Similarly, we have submitted our ballistic ceramic plates for testing by German laboratories and following the tests, the products were deemed to have met the German qualification standard. 3

RISK FACTORS

Our business, results of operations and financial condition could be seriously harmed due to any of the following risks, among others. If we do not successfully address the risks to which we are subject, our business, results of operations and financial condition may be materially and adversely affected and our share price may decline.

RISKS RELATED TO OUR BUSINESS AND OUR INDUSTRY

THE PRODUCTS WE SELL ARE USED IN APPLICATIONS THAT ARE INHERENTLY RISKY AND COULD GIVE RISE TO PRODUCT LIABILITY AND OTHER CLAIMS.

The products that we manufacture are typically used in applications and situations that involve high levels of risk of personal injury. Failure to use our products for their intended purposes, failure to use them properly, their malfunction, or, in some limited circumstances, even correct use of our products, could result in serious bodily injury or death. Our main products include personal military and civilian protective equipment and supplies such as body armor, bomb disposal suits, ballistic wall coverings, bulletproof vests, and associated heavy fabric products, such as battle pouches and combat harness units, dry storage systems, liquid logistic products, tents and other camping and travel gear.

The manufacture and sale of certain of our products may be the subject of product liability claims arising from the design, manufacture or use of such goods. If we are found to be liable in such claim, we may be required to pay substantial damages and our insurance costs may increase significantly as a result. Also, a significant or extended lawsuit, such as a class action, could also divert significant amounts of management's time and attention. We cannot assure you that our insurance coverage would be sufficient to cover the payment of any potential claim. In addition, we cannot assure you that this or any other insurance coverage will continue to be available or, if available, that we will be able to obtain it at a reasonable cost. Any material uninsured loss could have a material adverse effect on our business, financial condition and results of operations. In addition, the inability to obtain product liability coverage would prohibit us from bidding for orders from certain governmental customers since, at present, many bids from governmental entities require such coverage, and any such inability would have a material adverse effect on our business,

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form S-3

financial condition and results of operations.

WE ARE SUBJECT TO EXTENSIVE GOVERNMENT REGULATION AND OUR FAILURE OR INABILITY TO COMPLY WITH THESE REGULATIONS COULD MATERIALLY RESTRICT OUR OPERATIONS AND SUBJECT US TO SUBSTANTIAL PENALTIES.

We are subject to extensive regulation by governmental authorities and are subject to various laws and judicial and administrative decisions imposing requirements and restrictions on our operations. Furthermore, we have material contracts with governmental entities and are subject to rules, regulations and approvals applicable to government contractors. We are also subject to routine audits to assure our compliance with these requirements. In addition, a number of our employees are required to obtain specified levels of security classification. Our business may suffer if we or our employees are unable to obtain the security classifications that are needed to perform services contracted for the Israeli Ministry of Defense, one of our major customers. Our failure to comply with these contract terms, rules or regulations could expose us to substantial penalties, including the loss of these contracts and disqualification as a government contractor of certain governments.

4

WE HAVE SIGNIFICANT INTERNATIONAL OPERATIONS AND ARE THEREFORE SUBJECT TO ADDITIONAL FINANCIAL AND REGULATORY RISKS.

While our principal executive offices are located in Israel, 69% of our sales in 2004, 45% of our sales in 2003 and 24% of our sales in 2002 were generated from exports. We are seeking to increase the level of our international business activity. Our overseas operations are subject to various risks, including; foreign import controls (which may be arbitrarily imposed and enforced and which could preclude sales to certain customers).

One component of our strategy is to expand our operations into selected international markets. Military procurement, for example, has traditionally been international in scope. Countries in which we are actively marketing include Turkey, Cyprus, Chile, Mexico, Guatemala, India, Peru, Singapore and Brazil. We, however, may be unable to execute our business model in these markets or new markets. Further, foreign providers of competing products and services may have a substantial advantage over us in attracting consumers and businesses in their country due to earlier established businesses in that country, greater knowledge with respect to the cultural differences of consumers and businesses residing in that country and/or their focus on a single market.

In pursuing our international expansion strategy, we face several additional risks, including:

- o reduced protection of intellectual property rights in some countries;
- o licenses, tariffs and other trade barriers;
- o longer sales and payment cycles;
- o greater difficulties in collecting accounts receivable;
- o potential adverse tax consequences;
- o laws and business practices favoring local competition;
- o costs and difficulties of doing business and customizing products for

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form S-3

foreign countries;

- o compliance with a wide variety of complex foreign laws and treaties;
- o political and economic instability; and
- o variance and unexpected changes in local laws and regulations

We may operate in areas where local government policies regarding foreign entities and the local tax and legal regimes are often uncertain, poorly administered and in a state of flux. We cannot be certain that we are in compliance with, or will be protected by, all relevant local laws at any given point in time. A subsequent determination that we failed to comply with relevant local laws and taxation regimes could have a material adverse effect on our business, financial condition and results of operations.

5

One or more of these factors could adversely effect our future international operations and, consequently, could have a material adverse effect on our business, financial condition and results of operation.

CURRENCY EXCHANGE RATE FLUCTUATIONS IN THE WORLD MARKETS IN WHICH WE CONDUCT BUSINESS COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS, RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

We may be adversely affected by fluctuations in currency exchange rates. While our revenues are generally denominated in U.S. dollars, a significant portion of our expenses is incurred in NIS and Euro. We do not currently engage in any currency hedging transactions intended to reduce the effect of fluctuations in foreign currency exchange rates on our results of operations. If we were to determine that it was in our best interests to enter into any hedging transactions in the future, there can be no assurance that we will be able to do so or that such transactions, if entered into, will materially reduce the effect of fluctuations in foreign currency exchange rates on our results of operations. In addition, if for any reason exchange or price controls or other restrictions on the conversion of foreign currencies into NIS were imposed, our business could be adversely affected.

There can be no assurance such fluctuations in the future will not have a material adverse effect on revenues from international sales, and consequently, on our business, operating results and financial condition.

REDUCTION IN MILITARY BUDGETS WORLDWIDE MAY CAUSE A REDUCTION IN OUR REVENUES, WHICH WOULD ADVERSELY AFFECT OUR BUSINESS, OPERATING RESULTS AND FINANCIAL CONDITION.

A significant portion of our revenues is derived from the sale of products to military markets. These revenues, on a consolidated basis, totaled approximately \$10.4 million, or 86.5% of our revenues in 2004, \$6.7 million, or 74.7% of our revenues in 2003 and \$7.5 million, or 70.7% of revenues in 2002. The military budgets of a number of countries may be reduced in the future. Declines in government military budgets may result in reduced demand for our products. This would result in reduction in our revenues and adversely affect our business, results of operations and financial condition.

SALES OF OUR PRODUCTS ARE SUBJECT TO GOVERNMENTAL PROCUREMENT PROCEDURES AND PRACTICES; TERMINATION, REDUCTION OR MODIFICATION OF CONTRACTS WITH OUR CUSTOMERS, AND ESPECIALLY WITH THE GOVERNMENT OF ISRAEL, OR A SUBSTANTIAL

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form S-3

DECREASE IN OUR CUSTOMERS' BUDGETS MAY ADVERSELY AFFECT OUR BUSINESS, OPERATING RESULTS AND FINANCIAL CONDITION.

Our military products are sold primarily to government agencies and authorities, many of which have complex and time-consuming procurement procedures. A long period of time often elapses from the time we begin marketing a product until we actually sell that product to a particular customer. In addition, our sales to government agencies, authorities and companies are directly affected by those customers' budgetary constraints and the priority given in their budgets to the procurement of our products.

6

The termination, reduction or modification of our contracts or subcontracts with the Government of Israel in the event of change in requirements, policies or budgetary constraints would have an adverse effect on our business, operating results and financial condition.

WE DEPEND ON SALES TO KEY CUSTOMERS AND THE LOSS OF ONE OR MORE OF OUR KEY CUSTOMERS WOULD RESULT IN A LOSS OF A SIGNIFICANT AMOUNT OF OUR REVENUES.

A significant portion of our revenues is derived from a small number of customers. Our two largest customers accounted for 38.3% of our total sales for the year ended December 31, 2003 and 43.6% of our total sales for the year ended December 31, 2004.

We anticipate that a significant portion of our future revenues will continue to be derived from sales to a small number of customers. Although we are attempting to expand the number of our customers, if our principal customers do not continue to purchase products from us at current levels or if such customers are not retained and we are not able to derive sufficient revenues from sales to new customers to compensate for their loss, our revenues would be reduced and adversely affect our business, financial condition and results of operations.

OUR MARKETS ARE HIGHLY COMPETITIVE AND IF WE ARE UNABLE TO COMPETE EFFECTIVELY, WE WILL BE ADVERSELY AFFECTED.

The markets in which we operate are highly competitive with a large number of competitors ranging from small businesses to multinational corporations. Competitors who are larger, better financed and better known than us may compete more effectively than we can. In order to stay competitive in our industry, we must keep pace with changing technologies and client preferences.

If we are unable to differentiate our products from those of our competitors, our revenues may decline. In addition, our competitors have established relationships among themselves or with third parties to increase their ability to address client needs. As a result, new competitors or alliances among competitors may emerge and compete more effectively than we can. There is also a significant industry trend towards consolidation, which may result in the emergence of companies which are better able to compete against us.

THERE ARE LIMITED SOURCES FOR SOME OF OUR RAW MATERIALS AND ANY SHORTAGE MAY SIGNIFICANTLY CURTAIL OUR MANUFACTURING OPERATIONS.

The raw materials that we use in manufacturing ballistic resistant garments and cars armoring include: Kevlar(R) produced by Dupont Ltd., Twaron(R) produced by Twaron Teijn Ltd., Dyneema(R) produced by DSM Ltd. and Spectra(R) and Gold Flex(R) produced by Honeywell. We purchase these materials in the form of woven

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form S-3

cloth from independent weaving companies. In the event DuPont or its licensee in Europe cease for any reason to produce or sell Kevlar(R) to us, we would utilize the other ballistic resistant materials as a substitute. However, none of them is expected to become a complete substitute for Kevlar(R) in the near future. We enjoy a good relationship with our suppliers for these materials. If our supply of any of these materials were materially reduced or cut off, or if there were a material increase in the prices of these materials, our manufacturing operations could be adversely affected and our costs increased, and our business, financial condition and results of operations would be materially adversely affected.

7

WE MAY BE UNABLE TO COMPLETE OR INTEGRATE ACQUISITIONS EFFECTIVELY, IF AT ALL, AND AS A RESULT MAY INCUR UNANTICIPATED COSTS OR LIABILITIES OR OPERATIONAL DIFFICULTIES.

We intend to grow through the acquisition of businesses and assets that will complement our current businesses. We cannot be certain that we will be able to identify attractive acquisition targets, obtain financing for acquisitions on satisfactory terms or successfully acquire identified targets. Furthermore, we may have to divert our management's attention and our financial and other resources from other areas of our business. Our inability to implement our acquisition strategy successfully may hinder the expansion of our business.

Because we depend in part on acquiring new businesses and assets to develop and offer new products, failure to implement our acquisition strategy may also adversely affect our ability to offer new products in line with industry trends.

We may not be successful in integrating acquired businesses into our existing operations. Integration may result in unanticipated liabilities or unforeseen operational difficulties, which may be material, or require a disproportionate amount of management's attention. Acquisitions may result in us incurring additional indebtedness or issuing preferred stock or additional common stock. Competition for acquisition opportunities in the industry may rise, thereby increasing our cost of making acquisitions or causing us to refrain from making further acquisitions.

OUR RESOURCES MAY BE INSUFFICIENT TO MANAGE THE DEMANDS IMPOSED BY ANY FUTURE GROWTH.

Expansion of our operations, may place significant demands on our management, administrative, operating and financial resources. Growth of our customer base, the types products offered and the geographic markets served can place a significant strain on our resources. In addition, we cannot easily identify and hire personnel qualified both in the provision and marketing of our security services and products. Our future performance and profitability will depend in large part on our ability to attract and retain additional management and other key personnel, our ability to implement successful enhancements to our management, accounting and information technology systems, and our ability to adapt those systems, as necessary, to respond to growth in our business.

8

TECHNOLOGICAL ADVANCES, THE INTRODUCTION OF NEW PRODUCTS, AND NEW DESIGN AND MANUFACTURING TECHNIQUES COULD ADVERSELY AFFECT OUR OPERATIONS UNLESS WE ARE ABLE TO ADAPT TO THE RESULTING CHANGE IN CONDITIONS.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form S-3

Our future success and competitive position depend to a significant extent upon our proprietary technology. We must make significant investments to continue to develop and refine our technologies. We will be required to expend substantial funds for and commit significant resources to the conduct of continuing research and development activities, the engagement of additional engineering and other technical personnel, the purchase of advanced design, production and test equipment, and the enhancement of design and manufacturing processes and techniques. Our future operating results will depend to a significant extent on our ability to continue to provide design and manufacturing services for new products that compare favorably on the basis of time to market, cost and performance with the design and manufacturing capabilities. The success of new design and manufacturing services depends on various factors, including utilization of advances in technology, innovative development of new solutions for customer products, efficient and cost-effective services, timely completion and delivery of new product solutions and market acceptance of customers' end products. Because of the complexity of some of our products, we may experience delays from time to time in completing the design and manufacture of new product solutions. In addition, there can be no assurance that any new product solutions will receive or maintain customer or market acceptance. If we were unable to design and manufacture solutions for new products of our customers on a timely and cost-effective basis, such inability could have a material adverse effect on our business, financial condition and results of operations.

WE MAY NEED TO RAISE ADDITIONAL CAPITAL IN THE FUTURE, WHICH MAY NOT BE AVAILABLE TO US.

We may need to raise additional funds for a number of uses, including:

- o maintaining and expanding research and development;
- o implementing marketing and sales activities for our products;
- o hiring additional qualified personnel; and
- o supporting an increased level of operations.

We may not be able to obtain additional funds on acceptable terms or at all. If we cannot raise needed funds on acceptable terms, we may be required to delay, scale back or eliminate some aspects of our operations and we may not be able to:

- o develop new products;
- o enhance our existing products;
- o remain current with evolving industry standards;
- o take advantage of future opportunities; or
- o respond to competitive pressures or unanticipated requirements.

If adequate funds are not available to us, our business, results of operations and financial condition will be materially and adversely affected. Any equity or debt financings, if available at all, may cause dilution to our then-existing shareholders and may increase our financing expenses. If additional funds are raised through the issuance of equity securities, the net tangible book value per share of our common stock would decrease and the percentage ownership of then current shareholders would be diluted.

COMPLIANCE WITH CHANGING REGULATION OF CORPORATE GOVERNANCE AND PUBLIC DISCLOSURE MAY RESULT IN ADDITIONAL EXPENSES.

Changing laws, regulations and standards relating to corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002 and new Securities and Exchange Commission regulations, are creating uncertainty for companies such as ours. We are committed to maintaining high standards of corporate governance and public disclosure. As a result, we intend to invest reasonably necessary resources to comply with evolving standards, and this investment may result in increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities, which could harm our operating results and business prospects

RISK FACTORS RELATED TO OUR COMMON STOCK

OUR SHARES OF COMMON STOCK ARE THINLY TRADED, SO YOU MAY BE UNABLE TO SELL AT OR NEAR "ASK" PRICES OR AT ALL IF YOU NEED TO SELL YOUR SHARES TO RAISE MONEY OR OTHERWISE DESIRE TO LIQUIDATE YOUR SHARES.

Our shares of common stock are "thinly-traded" on the OTCBB, meaning that the number of persons interested in purchasing our common stock at or near ask prices at any given time may be relatively small or non-existent. This situation is attributable to a number of factors, including the fact that we are a small company which is relatively unknown to stock analysts, stock brokers, institutional investors and others in the investment community that generate or influence sales volume, and that even if we came to the attention of such persons, they tend to be risk-averse and would be reluctant to follow an unproven development stage company such as ours or purchase or recommend the purchase of our shares until such time as we became more seasoned and viable. As a consequence, there may be periods of several days or more when trading activity in our shares is minimal or non-existent. We cannot give you any assurance that a broader or more active public trading market for our common stock will develop or be sustained, or that current trading levels will be sustained. Due to these conditions, we can give you no assurance that you will be able to sell your shares at or near ask prices or at all if you need money or otherwise desire to liquidate your holdings.

WE ARE SUBJECT TO THE PENNY STOCK RULES AND THESE RULES MAY ADVERSELY EFFECT TRADING IN OUR COMMON STOCK.

Until our shares qualify for inclusion in the NASDAQ system, the public trading, if any, of our common stock will be on the OTCBB. As a result, an investor may find it more difficult to dispose of, or to obtain accurate quotations as to the price of, the common stock offered. Our common stock is subject to provisions of Section 15(g) and Rule 15g-9 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), commonly referred to as the "penny stock rule." Section 15(g) sets forth certain requirements for transactions in penny stocks, and Rule 15g-9(d) incorporates the definition of "penny stock" that is found in Rule 3a51-1 of the Exchange Act. The SEC generally defines "penny stock" to be any equity security that has a market price less than \$5.00 per share, subject to certain exceptions. If our common stock is deemed to be a penny stock, trading in the shares will be subject to additional sales practice requirements on broker-dealers who sell penny stock to persons other than established customers and accredited investors. The definition of "Accredited Investors" includes among others, persons with assets in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 together with their spouse. For transactions covered by these rules, broker-dealers must make a special

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form S-3

suitability determination for the purchase of such security and must have the purchaser's written consent to the transaction prior to the purchase. Additionally, for any transaction involving a penny stock, unless exempt, the rules require the delivery, prior to the first transaction, of a risk disclosure document, prepared by the SEC, relating to the penny stock market. A broker-dealer also must disclose the commissions payable to both the broker-dealer and the registered representative, and current quotations for the securities. Finally, monthly statements must be sent disclosing recent price information for the penny stocks held in an account and information on the limited market in penny stocks. Consequently, these rules may restrict the ability of a broker-dealer to trade and/or maintain a market in our common stock and may affect the ability of our shareholders to sell their shares.

10

WE DO NOT INTEND TO PAY DIVIDENDS.

We have never paid cash dividends to our shareholders. Any future dividend policy will be determined by the board of directors, subject to the applicable law, and will be based upon conditions then existing, including our results of operations, financial condition, current and anticipated cash needs, contractual restrictions and other conditions as the board of directors may deem relevant. We currently intend to retain future earnings, if any, to finance operations and expand our business and, therefore, do not expect to pay any dividends in the foreseeable future.

RISKS RELATING TO OUR LOCATION IN ISRAEL

CONDUCTING BUSINESS IN ISRAEL ENTAILS SPECIAL RISKS.

Our principal operations and facilities are located in Israel, and our directors, executive officers and other key employees are also located primarily in the State of Israel. Accordingly, we are directly influenced by the political, economic and military conditions affecting Israel. Specifically, we could be adversely affected by any major hostilities involving Israel, a full or partial mobilization of the reserve forces of the Israeli army, the interruption or curtailment of trade between Israel and its present trading partners, and a significant downturn in the economic or financial condition of Israel.

Since the establishment of the State of Israel in 1948, a number of armed conflicts have taken place between Israel and its Arab neighbors, and a state of hostility, varying from time to time in intensity and degree, has led to security and economic problems for Israel. Since September 2000, there has been a marked increase in violence, civil unrest and hostility, including armed clashes, between the State of Israel and the Palestinians, and acts of terror have been committed inside Israel and against Israeli targets in the West Bank and Gaza. There is no indication as to how long the current hostilities will last or whether there will be any further escalation. Any further escalation in these hostilities or any future armed conflict, political instability or violence in the region may have a negative effect on our business condition, harm our results of operations and adversely affect our share price. Furthermore, there are a number of countries that restrict business with Israel or Israeli companies. Restrictive laws or policies of those countries directed towards Israel or Israeli businesses has had, and may in the future continue to have, an adverse impact on our operations, our financial results or the expansion of our business. No predictions can be made as to whether or when a final resolution of the area's problems will be achieved or the nature thereof and to what extent the situation will impact Israel's economic development or our operations.

MOST OF OUR DIRECTORS, OFFICERS AND EMPLOYEES ARE OBLIGATED TO PERFORM ANNUAL MILITARY RESERVE DUTY IN ISRAEL. WE CANNOT ASSESS THE POTENTIAL IMPACT OF THESE OBLIGATIONS ON OUR BUSINESS.

Our directors, officers and employees who are male adult citizens and permanent residents of Israel under the age of 48 are, unless exempt, obligated to perform annual military reserve duty and are subject to being called to active duty at any time under emergency circumstances. We cannot assess the full impact of these requirements on our workforce or business if conditions should change, and we cannot predict the effect on us of any expansion or reduction of these obligations.

THE ECONOMIC CONDITIONS IN ISRAEL HAVE NOT BEEN STABLE IN RECENT YEARS.

In recent years Israel has been going through a period of recession in economic activity, resulting in low growth rates and growing unemployment. Our operations could be adversely affected if the economic conditions in Israel will deteriorate.

In connection with sales of the common stock or otherwise, the selling shareholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the common stock in the course of hedging in positions they assume. The selling shareholders may also sell common stock short and deliver common stock covered by this prospectus to close out short positions. The selling shareholders may also loan or pledge common stock to broker-dealers that in turn may sell such shares.

The selling shareholders and any broker-dealer participating in the distribution of the common stock may be deemed to be "underwriters" within the meaning of the Securities Act, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act. At the time a particular offering of the common stock is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling shareholders and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers.

Under the securities laws of some states, the common stock may be sold in such states only through registered or licensed brokers or dealers. Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form S-3

There can be no assurance that any selling shareholder will sell any or all of the common stock registered pursuant to the shelf registration statement, of which this prospectus forms a part.

The selling shareholders and any other person participating in such distribution will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder, including, without limitation, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the common stock by the selling shareholders and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of the common stock to engage in market-making activities with respect to the common stock. All of the foregoing may affect the marketability of the common stock and the ability of any person or entity to engage in market-making activities with respect to the common stock.

We will pay all expenses of the registration of the common stock pursuant to the registration rights agreement; provided, however, that a selling shareholder will pay all underwriting discounts and selling commissions, if any. We will indemnify the selling shareholders against liabilities, including some liabilities under the Securities Act, in accordance with the registration rights agreement, or the selling shareholders will be entitled to contribution. We may be indemnified by the selling shareholders against civil liabilities, including liabilities under the Securities Act, that may arise from any written information furnished to us by the selling shareholder specifically for use in this prospectus, in accordance with the related registration rights agreement, or we may be entitled to contribution.

Once sold under the registration statement, of which this prospectus forms a part, the common stock will be freely tradable in the hands of persons other than our affiliates.

Item 15. Indemnification of Directors and Officers

Chapter 78, section 7502, subsection 1 of the Business Associations; Securities; Commodities Law of the State of Nevada empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of the corporation, by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form S-3

request of the corporation as a director, officer, employee or agent of another corporation partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with the action, suit or proceeding if (i) he is not liable pursuant to Chapter 78, Section 138, which provides that a director or officer is entitled to rely on information, opinions, reports, books of account or statements prepared or presented by directors, officers or employees of the corporation reasonably believed to be reliable and competent in the matters presented, by counsel, public accountants or other persons as to matters reasonably believed to be within the preparer's or presenter's professional or expert competence or by a properly established committee on which the relying director or officer does not serve as to matters within the committee's designated authority, in each case so long as the director or officer has no knowledge concerning the matter in question that would cause reliance thereon to be unwarranted, or (ii) if he acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, does not, of itself, create a presumption that the person is liable pursuant to section 138 or did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and that, with respect to any criminal action or proceeding, he had reasonable cause to believe that his conduct was unlawful.

II-1

Subsection 2 of section 7502 empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses, including amounts paid in settlement and attorneys' fees actually and reasonably incurred by him in connection with the defense or settlement of the action or suit if he is not liable pursuant to section 138 or if he acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation. Indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals therefrom, to be liable to the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

Subsection 3 of section 7502 further provides that to the extent that a director, officer, employee or agent of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in subsections 1 and 2 of section 7502, or in defense of any claim, issue or matter therein, he must be indemnified by the corporation against expenses, including attorneys' fees, actually and reasonably incurred by him in connection with the defense.

Chapter 78, Section 751, subsection 1 provides that any discretionary indemnification pursuant to section 7502, unless ordered by a court or advanced

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form S-3

pursuant to subsection 2 of section 751, may be made by the corporation only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances. The determination must be made (i) by the stockholders, (ii) by the board of directors by a majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding, (iii) if a majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding so orders, by independent legal counsel in a written opinion, or (iv) if a quorum consisting of directors who were not parties to the action, suit or proceeding cannot be obtained, by independent legal counsel in a written opinion.

Subsection 2 of section 751 provides that the articles of incorporation, the bylaws or an agreement made by the corporation may provide that the expenses of officers and directors incurred in defending a civil or criminal action, suit or proceeding must be paid by the corporation as they are incurred and in advance of the final disposition of the action, suit or proceeding, upon receipt of an undertaking by or on behalf of the director or officer to repay the amount if it is ultimately determined by a court of competent jurisdiction that he is not entitled to be indemnified by the corporation. Section 751 also provides that the indemnification provided in Section 7502 is not deemed exclusive nor exclude any other rights to which an indemnified party may be entitled, including, without limitation, pursuant to the articles of incorporation or bylaws of the corporation.

II-2

Article 8 of the Registrant's Articles of Incorporation provides that it will, to the fullest extent permitted by the General Corporation Law of the State of Nevada, indemnify any and all persons whom it will have power to indemnify under said Law from and against any and all of the expenses, liabilities, or other matters referred to in or covered by said Law, and the indemnification provided for will not be deemed exclusive of any other rights to which those indemnified may be entitled under any Bylaw, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in his official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has ceased to be a director, officer, employee, or agent and shall inure to the benefit of the heirs, executors, and administrators of such a person.

Chapter 78, section 752 provides that a corporation may purchase insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise for any liability asserted against him and liability and expenses incurred by him in his capacity as a director, officer, employee or agent, or arising out of his status as such, whether or not the corporation has the authority to indemnify him against such liability and expenses.

The Registrant purchased liability insurance of the type referred to in section 752. The policy covers the Registrant with respect to its obligation to indemnify its directors and officers. In addition, the policy covers the Registrant's directors and officers with respect to certain liabilities which are not reimbursable by the Registrant

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form S-3

has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

(1) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 that is incorporated by reference in this Registration Statement shall be deemed to be a new registration statement relating to the securities offered herein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(2) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions referred to in Item 15 above, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. (3) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this Registration Statement in reliance upon Rule 430A and contained in a form of prospectus filed by the Registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this Registration Statement as of the time it was declared effective.

(4) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
