ITEM 8.01 OTHER EVENTS

A number of the Company's existing financing agreements contain "favored nations" pricing provisions such that for future securities offerings by the Company at a price per share less than the contractual common stock or preferred stock conversion or warrant exercise rates, those investors' conversion or exercise rates would be adjusted to the lower offering price. As a result of recent transactions, the Company's convertible notes, convertible preferred shares, and warrants with favored nations provisions are now convertible or exercisable into shares of the Company's common stock at the rate of the lesser of: (a) \$0.0044 per share; or (b) 70% of the Company's average of the three lowest closing bid prices of its common stock for the 10 days prior to the date an investor converts or exercises. Also as a result of these transactions, the Company had 34,897,353 common shares outstanding at the close of business on February 13, 2008.
