Dear Stockholders:

We are pleased to invite you to attend our 2008 Annual Meeting of stockholders to be held on Thursday, May 8, 2008 at 2:00 p.m., local time, at our corporate headquarters at 1600 Amphitheatre Parkway, Mountain View, California 94043. For your convenience, we are also pleased to offer a live webcast of our Annual Meeting on the Investor Relations section of our web site at investor.google.com.

Details regarding admission to the meeting and the business to be conducted are described in the Notice of Internet Availability of Proxy Materials (the "Notice") you received in the mail and in this proxy statement. We have also made available a copy of our 2007 Annual Report with this proxy statement. We encourage you to read our Annual Report. It includes our audited financial statements and provides information about our business and products.

You may have noticed changes in the way we are providing proxy materials to our stockholders in connection with our 2008 Annual Meeting. This is because we have elected to provide access to our proxy materials over the Internet under the Securities and Exchange Commission's new notice and access rules. We are constantly focused on improving the ways people connect with information and believe that providing our proxy materials over the Internet increases the ability of our stockholders to connect with the information they need, while reducing the environmental impact of our Annual Meeting. If you want more information, please see the Questions and Answers section of this proxy statement or visit the Annual Stockholders Meeting section of our Investor Relations web site.

Your vote is important. Whether or not you plan to attend the Annual Meeting, we hope you will vote as soon as possible. You may vote over the Internet, as well as by telephone or, if you requested to receive printed proxy materials, by mailing a proxy or voting instruction card. Please review the instructions on each of your voting options described in this proxy statement as well as in the Notice you received in the mail.

Also, please let us know if you plan to attend our Annual Meeting when you vote by telephone or over the Internet, by indicating your plans when prompted or, if you requested to receive printed proxy materials, by marking the appropriate box on the enclosed proxy card.

Thank you for your ongoing support of Google. We look forward to seeing you at our Annual Meeting.

Sincerely,

/s/ Sergey Brin /s/ Larry Page /s/ Eric Schmidt

Since seating is limited, admission to the meeting will be on a first-come, first-served basis. You should be prepared to present photo identification for admittance. If you are not a stockholder of record but hold shares through a broker, bank, trustee or nominee (i.e., in street name), you should provide proof of beneficial ownership as of the Record Date, such as your most recent account statement prior to the Record Date, a copy of the voting instruction card provided by your broker, bank, trustee or nominee, or similar evidence of ownership.

QUESTIONS AND ANSWERS ABOUT THE PROXY MATERIALS AND THE ANNUAL MEETING

Q: Why am I receiving these materials?

A: Our board of directors has made these materials available to you on the Internet, or, upon your request, has delivered printed proxy materials to you, in connection with the solicitation of proxies for use at Google's 2008 Annual Meeting of stockholders, which will take place on Thursday, May 8, 2008 at 2:00 p.m. local time, at our corporate headquarters located at 1600 Amphitheatre Parkway, Mountain View, California 94043. As a stockholder, you are invited to attend the Annual Meeting and are requested to vote on the items of business described in this proxy statement.

Q: What information is contained in this proxy statement?

A: The information in this proxy statement relates to the proposals to be voted on at the Annual Meeting, the voting process, the compensation of our directors and most highly paid executive officers, and certain other required information.

Q: Why did I receive a notice in the mail regarding the Internet availability of proxy materials instead of a full set of proxy materials?

A: In accordance with rules recently adopted by the Securities and Exchange Commission (the "SEC"), we may now furnish proxy materials, including this proxy statement and our 2007 Annual Report to Stockholders, to our stockholders by providing access to such documents on the Internet instead of mailing printed copies. Most stockholders will not receive printed copies of the proxy materials unless they request them. Instead, the Notice, which was mailed to most of our stockholders, will instruct you as to how you may access and review all of the proxy materials on the Internet. The Notice also instructs you as to how you may submit your proxy on the Internet. If you would like to receive a paper or email copy of our proxy materials, you should follow the instructions for requesting such materials in the Notice.

Q: How do I get electronic access to the proxy materials?

A: The Notice will provide you with instructions regarding how to:

View our proxy materials for the Annual Meeting on the Internet; and

Instruct us to send our future proxy materials to you electronically by email.

Choosing to receive your future proxy materials by email will save us the cost of printing and mailing documents to you and will reduce the impact of printing and mailing these materials on the environment. If you choose to receive future proxy materials by email, you will receive an email next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive proxy materials by email will remain in effect until you terminate it.

Q: What items of business will be voted on at the Annual Meeting?

A: The items of business scheduled to be voted on at the Annual Meeting are:

The election of ten directors;

The ratification of Ernst & Young LLP as Google's independent registered public accounting firm for the fiscal year ending December 31, 2008;

Edgar Filing: Google Inc. - Form DEF 14A

The approval of an amendment to Google's 2004 Stock Plan to increase the number of authorized shares of Class A common stock issuable thereunder by 6,500,000;

A stockholder proposal regarding Internet censorship, if properly presented at the meeting; and

A stockholder proposal regarding the creation of a Board Committee on Human Rights, if properly presented at the meeting. We will also consider any other business that properly comes before the Annual Meeting.

Table of Contents

Q: How does the board of directors recommend that I vote?

A: Our board of directors recommends that you vote your shares (1) FOR each of the nominees to the board of directors, (2) FOR the ratification of Ernst & Young LLP as our independent registered public accounting firm for the 2008 fiscal year, (3) FOR the amendment to our 2004 Stock Plan to increase the number of authorized shares of Class A common stock issuable thereunder by 6,500,000, (4) AGAINST the stockholder proposal regarding Internet censorship, and (5) AGAINST the stockholder proposal regarding the creation of a Board Committee on Human Rights.

Q: What shares can I vote?

A: Each share of Google Class A common stock and Class B common stock issued and outstanding as of the close of business on the Record Date for the 2008 Annual Meeting of stockholders, is entitled to be voted on all items being voted on at the Annual Meeting. You may vote all shares owned by you as of the Record Date, including (1) shares held directly in your name as the stockholder of record, and (2) shares held for you as the beneficial owner in street name through a broker, bank, trustee or other nominee. On the Record Date we had 313,742,555 shares of common stock issued and outstanding, consisting of 238,171,144 shares of Class A common stock and 75,571,411 shares of Class B common stock.

Q: To how many votes am I entitled per share?

A: Each holder of shares of Class A common stock is entitled to one vote for each share of Class A common stock held as of the Record Date, and each holder of shares of Class B common stock is entitled to ten votes for each share of Class B common stock held as of the Record Date. The Class A common stock and Class B common stock are voting as a single class on all matters described in this proxy statement for which your vote is being solicited.

Q: What is the difference between holding shares as a stockholder of record and as a beneficial owner?

A: Most Google stockholders hold their shares as a beneficial owner through a broker or other nominee rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Stockholder of Record

If your shares are registered directly in your name with our transfer agent, Computershare Trust Company, N.A., you are considered, with respect to those shares, the *stockholder of record*, and the Notice was sent directly to you by Google. As the *stockholder of record*, you have the right to grant your voting proxy directly to Google or to vote in person at the Annual Meeting. If you requested to receive printed proxy materials, Google has enclosed or sent a proxy card for you to use. You may also vote on the Internet or by telephone, as described in the Notice and below under the heading *How can I vote my shares without attending the Annual Meeting?*

Beneficial Owner

If your shares are held in an account at a brokerage firm, bank, broker-dealer, trust or other similar organization, like the vast majority of our stockholders, you are considered the *beneficial owner* of shares held *in street name*, and the Notice was forwarded to you by that organization. As the beneficial owner, you have the right to direct your broker, bank, trustee or nominee how to vote your shares, and you are also invited to attend the Annual Meeting.

Since a beneficial owner is not the *stockholder of record*, you may not vote your shares in person at the Annual Meeting unless you obtain a legal proxy from the broker, bank, trustee or nominee that holds your shares giving you the right to vote the shares at the meeting. If you do not wish to vote in person or you will not be attending the Annual Meeting, you may vote by proxy. You may vote by proxy over the Internet or by telephone, as described in the Notice and below under the heading *How can I vote my shares without attending the Annual Meeting?*

Table of Contents

Q: How can I attend the Annual Meeting?

A: You are entitled to attend the Annual Meeting only if you were a Google stockholder as of the Record Date or you hold a valid proxy for the Annual Meeting. Since seating is limited, admission to the meeting will be on a first-come, first-served basis. You should be prepared to present photo identification for admittance. If you are not a stockholder of record but hold shares as a beneficial owner through a broker, bank, trustee or nominee (i.e., in street name), you should provide proof of beneficial ownership as of the Record Date, such as your most recent account statement prior to March 11, 2008, a copy of the voting instruction card provided by your broker, bank, trustee or nominee, or other similar evidence of ownership.

If you do not provide photo identification or comply with the other procedures outlined above, you will not be admitted to the Annual Meeting. For security reasons, you and your bags will be subject to search prior to your admittance to the meeting.

Please let us know if you plan to attend the meeting by marking the appropriate box on the enclosed proxy card, if you requested to receive printed proxy materials, or, if you vote by telephone or Internet, by indicating your plans when prompted.

The meeting will begin promptly at 2:00 p.m., local time. Check-in will begin at 12:30 p.m., local time, and you should allow ample time for the check-in procedures.

Q: Is the Annual Meeting going to be webcast?

A: For your convenience, we are pleased to offer a live webcast of our Annual Meeting on the Investor Relations section of our website at investor.google.com.

Q: How can I vote my shares in person at the Annual Meeting?

A: Shares held in your name as the stockholder of record may be voted by you in person at the Annual Meeting. Shares held beneficially in street name may be voted by you in person at the Annual Meeting only if you obtain a legal proxy from the broker, bank, trustee or nominee that holds your shares giving you the right to vote the shares. Even if you plan to attend the Annual Meeting, we recommend that you also submit your proxy or voting instructions as described below so that your vote will be counted if you later decide not to attend the meeting.

Q: How can I vote my shares without attending the Annual Meeting?

A: Whether you hold shares directly as the stockholder of record or beneficially in street name, you may direct how your shares are voted without attending the Annual Meeting. If you are a stockholder of record, you may vote by proxy. You can vote by proxy over the Internet by following the instructions provided in the Notice, or, if you requested to receive printed proxy materials, you can also vote by mail or telephone pursuant to instructions provided on the proxy card. If you hold shares beneficially in street name, you may also vote by proxy over the Internet by following the instructions provided in the Notice, or, if you requested to receive printed proxy materials, you can also vote by telephone or mail by following the voting instruction card provided to you by your broker, bank, trustee or nominee.

Q: Can I change my vote?

A: You may change your vote at any time prior to the taking of the vote at the Annual Meeting. If you are the stockholder of record, you may change your vote by (1) granting a new proxy bearing a later date (which automatically revokes the earlier proxy) using any of the methods described above (and until the applicable deadline for each method), (2) providing a written notice of revocation to Google's Corporate Secretary at Google Inc., 1600 Amphitheatre Parkway, Mountain View, CA 94043 prior to your shares being voted, or (3) attending the Annual Meeting and voting in person. Attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request.

Table of Contents

For shares you hold beneficially in street name, you may change your vote by submitting new voting instructions to your broker, bank, trustee or nominee following the instructions they provided, or, if you have obtained a legal proxy from your broker, bank, trustee or nominee giving you the right to vote your shares, by attending the Annual Meeting and voting in person.

Q: Is my vote confidential?

A: Proxy instructions, ballots and voting tabulations that identify individual stockholders are handled in a manner that protects your voting privacy. Your vote will not be disclosed either within Google or to third parties, except: (1) as necessary to meet applicable legal requirements, (2) to allow for the tabulation of votes and certification of the vote and (3) to facilitate a successful proxy solicitation. Occasionally, stockholders provide on their proxy card written comments, which are then forwarded to Google management.

Q: How many shares must be present or represented to conduct business at the Annual Meeting?

A: The quorum requirement for holding the Annual Meeting and transacting business is that holders of a majority of the voting power of the issued and outstanding Class A and Class B common stock of Google (voting together as a single class) must be present in person or represented by proxy. Both abstentions and broker non-votes (described below) are counted for the purpose of determining the presence of a quorum.

Q: How are votes counted?

A: In the election of directors, you may vote **FOR** all or some of the nominees or your vote may be **WITHHELD** with respect to one or more of the nominees.

For the other items of business, you may vote **FOR**, **AGAINST** or **ABSTAIN**. If you elect to **ABSTAIN**, the abstention has the same effect as a vote **AGAINST**. If you provide specific instructions with regard to certain items, your shares will be voted as you instruct on such items. If no instructions are indicated, the shares will be voted as recommended by the board of directors.

Q: What is the voting requirement to approve each of the proposals?

A: In the election of directors, the ten persons receiving the highest number of affirmative **FOR** votes at the Annual Meeting will be elected.

The affirmative **FOR** vote of a majority of the votes cast on the proposal is required to approve (1) the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2008, (2) the amendment to our 2004 Stock Plan to increase the number of shares of Class A common stock issuable thereunder by 6,500,000 shares, (3) the stockholder proposal regarding Internet censorship, and (4) the stockholder proposal regarding the creation of a Board Committee on Human Rights.

If you hold shares beneficially in street name and do not provide your broker with voting instructions, your shares may constitute broker non-votes. Generally, broker non-votes occur on a matter when a broker is not permitted to vote on that matter without instructions from the beneficial owner and instructions are not given. In tabulating the voting result for any particular proposal, shares that constitute broker non-votes are not considered votes cast on that proposal. Thus, broker non-votes will not affect the outcome of any matter being voted on at the meeting, assuming that a quorum is obtained. Abstentions are considered votes cast and thus have the same effect as votes against the matter.

Q: Is cumulative voting permitted for the election of directors?

A: No. You may not cumulate your votes for the election of directors.

Table of Contents

Q: What happens if additional matters are presented at the Annual Meeting?

A: Other than the five items of business described in this proxy statement, we are not aware of any other business to be acted upon at the Annual Meeting. If you grant a proxy, the persons named as proxy holders, Eric Schmidt, George Reyes and David Drummond, or any of them, will have the discretion to vote your shares on any additional matters properly presented for a vote at the meeting. If for any reason any of the nominees is not available as a candidate for director, the persons named as proxy holders will vote your proxy for such other candidate or candidates as may be nominated by the board of directors.

Q: Who will serve as inspector of elections?

A: The inspector of elections will be a representative from Computershare Trust Company, N.A.

Q: Who will bear the cost of soliciting votes for the Annual Meeting?

A: Google will pay the entire cost of preparing, assembling, printing, mailing and distributing these proxy materials and soliciting votes. If you choose to access the proxy materials and/or vote over the Internet, you are responsible for Internet access charges you may incur. If you choose to vote by telephone, you are responsible for telephone charges you may incur. In addition to the mailing of these proxy materials, the solicitation of proxies or votes may be made in person, by telephone or by electronic communication by our directors, officers and employees, who will not receive any additional compensation for such solicitation activities. We also have hired Georgeson Inc. to assist us in the distribution of proxy materials and the solicitation of votes described above. We will pay Georgeson Inc. a fee of \$750.00 plus customary costs and expenses for these services. Google has agreed to indemnify Georgeson Inc. against certain liabilities arising out of or in connection with its agreement to assist us with distributing proxy materials and soliciting votes.

Q: Where can I find the voting results of the Annual Meeting?

A: We intend to announce preliminary voting results at the Annual Meeting and publish final results in our quarterly report on Form 10-Q for the second quarter ending June 30, 2008.

Q: What is the deadline to propose actions for consideration at next year's annual meeting of stockholders or to nominate individuals to serve as directors?

A: Stockholder Proposals: Stockholders may present proper proposals for inclusion in our proxy statement and for consideration at the next annual meeting of stockholders by submitting their proposals in writing to Google's Corporate Secretary in a timely manner. For a stockholder proposal to be considered for inclusion in our proxy statement for our 2009 annual meeting of stockholders, the Corporate Secretary of Google must receive the written proposal at our principal executive offices no later than November 26, 2008; provided, however, that in the event that we hold our 2009 annual meeting of stockholders more than 30 days before or after the one-year anniversary date of the 2008 Annual Meeting, we will disclose the new deadline by which stockholders proposals must be received under Item 5 of our earliest possible quarterly report on Form 10-Q or, if impracticable, by any means reasonably calculated to inform stockholders. In addition, stockholder proposals must otherwise comply with the requirements of Rule 14a-8 of the Securities Exchange Act of 1934, as amended (the Exchange Act). Such proposals also must comply with SEC regulations under Rule 14a-8 regarding the inclusion of stockholder proposals in company-sponsored proxy materials. Proposals should be addressed to:

Google Inc.

Attn: Corporate Secretary

1600 Amphitheatre Parkway

Mountain View, California 94043

Fax: (650) 618-1806

Our bylaws also establish an advance notice procedure for stockholders who wish to present a proposal before an annual meeting of stockholders but do not intend for the proposal to be included in our proxy statement. Our bylaws

Table of Contents

provide that the only business that may be conducted at an annual meeting is business that is (1) specified in the notice of a meeting given by or at the direction of our board of directors, (2) otherwise properly brought before the meeting by or at the direction of our board of directors, or (3) properly brought before the meeting by a stockholder entitled to vote at the annual meeting who has delivered timely written notice to our Corporate Secretary, which notice must contain the information specified in our bylaws. To be timely for our 2009 annual meeting of stockholders, our Corporate Secretary must receive the written notice at our principal executive offices:

not earlier than the close of business on January 8, 2009, and

not later than the close of business on February 7, 2009.

In the event we that hold our 2009 annual meeting of stockholders more than 30 days before or after the one-year anniversary date of the 2008 Annual Meeting, then notice of a stockholder proposal that is not intended to be included in our proxy statement must be received not later than the close of business on the earlier of the following two dates:

the 10th day following the day on which notice of the meeting date is mailed, or

the 10th day following the day on which public disclosure of the meeting date is made.

If a stockholder who has notified us of his or her intention to present a proposal at an annual meeting does not appear to present his or her proposal at such meeting, we are not required to present the proposal for a vote at such meeting.

Nomination of Director Candidates: You may propose director candidates for consideration by our Nominating and Corporate Governance Committee. Any such recommendations should include the nominee's name and qualifications for membership on our board of directors and should be directed to the Corporate Secretary of Google at the address set forth above. For additional information regarding stockholder recommendations for director candidates, see Corporate Governance and Board of Directors Matters Consideration of Director Nominees Stockholder Recommendations and Nominees on page 14.

In addition, our bylaws permit stockholders to nominate directors for election at an annual stockholder meeting. To nominate a director, the stockholder must provide the information required by our bylaws. In addition, the stockholder must give timely notice to our Corporate Secretary in accordance with our bylaws, which, in general, require that the notice be received by our Corporate Secretary within the time period described above under Stockholder Proposals for stockholder proposals that are not intended to be included in our proxy statement.

Copy of Bylaw Provisions: A copy of our bylaws is available at <http://investor.google.com/bylaws.html>. Board of Directors Independence

The board of directors has determined that each of the director nominees standing for election, except Eric Schmidt, Sergey Brin and Larry Page, has no relationship which, in the opinion of the board of directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and is an independent director as defined in the Marketplace Rules of The NASDAQ Stock Market (NASDAQ). In determining the independence of our directors, the board of directors has adopted independence standards that mirror exactly the criteria specified by applicable laws and regulations of the SEC and the Marketplace Rules of NASDAQ. In making the determination of the independence of our directors, the board of directors considered all transactions in which Google and any director had any interest, including those discussed under Certain Relationships and Related Transactions below, transactions involving payments made by Google to companies in the ordinary course of business where L. John Doerr, John L. Hennessy, Arthur D. Levinson, Ann Mather, Paul S. Otellini or K. Ram Shriram serve on the board of directors or as a member of the executive management of the other company, a transaction in which Google acquired another company where John L. Hennessy beneficially owned shares of the capital stock of the other company, a transaction in which Google invested in another company where Michael Moritz beneficially owned shares of the capital stock of the other company, a transaction in which Google acquired another company where L. John Doerr beneficially owned shares of the capital stock of the other company and transactions involving payments made by Google to educational institutions with which John L. Hennessy and Shirley M. Tilghman are affiliated.

Director Qualifications

Our Nominating and Corporate Governance Committee will evaluate and recommend candidates for membership on the board of directors consistent with criteria established by the committee. The Nominating and Corporate Governance Committee has not formally established any specific, minimum qualifications that must be met by each candidate for the board of directors or specific qualities or skills that are necessary for one or more of the members of the board of directors to possess. However, the Nominating and Corporate Governance Committee, when considering a potential non-incumbent candidate, will factor into its determination the following qualities of a candidate: professional experience, educational background, including whether the person is a current or former CEO or CFO of a public company or the head of a division of a large international organization, knowledge of our business, integrity, professional reputation, independence, wisdom, and ability to represent the best interests of our stockholders.

Identification and Evaluation of Nominees for Directors

Our Nominating and Corporate Governance Committee uses a variety of methods for identifying and evaluating nominees for director. Our Nominating and Corporate Governance Committee regularly assesses the appropriate size and composition of the board of directors, the needs of the board of directors and the respective committees of the board of directors and the qualifications of candidates in light of these needs. Candidates may come to the attention of the Nominating and Corporate Governance Committee through stockholders, management, current members of the board of directors or search firms. The evaluation of these candidates may be based solely upon information provided to the committee or may also include discussions with persons familiar with the candidate, an interview of the candidate or other actions the committee deems appropriate, including the use of third parties to review candidates.

Executive Sessions

Executive sessions of independent directors are held in connection with each regularly scheduled board of directors meeting and at other times as necessary and are chaired by the Lead Independent Director. The board of directors' policy is to hold executive sessions without the presence of management, including the chief executive officer and other non-independent directors. The committees of the board of directors also generally meet in executive session at the end of each committee meeting, except for meetings of the Executive Committee, Real Estate Committee and Acquisition Committee as these committees have only one or no independent directors.

Outside Advisors

Our board of directors and each of its committees may retain outside advisors and consultants of their choosing at our expense. The board of directors need not obtain management's consent to retain outside advisors.

Our board of directors performs an annual self-assessment, led by the Lead Independent Director, to evaluate its effectiveness in fulfilling its obligations.

PROPOSAL NUMBER 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT

REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the board of directors has appointed Ernst & Young LLP as the independent registered public accounting firm to audit our consolidated financial statements for the fiscal year ending December 31, 2008. During 2007, Ernst & Young LLP served as our independent registered public accounting firm and also provided certain tax and audit-related services. See *Independent Public Accountants* on page 54. Notwithstanding its selection, the Audit Committee, in its discretion, may appoint another independent registered public accounting firm at any time during the year if the Audit Committee believes that such a change would be in the best interests of Google and its stockholders. If the appointment is not ratified by our stockholders, the Audit Committee may reconsider whether it should appoint another independent registered public accounting firm. Representatives of Ernst & Young LLP are expected to attend the Annual Meeting, where they will be available to respond to appropriate questions and, if they desire, to make a statement.

Required Vote

Ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2008 requires the affirmative **FOR** vote of a majority of the votes cast on the proposal. Unless marked to the contrary, proxies received will be voted **FOR** ratification of the appointment of Ernst & Young LLP.

Recommendation

Our board of directors recommends a vote FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2008.

PROPOSAL NUMBER 3

APPROVAL OF AN AMENDMENT TO GOOGLE'S 2004 STOCK PLAN

At the Annual Meeting, the stockholders will be asked to approve an amendment to the Google Inc. 2004 Stock Plan (the "Plan") in order to increase the maximum number of shares of our Class A common stock that may be issued under the Plan by 6,500,000 shares.

In January 2008, the LDC Committee recommended, and the full board of directors adopted, subject to stockholder approval, an amendment to the Plan to increase the share reserve by 6,500,000 shares of Class A common stock. Our stockholders have previously authorized us to issue under the Plan up to a total of 22,431,660 shares of Class A common stock, subject to adjustment upon certain changes in our capital structure.

The LDC Committee and the full board of directors believe that in order to successfully attract and retain the best possible candidates, we must continue to offer a competitive equity incentive program. As of December 31, 2007, only 2,021,216 shares of our Class A common stock remained available for future grant of stock awards under the Plan, a number that the LDC Committee and the full board of directors believes to be insufficient to meet our anticipated needs. Therefore, the LDC Committee recommended, and the full board of directors approved, subject to stockholder approval, an amendment to increase the maximum number of shares of Class A common stock issuable under the Plan by 6,500,000 shares to a total of 28,931,660 shares of our Class A common stock, subject to adjustment upon certain changes in our capital structure.

Summary of the Plan

The following summary of the Plan is qualified in its entirety by the specific language of the Plan as proposed to be amended, which is included in this proxy statement as Appendix B.

General. Our board of directors originally adopted the Plan in April 2004, and it was subsequently approved by our stockholders in June 2004. In April 2005, our board of directors approved an amendment and restatement of the Plan and stockholders approved the amended and restated Plan in May 2005. In March 2006, our board of directors adopted an amendment to the Plan to increase the share reserve by 4,500,000 shares of Class A common stock and our stockholders approved the amendment in May 2006. In March 2007, our board of directors adopted an amendment to the Plan to increase the share reserve by 4,500,000 shares of Class A common stock and our stockholders approved the amendment in May 2007. The Plan provides for the grant of incentive stock options, within the meaning of Section 422 of the Code, to our employees and nonstatutory stock options, restricted stock, stock appreciation rights, performance units, performance shares, restricted stock units (which we refer to as Google Stock Units) and other stock based awards (each, an "award") to our employees, directors, and consultants. The purpose of the Plan is to attract and retain the best available personnel for positions of substantial responsibility, to provide additional incentive to our employees, directors and consultants and employees and consultants of our parent and subsidiary companies and to promote the success of our business.

Common Stock Available Under the Plan. Assuming stockholders approve this proposal, a total of 28,931,660 shares of Class A common stock will have been reserved for issuance pursuant to the Plan. On December 31, 2007, options to purchase a total of 12,532,207 shares and Google Stock Units representing the right to acquire 2,990,222 shares of our Class A common stock were outstanding under the Plan. The outstanding stock options had a weighted average exercise price of \$333.56 per share. On December 31, 2007, 2,021,216 shares of our Class A common stock remained available for future issuance under our Plan.

If an award expires or is terminated or canceled without having been exercised or settled in full, or is forfeited back to or repurchased by us, the terminated portion of the award (or forfeited or repurchased shares subject to the award) will become available for future grant or sale under the Plan (unless the Plan has terminated). Shares are not deemed to be issued under the Plan with respect to any portion of an award that is settled in cash or to the extent such shares are withheld in satisfaction of tax withholding obligations. If the exercise or purchase price of an award is paid for through the

Table of Contents

tender of shares, or tax withholding obligations are met through the tender or withholding of shares, those shares tendered or withheld will again be available for issuance under the Plan. However, shares that have actually been transferred to a financial institution or other person or entity selected by the Plan administrator will not be returned to the Plan and will not be available for future distribution under the Plan.

Administration of the Plan. Our board of directors, or one or more committees appointed by our board of directors, will administer our Plan (the administrator). In the case of awards intended to qualify as performance-based compensation within the meaning of Section 162(m) of the Code, the LDC Committee will consist of two or more outside directors within the meaning of Section 162(m) of the Code to enable us to receive a federal tax deduction for certain compensation paid under the Plan. The administrator has the power to determine the terms of the awards, including the exercise price (which may be changed by the administrator after the date of grant), the number of shares subject to each award (subject to the limits under the Plan), the exercisability of the awards and the form of consideration payable upon exercise. The administrator also has the power to implement an award exchange program, an award transfer program (whereby awards may be transferred to a financial institution or other person or entity selected by the Plan administrator), and a program through which participants may reduce cash compensation payable in exchange for awards, and to create other stock based awards that are valued in whole or in part by reference to (or are otherwise based on) shares of our Class A common stock (or the cash equivalent of such shares).

Eligibility. Nonstatutory stock options, restricted stock, stock appreciation rights, performance units, performance shares, Google Stock Units and other stock based awards may be granted under the Plan to our employees, directors, and consultants, and employees and consultants of any of our parent or subsidiary corporations. Incentive stock options may be granted only to employees. As of December 31, 2007, we had 16,805 employees, ten directors (including three employee directors) and 4,890 consultants and temporary workers.

Limitations. Section 162(m) of the Code places limits on the deductibility for federal income tax purposes of compensation paid to certain of our executive officers. In order to preserve our ability to deduct the compensation income associated with certain awards granted to such persons, the Plan provides that no service provider may be granted, in any fiscal year, options and/or stock appreciation rights to purchase more than an aggregate of 1,000,000 shares of Class A common stock and an aggregate of 500,000 restricted stock awards, Google Stock Units, performance units and/or performance shares.

Options. A stock option is the right to purchase shares of our Class A common stock at a fixed exercise price for a fixed period of time. Each option is evidenced by a stock option agreement and is subject to the following terms and conditions:

Number of Options. The administrator will determine the number of shares granted to any eligible individual pursuant to a stock option.

Exercise Price. The administrator will determine the exercise price of options granted under our Plan at the time the options are granted, but with respect to nonstatutory stock options intended to qualify as performance-based compensation within the meaning of Section 162(m) of the Code and all incentive stock options, the exercise price generally must be at least equal to the fair market value of our Class A common stock on the date of grant. The exercise price of an incentive stock option granted to a 10% stockholder may not be less than 110% of the fair market value on the date such option is granted. The fair market value of the Class A common stock generally is determined with reference to the closing sale price for the Class A common stock (or the closing bid if no sales were reported) on the day the option is granted. As of December 31, 2007, the closing price of the Class A common stock as reported on The Nasdaq Global Select Market was \$691.48 per share.

Exercise of Option; Form of Consideration. The administrator determines when options become exercisable, and may in its discretion, accelerate the vesting of any outstanding option. The means of payment for shares issued upon exercise of an option is specified in each option agreement. To the extent permitted by applicable law, the Plan permits payment to be made by cash, check, promissory note, other shares of our Class A common stock (with some restrictions), cashless exercises, a reduction in the amount of our liability to the participant, any combination of the prior methods of payment or any other form of consideration permitted by applicable law.

Table of Contents

Term of Option. The term of stock options will be stated in the stock option agreement. However, the term of an incentive stock option may not exceed ten years, except that with respect to any participant who owns 10% of the voting power of all classes of our outstanding capital stock, the term must not exceed five years. No option may be exercised after the expiration of its term.

Termination of Service. After termination of service, an option holder may exercise his or her option for the period of time determined by the administrator and stated in the option agreement. In the absence of a time specified in a participant's award agreement, a participant may exercise the option within three months of such termination, to the extent that the option is vested on the date of termination, (but in no event later than the expiration of the term of such option as set forth in the option agreement), unless such participant's service terminates due to the participant's death or disability, in which case the participant or, if the participant has died, the participant's estate, beneficiary designated in accordance with the administrator's requirements or the person who acquires the right to exercise the option by bequest or inheritance may exercise the option, to the extent the option was vested on the date of termination, within one year from the date of such termination.

Nontransferability of Options. Unless otherwise determined by the administrator, options granted under the Plan are not transferable other than by will or the laws of descent and distribution, and may be exercised during the optionee's lifetime only by the optionee. However, the administrator may at any time implement an award transfer program (whereby awards may be transferred to a financial institution or other person or entity selected by the Plan administrator). In April 2007 we initiated a transferable stock option program for options granted under the Plan, pursuant to which eligible employees are able to sell vested stock options to participating financial institutions as an alternative to exercising options in the traditional method and then selling the underlying shares.

Stock Appreciation Rights. A stock appreciation right is the right to receive the appreciation in the fair market value of our Class A common stock between the exercise date and the date of grant, for that number of shares of our Class A common stock with respect to which the stock appreciation right is exercised. We may pay the appreciation in either cash, in shares of our Class A common stock with equivalent value, or in some combination, as determined by the administrator. Each award of stock appreciation rights is evidenced by an award agreement specifying the terms and conditions of the award. The administrator determines the exercise price of stock appreciation rights, the vesting schedule and other terms and conditions of stock appreciation rights. The administrator also determines the number of shares granted to a service provider pursuant to a stock appreciation right.

After termination of service, a participant will be able to exercise the vested portion of his or her stock appreciation right for the period of time stated in the award agreement. If no such period of time is stated in a participant's award agreement, a participant will generally be able to exercise his or her stock appreciation right for (i) three months following his or her termination for reasons other than death or disability, and (ii) one year following his or her termination due to death or disability. In no event will a stock appreciation right be exercised later than the expiration of its term.

Restricted Stock. Restricted stock awards are awards of shares of our Class A common stock that vest in accordance with terms and conditions established by the administrator. The administrator may impose whatever conditions to vesting it determines to be appropriate including, if the administrator has determined it is desirable for the award to qualify as "performance-based compensation" for purposes of Section 162(m) of the Code, that the restricted stock will vest based on the achievement of performance goals. Each award of restricted stock is evidenced by an award agreement specifying the terms and conditions of the award. The administrator will determine the number of shares of restricted stock granted to any employee. The administrator also determines the purchase price of any grants of restricted stock and, unless the administrator determines otherwise, shares that do not vest typically will be subject to forfeiture or to our right of repurchase, which we may exercise upon the voluntary or involuntary termination of the purchaser's service with us for any reason including death or disability.

Google Stock Units. Google Stock Units are awards of restricted stock, performance shares or performance units that are paid out in installments or on a deferred basis. The administrator determines the terms and conditions of Google Stock Units. Each Google Stock Unit award will be evidenced by an award agreement that will specify terms and conditions as the administrator may determine in its sole discretion, including, without limitation whatever conditions to

Table of Contents

vesting it determines to be appropriate. As with awards of restricted stock, performance shares and performance units, the administrator may set restrictions with respect to the Google Stock Units based on the achievement of specific performance goals. The administrator also determines the number of shares granted pursuant to a Google Stock Unit award.

Performance Shares and Performance Units. Performance units and performance shares are awards that will result in a payment to a participant only if performance goals established by the administrator are achieved or the awards otherwise vest. The administrator will establish performance goals in its discretion, which, depending on the extent to which they are met, will determine the number and/or the value of performance units and performance shares to be paid out to participants. The performance goals may be based upon the achievement of company-wide, divisional or individual goals (including solely continued service), applicable securities laws or other basis determined by the administrator. Payment for performance units and performance shares may be made in cash or in shares of our Class A common stock with equivalent value, or in some combination, as determined by the administrator. Performance units will have an initial dollar value established by the administrator prior to the grant date. Performance shares will have an initial value equal to the fair market value of our Class A common stock on the grant date. The administrator also determines the number of performance shares and performance units granted to any employee. Each performance unit and performance share is evidenced by an award agreement, and is subject to the terms and conditions determined by the administrator.

Other Stock Based Awards. The administrator has the authority to create awards under the Plan in addition to those specifically described in the Plan. These awards must be valued in whole or in part by reference to, or must otherwise be based on, the shares of our Class A common stock (or the cash equivalent of such shares). These awards may be granted either alone, in addition to, or in tandem with, other awards granted under the Plan and/or cash awards made outside the Plan. Each other stock based award will be evidenced by an award agreement that will specify terms and conditions as the administrator may determine.

Transferability of Awards. Unless the administrator determines otherwise, our Plan does not allow for the transfer of awards other than by will, by the laws of descent and distribution, or pursuant to an award transfer program which the administrator has reserved the discretion to implement from time to time, and only the participant may exercise an award during his or her lifetime.

Performance Goals. As discussed above, under Section 162(m) of the Code, the annual compensation paid to the chief executive officer, the chief financial officer and each of the other three most highly compensated executive officers (our named executive officers) may not be deductible to the extent it exceeds \$1 million. However, we are able to preserve the deductibility of compensation in excess of \$1 million if the conditions of Section 162(m) of the Code are met. These conditions include stockholder approval of the Plan, setting limits on the number of awards that any individual may receive, and for awards other than options and stock appreciation rights, establishing performance criteria that must be met before the award actually will vest or be paid. The administrator (in its discretion) may make performance goals applicable to a participant. One or more of the following performance goals may apply: annual revenue, cash position, controllable profits, customer satisfaction MBOs, earnings per share, individual objectives, net income, new orders, operating cash flow, operating income, return on assets, return on equity, return on sales, and total stockholder return. The performance goals may differ from participant to participant and from award to award. Any criteria used may be measured, as applicable, in absolute terms or in relative terms (including passage of time and/or against another company or companies), on a per-share basis, against the performance of the company as a whole or any segment of the company, and on a pre-tax or after-tax basis.

Adjustments upon Changes in Capitalization. In the event that our stock changes by reason of any dividend (excluding an ordinary dividend) or other distribution, recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase or exchange of our securities, or other similar change in our capital structure, the administrator will make the adjustments to the number and class of shares of Class A common stock subject to the Plan, the maximum number of shares of Class A common stock that may be issued to any individual in any fiscal year pursuant to awards, and the number, class and price of shares of Class A common stock subject to any outstanding award.

Table of Contents

Adjustments upon Liquidation or Dissolution. In the event of our liquidation or dissolution, any unexercised award will terminate. The administrator may, in its sole discretion, provide that each participant will have the right to exercise all or any part of the award, including shares as to which the award would not otherwise be exercisable.

Adjustments upon Merger or Change in Control. Our Plan provides that in the event of a merger with or into another corporation or our change in control, including the sale of all or substantially all of our assets, the successor corporation will assume or substitute an equivalent award for each outstanding award. Unless determined otherwise by the administrator, any outstanding options or stock appreciation rights not assumed or substituted for will be fully vested and exercisable, including as to shares that would not otherwise have been vested and exercisable, for a period of up to 15 days from the date of notice to the holder of such award. The option or stock appreciation right will terminate at the end of such period. Unless determined otherwise by the administrator, any restricted stock, performance shares, performance units, Google Stock Units or other stock based awards not assumed or substituted for will be fully vested as to all of the shares subject to the award, including shares which would not otherwise be vested. In the event an outside director is terminated immediately prior to or following a change in control, other than pursuant to a voluntary resignation, the awards he or she received under the Plan will fully vest and become immediately exercisable.

Amendment and Termination of Our Plan. Our Plan will automatically terminate in 2014, unless we terminate it sooner. In addition, our board of directors has the authority to amend, suspend or terminate our Plan provided it does not adversely affect any award previously granted under our Plan.

Plan Benefits

The amount and timing of awards granted under the Plan are determined in the sole discretion of the administrator and therefore cannot be determined in advance. The future awards that would be received under the Plan by executive officers and other employees are discretionary and are therefore not determinable at this time.

U.S. Federal Income Tax Information

Incentive Stock Options. An optionee who is granted an incentive stock option does not recognize taxable income at the time the option is granted or upon its exercise, although the exercise is an adjustment item for alternative minimum tax purposes and may subject the optionee to the alternative minimum tax. Upon a disposition of the shares more than two years after grant of the option and one year after exercise of the option, any gain or loss is treated as long-term capital gain or loss. If these holding periods are not satisfied, the optionee recognizes ordinary income at the time of disposition equal to the difference between the exercise price and the lower of (i) the fair market value of the shares at the date of the option exercise, or (ii) the sale price of the shares. Any gain or loss recognized on such a premature disposition of the shares in excess of the amount treated as ordinary income is treated as long-term or short-term capital gain or loss, depending on the holding period. Unless limited by Section 162(m) of the Code, we are generally entitled to a deduction in the same amount as the ordinary income recognized by the optionee.

Nonstatutory Stock Options. An optionee does not recognize any taxable income at the time he or she is granted a nonstatutory stock option. Upon exercise, the optionee recognizes taxable income generally measured by the excess of the then fair market value of the shares over the exercise price. Any taxable income recognized in connection with an option exercise by an employee is subject to tax withholding. Unless limited by Section 162(m) of the Code, we are generally entitled to a deduction in the same amount as the ordinary income recognized by the optionee. Upon a disposition of such shares by the optionee, any difference between the sale price and the optionee's exercise price, to the extent not recognized as taxable income as provided above, is treated as long-term or short-term capital gain or loss, depending on the holding period.

Restricted Stock, Google Stock Units, Performance Shares and Performance Units. A participant generally will not have taxable income at the time an award of restricted stock and Google Stock Units are granted. Instead, he or she will recognize ordinary income in the first taxable year in which his or her interest in the shares underlying the award becomes either (i) freely transferable or (ii) no longer subject to substantial risk of forfeiture (e.g., vested). However, a holder of a

Table of Contents

restricted stock award may elect to recognize income at the time he or she receives the award in an amount equal to the fair market value of the shares underlying the award less any amount paid for the shares on the date the award is granted.

Stock Appreciation Rights. No taxable income is reportable when a stock appreciation right is granted to a participant. Upon exercise, the participant will recognize ordinary income in an amount equal to the amount of cash received and the fair market value of any shares received. Any additional gain or loss recognized upon any later disposition of the shares would be capital gain or loss.

Our Tax Impact from Awards. We generally will be entitled to a tax deduction in connection with an award under the Plan in an amount equal to the ordinary income realized by a participant and at the time the participant recognizes such income (for example, the exercise of a nonstatutory stock option). Special rules limit the deductibility of compensation paid to our named executive officers. Under Section 162(m) of the Code, the annual compensation paid to named executive officers may not be deductible to the extent it exceeds \$1,000,000. However, we can preserve the deductibility of certain compensation in excess of \$1,000,000 if the conditions of Section 162(m) of the Code are met. These conditions include stockholder approval of the Plan and setting limits on the number of awards that any individual may receive per year. The Plan has been designed to permit the administrator to grant awards that qualify as performance-based for purposes of satisfying the conditions of Section 162(m) of the Code, which permits us to continue to receive a federal income tax deduction in connection with such awards.

THE FOREGOING IS ONLY A SUMMARY OF THE EFFECT OF U.S. FEDERAL INCOME TAXATION WITH RESPECT TO THE GRANT AND EXERCISE OF AWARDS UNDER THE PLAN. IT DOES NOT PURPORT TO BE COMPLETE, AND DOES NOT DISCUSS THE TAX CONSEQUENCES OF AN INDIVIDUAL'S DEATH OR THE PROVISIONS OF THE INCOME TAX LAWS OF ANY MUNICIPALITY, STATE OR FOREIGN COUNTRY IN WHICH ANY ELIGIBLE INDIVIDUAL MAY RESIDE.

Required Vote

Approval of the proposed amendment to the Plan requires the affirmative **FOR** vote of a majority of the votes cast on the proposal. Unless marked to the contrary, proxies received will be voted **FOR** approval of an amendment to increase the number of shares issuable under the Plan by 6,500,000 shares.

Recommendation

We believe strongly that the approval of the amendment to the Plan is essential to our continued success. Our employees are one of our most valuable assets. Stock options and other awards such as those provided under the Plan are vital to our ability to attract and retain outstanding and highly skilled individuals. Such awards also are crucial to our ability to motivate employees to achieve our goals. For the reasons stated above the stockholders are being asked to approve the amendment to the Plan.

Our board of directors recommends a vote FOR the approval of an amendment to increase the number of shares issuable under the Plan by 6,500,000 shares.

Internet Censorship

Whereas, freedom of speech and freedom of the press are fundamental human rights, and free use of the Internet is protected in Article 19 of the Universal Declaration of Human Rights, which guarantees freedom to receive and impart information and ideas through any media regardless of frontiers, and

Whereas, the rapid provision of full and uncensored information through the Internet has become a major industry in the United States, and one of its major exports, and

Whereas, political censorship of the Internet degrades the quality of that service and ultimately threatens the integrity and viability of the industry itself, both in the United States and abroad, and

Whereas, some authoritarian foreign governments such as the Governments of Belarus, Burma, China, Cuba, Egypt, Iran, North Korea, Saudi Arabia, Syria, Tunisia, Turkmenistan, Uzbekistan, and Vietnam block, restrict, and monitor the information their citizens attempt to obtain, and

Whereas, technology companies in the United States such as Google, that operate in countries controlled by authoritarian governments have an obligation to comply with the principles of the United Nations Declaration of Human Rights, and

Whereas, technology companies in the United States have failed to develop adequate standards by which they can conduct business with authoritarian governments while protecting human rights to freedom of speech and freedom of expression,

Therefore, be it resolved, that shareholders request that management institute policies to help protect freedom of access to the Internet which would include the following minimum standards:

- 1) Data that can identify individual users should not be hosted in Internet restricting countries, where political speech can be treated as a crime by the legal system.

PROPOSAL NUMBER 5

STOCKHOLDER PROPOSAL

Harrington Investments, Inc. has advised us that it intends to submit the proposal set forth below for consideration at our Annual Meeting.

Shareholder Proposal to Create a Human Rights Committee

4.7 COMMITTEE ON HUMAN RIGHTS

RESOLVED: To amend the Bylaws, by inserting the following after section 4.6:

Section 4.7. *Board Committee on Human Rights.* There is established a Board Committee on Human Rights, which is created and authorized to review the implications of company policies, above and beyond matters of legal compliance, for the human rights of individuals in the US and worldwide.

The Board of Directors is authorized in its discretion consistent with these Bylaws, the Articles of Incorporation and applicable law to (1) select the members of the Board Committee on Human Rights, (2) provide said committee with funds for operating expenses, (3) adopt regulations or guidelines to govern said Committee's operations, (4) empower said Committee to solicit public input and to issue periodic reports to shareholders and the public, at reasonable expense and excluding confidential information, including but not limited to an annual report on the implications of company policies, above and beyond matters of legal compliance, for the human rights of individuals in the US and worldwide, and (5) any other measures within the Board's discretion consistent with these Bylaws and applicable law.

Nothing herein shall restrict the power of the Board of Directors to manage the business and affairs of the company. The Board Committee on Human Rights shall not incur any costs to the company except as authorized by the Board of Directors.

SUPPORTING STATEMENT

The proposed Bylaw would establish a Board Committee on Human Rights which would review and make policy recommendations regarding human rights issues raised by the company's activities and policies. We believe the proposed Board Committee on Human Rights could be an effective mechanism for addressing the human rights implications of the company's activities and policies as they emerge anywhere in the world. In defining human rights, proponents suggest that the committee could use the US Bill of Rights and the Universal Declaration of Human Rights as nonbinding benchmark or reference documents.

Required Vote

Approval of the stockholder proposal requires the affirmative **FOR** vote of a majority of the votes cast on the proposal. Unless marked to the contrary, proxies received will be voted **AGAINST** the stockholder proposal.

Recommendation

Our board of directors recommends a vote AGAINST the stockholder proposal.

COMMON STOCK OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information, as of February 15, 2008, concerning, except as indicated by the footnotes below:

Each person whom we know beneficially owns more than five percent of our Class A common stock or Class B common stock.

Each of our directors and nominees for the board of directors.

Each of our named executive officers.

All of our directors and executive officers as a group.

Unless otherwise noted below, the address of each beneficial owner listed in the table is c/o Google Inc., 1600 Amphitheatre Parkway, Mountain View, California 94043.

We have determined beneficial ownership in accordance with the rules of the SEC. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons and entities named in the table below have sole voting and investment power with respect to all shares of common stock that they beneficially own, subject to applicable community property laws.

Applicable percentage ownership is based on 236,890,520 shares of Class A common stock and 76,652,806 shares of Class B common stock outstanding at February 15, 2008. In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed outstanding shares of common stock subject to options or warrants held by that person that are currently exercisable or exercisable within 60 days of February 15, 2008, and common stock issuable upon the vesting of Google Stock Units within 60 days of February 15, 2008, ignoring the withholding of shares of common stock to cover applicable taxes. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person. Beneficial ownership representing less than one percent is denoted with an asterisk (*).

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Related Party Transactions Policy and Procedure

In October 2007, our board of directors adopted a revised Related Party Transactions Policy. Our Related Party Transactions Policy provides that Google will only enter into a transaction with a related party when our board of directors, acting through the Audit Committee, determines that the transaction is in the best interests of Google and its stockholders.

For the purposes of this policy, a related person means:

a member of the board of directors (or a nominee to the board of directors);

an executive officer;

any person who is known to be the beneficial owner of more than 5% of any class of Google's voting securities;

any immediate family member of any of the persons listed above; or

any firm, corporation, partnership or other entity in which any of the persons listed above is employed (or is a general partner or principal or in a similar position) or in which any of the persons listed above has a 5% or greater beneficial ownership interest.

We review all known relationships and transactions in which Google and our directors, executive officers and significant stockholders or their immediate family members are participants to determine whether such persons have a direct or indirect interest. Google's legal staff, in consultation with our finance team, is primarily responsible for developing and implementing processes and controls to obtain information regarding our directors, executive officers and significant stockholders with respect to related party transactions and then determining, based on the facts and circumstances, whether Google or a related party has a direct or indirect interest in these transactions. On a periodic basis, the legal and finance teams review all transactions involving payments between Google and any company that has a Google executive officer or director as an officer or director. In addition, our directors and executive officers are required to notify us of any potential related party transactions and provide us with the information regarding such transactions.

If our legal department determines that a transaction is a related party transaction, the Audit Committee must review the transaction and either approve or disapprove it. If advance approval of a transaction is not feasible, the chair of the Audit Committee may approve the transaction and the transaction may be ratified by the Audit Committee in accordance with the Related Party Transactions Policy. In determining whether to approve or ratify a transaction with a related party, the Audit Committee will take into account all of the relevant facts and circumstances available to it, including, among any other factors it deems appropriate:

the benefits to Google of the transaction;

the nature of the related party's interest in the transaction;

whether the transaction would impair the judgment of a director or executive officer to act in the best interests of Google and our stockholders;

Edgar Filing: Google Inc. - Form DEF 14A

the potential impact of the transaction on a director's independence; and

whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances.

Any member of the Audit Committee who is a related party with respect to a transaction under review may not participate in the deliberations or vote on the approval of the transaction.

Google will disclose the terms of related person transactions in its filings with the SEC to the extent required. Since January 1, 2007, we have not been a party to, and we have no plans to be a party to, any transaction or series of similar

transactions in which the amount involved exceeded or will exceed \$120,000 and in which any current director, executive officer, holder of more than 5% of our capital stock, or any member of the immediate family of any of the foregoing, had or will have a direct or indirect material interest, other than in connection with the transactions described below.

Indemnification Agreements

We have entered into an indemnification agreement with each of our directors and officers. The indemnification agreements and our certificate of incorporation and bylaws require us to indemnify our directors and officers to the fullest extent permitted by Delaware law.

Corporate Use of Personal Aircraft

Eric Schmidt has the use of a corporate jet that he makes available from time to time to Apex Aviation Corporation for charters by Apex to its customers. This aircraft has been chartered by Google from time to time and made available to certain of our executive officers for time-critical business trips. In 2007 we paid Apex \$7,000 per hour for use of this aircraft. The board of directors approved this hourly reimbursement rate based upon a competitive analysis of comparable chartered aircraft and which our board of directors determined was at or below market rates for the charter of similar aircraft. In 2007, we used this aircraft for business-related travel services for certain of our executive officers and we paid Apex approximately \$1,107,938 in fees through December 31, 2007.

Payments to Stanford University

In 2007, Google paid approximately \$1,923,812 to Stanford University. Approximately \$626,200 of these payments related to the license by Stanford of patents, including the PageRank patent, to Google. Approximately \$1,297,612 of the total amount of payments to Stanford represented donations for scholarships and other philanthropic endeavors. Pursuant to Stanford's standard royalty arrangements with its students who develop patents in the course of their studies at Stanford, Stanford shares a portion of the royalty revenues associated with some of these patent licenses with Larry Page and Sergey Brin. John L. Hennessy, President of Stanford University, is a member of our board of directors. John does not have a direct interest in any of the transactions described above.

Investment in 23andMe, Inc.

In May 2007, Google invested approximately \$3.9 million in the Series A preferred stock financing of 23andMe, Inc., a privately-held personal genetics company dedicated to helping individuals understand their own genetic information through DNA analysis technologies and web-based interactive tools. 23andMe's Series A financing involved a number of additional investors including New Enterprise Associates, Mohr Davidow Ventures and Genentech, Inc. In November 2007, Google purchased additional shares of Series A preferred stock of 23andMe held by an investor in 23andMe's Series A preferred stock financing for approximately \$500,000. Anne Wojcicki, who is a co-founder of 23andMe and who is also a shareholder and member of the board of directors, is married to Sergey Brin, Google's President, Technology, one of our founders and a member of our board of directors. Sergey also holds approximately 37.3% of Google's Class B common stock. Prior to Google's investment in 23andMe, Sergey provided approximately \$2.6 million in interim debt financing to 23andMe, which was repaid as part of this financing transaction. Genentech's Chief Executive Officer, Arthur Levinson, is also a member of the board of directors of Google. Google holds a minority interest in 23andMe as a result of these investments.

Google's Audit Committee reviewed and approved these transactions as part of Google's procedures for entering into transactions with related parties. As part of its decision-making process, the Audit Committee was advised by independent counsel and received and considered a report from an independent advisor as to the valuation of 23andMe.

X Prize Award

In October 2007, Google agreed to sponsor the Google Lunar X PRIZE. The Google Lunar X PRIZE is a \$30 million international competition to safely land a robot on the surface of the Moon, travel 500 meters over the lunar surface, and send images and data back to the Earth. Teams must be at least 90% privately funded and must be registered to compete by December 31, 2010. Google is the sole title sponsor of the Google Lunar X PRIZE, which is administered by the X PRIZE Foundation, an educational nonprofit prize institute whose mission is to create radical breakthroughs for the benefit of humanity. Larry Page is a Trustee of the X PRIZE Foundation and is Google's President, Products, one of our founders and a member of our board of directors. Larry also holds approximately 38.0% of Google's Class B common stock.

Investment in Comsenz Inc.

In July 2007, Google invested approximately \$1 million in the Series B preferred stock financing of Comsenz Inc., a provider of Bulletin Board System (BBS) and social networking software and hosted services for websites in China. Certain venture funds of Sequoia Capital China hold more than ten percent (10%) of the outstanding shares of Comsenz. Michael Moritz, who was a member of the board of directors of Google until May 2007, is a non-managing member of the mid-tier general partner of the Sequoia Capital China funds and has a greater than ten percent (10%) equity interest in one of the Sequoia Capital China funds.

Google's Audit Committee reviewed and approved this transaction as part of Google's procedures for entering into transactions with related parties.

Acquisition of PeakStream, Inc.

In May 2007, Google acquired PeakStream, Inc., a developer of a software application platform aimed at making multiprocessor systems easier to program, for approximately \$20.3 million. KPCB Holdings, Inc. held the shares of Peakstream as nominee for Kleiner Perkins Caufield & Byers XI-A, LP, Kleiner Perkins Caufield & Byers XI-B, LP, and several of the managers of the fund. These entities were entitled to receive approximately 24.5% of the consideration received in the acquisition. L. John Doerr, who is a member of the board of directors of Google, is a managing director of KPCB XI Associates, LLC, the general partner of both Kleiner Perkins Caufield & Byers XI-A, LP and Kleiner Perkins Caufield & Byers XI-B, LP and a limited partner of both Kleiner Perkins Caufield & Byers XI-A, LP and Kleiner Perkins Caufield & Byers XI-B, LP. Additionally, certain Sequoia Capital venture funds were entitled to receive an aggregate of approximately 24.5% of the consideration received in the acquisition. Michael Moritz, who was a member of the board of directors of Google until May 2007, is a managing member of, and has a greater than ten percent (10%) interest in, the general partner of each of the Sequoia funds, and is a non-managing member of, and has a less than ten percent (10%) equity interest in, one of the Sequoia funds.

Google's Audit Committee reviewed and approved this transaction as part of Google's procedures for entering into transactions with related parties.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

Google's compensation programs reflect our philosophy to pay all of our employees, including our executive officers named in the compensation tables below, in ways that support three primary business objectives:

Attract and retain the world's best talent.

Support our culture of innovation and performance.

Align employee interests with stockholder interests in the overall success of Google.

To achieve these objectives for Google's named executive officers, we intend the bulk of their compensation to be at risk with significant upside potential for strong performance as well as downside exposure for underperformance. We measure both individual and company performance for our named executive officers annually, and reward executives accordingly. We believe this is appropriate given their ability to influence Google's overall performance.

Although we intend for performance-based incentives and rewards to be substantial when warranted, these incentives are secondary to career growth, work environment and engaging work opportunities. We seek to develop a highly-motivated and collaborative workforce that pursues achievements for the sake of progress and innovation before individual gain. When Google and individual executives achieve our goals, we ensure that appropriately significant economic rewards follow.

Eric, Larry and Sergey have voluntarily elected to receive only nominal cash compensation. Their primary compensation continues to come from returns on their ownership stakes in Google. As significant stockholders, their personal wealth is tied directly to sustained stock price appreciation and performance, which provides direct alignment with stockholder interests.

We review our compensation philosophy and practices, including for our named executive officers, with the LDC Committee on an ongoing basis so that the LDC Committee can recommend changes, if needed, to keep our employees aligned with our business objectives. Each member of our LDC Committee is an outside director as defined in Section 162(m) of the Code, and a non-employee director within the meaning of Rule 16b-3 of the Exchange Act. Our board of directors has determined that each of the directors serving on our LDC Committee is independent as defined in the Marketplace Rules of The NASDAQ Stock Market. The LDC Committee oversees all of our executive compensation programs and operates under a written charter (http://investor.google.com/committee_leadership.html). The LDC Committee may delegate the authority to make compensation decisions regarding employees of Google or consultants to Google who are not executive officers. For these purposes, the LDC Committee may form and delegate authority to subcommittees composed of LDC Committee members, executive officers or other employees of Google.

Comparative Framework

Google reviews both its cash and equity compensation relative to market comparables. We analyze market pay rates at least annually using the most directly relevant published survey sources available, including surveys from Radford, Hewitt, and IPAS. In addition, we analyze information reported in our peer companies' SEC filings for all direct pay elements, including salary, cash incentives and equity. For our named executive officers in 2007, we considered peers to be companies that met at least three of the following criteria:

High-technology company.

Edgar Filing: Google Inc. - Form DEF 14A

Key labor market competitor (e.g., Microsoft, Yahoo, Amazon, eBay).

High-growth, with a minimum of 25% revenue and/or headcount growth over the previous two-year period.

Against this set of peer companies, our executive target cash compensation was below competitive levels. To address this, we increased executive officer target cash compensation levels for 2007, other than for Eric, Larry and Sergey, to better reflect the competitive opportunities that Google executives have and to help attract and retain senior-level executives.

In the first quarter of 2008, we completed our annual peer group review. Using the same criteria as those applied in 2007 as described above, we made two changes to the peer group for 2008. We removed Texas Instruments because it only met two of the five criteria and replaced it with IBM, which met four of the five criteria.

We reviewed our compensation against this set of peers and have decided to make no adjustments at this time. We will assess any proposed changes going forward in 2008 against the peer group comparators described above.

Elements of Compensation

Our named executive officer compensation program includes three main elements:

Base salary.

Cash bonuses.

Stock-based incentives in the form of stock options and restricted Google Stock Units (GSUs).

In 2007 and going forward into 2008, we intend to align our named executive officer compensation against the market as follows:

Edgar Filing: Google Inc. - Form DEF 14A

Base Salary

50th to 75th percentile

Target Total Cash

75th percentile

Target Equity

≥90th percentile

Prior to 2007, our named executives generally had very large unvested gains from their pre-IPO equity grants and therefore we believed it was appropriate to keep cash compensation below market standards as we relied on their equity

Table of Contents

vesting to provide the majority of their compensation. In 2007, we believed it was appropriate to increase cash compensation and grant new equity awards to our named executives, excluding Eric, Larry and Sergey, for several reasons:

Our named executives are key drivers of Google's business strategy and overall performance. Retention of these individuals supports our ability to execute in the marketplace.

The findings of our peer group analysis showed that target cash compensation for the named executives was below competitive practice.

Our named executives, with the exception of Eric, Larry and Sergey, were approaching full vesting dates of their pre-IPO stock option grants.

For these reasons, we increased cash compensation to more closely reflect the practices of our peer group. We also made new equity grants to continue our practice of aligning executive interests with those of stakeholders by providing a meaningful amount of compensation through equity. The resulting compensation mix supported our goal of providing primarily at risk compensation with significant upside potential for strong performance as well as downside exposure for underperformance.

Pay Mix

For our named executives, excluding Eric, Larry and Sergey, the 2007 cash bonus at target performance represented 3% to 6% of total compensation and 2007 equity compensation represented approximately 90% of total compensation, based on the full unamortized accounting fair value of equity grants. Actual bonuses awarded for 2007 performance represented approximately 80% of total cash compensation for the year.

Role of Executives in Determining Compensation

Our Senior Vice President of Business Operations and our Chief Executive Officer, together with the LDC Committee and our internal compensation team review assessments of executive compensation practices at least annually against our defined comparative framework. Eric, our CEO, makes recommendations to the LDC Committee regarding Google executive pay practices, but the LDC Committee must approve any changes before they are made.

Individual Performance Measurement

At the beginning of 2007, our named executive officers, other than Eric, Larry and Sergey, drafted their own performance goals, including operational, growth and leadership goals for the organizations they manage, and agreed on them with Eric. At the end of the year, Eric, together with our internal compensation team assessed each executive's performance against his or her pre-established goals and provided the LDC Committee with a performance appraisal, which included a performance rating. The LDC Committee used this assessment to inform its discretion in determining the individual component of the cash bonus, which is described in further detail in the Cash Incentives section. This performance appraisal process was largely subjective, with much discretion exercised by our CEO and the LDC Committee. There is no specific weight given to any one individual goal or performance criterion. The assessment is based on our CEO and the LDC Committee's determinations regarding how well the executive performed his or her job, and such assessment is qualitative, not quantitative, in nature. For example, when our CEO and the LDC Committee determined how well each of the executive's grew his or her organization, they placed more importance on the quality of the new hires than on the number or percentage of people hired. The performance appraisal process is the same for each Google executive with the exception of Eric, Larry and Sergey who are not measured against formal performance goals and do not receive any salary or plan based bonus other than \$1 per year.

Company Performance Measurement

Our Senior Vice President of Business Operations and Chief Executive Officer, working with our internal compensation team and upon consultation with the LDC Committee, proposed bonus funding metrics for our

Table of Contents

executive officer bonus plan for 2007. The proposed company performance metrics were based on non-GAAP operating income. The 2007 formula established a Company Multiplier of 100% for non-GAAP operating income performance of \$5.284 billion. Google's non-GAAP operating income year-end result for 2007 was \$5.953 billion, which resulted in a Company Multiplier of 166%. Non-GAAP operating income consisted of GAAP income excluding stock-based compensation expense, intellectual property research and development expenses and contributions to the Google Foundation. The LDC Committee reviewed and approved the proposed performance metrics based on its assessment that the proposed goals were reasonable and aligned with stockholder interests.

Base Salary

We view named executive officer base salaries as a tool that provides executives with a reasonable base level of monthly income relative to the jobs they are doing and market-competitive salaries. In 2004, Eric, Larry and Sergey requested that their salaries each be reduced to \$1 per year. However, due to their strong leadership and Google's strong overall performance, we offered each of them market-competitive salaries at the beginning of each of 2005, 2006, 2007 and 2008. Due to their own preferences not to receive salary compensation, Eric, Larry and Sergey each rejected these offers and continue to receive base salaries of \$1.

We establish base salaries for our other named executives based on the scope of their responsibilities, market data and internal equity. We review salaries at least annually and may adjust them from time to time if needed to reflect changes in market conditions. Although we generally differentiate salaries by role and by individual for most positions at Google, we have continued to maintain the same salaries for the named executive officers other than Eric, Larry and Sergey due to the similar scope of their overall organizational leadership responsibilities across Google. To determine salary recommendations for each executive, the CEO reviews the market data discussed above with Larry and Sergey and makes a recommendation to the LDC Committee for review and then to the board of directors for final approval.

In the first quarter of 2007, the LDC Committee and board of directors unanimously approved an increase in the salary of each of our named executive officers, other than Eric, Larry and Sergey, from \$250,000 to \$450,000. In increasing these salaries, we considered the factors discussed in the Elements of Compensation section.

Cash Incentives

Executive Bonus Plan. Our executive bonus plan provided an annual variable cash incentive designed to motivate participants to achieve our financial and other performance objectives and reward executives for their achievements when those objectives are met. All of our named executive officers, other than Eric, Larry and Sergey, participated in the executive bonus plan. Since 2004, the LDC Committee has offered Eric, Larry and Sergey the opportunity to participate in each year's executive bonus plan, but they have declined to participate. The bonuses paid for 2007 to our named executive officers under the 2007 executive bonus plan appear in the table below as well as the Summary Compensation Table under the Non-Equity Incentive Plan Compensation column.

We calculate bonuses using the following formula:

$$\begin{array}{ccccccc} \text{Annual} & & & & & & \text{Bonus} \\ \text{Salary} & \times & \text{Target Bonus} & \times & \text{Individual} & \times & \text{Company} \\ & & \text{Percentage} & & \text{Multiplier} & & \text{Multiplier} \\ & & & & & = & \\ & & & & & & \text{Payout} \end{array}$$

In 2007, the Annual Salary for each participating named executive officer was \$450,000 and the Target Bonus Percentage was 150%. The Individual and Company Multipliers are each derived based on performance and are equally weighted. The Individual Multiplier reflects each executive's individual performance and is determined at the LDC Committee's discretion based on the Individual Performance Measurement process described above. Individual performance that meets expectations yields a 100% multiplier. The Company Multiplier was determined based on pre-established non-GAAP operating income objectives as described in the Company Performance Measurement process.

Table of Contents

above. The Company Multiplier is the same for all participants. Company performance that meets expectations yields a 100% multiplier.

If both individual and company performance had met expectations, then the bonus for our named executive officers would have been 150% of salary. Actual bonuses can range from zero to a maximum of ten times salary under the executive bonus plan, based on performance. Over the past four years, actual payouts to named executive officers have ranged from 300% to 450% of salary based on Google's strong performance against our financial goals and our executives' strong performance meeting their individual goals.

While performance targets are established at levels that are intended to be achievable for both the Company Multiplier and the Individual Multiplier, a maximum bonus payout would require very high levels of both individual and company performance which we believe are possible, but highly unlikely to be achieved. In the four years of operating the executive bonus plan, we have not paid the maximum amount to an executive. Generally, the LDC Committee sets the target and maximum performance requirements such that relative difficulty of achievement is consistent from year to year.

Once the LDC Committee finalizes the performance goals, it has no discretion to modify them; however, the board of directors does retain authority to pay additional discretionary bonuses outside the executive bonus plan if warranted by performance not measured under the plan. In 2007, our board of directors did not authorize any such discretionary bonus payments outside of the executive bonus plan to our executive officers.

All Google employees, including our named executive officers, participate in certain company-wide bonus programs. In 2007, these company-wide programs included a holiday bonus awarded to all named executive officers and a peer bonus awarded to Eric. In 2007, Google paid each of its employees, including Eric, Larry, Sergey and the other named executives, a holiday bonus, which generally represented \$1,000 net of tax withholding for each United States based employee. Each Google employee is eligible to nominate another Google employee (as long as that employee is not his or her direct supervisor) for a peer bonus to recognize outstanding contributions within Google. In 2007, Eric was nominated for such an award in the amount of \$175, which is the standard United States award amount for this program.

<i>Equity Compensation</i>			

We use equity compensation to align our named executive officers' interests with those of our stockholders and to attract and retain high-caliber executives through recognition of anticipated future performance. Under our 2004 Stock Plan, we can grant stock options, GSUs, restricted stock, and other equity awards to employees, including our named executive officers.

From our initial public offering through the beginning of 2007, we granted no equity awards to our named executive officers. However, since the majority of the named executive officers' previous equity grants became fully vested in 2007, we made supplemental equity grants to these executives, other than Eric, Larry and Sergey, in early 2007 to meet our retention and business objectives discussed in the Overview and the Elements of Compensation sections above. We

Table of Contents

granted each named executive officer stock options and GSUs in the ratio of two stock options for each GSU. We believe this ratio offers an appropriate balance between a leveraged upside opportunity and a reliable level of income for this type of award. We determine grant amounts by reviewing competitive market data, individual performance assessments and business objectives with the LDC Committee at least annually. In the future, we may consider making ongoing equity grants annually to our named executive officers with the magnitude of those grants calibrated to meet our business objectives.

Eric, Larry and Sergey do not currently hold any stock options, and all of their stock holdings are fully vested. They requested not to be considered for additional equity grants in 2007. The LDC Committee will continue to review their compensation opportunities on an ongoing basis and recommend changes, if needed, to maintain alignment with business objectives.

Timing of Equity Grants

Pursuant to a policy adopted by the LDC Committee in 2005, the effective grant date for all equity awards to executive officers, members of our board of directors and non-employee advisors is the first business day of the month following the date on which the LDC Committee approves the grant, unless otherwise specified by our board of directors or the LDC Committee. All stock option grants to named executive officers are granted with an exercise price equal to or above the fair market value of the underlying stock on the date of grant. The LDC Committee does not grant equity compensation awards in anticipation of the release of material nonpublic information. Similarly, Google does not time the release of material nonpublic information based on equity award grant dates.

Stock Ownership Guidelines

To align our named executive officers' interests with those of our stockholders, the board of directors has instituted stock ownership guidelines. Google also has an insider trading policy, which among other things prohibits employees from hedging the economic risk of their ownership.

Post-Employment and Change of Control Payments

We have no agreements with any of our executive officers that provide for additional or accelerated compensation on the termination of the executive's employment or a change of control of Google, except as set forth below.

Upon a change of control of Google and unless our board of directors or LDC Committee determines otherwise, if the successor corporation refuses to assume or substitute the equity awards held by our employees, including our named executive officers, unvested options and unvested GSUs will fully vest. The table below shows our estimates of the amount of the benefit each of our named executive officers would have received if the unvested options and unvested GSUs held by them as of December 31, 2007 had become fully vested as a result of a change of control. The estimated benefit amount of unvested options was calculated by multiplying the number of unvested options held by the applicable named executive officer by the difference between the closing price of our Class A common stock on December 31, 2007, which was \$691.48, and the exercise price of the option. The estimated benefit amount of unvested GSUs was calculated by multiplying the number of unvested GSUs by the closing price of our Class A common stock on December 31, 2007, which was \$691.48.

162(m) Tax Deductibility

Internal Revenue Code Section 162(m) may preclude us from deducting certain forms of non-performance-based compensation in excess of \$1,000,000 to named executive officers. In 2007, Google designed the executive bonus plan so that the payments made under it are eligible for deduction. In addition, the option awards, but not the GSUs, granted to our named executive officers in 2007 are performance-based and therefore Google will generally be entitled to deduct an amount equal to the amount of taxable income attributed to our named executive officers when they exercise these options.

Perquisites and Other Benefits

Our named executive officers, like our other employees, participate in various employee benefit plans, including medical and dental care plans; flexible spending accounts for healthcare; life, accidental death and dismemberment and disability insurance; employee assistance programs (e.g., confidential counseling); and paid time off. Like our other employees, we also paid life insurance premiums for the benefit of our named executive officers, other than Eric, Larry and Sergey.

In addition, we maintain a 401(k) Retirement Savings Plan for the benefit of all of our employees, including our named executives. In 2007, Google provided a company match equal to the greater of 100% of contributions up to \$2,500; or 50% of contributions up to a maximum company match of \$7,750 per employee, which executives also were able to receive. Google's company match is fully vested to all employees, including executives, at the time of contribution. As is the case with all employees, named executives are not taxed on their contributions to the 401(k) Plan or earnings on those contributions until they receive distributions from the 401(k) Plan, and all Google contributions are deductible by us when made.

In 2007, Google paid for the personal security for some of the named executive officers as well as \$516 related to the incremental cost of personal use of the corporate plane for Eric.

We regularly review the perquisites that named executive officers receive.

No Additional Executive Benefit Plans

Since we do not generally differentiate the benefits we offer our named executives from the benefits we offer our other employees, we also do not maintain any executive retirement programs such as executive pension plans, deferred compensation plans, or other executive retirement benefits.

(1) The LDC Committee approved equity awards for the named executive officers at the LDC Committee meeting on February 16, 2007. Pursuant to the LDC Committee's equity granting policy, the option and GSU awards were granted on the first business day of the month following the date of the LDC Committee meeting. For a more detailed discussion on our equity grant dates, refer to the Timing of Equity Grants section of the Compensation Discussion and Analysis.

(2) The target incentive amounts shown in this column reflect our annual incentive plan awards originally provided under the Google Executive Bonus Plan and represent the target awards pre-established as a percent of salary. The maximum is the greatest payout which can be made if the pre-established maximum performance level is met or exceeded. Actual 2007 Executive Bonus Plan payouts are reflected in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.

(3) Stock awards and option awards are shown at their grant date fair value under Financial Accounting Standards Board Statement of Financial Accounting Standards No. 123(R), Share-Based Payment. The fair value of each option grant is estimated based on the fair market value on the date of grant and using the Black-Scholes option pricing model. The fair value of the options granted in 2007 was approximately \$126.35 per share. For a more detailed discussion on the valuation model and assumptions used to calculate the fair value of our options, refer to note 11 to the consolidated financial statements contained in our 2007 Annual Report on Form 10-K filed on February 15, 2008. The grant date fair value of each GSU award is measured based on the closing price of our Class A common stock on the date of grant.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The Audit Committee (the "Committee") of the Board of Directors is comprised entirely of independent directors who meet the independence requirements of the Marketplace Rules of The NASDAQ Stock Market and the Securities and Exchange Commission. The Committee operates pursuant to a charter that is available on the Investor Relations section of our website at http://investor.google.com/committee_audit.html. Google's independent auditors are responsible for expressing an opinion as to the conformity of Google's consolidated financial statements with generally accepted accounting principles and auditing management's assessment of the effectiveness of internal control over financial reporting.

In performing its responsibilities, the Committee has reviewed and discussed, with management and the independent auditors, the audited consolidated financial statements in Google's Annual Report on Form 10-K for the year ended December 31, 2007. The Audit Committee will be responsible for reviewing and approving all changes to Google's Insider Trading Policy, Investment in Marketable Securities and Accounting for Marketable Securities Policy, Foreign Exchange and Accounting for Foreign Currency Hedges Policy, Code of Conduct and Global Signature and Spending Authority Policy. 5. Eligibility. Nonstatutory Stock Options, Restricted Stock, Stock Appreciation Rights, Performance Units, Performance Shares, Restricted Stock Units and Other Stock Based Awards may be granted to Service Providers. Incentive Stock Options may be granted only to Employees.

6. Limitations.

(a) ISO \$100,000 Rule. Each Option will be designated in the Award Agreement as either an Incentive Stock Option or a Nonstatutory Stock Option. However, notwithstanding such designation, to the extent that the aggregate Fair Market Value of the Shares with respect to which Incentive Stock Options are exercisable for the first time by the

Table of Contents

Participant during any calendar year (under all plans of the Company and any Parent or Subsidiary) exceeds \$100,000, such Options will be treated as Nonstatutory Stock Options. For purposes of this Section 6(a), Incentive Stock Options will be taken into account in the order in which they were granted. The Fair Market Value of the Shares will be determined as of the time the Option with respect to such Shares is granted.

(b) No Rights as a Service Provider. Neither the Plan nor any Award shall confer upon a Participant any right with respect to continuing his or her relationship as a Service Provider, nor shall they interfere in any way with the right of the Participant or the right of the Company or its Parent or Subsidiaries to terminate such relationship at any time, with or without cause.

(c) 162(m) Limitation. The following limitations shall apply to Awards under the Plan:

(i) Option and SAR Share Annual Limit. No Service Provider will be granted, in any Fiscal Year, Options and/or SARs to purchase more than 1,000,000 Shares.

(ii) Restricted Stock, Restricted Stock Units, Performance Units and Performance Shares Annual Limit. No Service Provider will be granted, in any Fiscal Year, Restricted Stock, Restricted Stock Units, Performance Units and/or Performance Shares to purchase more than 500,000 Shares.

(iii) Section 162(m) Performance Restrictions. For purposes of qualifying grants of Restricted Stock, Restricted Stock Units, Performance Shares or Performance Units as performance-based compensation under Section 162(m) of the Code, the Administrator, in its discretion, may set restrictions based upon the achievement of Performance Goals. The Performance Goals shall be set by the Administrator on or before the latest date permissible to enable the Restricted Stock Units, Restricted Stock, Performance Shares or Performance Units to qualify as performance-based compensation under Section 162(m) of the Code. In granting Restricted Stock Units, Restricted Stock, Performance Shares or Performance Units which are intended to qualify under Section 162(m) of the Code, the Administrator shall follow any procedures determined by it from time to time to be necessary or appropriate to ensure qualification of the Award under Section 162(m) of the Code (e.g., in determining the Performance Goals).

(iv) The foregoing limitations will be adjusted proportionately in connection with any change in the Company's capitalization as described in Section 15 of the Plan.

(v) If an Award is cancelled in the same Fiscal Year in which it was granted (other than in connection with a transaction described in Section 15 of the Plan), the cancelled Award will be counted against the limits set forth in subsections (i) and (ii) above. For this purpose, if the exercise price of an Option is reduced, the transaction will be treated as a cancellation of the Option and the grant of a new Option.

7. Stock Options.

(a) Term of Option. The term of each Option will be stated in the Award Agreement. In the case of an Incentive Stock Option, the term will be ten (10) years from the date of grant or such shorter term as may be provided in the Award Agreement. Moreover, in the case of an Incentive Stock Option granted to a Participant who, at the time the Incentive Stock Option is granted, owns stock representing more than ten percent (10%) of the total combined voting power of all classes of stock of the Company or any Parent or Subsidiary, the term of the Incentive Stock Option will be five (5) years from the date of grant or such shorter term as may be provided in the Award Agreement.

(b) Option Exercise Price and Consideration.

(i) Exercise Price. The per Share exercise price for the Shares to be issued pursuant to exercise of an Option will be determined by the Administrator, subject to the following:

(1) In the case of an Incentive Stock Option

Table of Contents

(A) granted to an Employee who, at the time the Incentive Stock Option is granted, owns stock representing more than ten percent (10%) of the voting power of all classes of stock of the Company or any Parent or Subsidiary, the per Share exercise price will be no less than 110% of the Fair Market Value per Share on the date of grant.

(B) granted to any Employee other than an Employee described in paragraph (A) immediately above, the per Share exercise price will be no less than 100% of the Fair Market Value per Share on the date of grant.

(2) In the case of a Nonstatutory Stock Option, the per Share exercise price will be determined by the Administrator. In the case of a Nonstatutory Stock Option intended to qualify as performance-based compensation within the meaning of Section 162(m) of the Code, the per Share exercise price will be no less than 100% of the Fair Market Value per Share on the date of grant.

(3) Notwithstanding the foregoing, Incentive Stock Options may be granted with a per Share exercise price of less than 100% of the Fair Market Value per Share on the date of grant pursuant to a merger or other corporate transaction.

(ii) Waiting Period and Exercise Dates. At the time an Option is granted, the Administrator will fix the period within which the Option may be exercised and will determine any conditions that must be satisfied before the Option may be exercised.

(c) Form of Consideration. The Administrator will determine the acceptable form of consideration for exercising an Option, including the method of payment. In the case of an Incentive Stock Option, the Administrator will determine the acceptable form of consideration at the time of grant. Such consideration to the extent permitted by Applicable Laws may consist entirely of:

(i) cash;

(ii) check;

(iii) promissory note;

(iv) other Shares which meet the conditions established by the Administrator to avoid adverse accounting consequences (as determined by the Administrator);

(v) consideration received by the Company under a cashless exercise program implemented by the Company in connection with the Plan;

(vi) a reduction in the amount of any Company liability to the Participant, including any liability attributable to the Participant's participation in any Company-sponsored deferred compensation program or arrangement;

(vii) any combination of the foregoing methods of payment; or

(viii) such other consideration and method of payment for the issuance of Shares to the extent permitted by Applicable Laws.

(d) Exercise of Option.

(i) Procedure for Exercise: Rights as a Stockholder. Any Option granted hereunder will be exercisable according to the terms of the Plan and at such times and under such conditions as determined by the Administrator and set forth in the Award Agreement. An Option may not be exercised for a fraction of a Share.

Table of Contents

An Option will be deemed exercised when the Company receives: (x) written or electronic notice of exercise (in accordance with the Award Agreement) from the person entitled to exercise the Option, and (y) full payment for the Shares with respect to which the Option is exercised. Full payment may consist of any consideration and method of payment authorized by the Administrator and permitted by the Award Agreement and the Plan. Shares issued upon exercise of an Option will be issued in the name of the Participant or, if requested by the Participant, in the name of the Participant and his or her spouse. Until the Shares are issued (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company), no right to vote or receive dividends or any other rights as a stockholder will exist with respect to the Awarded Stock, notwithstanding the exercise of the Option. The Company will issue (or cause to be issued) such Shares promptly after the Option is exercised. No adjustment will be made for a dividend or other right for which the Record Date is prior to the date the Shares are issued, except as provided in Section 15 of the Plan or the applicable Award Agreement.

Exercising an Option in any manner will decrease the number of Shares thereafter available for sale under the Option, by the number of Shares as to which the Option is exercised.

(ii) Termination of Relationship as a Service Provider. If a Participant ceases to be a Service Provider, other than upon the Participant's death or Disability, the Participant may exercise his or her Option within such period of time as is specified in the Award Agreement to the extent that the Option is vested on the date of termination (but in no event later than the expiration of the term of such Option as set forth in the Award Agreement). In the absence of a specified time in the Award Agreement, the Option will remain exercisable for three (3) months following the Participant's termination. Unless otherwise provided by the Administrator, if on the date of termination the Participant is not vested as to his or her entire Option, the Shares covered by the unvested portion of the Option will revert to the Plan on the date one (1) month following the Participant's termination. If after termination the Participant does not exercise his or her Option within the time specified by the Administrator, the Option will terminate, and the Shares covered by such Option will revert to the Plan.

(iii) Disability of Participant. If a Participant ceases to be a Service Provider as a result of the Participant's Disability, the Participant may exercise his or her Option within such period of time as is specified in the Award Agreement to the extent the Option is vested on the date of termination (but in no event later than the expiration of the term of such Option as set forth in the Award Agreement). In the absence of a specified time in the Award Agreement, the Option will remain exercisable for twelve (12) months following the Participant's termination. Unless otherwise provided by the Administrator, if on the date of termination the Participant is not vested as to his or her entire Option, the Shares covered by the unvested portion of the Option will revert to the Plan on the date one (1) month following the Participant's termination. If after termination the Participant does not exercise his or her Option within the time specified herein, the Option will terminate, and the Shares covered by such Option will revert to the Plan.

(iv) Death of Participant. If a Participant dies while a Service Provider, the Option may be exercised following the Participant's death within such period of time as is specified in the Award Agreement to the extent that the Option is vested on the date of death (but in no event may the option be exercised later than the expiration of the term of such Option as set forth in the Award Agreement), by the Participant's designated beneficiary, provided such beneficiary has been designated prior to Participant's death in a form acceptable to the Administrator. If no such beneficiary has been designated by the Participant, then such Option may be exercised by the personal representative of the Participant's estate or by the person(s) to whom the Option is transferred pursuant to the Participant's will or in accordance with the laws of descent and distribution. In the absence of a specified time in the Award Agreement, the Option will remain exercisable for twelve (12) months following Participant's death. Unless otherwise provided by the Administrator, if at the time of death Participant is not vested as to his or her entire Option, the Shares covered by the unvested portion of the Option will immediately revert to the Plan on the date one (1) month following the Participant's death. If the Option is not so exercised within the time specified herein, the Option will terminate, and the Shares covered by such Option will revert to the Plan.

(e) Buyout Provisions. The Administrator may at any time offer to buy out for a payment in cash or Shares an Option previously granted based on such terms and conditions as the Administrator shall establish and communicate to the Participant at the time that such offer is made.

The Administrator shall have authority to determine the Service Providers to whom and the time or times at which Other Stock Based Awards shall be made, the amount of such Other Stock Based Awards, and all other conditions of the Other Stock Based Awards including any dividend and/or voting rights.

13. Leaves of Absence. Unless the Administrator provides otherwise, vesting of Awards granted hereunder will be suspended during any unpaid leave of absence and will resume on the date the Participant returns to work on a regular schedule as determined by the Company; provided, however, that no vesting credit will be awarded for the time vesting has been suspended during such leave of absence. A Service Provider will not cease to be an Employee in the case of (i) any leave of absence approved by the Company or (ii) transfers between locations of the Company or between the Company, its Parent, or any Subsidiary. For purposes of Incentive Stock Options, no such leave may exceed ninety (90) days, unless reemployment upon expiration of such leave is guaranteed by statute or contract. If reemployment upon expiration of a leave of absence approved by the Company is not so guaranteed, then three months following the 91st day of such leave any Incentive Stock Option held by the Participant will cease to be treated as an Incentive Stock Option and will be treated for tax purposes as a Nonstatutory Stock Option.

14. Non-Transferability of Awards. Unless determined otherwise by the Administrator, an Award may not be sold, pledged, assigned, hypothecated, transferred, or disposed of in any manner other than by will or by the laws of descent or distribution and may be exercised, during the lifetime of the Participant, only by the Participant. If the Administrator makes an Award transferable, such Award will contain such additional terms and conditions as the Administrator deems appropriate.

15. Adjustments: Dissolution or Liquidation; Merger or Change in Control.

(a) Adjustments. In the event that any dividend (excluding an ordinary dividend) or other distribution (whether in the form of cash, Shares, other securities, or other property), recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase, or exchange of Shares or other securities of the Company, or other change in the corporate structure of the Company affecting the Shares occurs, then the Administrator shall appropriately adjust the number and class of Shares which may be delivered under the Plan, the 162(m) annual share issuance limits under Section 6(c) of the Plan, and the number, class, and price of Shares subject to outstanding Awards. Notwithstanding the preceding, the number of Shares subject to any Award always shall be a whole number.

(b) Dissolution or Liquidation. In the event of the proposed dissolution or liquidation of the Company, the Administrator will notify each Participant as soon as practicable prior to the effective date of such proposed transaction. The Administrator in its discretion may provide for a Participant to have the right to exercise his or her Award, to the extent applicable, until ten (10) days prior to such transaction as to all of the Awarded Stock covered thereby, including Shares as to which the Award would not otherwise be exercisable. In addition, the Administrator may provide that any Company repurchase option or forfeiture rights applicable to any Award shall lapse 100%, and that any Award vesting shall accelerate 100%, provided the proposed dissolution or liquidation takes place at the time and in the manner contemplated. To the extent it has not been previously exercised or vested, an Award will terminate immediately prior to the consummation of such proposed action.

(c) Merger or Change in Control.

(i) **Stock Options and SARs.** In the event of a merger or Change in Control, each outstanding Option and SAR shall be assumed or an equivalent option or SAR substituted by the successor corporation or a Parent or Subsidiary of the successor corporation. With respect to Options and SARs granted to an Outside Director that are assumed or substituted for, if immediately prior to or after the merger or Change in Control the Participant's status as a Director or a director of the successor corporation, as applicable, is terminated other than upon a voluntary resignation by the Participant, then the Participant shall fully vest in and have the right to exercise such Options and SARs as to all of the Awarded Stock, including Shares as to which it would not otherwise be vested or exercisable. Unless determined otherwise by the Administrator, in the event that the successor corporation refuses to assume or substitute for the Option or SAR, the Participant shall fully vest in and have the right to exercise the Option or SAR as to all of the Awarded Stock, including Shares as to which it would not otherwise be vested or exercisable. If an Option or SAR is not assumed or substituted in the event of a merger or Change in Control, the Administrator shall notify the Participant in writing or electronically that the Option or SAR shall be exercisable, to the extent vested, for a period of up to fifteen (15) days from the date of such notice, and the Option or SAR shall terminate upon the expiration of such period. For the purposes of this paragraph, the Option or SAR shall be considered assumed if, following the merger or Change in Control, the option or stock appreciation right confers the right to purchase or receive, for each Share of Awarded Stock subject to the Option or SAR immediately prior to the merger or Change in Control, the consideration (whether stock, cash, or other securities or property) received in the merger or Change in Control by holders of Common Stock for each Share held on the effective date of the transaction (and if holders were offered a choice of consideration, the type of consideration chosen by the holders of a majority of the outstanding Shares); provided, however, that if such consideration received in the merger or Change in Control is not solely common stock of the successor corporation or its Parent, the Administrator may, with the consent of the successor corporation, provide for the consideration to be received upon the exercise of the Option or SAR, for each Share of Awarded Stock subject to the Option or SAR, to be solely common stock of the successor corporation or its Parent equal in fair market value to the per share consideration received by holders of Common Stock in the merger or Change in Control. Notwithstanding anything herein to the contrary, an Award that vests, is earned or paid-out upon the satisfaction of one or more performance goals will not be considered assumed if the Company or its successor modifies any of such performance goals without the Participant's consent; provided, however, a modification to such performance goals only to reflect the successor corporation's post-merger or post-Change in Control corporate structure will not be deemed to invalidate an otherwise valid Award assumption.

(ii) **Restricted Stock, Performance Shares, Performance Units, Restricted Stock Units and Other Stock Based Awards.** In the event of a merger or Change in Control, each outstanding Restricted Stock, Performance Share, Performance Unit, Other Stock Based Award and Restricted Stock Unit awards shall be assumed or an equivalent Restricted Stock, Performance Share, Performance Unit, Other Stock Based Award and Restricted Stock Unit award substituted by the successor corporation or a Parent or Subsidiary of the successor corporation. With respect to Awards granted to an Outside Director that are assumed or substituted for, if immediately prior to or after the merger or Change in Control the Participant's status as a Director or a director of the successor corporation, as applicable, is terminated other than upon a voluntary resignation by the Participant, then the Participant shall fully vest in such Awards, including Shares as to which it would not otherwise be vested. Unless determined otherwise by the Administrator, in the event that the successor corporation refuses to assume or substitute for the Restricted Stock, Performance Share, Performance Unit, Other Stock Based Award or Restricted Stock Unit award, the Participant shall fully vest in the Restricted Stock, Performance Share, Performance Unit, Other Stock Based Award or Restricted Stock Unit including as to Shares which would not otherwise be vested. For the purposes of this paragraph, a Restricted Stock, Performance Share, Performance Unit, Other Stock Based Award and Restricted Stock Unit award shall be considered assumed if, following the merger or Change in Control, the award confers the right to purchase or receive, for each Share subject to the Award immediately prior to the merger or Change in Control, the consideration (whether stock, cash, or other securities or property) received in the merger or Change in Control by holders of Common Stock for each Share held on the effective date of the transaction (and if holders were offered a choice of consideration, the type of consideration chosen by the holders of a majority of the outstanding Shares); provided, however, that if such consideration received in the merger or Change in Control is not solely common stock of the successor corporation or its Parent, the Administrator may, with the consent of the successor corporation, provide for the consideration to be received, for each Share and each unit/right to acquire a

Share subject to the Award, to be solely common stock of the successor corporation or its Parent equal in fair market value to the per share consideration received by holders of Common Stock in the merger or Change in Control. Notwithstanding anything herein to the contrary, an Award that vests, is earned or paid-out upon the satisfaction of one or more performance goals will not be considered assumed if the Company or its successor modifies any of such performance goals without the Participant's consent; provided, however, a modification to such performance goals only to reflect the successor corporation's post-merger or post-Change in Control corporate structure will not be deemed to invalidate an otherwise valid Award assumption.

16. Date of Grant. The date of grant of an Award will be, for all purposes, the date on which the Administrator makes the determination granting such Award, or such other later date as is determined by the Administrator. Notice of the determination will be provided to each Participant within a reasonable time after the date of such grant.

17. Term of Plan. Subject to Section 22 of the Plan, the Plan will become effective upon its adoption by the Board. It will continue in effect for a term of ten (10) years unless terminated earlier under Section 18 of the Plan.

18. Amendment and Termination of the Plan.

(a) Amendment and Termination. The Board may at any time amend, alter, suspend or terminate the Plan.

(b) Stockholder Approval. The Company will obtain stockholder approval of any Plan amendment to the extent necessary and desirable to comply with Applicable Laws.

(c) Effect of Amendment or Termination. Subject to Section 20 of the Plan, no amendment, alteration, suspension or termination of the Plan will impair the rights of any Participant, unless mutually agreed otherwise between the Participant and the Administrator, which agreement must be in writing and signed by the Participant and the Company. Termination of the Plan will not affect the Administrator's ability to exercise the powers granted to it hereunder with respect to Awards granted under the Plan prior to the date of such termination.

19. Conditions Upon Issuance of Shares.

(a) Legal Compliance. Shares will not be issued pursuant to the exercise of an Award unless the exercise of such Award and the issuance and delivery of such Shares will comply with Applicable Laws and will be further subject to the approval of counsel for the Company with respect to such compliance.

(b) Investment Representations. As a condition to the exercise or receipt of an Award, the Company may require the person exercising or receiving such Award to represent and warrant at the time of any such exercise or receipt that the Shares are being purchased only for investment and without any present intention to sell or distribute such Shares if, in the opinion of counsel for the Company, such a representation is required.

20. Severability. Notwithstanding any contrary provision of the Plan or an Award to the contrary, if any one or more of the provisions (or any part thereof) of this Plan or the Awards shall be held invalid, illegal or unenforceable in any respect, such provision shall be modified so as to make it valid, legal and enforceable, and the validity, legality and enforceability of the remaining provisions (or any part thereof) of the Plan or Award, as applicable, shall not in any way be affected or impaired thereby.

21. Inability to Obtain Authority. The inability of the Company to obtain authority from any regulatory body having jurisdiction, which authority is deemed by the Company's counsel to be necessary to the lawful issuance and sale of any Shares hereunder, will relieve the Company of any liability in respect of the failure to issue or sell such Shares as to which such requisite authority will not have been obtained.

22. Stockholder Approval. The Plan will be subject to approval by the stockholders of the Company within twelve (12) months after the date the Plan is adopted. Such stockholder approval will be obtained in the manner and to the degree required under Applicable Laws.
