Item 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Attached hereto as Exhibit 99.1 and incorporated by reference herein is financial information for Intel Corporation for the quarter ended March 27, 2010 and forward-looking statements relating to 2010 and the second quarter of 2010 as presented in a press release of April 13, 2010. The information in this report shall not be treated as filed for purposes of the Securities Exchange Act of 1934, as amended.

In addition to disclosing financial results calculated in accordance with United States (U.S.) generally accepted accounting principles (GAAP), this earnings release contains non-GAAP financial measures that exclude the charge incurred in the fourth quarter of 2009 as a result of a settlement agreement with Advanced Micro Devices, Inc. (AMD) in the amount of \$1.25 billion. These non-GAAP measures also exclude the associated impacts of the AMD settlement on our tax provision.

Management uses operating income, net income, and earnings per share excluding the AMD settlement and related tax impacts to conduct and evaluate results of the business. We believe that analyzing the trends of the underlying business is aided by the removal of the charge due to the significant impact it has on comparability. Specifically management excludes this charge for purposes of period to period comparisons in our budget, planning and evaluation processes, and the charge was excluded from the calculation of annual incentive payments for employees and, partially eliminated from the calculation of annual incentive payments for executives. The company discloses this non-GAAP information to enable investors who wish to more easily assess the company's performance on the same basis applied by management and to ease comparison on both a GAAP and non-GAAP basis to our current period results.

The non-GAAP financial measures disclosed by the company should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP, and the financial results calculated in accordance with GAAP and reconciliations from these results should be carefully evaluated. In addition, these non-GAAP measures do not exclude other income and expenses which may not be part of our ongoing expectations of the business.
