**Item 2.02 Results of Operations and Financial Condition**

On April 26, 2010, Eagle Materials Inc., a Delaware corporation ( Eagle ), announced its results of operations for the quarter and fiscal year ended March 31, 2010. A copy of Eagle s earnings press release announcing these results is being furnished as Exhibit 99.1 hereto and is incorporated herein by reference.

In the earnings press release attached as Exhibit 99.1, Eagle s financial results for the fiscal year ended March 31, 2010 reflect the pre-tax write-off of approximately \$2.5 million of deferred engineering and permitting costs related to the planned modernization and expansion of its cement facility in Laramie, Wyoming. As a result of improved operational efficiencies and reduced costs realized at this facility, Eagle has been able to achieve a significant portion of the cost savings associated with the planned project. As a result, Eagle withdrew its permit application with the Wyoming Department of Environmental Quality in September 2009. In its Annual Report on Form 10-K Eagle will report in the quarterly results footnote the write-off of the deferred costs in the second quarter of fiscal 2010. The effect of this write-off will be to reduce fiscal second quarter Earnings Before Income Taxes by approximately \$2.5 million, Net Earnings by approximately \$1.7 million and earnings per share by \$0.04 per share. The write-off did not have any effect on Eagle s results for the fourth quarter as reported in the attached earnings release.
