WELLS FARGO ADVANTAGE GLOBAL DIVIDEND OPPORTUNITY FUND

NOTES TO PORTFOLIO OF INVESTMENTS July 31, 2011 (unaudited)

The following notes are to be read in conjunction with the Portfolio of Investments for Wells Fargo Advantage Global Dividend Opportunity Fund (the Fund).

Securities valuation

Investments in securities are valued each business day as of the close of regular trading on the New York Stock Exchange, which is usually 4:00 p.m. (Eastern Time). Securities which are traded on a national or foreign securities exchange are valued at the last reported sales price, except that securities listed on The Nasdaq Stock Market, Inc. (Nasdaq) are valued at the Nasdaq Official Closing Price (NOCP), and if no NOCP is available, then at the last reported sales price. If no sales price is shown on the Nasdaq, the bid price will be used. In the absence of any sale of securities listed on the Nasdaq, and in the case of other securities, including U.S. Government obligations, but excluding debt securities maturing in 60 days or less, the price will be deemed stale and the valuations will be determined in accordance with the Fund's Fair Value Procedures.

Securities denominated in foreign currencies are translated into U.S. dollars using the closing rates of exchange in effect on the day of valuation.

Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the foreign investments are traded but before the close of the New York Stock Exchange. If such trading or events are expected to materially affect the value of the investments, then those investments are fair valued following procedures approved by the Board of Trustees. These procedures take into account multiple factors including movements in U.S. securities markets after foreign exchanges close. Depending on market activity, such fair valuations may be frequent. Such fair value pricing may result in NAVs that are higher or lower than NAVs based on the closing price or latest quoted bid price.

Certain fixed income securities with maturities exceeding 60 days are valued based on available market quotations received from an independent pricing service approved by the Board of Trustees which may utilize both transaction data and market information such as yield, prices of securities of comparable quality, coupon rate, maturity, type of issue, trading characteristics and other market data. If valuations are not available from the pricing service or values received are deemed not representative of market value, values will be obtained from a third party broker-dealer or determined based on the Fund's Fair Value Procedures.

Debt securities of sufficient credit quality with original maturities of 60 days or less generally are valued at amortized cost which approximates fair value. The amortized cost method involves valuing a security at its cost, plus accretion of discount or minus amortization of premium over the period until maturity.

Investments in open-end mutual funds and non-registered investment companies are generally valued at net asset value.

Certain investments which are not valued using any of the methods discussed above, are valued at their fair value, as determined by procedures established in good faith and approved by the Board of Trustees.

The valuation techniques used by the Fund to measure fair value are consistent with the market approach, income approach and/or cost approach, where applicable, for each security type.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. Assets, including investment securities, and liabilities denominated in foreign currency are translated into U.S. dollars at the prevailing rates of exchange at the date of valuation. Purchases and sales of securities, and income and expenses are translated at the prevailing rate of exchange on the respective dates of such transactions. Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting in changes in exchange rates.

The changes in net assets arising from changes in exchange rates and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are recorded with net realized and unrealized gains or losses from investments. Gains and

losses from certain foreign currency transactions are treated as ordinary income for U.S. federal income tax purposes.

Options

The Fund may be subject to equity price risk in the normal course of pursuing its investment objectives. The Fund may write covered put or call options. When the Fund writes an option, an amount equal to the premium received is recorded as a liability and is subsequently adjusted to the current market value of the written option. Premiums received from written options, which expire unexercised, are recognized as realized gains from investments on the expiration date. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is treated as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in calculating the realized gain or loss on the sale. If a put option is exercised, the premium reduces the cost of the security purchased. The Fund, as a writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

The Fund may also purchase call or put options. The premium is included in the Statement of Assets and Liabilities as an investment which is subsequently adjusted to the current market value of the option. Premiums paid for purchased options which expire are recognized as realized losses from investments on the expiration date. Premiums paid for purchased options which are exercised or closed are added to the amount paid or offset against the proceeds on the underlying security to determine the realized gain or loss. The risk of loss associated with purchased options is limited to the premium paid.

Options traded on an exchange are regulated and terms of the options are standardized. Options traded over the counter expose the Fund to counterparty risk in the event the counterparty does not perform. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

Fair valuation measurements

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of July 31, 2011, the inputs used in valuing the Fund's assets, which are carried at fair value, were as follows:

	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Investments in Securities				
Equity securities				
<i>Common stocks</i>	\$ 328,616,816	\$ 656,034	\$ 0	\$ 329,272,850
<i>Preferred stocks</i>	63,065,951	26,241,164	0	89,307,115
<i>Investment companies</i>	3,765,000	0	0	3,765,000
Short-term investments				
<i>Investment companies</i>	30,991,936	0	0	30,991,936
	\$ 426,439,703	\$ 26,897,198	\$ 0	\$ 453,336,901

As of July 31, 2011, the inputs used in valuing the Fund's other financial instruments, which are carried at fair value, were as follows:

	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Other financial instruments				
Written options	\$ 0	\$ (549,319)	\$ 0	\$ (549,319)

Edgar Filing: WELLS FARGO ADVANTAGE GLOBAL DIVIDEND OPPORTUNITY FUND - Form N-Q

Transfers in and transfers out are recognized at the end of the reporting period. For the nine months ended July 31, 2011, the Fund did not have any significant transfers into/out of Level 1 and Level 2.

Derivative transactions

During the nine months ended July 31, 2011, the Fund entered into written options for hedging purposes.

During the nine months ended July 31, 2011, the Fund had written option activities as follows:

	Number of Contracts	Premiums Received
Options outstanding at October 31, 2010	11,446	\$ 1,404,145
Options written	973,320	3,875,660
Options expired	(968,700)	(3,920,387)
Options closed	(7,843)	(499,772)
Options exercised	(404)	(11,716)
 Options outstanding at July 31, 2011	 7,819	 \$ 847,930

Open call options written at July 31, 2011 were as follow for the Fund:

Expiration		Number		Strike	Market	Premiums
Date	Issuer Name	of	Call/Put	Price	Value	Received

ITEM 2. CONTROLS AND PROCEDURES

(a) The President and Treasurer have concluded that the Wells Fargo Advantage Global Dividend Opportunity Fund (the Trust) disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) provide reasonable assurances that material information relating to the Trust is made known to them by the appropriate persons based on their evaluation of these controls and procedures as of a date within 90 days of the filing of this report.

(b) There were no significant changes in the Trust s internal controls over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the registrant s last fiscal quarter that has materially affected or is reasonably likely to materially affect, the registrant s internal control over financial reporting.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
