## PART I

### ITEM 1. DESCRIPTION OF BUSINESS

#### **Business Development and Summary**

We were incorporated in the State of Nevada on December 5, 2001 under the name SGC Holdings, Inc. ( SGC ), and are presently a development stage company headquartered in Fountain Hills, Arizona, planning to: (1) open a concept restaurant under the name St. George Clipper and (2) expand the St. George Clipper concept into a restaurant chain. Mr. Christos E. Loukas is the founder and sole Officer and Director of SGC Holdings, Inc. Mr. Loukas previously owned and operated a diner named St. George Clipper in Staten Island, New York. The original St George Clipper, which Mr. Loukas sold in 1994 after 25 years of ownership and operation, now serves as the prototype for SGC Holdings, Inc.'s restaurant concept.

SGC Holdings, Inc.'s business activities have been limited to date. SGC was formed on December 5th, 2001 for the purpose of raising capital and opening a chain of St. George Clipper restaurants. SGC Holdings, Inc. wanted to raise capital but was unable to find investors until July 2002. The company closed a private offering of common stock in August 2002. In the offering, SGC Holdings, Inc. issued 720,000 shares of its \$0.001 par value common stock for cash at \$0.05 per share to 36 shareholders for total consideration of \$36,000.00. The intended use of proceeds include a feasibility and demographics study, kitchen and architectural plans, manuals, handbooks and recipes, and working capital.

On October 20, 2003, the Company's Board of Directors authorized the formation of a wholly owned subsidiary to be named "St. George Clipper One, Inc." (the "Subsidiary"). The Subsidiary was incorporated under the laws of the State of Nevada on October 27, 2003. Christos E. Loukas is President, Secretary, Treasurer and sole Director of the Subsidiary. The purpose of the Subsidiary is to serve as the vehicle to fund and open the first restaurant for the Company.

St. George Clipper One, Inc., a wholly owned subsidiary, is currently in the process of locating a space to lease, hiring an architect for kitchen and restaurant design concepts, and procuring recipes and equipment.

As of the date of this Annual Report, SGC Holdings, Inc. is a company without revenue or substantive operations, with minimal assets, and its primary source of capital to date has been the sale of its own securities.

As part of its funding efforts, the Company has prepared a Private Placement Memorandum dated September 28, 2004 under the terms of which the Company intends to offer, on a "best-efforts" basis (the "Offering"), a minimum of \$1,250,000 and a maximum of \$1,750,000 of the Company's 7% Convertible Debentures due February 1, 2009 ("Convertible Debentures") in denominations of \$1,000 with a minimum investment of \$25,000. The holders of the convertible debentures may convert at any time in the event that the shares of the Company trade above \$2 for 30 calendar days at a conversion rate of 500 shares of common stock per \$1,000 principal amount of the convertible debentures. To date, the Company has raised a total of \$200,000 of which the entire amount is held in escrow until the minimum is met.

Our administrative office is located at East 15911 E. Sunburst Drive, Fountain Hills, Arizona 85268, telephone (480) 837-6029.

SGC's fiscal year end is December 31.

## **Business of Issuer**

### Principal Services and Principal Markets

The concept of a St. George Clipper restaurant focuses primarily on a nautical theme expressed in a design reminiscent of a sailing ship. SGC Holdings, Inc. also believes that long operating hours from breakfast to dinner and signature offerings, such as Western ribs, may augment the concept and brand image.

St. George Clipper will be a sit-down restaurant with table service. It will have a salad bar and a dessert bar. The salad bar will include both hot and cold items and have dual usage for special events or holidays.

SGC Holdings, Inc. plans to provide a unique combination of excellent food at value prices with a fun and entertaining atmosphere. In a highly competitive casual-dining market, SGC Holdings, Inc. plans to differentiate its restaurants by offering a diverse menu including Italian, Greek, Mexican, and American dishes. Menu items will include Western beef baby-back ribs, chicken, seafood, appetizers, salads, sandwiches, burgers, eggs and omelets, pancakes, French toast, a menu for children age 12 and under, and specialty drinks. SGC Holdings, Inc.'s primary goal is to serve nothing but the highest quality food at low prices in a clean, fun environment.

The following is a list of features that, in SGC Holdings, Inc.'s view, will distinguish its concept from other casual dining restaurants:

o

1/3-lb. Clipper Specialty Beefburger Lunch. This special treat will greet weekday lunch guests from 11:00 a.m. until 2:30 p.m. The Clipper Specialty Beefburger will be ground fresh daily and seasoned with a custom blend of spices designed to enhance the taste. To complement the sandwiches on the menu, SGC Holdings, Inc. will have a sandwich

fixings" bar with sliced tomatoes, onions, chopped lettuce, pickles, relish, and other sandwich condiments.

o

Breakfast. Depending upon location, SGC Holdings, Inc. will serve a full breakfast, including fresh fruits in-

o

season, cold juices, hot breakfast items, and cook-to-order omelets from a display grill.

o

Guided Tours. SGC Holdings, Inc. will offer every new guest a guided tour explaining the restaurant's concept.

o

SGC Holdings, Inc. believes that by doing this it can exceed the guest's perception of service.

o

Dinner All Day on Saturdays and Sundays. SGC Holdings, Inc. will feature the dinner menu all day on Saturday and Sunday. Since both days are busy all day long, SGC Holdings, Inc. restaurants will not shut down at midday as it would normally do on the weekdays.

o

Reduced Dinner Pricing. On Monday through Thursday the dinner price will be slightly lower than on Friday through Sunday. On weekends, SGC Holdings, Inc. will add more expensive items to the menu, including fried shrimp and steaks.

o

Competitive Lunch Pricing. SGC Holdings, Inc. plans to keep lunch prices as low as possible to compete with fast-food restaurants. At lunch, SGC Holdings, Inc. will offer its customers packaged menu items, including a traditional sandwich with fries and a drink. Lunch time diners can also choose from a selection of salads, a dessert menu, as well as, a selection of hot food items.

SGC Holdings, Inc. restaurants will range in size from 7,000-10,000 square feet and will seat from 300 to 400 guests each. SGC Holdings, Inc. will equip the restaurants with state-of-the-art sound systems connected to old-fashioned jukeboxes, which the customers will be able to access for free to select their favorite Country and Western songs. Every restaurant will be built-out to SGC Holdings, Inc.'s general prototype specifications in the bar area, salad bar, dessert bar, etc.

SGC Holdings, Inc. will base the site and building selection on the following criteria:

o

Minimum community size of 40,000 people within five miles

o

High visibility

o

Easy access to parking lot with a minimum of 120 parking spaces

o

Mid - to low-cost land not to exceed a total of \$600,000

o

Heavy blue-collar worker makeup in the community

o

No overabundance of competition in the trade area

SGC Holdings, Inc. is currently reviewing and considering several locations for lease. Until the first location is identified, it is extremely difficult to delineate the time frame it will take to open the first restaurant and begin operations. SGC Holdings, Inc. believes, once the location is identified and additional capital is raised, it will take four to five months to complete the build-out and begin operations. The first location is expected to be in Fountain Hills, Scottsdale, or Phoenix in Maricopa County, Arizona. Once SGC Holdings, Inc. identifies a suitable building for lease, it will seek a contractor and an architect to design and build out the space. No arrangements with a contractor or an architect are in place as of December 31, 2004.

SGC Holdings, Inc. considers the restaurant site selection process critical to its long-term success and plans to devote significant efforts to the investigation of new locations, utilizing a variety of techniques. The site selection process will include the evaluation of trade area demographics, such as target population, density and household income levels; physical site characteristics, such as visibility, accessibility and traffic volume; relative proximity to activity centers, such as shopping centers, hotel and motel complexes and office buildings; and supply and demand trends, such as proposed infrastructure improvements, new developments, and potential competition.

Distribution Methods of the Products or Services Marketing and Advertising

SGC Holdings, Inc. believes that the best form of advertising is "word-of-mouth." In addition to word-of-mouth advertising, SGC Holdings, Inc. plans to employ a combination of local media and local store marketing programs at each location. In particular, SGC Holdings, Inc. will rely on the following (in order of decreasing feasibility):

1. Visual Media, including:

o

A Grand Opening advertising blitz involving banner and road-sign advertising on site;

o

Direct mail flyers (SGC Holdings, Inc. envisions a stand-alone folded piece measuring 6" by 7.5" in size, produced in full color on heavy-weight paper) containing pictures of the interior of the restaurant, prices, hours of operation, theme night announcements, and a locator map;

o

Table toppers explaining the concept, announcing theme nights, advertising gift certificates, announcing job openings, and possibly mentioning franchise opportunities;

o

Brochures and handouts listing special features and advertising service options for large parties, banquets, or bus loads;

o

Wall posters; and

o

Outdoor marquee message changed weekly.

2. Promotional Events, including:

o

In-store tours offered to every new customer;

o

VIP parties, including a VIP lunch and a VIP dinner, which will serve as a way to introduce SGC Holdings, Inc. to the community just prior to the grand opening at each location (SGC Holdings, Inc. will run the lunch on a Monday, followed by the dinner on a Tuesday, with the Grand Opening on a Wednesday);

o

Yearly birthday parties for loyal customers;

o

Customer raffles for Western apparel or SGC Holdings, Inc. merchandise; and

o

Line dance contest with nominal prizes such as St.George Clipper T-shirts.

3. Local Mass Media, including:

o

Radio campaigns, which may include: (a) short and catchy radio ads; (b) live remotes in restaurant parking lots; (c) sponsored radio call-in contests with free meal coupons as the prize; (d) live "on-the-air" presentations of food products to disk jockeys;

o

Newspaper campaigns; and

o

Local cable TV.

#### Community Support

To enhance local awareness and promote a positive community image for SGC Holdings, Inc., the Company will run periodic Local Store Marketing (LSM) community campaigns. These low-budget campaigns will promote community support and awareness of its facilities. SGC Holdings, Inc. plans to run approximately two or three LSM campaigns per marketing quarter. Examples of possible LSM campaigns include a charity car wash (free car wash while you dine) or some type of a school program (perfect attendance or honor roll students would receive a free meal).

SGC Holdings, Inc. will also consider running its VIP parties as local charity events. The Company may choose a local charity to be the beneficiary of the VIP parties, at which the guests will eat for a small contribution to the hosting charity.

#### Price Strategy

SGC Holdings, Inc. plans to offer a moderately priced menu. While SGC Holdings, Inc. is not striving to be the lowest priced restaurant around, the Company is aiming to be the value leader. Presently, SGC Holdings, Inc. has no plans for coupon/discounting or the use of birthday or frequent buyer clubs.

#### Competitive Business Conditions

SGC Holdings, Inc. plans to enter the casual dining market. The restaurant business in general and the casual dining segment in particular are highly competitive with respect to price, service, restaurant location and food quality, and are often affected by changes in consumer tastes, economic conditions, population and traffic patterns. SGC Holdings, Inc. will compete within each market with locally owned restaurants, as well as, national and regional restaurant chains. Examples of major competitors include such national restaurant chain operators as Applebee's, Darden Restaurants, and Brinker International.

Although SGC Holdings, Inc. will compete mainly against casual dining restaurants and family value restaurants, large fast-food chains, such as Burger King, McDonald's, and Taco Bell, may also present a competitive challenge.

SGC Holdings, Inc. plans to capture and retain its target customer groups by offering an attractive value/price relationship.

#### Sources and Availability of Raw Materials

The ability of SGC Holdings, Inc. to ensure a consistent supply of high-quality food and supplies at competitive prices to its restaurants will depend upon procurement from reliable sources. Given a large number of competitive suppliers for the industry, SGC Holdings, Inc. does not expect that it will disproportionately depend on one or a group of suppliers. SGC Holdings, Inc. believes that most food products are available, or can be made available upon short notice, from a variety of qualified suppliers. Because of the relatively rapid turnover of perishable food products, inventories in the restaurants have a modest aggregate dollar value in relation to revenue.

SGC Holdings, Inc. does not anticipate a significant overall impact from inflation. As operating expenses increase, the Company plans, to the extent permitted by competition, to recover increased costs by increasing menu prices, by reviewing, then implementing, alternative products or processes, or by implementing other cost-reduction procedures. There can be no assurance, however, that SGC Holdings, Inc. will be able to recover increases in operating expenses due to inflation in this manner.

As of the date of this Annual Report, SGC Holdings, Inc. has not entered into any agreements with suppliers of food products or other materials.

#### Customers

SGC Holdings, Inc. believes that, with more money in their pockets than time on their hands, a growing number of working adults today are dining at their favorite casual restaurants. For most customers, eating out at family/casual dining restaurants appears to be primarily a matter of convenience; fewer and fewer households have the time to cook at home. That phenomenon makes it critical for restaurants to offer a wide range of menu options. In fact, menu choices, along with management and cleanliness/hygiene, are among the most vital issues in this category, meaning they are the issues most likely to be discussed among consumers.

SGC Holdings, Inc. intends to capitalize on the perceived demand for casual restaurants with a widely diversified menu. SGC Holdings, Inc. plans to be the first mover in the "Italian, Greek, Mexican and American" concept with the

goal of eventually becoming a national player.

SGC Holdings, Inc. has defined its target market segments by the following factors:

o

Demographics

o

Income

o

Occupation

Depending on the demographic, income, and occupation profile of a selected location, SGC Holdings, Inc. will structure its menu, operating hours, and marketing efforts to maximize its appeal in a particular area.

As of the date of this Annual Report, SGC Holdings, Inc. has not conducted any marketing studies. However, on April 1, 2003, SGC Holdings, Inc. contracted GEC Consultants, an independent consulting firm, to perform a feasibility study, which included demographics. The main part of the study addressing financial requirements, break-even analysis, and projections was completed in June 2003. As SGC Holdings, Inc. has not yet selected its first location, no specific demographic studies are ready as of the date of this Annual Report. SGC Holdings, Inc. is currently reviewing a few locations and is trying to identify acceptable lease terms.

### Intellectual Property

SGC Holdings, Inc. enters a highly competitive market with low barriers to entry. To a large extent, the success of SGC Holdings, Inc. will depend on the Company's ability to build a strong brand based on the "St. George Clipper" name. Presently, the "St. George Clipper" name is not protected by a trademark or a similar legal right.

### Need for Government Approval

Each restaurant will be subject to regulation by federal agencies and to licensing and regulation by state and local health, sanitation, safety, fire, alcoholic control boards and other departments. Difficulties or failures in obtaining any required licensing or approval could result in delays or cancellations in the opening of new restaurants.

SGC Holdings, Inc. will also be subject to the Fair Labor Standards Act and various state laws governing such matters as minimum wages, overtime and other working conditions. A significant number of SGC Holdings, Inc.'s employees will be paid at rates related to the federal and state minimum wage and increases in the minimum wage will increase SGC Holdings, Inc.'s labor costs.

In addition, various proposals which would require employers to provide health insurance for all of their employees are being considered from time to time in the U.S. Congress and various states. The imposition of any such requirement would have a material adverse impact on the planned operations of SGC Holdings, Inc. and the financial condition of the fast-food restaurant industry.

SGC Holdings, Inc. will be subject to certain guidelines under the Americans with Disabilities Act of 1990 (ADA), and various state codes and regulations, which require restaurants to provide full and equal access to persons with physical disabilities. SGC Holdings, Inc. will also be subject to various evolving federal, state and local environmental laws governing, among other things, emissions into the air, discharge to waters and the generation, handling, storage, transportation, treatment and disposal of hazardous and non-hazardous substances and wastes.

### Effect of Existing or Probable Government Regulations

Each of SGC Holdings, Inc.'s restaurants will be subject to licensing and regulation by alcoholic beverage control, health, environmental, labor relations, sanitation, building, zoning, safety, fire and other agencies in the state and/or municipality in which the restaurant is located. Although SGC Holdings, Inc. does not anticipate to encounter any difficulties or failures in obtaining the required licenses or approvals that could delay or prevent the opening of a new restaurant, there can be no assurance that SGC Holdings, Inc. will not experience material difficulties or failures that could delay the opening of restaurants in the future.

#### Employees

SGC Holdings, Inc. is currently in the development stage. During this stage, SGC has relied exclusively on the services of the sole officer and director to set up the business operations. Currently, only Christos E. Loukas, President & CEO is involved in SGC business on a daily basis.

You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. ### Risk Factors

**Auditors Expressed Substantial Doubt About SGC Holdings, Inc.'s Ability to Continue as a Going Concern.**

SGC Holdings, Inc. has yet to commence planned operations. As of the date of this Annual Report, SGC Holdings, Inc. has had only limited start-up operations and generated no revenue. Taking these facts into account, the independent auditors of SGC Holdings, Inc. have expressed substantial doubt about SGC Holdings, Inc.'s ability to continue as a going concern.

**SGC Holdings, Inc. Will Be Unable to Continue as a Going Concern Without Additional Capital, Which May Be Unavailable.**

SGC Holdings, Inc. has limited capital resources. SGC Holdings, Inc. needs \$2 million to finance its first restaurant but, as of yet, has no funding sources available for the \$2 million. As part of its funding efforts, the Company has prepared a Private Placement Memorandum dated November 26, 2003 under the terms of which the Company intends to offer, on a "best-efforts" basis (the "Offering"), a minimum of \$1,250,000 and a maximum of \$1,750,000 of the Company's 7% Convertible Debentures due February 1, 2009 ("Convertible Debentures") in denominations of \$1,000 with a minimum investment of \$25,000. In addition, on December 3, 2003, the Company executed an Escrow Agreement under the terms of which the Company engaged an Escrow Agent to hold any funds received through the Offering along with the underlying offered securities until such time as all prerequisites and conditions to the final disbursements have occurred and to then facilitate the final disbursements to the Company and the Offering investors. As of the date of this Annual Report, the Company currently has \$200,000 in subscriptions from this Private Placement Offering of the Company's 7% Convertible Debentures of which all of the funds are currently held in Escrow until the minimum amount is raised.

Effective March 8, 2004, SGC has been approved for listing its common stock for trading on the OTC Bulletin Board under the symbol **SGCG**. We have generated no revenue since our inception on December 5, 2001. SGC Holdings,

Inc. financed its initial operations by issuing common stock in exchange for cash and services.

SGC Holdings, Inc. currently does not have enough cash to satisfy the opening of its first restaurant. The intention is to raise additional money and open a restaurant. If such funding is not secured, the Company will not be able to conduct business operations. In the event SGC Holdings, Inc. is unable to raise sufficient funds, it will go out of business and will be forced to liquidate. A possibility of such outcome presents a risk of complete loss of investment in SGC Holdings, Inc.'s common stock.

SGC Holdings, Inc.'s Restaurant Might Not Prove Profitable.

As the restaurant business is highly risky, yielding a historically high failure rate, SGC Holdings, Inc.'s restaurant might not prove profitable.

Control by Current Management May Impede the Ability of Minority Shareholders to Exercise Control over SGC Holdings, Inc.

The current President and CEO beneficially owns approximately 74% of the outstanding common stock. As a result, by virtue of his control of a majority of the voting shares, this stockholder has a controlling influence over all matters requiring stockholder approval, including, among other things, the election of Directors, the ability to amend the Company's Certificate of Incorporation and By-Laws, and the approval of fundamental corporate transactions involving the Company. This concentration of ownership may have the effect of delaying or preventing a change in control of SGC Holdings, Inc.

Potential Conflicts of Interest May Jeopardize the Business of SGC Holdings, Inc.

The implementation of the business plan of SGC Holdings, Inc. depends substantially on the ideas, skills, and experience of Christos E. Loukas. Without an employment contract, SGC Holdings, Inc. may lose Mr. Loukas to other pursuits without a sufficient warning and, consequently, go out of business. Mr. Loukas is involved in other business activities and may, in the future, become involved in other business opportunities. If a specific business opportunity becomes available, Mr. Loukas may face a conflict in selecting between SGC Holdings, Inc. and his other business interests. SGC Holdings, Inc. has not and, at this time, does not anticipate that it will formulate a policy for the resolution of such conflicts.

Christos E. Loukas Will Not Work Full-Time for SGC Holdings, Inc. Until Such Time as SGC Has Secured Funding Necessary for Its First Restaurant.

Mr. Loukas is a bartender at Fire Rock Golf & Country Club in Fountain Hills, Arizona. Mr. Loukas will continue to work at Fire Rock Golf & Country Club as a bartender until such time as SGC Holdings, Inc. has secured funding necessary for its first restaurant. Mr. Loukas will dedicate 20 hours a week towards that goal. Once funding is secured, Mr. Loukas will work full time for SGC Holdings, Inc. and quit his job at Fire Rock Golf & Country Club.

Should a Public Trading Market in the Stock of SGC Holdings, Inc. Fail to Develop or Be Sustained, Investors May Lose Their Entire Investment.

As of this date of this Annual Report, no public market for SGC Holdings, Inc.'s Common Stock has yet been established. The Company has been approved for listing on the OTC Bulletin Board under the symbol SGCG effective March 8, 2004. There can be no assurance that a meaningful trading market will subsequently develop. Should a viable public trading market in the stock of SGC Holdings, Inc. fail to develop, investors in SGC Holdings, Inc.'s common stock may lose their entire investment. In addition, in the event that a viable public trading market for SGC Holdings, Inc.'s common stock does develop, such trading, if and when transacted, may be subject to the low-priced security or so-called "penny stock" rules that impose additional sales practice requirements on broker-dealers who sell such securities. For any transaction involving a penny stock, the rules require, among other things, the delivery, prior to the transaction, of a disclosure schedule required by the SEC relating to the penny stock market. The broker-dealer also must disclose the commissions payable to both the broker-dealer and the registered representative and current quotations for the securities. Finally, monthly statements must be sent disclosing recent price information for the penny stocks held in the customer's account. As a result, characterization as a "penny stock" can adversely affect the market liquidity for the securities. Furthermore, the market price of the Company's common stock, if and when traded, may be subject to significant fluctuations, and such fluctuations, as well as economic conditions generally, may adversely affect the market price of our securities.

Our Success Depends on the Efforts of Our Founder.

Our founder, Christos E. Loukas, continues to serve as President, Chief Executive Officer, and Principal Financial Officer of the Company. We believe that our success is highly dependent on the continuing efforts of Mr. Loukas, as well as, the Company's ability to attract and retain other skilled managers and personnel when required. Mr. Loukas is not subject to an employment contract. The loss of the services of Mr. Loukas could have a material adverse effect on the Company.

Failure to Comply with Governmental Permit and Licensing Requirements Could Result in Our Inability to Obtain Such Permits and Licenses, and Changes in These Requirements Could Adversely Affect Us.

Our intended operations are subject to various state, local, and federal regulations that in many instances require permits and licenses. Our failure to obtain such required permits or licenses, or, once obtained, to comply with applicable regulations, could result in our inability to implement our initial business plan, or, once in operation, in fines or revocation of our operating authorities.

**Our Stock Price Is Subject to Volatility.**

Effective March 8, 2004, the Company's common stock has been approved for listing on the OTC Bulletin Board under the symbol *SGCG*. If and when a public market for the Company's common stock actually develops, the market price of our common stock may be subject to significant fluctuations. Such fluctuations, as well as, economic conditions generally, may adversely affect the market price of our securities.

**We Have No History of Paying Dividends.**

SGC Holdings, Inc. has never declared or paid any cash dividends on its common stock. For the foreseeable future, SGC intends to retain any earnings to finance the development and expansion of its business, and it does not anticipate paying any cash dividends on its common stock. Any future determination to pay dividends will be at the discretion of the Board of Directors and will be dependent upon then existing conditions, including SGC's financial condition and the results of operations, capital requirements, contractual restrictions, business prospects, and other factors that the Board of Directors considers relevant.

**Substantial Leverage and Debt Service Obligations Resulting from SGC Holdings, Inc.'s Plan to Offer 7% Convertible Debentures May Adversely Affect the Company's Cash Flow.**

The Company's planned Offering of 7% Convertible Debentures, if successfully completed, will result in substantial amounts of outstanding indebtedness. There is the possibility that SGC may be unable to generate cash sufficient to pay the principal of, interest on, and other amounts due in respect to SGC's debt when due. The sale of the Maximum Offering would result in indebtedness of approximately \$2 million.

Such leverage could have significant negative consequences, including:

o

Increasing SGC's vulnerability to general adverse economic and industry conditions;

o

Limiting SGC's ability to obtain additional financing;

o

\* Requiring the dedication of a substantial portion of SGC's expected cash flow from operations to service the indebtedness, thereby reducing the amount of SGC's expected cash flow available for other purposes, including capital expenditures;

o

Limiting SGC's flexibility in planning for, or reacting to, changes in SGC's business and the industry in which the Company competes; and

o

\* Placing SGC at a possible competitive disadvantage compared to less leveraged competitors and competitors that have better access to capital resources.

Interest on the Convertible Debentures would be payable on February 15 and August 15 of each year, commencing on August 15, 2004. The Company would not be able to redeem the Convertible Debentures, unless the specific conditions described in the "Description of Securities" section of the Confidential Private Placement Memorandum are met. ## **Recent Sales of Unregistered Securities**

### **Sales conducted under an exemption from registration provided under Section 4(2).**

In December 2001, SGC Holdings, Inc. issued 1,500,000 shares of its Common Stock as founders' shares to Christos E. Loukas, an officer and director of SGC Holdings, Inc., at par (\$0.001 per share) for services valued at \$1,500. Additionally, in December 2001 SGC Holdings, Inc. issued 500,000 shares of its Common Stock as founders' shares to Christos E. Loukas, an officer and director of SGC Holdings, Inc., at par (\$0.001 per share) for cash in the amount of \$500. Mr. Loukas is a sophisticated investor who, at the time of the investment, as the founder of SGC Holdings, Inc. was in possession of all available material information about SGC Holdings, Inc.

We believe that the transactions delineated above are exempt from the registration provisions of Section 5 of the Securities Act as such exemption is provided under Section 4(2) because:

1. None of these issuances involved underwriters, underwriting discounts or commissions;
2. Restrictive legends are placed on all certificates issued;
3. The distribution did not involve general solicitation or advertising; and
4. The distributions were made only to insiders, accredited investors or investors who were sophisticated enough to evaluate the risks of the investment. All sophisticated investors were given access to all information about our business and the opportunity to ask questions and receive answers about our business from our management prior to making any investment decision.

## **Recent Private Placement**

In August 2002, we completed an offering of our common stock to a group of private investors. We issued 720,000 shares of its \$0.001 par value common stock for cash at \$0.05 per share. Of the aggregate amount, 60,000 shares were issued to three children of the president of the Company for total cash of \$3,000. The offering (a) involved no general solicitation, (b) involved less than thirty-five non-accredited purchasers, and (c) relied on a detailed disclosure document to communicate to the investors all material facts about SGC Holdings, Inc., including an audited balance sheet and reviewed statements of income, changes in stockholders' equity and cash flows. Thus, we believe that the offering was exempt from registration under Regulation D, Rule 506 of the Securities Act of 1933, as amended.

ITEM 6. MANAGEMENT'S DISCUSSION AND PLAN OF OPERATIONS.

**Management's Discussion**

Forward-Looking Statements

The statements contained in all parts of this document that are not historical facts are, or may be deemed to be, "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements include, but are not limited to, those relating to the following: the Company's ability to secure necessary financing; plans for opening one or more restaurant units (including the scope, timing, impact and effects thereof); expected growth; future operating expenses; future margins; fluctuations in interest rates; ability to continue to grow and implement growth, and regarding future growth, cash needs, operations, business plans and financial results and any other statements that are not historical facts.

When used in this document, the words "anticipate," "estimate," "expect," "may," "plans," "project," and similar expressions are intended to be among the statements that identify forward-looking statements. SGC Holdings, Inc.'s results may differ significantly from the results discussed in the forward-looking statements. Such statements involve risks and uncertainties, including, but not limited to, those relating to costs, delays and difficulties related to the Company's dependence on its ability to attract and retain skilled managers and other personnel; the intense competition within the restaurant industry; the uncertainty of the Company's ability to manage and continue its growth and implement its business strategy; its vulnerability to general economic conditions; accuracy of accounting and other estimates; the Company's future financial and operating results, cash needs and demand for its services; and the Company's ability to maintain and comply with permits and licenses; as well as other risk factors described in this Annual Report. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual outcomes may vary materially from those projected.

#### Overview

SGC Holdings, Inc. was incorporated in the State of Nevada on December 5, 2001. To date, SGC has:

- o

Secured initial capitalization through equity offerings;

- o

Developed a business plan;

- o

Completed a financial feasibility study;

- o

Incorporated a wholly owned subsidiary to obtain funding and operate the Company's first restaurant;

- o

Prepared a Private Placement Memorandum to offer up to a maximum of \$1,750,000 of the Company's 7% Convertible Debentures, and

o

Executed an Escrow Agreement to hold any funds received through the Offering along with the underlying offered securities and to facilitate the final disbursements to the Company and the Offering investors if, as and when, such time as all prerequisites and conditions have occurred. As of the date of this Annual Report, \$200,000 in subscriptions from this Private Placement Offering are currently held in Escrow until the minimum amount is raised; and

o

Been approved for listing of its common stock for trading on the OTC Bulletin Board under the symbol "SGCG" effective March 8, 2004.

In the initial approximately 37-month operating period from December 5, 2001 (inception) to December 31, 2004, SGC Holdings, Inc. generated no revenue and incurred \$37,202 in total general and administrative expenses. The resulting cumulative net loss for the period from December 5, 2001 (inception) to December 31, 2004 was \$(37,304), or approximately \$(0.01) per share. That loss is attributable primarily to the costs of start-up operations.

SGC Holdings, Inc. financed its initial operations by issuing common stock in exchange for cash and services.

### **Plan of Operation**

SGC Holdings, Inc.'s start-up plan includes feasibility and demographic studies aimed at selecting the location for the new St. George Clipper restaurant. Depending on the results of such studies, SGC plans to develop specific kitchen/architectural plans and take steps towards opening the new St. George Clipper restaurant. Such steps may include the purchase or lease of an existing structure. To finance these steps, SGC Holdings, Inc. will seek additional financing. SGC Holdings, Inc. needs \$2 million to finance its first restaurant, but as of yet has no funding sources available for the \$2 million. SGC currently does not have enough cash to satisfy the opening of its first restaurant. The intention is to raise additional money and open a restaurant. If such funding is not secured, the Company will not be able to conduct business operations. In the event SGC Holdings, Inc. is unable to raise sufficient funds, it will go out of business and will be forced to liquidate.

SGC Holdings, Inc. has no current material commitments. SGC depends upon capital to be derived from future financing activities such as subsequent offerings of its stock or debt. There can be no assurance that SGC Holdings, Inc. will be successful in raising the capital it requires. SGC does not expect to achieve liquidity or profitability within the first 12 months of operation.

SGC Holdings, Inc. does not expect the purchase or sale of plant or any significant equipment, except for the initial purchase of restaurant equipment for the prototype. The Company does anticipate hiring at least 24 minimum wage employees and three full-time managers to run the prototype restaurant.

On April 1, 2003, SGC Holdings, Inc. contracted GEC Consultants, an independent consulting firm, to perform a feasibility study. The main part of the study addressed financial requirements, break-even analysis, and projections and was completed in June 2003. The cost of the study was \$4,000.

The preliminary estimates indicate that SGC Holdings, Inc. will need approximately \$2,000,000 to satisfy its cash requirements to open the first restaurant of approximately 10,000 square feet in the next 12 months. With this amount of capital, SGC intends to establish its first prototype restaurant, using the St. George Clipper theme. The following table presents a summary breakdown of the cash requirements:

Professional development	\$	300,145
Location site realty		600,000
Fixtures, equipment, and furnishings		397,900
Build-out & improvements		489,269
Working capital		212,686
		-----
Total Facilities Cost	\$	2,000,000

The specific steps required to open the first restaurant are (time frames are included in parentheses):

- 1) Feasibility study (already complete).
  
  - 2) Raise additional capital (the next three to six months).
  
  - 3) Determination of a location in Fountain Hills, Scottsdale, or Phoenix in Maricopa County, Arizona (three to six months after funding).
  
  - 4) Demographic study of location selected (to be completed once location is found).
  
  - 5) Development of kitchen/architectural plans (to be completed once location and demographic studies are completed).
- 1)  
Construction (four to twelve months after completion of step 5).

The feasibility study concluded that a loan package of \$1,750,000 at 7% interest for a period of 240 months together with equity from shareholders in the amount of \$250,000 should permit the project to proceed. If the dining rooms can maintain at least a 60% customer capacity for every meal period, the restaurant should provide a positive cash flow for the first full year's operation and for the next two years thereafter. The break-even proforma, using the smallest cash flow as the break-even determinant, shows that at about 45% customer capacity the restaurant should break-even.

SGC Holdings, Inc.'s long-term objective is to expand its St. George Clipper restaurant concept by opening Company-operated units in strategically desirable markets. SGC Holdings, Inc. intends to concentrate on the development of certain identified markets to achieve penetration levels deemed desirable by SGC, thereby improving the Company's competitive position, marketing potential, and profitability.

As of December 31, 2004, SGC Holdings, Inc. had \$696 in current assets (consisting entirely of cash) and \$0 in current liabilities. Thus, the working capital as of December 31, 2004 was equal to \$696. SGC Holdings, Inc. believes that its current working capital will be sufficient to continue as a going concern for the next 12 months. However, the independent auditors of SGC Holdings, Inc. have issued a going concern opinion despite SGC's positive working capital position.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

We have audited the accompanying consolidated balance sheet of SGC Holdings, Inc. and Subsidiary (the Company ) (A Development Stage Company), as of December 31, 2004 and 2003, and the related consolidated statement of operations, stockholders' equity, and cash flows for the years then ended, and for the period from December 5, 2001 (Date of Inception) to December 31, 2004. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of SGC Holdings, Inc. and Subsidiary (A Development Stage Company) as of December 31, 2004 and 2003, and the results of its operations and cash flows for the years then ended, and for the period December 5, 2001 (Date of Inception) to December 31, 2004, in conformity with U.S. generally accepted accounting principles.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 3 to the financial statements, the Company has had limited operations and have not commenced planned principal operations. This raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 3. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Cash and cash equivalents

The Company maintains a cash balance in a non-interest-bearing account that currently does not exceed federally insured limits. There were no cash equivalents as of December 31, 2004 and 2003.

Impairment of long-lived assets

Long-lived assets held and used by the Company are reviewed for possible impairment whenever events or circumstances indicate the carrying amount of an asset may not be recoverable or is impaired. No such impairments have been identified by management at December 31, 2004 and 2003.

Revenue recognition

The Company reports revenue as invoiced on an accrued basis. Costs of sales are recorded as items are sold and are comprised of product purchases and shipping costs. The Company will reserve 10% of revenue and will assess its return policy on an ongoing basis and reserve for charge backs and returns based on historical percentages. As of December 31, 2004 and 2003 no reserve has been made.

**Notes**

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Fair value of financial instruments

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of December 31, 2004 and 2003. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values. These financial instruments include cash and accounts payable. Fair values were assumed to approximate carrying values for cash and payables because they are short term in nature and their carrying amounts approximate fair values or they are payable on demand.

Income Taxes

Deferred income tax assets and liabilities are computed annually for differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable on the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

Segment reporting

The Company follows Statement of Financial Accounting Standards No. 130, Disclosures About Segments of an Enterprise and Related Information . The Company operates as a single segment and will evaluate additional segment disclosure requirements as it expands its operations.

Dividends

The Company has not yet adopted any policy regarding payment of dividends. No dividends have been paid or declared since inception.

Recent pronouncements

In November 2004, the FASB issued SFAS No. 151, Inventory Costs, an amendment of ARB No. 43, Chapter 4. SFAS No. 151 amends the guidance in ARB No. 43, Chapter 4, Inventory Pricing, to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and spoilage. This statement requires that those items be recognized as current period charges regardless of whether they meet the criterion of so abnormal which was the criterion specified in ARB No. 43. In addition, this Statement requires that allocation of fixed production overheads to the cost of production be based on normal capacity of the production facilities. This pronouncement is effective for the Company beginning October 1, 2005. The Company does not believe adopting this new standard will have a significant impact to its financial statements.

In December 2004, the FASB issued SFAS No. 123 (revised), Share-Based Payment, which is a revision of SFAS No. 123, Accounting for Stock-Based Compensation. SFAS No. 123(R) supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and amends SFAS No. 95, Statement of Cash Flows. Generally, the approach in SFAS No. 123(R) is similar to the approach described in SFAS No. 123. However, SFAS No. 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. The new standard will be effective for the Company in the first interim or annual reporting period beginning after December 15, 2005. The Company expects the adoption of this standard will have a material impact on its financial statements assuming employee stock options are granted in the future.

**Notes**

Year end

The Company has adopted December 31 as its fiscal year end.

**Note 3 - Going concern**

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying financial statements, the Company has incurred a net loss of \$37,304 for the period from December 5, 2001 (inception) to December 31, 2004, and has no sales. The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations from the development of its new business opportunities. Management plans to raise additional funds via an offering of convertible debentures. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might arise from this uncertainty.

**Note 4 - Income taxes**

Edgar Filing: SGC HOLDINGS INC - Form 10KSB

For the years ended December 31, 2004 and 2003, the Company incurred net operating losses and, accordingly, no provision for income taxes has been recorded. In addition, no benefit for income taxes has been recorded due to the uncertainty of the realization of any tax assets. At December 31, 2004, the Company had approximately \$37,304 of federal and state net operating losses. The net operating loss carryforwards, if not utilized, will begin to expire in 2021.

The components of the Company's deferred tax asset are as follows:

	As of December 31	
	2004	2003
Deferred tax assets:		
Net operating loss carryforwards	37,304	25,105
Total deferred tax assets	37,304	25,105
Net deferred tax assets before valuation allowance	37,304	25,105
Less: Valuation allowance	(37,304)	(25,105)
Net deferred tax assets	\$0	\$0

For financial reporting purposes, the Company has incurred a loss in each period since its inception. Based on the available objective evidence, including the Company's history of losses, management believes it is more likely than not that the net deferred tax assets will not be fully realizable. Accordingly, the Company provided for a full valuation allowance against its net deferred tax assets at December 31, 2004 and 2003.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS

We have had no disagreements with our independent accountants.

ITEM 8A. CONTROLS AND PROCEDURES

Within 90 days prior to the date of filing of this report, we carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and our Chief Financial Officer, of the design and operation of our disclosure controls and procedures. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective for the gathering, analyzing and disclosing the information we are required to disclose in the reports we file under the Securities Exchange Act of 1934, within the time periods specified in the SEC's rules and forms. There have been no significant changes in our internal controls or in other factors that could significantly affect internal controls subsequent to the date of this evaluation.

Our management does not expect that our disclosure controls or internal controls over financial reporting will prevent all errors or all instances of fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Because of the inherent limitation of a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

ITEM 8B. OTHER INFORMATION
