Item 8.01. Other Events.

On March 11, 2010, Neoprobe Corporation (the "Company") issued a press release announcing that it recently met with the United States Food and Drug Administration (the "FDA") to review the clinical trial results of a Phase 3 investigational new drug, Lymphoseek. The Phase 3 clinical study (NEO3-05) was conducted in subjects diagnosed with either breast cancer or melanoma. The FDA review included the efficacy and safety results of the NEO3-05 study and the Company's plans for the submission of a New Drug Application ("NDA") for Lymphoseek. The NDA submission will be based on the clinical results of NEO3-05 and other already completed clinical evaluations of Lymphoseek. FDA encouraged the Company to request a series of pre-NDA meetings in the coming months to review the components of the NDA prior to its formal submission. The Company indicated to FDA that it plans to submit the NDA following satisfactory completion of these meetings. A copy of the complete text of the Company's March 11, 2010, press release is furnished as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.
