The aggregate market value of the voting stock held on December 31, 2010 by non-affiliates of the registrant was \$132,756,355 based on the closing price of \$1.47 per share as reported on the OTC Bulletin Board on January 31, 2011, the last business day of the registrant's most recently completed fiscal second quarter (calculated by excluding all shares held by executive officers, directors and holders known to the registrant of five percent or more of the voting power of the registrant's common stock, without conceding that such persons are "affiliates" of the registrant for purposes of the federal securities laws).

Explanatory Note: This Amendment No. 2 on Form 10-K/A amends our Annual Report on Form 10-K for the fiscal year ended June 30, 2011, which was originally filed with the SEC on October 13, 2011 and subsequently amended on October 20, 2011. The sole purpose of this Amendment No. 2 on Form 10-K/A is to address certain comments received by the Securities and Exchange Commission regarding our disclosures in Item 9A(T). Controls and Procedures.

Item 9A(T). Controls and Procedures

Evaluation of Disclosure Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our chief executive and chief financial officer, as appropriate, to allow for timely decisions regarding required disclosure. Disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Management has designed our disclosure controls and procedures to provide reasonable assurance of achieving the desired control objectives.

As required by Exchange Act Rule 13a-15(b), we have carried out an evaluation, under the supervision and with the participation of our management, including our principal executive and principal financial officer, of the effectiveness of the design and operation of our management, including our principal executive and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2011.

a) Based upon an evaluation of the effectiveness of disclosure controls and procedures, our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") have concluded that as of the end of the period covered by this Annual Report on Form 10-K, as amended, our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Exchange Act) were not effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the SEC and is accumulated and communicated to management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

b) Changes in internal control over financial reporting. Since the Company is not listed on a national exchange or on an automated interdealer quotation system, it is not required to have an audit committee or independent directors. We consider this to be a material weakness. The Company is in the process of addressing this issue by establishing an Audit Committee, appointing independent directors with at least one having financial expertise.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a- 15(f) under the Securities Exchange Act of 1934, as amended. Internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the United States of America ("GAAP"). We recognize that because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Management conducted an evaluation of the effectiveness of our internal control over financial reporting as of June 30, 2011. To evaluate the effectiveness of our internal control over financial reporting, management used the criteria described in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO Framework"). Based on its evaluation under the *Internal Control - Evaluation Framework*, due to the material weakness described above, management concluded that our internal control over financial reporting was not effective as of June 30, 2011. A material weakness is a control deficiency, or combination of control deficiencies, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented or detected on a timely basis by the Board in the normal course of their duties. *See, AUDITOR'S OPINION PARAGRAPH.*

Based on its evaluation under the Internal Control - Evaluation Framework, due to the material weakness described above, management concluded that our internal control over financial reporting was not effective as of June 30, 2011.

The material weakness relates to a lack of a functioning audit committee and a lack of outside directors on the Company's Board. We intend to initiate measures to remediate the identified material weakness by establishing a formal audit committee and the appointment of additional outside directors, one or more of whom may be appointed to a fully functioning audit committee.

During the period ended June 30, 2009, the Company implemented additional segregation of responsibilities and authorizations for initiating, authorizing and recording transactions. In addition the Company has engaged the services of a financial consultant to assist in reviewing significant transactions and the Company's quarterly and annual financial statements.

Changes in Internal Control Over Financial Reporting

Other than as described above, there were no material changes in our internal control over financial reporting (as defined in Rule 13a- 15(f) under the Exchange Act) that occurred as of June 30, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Attestation Report of the Independent Registered Public Accounting Firm

This annual report includes an attestation report of our registered public accounting firm regarding internal control over financial reporting. The final paragraph of the Auditor's Report states:

“Also in our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of June 30, 2011 and 2010 and the results of its operations and its cash flows for the fiscal years then ended and for the period from May 12, 2005 (inception) through June 30, 2011 in conformity with accounting principles generally accepted in the United States of America.”
