PART I

ITEM 1. DESCRIPTION OF BUSINESS

Overview

We develop and distribute environmentally friendly specialty chemical products with applications in several industries and markets. Our current line of products includes our K-Line of Chemical Products for the oil industry and related products.

Through our wholly owned subsidiary, Green Globe Industries, Inc., we provide the U.S. military with a variety of solvents, paint strippers and cleaners under our trade name "Qualchem." Green Globe is a qualified supplier for the U.S. military and has sales contracts currently in place with no minimum purchase requirements, which are renewable at the option of the U.S. Military.

We have developed a system referred to as our "S2 system," to work with our environmentally friendly paraffin dispersants products. This technology produces high volumes of steam and heat at variable pressures and temperatures to completely dissolve most deposits of paraffin and asphaltene within oil wells, pipelines or storage tanks. The S2 system apparatus is portable, compact and easy to use. We are further developing the process to enhance and support sales of KH-30 and its related products for the oil industry and for other potential applications. Our patent on the S2 system expired in January 2007; however, we have filed a patent application with respect to certain improvements, modifications and enhancements to the S2 system.

A key component of our business strategy is to pursue collaborative joint working and marketing arrangements with established international oil and oil service companies. We intend to enter into these relationships to more rapidly and economically introduce our K-Line of Chemical Products to the worldwide marketplace for refinery, tank and pipeline cleaning services. We entered into an amended and restated non-exclusive distribution agreement with Champion Technologies Inc. for the sale and distribution of our K-Line of Chemical Products. The agreement is for a term of three (3) years and grants Champion Technologies Inc. certain rights to blend, dilute and utilize our products to manufacture and sell different products. We also entered into a non-exclusive Master Purchase Agreement with Petrobras America Inc. for the sale and distribution of our K-Line of Chemical Products. The agreements do not provide for any minimum amounts to be purchased. We are also currently negotiating potential working arrangements with several other companies, however, there can be no assurance that any of these arrangements will be entered into or, if entered into will be successful. There also can be no assurance that the agreements with Champion Technologies and Petrobras America will be successful.

We provide our K-Line of Chemical Products and our Green Globe Chemical Products to our customers and generated revenues of \$1,042,320 for the fiscal year ended March 31, 2008 and \$811,893 for the fiscal year ended March 31, 2007.

Organizational History

We were originally incorporated in Nevada in 1971 as Aztec Silver Mining Co. We engaged in the manufacturing and distribution of printing equipment from 1995 through 1998. During that period, we began to develop specialty chemical products for use in the printing industry. In March 1998, we discontinued our printing equipment operations and changed our business focus to the development of specialty chemical products. In March 2007, we discontinued the sale of our Uniproof proofing paper.

Business Operations and Principal Products

Our principal products include our K-Line of Chemical Products for the oil industry and our Green Globe Chemical Products which consist of a variety of solvents, paint strippers and cleaners.

K-Line of Chemical Products

KH-30 is a mixture of modified oils, dispersants and oil-based surfactants designed to control paraffin and asphaltene deposits in oil wells. When applied in accordance with our recommended procedures, KH-30 has resulted in substantial production increases in paraffin-affected oil and gas wells by allowing for a faster penetration of paraffin and asphaltene deposits. KH-30 disperses and suspends paraffin and asphaltene in a free-flowing state and prevents solids from sticking to each other or to oil well equipment. KH-30 is patented in the United States and other major oil producing countries.

KX-100 is a proprietary formula where contact time is limited for removal of a plug of paraffin or asphaltene. It is fast acting and an effective dispersant that can be used in temperatures as low as -25F. It can be used in nearly any application.

SR-3 Scale and Rust Remover is a fast acting corrosion inhibited product developed to remove both calcium carbonate and calcium sulfate salt deposits. SR-3 is a broad spectrum, water soluble scale remover designed to rapidly alleviate hard and soft deposits and to restore full flow capacity. The product is also designed to remove rust while adding protection against further rusting by providing a phosphatized surface on ferrous metals.

HPD-1 PLUS is specifically formulated to offer prompt and effective remediation of tough clogging problems with upper medium to high molecular weight paraffin. It performs multi-functional characteristics to impart wettability, penetration and dispersion, and is an exceptional solvency for paraffin rich heavy sludge with the proper treatment dosage and application.

GSA Gun & Bore Cleaner is a proprietary formula which is a safer and more effective bore and chamber cleaner. It can be used on everything from small handguns to 16" guns. Currently, GSA Gun & Bore Cleaner is being marketed and distributed by TopDuck Products LLC under their trademark "Gunzilla BC-10".

Green Globe Chemical Products

Leak Detection Compound Type I and II is a gas leak detection compound that is compatible with oxygen. Is intended for use in detecting leaks in both high and low-pressure oxygen systems in aircraft and other related oxygen systems

Corrosion Inhibitor is an additive intended for use with anti-freeze in water at a concentration of 3% to retard corrosion.

Corrosion Removing Compound Type I, II and III are corrosion removing and metal conditioning compounds, which when diluted with water, will remove rust from ferrous metal surfaces.

Ethylene Glycol/Water Coolant is a mixture of Ethylene Glycol and distilled water to provide a coolant mixture for use in radar domes used by the Military.

Qualkleen 1000 Wipes is a state-of-the-art active Matrix Liquid Crystal Display (AMLCD) and instrument glass cleaner. Qualkleen 1000 was developed for the Military to replace hazardous products such as IPA, Acetone, and Methanol in the cleaning of the high efficiency anti-reflective coating on the AMLCD glass being used in the new high tech multi-function displays for aircraft instrumentation.

NPX Powder Coating is an effective reusable paint stripper. NPX is a powerful blend of chemicals which we believe will out perform all other aluminum safe strippers in the powder coat industry and provide a safe method of stripping metals, including magnesium, zinc, high strength steel and titanium. NPX does not contain any methylene chloride,

phenol, chromates or caustics.

Green Globe products are sold under the trade name Qualchem.TM Green Globe is a qualified supplier for the U.S. military and has sales contracts currently in place with no minimum purchase requirements, which are renewable at the option of the U.S. Military.

2

Aqueous Coating

We have developed a patent pending aqueous coating with excellent oil, grease and water repellency for hot/cold food packaging such as cups, plates, cartons, wrappers and corrugated boxes which is biodegradable, decomposable, and recyclable.

Additional Technologies

We have developed certain modifications, improvements and enhancements to the S2 system including an apparatus for introducing a vapor-containing stream into underground geological formations, pumps, conduits or tanks which we believe represents an advance over previous techniques. The technique allows vapor-containing steam to bypass the well and be released to the atmosphere. We have filed a patent application with respect to the modifications, improvements and enhancements to the S2 system.

Manufacturing and Sales

All of the raw materials necessary for the manufacture of our products are generally available from multiple sources. Although we have negotiated favorable arrangements with some of our current suppliers, (which include Pride Solvents and Chemical Co. of NJ Inc., Hy-Test Packaging Corp, and Air Products and Chemicals), we would have to repeat the process if one or more of our current suppliers were no longer able to supply these raw materials to us. We do not own any special manufacturing facilities. Our chemical products are generally manufactured by contract blenders at a number of different locations. This method of manufacturing has reduced the need for us to invest in facilities and to hire the employees to staff them. Chemical blenders are relatively easy to replace and are bound by confidentiality agreements, where appropriate, which obligate them not to disclose or use our proprietary information.

We are not responsible for any environmental expenditure with respect to the manufacturing of our products. First, the chemical products that we use are generally “environmentally friendly” products in that they are low in toxicity and rank high in biodegradability. Further, any environmental issues involved in manufacturing are the responsibility of the blending facilities, provided they receive adequate and accurate information from us as to the components of the chemicals involved, however, there can be no assurance that we will not be liable as we are subject to various foreign, federal, state and local law and regulations relating to the protection of the environment.

In the fiscal year ending March 31, 2008, Petrobras America Inc. and Facility Solutions LTD. purchased our KX-100 oil cleaning products, which accounted for approximately 46.9% of our total customer sales and the U.S. Military purchased our Leak Detection Compound and Corrosion inhibitor, which accounted for 24.2% of our total customer sales. In the fiscal year ended March 31, 2008 Petrobras America Inc. purchased our KX-100 oil cleaning products, which accounted for approximately 45.7% of our total customer sales.

Except for these current customers, no other single entity has accounted for more than 10% of our sales during any of the fiscal years ended March 31, 2008 and 2007.

All of our products are sold in U.S. dollars and, therefore, we have had no foreign currency fluctuation risk.

Our current operations do not require a substantial investment in inventory other than minimum commitments to our distributors. However, we anticipate that any growth in our business will require us to maintain higher levels of inventory.

As of March 31, 2008, the Company did not have any backlog. Backlog represents products that the company’s customers have committed to purchase. The Company’s backlog is subject to fluctuations and is not necessarily indicative of future sales.

Marketing and Distribution

We have engaged the services of independent contractors to market our K-Line of Chemical Products. These contractors work under various non-exclusive commission and distribution agreements and have substantial contacts among oil well owners and major oil companies in the United States, Mexico, South America, Africa, Europe and the Middle East. These contractors earn a commission based upon the sales value of the products that they sell. These independent contractors use our marketing materials, brochures and website to interest clients and to describe the attributes of our products.

3

Although we have not achieved the volume of sales we had anticipated for the oil dispersant products, there have been significant barriers to entry in this market. Most of these potential customers require substantial testing of our product to prove its efficacy at cleaning wells, tanks and flow lines. In many cases, additional laboratory testing is required to prove that our chemical products are compatible with refinery systems and will not interfere with certain chemical processes and safety requirements of the potential clients. This process of testing has taken a great deal longer than was originally anticipated. We believe that we have made significant inroads and currently expect a higher volume of sales in the next fiscal year ending March 31, 2009, although there can be no assurance that sales will increase in fiscal 2009.

Research and Development

Our K-Line of Chemical Products for the oil industry are developed and ready for market. All of these products are the result of research and development expenditures paid in the amounts of \$298,618 and \$232,517 for the fiscal years ended March 31, 2008 and 2007 respectively. We have had available the services of one research chemist and one analytical chemist, as well as one petroleum engineer, to lead in the development of our products. A significant amount of market adaptation has taken place in the field involving the development of application procedures for products. We do not anticipate having to make significant research and development expenditures on existing products in the future. However, we do expect to continue to develop new products to complement our existing product lines.

Competition

We compete directly or indirectly with other producers of specialty chemical products with similar uses, most of which are more established companies and have greater resources than we have. Generally, we attempt to compete by offering what we hope to be lower prices and better service. However, our KH-30, KX-100, KX-91 and KH-30S products for the oil industry are often more expensive, and with these products we attempt to compete by emphasizing product effectiveness and environmental safety.

Proprietary Technologies

With respect to our formulations, which are proprietary, we have patented our KH-30 oil well cleaner in the United States and other major oil producing countries.

In addition to applying for patent protection on our KH-30 product, we have also registered "KH-30" as a trademark.

Employees

As of March 31, 2008 we employed twelve people on a full-time basis and had available the services of two other individuals under consulting or product/production cooperation arrangements. The latter arrangement is meant to include a situation where a chemist, engineer or significant marketing person is engaged by an organization under contract with us to manufacture or market one or more of our products.

None of our employees are represented by a union. We consider our relations with our employees to be good.

Available Information

We file annual, quarterly and current reports, information statements and other information with the Securities and Exchange Commission (the "SEC"). The public may read and copy any materials we file with the SEC at the SEC's Public Reference Room at Station Place, 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also

maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. The address of that site is <http://www.sec.gov>.

ITEM 2. DESCRIPTION OF PROPERTY

We lease 9,600 square feet of office space at 600 Meadowlands Parkway, #20, Secaucus, New Jersey 07094. Under the terms of the lease, which runs through June 2010, the monthly rent is \$10,400. In addition, we lease office and warehouse space on a month to month basis in Odessa, TX, at a rate of \$535 per month, and Traverse City, MI. at a rate of \$500 per month.

We use independent non-affiliated contract chemical blending and manufacturing facilities in various locations around the United States for the manufacture of our products. We contract the production of our products to independent manufacturers and blenders and our products are therefore produced at the manufacturing facilities of those entities. We do not own any manufacturing facilities.

ITEM 3. LEGAL PROCEEDINGS

In July 2002, an action was commenced against us in the Court of Common Pleas of South Carolina, Pickens County, brought by Quantum International Technology, LLC and Richard J. Barrett. Plaintiffs allege that they were retained as a sales representative of ours and in that capacity made sales of our products to the United States government and to commercial entities. Plaintiffs further allege that we failed to pay to plaintiffs agreed commissions at the rate of 20% of gross sales of our products made by plaintiffs. The complaint seeks an accounting, compensatory damages in the amount of all unpaid commissions plus interest thereon, punitive damages in an amount treble the compensatory damages, plus legal fees and costs. Plaintiffs maintain that they are entitled to receive an aggregate of approximately \$350,000 in compensatory and punitive damages, interest and costs. In June 2003, the action was transferred from the court in Pickens County to a Master in Equity sitting in Greenville, South Carolina and was removed from the trial docket. The action, if tried, will be tried without a jury. No trial date has yet been scheduled. We believe we have meritorious defenses to the claims asserted in the action and intend to vigorously defend the case. The outcome of this matter cannot be determined at this time.

In March 2007, the Company commenced an action against Applied Force and Samuel Miller III in the Superior Court of New Jersey, Law Division - Bergen County for the recovery of two of the Company's vehicles and certain additional claims. The defendants, Applied Force and Samuel Miller III, have filed a counterclaim for recovery of alleged storage fees in the amount of \$126,784 and certain alleged service fees in the amount of \$1,275. A settlement agreement and mutual release was entered into during August 2007 and the action was dismissed on September 18, 2007. As part of the settlement the Company transferred title of a truck to the defendant.

No other legal proceedings are currently pending or threatened against us.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders during the fourth quarter of our fiscal year ended March 31, 2008.

PART II**ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

As of June 30, 2008, there were approximately 455 record holders of our common stock and there were 31,030,115 shares of our common stock outstanding. We have not previously declared or paid any dividends on our common stock and do not anticipate declaring any dividends in the foreseeable future.

The following table shows the high and low bid prices of our common stock as quoted on the OTC Bulletin Board by quarter during each of our last two fiscal years ended March 31, 2008 and 2007 and for each quarter after March 31, 2008. These quotes reflect inter-dealer prices, without retail markup, markdown or commissions and may not represent actual transactions. The information below was obtained from those organizations, for the respective periods.

Fiscal Year ended March 31	Quarter	High	Low
2007	First Quarter (April-June 2006)	\$ 2.08	\$ 1.27
	Second Quarter (July-September 2006)	1.40	.64
	Third Quarter (October-December 2006)	1.02	.53
	Fourth Quarter (January-March 2007)	.77	.39
2008	First Quarter (April-June 2007)	\$.77	\$.42
	Second Quarter (July-September 2007)	.68	.45
	Third Quarter (October-December 2007)	.59	.40
	Fourth Quarter (January-March 2008)	.54	.35
2009	First Quarter (through July 11)	\$.31	\$.29

The high and low bid prices for shares of our common stock on July 11, 2008 were \$.36 and \$.32 per share, respectively, based upon bids that represent prices quoted by broker-dealers on the OTC Bulletin Board. These quotations reflect inter-dealer prices, without retail mark-up, mark-down or commissions, and may not represent actual transactions.

Dividend Policy

While there are no restrictions on the payment of dividends, we have not declared or paid any cash or other dividends on shares of our common stock in the last two years, and we presently have no intention of paying any cash dividends in the foreseeable future. Our current policy is to retain earnings, if any, to finance the expansion of our business. The future payment of dividends will depend on the results of operations, financial condition, capital expenditure plans and other factors that we deem relevant and will be at the sole discretion of our board of directors.

Equity Compensation Plan Information

The following table provides information regarding the status of our existing equity compensation plans at March 31, 2008.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding option, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in the second column)
	(a)	(b)	(c)
Equity compensation plans approved by security holders	3,687,500	\$1.16	—
Equity compensation plans not approved by security holders	1,475,000	\$1.55	—
Total	5,162,500		—

During the year ended March 31, 2008, pursuant to the terms of an employment agreement dated April 17, 2007, with Ronald Wilen, Chief Executive Officer, President and Secretary, for each of the next five (5) years of the term of the agreement (commencing with April 17, 2008), Mr. Wilen will receive an option to purchase fifty thousand (50,000) shares of common stock of the Company. The exercise price with respect to any option granted pursuant to the employment agreement shall be the fair market value of the common stock underlying such option on the date such option was granted. The initial grant of 50,000 stock options will be granted out of the 2001 Equity Incentive Plan at the one year anniversary. In addition, the stock option to purchase 135,000 shares has been reserved for Mr. Wilen out of the 2001 Equity Incentive Plan. After the reservation described in the immediately preceding sentence, no shares remain available for grant out of the 2001 Equity Incentive Plan. Thus, the remaining stock options to purchase 65,000 shares granted to Mr. Wilen will be non-qualified stock options, unless the Company amends the 2001 Equity Incentive Plan in order to increase the number of shares that may be granted pursuant to such plan or adopts a new stock option plan.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

You should read the following description of our financial condition and results of operations in conjunction with the consolidated financial statements and accompanying notes included in this Annual Report beginning on page F-1.

Overview

We develop and distribute environmentally friendly specialty chemical products with applications in several industries and markets. Our current line of products includes K-Line of Chemical products for the oil industry and related products.

Through our wholly owned subsidiary, Green Globe Industries, Inc., we provide the U.S. military with a variety of solvents, paint strippers and cleaners under our trade name "Qualchem." Green Globe is a qualified supplier for the U.S. military and has sales contracts currently in place with no minimum purchase requirements which are renewable at the option of the U.S. Military.

We have developed a system referred to as our "S2 system," to work with our environmentally friendly paraffin dispersants products. This technology produces high volumes of steam and heat at variable pressures and temperatures to completely dissolve most deposits of paraffin and asphaltene within oil wells, pipelines or storage tanks. The S2 system apparatus is portable, compact and easy to use. We are further developing the process to enhance and support sales of KH-30 and its related products for the oil industry and for other potential applications. Our patent on the S2 system expired in January 2007; however, we have filed a patent application with respect to certain improvements, modifications and enhancements to the S2 System.

A key component of our business strategy is to pursue collaborative joint working and marketing arrangements with established international oil and oil service companies. We intend to enter into these relationships to more rapidly and economically introduce our K-Line of Chemical Products to the worldwide marketplace for refinery, tank and pipeline cleaning services. We entered into an amended and restated non-exclusive distribution agreement with Champion Technologies Inc. for the sale and distribution of our K-Line of Chemical Products. The agreement is for a term of three (3) years and grants Champion Technologies Inc. certain rights to blend, dilute and utilize our products to manufacture and sell different products. We also entered into a non-exclusive Master Purchase Agreement with Petrobras America Inc. for the sale and distribution of our K-Line of Chemical Products. The agreements do not provide for any minimum amounts to be purchased. We are also currently negotiating potential working arrangements with several other companies however, there can be no assurance that any of these arrangements will be entered into or, if entered into will be successful. There also can be no assurance that the agreements with Champion Technologies and Petrobras America will be successful.

We provide our K-Line of Chemical Products and our Green Globe Chemical Products to our customers and generated revenues of \$1,042,320 for the fiscal year ended March 31, 2008 and \$811,893 for the fiscal year ended March 31, 2007.

Critical Accounting Policies and Estimates

The preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States of America requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities.

On an ongoing basis, we evaluate our estimates, including those related to product returns, bad debts, inventories, valuation of options and warrants, intangible assets, long-lived assets and contingencies and litigation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Revenue Recognition

Our primary source of revenue is from sales of our products. We recognize revenue upon shipment and transfer of title.

Allowance for Doubtful Accounts

We monitor our accounts and note receivable balances on a monthly basis to ensure they are collectible. On a quarterly basis, we use our historical experience to determine our accounts receivable reserve. Our allowance for doubtful accounts is an estimate based on specifically identified accounts, as well as general reserves. We evaluate specific accounts where we have information that the customer may have an inability to meet its financial obligations. In these cases, management uses its judgment, based upon the best available facts and circumstances, and records a

specific reserve for that customer against amounts due to reduce the receivable to the amount that is expected to be collected. These specific reserves are re-evaluated and adjusted as additional information is received that impacts the amount reserved. We also establish a general reserve for all customers based upon a range of percentages applied to aging categories. These percentages are based on historical collection and write-off experience. If circumstances change, our estimate of the recoverability of amounts due to us could be reduced or increased by a significant amount. A change in estimated recoverability would be accounted for in the period in which the facts that give rise to the change become known.

Discontinued Operations

During the fiscal year ended March 31, 2007, the Company discontinued the sale of its Uniproof proofing paper.

Results of Operations

Comparison of Fiscal Year Ended March 31, 2008 to Fiscal Year Ended March 31, 2007

Revenues. Revenues for the year ended March 31, 2008 were \$1,042,320, a \$230,427 or 28% increase from revenues of \$811,893 for the year ended March 31, 2007. The increase was primarily related to a 133% increase in the level of our Green Globe/Qualchem military sales reflecting a higher level of orders and a 10% increase in the sales of our K-Line of Chemical Products during the year. Our three largest customers accounted for 71% of revenues for the year ended March 31, 2008 compared with 64% for the comparable period in 2007.

Cost of Goods Sold. Cost of goods sold increased to \$469,237 or 45% of sales, for the year ended March 31, 2008 from \$363,208, or 45% of sales, for the year ended March 31, 2007. The increase in cost of goods sold was due to the increased level of sales compared to the prior year.

Gross Profit. Gross profit increased to \$573,083 or 55% of sales, for the year ended March 31, 2008 from \$448,685, or 55% of sales, for the year ended March 31, 2007. The increase in gross profit was due to an increase in the level of sales.

Selling, General and Administrative Expenses. Selling, general and administrative expenses decreased to \$2,609,343 or 250% of sales, for the year ended March 31, 2008 from \$2,811,970, or 346% of sales, for the year ended March 31, 2007. The decrease in selling, general and administrative expenses were primarily related to a decrease in professional fees and bad debts partially offset by an increase in travel and entertainment expenses and higher salaries due to the addition of employees offset by a reduction in option costs charged for employees.

Depreciation and Amortization. Depreciation and amortization decreased to \$69,171 for the year ended March 31, 2008 from \$76,434 for the year ended March 31, 2007, reflecting the Company's use of an accelerated method of depreciation, offset by a slight increase in fixed assets.

Interest Income. Interest income decreased to \$67,504 for the year ended March 31, 2008 from \$169,653 for the year ended March 31, 2007. The decrease was due to the use of cash received in connection with the private placement completed in March 2006.

Interest Expense. Interest expense remained relatively constant for the year ended March 31, 2008 as compared to the year ended March 31, 2007.

Net Loss. For the year ended March 31, 2008, we incurred a net loss of \$2,040,390 or \$0.07 per share, as compared to a net loss of \$2,272,539 for the year ended March 31, 2007, or \$0.07 per share. The average number of shares of common stock used in calculating earnings per share increased 788 shares to 31,030,115 from 31,029,327 shares as a result of 12,500 shares issued in connection with the exercise of stock options.

Liquidity and Capital Resources

Since 1995, operations have been financed primarily through loans and equity contributions from directors, executive officers and third parties supplemented, by funds generated by our business. As of March 31, 2008, we had \$858,575 in cash and cash equivalents.

Net Cash Used in Continuing Operations. During the fiscal year ended March 31, 2008, net cash used in continuing operations was \$1,915,584 compared with \$2,111,438 for the fiscal year ended March 31, 2007.

Net Cash Used in Investing Activities. During the fiscal year ended March 31, 2008, net cash used in investing activities increased to \$92,814 compared with \$54,594 for the year ended March 31, 2007. The increase was primarily a result of additional loans, and an increase in payment for patents, offset by a slight decrease in the level of expenditures for the purchase of fixed assets.

Net Cash Used in Financing Activities. During the fiscal year ended March 31, 2008, net cash used in financing activities consisted of \$1,440 of preferred stock dividends. This compares to cash used in financing activities of \$187,651 resulting from the payment of related party loans of \$200,000 and preferred stock dividends of \$1,526, which was partially offset by the proceeds from the exercise of stock options of \$13,875 during the fiscal year ended March 31, 2007.

During the past two fiscal years ended March 31, 2008 and 2007, we have recorded aggregate losses from continuing operations of \$4,313,181 and have incurred total negative cash flows from operations of \$4,027,022 for the same two-year period. The report of the independent registered public accounting firm with respect to our consolidated financial statements included in this Report includes a “going concern” qualification, indicating that our recurring losses and negative cash flows from operations raise substantial doubt about our ability to continue as a going concern. Our consolidated financial statements do not include any adjustment that might result from the outcome of this uncertainty.

Our continued existence is dependent upon several factors, including raising additional capital through equity or debt financing, increased sales volumes, collection of existing receivables and the ability to achieve profitability from the sale of our product lines. In order to increase our cash flow, we are continuing our efforts to stimulate sales and cut back expenses not directly supporting our sales and marketing efforts.

There can be no assurance that we will be successful in stimulating sales or reducing expenses to levels sufficient to generate cash flow sufficient to fund our anticipated liquidity requirements. There also can be no assurance that available financing will be available, or if available, that such financing will be on terms acceptable to us.

Concentration of Credit Risk

Sales to three of our customers, Petrobras America Inc., the US Military and Facility Solutions accounted for approximately 71% of our sales for the fiscal years ending March 31, 2008 and sales to one of our customers, Petrobras America Inc. accounted for approximately 46% of our sales for the fiscal year ending March 31, 2007.

Contractual Obligations

Below is a table which presents our contractual obligation commitments at March 31, 2008:

Contractual Obligation	Total	Less than 1 Year	1-3 Years	3-5 Years	After 5 Years
Short-term debt Obligations(1)	\$ 244,141	\$ 244,141	\$ —	\$ —	—
Operating leases	289,644	132,610	157,034	—	—
Total contractual cash obligations	\$ 533,785	\$ 376,751	\$ 157,034	\$ —	—

(1) Short-term debt obligations include an amount due to Robert Seaman, a shareholder and former director of the Company. The amount due as of March 31, 2008 and 2007 is \$244,141. This amount is unsecured, non-interest bearing and due upon demand.

Reporting by Segments

We are a specialty chemicals company because of our determination in fiscal 1998 to close our printing equipment division and focus on our K-Line of chemical and Green Globe products. However, in the past a portion of our revenues has been related to the printing and the graphic arts industry and we had reported each as two segments. During the fiscal year ended March 31, 2007, the Company classified the graphic arts segment as discontinued

operations.

We devote almost all of our time and effort into selling, promoting and developing our K-Line of chemical products and we are continuing to increase our marketing efforts to develop new products as extensions of our original KH-30 product. We believe that in the future our sales will increase.

10

Off-Balance Sheet Arrangements

We do not currently have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to our stockholders.

Inflation

We do not believe that inflation in the cost of our raw materials has had in the past or will have in the future any significant negative impact on our operations. However, no assurance can be given that we will be able to offset such inflationary cost increases in the future.

Recently Issued Accounting Standards

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements* (“SFAS 157”). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value investments. SFAS 157 is effective for financial assets and liabilities on January 1, 2008. The FASB has deferred the implementation of the provisions of SFAS 157 relating to certain non-financial assets and liabilities until January 1, 2009. The adoption of SFAS 157 on January 1, 2008 for financial assets and liabilities did not have a material effect on the Company’s consolidated financial statements. The Company has not determined whether the adoption of SFAS 157 will have a material impact on its consolidated financial position and results of operations on January 1, 2009 for non-financial assets and liabilities.

Quantitative and Qualitative Disclosures About Market Risk

The market risk inherent in our market risk sensitive instruments and positions are the potential losses arising from adverse changes in foreign currency exchange rates.

Foreign Currency Exchange Rates

Although our business is international in scope, to date our product sales have been all U.S. dollar-denominated. As we expand, we may be affected by exchange rate fluctuations in foreign currencies relative to the U.S. dollar. We do not currently use derivative financial instruments to hedge our exposure to changes in foreign currency exchange rates.

SPECIAL NOTE ON FORWARD-LOOKING STATEMENTS

Certain statements in this Annual Report on Form 10-KSB (the “Form 10-KSB”), including statements under “Item 1. Business,” “Item 3. Legal Proceedings” and “Item 6. Management’s Discussion and Analysis or Plan of Operation”, constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995 (collectively, the “Reform Act”). Certain, but not necessarily all, of such forward-looking statements can be identified by the use of forward-looking terminology such as “believes,” “expects,” “may,” “will,” “should,” “anticipates” or the negative thereof or other variations thereon or comparable terminology, or by discussions of strategy that involve risks and uncertainties. All statements other than statements of historical fact included in this Form 10-KSB regarding our financial position, business strategy and plans or objectives for future operations are forward-looking statements.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from any future results, performance or

achievements expressed or implied by such forward-looking statements and other factors referenced in this Form 10-KSB. We do not undertake and specifically decline any obligation to publicly release the results of any revisions which may be made to any forward-looking statement to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the following material risks, before you decide to buy our common stock. If any of the following risks actually occur, our business, results of operations and financial condition would likely suffer. In these circumstances, the market price of our common stock could decline and you may lose all or part of your investment.

WE HAD A CURRENT ACCUMULATED DEFICIT OF \$20,740,063 AS OF MARCH 31, 2008 AND IF WE CONTINUE TO INCUR OPERATING LOSSES, WE MAY BE UNABLE TO SUPPORT OUR BUSINESS PLAN, WHICH WILL HAVE A DETRIMENTAL EFFECT ON OUR STOCK.

We have incurred losses in each of our last three fiscal years. As of March 31, 2008, we had an accumulated deficit of \$20,740,063. If we continue to incur operating losses and fail to become a profitable company, we may be unable to support our business plan, namely to market our K-Line of Chemical Products for the oil and gas industry, and the Green Globe Chemical Products. We incurred net losses from continuing operations of \$2,040,390 and \$2,272,791 in the fiscal years ended March 31, 2008 and 2007, respectively. Our future profitability depends in large part on our ability to market and support our Specialty Chemical Products which we derive the majority of our revenues. We cannot assure you that we will achieve or sustain significant sales or profitability in the future.

WE ARE DEPENDENT ON OUR ABILITY TO RAISE CAPITAL FROM EXTERNAL FUNDING SOURCES. IF WE ARE UNABLE TO CONTINUE TO OBTAIN NECESSARY CAPITAL FROM OUTSIDE SOURCES, WE WILL BE FORCED TO REDUCE OR CURTAIL OPERATIONS.

We have limited financial resources. As a result we need to obtain additional capital from outside sources to continue operations and commercialize our business plan. We cannot assure that adequate additional funding will be available. If we are unable to continue to obtain needed capital from outside sources, we will be forced to reduce or curtail our operations.

Our ability to execute our business plan depends upon our ability to obtain financing through

. bank or other debt financing,
. equity financing,
. strategic relationships and/or
. other means.

OUR INDEPENDENT AUDITORS HAVE EXPRESSED THAT THERE IS SUBSTANTIAL DOUBT ABOUT OUR ABILITY TO CONTINUE AS A GOING CONCERN.

Our independent auditors issued an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern on our financial statements for fiscal 2008, based on the significant operating losses and a lack of external financing. Neither our March 31, 2008 nor March 31, 2007 financial statements include any adjustments that resulted from the outcome of this uncertainty. Our inability to continue as a going concern would require a restatement of assets and liabilities on a liquidation basis, which would differ materially and adversely from the going concern basis on which our consolidated financial statements have been prepared.

THERE ARE SIGNIFICANT OBSTACLES TO ENTERING THE OIL AND GAS PRODUCING INDUSTRY THAT HAVE CONTRIBUTED TO THE SLOW PACE AT WHICH OUR K-LINE OF CHEMICAL PRODUCTS ARE BEING INTRODUCED TO THE MARKET.

Our business plan is focused largely on marketing efforts for our K-Line of Chemical Products for the oil and gas industry. Although we believe that the application of our K-Line of Chemical Products for the oil and gas industry on a continuous basis will result in higher production and lower power lease operating costs, the introduction of our K-Line of Chemical Products into the oil and gas producing industry has been extremely difficult. Many entrenched players such as the “hot oilers” and the major oil service companies that benefit from high markups on their proprietary products have no incentive to promote the use of our chemical products. Moreover, oil production engineers are extremely reluctant to risk damage to a well from a product that does not have the endorsement of a major enterprise. Consequently, the pace of introduction of our K-Line of Chemical Products has been much slower than we initially anticipated. If we and our K-Line of Chemical Products marketing partners are unable to successfully achieve market acceptance our products, our future results of operations and financial condition will be adversely affected.

THE SUCCESS OF OUR K-LINE OF CHEMICAL PRODUCTS WILL BE HIGHLY DEPENDENT UPON THE LEVEL OF ACTIVITY AND EXPENDITURES IN THE OIL AND NATURAL GAS INDUSTRIES AND A DECREASE IN THE LEVELS THEREOF WOULD, IN ALL LIKELIHOOD, ADVERSELY IMPACT SALES OF OUR K-LINE OF CHEMICAL PRODUCTS.

We anticipate that demand for our oil and gas-cleaning product will depend on the levels of activity and expenditures in the industry, which are directly affected by trends in oil and natural gas prices. We anticipate that demand for our K-Line of Chemical Product sales will be particularly sensitive to the level of development, production and exploration activity of, and corresponding capital spending by, oil and natural gas companies. Prices for oil and gas are subject to large fluctuations in response to relatively minor changes in the supply of and demand for oil and gas, market uncertainty, political stability and a variety of other factors that are beyond our control. Any prolonged reduction in oil and natural gas prices will depress the level of exploration, and development and production activity. Lower levels of activity are expected to result in a corresponding decline in the demand for our oil and gas well products, which could have an adverse impact on our prospects, results of operations and financial condition. Factors affecting the prices of oil and natural gas include:

- worldwide political, military and economic conditions, including the ability of OPEC (the Organization of Petroleum Exporting Countries) to set and maintain production levels and prices for oil and gas;
- overall levels of global economic growth and activity;
- global weather conditions;
- the level of production by non-OPEC countries;

the policies of governments regarding the exploration for and production and development of their oil and natural gas reserves; and

- actual and perceived changes in the supply of and demand for oil and natural gas.

WE MAY NOT BE ABLE TO GENERATE SUBSTANTIAL REVENUES FROM OUR GREEN GLOBE CHEMICAL PRODUCTS.

Our sales to date have been substantially dependent on sales of our K-Line of Chemical Products. Sales of Green Globe Chemical Products accounted for approximately 27% of revenues for the fiscal year ended March 31, 2008. The U.S. military represented approximately 90% of such revenues from the sales of our Green Globe Chemical Products for the fiscal year ended March 31, 2008. If we fail to develop significant revenue from Green Globe Chemical Products or the U.S. military ceases or decreases its use of our Green Globe Chemical Products, our business plan and financial condition will be adversely affected.

IF OUR STRATEGIC PARTNERS DO NOT EFFECTIVELY MARKET OUR PRODUCTS, WE WILL NOT GENERATE SIGNIFICANT SALES OR PROFITS AND WE DO NOT CURRENTLY HAVE THE INTERNAL RESOURCES TO MARKET OUR PRODUCTS DIRECTLY.

We utilize third parties to assist in marketing, selling and distributing our products. We believe that the establishment of a network of third party strategic partners, particularly abroad, with extensive and specific knowledge of the various applications in the oil and gas industry is important for our success. We cannot assure you that our current or future strategic partners will purchase our products at sufficient levels or provide us with adequate support. If one or more of our partners underperforms or if any of our strategic relationships are terminated or otherwise disrupted, our operating performance, results of operations and financial condition will be adversely affected.

WE DEPEND ON A SMALL NUMBER OF CUSTOMERS FOR A SUBSTANTIAL PORTION OF OUR REVENUES, BUT WE HAVE NO LONG TERM CONTRACTS OR BINDING PURCHASE COMMITMENTS FROM THESE CUSTOMERS.

We currently have a limited number of recurring customers for our products, none of whom have entered into long-term contracts or binding purchase commitments with us. Our three largest customers accounted for 71% and 64% of our revenues for the fiscal years ended March 31, 2008 and 2007, respectively.

WE RELY ON THIRD PARTIES FOR THE RAW MATERIALS NECESSARY TO MAKE OUR PRODUCTS, LEAVING US POTENTIALLY VULNERABLE TO SUBSTANTIAL COST INCREASES AND DELAYS.

All of the raw materials necessary for the manufacture of our products are generally available from multiple sources. We have negotiated favorable arrangements with our current suppliers. If one or more of our current suppliers were no longer able to supply the raw materials that we need, we would be required to negotiate arrangements with alternate suppliers, which would likely include some cost or delay and could be substantial. In addition, no assurance can be given that any alternative arrangements that we secure would be on terms as favorable as our current arrangements.

WE DEPEND ON INDEPENDENT MANUFACTURERS OF OUR PRODUCTS; ANY PROLONGED INTERRUPTION IN THEIR BUSINESS COULD CAUSE US TO LOSE OUR CUSTOMERS.

We do not own any manufacturing facilities. Our chemical products are generally manufactured by contract blenders at a number of different facilities. Chemical blenders are relatively easy to replace. While we believe these facilities have the capacity to meet our current production needs and also meet applicable environmental regulations, we cannot be certain that these facilities will continue to meet our needs or continue to comply with environmental laws. In addition, these facilities are subject to certain risks of damage, including fire, which would disrupt production of our products. To the extent we are forced to find alternate facilities, it would likely involve delays in manufacturing and potentially significant costs.

The chemical blender and independent coater that manufactures our products are bound by confidentiality agreements that obligate them not to disclose or use our proprietary information. A breach of one or more of these agreements could have a detrimental effect on our business and prospects.

ENVIRONMENTAL PROBLEMS AND LIABILITIES COULD ARISE AND BE COSTLY FOR US TO CLEAN UP.

We are subject to various foreign, federal, state and local laws and regulations relating to the protection of the environment, including the Industrial Site Recovery Act, a New Jersey statute requiring clearance by the state prior to the sale of any industrial facility. These laws provide for retroactive strict liability for damages to natural resources or threats to public health and safety, rendering a party liable without regard to its negligence or fault. Sanctions for noncompliance may include revocation of permits, corrective action orders, and administrative or civil penalties or even criminal prosecution. We have not, to date, incurred any serious liabilities under environmental regulations and believe that we are in substantial compliance therewith. Nevertheless, we cannot be certain that we will not encounter environmental problems or incur environmental liabilities in the future that could adversely affect our business.

BECAUSE WE ARE SMALLER AND HAVE FEWER FINANCIAL AND MARKETING RESOURCES THAN MANY OF OUR COMPETITORS, WE MAY NOT BE ABLE TO SUCCESSFULLY COMPETE IN THE EXTREMELY COMPETITIVE CHEMICAL INDUSTRIES.

We compete directly or indirectly with other producers of specialty chemical products, most of which are or have aligned themselves with more established companies, have greater brand recognition and greater financial and marketing resources. Generally, we attempt to compete by offering what we hope to be lower prices and better service. However, the prices for our K-Line of Chemical Products and Green Globe Chemical Products are higher than competing products; therefore, we attempt to compete by emphasizing product effectiveness and environmental safety.

WE MAY NOT BE ABLE TO RETAIN OUR EXECUTIVE OFFICERS WHO WE NEED TO SUCCEED, AND ADDITIONAL QUALIFIED PERSONNEL ARE EXTREMELY DIFFICULT TO ATTRACT.

Our performance depends, to a significant extent, upon the efforts and abilities of our executive officers. We do not have employment agreements with certain of our executive officers and do not maintain any key man insurance on their lives for our benefit. The loss of the services of our executive officers could have a serious and adverse effect on our business, financial condition and results of operations. Our success will also depend upon our ability to recruit and retain additional qualified senior management personnel. Competition is intense for highly skilled personnel in our industry and, accordingly, no assurance can be given that we will be able to hire or retain sufficient personnel.

OUR MANAGEMENT OWNS A SUBSTANTIAL AMOUNT OF OUR STOCK AND IS CAPABLE OF INFLUENCING OUR BUSINESS AND AFFAIRS.

Our directors and executive officers beneficially own approximately 30.1% of our outstanding common stock. As such, they will be able to significantly influence the election of the members of our board of directors and the outcome of corporate actions that require shareholder approval, such as mergers and acquisitions. In addition, Pursuant to the terms of the Company's Series A Convertible Preferred Stock (the "Preferred Stock") and an agreement with Sherleigh Associates Profit Sharing Plan ("Sherleigh"), as holder of all of the outstanding shares of Preferred Stock, Sherleigh has the right to designate a majority of the members of our board of directors. Jack Silver, one of our directors, as the trustee of Sherleigh, has voting control over the shares of Preferred Stock held by Sherleigh. The level of ownership by our directors and executive officers, together with particular provisions of our articles of incorporation, bylaws and Nevada law, may have a significant effect in delaying, deferring or preventing any change in control and may adversely affect the voting and other rights of our other shareholders.

IF WE CANNOT PROTECT OUR PROPRIETARY RIGHTS AND TRADE SECRETS OR IF WE WERE FOUND TO BE INFRINGING ON THE PROPRIETARY RIGHTS OF OTHERS, OUR BUSINESS WOULD BE SUBSTANTIALLY HARMED.

Our success depends in large part on our ability to protect the proprietary nature of our products, preserve our trade secrets and operate without infringing the proprietary rights of third parties. If other companies obtain and copy our technology or claim that we are making unauthorized use of their proprietary technology, we may become involved in lengthy and costly disputes. If we are found to be infringing on the proprietary rights of others, we could be required to seek licenses to use the necessary technology. We cannot assure you that we could obtain these licenses on acceptable terms, if at all. In addition, the laws of some foreign countries may not provide adequate protection for our proprietary technology.

To protect our intellectual property, we seek patents and enter into confidentiality agreements with our employees, manufacturers and marketing and distribution partners. We cannot assure you that our patent applications will result in the successful issuance of patents or that any issued patents will provide significant protection for our technology and products. In addition, we cannot assure you that other companies will not independently develop competing technologies that are not covered by our patents. There is also no assurance that confidentiality agreements will provide adequate protection of our trade secrets, know-how or other proprietary information. Any unauthorized disclosure and use of our proprietary technology, whether in breach of an agreement or not, could have an adverse

effect on our business, prospects, results of operations and financial condition.

15

THE PUBLIC MARKET FOR OUR COMMON STOCK HAS BEEN CHARACTERIZED BY A LOW VOLUME OF TRADING AND OUR STOCKHOLDERS MAY NOT BE ABLE TO RESELL THEIR SHARES AT OR ABOVE THE PRICE AT WHICH THEY PURCHASED THEIR SHARES, IF AT ALL.

Historically, the volume of trading in our common stock has been low. A more active public market for our common stock may not develop or, even if it does in fact develop, may not be sustainable. The market price of our common stock may fluctuate significantly in response to factors, some of which are beyond our control. These factors include:

- product liability claims and other litigation;
- the announcement of new products or product enhancements by us or our competitors;
- developments concerning intellectual property rights and regulatory approvals;
- quarterly variations in our competitors' results of operations;
- developments in our industry; and
- general market conditions and other factors, including factors unrelated to our own operating performance.

Recently, the stock market in general has experienced extreme price and volume fluctuations. In particular, market prices of securities of specialty chemical products companies have experienced fluctuations that are often unrelated to or disproportionate from the operating results of these companies. Continued market fluctuations could result in extreme volatility in the price of shares of our common stock, which could cause a decline in the value of our shares. Price volatility may be worse if the trading volume of our common stock is low.

WE HAVE OUTSTANDING WARRANTS AND OPTIONS, AND WE ARE ABLE TO ISSUE "BLANK CHECK" PREFERRED STOCK, THAT COULD BE ISSUED RESULTING IN THE DILUTION OF COMMON STOCK OWNERSHIP.

As of June 30, 2008, we had outstanding Preferred Stock, warrants and options that, when exercised and converted, could result in the issuance of up to 11,802,500 additional shares of common stock. In addition, our Articles of Incorporation allow the board of directors to issue up to 100,000 shares of preferred stock and to fix the rights, privileges and preferences of those shares without any further vote or action by the shareholders. We currently have 3 shares of Preferred Stock outstanding. To the extent that outstanding warrants, options and preferred stock or similar instruments or convertible preferred stock issued in the future are exercised or converted, these shares will represent a dilution to the existing shareholders. The preferred stock could hold dividend priority and a liquidation preference over shares of our common stock. Thus, the rights of the holders of common stock are and will be subject to, and may be adversely affected by, the rights of the holders of any preferred stock. Any such issuance could be used to discourage an unsolicited acquisition proposal by a third party.

OUR COMMON STOCK IS CONSIDERED A "PENNY STOCK" AND MAY BE DIFFICULT TO SELL WHEN DESIRED.

The SEC has adopted regulations that define a "penny stock", generally, to be an equity security that has a market price of less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to specific exemptions. The market price of our common stock has been less than \$5.00 per share. This designation requires any broker or dealer selling our securities to disclose certain information concerning the transaction, obtain a written agreement from the purchaser and determine that the purchaser is reasonably suitable to purchase the securities. These rules may restrict

the ability of brokers or dealers to sell our common stock and may affect the ability of stockholders to sell their shares. In addition, since our common stock is currently quoted on the OTC Bulletin Board, stockholders may find it difficult to obtain accurate quotations of our common stock, may experience a lack of buyers to purchase our shares or a lack of market makers to support the stock price.

A SIGNIFICANT NUMBER OF OUR SHARES ARE ELIGIBLE FOR SALE AND THEIR SALE OR POTENTIAL SALE WILL PROBABLY DEPRESS THE MARKET PRICE OF OUR STOCK.

Sales of a significant number of shares of our common stock in the public market could harm the market price of our common stock. Some or all of the shares of our common stock may be offered from time to time in the open market without registration pursuant to Rule 144, and these sales could have a depressive effect on the market for our common stock.

WE DO NOT ANTICIPATE PAYING DIVIDENDS ON OUR COMMON STOCK IN THE FORESEEABLE FUTURE; THEREFORE, YOU SHOULD NOT BUY THIS STOCK IF YOU WISH TO RECEIVE CASH DIVIDENDS.

We currently intend to retain our future earnings in order to support operations and finance expansion; therefore, we do not anticipate paying any cash dividends on our common stock in the foreseeable future.

ITEM 7. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The response to this item is submitted as a separate section of this Report beginning on page F-1.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None

ITEM 8A. CONTROLS AND PROCEDURES

Evaluation of the Company's Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of the Company's management, including our Chief Executive Officer and our Principal Accounting Officer (Interim Chief Financial Officer), of the effectiveness of our "disclosure controls and procedures" (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934, as amended) as of March 31, 2008. Based upon that evaluation, the Chief Executive Officer and the Principal Accounting Officer (Interim Chief Financial Officer) concluded that our disclosure controls and procedures are effective, in all material respects, with respect to the recording, processing, summarizing, and reporting, within the time periods specified in the Securities and Exchange Commission's rules and forms, of information required to be disclosed by us in the reports that we file or submit under the Exchange Act. In designing and evaluating our "disclosure controls and procedures" (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934, as amended), management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurances of achieving the desired control objectives, as ours are designed to do, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934, as amended. Internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation and fair presentation of financial statements for external purposes, in accordance with generally accepted accounting principles. The effectiveness of any system of internal control over financial reporting is subject to inherent limitations and therefore, may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness of future periods are subject to the risk that the controls may become inadequate due to change in

conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management conducted an evaluation of the effectiveness of internal control over financial reporting using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our management concluded that as of March 31, 2008, our internal control over financial reporting was not effective. Specifically, the Company's management and its auditors determined that a material weakness existed in our internal control over financial reporting. The material weakness relates to the lack of segregation of duties in financial reporting, as our financial reporting and all accounting functions are performed by our Interim Chief Financial Officer. Due to our lack of funds, the Company has an insufficient number of personnel having adequate knowledge, experience and training, and the Company does not anticipate having the ability to retain such qualified personnel until it is able to obtain adequate funding.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

Changes in Control Over Financial Reporting

Management has not identified any change in our internal control over financial reporting that occurred during the fourth quarter of the fiscal year ended March 31, 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 8B. OTHER INFORMATION

None

18

PART III**ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS, CONTROL PERSONS AND CORPORATE GOVERNANCE; COMPLIANCE WITH SECTION 16(A) OF THE EXCHANGE ACT.**

The following table shows the positions held by our board of directors and executive officers and their ages as of June 30, 2008.

Name	Age	Position
Ronald Wilen	69	Director, Chief Executive Officer, President and Secretary
Jack Silver	64	Director and Chairman of the Board
James McKeever, CPA	42	Interim Chief Financial Officer
Adam Hershey	35	Director
Peter Garson-Rappaport	25	Director
Martin Rappaport	71	Director
John A. Lack	63	Director

The principal occupations for the past five years (and, in some instances, for prior years) of each of our executive officers and directors are as follows:

Ronald Wilen. Mr. Wilen has served as a member of our board since October 1995, our Chief Executive Officer since November 2007, and Secretary since May 2006. Mr. Wilen also served as our Chief Executive Officer from October 1995 to September 2004, our President from October 1995 to August 2001, our Executive Vice President of Research and Development from October 1995 to November 2007 and as our Chairman of the Board from August 2001 to January 2008.

Jack Silver. Mr. Silver has served as a member of the Board as its Chairman since January 2008. Mr. Silver is the principal investor and manager of SIAR Capital, LLC, an independent investment fund that invests primarily in undervalued, emerging growth companies, and is the trustee of Sherleigh.

James McKeever, CPA. Mr. McKeever has been our Interim Chief Financial Officer since January 2004. He also continues to be a partner in the accounting firm of Abrams & McKeever CPA's, which he joined in January 2000. Mr. McKeever has more than 18 years' experience in public accounting and financial reporting, and is a member of the New Jersey Society of Certified Public Accountants.

Adam Hershey. Mr. Hershey has served as a member of the Board since January 2008. Mr. Hershey has been a partner at SIAR Capital, LLC since September 2007. From March 2005 until joining SIAR, Mr. Hershey was a Vice President and Portfolio Manager of Neuberger Berman, LLC, a subsidiary of Lehman Brothers, managing capital for institutions and high net worth individuals. From 2003 to March 2005, Mr. Hershey was a Partner and Portfolio Manager at Sloate, Weisman, Murray & Company, a registered investment advisor that was acquired by Neuberger Berman, LLC in March 2005.

Peter Garson-Rappaport. Mr. Rappaport is an analyst at SIAR Capital, LLC. He has been at SIAR since December 2006. He previously was a co-owner and manager of Wash U Wash, a third party provider of laundry and dry-cleaning services. He also served as deputy finance director of Jeff Smith for Congress Campaign in the spring of 2004.

Martin Rappaport. Mr. Rappaport has served as a member of our board since June 2001. Mr. Rappaport is self-employed. For more than 30 years, he has developed and managed commercial and residential real estate.

Mr. Rappaport is an active supporter and contributor to Blythedale Children's Hospital in Valhalla, New York.

John A. Lack. Mr. Lack has served as a member of our board since June 2008. Since 1998, Mr. Lack has been the managing general partner of Digital, a media investment and consulting company. In his 35-year career in the media and entertainment industries, Mr. Lack is best known for creating MTV. Most recently Mr. Lack was a founding partner & CEO of Firebrand, the first multi-platform network dedicated to commercial culture. Mr. Lack is also the Chairman of the Guardian's Council at the Pollock-Krasner House and Study Center in East Hampton, NY and Chairman of the ASGOG Foundation.

Directors are elected annually and serve until the next annual meeting of the Company's stockholders, and until their successors have been elected and have qualified. Officers are appointed to their positions, and continue in such positions, at the discretion of the directors.

Committees of the Board

The Board of Directors is the acting Audit Committee. Our Board of Directors has determined that there is no person on our Board of Directors who qualifies as an audit committee financial expert as that term is defined by applicable Securities and Exchange Commission rules. The Board of Directors believes that obtaining the services of an audit committee financial expert is not economically rational at this time in light of the costs associated with identifying and retaining an individual who would qualify as an audit committee financial expert.

Indebtedness of Executive Officers and Directors

No executive officer, director or any member of these individuals' immediate families or any corporation or organization with whom any of these individuals is an affiliate is or has been indebted to us since the beginning of our last fiscal year.

Family Relationships

There are no family relationships among our executive officers and directors.

Legal Proceedings

During the past five years, none of our executive officers, directors, promoters or control persons has been involved in a legal proceeding material to an evaluation of the ability or integrity of such person.

Compliance with Section 16(a) of the Securities Exchange Act of 1934

Section 16(a) of the Securities Act of 1934, as amended, requires our directors and executive officers, and persons who own more than 10% our outstanding common stock, to file with the SEC, initial reports of ownership and reports of changes in ownership of our equity securities. These persons are required by SEC regulations to furnish us with copies of all the reports they file.

To our knowledge, based solely on a review of the copies of the reports furnished to us and written or oral representations that no other reports were required for those persons during the fiscal year ended March 31, 2008, we believe that all of our officers, directors and greater than 10% beneficial owners complied with the reporting requirements of Section 16(a) of the Securities Exchange Act of 1934, as amended, other than as follows:

✶Ronald Wilen, a director and our chief executive officer and president, Martin Rappaport, a director, Louis Bernstein, a former director, and Andrea Pampanini, a former director, each failed to report the granting of options for 10,000 shares of our common stock in lieu of an annual director retainer and meeting fees.

✶Adam Hershey and Peter Garson-Rappaport, both directors, failed to file a Form 3 indicating that they did not beneficially own any securities of the Company as of the date they each became a director.

Code of Ethics

We have adopted a Code of Business Conduct and Ethics (the “Code”) that applies to all of our employees (including executive officers) and directors. The Code is available on our website at www.unitedenergycorp.net under the heading “Investor Information”. We intend to satisfy the disclosure requirement regarding any waiver of a provision of the Code applicable to any executive officer or director, by posting such information on such website.

ITEM 10. EXECUTIVE COMPENSATION

The following Summary Compensation Table sets forth, for the years indicated, all cash compensation paid, distributed or accrued for services, including salary and bonus amounts, rendered in all capacities by our Chief Executive Officer and all other executive officers who received or are entitled to receive remuneration in excess of \$100,000 during the stated periods.

Name and Principal Position	Fiscal Year	Summary Compensation Table			Total
		Salary	Option Awards	All other Compensation	
		(\$)	(\$)	(\$)	(1)
Ronald Wilen	2008	200,769	98,700	7,935	(2)
Chief Executive Officer and President	2007	200,000	3,875	8,901	(2)
Brian King (3)	2008	130,769	-	11,088	(3)
Former President and Chief Executive Officer	2007	200,000	495,000	17,067	(3)

(1) We pay for medical insurance for all employees. Included in the table is the amount of the premiums paid by us dependent on the coverage provided.

(2) During the fiscal years ended March 31, 2008 and 2007, we paid for the lease on one automobile used by Mr. Wilen under monthly lease payments. We also paid for medical insurance for Mr. Wilen at a rate of \$325.80 per month.

(3) We paid for Mr. King’s medical insurance at a rate of \$1,400.30 per month.

(4) Mr. King resigned as our Chief Executive Officer in November 2007.

Director Compensation

Each non-employee director and Ron Wilen receives options for 10,000 shares of our common stock in lieu of an annual retainer and meeting fees. Other than the 10,000 options granted there are no special fees, contracts entered into, or payments made in consideration of any director’s service as a director.

The following table shows compensation paid to all directors who are not also employees during fiscal year ended March 31, 2008.

Name	Option	
	Awards (\$)	Total (\$)
Jack Silver (1)	-	-
Adam Hershey (1)	-	-
John A. Lack (2)	-	-
Peter Garson-Rappaport(3)	-	-
Martin Rappaport(4)	3,200	3,200
Louis Bernstein (4)	2,471	2,471
Andrea Pampanini (4)	2,471	2,471

- (1) Mr. Silver and Mr. Hershey were appointed directors on January 25, 2008.
(2) Mr. Lack was appointed director on June 4, 2008.
(3) Mr. Rappaport was appointed director on March 24, 2008.
(4) Mr. Bernstein and Ms. Pampanini resigned as directors on January 1, 2008.

Outstanding Equity Awards at Fiscal Year End

Name	Number of Securities Underlying Unexercised Options (#) Exercisable	Option Awards	
		Option Exercise Price (\$)	Option Expiration Date
Ronald Wilen, Chief Executive Officer, and President	40,000	1.00	3/31/2015
	10,000	1.60	1/1/2016
	10,000	1.00	3/30/2017
	10,000	1.00	3/31/2018
	400,000	1.11	3/4/2012
	100,000	1.80	11/16/2012

	500,000	1.06	4/1/2015
	250,000	2.05	4/1/2016

Stock Option Plan

In August 2001, our stockholders approved the 2001 Equity Incentive Plan which provides for the grant of stock options to purchase up to 2,000,000 shares of common stock to any employee, non-employee director or consultant at our board's discretion. Under the 2001 Equity Incentive Plan, options may be exercised for a period up to ten years from the date of grant. Options issued to employees are exercisable upon vesting, which can range between the date of the grant to up to five years.

An amendment and restatement of the 2001 Equity Incentive Plan increasing the number of shares issuable under the plan to a total of 4,000,000 was approved by the Board of Directors on May 29, 2002 and was approved by our

shareholders at the annual meeting.

22

Under the 2001 Plan, options are granted to non-employee directors upon election at the annual meeting of stockholders at a purchase price equal to the fair market value on the date of grant. In addition, non-employee director stock options shall be exercisable in full twelve months after the date of grant unless determined otherwise by the compensation committee.

There were no stock options to purchase shares of our common stock available for future grant as of March 31, 2008 under the 2001 Equity Incentive Plan.

11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Beneficial Ownership Information

The following table sets forth information regarding the number of shares of our common stock beneficially owned on June 30, 2008, by each of our directors, each of our executive officers named in the Summary Compensation Table above, all of our executive officers and directors as a group, and by any person or “group,” as that term is used in Section 13(d)(3) of the Securities Exchange Act of 1934, known to us to own beneficially more than 5% of the outstanding shares of our common stock. Except as otherwise set forth below, the address of each of the persons listed below is c/o United Energy Corp., 600 Meadowlands Parkway, #20, Secaucus, New Jersey 07094.

Name and Address of Beneficial Owner	Amount and Nature of Beneficial Ownership(1)	Percent of Class (1)
Ronald Wilen	4,407,000(2)	13.8%
James McKeever, CPA	3,000	*
Jack Silver SIAR Capital LLC 660 Madison Avenue New York, NY 10021	3,155,340(3)	9.9%
Martin Rappaport	2,290,000(4)	7.4%
Adam Hershey	0	*
Peter Garson-Rappaport	0	*
John A. Lack	0	*
All current executive officers and directors as a group (6 persons)	9,855,340	30.1%
5% or Greater Stockholders:		
Joseph J. Grano, Jr. c/o Centurion Holdings LLC	2,008,665(5)	6.4%

1185 Avenue of the Americas, Suite 2250
New York, NY 10036

* Less than 1% of outstanding shares.

23

- (1) As of June 30, 2008, the Company had 31,030,115 shares of common stock and three shares of Preferred Stock outstanding. Unless otherwise indicated in these footnotes, each stockholder has sole voting and investment power with respect to the shares beneficially owned. All share amounts reflect beneficial ownership determined pursuant to Rule 13d-3 under the Exchange Act. All information with respect to beneficial ownership has been furnished by the respective director, executive officer or stockholder, as the case may be.
- (2) Includes (i) stock options to purchase 400,000 shares at an exercise price of \$1.11 per share, (ii) stock options to purchase 100,000 shares at an exercise price of \$1.80 per share, (iii) stock options to purchase 60,000 shares at an exercise price of \$1.00 per share, (iv) stock options to purchase 10,000 shares at an exercise price of \$1.60 per share, which are currently exercisable and (v) stock options to purchase 250,000 shares at \$1.00 per share.
- (3) Includes (i) 2,313,333 shares held by Sherleigh, a trust of which Mr. Silver is the trustee, (ii) 5,682,667 shares of common stock issuable upon exercise of warrants held by Sherleigh; and (iii) 24,000 shares of common stock issuable upon conversion of 3 shares of Preferred Stock held by Sherleigh, but excludes shares of Common Stock underlying such warrants and Preferred Stock to the extent following the exercise or conversion thereof, Sherleigh and its affiliates would be deemed to beneficially own more than 9.9% of the total number of issued and outstanding common stock of the Company. Pursuant to the terms of the warrants and the Preferred Stock, the warrants the Preferred Stock cannot be exercised or converted to the extent following such exercise or conversion the holder or its affiliates would beneficially own more than 9.99% of the total number of issued and outstanding Common Stock of the Company. The three shares of Preferred Stock constitute 100% of the class of such voting equity securities.
- (4) Includes (i) stock options to purchase 10,000 shares at an exercise price of \$0.70 per share, (ii) stock options to purchase 10,000 shares at an exercise price of \$1.30 per share, (iii) stock options to purchase 10,000 shares at an exercise price of \$1.18 per share, (iv) stock options to purchase 40,000 shares at an exercise price of \$1.00 per share, (v) stock options to purchase 10,000 shares at an exercise price of \$1.60 per share, which are currently exercisable.
- (5) Includes 1,875,332 shares of Common Stock and warrants to purchase 133,333 shares of common stock.

Equity Compensation Plan Information

The following table provides information regarding the status of our existing equity compensation plans at March 31, 2008.

Plan Category	Number of securities		Weighted-average exercise price of (excluding securities reflected in column (a))	Number of securities remaining available for future issuance under equity compensation plans
	to be issued upon exercise of warrants and rights	outstanding options, warrants and rights		
	(a)	(b)	(c)	
Equity compensation plans approved by security holders	3,687,500	\$	1.16	—
Equity compensation plans not approved by security holders	1,475,000	\$	1.55	—
Total	5,162,500			

Change of Control

Pursuant to a Securities Purchase Agreement, dated March 18, 2005, among the Company and the Purchasers identified therein, including Sherleigh, as amended by the First Amendment to Securities Purchase Agreement, dated as of January 26, 2006, and by the Second Amendment to Securities Purchase Agreement, dated as of March 9, 2006 (as amended, the "Purchase Agreement"), during the period of March 2005 through March 2006, Sherleigh purchased from the Company (a) 1,333,333 shares of Common Stock, (b) warrants to acquire 5,682,667 shares of Common Stock, and (c) three shares of the Company's Preferred Stock for an aggregate purchase price of \$1,090,331.

The Purchase Agreement and the Preferred Stock provide that, upon the occurrence of a “Triggering Event” and during the “Period of Triggering Event”, the holders of the majority of the outstanding shares of Preferred Stock have the right to designate up to a majority of the members of our board of directors. “Triggering Event” is defined as (i) failure of the Company to have gross revenues of at least \$5 million for the six month period ending September 30, 2006 or (ii) material breach by the Company of any of its representations, warranties, agreements or covenants contained in the Purchase Agreement and certain other agreements and instruments entered into in connection therewith. The Company failed to have gross revenues of at least \$5 million during the six months ended September 30, 2006, and thus, a Triggering Event has occurred. “Period of the Triggering Event” is defined as date commencing upon the occurrence of a Triggering Event and ending on the date the purchasers under the Purchase Agreement no longer hold in the aggregate at least 1,500,000 shares of common stock issued pursuant to the Purchase Agreement and issuable upon the exercise of any warrants issued pursuant to the Purchase Agreement or upon conversion of the Preferred Stock. Accordingly, pursuant to the terms of the Purchase Agreement and the Preferred Stock, Sherleigh, as the holder of all outstanding shares of Preferred Stock, has the right to designate a majority of the members of our board of directors.

As of June 30, 2008, three of our six directors have been designated by Sherleigh. Such designees of Sherleigh are Jack Silver, Adam Hershey and Peter Garson-Rappaport.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

We have an amount due to Robert Seaman, a shareholder and former director of the Company. The amount due as of March 31, 2008 was \$244,141. This amount is unsecured, non-interest bearing and due upon demand.

Martin Rappaport, one of our directors, owned the building through September 2007 in which we lease our principal executive offices in Secaucus, New Jersey. We paid \$115,200 per year under the lease, excluding real estate taxes. We believe that this transaction was advantageous to us and was on terms no less favorable to us than could have been obtained from unaffiliated third parties.

During August 2005, the Chairman of the Board, Ron Wilen and the President and Chief Executive Officer, Brian King, each loaned the Company \$100,000. The loans are both unsecured, non-interest bearing and due upon demand. Each of these loans was repaid in full in April, 2006.

Securities Purchase Agreement

Pursuant to the Purchase Agreement, in March 2005, Sherleigh purchased from the Company 533,333 shares of common stock and Series A Warrants to acquire 266,667 shares of common stock for a purchase price of \$426,664. Thereafter, during the period of August 2005 through January 2006, Sherleigh purchased, pursuant to the Purchase Agreement, 800,000 additional shares of common stock and additional Series A Warrants to acquire 400,000 shares of common stock for an aggregate purchase price of \$639,667. Then in March 2006, pursuant to the Purchase Agreement, Sherleigh purchased 3 shares of Preferred Stock, Series B Warrants to acquire 12,000 shares of common stock and Series C Warrants to acquire 5,004,000 shares of common stock for a purchase price of \$24,000.

In addition, pursuant to the Purchase Agreement, and the Preferred Stock, upon the occurrence of a “Triggering Event” and during the “Period of Triggering Event”, the holders of the majority of the outstanding Preferred Stock have the right to designate up to a majority of the members of the Company’s board of directors. “Triggering Event” is defined as (i) failure of the Company to have gross revenues of at least \$5 million for the six month period ending September 30, 2006 or (ii) material breach by the Company of any of its representations, warranties, agreements or covenants contained in the Purchase Agreement and certain other agreements and instruments entered into in connection therewith. The Company failed to have gross revenues of at least \$5 million for the six months ended September 30,

2006, and thus a Triggering Event has occurred. "Period of the Triggering Event" is defined as date commencing upon the occurrence of a Triggering Event and ending on the date the purchasers under the Purchase Agreement no longer hold in the aggregate at least 1,500,000 shares of common stock issued pursuant to the Purchase Agreement or issuable upon the exercise of any warrants issued pursuant to the Purchase Agreement or upon conversion of the Preferred Stock.

25

The Purchase Agreement also provides that until March 18, 2009, the purchasers have the right to participate in any future equity financing, including securities convertible into or exchangeable into equity securities.

Series A, Series B and Series C Warrants

Each of the Series A, Series B and Series C Warrants provide that they may be exercised at any time prior to the five year anniversary date of the issuance of such warrants, for an exercise price of \$1.00 per share. The warrants also provide for cashless exercise at the option of the holder and anti-dilution protection in the event the Company is deemed to have issued shares of common stock for a price less than the exercise price.

Series A Convertible Preferred Stock

Each share of Preferred Stock earns dividends at the rate of 6% per annum of the Stated Value of \$8,000. Such dividends are payable from legally available funds on June 30th and December 30 of each year, or at the option of the holder, in shares of common stock of the Company at \$1.00 per share.

Each share of Preferred Stock is convertible into 8,000 shares of common stock at the option of the holder. Such conversion rate is subject to anti-dilution protections in the event the Issuer is deemed to have issued shares of Common Stock at a price less than the conversion price.

The holders of the Preferred Stock have no voting rights except as required by law and except the right to designate and elect a majority of the Company's board of directors upon the occurrence of a Triggering Event, as described above.

In the event of a liquidation, dissolution or winding up of the Company's business, the holders of the Preferred Stock have a liquidation preference equal to \$8,000 per share of Preferred Stock plus all accrued but unpaid dividends thereon.

Registration Rights Agreements

In connection with the Purchase Agreement the Company entered into a Registration Rights Agreement, wherein it agreed to file a registration statement registering the common stock issued pursuant to the Purchase Agreement and the common stock underlying the Series A Warrants, the Series B Warrants and the Preferred Stock.

In connection with the Second Amendment to the Purchase Agreement, the Company entered into a Registration Rights Agreement, wherein it agreed to file a registration statement registering the common stock underlying the Series C Warrants.

Director Independence

The board of directors have determined that Messrs Silver, Hershey, Garson-Rappaport, Rappaport and Lack are independent directors as defined in NASDAQ Marketplace Rule 4200(a)(15).

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Audit Fees

The aggregate fees billed or expected to be billed by Imowitz, Koenig & Co., LLP (“Imowitz”) for professional services rendered for the audit of our annual financial statements for the fiscal year ended March 31, 2008 and 2007 and for the reviews of the interim financial statements included in our Quarterly Reports on Form 10-QSB for the fiscal years were approximately \$75,000 and \$70,000, respectively.

Audit-Related Fees

Fees of \$7,088 and \$3,473 to Imowitz for audit-related services for the fiscal year ended March 31, 2008 and March 31, 2007.

Tax Fees

No fees were billed by Imowitz for tax services rendered for the fiscal years ended March 31, 2008 and 2007.

All Other Fees

Imowitz did not render any other services, other than the services described above under “Audit Fees,” “Audit-Related Fees” and “Tax Fees” for the fiscal year ended March 31, 2008 or for the fiscal year ended March 31, 2007.

Audit Committee

Our board of directors has established a policy requiring its pre-approval of all audit services and permissible non-audit services provided by the independent auditors, along with the associated fees for those services. The policy requires the specific pre-approval of all permitted services. When considering the pre-approval of non-audit services, our board considers whether the provision of such non-audit service is consistent with the auditor’s independence and the Securities and Exchange Commission rules regarding auditor independence. Additionally, our board considers whether the independent auditors are best positioned and qualified to provide the most effective and efficient service, based on factors such as the independent auditors’ familiarity with our business, personnel, systems or risk profile and whether provision of the service by the independent auditors would enhance our ability to manage or control risk or improve audit quality or would otherwise be beneficial to us.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.

Consolidated statements of stockholders' equity	F-6
Consolidated statements of cash flows	F-7- F-8
Notes to consolidated financial statements	F-9-F-17

F-1

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of United Energy Corp.:

We have audited the accompanying consolidated balance sheets of United Energy Corp. (a Nevada corporation) and subsidiaries as of March 31, 2008 and March 31, 2007 and the related consolidated statements of operations, cash flows and stockholders' equity for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor have we been engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for purposes of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of United Energy Corp. and subsidiaries as of March 31, 2008 and March 31, 2007 and the consolidated results of their operations and their consolidated cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has incurred recurring losses and negative cash flows from operations. These matters raise substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.
