PROXY STATEMENT

The enclosed proxy card is solicited by the board of directors (the *board*) of Fresh Del Monte Produce Inc., an exempted limited company incorporated under the laws of the Cayman Islands (the *Company*), for use at the 2011 Annual General Meeting of Shareholders to be held on Wednesday, May 4, 2011, at 11:30 a.m., Eastern Time, at the Mandarin Oriental, Miami, in Miami, Florida, and at any postponements or adjournments thereof. Either an admission ticket or proof of ownership of Ordinary Shares, as well as a form of personal photo identification, must be presented in order to be admitted to the Annual General Meeting. (See the section captioned *Information About Admission to the Annual General Meeting* in this proxy statement.)

The proxy materials are being sent to shareholders beginning on or about March 24, 2011. The cost of the solicitation of proxies will be paid by the Company. You may vote over the Internet, by telephone, by completing and mailing the enclosed proxy card or by voting in person at the Annual General Meeting. The solicitation is to be made primarily by mail, and the Company does not intend to use a proxy solicitor.

VOTING

Whether or not you plan to attend the Annual General Meeting, we request that you date and execute the enclosed proxy card and return it in the enclosed postage-paid return envelope or use the telephone or the Internet to grant your proxy and vote. Telephone and Internet voting instructions are provided on the proxy card.

If your Ordinary Shares are registered in the name of a bank, broker or other nominee, follow the voting instructions on the form you receive from the nominee. The availability of telephone and Internet voting will depend on the nominee's voting processes.

The Ordinary Shares represented by your properly completed proxy card will be voted in accordance with your instructions. If you properly sign, date and deliver to us your proxy card, but you mark no instructions on it, the Ordinary Shares represented by your proxy will be voted FOR the election as directors of the three nominees proposed in Proposal 1, FOR Proposal 2, FOR Proposal 3, FOR Proposal 4, FOR Proposal 5 and FOR Proposal 6 and in favor of THREE YEARS as the frequency of advisory (non-binding) votes on Executive Compensation in Proposal 7. Alternatively, you can vote by telephone or the Internet using the instructions outlined on your proxy card.

Under the laws of the Cayman Islands, the affirmative vote of the holders of a majority of the Ordinary Shares present in person at the Annual General Meeting, or represented by proxy, is necessary for approval of each of Proposal 1, Proposal 2, Proposal 3, Proposal 4, Proposal 5 and Proposal 6. Under the shareholder approval policy of the New York Stock Exchange (NYSE), approval of Proposal 5 also requires the favorable vote of a majority of the votes cast, and the total number of votes actually cast on Proposal 5 must represent more than 50% in interest of all shareholders entitled to vote on Proposal 5. Abstentions will have no effect on the outcome of the vote for any of the Proposals under Cayman Islands law, but for purposes of the NYSE shareholder approval policy, will have the effect of a vote against Proposal 5.

Under NYSE rules, brokerage firms may vote in their discretion on certain matters on behalf of clients who have not furnished voting instructions. These are called discretionary items. Proposal 2, Proposal 3, and Proposal 4 are considered discretionary items. In contrast, brokerage firms may not vote on certain other matters for which they have not received voting instructions from their clients. These are called non-discretionary items, and a lack of voting instructions for non-discretionary items will result in so-called broker non-votes. Proposal 1, Proposal 5, Proposal 6 and Proposal 7 are considered non-discretionary items. In the case of Proposal 1, Proposal 5, Proposal 6 and Proposal 7, broker non-votes will not be counted and will have no effect on the vote for purposes of Cayman Islands law. For purposes of the NYSE stockholder approval policy, broker non-votes will have no effect on the first part of the required vote for Proposal 5, Proposal 6 or for Proposal 7, but will have the effect of a vote against the Proposal for purposes of the second part of the required vote for Proposal 5.

The board is not aware of any other matters to be presented for action at the Annual General Meeting, but if other matters are properly brought before the Annual General Meeting, Ordinary Shares represented by properly completed proxies received by mail, telephone or the Internet will be voted in accordance with the judgment of the persons named as proxies.

Shareholders have the right to revoke their proxies at any time before a vote is taken by (1) notifying the corporate secretary, Fresh Del Monte Produce Inc., c/o Del Monte Fresh Produce Company, 241 Sevilla Avenue, Coral Gables, Florida 33134, (2) executing a new proxy card bearing a later date or by voting by telephone or the Internet on a later date, provided the new proxy is received by BNY Mellon Shareowner Services (which will have a representative present at the Annual General Meeting), 480 Washington Boulevard, Jersey City, New Jersey 07310, by 11:59 p.m., Eastern Time, on May 3, 2011, (3) attending the Annual General Meeting and voting in person or (4) any other method available to shareholders by law.

The close of business on March 10, 2011 has been fixed as the record date for the Annual General Meeting, and only shareholders of record at that time will be entitled to vote. The only capital stock and the only issued shares of the Company are the Ordinary Shares. There were 58,929,004 Ordinary Shares issued and outstanding and entitled to vote on the record date. Each shareholder is entitled to one vote for each Ordinary Share held. The holders of a majority of the Ordinary Shares issued and outstanding on the record date, present in person or represented by valid proxy received by mail, telephone or the Internet, will constitute a quorum at the Annual General Meeting.

All votes cast at the Annual General Meeting will be tabulated by BNY Mellon Shareowner Services, which has been appointed the independent inspector of election. BNY Mellon Shareowner Services' tabulation will determine whether or not a quorum is present.

FOR the election of all the below nominees

At the date of this proxy statement, the board consists of nine members, seven of whom are non-employee directors. At the Annual General Meeting, three directors are proposed for election for terms that will expire at the 2014 Annual General Meeting of Shareholders. All nominees are expected to serve if elected, and each of them has consented to being named in the proxy statement and to serve if elected. All nominees are current directors of the Company. If a nominee is unable or unwilling to serve at the time of the election, the persons named in the form of proxy shall have the right to vote according to their judgment for another person instead of the unavailable nominee.

The governance committee is responsible for reviewing at least annually the qualifications of directors and nominees, as well as the composition of the board as a whole, in accordance with its charter and the Company's corporate governance guidelines. The governance committee takes into account each individual's background, as well as considerations of diversity, age, skills and experience in the context of the needs of the board. The governance committee also considers whether, by significant accomplishment in his or her field, the director or nominee has demonstrated an ability to make a meaningful contribution to the board's oversight of the business and affairs of the Company, as well as his or her reputation for honesty and ethical conduct in his or her personal and professional activities and independence from management. While the Company's corporate governance guidelines do not prescribe specific diversity standards, and the board does not have a formal diversity policy, as a matter of practice, the board considers diversity in the context of the board as a whole and takes into account, among other factors, considerations relating to ethnicity, gender, cultural diversity and the range of perspectives that the directors bring to their work.

Our global branded Company is one of the world's leading vertically integrated producers, marketers and distributors of high-quality fresh and fresh-cut fruit and vegetables, as well as a leading producer and distributor of prepared fruit and vegetables, juices, beverages and snacks in Europe, Africa, the Middle East and countries formerly part of the Soviet Union. These skills and experiences are pertinent to the Company's current and evolving business strategies, as well as to the board's oversight role, and enable our directors to provide diverse perspectives about the complex issues facing the Company.

The assumptions used in determining these valuations are the same as those used in our financial statements for fiscal year 2010. Those assumptions can be found in Note 17 to the consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010. Each non-employee director who was a member of the board on May 5, 2010 received a grant of restricted shares totaling to 4,708 Shares; the dollar value is equivalent to \$100,000 which was based on the study and recommendation of The Delves Group and the board's decision to grant non-employee directors restricted shares instead of prior practice of granting share options. This grant is based on the 2010 Non-Employee Directors Equity Plan which was approved by the shareholders in 2010.

Our non-employee directors' compensation structure is designed to attract and retain qualified directors. Based on a compensation study which was conducted by The Delves Group in July 2009, the Company implemented a new compensation structure commencing in 2010. Under the new compensation program, the Company eliminated payment of meeting fees and discontinued the issuance of stock options by granting restricted stock awards instead, following the May 2010 shareholders' approval of the 2010 Non-Employee Directors Equity Plan. All other remaining fees paid are described in the sections below captioned *Annual Retainers*, *Board Committee Chair and Lead Independent Director Retainers*, *Total Cash Compensation and Equity Compensation*.

Annual Retainer. The annual retainer fees paid to non-employee directors of the Company are detailed on the following table. Directors are also eligible for reimbursement of their expenses incurred in attending board meetings in accordance with Company policy. Examples of reimbursable expenses are airfare, hotel and meals for the director.

Annual Retainer for	Annual Retainer Fees paid (\$)
Non-employee Board Member	70,000
Audit Committee Member	15,000
Compensation Committee Member	7,500
Governance Committee Member	5,000

Board Committee Chair and Lead Independent Director Retainers. The Company paid out annual retainers to each of the chairs of the committees and the lead independent director as shown below:

Annual Retainer for	Annual Retainer Fees paid (\$)
Audit Committee Chair	25,000
Compensation Committee Chair	15,000
Governance Committee Chair	10,000
Lead Independent Director	35,000

Table of Contents

Total Cash Compensation Paid in Fiscal Year 2010. In fiscal year 2010, the total cash compensation paid to directors for service on the board or committees of the board was \$654,971.

Share Ownership Policy. The Company introduced a share ownership policy for independent directors on October 27, 2004. Under the policy, independent directors are expected, within five years of the later of February 16, 2005 or the director's appointment, to acquire, either by open market purchase or through the exercise of stock option grants, and hold 5,000 Ordinary Shares. As part of the new non-employee directors compensation program which began in 2010, directors are required to hold 50% of their annual award of restricted stock until six months after they leave the Company's board. The Company believes that this ownership policy further aligns director and shareholder interests and thereby promotes the objective of increasing shareholder value.

Equity Compensation. On January 1, 2010, the 2010 Non-Employee Directors Equity Plan became effective. This plan grants each non-employee board member with restricted shares equivalent to \$100,000 based on the fair market value of the Company's shares on the date of grant. This plan was established based on The Delves Group's study of our board's equity compensation and our policy to maintain director equity compensation at the approximate median for our peer group of companies. Following shareholders' approval of the Plan on May 5, 2010, each non-employee board member was granted 4,708 shares based on the fair value grant price of \$21.24.

On December 31, 2010, the aggregate number of option awards and restricted shares outstanding for each director was as follows: Salvatore H. Alfiero 18,750 and 4,708; Michael J. Berthelot 30,500 and 4,708; Madeleine Champion 12,000 and 3,108; Dr. Elias K. Hebeka 30,500 and 4,708; John H. Dalton 31,250 and 4,708; Edward L. Boykin 31,250 and 2,708; Amir Abu-Ghazaleh 18,750 and 4,708, respectively. In addition to the options and restricted shares outstanding, each non-employee director is holding additional shares that they purchased using at least 50% of a one-time payment of \$21,000 paid to each of the non-employee board members who was a current member as of July 1, 2009. At the minimum, each of the non-employee board members has purchased 500 shares. They are required to retain these shares for at least six months after he or she leaves the board.

Table of Contents**STRUCTURE AND PRACTICES OF THE BOARD OF DIRECTORS****Corporate Governance Guidelines**

The board has adopted corporate governance guidelines that provide the framework for the governance of the Company. The governance rules for companies listed on the NYSE and those contained in the Sarbanes-Oxley Act of 2002 and related regulations are reflected in the guidelines. The board reviews these guidelines and other aspects of its governance periodically. The guidelines are available on the Company's Web site at www.freshdelmonte.com under the "Investor Relations" tab.

The Chief Executive Officer of the Company, Mohammad Abu-Ghazaleh, is also the Chairman of the Board. This structure reflects the significant shareholdings in the Company of the Abu-Ghazaleh family, but also serves other purposes. While it retains the discretion to separate the roles in the future as it deems appropriate and acknowledges that there is no single best organizational model that is most effective in all circumstances, the board currently believes that the Company and its shareholders are best served by having Mr. Abu-Ghazaleh hold both of these positions concurrently. Notably, the Company believes that this leadership structure promotes accountability and clarity in the direction of the Company business strategy. The board's leadership structure also includes the role of lead independent director, and Mr. Boykin has served in that capacity since April 2008. The lead independent director's responsibilities include acting as chairman for all meetings of the non-employee and independent directors, convening meetings of the independent directors on the request of any of them, and establishing the agenda and approving the materials for those meetings, and acting as a liaison between the Chairman and the non-employee and independent directors.

Board's Role in Risk Oversight

The board as a whole has responsibility for risk oversight, which it fulfills directly and through its committees, depending on the nature of the risks. Oversight is supported by management reports, reports by the Company's independent auditors and advisors, as well as visits to the Company's operations, all of which are intended to provide visibility to the board or the relevant committees about the identification and management of key risks and exposures. These include competitive, operational, financial, legal, compliance, information technology and reputational risks. The board and its committees also have regular executive sessions with the head of internal audit, as well as with the independent accountants and, where appropriate, other advisors, without any other management personnel present. The allocation of risk oversight among the board and its committees is summarized below.

Board / Committee	Primary Areas of Risk Oversight
Board	Strategic, financial and execution risks and exposures associated with the Company's operations, including matters affecting capital allocation; major litigation exposures; significant regulatory changes that present risks or may otherwise affect the Company's business operations; senior management succession planning; major acquisitions and divestitures; and other matters that present material reputational risk or risk to the Company's operations, plans and prospects, taken as a whole.
Audit Committee	Risks and exposures associated with financial reporting, the Company's public disclosures; internal control over financial reporting; legal compliance; financial policies; and credit and liquidity matters.
Governance Committee	Risks and exposures relating to corporate governance; and director succession.
Compensation Committee	Risks and exposures associated with the Company's compensation programs and arrangements.

Meetings of the Board

The board had four regularly scheduled meetings during fiscal year 2010. The Company's non-employee directors meet at regularly scheduled executive sessions, without any members of management present. The Company's independent directors meet separately, without the participation of directors who do not qualify as independent directors. During fiscal year 2010, the non-employee directors had two meetings.

Each director has full access to the Company's management.

Table of Contents

Directors are expected to attend all meetings of the board and each committee on which they serve. In fiscal year 2010, the board held six meetings and committees of the board held a total of sixteen meetings. No director attended less than 80% of the total number of meetings of the board and committees of the board on which he or she served during the period that he or she served. Although the Company does not have a formal policy with respect to director attendance at annual general meetings of shareholders, all directors are expected to attend, and all of the Company's directors then in office attended the Company's 2010 Annual General Meeting of Shareholders.

Communication with the Board

Shareholders or other interested parties may contact any individual director by writing to them in care of the Company's general counsel, Fresh Del Monte Produce Inc., c/o Del Monte Fresh Produce Company, 241 Sevilla Avenue, Coral Gables, Florida 33134. This centralized process assists the board in reviewing and responding to shareholder communications in an appropriate manner. The Company's general counsel will forward such correspondence only to the intended recipient(s). Communications relating to accounting, audit matters, or internal controls will also be referred to the audit committee. Prior to forwarding any correspondence, the general counsel will review such correspondence and, in his discretion, not forward correspondence deemed to be of a commercial nature or relating to an improper or irrelevant topic. The general counsel also will attempt to handle the inquiry directly, for example, when it is a request for information about the Company or it is a stock-related matter. The policy is available on the Company's Web site at www.freshdelmonte.com by clicking on "Investor Relations" and then "Corporate Governance" tab.

Director Independence

The Company's corporate governance guidelines provide that the board must have a majority of directors who are independent as required by NYSE listing standards. The listing standards require the board to affirmatively determine that each director has no material relationship with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company), other than as a director, and specifically preclude an independence determination in the case of specified relationships. The board considers relationships involving directors and their immediate family members that may implicate any of the listing standards of the NYSE and relies on information derived from Company records, questionnaires completed by directors and, as necessary, inquiries of other relevant parties. During fiscal year 2010, there were no such relationships.

The board has determined that the following directors are independent as required by the NYSE listing standards and the Company's corporate governance guidelines: Salvatore H. Alfiero, Michael J. Berthelot, Edward L. Boykin, Madeleine L. Champion, John H. Dalton and Dr. Elias K. Hebekka.

All members of the audit committee, the compensation committee and the governance committee are independent directors as required by applicable law and NYSE listing standards.

Code of Conduct and Business Ethics Policy

The Company has a code of conduct and business ethics policy that applies to every employee and to its directors. The code is designed to ensure that the Company's business is conducted in a consistently legal and ethical manner. The code includes policies on employment, conflicts of interest and the protection of confidential information, and requires adherence to all laws and regulations applicable to the conduct of the Company's business. The code specifically addresses the requirements and obligations applicable to officers and employees with important roles in the financial reporting process. The code is available on, and the Company will disclose any amendments to, or waivers of, the code relating to its directors or executive officers on its Web site at www.freshdelmonte.com under the "Investor Relations" tab in accordance with applicable law and NYSE listing standards.

Table of Contents**Board Committees**

The board has an audit committee, a compensation committee and a governance committee. The board has adopted a written charter for each of these committees. Board committee charters are available on the Company's Web site at www.freshdelmonte.com under the Investor Relations tab.

Each committee conducts an annual assessment to review the sufficiency of resources and time to fulfill its obligations and to review the performance of its obligations. Under the Company's corporate governance guidelines, each committee may retain consultants for assistance in carrying out its responsibilities. The following table shows the current directors and the members of each of the board's committees and the number of committee meetings held during fiscal year 2010:

The audit committee also reviews and recommends approval of the audited financial statements of the Company and the quarterly and annual filings of the Company with the Securities and Exchange Commission (SEC). In addition, the audit committee has the authority to monitor and oversee compliance matters relating to the conduct of the Company's business.

Each member of the audit committee meets the independence requirements of the NYSE and Rule 10A-3 under the Securities Exchange Act of 1934, as amended (the Exchange Act). The Compensation Committee

The compensation committee (i) reviews the Company's general compensation structure and (ii) reviews and recommends the compensation and benefits of directors, the Chief Executive Officer, President and Chief Operating Officer and other executive officers, subject to approval by the board. The compensation committee also acts as the administrator for the Company's 1997 and 1999 Share Incentive Plans and reviews and recommends approval of all reports in respect of executive and other compensation required to be made by the Company with the SEC.

The compensation committee appointed The Delves Group as its consultant in August 2008. The Delves Group conducted studies and provided recommendations to the committee on matters pertaining to the compensation of the Chief Executive Officer, the President and Chief Operating Officer and other executive officers and the board. Further information about the role of the committee's consultant in the design and implementation of the Company's executive compensation programs is provided in the section of this proxy statement captioned *Executive Compensation* under the heading Compensation Discussion and Analysis.

Edgar Filing: FRESH DEL MONTE PRODUCE INC - Form DEF 14A

The compensation committee also has the responsibility to review and make recommendations to the board with respect to the compensation of members of the board and its committees (including fees and equity awards). The board approved the revised non-employee board member compensation schedule, which was effective July 1, 2009, changing the cash compensation and equity compensation for non-employee directors. The committee took into consideration The Delves Group's study of peer group boards of directors' compensation in recommending the changes to board compensation that became effective July 1, 2009. Further information about recent changes to director compensation is provided in the section of this proxy statement captioned *Director Compensation for Fiscal Year 2009*.

a statement of whether the candidate meets applicable law and listing requirements pertaining to director independence;

a description of all direct and indirect compensation and other material monetary agreements, arrangements and understandings during the past three years, and other material relationships, between or among the candidate, the shareholder (and/or any beneficial owner on whose behalf the recommendation is made) and its affiliates and associates, or others acting in concert therewith, on the one hand, and the candidate and his or her respective affiliates and associates, or others acting in concert therewith;

the written consent of the candidate to serve as a director, if elected.

Such submission should include an undertaking to submit to the corporate secretary of the Company a statement amending any of the foregoing information promptly after any material change occurs in such information as previously submitted. The committee may require additional information from the nominee to perform its evaluation of the eligibility of the nominee to serve as an independent director of the Company or that could be material to a reasonable shareholder's understanding of the independence, or lack thereof, of such nominee.

Any nomination by a shareholder of any person for election to the board of the Company must comply with the foregoing and the requirements of the Company's Articles of Association (Articles 36(b) and 56), which are available on the Company's Web site at www.freshdelmonte.com under the Investor Relations tab.

Edgar Filing: FRESH DEL MONTE PRODUCE INC - Form DEF 14A

Recommendations for nomination and nominations that are made by shareholders in accordance with these procedures and, if applicable, the Company's Articles of Association will receive the same consideration as recommendations or nominations initiated by the governance committee.

In its assessment of each person considered for nomination, the governance committee considers the board's and the Company's needs at the time and reviews the candidates for nomination as director in light of the entirety of their credentials, including:

their reputation for honesty and ethical conduct in their personal and professional activities and their strength of character and judgment;

their ability and willingness to devote sufficient time to board duties;

their potential contribution to the diversity and culture of the board;

their educational and industry background, as well as their business and professional achievements and experience, particularly in light of the Company's business and its size, complexity and strategic challenges and whether they have demonstrated, by significant accomplishment in their fields, an ability to make a meaningful contribution to the board's oversight of the business and affairs of the Company; and

The audit committee has selected Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 30, 2011 and has directed that management submit the selection of independent registered public accounting firm to shareholders for ratification at the Annual General Meeting. Shareholder ratification of the selection of Ernst & Young LLP as the Company's independent registered public accounting firm is not required by the Company's Memorandum and Articles of Association. However, the Company is submitting the selection of Ernst & Young LLP to the shareholders for ratification as a matter of good corporate practice. If the shareholders fail to ratify the selection, the audit committee will reconsider whether or not to retain Ernst & Young LLP.

The following table presents all fees billed or expected to be billed for professional audit services rendered by Ernst & Young LLP for the audit of the Company's annual consolidated financial statements for its 2010 and 2009 fiscal years, and fees billed or expected to be billed for other services rendered to the Company by Ernst & Young LLP:

The approvals for that type of service are generally effective for that fiscal year, whereas approvals of other services are generally effective for a period of six months. The committee may delegate authority to one or more of its members to approve any service, subject to a maximum fee limitation of \$25,000. Services for which fees are expected to be in excess of \$25,000 must be pre-approved by the entire audit committee. All audit and permitted non-audit services provided by Ernst & Young LLP during fiscal year 2010 were pre-approved in accordance with the Company's policy.

Audit Committee Report

The audit committee oversees the Company's financial reporting process on behalf of the board of directors. Management has the primary responsibility for the financial statements and the reporting process, including the internal control over financial reporting. In fulfilling its oversight responsibilities, the committee reviewed with management the audited consolidated financial statements of the Company, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

The committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with U.S. generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the committee under generally accepted auditing standards. In addition, the committee has discussed with the independent auditors the auditors' independence from management and the Company, including the matters in the written disclosures and the letter from the independent auditors required by Rule 3526 of the Public Company Accounting and Oversight Board, and considered the compatibility of non-audit services with the independent auditors' independence.

The committee discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The committee met with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. The committee held eight meetings during fiscal year 2010.

In reliance on the reviews and discussions referred to above, the committee recommended to the board of directors (and the board approved) that the audited financial statements be included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2010 for filing with the SEC. The committee and the board have also appointed, subject to shareholder ratification, Ernst & Young LLP as the Company's independent auditors.

PROPOSAL 5 APPROVAL OF THE COMPANY S 2011 OMNIBUS SHARE

INCENTIVE PLAN

The Board of Directors unanimously recommends a vote FOR the approval the Company s 2011 Omnibus Share

Incentive Plan

The 2011 Omnibus Share Incentive Plan, referred to below as the Omnibus Plan, was adopted by the compensation committee on March 2, 2011, subject to the approval of our shareholders. The Company s 1999 Share Incentive Plan (the 1999 Plan), was most recently amended and approved by our shareholders in 2008. The board believes that the 1999 Plan has been effective in attracting and retaining highly-qualified employees and non-employee directors and that the awards granted under the 1999 Plan have provided an incentive that aligns the economic interests of plan participants with those of our shareholders. The compensation committee of the Company s board of directors (the Committee), in consultation with its independent compensation consultant, has reviewed the 1999 Plan to determine whether it remains a flexible and effective source of incentive compensation in terms of the number of shares of stock available for awards and in terms of its design, as well as whether it generally conforms with best practices in today s business environment.

Based on its review, the Committee recommended the adoption of a new omnibus stock incentive plan with the following key changes from the 1999 Plan:

Shares Reserved for Grant. Reserve 2,500,000 shares of the Company s stock to be available for grants of stock options and 500,000 shares for grants of restricted stock and restricted stock units or other stock-based awards under the Omnibus Plan.

Addition of Restricted Stock, Stock Units and Other Stock-Based Awards. Expand types of awards available to include restricted stock, restricted stock units and other stock-based awards.

Allow Awards to Consultants. Permit awards to be granted to consultants providing services to the Company and its major subsidiaries, as well as employees and non-employee directors.

Revisions to Change in Control Definition. Revise the definition of a Change in Control to include a closing of a merger, reorganization or similar transaction as a trigger. The definition does not provide triggers for a change in control where there is no sale or other transaction that actually results in a change in control of the Company.

Designate Available Performance Goals. Provide a set of designated financial or other performance metrics that may be used to make performance-based awards under the Omnibus Plan.

Elimination of Parachute Tax Gross-Up. Remove gross-up payment covering a participant s parachute taxes in the event of a change in control of the Company and provide a net-best provision reducing a participant s payments to avoid parachute taxes unless the participant would receive a greater after-tax benefit by receiving the unreduced benefits and paying the applicable taxes.

No Repricing. Expressly prohibit the repricing of options and stock appreciation rights without shareholder approval.

Clawback Provisions. Provide that incentive awards will be subject to clawback requirements in the event of a restatement of the Company s financials or under other circumstances as required under Company policies and applicable law.

Edgar Filing: FRESH DEL MONTE PRODUCE INC - Form DEF 14A

Shareholder approval of the 2011 Omnibus Incentive Plan is desired, among other reasons, to ensure the tax deductibility by the Company of certain performance-based awards for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), and to meet the listing requirements of the New York Stock Exchange.

The material features of the Omnibus Plan are summarized below. The summary is qualified in its entirety by reference to the specific provisions of the Omnibus Plan, the full text of which is set forth as Exhibit A to this proxy statement.

Purpose and Function

The purpose of the Omnibus Plan is to attract and retain highly qualified persons to serve as non-employee directors, employees and consultants of the Company, and to promote greater ownership by such non-employee directors, employees and consultants in the Company, in order to align the interests of such individuals more closely with the interests of the Company's shareholders.

Eligibility and Limitation on Awards

The board may grant awards to any employee, director or consultant providing services to the Company or a participating subsidiary. It is presently contemplated that approximately 200 persons will be eligible to receive awards.

The maximum awards that can be granted under the Omnibus Plan to a single participant in any calendar year will be 2,000,000 shares of stock in the form of share options, and 500,000 shares of stock in the form of restricted stock, restricted stock units, and other stock-based awards.

Table of Contents

Administration

The Omnibus Plan is administered by the board of directors. With respect to administration of the Omnibus Plan, the board also may rely on the recommendation and approval of the Committee. The board has the authority to determine, within the limits of the express provisions of the Omnibus Plan, the individuals to whom awards will be granted, the nature, amount and terms of such awards and the objectives and conditions for earning such awards.

Types of Awards

Awards under the Omnibus Plan may include incentive stock options, non-qualified stock options, restricted shares of common stock, restricted stock units and other stock-based awards.

Stock Options. The board may grant to a participant options to purchase Company common stock that qualify as incentive stock options for purposes of Section 422 of the Code (incentive stock options), options that do not qualify as incentive stock options (non-qualified stock options) or a combination thereof. The terms and conditions of stock option grants, including the quantity, exercise price, vesting periods, and other conditions on exercise will be determined by the board.

The exercise price for stock options may not be less than the fair market value of the Company's common stock on the date such stock options are granted, and the exercise period may not exceed ten years from the date of grant. On March 1, 2011, the market price per share of the Company's common stock was \$26.76 based on the closing price of the common stock on the New York Stock Exchange on such date.

Restricted Stock and Restricted Stock Units. The board may award to a participant shares of common stock subject to specified restrictions, referred to as restricted stock herein. The board also may award to a participant restricted stock units representing the right to receive shares of common stock or the value of shares of stock in the future. Shares of restricted stock and restricted stock units are subject to forfeiture if the participant does not meet certain conditions such as continued employment over a specified period or the attainment of specified performance targets over such period.

Other Stock-Based Awards. The board may also grant equity-based or equity-related awards, referred to as other stock-based awards, in addition to options, restricted stock, or restricted stock units.

Vesting Conditions

Unless otherwise provided in the applicable award agreement, twenty percent of each option award under the Omnibus Plan will vest and become exercisable on the date on which it was granted. Each year thereafter, it vests an additional 20% on each next four anniversaries. For restricted stock or restricted stock units, vesting will be subject to terms and conditions as indicated in the award agreement. All awards outstanding on the occurrence of a change in control of the Company will automatically vest on the date of the change in control.

The board retains the right in its discretion to accelerate the date on which any award of options, restricted stock, restricted stock units or other stock-based awards will vest.

Transferability

No awards may be transferred except upon the participant's death, by will or the laws of descent and distribution, or in certain instances to or for the benefit of designated family members of the participant.

Shareholder Rights

The restricted stock awarded pursuant to the Omnibus Plan will be treated as outstanding after it is granted, and the participant may exercise full voting rights with respect to each restricted share during the restricted period. The participant will also be entitled to receive dividends and distributions paid with respect to the shares. If any such dividends or distributions are made in the form of shares, those shares will be subject to the same restrictions as the underlying restricted stock. The board may in its discretion determine that all dividends or distributions made in the form of shares of Company common stock will be held in escrow by the Company until the respective restrictions have lapsed. Participants receiving awards of options or restricted stock units will not have any shareholder rights unless and until shares of stock are issued with respect to such awards.

Change in Control

Upon a change in control of the Company, the Omnibus Plan provides that all outstanding unvested awards will immediately vest. A change in control is generally defined as (i) the sale of substantially all of the assets of the Company to any group other than the Abu-Ghazaleh family, (ii) the liquidation or dissolution of the Company, (iii) the acquisition of 30% or more of our common stock by a single purchaser or group other than the Abu-Ghazaleh family if, after such acquisition, the Abu-Ghazaleh family owns a smaller percentage of voting shares of the Company, (iv) the incumbent members of the board (and certain new directors approved in a specified manner by those members) cease to constitute at least a majority of the board, or (v) a merger reorganization, consolidation or similar transaction resulting in at least a 50% change in ownership of the Company.

Awards Granted Under the Omnibus Plan

No specific awards have been granted or are contemplated under the Omnibus Plan. In addition, the exact types and amounts of any future awards to be made to any eligible participants pursuant to the Omnibus Plan are not presently determinable. As a result of the discretionary nature of the Omnibus Plan, it is not possible to state who the participants in the Omnibus Plan will be in the future or the number of options or other awards to be received by a person or group.

The stock awards granted to the Company's named executive officers under the Company's existing stock plans and outstanding as of December 31, 2010 are set forth in the Outstanding Equity Awards at Fiscal Year-End Table found under Executive Compensation. As of March 1, 2011, (i) the Company's executive officers as a group (11 officers) held outstanding stock option grants for 2,503,600 shares, (ii) the Company's non-employee directors as a group (7 directors) held outstanding stock option grants for 197,100 shares, and (iii) all of our employees other than our executive officers (106 employees) held outstanding stock option grants for 2,143,301 shares.

Shares Subject to the Omnibus Plan

An aggregate of 2,500,000 shares of the Company's common stock is reserved for issuance and available for option awards under the Omnibus Plan, including incentive stock options granted under the Omnibus Plan, and an additional 500,000 shares of stock is available for the grant of restricted stock, restricted stock units and other stock-based awards under the Omnibus Plan.

With respect to awards made under the Omnibus Plan, shares of common stock underlying awards that are forfeited or canceled (as a result, for example, of the lapse of an option or a forfeiture of restricted stock) will be available for additional grants under the Omnibus Plan. Shares to be issued or purchased under the Omnibus Plan will be authorized but unissued shares of common stock or issued shares of stock that shall have been reacquired by the Company. Shares issued with respect to awards assumed by the Company in connection with acquisitions do not count against the total number of shares available for new awards under the Omnibus Plan.

Antidilution Protection

In the event of any corporate event or transaction that results in a change in the capital structure of the Company, including a change resulting from a stock dividend or stock split, or combination or reclassification of shares, the board is empowered to make such equitable adjustments with respect to awards or any provisions of the Omnibus Plan as it deems necessary and appropriate, including, if necessary, any adjustments in the maximum number of shares of common stock subject to the Omnibus Plan, the number of shares of common stock subject to and the

Edgar Filing: FRESH DEL MONTE PRODUCE INC - Form DEF 14A

exercise price of an outstanding award, or the maximum number of shares that may be subject to one or more awards granted to any one recipient during a calendar year.

Amendment and Termination

The board may at any time amend or terminate the Omnibus Plan, provided that no such action may be taken that adversely affects any rights or obligations with respect to any outstanding awards under the Omnibus Plan without the consent of the recipient. No awards may be made under the Omnibus Plan after the tenth anniversary of its effective date. Certain provisions of the Omnibus Plan relating to performance-based awards under Section 162(m) of the Code will expire on the fifth anniversary of the effective date.

Table of Contents***No Repricing***

The Omnibus Plan specifically prohibits the repricing of stock options without shareholder approval. For this purpose, a repricing means any of the following (or any other action that has the same effect as any of the following): (i) changing the terms of a stock option to lower its exercise price; (ii) any other action that is treated as a repricing under generally accepted accounting principles; and (iii) repurchasing for cash or canceling a stock option at a time when its exercise price is greater than the fair market value of the underlying stock in exchange for another award, unless the cancellation and exchange occurs in connection with a change in capitalization or similar change. Such cancellation and exchange would be considered a repricing regardless of whether it is treated as a repricing under generally accepted accounting principles and regardless of whether it is voluntary on the part of the participant.

Federal Income Tax Consequences

The U.S. federal income tax consequences of the issuance and exercise of awards under the Omnibus Plan are summarized below. The following information is only a summary of the tax consequences of the awards, and participants should consult with their own tax advisors with respect to the tax consequences inherent in the ownership or exercise of the awards, and the ownership and disposition of any underlying securities.

Incentive Stock Options. A participant who is granted an incentive stock option will not recognize any taxable income for federal income tax purposes either on the grant or exercise of the incentive stock option. If the participant disposes of the shares purchased pursuant to the incentive stock option more than two years after the date of grant and more than one year after the exercise of the option (the required statutory holding period), (a) the participant will recognize long-term capital gain or loss, as the case may be, equal to the difference between the selling price and the option price; and (b) the Company will not be entitled to a deduction with respect to the shares of stock so issued. If the holding period requirements are not met, any gain realized upon disposition will be taxed as ordinary income to the extent of the excess of the lesser of (i) the excess of the fair market value of the shares at the time of exercise over the option price, and (ii) the gain on the sale. Also in that case, the Company will be entitled to a deduction in the year of disposition in an amount equal to the ordinary income recognized by the participant. Any additional gain will be taxed as short-term or long-term capital gain depending upon the holding period for the stock. A sale for less than the option price results in a capital loss.

The excess of the fair market value of the shares on the date of exercise over the option price is, however, includable in the option holder's income for alternative minimum tax purposes.

Nonqualified Stock Options. A participant who is granted a nonqualified stock option under the Omnibus Plan will not recognize any income for federal income tax purposes on the grant of the option. Generally, on the exercise of the option, the participant will recognize taxable ordinary income equal to the excess of the fair market value of the shares on the exercise date over the option price for the shares. The Company generally will be entitled to a deduction on the date of exercise in an amount equal to the ordinary income recognized by the participant. Upon disposition of the shares purchased pursuant to the stock option, the participant will recognize long-term or short-term capital gain or loss, as the case may be, equal to the difference between the amount realized on such disposition and the basis for such shares, which basis includes the amount previously recognized by the participant as ordinary income.

Restricted Shares. A participant will not be taxed at the date of an award of restricted shares, but will be taxed at ordinary income rates on the fair market value of any restricted shares as of the date that the restrictions lapse, unless the participant, within 30 days after transfer of such restricted shares to the participant, elects under Section 83(b) of the Code to include in income the fair market value of the restricted shares as of the date of such transfer. If the participant makes the election under Section 83(b) of the Code, the Company will be entitled to a corresponding deduction. Any disposition of shares after restrictions lapse will be subject to the regular rules governing long-term and short-term capital gains and losses, with the basis for this purpose equal to the fair market value of the shares at the end of the restricted period (or on the date of the transfer of the restricted shares, if the employee elects to be taxed on the fair market value upon such transfer). To the extent dividends are payable during the restricted period under the applicable award agreement, any such dividends will be taxable to the participant at ordinary income tax rates and will be deductible by the Company unless the participant has elected to be taxed on the fair market value of the restricted shares upon transfer, in which case they will thereafter be taxable to the employee as dividends and will not be deductible by the Company.

Restricted Stock Units. A participant will normally not recognize taxable income upon an award of restricted units, and the Company will not be entitled to a deduction until the lapse of the applicable restrictions. Upon the lapse of the restrictions and the issuance of the earned shares, the participant will recognize ordinary taxable income in an amount equal to the fair market value of the common stock received and the Company will be entitled to a deduction in the same amount.

Other Stock-Based Awards. Normally, a participant will not recognize taxable income upon the grant of other stock-based awards. Subsequently, when the conditions and requirements for the grants have been satisfied and the payment determined, any cash received and the fair market

value of any common stock received will constitute ordinary income to the participant. The Company also will then be entitled to a deduction in the same amount.

PROPOSAL 6 ADVISORY (NON-BINDING) VOTE APPROVING EXECUTIVE COMPENSATION

The Board of Directors unanimously recommends a vote FOR the approval of the Advisory (Non-Binding) Vote Approving Executive Compensation of our named Executive Officers as disclosed in this Proxy Statement

The Company is providing stockholders an advisory vote on executive compensation as required by Section 14A of the Exchange Act. Section 14A was added to the Exchange Act by Section 951 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act). This vote is commonly referred to as a say-on-pay vote.

The advisory vote on executive compensation is a non-binding vote on the compensation of the Company s Named Executive Officers, as described in the *Compensation Discussion and Analysis* section beginning on page 29, the tabular disclosure regarding such compensation, and the accompanying narrative disclosure, set forth in this proxy statement. The Dodd-Frank Act requires the Company to hold the advisory vote on executive compensation at least once every three years.

The Company s executive compensation program is designed to align the interests of our named executive officers with the interests of our shareholders. Our executive compensation programs are based on a pay-for-performance philosophy, which emphasizes executive performance measures that correlate closely with the achievement of both short-term performance objectives and long term shareholder value. Accordingly, a substantial portion of our executives annual and long term compensation is performance-based, with the payment contingent on the achievement of performance goals. We believe our program strikes the appropriate balance between utilizing responsible, measured pay practices and effectively incentivizing our executives to dedicate themselves fully to create shareholder value. This balance is evidenced by the following:

A competitive, market-driven base salary;

An annual cash bonus and incentive award that is dependent on individual and/or corporate performance;

A long-term incentive plan with equity and/or cash awards that is dependent on the achievement of both individual and corporate pre-specified goals;

Equity awards, consisting of stock options that vest over time.
Stockholders are being asked to vote on the following resolution:

RESOLVED, that the Company s shareholders approve, on an advisory basis, the compensation of the Named Executive Officers, as disclosed in the Company s Proxy Statement for the 2011 Annual General Meeting of Shareholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the compensation tables and any related material disclosed in this Proxy Statement.

This advisory vote on executive compensation is not binding on the Company s Board of Directors and neither the Board nor the Compensation Committee will be required to take any action as a result of the outcome of the vote on this proposal. However, the Board of Directors will take into account the result of the vote when determining future executive compensation arrangements.

Adoption of Proposal 6 will require the affirmative vote of the majority of the shares of common stock represented in person or by proxy at the meeting.

**PROPOSAL 7 ADVISORY (NON-BINDING) VOTE DETERMINING THE FREQUENCY OF
ADVISORY VOTES ON EXECUTIVE COMPENSATION**

The Board of Directors unanimously recommends Shareholders select once every THREE YEARS as the preferred frequency of advisory (non-binding) votes on Executive Compensation

As required by Section 14A of the Exchange Act, the Company is also providing shareholders an advisory vote on the frequency with which the Company's shareholders shall have the advisory vote on executive compensation provided for in Proposal 6 above is referred to as the say-on-pay vote.

By voting with respect to this Proposal 7, shareholders may indicate whether they would prefer that we conduct future say-on-pay non-binding votes on executive compensation once every one, two, or three years. Shareholders also may, if they wish, abstain from casting a vote on this proposal. The Dodd-Frank Act requires the Company to hold the advisory vote on the frequency of the say-on-pay vote at least once every six years.

The Board of Directors believes a triennial frequency (every three years) is the most appropriate alternative for the Company and therefore our Board recommends that you vote for a Triennial Interval for the say-on-pay vote. A vote every three years provides shareholders with sufficient time to evaluate the effectiveness of our overall compensation philosophy, policies and practices in the context of our long term business results, while avoiding over-emphasis on short term variations in compensation and business results. We will continue to engage with our shareholders regarding our executive compensation program during the period between say-on-pay votes on executive compensation.

The proxy card provides shareholders with the opportunity to choose among four options and therefore, shareholders will not be voting to approve or disapprove the Board's recommendation. Shareholders are being asked to vote on the following frequency: every year or Annual; every two years or Biennial; every three years or Triennial; or abstain from voting.

This advisory vote on the frequency of the say-on-pay vote is not binding on the Company's Board of Directors. However, the Board of Directors will take into account the result of the vote when determining the frequency of future say-on-pay votes. The choice among the four choices included in the resolution which receives the highest number of votes will be deemed the choice of the shareholders.

Company personnel generally prepare these reports on the basis of information obtained from each director and executive officer. Based on such information, we believe that all reports that were required by Section 16(a) of the Exchange Act to be filed by directors and executive officers of the Company during the fiscal year ended December 31, 2010, were filed on time, except for one report by Mr. Jose Lopez, former Vice President Asia Pacific, relating to the initial statement of ownership of Ordinary Shares, which was attributable to administrative error on our part. Mr. Lopez resigned his position with the Company effective January 31, 2011.

POLICIES AND PROCEDURES FOR RELATED PERSON TRANSACTIONS

The board is responsible for the oversight and approval (or ratification) of any transaction, relationship or arrangement in which the Company is a participant and that involves board members, Company executive officers, beneficial owners of more than 5% of the Ordinary Shares, their immediate family members, any individual (other than tenants and employees) who shares that person's home and companies they control or in which they have a substantial beneficial ownership interest. We refer to these as related person transactions and to the persons or entities involved as related persons.

The board has adopted a written policy that sets out procedures for the reporting, review and approval (or ratification) of related person transactions. The policy operates in conjunction with other aspects of the Company's compliance program, such as its code of conduct and business ethics policy, which requires directors and employees to report any circumstances that may create or appear to create a conflict between the interests of the related person and those of the Company, regardless of the amount involved. The Company's directors and executive officers must also periodically confirm information about related person transactions, and management reviews its books and records and makes other inquiries as appropriate to confirm the existence, scope and terms of related person transactions.

Under the board's policy, the audit committee evaluates related person transactions for purposes of recommending to the disinterested members of the board that the transactions are fair, reasonable and within Company policies and practices and should be approved or ratified. Related person transactions entered into, but not approved or ratified, are subject to termination if so directed by the audit committee or the board, as applicable.

The audit committee considers the appropriateness of any related person transaction in light of all relevant factors and the controls implemented to protect the interests of the Company and its shareholders, including:

the benefits of the transaction to the Company;

the terms of the transaction and whether they were made on an arm's-length basis and in the ordinary course of the Company's business;

the direct or indirect nature of the related person's interest in the transaction;

the size and expected term of the transaction; and

other facts and circumstances that bear on the materiality of the related person transaction under applicable law and listing standards. Related person transactions involving directors are also subject to board approval or ratification when so required under applicable law and subject to disclosure pursuant to the Company's Articles of Association.

RELATED PERSON TRANSACTIONS

At December 31, 2010, the close of our most recent fiscal year, the Company was 35.3% owned by members of the Abu-Ghazaleh family, including Mohammad Abu-Ghazaleh, our Chairman and Chief Executive Officer and Amir Abu-Ghazaleh, a director of the Company. Mr. Mohammad Abu-Ghazaleh and Mr. Amir Abu-Ghazaleh are brothers. The Abu-Ghazaleh family members entered into the Voting Agreement, pursuant to which (among other things) they granted Mohammad Abu-Ghazaleh an irrevocable proxy to vote all of the Ordinary Shares beneficially owned by them until June 25, 2011 and agreed to grant additional such proxies on an annual basis until the termination of the Voting Agreement.

In April 2009, the board adopted the Company's Aircraft Travel Policy to clarify and document the procedures and safety requirements with respect to the authorization to use private or charter aircraft in which the Chairman and Chief Executive Officer has an interest for business travel by the Chairman and Chief Executive Officer and such other persons as he may designate, in any case in which payment of or

Edgar Filing: FRESH DEL MONTE PRODUCE INC - Form DEF 14A

reimbursement for the cost thereof is sought from the Company. In fiscal year 2010, we incurred approximately \$2.0 million of air charter expenses with respect to an aircraft that is indirectly owned by our Chairman and Chief Executive Officer. The rates charged for these services were comparable to market rates charged to unrelated companies for use of a similar aircraft.

EXECUTIVE COMPENSATION

Compensation Committee

The compensation committee is comprised of four directors: Michael J. Berthelot (Chairman), Salvatore H. Alfiero, Madeleine Champion and John H. Dalton. None of the compensation committee members has a business relationship with the Company or its subsidiaries. Each member of the compensation committee is an outside director as defined in Section 162(m), a non-employee director as defined in Rule 16b-3 of the Exchange Act and independent, as that term is defined by NYSE Rule 303A.02.

The compensation committee acts on behalf of the board to review, adopt, and oversee the Company's compensation strategy, policies, plans, and programs, including:

establishment of key executives' performance objectives relevant to the compensation of the Company's executive officers and evaluation of performance in light of these stated objectives;

review and approval of compensation and other terms of employment or service, including severance and change-in-control arrangements for the Company's Chief Executive Officer and the other executive officers;

advising the board regarding changes to board or committee compensation programs and perquisites;

administration of the Company's equity compensation plans, deferred compensation plans and other similar plans and programs; and

evaluation of the risks inherent in the Company's incentive compensation programs.

The compensation committee oversees the compensation of all executive officers. The compensation committee participated in the preparation of the disclosure appearing under the heading "Compensation Discussion and Analysis" below and the related report of the compensation committee. The compensation committee has adopted a written charter that outlines its specific authority, duties and responsibilities. The charter is periodically reviewed and revised by the compensation committee and the board and is available to shareholders on the Company's Web site at www.freshdelmonte.com under the "Investor Relations" tab.

Compensation Committee Processes and Procedures

Typically, the compensation committee meets at least once quarterly and with greater frequency if necessary. The compensation committee may also take action by written consent. During fiscal year 2010, the compensation committee held four meetings. The agenda for each meeting is usually developed by the chairman of the compensation committee in consultation with the Company's Vice President of Human Resources and the Company's Senior Vice President, General Counsel and Secretary. The compensation committee meets regularly in executive session and invites independent directors who do not serve on the compensation committee to attend these sessions, as well as its regular meetings. From time to time, various members of management and other employees, as well as outside advisors or consultants, may be invited by the compensation committee to make presentations, provide financial or other background information or advice or otherwise participate in compensation committee meetings. No executive officer may participate in or be present during any deliberations or determinations of the compensation committee regarding his compensation. The charter of the compensation committee grants the compensation committee full access to all books, records, facilities and personnel of the Company, as well as authority to obtain, at the expense of the Company, advice and assistance from internal and external legal, accounting or other advisors and consultants and other external resources that the compensation committee considers necessary or appropriate in the performance of its duties. In particular, the compensation committee has the sole authority to retain compensation consultants to assist in its evaluation of executive and director compensation, including the authority to approve the consultant's reasonable fees and other retention terms.

The compensation committee has engaged The Delves Group as its independent executive compensation consultant since August 13, 2008. Over the course of their engagement, The Delves Group has assisted the Company in:

reviewing the Company's current compensation program compared to its peer group and other relevant compensation surveys to ensure market competitiveness;

evaluating the effectiveness of the Company's compensation strategy and practices in supporting and reinforcing the Company's long-term strategic goals; and

refining the Company's compensation strategy and developing and implementing an executive compensation program to execute that strategy.

Table of Contents

As part of its engagement, the compensation committee has directed The Delves Group to develop a comparative peer group of companies similar in size and complexity to the Company and conduct an annual review of competitive market data (including base salary, annual incentive targets and long-term incentive targets) for the Chief Executive Officer and other executive officers. The Delves Group then analyzed the competitive performance of the Company relative to the peer group. The Delves Group has also previously conducted individual interviews with members of senior management and the compensation committee to learn more about the Company's business operations and strategy, key performance metrics and strategic goals, as well as the labor markets in which the Company competes. In addition, The Delves Group reviews and comments on broader aspects of the Company's executive compensation programs, including program philosophy, design and implementation, as requested by the committee. The Delves Group attends all committee meetings at the request of the committee and presents relevant data and analyses to the committee for its consideration. The Delves Group does not have any relationship or arrangement with the Company other than their engagement as consultant to the compensation committee.

The compensation committee currently makes most significant adjustments to annual compensation, determines bonus awards for executive officers of the Company, and establishes new performance objectives, at one or more meetings held during the first quarter of the year. Annual equity awards for the Chief Executive Officer have historically been determined at a meeting held in the first quarter of the year, while equity awards for other NEOs and employees are determined at a meeting held in the third quarter of the year. The compensation committee considers matters related to individual compensation, as well as high-level strategic issues, such as the effectiveness of the Company's compensation strategy, potential modifications to that strategy and new trends, plans or approaches to compensation, at various meetings throughout the year. Generally, the compensation committee's process comprises two related elements: (1) the determination of compensation levels of current executive officers and (2) the establishment of their performance objectives for the short- and long-term. For all executives and directors, as part of its deliberations, the compensation committee may review and consider, as appropriate, materials such as financial reports and projections, operational data, tax and accounting information, tally sheets that set forth the total compensation that may become payable in various hypothetical scenarios, Company share performance data, analyses of historical executive compensation levels and current Company-wide compensation levels, and the recommendations of The Delves Group, including analyses of executive and director compensation paid at other peer companies identified by the consultant. The specific determinations of the compensation committee with respect to executive compensation for fiscal year 2010 are described in greater detail below.

Compensation Committee Interlocks and Insider Participation

During fiscal year 2010, none of the persons who served on the compensation committee is, or has been, an employee or officer of the Company or had any relationship requiring disclosure under Item 404 of Regulation S-K under the Securities Act of 1933, as amended. In addition, none of the Company's executive officers serves, or has served during the last completed fiscal year, as a member of the board or compensation committee of any other entity that has or has had one or more of its executive officers serving as a member of the board.

Compensation Committee Report

The compensation committee has reviewed and discussed with management the disclosure appearing under the heading "Compensation Discussion and Analysis" below. Based on this review and discussion, the compensation committee has recommended to the board that the disclosure appearing under the heading "Compensation Discussion and Analysis" be included in this proxy statement and incorporated into the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

Compensation Discussion and Analysis

Executive Compensation Philosophy

Compensation for Fresh Del Monte's NEOs (as identified in the Summary Compensation Table below) is intended to be largely performance-based in order to align the NEOs' interests with those of the shareholders. In establishing the Company's compensation program for the NEOs, the compensation committee has four principal objectives:

ensuring that the Company is able to attract and retain executives through the use of industry-competitive base salary compensation;

providing a total compensation package that is competitive in the industry and that is tied to, and varies based upon, individual and corporate performance;

incentivizing NEOs to make prudent business decisions and maximize shareholder value without exposing the Company to material levels of risk by providing a significant portion of total compensation opportunities in the form of stock options and restricted shares; and

establishing and maintaining internal pay equity among employees.

In order to address these objectives, the compensation committee regularly assesses compensation components that it believes will most cost effectively attract and motivate executive officers and reward them for their individual achievements and those of the Company as a whole. The compensation committee has retained a compensation consultant, The Delves Group, to assist in its analysis of key elements of compensation programs. The Company does not maintain any other relationship with The Delves Group other than The Delves Group's role as a consultant to the compensation committee.

The compensation committee allocates total compensation between cash and equity compensation based on benchmarking to the Company's peer group, discussed below, while considering the balance between providing short-term incentives and long-term parallel investment with shareholders to align the interests of management with shareholders. The compensation committee evaluates the balance between equity and cash compensation among NEOs annually.

Based on its review of the above-mentioned objectives, the Company has established a compensation program that consists of the following five components:

a competitive, market-driven base salary;

an annual cash bonus and incentive award that is dependent on individual and/or corporate performance;

a long-term incentive plan with equity and/or cash awards that is dependent on the achievement of both individual and corporate pre-specified goals;

equity awards, consisting of stock options, restricted shares, or restricted share units that vest over time; and

post-termination benefits that are triggered in limited circumstances.

Executive Summary of Compensation Programs

The Company has established a compensation program that is heavily weighted towards performance based compensation. The major components of the Company's compensation program include the following: (1) a base salary that is targeted to be at the median of the market; (2) an annual cash-based incentive program established to incentivize the executive to execute its business plans and objectives without exposing the Company to undue levels of risk; (3) a long term cash or equity based incentive plan; and, 4) periodic equity grants which encourages the executive to take a strategic view to support the long term interests of the Company. The Company's long and short-term incentive plans are based upon quantifiable and objective performance goals established at the beginning of each period and the achievement of which is subject to a rigorous review process. Each of the Company's incentive compensation plans contains claw back provisions in the event that an award is granted based upon incorrect data. The Company does not offer its executives pensions or supplemental retirement plans (except for one non-US based NEO who participates in a defined benefit plan which is offered to all regional employees). The Company offers other benefits to its executives which are also offered to a broad group of employees, such as 401(k) for its U.S. resident NEOs, health and welfare benefits, use of Company cars and mostly statutory or policy driven severance payments except for the Chief Executive Officer and the Chief Operating Officer who each have individual Severance and Retention Agreements. The Company does not provide any executive life insurance benefits to its NEOs other than what is provided to other salaried employees, except that the CEO and COO do receive additional life insurance coverage. The Company does not provide special benefit programs for its NEOs except for one NEO residing in Central America who is provided security and participates in a retirement plan created for a broad group of executives in that region. The Company does not pay for Country Club memberships, Financial Counseling/Tax Advice nor does it pay for executive spouses to travel on chartered aircraft or commercial airline when traveling with a NEO. Further, the Company does not provide employment agreements to any of our NEOs except for the President & Chief Operating Officer.

Determination of Compensation Program

The compensation committee has been delegated the authority to create a compensation program for the NEOs. In structuring the program, the compensation committee has relied on written reports provided by The Delves Group with respect to competitive practices and the amounts and nature of compensation paid to executive officers in a peer group of companies. The Delves Group has also provided advice to the compensation committee regarding, among other things, structuring the Company's various compensation programs and determining the appropriate levels of salary, bonus and other awards payable to the Company's executive officers. Based upon The Delves Group's recommendations, the Company's cash and equity-based incentive awards are weighted significantly towards variable components to ensure that total compensation reflects the overall success or failure of the Company, and to motivate executive officers to meet appropriate performance measures, thereby maximizing total return to shareholders.

The compensation committee determines the amount and nature of compensation for all NEOs. In making this determination, the recommendation and advice of certain executives is considered. The compensation committee solicits the Chief Executive Officer's recommendation regarding the President and Chief Operating Officer's compensation. Additionally, the President and Chief Operating Officer provide recommendations annually to the compensation committee regarding the compensation of all NEOs, excluding himself and the Chief Executive Officer. The President and Chief Operating Officer's recommendations are based on the results of his annual performance review of each NEO, at which time each NEO's individual goals are assessed in light of their achievement of specific strategic goals. Each NEO also provides input about his individual contributions to the Company's success for the period being assessed. The compensation committee reviews each of these performance reviews as part of its compensation setting process.

The following chart illustrates the decision making process in determining the compensation of the Chief Executive Officer, the President and Chief Operating Officer and the other NEOs.

Compensation Benchmarking and Peer Group

An important basis for structuring the Company’s compensation program and establishing target compensation levels for the Company’s NEOs is the analysis of the compensation packages offered to similarly situated executive officers of peer group companies. As part of its engagement, the compensation committee directed The Delves Group to review its comparative group of companies and to perform analyses of competitive performance and compensation levels for that group. The comparative information provided by The Delves Group was obtained from publicly filed reports of each company in the comparative peer group, as well as from nationally recognized compensation surveys. As part of their analysis, consultants from The Delves Group conducted individual interviews with members of senior management and the compensation committee to learn more about the Company’s business operations and strategy, key performance metrics and strategic goals, as well as the labor markets in which the Company competes. The Delves Group ultimately developed recommendations and metrics that were presented to the compensation committee for its consideration.

In November 2010, The Delves Group updated its executive compensation analysis report to the compensation committee. The Delves Group utilized nationally recognized compensation surveys and analyzed competitive practices and the amounts and nature of compensation paid to executive officers of a peer group of food and beverage, agricultural products and consumer products companies of similar size based on revenue, market capitalization, and number of employees as a measure of the complexity of the enterprise. The peer group identified in the 2010 Delves Group report did not change from 2009 and consisted of the following companies:

Fortune Brands Inc. Molson Coors	Campbell Soup Company McCormick & Company,	Dole Food Company Inc. The Hershey Company	Hormel Foods Corporation Chiquita Brands International
Brewing Company Corn Products	Inc. Del Monte Foods Company	Brown Forman Corporation	Inc.
International			

Based on the data presented to the compensation committee by The Delves Group and the analysis described above, the compensation committee has targeted base salary, annual and long-term cash incentive compensation, and equity incentive compensation for NEOs around the 50th percentile of market consensus based on nationally recognized compensation surveys and peer group comparison. The Company also targets the overall proportion of total variable compensation (*i.e.*, compensation based on performance) and fixed compensation (*i.e.*, base or guaranteed compensation) for each NEO to be consistent with the 50th percentile of the market consensus. In determining the level of compensation provided to its NEOs, the compensation committee not only considers the Company’s independent performance, but also evaluates the Company’s comparative performance against peer group companies, taking into account sales growth, growth in earnings per share (EPS), and share price performance, among other factors. In addition, the compensation committee considers the Company’s geographic locations, including the greater Miami area, where there is significant competition for employees in the global agricultural and consumer products industries. The compensation committee also evaluates individual NEO experience, seniority, and performance, based on both objective and subjective measures, on an annual basis and may award merit salary increases as a result of these assessments. This approach ensures that the Company’s compensation programs will enable it to remain competitive in its markets and reward individual NEO performance.

While the compensation committee targets cash compensation and equity awards in the 50th percentile of the peer group, the compensation committee recognizes the Company’s desire to keep the best talent in its executive management team. To retain and motivate these key individuals, the compensation committee may determine that it is in the best interests of the Company to negotiate or award total compensation that may deviate from the general benchmark targets described above. Actual pay for each executive is determined based on this premise and is driven by the performance of the executive over time and the annual performance of the Company. Equity grant guidelines are then set by job level, using market survey data and current guidelines to determine the appropriate annual grant levels for the upcoming year.

Table of Contents

The Company provides Messrs. Abu-Ghazaleh and El-Naffy with greater compensation and benefits (including post-employment benefits) than those provided to other NEOs to reflect the increased level of responsibility and risk faced by Mr. Abu-Ghazaleh as the Company's Chairman and Chief Executive Officer and Mr. El-Naffy as its President and Chief Operating Officer. Mr. Abu-Ghazaleh's compensation also differs as a direct result of the compensation committee's review of peer group compensation data, and reflects the competitive nature of compensation paid to chief executive officers within the peer group. The compensation committee believes that Mr. Abu-Ghazaleh's and Mr. El-Naffy's competitive compensation packages are important to motivate and retain them as the highly valued top two executives of the Company.

The comparisons and percentile rankings in this section are based on the most current data available to the Company, generally calculated based on an analysis performed by The Delves Group.

Base Salary

The base salary component of the Company's compensation program is designed to provide its NEOs with total base salary that is close to the median or 50th percentile among peer group companies. In establishing this target percentile, the compensation committee has relied on peer group data included in The Delves Group's written reports. The Company pays base salaries at the levels established by the compensation committee based upon the Company's compensation philosophy.

The compensation committee determined that our Chief Executive Officer, Mr. Abu-Ghazaleh, would receive no salary increase in fiscal year 2010. Although his base salary of \$1,200,000 has remained unchanged since 2003, the Chief Executive Officer's base salary is currently 23% above the market median, and the compensation committee accordingly does not believe that an increase is warranted at this time.

Our President and Chief Operating Officer's employment agreement with the Company was established in 1997 and provided for a minimum base salary of \$800,000. Effective May 1, 2005, his base salary was adjusted to \$1,000,000, which while 70% above the market median, the compensation committee believes is warranted by the responsibilities and duties that he carries at the Company. The compensation committee does not believe that an increase is warranted at this time.

The Company's other NEOs do not have employment agreements. Each year, base salary increases for the NEOs are determined based upon The Delves Group review of market median compensation and a subjective evaluation of the performance of the NEOs as assessed by the compensation committee, the President and Chief Operating Officer and the Chief Executive Officer, as well the NEO's experience, commitment to corporate core values and potential for advancement. No formulaic base salary increases are provided to the NEOs. For fiscal year 2010, our NEOs' base salaries were in the following percentages of the market median base salary paid to executives in the same (or the most similar) position: Richard Contreras, Senior Vice President and Chief Financial Officer, 22% below market median; Paul Rice, Senior Vice President, North America, Operations, is aligned with the market median; and José Antonio Yock, Senior Vice President, Central America, 20% above market median. Mr. Contreras was promoted to his current position in 2008.

The compensation committee, with the advice and recommendation of the President and Chief Operating Officer, determines salary increases for all NEOs in the first quarter of each year. During 2010, base salary increases effective January 1, 2010 were awarded to the NEOs as follows: Mr. Contreras' base salary was increased 2% from \$370,000 to \$377,400; Mr. Rice's base salary was increased 2% from \$360,000 to \$367,200; and Mr. Yock's base salary was increased 2% from \$388,154 to \$395,730.

Table of Contents***Annual Cash Incentive Awards***

Annual cash bonuses for NEOs are determined under the terms of the Company's annual incentive plans or in accordance with such officer's respective employment contract as illustrated in the chart below. The Company's annual cash bonus and incentive award plans are designed to reward the NEO for his contribution to the Company's achievement of its financial goals and to reflect, at least in part, the executive's overall job performance. The compensation committee reviews the status and forecasted amounts of the annual incentive bonus plans for the Chief Executive Officer and the NEOs on a quarterly basis.

The Chief Executive Officer

The annual incentive award for the Company's Chief Executive Officer is generally paid out under the Fresh Del Monte 2003 Performance Incentive Plan (the CEO PIP). Our Chief Executive Officer's annual incentive award is not guaranteed and is not paid if the Company fails to achieve its financial performance targets, which are based on total revenues, EPS, and return on equity. Under the CEO PIP, the Chief Executive Officer's bonus may range from 50% to 150% of his annual base salary based upon 80% to 120% goal achievement levels using straight-line interpolation between goals and payout. Eighty percent achievement of goals establishes a floor under which no bonus is payable.

In the first quarter of 2010, the compensation committee established fiscal year 2010 financial performance goals for the CEO PIP. As indicated above, targets were established for total revenues, EPS and return on equity, in each case the targets were derived from the Company's fiscal year 2010 operating plan financial objectives. The CEO PIP weighs each of the three criteria equally in determining overall achievement. The basis for this payment is shown in table below:

Performance Results	Pay-out
Target is achieved at 80%	Award is equivalent to 50% of base salary
Target is achieved at 100%	Award is equivalent to 100% of base salary
Target is achieved at 120%	Award is equivalent to 150% of base salary

If the performance falls between 80% and 100% of target or between 100% and 120% of target, the bonus amount is determined using straight-line interpolation. For fiscal year 2010, the Company had total revenue of \$3.553 billion, EPS of \$1.02, and return on equity of 3.7%, representing individual criteria achievements of approximately 90%, 40% and 40% respectively, compared to the pre-established objectives. Under the terms of the CEO PIP, the committee is permitted to consider non-recurring items in calculating the achievement of each of the relevant factors. In determining the achievement factor for the CEO's performance for 2010, the committee considered certain significant non-recurring events in arriving at the amount of Net Income used in the Company's annual incentive programs for all of the NEOs. These non-recurring items include non-cash impairment charges associated with the sale of our South Africa cannery operations; non-cash impairment charges resulting from the decision to close certain inefficient and diseased farms in the Philippines; non-cash impairment charges due to the relocation of our port operations in the northeast U.S.A.; and severance and non-cash impairment charges arising from the closure of certain melon operations in Brazil. The committee further considered the CEO's individual performance achievement using criteria such as the Company's 2010 financial performance compared to that of its two direct competitors, the creation of shareholder value through stock buy-backs and the initiation of a dividend, the generation of significant cash flow and balance sheet management, and strategic management decisions that are expected to positively impact the Company's long term results while causing disruption in the short term. As a result of the committee's evaluation of the Company's financial and operating performance and the Chief Executive Officer's individual performance for 2010, the CEO was awarded a cash incentive payment of \$1,301,048 which is based on 72% achievement of his pre-determined performance goals as adjusted and an individual performance achievement factor of 150%.

In 2010, our Chief Executive Officer received annual cash incentive compensation that is 17% above the median annual cash incentive compensation given to other chief executive officers in our peer group.

Table of Contents

Effective January 1, 2011, the Board has approved the implementation of a new 2011 Performance Incentive Plan (the 2011 PIP), the sole participant of which is the Chief Executive Officer. The 2011 PIP was designed to make the Chief Executive Officer's annual performance objectives more relevant to the Company's current economic and operational environment and its current business initiatives. The 2011 PIP allows the compensation committee to establish annual performance goals targeting key performance objectives that it believes are relevant to the Company's desired business results for the coming year. These performance goals may include such objectives as before or after tax net income, earnings per share, book value per share, stock price, return on stockholder's equity, expense management, improvement in capital structure, profitability of an identifiable business unit or product, business growth, before or after tax profit margins, budget comparisons, total return to shareholders, market share, relative performance against peers, or any similar metric. The committee believes that the prior incentive plan, the 2003 PIP, did not provide the ability to adopt flexible performance goals that are reflective of the Company's business objectives during the year. In recognition of the nature of the Company's business, the 2011 PIP also provides that the committee may, in its sole discretion, make adjustments in determining actual performance against specified objectives by considering the impact of restructuring charges, facility closure costs, discontinued operations, asset impairment charges, the effect of foreign currency fluctuations outside of specified parameters, extraordinary items, cumulative effects of accounting changes, certain weather related impacts, losses on debt extinguishment, the cost and impact of governmental investigations or proceedings, including fees and penalties to the extent such investigations result in no findings of illegal behavior on the part of the Company or a participant, items reflected on the financial statements as Other Income or Expense, the impact of new accounting standards or income tax regulations, and other unpredictable and uncontrollable events such as those defined under generally accepted accounting principles so long as such adjusted items are objectively determinable by reference to the Company's financial statements or notes thereto or management's discussion and analysis of financial results in its annual report.

The 2011 PIP provides for the amount of an award to be calculated based upon the Corporate Achievement Factor multiplied by a Target Award which is then multiplied by an Individual Performance Factor. The Target Award is established in the 2011 PIP at 100% of the Participant's salary. The Corporate Achievement Factor is the weighted average of the actual achievement against the performance objectives established by the Committee at the beginning of the measurement period subject to a maximum achievement of 125%. The Individual Achievement Factor, determined based upon the committee's evaluation of the participant's performance measured against individual performance objectives may not exceed 200% and is established by the compensation committee at the beginning of the measurement at a fixed level. At the end of the measurement period the committee may use its negative discretion to reduce the Individual Achievement Factor to reflect the actual performance of the Participant during the period. For 2011 the committee has established as equally weighted performance goals specified levels of earnings per share, revenue, and return on invested capital. The committee has established the 2011 Individual Performance Factor at 200%. The Committee has also established a minimum level of profitability below which no award can be earned for 2011, the Threshold, at \$72 million. The committee has further established that no award can be paid to the extent that such award would exceed 15% of the excess of net income as defined in the 2011 PIP exceeds the Threshold. The maximum award payable to a participant for any one year under the 2011 PIP is the lesser of (i) 250% of the participant's base salary, and (ii) \$3,000,000.

The 2011 PIP contains claw back provisions in the event that an award is granted based upon incorrect data.

The President and Chief Operating Officer

The fiscal year 2010 bonus award for the President and Chief Operating Officer was established pursuant to his 1997 employment contract, which provides for an annual cash bonus equal to 2% of the first \$20 million of the consolidated net after tax profits of the Company and 1.5% of any amounts of such profits in excess of \$20 million. In determining the achievement factor for the Chief Operating Officer's performance for 2010, the committee considered certain significant non-recurring events in arriving at the amount of Net Income used in the Company's annual incentive programs for all of the NEOs. These non-recurring items include non-cash impairment charges associated with the sale of our South Africa cannery operations; non-cash impairment charges resulting from the decision to close certain inefficient and diseased farms in the Philippines; non-cash impairment charges due to the relocation of our port operations in the northeast U.S.A.; and severance and non-cash impairment charges arising from the closure of certain melon operations in Brazil. For 2010 the Chief Operating Officer was awarded a cash bonus of \$1,579,000.

Table of Contents*Other Named Executive Officers*

The fiscal year 2010 incentive awards for NEOs (other than our Chief Executive Officer and President and Chief Operating Officer) were determined under the Fresh Del Monte 2010 Performance Incentive Plan for Senior Executives (the 2010 PIP) based on an assessment of individual performance.

In the first quarter of 2010, each NEO participating in the 2010 PIP, with the review, input and approval of our President and Chief Operating Officer and the compensation committee, established individual performance goals that formed the basis upon which his respective incentive award value would be determined. These goals were designed to reflect each executive's area of responsibility within the Company and, to the extent possible, were generally structured to include an objectively measurable component (*i.e.*, numeric or other criteria capable of independent measurement or satisfaction). Each goal was then assigned a specific percentage of that executive's overall achievement value, with all goals totaling 100%. In 2010, no individual performance goal accounted for greater than 30% of any NEO's total achievement value. Each NEO had between six and seven performance criteria upon which his annual bonus was based. Some of these criteria would create a payout only if the specific goal is met, other performance criteria would provide for partial payment to the NEO upon partial achievement of the goal. Performance factors, which must be based on strategic objectives of the Company, for participants in the 2010 PIP who are business unit leaders, may include profitability, business growth, market share, production volume, or production costs, to name a few. For those participants who are in functional roles, performance factors may include cost of deliverable services and cost reduction, strategic project completions, implementation of new systems or processes, or implementation of improvements in accountability or responsibility. Under the 2010 PIP, the maximum bonus amount for each participating NEO is 50% of annual base salary. The payout for 2010 is based on table below:

Basis of Performance	% Award
Performance Factors as described above	35% of annual base salary
Company's EPS and Total Revenue Targets	15% of annual base salary

The target bonus percentage for NEOs, which is composed of 35% of salary at target and an additional 15% component based upon revenue and earnings per share targets, was established in 2009 based upon the recommendation of The Delves Group to move the NEOs' PIP targets closer to the peer group median. Further, these additions were made to bring the other NEOs' PIP goals in line with those established for the Chief Executive Officer and to better incentivize the participating executive to work for the overall success of the Company while at the same time achieving their respective individual performance goals.

As part of the Company's annual employee performance appraisal process, our President and Chief Operating Officer provided, and our compensation committee took into account, an assessment of the individual performance of each participating NEO against his respective 2010 goals. In determining the achievement factor for the NEO's performance for 2010, the committee considered certain significant non-recurring events in arriving at the amount of Net Income used in the Company's annual incentive programs for all of the NEOs. These non-recurring items include non-cash impairment charges associated with the sale of our South Africa cannery operations; non-cash impairment charges resulting from the decision to close certain inefficient and diseased farms in the Philippines; non-cash impairment charges due to the relocation of our port operations in the northeast U.S.A.; and severance and non-cash impairment charges arising from the closure of certain melon operations in Brazil. The compensation committee concluded that the 2010 achievement values for NEOs participating in the 2010 PIP were between 49% and 94% of their respective functional goals and 77% of the collective EPS and total revenue goals, resulting in awards of between 29% and 45% of the NEO's base salary. Actual incentive awards paid to our NEOs for fiscal year 2010 in accordance with the 2010 PIP are set forth below in the Summary Compensation Table.

The 2010 PIP contains claw back provisions in the event that an award is granted based upon incorrect data.

Long-Term Incentive Awards

In 2007, the compensation committee began to consider the establishment of a long-term incentive plan to provide an incentive for executives to focus on the long-term sustainable growth of the Company by rewarding business decisions and actions over a longer term than the single year plans then in place. The compensation committee considered that the efforts of senior executives may not be adequately rewarded if decisions were made consistent with the Company's business strategy that established a basis for significantly improved long-term performance of the Company, yet negatively affected operating results, and therefore annual cash incentive awards. Likewise, the compensation committee wished to avoid plan designs that could incentivize executives to take actions that would result in short-term gain in order to bolster annual incentive

compensation, without regard to the long-term best interests of the Company. In addition, it was noted by the compensation committee that the Company was the only company in the peer group not to have such a plan. On February 27, 2008, the board approved the establishment of the Fresh Del Monte Produce Inc. Long-Term Incentive Plan (the LTIP) for senior corporate officers, including NEOs, effective beginning in 2008. For fiscal year 2008, only the Chief Executive Officer was named a participant of the LTIP. Beginning in 2009, Messrs. Yock, Rice and Contreras became participants in the LTIP with target awards equal to 35% of annual base salary.

Table of Contents

The LTIP allows for an award to be made to the participants by the compensation committee at the beginning of each fiscal year, with the final determination and payment of that award occurring at the end of the third year following the award's grant and after such payment is approved by the compensation committee. The compensation committee reviews the status and forecasted amount of each outstanding LTIP of the Chief Executive Officer and the NEOs on a quarterly basis. The compensation committee may include or exclude the impact of certain items such as expenses related to restructuring or productivity initiatives, non-operating items, acquisition expenses and any other items of gain, loss or expense that may be determined to be extraordinary or unusual in nature or infrequent in occurrence. Unless otherwise provided in the plan, LTIP awards are paid in cash in the form of a single lump sum. LTIP awards may range from 50% to 150% of the target award depending upon the actual achievement level as measured against certain predetermined objectives.

The LTIP award for our Chief Executive Officer is calculated by measuring achievement in two categories. First, 50% of the LTIP award is calculated by measuring the total shareholder return (the TSR) of the Company versus that of its peer group over the three-year period. TSR includes share price change, as well as reinvested dividends. In order to avoid significant swings in TSR caused by anomalous events that might occur at the beginning or end of the measurement period, TSR is measured using the average closing prices of the Company's shares and those of the peer group during the ninety day period which precede the first and last days of the measurement period. The second half of the LTIP award is calculated by measuring the achievement of performance goals, which consist of one or more measurable strategic objectives established by the compensation committee and agreed to by the plan participants at the beginning of each award period. The LTIP performance goals established for the Chief Executive Officer is as follows:

For 2008, the LTIP performance goals consist of two equally weighted strategic objectives related to growth in a specific geographical market.

For 2009, the LTIP performance goal consist of one strategic objective related to the return on capital in a major investment.

For 2010, the LTIP performance goals consist of two equally weighted strategic objectives related to a growing project in Central America and our prepared foods business.

For 2011, the LTIP performance goals consist of two equally weighted strategic objectives related to revenue growth and the success of a marketing project in a defined geographical market.

At the conclusion of 2010, the Chief Executive Officer received an award in the amount of \$420,000 under the provisions of his 2008 LTIP agreement. Under that agreement, 50% of the target award of 100% of salary was based upon the Company exceeding the average Total Shareholder Return (TSR) of a pre-selected peer group and 50% was based upon the achievement of specified levels of revenue and EBITDA from a specified geographic region, subject to a cap on the amount of capital invested in the project. Based upon the actual performance of the Company's share price over the measurement period, it was determined that no award was earned under the TSR portion. With regard to the portion of the LTIP related to the achievements of specified goals in a specified geographic region, the Company achieved 108% of its revenue target and 32% of its EBITDA target while remaining within 76% of its maximum investment limitation for an overall achievement factor of 70% on this performance goal. As a result, the LTIP award was determined to be 50% of salary times the 70% achievement factor or \$420,000.

The strategic objectives for the 2009, 2010 and 2011 LTIP for the Chief Executive Officer have specific numerical targets to measure accomplishments. Final determination of the amounts to be paid under the 2009, 2010 and 2011 LTIP awards will occur following the end of 2011, 2012 and 2013 fiscal years.

Similarly, the 2009 LTIP award for Messrs. Yock, Rice and Contreras is calculated by measuring achievement in both TSR and specific measurable strategic objectives. The 2009 LTIP strategic objectives for these NEOs consisted of two to three performance goals. The LTIP strategic objectives for Mr. Yock consist of three performance goals related to production stabilization targets, specific commodity production growth target and a strategic production best practices program. Mr. Contreras' strategic objectives for the 2009 LTIP consist of two performance factors related to return on invested capital and strategic simplification. The LTIP strategic objectives for Mr. Rice relate to strategic growth in two commodities and strategic growth in operating income results for certain business areas. Final determination of the amounts to be paid under the 2009 LTIP awards for Messrs. Yock, Rice and Contreras will occur following the end of 2011 fiscal year.

Edgar Filing: FRESH DEL MONTE PRODUCE INC - Form DEF 14A

The 2010 LTIP award for Messrs. Yock, Rice and Contreras is calculated by measuring achievement in both TSR and specific measurable strategic objectives. The 2010 LTIP strategic objectives for these NEOs consisted of three to five performance goals. The LTIP strategic objectives for Mr. Yock consist of three performance goals related to improvements in productivity, improvements in cost structure and increase in strategic production volume. Mr. Contreras' strategic objectives for the 2010 LTIP consist of five performance factors related to reduction in costs, improvements in turnovers and certain recoveries. The LTIP strategic objectives for Mr. Rice consist of four performance factors related to waste reduction and strategic growth in operating income results and margins for North American operations. Final determination of the amounts to be paid under the 2010 LTIP awards for Messrs. Yock, Rice and Contreras will occur following the end of 2012 fiscal year.

Table of Contents

The 2011 LTIP award for Messrs. Yock, Rice and Contreras is calculated by measuring achievement in both TSR and specific measurable strategic objectives. The 2011 LTIP strategic objectives for these NEOs consisted of two to three performance goals. The LTIP strategic objectives for Mr. Yock consist of two performance goals related to commercial production targets and a strategic cost management goal. Mr. Contreras' strategic objectives for the 2011 LTIP consist of three performance factors related to improvements in working capital, implementation of new technology and a completion of a transformational strategy. The LTIP strategic objectives for Mr. Rice consists of three performance factors related to net sales growth, a cost containment program and growth in net income in North America operations. Final determination of the amounts to be paid under the 2011 LTIP awards for Messrs. Yock, Rice and Contreras will occur following the end of 2013 fiscal year.

The LTIP contains claw back provisions that permit the compensation committee to require the repayment of any LTIP award received by a participant in the event that the financial results that determined the award are subsequently determined to be in error or are required to be restated. Further, the maximum amount that can be paid to any individual participant with respect to any particular award period cannot exceed \$6 million.

Equity Awards

In order to create a properly balanced compensation program, the compensation committee utilizes both compensation that provides incentive for short-term gain, such as the annual incentive program, and compensation that provides incentive for longer-term growth, such as participation in the LTIP and the distribution of equity awards. Each NEO is eligible to receive an annual equity compensation award. The Company believes, based on its performance-based approach to compensation, that equity ownership in the Company is important to tie the level of compensation to the performance of the Ordinary Shares and shareholder gains; the Company believes this is particularly important for NEOs. Because equity compensation awards vest over a period of years, they also provide a retention component and create an incentive for executives to create sustained growth.

Guidelines for the number of stock option awards granted to each NEO are determined using a procedure approved by the compensation committee based upon the executive officer's position and responsibilities, job level, performance, and the value of the award at the time of grant. In addition, the compensation committee may consider peer group data presented in The Delves Group's reports in making such awards. As a result, additional grants other than the annual award may be made following a significant change in job responsibility or in recognition of a significant achievement. The compensation committee generally does not consider the number of options already held by NEOs when making grants, as it believes that awards should be given based on successful job performance and should not be discounted on account of accumulated equity value. Further, the compensation committee believes that competitors, who may try to hire the Company's NEOs would not give full credit for existing equity ownership in the Company and, to remain competitive, similarly do not take into account previous awards when approving new grants. It has been the Company's practice to issue only stock options as equity awards to its NEOs.

In fiscal year 2010, there were no stock option grants awarded to any NEOs with the exception for the Chief Executive Officer. The annual grant to the Chief Executive Officer was made under the terms of the 1999 Option Plan. The Company's 1999 Option Plan has a four-year vesting schedule in order to provide an incentive for continued employment and long-term growth of the Company. All stock options expire 10 years from the date of the grant. This provides a reasonable time frame to align the NEO's goals with the long-term price appreciation of the Company's shares. The exercise price of options granted under the Company's 1999 Option Plan is equal to the average of the high and low trading prices for the Ordinary Shares on the NYSE on the date of grant.

Beginning 2011, subject to the approval by the shareholders of the 2011 Omnibus Share Incentive Plan, the Company will be able to grant restricted shares and other types of equity awards as well as continue to award share options to its officers and key employees. The proposed expansion of the nature of equity awards is the result of a finding by The Delves Group in their 2010 study that a majority of our peer group companies have plans that allow the granting of restricted shares, restricted stock units and performance shares to key executives while the Company did not and, as a result, the Company may find itself at a disadvantage to its competitors in attracting and retaining the best people.

Post-Termination Benefits

To promote stability and continuity of management direction, in 2003, the Company adopted the Executive Retention and Severance Agreements for the Chief Executive Officer and the President and Chief Operating Officer. The Company feels that the creation and continuation of these agreements is imperative to the retention of our Chief Executive Officer and our President and Chief Operating Officer because they reflect customary market practices. The Company does not generally enter into written severance agreements for any of its employees unless it is mandated to do so by local statutes and has not entered into such an agreement with any other NEOs; however, the Company decided to establish severance agreements for the two most senior executives of the Company, as retention of these two officers is of paramount importance to the continued stability of the Company.

Edgar Filing: FRESH DEL MONTE PRODUCE INC - Form DEF 14A

As further described under the heading Potential Payments Upon Termination or Change-in-Control, the severance agreements of our Chief Executive Officer and our President and Chief Operating Officer provide that they are entitled to certain cash consideration, an enhanced payment to take into effect any taxes due on the consideration, and other benefits in the event their employment is terminated by the Company other than for cause, if they terminate their employment for good reason, or if they are terminated in connection with a change in control, in each case such payments and benefits are conditioned upon the execution by them of a general release of all claims. These agreements also provide for consideration and benefits in the event of a termination of employment by reason of death or disability. Both executives also agreed to a two-year period following the termination of their employment during which they cannot solicit the Company's employees, distributors, vendors or customers.

Table of Contents

The severance agreements each have a "double trigger" change in control policy; both a change in control and the termination of the executive's employment must occur before such payment is triggered. This policy may increase the consideration paid to the shareholders for the Company in the event of a change in control because no mandatory lump-sum payments are triggered solely by the change in control alone, thus providing the acquiring company with the flexibility to retain the executives at their discretion. The compensation committee also intends that this "double trigger" change in control policy will provide fair and equitable compensation in the event of a termination following a change in control. By providing reasonable severance in the event of a termination of employment upon a change in control, the compensation committee intends to provide each covered officer with compensation that is sufficient to mitigate the risk of employment loss and encourage him to assist in undertaking the transaction. The amount of the severance is balanced against the Company's need to be responsible to its shareholders, and also takes into account the potential negative impact such severance payments may have on the acquiring party in a change in control transaction.

The specified levels of post-termination benefits for the Chief Executive Officer and President and Chief Operating Officer were determined by the compensation committee to be appropriate for each of the two individuals based on each person's duties and responsibilities with the Company and were the result of arm's-length negotiations. The Company determined the different levels to be appropriate and reasonable when generally compared to post-termination benefits provided by the Company's peers to executives with the same title and similar levels of responsibility. The Company believes that these benefits take into account the expected length of time and difficulty the individual may experience in trying to secure new employment.

On November 14, 2008, the compensation committee approved an amendment to the severance agreement with our President and Chief Operating Officer to comply with Section 409A of the Code, which governs the payment of deferred compensation. In addition, the severance plan was amended to require that any changes made to the severance agreement be approved by the compensation committee.

Both Mr. Contreras and Mr. Rice are covered by the Company's general severance policy applicable to U.S. employees, which provides a maximum of six months' severance based upon the years of service of each participant. Mr. Yock, pursuant to Costa Rican statutes, upon any termination of employment or retirement, other than a termination by the Company for cause, will be entitled to receive an amount equal to one month of base salary for every year of service with a maximum credit of eight years of service. In order to meet this obligation, the Company has established a Solidarity Program Account funded by both an individual and a Company contribution. Upon a termination of employment other than by the Company for cause, Mr. Yock will receive the greater of (i) the total contributions in his Solidarity Account and (ii) the severance due pursuant to local law. In addition, Mr. Yock participates in the Company's Latin American Retirement Plan under which he will receive \$120,000 per year for 10 years following his retirement directly from the Company. Should Mr. Yock not survive for that full period, his estate will be paid any remaining amounts in a lump sum.

Other Benefits

No significant pension or welfare benefits are available to NEOs other than the broad-based 401(k) plan, health and welfare benefits, and life insurance that are generally available to most of the Company's full-time employees, or with respect to Mr. Yock, generally available to most of the Company's regional full-time employees, except as provided below.

Life Insurance Benefits

The Company provides Mr. Abu-Ghazaleh a term life insurance policy with an annual premium of \$42,866 providing for payment of \$3 million to his designated beneficiaries upon his death. The Company provides Mr. El-Naffy with a term life insurance policy with an annual premium of \$48,611 providing for payment of \$2.5 million to his designated beneficiaries upon his death. Please see the information under the heading "Employment Agreements with NEOs" below for additional details regarding the benefits provided to Mr. El-Naffy pursuant to his employment agreement.

Other Benefits

Other than Mr. Contreras and Mr. Rice, the Company provides each NEO with a Company car. The amounts quantified in the Summary Compensation Table as car benefits are included in "All Other Compensation," and include the amount that the Company recognized as an expense for fiscal year 2010 for each car (where leased, the annual cost of the lease; where owned by the Company, the depreciation of the car for that year), the maintenance, insurance and gasoline for that car.

Policies with Respect to Equity Compensation Awards

The compensation committee evaluates the allocation of equity awards by reference to the Company's peer group and the performance of the individual and the Company, as discussed above. The 1997 Share Incentive Plan and the 1999 Share Incentive Plan provide that the Company

Edgar Filing: FRESH DEL MONTE PRODUCE INC - Form DEF 14A

must grant all equity incentive awards with an exercise price equal to the fair market value as determined by the average of the high and low trading prices for the Ordinary Shares on the NYSE while for the proposed 2011 Omnibus Share Incentive Plan, the fair market value is based on the closing price on the date of the grant.

Table of Contents

The compensation committee has established a policy that annual option awards for its Chief Executive Officer will generally be granted on the date of the board meeting immediately following the release of its financial results for the fiscal year, which usually occurs in February. For 2010, the grant date for the annual awards to its Chief Executive Officer was March 3, 2010. With regard to option award grants for all other NEOs, none were granted for fiscal year 2010.

Upon approval of the shareholders of the 2011 Omnibus Share Incentive Plan, the compensation committee intends to follow the same schedule in granting options and restricted shares from this Plan to its key employees. The 2011 Omnibus Share Incentive Plan includes a formal claw back policy permitting the board to require repayment of any award if it is later determined that such award was made based upon incorrect data.

The Company does not have any share ownership policy for NEOs. The compensation committee intends to evaluate the prudence of adopting a share ownership policy in the future. Our NEOs hold substantial interest in Company stock based on equity awards, and our Chief Executive Officer owns a significant amount of shares through his personal holdings. In addition, the Company does not have any formal claw back policies relating to the equity awards under the 1997 and 1999 Share Incentive Plans. The compensation committee intends to evaluate the requirements to implement a claw back policy.

Risk Considerations in our Overall Compensation Program

The compensation committee considers the potential for the company's incentive compensation programs to motivate employees to undertake unnecessary or excessive risk taking. The committee has reviewed management's risk assessment of the Company's compensation programs for its senior executives and its employees generally and has concluded that these programs do not create risks that are reasonably likely to have a material adverse effect on the Company. The committee believes that excessive risk taking is further mitigated by the use of multiple objectives which serve to limit the potential benefit of any single episode of excessive risk taking; that all incentive calculations are based upon validated financial data; that all computations and recommendations are subject to multiple levels of review including local, regional, corporate, and board level reviews; and that there are caps on the amount of payments to any single individual under any plan.

Tax Considerations

For US income tax purposes, Section 162(m) limits the Company's tax deductibility of annual compensation in excess of \$1,000,000 paid to our Chief Executive Officer and any of our three other most highly compensated executive officers, other than our Chief Financial Officer. However, performance-based compensation that has been approved by our shareholders is excluded from the \$1,000,000 limit if, among other requirements, the compensation is payable only upon the attainment of pre-established, objective performance goals and the committee of the board that establishes such goals consists only of outside directors. All members of the compensation committee qualify as outside directors.

The compensation committee considers the anticipated tax treatment to the Company and our executive officers when reviewing executive compensation and our compensation programs. The deductibility of some types of compensation payments can depend upon the timing of an executive's vesting or exercise of previously granted rights or termination of employment. Interpretations of and changes in applicable tax laws and regulations, as well as other factors beyond the compensation committee's control, also can affect the deductibility of compensation.

While the tax impact of any compensation arrangement is one factor to be considered, this impact is evaluated in light of the compensation committee's overall compensation philosophy and objectives. The compensation committee will consider ways to maximize the deductibility of executive compensation, while retaining the discretion it deems necessary to compensate officers in a manner commensurate with performance and the competitive environment for executive talent. From time to time, the compensation committee may award compensation to our executive officers that are not fully deductible if it determines that the award is consistent with its philosophy and is in our shareholders' best interests, such as time vested grants of restricted shares or grants of incentive stock options.

SVP, N.A. Operations

- (1) Mr. Yock is a participant in the Latin American Retirement Plan, which includes other Latin American management employees who are currently working in Costa Rica, Guatemala, Ecuador, Brazil, and the Philippines. The plan was established in May 1990. Under this plan, an employee who retires on or after attainment of his normal retirement age and has at least 25 years of service receives an annual payment equivalent to 100% of his annual base salary for a period of 10 years. If the employee retires on or after attainment of his normal retirement age with five years of service or less, he receives an annual payment for 10 years equivalent to 20% of his annual base salary and an additional 4% of annual base salary for each year of service beyond five years. The plan also provides for an early retirement benefit for an employee who retires on or after attainment of early retirement age and 10 years of service. The early retirement benefit is equal to 50% of the annual benefit (as described above) for those who qualify and are 50 years old as of the retirement date, with an additional 5% of such annual benefit for each year of age the employee is over 50 as of the retirement date. If the employee dies during the 10-year period, then the remaining payments would be paid in lump sum to his designated beneficiary. The plan was frozen in August 1997, at which time all accrued benefits were recognized by the Company and further benefit accruals were prohibited. Mr. Yock's salary was frozen at \$120,000 (his base salary as of August 1997) for purposes of calculating future benefits, as were all other participants' salaries. As of December 31, 2010, Mr. Yock was age 58 with 28 years of service, and therefore entitled to an early retirement benefit equivalent to \$108,000 per year (or 90% of frozen base salary) for a period of 10 years.
- (2) The actuarial present value is determined in accordance with the same assumptions included in our Annual Report on Form 10-K for the fiscal year ended December 31. The discount rate used was 5.30%.

Table of Contents

Employment Agreements with NEOs

The only NEO that the Company has an employment agreement with is its President and Chief Operating Officer, Mr. El-Naffy, which was originally entered into in January 1997. Mr. El-Naffy's employment agreement specifies the terms and conditions of his employment and was negotiated between him and Mr. Abu-Ghazaleh. The terms and conditions embodied in Mr. El-Naffy's agreement reflect the Company's assessment of what was reasonable and appropriate to ensure Mr. El-Naffy's continued employment with the Company in a competitive marketplace. The agreement states that Mr. El-Naffy's base salary will be \$800,000 for the term of the agreement. His base salary was adjusted to \$1,000,000 effective May 1, 2005. Mr. El-Naffy's bonus is established in his employment agreement at 2% of the first \$20 million of consolidated net after tax profit of the Company, plus 1.5% of any consolidated net after tax profit above \$20 million. Under the terms of his employment agreement, Mr. El-Naffy is entitled to participate in all of the medical and benefit plans offered to employees of the Company and to have the use of a company-provided automobile. Mr. El-Naffy's employment agreement has no expiration date.

Severance Agreements with NEOs

The Company entered into separate Executive Retention and Severance Agreements with each of Messrs. Abu-Ghazaleh and El-Naffy in 2003. In the event the employment of either executive is terminated (i) by the Company for reasons other than cause (as defined below), (ii) by the executive for good reason (as defined below), or (iii) as a result of the executive's death or disability, the executive will receive severance payments and benefits pursuant to the agreement, as detailed in the Potential Payments Upon Termination or Change-in-Control table above. As illustrated in the table, the severance benefit is increased in the event the termination is in connection with a change in control. A termination is considered in connection with a change in control if the termination occurs within the period commencing on the date that the Company publicly announces the existence of a definitive agreement of a transaction that may result in a change of control and 12 months after the consummation of such a transaction.

The amount of severance to be paid under the severance agreements is increased by the amount of any federal or state income taxes due on the amount of severance paid. The reasons for providing this benefit include, but are not limited to, preserving the intended benefit to the executives of their existing benefits package, avoiding any conflict between the executives' personal financial impact and pursuing any transaction as appropriate for the Company, as well as providing a competitive package of benefits for the executives to ensure their continued employment through the completion of any potential transaction.

For purposes of the agreements, good reason means any of the following events that are not consented to by the executive: (i) a reduction or change in the executive's status, title, duties, responsibilities, authority or reporting relationship such that the executive is no longer a senior executive of the Company or no longer reports to the incumbent Chief Executive Officer; (ii) a reduction of the executive's base salary or target bonus percentage; (iii) a reduction in the executive's benefits; (iv) the location of executive's assignment on behalf of the Company is moved to a location more than 50 miles from its present location in Coral Gables, Florida; or (v) a material breach by the Company of its obligations under the agreement. For purposes of the agreements, cause means any of the following events: (i) the executive's willful and continued failure to perform his duties with the Company; (ii) a material, willful breach committed in bad faith of the Company's code of conduct and business ethics policy; or (iii) indictment or conviction of a felony based upon a crime.

The Company has not entered into employment or severance agreements with its other NEOs. Each NEO located in North America is considered an at-will employee whose employment may be terminated by the Company at any time for any reason. Mr. Contreras and Mr. Rice are subject to the Company's general severance policy for U.S. employees, which states that they will receive four weeks of base salary plus two weeks of base salary for every year of service up to a maximum of 26 weeks' base salary paid over the same number of weeks and life, medical and dental insurance will continue during the salary continuation period. Mr. Yock's severance is governed by Costa Rican statutes, which provide one month of severance for each year of service with a maximum credit of eight years of service. Mr. Yock also participates in the 1990 Del Monte Fresh Produce Salary Continuation Plan, also known as the Latin America Retirement Plan, which is further discussed under the heading Compensation Discussion and Analysis Post-Termination Benefits in the section captioned *Executive Compensation*.

(iii) None of the Restricted Shares may be assigned or transferred (other than by will or the laws of descent and distribution, or to an inter vivos trust with respect to which the Participant is treated as the owner under Sections 671 through 677 of the Code, except to the extent that Section 16 of the Exchange Act limits a Participant's right to make such transfers), pledged or sold prior to lapse of the restrictions applicable thereto.

(iv) Upon expiration or earlier termination of the forfeiture period without a forfeiture and the satisfaction of or release from any other conditions prescribed by the Committee, or at such earlier time as provided under the Plan, the restrictions applicable to the Restricted Shares shall lapse. As promptly as administratively feasible thereafter, subject to the requirements of Section 15, the Company shall deliver to the Participant, one or more share certificates for the appropriate number of Ordinary Shares, free of all such restrictions, except for any restrictions that may be imposed by law.

(v) Except as provided under the Plan or the Award agreement, all Restricted Shares shall be forfeited and returned to the Company and all rights of the Participant with respect to such Restricted Shares shall terminate unless the Participant continues in the service of the Company or a Substantial Subsidiary until the expiration of the forfeiture period for such Restricted Shares and satisfies any and all other conditions set forth in the Award agreement. The Board shall determine the forfeiture period (which may, but need not, lapse in installments) and any other terms and conditions applicable with respect to any Restricted Share Award.

(vi) Notwithstanding anything contained in this Section 7 to the contrary, in its absolute discretion and upon the recommendation of the Committee, the Board may waive the forfeiture period and any other conditions set forth in any Award agreement under appropriate circumstances (including the death, disability or retirement of the Participant or a material change in circumstances arising after the date of an Award) and subject to such terms and conditions (including forfeiture of a proportionate number of the Restricted Shares) as the Committee shall deem appropriate.

(c) Restricted Stock Units

(i) Payments shall be made to Participants with respect to their Restricted Stock Units as soon as practicable after the Board, upon the recommendation and approval of the Committee, has determined that the terms and conditions applicable to such Award have been satisfied or at a later date if distribution has been deferred. Payments to Participants with respect to Restricted Stock Units shall be made in the form of Ordinary Shares, or cash or a combination of both, as the Board may determine. The amount of any cash to be paid in lieu of Ordinary Shares shall be determined on the basis of the Fair Market Value of the Ordinary Shares on the date of settlement. As to Ordinary Shares which constitute all or any part of such payment, the Board may impose such restrictions concerning their transferability and/or their forfeiture as may be provided in the applicable Award agreement or as the Board may otherwise determine, provided such determination is made on or before the date certificates for such shares are first delivered to the applicable Participant.

(ii) Until the lapse or release of all restrictions applicable to an Award of Restricted Stock Units, no Ordinary Shares shall be issued in respect of such Awards and no Participant shall have any rights as a shareholder of the Company with respect to the Ordinary Shares covered by such Award of Restricted Stock Units.

(iii) Notwithstanding anything contained in this Section 7 to the contrary, in its absolute discretion and upon the recommendation of the Committee, the Board may waive the forfeiture period and any other conditions set forth in any Award agreement under appropriate circumstances (including the death, disability or retirement of the Participant or a material change in circumstances arising after the date of an Award) and subject to such terms and conditions (including forfeiture of a proportionate number of shares issuable upon settlement of the Restricted Stock Units constituting an Award) as the Board shall deem appropriate.

(iv) If approved by the Board and set forth in the applicable Award Agreement, a Participant may elect to defer the amount payable with respect to the Participant's Restricted Stock Units in accordance with such terms as may be established by the Board, subject to the requirements of Section 409A of the Code.

Shares, or Awards valued in whole or in part by reference to, or otherwise based on, Ordinary Shares, may be granted either alone or in addition to or in conjunction with other Awards under the Plan. Subject to the provisions of the Plan, the Board shall have sole and complete authority to determine the Participants to whom and the time or times at which such Awards shall be made, the number of Ordinary Shares to be granted pursuant to such Awards, and all other conditions of the Awards. Any such Award shall be confirmed by an Award agreement executed by the Board and the Participant, which Award agreement shall contain such provisions as the Board determines to be necessary or appropriate to carry out the intent of this Plan with respect to such Award.

(b) In addition to the terms and conditions specified in the Award agreement, other stock-based Awards made pursuant to this Section 8 shall be subject to the following:

(i) any Ordinary Shares subject to Awards made under this Section 8 may not be sold, assigned, transferred, pledged or otherwise encumbered prior to the date on which the shares are issued, or, if later, the date on which any applicable restriction, performance or deferral period lapses; and

(ii) the Award agreement with respect to any Award shall contain provisions dealing with the disposition of such Award in the event of the Participant's termination of service prior to the exercise, payment or other settlement of such Award, whether such termination occurs because of retirement, disability, death or other reason, with such provisions to take account of the specific nature and purpose of the Award.

9 Effect of Change of Control

Upon the occurrence of a Change of Control with respect to a Participant, all outstanding Awards of such Participant shall vest and any such Awards consisting of Options shall become immediately exercisable and shall remain exercisable until their expiration, termination or cancellation pursuant to the terms of the Plan.

(i) In connection with such vesting upon a Change of Control, if it is determined that any payment or benefit provided by the Company or one of its Substantial Subsidiaries or any other person to or for the benefit of a Participant (whether paid or payable or provided or providable pursuant to the terms of this Plan or otherwise) (a Payment) would be subject to an excise tax imposed by Sections 280G or 4999 or any similar provisions of the Code, or any interest or penalties are incurred by the Participant with respect to such excise tax (such excise tax, together with any interest and penalties, hereinafter the Excise Tax), then the value of any such Payments which constitute parachute payments, as determined by the Accounting Firm described in clause (ii) below, will be reduced by such amount (the Payment Reduction) so that the present value of all Payments (calculated in accordance with Section 280G of the Code and the regulations thereunder), in the aggregate, equals three (3) times the Participant's base amount (within the meaning of Section 280G(b)(3) of the Code), minus one dollar (\$1.00). Provided, however, that the preceding sentence will not be applicable and the Participant's Payments will not be reduced under this provision if the Accounting Firm determines that, on an after-tax basis, the Participant would retain a greater amount of compensation following payment of the Excise Tax on the unreduced amount of any Payments than the amount of compensation retained following reduction of the Payments as required under the preceding sentence.

(ii) All determinations required to be made under this Section 9, including whether and when a Payment is subject to Section 4999 and the assumptions to be utilized in arriving at such determination and in determining an appropriate Payment Reduction, shall be made by an independent public accounting firm with a national reputation in the United States that is selected by the Company (the Accounting Firm) which shall provide detailed support and calculations both to the Participant and to the Company within fifteen (15) business days after the receipt of notice from the Company that there will be a Payment that the party giving notice believes may be subject to the Excise Tax. All fees and expenses of the Accounting Firm shall be borne solely by the Company. Any determination by the Accounting Firm will be binding upon the Company and the Participant in determining whether a Payment Reduction is required and the amount thereof, in the absence of material mathematical or legal error.

(iii) If, as a result of any uncertainty in the application of Section 4999 at the time of the initial determination by the Accounting Firm under clause (i) above, the Accounting Firm subsequently determines that (A) a Payment Reduction should have been made and was not, or a larger Payment Reduction should have been made (an Overpayment), any such Overpayment, to the extent actually paid or provided to the Participant, will be repaid by the Participant to the Company in full within thirty (30) days after the Participant receives notice of the Accounting Firm's determination; *provided, however*, that the amount of the Overpayment to be repaid by the Participant to the Company will be reduced to the extent that the Accounting Firm determines that any portion of the Overpayment to be repaid will not be offset by a corresponding reduction in any applicable Excise Tax by reason of such repayment of the Overpayment, or (B) a Payment Reduction was made and should not have been made, or a smaller Payment Reduction should have been made (an Underpayment), any such Underpayment will be due and payable by the Company to the Participant within thirty (30) days after the Company receives notice of the Accounting Firm's determination. Notwithstanding

the foregoing, any subsequent determination by the Accounting Firm of an Overpayment or Underpayment in accordance with this clause (iii) must be made within seventy-five (75) days after the Accounting Firm's initial determination under clause (i) above.

10. Internal Revenue Code Section 409A

Unless otherwise specifically determined by the Board, other provisions of the Plan notwithstanding, the terms of any Award, including any authority of the Company and rights of a Participant with respect to the Award, shall be limited to those terms permitted under Section 409A of the Code and any regulations promulgated thereunder, including any successor provisions and regulations, and including any applicable guidance or pronouncement of the Department of the Treasury and Internal Revenue Service (collectively, Code Section 409A), and any terms not permitted under Code Section 409A shall be automatically modified and limited to the extent necessary to conform with Code Section 409A; provided, that for purposes of the foregoing, references to a term or event (including any authority or right of the Company or a Participant) being permitted under Code Section 409A mean that the term or event will not cause the Award to be treated as subject to Code Section 409A.

11. Adjustment Upon Changes in Ordinary Shares

(a) Subject to any required action by the shareholders of FDMP, in the event of any increase or decrease in the number of issued Ordinary Shares resulting from a subdivision or consolidation of Ordinary Shares or the payment of a share dividend (but only on the Ordinary Shares), or any other increase or decrease in the number of such shares effected by FDMP without receipt or payment of consideration, (i) the Board shall proportionally adjust the maximum aggregate number of Ordinary Shares with respect to which the Board may grant Awards, including the maximum aggregate which may be granted to any individual and (ii) the Board shall proportionally adjust the number of Ordinary Shares subject to each outstanding Option and the Exercise Price per Ordinary Share of each such Option.

(b) Subject to any required action by the shareholders of FDMP, in the event that FDMP shall be the surviving company in any merger or consolidation (except a merger or consolidation as a result of which the holders of Ordinary Shares receive securities of another corporation), each Option outstanding on the date of such merger or consolidation shall pertain to and apply to the securities which a holder of the number of Ordinary Shares subject to such Option would have received in such merger or consolidation.

(c) In the event of a dissolution or liquidation of FDMP, a sale of all or substantially all of FDMP's assets, a merger or consolidation involving FDMP in which FDMP is not the surviving company, a merger or consolidation involving FDMP in which FDMP is the surviving company but the holders of Ordinary Shares receive securities of another company or corporation and/or other property, including cash, or any other similar transaction, the Board shall have the power to:

(i) cancel, effective immediately prior to the occurrence of such event, each Option outstanding immediately prior to such event (whether or not then vested or exercisable), and, in full consideration of such cancellation, pay to the Participant to whom such Option was granted an amount in cash, for each Ordinary Share subject to such Option, equal to the excess of (A) the value, as determined by the Board in good faith, of the property (including cash) received by the holder of an Ordinary Share as a result of such event over (B) the Exercise Price of such Option; or

(ii) permit Participants to exercise their Options and participate in such transaction on a basis no less favorable than that afforded other owners of Ordinary Shares.

(d) Except as expressly provided in the Plan, no Participant shall have any rights by reason of any subdivision or consolidation of any class of shares, the payment of any dividend, any increase or decrease in the number of shares of any class or any dissolution, liquidation, merger or consolidation of FDMP or any other company or corporation. Except as expressly provided in the Plan, no issue by FDMP of shares of any class, or securities convertible into shares of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number of Ordinary Shares which may be subject to Options pursuant to the Plan or which are subject to an Option or the exercise price of any Option. In the event of any change in the capitalization of FDMP or corporate change other than those specifically referred to herein, the Board will make such adjustments in the number and class of shares which may be granted under the Plan or which are subject to Options outstanding on the date on which such change occurs and in the per share exercise price of each such Option as the Board may consider necessary or appropriate.

12. Securities Matters

FDMP shall be under no obligation to effect the registration pursuant to the Securities Act of 1933, as amended, of any Ordinary Shares to be issued hereunder or to effect similar compliance under any state laws or any laws of the Cayman Islands. Notwithstanding anything herein to the contrary, FDMP shall not be obligated to cause to be issued or delivered any certificates evidencing Ordinary Shares pursuant to the Plan unless and until FDMP is advised by its counsel that the issuance and delivery of such certificates is in compliance with all applicable laws, regulations of governmental authority and the requirements of any securities exchange on which Ordinary Shares are traded. The Board may require, as a condition of the issue and delivery of certificates evidencing Ordinary Shares pursuant to the terms hereof, that the recipient of such shares make

such covenants, agreements and representations, and that such certificates bear such legends, as the Board deems necessary or desirable.

Table of Contents

13. Rights as a Shareholder

No person shall have any rights as a shareholder with respect to any Ordinary Shares covered by or relating to any Option granted pursuant to the Plan until the date of issue of such Ordinary Shares which shall be the date the Ordinary Shares are recorded as issued on the register of members of FDMP. Except as otherwise expressly provided in Section 11 hereof, no adjustment to any Option shall be made for dividends or other rights for which the record date occurs prior to the date of issue of such Ordinary Shares.

14. No Special Rights: No Right to Option

- (a) Nothing contained in the Plan or any Award shall confer upon any Participant any right with respect to the continuation of his or her employment or service with the Company or a Substantial Subsidiary, or his or her membership on the Board of Directors of FDMP or interfere in any way with the right of the Board, the Company or the holders of the Ordinary Shares at any time to terminate such employment or such membership or to increase or decrease the compensation of the Participant from the rate in effect at the time of the grant of an Award.
- (b) No person shall have any claim or right to receive an Award hereunder. The Board's granting of an Award to a Participant at any time shall neither require the Board to grant an Award to such Participant or any other Participant or other person at any time nor preclude the Board from making subsequent grants to such Participant or any other Participant or other person.

15. Withholding Taxes

The Company shall be entitled, if the Board deems it necessary or desirable, to withhold (or secure payment from the Participant in lieu of withholding) the amount of any withholding or other tax required by law to be withheld or paid by the Company with respect to any amount payable and/or shares issuable under such Participant's Award, or with respect to any income recognized upon a disqualifying disposition of shares received pursuant to the exercise of an ISO, and the Company may defer payment or issuance of the cash or shares upon exercise or vesting of an Award unless indemnified to its satisfaction against any liability for any such tax. The amount of such withholding or tax payment shall be determined by the Board and shall be payable by the Participant at such time as the Board determines in accordance with this Section. The Participant shall have the right to elect to meet his or her withholding requirement (i) by having withheld from such Award at the appropriate time that number of Ordinary Shares, rounded down to the next whole share, whose Fair Market Value is equal to the amount of withholding taxes due, (ii) by direct payment to the Company in cash of the amount of any taxes required to be withheld with respect to such Award or (iii) by a combination of shares and cash.

16. Termination and Amendment of the Plan

- (a) The right to grant Awards under the Plan will terminate on the tenth anniversary of the Effective Date. The Board of Directors of FDMP may at any time suspend or terminate the Plan or revise or amend it in any respect whatsoever, provided that no such action will, without the consent of a Participant, adversely affect a Participant's rights under previously granted Options.
- (b) Notwithstanding the foregoing, upon the termination of the Plan, each Option outstanding at the time of such termination, if any, shall expire and be cancelled and, in consideration therefor, the Participant to whom each such Option was granted shall be entitled to a payment in cash, equal to the product of (i) the excess, if any, of (A) the Fair Market Value of an Ordinary Share as of the date of such termination over (B) the per share exercise price of the Option and (ii) the number of shares subject to the Option on the date of such termination. Each such Option the per share exercise price of which equals or exceeds the Fair Market Value of an Ordinary Share as of the date of such termination shall automatically expire and be cancelled on such date without any payment therefor.
- (c) Notwithstanding any provision herein to the contrary, the repricing of Options is prohibited without prior approval of the Company's shareholders. For this purpose, a repricing means any of the following (or any other action that has the same effect as any of the following): (i) changing the terms of an Option to lower its Exercise Price; (ii) any other action that is treated as a repricing under generally accepted accounting principles; and (iii) repurchasing for cash or canceling an Option at a time when its Exercise Price is greater than the Fair Market Value of the underlying Ordinary Shares in exchange for another Award, unless the cancellation and exchange occurs in connection with a change in capitalization or similar change under Section 11 above. Such cancellation and exchange as described in clause (iii) of the preceding sentence would be considered a repricing regardless of whether it is treated as a repricing under generally accepted accounting principles and regardless of whether it is voluntary on the part of the Participant.

17. Transfers Upon Death

Upon the death of a Participant, outstanding Awards granted to such Participant may be exercised only by the executors or administrators of the Participant's estate or by any person or persons who shall have acquired such right to exercise by will or by the

laws of descent and distribution. No Transfer by will or the laws of descent and distribution of any Award or the right to exercise any Option shall be effective to bind the Company unless the Board shall have been furnished with (a) written notice thereof and with a copy of the will and/or such evidence as the Board may deem necessary to establish the validity of the Transfer and (b) an agreement by the Transferee to comply with all the terms and conditions of the Award and the Plan that are or would have been applicable to the Participant and to be bound by the acknowledgements made by the Participant in connection with the grant of the Award.

Except as provided in this Section 17, no Option under the Plan shall be Transferable.

18. No Obligation to Exercise

The grant to a Participant of an Option shall impose no obligation upon such Participant to exercise such Option.

19. Expenses and Receipts

The expenses of the Plan shall be paid by the Company. Any proceeds received by the Company in connection with any Award will be used for general corporate purposes.

20. Failure to Comply

In addition to the remedies of the Company elsewhere provided for herein, failure by a Participant to comply with any of the terms and conditions of the Plan or the agreement executed by such Participant evidencing an Award, unless such failure is remedied by such Participant within ten (10) days after having been notified of such failure by the Board, shall be grounds for the cancellation and forfeiture of such Award, in whole or in part, as the Board, in its absolute discretion, may determine.

21. Applicable Law

The Plan will be administered in accordance with the laws of the State of New York, without reference to its principles of conflicts of law.

22. Foreign Qualified Awards

Awards under the Plan may be granted to such employees of the Company and its Substantial Subsidiaries who are residing in foreign jurisdictions as the Board in its sole discretion may determine from time to time. The Board may adopt such supplements to the Plan as may be necessary or appropriate to comply with the applicable laws of such foreign jurisdictions and to afford Participants favorable treatment under such laws; provided, however, that no Award shall be granted under any such supplement with terms or conditions inconsistent with the provision set forth in the Plan.

23. Adjustment of Performance Goals and Targets

Notwithstanding any provision of the Plan to the contrary, the Board, upon recommendation and approval of the Committee, shall have the authority to adjust any Performance Goal, performance target or other performance-based criteria established with respect to any Award under the Plan if circumstances occur (including, but not limited to, unusual or nonrecurring events, changes in tax laws or accounting principles or practices or changed business or economic conditions) that cause any such Performance Goal, performance target or performance-based criteria to be inappropriate in the judgment of the Board; provided, that with respect to any Award that is intended to qualify for the performance-based compensation exception under Section 162(m) of the Code and the regulations thereunder, any adjustment by the Board or the Committee shall be consistent with the requirements of Section 162(m) and the regulations thereunder.

24. Legality of Issuance

Notwithstanding any provision of this Plan or any applicable Award agreement to the contrary, the Board shall have the sole discretion to impose such conditions, restrictions and limitations (including suspending exercises of Options and the tolling of any applicable exercise period during such suspension) on the issuance of Ordinary Shares with respect to any Award unless and until the Board determines that such issuance complies with (i) any applicable registration requirements under the Securities Act of 1933, as amended (or the Board has determined that an exemption therefrom is available), (ii) any applicable listing requirement of any stock exchange on which the Ordinary Shares is listed, (iii) any applicable Company policy or administrative rules, and (iv) any other applicable provision of state, federal or foreign law, including foreign securities laws where applicable.

25. Restrictions on Transfer

Regardless of whether the offering and sale of Ordinary Shares under the Plan have been registered under the Securities Act or have been registered or qualified under the securities laws of any state, the Company may impose restrictions upon the sale, pledge, or other transfer of such Ordinary Shares (including the placement of appropriate legends on stock certificates) if, in the judgment of the Company and its counsel, such restrictions are necessary or desirable to achieve compliance with the provisions of the Securities Act, the securities laws of any state, the United States or any other applicable foreign law.

26. Further Assurances

As a condition to receipt of any Award under the Plan, a Participant shall agree, upon demand of the Company, to do all acts and execute, deliver and perform all additional documents, instruments and agreements which may be reasonably required by the Company, to implement the provisions and purposes of the Plan.

27. Return of or Reduction in the Award

In the event that it is determined by the Committee and ratified by the Board that distribution, payment or issuance of an Award was, in whole or in part, based on incorrect data (including financial results which pursuant to applicable laws, rules, regulations or applicable accounting principles are required to be restated), the Participant shall return to the Company the overpayment amount, where the overpayment amount shall be equal to the Award distributed or otherwise paid to the Participant, reduced by the Award the Participant would have received had the correct data been used in the calculation of the Award. The determinations made by the Committee and ratified by the Board pursuant to this Section shall be conclusive and binding on the Participant unless reached in an arbitrary and capricious manner. The Company shall have the right to offset any amounts due it under this provision from any amounts due Participant from any other incentive compensation or equity award plans in which Participant participates.

28. Effective Date of Plan

The Plan shall become effective upon approval of the Plan by the shareholders of FDMP at the Company's Annual Meeting in 2011.
