State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

On September 5, 2008, we together with certain of our subsidiaries, filed a voluntary petition for relief under Chapter 11 of the U.S. Bankruptcy Code in the U.S. Bankruptcy Court for the District of Maryland (Case No. 08-21389). We are currently considering various strategic alternatives available to facilitate our restructuring and are operating with a reduced accounting and finance staff. Because of the significant efforts required by the remaining accounting and finance staff to prepare such analysis and documentation related to analyzing those potential alternatives, preparing required periodic reports to the Court, and considering the potential impact of the various options to our financial condition and our ability to continue as a going concern, we are not able to file our Form 10-K for the period ended December 31, 2008 within the prescribed time period.

- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes  No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

Our Form 10-K for the year ended December 31, 2008 will report a significant change from our report as of December 31, 2007 due to our sales and transfers of assets to repay debt since December 31, 2007. Since December 31, 2007 we have sold securities and transferred securities to repurchase agreement lenders to repay short-term debt and we entered into several term-note agreements for balances due on repurchase agreement debt. Subsequent to entering into those term-note agreements, our remaining repurchase agreement lender declared an event of default to have occurred on our repurchase agreement with them due to our inability to deliver additional securities or cash necessary to fulfill our obligations under the terms of the agreement. As a result of the event of default, the repurchase agreement lender took possession of all remaining mortgage-backed securities of value, including securities that were retained from our whole loan securitizations. These transfers of securities resulted in the derecognition of all of our remaining mortgage-backed securities from our balance sheet and the deconsolidation of all of our securitization trusts because we no longer have the rights to receive principal and interest cash payments from these securities. As of the date our repurchase agreement lender took possession of our remaining securities, our operations effectively ceased while we consider strategic alternatives. In addition, due to our adoption of the Statement of Financial Accounting Standards No. 159, Fair Value Option, as of January 1, 2008, all gains and losses in the fair value of our investment assets and financing liabilities are now recognized in our statement of operations. We are unable to provide a reasonable estimate of the changes from the prior year report until the preparation of the key elements of the financial statements is completed.
