MINUTES
OF
2005 ANNUAL GENERAL SHAREHOLDERS MEETING
OF
TAIWAN SEMICONDUCTOR MANUFACTURING COMPANY LIMITED
(Translation)

Time and Date of Meeting: 9:50 a.m., May 10, 2005

Place of Meeting: Auditorium in the Activity Center of Hsinchu Science Park (No. 2, Shing-An Road, Hsinchu Science Park, Hsin-Chu, Taiwan, ROC)

Total outstanding shares of TSMC: 23,252,863,457 shares

Total shares represented by shareholders present: 20,090,360,221 shares

Percentage of shares held by shareholders present: 86.4 %

Chairman: Dr. Morris Chang, the Chairman of the Board of Directors

Recorder: Sylvia Fang

The aggregate shareholding of the shareholders present constituted a quorum. The Chairman called the meeting to order.

A. Agenda:

Report Items

- I. Reported the business of 2004 (Attachment I).
 - II. Supervisors review report (Attachment II).
 - III. Reported the status of acquisition or disposal of assets with related parties for 2004 (Attachment III).
 - IV. Reported the status of guarantee provided by TSMC as of the end of 2004:
-

1. TSMC provided a guarantee for its subsidiary, TSMC North America. As of the end of 2004, the balance of the guarantee is US\$40,000,000.
2. TSMC provided a guarantee for its subsidiary, TSMC Development, Inc. As of the end of 2004, the balance of the guarantee is US\$60,000,000.
3. The guarantee provided by TSMC for its subsidiary, WaferTech, LLC was decreased by US\$440,000,000 in 2004. As of the end of 2004, the balance of the guarantee is zero.

V. The implementation of treasury stock buyback in 2004

1. Approval Date of Board of Directors Meeting: March 23, 2004.
2. Purpose of the buyback: For the shareholders' interest.
3. Period of buyback: From March 24, 2004 to May 23, 2004.
4. Contemplated price range: NT\$38.5 to NT\$95 per share
5. Number of shares bought back : 124,720,000 shares.
6. Total amount of buyback: NT\$7,059,797,818
7. Cancellation of buyback shares: 124,720,000 shares

(Shareholders' comments and questions relating to the settlement with SMIC, etc. and the management's responses omitted.)

Resolutions

I. The 2004 Business Report and Financial Statements were submitted at the meeting for acceptance.

Explanatory
Notes:

1. TSMC's 2004 Financial Statements, including Balance Sheet, Income Statement, Statement of Changes in Shareholders' Equity, and Cash Flow Statement, were audited by certified public accountants, Messrs. Jackson Huang and Michael Chang, of Deloitte & Touche and were approved at the Board of Directors' Meeting held on February 22, 2005.
 2. The 2004 Business Report, CPA's audit report, and the above-mentioned Financial Statements are
-

attached hereto as Attachments I, IV and V.

3. Please accept the above-mentioned Business Report and Financial Statements.

Upon solicitation of comments by the Chairman, there was no objection voiced and the following resolution was adopted unanimously by the shareholders present:

RESOLVED, that the 2004 Business Report and Financial Statements be and hereby are accepted as submitted.

(Shareholders' comments and questions relating to TSMC's technical innovations and account receivable, etc. and the management's responses omitted.)

- II. The proposal for distribution of 2004 profits was submitted at the meeting for discussion and approval.

Explanatory
Notes:

1. The proposed distribution is allocated from 2004 Earnings Available for Distribution, and was adopted at the Meeting of Board of Directors on February 22, 2005.
 2. Each shareholder will be entitled to receive a cash dividend of NT\$2 per share, and a stock dividend of 50 shares for each 1,000 shares held by such shareholder. If the stock dividends include any fractional shares which are less than one full share, the shareholders concerned may arrange for pooling together their fractional shares to form one full share and register the same within 5 days after the record date. For the fractional shares which cannot be pooled, the distribution will be made in the form of cash rounded to the nearest dollar amount calculated at par value. Such fractional shares will be purchased by persons arranged by the Chairman as authorized by the Board of
-

Directors of TSMC.

The total amount of common shares outstanding may change and the ultimate cash dividend and stock dividend per common share may need to be adjusted accordingly should TSMC subsequently repurchase its common shares, or issue new common shares to its employees as a result of their exercise of stock options. It is proposed that the Chairman of Board of Directors of TSMC be authorized to adjust the cash dividend and stock dividend per common share based on the total amount of profits resolved to be distributed and the number of actual common shares outstanding on the record date for dividend distribution.

3. The 2004 Profit Allocation Proposal is attached hereto as Attachment VI.

Upon solicitation of comments by the Chairman, there was no objection voiced and the following resolution was adopted unanimously by the shareholders present:

RESOLVED, that the above proposals regarding distribution of 2004 profits be and hereby are approved as proposed.

(Shareholders' comments and questions relating to distribution of profits, etc. and the management's responses omitted.)

- III. A proposal to approve the capitalization of 2004 dividends and employee profit sharing (in stock) was submitted at the meeting for discussion and approval.

Explanatory Notes:	1. For purposes of machine purchase and production capacity expansion, it is proposed that TSMC's paid-in capital be increased by capitalizing the stock dividends to common share holders of NT\$11,626,024,220 (As mentioned in the
-----------------------	---

Explanatory Notes (2) of Proposed Resolution 2, each common share holder will be entitled to receive a stock dividend of 50 shares for each 1,000 shares) and employee profit sharing (in stock) of NT\$3,086,215,260 allocated from 2004 Earnings Available for Distribution.

2. The total amount of paid-in capital increase shall be NT\$14,712,239,480, and 1,471,223,948 common shares, at par value of NT\$10 each share, shall be issued for such capital increase.
3. The shareholder's rights and obligations of the new shares are the same as those of the existing shares. After being approved by the governmental authority in charge, the new shares will be distributed on a record date to be determined by the Board of Directors or its designee(s).
4. As of March 12, 2005 (the first day of book-close period for registration of share transfer before the Annual General Shareholders Meeting), the number of exercisable shares of employees' stock options that TSMC granted is approximately 62,045,000 shares. Due to the aforesaid paid-in capital increase, TSMC has to adjust upwards the number of employees' stock options in proportion to the capital increase. It is estimated the number of such additional employees' stock options is approximately 3,102,000 shares. Since the additional employees' stock options are issued in proportion to the increase of paid-in capital, it shall not cause any major impact to shareholders' interest. There are sufficient common shares reserved in the Articles of Incorporation for granting the aforesaid additional employees' stock options.

Upon solicitation of comments by the Chairman, there was no objection voiced and the following resolution was adopted unanimously by the

shareholders present:

RESOLVED, that the capitalization of 2004 dividends and employee profit sharing (in stock) be and hereby is approved as proposed.

- IV. A proposal to approve revisions to the Articles of Incorporation was submitted at the meeting for discussion and approval.

Explanatory Notes: The Comparison Table for the Articles of Incorporation Before and After Revision is attached hereto as

Attachment VII.

Upon solicitation of comments by the Chairman, there was no objection voiced and the following resolution was adopted unanimously by the shareholders present:

RESOLVED, that the revisions to the Articles of Incorporation be and hereby is approved as proposed.

(Shareholders' comments and questions relating to the authorized capital, etc. and the management's responses omitted.)

B. Special Motion

(Shareholders' comments and questions relating to TSMC's investment in China, profit contribution to shareholders and profit sharing to employees, and company operations, etc. and the management's responses omitted.)

There being no other business and special motion, upon a motion duly made and seconded, the meeting was adjourned.

Morris Chang
Chairman of the Board of Directors

Sylvia Fang
Recorder

Business Report

Year 2004 was a banner year for TSMC. We again set new records for revenues and earnings, while continuing to lead the semiconductor dedicated foundry sector. Our production accounted for more than 7% of the total value of the world's semiconductor output.

TSMC's performance was anchored in our Trinity of Strength: strength in technology development and deployment, strength in manufacturing capacity and efficiency, and strength in building customer partnerships. For example:

TSMC cumulatively shipped over one million wafers (8-inch equivalent) in 0.13-micron technology.

TSMC's NexsysSM 90nm, the world's first 12-inch, low-k, 90-nanometer process to reach full production, was adopted in more than 30 customer products after one year's ramp, and achieved product yields ahead of internal goals.

TSMC served more than 300 customers and produced more than 5,000 products in our fabs.

With its core manufacturing and logistics competencies, TSMC's experience in integrating front-end design and back-end turn-key services has helped customers resolve many daunting challenges in advanced chips designed with our 90nm technology. We collaborate closely with customers, enabling them to deliver their products on time and to achieve success in their end markets.

Financial Strength and Results

TSMC broke new records in both revenues and net income in 2004. Revenue reached NT\$255.9 billion, an increase of 26.8% compared with the previous record set in 2003. Net income was NT\$92.32 billion, an increase of 95.3% compared with 2003 results, while fully diluted earnings per share were NT\$3.97 (US\$0.59 per ADS unit), an increase of 96.8%. In US dollars, revenue for 2004 was US\$7.65 billion, an increase of 30.3%, while net income grew to US\$2.76 billion, an increase of 100%.

A Long-Term Growth Engine

TSMC's consistently strong financial performance proves the company's value as a solid long-term growth engine. The cyclical nature of the semiconductor industry is well known. Since the mid-1990s, we have taken strategic advantage of upturns. But we are careful not to overreach, and so we weather downturns well. We have been free cash flow positive in all but one year in our 18-year history, a track record rarely found in this industry.

Our recently enhanced dividend policy is a sign of our confidence in the TSMC growth engine. After the company's IPO in 1994, we made our first cash dividend payment in 2004, with a 30% cash payout ratio. We further resolved to distribute future dividends preferentially in cash. Under a change approved by shareholders on December 21, 2004, stock dividends will not exceed 50 percent of total distributions in future. The change will permit us more flexibility in planning future cash dividend distributions.

Two-Pronged Business Strategy to Ensure Future Growth

Our strategy for continued profitable growth has two dimensions: horizontal expansion into specialty technologies platforms in mature technologies; and vertical expansion through leadership in advanced process technologies for next-generation products. With specialty technologies, we can leverage our unique scale and manufacturing know-how at older, partly depreciated fab facilities to increase capacity utilization and margins throughout the cycle.

With demand strong for our 90nm technology, we plan to substantially increase our capacity of 90nm in 2005. Our total capacity for advanced technologies (defined as 0.13-micron and below) will more than double in 2005.

Innovation

TSMC has continued to demonstrate its leadership in semiconductor processes technology. For example, in December 2004, TSMC announced the successful use of immersion lithography tools developed by ASML to produce fully functional 90nm devices. These circuits represented the world's first publicly announced data indicating that immersion-based lithography systems are nearing production-ready status.

Recognition and Awards for Outstanding Achievements

TSMC continued to receive recognition and awards from around the world as a corporate role model. Among the numerous media surveys conducted in 2004 (for example, Institutional Investors, The Asset Magazine, AsiaMoney, Finance Asia, IR Magazine, and The Know Network), TSMC was awarded top honors in the areas of overall management, knowledge management, corporate governance and investor relations, and was voted the "Most Admired Company" by CommonWealth Magazine. In addition, TSMC received the Gold Medal Award from The Department of Economic Affairs of the Government of the Republic of China in the "National Invention and Creation" category.

Other Corporate Developments

In the period from March 24 to May 21, 2004, TSMC bought back 124.72 million common shares, representing 0.6% of total outstanding shares at that time. These repurchased shares were subsequently cancelled during the third quarter of 2004.

TSMC, TSMC North America, and WaferTech filed a series of lawsuits in late 2003 and 2004 in both state and federal courts in California and with the U. S. International Trade Commission against Semiconductor Manufacturing International Corporation (SMIC), SMIC (Shanghai), and SMIC Americas. The lawsuits alleged that SMIC companies infringed multiple TSMC patents and misappropriated TSMC's trade secrets. These suits have been settled out of court. As part of

the agreement, SMIC will pay TSMC US\$175 million over six years to resolve TSMC's patent infringement and trade secret claims.

Outlook for the Future

We believe that the world semiconductor industry is likely to expand at a compound annual growth rate of 8% to 10% within this decade. Coming out of the industry's most severe cyclical downturn in 2001, the global semiconductor industry has experienced two consecutive years of strong growth: 18% in 2003 followed by an estimated 28% growth in 2004. We now expect global semiconductor revenue to remain at about the same level or slightly lower in 2005. The value of the foundry segment's output is likely to have increased from a 16% share of world IC markets in 2003 to an estimated 18% in 2004. Our trinity of strengths and our two-pronged growth strategy, coupled with our continuing emphasis on cost efficiency, should enable TSMC to compete well.

We have every confidence that our dedication, our operating and financial discipline, as well as our strong commitment to innovation and customer partnership, will continue to produce the outstanding performance that has characterized TSMC since we founded the dedicated semiconductor foundry business in 1987.

Morris Chang, Chairman and CEO
F.C. Tseng, Deputy CEO
Rick Tsai, President and COO

ATTACHMENT II

Supervisors Report

The Board of Directors has prepared and submitted to the supervisors the Company's 2004 business Report, financial Statements, and proposal for allocation of profits. The CPA firm of Deloitte & Touche were retained to audit TSMC's Financial statements. The auditors have submitted to the Board a report relating to the Financial Statements. The Business Report, Financial Statements, and profit allocation proposal have been examined by and determined to be correct and accurate by the undersigned, the supervisors of Taiwan Semiconductor Manufacturing Company Limited. According to Article 219 of the Company Law, we hereby submit this report.

Taiwan Semiconductor Manufacturing Company Limited

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders
Taiwan Semiconductor Manufacturing Company Ltd.

We have audited the accompanying balance sheets of Taiwan Semiconductor Manufacturing Company Ltd. as of December 31, 2004 and 2003, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants, and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Taiwan Semiconductor Manufacturing Company Ltd. as of December 31, 2004 and 2003, and the results of its operations and its cash flows for the years then ended in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the Republic of China.

We have also audited the consolidated financial statements of Taiwan Semiconductor Manufacturing Company Ltd. as of and for the years ended December 31, 2004 and 2003, and have expressed an unqualified opinion on such financial statements.

January 13, 2005 (January 30, 2005 as to Note 20m)

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdiction. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

The Vice President-Finance shall have special responsibility for the financial affairs and accounting of the Corporation.

principles applied in the Republic of China on a consistent basis. Such statements shall be accompanied by a certification of the Corporation that such statements have been so prepared. Subject to the policies of the Corporation, the President shall be responsible for the overall control of allocated business and operation of the Corporation and shall make reports to the Board of Directors. The President shall supervise and control day-to-day business and operation of the Corporation, subject to the policies of the Board of Directors headed by the Chairman. The Vice President-Finance shall have special responsibility for the financial affairs and accounting of the Corporation.

Article 32

The President and Vice Presidents shall perform such duties as designated by the Board of Directors. The President and Vice Presidents may, in accordance with Chief Executive Officer's authorization, handle all matters within the scope of his/her responsibilities and sign documents on behalf of the Corporation.

The Chief Executive Officer reports to the Chairman of the Board of Directors. The President and Vice Presidents shall perform such duties as designated by the Chairman or the Board of Directors.

Article 35

When allocating the net profits for each fiscal year, the Corporation shall first offset its losses in previous years and set aside a legal capital reserve at 10% of the profits left over, until the accumulated legal capital reserve has equaled the total capital of the Corporation; then set aside special capital reserve in accordance with relevant laws or regulations or as requested by the authorities in charge; and then set aside 0.3% of the balance as bonus to directors and supervisors and not less than 1% as bonus to employees of this Corporation. This Corporation may issue stock bonuses to employees of an affiliated company meeting the conditions

When allocating the net profits for each fiscal year, the Corporation shall first offset its losses in previous years and set aside a legal capital reserve at 10% of the profits left over, until the accumulated legal capital reserve has equaled the total capital of the Corporation; then set aside special capital reserve in accordance with relevant laws or regulations or as requested by the authorities in charge; and then set aside not more than 0.3% of the balance as bonus to directors and supervisors and not less than 1% as bonus to employees of this Corporation. Directors who also serve as executive officers of this Corporation are not entitled

set by the Board of Directors or, by the
person

to receive bonus to directors

Before Revision

duly authorized by the Board of Directors. Any balance left over shall be allocated according to the following principles per resolution of the shareholders meeting:

1. Except distribution of reserve in accordance with item (2) below, this Corporation shall not pay dividends or bonuses when there is no profit; however, where the legal capital reserve reaches over 50% of the paid-in capital, this Corporation may distribute the amount in excess as dividends and bonuses. Profits may be distributed in total after taking into consideration financial, business and operational factors. Profits of this Corporation may be distributed by way of cash dividend and/or stock dividend. Since this Corporation is in a capital-intensive industry at the steady growth stage of its business, distribution of profits shall be made preferably by way of cash dividend. Distribution of profits may also be made by way of stock dividend; provided however, the ratio for stock dividend shall not exceed 50% of total distribution.

In case there is no profit for distribution in a certain year, or the profit of a certain year is far less than the profit actually distributed by this Corporation in the previous year, or considering the financial, business or operational factors of this Corporation, this Corporation may allocate a portion or all of its reserves for distribution in accordance with relevant laws or regulations or the orders of the authorities in charge.

After Revision

and supervisors. This Corporation may issue stock bonuses to employees of an affiliated company meeting the conditions set by the Board of Directors or, by the person duly authorized by the

Board of Directors. Any balance left over shall be allocated according to the following principles per resolution of the shareholders meeting:

1. Except distribution of reserve in accordance with item (2) below, this Corporation shall not pay dividends or bonuses when there is no profit; however, where the legal capital reserve reaches over 50% of the paid-in capital, this Corporation may distribute the amount in excess as dividends and bonuses. Profits may be distributed in total after taking into consideration financial, business and operational factors. Profits of this Corporation may be distributed by way of cash dividend and/or stock dividend. Since this Corporation is in a capital-intensive industry at the steady growth stage of its business, distribution of profits shall be made

preferably by way of cash dividend. Distribution of profits may also be made by way of stock dividend, provided however, the ratio for stock dividend shall not exceed 50% of total distribution.

2. In case there is no profit for distribution in a certain year, or the profit of a certain year is far less than the profit actually distributed by this Corporation in the previous year, or considering the financial, business or operational factors of this Corporation, this Corporation may allocate a portion or all of its reserves for distribution in accordance with relevant laws or regulations or the orders of the authorities in charge.
