[Qualitative information on consolidated financial results]

Net sales remained firm, rising 6.1% from the same period of the previous fiscal year, to 143,741 million yen, led principally by performance in Asia and Europe.

Regarding earnings, the cost to sales ratio improved significantly because of expanded production at plants in

Japan and China as well as other factors. Moreover, in contrast to the previous fiscal year, when the Company reported a fixed asset impairment loss of 5.0 billion yen in connection with a golf course subsidiary, during the period under review, the Company posted a gain of approximately 4.4 billion yen on the transfer to the government of the substitutional portion of the employee's pension fund managed by the Company. As a result of these and other factors, profitability improved significantly. Operating income expanded 2.7 times to 25,542 million yen and income before income taxes rose 2.6 times to 27,083 million yen. Similarly, net income posted a gain of 6.4 times from the same period of the previous fiscal year and rose to 18,825 million yen.

Please note that although the Company signed an agreement to acquire the nailer business of Kanematsu-NNK Corp. on December 24, 2004, the date of the acquisition will be April 1, 2005. This transaction will therefore not have an effect on the results for the current fiscal year.

fund formerly managed by the Company)

(Net Cash Used in Investing Activities)

Net cash used in investing activities was 8,722 million yen. This was primarily because of capital expenditures on property, plant and equipment principally metal molds to be used in manufacturing new products combined with a higher volume of purchases of securities and investment securities than sale of such securities.

(Net Cash Used in Financing Activities)

Net cash used in financing activities was 2,804 million yen, reflecting the payment of cash dividends and other factors.
