Lennar Corporation and Subsidiaries

Notes to Condensed Consolidated Financial Statements

(unaudited)

(1) Basis of Presentation

Basis of Consolidation

The accompanying condensed consolidated financial statements include the accounts of Lennar Corporation and all subsidiaries, partnerships and other entities in which Lennar Corporation has a controlling interest and VIEs (see Note 16) in which Lennar Corporation is deemed to be the primary beneficiary (the Company). The Company's investments in both unconsolidated entities in which a significant, but less than controlling, interest is held and in VIEs in which the Company is not deemed to be the primary beneficiary, are accounted for by the equity method. All intercompany transactions and balances have been eliminated in consolidation. The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended November 30, 2010. In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for the fair presentation of the accompanying condensed consolidated financial statements have been made.

The Company has historically experienced, and expects to continue to experience, variability in quarterly results. The condensed consolidated statements of operations for the three and nine months ended August 31, 2011 are not necessarily indicative of the results to be expected for the full year.

Reclassifications

Certain prior year amounts in the condensed consolidated financial statements have been reclassified to conform with the 2011 presentation.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

(2) Operating and Reporting Segments

The Company's operating segments are aggregated into reportable segments, based primarily upon similar economic characteristics, geography and product type. The Company's reportable segments consist of:

- (1) Homebuilding East
- (2) Homebuilding Central
- (3) Homebuilding West
- (4) Homebuilding Houston
- (5) Lennar Financial Services

(6) Rialto Investments

Information about homebuilding activities in states which are not economically similar to other states in the same geographic area is grouped under Homebuilding Other, which is not considered a reportable segment.

Evaluation of segment performance is based primarily on operating earnings (loss) before income taxes. Operations of the Company's homebuilding segments primarily include the construction and sale of single-family attached and detached homes, as well as the purchase, development and sale of residential land directly and through the Company's unconsolidated entities. Operating earnings (loss) for the homebuilding segments consist

of revenues generated from the sales of homes and land, equity in earnings (loss) from unconsolidated entities and other income (expense), net, less the cost of homes sold and land sold, selling, general and administrative expenses and other interest expense of the segment. The Company's reportable homebuilding segments and all other homebuilding operations not required to be reported separately have operations located in:

East: Florida, Maryland, New Jersey and Virginia

Central: Arizona, Colorado and Texas ⁽¹⁾

West: California and Nevada

Houston: Houston, Texas

Other: Georgia, Illinois, Minnesota, North Carolina and South Carolina

(1) Texas in the Central reportable segment excludes Houston, Texas, which is its own reportable segment.

Operations of the Lennar Financial Services segment include primarily mortgage financing, title insurance and closing services for both buyers of the Company's homes and others. Substantially all of the loans the Lennar Financial Services segment originates are sold within a short period in the secondary mortgage market on a servicing released, non-recourse basis. After the loans are sold, the Company retains potential liability for possible claims by purchasers that it breached certain limited industry-standard representations and warranties in the loan sale agreements. Lennar Financial Services' operating earnings consist of revenues generated primarily from mortgage financing, title insurance and closing services, less the cost of such services and certain selling, general and administrative expenses incurred by the segment. The Lennar Financial Services segment operates generally in the same states as the Company's homebuilding operations, as well as in other states.

Operations of the Rialto Investments (Rialto) segment include sourcing, underwriting, pricing, managing and ultimately monetizing real estate and real estate related assets, as well as providing similar services to others in markets across the country. Rialto's operating earnings (loss) consists of revenues generated primarily from interest income associated with portfolios of real estate loans acquired in partnership with the FDIC and other portfolios of real estate loans and assets acquired, fees for sub-advisory services, other income, net, consisting primarily of gains upon foreclosure of real estate owned (REO) and gains on sale of REO, and equity in earnings (loss) from unconsolidated entities, less the costs incurred by the segment for managing portfolios, management of investments for others, due diligence expenses related to both completed and abandoned transactions, and other general and administrative expenses.

Each reportable segment follows the same accounting policies described in Note 1 Summary of Significant Accounting Policies to the consolidated financial statements in the Company's 2010 Annual Report on Form 10-K. Operational results of each segment are not necessarily indicative of the results that would have occurred had the segment been an independent, stand-alone entity during the periods presented.

Financial information relating to the Company's operations was as follows:

(In thousands)	August 31, 2011	November 30, 2010
Assets:

	\$ 13,486	21,690	40,104	37,877

- (1) For the nine months ended August 31, 2011, the Company recorded a \$0.1 million valuation adjustment related to a \$29.8 million investment of a Lennar Homebuilding unconsolidated entity, which was the result of a linked transaction. The linked transaction resulted in a pre-tax gain of \$38.6 million related to a debt extinguishment due to the Company's purchase of the Lennar Homebuilding unconsolidated entity's debt at a discount and a \$38.7 million valuation adjustment of the Lennar Homebuilding unconsolidated entity's inventory upon consolidation. The net pre-tax loss of \$0.1 million was included in Lennar Homebuilding other income, net, for the nine months ended August 31, 2011.

The Company recorded higher valuation adjustments during the nine months ended August 31, 2011 compared to the nine months ended August 31, 2010, as a result of current changes in strategy and other developments regarding certain of the Company's joint ventures. In addition, demand trends in many communities in which the Company is selling homes, particularly in older communities, have remained depressed

and/or decreased despite improved affordability resulting from lower home prices and historically low interest rates. If these trends continue and there is further deterioration in the housing market, it may cause additional pricing pressures and slower absorption. This may potentially lead to additional valuation adjustments in the future. In addition, market conditions may cause the Company to re-evaluate its strategy regarding certain assets that could result in further valuation adjustments and/or additional write-offs of option deposits and pre-acquisition costs due to abandonment of those options contracts.

(3) Lennar Homebuilding Investments in Unconsolidated Entities

Summarized condensed financial information on a combined 100% basis related to Lennar Homebuilding's unconsolidated entities that are accounted for by the equity method was as follows:

Statements of Operations

(In thousands)	Three Months Ended August 31,		Nine Months Ended August 31,	
	2011	2010	2011	2010
Revenues	\$ 104,690	84,327	255,004	183,850
Costs and expenses	108,599	152,322	261,073	300,322
Other income			123,007	
Net earnings (loss) of unconsolidated entities	\$ (3,909)	(67,995)	116,938	(116,472)
Lennar Homebuilding equity in earnings (loss) from unconsolidated entities (1)	\$ (4,552)	986	6,526	(9,310)

- (1) For the nine months ended August 31, 2011, the Company's share of net earnings recognized includes a \$15.4 million gain related to the Company's share of a \$123.0 million gain on debt extinguishment at a Lennar Homebuilding unconsolidated entity, partially offset by \$5.2 million of the Company's share of valuation adjustments related to assets of Lennar Homebuilding's unconsolidated entities. For the three and nine months ended August 31, 2010, the Company recorded a net pre-tax gain of \$7.7 million from a transaction related to one of its unconsolidated entities.

Balance Sheets

(In thousands)	August 31, 2011	November 30, 2010
Assets:		
Cash and cash equivalents	\$ 70,099	82,573
Inventories	3,168,938	3,371,435
Other assets	305,238	307,244
	\$ 3,544,275	3,761,252
Liabilities and equity:		
Account payable and other liabilities	\$ 245,345	327,824
Debt	1,019,427	1,284,818
Equity	2,279,503	2,148,610
	\$ 3,544,275	3,761,252

During the first quarter of 2011, a Lennar Homebuilding unconsolidated entity was restructured. As part of the restructuring, the development management agreement (the Agreement) between the Company and the unconsolidated entity was terminated and a general release agreement was executed whereby the Company was released from any and all obligations, except any future potential third-party claims, associated with

Edgar Filing: LENNAR CORP /NEW/ - Form 10-Q

the Agreement. As a result of the restructuring, the termination of the Agreement and the execution of the general release agreement, the Company recognized \$10 million of deferred management fees related to management services previously performed by the Company prior to November 30, 2010. The Company is not providing any other services to the unconsolidated entity associated with the deferred management fees recognized.

In 2007, the Company sold a portfolio of land to a strategic land investment venture with Morgan Stanley Estate Fund II, L.P., an affiliate of Morgan Stanley & Co., Inc., in which the Company has a 20% ownership interest and 50% voting rights. Due to the Company's continuing involvement, the transaction did not qualify as a sale by the Company under GAAP; thus, the inventory has remained on the Company's condensed consolidated balance sheet in consolidated inventory not owned. As of August 31, 2011 and November 30, 2010, the portfolio of land (including land development costs) of \$378.5 million and \$424.5 million, respectively, is also reflected as inventory in the summarized condensed financial information related to Lennar Homebuilding's unconsolidated entities.

The Lennar Homebuilding unconsolidated entities in which the Company has investments usually finance their activities with a combination of partner equity and debt financing. In some instances, the Company and its partners have guaranteed debt of certain unconsolidated entities.

The summary of the Company's net recourse exposure related to the Lennar Homebuilding unconsolidated entities in which the Company has investments was as follows:

(In thousands)	August 31, 2011	November 30, 2010
Several recourse debt - repayment	\$ 62,635	33,399
Several recourse debt - maintenance	2,230	29,454
Joint and several recourse debt - repayment	48,057	48,406
Joint and several recourse debt - maintenance	43,466	61,591
The Company's maximum recourse exposure	156,388	172,850
Less: joint and several reimbursement agreements with the Company's partners	(57,053)	(58,878)
The Company's net recourse exposure	\$ 99,335	113,972

During the nine months ended August 31, 2011, the Company's maximum recourse exposure related to indebtedness of Lennar Homebuilding unconsolidated entities decreased by \$52.7 million as a result of \$17.7 million paid by the Company primarily through capital contributions to unconsolidated entities and \$35.0 million primarily related to the restructuring of a guarantee, the consolidation of a joint venture in the first quarter of 2011 and the joint ventures selling inventory, which was partially offset by a \$36.3 million increase in the maximum recourse exposure for consideration given in the form of a several guarantee in connection with the favorable debt maturity extension until 2018 and principal reduction at Heritage Fields El Toro, one of Lennar Homebuilding's unconsolidated entities as discussed in the note to the following table.

As of August 31, 2011, the Company had no obligation guarantees accrued. At November 30, 2010, the Company had \$10.2 million of obligation guarantees accrued as a liability on its condensed consolidated balance sheet. During the nine months ended August 31, 2011, the liability was reduced by \$10.2 million, of which \$7.6 million were cash payments related to obligation guarantees previously recorded and \$2.6 million related to a change in estimate of an obligation guarantee. The obligation guarantees are estimated based on current facts and circumstances and any unexpected changes may lead the Company to incur additional obligation guarantees in the future.

The recourse debt exposure in the previous table represents the Company's maximum recourse exposure to loss from guarantees and does not take into account the underlying value of the collateral or the other assets of the borrowers that are available to repay the debt or to reimburse the Company for any payments on its guarantees. The Lennar Homebuilding unconsolidated entities that have recourse debt have a significant amount of assets and equity. The summarized balance sheets of Lennar Homebuilding's unconsolidated entities with recourse debt were as follows:

(In thousands)	August 31, 2011	November 30, 2010
Assets (1)	\$ 2,159,248	990,028
Liabilities (1)	\$ 876,034	487,606
Equity (1)	\$ 1,283,214	502,422

- (1) In the first quarter of 2011, Heritage Fields El Toro, one of Lennar Homebuilding's unconsolidated entities, extended the maturity of its \$573.5 million debt until 2018, which at the time was without recourse to Lennar. In exchange for the extension and partial debt extinguishment, which reduced the outstanding debt balance to \$481.0 million in the first quarter of 2011, all the partners agreed to provide a limited several repayment guarantee on the outstanding debt, which resulted in a \$36.3 million increase to the Company's maximum recourse exposure and a subsequent increase to assets, liabilities and equity of Lennar Homebuilding unconsolidated entities that have recourse debt. In addition, the Company recognized a \$15.4 million gain for its share of the \$123.0 million gain on debt extinguishment in the first quarter of 2011.

In addition, in most instances in which the Company has guaranteed debt of a Lennar Homebuilding unconsolidated entity, the Company's partners have also guaranteed that debt and are required to contribute their share of the guarantee payments. Some of the Company's guarantees are repayment guarantees and some are maintenance guarantees. In a repayment guarantee, the Company and its venture partners guarantee repayment of a portion or all of the debt in the event of default before the lender would have to exercise its rights against the collateral. In the event of default, if the Company's venture partner does not have adequate financial resources to meet its obligations under the reimbursement agreement, the Company may be liable for more than its proportionate share, up to its maximum recourse exposure, which is the full amount covered by the joint and several guarantee. The maintenance guarantees only apply if the value of the collateral (generally land and improvements) is less than a specified percentage of the loan balance. If the Company is required to make a payment under a maintenance guarantee to bring the value of the collateral above the specified percentage of the loan balance, the payment would constitute a capital contribution or loan to the Lennar Homebuilding unconsolidated entity and increase the Company's investment in the unconsolidated entity and its share of any funds the unconsolidated entity distributes.

In connection with many of the loans to Lennar Homebuilding unconsolidated entities, the Company and its joint venture partners (or entities related to them) have been required to give guarantees of completion to the lenders. Those completion guarantees may require that the guarantors complete the construction of the improvements for which the financing was obtained. If the construction is to be done in phases, the guarantee generally is limited to completing only the phases as to which construction has already commenced and for which loan proceeds were used.

During the three months ended August 31, 2011, there were: (1) no payments under the Company's maintenance guarantees and (2) other loan paydowns of \$3.1 million, a portion of which related to amounts paid under the Company's repayment guarantees. During the three months ended August 31, 2010, there were: (1) payments of \$3.0 million under the Company's maintenance guarantees, (2) at the election of the Company, a loan paydown of \$50.3 million, representing both the Company's and its partner's share, in return for a 4-year loan extension and the rights to obtain preferred returns and priority distributions at one of Lennar Homebuilding's unconsolidated entities, and (3) a \$19.3 million payment to extinguish debt at a discount and buyout the partner of one of Lennar Homebuilding's unconsolidated entities that resulted in a net pre-tax gain of \$7.7 million. In addition, during the three months ended August 31, 2010, there were other loan paydowns of \$0.9 million. During the three months ended August 31, 2011 and 2010, there were no payments under completion guarantees.

During the nine months ended August 31, 2011, there were: (1) payments of \$1.7 million under the Company's maintenance guarantees and (2) other loan paydowns of \$16.1 million, a portion of which related to amounts paid under the Company's repayment guarantees. During the nine months ended August 31, 2010, there were: (1) payments of \$8.0 million under the Company's maintenance guarantees, (2) at the election of the Company, a loan paydown of \$50.3 million, representing both the Company's and its partner's share, in return for a 4-year loan extension and the rights to obtain preferred returns and priority distributions at one of Lennar Homebuilding's unconsolidated entities, and (3) a \$19.3 million payment to extinguish debt at a discount and buyout the partner of one of Lennar Homebuilding's unconsolidated entities that resulted in a net pre-tax gain of \$7.7 million. In addition, during the nine months ended August 31, 2010, there were other loan paydowns of \$27.9 million, a portion of which related to amounts paid under the Company's repayment guarantees. During the nine months ended August 31, 2011 and 2010, there were no payments under completion guarantees.

As of August 31, 2011, the fair values of the maintenance guarantees, repayment guarantees and completion guarantees were not material. The Company believes that as of August 31, 2011, in the event it becomes legally obligated to perform under a guarantee of the obligation of a Lennar Homebuilding unconsolidated entity due to a triggering event under a guarantee, most of the time the collateral should be sufficient to repay at least a significant portion of the obligation or the Company and its partners would contribute additional capital into the venture. In certain instances, the Company has placed performance letters of credit and surety bonds with municipalities for its joint ventures (see Note 12).

The total debt of the Lennar Homebuilding unconsolidated entities in which the Company has investments was as follows:

(In thousands)	August 31, 2011	November 30, 2010
The Company's net recourse exposure	\$ 99,335	113,972
Reimbursement agreements from partners	57,053	58,878
The Company's maximum recourse exposure	\$ 156,388	172,850
Non-recourse bank debt and other debt (partner's share of several recourse)	\$ 152,516	79,921
Non-recourse land seller debt or other debt	26,400	58,604
Non-recourse debt with completion guarantees	485,994	600,297
Non-recourse debt without completion guarantees	198,129	373,146
Non-recourse debt to the Company	863,039	1,111,968
Total debt	\$ 1,019,427	1,284,818
The Company's maximum recourse exposure as a % of total JV debt	15%	13%

Subsequent to August 31, 2011, the Company entered into a transaction in which it received a net asset distribution from Platinum Triangle Partners, a Lennar Homebuilding unconsolidated entity, resulting in an immaterial gain. Upon the distribution of the net assets, the partners repaid the respective debt amounts assumed. As a result, the Company's maximum recourse exposure related to indebtedness of its Lennar Homebuilding unconsolidated entities decreased.

(4) Equity and Comprehensive Income

The following table reflects the changes in equity attributable to both Lennar Corporation and the noncontrolling interests of its consolidated subsidiaries in which it has less than a 100% ownership interest for the nine months ended August 31, 2011 and 2010:

(In thousands)	Stockholders Equity						
	Total Equity	Class A Common Stock	Class B Common Stock	Additional Paid in Capital	Treasury Stock	Retained Earnings	Noncontrolling Interests
Balance at November 30, 2010	\$ 3,194,383	16,701	3,297	2,310,339	(615,496)	894,108	585,434
Net earnings (including net earnings attributable to noncontrolling interests)	87,073					61,921	25,152
Employee stock and directors plans	9,045	39	1	9,034	(29)		
Amortization of restricted stock	13,001			13,001			
Cash dividends	(22,425)					(22,425)	
Receipts related to noncontrolling interests	5,765						5,765
Payments related to noncontrolling interests	(7,087)						(7,087)
Lennar Homebuilding non-cash consolidations	532						532
Balance at August 31, 2011	\$ 3,280,287	16,740	3,298	2,332,374	(615,525)	933,604	609,796

(In thousands)	Stockholders Equity						
	Total Equity	Class A Common Stock	Class B Common Stock	Additional Paid in Capital	Treasury Stock	Retained Earnings	Noncontrolling Interests
Balance at November 30, 2009	\$ 2,588,014	16,515	3,296	2,208,934	(613,690)	828,424	144,535
Net earnings (including net earnings attributable to noncontrolling interests)	77,941					63,231	14,710
Employee stock and directors plans	5,284	16	1	7,073	(1,806)		
Amortization of restricted stock	11,948			11,948			
Cash dividends	(22,179)					(22,179)	
Receipts related to noncontrolling interests	12,039						12,039
Payments related to noncontrolling interests	(3,882)						(3,882)
Rialto Investments non-cash consolidations	397,588						397,588
Non-cash activity related to noncontrolling interests	1,670						1,670
Balance at August 31, 2010	\$ 3,068,423	16,531	3,297	2,227,955	(615,496)	869,476	566,660

Comprehensive income attributable to Lennar for both the three and nine months ended August 31, 2011 and 2010 was the same as net earnings attributable to Lennar. Comprehensive income attributable to noncontrolling interests for both the three and nine months ended August 31, 2011 and 2010 was the same as the net earnings attributable to noncontrolling interests.

The Company has a stock repurchase program which permits the purchase of up to 20 million shares of its outstanding common stock. There were no share repurchases during both the three and nine months ended August 31, 2011 and 2010 under the stock repurchase program. As of August 31, 2011, 6.2 million shares of common stock can be repurchased in the future under the program.

During both the three months and nine months ended August 31, 2011, treasury stock increased by an immaterial amount of common shares in connection with activity related to the Company's equity compensation plans.

(5) Income Taxes

A reduction of the carrying amounts of deferred tax assets by a valuation allowance is required, if based on the available evidence, it is more likely than not that such assets will not be realized. Accordingly, the need to establish valuation allowances for deferred tax assets is assessed periodically based on the more-likely-than-not realization threshold criterion. In the assessment for a valuation allowance, appropriate consideration is given to all positive and negative evidence related to the realization of the deferred tax assets. This assessment considers, among other matters, the nature, frequency and severity of current and cumulative losses, forecasts of future profitability, the duration of statutory carryforward periods, the Company's experience with loss carryforwards not expiring unused and tax planning alternatives.

Based upon an evaluation of all available evidence, during the three and nine months ended August 31, 2011, the Company recorded a reversal of its deferred tax asset valuation allowance of \$5.9 million and \$16.7 million, respectively, primarily due to net earnings generated during the period. At August 31, 2011 and November 30, 2010, the Company's deferred tax asset valuation allowance was \$592.8 million and \$609.5 million, respectively. In future periods, the allowance could be reduced based on sufficient evidence indicating that it is more likely than not that a portion or all of the Company's deferred tax assets will be realized.

At August 31, 2011 and November 30, 2010, the Company had \$49.3 million and \$46.0 million, respectively, of gross unrecognized tax benefits. If the Company were to recognize its gross unrecognized tax benefits, \$29.8 million would affect the Company's effective tax rate.

The Company expects the total amount of unrecognized tax benefits to decrease by \$25.0 million within twelve months as a result of settlements with various taxing authorities and the expiration of certain statutes of limitations.

At August 31, 2011, the Company had \$27.9 million accrued for interest and penalties, of which \$0.6 million and \$5.2 million, respectively, was recorded during the three and nine months ended August 31, 2011. During the nine months ended August 31, 2011, the accrual for interest and penalties was reduced by \$5.5 million, primarily as a result of the settlement of state tax nexus issues. At November 30, 2010, the Company had \$28.2 million accrued for interest and penalties.

During the nine months ended August 31, 2011, the Company's gross unrecognized tax benefits increased by \$12.6 million related to a settlement for certain losses carried back to prior years as well as retroactive changes in certain state tax laws. There was also a decrease to the Company's gross unrecognized tax benefits of \$9.3 million as a result of the settlement of certain state tax nexus issues. This resulted in a net increase of gross unrecognized tax benefits of \$3.3 million and an increase in the Company's effective tax rate from (6.74%) to (1.43%).

The IRS continuously reviews the Company's federal income tax returns and is currently examining the tax returns for fiscal years 2005 through 2010. Certain state taxing authorities are examining various fiscal years. The final outcome of these examinations is not yet determinable. The statute of limitations for the Company's major tax jurisdictions remains open for examination for fiscal year 2005 and subsequent years.

(6) Earnings Per Share

Basic earnings per share is computed by dividing net earnings attributable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company.

Under certain provisions of ASC Topic 260, *Earnings per Share*, all outstanding nonvested shares that contain non-forfeitable rights to dividends or dividend equivalents that participate in undistributed earnings with common stock are considered participating securities and are included in computing earnings per share pursuant to the two-class method. The two class method is an earnings allocation formula that determines earnings per share for each class of common stock and participating securities according to dividends or dividend equivalents and participation rights in undistributed earnings. The Company's restricted common stock (nonvested shares) are considered participating securities.

Basic and diluted earnings per share were calculated as follows:

(In thousands, except per share amounts)	Three Months Ended August 31,		Nine Months Ended August 31,	
	2011	2010	2011	2010
Numerator:				
Net earnings attributable to Lennar	\$ 20,730	30,035	61,921	63,231
Less: distributed earnings allocated to nonvested shares	94	75	288	237
Less: undistributed earnings allocated to nonvested shares	164	235	504	443
Numerator for basic earnings per share	20,472	29,725	61,129	62,551
Plus: interest on 2.00% convertible senior notes due 2020	871	871	2,614	1,123
Plus: undistributed earnings allocated to convertible shares	164		503	
Less: undistributed earnings reallocated to convertible shares	166		508	
Numerator for diluted earnings per share	\$ 21,341	30,596	63,738	63,674
Denominator:				
Denominator for basic earnings per share weighted average common shares outstanding	184,665	183,065	184,480	182,913
Effect of dilutive securities:				
Shared based payments	482	26	620	171
2.00% convertible senior notes due 2020	10,005	10,005	10,005	4,313
Denominator for diluted earnings per share weighted average common shares outstanding	195,152	193,096	195,105	187,397
Basic earnings per share	\$ 0.11	0.16	0.33	0.34
Diluted earnings per share	\$ 0.11	0.16	0.33	0.34

Options to purchase 0.7 million and 5.3 million shares, respectively, of common stock were outstanding and anti-dilutive for the three months ended August 31, 2011 and 2010. Options to purchase 1.2 million and 4.6 million shares, respectively, of common stock were outstanding and anti-dilutive for the nine months ended August 31, 2011 and 2010.

(7) Lennar Financial Services Segment

The assets and liabilities related to the Lennar Financial Services segment were as follows:

(In thousands)	August 31, 2011	November 30, 2010
Assets:		
Cash and cash equivalents	\$ 57,423	110,476
Restricted cash	20,112	21,210

- (1) Receivables, net primarily relate to loans sold to investors for which the Company had not yet been paid as of August 31, 2011 and November 30, 2010, respectively.
- (2) Loans held-for-sale relate to unsold loans carried at fair value.
- (3) Other assets include mortgage loan commitments carried at fair value of \$7.4 million and \$1.4 million, respectively, as of August 31, 2011 and November 30, 2010. Other assets also include forward contracts carried at fair value of \$2.9 million as of November 30, 2010.
- (4) Other liabilities include forward contracts carried at fair value of \$3.2 million as of August 31, 2011.

At August 31, 2011, the Lennar Financial Services segment had a warehouse repurchase facility with a maximum aggregate commitment of \$150 million and an additional uncommitted amount of \$50 million that matures in February 2012. In addition, the Lennar Financial Services segment amended its warehouse repurchase facility that matured in July 2011 by extending its maturity to July 2012 with a maximum aggregate commitment of \$175 million. The maximum aggregate commitment under these facilities totaled \$325 million as of August 31, 2011.

The Lennar Financial Services segment uses these facilities to finance its lending activities until the mortgage loans are sold to investors and expects the facilities to be renewed or replaced with other facilities when they mature. Borrowings under the facilities were \$215.3 million and \$271.6 million, respectively, at August 31, 2011 and November 30, 2010, and were collateralized by mortgage loans and receivables on loans sold to investors but not yet paid for with outstanding principal balances of \$227.0 million and \$286.0 million, respectively, at August 31, 2011 and November 30, 2010. If the facilities are not renewed, the borrowings under the lines of credit will be paid off by selling the mortgage loans held-for-sale to investors and by collecting on receivables on loans sold but not yet paid. Without the facilities, the Lennar Financial Services segment would have to use cash from operations and other funding sources to finance its lending activities.

Substantially all of the loans the Lennar Financial Services segment originates are sold within a short period in the secondary mortgage market on a servicing released, non-recourse basis. After the loans are sold, the Company retains potential liability for possible claims by purchasers that it breached certain limited industry-standard representations and warranties in the loan sale agreement. There has been an increased industry-wide effort by purchasers to defray their losses in an unfavorable economic environment by purporting to have found inaccuracies related to sellers' representations and warranties in particular loan sale agreements. The Company's mortgage operations have established reserves for possible losses associated with mortgage loans previously originated and sold to investors. The Company establishes reserves for such possible losses based upon, among other things, an analysis of repurchase requests received, an estimate of potential repurchase claims not yet received and actual past repurchases and losses through the disposition of affected loans. While the Company believes that it has adequately reserved for known losses and projected repurchase requests, given the volatility in

the mortgage industry and the uncertainty regarding the ultimate resolution of these claims, if either actual repurchases or the losses incurred resolving those repurchases exceed the Company's expectations, additional recourse expense may be incurred. Loan origination liabilities are included in Lennar Financial Services' liabilities in the condensed consolidated balance sheets. The activity in the Company's loan origination liabilities was as follows:

(In thousands)	Three Months Ended August 31,		Nine Months Ended August 31,	
	2011	2010	2011	2010
Loan origination liabilities, beginning of period	\$ 9,951	6,893	9,872	9,518
Provision for losses during the period	118	117	247	285
Adjustments to pre-existing provisions for losses from changes in estimates		882	(50)	714
Payments/settlements (1)	(3,174)	(91)	(3,174)	(2,716)
Loan origination liabilities, end of period	\$ 6,895	7,801	6,895	7,801

(1) Payments/settlements during the three months ended August 31, 2011 include a settlement the Company paid to one of its largest investors, which settled all outstanding and potential future repurchase demands related to originations sold to them prior to 2009. For Lennar Financial Services loans held-for-investment, net, a loan is deemed impaired when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. Interest income is not accrued or recognized on impaired loans unless payment is received. Impaired loans are written-off if and when the loan is no longer secured by collateral. The total unpaid principal balance of the impaired loans as of August 31, 2011 and November 30, 2010 was \$8.7 million and \$10.2 million, respectively. At August 31, 2011, the recorded investment in both the impaired loans and impaired loans with a valuation allowance was \$3.6 million, net of an allowance of \$5.1 million. At November 30, 2010, the recorded investment in both the impaired loans and impaired loans with a valuation allowance was \$4.3 million, net of an allowance of \$5.9 million. The average recorded investment in impaired loans totaled approximately \$4 million for both the three and nine months ended August 31, 2011. The average recorded investment in impaired loans totaled approximately \$7 million and \$8 million, respectively, for the three and nine months ended August 31, 2010.

The Company reviews goodwill annually (or whenever indicators of impairment exist) in accordance with GAAP. Due to operating losses in the title operations of the Lennar Financial Services segment, the Company evaluated the carrying value of its Lennar Financial Services segment's goodwill prior to its annual impairment test. The Company estimated the fair value of its title operations based on the income approach and concluded that a goodwill impairment was not required as of August 31, 2011.

(8) Rialto Investments Segment

The assets and liabilities related to the Rialto segment were as follows:

(In thousands)	August 31, 2011	November 30, 2010
Assets:		
Cash and cash equivalents	\$ 69,576	76,412
Defeasance cash to retire notes payable	189,667	101,309

Rialto Investments equity in earnings (loss) from unconsolidated entities	(6,505)	6,643	(4,953)	6,350
Rialto Investments other income, net	9,743		38,275	
Operating earnings (1)	\$ 11,741	18,487	57,421	32,195

- (1) Operating earnings for the three and nine months ended August 31, 2011 include \$6.1 million and \$30.9 million, respectively, of net earnings attributable to noncontrolling interests. Operating earnings for the three and nine months ended August 31, 2010 include \$10.8 million and \$20.4 million, respectively, of net earnings attributable to noncontrolling interests.

Loans Receivable

In February 2010, the Rialto segment acquired indirectly 40% managing member equity interests in two limited liability companies (LLCs), in which the FDIC holds the remaining 60% interests. The LLCs hold performing and non-performing loans formerly owned by 22 failed financial institutions. When the Rialto segment acquired its interests in the LLCs, the two portfolios consisted of approximately 5,500 distressed residential and commercial real estate loans (FDIC Portfolios). The FDIC provided \$626.9 million of financing with 0% interest, which is non-recourse to the Company and the LLCs. As of August 31, 2011, the notes payable balance was \$626.9 million; however, \$189.7 million of cash collections on loans in excess of expenses had been deposited in a defeasance account, established for the repayment of the notes payable, under the agreement with the FDIC. The funds in the defeasance account will be used to retire the notes payable upon their maturity.

The LLCs met the accounting definition of VIEs and since the Company was determined to be the primary beneficiary, the Company consolidated the LLCs. At August 31, 2011, these consolidated LLCs had total combined assets and liabilities of \$1.4 billion and \$0.6 billion,

respectively.

In September 2010, the Rialto segment acquired approximately 400 distressed residential and commercial real estate loans (Bank Portfolios) and over 300 real estate owned (REO) properties from three financial institutions. The Company paid \$310 million for the distressed real estate and real estate related assets of which \$124 million was financed through a 5-year senior unsecured note provided by one of the selling institutions.

The following table displays the loans receivable by aggregate collateral type:

(In thousands)	August 31, 2011	November 30, 2010
Land	\$ 377,937	565,861
Single family homes	181,924	318,783
Commercial properties	164,960	239,182
Multi-family homes	50,495	59,951
Other	17,693	35,537
Loans receivable	\$ 793,009	1,219,314

In accordance with loans accounted for under ASC 310-30, *Loans and Debt Securities Acquired with Deteriorated Credit Quality*, (ASC 310-30), the Rialto segment estimated the cash flows, at acquisition, it expected to collect on the FDIC Portfolios and Bank Portfolios. In accordance with ASC 310-30, the difference between the contractually required payments and the cash flows expected to be collected at acquisition is referred to as the nonaccretable difference. This difference is neither accreted into income nor recorded on the Company's condensed consolidated balance sheets. The excess of cash flows expected to be collected over the cost of the loans acquired is referred to as the accretable yield and is recognized in interest income over the remaining life of the loans using the effective yield method.

The Rialto segment periodically evaluates its estimate of cash flows expected to be collected on its FDIC Portfolios and Bank Portfolios. These evaluations require the continued use of key assumptions and estimates, similar to those used in the initial estimate of fair value of the loans to allocate purchase price. Subsequent changes in the estimated cash flows expected to be collected may result in changes in the accretable yield and nonaccretable difference or reclassifications from nonaccretable yield to accretable yield. Increases in the cash flows expected to be collected will generally result in an increase in interest income over the remaining life of the loan or pool of loans. Decreases in expected cash flows due to further credit deterioration will generally result in an impairment charge recognized as a provision for loan losses, resulting in an increase to the allowance for loan losses.

The following table displays the outstanding balance and carrying value of loans accounted for under ASC 310-30 as of August 31, 2011 and November 30, 2010:

(In thousands)	August 31, 2011	November 30, 2010
Outstanding principal balance	\$ 1,563,051	2,558,709
Carrying value	\$ 681,196	966,098

The activity in the accretable yield for the FDIC Portfolios and Bank Portfolios for the nine months ended August 31, 2011:

(In thousands)	Accretable Yield
Balance at November 30, 2010	\$ 396,311
Additions	16,173
Deletions	(72,864)
Accretions	(87,549)
Balance at August 31, 2011	\$ 252,071

Additions primarily represent reclasses from nonaccretable yield to accretable yield on the Bank Portfolios. Deletions represent disposal of loans, which includes foreclosure of underlying collateral and result in removal of the loans from the accretable yield portfolios.

At August 31, 2011 and November 30, 2010, there were loans receivable with a carrying value of approximately \$112 million and \$253 million, respectively, for which interest income was not being recognized as they were classified as nonaccrual. When forecasted principal and interest cannot be reasonably estimated at the loan acquisition date, management classifies the loan as nonaccrual and accounts for these assets in accordance with ASC 310-10, *Receivables* (ASC 310-10). When a loan is classified as nonaccrual, any subsequent cash receipt is accounted for using the cost recovery method. In accordance with ASC 310-10, a loan is considered impaired when based on current information and events it is probable that all amounts due according to the contractual terms of the loan agreement will not be collected. Although these loans met the definition of ASC 310-10, these loans are not considered impaired relative to the Company's recorded investment since they were acquired at a substantial discount to their unpaid principal balance and there currently is no allowance on any of these loans. A provision for loan losses is recognized when the recorded investment in the loan is in excess of its fair value. The fair value of the loan is determined by using either the present value of expected future cash flows discounted at the loan's effective interest rate, the loans obtainable market price or the fair value of the collateral less estimated costs to sell. At both August 31, 2011 and November 30, 2010, the Company did not have an allowance for loan losses against the nonaccrual loans as the fair value of the underlying collateral was at least equal to the nonaccrual loans' carrying value.

The following table represents nonaccrual loans accounted for under ASC 310-10 aggregated by collateral type as of August 31, 2011:

(In thousands)	Unpaid Principal Balance	Recorded Investment		Total Recorded Investment
		With Allowance	Without Allowance	
Land	\$ 120,192		49,032	49,032
Single family homes	72,531		29,281	29,281
Commercial properties	32,379		26,765	26,765
Multi-family homes	16,750		6,735	6,735
Loans receivable	\$ 241,852		111,813	111,813

The average recorded investment in impaired loans totaled approximately \$183 million for the nine months ended August 31, 2011.

The loans receivable portfolios consist of loans acquired at a discount. Based on the nature of these loans, the portfolios are managed by assessing the risks related to the likelihood of collection of payments from borrowers and guarantors, as well as monitoring the value of the underlying collateral. The following are the risk categories for the loans receivable portfolios:

Accrual Loans in which forecasted cash flows under the loan agreement, as it might be modified from time to time, can be reasonably estimated at the date of acquisition. The risk associated with loans in this category relates to the possible default by the borrower with respect to principal and interest payments and thus a decline in the forecasted cash flows used to determine accretable yield income and the recognition of an impairment through an allowance for loan losses.

Nonaccrual Loans in which forecasted principal and interest could not be reasonably estimated at the date of acquisition. Although the Company believes the recorded investment balance will ultimately be realized, the risk of nonaccrual loans relates to a decline in the value of the collateral securing the outstanding obligation and the recognition of an impairment through an allowance for loan losses if the recorded investment in the loan exceeds the fair value of the collateral less estimated cost to sell. As of August 31, 2011, the Company had no recorded allowance on these loans. During the nine months ended August 31, 2011, the Company recorded \$12.1 million of provision for loan losses offset by charge-offs of \$12.1 million upon foreclosure of the loans.

Risk categories as of August 31, 2011 were as follows:

(In thousands)	Accrual	Nonaccrual	Total
Land	\$ 328,905	49,032	377,937
Single family homes	152,643	29,281	181,924
Commercial properties	138,195	26,765	164,960
Multi-family homes	43,760	6,735	50,495
Other	17,693		17,693
Loans receivable	\$ 681,196	111,813	793,009

In order to assess the risk associated with each risk category, the Rialto segment evaluates the forecasted cash flows and the value of the underlying collateral securing loans receivable on a quarterly basis or when an event occurs that suggests a decline in the assets' fair value.

Real Estate Owned

The acquisition of properties acquired through, or in lieu of, loan foreclosure are reported within the condensed consolidated balance sheets as real estate owned (REO). When a property is determined to be held-and-used, the asset is recorded at fair value and depreciated over its useful life using the straight line method. When certain criteria set forth in ASC Topic 360, *Property, Plant and Equipment*, are met; the property is classified as held-for-sale. When a real estate asset is classified as held-for-sale, the property is carried at the lower of its cost basis or fair value less estimated costs to sell. The Rialto segment recorded no impairments during the three and nine months ended August 31, 2011. The fair values of REO held-for-sale are based on appraisals of the underlying properties or management's best estimate of fair value.

The following tables present the changes in REO for the three and nine months ended August 31, 2011:

REO held-for-sale, net

(In thousands)	Three Months Ended August 31, 2011	Nine Months Ended August 31, 2011
REO - held-for-sale, net, beginning of period	\$ 514,249	250,286
Additions	125,881	406,090
Improvements	7,250	15,484
Sales	(31,700)	(52,254)
Transfers to Lennar Homebuilding		(3,926)
REO - held-for-sale, net, end of period	\$ 615,680	615,680

REO held-and-used, net

(In thousands)	Three Months Ended August 31, 2011	Nine Months Ended August 31, 2011
REO - held-and-used, net, beginning of period	\$ 16,467	7,818
Additions	35,246	43,980
Depreciation	(61)	(146)
REO - held-and-used, net, end of period	\$ 51,652	51,652

For the three and nine months ended August 31, 2011, the Company recorded \$21.6 million and \$56.9 million, respectively, of gains primarily from acquisitions of real estate through foreclosure. The gains associated with REO are recorded in Rialto Investments other income, net.

Investments

Edgar Filing: LENNAR CORP /NEW/ - Form 10-Q

In addition to the acquisition and management of the FDIC Portfolios and Bank Portfolios, an affiliate in the Rialto segment is a sub-advisor to the AllianceBernstein L.P. (AB) fund formed under the Federal government s Public-Private Investment Program (PPIP) and receives management fees for sub-advisory services. The Company also made a commitment to invest \$75 million in the AB PPIP fund, of which the remaining outstanding commitment as of August 31, 2011 was \$7.5 million. During both the three and nine months ended August 31, 2011, the Company contributed \$3.7 million to the AB PPIP fund. As of August 31, 2011 and November 30, 2010, the carrying value of the Company s investment in the AB PPIP fund was \$71.8 million and \$77.3 million, respectively.

In November 2010, the Rialto segment invested in approximately \$43 million of non-investment grade commercial mortgage-backed securities (CMBS) for \$19.4 million, representing a 55% discount to par value. The CMBS have a stated and assumed final distribution date of November 2020 and a stated maturity date of October 2057. The Rialto segment reviews changes in estimated cash flows periodically, to determine if other-than-temporary impairment has occurred on its investment securities. Based on the Rialto segment's assessment, no impairment charges were recorded during the three and nine months ended August 31, 2011. During the nine months ended August 31, 2011, the Rialto segment sold a portion of its CMBS for \$11.1 million, resulting in a gain on sale of CMBS of \$4.7 million. The carrying value of the investment securities at August 31, 2011 and November 30, 2010, was \$13.9 million and \$19.5 million, respectively.

Another subsidiary in the Rialto segment also has approximately a 5% investment in a service and infrastructure provider to the residential home loan market (the Servicer Provider), which provides services to the consolidated LLCs, among others. As of August 31, 2011 and November 30, 2010, the carrying value of the Company's investment in the Servicer Provider was \$8.9 million and \$7.3 million, respectively.

Additionally, in November 2010, the Rialto segment completed its first closing of a real estate investment fund (the Fund) with initial equity commitments of approximately \$300 million (including \$75 million committed by the Company). During the three and nine months ended August 31, 2011, the Company contributed \$30.9 million and \$60.6 million, respectively, to the Fund out of total investor contributions of \$181.6 million and \$301.0 million, respectively. During the nine months ended August 31, 2011, the Fund acquired distressed real estate asset portfolios and invested in CMBS at a discount to par value. As of August 31, 2011, the carrying value of the Company's investment in the Fund was \$61.5 million.

The Fund is an unconsolidated entity and is accounted for under the equity method of accounting. The Fund was determined to have the attributes of an investment company in accordance with ASC Topic 946, *Financial Services - Investment Companies*, the attributes of which are different from the attributes that would cause a company to be an investment company for purposes of the Investment Company Act of 1940. As a result, the Fund's assets and liabilities are recorded at fair value with increases/decreases in fair value recorded in the statement of operations of the Fund, the Company's share of which will be recorded in the Rialto Investments equity in earnings (loss) from unconsolidated entities financial statement line item. The Company determined that the Fund is not a variable interest entity but rather a voting interest entity due to the following factors:

The Company determined that Rialto's general partner interest and all the limited partners' interests qualify as equity investment at risk.

Based on the capital structure of the Fund (100% capitalized via equity contributions), the Company was able to conclude that the equity investment at risk was sufficient to allow the Fund to finance its activities without additional subordinated financial support.

The general partner and the limited partners in the Fund, collectively, have full decision-making ability as they collectively have the power to direct the activities of the Fund, due to the fact that Rialto, in addition to being a general partner with a substantive equity investment in the fund, also provides services to the Fund under a management agreement and an investment agreement, which are not separable from Rialto's general partnership interest.

As a result of all these factors, the Company has concluded that the power to direct the activities of the Fund reside in its general partnership interest and thus with the holders of the equity investment at risk.

In addition, there are no guaranteed returns provided to the equity investors and the equity contributions are fully subjected to the Fund's operational results, thus the equity investors absorb the expected negative and positive variability relative to the Fund.

Finally, substantially all of the activities of the Fund are not conducted on behalf of any individual investor or related group that has disproportionately few voting rights (i.e., on behalf of any individual limited partner).

Having concluded that the Fund is a voting interest entity, the Company evaluated the Fund under the voting interest entity model to determine whether, as general partner, it has control over the Fund. The Company determined that it does not control the Fund as its general partner, because the unaffiliated limited partners have substantial kick-out rights and can remove Rialto as general partner at anytime for cause or without cause through a simple majority vote of the limited partners. In addition, there are no significant barriers to the exercise of these rights. As a result of determining that the Company does not control the Fund under the voting interest entity model, the Fund is not consolidated in the Company's financial statements as of August 31, 2011.

Summarized condensed financial information on a combined 100% basis related to Rialto's investments in unconsolidated entities that are accounted for by the equity method was as follows:

Balance Sheets

(In thousands)	August 31, 2011	November 30, 2010

Mortgages notes on land and other debt	445,185	456,256
	\$ 3,127,649	3,128,154

The Company has a \$150 million Letter of Credit and Reimbursement Agreement (LC Agreement) with certain financial institutions. The LC Agreement may be increased to \$200 million, although there are currently no commitments for the additional \$50 million. The Company believes it was in compliance with its covenants related to the LC Agreement at August 31, 2011.

The Company's performance letters of credit outstanding were \$67.9 million and \$78.9 million, respectively, at August 31, 2011 and November 30, 2010. The Company's financial letters of credit outstanding were \$203.5 million and \$195.0 million, respectively, at August 31, 2011 and November 30, 2010. Performance letters of credit are generally posted with regulatory bodies to guarantee the Company's performance of certain development and construction activities, and financial letters of credit are generally posted in lieu of cash deposits on option contracts, for insurance risks, credit enhancements and as other collateral. Additionally, at August 31, 2011, the Company had outstanding performance and surety bonds related to site improvements at various projects (including certain projects of the Company's joint ventures) of \$639.9 million. Although significant development and construction activities have been completed related to these site improvements, these bonds are generally not released until all development and construction activities are completed. As of August 31, 2011, there were approximately \$315.9 million, or 49%, of costs to complete related to these site improvements. The Company does not presently anticipate any draws upon these bonds, but if any such draws occur, the Company does not believe they would have a material effect on its financial position, results of operations or cash flows.

In November 2010, the Company issued \$446.0 million of 2.75% convertible senior notes due 2020 (the 2.75% Convertible Senior Notes) at a price of 100% in a private placement. Proceeds from the offering, after payment of expenses, were \$436.4 million. The net proceeds were or will be used for general corporate purposes, including repayments or repurchases of existing senior notes or other indebtedness. The 2.75% Convertible Senior Notes are convertible into cash, shares of Class A common stock or a combination of both, at the Company's election. However, it is the Company's intent to settle the face value of the 2.75% Convertible Senior Notes in cash. Holders may convert the 2.75% Convertible Senior Notes at the initial conversion rate of 45.1794 shares of common stock per \$1,000 principal amount or 20,150,012 Class A common shares if all the 2.75% Convertible Senior Notes are converted, which is equivalent to an initial conversion price of approximately \$22.13 per share of Class A common stock, subject to anti-dilution adjustments. The shares are not included in the calculation of diluted earnings per share primarily because it is the Company's intent to settle the face value of the 2.75% Convertible Senior Notes in cash and the Company's stock price does not exceed the conversion price.

Holders of the 2.75% Convertible Senior Notes will have the right to convert them, during any fiscal quarter (and only during such fiscal quarter), if the last reported sale price of the Company's Class A common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the

last trading day of the immediately preceding fiscal quarter is greater than or equal to 130% of the conversion price on each applicable trading day. Holders of the 2.75% Convertible Senior Notes will have the right to require the Company to repurchase them for cash equal to 100% of their principal amount, plus accrued but unpaid interest, on December 15, 2015. The Company will have the right to redeem the 2.75% Convertible Senior Notes at any time on or after December 20, 2015 for 100% of their principal amount, plus accrued but unpaid interest. Interest on the 2.75% Convertible Senior Notes is due semi-annually beginning June 15, 2011. The 2.75% Convertible Senior Notes are unsecured and unsubordinated, but are currently guaranteed by substantially all of the Company's significant wholly-owned homebuilding subsidiaries.

For its 2.75% Convertible Senior Notes, the Company will be required to pay contingent interest with regard to any interest period beginning with the interest period commencing December 20, 2015 and ending June 14, 2016, and for each subsequent six-month period commencing on an interest payment date to, but excluding, the next interest payment date, if the average trading price of the 2.75% Convertible Senior Notes during the five consecutive trading days ending on the second trading day immediately preceding the first day of the applicable interest period exceeds 120% of the principal amount of the 2.75% Convertible Senior Notes. The amount of contingent interest payable per \$1,000 principal amount of notes during the applicable interest period will equal 0.75% per year of the average trading price of such \$1,000 principal amount of 2.75% Convertible Senior Notes during the five trading day reference period.

Certain provisions under ASC Topic 470, *Debt*, require the issuer of certain convertible debt instruments that may be settled in cash on conversion to separately account for the liability and equity components of the instrument in a manner that reflects the issuer's non-convertible debt borrowing rate. The Company has applied these provisions to its 2.75% Convertible Senior Notes. At August 31, 2011, the principal amount of the 2.75% Convertible Senior Notes was \$446.0 million, the unamortized discount included in stockholders' equity was \$60.8 million and the net carrying amount of the 2.75% Convertible Senior Notes was \$385.2 million. The carrying amount of the equity component of the 2.75% Convertible Senior Notes was \$71.2 million at August 31, 2011.

In May 2010, the Company also issued \$276.5 million of 2.00% convertible senior notes due 2020 (the 2.00% Convertible Senior Notes) at a price of 100% in a private placement. Proceeds from the offering, after payment of expenses, were \$271.2 million. The net proceeds were to be used for general corporate purposes, including repayments or repurchases of existing senior notes or other indebtedness. The 2.00% Convertible Senior Notes are convertible into shares of Class A common stock at any time prior to maturity or redemption at the initial conversion rate of 36.1827 shares of common stock per \$1,000 principal amount of the 2.00% Convertible Senior Notes or 10,004,517 Class A common shares if all the 2.00% Convertible Senior Notes are converted, which is equivalent to an initial conversion price of approximately \$27.64 per share of Class A common stock, subject to anti-dilution adjustments. The shares are included in the calculation of diluted earnings per share. Holders of the 2.00% Convertible Senior Notes will have the right to require the Company to repurchase them for cash equal to 100% of their principal amount, plus accrued but unpaid interest, on each of December 1, 2013 and December 1, 2015. The Company will have the right to redeem the 2.00% Convertible Senior Notes at any time on or after December 1, 2013 for 100% of their principal amount, plus accrued but unpaid interest. Interest on the 2.00% Convertible Senior Notes is due semi-annually beginning December 1, 2010. The 2.00% Convertible Senior Notes are unsecured and unsubordinated, but are currently guaranteed by substantially all of the Company's significant wholly-owned homebuilding subsidiaries. At both August 31, 2011 and November 30, 2010, the carrying amount of the 2.00% Convertible Senior Notes was \$276.5 million.

For its 2.00% Convertible Senior Notes, the Company will be required to pay contingent interest with regard to any interest period commencing with the six-month interest period beginning December 1, 2013, if the average trading price of the 2.00% Convertible Senior Notes during the five consecutive trading days ending on the second trading day immediately preceding the first day of the applicable six-month interest period equals or exceeds 120% of the principal amount of the 2.00% Convertible Senior Notes. The amount of contingent interest payable per \$1,000 principal amount of notes during the applicable six-month interest period will equal 0.50% per year of the average trading price of such \$1,000 principal amount of 2.00% Convertible Senior Notes during the five trading-day reference period.

(13) Product Warranty

Warranty and similar reserves for homes are established at an amount estimated to be adequate to cover potential costs for materials and labor with regard to warranty-type claims expected to be incurred subsequent to the delivery of a home. Reserves are determined based on historical data and trends with respect to similar product types and geographical areas. The Company regularly monitors the warranty reserve and makes adjustments to its pre-existing warranties in order to reflect changes in trends and historical data as information becomes available. Warranty reserves are included in other liabilities in the accompanying condensed consolidated balance sheets. The activity in the Company's warranty reserve was as follows:

(In thousands)	Three Months Ended August 31,		Nine Months Ended August 31,	
	2011	2010	2011	2010
Warranty reserve, beginning of period	\$ 91,177	126,464	109,179	157,896
Warranties issued during the period	7,070	6,639	18,408	18,509
Adjustments to pre-existing warranties from changes in estimates	4,894	4,057	4,856	3,317
Payments	(11,234)	(19,862)	(40,536)	(62,424)
Warranty reserve, end of period	\$ 91,907	117,298	91,907	117,298

As of August 31, 2011, the Company has identified approximately 990 homes delivered in Florida primarily during its 2006 and 2007 fiscal years that are confirmed to have contained defective Chinese drywall with resulting damage. This represents a small percentage of homes the Company delivered nationally (1.2%) during those fiscal years. Defective Chinese drywall is an industry-wide issue as other homebuilders have publicly disclosed that they have experienced similar issues with defective Chinese drywall.

Based on its efforts to date, the Company has not identified defective Chinese drywall in homes delivered by the Company outside of Florida. The Company is continuing its investigation of homes delivered during the relevant time period in order to determine whether there are additional homes, not yet inspected, with defective Chinese drywall and resulting damage. If the outcome of the Company's inspections identifies more homes than the Company has estimated to have had defective Chinese drywall, it might require an increase in the Company's warranty reserve in the future. The Company has replaced or is in the process of replacing defective Chinese drywall when it has been found in homes the Company has built.

Through August 31, 2011, the Company has accrued \$82.2 million of warranty reserves related to homes confirmed as having defective Chinese drywall, as well as an estimate for homes not yet inspected that may contain Chinese drywall. No additional amount was accrued during the three and nine months ended August 31, 2011. As of August 31, 2011, the warranty reserve for defective Chinese drywall, net of payments, was \$11.3 million. The Company has received, and continues to seek, reimbursement from its subcontractors, insurers and others for costs the Company has incurred or expects to incur to investigate and repair defective Chinese drywall and resulting damage. During the three and nine months ended August 31, 2011, the Company received payments of \$0.9 million and \$3.3 million, respectively, through third party recoveries relative to the costs it has incurred and expects to incur remedying the homes confirmed and estimated to have defective Chinese drywall and resulting damage. During the three and nine months ended August 31, 2010, the Company received payments of \$18.5 million and \$58.5 million, respectively, under its insurance receivable and through third party recoveries relative to the costs it has incurred and expects to incur remedying the homes confirmed and estimated to have defective Chinese drywall and resulting damage.

(14) Share-Based Payment

Compensation expense related to the Company's share-based payment awards was as follows:

(In thousands)	Three Months Ended August 31,		Nine Months Ended August 31,	
	2011	2010	2011	2010
Stock options	\$ 925	1,535	3,219	5,047
Nonvested shares	3,789	3,821	13,001	11,948
Total compensation expense for share-based awards	\$ 4,714	5,356	16,220	16,995

During both the three and nine months ended August 31, 2011 and 2010, the Company granted an immaterial amount of stock options and nonvested shares.

(15) Financial Instruments

The following table presents the carrying amounts and estimated fair values of financial instruments held by the Company at August 31, 2011 and November 30, 2010, using available market information and what the Company believes to be appropriate valuation methodologies. Considerable judgment is required in interpreting market data to develop the estimates of fair value. The use of different market assumptions and/or estimation methodologies might have a material effect on the estimated fair value amounts. The table excludes cash and cash equivalents, restricted cash, defeasance cash to retire notes payable, receivables, net and accounts payable, which had fair values approximating their carrying amounts due to the short maturities of these instruments.

(In thousands)	August 31, 2011		November 30, 2010	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
ASSETS				
Rialto Investments:				
Loans receivable	\$ 793,009	860,024	1,219,314	1,411,731
Investments held-to-maturity	\$ 13,887	13,792	19,537	19,537
Lennar Financial Services:				
Loans held-for-investment, net	\$ 23,116	23,804	21,768	23,083
Investments held-to-maturity	\$ 47,690	46,925	3,165	3,177
LIABILITIES				
Lennar Homebuilding:				
Senior notes and other debts payable	\$ 3,127,649	3,122,540	3,128,154	3,153,106
Rialto Investments:				
Notes payable	\$ 765,939	730,269	752,302	719,703
Lennar Financial Services:				
Notes and other debts payable	\$ 215,365	215,365	271,678	271,678

The following methods and assumptions are used by the Company in estimating fair values:

Lennar Homebuilding For senior notes and other debts payable, the fair value of fixed-rate borrowings is based on quoted market prices. The Company's variable-rate borrowings are tied to market indices and approximate fair value due to the short maturities associated with the majority of the instruments.

Rialto Investments The fair values for loans receivable is based on discounted cash flows estimated as of August 31, 2011 and November 30, 2010, or the fair value of the collateral less estimated cost to sell. The fair value for investments held-to-maturity is based on discounted cash flows estimated as of August 31, 2011. The fair value for investments held-to-maturity as of November 30, 2010 approximated the carrying value as the investments were acquired just prior to November 30, 2010. For notes payable, the fair value of the zero percent notes guaranteed by the FDIC was calculated based on a 5-year treasury yield as of August 31, 2011 and November 30, 2010, respectively, and the fair value of other notes payable was calculated based on discounted cash flows using the Company's weighted average borrowing rate.

Lennar Financial Services The fair values above are based on quoted market prices, if available. The fair values for instruments that do not have quoted market prices are estimated by the Company on the basis of estimated discounted cash flows or other financial information.

Fair Value Measurements

GAAP provides a framework for measuring fair value, expands disclosures about fair value measurements and establishes a fair value hierarchy which prioritizes the inputs used in measuring fair value summarized as follows:

Level 1: Fair value determined based on quoted prices in active markets for identical assets.

Level 2: Fair value determined using significant other observable inputs.

Level 3: Fair value determined using significant unobservable inputs.

The Company's financial instruments measured at fair value on a recurring basis are all within the Lennar Financial Services segment and are summarized below:

Financial Instruments (In thousands)	Fair Value Hierarchy	Fair Value at August 31, 2011	Fair Value at November 30, 2010
Loans held-for-sale (1)	Level 2	\$ 200,599	245,404
Mortgage loan commitments	Level 2	\$ 7,352	1,449
Forward contracts	Level 2	\$ (3,201)	2,905

- (1) The aggregate fair value of loans held-for-sale of \$200.6 million at August 31, 2011 exceeds their aggregate principal balance of \$191.4 million by \$9.2 million. The aggregate fair value of loans held-for-sale of \$245.4 million at November 30, 2010 exceeds their aggregate principal balance of \$240.8 million by \$4.6 million.

The estimated fair values of the Company's financial instruments have been determined by using available market information and what the Company believes to be appropriate valuation methodologies. Considerable judgment is required in interpreting market data to develop the estimates of fair value. The use of different market assumptions and/or estimation methodologies might have a material effect on the estimated fair value amounts. The following methods and assumptions are used by the Company in estimating fair values:

Loans held-for-sale Fair value is based on independent quoted market prices, where available, or the prices for other mortgage whole loans with similar characteristics. Management believes carrying loans held-for-sale at fair value improves financial reporting by mitigating volatility in reported earnings caused by measuring the fair value of the loans and the derivatives instruments used to economically hedge them without having to apply complex hedge accounting provisions. In addition, the Company recognizes the fair value of its rights to service a mortgage loan as revenue upon entering into an interest rate lock loan commitment with a borrower, in accordance with ASC Topic 815-10-S99. The fair value of these servicing rights is included in Lennar Financial Services' loans held-for-sale as of August 31, 2011 and November 30, 2010. Fair value of the servicing rights is determined based on the value in the servicing sales contracts.

Mortgage loan commitments Fair value of commitments to originate loans is based upon the difference between the current value of similar loans and the price at which the Lennar Financial Services segment has committed to originate the loans. The fair value of commitments to sell loan contracts is the estimated amount that the Lennar Financial Services segment would receive or pay to terminate the commitments at the reporting date based on market prices for similar financial instruments.

Forward contracts Fair value is based on quoted market prices for similar financial instruments.

The Company's assets measured at fair value on a nonrecurring basis are those assets for which the Company has recorded valuation adjustments and write-offs during the current period and Rialto Investments real estate owned assets. The fair value included in the table below represent only those assets whose carrying value were adjusted to fair value during the current quarter. The assets measured at fair value on a nonrecurring basis are summarized below:

Non-financial assets (In thousands)	Fair Value Hierarchy	Fair Value	Total Gains (Losses) (1)
Lennar Homebuilding:			
Finished homes and construction in progress (2)	Level 3	\$ 18,711	(9,662)
Investments in unconsolidated entities (3)	Level 3	\$ 12,644	(2,077)
Rialto Investments:			
Real estate owned (4)	Level 3	\$ 161,127	18,840

- (1) Represents total losses due to valuation adjustments and total gains from acquisitions of real estate through foreclosure recorded during the three months ended August 31, 2011.
- (2) Finished homes and construction in progress with an aggregate carrying value of \$28.4 million were written down to their fair value of \$18.7 million, resulting in valuation adjustments of \$9.7 million, which were included in Lennar Homebuilding costs and expenses in the Company's statement of operations for the three months ended August 31, 2011.
- (3) Lennar Homebuilding investments in unconsolidated entities with an aggregate carrying value of \$14.7 million were written down to their fair value of \$12.6 million, resulting in valuation adjustments of \$2.1 million, which were included in Lennar Homebuilding other income, net in the Company's statement of operations for the three months ended August 31, 2011.
- (4) Real estate owned assets are initially recorded at fair value less estimated costs to sell at the time of acquisition through, or in lieu of, loan foreclosure if held-for-sale or at fair value if held-and-used. Upon acquisition, the real estate owned assets had a carrying value of \$142.3 million and a fair value of \$161.1 million. The fair value of the real estate owned assets is based upon the appraised value at the time of foreclosure or management's best estimate. The gains upon acquisition of REO were \$18.8 million and are included within Rialto Investments other income, net in the Company's statement of operations for the three months ended August 31, 2011.

Finished homes and construction in progress are included within inventories. Inventories are stated at cost unless the inventory within a community is determined to be impaired, in which case the impaired inventory is written down to fair value. Inventory costs include land, land development and home construction costs, real estate taxes, deposits on land purchase contracts and interest related to development and construction. Construction overhead and selling expenses are expensed as incurred. Homes held-for-sale are classified as inventories until delivered. Land, land development, amenities and other costs are accumulated by specific area and allocated to homes within the respective areas. The Company reviews its inventory for indicators of impairment by evaluating each community during each reporting period. The inventory within each community is categorized as finished homes and construction in progress or land under development based on the development state of the community. There were 428 and 448 active communities as of August 31, 2011 and August 31, 2010, respectively. If the undiscounted cash flows expected to be generated by a community are less than its carrying amount, an impairment charge is recorded to write down the carrying amount of such community to its estimated fair value.

The Company estimates the fair value of its communities using a discounted cash flow model. The projected cash flows for each community are significantly impacted by estimates related to market supply and demand, product type by community, homesite sizes, sales pace, sales prices, sales incentives, construction costs, sales and marketing expenses, the local economy, competitive conditions, labor costs, costs of materials and other factors for that particular community. Every division evaluates the historical performance of each of its communities as well as current trends in the market and economy impacting the community and its surrounding areas. These trends are analyzed for each of the estimates listed above. Using all available trend information, the Company calculates its best estimate of projected cash flows for each community. While many of the estimates are calculated based on historical and projected trends, all estimates are subjective and change from market to market and community to community as market and economic conditions change. The determination of fair value also requires discounting the estimated cash flows at a rate the Company believes a market participant would determine to be commensurate with the inherent risks associated with the assets and related estimated cash flow streams. The discount rate used in determining each asset's fair value depends on the community's projected life and development stage. The Company generally uses a discount rate of approximately 20%, subject to the perceived risks associated with the community's cash flow streams relative to its inventory.

The Company evaluates its investments in unconsolidated entities for indicators of impairment during each reporting period. A series of operating losses of an investee or other factors may indicate that a decrease in value of the Company's investment in the unconsolidated entity has occurred which is other-than-temporary. The amount of impairment recognized is the excess of the investment's carrying amount over its estimated fair value, if the excess is determined to be other-than-temporary.

The evaluation of the Company's investment in unconsolidated entities includes certain critical assumptions made by management: (1) projected future distributions from the unconsolidated entities, (2) discount rates applied to the future distributions and (3) various other factors.

The Company's assumptions on the projected future distributions from the unconsolidated entities are dependent on market conditions. Specifically, distributions are dependent on cash to be generated from the sale of inventory by the unconsolidated entities. Such inventory is also reviewed for potential impairment by the unconsolidated entities. The unconsolidated entities generally use a discount rate of approximately 20% in their reviews for impairment, subject to the perceived risks associated with the community's cash flow streams relative to its inventory. If a valuation adjustment is recorded by an unconsolidated entity related to its assets, the Company's proportionate share is reflected in the Company's homebuilding equity in earnings (loss) from unconsolidated entities with a corresponding decrease to its investment in unconsolidated entities. In certain instances, the Company may be required to record additional losses relating to its investment in unconsolidated entities, if the Company's investment in the unconsolidated entity, or a portion thereof, is deemed to be other-than temporarily impaired. These losses are included in Lennar Homebuilding other income, net.

Additionally, the Company considers various qualitative factors to determine if a decrease in the value of the investment is other-than-temporary. These factors include age of the venture, intent and ability for the Company to recover its investment in the entity, financial condition and long-term prospects of the entity, short-term liquidity needs of the unconsolidated entity, trends in the general economic environment of the land, entitlement status of the land held by the unconsolidated entity, overall projected returns on investment, defaults under contracts with third parties (including bank debt), recoverability of the investment through future cash flows and relationships with the other partners and banks. If the Company believes that the decline in the fair value of the investment is temporary, then no impairment is recorded.

REO represents real estate which the Rialto segment has taken control or has effective control of in partial or full satisfaction of loans receivable. At the time of acquisition through foreclosure of a loan, REO is recorded at fair value less estimated costs to sell if classified as held-for-sale and at fair value if classified as held-and-used, which becomes the property's new basis. The fair values of these assets are determined in part by placing reliance on third party appraisals of the properties and/or internally prepared analysis of recent offers or prices on comparable properties in the proximate vicinity. The third party appraisals and internally developed analysis are significantly impacted by the local market economy, market supply and demand, competitive conditions and prices on comparable properties, adjusted for date of sale, location, property size, etc. Each REO is unique and is analyzed in the context of the particular market where the property is located. In order to establish the significant assumptions for a particular REO, the Company analyzes historical trends, including trends achieved by the Company's local homebuilding operations, if applicable, and current trends in the market and economy impacting the REO. Using available trend information, the Company then calculates its best estimate of fair value, which can include projected cash flows discounted at a rate the Company believes a market participant would determine to be commensurate with the inherent risks associated with the assets and related estimated cash flow streams.

Changes in economic factors, consumer demand and market conditions, among other things, could materially impact estimates used in the third party appraisals and/or internally prepared analysis of recent offers or prices on comparable properties. Thus, estimates can differ significantly from the amounts ultimately realized by the Rialto segment from disposition of these assets. The amount by which the recorded investment in the loan is less than the REO's fair value (net of estimated cost to sell if held-for-sale), is recorded as a gain on foreclosure in the Company's condensed consolidated statement of operations. The amount by which the recorded investment in the loan is greater than the REO's fair value (net of estimated cost to sell if held-for-sale), is initially recorded as an impairment in the Company's condensed consolidated statement of operations.

(16) Consolidation of Variable Interest Entities

GAAP requires the consolidation of VIEs in which an enterprise has a controlling financial interest. A controlling financial interest will have both of the following characteristics: (a) the power to direct the activities of a VIE that most significantly impact the VIEs economic performance and (b) the obligation to absorb losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE.

The Company's variable interest in VIEs may be in the form of (1) equity ownership, (2) contracts to purchase assets, (3) management and development agreements between the Company and a VIE, (4) loans provided by the Company to a VIE or other partner and/or (5) guarantees provided by members to banks and other third parties. The Company examines specific criteria and uses its judgment when determining if the Company is the primary beneficiary of a VIE. Factors considered in determining whether the Company is the primary beneficiary include risk and reward sharing, experience and financial condition of other partner(s), voting rights, involvement in day-to-day capital and operating decisions, representation on a VIE's executive committee, existence of unilateral kick-out rights or voting rights, level of economic disproportionality, if any, between the Company and the other partner(s) and contracts to purchase assets from VIEs.

Generally, all major decision making in the Company's joint ventures is shared between all partners. In particular, business plans and budgets are generally required to be unanimously approved by all partners. Usually, management and other fees earned by the Company are nominal and believed to be at market and there is no significant economic disproportionality between the Company and other partners. Generally, the Company purchases less than a majority of the joint venture's assets and the purchase prices under the Company's option contracts are believed to be at market.

Generally, Lennar Homebuilding unconsolidated entities become VIEs and consolidate when the other partner(s) lack the intent and financial wherewithal to remain in the entity. As a result, the Company continues to fund operations and debt paydowns through partner loans or substituted capital contributions.

The Company evaluated all joint venture agreements as of August 31, 2011. Based on the Company's evaluation, during the nine months ended August 31, 2011, it consolidated entities within its Lennar Homebuilding segment that at August 31, 2011 had total combined assets and liabilities of \$55.1 million and \$24.1 million, respectively. In addition, during the nine months ended August 31, 2011, there were no VIEs that were deconsolidated.

At August 31, 2011 and November 30, 2010, the Company's recorded investments in Lennar Homebuilding unconsolidated entities were \$653.1 million and \$626.2 million, respectively, and the Rialto segment's investments in unconsolidated entities as of August 31, 2011 and November 30, 2010 were \$142.8 million and \$84.5 million, respectively.

Consolidated VIEs

As of August 31, 2011, the carrying amounts of the VIEs' assets and non-recourse liabilities that consolidated were \$2,273.5 million and \$897.0 million, respectively. Those assets are owned by, and those liabilities are obligations of, the VIEs, not the Company.

A VIE's assets can only be used to settle obligations of that VIE. The VIEs are not guarantors of the Company's senior notes and other debts payable. In addition, the assets held by a VIE usually are collateral for that VIE's debt. The Company and other partners do not generally have an obligation to make capital contributions to a VIE unless the Company and/or the other partner(s) have entered into debt guarantees with a VIE's banks. Other than debt guarantee agreements with a VIE's banks, there are no liquidity arrangements or agreements to fund capital or purchase assets that could require the Company to provide financial support to a VIE. While the Company has option contracts to purchase land from certain of its VIEs, the Company is not required to purchase the assets and could walk away from the contract.

Unconsolidated VIEs

At August 31, 2011 and November 30, 2010, the Company's recorded investment in VIEs that are unconsolidated and its estimated maximum exposure to loss were as follows:

As of August 31, 2011

(In thousands)	Investments in Unconsolidated VIEs	Lennar's Maximum Exposure to Loss
Lennar Homebuilding (1)	\$ 90,914	121,110
Rialto Investments (2)	94,616	102,116
	\$ 185,530	223,226

As of November 30, 2010

(In thousands)	Investments in Unconsolidated VIEs	Lennar's Maximum Exposure to Loss
Lennar Homebuilding (1)	\$ 144,809	174,967
Rialto Investments (2)	104,063	117,631
	\$ 248,872	292,598

- At both August 31, 2011 and November 30, 2010, the maximum exposure to loss of Lennar Homebuilding's investments in unconsolidated VIEs is limited to its investment in the unconsolidated VIEs in addition to \$30.0 million of recourse debt of one of the unconsolidated VIEs, which is included in the Company's maximum recourse related to Lennar Homebuilding unconsolidated entities.
- For Rialto's investment in unconsolidated VIEs, the Company made a \$75 million commitment to fund capital in the AB PPIP fund. As of August 31, 2011 and November 30, 2010, the Company had contributed \$67.5 million and \$63.8 million, respectively, of the \$75 million commitment and it cannot walk away from its remaining commitment to fund capital. Therefore, as of August 31, 2011 and November 30, 2010, the maximum exposure to loss for Rialto's unconsolidated VIEs was higher than the carrying amount of its investments. In addition, at August 31, 2011 and November 30, 2010, investments in unconsolidated VIEs and Lennar's maximum exposure to loss include \$13.9 million and \$19.5 million, respectively, related to Rialto's investments held-to-maturity.

While these entities are VIEs, the Company has determined that the power to direct the activities of the VIEs that most significantly impact the VIEs' economic performance is generally shared. While the Company generally manages the day-to-day operations of the VIEs, each of the VIEs has an executive committee made up of representatives from each partner. The members of the executive committee have equal votes and major decisions require unanimous consent and approval from all members. The Company does not have the unilateral ability to exercise participating voting rights without partner consent. Furthermore, the Company's economic interest is not significantly disproportionate to the point where it would indicate that the Company has the power to direct these activities.

The Company and other partners do not generally have an obligation to make capital contributions to the VIEs, except for the Company's \$7.5 million remaining commitment to the AB PPIP fund and \$30.0 million of recourse debt of one of the Lennar Homebuilding unconsolidated VIEs. The Company and the other partners did not guarantee any debt of these unconsolidated VIEs. There are no liquidity arrangements or agreements to fund capital or purchase assets that could require the Company to provide financial support to the VIEs. While the Company has option contracts to purchase land from certain of its unconsolidated VIEs, the Company is not required to purchase the assets and could walk away from the contract.

Option Contracts

The Company has access to land through option contracts, which generally enables it to control portions of properties owned by third parties (including land funds) and unconsolidated entities until the Company has determined whether to exercise the option.

A majority of the Company's option contracts require a non-refundable cash deposit or irrevocable letter of credit based on a percentage of the purchase price of the land. The Company's option contracts sometimes include price adjustment provisions, which adjust the purchase price of the land to its approximate fair value at the time of acquisition or are based on the fair value at the time of takedown.

The Company's investments in option contracts are recorded at cost unless those investments are determined to be impaired, in which case the Company's investments are written down to fair value. The Company reviews option contracts for indicators of impairment during each reporting period. The most significant indicator of impairment is a decline in the fair value of the optioned property such that the purchase and development of the optioned property would no longer meet the Company's targeted return on investment with appropriate consideration given to the length of time available to exercise the option. Such declines could be caused by a variety of factors including increased competition, decreases in demand or changes in local regulations that adversely impact the cost of development. Changes in any of these factors would cause the Company to re-evaluate the likelihood of exercising its land options.

Some option contracts contain a predetermined take-down schedule for the optioned land parcels. However, in almost all instances, the Company is not required to purchase land in accordance with those take-down schedules. In substantially all instances, the Company has the right and ability to not exercise its option and forfeit its deposit without further penalty, other than termination of the option and loss of any unapplied portion of its deposit and pre-acquisition costs. Therefore, in substantially all instances, the Company does not consider the take-down price to be a firm contractual obligation.

When the Company does not intend to exercise an option, it writes off any unapplied deposit and pre-acquisition costs associated with the option contract.

The Company evaluates all option contracts for land to determine whether they are VIEs and, if so, whether the Company is the primary beneficiary of certain of these option contracts. Although the Company does not have legal title to the optioned land, if the Company is deemed to be the primary beneficiary, it is required to consolidate the land under option at the purchase price of the optioned land. During the nine months ended August 31, 2011, the effect of consolidation of these option contracts was a net increase of \$13.5 million to consolidated inventory not owned with a corresponding increase to liabilities related to consolidated inventory not owned in the accompanying condensed consolidated balance sheet as of August 31, 2011. To reflect the purchase price of the inventory consolidated, the Company reclassified the related option deposits from land under development to consolidated inventory not owned in the accompanying condensed consolidated balance sheet as of August 31, 2011. The liabilities related to consolidated inventory not owned primarily represent the difference between the option exercise prices for the optioned land and the Company's cash deposits. The increase to consolidated inventory not owned was offset by the Company exercising its options to acquire land under previously consolidated contracts resulting in a net decrease in consolidated inventory not owned of \$54.2 million for the nine months ended August 31, 2011.

The Company's exposure to loss related to its option contracts with third parties and unconsolidated entities consisted of its non-refundable option deposits and pre-acquisition costs totaling \$154.1 million and \$157.4 million, respectively, at August 31, 2011 and November 30, 2010. Additionally, the Company had posted \$45.2 million and \$48.9 million, respectively, of letters of credit in lieu of cash deposits under certain option contracts as of August 31, 2011 and November 30, 2010.

(17) New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*, (ASU 2010-06), which requires additional disclosures about transfers between Levels 1 and 2 of the fair value hierarchy and disclosures about purchases, sales, issuances and settlements in the rollforward of activity in Level 3 fair value measurements. The Company adopted ASU 2010-06 for its second quarter ended May 31, 2010, except for the Level 3 activity disclosures which will be effective for the Company's fiscal year beginning December 1, 2011. ASU 2010-06 has not and is not expected to have a material effect on the Company's condensed consolidated financial statements.

In July 2010, the FASB issued ASU 2010-20, *Disclosures About the Credit Quality of Financing Receivables and the Allowance for Credit Losses*, (ASU 2010-20). ASU 2010-20 enhances current disclosure requirements to assist users of financial statements in assessing an entity's credit risk exposure and evaluating the adequacy of an entity's allowance for credit losses. ASU 2010-20 requires entities to disclose the nature of credit risk inherent in their finance receivables, the procedure for analyzing and assessing credit risk, and the changes in both the receivables and the allowance for credit losses by portfolio segment and class. ASU 2010-20 was effective for the Company's fiscal year beginning December 1, 2010. The adoption of this ASU did not have a material effect on the Company's condensed consolidated financial statements.

In April 2011, the FASB issued ASU 2011-02, *A Creditor's Determination of Whether Restructuring Is a Troubled Debt Restructuring*, (ASU 2011-02). ASU 2011-02 clarifies when a loan modification or restructuring is considered a troubled debt restructuring (TDR). In determining whether a loan modification represents a TDR, an entity should consider whether the debtor is experiencing financial difficulty and the lender has granted a concession to the borrower. This guidance is to be applied retrospectively, with early application permitted. ASU 2011-02 is effective for loan modifications that occur on or after September 1, 2011. ASU 2011-02 is not expected to have a material effect on the Company's condensed consolidated financial statements.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amends ASC 820, *Fair Value Measurements*, (ASC 820), providing a consistent definition and measurement of fair value, as well as similar disclosure requirements between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles, clarifies the application of existing fair value measurement and expands the ASC 820 disclosure requirements, particularly for Level 3 fair value measurements. ASU 2011-04 will be effective for the Company's fiscal year beginning December 1, 2011. The adoption of ASU 2011-04 is not expected to have a material effect on the Company's condensed consolidated financial statements, but may require certain additional disclosures.

In June 2011, the FASB issued ASU 2011-05, *Presentation of Comprehensive Income*, (ASU 2011-05). ASU 2011-05 requires the presentation of comprehensive income in either (1) a continuous statement of comprehensive income or (2) two separate but consecutive statements. ASU 2011-05 will be effective for the Company's quarter ending May 31, 2012. The adoption of ASU 2011-05 is not expected to have a material effect on the Company's condensed consolidated financial statements, but will require a change in the presentation of the Company's comprehensive income from the notes of the condensed consolidated financial statements, where it is currently disclosed, to the face of the condensed consolidated financial statements.

In September 2011, the FASB issued ASU 2011-08, *Testing Goodwill for Impairment*, (ASU 2011-08), which amends the guidance in ASC 350-20, *Intangibles - Goodwill and Other - Goodwill*. Under ASU 2011-08, entities have the option of performing a qualitative assessment before calculating the fair value of the reporting unit when testing goodwill for impairment. If the fair value of the reporting unit is determined, based on qualitative factors, to be more likely than not less than the carrying amount of the reporting unit, then entities are required to perform the two-step goodwill impairment test. ASU 2011-08 will be effective for the Company's fiscal year beginning December 1, 2012, with early adoption permitted. The Company is currently evaluating the effect that ASU 2011-08 will have on its condensed consolidated financial statements.

(18) Supplemental Financial Information

The indentures governing the principal amounts of the Company's 5.95% senior notes due 2011, 5.95% senior notes due 2013, 5.50% senior notes due 2014, 5.60% senior notes due 2015, 6.50% senior notes due 2016, 12.25% senior notes due 2017, 6.95% senior notes due 2018, 2.00% convertible senior notes due 2020 and 2.75% convertible senior notes due 2020 require that, if any of the Company's wholly owned subsidiaries, other than its finance company subsidiaries and foreign subsidiaries, directly or indirectly guarantee at least \$75 million principal amount of debt of Lennar Corporation, those subsidiaries must also guarantee Lennar Corporation's obligations with regard to its senior notes. Until February 2010, the Company had a Credit Facility that required substantially all of the Company's homebuilding subsidiaries to guarantee Lennar Corporation's obligations under the Credit Facility, and therefore, those subsidiaries also guaranteed the Company's obligations with regard to its senior notes. The Company terminated the Credit Facility in February 2010, and because of that, there was a period when there were no guarantors of Lennar's obligations with regard to its senior notes. However, subsequently, the Company entered into the LC Agreement that is guaranteed by all the Company's significant homebuilding subsidiaries, but is not guaranteed by the Company's finance company subsidiaries or by the Rialto segment subsidiaries. The entities referred to as guarantors in the following tables are subsidiaries that were guaranteeing the LC Agreement at August 31, 2011. Supplemental information for the guarantors is as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and accompanying notes included under Item 1 of this Report and our audited consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for our fiscal year ended November 30, 2010.

Some of the statements in this Management's Discussion and Analysis of Financial Condition and Results of Operations, and elsewhere in this Quarterly Report on Form 10-Q, are forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements may include statements regarding our business, financial condition, results of operations, cash flows, strategies and prospects. You can identify forward-looking statements by the fact that these statements do not relate strictly to historical or current matters. Rather, forward-looking statements relate to anticipated or expected events, activities, trends or results. Because forward-looking statements relate to matters that have not yet occurred, these statements are inherently subject to risks and uncertainties. Many factors could cause our actual activities or results to differ materially from the activities and results anticipated in forward-looking statements. These factors include those described under the caption *Risk Factors* included in Item 1A of our Annual Report on Form 10-K for our fiscal year ended November 30, 2010. We do not undertake any obligation to update forward-looking statements, except as required by Federal securities laws.

Outlook

Despite operating in challenging economic conditions, we reported diluted earnings per share of \$0.11 during the third quarter of 2011, making this our sixth consecutive quarter of profitability. We generated profits in all of our business segments. We have seen demand for home purchases slowly return to the marketplace driven by low home prices and all-time low interest rates. However, demand has been limited by tight and tightening credit standards, high unemployment and low overall consumer confidence, which continue to weigh heavily on the purchase of new homes.

Our new orders during the third quarter of 2011 were up 11% year over year, representing the first quarterly increase in over 5 years, excluding the first half of 2010, which had a positive impact from the Federal homebuyer tax credit. Given that the Federal homebuyer tax credit was eliminated in May 2010, if our current sales pace continues, we expect to experience favorable year over year comparisons in the fourth quarter.

We have remained focused on improving our core homebuilding business. We benefitted greatly from our strategic capital investments in new high margin communities, which are producing higher gross margin percentages than our other communities. Our intense focus on efficient business practice through our Everything's Included program, product re-engineering and SG&A reduction all contributed to a profitable third quarter.

In addition, our Rialto segment continued to be profitable generating \$11.7 million of profits this quarter (which included \$6.1 million of net earnings attributable to noncontrolling interests), despite taking a \$10.1 million mark-to-market charge in our PPIP investment. While we expect the Rialto segment to continue to generate profits going forward, there could be volatility in Rialto's future earnings depending on the segment's transactions and earnings from additional investments.

Our Lennar Financial Services segment had operating earnings of \$8.0 million in the third quarter of 2011, compared to \$6.8 million in the same period last year. The efficiencies that we have achieved in this segment position us well for profitability if we maintain or increase the level of transactions.

Our strong balance sheet and liquidity will allow us to continue to purchase new strategic land that we believe will yield high margins for our homebuilding operations or distressed opportunities for our Rialto operations. Given current market conditions, we believe that our company is well positioned to be profitable in the fourth quarter and for the year.

(1) Results of Operations

Overview

We historically have experienced, and expect to continue to experience, variability in quarterly results. Our results of operations for the three and nine months ended August 31, 2011 are not necessarily indicative of the results to be expected for the full year.

The net earnings attributable to Lennar were \$20.7 million, or \$0.11 per basic and diluted share, in the third quarter of 2011, compared to \$30.0 million, or \$0.16 per basic and diluted share, in the third quarter of 2010. Net earnings attributable to Lennar was \$61.9 million, or \$0.33 per basic and diluted share, in the nine months ended August 31, 2011, compared to \$63.2 million, or \$0.34 per basic and diluted share, in the nine months ended August 31, 2010. The decrease in operating results year over year for the three months ended August 31, 2011, was a result of a decrease in Lennar Homebuilding equity in earnings (loss) from unconsolidated entities and an increase in other interest expense, partially offset by an increase in Lennar Homebuilding other income, net. In addition, there was an increase in Lennar Financial Services operating earnings due to cost savings initiatives implemented in its title operations, partially offset by a decrease in Rialto Investments operating earnings primarily due to a decrease in Rialto Investments equity in earnings (loss) from unconsolidated entities.

The decrease in operating results year over year for the nine months ended August 31, 2011 was the result of decreased home sales revenue from a decrease in new home deliveries, an increase in other interest expense and a decrease in Lennar Financial Services operating earnings due to decreased volume in its mortgage operations, partially offset by an increase in Lennar Homebuilding other income, net and an increase in Rialto Investments operating results from an increase in revenues as well as gains from acquisitions of real estate through foreclosure.

Financial information relating to our operations was as follows:

Three Months Ended August 31, 2011 versus Three Months Ended August 31, 2010

Revenues from home sales in the third quarter of 2011 were \$700.6 million, compared to \$697.4 million in the third quarter of 2010. There was a 3% increase in the average sales price of homes delivered, offset by a 3% decrease in the number of home deliveries, excluding unconsolidated entities. New home deliveries, excluding unconsolidated entities, decreased to 2,832 homes in the third quarter of 2011 from 2,909 homes last year. The decrease in home deliveries was primarily in our Homebuilding East and West segments as a result of the absence of the Federal homebuyer tax credit, partially offset by an increase in home deliveries in Homebuilding Other. The average sales price of homes delivered increased to \$247,000 in the third quarter of 2011 from \$240,000 in the same period last year, primarily in all of our Homebuilding segments, except for our Homebuilding West segment and Homebuilding Other. The increase in the average sales price of homes delivered was primarily due to a higher percentage of home deliveries in higher priced communities. The average sales price of homes delivered, excluding unconsolidated entities, decreased in our Homebuilding West segment and Homebuilding Other due to a shift to smaller square footage homes generating a lower average sales price. Sales incentives offered to homebuyers were \$33,600 per home delivered in the third quarter of 2011, or 12.0% as a percentage of home sales revenue, compared to \$33,900 per home delivered in the second quarter of 2011, or 12.1% as a percentage

Edgar Filing: LENNAR CORP /NEW/ - Form 10-Q

of home sales revenue, and \$30,600 per home delivered in the third quarter of 2010, or 11.3% as a percentage of home sales revenue. Currently, our biggest competition is from the sales of existing and foreclosed homes. We differentiate our new homes from those homes by issuing a new home warranty, and in certain markets emphasizing energy efficiency and new technology such as keyless door locks and remote control lighting and thermostats from outside the home.

Gross margins on home sales were \$147.6 million, or 21.1%, in the third quarter of 2011, which included an \$8.2 million, or 120 basis point, benefit related to changes in the Company's cost-to-complete estimates for homebuilding communities in the close-out phase. This benefit primarily impacted the Company's Homebuilding West segment and was offset by \$9.7 million of valuation adjustments that negatively impacted the gross margin percentage by 130 basis points. In the third quarter of 2010, gross margins on home sales were \$147.4 million, or 21.1%, which included third-party recoveries related to Chinese drywall, offset by valuation adjustments, which resulted in a net 80 basis points benefit to the gross margin percentage.

Gross profits on land sales totaled \$1.5 million in the third quarter of 2011, compared to \$4.3 million in the third quarter of 2010.

Selling, general and administrative expenses were \$100.3 million and \$97.2 million, respectively, in the third quarter of 2011 and 2010. Selling, general and administrative expenses as a percentage of revenues from home sales was 14.3% in the third quarter of 2011, compared to 14.9% in the second quarter of 2011 and 13.9% in the third quarter of 2010.

Lennar Homebuilding equity in earnings (loss) from unconsolidated entities was (\$4.6) million in the third quarter of 2011, primarily related to operating losses of Lennar Homebuilding unconsolidated entities, compared to Lennar Homebuilding equity in earnings (loss) from unconsolidated entities of \$1.0 million in the third quarter of 2010.

Lennar Homebuilding other income, net, totaled \$6.9 million in the third quarter of 2011, net of \$2.1 million of valuation adjustments to our investments in unconsolidated entities. Lennar Homebuilding other income, net, totaled \$0.3 million in the third quarter of 2010, net of a \$9.2 million accrual established by us to cover claims arising under obligation guarantees.

Homebuilding interest expense was \$42.4 million in the third quarter of 2011 (\$17.8 million was included in cost of homes sold, \$0.5 million in cost of land sold and \$24.1 million in other interest expense), compared to \$36.7 million in the third quarter of 2010 (\$18.1 million was included in cost of homes sold, \$0.9 million in cost of land sold and \$17.7 million in other interest expense). Interest expense increased primarily due to an increase in our outstanding debt compared to the same period last year.

Operating earnings for our Lennar Financial Services segment was \$8.0 million in the third quarter of 2011, compared to operating earnings of \$6.8 million in the same period last year. The increase in profitability was primarily due to cost saving initiatives successfully implemented in its title operations.

In the third quarter of 2011, operating earnings for our Rialto Investments segment were \$11.7 million (which included \$6.1 million of net earnings attributable to noncontrolling interests), compared to operating earnings of \$18.5 million (which included \$10.8 million of net earnings attributable to noncontrolling interests) in the same period last year. In the third quarter of 2011, revenues in this segment were \$42.1 million, which consisted primarily of interest income associated with the segment's portfolio of real estate loans and fees for managing and servicing assets on the behalf of others, compared to revenues of \$38.0 million in the same period last year, which was almost exclusively interest income. In the third quarter of 2011, Rialto Investments other income, net, was \$9.7 million, which consisted primarily of gains from acquisition of real estate owned through foreclosure, as well as gains from real estate sales, partially offset by expenses related to owning and maintaining those assets.

The segment also had equity in earnings (loss) from unconsolidated entities of (\$6.5) million in the third quarter of 2011, consisting primarily of \$10.1 million of unrealized losses related to our share of the mark-to-market adjustments of the investment portfolio underlying the AllianceBernstein L.P. (AB) fund formed under the Federal government's Public-Private Investment Program (PPIP), partially offset by interest income earned by the AB PPIP fund and equity in earnings related to the Rialto Investments Real Estate Fund. This compares to equity in earnings (loss) from unconsolidated entities of \$6.6 million in the same period last year, which included \$4.7 million of unrealized gains related to our share of the mark-to-market adjustments of AB PPIP investments. In the third quarter of 2011, expenses in this segment were \$33.6 million, which consisted primarily of costs related to its portfolio operations, management of investments for others, due diligence expenses related to both completed and abandoned transactions, and other general and administrative expenses, compared to expenses of \$26.2 million in the same period last year.

Corporate general and administrative expenses were \$22.8 million, or 2.8% as a percentage of total revenues, in the third quarter of 2011, compared to \$24.0 million, or 2.9% as a percentage of total revenues, in the third quarter of 2010.

Net earnings attributable to noncontrolling interests were \$2.8 million and \$8.8 million, respectively, in the third quarter of 2011 and 2010. Net earnings attributable to noncontrolling interests during both the third quarter of 2011 and 2010 were primarily related to net earnings attributable to the FDIC's interest in the portfolio of real estate loans we acquired in partnership with the FDIC, partially offset by net loss attributable to noncontrolling interests related to our Lennar Homebuilding operations.

A reduction of the carrying amounts of deferred tax assets by a valuation allowance is required if, based on available evidence, it is more likely than not that such assets will not be realized. Based upon an evaluation of all available evidence, during the three months ended August 31, 2011, we recorded a reversal of the deferred tax asset valuation allowance of \$5.9 million, primarily due to the net earnings generated during the period.

Our overall effective income tax rates were 2.72% and 1.98%, respectively, for the three months ended August 31, 2011 and 2010. The change in the effective tax rate, compared to same period during 2010, resulted primarily from interest accrued for income taxes during the three months ended August 31, 2011.

Nine Months Ended August 31, 2011 versus Nine Months Ended August 31, 2010

Revenues from home sales decreased 5% in the nine months ended August 31, 2011 to \$1.8 billion from \$1.9 billion in 2010. Revenues were lower primarily due to a 5% decrease in the number of home deliveries, excluding unconsolidated entities. New home deliveries, excluding unconsolidated entities, decreased to 7,387 homes in the nine months ended August 31, 2011 from 7,799 homes last year. Due to the absence of the Federal homebuyer tax credit in the current period, there was a decrease in home deliveries in Homebuilding Other and all of our Homebuilding segments except for our Homebuilding East segment. The increase in home deliveries in our Homebuilding East segment was primarily as a result of an increase in home deliveries from communities acquired in prior to fiscal 2011 that had sales but no deliveries during the nine months ended August 31, 2010. The average sales price of homes delivered, excluding unconsolidated entities, for both the nine months ended August 31, 2011 and 2010 was \$245,000. Sales incentives offered to homebuyers were \$33,600 per home delivered in the nine months ended August 31, 2011, or 12.1% as a percentage of home sales revenue, compared to \$32,500 per home delivered in the same period last year, or 11.7% as a percentage of home sales revenue. Currently, our biggest competition is from the sales of existing and foreclosed homes. We differentiate our new homes from those homes by issuing a new home warranty, and in certain markets emphasizing energy efficiency and new technology such as keyless door locks and remote control lighting and thermostats from outside the home.

Gross margins on home sales were \$365.0 million, or 20.2%, in the nine months ended August 31, 2011, compared to gross margins on home sales of \$389.2 million, or 20.4%, in the nine months ended August 31, 2010. Gross margin percentage on home sales decreased slightly compared to last year primarily due to increased sales incentives offered to homebuyers as a percentage of revenues from home sales.

Gross profits on land sales totaled \$6.9 million in the nine months ended August 31, 2011, compared to gross profits on land sales of \$7.6 million in the nine months ended August 31, 2010.

Selling, general and administrative expenses were \$272.3 million in the nine months ended August 31, 2011, which included \$8.1 million related to expenses associated with remedying pre-existing liabilities of a previously acquired company, offset by \$8.0 million related to the receipt of a settlement discussed below. Selling, general and administrative expenses were \$274.9 million in the nine months ended August 31, 2010. Selling, general and administrative expenses as a percentage of revenues from home sales increased to 15.1% in the nine months ended August 31, 2011, from 14.4% in 2010, primarily due to lower revenues.

Lennar Homebuilding equity in earnings (loss) from unconsolidated entities was \$6.5 million in the nine months ended August 31, 2011, which included our share of a gain on debt extinguishment at one of Lennar Homebuilding's unconsolidated entities totaling \$15.4 million, partially offset by our share of operating losses of Lennar Homebuilding unconsolidated entities, which included \$5.2 million of valuation adjustments related to assets of Lennar Homebuilding's unconsolidated entities. In the nine months ended August 31, 2010, Lennar Homebuilding equity in earnings (loss) from unconsolidated entities was (\$9.3) million, which included \$10.5 million of valuation adjustments related to assets of Lennar Homebuilding unconsolidated entities, partially offset by a net pre-tax gain of \$7.7 million as a result of a transaction by one of Lennar Homebuilding's unconsolidated entities.

Lennar Homebuilding other income, net, totaled \$46.4 million in the nine months ended August 31, 2011, which included \$29.5 million related to the receipt of a settlement. The parties to certain litigation in which we were the plaintiff entered into a settlement agreement in which they agreed we may make the following statement: Lennar recently settled litigation against a third party in connection with Lennar's ongoing dispute with Nicolas Marsch, III and his affiliates. As a result of the settlement, the third party paid Lennar total cash consideration of \$37.5 million and that the terms are confidential. Lennar Homebuilding other income, net, in the nine months ended August 31, 2011 also included \$5.1 million related to the favorable resolution of a joint venture and the recognition of \$10.0 million of deferred management fees related to management services previously performed for one of Lennar Homebuilding's unconsolidated entities. In addition, in the nine months ended August 31, 2011, Lennar Homebuilding other income, net, included \$15.3 million of valuation adjustments to our investments in Lennar Homebuilding's unconsolidated entities and write-offs of other assets. In the nine months ended August 31, 2010, Lennar Homebuilding other income, net, was \$14.3 million, which included a \$19.4 million pre-tax gain on the extinguishment of other debt and other income, partially offset by a pre-tax loss of \$10.8 million related to the repurchase of senior notes through a tender offer.

Homebuilding interest expense was \$119.7 million in the nine months ended August 31, 2011 (\$49.8 million was included in cost of homes sold, \$1.2 million in cost of land sold and \$68.7 million in other interest expense), compared to \$107.0 million in the nine months ended August 31, 2010 (\$51.8 million was included in cost of homes sold, \$1.4 million in cost of land sold and \$53.8 million in other interest expense). Interest expense increased due to an increase in our outstanding debt compared to the same period last year.

Operating earnings for our Lennar Financial Services segment were \$11.7 million in the nine months ended August 31, 2011, compared to operating earnings of \$19.6 million in the same period last year. The decrease in profitability was due primarily to decreased volume in the segment's mortgage operations. In addition, in the nine months ended August 31, 2010, our Lennar Financial Services segment received \$5.1 million of proceeds from the previous sale of a cable system.

In the nine months ended August 31, 2011, operating earnings for our Rialto Investments segment were \$57.4 million (which included \$30.9 million of net earnings attributable to noncontrolling interests), compared to operating earnings of \$32.2 million (which included \$20.4 million of net earnings attributable to noncontrolling interests) in the same period last year. In the nine months ended August 31, 2011, revenues in this segment were \$118.3 million, which consisted primarily of interest income associated with the segment's portfolio of real estate loans and fees for managing and servicing assets on the behalf of others, compared to revenues of \$72.9 million in the same period last year. In the nine months ended August 31, 2011, Rialto Investments other income, net, was \$38.3 million, which consisted primarily of gains from acquisition of real estate owned through foreclosure, as well as gains from real estate sales, partially offset by expenses related to owning and maintaining those assets, and a \$4.7 million gain on the sale of investment securities.

The segment also had equity in earnings (loss) from unconsolidated entities of (\$5.0) million in the nine months ended August 31, 2011, consisting primarily of \$13.8 million of unrealized losses related to our share of the mark-to-market adjustments of the investment portfolio underlying the AB PPIP fund, partially offset by interest income earned by the AB PPIP fund and equity in earnings related to the Rialto Investments Real Estate Fund. This compares to equity in earnings (loss) from unconsolidated entities of \$6.4 million in the same period last year, which included \$4.6 million of unrealized gains related to our share of the mark-to-market adjustments of AB PPIP investments. In the nine months ended August 31, 2011, expenses in this segment were \$94.2 million, which consisted primarily of costs related to its portfolio operations, management of investments for others, due diligence expenses related to both completed and abandoned transactions, and other general and administrative expenses, compared to expenses of \$47.1 million in the same period last year.

Corporate general and administrative expenses were \$66.7 million, or 3.1% as a percentage of total revenues, in the nine months ended August 31, 2011, compared to \$68.9 million, or 3.1% as a percentage of total revenues, in the nine months ended August 31, 2010.

Net earnings attributable to noncontrolling interests were \$25.2 million and \$14.7 million, respectively, in the nine months ended August 31, 2011 and 2010. Net earnings attributable to noncontrolling interests during both the nine months ended August 31, 2011 and 2010 were primarily related to the FDIC's interest in the portfolio of real estate loans that we acquired in partnership with the FDIC.

Based upon an evaluation of all available evidence, during the nine months ended August 31, 2011, we recorded a reversal of the deferred tax asset valuation allowance of \$16.7 million, primarily due to the net earnings generated during the period. At August 31, 2011, the deferred tax asset valuation allowance was \$592.8 million.

Our overall effective income tax rates were (1.43%) and (53.35%), respectively, for the nine months ended August 31, 2011 and 2010. The change in the effective tax rate, compared to the same period in 2010, resulted primarily from interest accrued for income taxes and various income tax benefits recorded in the nine months ended August 31, 2011, while in the same period last year there was a reversal of gross unrecognized tax benefits as a result of the resolution of an issue raised by the IRS that certain compensation was not deductible, and the settlement of certain state tax nexus issues.

Homebuilding Segments

We have grouped our homebuilding activities into four reportable segments, which we refer to as Homebuilding East, Homebuilding Central, Homebuilding West and Homebuilding Houston, based primarily upon similar economic characteristics, geography and product type. Information about homebuilding activities in states that do not have economic characteristics that are similar to those in other states in the same geographic area is grouped under Homebuilding Other, which is not a reportable segment. References in this Management's Discussion and Analysis of Financial Condition and Results of Operations to homebuilding segments are to those reportable segments.

At August 31, 2011, our reportable homebuilding segments and Homebuilding Other consisted of homebuilding divisions located in:

East: Florida, Maryland, New Jersey and Virginia

Central: Arizona, Colorado and Texas ⁽¹⁾

West: California and Nevada

Houston: Houston, Texas

Other: Georgia, Illinois, Minnesota, North Carolina and South Carolina

(1) Texas in the Central reportable segment excludes Houston, Texas, which is its own reportable segment.

The following tables set forth selected financial and operational information related to our homebuilding operations for the periods indicated:

Other	346	223	96,088	60,303	278,000	270,000
Total	2,519	2,173	\$ 642,838	569,297	\$ 255,000	262,000

Of the total homes in backlog listed above, 6 homes with a backlog dollar value of \$3.6 million and an average sales price of \$592,000 represent the backlog from unconsolidated entities at August 31, 2011, compared with backlog from unconsolidated entities of 8 homes with a backlog dollar value of \$5.8 million and an average sales price of \$721,000 at August 31, 2010.

Backlog represents the number of homes under sales contracts. Homes are sold using sales contracts, which are generally accompanied by sales deposits. In some instances, purchasers are permitted to cancel sales if they fail to qualify for financing or under certain other circumstances. The cancellation rates for the three and nine months ended August 31, 2011 were within a range that is consistent with historical cancellation rates. We experienced cancellation rates in our homebuilding segments and Homebuilding Other as follows:

	Three Months Ended		Nine Months Ended

Other	16%	21%	13%	17%
Total	20%	18%	18%	16%

Three Months Ended August 31, 2011 versus Three Months Ended August 31, 2010

Homebuilding East: Homebuilding revenues increased for the three months ended August 31, 2011, compared to the three months ended August 31, 2010, primarily due to an increase in the average sales price of homes delivered in all states of the segment as a result of closing out lower price point communities in the beginning of fiscal 2011 and introducing new communities at a higher price point during the year. Gross margins on home sales were \$64.5 million, or 24.3%, for the three months ended August 31, 2011, compared to gross margins on home sales of \$78.5 million, or 30.9%, for the three months ended August 31, 2010. Gross margin percentage on homes sales decreased compared to last year primarily due to an increase in sales incentives offered to homebuyers as a percentage of revenues from home sales (12.9% in 2011, compared to 11.3% in 2010) and because gross margins on home sales for the three months ended August 31, 2010 included third-party recoveries related to Chinese drywall.

Homebuilding Central: Homebuilding revenues increased for the three months ended August 31, 2011, compared to the three months ended August 31, 2010, primarily due to an increase in the number of home deliveries in Colorado and an increase in the average sales price of homes delivered in Texas, excluding Houston. The increase in the number of home deliveries in Colorado was primarily due to a 57% increase in active community count. The increase in the average sales price of homes delivered in Texas, excluding Houston, was due to the introduction of new higher-end homes at a higher average sales price. Gross margins on home sales were \$11.5 million, or 11.6%, for three months ended August 31, 2011, compared to gross margins on home sales of \$11.5 million, or 12.0%, for three months ended August 31, 2010. Gross margin percentage on homes sales slightly decreased compared to last year primarily due to increased sales incentives offered to homebuyers as a percentage of revenues from home sales (12.5% in 2011, compared to 12.3% in 2010).

Homebuilding West: Homebuilding revenues decreased for the three months ended August 31, 2011, compared to the three months ended August 31, 2010, primarily due to a decrease in the number of home deliveries in California resulting from a decrease in demand for new homes primarily driven by the absence of the Federal homebuyer tax credit in the current period. Gross margins on home sales were \$33.9 million, or 23.7%, for the three months ended August 31, 2011, compared to gross margins on home sales of \$27.8 million, or 16.9%, for the three months ended August 31, 2010. Gross margin percentage on homes sales improved compared to last year primarily due to an \$ 8.1 million benefit related to changes in our cost-to-complete estimates for homebuilding communities in the close-out phase. Sales incentives offered to homebuyers as a percentage of revenues from home sales were 9.9% in 2011, compared to 9.2% in 2010.

Homebuilding Houston: Homebuilding revenues for the three months ended August 31, 2011 were consistent with the three months ended August 31, 2010. There was an increase in the average sales price of homes delivered offset by a decrease in the number of home deliveries resulting from a decrease in demand for new homes primarily driven by the absence of the Federal homebuyer tax credit in the current period. Gross margins on home sales were \$17.9 million, or 19.9%, for the three months ended August 31, 2011, compared to gross margins on home sales of \$16.3 million, or 18.1%, for the three months ended August 31, 2010. Gross margin percentage on homes sales improved compared to last year primarily due to decreased sales incentives offered to homebuyers as a percentage of revenues from home sales (14.0% in 2011, compared to 15.2% in 2010).

Homebuilding Other: Homebuilding revenues increased for the three months ended August 31, 2011, compared to the three months ended August 31, 2010, primarily due to an increase in deliveries in Georgia, which is a new division created last year, offset by a decrease in the number of home deliveries in Illinois. Gross margins on home sales were \$19.7 million, or 19.2%, for the three months ended August 31, 2011, compared to gross margins on home sales of \$13.3 million, or 14.3%, for the three months ended August 31, 2010. Gross margin percentage on homes sales improved compared to last year primarily due to a reduction of valuation adjustments. Sales incentives offered to homebuyers as a percentage of revenues from home sales were 10.0% in 2011, compared to 10.1% in 2010.

Nine Months Ended August 31, 2011 versus Nine Months Ended August 31, 2010

Homebuilding East: Homebuilding revenues increased for the nine months ended August 31, 2011, compared to the nine months ended August 31, 2010, primarily due to an increase in home deliveries in Florida as a result of home deliveries from communities acquired in prior year that had sales but no deliveries during the nine months ended August 31, 2010. Gross margins on home sales were \$170.7 million, or 23.8%, in 2011, compared to gross margins on home sales of \$164.1 million, or 26.8%, for the nine months ended August 31, 2010. Although gross margin percentage on homes sales in this segment remained above average compared to the rest of our homebuilding operations, gross margin percentage of home sales decreased compared to the prior year primarily due to increased sales incentives offered to homebuyers as a percentage of revenues from home sales (12.7% in 2011, compared to 12.2% in 2010) and because gross margins on home sales for the nine months ended August 31, 2010 included third-party recoveries related to Chinese drywall.

Homebuilding Central: Homebuilding revenues decreased for the nine months ended August 31, 2011, compared to the nine months ended August 31, 2010, primarily due to a decrease in the number of home deliveries in Arizona and Texas, excluding Houston, resulting from a decrease in demand for new homes primarily driven by the absence of the Federal homebuyer tax credit in the current period. Gross margins on home sales were \$30.3 million, or 11.9%, for the nine months ended August 31, 2011, compared to gross margins on homes sales of \$36.0 million, or 13.8%, for the nine months ended August 31, 2010. Gross margin percentage on homes sales decreased compared to last year primarily due to adjustments to pre-existing home warranties in Texas, excluding Houston and an increase in valuation adjustments, partially offset by a decrease in sales incentives offered to homebuyers as a percentage of revenues from home sales (12.7% in 2011, compared to 13.3% in 2010).

Homebuilding West: Homebuilding revenues decreased for the nine months ended August 31, 2011, compared to the nine months ended August 31, 2010, primarily due to a decrease in the number of home deliveries in California and a decrease in the average sales price of homes delivered in the segment. The decrease in the number of home deliveries in California resulted from a decrease in demand for new homes primarily driven by the absence of the Federal homebuyer tax credit in the current period. The decrease in the average sales

price in the segment was due to a shift to smaller square footage homes generating a lower average sales price during the nine months ended August 31, 2011. Gross margins on home sales were \$75.0 million, or 20.9%, for the nine months ended August 31, 2011, compared to gross margins on home sales of \$97.1 million, or 19.2%, for the nine months ended August 31, 2010. Gross margin percentage on home sales improved compared to last year primarily due to an \$ 8.1 million benefit, related to changes in our cost-to-complete estimates for homebuilding communities in the close-out phase, partially offset by a higher percentage of home deliveries in lower price point communities and reduced pricing as the segment focused on reducing its completed unsold inventory. Sales incentives offered to homebuyers as a percentage of revenues from home sales were 9.4% in 2011, compared to 9.1% in 2010.

Homebuilding Houston: Homebuilding revenues decreased for the nine months ended August 31, 2011, compared to the nine months ended August 31, 2010, primarily due to a decrease in the number of home deliveries resulting from a decrease in demand for new homes primarily driven by the absence of the Federal homebuyer tax credit in the current period. Gross margins on home sales were \$39.5 million, or 18.3%, for the nine months ended August 31, 2011, compared to gross margins on home sales of \$50.7 million, or 19.2%, for the nine months ended August 31, 2010. Gross margin percentage on home sales decreased compared to last year primarily due to reduced pricing in some lower price point communities in an effort to reduce its completed unsold inventory. Sales incentives offered to homebuyers as a percentage of revenues from home sales were 14.6% in 2011, compared to 14.7% in 2010.

Homebuilding Other: Homebuilding revenues slightly decreased for the nine months ended August 31, 2011, compared to the nine months ended August 31, 2010, primarily due to a decrease in the number of home deliveries in the Carolinas and Illinois, partially offset by an increase in deliveries in Georgia, which is a new division created last year. The decrease in deliveries in the Carolinas and Illinois was due to a decrease in demand for new homes primarily driven by the absence of the Federal homebuyer tax credit in the current period. In addition, the decreased in homebuilding revenues was partially offset by an increase in the average sales price of homes delivered in Georgia. Gross margins on home sales were \$49.5 million, or 19.0%, for the nine months ended August 31, 2011, compared to gross margins on home sales of \$41.3 million, or 15.7%, for the nine months ended August 31, 2010. Gross margin percentage on home sales improved compared to last year primarily due to a reduction of valuation adjustments, partially offset by an increase in sales incentives offered to homebuyers as a percentage of revenues from home sales (11.1% in 2011, compared to 10.8% in 2010).

At August 31, 2011 and 2010, we owned 91,386 homesites and 84,062 homesites, respectively, and had access to an additional 15,988 homesites and 21,518 homesites, respectively, through either option contracts with third parties or agreements with unconsolidated entities in which we have investments. At November 30, 2010, we owned 84,482 homesites and had access to an additional 19,974 homesites through either option contracts with third parties or agreements with unconsolidated entities in which we have investments. At August 31, 2011, 2% of the homesites we owned were subject to home purchase contracts. At August 31, 2011 and 2010, our backlog of sales contracts was 2,519 homes (\$642.8 million) and 2,173 homes (\$569.3 million), respectively.

Lennar Financial Services Segment

The following table presents selected financial data related to our Lennar Financial Services segment for the periods indicated:

(Dollars in thousands)	Three Months Ended August 31,		Nine Months Ended August 31,	
	2011	2010	2011	2010
Revenues	\$ 66,374	68,826	183,509	196,727
Costs and expenses	58,386	62,013	171,843	177,162
Operating earnings	\$ 7,988	6,813	11,666	19,565
Dollar value of mortgages originated	\$ 749,000	918,000	1,958,000	2,249,000
Number of mortgages originated	3,500	4,200	9,400	10,500
Mortgage capture rate of Lennar homebuyers	77%	86%	78%	85%
Number of title and closing service transactions	20,800	26,100	63,000	73,700
Number of title policies issued	28,000	22,800	91,400	75,800

Rialto Investments Segment

Rialto's objective is to generate superior, risk-adjusted returns by focusing on commercial and residential real estate opportunities arising from dislocations in the United States real estate markets and the eventual restructure and recapitalization of those markets. Rialto believes it will be able to deliver these returns through its abilities to source, underwrite, price, manage and ultimately monetize real estate assets, as well as providing similar services to others in markets across the country.

The following table presents the results of operations of our Rialto segment for the periods indicated:

(In thousands)	Three Months Ended August 31,		Nine Months Ended August 31,	
	2011	2010	2011	2010
Revenues	\$ 42,065	38,000	118,283	72,918
Costs and expenses	33,562	26,156	94,184	47,073
Rialto Investments equity in earnings (loss) from unconsolidated entities	(6,505)	6,643	(4,953)	6,350
Rialto Investments other income, net	9,743		38,275	
Operating earnings (1)	\$ 11,741	18,487	57,421	32,195

- (1) Operating earnings for the three and nine months ended August 31, 2011 include \$6.1 million and \$30.9 million, respectively, of net earnings attributable to noncontrolling interests. Operating earnings for the three and nine months ended August 31, 2010 include \$10.8 million and \$20.4 million, respectively, of net earnings attributable to noncontrolling interests.

Distressed Asset Portfolios

In February 2010, the Rialto segment acquired indirectly 40% managing member equity interests in two limited liability companies (LLCs), in which the FDIC holds the remaining 60% interests. The LLCs hold performing and non-performing loans formerly owned by 22 failed financial institutions and when the Rialto segment acquired its interests in the LLCs, the two portfolios consisted of approximately 5,500 distressed residential and commercial real estate loans. The FDIC provided \$626.9 million of financing with 0% interest, which is non-recourse to us and the LLCs. As of August 31, 2011, the notes payable balance was \$626.9 million; however, \$189.7 million of cash collections on loans in excess

Edgar Filing: LENNAR CORP /NEW/ - Form 10-Q

of expenses had been deposited in a defeasance account, established for the repayment of the notes payable, under the agreement with the FDIC. The funds in the defeasance account will be used to retire the notes payable upon their maturity.

The LLCs met the accounting definition of variable interest entities (VIEs) and since we were determined to be the primary beneficiary, we consolidated the LLCs. At August 31, 2011, these consolidated LLCs had total combined assets and liabilities of \$1.4 billion and \$0.6 billion, respectively.

In September 2010, the Rialto segment acquired approximately 400 distressed residential and commercial real estate loans and over 300 real estate owned (REO) properties from three financial institutions. We paid \$310 million for the distressed real estate and real estate related assets, of which \$124 million was financed through a 5-year senior unsecured note provided by one of the selling institutions.

Investments

An affiliate in the Rialto segment is a sub-advisor to the AB PPIP fund and receives management fees for sub-advisory services. We also made a commitment to invest \$75 million in the AB PPIP fund, of which the remaining outstanding commitment as of August 31, 2011 was \$7.5 million. During both the three and nine months ended August 31, 2011, we contributed \$3.7 million to the AB PPIP fund. As of August 31, 2011 and November 30, 2010, the carrying value of our investment in the AB PPIP fund was \$71.8 million and \$77.3 million, respectively.

In November 2010, the Rialto segment completed its first closing of a real estate investment fund (the Fund) with initial equity commitments of approximately \$300 million (including \$75 million committed by the Company). During the three and nine months ended August 31, 2011, the Company contributed \$30.9 million and \$60.6 million, respectively, to the Fund out of total investor contributions of \$181.6 million and \$301.0 million, respectively. During the nine months ended August 31, 2011, the Fund acquired distressed real estate asset portfolios and invested in commercial mortgage backed securities (CMBS) at a discount to par value. As of August 31, 2011, the carrying value of the Company s investment in the Fund was \$61.5 million.

Additionally, another subsidiary in the Rialto segment also has approximately a 5% investment in a service and infrastructure provider to the residential home loan market (the Servicer Provider), which provides services to the consolidated LLCs, among others. As of August 31, 2011 and November 30, 2010, the carrying value of our investment in the Servicer Provider was \$8.9 million and \$7.3 million, respectively.

(2) Financial Condition and Capital Resources

At August 31, 2011, we had cash and cash equivalents related to our homebuilding, financial services and Rialto operations of \$927.3 million, compared to \$1,037.5 million at August 31, 2010. We finance our land acquisition and development activities, construction activities, financial services activities, Rialto activities and general operating needs primarily with cash generated from our operations, debt issuances and equity offerings, as well as cash borrowed under our warehouse lines of credit.

Operating Cash Flow Activities

In the nine months ended August 31, 2011 and 2010, cash (used in) provided by operating activities amounted to (\$115.6) million and \$189.1 million, respectively.

During the nine months ended August 31, 2011, cash used in operating activities were impacted by a decrease in accounts payable and other liabilities, an increase in inventories due to strategic land purchases and an increase in other assets due to purchases of loans receivable, partially offset by our net earnings, a decrease in Lennar Financial Services loans held-for-sale and a decrease in receivables. The fluctuation in cash provided by operating activities for the nine months ended August 31, 2010 to cash used in operating activities for the nine months ended August 31, 2011 was primarily due to the \$323.7 million tax refund received during the nine months ended August 31, 2010, which positively impacted cash provided by operating activities.

Investing Cash Flow Activities

During the nine months ended August 31, 2011 and 2010, cash used in investing activities totaled \$161.6 million and \$557.2 million, respectively. During the nine months ended August 31, 2011, we received \$52.8 million of principal payments on Rialto Investments loans receivable, \$55.3 million of proceeds from the sale of

REO and \$25.3 million of distributions of capital from Lennar Homebuilding unconsolidated entities. This was offset by \$89.5 million of cash contributions to Lennar Homebuilding unconsolidated entities primarily for working capital and debt reduction, \$64.4 million of cash contributions to Rialto Investments unconsolidated entities, \$88.4 million increase in Rialto Investments defeasance cash and \$51.9 million to purchase investment securities held-to-maturity by Lennar Financial Services.

During the nine months ended August 31, 2010, our Rialto segment contributed \$243 million of cash (net of \$22 million working capital reserve) to acquire indirectly 40% managing member interests in two LLCs in partnership with the FDIC. Upon the consolidation of the LLCs that hold the two portfolios of real estate loans acquired in the FDIC transaction, the Company consolidated \$93.3 million of cash, resulting in net contributions to consolidated entities by the Rialto segment of \$171.8 million during the nine months ended August 31, 2010. The Rialto segment also contributed \$64.3 million of cash to unconsolidated entities related primarily to the AB PPIP fund. In the nine months ended August 31, 2010, we also contributed \$162.3 million of cash to Lennar Homebuilding unconsolidated entities. In addition, there was an increase in cash used in investing activities related to an increase of \$122.0 million in restricted cash used to collateralize letters of credit.

We are always looking at the possibility of acquiring homebuilders and other companies. However, at August 31, 2011, we had no agreements or understandings regarding any significant transactions.

Financing Cash Flow Activities

During the nine months ended August 31, 2011, our cash used in financing activities of \$189.6 million was primarily attributed to principal payments on other borrowings and net repayments under our Lennar Financial Services warehouse repurchase facilities. During the nine months ended August 31, 2010, our cash used in financing activities of \$51.8 million was primarily attributed to the redemption of senior notes and principal payments on other borrowings, offset primarily by the issuance of new debt.

Debt to total capital ratios are financial measures commonly used in the homebuilding industry and are presented to assist in understanding the leverage of our Lennar Homebuilding operations. Management believes providing a measure of leverage of our Lennar Homebuilding operations enables management and readers of our financial statements to better understand our financial position and performance. Lennar Homebuilding debt to total capital and net Lennar Homebuilding debt to total capital are calculated as follows:

(Dollars in thousands)	August 31, 2011	November 30, 2010	August 31, 2010
Lennar Homebuilding debt	\$ 3,127,649	3,128,154	2,843,229
Stockholders' equity	2,670,491	2,608,949	2,501,763
Total capital	\$ 5,798,140	5,737,103	5,344,992
Lennar Homebuilding debt to total capital	53.9%	54.5%	53.2%
Lennar Homebuilding debt	\$ 3,127,649	3,128,154	2,843,229
Less: Lennar Homebuilding cash and cash equivalents	800,332	1,207,247	865,657
Net Lennar Homebuilding debt	\$ 2,327,317	1,920,907	1,977,572
Net Lennar Homebuilding debt to total capital (1)	46.6%	42.4%	44.1%

(1) Net Lennar Homebuilding debt to total capital consists of net Lennar Homebuilding debt (Lennar Homebuilding debt less Lennar Homebuilding cash and cash equivalents) divided by total capital (net Lennar Homebuilding debt plus stockholders' equity). At August 31, 2011, net Lennar Homebuilding debt to total capital was higher compared to August 31, 2010, due to the increase in Lennar Homebuilding debt as a result of an increase in senior notes and a decrease in Lennar Homebuilding cash and cash equivalents, partially offset by an increase in stockholders' equity primarily related to our net earnings.

Our Lennar Homebuilding average debt outstanding was \$3.1 billion for the nine months ended August 31, 2011, compared to \$2.8 billion in the same period last year. The average rate for interest incurred was 5.8% for the nine months ended August 31, 2011, compared to 6.2% for the nine months ended August 31, 2010. Interest incurred related to Lennar Homebuilding debt for the nine months ended August 31, 2011 was

\$151.0 million,

compared to \$136.1 million in the same period last year. The majority of our short-term financing needs, including financings for land acquisition and development activities and general operating needs, are met with cash generated from operations and proceeds from debt issuances.

We have a \$150 million Letter of Credit and Reimbursement Agreement (LC Agreement) with certain financial institutions. The LC Agreement may be increased to \$200 million, although there are currently no commitments for the additional \$50 million. We believe we were in compliance with our covenants related to the LC Agreement at August 31, 2011.

Our performance letters of credit outstanding were \$67.9 million and \$78.9 million, respectively, at August 31, 2011 and November 30, 2010. Our financial letters of credit outstanding were \$203.5 million and \$195.0 million, respectively, at August 31, 2011 and November 30, 2010. Performance letters of credit are generally posted with regulatory bodies to guarantee our performance of certain development and construction activities, and financial letters of credit are generally posted in lieu of cash deposits on option contracts, for insurance risks, credit enhancements and as other collateral.

At August 31, 2011, our Lennar Financial Services segment had a warehouse repurchase facility with a maximum aggregate commitment of \$150 million and an additional uncommitted amount of \$50 million that matures in February 2012. In addition, our Lennar Financial Services segment amended its warehouse repurchase facility that matured in July 2011 by extending its maturity to July 2012 with a maximum aggregate commitment of \$175 million. The maximum aggregate commitment under these facilities totaled \$325 million as of August 31, 2011.

Our Lennar Financial Services segment uses these facilities to finance its lending activities until the mortgage loans are sold to investors and expects the facilities to be renewed or replaced with other facilities when they mature. Borrowings under the facilities were \$215.3 million and \$271.6 million, respectively, at August 31, 2011 and November 30, 2010, and were collateralized by mortgage loans and receivables on loans sold to investors but not yet paid for with outstanding principal balances of \$227.0 million and \$286.0 million, respectively, at August 31, 2011 and November 30, 2010.

Since our Lennar Financial Services segment's borrowings under the warehouse repurchase facilities are generally repaid with the proceeds from the sale of mortgage loans and receivables on loans that secure those borrowings, the facilities are not likely to be a call on our current cash or future cash resources. If the facilities are not renewed, the borrowings under the lines of credit will be paid off by selling mortgage loans held-for-sale and by collecting on receivables on loans sold to investors but not yet paid. Without the facilities, our Lennar Financial Services segment would have to use cash from operations and other funding sources to finance its lending activities.

Changes in Capital

We have a stock repurchase program which permits the purchase of up to 20 million shares of our outstanding common stock. During the three months ended August 31, 2011 and 2010, there were no repurchases of common stock under the stock repurchase program. As of August 31, 2011, 6.2 million shares of common stock can be repurchased in the future under the program.

During both the three and nine months ended August 31, 2011, treasury stock increased by an immaterial amount of common shares in connection with activity related to the Company's equity compensation plans.

On July 21, 2011, we paid cash dividends of \$0.04 per share for both our Class A and Class B common stock to holders of record at the close of business on July 7, 2011, as declared by our Board of Directors on June 22, 2011. On October 5, 2011, our Board of Directors declared a quarterly cash dividend of \$0.04 per share on both our Class A and Class B common stock payable on November 2, 2011 to holders of record at the close of business on October 19, 2011.

Based on our current financial condition and credit relationships, we believe that our operations and borrowing resources will provide for our current and long-term capital requirements at our anticipated levels of activity.

Off-Balance Sheet Arrangements*Lennar Homebuilding - Investments in Unconsolidated Entities*

At August 31, 2011, we had equity investments in 36 unconsolidated entities (of which 12 had recourse debt, 8 had non-recourse debt and 16 had no debt), compared to 36 and 42 unconsolidated entities at May 31, 2011 and November 30, 2010, respectively. Historically, we invested in unconsolidated entities that acquire and develop land (1) for our homebuilding operations or for sale to third parties or (2) for the construction of homes for sale to third-party homebuyers. Through these entities, we primarily sought to reduce and share our risk by limiting the amount of our capital invested in land, while obtaining access to potential future homesites and allowing us to participate in strategic ventures. The use of these entities also, in some instances, enabled us to acquire land to which we could not otherwise obtain access, or could not obtain access on as favorable terms, without the participation of a strategic partner. Participants in these joint ventures are land owners/developers, other homebuilders and financial or strategic partners. Joint ventures with land owners/developers have given us access to homesites owned or controlled by our partner. Joint ventures with other homebuilders have provided us with the ability to bid jointly with our partner for large land parcels. Joint ventures with financial partners have allowed us to combine our homebuilding expertise with access to our partners' capital. Joint ventures with strategic partners have allowed us to combine our homebuilding expertise with the specific expertise (e.g., commercial or infill experience) of our partner. Each joint venture is governed by an executive committee consisting of members from the partners or by unanimous approval from the partners.

Summarized condensed financial information on a combined 100% basis related to Lennar Homebuilding's unconsolidated entities that are accounted for by the equity method was as follows:

Statements of Operations and Selected Information

<i>(Dollars in thousands)</i>	Three Months Ended		At or for the	
	August 31,		Nine Months Ended	
	2011	2010	2011	2010
Revenues	\$ 104,690	84,327	255,004	183,850

Net earnings (loss) of unconsolidated entities	\$ (3,909)	(67,995)	116,938	(116,472)
Our share of net earnings (loss)	\$ (4,218)	(313)	25,520	(9,845)
Lennar Homebuilding equity in earnings (loss) from unconsolidated entities (1)	\$ (4,552)	986	6,526	(9,310)
Our cumulative share of net earnings deferred at August 31, 2011 and 2010, respectively			\$ 6,815	9,339
Our investments in unconsolidated entities			\$ 653,080	664,916
Equity of the unconsolidated entities			\$ 2,279,503	2,266,953
Our investment % in the unconsolidated entities			29%	29%

- (1) For the nine months ended August 31, 2011, our share of net earnings recognized includes a \$15.4 million gain related to our share of a \$123.0 million gain on debt extinguishment at a Lennar Homebuilding unconsolidated entity, partially offset by \$5.2 million of valuation adjustments related to assets of Lennar Homebuilding's unconsolidated entities.

Balance Sheets

(In thousands)	August 31, 2011	November 30, 2010
Assets:		
Cash and cash equivalents	\$ 70,099	82,573
Inventories	3,168,938	3,371,435
Other assets	305,238	307,244
	\$ 3,544,275	3,761,252
Liabilities and equity:		
Account payable and other liabilities	\$ 245,345	327,824
Debt	1,019,427	1,284,818
Equity	2,279,503	2,148,610
	\$ 3,544,275	3,761,252

During the first quarter of 2011, a Lennar Homebuilding unconsolidated entity was restructured. As part of the restructuring, the development management agreement (the Agreement) between us and the unconsolidated entity was terminated and a general release agreement was executed whereby we were released from any and all obligations, except any future potential third-party claims, associated with the Agreement. As a result of the restructuring, the termination of the Agreement and the execution of the general release agreement, we recognized \$10 million of deferred management fees related to management services previously performed by us prior to November 30, 2010. We are not providing any other services to the unconsolidated entity associated with the deferred management fees recognized.

In fiscal 2007, we sold a portfolio of land to a strategic land investment venture with Morgan Stanley Estate Fund II, L.P., an affiliate of Morgan Stanley & Co., Inc., in which we have a 20% ownership interest and 50% voting rights. Due to our continuing involvement, the transaction did not qualify as a sale by us under GAAP; thus, the inventory has remained on our condensed consolidated balance sheets in consolidated inventory not owned. As of August 31, 2011 and November 30, 2010, the portfolio of land (including land development costs) of \$378.5 million and \$424.5 million, respectively, is also reflected as inventory in the summarized condensed financial information related to Lennar Homebuilding's unconsolidated entities in which we have investments.

Debt to total capital of our Lennar Homebuilding unconsolidated entities in which we have investments was calculated as follows:

(Dollars in thousands)	August 31, 2011	November 30, 2010
Debt	\$ 1,019,427	1,284,818
Equity	2,279,503	2,148,610
Total capital	\$ 3,298,930	3,433,428
Debt to total capital of our unconsolidated entities	30.9%	37.4%

Our investments in Lennar Homebuilding unconsolidated entities by type of venture were as follows:

(In thousands)	August 31, 2011	November 30, 2010
Land development	\$ 565,382	530,004
Homebuilding	87,698	96,181
Total investments	\$ 653,080	626,185

The summary of our net recourse exposure related to our Lennar Homebuilding unconsolidated entities in which we have investments was as follows:

(In thousands)	August 31, 2011	November 30, 2010
Several recourse debt repayment	\$ 62,635	33,399
Several recourse debt maintenance	2,230	29,454
Joint and several recourse debt repayment	48,057	48,406
Joint and several recourse debt maintenance	43,466	61,591
Lennar's maximum recourse exposure	156,388	172,850
Less: joint and several reimbursement agreements with our partners	(57,053)	(58,878)
Lennar's net recourse exposure	\$ 99,335	113,972

During the nine months ended August 31, 2011, our maximum recourse exposure related to indebtedness of our Lennar Homebuilding unconsolidated entities decreased by \$52.7 million as a result of \$17.7 million paid by us primarily through capital contributions to unconsolidated entities and \$35.0 million related to the restructuring of a guarantee, the consolidation of a joint venture in the first quarter of 2011 and the joint ventures selling inventory, which was partially offset by a \$36.3 million increase in the maximum recourse exposure for consideration given in the form of a several guarantee in connection with the favorable debt maturity extension to 2018 and principal reduction at Heritage Fields El Toro, one of our Lennar Homebuilding unconsolidated entities as discussed in the note to the following table.

As of August 31, 2011, we had no obligation guarantees accrued. At November 30, 2010, we had \$10.2 million of obligation guarantees accrued as a liability on its condensed consolidated balance sheet. During the nine months ended August 31, 2011, the liability was reduced by \$10.2 million, of which \$7.6 million were cash payments related to obligation guarantees previously recorded and \$2.6 million was a reduction in estimate of an obligation guarantee. The obligation guarantees are estimated based on current facts and circumstances and any unexpected changes may lead us to incur additional obligation guarantees in the future.

Indebtedness of an unconsolidated entity is secured by its own assets. Some unconsolidated entities own multiple properties and other assets. There is no cross collateralization of debt to different unconsolidated entities. We also do not use our investment in one unconsolidated entity as collateral for the debt in another unconsolidated entity or commingle funds among our unconsolidated entities.

In connection with a loan to an unconsolidated entity, we and our partners often guarantee to a lender either jointly and severally or on a several basis, any, or all of the following: (i) the completion of the development, in whole or in part, (ii) indemnification of the lender from environmental issues, (iii) indemnification of the lender from bad boy acts of the unconsolidated entity (or full recourse liability in the event of unauthorized transfer or bankruptcy) and (iv) that the loan to value and/or loan to cost will not exceed a certain percentage (maintenance or remargining guarantee) or that a percentage of the outstanding loan will be repaid (repayment guarantee).

In connection with loans to an unconsolidated entity where there is a joint and several guarantee, we generally have a reimbursement agreement with our partner. The reimbursement agreement provides that neither party is responsible for more than its proportionate share of the guarantee. However, if our joint venture partner does not have adequate financial resources to meet its obligations under the reimbursement agreement, we may be liable for more than our proportionate share, up to our maximum exposure, which is the full amount covered by the joint and several guarantee.

The recourse debt exposure in the previous table represents our maximum exposure to loss from guarantees and does not take into account the underlying value of the collateral or the other assets of the borrowers that are available to repay the debt or to reimburse us for any payments on our guarantees. Our Lennar Homebuilding unconsolidated entities that have recourse debt have a significant amount of assets and equity. The summarized balance sheets of our Lennar Homebuilding unconsolidated entities with recourse debt were as follows:

(In thousands)	August 31, 2011	November 30, 2010
Assets (1)	\$ 2,159,248	990,028
Liabilities (1)	\$ 876,034	487,606
Equity (1)	\$ 1,283,214	502,422

- (1) In the first quarter of 2011, Heritage Fields El Toro, one of Lennar Homebuilding's unconsolidated entities, extended the maturity of its \$573.5 million debt until 2018, which at the time was without recourse to Lennar. In exchange for the extension and partial debt extinguishment, which reduced the outstanding debt balance to \$481.0 million in the first quarter of 2011, all the partners agreed to provide a limited several repayment guarantee on the outstanding debt, which resulted in a \$36.3 million increase to our maximum recourse exposure and a subsequent increase to assets, liabilities and equity of Lennar Homebuilding unconsolidated entities that have recourse debt. In addition, we recognized a \$15.4 million gain for our share of the \$123.0 million gain on debt extinguishment in the first quarter of 2011.

In addition, in most instances in which we have guaranteed debt of a Lennar Homebuilding unconsolidated entity, our partners have also guaranteed that debt and are required to contribute their share of the guarantee payment. Some of our guarantees are repayment guarantees and some are maintenance guarantees. In a repayment guarantee, we and our venture partners guarantee repayment of a portion or all of the debt in the event of a default before the lender would have to exercise its rights against the collateral. In the event of default, if our venture partner does not have adequate financial resources to meet its obligation under our reimbursement agreement, we may be liable for more than our proportionate share, up to our maximum recourse exposure, which is the full amount covered by the joint and several guarantee. The maintenance guarantees only apply if the value of the collateral (generally land and improvements) is less than a specified percentage of the loan balance. If we are required to make a payment under a maintenance guarantee to bring the value of the collateral above the specified percentage of the loan balance, the payment would generally constitute a capital contribution or loan to the Lennar Homebuilding unconsolidated entity and increase our share of any funds the unconsolidated entity distributes.

In connection with many of the loans to Lennar Homebuilding unconsolidated entities, we and our joint venture partners (or entities related to them) have been required to give guarantees of completion to the lenders. Those completion guarantees may require that the guarantors complete the construction of the improvements for which the financing was obtained. If the construction is to be done in phases, the guarantee generally is limited to completing only the phases as to which construction has already commenced and for which loan proceeds were used.

During the three months ended August 31, 2011, there were: (1) no payments under our maintenance guarantees and (2) other loan paydowns of \$3.1 million, a portion of which related to amounts paid under our repayment guarantees. During the three months ended August 31, 2010, there were: (1) payments of \$3.0 million under our maintenance guarantees, (2) at our election, a loan paydown of \$50.3 million, representing both our and our partner's share, in return for a 4-year loan extension and the rights to obtain preferred returns and priority distributions at one of Lennar Homebuilding's unconsolidated entities, and (3) a \$19.3 million payment to extinguish debt at a discount and buyout the partner of one of Lennar Homebuilding's unconsolidated entities that resulted in a net pre-tax gain of \$7.7 million. In addition, during the three months ended August 31, 2010, there were other loan paydowns of \$0.9 million. During the three months ended August 31, 2011 and 2010, there were no payments under completion guarantees.

During the nine months ended August 31, 2011, there were: (1) payments of \$1.7 million under our maintenance guarantees and (2) other loan paydowns of \$16.1 million, a portion of which related to amounts paid under our repayment guarantees. During the nine months ended August 31, 2010, there were: (1) payments of \$8.0 million under our maintenance guarantees, (2) at our election, a loan paydown of \$50.3 million, representing both our and our partner's share, in return for a 4-year loan extension and the rights to obtain preferred returns and

priority distributions at one of Lennar Homebuilding's unconsolidated entities, and (3) a \$19.3 million payment to extinguish debt at a discount and buyout the partner of one of Lennar Homebuilding's unconsolidated entities that resulted in a net pre-tax gain of \$7.7 million. In addition, during the nine months ended August 31, 2010, there were other loan paydowns of \$27.9 million, a portion of which related to amounts paid under our repayment guarantees. During the nine months ended August 31, 2011 and 2010, there were no payments under completion guarantees.

As of August 31, 2011, the fair values of the maintenance guarantees, repayment guarantees and completion guarantees were not material. We believe that as of August 31, 2011, in the event we become legally obligated to perform under a guarantee of the obligation of a Lennar Homebuilding unconsolidated entity due to a triggering event under a guarantee, most of the time the collateral should be sufficient to repay at least a significant portion of the obligation or we and our partners would contribute additional capital into the venture.

The total debt of Lennar Homebuilding unconsolidated entities in which we have investments was as follows:

(In thousands)	August 31, 2011	November 30, 2010
Lennar's net recourse exposure	\$ 99,335	113,972
Reimbursement agreements from partners	57,053	58,878
Lennar's maximum recourse exposure	\$ 156,388	172,850
Non-recourse bank debt and other debt (partner's share of several recourse)	\$ 152,516	79,921
Non-recourse land seller debt or other debt	26,400	58,604
Non-recourse debt with completion guarantees	485,994	600,297
Non-recourse debt without completion guarantees	198,129	373,146
Non-recourse debt to Lennar	863,039	1,111,968
Total debt	\$ 1,019,427	1,284,818
Lennar's maximum recourse exposure as a % of total JV debt	15%	13%

In view of current credit market conditions, it is not uncommon for lenders to real estate developers, including joint ventures in which we have interests, to assert non-monetary defaults (such as failure to meet construction completion deadlines or declines in the market value of collateral below required amounts) or technical monetary defaults against the real estate developers. In most instances, those asserted defaults are resolved by modifications of the loan terms, additional equity investments or other concessions by the borrowers. In addition, in some instances, real estate developers, including joint ventures in which we have interests, are forced to request temporary waivers of covenants in loan documents or modifications of loan terms, which are often, but not always obtained. However, in some instances developers, including joint ventures in which we have interests, are not able to meet their monetary obligations to lenders, and are thus declared in default. Because we sometimes guarantee all or portions of the obligations to lenders of joint ventures in which we have interests, when these joint ventures default on their obligations, lenders may or may not have claims against us. Normally, we do not make payments with regard to guarantees of joint venture obligations while the joint ventures are contesting assertions regarding sums due to their lenders. When it is determined that a joint venture is obligated to make a payment that we have guaranteed and the joint venture will not be able to make that payment, we accrue the amounts probable to be paid by us as a liability. Although we generally fulfill our guarantee obligations within a reasonable time after we determine that we are obligated with regard to them, at any point in time it is likely that we will have some balance of unpaid guarantee liability. At August 31, 2011, we had no liabilities accrued for unpaid guarantees of joint venture indebtedness on our consolidated balance sheet.

The following table summarizes the principal maturities of our Lennar Homebuilding unconsolidated entities (JVs) debt as per current debt arrangements as of August 31, 2011 and does not represent estimates of future cash payments that will be made to reduce debt balances. Some JV loans have extension options in the loan agreements that would allow the loans to be extended into future years.

(In thousands)	Principal Maturities of Unconsolidated JVs by Period						
	Total JV Assets (1)	Total JV Debt	2011	2012	2013	Thereafter	Other Debt (2)
Net recourse debt to Lennar	\$	99,335	4,710	23,149	25,784	45,692

- (1) All of the joint ventures presented in this table operate in our Homebuilding West segment except for Rocking Horse Partners, which operates in our Homebuilding Central segment and MS Rialto Residential Holdings, which operates in all of our homebuilding segments and Homebuilding Other.
- (2) Subsequent to August 31, 2011, we entered into a transaction in which we received a net asset distribution from Platinum Triangle Partners, resulting in an immaterial gain. Upon the distribution of the net assets, the partners repaid the respective debt amounts assumed. As a result, our maximum recourse exposure related to indebtedness of our Lennar Homebuilding unconsolidated entities decreased by \$43.5 million.

The table below indicates the percentage of assets, debt and equity of our 10 largest Lennar Homebuilding unconsolidated joint venture investments as of August 31, 2011:

Rialto Investments - Investments in Unconsolidated Entities

An affiliate in the Rialto segment is a sub-advisor to the AB PPIP fund and receives management fees for sub-advisory services. As of August 31, 2011, 90% of committed capital has been called for the AB PPIP fund including \$67.5 million of the \$75 million we committed to invest. As of August 31, 2011, the AB PPIP fund has invested approximately \$4.3 billion to purchase \$6.6 billion in face amount of non-agency residential mortgage-backed securities and commercial mortgage-backed securities and this investment is included in the investment securities reflected in the summarized condensed balance sheets of Rialto's unconsolidated entities. The gross yield of the fund since its inception has totaled approximately 37%. As of August 31, 2011 and November 30, 2010, the carrying value of our investment in the AB PPIP fund was \$71.8 million and \$77.3 million, respectively.

During 2010, we committed to invest \$75 million in the Rialto segment's Fund. During the three and nine months ended August 31, 2011, we contributed \$30.9 million and \$60.6 million, respectively, to the Fund out of total investor contributions of \$181.6 million and \$301.0 million, respectively. During the nine months ended August 31, 2011, the Fund acquired distressed real estate asset portfolios and invested in CMBS at a discount to par value. As of August 31, 2011, the carrying value of our investment in the Fund was \$61.5 million. As of August 31, 2011, the equity commitments of the Fund were approximately \$500 million (including the \$75 million committed by us). Subsequent to August 31, 2011, there was an additional \$100 million of commitments to the Fund.

Additionally, another subsidiary in the Rialto segment also has approximately a 5% investment in the Servicer Provider, which provides services to the consolidated LLCs, among others. As of August 31, 2011 and November 30, 2010, the carrying value of our investment in the Servicer Provider was \$8.9 million and \$7.3 million, respectively.

Summarized condensed financial information on a combined 100% basis related to Rialto's investment in unconsolidated entities that are accounted for by the equity method was as follows:

Option Contracts

We have access to land through option contracts, which generally enables us to control portions of properties owned by third parties (including land funds) and unconsolidated entities until we have determined whether to exercise the option.

The table below indicates the number of homesites owned and homesites to which we had access through option contracts with third parties (optioned) or unconsolidated joint ventures (JV s) (i.e., controlled homesites) at August 31, 2011 and 2010:

August 31, 2011	Controlled Homesites			Owned Homesites	Total Homesites
	Optioned	JVs	Total		
East	4,129	771	4,900	27,129	32,029
Central	826	1,611	2,437	15,984	18,421
West	578	6,189	6,767	28,331	35,098
Houston	878	296	1,174	9,866	11,040
Other	675	35	710	10,076	10,786
Total homesites	7,086	8,902	15,988	91,386	107,374

August 31, 2010	Controlled Homesites			Owned Homesites	Total Homesites

Total homesites	8,919	12,599	21,518	84,062	105,580

We evaluate all option contracts for land to determine whether they are VIEs and, if so, whether we are the primary beneficiary of certain of these option contracts. Although we do not have legal title to the optioned land, if we are deemed to be the primary beneficiary, we are required to consolidate the land under option at the purchase price of the optioned land. During the nine months ended August 31, 2011, the effect of consolidation of these option contracts was a net increase of \$13.5 million to consolidated inventory not owned with a corresponding increase to liabilities related to consolidated inventory not owned in our condensed consolidated balance sheet as of August 31, 2011. To reflect the purchase price of the inventory consolidated, we reclassified the related option deposits from land under development to consolidated inventory not owned in the accompanying condensed consolidated balance sheet as of August 31, 2011. The liabilities related to consolidated inventory not owned primarily represent the difference between the option exercise prices for the optioned land and our cash deposits. The increase to consolidated inventory not owned was offset by our exercise of options to acquire land under previously consolidated contracts, resulting in a net decrease in consolidated inventory not owned of \$54.2 million for the nine months ended August 31, 2011.

Our exposure to loss related to our option contracts with third parties and unconsolidated entities consisted of our non-refundable option deposits and pre-acquisitions costs totaling \$154.1 million and \$157.4 million, respectively, at August 31, 2011 and November 30, 2010. Additionally, we had posted \$45.2 million and \$48.9 million, respectively, of letters of credit in lieu of cash deposits under certain option contracts as of August 31, 2011 and November 30, 2010.

Contractual Obligations and Commercial Commitments

Our contractual obligations and commercial commitments have not changed materially from those reported in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the fiscal year ended November 30, 2010.

We are subject to the usual obligations associated with entering into contracts (including option contracts) for the purchase, development and sale of real estate in the routine conduct of our business. Option contracts for the purchase of land generally enable us to defer acquiring portions of properties owned by third parties and unconsolidated entities until we have determined whether to exercise our option. This reduces our financial risk associated with land holdings. At August 31, 2011, we had access to 15,988 homesites through option contracts with third parties and unconsolidated entities in which we have investments. At August 31, 2011, we had \$154.1 million of non-refundable option deposits and pre-acquisition costs related to certain of these homesites and \$45.2 million of letters of credit posted in lieu of cash deposits under certain option contracts.

At August 31, 2011, we had letters of credit outstanding in the amount of \$271.4 million (which included the \$45.2 million of letters of credit discussed above). These letters of credit are generally posted either with regulatory bodies to guarantee our performance of certain development and construction activities, or in lieu of cash deposits on option contracts, for insurance risks, credit enhancements and as other collateral. Additionally, at August 31, 2011, we had outstanding performance and surety bonds related to site improvements at various projects (including certain projects in our joint ventures) of \$639.9 million. Although significant development and construction activities have been completed related to these site improvements, these bonds are generally not released until all of the development and construction activities are completed. As of August 31, 2011, there were approximately \$315.9 million, or 49%, of costs to complete related to these site improvements. We do not presently anticipate any draws upon these bonds, but if any such draws occur, we do not believe they would have a material effect on our financial position, results of operations or cash flows.

Our Lennar Financial Services segment had a pipeline of loan applications in process of \$614.3 million at August 31, 2011. Loans in process for which interest rates were committed to the borrowers and builder commitments for loan programs totaled approximately \$324.7 million as of August 31, 2011. Substantially all of these commitments were for periods of 60 days or less. Since a portion of these commitments is expected to expire without being exercised by the borrowers or because borrowers may not meet certain criteria at the time of closing, the total commitments do not necessarily represent future cash requirements.

Our Lennar Financial Services segment uses mandatory mortgage-backed securities (MBS) forward commitments, option contracts and investor commitments to hedge our mortgage-related interest rate exposure. These instruments involve, to varying degrees, elements of credit and interest rate risk. Credit risk associated with MBS forward commitments, option contracts and loan sales transactions is managed by limiting our counterparties to investment banks, federally regulated bank affiliates and other investors meeting our credit standards. Our risk, in the event of default by the purchaser, is the difference between the contract price and fair value of the MBS forward commitments and option contracts. At August 31, 2011, we had open commitments amounting to \$378.8 million to sell MBS with varying settlement dates through November 2011.

(3) New Accounting Pronouncements

See Note 17 of our condensed consolidated financial statements included under Item 1 of this Report for a discussion of new accounting pronouncements applicable to our Company.

(4) Critical Accounting Policies

We believe that there have been no significant changes to our critical accounting policies during the nine months ended August 31, 2011, as compared to those we disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended November 30, 2010. Even though our critical accounting policies have not changed in any significant way during the nine months ended August 31, 2011, the following provides additional disclosures about (1) our assessment that we are the primary beneficiary in the two LLCs formed in partnership with the FDIC in February 2010 and (2) our process to estimate the fair value for the real estate owned (REO) acquired through foreclosure of a loan receivable.

Consolidations

In 2010, the Rialto segment acquired indirectly 40% managing member equity interests in two limited liability companies (LLCs), in partnership with the FDIC. We determined that each of the LLCs met the definition of a variable interest entity (VIE) and that we were the primary beneficiary. In accordance with ASC Topic 810-10-65-2, *Consolidations*, (ASC 810-10-65-2), we identified the activities that most significantly impact the LLCs' economic performance and determined that it has the power to direct those activities. The economic performance of the LLCs is most significantly impacted by the performance of the LLCs' portfolios of assets, which consist primarily of distressed residential and commercial mortgage loans. Thus, the activities that most significantly impact the LLCs' economic performance are the servicing and disposition of mortgage loans and real estate obtained through foreclosure of loans, restructuring of loans, or other planned activities associated with the monetizing of loans.

The FDIC does not have the unilateral power to terminate our role in managing the LLCs and servicing the loan portfolio. While the FDIC has the right to prevent certain types of transactions (i.e., bulk sales, selling assets with recourse back to the selling entity, selling assets with representations and warranties and financing the sales of assets without the FDIC's approval), the FDIC does not have full voting or blocking rights over the LLCs' activities, making their voting rights protective in nature, not substantive participating voting rights. Other than as described in the preceding sentence, which are not the primary activities of the LLCs, we can cause the LLCs to enter into both the disposition and restructuring of loans without any involvement of the FDIC. Additionally, the FDIC has no voting rights with regard to the operation/management of the operating properties that are acquired upon foreclosure of loans (e.g. REO) and no voting rights over the business plans of the LLCs. The FDIC can make suggestions regarding the business plans, but we can decide not to follow the FDIC's suggestions and not to incorporate them in the business plans. Since the FDIC's voting rights are protective in nature and not substantive participating voting rights, we have the power to direct the activities that most significantly impact the LLCs' economic performance.

In accordance with ASC 810-10-65-2, we determined that we had an obligation to absorb losses of the LLCs that could potentially be significant to the LLCs or the right to receive benefits from the LLCs that could potentially be significant to the LLCs based on the following factors:

Rialto/Lennar owns 40% of the equity of the LLCs. The LLCs have issued notes to the FDIC totaling \$626.9 million. The notes issued by the LLCs must be repaid before any distributions can be made with regard to the equity. Accordingly, the equity of the LLCs have the obligation to absorb losses of the LLCs up to the amount of the notes issued.

Rialto/Lennar has a management/servicer contract under which we earn a 0.5% servicing fee.

Rialto/Lennar has guaranteed, as the servicer, its obligations under the servicing agreement up to \$10 million.

We are aware that the FDIC, as the owner of 60% of the equity of each of the LLCs, may also have an obligation to absorb losses of the LLCs that could potentially be significant to the LLCs. However, in accordance with ASC Topic 810-10-25-38A, *Consolidations*, only one enterprise, if any, is expected to be identified as the primary beneficiary of a VIE.

Since both criteria for consolidation in ASC 810-10-65-2 are met, we consolidated the LLCs. We believe that our assessment that we are the primary beneficiary of the LLCs is a critical accounting policy because of the significant judgment required in evaluating all of the key factors and circumstances in determining the primary beneficiary.

Real Estate Owned

REO represents real estate that our Rialto segment has taken control or has effective control of in partial or full satisfaction of loans receivable. At the time of acquisition of a property through foreclosure of a loan, REO is recorded at fair value less estimated costs to sell if classified as held-for-sale and at fair value if classified as held-and-used, which becomes the property's new basis. The fair values of these assets are determined in part by placing reliance on third party appraisals of the properties and/or internally prepared analyses of recent offers or prices on comparable properties in the proximate vicinity. The third party appraisals and internally developed analyses are significantly impacted by the local market economy, market supply and demand, competitive conditions and prices on comparable properties, adjusted for date of sale, location, property size, and other factors. Each REO is unique and is analyzed in the context of the particular market where the property is located. In order to establish the significant assumptions for a particular REO, we analyze historical trends, including trends achieved by our local homebuilding operations, if applicable, and current trends in the market and economy impacting the REO. Using available trend information, we then calculate our best estimate of fair value, which can include projected cash flows discounted at a rate we believe a market participant would determine to be commensurate with the inherent risks associated with the assets and related estimated cash flow streams.

Changes in economic factors, consumer demand and market conditions, among other things, could materially impact estimates used in the third party appraisals and/or internally prepared analysis of recent offers or prices on comparable properties. Thus, estimates can differ significantly from the amounts ultimately realized by our Rialto segment from disposition of these assets. The amount by which the recorded investment in the loan is less than the REO's fair value (net of estimated cost to sell if held-for-sale), is recorded as a gain on foreclosure in our condensed consolidated statement of operations. The amount by which the recorded investment in the loan is greater than the REO's fair value (net of estimated cost to sell if held-for-sale) is initially recorded as an impairment in our condensed consolidated statement of operations.

Additionally, REO includes real estate which Rialto has purchased directly from financial institutions. These REOs are recorded at cost or allocated cost if purchased in a bulk transaction.

Subsequent to obtaining REO via foreclosure or directly from a financial institution, management periodically performs valuations using the methodologies described above such that the real estate is carried at the lower of its new cost basis or fair value, net of estimated costs to sell. Any subsequent valuation adjustments, operating expenses or income, and gains and losses on disposition of such properties are also recognized in Rialto Investments other income, net.

We believe that the accounting for REO is a critical accounting policy because of the significant judgment required in the third party appraisals and/or internally prepared analysis of recent offers or prices on comparable properties in the proximate vicinity used to estimate the fair value of the REOs.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are exposed to market risks related to fluctuations in interest rates on our investments, debt obligations, loans held-for-sale and loans held-for-investment. We utilize forward commitments and option contracts to mitigate the risks associated with our mortgage loan portfolio.

Our Annual Report on Form 10-K for the year ended November 30, 2010 contains information about market risk under Item 7A. Quantitative and Qualitative Disclosures About Market Risk. There has been no material changes in our exposure to market risks during the nine months ended August 31, 2011.

Item 4. Controls and Procedures.

Our Chief Executive Officer and Chief Financial Officer participated in an evaluation by our management of the effectiveness of our disclosure controls and procedures as of the end of our fiscal quarter that ended on August 31, 2011. Based on their participation in that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of August 31, 2011 to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and to ensure that information required to be disclosed in our reports filed or furnished under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosures.

Our CEO and CFO also participated in an evaluation by our management of any changes in our internal control over financial reporting that occurred during the quarter ended August 31, 2011. That evaluation did not identify any changes that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1 - 5. Not applicable.

Item 6. Exhibits.

31.1. Rule 13a-14(a) certification by Stuart A. Miller, Chief Executive Officer.

31.2. Rule 13a-14(a) certification by Bruce E. Gross, Vice President and Chief Financial Officer.

32. Section 1350 certifications by Stuart A. Miller, Chief Executive Officer, and Bruce E. Gross, Vice President and Chief Financial Officer.

101. The following financial statements from Lennar Corporation Quarterly Report on Form 10-Q for the quarter ended August 31, 2011, filed on October 10, 2011, were formatted in XBRL (Extensible Business Reporting Language); (i) Condensed Consolidated Balance Sheets, (ii) Condensed Consolidated Statements of Operations, (iii) Condensed Consolidated Statements of Cash Flows and (iv) the Notes to Consolidated Financial Statements.*

* In accordance with Rule 406T of Regulation S-T, the XBRL related to information in Exhibit 101 to this Quarterly Report on Form 10-Q shall not be deemed to be filed for purposes of Section 18 of Exchange Act, or otherwise subject to the liability of that section, and shall not be part of any registration or other document filed under the Securities Act or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, we have duly caused this report to be signed on our behalf by the undersigned thereunto duly authorized.
