PROSPECTUS SUMMARY

The following Prospectus Summary contains the most material information on EYI Industries Inc. You should read the entire Prospectus carefully, including "Risk Factors" and our Financial Statements and the notes to the Financial Statements before making any investment decision.

OUR COMPANY

We are in the business of selling, marketing, and distributing a product line consisting of approximately 30 nutritional products in two categories, dietary supplements and personal care products. Our most successful product is Calorad, a liquid collagen-based dietary supplement presently available on the market. These products are marketed through a network marketing program in which IBAs (Independent Business Associates) purchase products for resale to retail customers as well as for their own personal use. We have a list of over 400,000 IBAs, of which approximately 14,000 we consider "active". An "active" IBA is one who purchased our products within the preceding 12 months. Over 1,500 of these IBAs are considered "very active". A "very active" IBA is one who is on our automatic Auto-ship Program and is current with their annual administration fee. Our Auto-ship Program allows our IBAs to set up a reoccurring order that is automatically shipped to them each month.

Our independent auditors have added an explanatory paragraph to their audit issued in connection with the financial statements for the years ended December 31, 2004 and December 31, 2003, relative to our ability to continue as a going concern. We have negative working capital of approximately \$1,640,000 and an accumulated deficit of \$7,868,993 incurred through March 31, 2005, which raises substantial doubt about our ability to continue as a going concern. Our ability to obtain additional funding will determine our ability to continue as a going concern. Accordingly, there is substantial doubt about our ability to continue as a going concern. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We have a history of losses. We have incurred an operating loss since inception and had an accumulated deficit of \$7,868,993 as of March 31, 2005. For the year ended December 31, 2004, we incurred a net loss of \$4,462,795. For the six months ended December 31, 2003 and for the year ended June 30, 2003, we incurred a net loss of \$969,987 and \$1,644,456, respectively. Consequently, we will in all likelihood, have to rely on external financing for all of our capital requirements. Future losses are likely to continue unless we successfully implement our business plan, which calls for us to secure both debt

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

and equity financing while pursuing acquisitions and/or joint ventures with companies in the nutritional supplement industry.

The IBAs in our network are encouraged to recruit interested people to become new distributors of our products. New IBAs are placed beneath the recruiting IBA in the "network" and are referred to as being in that IBA's "down-line" organization. Our marketing plan is designed to provide incentives for IBAs to build, maintain and motivate an organization of recruited distributors in their down-line organization to maximize their earning potential. IBAs generate income by purchasing our products at wholesale prices and reselling them at retail prices. IBAs also earn commissions on product purchases generated by their down-line organization.

On an ongoing basis we review our product line for duplication and sales trends and make adjustments accordingly. As of March 31, 2005, our product line consisted of: (i) 22 dietary supplement products; and (ii) 8 personal care products consisting primarily of cosmetic and skin care products. Our products are primarily manufactured by Nutri-Diem, Inc., a related party, and sold by us under a license and distribution agreement with Nutri-Diem Inc. Certain of our own products are manufactured for us by third party manufacturers pursuant to formulations developed for us. Our products are sold to our IBAs located in the United States and Canada.

We believe that our network marketing system is suited to marketing dietary supplement and personal care products, because sales of such products are strengthened by ongoing personal contact between IBAs and their customers. Our network marketing system appeals to a broad cross-section of people, particularly those looking to supplement family income or who are seeking part-time work. IBAs are given the opportunity, through our sponsored events and training sessions, to network with other distributors, develop selling skills and establish personal goals. We supplement monetary incentives with other forms of recognition, in order to motivate IBAs.

ABOUT US

Our principal place of business is located at 7865 Edmonds Street, Burnaby, BC Canada, V3N 1B9 and our telephone number at that address is 604-759-5031.

THE OFFERING

This offering relates to the sale of common stock by certain persons who are, or will become, our stockholders. The selling stockholders consist of:

- o Cornell Capital Partners, which intends to sell up to an aggregate amount of 86,266,589 shares of common stock, which includes 85,000,000 pursuant to a Standby Equity Distribution Agreement and 1,266,589 shares of common stock issued as a commitment fee pursuant to the Standby Equity Distribution Agreement.
- o Newbridge Securities Corporation, an unaffiliated broker-dealer retained by EYI Industries in connection with the Standby Equity Distribution Agreement, which intends to sell up to 33,411 shares of common stock issued as a placement agent fee.
- o Other selling stockholders, who intend to sell up to 8,352,823 shares of common stock underlying convertible debentures.
- o Other selling stockholders, who intend to sell up to 2,611,735

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

shares of common stock previously issued.

Pursuant to the Standby Equity Distribution Agreement, we may, at our discretion, periodically issue and sell to Cornell Capital Partners shares of our common stock for a total purchase price of \$10 million. Cornell Capital Partners will purchase the shares of common stock for 98% of the lowest volume weighted average price of our common stock during the 5 trading days immediately following notice of our intent to make a draw down under the Standby Equity Distribution Agreement. Cornell Capital Partners intends to sell any shares purchased under the Standby Equity Distribution Agreement at the then prevailing market price. In addition, pursuant to a verbal amendment to an agreement dated May 25, 2004 between EYI Industries and Source Capital Group, Inc., we are obligated to pay to Source Capital Group from any proceeds we receive from sources introduced to us by Source Capital Group, a cash amount equal to 4.5% of such proceeds received by us and warrants to purchase shares of our common stock equal to 6% of such proceeds received by us. Source Capital Group introduced us to Cornell Capital Partners.

The commitment amount of the Standby Equity Distribution Agreement is \$10 million. At a recent stock price of \$0.03 per share, EYI would only be able to receive gross proceeds of \$2,499,000 using the 85,000,000 shares being registered in the accompanying registration statement under the Standby Equity Distribution Agreement. EYI would be required to register 255,136,054 additional shares at this assumed price to obtain the entire \$10 million available under the Standby Equity Distribution Agreement. Based on the limited number of available authorized shares of common stock, EYI would need to obtain shareholder approval to increase the authorized shares of common stock to access additional amounts under the Standby Equity Distribution Agreement.

Pursuant to the Standby Equity Distribution Agreement, we may, at our discretion, periodically issue and sell to Cornell Capital Partners shares of our common stock for a total purchase price of \$10 million. The amount of each advance is subject to a maximum weekly advance amount of \$250,000, and we may not submit any advance within seven trading days of a prior advance. Cornell Capital Partners will pay EYI 98% of, or a 2% discount to, the lowest volume weighted average price of the common stock during the five consecutive trading day period immediately following the notice date. Of each advance made by the Company, Cornell Capital Partners shall retain 5% of each advance. In addition, Cornell Capital Partners received a one-time commitment fee in the form of 1,266,589 shares of common stock, under the Standby Equity Distribution Agreement. Cornell Capital Partners intends to sell any shares purchased under the Standby Equity Distribution Agreement at the then prevailing market price. Among other things, this prospectus relates to the shares of common stock to be issued under the Standby Equity Distribution Agreement. There are substantial risks to investors as a result of the issuance of shares of common stock under the Standby Equity Distribution Agreement. These risks include dilution of shareholders, significant decline in EYI's stock price and our inability to draw sufficient funds when needed.

There is an inverse relationship between our stock price and the number of shares to be issued under the Standby Equity Distribution Agreement. That is, as our stock price declines, we would be required to issue a greater number of shares under the Standby Equity Distribution Agreement for a given advance. This inverse relationship is demonstrated by the following tables, which show the net cash to be received by EYI and the number of shares to be issued under the Standby Equity Distribution Agreement at a recent price of \$0.03 per share and 25%, 50% and 75% discounts to the recent price.

RISK FACTORS

WE ARE SUBJECT TO VARIOUS RISKS THAT MAY MATERIALLY HARM OUR BUSINESS, FINANCIAL CONDITION AND RESULTS OF OPERATIONS. YOU SHOULD CAREFULLY CONSIDER THE RISKS AND UNCERTAINTIES DESCRIBED BELOW AND THE OTHER INFORMATION IN THIS FILING BEFORE DECIDING TO PURCHASE OUR COMMON STOCK. IF ANY OF THESE RISKS OR UNCERTAINTIES ACTUALLY OCCUR, OUR BUSINESS, FINANCIAL CONDITION OR OPERATING RESULTS COULD BE MATERIALLY HARMED. IN THAT CASE, THE TRADING PRICE OF OUR COMMON STOCK COULD DECLINE AND YOU COULD LOSE ALL OR PART OF YOUR INVESTMENT.

RISKS RELATED TO OUR BUSINESS

We Have Historically Lost Money And Losses May Continue In the Future

We have a history of losses. We have incurred an operating loss since inception and had an accumulated deficit of \$7,868,993 as of March 31, 2005. Consequently, we will in all likelihood, have to rely on external financing for all of our capital requirements. Future losses are likely to continue unless we successfully implement our business plan, which calls for us to secure both debt and equity financing while pursuing acquisitions and/or joint ventures with companies in the nutritional supplement industry. Our ability to continue as a going concern will be dependent upon our ability to draw down on our Standby Equity Distribution Agreement that we have established with Cornell Capital Partners. If we incur any problems in drawing down our Standby Equity Distribution Agreement, we may experience significant liquidity and cash flow problems. If we are not successful in reaching and maintaining profitable operations, we may not be able to attract sufficient capital to continue our operations. Our inability to obtain adequate financing will result in the need to curtail business operations and will likely result in a lower stock price.

We Have Been Subject To A Going Concern Opinion From Our Independent Auditors

Our independent auditors have added an explanatory paragraph to their audit issued in connection with the financial statements for the period ended December 31, 2004, relative to our ability to continue as a going concern. We have negative working capital of approximately \$1,640,000 and an accumulated deficit incurred through March 31, 2005, which raises substantial doubt about our ability to continue as a going concern. Our ability to obtain additional funding will determine our ability to continue as a going concern. Accordingly, there is substantial doubt about our ability to continue as a going concern. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

If We Are Unable To Raise Additional Capital To Finance Operations, We Will Need To Curtail Or Cease Our Business Operations

We have relied on significant external financing to fund our operations. As of March 31, 2005, we had \$5,450 in cash and our total current assets were \$1,187,378. Our current liabilities were \$2,828,236 as of March 31, 2005. We will need to raise additional capital to fund our anticipated operating expenses and future expansion. Among other things, external financing may be required to cover our operating costs. Unless we obtain profitable operations, it is unlikely that we will be able to secure financing from external sources other than our Standby Equity Distribution Agreement with Cornell. In the event we do not obtain the necessary financing to fund our anticipated operating expenses, we will be forced to reduce our personnel and curtail other operating expenses. The sale of our common stock to raise capital may cause dilution to our existing

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

shareholders. Our inability to obtain adequate financing will result in the need to curtail business operations. Any of these events would be materially harmful to our business and may result in a lower stock price. Our inability to obtain adequate financing will result in the need to curtail business operations and you could lose your entire investment.

Our Common Stock May Be Affected By Limited Trading Volume And May Fluctuate Significantly

Our common stock is traded on the Over-the-Counter Bulletin Board. Our common stock is thinly traded compared to larger, more widely known companies in the nutritional supplement industry. Thinly traded common stock can be more volatile than common stock traded in an active public market. The lower our stock price, the more shares we will have to issue in connection with advances we may request under our Standby Equity Distribution Agreement. The high and low bid price of our common stock for the last two years has \$0.45 and \$0.025, respectively. The average monthly trading volume of our common stock in 2003 and 2004 was 72,761 and 276,059 shares, respectively. Our common stock has experienced, and is likely to experience in the future, significant price and volume fluctuations, which could adversely affect the market price of our common stock without regard to our operating performance. In addition, we believe that factors such as quarterly fluctuations in our financial results and changes in the overall economy or the condition of the financial markets could cause the price of our common stock to fluctuate substantially.

7

We Are Currently Dependent On Our Standby Equity Distribution Agreement With Cornell Capital Partners; We May Not Be Able To Access Sufficient Funds When Needed; The Price Of Our Common Stock Will Affect Our Ability To Draw Down On The Standby Equity Distribution Agreement

Currently, we are dependent upon external financing to fund our operations. Our financing needs are expected to be provided, in large part, by our Standby Equity Distribution Agreement. Therefore, we are dependent on our Standby Equity Distribution Agreement with Cornell Capital Partners to fund our operations. We will receive no funding under the Standby Equity Distribution Agreement until such time as the accompanying registration statement registering the resale of shares acquired by Cornell Capital Partners under the Standby Equity Distribution Agreement has been declared effective by the Securities and Exchange Commission. There is no assurance that the registration statement will become effective in the near future or ever. Our ability to access other financing is limited by the terms of the Standby Equity Distribution Agreement.

The amount of each advance under the Standby Equity Distribution Agreement is subject to a maximum amount equal to \$250,000. We may not request an advance under the Standby Equity Distribution Agreement less than six trading days after a prior advance request. Because of this maximum advance restriction, we may not be able to access sufficient funds when needed. In addition, pursuant to the Standby Equity Distribution Agreement, once the registration statement is effective, in order to receive advances we must have filed with the Securities and Exchange Commission in a timely manner, all reports, notices and other documents required of a "reporting company" under the Exchange Act.

In addition, as we draw down on our Standby Equity Distribution Agreement and more shares of our common stock are sold, our stock price could decrease significantly and make further advances impractical or impossible during time periods in which we may need financing. Unless we obtain profitable operations, it is unlikely that we will be able to secure additional financing from external sources other than our Standby Equity Distribution Agreement. Therefore, if we

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

are unable to draw down on our Standby Equity Distribution Agreement, we may be forced to curtail or cease our business operations.

Our Common Stock Is Deemed To Be "Penny Stock," Which May Make It More Difficult For Investors To Sell Their Shares Due To Suitability Requirements

Our common stock is deemed to be "penny stock" as that term is defined in Rule 3a51-1 promulgated under the Securities Exchange Act of 1934. Penny stocks are stock:

- o With a price of less than \$5.00 per share;
- o That are not traded on a "recognized" national exchange;
- o Whose prices are not quoted on the Nasdaq automated quotation system (Nasdaq listed stock must still have a price of not less than \$5.00 per share); or
- o In issuers with net tangible assets less than \$2.0 million (if the issuer has been in continuous operation for at least three years) or \$5.0 million (if in continuous operation for less than three years), or with average revenues of less than \$6.0 million for the last three years.

Broker/dealers dealing in penny stocks are required to provide potential investors with a document disclosing the risks of penny stocks. Moreover, broker/dealers are required to determine whether an investment in a penny stock is a suitable investment for a prospective investor. These requirements may reduce the potential market for our common stock by reducing the number of potential investors. This may make it more difficult for investors in our common stock to sell shares to third parties or to otherwise dispose of them. This could cause our stock price to decline.

The Issuance Of Preferred Stock May Entrench Management Or Discourage A Change Of Control

Our Articles of Incorporation authorize the issuance of up to 10,000,000 shares of preferred stock that would have designations rights, and preferences determined from time to time by our Board of Directors. Accordingly, our Board of Directors is empowered, without stockholder approval, to issue preferred stock with dividends, liquidation, conversion, voting, or other rights that

could adversely affect the voting power or other rights of the holders of our common stock. In the event of issuance, the preferred stock could be used, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of the company or, alternatively, granting the holders of preferred stock such rights as to entrench management. Current members of our management that are large stockholders may have peculiar interests that are different from other stockholders. Therefore, conflicting interests of certain members of management and our stockholders may lead to stockholders desiring to replace these individuals. In the event this occurs and the holders of our common stock desired to remove current management, it is possible that our Board of Directors could issue preferred stock and grant the holders thereof such rights and preferences so as to discourage or frustrate attempts by the common stockholders to remove current management. In doing so, management would be able to severely limit the rights of common stockholders to elect the Board of Directors. In addition, by issuing preferred stock, management could prevent other shareholders from receiving a premium price for their shares as part of a

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

tender offer.

Mr. Jay Sargeant, our President and Chief Executive Officer Controls Approximately 57% Of Our Common Stock On A Fully Diluted Basis And Such Concentration Of Ownership May Have The Effect Of Delaying Or Preventing A Change Of Control Of Our Company

Mr. Jay Sargeant, our President, Chief Executive Officer and a Director, beneficially owns approximately 57% of EYI's currently issued and outstanding common stock. As a result, Mr. Sargeant will have significant influence in matters requiring stockholder approval, including the election and removal of directors, the approval of significant corporate transactions, such as any merger, consolidation or sale of all or substantially all of EYI's assets, and the control of the board of directors and affairs of EYI. Accordingly, such concentration of ownership may have the effect of delaying, deferring or preventing a change in control of EYI, impeding a merger, consolidation, takeover or other business combination involving EYI or discouraging a potential acquirer from attempting to obtain control of EYI.

We May Not Be Able To Compete Effectively Against Our Competitors, Which Could Force Us To Curtail Or Cease Business Operations

Many of our competitors have significantly greater name recognition, financial resources and larger distribution channels. In addition, our industry is characterized by low barriers to entry, which means we may face more competitors in the future. If we are not able to compete effectively against our competitors, we will be forced to curtail or cease our business operations. Our main competitors are Usana Health Sciences, Reliv International and Mannatech Incorporated based on product offerings and sales pay structure. Our market share in the nutrition supplement industry is very small at this time.

Investors Should Not Rely On An Investment In Our Stock For The Payment Of Cash Dividends

We have not paid any cash dividends on our capital stock and we do not anticipate paying cash dividends in the future. Investors should not make an investment in our common stock if they require dividend income. Any return on an investment in our common stock will be as a result of any appreciation, if any, in our stock price.

There Are No Conclusive Studies Regarding The Medical Benefits Of Nutritional Products

Many of the ingredients in our current products, and we anticipate in our future products, will be vitamins, minerals, herbs and other substances for which there is not a long history of human consumption. Although we believe all of our products to be safe when taken as directed by us, there is little experience with human consumption of certain of these product ingredients in concentrated form. In addition, we are highly dependent upon consumers' perception of the safety and quality of our products as well as similar products distributed by other companies, we could be adversely affected in the event any of our products or any similar products distributed by other companies should prove or be asserted to be harmful to consumers. In addition, because of our dependence upon consumer perceptions, adverse publicity associated with illness or other adverse effects resulting from consumers' failure to consume our products as we suggest or other misuse or abuse of our products or any similar products distributed by other companies could have a material adverse effect on the results of our operations and financial condition.

Adverse Publicity With Respect To Nutritional Products May Force Us To Curtail Or Cease Our Business Operations

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

In the future, scientific research and/or publicity may not be favorable to the nutritional product market or any particular product, or may be inconsistent with any earlier favorable research or publicity. Future reports of research that are unfavorable to nutritional products could force us to curtail or cease our business operations. Because of our dependence upon consumer perceptions, adverse publicity associated with illness or other adverse effects resulting from the consumption of our products or any similar products distributed by other companies could have a material adverse effect on our operations. Such adverse publicity could arise even if the adverse effects associated with such products resulted from consumers' failure to consume such products as directed. In addition, we may not be able to counter the effects of negative publicity concerning the efficacy of our products. Any such occurrence could have a negative effect on our operations and force us to curtail or cease our business operations.

9

We Will Have To Develop New Products In Order To Keep Pace With Changing Consumer Demands Or We Could Be Forced To Curtail Or Cease Our Business Operations

The dietary supplement industry is highly competitive and characterized by changing consumer preferences and continuous introduction of new products. Our goal is to expand our portfolio of dietary supplement products through internal development and/or products serving niche segments of the industry. New products must be introduced in a timely and regular basis to maintain distributor and consumer interest and appeal to varying consumer preferences.

We believe that any future success of our company will depend, in part, on our ability to anticipate changes in consumer preferences and acquire, manage, develop and introduce, in a timely manner, new products that adequately address such changes. If we are unable to develop and introduce new products or if our new products are not successful, our sales may be adversely affected as customers seek competitive products. In the past, we have engaged in very limited research and development with respect to the development of new products, as indicated by our lack of research and development expenses. Our lack of experience in developing and introducing new products combined with our limited financial resources may prevent us from successfully developing and introducing any new products in the future. Any reduction in purchases or consumption of our existing products could force us to curtail or cease our business operations.

We Are Dependent On Our IBAs For Our Product Marketing Efforts; The Loss Of A Significant Number Of IBAs Or The Loss Of A Key IBA Could Adversely Affect Our Sales

Our success and growth depend upon our ability to attract, retain and motivate our network of IBAs who market our products. IBAs are independent contractors who purchase products directly from us for resale and their own use. IBAs typically offer and sell our products on a part-time basis and may engage in other business activities, possibly including the sale of products offered by our competitors. Typically, we have non-exclusive arrangements with our IBAs which may be canceled on short notice and contain no minimum purchase requirements. While we encourage IBAs to focus on the purchase and sale of our products, they may give higher priority to other products, reducing their efforts devoted to marketing our products. Also, our ability to attract and retain IBAs could be negatively affected by adverse publicity relating to us, our products or our operations. In addition, as a result of our network marketing program, the down-line organizations headed by a relatively small number of key IBAs are responsible for a significant percentage of total sales.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

The loss of a significant number of IBAs, including any key IBA, for any reason, could adversely affect our sales and operating results, and could impair our ability to attract new IBAs. The loss of any IBAs could potentially reduce our sales and force us to curtail or cease our business operations. There is no assurance that our network marketing program will continue to be successful or that we will be able to retain or expand our current network of IBAs. Also, if our IBAs do not accept recent changes to our commission plan, our business may be adversely affected.

Government Regulation By The Food And Drug Administration And Other Federal And State Entities Of Our Products Can Negatively Impact Our Ability To Market Products

The manufacturing, processing, formulation, packaging, labeling and advertising of nutritional products are subject to regulation by one or more federal agencies, including the Food and Drug Administration, the Federal Trade Commission, the Consumer Product Safety Commission, the United States Department of Agriculture, the United States Postal Service, the United States Environmental Protection Agency and the Occupational Safety and Health Administration. These activities are also regulated by various agencies of the states and localities, as well as of foreign countries, in which our products may be sold. We may incur significant costs in complying with these regulations. In the event we cannot comply with government regulations affecting our business and products, we may be forced to curtail or cease our business operations.

We market products that fall under two types of Food and Drug Administration regulations: dietary supplements and personal care products. In general, a dietary supplement:

- o is a product (other than tobacco) that is intended to supplement the diet that bears or contains one or more of the following dietary ingredients: a vitamin, a mineral, a herb or other botanical, an amino acid, a dietary substance for use by man to supplement the diet by increasing the total daily intake, or a concentrate, metabolite, constituent, extract, or combinations of these ingredients.

10

- o is intended for ingestion in pill, capsule, tablet, or liquid form.
- o is not represented for use as a conventional food or as the sole item of a meal or diet.
- o is labeled as a "dietary supplement."

Personal care products are intended to be applied to the human body for cleansing, beautifying, promoting attractiveness, or altering the appearance without affecting the body's structure or functions. Included in this definition are products such as skin creams, lotions, perfumes, lipsticks, fingernail polishes, eye and facial make-up preparations, shampoos, permanent waves, hair colors, toothpastes, deodorants, and any material intended for use as a component of a cosmetic product. The Food & Drug Administration has a limited ability to regulate personal care products.

Dietary supplements must follow labeling guidelines outlined by the FDA. Neither dietary supplements nor personal care products require FDA or other government approval or notification to market in the United States.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Under the Dietary Supplement Health and Education Act of 1994, companies that manufacture and distribute dietary supplements are limited in the statements that they are permitted to make about nutritional support on the product label without FDA approval. In addition, a manufacturer of a dietary supplement must have substantiation for any such statement made and must not claim to diagnose, mitigate, treat, cure or prevent a specific disease or class of disease. The product label must also contain a prominent disclaimer. These restrictions may restrict our flexibility in marketing our product.

We believe that all of our existing and proposed products are dietary supplements or personal care products that do not require governmental approvals to market in the United States. Our key products are classified as follows:

Dietary Supplements

- o Calorad(R)
- o Agrisept-L(R)
- o Oxy-Up(R)
- o Triomin
- o Noni Plus(R)
- o Iso-Greens(R)
- o Definition(R) (drops)
- o Essential Omega
- o Prosoteine(R)

Personal Care Products

- o Definition (R) (cream)

The processing, formulation, packaging, labeling and advertising of such products, however, are subject to regulation by one or more federal agencies, including the FDA, the Federal Trade Commission, the Consumer Products Safety Commission, the Department of Agriculture and the Environmental Protection Agency. Our activities are also subject to regulation by various agencies of the states and localities in which our products are sold. Among other things, such regulation puts a burden on our ability to bring products to market. Any changes in the current regulatory environment could impose requirements that would make bringing new products to market more expensive or restrict the ways we can market our products.

11

No governmental agency or other third party makes a determination as to whether our products qualify as dietary supplements, personal care products or neither. We make this determination based on the ingredients contained in the products and the claims we make for the products.

If The Federal Trade Commission Or Certain States Object To Our Product Claims And Advertising We May Be Forced To Give Refunds, Pay Damages, Stop Marketing Certain Products Or Change Our Business Methods

The Federal Trade Commission and certain states regulate advertising,

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

product claims, and other consumer matters, including advertising of our products. In the past several years the Federal Trade Commission has instituted enforcement actions against several dietary supplement companies for false or deceptive advertising of certain products. We provide no assurance that:

- o the Federal Trade Commission will not question our past or future advertising or other operations; or
- o a state will not interpret product claims presumptively valid under federal law as illegal under that state's regulations.

Also, our IBAs and their customers may file actions on their own behalf, as a class or otherwise, and may file complaints with the Federal Trade Commission or state or local consumer affairs offices. These agencies may take action on their own initiative or on a referral from IBAs, consumers or others. If taken, such actions may result in:

- o entries of consent decrees;
- o refunds of amounts paid by the complaining IBA or consumer;
- o refunds to an entire class of IBAs or customers;
- o other damages; and
- o changes in our method of doing business.

A Complaint Based On The Activities Of One IBA, Whether Or Not Such Activities Were Authorized By Us, Could Result In An Order Affecting Some Or All IBAs In A Particular State, And An Order In One State Could Influence Courts Or Government Agencies In Other States

Our IBAs act as independent sales people and are not closely supervised by EYI or supervised by us at all. We have little or no control or knowledge of our IBAs' actual sales activities and therefore, we have little or no ability to ensure that our IBAs comply with regulations and rules regarding how they market and sell our products. It is possible that we may be held liable for the actions of our IBAs. Proceedings resulting from any complaints in connection with our IBAs' marketing and sales activities may result in significant defense costs, settlement payments or judgments and could force to curtail or cease our business operations.

If our network marketing program is shown to violate federal or state regulations, we may be unable to market our products. Our network marketing program is subject to a number of federal and state laws and regulations administered by the Federal Trade Commission and various state agencies. These laws and regulations include securities, franchise investment, business opportunity and criminal laws prohibiting the use of "pyramid" or "endless chain" types of selling organizations. These regulations are generally directed at ensuring that product sales are ultimately made to consumers (as opposed to other IBAs) and that advancement within the network marketing program is based on sales of products, rather than investment in the company or other non-retail sales related criteria.

The compensation structure of a network marketing organization is very complex. Compliance with all of the applicable regulations and laws is uncertain because of: the evolving interpretations of existing laws and regulations, and the enactment of new laws and regulations pertaining in general to network marketing organizations and product distribution.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

We have not obtained any no-action letters or advance rulings from any federal or state securities regulator or other governmental agency concerning the legality of our operations. Also, we are not relying on a formal opinion of counsel to such effect. Accordingly there is the risk that our network marketing system could be found to be in noncompliance with applicable laws and regulations, which could have a material adverse effect on us. Such a decision could require modification of our network marketing program, result in negative publicity, or have a negative effect on IBA morale and loyalty. In addition, our network marketing system will be subject to regulations in foreign markets administered by foreign agencies should we expand our network marketing organization into such markets.

The Legality Of Our Network Marketing Program Is Subject To Challenge By Our IBAs

We are subject to the risk of challenges to the legality of our network marketing organization by our IBAs, both individually and as a class. Generally, such challenges would be based on claims that our network marketing program was operated as an illegal "pyramid scheme" in violation of federal securities laws, state unfair practice and fraud laws and the Racketeer Influenced and Corrupt Organizations Act. An illegal pyramid scheme is generally a marketing scheme that promotes "inventory loading" and does not encourage retail sales of the products and services to ultimate consumers. Inventory loading occurs when distributors purchase large quantities of non-returnable inventory to obtain the full amount of compensation available under the network marketing program. In the event of challenges to the legality of our network marketing organization by our IBAs, there is no assurance that we will be able to demonstrate that:

our network marketing policies were enforced and

the network marketing program and IBAs' compensation thereunder serve as safeguards to deter inventory loading and encourage retail sales to the ultimate consumers.

Proceedings Resulting From Claims Could Result In Significant Defense Costs, Settlement Payments Or Judgments, And Could Have A Material Adverse Effect On Us

One of our competitors, Nutrition for Life International, Inc., a multi-level seller of personal care and nutritional supplements, announced in 1999 that it had settled class action litigation brought by distributors alleging fraud in connection with the operation of a pyramid scheme. Nutrition for Life International agreed to pay in excess of \$3 million to settle claims brought on behalf of its distributors and certain purchasers of its stock.

We believe that our marketing program is significantly different from the program allegedly promoted by Nutrition for Life International and that our marketing program is not in violation of anti-pyramid laws or regulations. However, there can be no assurance that claims similar to the claims brought against Nutrition for Life International and other multi-level marketing organizations will not be made against us, or that we would prevail in the event any such claims were made. Furthermore, even if we were successful in defending against any such claims, the costs of conducting such a defense, both in dollars spent and in management time, could be material and adversely affect our operating results and financial condition. In addition, the negative publicity of such a suit could adversely affect our sales and ability to attract and retain IBAs.

A Large Portion Of Our Sales Is Attributable To Calorad; If Calorad Loses Market Share Or Loses Favor In The Marketplace, Our Financial Results Will Suffer

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

A significant portion of our net sales is expected to be dependent upon our Calorad product. Calorad has traditionally represented more than 65% of our net sales and, although we hope to expand and diversify our product offerings, Calorad is expected to provide a large portion of our net sales in the foreseeable future. If Calorad loses market share or loses favor in the marketplace, our financial results will suffer.

Our Products Are Subject To Obsolescence, Which Could Reduce Our Sales Significantly

The introduction by us or our competitors of new dietary supplement or personal care products offering increased functionality or enhanced results may render our existing products obsolete and unmarketable. Therefore, our ability to successfully introduce new products into the market on a timely basis and achieve acceptable levels of sales has and will continue to be a significant factor in our ability to grow and remain competitive and profitable. In addition, the nature and mix of our products are important factors in attracting and maintaining our network of IBAs, which consequently affects demand for our products. Although we seek to introduce additional products, the success of new products is subject to a number of conditions, including customer acceptance. There can be no assurance that our efforts to develop innovative new products will be successful or that customers will accept new products.

13

In addition, no assurance can be given that new products currently experiencing strong popularity will maintain their sales over time. In the event we are unable to successfully increase the product mix and maintain competitive product replacements or enhancements in a timely manner in response to the introduction of new products, competitive or otherwise, our sales and earnings will be materially and adversely affected.

We Have No Manufacturing Capabilities And We Are Dependent Upon Nutri-Diem, Inc. And Other Companies To Manufacture Our Products

We have no manufacturing facilities and have no present intention to manufacture any of our dietary supplement and personal care products. We are dependent upon relationships with independent manufacturers to fulfill our product needs. Nutri-Diem, Inc., a related party, manufactures and supplies more than 80% of our products. We have contracts with Nutri-Diem that require us to purchase set amounts of its manufactured products for at least the next five years and possibly the next ten years. It is possible that these contracts with Nutri-Diem, Inc. could become unfavorable, and we may not be able to use other manufacturers to provide us with these services if our terms with Nutri-Diem, Inc. become unfavorable. In addition, we must be able to obtain our dietary supplement and personal care products at a cost that permits us to charge a price acceptable to the customer, while also accommodating distribution costs and third party sales compensation. Competitors who do own their own manufacturing may have an advantage over us with respect to pricing, availability of product and in other areas through their control of the manufacturing process. In addition, because our agreement with Nutri-Diem, Inc. requires us to mandatory purchase minimums, we face that risk that we may not receive purchase orders for sufficient amounts of product that will enable us to sell the quantities that we are required to purchase. In the event that this occurs, we will be forced to hold larger quantities of inventory, which could adversely affect our cash flow and our ability to pay our operating expenses. In addition, if we are forced to hold longer quantities of inventory, we face the risk that our inventory becomes obsolete with the passage of large amounts of time.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

We may not be able to deliver various products to our customers if third party providers fail to provide necessary ingredients to us. We are dependent on various third parties for various ingredients for our products. Some of the third parties that provide ingredients to us have a limited operating history and are themselves dependent on reliable delivery of products from others. As a result, our ability to deliver various products to our users may be adversely affected by the failure of these third parties to provide reliable various ingredients for our products.

We Are Materially Dependent Upon Our Key Personnel And The Loss Of Such Key Personnel Could Result In Delays In The Implementation Of Our Business Plan Or Business Failure

We depend upon the continued involvement of Jay Sargeant, our President, Chief Executive Officer and Director, and Dori O'Neill, our Executive Vice President, Chief Operations Officer, Secretary, Treasurer and Director. As we are a developing company, the further implementation of our business plan is dependent on the entrepreneurial skills and direction of management. Mr. Sargeant and Mr. O'Neill guide and direct our activity and vision. This direction requires an awareness of the market, the competition, current and future markets and technologies that would allow us to continue our operations. The loss or lack of availability of these individuals could materially adversely affect our business and operations. We do not carry "key person" life insurance for these officers and directors, and we would be adversely affected by the loss of these two key consultants.

We Face Substantial Competition In The Dietary Supplement And Personal Care Industry, Including Products That Compete Directly With Calorad

The dietary supplement and personal care industry is highly competitive. It is relatively easy for new companies to enter the industry due to the availability of numerous contract manufacturers, a ready availability of natural ingredients and a relatively relaxed regulatory environment. Numerous companies compete with us in the development, manufacture and marketing of supplements as their sole or principal business. Generally, these companies are well funded and sophisticated in their marketing approaches.

Depending On The Product Category, Our Competition Varies

Calorad competes directly with Colvera, a product with different ingredients but a similar concept. Additionally, Calorad competes indirectly with food plans such as Weight Watchers and meal replacement products such as Slim Fast. Our Noni Plus product competes with Morinda and others. Our other products have similar well-funded and sophisticated competitors. Increased competitive activity from such companies could make it more difficult for us to increase or keep market share, since such companies have greater financial and other resources available to them and possess far more extensive manufacturing, distribution and marketing capabilities.

14

We May Be Subject To Products Liability Claims And May Not Have Adequate Insurance To Cover Such Claims. As With Other Retailers, Distributors And Manufacturers Of Products That Are Designed To Be Ingested, We Face An Inherent Risk Of Exposure To Product Liability Claims In The Event That The Use Of Our Products Results In Injury

We, like any other retailers and distributors of products that are designed to be ingested, face an inherent risk of exposure to product liability claims in the event that the use of our products results in injury. Such claims

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

may include, among others, that our products contain contaminants or include inadequate instructions as to use or inadequate warnings concerning side effects and interactions with other substances. With respect to product liability claims, we have coverage of \$2,000,000 per occurrence and \$2,000,000 in the aggregate. Because our policies are purchased on a year-to-year basis, industry conditions or our own claims experience could make it difficult for us to secure the necessary insurance at a reasonable cost. In addition, we may not be able to secure insurance that will be adequate to cover liabilities. We generally do not obtain contractual indemnification from parties supplying raw materials or marketing our products. In any event, any such indemnification is limited by its terms and, as a practical matter, to the creditworthiness of the other party. In the event that we do not have adequate insurance or contractual indemnification, liabilities relating to defective products could require us to pay the injured parties' damages which are significant compared to our net worth or revenues.

We May Be Adversely Affected By Unfavorable Publicity Relating To Our Product Or Similar Products Manufactured By Our Competitors

We believe that the dietary supplement products market is affected by national media attention regarding the consumption of these products. Future scientific research or publicity may be unfavorable to the dietary supplement products market generally or to any particular product and may be inconsistent with earlier favorable research or publicity. Adverse publicity associated with illness or other adverse effects resulting from the consumption of products distributed by other companies, which are similar to our products, could reduce consumer demand for our products and consequently our revenues. This may occur even if the publicity did not relate to our products. Adverse publicity directly concerning our products could be expected to have an immediate negative effect on the market for that product.

Because We Have Few Proprietary Rights, Others Can Provide Products And Services Substantially Equivalent To Ours

We hold no patents. We believe that most of the technology used by us in the design and implementation of our products may be known and available to others. Consequently, others may be able to formulate products equivalent to ours. We rely on confidentiality agreements and trade secret laws to protect our confidential information. In addition, we restrict access to confidential information on a "need to know" basis. However, there can be no assurance that we will be able to maintain the confidentiality of our proprietary information. If our pending trademark or other proprietary rights are violated, or if a third party claims that we violate its trademark or other proprietary rights, we may be required to engage in litigation. Proprietary rights litigation tends to be costly and time consuming. Bringing or defending claims related to our proprietary rights may require us to redirect our human and monetary resources to address those claims.

We Often Use Our Securities As Consideration In Contracts Related To Our Operations, Which Will Cause Existing Shareholders To Experience Significant Dilution

We often issue our securities as consideration in contracts related to our operations. We issued our securities in these transactions primarily because historically we have had insufficient cash to fund our operations. From December 2003 to date the company has issued approximately 7,000,000 shares of common stock and granted 6,000,000 stock options and 6,000,000 warrants in connection with agreements with outside consultants and service providers. As a result of such issuances, existing shareholders of EYI have experienced a dilutive impact to their ownership of our company. We may be forced to issue additional securities of EYI in the future transactions in lieu for cash and shareholders would experience additional dilution.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

The Restrictions On Our Ability To Sell Securities Under The Terms Of The Standby Equity Distribution Agreement Could Impede Us From Using Our Securities As Consideration In Contracts Related To Our Operations

Under the Standby Equity Distribution Agreement, we are restricted, during the commitment period of the Standby Equity Distribution Agreement, from issuing or selling any of our common stock without consideration or for consideration per share less than the bid price of a share of our common stock on the date of issuance. We are also restricted from issuing or selling any derivative security or other security granting the holder the right to acquire our common stock without consideration or for consideration per share less than the bid price of a share of common stock on the date of issuance. These restrictions could impede us from using our securities as consideration in contracts related to our operations, including, but not limited to, common stock issued to consultants and vendors. This may force us to use our limited cash to pay third parties as opposed to issue our securities and may also lead to certain parties deciding to not enter into contracts with us. If we have difficulty in entering into contracts related to our operations, we may be forced to curtail or cease our business operations.

15

RISKS RELATED TO THIS OFFERING

Future Sales By Our Stockholders May Adversely Affect Our Stock Price And Our Ability To Raise Funds In New Stock Offerings

Sales of our common stock in the public market following this offering could lower the market price of our common stock. Sales may also make it more difficult for us to sell equity securities or equity-related securities in the future at a time and price that our management deems acceptable or at all. Some of our shareholders, including officers and directors are the holders of "restricted securities". These restricted securities may be resold in the public market only if registered or pursuant to an exemption from registration. Some of these shares may be resold under Rule 144. As of June 27, 2005, approximately 132,000,000 share of our common stock are deemed restricted.

Upon completion of this offering, and assuming all shares registered in this offering are resold in the public market, there will be an additional 93,352,823 shares of common stock outstanding. All of these shares of common stock may be immediately resold in the public market upon effectiveness of the accompanying registration statement.

Existing Shareholders Will Experience Significant Dilution From Our Sale Of Shares Under The Standby Equity Distribution Agreement

The sale of shares pursuant to the Standby Equity Distribution Agreement will have a dilutive impact on our stockholders. At a recent stock price of \$0.03, we would have to issue 340,136,054 shares of common stock to draw down the entire \$10 million available to us under the Standby Equity Distribution Agreement. However, our current Articles of Incorporation authorize us to issue 300,000,000 shares of common stock. We are registering 85,000,000 shares of our common stock under the Standby Equity Distribution Agreement. If we need to issue more than the 85,000,000 shares to draw down the entire \$10 million available under the Standby Equity Distribution Agreement, we will have to obtain shareholder approval to amend our Articles of Incorporation to increase our authorized common stock and we will have to file a new registration statement covering any additional shares.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

The Selling Stockholders Intend To Sell Their Shares Of Common Stock In The Market, Which Sales May Cause Our Stock Price To Decline

The selling stockholders intend to sell in the public market the shares of common stock being registered in this offering. That means that up to 97,264,558 shares of common stock, the number of shares being registered in this offering may be sold. Such sales may cause our stock price to decline.

The Sale Of Material Amounts Of Common Stock Under The Accompanying Registration Statement Could Encourage Short Sales By Third Parties

The significant downward pressure on our stock price caused by the sale of a significant number of shares under the Standby Equity Distribution Agreement could cause our stock price to decline, thus allowing short sellers of our stock an opportunity to take advantage of any decrease in the value of our stock. The presence of short sellers in our common stock may further depress the price of our common stock. Cornell Capital Partners can cover any short positions only with shares received from us under the Standby Equity Distribution Agreement.

If Cornell Capital Partners Does Not Honor Its Commitments Under The Standby Equity Distribution Agreement, We Could Be Forced To Curtail Or Cease Our Business Operations

Cornell Capital Partners was founded in February 2000 as a Delaware limited partnership and, therefore, has a short history to evaluate it as a business. Cornell Capital Partners is not a registered broker-dealer. In the event that Cornell Capital Partners has insufficient capital to fund our requested advances under the Standby Equity Distribution Agreement, any recourse we may have against Cornell Capital Partners may not adequately compensate us for damages we may incur due to this breach. Any failure by Cornell Capital Partners to fail to honor its commitment to fund EYI Industries could force us to curtail or cease our business operations.

The Price You Pay In This Offering Will Fluctuate

The price in this offering will fluctuate based on the prevailing market price of the common stock on the Over-the-Counter Bulletin Board. Accordingly, the price you pay in this offering may be higher or lower than the prices paid by other people participating in this offering.

The Issuance Of Shares Of Common Stock Under This Offering Could Result In A Change Of Control

We are registering 97,264,558 shares of common stock in this offering. These shares represent 32.42% of our authorized capital stock and would upon issuance represent approximately 37.24% of the then-issued and outstanding common stock and we anticipate all such shares will be sold in this offering. If all or a significant block of these shares are held by one or more shareholders working together, then such shareholder or shareholders would have enough shares to exert significant influence on EYI Industries.

FORWARD-LOOKING STATEMENTS

Risks Associated With Forward-Looking Statements

This Prospectus contains certain forward-looking statements regarding management's plans and objectives for future operations including plans and objectives relating to our planned marketing efforts and future economic performance. The forward-looking statements and associated risks set forth in this Prospectus include or relate to, among other things, (a) our projected sales and profitability, (b) our growth strategies, (c) anticipated trends in our industry, (d) our ability to obtain and retain sufficient capital for future operations, and (e) our anticipated needs for working capital. These statements may be found under "Management's Discussion and Analysis or Plan of Operations" and "Business," as well as in this Prospectus generally. Actual events or results may differ materially from those discussed in forward-looking statements as a result of various factors, including, without limitation, the risks outlined under "Risk Factors" and matters described in this Prospectus generally. In light of these risks and uncertainties, there can be no assurance that the forward-looking statements contained in this Prospectus will in fact occur.

The forward-looking statements herein are based on current expectations that involve a number of risks and uncertainties. Such forward-looking statements are based on assumptions that we will be able to make acquisitions on a timely basis, that we will retain the acquiree's customers, that there will be no material adverse competitive or technological change in conditions in our business, that demand for our products will significantly increase, that our President and Chief Executive Officer will remain employed as such, that our forecasts accurately anticipate market demand, and that there will be no material adverse change in our operations or business or in governmental regulations affecting us or our manufacturers and/or suppliers. The foregoing assumptions are based on judgments with respect to, among other things, future economic, competitive and market conditions, and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Accordingly, although we believe that the assumptions underlying the forward-looking statements are reasonable, any such assumption could prove to be inaccurate and therefore there can be no assurance that the results contemplated in forward-looking statements will be realized. In addition, as disclosed elsewhere in the "Risk Factors" section of this prospectus, there are a number of other risks inherent in our business and operations which could cause our operating results to vary markedly and adversely from prior results or the results contemplated by the forward-looking statements. Growth in absolute and relative amounts of cost of goods sold and selling, general and administrative expenses or the occurrence of extraordinary events could cause actual results to vary materially from the results contemplated by the forward-looking statements. Management decisions, including budgeting, are subjective in many respects and periodic revisions must be made to reflect actual conditions and business developments, the impact of which may cause us to alter marketing, capital investment and other expenditures, which may also materially adversely affect our results of operations. In light of significant uncertainties inherent in the forward-looking information included in this prospectus, the inclusion of such information should not be regarded as a representation by us or any other person that our objectives or plans will be achieved.

Some of the information in this prospectus contains forward-looking statements that involve substantial risks and uncertainties. Any statement in this prospectus and in the documents incorporated by reference into this prospectus that is not a statement of an historical fact constitutes a "forward-looking statement". Further, when we use the words "may", "expect", "anticipate", "plan", "believe", "seek", "estimate", "internal", and similar words, we intend to identify statements and expressions that may be forward-

looking statements. We believe it is important to communicate certain of our expectations to our investors. Forward-looking statements are not guarantees of future performance. They involve risks, uncertainties and assumptions that could cause our future results to differ materially from those expressed in any forward-looking statements. Many factors are beyond our ability to control or predict. You are accordingly cautioned not to place undue reliance on such forward-looking statements. Important factors that may cause our actual results to differ from such forward-looking statements include, but are not limited to, the risk factors discussed below. Before you invest in our common stock, you should be aware that the occurrence of any of the events described under "Risk Factors" in this prospectus could have a material adverse effect on our business, financial condition and results of operation. In such a case, the trading price of our common stock could decline and you could lose all or part of your investment.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting or investment power with respect to securities. Shares of common stock subject to securities exercisable or convertible into shares of common stock that are currently exercisable or exercisable within 60 days of June 27, 2005 are deemed to be beneficially owned by the person holding such securities for the purpose of computing the percentage of ownership of such person, but are not treated as outstanding for the purpose of computing the percentage ownership of any other person. - (3) Please note that the terms of the Secured Convertible Debentures held by Taib Bank, E.C. provide that in no event shall the holder be entitled to convert the Secured Convertible Debentures for a number of shares which, upon giving effect to the conversion, would cause the aggregate number of shares beneficially owned by Cornell and its affiliates to exceed 4.99% of the outstanding shares of EYI Industries following such conversion. Because the conversion price may fluctuate based on the market price of our stock, the actual number of shares to be issued upon conversion of the debentures may be higher or lower. We are registering 8,269,295 shares to cover such conversions for the convertible debenture holder.

The following information contains a description of each selling shareholder's relationship to EYI Industries and how each selling shareholder acquired the shares to be sold in this offering. None of the selling stockholders have held a position or office, or had any other material relationship, with EYI Industries, except as follows:

Shares Acquired In Financing Transactions With EYI Industries

Cornell Capital Partners. Cornell Capital Partners is the investor under the Standby Equity Distribution Agreement. All investment decisions of Cornell Capital Partners are made by its general partner, Yorkville Advisors, LLC. Mark Angelo, the managing member of Yorkville Advisors, makes the investment decisions on behalf of Yorkville Advisors. Cornell Capital Partners acquired all shares being registered in this offering in financing transactions with EYI Industries. These transactions are explained below:

Standby Equity Distribution Agreement. On June 22, 2004, we entered into a Standby Equity Distribution Agreement with Cornell Capital Partners. On May 13, 2005, we mutually agreed to terminate the Standby Equity Distribution Agreement. On May 13, 2005, we entered into a new Standby Equity Distribution Agreement with Cornell Capital Partners. Pursuant to the Standby Equity Distribution Agreement, we may, at our discretion, periodically issue and sell to Cornell Capital Partners shares of common stock for a total purchase price of \$10.0 million. The maximum amount of each advance is \$250,000. Cornell Capital Partners will purchase shares of our common stock for a 2% discount to the lowest volume weighted average price of our common stock for the 5 days immediately following the notice date. In addition, Cornell Capital Partners will retain 5% of each advance under the Standby Equity Distribution Agreement and received a one-time commitment fee of 1,266,589 shares of our common stock. Cornell Capital Partners intends to sell any shares purchased under the Standby Equity Distribution Agreement at the then prevailing market price.

Secured Convertible Debentures. On June 22, 2004, we entered into a secured convertible debenture transaction with Cornell Capital Partners in the principal amount of \$500,000. The sale of these Secured Convertible Debentures is complete. EYI Industries received \$250,000 from the issuance of the first Secured Convertible Debenture on June 22, 2004, and we received \$250,000 five business days following the filing of the accompanying registration statement. The Secured Convertible Debentures are convertible at the holder's option any time up to maturity at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock as of the date of issuance, or (ii) 80% of the average of the lowest daily volume weighted average price of our common stock for the 5 trading days immediately preceding the conversion date. At maturity, the remaining unpaid principal and accrued interest under the debentures shall be, at our option, either paid or converted into shares of common stock at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock as of the date of issuance or (ii) 80% of the lowest closing bid price of the common stock for the lowest trading days of the 5 trading days immediately preceding the conversion date. The Secured Convertible Debenture is secured by all of EYI Industries' assets. The Secured Convertible Debentures accrue interest at a rate of 5% per year and have a term of 3 years. In the event the Secured Convertible Debentures are redeemed, then EYI Industries will issue to the holders a warrant to purchase 50,000 shares for every \$100,000 redeemed at an exercise price of 120% of the closing bid price as of June 22, 2004. The holders purchased the Secured Convertible Debentures from EYI Industries in a private placement on June 22, 2004. On September 24, 2004, we issued the second secured convertible debenture in the principal amount of \$250,000 to Cornell Capital Partners on the same terms and conditions as the secured convertible debenture described above. EYI Industries is registering in this offering 8,352,823 shares of common stock underlying the Secured Convertible Debentures. On April 4, 2005, Cornell Capital Partners assigned all

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

of its rights and interests in the secured convertible debentures to Taib Bank E.C. All investment decisions of Taib Bank E.C. are made by Larry Chaleff, its Managing Director. In addition, on April 4, 2005, EYI Industries and Taib Bank E.C. entered into a Redemption Agreement, whereby EYI Industries agreed to first use any proceeds received by EYI Industries under the Equity Distribution Agreement with Cornell Capital Partners to redeem any remaining principal and accrued interest under the assigned Secured Convertible Debentures.

There are certain risks related to sales by Cornell Capital Partners, including:

- o The outstanding shares will be issued based on discount to the market rate. As a result, the lower the stock price, the greater number of shares that will be issued to Cornell Capital Partners. This could result in substantial dilution to the interests of other holders of common stock.
- o To the extent Cornell Capital Partners sells its common stock, the common stock price may decrease due to the additional shares in the market. This could allow Cornell Capital Partners to sell greater amounts of common stock, the sales of which would further depress the stock price.
- o The significant downward pressure on the price of the common stock as Cornell Capital Partners sells material amounts of common stocks could encourage short sales by others. This could place further downward pressure on the price of the common stock.

Newbridge Securities Corporation. Newbridge Securities Corporation is an unaffiliated registered broker-dealer that has been retained by us. For its services in connection with the Standby Equity Distribution Agreement, Newbridge Securities Corporation received a fee of \$10,000, which we paid by the issuance of 33,411 shares of common stock of EYI Industries. These shares are being registered in this offering. All investment decisions of Newbridge Securities Corporation are made by its President, Guy Amico.

USE OF PROCEEDS

This Prospectus relates to shares of our common stock that may be offered and sold from time to time by Cornell Capital Partners. There will be no proceeds to us from the sale of shares of common stock in this offering. However, we will receive the proceeds from the sale of shares of common stock to Cornell Capital Partners under the Standby Equity Distribution Agreement, which we intend to use for general working capital purposes, including, among other things, sales and marketing, product development and debt retirement. The purchase price of the shares purchased under the Standby Equity Distribution Agreement will be equal to 98% of the lowest volume weighted average price of our common stock on the Over-the-Counter Bulletin Board for the 5 consecutive trading days immediately following an advance date. Cornell Capital Partners will retain 5% of each advance pursuant to the terms of our Standby Equity Distribution Agreement

Determination Of Offering Price

The price at which the shares may actually be sold will be determined by the market price of the common stock as of the date of sale by Cornell Capital Partners.

For illustrative purposes, EYI Industries has set forth below its intended use of proceeds for the range of net proceeds indicated below to be received under the Standby Equity Distribution Agreement. The table assumes estimated offering expenses of \$85,000, plus the 5% retainage. In addition, pursuant to a verbal amendment to an agreement dated May 25, 2004 between EYI Industries and

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Source Capital Group, Inc., we are obligated to pay to Source Capital Group from any proceeds we receive from sources introduced to us by Source Capital Group, a cash amount equal to 4.5% of such proceeds received by us and warrants to purchase shares of our common stock equal to 6% of such proceeds received by us. Source Capital Group introduced us to Cornell Capital Partners.

DILUTION

The net tangible book value of EYI Industries as of March 31, 2005 was \$(1,916,881) or \$(0.0115) per share of common stock. Net tangible book value per share is determined by dividing the tangible book value of EYI Industries (total tangible assets less total liabilities) by the number of outstanding shares of our common stock. Since this offering is being made solely by the selling stockholders and none of the proceeds will be paid to EYI Industries, our net tangible book value will be unaffected by this offering. Our net tangible book value, however, will be impacted by the common stock to be issued under the Standby Equity Distribution Agreement. The amount of dilution will depend on the offering price and number of shares to be issued under the Standby Equity Distribution Agreement. The following example shows the dilution to new investors at an offering price of \$0.0294 per share.

If we assume that EYI Industries had issued 340,136,054 shares of common stock under the Standby Equity Distribution Agreement at an assumed offering price of \$0.0294 per share (i.e., the maximum number of shares needed in order

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

to raise a total of \$10 million available under the Standby Equity Distribution Agreement), less a retention fee of \$500,000 and offering expenses of \$85,000, our net tangible book value as of March 31, 2005 would have been \$7,498,119 or \$0.0148 per share. Such an offering would represent an immediate increase in net tangible book value to existing stockholders of \$.0263 per share and an immediate dilution to new stockholders of \$0.0146 per share. The following table illustrates the per share dilution:

Assumed public offering price per share		\$ 0.0294
Net tangible book value per share before this offering	\$ 0.0115	
Increase attributable to new investors	\$ 0.0263	
Net tangible book value per share after this offering	-----	\$ 0.0148

Dilution per share to new stockholders		\$ 0.0146
		=====

The offering price of our common stock is based on the then-existing market price. In order to give prospective investors an idea of the dilution per share they may experience, we have prepared the following table showing the dilution per share at various assumed offering prices:

ASSUMED OFFERING PRICE	NO. OF SHARES TO BE ISSUED (1)	DILUTION PER SHARE TO NEW INVESTORS
-----	-----	-----
\$ 0.0294	340,136,054	\$0.0146

-
- (1) EYI Industries is registering 85,000,000 shares of common stock pursuant to the Standby Equity Distribution Agreement. In the event we need to issue more than 85,000,000 shares of common stock being registered in the accompanying registration statement to draw down the entire \$10 million available under the Standby Equity Distribution Agreement, we will have to obtain shareholder approval to amend our Articles of Incorporation to increase our authorized common stock and we will have to file a new registration statement covering any additional shares.

STANDBY EQUITY DISTRIBUTION AGREEMENT

On June 22, 2004, we entered into a Standby Equity Distribution Agreement with Cornell Capital Partners. On May 13, 2005, we mutually agreed to terminate the Standby Equity Distribution Agreement. On May 13, 2005, we entered into a new Standby Equity Distribution Agreement with Cornell Capital Partners. Pursuant to the Standby Equity Distribution Agreement, we may, at our discretion, periodically issue and sell shares of our common stock for a total purchase price of \$10 million. We are registering 85,000,000 shares to be issued pursuant to the Standby Equity Distribution Agreement in the accompanying registration statement. If we request advances under the Standby Equity Distribution Agreement, Cornell Capital Partners will purchase shares of common stock of EYI Industries for 98% of the lowest volume weighted average price on the Over-the-Counter Bulletin Board or other principal market on which our common stock is traded for the 5 days immediately following the advance notice

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

date. Cornell Capital Partners intends to sell any shares purchased under the Standby Equity Distribution Agreement at the market price. This Prospectus relates to the shares of common stock to be issued to Cornell Capital Partners under the Standby Equity Distribution Agreement, as well as shares of our common stock issued to Cornell Capital Partners as a commitment fee under the Standby Equity Distribution Agreement and shares of our common stock that may be issued to Cornell Capital Partners pursuant to the conversion of a secured convertible debenture and the exercise of warrants. Cornell Capital Partners cannot transfer its interest in the Standby Equity Distribution Agreement to any other person.

We will not receive any advances pursuant to the Standby Equity Distribution Agreement until the accompanying registration statement is declared effective by the Securities and Exchange Commission. In addition, pursuant to the Standby Equity Distribution Agreement, in order to receive advances we must have filed with the Securities and Exchange Commission in a timely manner, all reports, notices and other documents required of a "reporting company" under the Securities Exchange Act of 1934, as amended. Based on a recent stock price of \$0.03, we would have to issue 340,136,054 shares of our common stock to draw down the entire \$10 million available to us under the Standby Equity Distribution Agreement. Based on our recent stock price of \$0.03 and that we are registering 85,000,000 shares of our common stock under the Standby Equity Distribution Agreement in the accompanying registration statement, we could only draw down gross proceeds of \$2,499,000 under the Standby Equity Distribution Agreement. Our current Articles of Incorporation authorize us to issue 300,000,000 shares of common stock. We are registering 85,000,000 shares of our common stock in the accompanying registration statement to be issued pursuant to the Standby Equity Distribution Agreement. As a result, if we need to issue more than 85,000,000 shares to draw down the entire \$10 million available under the Standby Equity Distribution Agreement, we will have to obtain shareholder approval to amend our Articles of Incorporation to increase our authorized common stock and we will have to file a new registration statement covering any additional shares.

Advances. Pursuant to the Standby Equity Distribution Agreement, we may periodically sell shares of common stock to Cornell Capital Partners to raise capital to fund our working capital needs. The periodic sale of shares is known as an advance. We may not request an advance fewer than six trading days from the previous advance request. Cornell Capital Partners will retain 5% of each advance under the Standby Equity Distribution Agreement.

Mechanics. We may, at our discretion, request advances from Cornell Capital Partners by written notice, specifying the amount requested up to the maximum advance amount. A closing will be held 5 trading days after such written notice at which time we will deliver shares of common stock and Cornell Capital Partners will pay the advance amount. We have the ability to determine when and if we desire to draw an advance.

Commitment Period. We may request an advance at any time during the commitment period. The commitment period begins on the date the Securities and Exchange Commission first declares the accompanying registration statement effective. The commitment period expires on the earliest to occur of (i) the date on which Cornell Capital Partners has made advances totaling \$10 million or (ii) two years after the effective date of the accompanying registration statement. Cornell Capital Partners' obligations under the Standby Equity Distribution Agreement terminate in the event a registration statement covering shares underlying the Standby Equity Distribution Agreement does not remain effective.

Maximum Advance Amount. We may not request advances in excess of a total of \$10 million. The maximum amount of each advance is equal to \$250,000. We may not request an advance under the Standby Equity Distribution Agreement less than six trading days after a price advance request. In addition, in no event shall

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

the number of shares issuable to Cornell Capital Partners cause it to own in excess of 9.9% of the then outstanding shares of common stock of EYI Industries.

25

Number Of Shares To Be Issued. We cannot predict the actual number of shares of common stock that will be issued pursuant to the Standby Equity Distribution Agreement, in part, because the purchase price of the shares will fluctuate based on prevailing market conditions and we have not determined the total amount of advances we intend to draw. Nonetheless, we can estimate the number of shares of common stock that will be issued using certain assumptions. Based upon a recent price of our common stock of \$0.03, we would have to issue 340,136,054 shares of our common stock to draw down the entire \$10 million available to us under the Standby Equity Distribution Agreement. Based on our recent stock price of \$0.03 and that we are registering 85,000,000 shares of our common stock under the Standby Equity Distribution Agreement in the accompanying registration statement, we could only draw down gross proceeds of \$2,499,000 under the Standby Equity Distribution Agreement. You should be aware that there is an inverse relationship between our stock price and the number of shares to be issued under the Standby Equity Distribution Agreement. That is, as our stock price declines, we would be required to issue a greater number of shares under the Standby Equity Distribution Agreement for a given advance. This inverse relationship is demonstrated by the following table, which shows the number of shares of our common stock to be issued to Cornell Capital Partners, under the Standby Equity Distribution Agreement, at various prices.

Market Price:	\$	0.03	\$	0.0225	\$

Number Of Shares Required To Draw Down the \$10 Million Under The Standby Equity Distribution Agreement:

- (1) Our current Articles of Incorporation do not permit us to issue more than 300,000,000 shares of common stock.
- (2) We are registering 85,000,000 shares of our common stock under the Standby Equity Distribution Agreement in the accompanying registration statement.
- (3) Represents the total number of shares of common stock outstanding after the issuance of the shares to Cornell Capital Partners.
- (4) Represents the numbers shares of common stock to be issued to fully draw down on the \$10 million available under the Standby Equity Distribution Agreement as a percentage of the total number shares outstanding.

In addition to showing the inverse relationship, the above table also shows that the issuance of shares under the Standby Equity Distribution Agreement may result in a change of control. If all or a significant block of these shares are held by one or more shareholders working together, then such shareholder or shareholders would have enough shares to exert significant influence of EYI Industries.

Registration Rights. In connection with the Standby Equity Distribution Agreement, we granted to Cornell Capital Partners certain registration rights. Pursuant to a Registration Rights Agreement, dated May 13, 2005, we agreed to

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

register shares underlying advances under the Standby Equity Distribution Agreement prior to the first sale to Cornell Capital Partners of our common stock under the Standby Equity Distribution Agreement. The registration statement accompanying this Prospectus will register such shares upon effectiveness. The cost of this registration will be borne by us.

Net Proceeds. We cannot predict the total amount of proceeds to be raised in this transaction, in part, because we have not determined the total amount of the advances we intend to draw. However, we expect to incur expenses of approximately \$85,000 consisting primarily of professional fees incurred in connection with registering 83,646,847 shares in this offering. In addition, we are obligated to pay an underwriting discount to Cornell Capital Partners equal to 5% of each advance.

Use Of Proceeds. We intend to use the net proceeds received under the Standby Equity Distribution Agreement for general corporate purposes, as well as any future acquisitions. Please see "Use of Proceeds."

Lock-up Period. Pursuant to the Standby Equity Distribution Agreement, we agreed, during the commitment period of the Standby Equity Distribution Agreement, not to: (i) issue or sell any common stock or preferred stock without consideration or for consideration per share less than the bid price of a share of our common stock on the date of issuance; (ii) issue or sell any derivative security or other security granting the holder the right to acquire our common stock without consideration or for consideration per share less than the bid price of a share of our common stock on the date of issuance; or (iii) file any registration statement on Form S-8.

26

Source Capital Group, Inc. On May 25, 2004 we entered into an agreement with Source Capital Group, Inc. pursuant to which we are obligated to pay to Source Capital Group from any proceeds we receive from sources introduced to us by Source Capital Group a cash amount equal to 4.5% of such proceeds received by us and warrants to purchase shares of our common stock equal to 6% of such proceeds received by us.

27

PLAN OF DISTRIBUTION

The selling stockholders have advised us that the sale or distribution of EYI Industries' common stock owned by the selling stockholders may be effected directly to purchasers by the selling stockholders or by pledgees, transferees or other successors in interest, as principals or through one or more underwriters, brokers, dealers or agents from time to time in one or more transactions (which may involve crosses or block transactions) (i) on the over-the-counter market or in any other market on which the price of EYI Industries' shares of common stock are quoted or (ii) in transactions otherwise than on the over-the-counter market or in any other market on which the price of EYI Industries' shares of common stock are quoted. Any transferees and pledges will be identified by a post-effective amendment to the accompanying registration statement. Any of such transactions may be effected at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at varying prices determined at the time of sale or at negotiated or fixed prices, in each case as determined by a selling stockholder or by agreement between a selling stockholder and underwriters, brokers, dealers or agents, or purchasers. If the selling stockholders effect such transactions by

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

selling their shares of EYI Industries' common stock to or through underwriters, brokers, dealers or agents, such underwriters, brokers, dealers or agents may receive compensation in the form of discounts, concessions or commissions from the selling stockholders or commissions from purchasers of common stock for whom they may act as agent (which discounts, concessions or commissions as to particular underwriters, brokers, dealers or agents may be in excess of those customary in the types of transactions involved). Any brokers, dealers or agents that participate in the distribution of the common stock may be deemed to be underwriters, and any profit on the sale of common stock by them and any discounts, concessions or commissions received by any such underwriters, brokers, dealers or agents may be deemed to be underwriting discounts and commissions under the Securities Act.

Cornell Capital Partners is an "underwriter" within the meaning of the Securities Act of 1933 in connection with the sale of common stock under the Standby Equity Distribution Agreement. Cornell Capital Partners will pay EYI Industries 98% of the lowest volume weighted average price of EYI Industries' common stock on the Over-the-Counter Bulletin Board or other principal trading market on which our common stock is traded for the 5 days immediately following the advance date. In addition, Cornell Capital Partners will retain 5% of the proceeds received by EYI Industries under the Standby Equity Distribution Agreement, plus a one-time commitment fee of 1,266,589 shares of common stock to be issued to Cornell Capital Partners. The 5% retainage and the commitment fee are underwriting discounts. In addition, EYI Industries engaged Newbridge Securities Corporation, a registered broker-dealer, to advise us in connection with the Standby Equity Distribution Agreement. For its services, Newbridge Securities Corporation received 33,411 shares of EYI Industries' common stock.

Cornell Capital Partners was formed in February 2000 as a Delaware limited partnership. Cornell Capital Partners is a domestic hedge fund in the business of investing in and financing public companies. Cornell Capital Partners does not intend to make a market in EYI Industries' stock or to otherwise engage in stabilizing or other transactions intended to help support the stock price. Prospective investors should take these factors into consideration before purchasing EYI Industries' common stock.

Under the securities laws of certain states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. The selling stockholders are advised to ensure that any underwriters, brokers, dealers or agents effecting transactions on behalf of the selling stockholders are registered to sell securities in all fifty states. In addition, in certain states the shares of common stock may not be sold unless the shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

Our common stock is deemed to be "penny stock" as that term is defined in Rule 3a51-1 promulgated under the Securities Exchange Act of 1934. Penny stocks are stock: (i) with a price of less than \$5.00 per share; (ii) that are not traded on a "recognized" national exchange; (iii) whose prices are not quoted on the Nasdaq automated quotation system (Nasdaq listed stock must still have a price of not less than \$5.00 per share); or (iv) in issuers with net tangible assets less than \$2.0 million (if the issuer has been in continuous operation for at least three years) or \$5.0 million (if in continuous operation for less than three years), or with average revenues of less than \$6.0 million for the last three years.

Broker/dealers dealing in penny stocks are required to provide potential investors with a document disclosing the risks of penny stocks. Moreover, broker/dealers are required to determine whether an investment in a penny stock is a suitable investment for a prospective investor. These requirements may reduce the potential market for our common stock by reducing the number of potential investors. This may make it more difficult for investors in our common

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

stock to sell shares to third parties or to otherwise dispose of them. This could cause our stock price to decline.

28

We will pay all the expenses incident to the registration, offering and sale of the shares of common stock to the public hereunder other than commissions, fees and discounts of underwriters, brokers, dealers and agents. We have agreed to indemnify Cornell Capital Partners and its controlling persons against certain liabilities, including liabilities under the Securities Act. We estimate that the expenses of the offering to be borne by us will be approximately \$85,000, as well as retention of 5% of the gross proceeds received under the Standby Equity Distribution Agreement. In addition, EYI Industries engaged Newbridge Securities Corporation, a registered broker-dealer, to advise us in connection with the Standby Equity Distribution Agreement. For its services, Newbridge Securities Corporation received 33,411 shares of EYI Industries' common stock. The estimated offering expenses consist of: a SEC registration fee of \$300, printing expenses of \$5,000, accounting fees of \$20,000, legal fees of \$50,000 and miscellaneous expenses of \$9,700. We will not receive any proceeds from the sale of any of the shares of common stock by the selling stockholders. We will, however, receive proceeds from the sale of common stock under the Standby Equity Distribution Agreement.

The selling stockholders should be aware that the anti-manipulation provisions of Regulation M under the Exchange Act will apply to purchases and sales of shares of common stock by the selling stockholders, and that there are restrictions on market-making activities by persons engaged in the distribution of the shares. Under Registration M, the selling stockholders or their agents may not bid for, purchase, or attempt to induce any person to bid for or purchase, shares of common stock of EYI Industries while such selling stockholder is distributing shares covered by this Prospectus. Accordingly, except as noted below, the selling stockholders are not permitted to cover short sales by purchasing shares while the distribution is taking place. The selling stockholders are advised that if a particular offer of common stock is to be made on terms constituting a material change from the information set forth above with respect to the Plan of Distribution, then, to the extent required, a post-effective amendment to the accompanying registration statement must be filed with the Securities and Exchange Commission.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

THE FOLLOWING INFORMATION SHOULD BE READ IN CONJUNCTION WITH THE CONSOLIDATED FINANCIAL STATEMENTS OF EYI AND THE NOTES THERETO APPEARING ELSEWHERE IN THIS FILING. STATEMENTS IN THIS MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION AND ELSEWHERE IN THIS PROSPECTUS THAT ARE NOT STATEMENTS OF HISTORICAL OR CURRENT FACT CONSTITUTE "FORWARD-LOOKING STATEMENTS."

Overview

We are in the business of selling, marketing, and distributing a product line consisting of approximately 30 nutritional products in two categories, dietary supplements and personal care products. As of March 31, 2005 our product line consists of: (i) 22 dietary supplement products; and (ii) 8 personal care products consisting primarily of cosmetic and skin care products. Our products

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

are primarily manufactured by Nutri-Diem, Inc. a related party, and sold by us under a license and distribution agreement with Nutri-Diem, Inc. Certain of our own products are manufactured for us by third party manufacturers pursuant to formulations developed for us. Our products are sold in the United States and Canada. Our products are marketed through a network marketing program in which independent business associates purchase products for resale to retail customers as well as for their own personal use. We have a list of over 400,000 independent business associates, of which approximately 14,000 we consider "active". An "active" independent business associate is one who purchased our products within the preceding 12 months.

Our independent auditors have added an explanatory paragraph to their audit issued in connection with the financial statements for the period ended December 31, 2004, relative to our ability to continue as a going concern. We have negative working capital of approximately \$1,640,000 and an accumulated deficit incurred through March 31, 2005 of \$7,868,993, which raises substantial doubt about our ability to continue as a going concern. Our ability to obtain additional funding will determine our ability to continue as a going concern. Accordingly, there is substantial doubt about our ability to continue as a going concern. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We have a history of losses. We have incurred an operating loss since inception and had an accumulated deficit of \$7,868,993 as of March 31, 2005. For the year ended December 31, 2004 we incurred a net loss of \$4,462,795. For the short period ended December 31, 2003 and for the year ended June 30, 2003, we incurred a net loss of \$969,987 and \$1,644,456, respectively. Consequently, we will in all likelihood, have to rely on external financing for all of our capital requirements. Future losses are likely to continue unless we successfully implement our business plan, which calls for us to secure both debt and equity financing while pursuing acquisitions and/or joint ventures with companies in the nutritional supplement industry.

Our core business is in network marketing development and sales. In 2004 we implemented some critical changes to our network marketing development and sales strategy. We analyzed our compensation structure and realized that although the plan paid the sales force more than industry standard, it was still not encouraging sales, growth, duplication or retention. After months of study, outside consulting, field leader's focus groups and senior management discussion, we made key adjustments during our first fiscal quarter in 2004 that are intended to cap the sales commission expense while at the same time promote increased network sales. Our experience to date is that the changes to our commission plan have improved our gross profit margin, however, they have also resulted in an unexpected reduction in IBA retention which has adversely affected our gross revenues. Upon analyzing our business and the amount of commissions that we paid out, we discovered that our old compensation plan paid out in excess of 70% commission. We have now capped our commission to 50% of gross network sales. This did have a negative effect on all of our existing IBAs. In fact, we believe approximately 2,250 IBA's ceased to represent our products because of that change. Since the implementation of this new commission plan, we have experienced a decline in gross network sales that management believes is directly related to the lowering of the commissions paid to our IBAs.

To further facilitate growth and benefit from certain competitive advantages conferred by the new commission plan, we have upgraded our Internet support sites, created a trainer field certification program, developed a regional training program and increased our face to face training capability. These support tools are intended to ensure compliance, mature team and territory development and assist sales growth. There were no additional financial costs absorbed by the Company for these upgrades and programs as they were done

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

in-house utilizing existing manpower. Over the next twelve months, we anticipate that we will incur costs on our computer upgrades and genealogy system approximately \$3,000 per month.

30

We see international sales as a key component for our growth in the next 5 years. During our second quarter of fiscal 2004, we entered into a joint venture agreement with World Wide Buyers' Club Inc. and Supra Group, Inc., dated as of May 28, 2004, for the purpose of jointly marketing and distributing our products through the existing Supra Group distribution system in the Latin American countries identified in the Joint Venture Agreement and the products of Supra Group using the existing EYI distribution system to residents in the U.S. We believe Supra Group has significant international experience, expertise and contacts and that this alliance will assist in our ability to expand into Spanish-speaking countries. As of the date of this registration statement, there has not been no economic activity between the Company and World Wide Buyers' Club Inc.

Our plan of operations over the next twelve months is to expand the marketing of our Calorad product by internet direct and the distribution network. The Company does not anticipate any additional costs for this expansion as all related work will be done with existing staff. We also intend to support the growth and expansion of the Sales Communication department. Their success is measured on the number of inactive IBAs who, through the efforts of the Sales Communication department, become current with their membership fees and purchase our products. As the revenues generated by this department grow, we intend to add additional staff.

During the fourth quarter of 2004, we launched our new product, Prosoteine. Over the next twelve months, we intend to launch the second phase of this campaign which includes an in-house-developed 6-week training program called "15/5" which is designed to teach our IBAs and their guests about Prosoteine in a telephone conference forum. The first 15/5 class started February 18, 2005 and ran for 8 weeks, class two with a new 6 week program began April 5, 2005 and concluded May 10, 2005. Additionally, we intend to distribute support materials.

Also, over the next twelve months we intend to promote our Autoship Program by offering one or more of the following: initial incentives, purchase discounts, and long-term commitment rewards. We believe that our automated ordering system supports on-going sales.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires our management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from those estimates.

Our management routinely makes judgments and estimates about the effects of matters that are inherently uncertain. As the number of variables and assumptions affecting the probable future resolution of the uncertainties increase, these judgments become even more subjective and complex. We have identified certain accounting policies, described below, that are the most important to the portrayal of our current financial condition and results of operations.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Accounts Receivable and Bad Debts

The Company estimates bad debts utilizing the allowance method, based upon past experience and current market conditions. At March 31, 2005 and December 31, 2004, the Company recorded allowances of \$19,853 and \$16,321 to cover accounts receivable balances over 60 days.

Inventory

The Company records inventories at the lower of cost or market on a first-in, first-out basis. Our product inventory is reviewed each month and also when the re-order of the product is necessary. On a monthly basis, our inventory is reviewed based on the expiration of our existing inventory. Product that has a shelf-life of less than 60 days is written off or discounted.

A re-order review consists of an evaluation of our current monthly sales volume of the product, cost of product, shelf-life of the product, and the manufacturers minimum purchase requirement which all determine the overall potential profitability or loss of re-ordering. If the re-order of the product has an assessed loss, then the recommendation to management is to remove the product from the product line.

31

Restricted Cash

Restricted cash includes deposits held in a reserve account in the amount of \$100,370 and \$100,248 at March 31, 2005 and December 31, 2004 respectively. Such deposits are required by the bank as protection against unfunded charge backs and returns of credit card transactions.

Revenue Recognition

The Company is in the business of selling nutritional products in two categories: dietary supplements and personal care products. Sales of personal care products represent less than 5% of the overall revenue and therefore are not classified separately in the financial statements. The Company recognized revenue from product sales when the products are shipped and title passes to customer. Administrative fees charged to the Independent Business Associates are included in the gross sales and amounted \$41,096 and \$67,500 for the three months ended March 31, 2005 and March 31, 2004 respectively.

Stock Options And Warrants Granted To Employees And Non-Employees

Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123"), defines a fair value-based method of accounting for stock options and other equity instruments. The Company has adopted this method, which measures compensation costs based on the estimated fair value of the award and recognizes that cost over the service period.

Recent Accounting Pronouncements

New accounting pronouncements that have a current or future potential impact on our financial statements are as follows:

In December 2004, the Financial Accounting Standards Board issued a revision to Statement of Financial Accounting Standards No. 123R, "Accounting for Stock Based Compensation." This statement supercedes APB Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

guidance. This statement establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. This statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. This statement does not change the accounting guidance for share based payment transactions with parties other than employees provided in Statement of Financial Accounting Standards No. 123. This statement does not address the accounting for employee share ownership plans, which are subject to AICPA Statement of Position 93-6, "Employers' Accounting for Employee Stock Ownership Plans." The Company has previously adopted SFAS 123 and the fair value of accounting for stock options and other equity instruments. The Company has determined that there was no impact to its financial statements from the adoption of this new statement.

Results Of Operations

The following table summarizes operating results as a percentage of revenue, respectively, for the periods indicated:

Summary of Year End Results

	Twelve Months ended December 31, 2004 -----	Short Period ended December 31, 2003 -----
Revenue	100%	100%
Cost of goods sold	21%	17%
Gross profit before commission expense	79%	83%
Commission expense	40%	49%
Gross profit after cost of goods sold and commission expense	40%	34%
Operating expenses	108%	57%
Operating loss	-69%	-23%

Year Ended December 31, 2004 Compared To Short Period Ended December 31, 2003

Revenues

During the year ended December 31, 2004 we had total revenues of \$6,229,029 and gross profits of \$2,464,818 or 40% compared to revenues of \$4,313,579 and gross profits of \$1,467,779 or 34% during the short period ended December 31, 2003. The decrease in our revenues can be primarily attributed to the following factors:

- o the changes made to our commission plan in January 2004 in which our overall commission payout to our IBAs was reduced and capped at 50% of gross network sales, therefore, hindering our ability to retain existing IBAs and attract new ones. We lost approximately 4,500 IBA's from 2003 to 2004. We believe that the loss of 50% of these IBA's is directly related to the lowering of IBA commissions. For

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

our annual return dated December 2003, we reported 14,000 active IBA's and 6,000 very active IBA's. For our annual return dated December 2004, we reported 14,000 active IBA's and 1,500 very active IBA's. This represents a decline of 4,500 very active IBA's or 75%. Effectively, this is a loss of 4,500 autoship orders each month. At an average autoship order size of approximately \$40 this equates to a loss of \$2,160,000 annually. These lost sales would not generate commissions and therefore have a lowering effect our annual commission expense.

- o our inability to fund marketing initiatives and programs that may promote growth within new markets and existing ones.
- o Lack of IBA participation in our autoship program.

Seasonal Sales Trends

- * Based on our historical sales trends, EYI does experience a decline in revenues during the summer months as well as in December.

Revenue By Segments

The following table summarizes our four revenue segments as a percentage of total revenue, respectively, for the periods indicated:

	Year ended 12/31/04	Short period ended 12/31/03	Year ended 6/30/03
Administration fees	3%	4%	2%
Binary sales	76%	86%	96%
Direct sales	18%	8%	2%
Shipping	2%	2%	1%
Total revenue	100%	100%	100%

33

Details of the most significant changes from the short year ended December 31, 2003 to the year ended December 31, 2004 are detailed below:

Binary sales - The binary sales segment represents \$4,744,742 or 76% of the total revenue earned during the year ended December 31, 2004, as compared to \$3,727,692 or 86% of the total revenues earned during the short period ended December 31, 2003. Management believes that our inability to properly fund our marketing initiatives hindered growth and retention in this segment.

Direct sales - The direct sales segment represents \$1,150,759 or 18% of the total revenue earned during the year ended December 31, 2004, as compared to \$330,229 or 8% of the total revenues earned during the short period ended December 31, 2003. Since the launch of this segment in May 2003, EYI has acquired new direct sales contracts which has supported the growth in direct sales.

Gross Profit

Our consolidated gross profit increased to 40% for the year ended December 31, 2004 from 34% for the short period ended December 31, 2003. This increase is attributed to the changes made to our commission plan in January 2004. By reducing the commissions paid on binary sales, we experienced an increase in our gross profit.

We incurred operating expenses in the amount of \$6,745,022 for the year ended December 31, 2004, compared to \$2,446,108 for the short period ended December 31, 2003. The following explains the most significant changes during the periods presented:

Consulting fees - For the year ended December 31, 2004, consulting fees totaled \$1,438,362 and represented 21% of our total operating expenditures, as compared to \$394,200 or 16% of the total operating expenditures for the short period ended December 31, 2003. This increase relates primarily to the cost associated with stock options granted to consultants during the year.

Customer Service - For the year ended December 31, 2004, customer services fees totaled \$393,244 and represented 6% of our total operating expenditures, as compared to \$488,944 or 20% of the total operating expenditures for the short period ended December 31, 2003. Until April 2004, we acquired our customer service support department through a management agreement with EYI Corp. In April 2004, we hired our own employees to perform this function and therefore, the related expenses are included under Wages and Benefits.

Finance and administrations - For the year ended December 31, 2004,

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

finance and administration expenditures totaled \$2,101,842 and represented 31% of our total operating expenditures, as compared to \$324,853 or 13% of the total operating expenditures for the short period ended December 31, 2003. Wages and benefits - For the year ended December 31, 2004, wages and benefits totaled \$1,296,801 and represented 19% of our total operating expenditures, as compared to \$547,076 or 22% of the total operating expenditures for the short period ended December 31, 2003. Although we expanded our payroll in April 2004 as indicated above, we reduced the overall wages and benefits during the year by reducing staff in various departments.

Other Income (Expense)

During the year ended December 31, 2004 we had total other income (expense) of (\$271,346) compared to (\$7,928) for the short period ended December 31, 2003. The increased expense relates to \$250,000 in interest expense accrued on the beneficial conversion of the June 2004 and September 2004 disbursements from Cornell.

Current Liabilities - We had an increase of \$478,775 or 25% in our current liabilities since December 31, 2003. Cash Provided By Financing Activities

We have continued to finance our business primarily through private placement sales of our common stock, short term loans, conversion of accrued liabilities into stock and through increases in our accrued liabilities and accounts payable, we have also received funding as a result of the exercise of stock options. Cash provided by financing activities for the year ended December 31, 2004 was \$684,520, compared to \$535,679 for the year ended December 31, 2003.

Financing activities included the issuance of common stock for aggregate proceeds of \$492,316 during the year ended December 31, 2004 in private placement and other transactions. During the year ended December 31, 2004 we granted 24,934,000 stock options under our Stock Compensation Program at an average weighted price of \$0.14 per share.

On June 22, 2004, we entered into a secured convertible debenture transaction with Cornell Capital Partners in the principal amount of \$500,000. The sale of these Secured Convertible Debentures is complete. EYI Industries received \$250,000 from the issuance of the first Secured Convertible Debenture on June 22, 2004, and we received \$250,000 five business days following the filing of the accompanying registration statement. The Secured Convertible Debentures are convertible at the holder's option any time up to maturity at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock as of the date of issuance, or (ii) 80% of the average of the lowest daily volume weighted average price of our common stock for the 5 trading days immediately preceding the conversion date. At maturity, the remaining unpaid principal and accrued interest under the debentures shall be, at our option, either paid or converted into shares of common stock at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock as of the date of issuance or (ii) 80% of the lowest closing bid price of the common stock for the lowest trading days of the 5 trading days immediately preceding the conversion date. The Secured Convertible Debenture is secured by all of EYI Industries' assets. The Secured Convertible Debentures accrue interest at a rate of 5% per year and have a term of 3 years. In the event the Secured Convertible Debentures are redeemed, then EYI Industries will issue to the holders a warrant to purchase 50,000 shares for every \$100,000 redeemed at an exercise price of 120% of the closing bid price as of June 22, 2004. The holders purchased the Secured Convertible Debentures from EYI Industries in a private placement on June 22, 2004. On September 24, 2004, we issued the second secured convertible debenture in the principal amount of \$250,000 to Cornell Capital Partners on the same terms and conditions as the secured convertible debenture described above. EYI Industries is registering in this offering 8,352,823 shares of common stock underlying the Secured Convertible Debentures. On April 4, 2005, Cornell Capital Partners assigned all of its rights and interests in the secured convertible debentures to Taib Bank E.C. All investment decisions of Taib Bank E.C. are made by Larry Chaleff, its Managing Director. In addition, on April 4, 2005, EYI Industries and Taib Bank E.C. entered into a Redemption Agreement, whereby EYI Industries agreed to first use any proceeds received by EYI Industries under the Equity Distribution Agreement with Cornell Capital Partners to redeem any remaining principal and accrued interest under the assigned Secured Convertible Debentures.

Three Months Ended March 31, 2005 Compared To Three Months Ended March 31, 2004

Revenues

During the three months ended March 31, 2005 we had total revenues of \$1,313,768 as compared to revenues of \$1,529,195 for the same period in 2004 which represents a decline of \$215,427 or 14%. The decrease in our revenues can be primarily attributed to the following factors:

- o Our inability to attract new IBA's
- o Lack of IBA participation in our auto-ship program
- o our inability to fund marketing initiatives and programs that may promote growth within new markets and existing ones.

Gross Profit

During the three months ended March 31, 2005 as compared to the same period in 2004, we had gross profits of \$591,015 and \$697,100 respectively. This represents a decline of \$106,085 or 15%. The decline in our gross profit is primarily attributed to our decreased sales.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

three months ended March 31, 2005, compared to \$1,103,878 for the three months ended March 31, 2004. The following explains the most significant changes for the periods presented:

Legal and Professional fees - For the three months ended March 31, 2005, legal and professional fees totaled \$69,125 and represented 6% of our total operating expenditures, as compared to \$20,052 or 2% of the total operating expenditures for the three months ended March 31 2004. The increase is primarily attributed to the costs associated with our reporting obligations under the Exchange Act.

Customer Service - For the three months ended March 31, 2005, customer services fees totaled \$86,534 and represented 7% of our total operating expenditures, as compared to \$124,339 or 10% of the total operating expenditures for the three months ended March 31, 2004. Until April 2004, we acquired our customer service support department through a management agreement with EYI Corp. In April 2004, we hired our own employees to perform this function and therefore, the related expenses are included under Wages and Benefits.

Wages and benefits - For the three months ended March 31, 2005, wages and benefits totaled \$406,627 and represented 33% of our total operating expenditures, as compared to \$252,066 or 20% of the total operating expenditures for the three months ended March 31, 2004. This increase is primarily a combination of expanding our staff in April 2004 as indicated above, and we also recorded an expense for vested stock options granted to our employees during this quarter.

Financial Condition

Cash and Working Capital

	At March 31, 2005	At December 31, 2004	Increase / (Decrease)

Working Capital (Deficit)	(\$1,640,858)	(\$1,080,241)	(52%)

We had cash of \$5,450 as at March 31, 2005, compared with cash of \$33,018 as at December 31, 2004. We had a working capital deficit at March 31, 2005 and March 31, 2004 of \$1,640,848 and \$1,080,241 respectively. The increase to our working capital deficit was primarily attributed to the increases in our trade payables and related party payables.

Liabilities

	At March 31, 2005	At December 31, 2004
Accounts Payable and Accrued Liabilities	\$1,398,316	\$1,218,178

Convertible Debt-Related Party, Net Of Discount	\$417,886	\$379,724

We had an increase of 15% in Accounts Payable and Accrued Liabilities during the three months which represents the increase in unpaid trade payables. We also experienced a 17% increase in Accounts Payable-Related Parties which is due to the increase in unpaid wages of two of our officers and an increase in the amount owed to EYI Corp. The increase in convertible debt relates to the accrued interest on the debt.

Cash Used In Operating Activities

Cash used in operating activities for the three months ended March 31, 2005 was \$157,219 compared to \$204,497 for the comparative period in 2004, representing a decrease of \$47,278 or 23%.

Cash Provided By Financing Activities

We have continued to finance our business primarily through private placement sales of our common stock, exercises of stock options, short term loans, conversion of accrued liabilities into stock and through increases in our accrued liabilities and accounts payable. Cash provided by financing activities for the three months ended March 31, 2005 was \$141,324, compared to \$181,578 for the three months ended March 31, 2004.

DESCRIPTION OF BUSINESS

Overview

We are in the business of selling, marketing, and distributing a product line consisting of approximately 30 nutritional products in two categories, dietary supplements and personal care products. Our most successful product is Calorad, a liquid collagen-based dietary supplement presently available on the market. These products are marketed through a network marketing program in which IBAs (Independent Business Associates) purchase products for resale to retail customers as well as for their own personal use. We have a list of over 400,000 IBAs, of which approximately 14,000 we consider "active". An "active" IBA is one who purchased our products within the preceding 12 months. Over 1,500 of these IBAs are considered "very active". A "very active" IBA is one who is on our automatic Auto-ship Program and is current with their annual administration fee.

The IBAs in our network are encouraged to recruit interested people to become new distributors of our products. New IBAs are placed beneath the recruiting IBA in the "network" and are referred to as being in that IBA's "down-line" organization. Our marketing plan is designed to provide incentives for IBAs to build, maintain and motivate an organization of recruited distributors in their down-line organization to maximize their earning potential. IBAs generate income by purchasing our products at wholesale prices and reselling them at retail prices. IBAs also earn commissions on product purchases generated by their down-line organization.

On an ongoing basis we review our product line for duplication and sales trends and make adjustments accordingly. As of March 31, 2005, our product line consisted of: (i) 22 dietary supplement products; and (ii) 8 personal care products consisting primarily of cosmetic and skin care products. Our products are primarily manufactured by Nutri-Diem, Inc., a related party, and sold by us under a license and distribution agreement with Nutri-Diem Inc. Certain of our own products are manufactured for us by third party manufacturers pursuant to

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

formulations developed for us. Our products are sold to our IBAs located in the United States and Canada.

We believe that our network marketing system is suited to marketing dietary supplement and personal care products, because sales of such products are strengthened by ongoing personal contact between IBAs and their customers. Our network marketing system appeals to a broad cross-section of people, particularly those looking to supplement family income or who are seeking part-time work. IBAs are given the opportunity, through our sponsored events and training sessions, to network with other distributors, develop selling skills and establish personal goals. We supplement monetary incentives with other forms of recognition, in order to motivate IBAs.

Recent Corporate Developments

We experienced the following significant developments through the date of this filing and during fiscal 2004:

- o On May 13, 2005, we entered into a Standby Equity Distribution Agreement with Cornell Capital Partners, LP ("Cornell") pursuant to which we entered into the following agreements: a Registration Rights Agreement, an Escrow Agreement, and a Placement Agent Agreement. Pursuant to the terms of the Standby Equity Distribution Agreement, we may, at our discretion, periodically issue and sell shares of our common stock for a total purchase price of \$10 million. If we request advances under the new Standby Equity Distribution Agreement, Cornell will purchase shares of our common stock for 98% of the lowest volume weighted average price on the Over-the-Counter Bulletin Board or other principal market on which our common stock is traded for the 5 days immediately following the advance notice date. Cornell will retain 5% of each advance under the new Standby Equity Distribution Agreement. We may not request advances in excess of a total of \$10 million. Pursuant to the terms of our Registration Rights Agreement and the Standby Equity Agreement with Cornell, we agreed to register and qualify, among other things, the additional shares due to Cornell under the Standby Equity Agreement under a registration statement filed with the SEC. We signed a Termination Agreement on May 13, 2005, for the purpose of terminating our Standby Equity Distribution Agreement, Registration Rights Agreement and Escrow Agreement previously entered into with Cornell on June 22, 2004.

The agreement is for a term of one year and automatically renews each year unless terminated by either party in accordance with the terms of the agreement. The debentures were assigned to TAIB on April 4, 2005.

In connection with the issuance of the Secured Note, we agreed to: (i) pay Cornell a fee of \$20,000; and (ii) pay Yorkville Advisors Management LLC a structuring fee in the amount of \$2,500. As a condition to Cornell's entry into the Secured Note on February 24, 2005, an employee of EYI, Janet Carpenter, entered into a guaranty agreement with Cornell and a pledge and escrow agreement with Cornell and David Gonzalez. Pursuant to the terms of the guaranty agreement and the pledge and escrow agreement, Ms. Carpenter agreed to: (i) personally guarantee the payment and performance obligations of EYI under the Secured Note; and (ii) pledge to Cornell 3,000,000 shares of EYI held by her to secure the obligations of EYI under the Secured Note. Romford proposed to enter into similar transactions with approximately 20-25 small capitalization issuers whose stock is traded on the over-the-counter bulletin board or Nasdaq Smallcap markets. At present we have not formalized any agreements with Romford. The transaction has been delayed due to regulatory concerns regarding Romford's proposed investment. We continue to have an interest in this project and have maintained contact with Romford.

The secured convertible debenture is secured by all of our assets. The secured convertible debenture accrues interest at a rate of 5% per year and has a term of 2 years. Pursuant to the terms of the amendment to the License and Distribution Agreement we are presently required to expend the following amounts on purchasing the products of Nutri-Diem over the term of the License and Distribution Agreement: (i) from June 1, 2003 to May 31, 2004, \$1,530,000, from June 1, 2004 to May 31, 2005, \$3,825,000, and (iii) for each year thereafter, \$5,355,000. We reduced the minimum purchase amounts as management did not believe that those amounts were achievable in the respective time period. For the twelve months ended December 31, 2004 and December 31, 2003 we purchased product from Nutri-Diem totaling \$1,640,857 CAD and \$2,318,073 CAD respectively. Nutri-diem earns a gross profit of 34% to 39% on all product sales to EYI.
- o In April, 2004, we entered into a two year consulting agreement with Daniel Matos, pursuant to which Mr. Matos agreed to provide certain

consulting services to us, including developing business contacts for EYI in Latin America and marketing and promoting EYI products in Latin America, in consideration of which we granted Mr. Matos 2,000,000 incentive stock options at a deemed price of \$0.20 per share and paid Mr. Matos a consulting fee of \$16,667 per month to be used to acquire shares of EYI on the exercise of options granted to Mr. Matos.

- o On January 9, 2004, our subsidiary Halo Distribution LLC extended its lease for our warehouse and distribution center in Louisville Kentucky for an additional three years commencing May 1, 2004 to April 30, 2007. See "Item 2. Description of Property".
- o Effective January 1, 2004, we: (i) increased the consulting fees payable to O'Neill Enterprises Inc., a private company controlled by Mr. O'Neill, our Executive Vice-President, COO, Secretary, Treasurer and director to \$20,000 per month, and extended the term by five years; (ii) extended the consulting agreement with Flaming Gorge, Inc., a private company controlled by Mr. Sargeant, our President, Chief Executive Officer and a member of our Board of Directors for an additional term of five years; and (iii) entered into a consulting agreement with Rajesh Raniga to act as our Chief Financial Officer on a month to month basis for consideration of CDN\$150 per hour with a minimum charge of CDN\$2,000 per month and 250,000 shares of our common stock to be issued pursuant to Regulation S of the Securities Act.

Our core business is in network marketing development and sales. In 2004 we implemented some critical changes to our network marketing development and sales strategy. We analyzed our compensation structure and realized that although the plan paid the sales force more than industry standard, it was still not encouraging sales, growth, duplication or retention. After months of study, outside consulting, field leader's focus groups and senior management discussion, we made key adjustments during our first fiscal quarter in 2004 that are intended to cap the sales commission expense while at the same time promote increased network sales. We anticipate retaining a higher percentage of both customers and distributors with this new plan.

To further facilitate growth and benefit from certain competitive advantages conferred by the new commission plan, we have upgraded our Internet support sites, created a trainer field certification program, developed a regional training program and increased our face to face training capability. These support tools are intended to ensure compliance, mature team and territory development and assist sales growth.

We see international sales as a key component for our growth in the next 5 years. During our second quarter of fiscal 2004, we entered into a joint venture agreement with World Wide Buyers' Club Inc. and Supra Group, Inc., dated as of May 28, 2004, for the purpose of jointly marketing and distributing our products through the existing Supra Group distribution system in the Latin American countries identified in the Joint Venture Agreement and the products of Supra Group using the existing EYI distribution system to residents in the U.S. We believe Supra Group has significant international experience, expertise and contacts and that this alliance will assist in our ability to expand into Spanish-speaking countries.

Our plan of operations over the next twelve months is to expand the marketing of our Calorad product by internet direct and the distribution

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

network. We also intend to support the growth and expansion of the Sales Communication department. Their success is measured on the number of inactive IBAs who, through the efforts of the Sales Communication department, become current with their membership fees and purchase our products. As the revenues generated by this department grow, we intend to add additional staff.

During the fourth quarter of 2004, we launched our new product, Prosoteine. Over the next twelve months, we intend to launch the second phase of this campaign which includes an in-house-developed 6-week training program called "15/5" which is designed to teach our IBAs and their guests about Prosoteine in a telephone conference forum. Additionally, we intend to distribute support materials. The first 15/5 class started February 8, 2005 and ran for 8 weeks, class two with a new 6 week program, began April 5, 2005 and concluded May 10, 2005.

Also, over the next twelve months we intend to promote our Autoship Program by offering one or more of the following: initial incentives, purchase discounts, and long-term commitment rewards. We believe that our automated ordering system supports on-going sales. "Autoship" refers to our customers who are on an automated monthly order system. These customers requested that orders be shipped on a monthly basis and they are charged for the products on their credit and/or debit cards.

Corporate Organization

We were incorporated under the laws of the State of Nevada on June 27, 1996, under the name of "Inter N. Corporation". From 1999 to 2002, our business plan was to create a product line of miniaturized microchip technology for insertion into inanimate objects or injection under the skin of animals. The microchips were also intended to provide positive identification of personal possessions such as cameras, bicycles, boats, cars, skis, paintings and clothes using unique codes with many available combinations. From 1999 to 2002, we were not able to raise the funds required for the micro-chip manufacturing and sales. As a result, we again changed the focus of our business, to oil and gas opportunities in 2002. From 1999 to 2003 we were a non-operating company with limited assets and were not able to raise sufficient funds to fund our business operations. On December 31, 2003, we completed a share exchange with certain of the shareholders (the "EYI Shareholders") of Essentially Yours Industries, Inc. a Nevada Corporation ("EYI Nevada"), under a Share Exchange Agreement, dated November 4, 2003, (the "Exchange Agreement").

Under the terms of the Share Exchange Agreement, we issued 117,991,875 shares of our common stock, representing approximately 79.9% of our then-outstanding common stock, to the EYI Shareholders in exchange for 15,372,733 shares of EYI Nevada common stock held by them. As a result, we underwent a change of control. Following completion of the Exchange the EYI Shareholders controlled approximately 79.9% of our outstanding common stock, and we owned approximately 97.9% of EYI Nevada's issued and outstanding capital stock. As a result of the transaction, we acquired the business of EYI Nevada and EYI Nevada became our majority-owned subsidiary. Concurrent with the acquisition, we changed our name to "EYI Industries, Inc." and our officers and directors resigned, and nominees of the EYI Shareholders were elected as successors.

Our present business operations are conducted through our majority owned subsidiary EYI Nevada.

Key Operating Strengths

We believe the source of our success is our support of and compensation program for our IBAs. We provide our IBAs with quality products and a competitive commission program, along with training and motivational events and services. We believe that we have established a strong operating platform to support IBAs and facilitate future growth. The key components of this platform include the following:

- o quality dietary supplement and personal care products that appeal to consumer demand for products that contribute to a healthy lifestyle;
- o a compensation program that permits IBAs to earn income from profits on the resale of products and residual income from product purchases within a IBAs' down-line organization, as well as to participate in various non- cash awards, such as promotional programs for computers and other electronic equipment;
- o a communications program that seeks to effectively and efficiently communicate with IBAs by utilizing new technologies and marketing techniques, as well as motivational events and training seminars;
- o a continual expansion and improvement of our product line and marketing plan;
- o an in-house marketing department; and
- o employment of computer technology to provide timely and accurate product order processing, weekly commission payment processing and detailed IBA earnings statements.

Growth Strategy

Our growth strategy is expansion of our product line and network of IBAs to increase sales. An increase in the number of distributors generally results in increased sales volume, and new products create enthusiasm among distributors, serve as a promotional tool in selling other products, and attracting new distributors.

We will also seek to increase sales through initiatives designed to enhance sales in our existing markets. Such initiatives will include increasing the number of our training and motivational events and teleconferences, hiring additional IBA support personnel and establishing more convenient consignment centers in targeted geographic markets.

Our growth strategy will require expanded IBA services and support,

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

increased personnel, expanded operational and financial systems, the implementation of additional control procedures an expanded in-house marketing department and marketing program as well as an increased presence on the Internet. There is no assurance that we will be able to manage expanded operations effectively. Furthermore, failure to implement financial, information management, and other systems and to add control procedures could have a material adverse effect on our results of operations and financial condition.

Industry Overview

Over the past several years, widely publicized reports and medical research findings have suggested a correlation between the consumption of dietary supplements and the reduced incidence of certain diseases. Thousands of such reports and research findings can be found on the International Bibliographic Information on Dietary Supplements (IBIDS) database produced by the Office of Dietary Supplements. In 1995, US Congress established the Office of Dietary Supplements, a division of the National Institutes of Health, to conduct and coordinate research into the role of dietary supplements in maintaining health and preventing disease. In addition, Congress has established the Office of Alternative Medicine within the National Institutes of Health to foster research into alternative medical treatments, which may include natural remedies.

Products

Our product line consists of products in the categories of dietary supplements and personal care. We currently market approximately 30 products, exclusive of variations in product size, colors or similar variations of our basic product line. For the year ended December 31, 2004, Calorad, sales represented over 65% of our net sales and is expected to provide a large portion of our net sales in the foreseeable future.

- o Calorad(R): Calorad is a liquid collagen-based dietary supplement. Calorad is available in three formulas: beef, fish, and AM.

Personal Care Products

We offer 8 personal care products. The following product represents the majority of our product sales in the personal care category:

Definition (R) (cream): Definition is a safe, non-invasive, all-natural herbal product designed to feed and nurture the female breast. The perfectly selected ingredients work in harmony, helping the body to maintain the nutritional needs of the mammary glands. It works with the body's natural capabilities to maintain the shape and tone of youth in the female breast.

Promotional Materials. We will also derive revenues from the sale of various educational and promotional materials designed to aid our distributors in maintaining and building their businesses. Such materials include various sales aids, informational videotapes and cassette recordings, and product and marketing brochures. We produce many of our promotional material in-house and have the capability to create just-in-time marketing pieces as needed and constantly update our marketing material.

New Product Identification. We expand our product line through the development of new products. New product ideas are derived from a number of sources, including trade publications, scientific and health journals, consultants, distributors and other third parties. Prior to introducing new products, we investigate product formulation as it relates to regulatory compliance and other issues.

We rely upon Nutri-Diem, Inc. and other manufacturers, independent researchers, vendor research departments for product development services. When a new product concept is identified or when an existing product must be reformulated, the new product concept or reformulation project is generally submitted to Nutri-Diem, Inc. or other manufacturers for technical development and implementation. Nutri-Diem owns all of the rights to the products that they produce. We do not incur any expense for the development of any products by Nutri-Diem. We continually review our existing products for potential enhancements to improve their effectiveness and marketability. While we consider our product formulations to be proprietary trade secrets, such formulations are not patented. Accordingly, there is no assurance that another company will not replicate one or more of our products.

Product Procurement and Distribution; Insurance. More than 80% of our product line in the dietary supplement category is manufactured by Nutri-Diem, Inc., a related party, utilizing theirs and our product formulations, as well as product formulations it licenses to us. A majority of our product line in the personal care category is also manufactured by Nutri-Diem, Inc.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

We have contracts with Nutri-Diem, Inc. that grant to us the exclusive license and right to market, sale and distribute in Canada and the United States and a non-exclusive right to market on the Internet certain products owned by Michel Grise Consultant, Inc., a Quebec corporation, which is controlled by Michel Grise. To maintain the license and distribution rights granted by those contracts, we are obligated to purchase from Nutri-Diem, Inc. during that period commencing on June 1, 2003, and continuing through and including May 31, 2004, products totaling \$1,530,000. Those contracts also specify that for the period from June 1, 2004 to May 31, 2005, we are required to purchase from Nutri-Diem, Inc. products totaling \$3,825,000. Additionally, those contracts specify that for each year commencing on June 1, and ending on May 31 thereafter during the term of that agreement we are required to purchase products totaling \$5,355,000. The provisions of those contracts specify that Nutri-Diem, Inc. will offer us the right to sell, market and distribute in those territories any new product developed by Nutri-Diem, Inc.

If we are not in default at the expiration of the initial five year period, those contracts will be automatically renewed for another five year period. In the event we fail to make the minimum purchase during any year, Nutri-Diem, Inc. has the option, to require us to pay Nutri-Diem, Inc. an amount equal to 15% of the difference between the minimum amount for the respective year and the amount of actual purchases during that year. Additionally, in the event that we do not purchase the minimum amount during any particular year and do not pay Nutri-Diem, Inc. that 15%, Nutri-Diem, Inc. in its sole discretion, may terminate the respective contract or cause the license granted in the contract to be non-exclusive.

In the event the relationship with any of our manufacturers becomes impaired, we will be required to obtain alternative manufacturing sources for our products. In such event, there is no assurance that the manufacturing processes of our current manufacturers can be replicated by another manufacturer. We believe that we would be able to obtain alternative sources of our dietary supplement and personal care products. A significant delay or reduction in availability of products, however, could have a material adverse effect on our business, operating results and financial condition. We, as with other marketers of products that are intended to be ingested, face the inherent risk of exposure to product liability claims in the event that the use of our products results in injury. We maintain product liability insurance coverage with coverage limits of \$2,000,000 per occurrence and \$2,000,000 aggregate. We have agreed to maintain, at our sole cost and expense, standard Product Liability Advertiser Liability Insurance naming Nutri-Diem, Inc. and its officers, directors, agents and employees, as additional insured parties in the amount of \$1,000,000. We generally do not obtain contractual indemnification from other parties manufacturing our products. Although we have not experienced any successful product liability claims, such claims could result in material losses.

All of the items in our product line include a customer satisfaction guarantee. Within 30 days of purchase, any retail customer or IBA who is not satisfied with our product for any reason may return it or any unused portion to the distributor from whom it was purchased or to us for a full refund or credit toward the purchase of another product. IBAs may obtain replacements from us for products returned to them by retail customers, if they return such products on a timely basis. Furthermore, in most jurisdictions, we maintain a buy-back program. Under this program, we will repurchase products sold to a distributor (subject to a 10% restocking charge), provided that the distributor resigns as a distributor and returns the product in marketable condition within one year of original purchase, or longer where required by applicable state law or regulations. We believe this buy-back program addresses a number of the regulatory compliance issues pertaining to network marketing systems. We expect that the cost of products returned to us will be less than 2% of gross sales.

Distribution And Marketing

Our product line is distributed principally from our facilities in Louisville, Kentucky and Surrey, British Columbia or from our consignment centers. Products are warehoused in Louisville and Surrey and at selected consignment centers.

We distribute our product line through our network marketing system where Independent Business Associates ("IBAs") purchase product at wholesale and through person-to-person contact, re-sell the product at retail prices. At March 31, 2005, we had approximately 14,000 "active" IBAs. To be considered "active" a distributor must have purchased our products within the preceding 12 months and be current with their administration fee. The administrative fee is a \$40 per year fee that the Company collects from all IBA's. The fee makes an IBA eligible to: (1) earn commissions from the Company; and (2) receive host services from the Company, including, online training, assistance to customize their own websites, and information to assist them in managing their team members, (3) the ability to purchase EYI products at wholesale prices. Our IBAs are independent contractors who purchase products directly from us for resale to retail consumers. IBAs may elect to work on a full-time or part-time basis. The Company's current system does not allow for it to keep track of IBAs in a way that will make historical information available for future use. We believe our network marketing system appeals to a broad cross-section of people, particularly those seeking to:

- o supplement family income,
- o start a home business, or
- o pursue employment opportunities other than conventional, full-time employment.
- o A majority of our IBAs sell our products on a part-time basis.
- o We believe that our network marketing system is ideally suited to marketing our product line, because sales of our products are strengthened by ongoing personal contact between retail consumers and IBAs, many of whom use our products themselves. Sales are made

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

through direct personal sales presentations, as well as presentations made to groups. These sales methods are designed to encourage individuals to purchase our products by informing potential customers and IBAs of our product line and results of personal use, and the potential financial benefits of becoming a distributor. Our marketing efforts are typically focused on middle-income families and individuals.

Our network marketing program encourages individuals to develop their own down-line network marketing organizations. Each new IBA is either linked to:

- o the existing distributor that personally enrolled the new distributor into our network marketing program, or
- o the existing distributor in the enrolling distributor's down-line as specified by the enrolling distributor at the time of enrollment.

Growth of an IBAs' down-line organization is dependent on the recruiting and enrollment of additional IBAs by the distributor or the IBAs within such distributor's down-line organization. We currently do not keep records that would enable us to calculate IBA turnover frequency. We are currently working on a program that may enable us in the future to track IBA turnover.

IBAs are encouraged to assume responsibility for training and motivation of other IBAs within their down-line organization and to conduct opportunity meetings as soon as they are appropriately trained. We strive to maintain a high level of motivation, morale, enthusiasm and integrity among the members of our network marketing organization. We believe this result is achieved through a combination of products, sales incentives, personal recognition of outstanding achievement, and quality promotional materials. Under our network marketing program, IBAs purchase sales aids from us and assume the costs of advertising and marketing our product line to their customers, as well as the direct cost of recruiting new IBAs. We believe that this form of sales organization is cost efficient, because our direct sales expenses are primarily limited to the payment of commissions, which are only incurred when products are sold.

We continually strive to improve our marketing strategies, including the compensation structure within our network marketing program and the variety and mix of products in our line, to attract and motivate IBAs. These efforts are designed to increase IBAs' monthly product sales and the recruiting of new IBAs.

Growth of our network marketing program is in part attributable to our incentive structure. IBAs earn profits by purchasing from our product line at wholesale prices and selling our product line to their customers at retail.

51

Additionally, we have a commission structure which provides for payment of commissions on product purchases made by other IBAs in a distributor's down-line organization. IBAs derive this commission income mainly through their Business Volume, as described below.

Business Volume is assigned to most of our products and is used to calculate sales commission. The Business Volume, in most instances, is 50% of the wholesale cost of a product. Commissions are based on the total Business Volume which has been generated both personally and through the IBAs' down-line activity. Therefore, as a down-line grows, it is possible for greater commissions to be earned. None of our IBAs have derived \$1 million per year or greater for the years ended 2004, 2003 or 2002.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

In order for an IBA to earn commissions, there are four requirements:

- o an IBA needs to create a Business Center by filling out our IBA Application and Agreement Form;
- o an IBA needs to qualify his Business Center with a 100 Business Volume order of our products;
- o an IBA needs to activate his Business Center by making two personal sales to two people who become qualified IBAs within one year of entry into the business; and
- o to be eligible for commission, an IBA needs to pay a yearly administration fee of \$40.

The average commission earned by our IBAs during the twelve month period starting on January 1, 2004 and ending on December 31, 2004 was \$1,168.

To aid IBAs in easily meeting the monthly personal product purchase requirement to qualify for commission, we developed the "Auto-ship Program." Under the Auto-ship Program purchasing arrangement, each Business Center establishes a standing product order (20 Business Volume minimum) which is automatically charged to a credit card or deducted from a bank account each month prior to shipment of the ordered products. Additionally, Auto-ship allows IBAs to purchase certain products at reduced prices. As of March 31, 2005 we had over 1,500 IBAs participating in the Auto-ship Program.

Under our Consignment Center Program, we designate IBAs to operate consignment centers. Each Consignment Center functions as our product distribution center, carrying our products. As of December 31, 2004, we had 20 consignment centers. Consignment centers provide hubs of local product and business training. They sell to customers at the point of purchase, teach sales and marketing techniques, distribute literature about our products and business while lowering our shipping and data-entry costs.

We maintain a computerized system for processing distributor orders and calculating commission payments, which enables us to remit such payments promptly to IBAs. We believe that prompt and accurate remittance of commissions is vital to recruiting and maintaining IBAs, as well as increasing their motivation and loyalty to us. We calculate the commissions weekly and pay commissions biweekly.

We are committed to providing the best possible support to our IBAs. IBAs in our network marketing program are provided training guides and are given the opportunity to participate in our training programs. We sponsor weekly conference calls for our IBAs, which include testimonials from successful IBAs and satisfied customers, as well as current product and promotional information. We produce weekly newsletters, which provide information on us, our products and network marketing system. The newsletter is designed to help recruit new IBAs, by answering commonly asked questions and includes product information and business building information. The newsletter also provides a forum for us to give additional recognition to our IBAs for outstanding performance. In addition, we regularly sponsor training sessions for our IBAs across the United States and Canada. At these training sessions IBAs are provided the opportunity to learn more about our product line and selling techniques, so that they can build their businesses more rapidly.

We also maintain an Internet site, www.eyicom.com, which is an integral part of our product sales, customer retention, IBA recruitment and IBA development efforts. Approximately 8,800 of our IBAs are networked electronically, allowing them access to marketing information and sales leads. Further, we provide IBAs with a free, e-commerce Internet "home page" to aid their marketing efforts.

Government Regulation

In the United States (as well as in any foreign markets in which we may sell our products), we are subject to laws, regulations, administrative determinations, court decisions and similar constraints (as applicable, at the federal, state and local levels) (hereinafter "regulations"). These regulations include and pertain to, among others:

- o the formulation, manufacture, packaging, labeling, distribution, importation, sale and storage of our products,
- o our product claims and advertising (including direct claims and advertising as well as claims and advertising by distributors, for which we may be held responsible), and
- o our network marketing organization.

We believe we are currently in compliance with all regulations. In the past, we have met and passed any inspection by the United States and Food and Drug Department. Our past FDA violations are as follows: on October 7, 2002, we had a Food and Drug label inspection. A notice to re-label on Calorad was submitted on October 9, 2002. A panel was added to our Calorad product to round the calories to be in compliance with the DSHEA Act of 1994. The "may proceed" release was issued on November 6, 2002. On February 2, 2004, a notice to redeliver from the Department of the Treasury/United States Customs Service in Detroit, Michigan was issued, requesting an inspection and import permit, along

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

with an original CFI A certificate (Canadian Food Inspection Agency Certificate). The entry number was 336-0214262-5. We met all requirements and the shipment was released on February 27, 2004.

53

Formulations: We are reliant on our manufacturer's knowledge and expertise as they develop our formulas. We do investigate the individual ingredients to ensure they fall under the 1994 DSHEA Act definitions as well as the FDA cosmetic regulations. We also receive confirmation that all preservatives are GRAS (generally recognized as safe)

Manufacturing: We are reliant on our manufacturers that they are compliant with GMP regulations and safety regulations put forth by the Food and Drug Administration.

Packaging: We are reliant on our manufacturers that our packaging is in compliance with FDA regulations.

Labeling: We consult with our FDA attorneys on a need to know basis regarding labeling and have an in house labeling specialist that is experienced in the 1994 DSHEA Act.

Distribution: Our facility has Food Grade Certification within the State of Kentucky and is also registered with the FDA (Food and Drug Administration) as a Food Grade Facility.

Sale and Storage: We have an in house General Manager/expert that oversees shipping, import and export as well ensures our distribution facility is compliant with all applicable laws in this area.

Importation: We have an in house purchasing agent that works with all applicable laws with respect to NAFTA, Bio-terrorism and agricultural requirements as well as a brokerage firm that works for us. We have always successfully imported product to the United States with very few inspections or violations.

Products

The formulation, manufacture, packaging, storing, labeling, advertising, distribution and sale of our products are subject to regulation by federal agencies, including the Food and Drug Administration, the Federal Trade Commission, the Consumer Product Safety Commission, the United States Department of Agriculture, the Environmental Protection Agency, and the United States Postal Service. Our activities are also regulated by various agencies of the states, localities and foreign countries in which our products are or may be manufactured, distributed and sold. The Food and Drug Administration, in particular, regulates the formulation, manufacture and labeling of dietary supplements, cosmetics and skin care products, including some of our products. Food and Drug Administration regulations require us and our suppliers to meet relevant regulatory good manufacturing practices for the preparation, packaging and storage of these products. Good manufacturing practices for dietary supplements have yet to be promulgated, but are expected to be proposed. The Dietary Supplement Health and Education Act of 1994 revised the provisions of the Federal Food, Drug and Cosmetic Act concerning the composition and labeling of dietary supplements, which we believe is generally favorable to the dietary supplement industry. The Dietary Supplement Health and Education Act created a new statutory class of "dietary supplements." This new class includes vitamins, minerals, herbs, amino acids and other dietary substances for human use to

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

supplement the diet. In general, a dietary supplement is a product (other than tobacco) that is intended to supplement the diet that bears or contains one or more of the following dietary ingredients: a vitamin, a mineral, a herb or other botanical, an amino acid, a dietary substance for use by man to supplement the diet by increasing the total daily intake, or a concentrate, metabolite, constituent, extract, or combinations of these ingredients; is intended for ingestion in pill, capsule, tablet, or liquid form; is not represented for use as a conventional food or as the sole item of a meal or diet; and is labeled as a "dietary supplement." However, the Dietary Supplement Health and Education Act grand fathered, with certain limitations, dietary ingredients that were on the market before October 15, 1994. A dietary supplement containing a new dietary ingredient and placed on the market on or after October 15, 1994 must have a history of use or other evidence establishing a basis for expected safety. Manufacturers of dietary supplements having a "structure-function" statement must have substantiation that the statement is truthful and not misleading.

The majority of our sales come from products that are classified as dietary supplements under the Federal Food, Drug and Cosmetic Act. The labeling requirements for dietary supplements have been set forth in final regulations with respect to labels affixed to containers beginning after March 23, 1999. These regulations include how to declare nutrient content information, and the proper detail and format required for the "supplemental facts" box. We revise our product labels in compliance with these regulations. The costs of product re-labeling were immaterial. Many states have also recently become active in the regulation of dietary supplement products. These states may require modification of labeling or formulation of certain of our products sold in these states.

54

In addition, on April 29, 1998, the US Food and Drug Administration published a proposed regulation offering guidance and providing limitations on permissible structure/function statements to be placed on labels and in brochures. Structure/function statements are claims of the benefit or effect of a product or an ingredient on the body's structure or function. The proposed regulation has not been finalized. We anticipate that some of the regulation as proposed will become final, but this new regulation will not significantly change the way that the Food and Drug Administration currently interprets structure/function statements. Thus, we do not expect to make any substantial label revisions based on this proposed regulation regarding any of our structure/function product statements.

Personal care products are intended to be applied to the human body for cleansing, beautifying, promoting attractiveness, or altering the appearance without affecting the body's structure or functions. Included in this definition are products such as skin creams, lotions, perfumes, lipsticks, fingernail polishes, eye and facial make-up preparations, shampoos, permanent waves, hair colors, toothpastes, deodorants, and any material intended for use as a component of a cosmetic product. The Food & Drug Administration has a limited ability to regulate personal care products. The Food & Drug Administration can regulate personal care products after they are introduced into the market and can review personal care products and their ingredients after they are sold to the public.

As a marketer of products that are ingested by consumers, we are subject to the risk that one or more of the ingredients in our products may become the subject of adverse regulatory action.

A portion of our products sold in Canada have separate labels or combination labels to satisfy Canadian compliance organizations, such as the Food Inspection Agency and Health Canada. Health Canada is moving towards

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

stricter compliance guidelines for dietary supplement products through its recently created Office of Natural Health Products. New compliance guidelines through the Office of Natural Health Products may affect the formulation, manufacture, packaging, storing, labeling, advertising, distribution and sale of our products in Canada. We plan to comply with all regulations promulgated by Office of Natural Health Products. Quebec has different label requirements than the rest of Canada, however, a portion of our Canadian labels or combination labels are compliant and sufficient for the sale in Quebec. Due to the small percentage of sales in Canada, we do not hold separate Canadian labels for our complete product line.

In foreign markets, prior to commencing operations and prior to making or permitting sales of our products, we may be required to obtain an approval, license or certification from the country's ministry of health or comparable agency. Prior to entering a new market in which a formal approval, license or certificate is required, we will be required to work extensively with local authorities to obtain the requisite approvals. The approval process generally will require us to present each product and product ingredient to appropriate regulators and, in some instances, arrange for testing of products by local technicians for ingredient analysis. Such approvals may be conditioned on reformulation of our products or may be unavailable with respect to certain products or ingredients.

Product Claims And Advertising

The Federal Trade Commission and certain states regulate advertising, product claims, and other consumer matters, including advertising of our products. All advertising, promotional and solicitation materials used by distributors require our approval prior to use. The Federal Trade Commission has in the past several years instituted enforcement actions against several dietary supplement companies for false and misleading advertising of certain products. In addition, the Federal Trade Commission has increased its scrutiny of the use of testimonials. We have not been the target of Federal Trade Commission enforcement action. There is no assurance that:

- o the Federal Trade Commission will not question our advertising or other operations in the future,
- o a state will not interpret product claims presumptively valid under federal law as illegal under that state's regulations, or
- o future Federal Trade Commission regulations or decisions will not restrict the permissible scope of such claims.

We are also subject to the risk of claims by distributors and their customers who may file actions on their own behalf, as a class or otherwise, and may file complaints with the Federal Trade Commission or state or local consumer affairs offices. These agencies may take action on their own initiative against us for alleged advertising or product claim violations or on a referral from distributors, consumers or others. Remedies sought in such actions may include consent decrees and the refund of amounts paid by the complaining distributor or consumer, refunds to an entire class of distributors or customers, or other damages, as well as changes in our method of doing business. A complaint based on the practice of one distributor, whether or not we authorized the practice, could result in an order affecting some or all distributors in a particular state. Also, an order in one state could influence courts or government agencies in other states considering similar matters. Proceedings resulting from these complaints may result in significant defense costs, settlement payments or

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

judgments and could have a material adverse effect on us.

Compliance Efforts

We attempt to remain in full compliance with all applicable laws and regulations governing the manufacture, labeling, sale, distribution, and advertising of our dietary supplements. We retain special legal counsel for advice on both US Food and Drug Administration and US Federal Trade Commission legal issues.

Network Marketing System

Our network marketing system is subject to a number of federal and state regulations administered by the Federal Trade Commission and various state agencies. These regulations are generally directed at ensuring that product sales are ultimately made to consumers (as opposed to other distributors) and that advancement within an organization be based on sales of the organization's products, rather than investment in the organization or other non-retail sales related criteria. For instance, in certain markets there are limits on the extent to which distributors may earn royalties on sales generated by distributors that were not directly sponsored by the distributor.

Our network marketing program and activities are subject to scrutiny by various state and federal governmental regulatory agencies, to ensure compliance with various types of laws and regulations. These laws and regulations include securities, franchise investment, business opportunity and criminal laws prohibiting the use of "pyramid" or "endless chain" types of selling organizations. The compensation structure of such selling organizations is very complex, and compliance with all of the applicable laws is uncertain in light of evolving interpretation of existing laws and the enactment of new laws and regulations pertaining to this type of product distribution. We have an ongoing compliance program with assistance from legal counsel experienced in the laws and regulations pertaining to network sales organizations. We are not aware of any legal actions pending or threatened by any governmental authority against us regarding the legality of our network marketing operations.

We currently have IBAs in the United States and Canada. We review the requirements of various states, as well as seek legal advice regarding the structure and operation of our selling organization to ensure that it complies with all of the applicable laws and regulations pertaining to network sales organizations. On the basis of these efforts and the experience of our management, we believe that we are in compliance with all applicable federal and state regulatory requirements. We have not obtained any no-action letters or advance rulings from any federal or state security regulator or other governmental agency concerning the legality of our operations, nor are we relying on a formal opinion of counsel to such effect. We, accordingly, are subject to the risk that, in one or more of our markets, our marketing system could be found to not comply with applicable laws and regulations. Our failure to comply with these regulations could have a material adverse effect on us in a particular market or in general.

We are subject to the risk of challenges to the legality of our network marketing organization, including claims by our distributors, both individually and as a class. Most likely these claims would be based on our network marketing program allegedly being operated as an illegal "pyramid scheme" in violation of federal securities laws, state unfair practice and fraud laws and the Racketeer Influenced and Corrupt Organizations Act.

We believe that our network marketing system is not classified as a pyramid scheme under the standards set forth in applicable law. In particular, in most jurisdictions, we maintain an inventory buy-back program to address the problem of "inventory loading." Pursuant to this program, we repurchase products

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

sold to a distributor (subject to a 10% restocking charge) provided that the distributor returns the product in marketable condition within one year of original purchase, or longer where required by applicable state law or regulations.

Our literature provided to distributors describes our buy-back program. However, as is the case with other network marketing companies, the commissions paid by us to our distributors are based on product purchases, including purchases of products that are personally consumed by the down-line distributors. Basing commissions on sales of personally consumed products may be considered an inventory loading purchase. Furthermore, distributors' commissions are based on the wholesale prices received by us on product purchases or, in some cases, based upon the particular product purchased, on prices less than the wholesale prices.

56

To further address the problem of "inventory loading," our IBAs must sell at least 70% of their inventory before they can reorder.

In the event of challenges to the legality of our network marketing organization by distributors, we would be required to:

- o demonstrate that our network marketing policies are enforced, and
- o demonstrate that the network marketing program and distributors' compensation thereunder serve as safeguards to deter inventory loading and encourage retail sales to the ultimate consumers.

Nutrition for Life International, Inc., one of our competitors and a multi-level seller of personal care and nutritional supplements, announced in 1999 that it had settled class action litigation brought by distributors alleging fraud in connection with the operation of a pyramid scheme. Nutrition for Life agreed to pay in excess of \$3 million to settle claims brought on behalf of its distributors, and related securities fraud claims brought on behalf of certain purchasers of its stock. We believe that our marketing program is significantly different from the program allegedly promoted by Nutrition for Life and that our marketing program is not in violation of anti-pyramid laws or regulations. Two issues in the Nutrition for Life matter were a \$1,000 buy-in urged on new recruits, and the paying of commissions on product vouchers prior to the actual delivery of product. By design, our marketing program offers no incentive to anyone to make a large personal purchase nor do we use product vouchers. However, there is no assurance that claims similar to the claims brought against Nutrition for Life and other multi-level marketing organizations will not be brought against us, or that we will prevail in the event any such claims were made. Furthermore, even if we were successful in defending against any such claims, the costs of conducting such a defense, both in dollars spent and in management time, could be material and adversely affect our operating results and financial condition. In addition, the negative publicity of such a suit could adversely affect our sales and ability to attract and retain distributors.

Competition

We are subject to significant competition in recruiting IBAs from other network marketing organizations, including those that market products in the dietary supplement and personal care categories, as well as other types of products. There are more than 300 companies worldwide that utilize network marketing techniques, many of which are substantially larger, offer a greater variety of products, and have available considerably greater financial resources

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

than us. Our ability to remain competitive depends, in significant part, on our success in recruiting and retaining IBAs through an attractive commission plan and other incentives. We believe that our commission plan and incentive programs provide our IBAs with significant income potential. However, there can be no assurance that our programs for recruitment and retention of IBAs will continue to be successful.

In addition, the business of marketing products in the dietary supplement and personal care categories is highly competitive. This market segment includes numerous manufacturers, other network marketing companies, catalog companies, distributors, marketers, retailers and physicians that actively compete in the sale of such products. We also compete with other providers of such products, especially retail outlets, based upon convenience of purchase and immediate availability of the purchased product. The market is highly sensitive to the introduction of new products or weight management plans (including various prescription drugs) that may rapidly capture a significant share of the market. As a result, our ability to remain competitive depends, in part, upon the successful introduction and addition of new products to our line.

Depending on the product category, our competition varies. Calorad competes directly with Colvera, a product with different ingredients but a similar concept. Additionally, Calorad competes indirectly with food plans such as Weight Watchers and meal replacement products such as Slim Fast. Our Noni Plus product competes with Morinda and others. Our other products have similar well funded and sophisticated competitors. Increased competitive activity from such companies could make it more difficult for us to increase or keep market share, since such companies have greater financial and other resources available to them and possess far more extensive manufacturing, distribution and marketing capabilities.

57

Our network marketing competitors include small, privately held companies, as well as larger, publicly held companies with greater financial resources and greater product and market diversification and distribution. Our competitors include Reliv International, Mannatech Incorporated and Usana Health Services.

As at June 27, 2005, we had 33 active employees. We have not incurred any research or development expenditures during our last two fiscal years.

Intellectual Property

We use several trademarks and trade names in connection with our products and operations, as further described below. We rely on common law trademark rights to protect our unregistered trademarks. Common law trademark rights do not provide with the same level of protection as afforded by a United States

federal registration of a trademark. Also, common law trademark rights are limited to the geographic area in which the trademark is actually used. In addition, our product formulations are not protected by patents and are not patentable. Therefore, there can be no assurance that another company will not replicate one or more of our products.

We have a License Agreement with Nutri-Diem that gives EYI the exclusive right to use the trademarks solely in connection with the sale, marketing and distribution of the products. Our agreement states that we have non-exclusive rights to use the trademarks on the Internet. The Agreement is based on a five year term, with automatic renewal for another five year period. We also have license agreement with EYI Corp which gives EYI the exclusive right to the trademarks for the purpose of sales and marketing activities. compensation plans previously approved by stockholders and all previous equity compensation plans not previously approved by stockholders, as of the most recently completed fiscal year. On February 17, 2004, our board of directors approved the Stock Compensation Program (the "Plan"). The Plan became effective on March 30, 2004. Under the Plan, options to purchase up to 25,000,000 shares of our common stock may be granted to our employees, officers, directors, and eligible consultants of our company. The Plan provides that the option price be the fair market value of the stock at the date of grant as determined by the Board of Directors. Options granted become exercisable and expire as determined by the Board of Directors.

Stock Compensation Program

On February 17, 2004, we established our Stock Compensation Program. The purpose of the Plan is to advance the interests of our company and our stockholders by strengthening our ability to obtain and retain the services of the types of employees, consultants, officers and directors who will contribute to our long term success and to provide incentives which are linked directly to increases in stock value which will inure to the benefit of all our stockholders. The Plan is administered by our Board of Directors or by a committee of two or more non-employee directors appointed by the Board of Directors (the "Administrator"). Subject to the provisions of the Plan, the Administrator has full and final authority to grant the awards of stock options and to determine the terms and conditions of the awards and the number of shares to be issued pursuant thereto. Options granted under the Plan may be either "incentive stock options," which qualify for special tax treatment under the Internal Revenue Code of 1986, as amended, (the "Code"), nonqualified stock options or restricted shares.

All of our employees and members of our Board of Directors are eligible to be granted options. Individuals who have rendered or are expected to render advisory or consulting services to us are also eligible to receive options. The maximum number of shares of our common stock with respect to which options or rights may be granted under the Plan to any participant is 25,000,000 shares, subject to certain adjustments to prevent dilution.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

The exact terms of the option granted are contained in an option agreement between us and the person to whom such option is granted. Eligible employees are not required to pay anything to receive options. The exercise price for incentive stock options must be no less than 85% of the fair market value of the common stock on the date of grant. The exercise price for nonqualified stock options is determined by the Administrator in its sole and complete discretion. An option holder may exercise options from time to time, subject to vesting. Options will vest immediately upon death or disability of a participant and upon certain change of control events.

The Administrator may amend the Plan at any time and in any manner, subject to the following: (1) no recipient of any award may, without his or her consent, be deprived thereof or of any of his or her rights thereunder or with respect thereto as a result of such amendment or termination; and (2) any outstanding incentive stock option that is modified, extended, renewed, or otherwise altered must be treated in accordance with Section 424(h) of the Code.

The Plan terminates on March 30, 2014 unless sooner terminated by action of the Board of Directors. All awards granted under the Plan expire ten years from the date of grant, or such shorter period as is determined by the Administrator. No option is exercisable by any person after such expiration. If an award expires, terminates or is canceled, the shares of our common stock not purchased thereunder may again be available for issuance under the Plan.

We filed a registration statement under the Securities Act of 1933, as amended, to register the 25,000,000 shares of our common stock reserved for issuance under the Plan on March 30, 2004.

Repricing of Options

During the year ended December 31, 2004, our board of directors approved the re-pricing of: (i) options to purchase 3,200,000 shares of our common stock granted in favor of Mr. Sargeant, our president and chief executive officer on April 30, 2004 at a price of \$0.19; and (ii) options to purchase 3,200,000 shares of our common stock granted in favor of Mr. O'Neill, our president and chief executive officer on April 30, 2004 at a price of \$0.19. The option price was reduced to \$0.08 per share in order that the exercise price was more reflective of the then current trading price of our common stock and in order to provide a continuing performance incentive. The 6,400,000 options were cancelled on December 27, 2004 and 3,200,000 options were issued on December 27, 2004 to each of Mr. O'Neill and Mr. Sargeant to replace their cancelled options. The new options have a \$0.08 exercise price and expire December 27, 2006. On February 9, 2005 the Company cancelled 3,200,000 options for both Mr. O'Neill and Mr. Sargeant. On the same date the Company issued 1,500,000 options at \$0.06 to both Mr. O'Neill and Mr. Sargeant.

LEGAL PROCEEDINGS

Other than as described below, we are not a party to any material legal proceedings and to our knowledge, no such proceedings are threatened or contemplated.

1. Oppression Action by Lavorato/Heyman

In 2002, an oppression action was commenced in the Supreme Court of

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

British Columbia by the plaintiffs Brian Lavorato, Geraldine Heyman and their respective holding companies, alleging that Essentially Yours Industries Corp., our affiliate, had improperly vended assets into Essentially Yours Industries, Inc., our wholly owned subsidiary, as part of a corporate restructuring alleged to be oppressive to the plaintiffs. As of April 4, 2003, the lawsuit has been settled and was subsequently dismissed by the plaintiffs by consent, with the exception of claims asserted by the plaintiffs against Thomas K. Viccars, a former in-house counsel of Essentially Yours Industries, Corp., who may potentially assert a third party claim against Essentially Yours Industries, Inc. The Settlement of the Oppression Action was consented to by the Plaintiffs pursuant to a written agreement between the Plaintiffs and, inter alia, EYI Inc., dated as of April 4th, 2003, under which EYI Inc. agreed as follows, inter alia:

- o In consideration of 468058 B.C. Ltd. leasing to 642706 B.C. Ltd. (a company related to EYI Inc.) EYI's business premises at 8310 and 8322, 130th Street, Surrey, B.C., EYI Inc. and Essentially Yours Industries Corp. jointly and severally agreed to indemnify the landlord in respect of the tenant's lease obligations till May 2005.
- o EYI Inc. agreed to enter into a mutual release of all claims with all parties (except Thomas Viccars). The mutual release was executed by all parties (except Thomas Viccars) as of April 4th, 2003.

As part of the original action we claimed against Callum MacLeod, a co-defendant, for breach of his employment agreement and Mr. MacLeod filed a counterclaim against us for wrongful dismissal. We have filed a consolidated statement of defense to the counterclaim, and interrogatories have been responded to. Management believes this counterclaim to be without merit and intends to vigorously defend against this claim.

2. Action By Suhl, Harris and Babich

In 2003 a consolidated action was brought by the plaintiffs Wolf Suhl, Christine Harris and Edward Babich in the Supreme Court of British Columbia pursuant to an order pronounced in the New Westminster Registry under Action No. S061589 on May 7, 2003, which allowed the plaintiffs to proceed with an action against Essentially Yours Industries, Inc. The plaintiffs allege that Essentially Yours Industries, Inc. holds certain of its products or revenues derived therefrom as trust property for the benefit of the plaintiffs.

The claim is for a total of \$220,000 and an aggregate 4.9% of the wholesale volume of sales generated by Essentially Yours Industries, Inc. from the alleged trust property, and for damages and costs. A consolidated statement of defence has been filed by Essentially Yours Industries, Inc., and interrogatories have been responded to. A three day summary trial was set for early April, 2005 for this matter, but has been adjourned to September pending the outcome of further discoveries. Management believes this claim to be without merit and intends to vigorously defend against this claim.

To the best of our knowledge, we are not subject to any other active or pending legal proceedings or claims against us or our subsidiaries or any of our properties that will have a material effect on our business or results of operations. However, from time to time, we may become subject to claims and litigation generally associated with any business venture.

3. Agreement with Source, Inc.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

In February, 2004 we entered into a letter of commitment with Source, Inc. ("Source") for the purpose of further developing our corporate marketing position with Source and for assistance in raising equity capital. Pursuant to the terms the letter agreement, we agreed to: (i) pay Source 20% of the gross revenues generated by Source under a Corporate Marketing Organization Agreement ("CMO Agreement") previously entered into with Premier Lifestyles International Corporation, a company related to Source; (ii) to offer up to \$4,000,000 of EYI restricted stock over a 90 day period at \$0.21 per share and warrants exercisable at a price of \$0.30 per share for investors referred to EYI by Source in connection with any equity offerings by EYI; (iii) at the end of the 12 months period following execution of the agreement, and if Source had referred enough investors to raise a minimum of \$500,000, to issue to Source \$1,800,000 in common stock of EYI or pay the balance in cash; and (iv) on a monthly basis, during the 12 month period, pay 50% of all monies collected by EYI from Source referred investors, to be paid to Source towards the \$1,800,000 to pay for the CMO Agreement and \$300,000 towards a proposed web portal. Subsequently, we terminated the CMO Agreement in accordance with its terms in July, 2004, and notified Source that they failed to raise the minimum funding of \$500,000 in connection with EYI's equity offering closing in June, 2004. Source has notified EYI that they dispute the fact that they did not raise the minimum financing amount. Management believes that if Source were to advance any such claims against EYI its chance of success would be remote and we intend to vigorously defend against any potential legal claims respecting this matter.

price of \$0.21 per unit to Eyewonder in respect of certain amounts owed to Eyewonder under our Letter Agreement with Eyewonder. Each unit was comprised of one share of our common stock and one share purchase warrant entitling Eyewonder to purchase one share of our common stock at an exercise price of \$0.30 per share for a period expiring May 4, 2009. Eyewonder is a subcontractor, which provides streaming video technology to EYI. The Company believes that the Eyewonder transaction was not a related party transaction, as the Company and Eyewonder had no prior relationship and no individuals and/or entities were related to the Company and Eyewonder. The issuance was completed pursuant to Section 4(2) of the Securities Act on the basis that Eyewonder was a sophisticated investor.

As of June 7, 2004, we completed the sale of 136,548 units at a price of \$0.21 per unit for proceeds of \$28,675 to seven investors. Each unit was comprised of one share of our common stock and one share purchase warrant. Each share purchase warrant entitles the holder to purchase one share of our common stock at a price of \$0.30 per share for the three year period following closing. A total of 136,548 shares and 136,548 share purchase warrants were issued. The purchasers consisted of seven "accredited investors", as defined by Rule 501 of Regulation D of the Securities Act. The sales were completed pursuant to Rule 506 of Regulation D of the Securities Act. All securities issued were endorsed with a restrictive legend confirming that the securities cannot be resold without registration under the Securities Act or an applicable exemption from the registration requirements of the Securities Act.

On June 22, 2004, we issued 1,266,589 and 33,411 restricted shares of our common stock to Cornell Capital Partners and Newbridge Securities Corporation, respectively in payment of certain fees owed to Cornell Capital Partners and Newbridge under the terms of the Standby Equity Distribution Agreement and a Placement Agent Agreement. All issuances were completed pursuant to Rule 506 of Regulation D of the Securities Act on the basis that Newbridge and Cornell are "accredited investors", as defined by Rule 501 of Regulation D of the Securities Act. All securities issued were endorsed with a restrictive legend confirming that the securities cannot be resold without registration under the Securities Act or an applicable exemption from the registration requirements of the Securities Act.

On June 22, 2004, we entered into a secured convertible debenture transaction with Cornell Capital Partners in the principal amount of \$500,000. The sale of these Secured Convertible Debentures is complete. EYI Industries received \$250,000 from the issuance of the first Secured Convertible Debenture on June 22, 2004, and we received \$250,000 five business days following the filing of the accompanying registration statement. The Secured Convertible Debentures are convertible at the holder's option any time up to maturity at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock as of the date of issuance, or (ii) 80% of the average of the lowest daily volume weighted average price of our common stock for the 5 trading days immediately preceding the conversion date. At maturity, the remaining unpaid principal and accrued interest under the debentures shall be, at our option, either paid or converted into shares of common stock at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock as of the date of issuance or (ii) 80% of the lowest closing bid price of the common stock for the lowest trading days of the 5 trading days immediately preceding the conversion date. The Secured Convertible Debenture is secured by all of EYI Industries' assets. The Secured Convertible Debentures accrue interest at a rate of 5% per year and have a term of 3 years. In the event the Secured Convertible Debentures are redeemed, then EYI Industries will issue to the holders a warrant to purchase 50,000 shares for every \$100,000 redeemed at an exercise price of 120% of the closing bid price as of June 22, 2004. The holders purchased the Secured Convertible Debentures from EYI Industries in a private placement on June 22, 2004. On September 24, 2004, we issued the second secured convertible debenture in the principal amount of \$250,000 to Cornell

Capital Partners on the same terms and conditions as the secured convertible debenture described above. EYI Industries is registering in this offering 8,352,823 shares of common stock underlying the Secured Convertible Debentures. On April 4, 2005, Cornell Capital Partners assigned all of its rights and interests in the secured convertible debentures to Taib Bank E.C. In February 2005, the Company issued 800,000 shares of our common stock at a deemed price of \$0.05 per share to Janet Carpenter. These shares were given to Ms. Carpenter in consideration of her providing the guarantee and pledge required for our loan agreement with Cornell Capital.

In June 2005, we completed the sale of 1,000,000 units at a price of \$0.02 per unit for proceeds of \$20,000 to one investor. Each unit was comprised of one share of our common stock and one share purchase warrant. Each share purchase warrant entitles the holder to purchase one share of our common stock at a price of \$0.02 per share for a one year period following closing. A total of 1,000,000 shares and 1,000,000 share purchase warrants were issued. The purchaser is an "accredited investor", as defined by Rule 501 of Regulation D of the Securities Act. The sale was completed pursuant to Rule 506 of Regulation D of the Securities Act. All securities issued were endorsed with a restrictive legend confirming that the securities cannot be resold without registration under the Securities Act or an applicable exemption from the registration requirements of the Securities Act.

With respect to the sale of unregistered securities referenced above, all transactions were exempt from registration pursuant to Section 4(2) of the Securities Act of 1933 (the "1933 Act"), and Regulation D promulgated under the 1933 Act. In each instance, the purchaser had access to sufficient information regarding EYI so as to make an informed investment decision. More specifically, EYI had a reasonable basis to believe that each purchaser was an "accredited investor" as defined in Regulation D of the 1933 Act and otherwise had the requisite sophistication to make an investment in EYI's common stock.

* Current management of EYI Industries has limited information with respect to the issuances of unregistered securities prior to the Share Exchange transaction consummated on December 31, 2003 between our company and certain shareholders of Essentially Yours Industries, Inc.

DESCRIPTION OF SECURITIES

Common Stock

Our Articles of Incorporation authorize the issuance of 300,000,000 shares of common stock, \$0.001 par value per share. As of June 27, 2005, 167,803,292 shares of common stock were issued and outstanding. The following description is a summary of the capital stock of EYI Industries and contains the material terms of the capital stock. Additional information can be found in EYI Industries' Articles of Incorporation and Bylaws.

Each holder of our common stock is entitled to one vote per share of common stock standing in such holder's name on our records on each matter submitted to a vote of our stockholders, except as otherwise required by law. Holders of our common stock do not have cumulative voting rights so that the holders of more than 50% of the combined shares of our common stock voting for the election of directors may elect all of the directors if they choose to do so and, in that event, the holders of the remaining shares of our common stock will not be able to elect any members to our board of directors. Holders of our common stock are entitled to equal dividends and distributions, per share, when, as and if declared by our board of directors from funds legally available. Holders of our common stock do not have preemptive rights to subscribe for any of our securities nor are any shares of our common stock redeemable or convertible into any of our other securities. If we liquidate, dissolve or wind up our business or affairs, our assets will be divided up pro-rata on a share-for-share basis among the holders of our common stock after creditors and preferred shareholders, if any, are paid.

Preferred Stock

Our Articles of Incorporation authorize the issuance of 10,000,000 shares of preferred stock, \$0.001 par value per share, the designation and rights of which are to be determined by our Board of Directors. As of June 27, 2005, no shares of preferred stock were issued and outstanding.

Our Board of Directors has authority, without action by the shareholders, to issue all or any portion of the authorized but unissued preferred stock in one or more series and to determine the voting rights, preferences as to dividends and liquidation, conversion rights, and other rights of such series. We consider it desirable to have preferred stock available to provide increased flexibility in structuring possible future acquisitions and financing and in meeting corporate needs which may arise. If opportunities arise that would make desirable the issuance of preferred stock through either public offering or private placements, the provisions for preferred stock in our Articles of Incorporation would avoid the possible delay and expense of a shareholder's meeting, except as may be required by law or regulatory authorities. Issuance of the preferred stock could result, however, in a series of securities outstanding that will have certain preferences with respect to dividends and liquidation over the common stock which would result in dilution of the income per share and net book value of the common stock. Issuance of additional common stock pursuant to any conversion right which may be attached to the terms of any series of preferred stock may also result in dilution of the net income per share and the net book value of the common stock. The specific terms of any series of

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

preferred stock will depend primarily on market conditions, terms of a proposed acquisition or financing, and other factors existing at the time of issuance. Therefore, it is not possible at this time to determine in what respect a particular series of preferred stock will be superior to our common stock or any other series of preferred stock which we may issue. Our Board of Directors may issue additional preferred stock in future financing, but has no current plans to do so at this time.

The issuance of preferred stock could have the effect of making it more difficult for a third party to acquire a majority of our outstanding voting stock. We intend to furnish holders of our common stock annual reports containing audited financial statements and to make public quarterly reports containing unaudited financial information.

Convertible Debentures

On June 22, 2004, we entered into a secured convertible debenture transaction with Cornell Capital Partners in the principal amount of \$500,000. The sale of these Secured Convertible Debentures is complete. EYI Industries received \$250,000 from the issuance of the first Secured Convertible Debenture on June 22, 2004, and we received \$250,000 five business days following the filing of the accompanying registration statement. The Secured Convertible Debentures are convertible at the holder's option any time up to maturity at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock as of the date of issuance, or (ii) 80% of the average of the lowest daily volume weighted average price of our common stock for the 5 trading days immediately preceding the conversion date. At maturity, the remaining unpaid principal and accrued interest under the debentures shall be, at our

77

option, either paid or converted into shares of common stock at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock as of the date of issuance or (ii) 80% of the lowest closing bid price of the common stock for the lowest trading days of the 5 trading days immediately preceding the conversion date. The Secured Convertible Debenture is secured by all of EYI Industries' assets. The Secured Convertible Debentures accrue interest at a rate of 5% per year and have a term of 3 years. In the event the Secured Convertible Debentures are redeemed, then EYI Industries will issue to the holders a warrant to purchase 50,000 shares for every \$100,000 redeemed at an exercise price of 120% of the closing bid price as of June 22, 2004. The holders purchased the Secured Convertible Debentures from EYI Industries in a private placement on June 22, 2004. On September 24, 2004, we issued the second secured convertible debenture in the principal amount of \$250,000 to Cornell Capital Partners on the same terms and conditions as the secured convertible debenture described above. EYI Industries is registering in this offering 8,352,823 shares of common stock underlying the Secured Convertible Debentures. On April 4, 2005, Cornell Capital Partners assigned all of its rights and interests in the secured convertible debentures to Taib Bank E.C. All investment decisions of Taib Bank E.C. are made by Larry Chaleff, its Managing Director. In addition, on April 4, 2005, EYI Industries and Taib Bank E.C. entered into a Redemption Agreement, whereby EYI Industries agreed to first use any proceeds received by EYI Industries under the Equity Distribution Agreement with Cornell Capital Partners to redeem any remaining principal and accrued interest under the assigned Secured Convertible Debentures.

EYI INDUSTRIES, INC.
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2005

NOTE 1 - DESCRIPTION OF BUSINESS

Essentially Yours Industries, Inc. (hereinafter "EYI") was incorporated on June 21, 2002 in the State of Nevada. The main business activities of Essentially Yours Industries, Inc. were acquired through a merger with the former entity, Burrard Capital, Inc., and other entities involved in EYI's reorganization. On December 31, 2003, EYI entered into a share exchange agreement of its stock with Safe ID Corporation ("Safe ID"). This transaction was accounted for as a share exchange and recapitalization. As a result of this transaction, Safe ID has changed its name to EYI Industries, Inc. ("the Company") and is acting as the parent holding company for the operating subsidiaries.

The principal business of the Company is the marketing of health and wellness care products. The Company sells its products through network marketing distributors, which in turn, sell the products to the end customers. The Company maintains its principal business office in Burnaby, British Columbia. Effective for the period ended December 31, 2003, the Company elected to change its year-end from June 30 to December 31.

The Company has four wholly owned subsidiaries. The first subsidiary is Halo Distribution LLC (hereinafter "Halo", which was organized on January 15, 1999, in the State of Kentucky. Halo is the distribution center for the Company's product in addition to other products. The second subsidiary is RGM International Inc., which was incorporated on July 3, 1997, in the State of Nevada. RGM International Inc. is a dormant investment company, which owns one percent of Halo. The third subsidiary is Essentially Yours Industries (Canada) Inc. (hereinafter "EYI Canada"), which was organized on September 13, 2002, in the province of British Columbia, Canada. EYI Canada markets health and wellness care products for use in Canada. The fourth subsidiary is 642706 B.C. Ltd., doing business as EYI Management, which was organized on February 22, 2002, in the province of British Columbia, Canada. EYI Management provides accounting and marketing services to the consolidated entity.

In addition, the Company owns approximately 98% of Essentially Yours Industries, Inc. ("EYII"), incorporated on June 21, 2002 in the State of Nevada. EYII markets health and wellness care products for use in USA. The Company also owns 51% of World Wide Buyers' Club Inc., a Nevada corporation, which was organized by a joint venture agreement effective May 6, 2004.

Basis of Presentation

The accompanying interim condensed financial statements are prepared in accordance with rules set forth in Regulation SB of the Securities and Exchange Commission. As said, these statements do not include all disclosures required under generally accepted principles and should be read in conjunction with the audited financial statements for the year ended December 31, 2004. In the

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

opinion of management, all required adjustments which consist of normal re-occurring accrual have been made to the financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

This summary of significant accounting policies of EYI Industries, Inc., is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America, and have been consistently applied in the preparation of the financial statements.

Accounts Receivable and Bad Debts

The Company estimates bad debts utilizing the allowance method, based upon past experience and current market conditions. At March 31, 2005 and December 31, 2004, the Company recorded allowances of \$19,853 and \$16,321 to cover accounts receivable balances over 60 days.

F-7

Inventory

The Company records inventories at the lower of cost or market on a first-in, first-out basis. Our product inventory is reviewed each month and also when the re-order of the product is necessary. On a monthly basis, our inventory is reviewed based on the expiration of our existing inventory. Product that has a shelf-life of less than 60 days is written off or discounted.

A re-order review consists of an evaluation of our current monthly sales volume of the product, cost of product, shelf-life of the product, and the manufacturers minimum purchase requirement which all determine the overall potential profitability or loss of re-ordering. If the re-order of the product has an assessed loss, then the recommendation to management is to remove the product from the product line.

Restricted Cash

Restricted cash includes deposits held in a reserve account in the amount of \$100,370 and \$100,248 at March 31, 2005 and December 31, 2004 respectively. Such deposits are required by the bank as protection against unfunded charge backs and returns of credit card transactions.

Revenue Recognition

The Company is in the business of selling nutritional products in two categories: dietary supplements and personal care products. Sales of personal care products represent less than 5% of the overall revenue and therefore are not classified separately in the financial statements. The Company recognized revenue from product sales when the products are shipped and title passes to customer. Administrative fees charged to the Independent Business Associates are included in the gross sales and amounted \$41,096 and \$67,500 for the three months ended March 31, 2005 and March 31, 2004 respectively.

Stock Options and Warrants Granted to Employees and Non-Employees

Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123"), defines a fair value-based method of accounting for stock options and other equity instruments. The Company has adopted this

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

method, which measures compensation costs based on the estimated fair value of the award and recognizes that cost over the service period.

Going Concern

As shown in the accompanying financial statements, the Company had negative working capital of approximately \$1,640,000 and an accumulated deficit incurred through March 31, 2005. The Company also has limited cash resources and a history of recurring losses. These factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

Management has established plans designed to increase the sales of the Company's products, and decrease debt. The Company plans on continuing to reduce expenses, and with small gains in any combination of network sales, direct sales, international sales, and warehouse sales, believe that they will eventually be able to reverse the present deficit. Management intends to seek additional capital from new equity securities offerings that will provide funds needed to increase liquidity, fund internal growth and fully implement its business plan. Management plans include negotiations to convert significant portions of existing debt into equity.

The timing and amount of capital requirements will depend on a number of factors, including demand for products and services and the availability of opportunities for international expansion through affiliations and other business relationships.

NOTE 3 - REORGANIZATION

On May 27, 2002, Mr. Jay Sargeant, a shareholder of Essentially Yours Industries, Corp. ("EYI Corp.") agreed to acquire all of the shares of the Essentially Yours Industries, Inc. ("EYII"), along with the transfer agreement, license agreement, and agency appointment agreement as described below, in settlement of amounts owed to him. As part of this transaction, EYI Corp. agreed to provide to EYII the services outlined in a management agreement. These agreements became effective on June 30, 2002. EYII owns ninety-nine percent of Halo Distributions LLC ("HALO"). The other one percent of HALO is owned by RGM International, Inc. ("RGM"), a former subsidiary of EYI Corp., which was transferred to Mr. Sargeant as additional consideration.

F-8

On June 30, 2002, the shareholder of EYII exchanged all of the outstanding shares of EYII for 12,000,000 common shares of Burrard Capital Inc ("Burrard"), a shell company with no assets or business operations. Concurrent with this transaction, EYII was merged into Burrard with Burrard emerging as the surviving entity. The combined entity was renamed Essentially Yours Industries, Inc. For accounting purposes, the acquisition has been treated as a recapitalization of EYII with EYII as the acquirer. Prior to this merger, EYII and RGM were considered to be dormant companies, with the activities of HALO being consolidated directly with EYII Corp. although the legal ownership was vested in EYII and RGM. Therefore, the losses from HALO operations and the other economic impacts prior to June 30, 2002 are considered to be the separate activity of EYI Corp.

On June 30, 2002, EYII took over the sales and marketing activities of its former holding company and entered into various agreements with that Company as follows:

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Transfer Agreement

As part of the aforementioned transaction and for consideration of \$1, EYI Corp. transferred and assigned to EYII all of its rights, title and interest in and to the contracts with its Independent Business Associates and any other contracts that may be identified by the parties as being inherent or necessary to the sales and marketing activities to EYII.

License Agreement

EYI Corp. licensed to EYII all of the rights, title, and interest that it may have in various intellectual properties for \$1 per year for a term of 50 years. The Company has the option at any time to require EYI Corp. to transfer all of its rights, title, interest in and to the intellectual properties to the Company at the sum of \$1 or such greater sum as may be determined to be the fair market value of such intellectual property as determined by agreement between the parties, by arbitration or by the appropriate taxation authorities after all assessments and appeals have been concluded.

Agency Appointment Agreement

EYI Corp. appointed EYII as the sole and exclusive agent to sell its remaining inventory on hand as of June 30, 2002 at the prices previously established, and to continue to sell at such price unless and until any change is agreed upon with EYI Corp. In consideration for its efforts, the Company is entitled to a sales commission of fifteen percent on all sales of such inventory.

Management Agreement

EYI Corp. agreed to perform various services such as administration, computer support, and sales and customer support, on behalf of EYII for a term of one year commencing June 30, 2002. The services and duties to be provided and performed by EYI Corp. for EYII shall be determined and agreed upon by the parties, from time to time, as required, provided however, it is understood and agreed that such services will primarily consist of assisting EYII in the sales and marketing business. At the date of these financial statements, the agreement had expired, and EYII was operating on a month-to-month basis for management services with EYI Corp.

The remuneration to be paid by EYII to EYI Corp. for the aforementioned services is to be negotiated by the parties from time to time, provided however, the parties agree that the remuneration to be paid shall be consistent with industry standards for the type and nature of the services or duties being provided. At the present time, EYII has agreed to pay EYI Corp. actual expenses plus a fee of 5% on these expenses.

NOTE 4 - ACCOUNTS RECEIVABLE AND CREDIT RISK

Accounts receivable at March 31, 2005 and December 31, 2004 consist primarily of amounts due from third parties for distribution services provided by Halo and direct retail clients of EYII.

NOTE 5 - PROPERTY AND EQUIPMENT

Capital assets are recorded at cost. Depreciation is calculated using the straight line method over three to seven years.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

NOTE 6 - CONVERTIBLE LOANS PAYABLE

On June 2, 2004, the Company issued to Cornell Capital Partners, LP a 5% secured convertible debenture in the principal amount of \$250,000 with a term of two years, and interest at 5%. The debenture is convertible into the Company's common stock at a price per share equal to the lesser of (a) 120% of the closing bid price by the second anniversary date of issuance or (b) 100% of the lowest daily volume weighted average price for the 30 days immediately prior to conversion. On June 27, 2004, the Company received the \$250,000 loan less related expenses of approximately \$65,000 which has been allocated as discount on debt and will be amortized over a two year period. The convertible securities are guaranteed by the assets of the Company. Under the agreement, the Company is required to keep available common stock duly authorized for issuance in satisfaction of the convertible. The conversion amount will be the face amount of the convertible plus interest at the rate of 5% per annum from the closing date of June 27, 2004 to the conversion date, which is the date on which the Company receives a notice of conversion from the investor exercising the right to convert the convertible into common shares of the Company. The debt will automatically convert into common stock on the second anniversary date of issuance. The terms of the debt do not require regular monthly payments.

On September 24, 2004, the Company issued to Cornell Capital Partners, LP ("Cornell") a 5% secured convertible debenture in the principal amount of \$250,000 with a term of two years, and interest at 5%. The debenture is convertible into the Company's common stock at a price per share equal to the lesser of (a) 120% of the closing bid price by the second anniversary date of issuance or (b) 100% of the lowest daily volume weighted average price for the 30 days immediately prior to conversion. On September 27, 2004, the Company re-assigned \$245,000 of this debenture to Taib Bank, E.C. and reassigned \$5,000 of debenture B to an individual. Under the debenture agreement, the Company's failure to issue unrestricted, freely tradable common stock to Cornell or Taib Bank or the individual upon conversion after the registration statement filed pursuant to this transaction has been declared effective would be considered an event of default, thereby entitling Cornell to accelerate full repayment of the convertible securities then outstanding. Under the agreement, the Company is required to maintain available common stock duly authorized for issuance in satisfaction of the convertible. On September 24, 2004 the Company received the \$250,000 loan less related expenses of approximately \$55,000, which has been allocated as discount on debt and will be amortized over a two year period. The convertible securities are guaranteed by the assets of the Company. Under the agreement, the Company is required to keep available common stock duly authorized for issuance in satisfaction of the convertible. The conversion amount will be the face amount of the convertible plus interest at the rate of 5% per annum from the closing date of September, 2004 to the conversion date, which is the date on which the Company receives a notice of conversion from the investor exercising the right to convert the convertible into common shares of the Company. The convertible will automatically convert into common stock on the second anniversary date of issuance. The terms of the debt do not require regular monthly payments.

The convertible debentures contained a beneficial conversion feature computed at its intrinsic value that was the difference between the conversion price and the fair value on the debenture issuance date of the common stock into which the debt was convertible, multiplied by the number of shares into which the debt was convertible at the commitment date. Since the beneficial conversion feature was to be settled by issuing equity, the amount attributed to the beneficial conversion feature, or \$250,000, at December 31, 2004 and \$0 at March 31, 2005, was recorded as an interest expense and a component of stockholders' equity on the balance sheet date.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Standby Equity Distribution Agreement

In June, 2004, the Company entered into a standby equity distribution agreement with Cornell Capital Partners, LP ("Cornell"). Pursuant to this agreement, Cornell will purchase up to \$10,000,000 of the Company's common stock through a placement agent over a two-year period after the effective registration of the shares. In addition, the Company issued 1,300,000 shares of its common stock to Cornell and the placement agent upon the inception of the standby equity distribution agreement. The \$390,000 value of these shares was recognized as a period expense due to the fact that the 1,300,000 shares have been deemed to be fully earned as of the date of the agreement.

NOTE 7 - INTANGIBLE ASSETS

Intangible assets consist of rights, title, and interest in and to the contracts with the Company's independent business associates as well as the rights and licenses to trademarks and formula for the Company's primary products. These rights and licenses were obtained from the Company's former parent pursuant to a transfer agreement, as well as from the Company's primary shareholder.

F-10

Trademarks and Formulas

Costs relating to the purchase of trademarks and formulas were capitalized and amortized using the straight-line method over ten years, representing the estimated life of the assets.

NOTE 8 - CAPITAL STOCK

Preferred Stock

The Company is authorized to issue 10,000,000 shares of preferred stock with a par value of \$0.001. As of March 31, 2005 and December 31, 2004 the Company has not issued any preferred stock.

Common Stock

The Company is authorized to issue 300,000,000 shares of common stock. All shares have equal voting rights, are non-assessable and have one vote per share. Voting rights are not cumulative and, therefore, the holders of more than 50% of the common stock could, if they choose to do so, elect all of the directors of the Company.

On February 10, 2005, we entered into a loan agreement with one of our employees, pursuant to which we loaned her \$180,000 for the purpose of exercising 3,000,000 incentive stock options issued to her under our stock compensation program. The loan is payable on demand and accrues interest at a rate of 4% per annum. The loan was secured by a promissory note dated effective February 10, 2005 and deemed to be a subscription receivable. (See Note 11)

On February 14, 2005 the Company entered into a bonus share agreement with one of our employees and issued 800,000 shares of our common stock at a deemed price of \$0.05 per share. These shares were given in consideration for providing the guarantee and pledge necessary for the Cornell loan. (See Note 10). The shares are to be issued pursuant to Regulation S of the Securities Act.

NOTE 9 - COMMON STOCK OPTIONS AND WARRANTS

Financial Accounting Standards No. 123, "Accounting for Stock-Based

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Compensation" (hereinafter "SFAS No. 123"), defines a fair value-based method of accounting for stock options and other equity instruments. The Company has adopted this method, which measures compensation costs based on the estimated fair value of the award and recognizes that cost over the service period.

In accordance with SFAS No. 123, the fair value of stock options and warrants granted are estimated using the Black-Scholes Option Price Calculation. The following assumptions were made to value the stock options and warrants for the period ended March 31, 2005; estimated risk-free interest rate of 4%, estimated volatility of 120% and term of two years.

NOTE 10 - COMMITMENTS AND CONTINGENCIES

Purchase Agreement

On June 30, 2002, the Company entered into a distribution and license agreement with a company in which one of the Company's directors has an ownership interest. The agreement gives the Company the exclusive right to market, sell and distribute certain products for a five-year renewable term. Management estimates that 90% of the Company's sales volume results from products supplied under this licensing agreement.

In the event that the Company is unable to meet the minimum purchase requirements of the licensing agreement or the terms requiring it to pay 15% of the difference between the minimum purchase amount referred to above and actual purchases for that year in which there is a shortfall, then the licensor has various remedies available to it including, renegotiating the agreement, removing exclusivity rights, or terminating the agreement.

As of the date of these financial statements, the purchase requirements have not been made and it has been determined by the Company to be a remote possibility that the licensor will enforce the minimum purchase requirements, therefore, there has not been an accrual made to the financial statements to reflect any estimated liability pertaining to this agreement due to the fact that the maximum time period to make a claim expired prior to the issuance of the financial statements.

Lease Payments

The Company has operating lease commitments for its premises, office equipment and an automobile. The minimum annual lease commitments are as follows:

Year ended December 31, -----	Minimum Amount -----
2005	\$262,805
2006	276,739
2007	182,432
2008	135,000
2009 and thereafter	435,000

Management Agreement

EYI Corp. has agreed to perform various services and administrative assistance to the Company on a month to month basis commencing April 1, 2004. The services and duties to be provided and performed by EYI Corp. for EYII shall be

determined and agreed upon by the parties, from time to time, as required, provided however, it is understood and agreed that such services will primarily consist of assisting EYII in the sales and marketing business.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

The remuneration to be paid by EYII to EYI Corp. for the aforementioned services shall be the cost of actual expenses plus a fee of five (5%) percent for services provided.

Regulatory Risks and Claims

The Company's products are subject to regulation by a number of federal, state, entities, as well as those of foreign countries in which the Company's products are sold. These regulatory entities may prohibit, or restrict, the sale, distribution, or advertising of the Company's products for legal, health or safety, related reasons. In addition to the potential risk of adverse regulatory actions, the Company is subject to the risk of potential product liability claims.

Secured Promissory Note

On February 24, 2005 we received a loan of \$200,000 from Cornell secured by a secured promissory note. Under the terms of the secured promissory note, the loan is payable by April 24, 2005 and accrues interest at a rate of 12% per annum. In connection with the issuance of the Secured Note, we agreed to: (i) pay Cornell a fee of \$20,000; and (ii) pay Yorkville Advisors Management LLC a structuring fee in the amount of \$2,500. As a condition to Cornell's entry into the Secured Note on February 24, 2005, an employee of EYI, Janet Carpenter, entered into a guaranty agreement with Cornell and a pledge and escrow agreement with Cornell with David Gonzalez. Pursuant to the terms of the guaranty agreement and the pledge and escrow agreement, Ms. Carpenter agreed to: (i) personally guarantee the payment and performance obligations of EYI under the Secured Note; and (ii) pledge to Cornell 3,000,000 shares of EYI held by her to secure the obligations of EYI under the Secured Note. In consideration of Ms. Carpenter providing the guarantee and pledge, EYI entered into a bonus share agreement dated February 14, 2005 with Ms. Carpenter, pursuant to which we agreed to issue to Ms. Carpenter 800,000 shares of our common stock at a deemed price of \$0.05 per share. The shares are to be issued to Ms. Carpenter pursuant to Regulation S of the Securities Act. (See Note 8).

Subsidy Agreements

On July 23, 2004, the Company entered into subsidy agreements with three related parties in which the Company agreed to pay a guaranteed amount of \$2,500 per week to each party for sales and marketing services. This is in lieu of all commissions earned by each of these three individuals. The Company has renewed these agreements every 12 weeks since they became effective.

Standby Equity Distribution Agreement

On June 22, 2004, the Company entered into a two-year standby equity distribution agreement with Cornell Capital Partners LP ("Cornell"). Pursuant to this agreement, Cornell will purchase up to 10,000,000 shares of the Company's common stock through a placement agent. The Company issued 1,300,000 shares of its common stock to Cornell and the placement agent upon the inception of this agreement. The \$390,000 value of these shares was based on the fair market value of the shares on the date of the contract and is recognized as a period expense due to the fact that the 1,300,000 shares have been deemed to be fully earned as of the date of the agreement. (See Note 6.)

Other Matters

The Company's predecessor organization, Essentially Yours Industries Corp. ("EYIC"), a British Columbia corporation, has outstanding claims from the Internal Revenue Service for penalties and interest of approximately \$2,000,000. Furthermore, one or more states may have claims against EYIC for unpaid state

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

income taxes. Management believes that these claims are limited solely to EYIC and that any prospective unpaid tax claims against the Company are remote and unable to be estimated.

F-13

In February, 2004 we entered into a letter of commitment with Source, Inc. ("Source") for the purpose of further developing our corporate marketing position with Source and for assistance in raising equity capital. Pursuant to the terms the letter agreement, we agreed to: (i) pay Source 20% of the gross revenues generated by Source under a Corporate Marketing Organization Agreement ("CMO Agreement") previously entered into with Premier Lifestyles International Corporation, a company related to Source; (ii) to offer up to \$4,000,000 of EYI restricted stock over a 90 day period at \$0.21 per share and warrants exercisable at a price of \$0.30 per share for investors referred to EYI by Source in connection with any equity offerings by EYI; (iii) at the end of the 12 months period following execution of the agreement, and if Source had referred enough investors to raise a minimum of \$500,000, to issue to Source \$1,800,000 in common stock of EYI or pay the balance in cash; and (iv) on a monthly basis, during the 12 month period, pay 50% of all monies collected by EYI from Source referred investors, to be paid to Source towards the \$1,800,000 to pay for the CMO Agreement and \$300,000 towards a proposed web portal. Subsequently, we terminated the CMO agreement in accordance with its terms in July, 2004, and notified Source that they failed to raise the minimum funding of \$500,000 in connection with EYI's equity offering closing in June, 2004. Source has notified EYI that they dispute the fact that they did not raise the minimum financing amount. Management believes that if Source were to advance any such claims against EYI its chance of success would be remote and we intend to vigorously defend against any potential legal claims respecting this matter.

NOTE 11 - RELATED PARTY NOTE PAYABLE

The Company issued two promissory notes, for a total of \$90,000 in December 2003. The notes are unsecured, non-interest bearing and are payable upon demand.

On February 14, 2005 the Company entered into a bonus share agreement with one of our employees and issued 800,000 shares of our common stock according to the terms of the agreement. (See Note 8 and 10).

NOTE 14 - SUBSEQUENT EVENTS

On May 13, 2005 the Company entered into a Standby Equity Distribution Agreement with Cornell Capital Partners, LP ("Cornell") pursuant to which we entered into the following agreements: a Registration Rights Agreement, an Escrow Agreement, and a Placement Agent Agreement. Pursuant to the terms of the new Standby Equity Distribution Agreement, we may, at our discretion, periodically issue and sell shares of our common stock for a total purchase price of \$10 million. If we request advances under the Standby Equity Distribution Agreement, Cornell will purchase shares of our common stock for 98% of the lowest volume weighted average price on the Over-the-Counter Bulletin Board or other principal market on which our common stock is traded for the 5 days immediately following the advance notice date. Cornell will retain 5% of each advance under the new Standby Equity Distribution Agreement. We may not request advances in excess of a total of \$10 million. Pursuant to the terms of our Registration Rights Agreement and the Standby Equity Agreement with Cornell, we agreed to register and qualify, among other things, the additional shares due to Cornell under the Standby Equity Agreement under a registration statement filed with the SEC. We signed a Termination Agreement on May 13, 2005, for the purpose of terminating our Standby Equity Distribution Agreement, Registration Rights Agreement and Escrow Agreement previously entered into with Cornell on June 22, 2004.

On May 11, 2005 the Company entered into a Reseller Agreement with MARTI for a term of five (5) years, pursuant to which MARTI appointed EYII as the exclusive distributor of certain specially formulated MARTI products on a consignment basis and provide EYII with a 1000 units of inventory for sale to its customers, proceeds of which are subject to fee payments to MARTI as set out in the schedules accompanying the agreement.

On April 22, 2005 Essentially Yours Industries, Inc., our wholly owned subsidiary ("EYII") entered into a Fulfillment Services Agreement with Source 1

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Fulfillment ("Source One") to warehouse and ship our products. Pursuant to the terms of the agreement, Source One agreed to provide certain storage and fulfillment services to EYII at the rates set out in the schedules to the agreement. Source One also agreed to pay a referral commission of 10% of all handling fees for any client EYII brings to Source One. The agreement is for a term of one year and automatically renews each year unless terminated by either party in accordance with the terms of the agreement. Subsequently in May, 2005 we ceased warehousing and distributing our products through Halo Distribution LLC ("Halo"), our wholly owned subsidiary. We presently intend to continue warehousing and shipping our products through Source One.

On April 4, 2005 we entered into a redemption agreement with TAIB Bank E.C. ("TAIB") pursuant to which TAIB agreed to acquire by assignment a two year 5% secured convertible debenture issued to Cornell Capital Partners, L.P. ("Cornell") in the amount of \$245,000, and a two year 5% convertible debenture in the amount of \$5,000 held by Kent Chou, in consideration of which we agreed not to modify or renegotiate the terms of our Standby Equity Distribution Agreement ("SEDA") with Cornell, and to use any proceeds obtained by EYI under the SEDA to make payments on the debentures. The debentures were assigned to TAIB on April 4, 2005.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To The Board of Directors
EYI Industries, Inc.
Surrey, British Columbia, Canada

We have audited the accompanying consolidated balance sheet of EYI Industries, Inc. as of December 31, 2004, December 31, 2003 and June 30, 2003 and the related consolidated statements of operations, stockholders' deficit and cash flows for the periods then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of EYI Industries, Inc., as of December 31, 2004, December 31, 2003 and June 30, 2003 and the results of its operations, stockholders' equity and its cash flows for the periods then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has an accumulated deficit, and a negative working capital position. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans regarding those matters are described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this

Accounting Pronouncements - Recent

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 153. This statement addresses the measurement of exchanges of nonmonetary assets. The guidance in APB Opinion No. 29, "Accounting for Nonmonetary Transactions," is based on the principle that exchanges of nonmonetary assets should be measured based on the fair value of the assets exchanged. The guidance in that opinion, however, included certain exceptions to that principle. This statement amends Opinion 29 to eliminate the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. A nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. This statement is effective for financial statements for fiscal years beginning after June 15, 2005. Management believes the adoption of this statement will have no impact on the financial statements of the Company.

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 152, which amends FASB statement No. 66, "Accounting for Sales of Real Estate," to reference the financial accounting and reporting guidance for real estate time-sharing transactions that is provided in AICPA Statement of Position (SOP) 04-2, "Accounting for Real Estate Time-Sharing Transactions." This statement also amends FASB Statement No. 67, "Accounting for Costs and Initial Rental Operations of Real Estate Projects," to state that the guidance for (a) incidental operations and (b) costs incurred to sell real estate projects does not apply to real estate time-sharing transactions. The accounting for those operations and costs is subject to the guidance in SOP 04-2. This statement is effective for financial statements for fiscal years beginning after June 15, 2005. Management believes the adoption of this statement will have no impact on the financial statements of the Company.

In December 2004, the Financial Accounting Standards Board issued a revision to

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Statement of Financial Accounting Standards No. 123R, "Accounting for Stock Based Compensation" (hereinafter "SFAS No. 123R"). This statement supercedes APB Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance. This statement establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. This statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. This statement does not change the accounting guidance for share based payment transactions with parties other than employees provided in Statement of Financial Accounting Standards No. 123. The Company has previously adopted SFAS No. 123 and the fair value of accounting for stock options and other equity instruments. The Company has determined that there was no impact to its financial statements from the adoption of this new statement.

In November 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 151, "Inventory Costs-- an amendment of ARB No. 43, Chapter 4". This statement amends the guidance in ARB No. 43, Chapter 4, "Inventory Pricing," to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). Paragraph 5 of ARB 43, Chapter 4, previously stated that ". . . under some circumstances, items such as idle facility expense, excessive spoilage, double freight, and rehandling costs may be so abnormal as to require treatment as current period charges. . . ." This statement requires that those items be recognized as current-period charges regardless of whether they meet the criterion of "so abnormal." In addition, this statement requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. This statement is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. Management does not believe the adoption of this statement will have any immediate material impact on the Company.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2004

In May 2003, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 150, "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity" (hereinafter "SFAS No. 150"). SFAS No. 150 establishes standards for classifying and measuring certain financial instruments with characteristics of both liabilities and equity and requires that those instruments be classified as liabilities in statements of financial position. Previously, many of those instruments were classified as equity. SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003 and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The Company has determined that there was no impact from the adoption of this statement

Accounts Receivable and Bad Debts

The Company estimates bad debts utilizing the allowance method, based upon past experience and current market conditions. At December 31, 2004, the Company recorded an allowance of \$16,321 to cover accounts receivable balances over 60 days . At December 31, 2003 and June 30, 2003, the Company determined that no allowance was required although writeoffs in the amounts of \$26,408 and \$0, respectively, were charged to bad debt expense in these two periods then ended.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Advertising Expenses

Advertising expenses consist primarily of costs incurred in the design, development, and printing of Company literature and marketing materials. The Company expenses all advertising expenditures as incurred. The Company's advertising expenses were \$18,937, \$75,135 and \$29,072, for the year ended December 31, 2004, short period ended December 31, 2003 and year ended June 30, 2003, respectively.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid investments and short-term debt instruments with original maturities of three months or less to be cash equivalents.

Restricted Cash

Restricted cash includes deposits held in a reserve account in the amount of \$100,248, \$223,682, and \$223,682 at December 31, 2004, December 31, 2003, and June 30, 2003, respectively. Such deposits are required by the bank as protection against unfunded charge backs and returns of credit card transactions.

Compensated Absences

Employees of the Company are entitled to paid vacation, and sick days, depending on job classification, length of service, and other factors. The Company accrued vacation pay in the amounts of \$60,186, \$38,882, and \$38,976 at December 31, 2004, December 31, 2003, and June 30, 2003, respectively.

Concentration of Credit Risk

The Company maintains its cash in one commercial account at a major financial institution. Although the financial institution is considered creditworthy and has not experienced any losses on its deposits, at December 31, 2004, the Company's restricted cash balance exceeded Federal Deposit Insurance Corporation (FDIC) limits by \$248.

F-23

EYI INDUSTRIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2004

Cost of Sales

Cost of sales consists of the purchase price of products sold, inbound and outbound shipping charges, packaging supplies and costs associated with service revenues and marketplace business.

Derivative Instruments

The Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities" (hereinafter "SFAS No. 133"), as amended by SFAS No. 137, "Accounting for Derivative Instruments and Hedging Activities - Deferral of the Effective Date of FASB No. 133", and SFAS No. 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities", and SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities".

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

These statements establish accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. They require that an entity recognize all derivatives as either assets or liabilities in the balance sheet and measure those instruments at fair value.

If certain conditions are met, a derivative may be specifically designated as a hedge, the objective of which is to match the timing of gain or loss recognition on the hedging derivative with the recognition of (i) the changes in the fair value of the hedged asset or liability that are attributable to the hedged risk or (ii) the earnings effect of the hedged forecasted transaction. For a derivative not designated as a hedging instrument, the gain or loss is recognized in income in the period of change.

At December 31, 2004, December 31, 2003, and June 30, 2003, the Company has not engaged in any transactions that would be considered derivative instruments or hedging activities.

Earnings Per Share

The Company has adopted Statement of Financial Accounting Standards No. 128, which provides for calculation of "basic" and "diluted" earnings per share. Basic earnings per share includes no dilution and is computed by dividing net income (loss) available to common shareholders by the weighted average common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of an entity similar to fully diluted earnings per share. Basic and diluted loss per share were the same at the reporting dates, as inclusion of the common stock equivalents would be anti-dilutive.

Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Fair Value of Financial Instruments

The Company's financial instruments as defined by Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments," include cash, trade accounts receivable, and accounts payable and accrued expenses. All instruments are accounted for on a historical cost basis, which, due to the short maturity of these financial instruments, approximates fair value at December 31, 2004, December 31, 2003, and June 30, 2003.

Foreign Currency Translation and Other Comprehensive Income

The Company has adopted Financial Accounting Standard No. 52. Monetary assets and liabilities denominated in foreign currencies are translated into United States dollars at rates of exchange in effect at the balance sheet date. Gains or losses are included in income for the year. Non-monetary assets, liabilities

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

and items recorded in income arising from transactions denominated in foreign currencies are translated at rates of exchange in effect at the date of the transaction.

As the Company's functional currency is the U.S. dollar, and all translation gains and losses are transactional, the Company has no assets with values recorded in Canadian dollars and there is no recognition of other comprehensive income in the financial statements.

Foreign Currency Valuation and Risk Exposure

While the Company's functional currency is the U.S. dollar and the majority of its operations are in the United States, the Company maintains its main office in Surrey, British Columbia. The assets and liabilities relating to the Canadian operations are exposed to exchange rate fluctuations. Assets and liabilities of the Company's foreign operations are translated into U.S. dollars at the year-end exchange rates, and revenue and expenses are translated at the average exchange rate during the period. Realized gains and losses from foreign currency transactions are reflected in the results of operations.

Impaired Asset Policy

In March 1995, the Financial Accounting Standards Board issued Statement of Financial Accounting Standard No. 121, "Accounting for Impairment of Long-lived Assets." In complying with this standard, the Company reviews its long-lived assets quarterly to determine if any events or changes in circumstances have transpired which indicate that the carrying value of its assets may not be recoverable. The Company determines impairment by comparing the undiscounted future cash flows estimated to be generated by its assets to their respective carrying amounts.

The Company does not believe any adjustments are needed to the carrying value of its assets at December 31, 2004, December 31, 2003 or June 30, 2003.

Income Taxes

The Company accounts for income taxes under the provisions of Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" (hereinafter "SFAS No. 109"). This statement requires the recognition of deferred tax liabilities and assets for the future consequences of events that have been recognized in the Company's consolidated financial statement or tax returns. Measurement of the deferred items is based on enacted tax laws. In the event the future consequences of differences between financial reporting bases and tax bases of the Company's assets and liabilities results in a deferred tax asset, SFAS No. 109 requires an evaluation of the probability of being able to realize the future benefits indicated by such an asset. A valuation allowance related to a deferred tax asset is recorded when it is more likely than not that some portion or all of the deferred tax asset will not be realized. (See Note 14.)

Inventories

The Company records inventories at the lower of cost or market on a first-in, first-out basis.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Long-lived Assets

In accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". This standard establishes a single accounting model for long-lived assets to be disposed of by sale, including discontinued operations, and requires that these long-lived assets be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or discontinued operations. Accordingly, the Company reviews the carrying amount of long-lived assets for impairment where events or changes in circumstances indicate that the carrying amount may not be recoverable. The determination of any impairment would include a comparison of estimated future cash flows anticipated to be generated during the remaining life of the assets to the net carrying value of the assets. For the year ended December 31, 2004, short period ended December 31, 2003, and year ended June 30, 2003 no impairments have been identified.

Property and Equipment

Property and equipment are stated at cost. Depreciation of property and equipment is calculated using the straight-line method over the estimated useful lives of the assets, which range from three to seven years. (See Note 7.)

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant transactions and balances among the companies included in the consolidated financial statements have been eliminated.

Revenue Recognition

The Company is in the business of selling nutritional products in two categories: dietary supplements and personal care products. Sales of personal care products represent less than 5% of the overall revenue and therefore are not classified separately in the financial statements. The Company recognized revenue from product sales when the products are shipped and title passes to customer. Administrative fees charged to the Independent Business Associates are included in the gross sales and amounted \$190,340, \$161,040 and \$314,971 for the year ended December 31, 2004, the short period ended December 31, 2003, and year ended June 30, 2003, respectively.

Segment Information

The Company adopted Statement of Financial Accounting Standards No. 131, "Disclosures about Segments of an Enterprise and Related Information," (hereafter "SFAS No. 131") which supersedes SFAS No. 14, "Financial Reporting for Segments of a Business Enterprise," replacing the "industry segment" approach with the "management" approach. The management approach designates the internal organization that is used by management for making operating decisions and assessing performance as the source of the Company's reportable segments. SFAS No. 131 also requires disclosures about products and services, geographic areas and major customers. The adoption of SFAS No. 131 did not affect the Company's results of operations or financial position. (See Note 17.)

Stock Options and Warrants Granted to Employees and Non-Employees

Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123"), defines a fair value-based method of accounting for stock options and other equity instruments. The Company has adopted this method, which measures compensation costs based on the estimated fair value of the award and recognizes that cost over the service period.

EYI INDUSTRIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2004

Going Concern

As shown in the accompanying financial statements, the Company had negative working capital of approximately \$1,080,000 and an accumulated deficit incurred through December 31, 2004. The Company also has limited cash resources and a history of recurring losses. These factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

Management has established plans designed to increase the sales of the Company's products, and decrease debt. The Company plans on continuing to reduce expenses, and with small gains in any combination of network sales, direct sales, international sales, and warehouse sales, believe that they will eventually be able to reverse the present deficit. Management intends to seek additional capital from new equity securities offerings that will provide funds needed to increase liquidity, fund internal growth and fully implement its business plan. Management plans include negotiations to convert significant portions of existing debt into equity.

The timing and amount of capital requirements will depend on a number of factors, including demand for products and services and the availability of opportunities for international expansion through affiliations and other business relationships.

NOTE 3 - SHARE EXCHANGE AGREEMENT

On December 31, 2003, Essentially Yours Industries, Inc. completed a share exchange agreement with Safe ID Corporation ("Safe ID) and changed its name to EYI Industries, Inc. Under the terms of the agreement, the Company issued 30,153,067 shares of its common stock to the shareholders of Safe ID. In relation to this agreement and plan of recapitalization, the Company authorized a 1 for 7.6754 exchange rate of the originally issued and outstanding Essentially Yours Industries, Inc. shares. All references in the accompanying financial statements and notes to the common shares and per share amounts have been restated to reflect the reverse stock split. The Company also approved an increase in the number of its authorized common stock shares to 300,000,000 when in the months prior to the finalization of this agreement, the registrant prior to the recapitalization sold approximately \$550,000 of common stock and warrants as part of private placement. These stock sales were in anticipation of this agreement and recapitalization, and as such, are reflected as financing cash flows.

As Safe ID was a non-operating public company with limited assets, the substance of the transaction with Safe ID is a capital transaction, rather than a business combination. The transaction is equivalent to the issuance of stock by the Company for the net assets of Safe ID, accompanied by a recapitalization. The accounting is identical to that resulting from a reverse acquisition, except that no goodwill or other intangibles are recorded. The substantial asset of Safe ID that was acquired was approximately \$32,500 in cash. The liabilities acquired by the Company under this agreement totaled approximately \$11,800.

NOTE 4 - REORGANIZATION

On May 27, 2002, Mr. Jay Sargeant, a shareholder of Essentially Yours Industries, Corp. ("EYI Corp.") agreed to acquire all of the shares of the Essentially Yours Industries, Inc. ("EYII"), along with the transfer agreement, license agreement, and agency appointment agreement as described below, in settlement of amounts owed to him. As part of this transaction, EYI Corp. agreed to provide to EYII the services outlined in a management agreement. These agreements became effective on June 30, 2002. EYII owns ninety-nine percent of Halo Distributions LLC ("HALO"). The other one percent of HALO is owned by RGM International, Inc. ("RGM"), a former subsidiary of EYI Corp., which was transferred to Mr. Sargeant as additional consideration.

On June 30, 2002, the shareholder of EYII exchanged all of the outstanding shares of EYII for 12,000,000 common shares of Burrard Capital Inc ("Burrard"). Concurrent with this transaction, EYII was merged into Burrard with Burrard emerging as the surviving entity. The combined entity was renamed Essentially Yours Industries, Inc. For accounting purposes, the acquisition has been treated as a recapitalization of EYII with EYII as the acquirer. Prior to this merger, EYII and RGM were considered to be dormant companies, with the activities of HALO being consolidated directly with EYII Corp. although the legal ownership was vested in EYII and RGM. Therefore, the losses from HALO operations and the other economic impacts prior to June 30, 2002 are considered to be the separate activity of EYI Corp.

On June 30, 2002, EYII took over the sales and marketing activities of its former holding company and entered into various agreements with that Company as follows:

Transfer Agreement

As part of the aforementioned transaction and for consideration of \$1, EYI Corp. transferred and assigned to EYII all of its rights, title and interest in and to the contracts with its Independent Business Associates and any other contracts that may be identified by the parties as being inherent or necessary to the sales and marketing activities to EYII.

License Agreement

EYI Corp. licensed to EYII all of the rights, title, and interest that it may have in various intellectual properties for \$1 per year for a term of 50 years. The Company has the option at any time to require EYI Corp. to transfer all of its rights, title, interest in and to the intellectual properties to the Company at the sum of \$1 or such greater sum as may be determined to be the fair market value of such intellectual property as determined by agreement between the parties, by arbitration or by the appropriate taxation authorities after all assessments and appeals have been concluded.

Agency Appointment Agreement

EYI Corp. appointed EYII as the sole and exclusive agent to sell its remaining inventory on hand as of June 30, 2002 at the prices previously established, and to continue to sell at such price unless and until any change is agreed upon with EYI Corp. In consideration for its efforts, the Company is entitled to a

sales commission of fifteen percent on all sales of such inventory.

Management Agreement

EYI Corp. agreed to perform various services such as administration, computer support, and sales and customer support, on behalf of EYII for a term of one year commencing June 30, 2002. The services and duties to be provided and performed by EYI Corp. for EYII shall be determined and agreed upon by the parties, from time to time, as required, provided however, it is understood and agreed that such services will primarily consist of assisting EYII in the sales and marketing business. At the date of these financial statements, the agreement had expired, and EYII was operating on a month-to-month basis for management services with EYI Corp.

The remuneration to be paid by EYII to EYI Corp. for the aforementioned services is to be negotiated by the parties from time to time, provided however, the parties agree that the remuneration to be paid shall be consistent with industry standards for the type and nature of the services or duties being provided. At the present time, EYII has agreed to pay EYI Corp. actual expenses plus a fee of 5% on these expenses.

NOTE 5 - ACCOUNTS RECEIVABLE AND CREDIT RISK

Accounts receivable at December 31, 2004, December 31, 2003 and June 30, 2003 consist primarily of amounts due from third parties for distribution services provided by Halo and direct retail clients of EYII.

NOTE 6 - JOINT VENTURE AGREEMENT

On May 28, 2004, the Company entered into a joint venture agreement with World Wide Buyers' Club Inc. ("WWBC") and Supra Group, Inc. ("SG") Pursuant to the terms of the joint venture agreement, the Company and SG agree to form WWBC, a Nevada corporation, owned 51% by the Company and 49% by SG. The purpose of the agreement is jointly market and distribute products of SG using the Company's existing distribution system in the United States. The term of the agreement is 10 years commencing May 6, 2004. As of December 31, 2004, there has been no economic activity between the Company, SG, or WWBC.

On September 24, 2004, the Company issued to Cornell Capital Partners, LP ("Cornell") a 5% secured convertible debenture in the principal amount of \$250,000 with a term of two years, and interest at 5%. The debenture is convertible into the Company's common stock at a price per share equal to the lesser of (a) 120% of the closing bid price by the second anniversary date of

issuance or (b) 100% of the lowest daily volume weighted average price for the 30 days immediately prior to conversion. On September 27, 2004, the Company re-assigned \$245,000 of this debenture to Taib Bank, E.C. and reassigned \$5,000 of debenture B to an individual. Under the debenture agreement, the Company's failure to issue unrestricted, freely tradable common stock to Cornell or Taib Bank or the individual upon conversion after the registration statement filed pursuant to this transaction has been declared effective would be considered an event of default, thereby entitling Cornell to accelerate full repayment of the convertible securities then outstanding. Under the agreement, the Company is required to maintain available common stock duly authorized for issuance in satisfaction of the convertible. On September 24, 2004 the Company received the \$250,000 loan less related expenses of approximately \$55,000, which has been allocated as discount on debt and will be amortized over a two year period. The convertible securities are guaranteed by the assets of the Company. Under the agreement, the Company is required to keep available common stock duly authorized for issuance in satisfaction of the convertible. The conversion amount will be the face amount of the convertible plus interest at the rate of 5% per annum from the closing date of September, 2004 to the conversion date, which is the date on which the Company receives a notice of conversion from the investor exercising the right to convert the convertible into common shares of the Company. The convertible will automatically convert into common stock on the second anniversary date of issuance. The terms of the debt do not require regular monthly payments.

The convertible debentures contained a beneficial conversion feature computed at its intrinsic value that was the difference between the conversion price and the fair value on the debenture issuance date of the common stock into which the debt was convertible, multiplied by the number of shares into which the debt was convertible at the commitment date. Since the beneficial conversion feature was to be settled by issuing equity, the amount attributed to the beneficial conversion feature, or \$250,000, was recorded as an interest expense and a component of stockholders' equity on the balance sheet date.

Standby Equity Distribution Agreement

In June, 2004, the Company entered into a standby equity distribution agreement with Cornell Capital Partners, LP ("Cornell"). Pursuant to this agreement, Cornell will purchase up to \$10,000,000 of the Company's common stock through a placement agent over a two-year period after the effective registration of the shares. In addition, the Company issued 1,300,000 shares of its common stock to Cornell and the placement agent upon the inception of the standby equity distribution agreement. The \$390,000 value of these shares was recognized as a period expense due to the fact that the 1,300,000 shares have been deemed to be fully earned as of the date of the agreement.

NOTE 9 - INTANGIBLE ASSETS

Intangible assets consist of rights, title, and interest in and to the contracts with the Company's independent business associates as well as the rights and licenses to trademarks and formula for the Company's primary products. NOTE 15 - COMMITMENTS AND CONTINGENCIES

Purchase Agreement

On June 30, 2002, the Company entered into a distribution and license agreement with a company in which one of the Company's directors has an ownership interest. The agreement gives the Company the exclusive right to market, sell and distribute certain products for a five-year renewable term. In the event that the Company is unable to meet the minimum purchase requirements of the licensing agreement or the terms requiring it to pay 15% of the difference between the minimum purchase amount referred to above and actual purchases for that year in which there is a shortfall, then the licensor has various remedies available to it including, renegotiating the agreement, removing exclusivity rights, or terminating the agreement.

As of the date of these financial statements, the purchase requirements have not been made and it has been determined by the Company to be a remote possibility

that the licensor will enforce the minimum purchase requirements, therefore, there has not been an accrual made to the financial statements to reflect any estimated liability pertaining to this agreement due to the fact that the maximum time period to make a claim expired prior to the issuance of the financial statements.

this agreement, Cornell will purchase up to 10,000,000 shares of the Company's common stock through a placement agent. The Company issued 1,300,000 shares of its common stock to Cornell and the placement agent upon the inception of this agreement. The \$390,000 value of these shares was based on the fair market value of the shares on the date of the contract and is recognized as a period expense due to the fact that the 1,300,000 shares have been deemed to be fully earned as of the date of the agreement. (See Note 8.)

Other Matters

The Company's predecessor organization, Essentially Yours Industries Corp. ("EYIC"), a British Columbia corporation, has outstanding claims from the Internal Revenue Service for penalties and interest of approximately \$2,000,000. Furthermore, one or more states may have claims against EYIC for unpaid state income taxes. Management believes that these claims are limited solely to EYIC and that any prospective unpaid tax claims against the Company are remote and unable to be estimated.

EYI INDUSTRIES, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2004

In February, 2004 we entered into a letter of commitment with Source, Inc. ("Source") for the purpose of further developing our corporate marketing position with Source and for assistance in raising equity capital. Pursuant to the terms the letter agreement, we agreed to: (i) pay Source 20% of the gross revenues generated by Source under a Corporate Marketing Organization Agreement ("CMO Agreement") previously entered into with Premier Lifestyles International Corporation, a company related to Source; (ii) to offer up to \$4,000,000 of EYI restricted stock over a 90 day period at \$0.21 per share and warrants exercisable at a price of \$0.30 per share for investors referred to EYI by Source in connection with any equity offerings by EYI; (iii) at the end of the 12 months period following execution of the agreement, and if Source had referred enough investors to raise a minimum of \$500,000, to issue to Source \$1,800,000 in common stock of EYI or pay the balance in cash; and (iv) on a monthly basis, during the 12 month period, pay 50% of all monies collected by EYI from Source referred investors, to be paid to Source towards the \$1,800,000 to pay for the CMO Agreement and \$300,000 towards a proposed web portal. Subsequently, we terminated the CMO agreement in accordance with its terms in July, 2004, and notified Source that they failed to raise the minimum funding of \$500,000 in connection with EYI's equity offering closing in June, 2004. Source has notified EYI that they dispute the fact that they did not raise the minimum financing amount. Management believes that if Source were to advance any such claims against EYI its chance of success would be remote and we intend to vigorously defend against any potential legal claims respecting this matter.

owed to him. As part of this transaction, EYI Corp. agreed to provide to EYII the services outlined in a management agreement. These agreements are more fully described in Note 4.

The Company acquired, through agreements with Essentially Yours Industries, Corp. ("EYI Corp"), the rights, title, and interest in and to the contracts with the Company's Independent Business Associates as well as the rights and licenses to trademarks and formula for the Company's primary products. Expanded details are explained in Note 9.

The shares were determined to have the value of approximately \$0.19 per share for a total increase in stockholders equity in the amount of \$33,303. INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying consolidated balance sheets of EYI Industries, Inc., (a Nevada corporation) at December 31, 2003 and June 30, 2003, respectively, and the related consolidated statements of operations, stockholders' equity (deficit) and cash flows for the six months ended December 31, 2003 and the year ended June 30, 2003, and the period from June 21, 2002 through to June 30, 2002. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with standards established by the Public Company Accounting Oversight Board. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of EYI Industries, Inc. as of December 31, 2003 and June 30, 2003, respectively, and the results of its operations, stockholders' equity (deficit) and its cash flows for the six months ended December 31, 2003 and the year ended June 30, 2003, and the period from June 21, 2002 through to June 30, 2002 in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 20 to the financial statements, an error resulted in the overstatement of additional paid-in capital from the recapitalization of the Company. Management discovered this issue and has corrected the understatement of warrants. This error had no effect upon net losses or accumulated deficit.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has an accumulated deficit and a negative working capital position which raises substantial doubt about its ability to continue as a going concern. Management's plans concerning these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

These accounting policies conform to accounting principles generally accepted in the United States of America, and have been consistently applied in the preparation of the financial statements.

Accounting Method

The Company's financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

In May 2003, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 150, "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity" (hereinafter "SFAS No. 150"). SFAS No. 150 establishes standards for classifying and measuring certain financial instruments with characteristics of both liabilities and equity and requires that those instruments be classified as liabilities in statements of financial position. Previously, many of those instruments were classified as equity. SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003 and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The Company has not yet determined the impact of the adoption of the statement.

F-50

In April 2003, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities: (hereinafter "SFAS No. 149"). SFAS No. 149 amends and clarifies the accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities". This statement is effective for contracts entered into or modified after December 31, 2003 and for hedging relationships designated after December 31, 2003. The adoption of SFAS No. 149 is not expected to have an impact on the financial position or results of operations of the Company.

In December 2002, the Financial Accounting Standards Board issued Statement No. 148 (hereinafter "SFAS No. 148") on "Accounting for Stock-Based Compensation--Transition and Disclosure." This statement provides alternative

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

methods of transition for companies that choose to switch to the fair value method of accounting for stock options. SFAS No. 148 also makes changes in the disclosure requirements for stock-based compensation, regardless of which method of accounting is chosen. Under the new standard, companies must report certain types of information more prominently and in a more understandable format in the footnotes to the financial statements, and this information must be included in interim as well as annual financial statements. Historically, the Company has not had any stock based compensation and therefore there are no disclosure requirements of SFAS No. 148 in these financial statements.

In October 2002, the Financial Accounting Standards Board issued Statement No. 147 (hereinafter "SFAS No. 147") on "Acquisitions of Certain Financial Institutions." This statement provides guidance on the accounting for the acquisition of a financial institution. The Company's adoption of this standard does not have an effect on its financial statements.

In June 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 146, "Accounting for Costs Associated with Exit or Disposal Activities ("SFAS No. 146"). SFAS No. 146 addresses significant issues regarding the recognition, measurement, and reporting of costs associated with exit and disposal activities, including restructuring activities. SFAS No. 146 also addresses recognition of certain costs related to terminating a contract that is not a capital lease, costs to consolidate facilities or relocate employees, and termination benefits provided to employees that are involuntarily terminated under the terms of a one-time benefit arrangement that is not an ongoing benefit arrangement or an individual deferred-compensation contract. There is no impact on the Company's financial position or results of operations from adopting SFAS No. 146.

Accounts Receivable and Bad Debts

The Company estimates bad debts utilizing the allowance method, based upon past experience and current market conditions. At December 31, 2003, June 30, 2003, and December 31, 2002, the Company determined that no allowance was required, as most sales are transacted via credit card or electronic transfer and therefore are considered immediately collectible.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid investments and short-term debt instruments with original maturities of three months or less to be cash equivalents.

Restricted Cash

Restricted cash includes deposits held in a reserve account in the amount of \$223,682, \$223,682 and \$222,725 at December 31, 2003, June 30, 2003, and December 31, 2002, respectively. Such deposits are required by the bank as protection against unfunded charge backs and returns of credit card transactions.

Compensated Absences

Employees of the Company are entitled to paid vacation, and sick days, depending on job classification, length of service, and other factors. The Company accrued vacation pay in the amounts of \$38,000, \$39,000 and \$0 at December 31, 2003, June 30, 2003, and December 31, 2002 respectively.

Cost of Sales

Cost of sales consist of the purchase price of products sold, commissions, inbound shipping charges, net of freight recovered from customers, and packaging

supplies.

F-51

Derivative Instruments

The Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities" (hereinafter "SFAS No. 133"), as amended by SFAS No. 137, "Accounting for Derivative Instruments and Hedging Activities - Deferral of the Effective Date of FASB No. 133", and SFAS No. 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities", and SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities". These statements establish accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. They require that an entity recognize all derivatives as either assets or liabilities in the balance sheet and measure those instruments at fair value.

If certain conditions are met, a derivative may be specifically designated as a hedge, the objective of which is to match the timing of gain or loss recognition on the hedging derivative with the recognition of (i) the changes in the fair value of the hedged asset or liability that are attributable to the hedged risk or (ii) the earnings effect of the hedged forecasted transaction. For a derivative not designated as a hedging instrument, the gain or loss is recognized in income in the period of change.

At December 31, 2003, June 30, 2003 and December 31, 2002, the Company has not engaged in any transactions that would be considered derivative instruments or hedging activities.

Earnings Per Share

The Company has adopted Statement of Financial Accounting Standards No. 128, which provides for calculation of "basic" and "diluted" earnings per share. Basic earnings per share includes no dilution and is computed by dividing net income (loss) available to common shareholders by the weighted average common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of an entity similar to fully diluted earnings per share. Basic and diluted loss per share were the same, at the reporting dates, as there were no common stock equivalents outstanding.

Fair Value of Financial Instruments

The Company's financial instruments as defined by Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments," include cash, trade accounts receivable, and accounts payable and accrued expenses. All instruments are accounted for on a historical cost basis, which, due to the short maturity of these financial instruments, approximates fair value at December 31, 2003, June 30, 2003, and December 31, 2002.

Foreign Currency Translation and Other Comprehensive Income

The Company has adopted Financial Accounting Standard No. 52. Monetary assets and liabilities denominated in foreign currencies are translated into United States dollars at rates of exchange in effect at the balance sheet date. Gains or losses are included in income for the year. Non-monetary assets, liabilities and items recorded in income arising from transactions denominated in foreign currencies are translated at rates of exchange in effect at the date of the

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

transaction.

As the Company's functional currency is the U.S. dollar, and all translation gains and losses are transactional, the Company has no assets with value recorded in Canadian dollar and there is no recognition of other comprehensive income in the financial statements.

Foreign Currency Valuation and Risk Exposure

While the Company's functional currency is the U.S. dollar and the majority of its operations are in the United States, the Company maintains its main office in Surrey, British Columbia. The assets and liabilities relating to the Canadian operations are exposed to exchange rate fluctuations. Assets and liabilities of the Company's foreign operations are translated into U.S. dollars at the year-end exchange rates, and revenue and expenses are translated at the average exchange rate during the period. The net effect of exchange difference arising from currency translation is disclosed as a separate component of stockholders' equity. Realized gains and losses from foreign currency transactions are reflected in the results of operations.

F-52

Income Taxes

The Company accounts for income taxes under the provisions of Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes". This statement requires the recognition of deferred tax liabilities and assets for the future consequences of events that have been recognized in the Company's consolidated financial statement or tax returns. Measurement of the deferred items is based on enacted tax laws. In the event the future consequences of differences between financial reporting bases and tax bases of the Company's assets and liabilities results in a deferred tax asset, SFAS No. 109 requires an evaluation of the probability of being able to realize the future benefits indicated by such an asset. A valuation allowance related to a deferred tax asset is recorded when it is more likely than not that some portion or all of the deferred tax asset will not be realized. See Note 12.

Inventories

The Company records inventories at the lower of cost or market on a first-in, first-out basis.

Long-lived Assets

In accordance with Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". This standard establishes a single accounting model for long-lived assets to be disposed of by sale, including discontinued operations, and requires that these long-lived assets be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or discontinued operations. Accordingly, the Company reviews the carrying amount of long-lived assets for impairment where events or changes in circumstances indicate that the carrying amount may not be recoverable. The determination of any impairment would include a comparison of estimated future cash flows anticipated to be generated during the remaining life of the assets to the net carrying value of the assets. For the years ended December 31, 2003, June 30, 2003, and December 31, 2002 no impairments have been identified.

Property and Equipment

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Property and equipment are stated at cost. Depreciation of property and equipment is calculated using the straight-line method over the estimated useful lives of the assets, which range from three to seven years. See Note 6.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant transactions and balances among the companies included in the consolidated financial statements have been eliminated.

Revenue Recognition

The Company recognizes revenue from product sales upon shipment to independent distributors, the Company's customers. Revenue from administration fees is recognized upon collection from independent distributors.

Advertising Expenses

Advertising expenses consist primarily of costs incurred in the design, development, and printing of Company literature and marketing materials. The Company expenses all advertising expenditures as incurred. The Company's advertising expenses were \$29,073, \$75,135 and \$11,662 for the periods ended December 31, 2003, June 30, 2003, and December 31, 2002, respectively.

Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

F-53

Segment Information

The Company adopted Statement of Financial Accounting Standards No. 131, "Disclosures about Segments of an Enterprise and Related Information," (hereafter "SFAS No. 131") which supersedes SFAS No. 14, "Financial Reporting for Segments of a Business Enterprise," replacing the "industry segment" approach with the "management" approach. The management approach designates the internal organization that is used by management for making operating decisions and assessing performance as the source of the Company's reportable segments. SFAS No. 131 also requires disclosures about products and services, geographic areas and major customers. The adoption of SFAS No. 131 did not affect the Company's results of operations or financial position. See Note 17.

Going Concern

As shown in the accompanying financial statements, the Company had negative working capital of approximately \$1,266,000 and an accumulated deficit incurred through December 31, 2003. The Company is currently putting technology in place which will, if successful, mitigate these factors which raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Management has established plans designed to increase the sales of the Company's products, and decrease debt. The Company plans on continuing to reduce expenses, and with small gains in any combination of network sales, direct sales, international sales, and warehouse sales, believe that they will eventually be able to reverse the present deficit. Management intends to seek additional capital from new equity securities offerings that will provide funds needed to increase liquidity, fund internal growth and fully implement its business plan. Management plans include negotiations to convert significant portions of existing debt into equity.

The timing and amount of capital requirements will depend on a number of factors, including demand for products and services and the availability of opportunities for international expansion through affiliations and other business relationships.

NOTE 3 - SHARE EXCHANGE AGREEMENT

On December 31, 2003, Essentially Yours Industries, Inc. completed a share exchange agreement with Safe ID Corporation ("Safe ID) and changed its name to EYI Industries, Inc. Under the terms of the agreement, the Company issued 30,153,067 shares of its common stock to the shareholders of Safe ID. In relation to this agreement and plan of recapitalization, the Company authorized a 1 for 7.6754 exchange rate of the originally issued and outstanding Essentially Yours Industries, Inc. shares. All references in the accompanying financial statements and notes to the common shares and per share amounts have been restated to reflect the reverse stock split. The Company also approved an increase in the number of its authorized common stock shares to 300,000,000 when in the months prior to the finalization of this agreement, the registrant prior to the recapitalization sold approximately \$550,000 of common stock and warrants as part of private placement. These stock sales were in anticipation of this agreement and recapitalization, and as such, are reflected as financing cash flows.

As Safe ID was a non-operating public company with limited assets, the substance of the transaction with Safe ID is a capital transaction, rather than a business combination. The transaction is equivalent to the issuance of stock by the Company for the net assets of Safe ID, accompanied by a recapitalization. The accounting is identical to that resulting from a reverse acquisition, except that no goodwill or other intangibles are recorded. The substantial asset of Safe ID that was acquired was approximately \$32,500 in cash. The liabilities acquired by the Company under this agreement totaled approximately \$11,800.

NOTE 4 - REORGANIZATION

On May 27, 2002, Mr. Jay Sargeant, a shareholder of Essentially Yours Industries, Corp. ("EYI Corp.") agreed to acquire all of the shares of the Essentially Yours Industries, Inc. ("EYII"), along with the transfer agreement, license agreement, and agency appointment agreement as described below, in settlement of amounts owed to him. As part of this transaction, EYI Corp. agreed to provide to EYII the services outlined in a management agreement. These agreements became effective on June 30, 2002. EYII owns ninety-nine percent of Halo Distributions LLC ("HALO"). The other one percent of HALO is owned by RGM International, Inc. ("RGM"), another subsidiary of EYI Corp., which was transferred to Mr. Sargeant as additional consideration.

F-54

On June 30, 2002, the shareholder of EYII exchanged all of the outstanding shares of EYII for 12,000,000 common shares of Burrard Capital Inc ("Burrard").

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Concurrent with this transaction, EYII was merged into Burrard with Burrard emerging as the surviving entity. The combined entity was renamed Essentially Yours Industries, Inc. For accounting purposes, the acquisition has been treated as a recapitalization of EYII with EYII as the acquirer. Prior to this merger, EYII and RGM were considered to be dormant companies, with the activities of HALO being consolidated directly with EYII Corp. although the legal ownership was vested in EYII and RGM. Therefore, the losses from HALO operations and the other economic impacts prior to June 30, 2002 are considered to be the separate activity of EYI Corp.

On June 30, 2002, EYII took over the sales and marketing activities of its former holding company and entered into various agreements with that Company as follows:

Transfer Agreement

As part of the aforementioned transaction and for consideration of \$1, EYI Corp. transferred and assigned to EYII all of its rights, title and interest in and to the contracts with its independent business associates and any other contracts that may be identified by the parties as being inherent or necessary to the sales and marketing activities to EYII.

License Agreement

EYI Corp. licensed to EYII all of the rights, title, and interest that it may have in various intellectual properties for \$1 per year for a term of 50 years. The Company has the option at any time to require EYI Corp. to transfer all of its rights, title, interest in and to the intellectual properties to the Company at the sum of \$1 or such greater sum as may be determined to be the fair market value of such intellectual property as determined by agreement between the parties, by arbitration or by the appropriate taxation authorities after all assessments and appeals have been concluded.

Agency Appointment Agreement

EYI Corp. appointed EYII as the sole and exclusive agent to sell its remaining inventory on hand as of June 30, 2002 at the prices previously established, and to continue to sell at such price unless and until any change is agreed upon with EYI Corp. In consideration for its efforts, the Company is entitled to a sales commission of fifteen percent on all sales of such inventory.

Management Agreement

EYI Corp. agreed to perform various services such as administration, computer support, and sales and customer support, on behalf of EYII for a term of one year commencing June 30, 2002. The services and duties to be provided and performed by EYI Corp. for EYII shall be determined and agreed upon by the parties, from time to time, as required, provided however, it is understood and agreed that such services will primarily consist of assisting EYII in the sales and marketing business. At the date of these financial statements, the agreement had expired, and EYII was operating on a month-to-month basis for management services with EYI Corp.

The remuneration to be paid by EYII to EYI Corp. for the aforementioned services is to be negotiated by the parties from time to time, provided however, the parties agree that the remuneration to be paid shall be consistent with industry standards for the type and nature of the services or duties being provided. At the present time, EYII has agreed to pay EYI Corp. actual expenses plus a fee of 5% on these expenses.

NOTE 5 - ACCOUNTS RECEIVABLE AND CREDIT RISK

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Accounts receivable at December 31, 2003, June 30, 2003 and December 31, 2002 consist primarily of amounts due from third parties for distribution services provided by Halo.

NOTE 6 - PROPERTY AND EQUIPMENT

Capital assets are recorded at cost. Depreciation is calculated using the straight-line method over three to seven years. The following is a summary of property, equipment and accumulated depreciation at December 31, 2003, June 30, 2003, and December 31, 2002:

F-55

NOTE 7 - INTANGIBLE ASSETS

Intangible assets consist of rights, title, and interest in and to the contracts with the Company's independent business associates as well as the rights and licenses to trademarks and formula for the Company's primary products. These rights and licenses were obtained from its former holding Company pursuant to a transfer agreement, as well as from the Company's primary shareholder. See Notes 4 and 9.

Trademarks and Formulas

Costs relating to the purchase of trademarks and formulas were capitalized and amortized using the straight-line method over ten years, representing the

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

estimated life of the assets.

The following is a summary of the intangible assets at December 31, 2003, June 30, 2003 and December 31, 2002:

NOTE 8 - BANK INDEBTEDNESS

Bank indebtedness consists of checks written in excess of funds on deposit. The underlying bank is used as an imprest account with automatic transfers from the Company's general account as checks are presented.

NOTE 9 - CAPITAL STOCK

Preferred Stock

The Company is authorized to issue 10,000,000 shares of preferred stock with a par value of \$0.001. As of December 31, 2003, June 30, 2003, and December 31, 2002, the Company has not issued any preferred stock.

F-56

Common Stock

The Company is authorized to issue 300,000,000 shares of common stock. All shares have equal voting rights, are non-assessable and have one vote per share. Voting rights are not cumulative and, therefore, the holders of more than 50% of the common stock could, if they choose to do so, elect all of the directors of the Company.

In its initial capitalization in June 2002, the Company issued 23,026,200 shares of common stock for a total of \$30,000 cash.

Pursuant to the merger agreement as discussed in Note 4, an additional 92,104,800 shares of common stock were issued to the shareholder of Essentially Yours Industries, Inc. The transaction was valued at \$38,507, representing the basis of Essentially Yours Industries, Inc. in the assets, liabilities and subsidiaries that it contributed to Burrard Capital, Inc. At the completion of the merger, the Company changed its name from Burrard Capital, Inc. to Essentially Yours Industries, Inc.

In August, 2002, the Company sold, under a private placement offering, 5,400,043 shares of common stock at approximately \$0.18 per share for a total of \$994,122 in cash, net of private placement costs of \$61,206. Of these 5,400,043 shares, 2,485,440 were purchased for \$513,900, and were determined to be shares related

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

to a minority interest, and were subsequently reclassified on the balance sheet as minority interest in subsidiary. Minority shareholders hold approximately a 1.64% interest in the Company at December 31, 2003.

On December 31, 2003, the Company completed an acquisition agreement with Safe ID, and at the completion of the merger, the Company changed its name from Essentially Yours Industries, Inc. to EYI Industries, Inc. In connection with this reverse merger, the Company issued 30,153,067 shares of its common stock and warrants to the shareholders of Safe ID. This acquisition was valued at \$502,211. See Note 3 and 11. This transaction resulted in a discount on common stock of \$53,398. See Note 10.

NOTE 10 - DISCOUNT ON COMMON STOCK

On December 31, 2003, as a result of the share exchange agreement between Safe ID and Essentially Yours Industries, Inc., a discount on common stock was recorded in the amount of \$53,598 to reflect the partial deficit in the par value of the stock received in the share exchange. This is the result of the recorded par value of the stock exceeding the original value of the assets exchanged. At the point in time when the Company's board of directors authorizes a resolution to do so, the Company will close the discount on common stock account to the additional paid-in capital account.

NOTE 11 - COMMON STOCK WARRANTS

Warrant Adjustment

During the year ended December 31, 2003, the Company determined that an additional 916,667 warrants from the reverse acquisition and share exchange with Safe Id Corporation had not been properly determined and valued at the date of the change of control nor at December 31, 2003. A correction of an error was made and is reflected in the financial statements. The warrants were valued at \$45,833. The additional paid-in-capital was reduced by \$45,833 and warrants accounted for in the equity section was increased by the same. There was no effect on total stockholders equity or upon net income and accumulated deficits. (See Note 20)

During the period ended December 31, 2003, in connection with the recapitalization and reverse merger acquisition, the Company issued warrants to purchase 2,751,746 shares of common stock with an exercise price of \$0.20 and term of two years. In accordance with Statement of Financial Accounting Standard No. 123, the fair value of the warrants was estimated using the Black Scholes Option Price Calculation. The following assumptions were made to value the warrants: share price at \$0.03, risk free interest rate of 4%, expected life of 2 years, and expected volatility of 110% with no dividends expected to be paid. The Company recorded an expense for the value of the warrants based upon these Black Scholes assumptions of \$0.03 per warrant, or \$82,552.

The significant components of the deferred tax asset at December 31, 2003, June

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

30, 2003 and December 31, 2002 were as follows:

	December 31, 2003	June 30, 2003	December 31, 2002
	-----	-----	-----
Deferred tax asset:			
Net operating loss carryforward	\$ 871,590	\$ 531,855	\$ 302,940

	-----	-----	-----
Net deferred tax asset	\$ --	\$ --	\$ --
	=====	=====	=====

At December 31, 2003, June 30, 2003, and December 31, 2002, the Company has net operating loss carryforwards of approximately \$2,563,000, \$1,564,000, and \$891,000 respectively, which expire in the years 2022 through 2023. The change in the allowance account from December 31, 2002 to December 31, 2003 was \$568,650.

The Company's subsidiaries in Canada are required to file income tax returns in British Columbia, Canada. The losses from operations are allocated to both United States and Canadian operations.

NOTE 13 - COMMITMENTS

Purchase Agreement

On June 30, 2002, the Company entered into a distribution and license agreement with a company in which one of the Company's directors has an ownership interest. The agreement gives the Company the exclusive right to market, sell and distribute certain products for a five-year renewable term. Management estimates that 90% of the Company's sale volume results from products supplied under this licensing agreement.

Pursuant to the agreement, the Company is required to purchase the following amounts of product during the term of the agreement:

June 1, 2003 - May 31, 2004	\$ 5,399,152
June 1, 2004 - May 31, 2005	\$ 15,426,147
June 1, 2005 - May 31, 2006	\$ 38,565,368
June 1, 2006 - May 31, 2007	\$ 38,565,368

In the event that the Company is unavailable to meet the minimum purchase requirements of the licensing agreement or the terms requiring it to pay 15% of the difference between the minimum purchase amount referred to above and actual purchases for that year in which there is a shortfall, then the licensor has various remedies available to it including, renegotiating the agreement, removing exclusivity rights, or terminating the agreement.

As of the date of these financial statements, the licensor has not made any additional demands of the Company.

Lease Payments

The Company has operating lease commitments for its premises, office equipment and an automobile. The minimum annual lease commitments are as follows:

Year ended December 31,	Minimum
-----	-----
2004	\$ 264,634
2005	177,356
2006	151,739

NOTE 14 - CONTINGENCIES

Agency Appointment Agreement

As described in Note 4, the Company effectively acquired from EYI Corp. the various rights needed to continue the sales and marketing activity of EYI Corp. Both the transfer agreement and intellectual property license agreement were not negotiated between parties on an arms length basis. The agreements contain clauses that call for fair market value price adjustments payable to EYI Corp. should either of the parties by agreement, arbitration, tax assessment or through a third party action determine the consideration be less than fair market value. The value of the property transferred was based upon an outside professional valuation report and resulted in a reduction of accumulated dividends owed to Mr. Sargeant by EYI Corp. of \$360,000, which became his basis in his stock in Essentially Yours Industries, Inc.. The assets transferred by EYI Corp. to Essentially Yours Industries, Inc.. were transferred based upon their original cost less accumulated depreciation and amortization in accordance with generally accepted accounting principles.

Other Matters

The Company's predecessor organization, Essentially Yours Industries Corp. ("EYIC"), a British Columbia corporation, has outstanding claims from the Internal Revenue Service for penalties and interest of approximately \$2,000,000. Furthermore, one or more states may have claims against EYIC for unpaid state income taxes. Management believes that these claims are limited solely to EYIC and that any prospective unpaid tax claims against the Company are remote and unable to be estimated.

NOTE 15 - LOAN PAYABLE

The Company issued a promissory note, related to consulting fees, for a total of \$27,500 on December 15, 2003. The note bears interest at the rate of 10% per annum, calculated daily from January 30, 2004 should the note not be repaid by that date. The note is currently in default and interest continues to accrue.

NOTE 16 - CONCENTRATIONS

Bank Accounts

The Company maintains its cash accounts in a single commercial bank. During the year, the Company may maintain balances in excess of the federally insured amounts in the accounts that are maintained in the United States. The Company also maintains funds in commercial banks in Vancouver, British Columbia, in which funds in U.S. dollars are not insured. At December 31, 2003, June 30, 2003, and December 31, 2002 a total of \$1,675, \$5,000, and \$9,238, respectively, was not insured.

Foreign Operations

The accompanying balance sheet includes assets of approximately \$155,000, \$629,000 and \$822,000 at December 31, 2003, June 30, 2003, and December 31, 2002, respectively, relating to the Company's operations in Canada. Although the country is considered politically and economically stable, it is always possible that unanticipated events in foreign countries could disrupt the Company's operations.

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

Economic Dependence

During the year, the Company purchased approximately 90% of its products for resale from one company, Nutri-Diem Inc., which is the sole supplier of the Company's flagship product Calorad. Pursuant to a purchase agreement, the Company is subject to minimum purchases per annum. See Note 13.

NOTE 17 - SEGMENT REPORTING

The Company is organized into two reportable segments - EYI Industries, Inc. and Halo. The two segments have different strategic goals and are managed separately. EYI Industries, Inc., the first reportable segment, is a selling and marketing company. The second reportable segment, Halo, operating as a distribution center, derives approximately 90% of its activities from distributing products for the Company and its subsidiaries.

Information related to related party transactions regarding the reorganization can be found in Note 4. Related party information on intangibles is located in Note 7. Related party commitments are located in Note 13.

During the year, the Company purchased approximately 90% of its products for resale from one company, Nutri-Diem Inc., which is owned in part by a director of the Company. See Note 13 and 15.

From time to time, the Company receives funds from related parties in the form of loans. These are recorded as unsecured, non-interest bearing, short-term loans, payable upon demand. At December 31, 2003, there was one related party loan in the amount of \$50,000.

NOTE 19 - SUBSEQUENT EVENTS

On March 24, 2004, the Company entered into a promissory note for monies received in the amount of \$10,000. The note is due on demand and interest accrues at the rate of 5% per annum.

NOTE 20 - CORRECTION OF AN ERROR

Subsequent to the issuance of the original financial statements for the year ended December 31, 2003, management discovered that certain accounting positions and information were not correct.

F-60

During the year ended December 31, 2003, the Company determined that additional 916,667 warrants from the reverse acquisition and share exchange with Safe Id Corporation had not been properly determined and valued at the date of the change of control nor at December 31, 2003. Management determined that this transaction had not been properly stated and had the effect of the overstatement of additional paid in capital of \$45,833 and the understatement of warrants of \$45,833. This restatement had no effect on the net loss for the year.

This correction and restatement had the no cumulative effect on the net loss or accumulated deficit for the year, and had no effect on the losses per share for

II-1

On June 22, 2004, we entered into a secured convertible debenture transaction with Cornell Capital Partners in the principal amount of \$500,000. The sale of these Secured Convertible Debentures is complete. EYI Industries received \$250,000 from the issuance of the first Secured Convertible Debenture on June 22, 2004, and we received \$250,000 five business days following the filing of the accompanying registration statement. The Secured Convertible Debentures are convertible at the holder's option any time up to maturity at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock as of the date of issuance, or (ii) 80% of the average of the lowest daily volume weighted average price of our common stock for the 5 trading days immediately preceding the conversion date. At maturity, the remaining unpaid principal and accrued interest under the debentures shall be, at our option, either paid or converted into shares of common stock at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock as of the date of issuance or (ii) 80% of the lowest closing bid price of the common stock for the lowest trading days of the 5 trading days immediately preceding the conversion date. The Secured Convertible Debenture is secured by all of EYI Industries' assets. The Secured Convertible Debentures accrue interest at a rate of 5% per year and have a term of 3 years. In the event the Secured Convertible Debentures are redeemed, then EYI Industries will issue to the holders a warrant to purchase 50,000 shares for every \$100,000 redeemed at an exercise price of 120% of the closing bid price as of June 22, 2004. The holders purchased the Secured Convertible Debentures from EYI Industries in a private placement on June 22, 2004. On September 24, 2004, we issued the second secured convertible debenture in the principal amount of \$250,000 to Cornell Capital Partners on the same terms and conditions as the secured convertible debenture described above. EYI Industries is registering in this offering

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

8,352,823 shares of common stock underlying the Secured Convertible Debentures. On April 4, 2005, Cornell Capital Partners assigned all of its rights and interests in the secured convertible debentures to Taib Bank E.C. All investment decisions of Taib Bank E.C. are made by Larry Chaleff, its Managing Director. In addition, on April 4, 2005, EYI Industries and Taib Bank E.C. entered into a Redemption Agreement, whereby EYI Industries agreed to first use any proceeds received by EYI Industries under the Equity Distribution Agreement with Cornell Capital Partners to redeem any remaining principal and accrued interest under the assigned Secured Convertible Debentures.

* In February 2005, the company issued 800,000 shares of our common stock at a deemed price of \$0.05 per share to Janet Carpenter. These shares were given to Ms. Carpenter in consideration of her providing the guarantee and pledge required for our loan agreement with Cornell Capital.

With respect to the sale of unregistered securities referenced above, all transactions were exempt from registration pursuant to Section 4(2) of the Securities Act of 1933 (the "1933 Act"), and Regulation D promulgated under the 1933 Act. In each instance, the purchaser had access to sufficient information regarding EYI so as to make an informed investment decision. More specifically, EYI had a reasonable basis to believe that each purchaser was an "accredited investor" as defined in Regulation D of the 1933 Act and otherwise had the requisite sophistication to make an investment in EYI's common stock.

* Current management of EYI Industries has limited information with respect to the issuances of unregistered securities prior to the Share Exchange transaction consummated on December 31, 2003 between our company and certain shareholders of Essentially Yours Industries, Inc.

Item 28. Undertakings

The undersigned registrant hereby undertakes:

(1) To file, during any period in which it offers or sells securities, a post-effective amendment to this registration statement to:

(i) Include any prospectus required by Sections 10(a) (3) of the Securities Act of 1933 (the "ACT");

(ii) Reflect in the prospectus any facts or events arising after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective Registration Statement;

(iii) Include any additional or changed material information on the plan of distribution;

(2) That, for the purpose of determining any liability under the Act, each such post-effective amendment shall be deemed to be a new registration statement

Edgar Filing: EYI INDUSTRIES INC. - Form SB-2/A

relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities that remain unsold at the end of the offering. Insofar as indemnification for liabilities arising under the Act may be permitted to directors, officers and controlling persons of the small business issuer pursuant to the foregoing provisions, or otherwise, the small business issuer has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the small business issuer of expenses incurred or paid by a director, officer or controlling person of the small business issuer in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the small business issuer will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
