preferred Income Fund 3 (JHP) ("Nuveen Quality Preferred Income 3 (JHP)")

The Funds are registered under the Investment Company Act of 1940, as amended, as diversified, closed-end management investment companies. Quality Preferred Income (JTP), Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP) were organized as Massachusetts business trusts on April 24, 2002, June 24, 2002 and October 17, 2002, respectively.

The end of the reporting period for the Funds is January 31, 2015, and the period covered by these Notes to Financial Statements is the six months ended January 31, 2015 ("the current fiscal period").

Investment Adviser

The Funds' investment adviser is Nuveen Fund Advisors, LLC (the "Adviser"), a wholly-owned subsidiary of Nuveen Investments, Inc. ("Nuveen"). The Adviser is responsible for each Fund's overall investment strategy and asset allocation decisions. The Adviser has entered into sub-advisory agreements with Spectrum Asset Management, Inc. ("Spectrum"), under which Spectrum manages the investment portfolios of the Funds. The Adviser is responsible for overseeing the Funds' investments in swap contracts.

Change in Control

On October 1, 2014, TIAA-CREF, a national financial services organization, completed its previously announced acquisition of Nuveen, the parent company of the Adviser.

Because the consummation of the acquisition resulted in the "assignment" (as defined in the Investment Company Act of 1940) and automatic termination of the Funds' investment management agreements and investment sub-advisory agreements, Fund shareholders were asked to approve new investment management agreements with the Adviser and new investment sub-advisory agreements with Spectrum. These new agreements were approved by shareholders of the Funds, and went into effect during the current fiscal period.

Investment Objectives and Principal Investment Strategies

Each Fund's investment objective is high current income consistent with capital preservation. Each Fund's secondary investment objective is to enhance portfolio value. Each Fund invests at least 80% of its net assets in preferred securities; up to 20% of its net assets in debt securities, including convertible debt securities and convertible preferred securities; and 100% of each Fund's total assets in securities that, at the time of investment, are investment grade quality (BBB/Baa or better), which may include up to 10% in securities that are rated investment grade by at least one nationally recognized statistical rating organization.

Significant Accounting Policies

Each Fund is an investment company and follows accounting and reporting guidance under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 946 "Financial Services Investment Companies." The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from investment transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to earmark securities in the Funds' portfolios with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments.

Nuveen Investments

Notes to Financial Statements (Unaudited) (continued)

As of the end of the reporting period, the Fund's outstanding when-issued/delayed delivery purchase commitments were as follows:

	Quality	Quality	Quality	
	Preferred	Preferred	Preferred	
	Income (JTP)	Income 2 (JPS)	Income 3 (JHP)	
Outstanding when-issued/delayed purchase commitments	\$	\$	\$	

Investment Income

Dividend income is recorded on the ex-dividend date or, for foreign securities, when information is available. Interest income, which reflects the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Interest income also reflects paydown gains and losses, if any. Other income is comprised of fees earned in connection with the rehypothecation of pledged collateral as further described in Note 8 Borrowing Agreements.

Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment or to pursue other claims or legal actions on behalf of Fund shareholders. If a refund is received for workout expenditures paid in a prior reporting period, such amounts will be recognized as "Legal fee refund" on the Statement of Operations.

Dividends and Distributions to Common Shareholders

Dividends to common shareholders are declared monthly. Net realized capital gains from investment transactions, if any, are declared and distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

Common Shares Equity Shelf Programs and Offering Costs

Quality Preferred Income (JTP), Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP) have each filed registration statements with the Securities and Exchange Commission ("SEC") authorizing the Funds to issue an additional 6.4 million, 12.0 million and 2.3 million common shares, respectively, through their equity shelf programs ("Shelf Offering"), which are not yet effective.

Under these Shelf Offerings, the Funds, subject to market conditions, may raise additional equity capital from time to time in varying amounts and offering methods at a net price at or above each Fund's net asset value ("NAV") per common share.

Costs incurred by the Funds in connection with their initial Shelf Offering will be recorded as a deferred charge and recognized as a component of "Deferred offering costs" on the Statement of Assets and

Liabilities. The deferred asset is reduced during the one-year period that additional shares are sold by reducing the proceeds from such shares and will be recognized as a component of "Proceeds from shelf offering, net of offering costs" on the Statement of Changes in Net Assets, when applicable. At the end of the one-year life of the Shelf Offering period, any remaining deferred charges will be expensed accordingly and recognized as a component of "Other expenses" on the Statement of Operations. Any additional costs the Funds may incur in connection with their Shelf Offerings will be expensed as incurred and will be recognized as a component of "Proceeds from shelf offering, net of offering costs" on the Statement of Changes in Net Assets.

Indemnifications

Under the Funds' organizational documents, their officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Netting Agreements

In the ordinary course of business, the Funds may enter into transactions subject to enforceable master repurchase agreements, International Swaps and Derivative Association, Inc. ("ISDA") master agreements or other similar arrangements ("netting agreements"). Generally, the right to offset in netting agreements allows each Fund to offset any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. Generally, each Fund manages its cash collateral and securities collateral on a counterparty basis.

The Funds' investments subject to netting agreements as of the end of the reporting period, if any, are further described in Note 3 Portfolio Securities and Investments in Derivatives.

Nuveen Investments

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to common shares from operations during the reporting period. Actual results may differ from those estimates.

2. Investment Valuation and Fair Value Measurements

The fair value input levels as described below are for fair value measurement purposes.

Fair value is defined as the price that would be received upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The following is a summary of the three-tiered hierarchy of valuation input levels.

Level 1 Inputs are unadjusted and prices are determined using quoted prices in active markets for identical securities.

Level 2 Prices are determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Prices are determined using significant unobservable inputs (including management's assumptions in determining the fair value of investments).

Common stocks and other equity-type securities are valued at the last sales price on the securities exchange on which such securities are primarily traded and are generally classified as Level 1. Securities primarily traded on the NASDAQ National Market ("NASDAQ") are valued at the NASDAQ Official Closing Price and are generally classified as Level 1. However, securities traded on a securities exchange or NASDAQ for which there were no transactions on a given day or securities not listed on a securities exchange or NASDAQ are valued at the quoted bid price and are generally classified as Level 2.

Prices of fixed-income securities are provided by a pricing service approved by the Funds' Board of Trustees (the "Board"). The pricing service establishes a security's fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer or market activity, provided by the Adviser. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Prices of swap contracts are also provided by a pricing service approved by the Board using the same methods as described above, and are generally classified as Level 2.

Investments in investment companies are valued at their respective NAV on the valuation date and are generally classified as Level 1.

Repurchase agreements are valued at contract amount plus accrued interest, which approximates market value. These securities are generally classified as Level 2.

Investments initially valued in currencies other than the U.S. dollar are converted to the U.S. dollar using exchange rates obtained from pricing services. As a result, the NAV of the Funds' shares may be affected by changes in the value of currencies in relation to the U.S. dollar. The value of securities traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the NYSE is closed and an investor is not able to purchase, redeem or exchange shares. If significant market events occur between the time of determination of the closing price of a foreign security on an exchange and the time that the Funds' NAV is determined, or if under the Funds' procedures, the closing price of a foreign security is not deemed to be reliable, the security would be valued at fair value as determined in accordance with procedures established in good faith by the Board. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Board and/or its appointee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund's NAV (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security's fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which

Nuveen Investments

Notes to Financial Statements (Unaudited) (continued)

may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or as Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Board and/or its appointee.

The inputs or methodologies used for valuing securities are not an indication of the risks associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of the end of the reporting period:

The Board is responsible for the valuation process and has appointed the oversight of the daily valuation process to the Adviser's Valuation Committee. The Valuation Committee, pursuant to the valuation policies and procedures adopted by the Board, is responsible for making fair value determinations, evaluating the effectiveness of the Funds' pricing policies and reporting to the Board. The Valuation Committee is aided in its efforts by the Adviser's dedicated Securities Valuation Team, which is responsible for administering the daily valuation process and applying fair value methodologies as approved by the Valuation Committee. When determining the reliability of independent pricing services for investments owned by the Funds, the

^{***} Represents net unrealized appreciation (depreciation) as reported in the Fund's Portfolio of Investments.

Valuation Committee, among other things, conducts due diligence reviews of the pricing services and monitors the quality of security prices received through various testing reports conducted by the Securities Valuation Team.

Nuveen Investments

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making a fair value determination, based on the facts and circumstances specific to the portfolio instrument. Fair value determinations generally will be derived as follows, using public or private market information:

- (i) If available, fair value determinations shall be derived by extrapolating from recent transactions or quoted prices for identical or comparable securities.
- (ii) If such information is not available, an analytical valuation methodology may be used based on other available information including, but not limited to: analyst appraisals, research reports, corporate action information, issuer financial statements and shelf registration statements. Such analytical valuation methodologies may include, but are not limited to: multiple of earnings, discount from market value of a similar freely-traded security, discounted cash flow analysis, book value or a multiple thereof, risk premium/yield analysis, yield to maturity and/or fundamental investment analysis.

The purchase price of a portfolio instrument will be used to fair value the instrument only if no other valuation methodology is available or deemed appropriate, and it is determined that the purchase price fairly reflects the instrument's current value.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such testing and fair valuation occurrences are reported to the Board.

3. Portfolio Securities and Investments in Derivatives

Portfolio Securities

Foreign Currency Transactions

To the extent that the Funds invest in securities and/or contracts that are denominated in a currency other than U.S. dollars, the Funds will be subject to currency risk, which is the risk that an increase in the U.S. dollar relative to the foreign currency will reduce returns or portfolio value. Generally, when the U.S. dollar rises in value against a foreign currency, the Funds' investments denominated in that currency will lose value because its currency is worth fewer U.S. dollars; the opposite effect occurs if the U.S. dollar falls in relative value. Investments and other assets and liabilities denominated in foreign currencies are converted into U.S. dollars on a spot (i.e. cash) basis at the spot rate prevailing in the foreign currency exchange market at the time of valuation. Purchases and sales of investments and income denominated in foreign currencies are translated into U.S. dollars on the respective dates of such transactions.

As of the end of the reporting period, the Funds' investments in non-U.S. securities were as follows:

Quality Preferred Income (JTP)	Value	% of Total Investments
Country:		
United Kingdom	\$ 94,647,130	11.4%
Netherlands	47,768,198	5.7
France	34,535,890	4.1
Other	132,733,649	16.0
Total non-U.S. securities Quality Preferred Income 2 (JPS)	\$309,684,867	37.2%

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

Country:		
United Kingdom	\$155,315,144	9.4%
Netherlands	115,193,039	6.9
France	74,905,901	4.5
Other	262,965,393	15.9
Total non-U.S. securities Quality Preferred Income 3 (JHP)	\$608,379,477	36.7%
Country:		
United Kingdom	\$ 40,241,451	12.7%
France	17,581,499	5.5
Netherlands	17,483,305	5.5
Other	48,606,593	15.4
Total non-U.S. securities	\$123,912,848	39.1%

The books and records of the Funds are maintained in U.S. dollars. Foreign currencies, assets and liabilities are translated into U.S. dollars at 4:00 p.m. Eastern time. Investment transactions, income and expenses are translated on the respective dates of such transactions. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date of the transactions, foreign currency transactions and the difference between the amounts of interest and dividends recorded on the books of a Fund and the amounts actually received.

Nuveen Investments

Notes to Financial Statements (Unaudited) (continued)

The realized gains and losses resulting from changes in foreign currency exchange rates and changes in foreign exchange rates associated with (i) investments, (ii) investments in derivatives and (iii) other assets and liabilities are recognized as a component of "Net realized gain (loss) from investments" on the Statement of Operations, when applicable.

The unrealized gains and losses resulting from changes in foreign currency exchange rates and changes in foreign exchange rates associated with (i) investments and (ii) other assets and liabilities are recognized as a component of "Change in net unrealized appreciation (depreciation) of investments" on the Statement of Operations, when applicable. The unrealized gains and losses resulting from changes in foreign exchange rates associated with investments in derivatives are recognized as a component of the respective derivative's related "Change in net unrealized appreciation (depreciation)" on the Statement of Operations, when applicable.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is each Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the counterparty defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

The following table presents the repurchase agreements for the Funds that are subject to netting agreements as of the end of the reporting period, and the collateral delivered related to those repurchase agreements.

Fund	Counterparty		Short-Term tments, at Value	Collateral Pledged (From) Counterparty*	Net Exposure
i dila	Fixed Income	111700	tinonio, at value	Counterparty	Exposure
Quality Preferred					
Income (JTP)	Corporation	\$	7,908,888	\$ (7,908,888)	\$
Quality Preferred Income 2 (JPS)	Fixed Income Clearing Corporation		12,804,886	(12,804,866)	
, ,	Fixed Income		, ,	, , ,	
Quality Preferred Income 3 (JHP)	Clearing Corporation		5,952,806	(5,952,806)	

^{*} As of the end of the reporting period, the value of the collateral pledged from the counterparty exceeded the value of the repurchase agreements. Refer to the Fund's Portfolio of Investments for details on the repurchase agreements.

Zero Coupon Securities

A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

Investment in Derivatives

Each Fund is authorized to invest in certain derivative instruments, such as futures, options and swap contracts. Each Fund limits its investments in futures, options on futures and swap contracts to the extent necessary for the Adviser to claim the exclusion from registration by the Commodity Futures Trading Commission as a commodity pool operator with respect to the Fund. The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes.

Swap Contracts

Interest rate swap contracts involve each Fund's agreement with the counterparty to pay or receive a fixed rate payment in exchange for the counterparty receiving or paying a variable rate payment that is intended to approximate the Fund's variable rate payment obligation on any variable rate borrowing. Forward interest rate swap contracts involve each Fund's agreement with a counterparty to pay, in the future, a fixed or variable rate payment in exchange for the counterparty paying the Fund a variable or fixed rate payment. the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the swap contract. Swap contracts do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the net amount of interest payments that each Fund is to receive. Swap contracts are valued daily. Upon entering into an interest rate swap contract (and beginning on the effective date for a forward interest rate swap contract), each Fund accrues the fixed rate payment expected to be paid or received and the variable rate payment expected to be received or paid on the swap contracts on a daily basis, and recognizes the daily change in the fair value of the Fund's contractual rights and obligations under the contracts. The net amount recorded for these transactions for each counterparty is recognized on the Statement of Assets and Liabilities as a component of "Unrealized appreciation or depreciation on interest rate swaps (,net)" with the change during the fiscal period recognized on the Statement of Operations as a component of "Change in net unrealized appreciation (depreciation) of swaps." Income received or paid by each Fund is recognized as a component of "Net realized gain (loss) from swaps" on the Statement of Operations, in addition to the net realized gains or losses recognized upon the termination of a swap contract and are equal to the difference between the Fund's basis in the swap and the proceeds from (or cost of) the closing transaction. Payments received or made at the beginning of the measurement period are recognized as a component of "Interest rate swap premiums paid and/or received" on the Statement of Assets and Liabilities, when applicable. For tax purposes, periodic payments are treated as ordinary income or expense.

Nuveen Investments

54

During current fiscal period, each Fund continued to use interest swap contracts to partially hedge the interest cost of leverage, which each Fund employs through the use of bank borrowings.

The average notional amount of interest rate swap contracts outstanding during the current fiscal period was as follows:

	Quality	Quality	Quality
	Preferred	Preferred	Preferred
	Income (JTP)	Income 2 (JPS)	Income 3 (JHP)
	(317)	(JF3)	(JUL)
Average notional amount of interest			
rate swap contracts outstanding*	\$160,986,500	\$320,154,667	\$61,092,667

^{*} The average notional amount is calculated based on the outstanding notional at the beginning of the fiscal year and at the end of each fiscal quarter within the current fiscal year.

The following table presents the fair value of all interest rate swap contracts held by the Funds as of the end of the reporting period, the location of these instruments on the Statement of Assets and Liabilities and the primary underlying risk exposure.

		Location on the Statement of Assets and Liabilities

Market and Counterparty Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund's exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities.

Notes to Financial Statements (Unaudited) (continued)

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

4. Fund Shares

Common Shares

Transactions in common shares were as follows:

	Quality Preferred Income (JTP)		Quality Preferred Income 2 (JPS) Six		Quality Preferred Income 3 (JHP)	
	Six Months Ended 1/31/15	Year Ended 7/31/14	Months Ended 1/31/15	Year Ended 7/31/14	Six Months Ended 1/31/15	Year Ended 7/31/14
Common shares: Issued to shareholders due to reinvestment of distributions						
Repurchased and retired Weighted average:	(5,000)				(40,000)	(20,000)

Discount per common share repurchased and retired 5. Investment Train	13.98% nsactions	%	%	%	12.95%	13.58%

Long-term purchases and sales (including maturities but excluding derivative transactions) during the current fiscal period were as follows:

Quality	Quality	Quality
Preferred	Preferred	Preferred
Income	Income 2	Income 3
(JTP)	(JPS)	(JHP)

Purchases	\$32,010,757	\$81,314,470	\$10,394,854
Sales and maturities	37,752,751	83,023,482	14,877,804

6. Income Tax Information

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment company taxable income to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to recognition of premium amortization, timing differences in the recognition of income and timing differences in recognizing certain gains and losses on investment transactions. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the NAVs of the Funds.

Nuveen Investments

56

As of January 31, 2015, the cost and unrealized appreciation (depreciation) of investments (excluding investments in derivatives), as determined on a federal income tax basis, were as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Cost of investments	\$780,689,398	\$1,552,654,753	\$295,530,167
Gross unrealized:			
Appreciation	\$ 64,564,882	\$ 133,173,521	\$ 25,682,744
Depreciation	(12,162,701)	(27,610,076)	(4,257,959)
Net unrealized appreciation (depreciation)			
investments	\$ 52,402,181	\$ 105,563,445	\$ 21,424,785

Permanent differences, primarily due to federal taxes paid, treatment of notional principal contracts, bond premium amortization, securities litigation settlements, complex securities character adjustments and adjustments for investments in passive foreign investment companies, resulted in reclassifications among the Funds' components of common share net assets as of July 31, 2014, the Funds' last tax year end, as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Paid-in-surplus	\$ (42,646)	\$	\$ (40,333)
Undistributed (Over-distribution of)			
net investment income	(842,973)	(1,321,736)	(324,208)
Accumulated net realized gain (loss)	885,619	1,321,736	364,541

The tax components of undistributed net ordinary income and net long-term capital gains as of July 31, 2014, the Funds' last tax year end, were as follows:

	Quality	Quality	Quality
	Preferred	Preferred	Preferred
	Income	Income 2	Income 3
	(JTP)	(JPS)	(JHP)
Undistributed net ordinary income ¹	\$15,479,244	\$23,475,694	\$3,400,888

Undistributed net long-term capital gains

The tax character of distributions paid during the Funds' last tax year ended July 31, 2014, was designated for purposes of the dividends paid deduction as follows:

Quality	Quality	Quality
Preferred	Preferred	Preferred
Income	Income 2	Income 3
(JTP)	(JPS)	(JHP)

¹ Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any. Undistributed net ordinary income (on a tax basis) has not been reduced for the dividend declared on July 1, 2014, paid on August 1, 2014.

Distributions from net ordinary			
income ²	\$42,593,812	\$79,459,391	\$15,801,240

Distributions from net long-term capital gains

As of July 31, 2014, the Funds' last tax year end, the Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as shown in the following table. The losses not subject to expiration will be utilized first by a Fund.

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Expiration:			
July 31,2017	\$173,160,281	\$278,362,191	\$ 74,713,136
July 31,2018	164,307,763	317,825,546	47,045,512
July 31,2019	3,371,042	10,696,373	15,796
Not subject to			
expiration			
Total	\$340,839,086	\$606,884,110 Nuveen Investments 57	\$121,774,444

² Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any.

Notes to Financial Statements (Unaudited) (continued)

During the Funds' last tax year ended July 31, 2014, the Funds utilized capital loss carryforwards as follows:

	Quality	Quality	Quality	
	Preferred	Preferred	Preferred	
	Income (JTP)	Income 2 (JPS)	Income 3 (JHP)	
Utilized capital loss	•	, ,	•	
carryforwards	\$11,570,916	\$16,127,318	\$6,194,466	

The Funds have elected to defer late-year losses in accordance with federal income tax rules. These losses are treated as having arisen on the first day of the current fiscal year. The Funds have elected to defer losses as follows:

	Quality	Quality	Quality
	Preferred	Preferred	Preferred
	Income	Income 2	Income 3
	(JTP)	(JPS)	(JHP)
Post-October capital losses ³	\$1,452,346	\$2,488,880	\$ 633,590

Late-year ordinary losses⁴

7. Management Fees and Other Transactions with Affiliates

Each Fund's management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. Spectrum is compensated for its services to the Funds from the management fees paid to the Adviser. Spectrum also receives compensation on certain portfolio transactions for providing brokerage services to the Funds. During the current fiscal period, Quality Preferred Income (JTP), Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP) paid Spectrum commissions of \$17,355, \$33,348 and \$8,612, respectively.

Each Fund's management fee consists of two components a fund-level fee, based only on the amount of assets within each individual Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets managed by the Adviser. This pricing structure enables Fund shareholders to benefit from growth in the assets within their respective Fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual Fund-level fee, payable monthly, for each Fund is calculated according to the following schedule:

Average Daily Managed Assets*	Fund-Level Fee Rate
For the first \$500 million	0.7000%
For the next \$500 million	0.6750
For the next \$500 million	0.6500
For the next \$500 million	0.6250
For managed assets over \$2 billion	0.6000

³ Capital losses incurred from November 1, 2013 through July 31, 2014, the Funds' last tax year end.

⁴ Ordinary losses incurred from January 1, 2014 through July 31, 2014, and specified losses incurred from November 1, 2013 through July 31, 2014.

The annual complex-level fee, payable monthly, for each Fund is calculated according to the following schedule:

Complex-Level Managed Asset

Breakpoint Level*	Effective Rate at Breakpoint Level
\$55 billion	0.2000%
\$56 billion	0.1996
\$57 billion	0.1989
\$60 billion	0.1961
\$63 billion	0.1931
\$66 billion	0.1900
\$71 billion	0.1851
\$76 billion	0.1806
\$80 billion	0.1773
\$91 billion	0.1691
\$125 billion	0.1599
\$200 billion	0.1505
\$250 billion	0.1469
\$300 billion	0.1445

^{*} For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to certain types of leverage. For these purposes, leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen funds that constitute "eligible assets." Eligible assets do not include assets attributable to investments in other Nuveen funds and assets in excess of \$2 billion added to the Nuveen fund complex in connection with the Adviser's assumption of the management of the former First American Funds effective January 1, 2011. As of January 31, 2015, the complex-level fee rate for these Funds was 0.1635%.

The Funds pay no compensation directly to those of its trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board has adopted a deferred compensation plan for independent trustees that enables

trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen-advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen-advised funds.

8. Borrowing Arrangements

Borrowings

Each Fund has entered into a prime brokerage facility ("Borrowings") with BNP Paribas Prime Brokerage, Inc. ("BNP") as a means of leverage. Each Fund's maximum commitment amount under these Borrowings is as follows:

	Quality	Quality	Quality
	Preferred	Preferred	Preferred
	Income	Income 2	Income 3
	(JTP)	(JPS)	(JHP)
Maximum commitment			
amount	\$235,000,000	\$467,000,000	\$89,000,000

As of the end of the reporting period, each Fund's outstanding balance on its Borrowings was as follows:

	Quality	Quality	Quality
	Preferred	Preferred	Preferred
	Income	Income 2	Income 3
	(JTP)	(JPS)	(JHP)
Outstanding borrowings	\$235,000,000	\$465.800.000	\$89.000.000

During the current fiscal period, the average daily balance outstanding and average annual interest rate on each Fund's Borrowings were as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Average daily balance outstanding	\$234,331,522	\$464,596,739	\$89,000,000
Average annual interest rate	1.01%	1.01%	1.01%

In order to maintain these Borrowings, the Funds must meet certain collateral, asset coverage and other requirements. Borrowings outstanding are fully secured by securities held in each Fund's portfolio of investments ("Pledged Collateral"). Interest is charged on these Borrowings for each Fund at the 1-Month LIBOR (London Inter-Bank Offered Rate) plus 0.85% per annum on the amounts borrowed and 0.50% per annum on the undrawn balance. Effective December 4, 2014, the Funds are only charged the 0.50% per annum undrawn fee if the undrawn portion of the Borrowings on that day is more than 20% of the maximum commitment amount.

Borrowings outstanding are recognized as "Borrowings" on the Statement of Assets and Liabilities. Interest expense incurred on each Fund's borrowed amount and undrawn balance are recognized as a component of "Interest expense on borrowings" on the Statement of Operations.

Rehypothecation

The Adviser has entered into a Rehypothecation Side Letter ("Side Letter") with BNP, allowing BNP to re-register the Pledged Collateral in its own name or in a name other than the Funds' to pledge, repledge, hypothecate, rehyphothecate, sell, lend or otherwise transfer or use the Pledged Collateral (the "Hypothecated Securities") with all rights of ownership as described in the Side Letter. Subject to certain conditions, the total value of the outstanding Hypothecated Securities shall not exceed the lesser of (i) 98% of the outstanding balance on the Borrowings to which the Pledged Collateral relates and (ii) 33 1/3% of the Funds' total assets. The Funds may designate any Pledged Collateral as ineligible for rehypothecation. The Funds may also recall Hypothecated Securities on demand.

The Funds also have the right to apply and set-off an amount equal to one-hundred percent (100%) of the then-current fair market value of such Pledged Collateral against the current Borrowings under the Side Letter in the event that BNP fails to timely return the Pledged Collateral and in certain other circumstances. In such circumstances, however, the Funds may not be able to obtain replacement financing required to purchase replacement securities and, consequently, the Funds' income generating potential may decrease. Even if each Fund is able to obtain replacement financing, it might not be able to purchase replacement securities at favorable prices.

The Funds will receive a fee in connection with the Hypothecated Securities ("Rehypothecation Fees") in addition to any principal, interest, dividends and other distributions paid on the Hypothecated Securities.

As of the end of the reporting period, each Fund had Hypothecated Securities as follows:

	Quality Preferred Income (JTP)	Quality Preferred Income 2 (JPS)	Quality Preferred Income 3 (JHP)
Hypothecated Securities	\$24,599,000	\$61,674,000	\$5,498,000
		Nuveen Investments 59	

Notes to Financial Statements (Unaudited) (continued)

The Funds earn Rehypothecation Fees, which are recognized as "Other income" on the Statement of Operations. During the current fiscal period, the Rehypothecation Fees earned by each Fund are as follows:

	Quality	Quality	Quality
	Preferred	Preferred	Preferred
	Income	Income 2	Income 3
	(JTP)	(JPS)	(JHP)
Rehypothecation Fees	\$ 180,634	\$ 358,131 Nuveen Investments 60	\$ 68,233

^{**} During the fiscal period ended July 31, 2015, the Board of Trustees of the Funds, upon recommendation of the Audit Committee, engaged KPMG LLP ("KPMG") as the independent registered public accounting firm to the Funds replacing Ernst & Young LLP ("Ernst & Young"), which resigned as the independent registered public accounting firm effective September 30, 2014 as a result of the pending acquisition of Nuveen Investments by TIAA-CREF.

Ernst & Young's report on the Funds for the most recent fiscal period ended July 31, 2014, contained no adverse opinion or disclaimer of opinion, and was not qualified or modified as to uncertainty, audit scope or accounting principles. For the fiscal period ended July 31, 2014 for the Funds and for the period August 1, 2014 through September 30, 2014, there were no disagreements with Ernst & Young on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedures, which disagreements, if not resolved to the satisfaction of Ernst & Young, would have caused it to make reference to the subject matter of the disagreements in connection with its reports on the Funds' financial statements.

Quarterly Form N-Q Portfolio of Investments Information

Each Fund is required to file its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. You may obtain this information directly from the SEC. Visit the SEC on-line at http://www.sec.gov or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC toll-free at (800) SEC-0330 for room hours and operation.

Nuveen Funds' Proxy Voting Information

You may obtain (i) information regarding how each fund voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com and (ii) a description of the policies and procedures that each fund used to determine how to vote proxies relating to portfolio securities without charge, upon

request, by calling Nuveen Investments toll free at (800) 257-8787. You may also obtain this information directly from the SEC. Visit the SEC on-line at http://www.sec.gov.

CEO Certification Disclosure

Each Fund's Chief Executive Officer (CEO) has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the SEC the certification of its CEO and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

Common Share Repurchases

Each Fund intends to repurchase, through its open market share repurchase program, shares of its own common stock at such times and in such amounts as is deemed advisable. During the period covered by this report, each Fund repurchased shares of its common stock, as shown in the accompanying table. Any future repurchases will be reported to shareholders in the next annual or semi-annual report.

	JTP	JPS	JHP
Common shares			
repurchased	5,000		40,000

FINRA BrokerCheck

The Financial Industry Regulatory Authority (FINRA) provides information regarding the disciplinary history of FINRA member firms and associated investment professionals. This information as well as an investor brochure describing FINRA BrokerCheck is available to the public by calling the FINRA BrokerCheck Hotline number at (800) 289-9999 or by visiting www.FINRA.org.

Glossary of Terms

Used in this Report

- n Average Annual Total Return: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.
- n **Barclays U.S. Aggregate Bond Index:** An unmanaged index that includes all investment-grade, publicly issued, fixed-rate, dollar denominated, nonconvertible debt issues and commercial mortgage-backed securities with maturities of at least one year and outstanding par values of \$150 million or more. Index returns assume reinvestment of distributions, but do not include the effects of any applicable sales charges or management fees.
- n Blended Benchmark (Comparative Index): A blended return consisting of: 1) 55% of the BofA/Merrill Lynch Preferred Securities Fixed Rate Index, an unmanaged index that tracks the performance of fixed rate U.S. dollar denominated preferred securities issued in the U.S. domestic market; and 2) 45% of the Barclays Tier 1 Capital Securities USD Index, an unmanaged index that includes securities that can generally be viewed as hybrid fixed-income securities that either receive regulatory capital treatment or a degree of "equity credit" from a rating agency. Index returns do not include the effects of any sales charges or management fees.
- n **Effective Leverage:** Effective leverage is a fund's effective economic leverage, and includes both regulatory leverage (see below) and the leverage effects of certain derivative investments in the fund's portfolio that increase the funds' investment exposure.
- n **Gross Domestic Product (GDP):** The total market value of all final goods and services produced in a country/region in a given year, equal to total consumer, investment and government spending, plus the value of exports, minus the value of imports.
- n **Leverage:** Leverage is created whenever a fund has investment exposure (both reward and/or risk) equivalent to more than 100% of the investment capital.
- n **Net Asset Value (NAV) Per Share:** A fund's Net Assets is equal to its total assets (securities, cash, accrued earnings and receivables) less its total liabilities. NAV per share is equal to the fund's Net Assets divided by its number of shares outstanding.
- n **Regulatory Leverage:** Regulatory leverage consists of preferred shares issued by or borrowings of a fund. Both of these are part of a fund's capital structure. Regulatory leverage is subject to asset coverage limits set forth in the Investment Company Act of 1940.

Reinvest Automatically,

Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

Nuveen Closed-End Funds Automatic Reinvestment Plan

Your Nuveen Closed-End Fund allows you to conveniently reinvest distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding. Just like distributions in cash, there may be times when income or capital gains taxes may be payable on distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each quarter you'll receive a statement showing your total distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Distributions received to purchase shares in the open market will normally be invested shortly after the distribution payment date. No interest will be paid on distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Flexible

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to

another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

ITEM 8 PORTFOLIO M.	ANAGERS OF CLOSED	-END MANAGEMENT INVESTMENT COMPANIES

Not applicable to this filing.
ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.
Not applicable.
ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.
There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant s Board implemented after the registrant last provided disclosure in response to this item.
ITEM 11. CONTROLS AND PROCEDURES.
(a) The registrant s principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act) (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the Exchange Act) (17 CFR 240.13a-15(b) or 240.15d-15(b)).
(b) There were no changes in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant s internal control over financial reporting.
ITEM 12. EXHIBITS.
File the exhibits listed below as part of this Form.
(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable to this filing.
(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons: Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed filed for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
