NOTES TO CONDENSED CONSOLIDATED UNAUDITED FINANCIAL STATEMENTS

June 30, 2012

(In thousands, except share and per share data)

**1. BASIS OF PRESENTATION**

**Basis of Consolidation**

Watsco, Inc. and its subsidiaries (collectively, *Watsco*, which may be referred to as *we*, *us* or *our*) was incorporated in 1956 in Florida and is the largest distributor of air conditioning, heating and refrigeration equipment and related parts and supplies ( *HVAC/R* ) in the HVAC/R distribution industry. The accompanying Watsco June 30, 2012 interim condensed consolidated unaudited financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in the annual financial statements prepared in accordance with U.S. generally accepted accounting principles ( *GAAP* ) have been condensed or omitted pursuant to those rules and regulations, although we believe the disclosures made are adequate to make the information presented not misleading. In the opinion of management, all adjustments, consisting of normal and recurring adjustments, necessary for a fair presentation have been included in the condensed consolidated unaudited financial statements herein. These statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2011.

The condensed consolidated unaudited financial statements contained in this report include the accounts of Watsco and all of its wholly owned subsidiaries and include the accounts of three joint ventures with Carrier Corporation ( *Carrier* ), in each of which Watsco maintains a 60% controlling interest. All significant intercompany balances and transactions have been eliminated.

The results of operations for the quarter and six months ended June 30, 2012 are not necessarily indicative of the results to be expected for the year ending December 31, 2012. Sales of residential central air conditioners, heating equipment and parts and supplies are seasonal. Furthermore, results of operations can be impacted favorably or unfavorably based on weather patterns during the summer and winter selling seasons. Demand related to the residential central air conditioning replacement market is typically highest in the second and third quarters, and demand for heating equipment is usually highest in the fourth quarter. Demand related to the new construction sectors throughout most of the markets is fairly consistent during the year, except for dependence on housing completions and related weather and economic conditions.

**Reclassifications**

Certain reclassifications of prior year amounts have been made to conform to the 2012 presentation. These reclassifications had no effect on net income or earnings per share as previously reported.

**Foreign Currency Translation and Transactions**

Our operations in Mexico consider their functional currency to be the U.S. dollar because the majority of their transactions are denominated in U.S. dollars. Gains or losses resulting from transactions denominated in Mexican pesos are recognized in earnings within selling, general and administrative expenses in our condensed consolidated unaudited statements of income.

The functional currency of our operations in Canada is the Canadian dollar. Foreign currency denominated assets and liabilities are translated into U.S. dollars at the exchange rates in effect at the balance sheet date, and income and expense items are translated at the average exchange rates in effect during the applicable period. The aggregate effect of foreign currency translation is recorded in accumulated other comprehensive loss in our condensed consolidated unaudited balance sheet. Our net investment in our Canadian operations is recorded at the historical rate and the resulting foreign currency translation adjustments are included in accumulated other comprehensive loss in our condensed consolidated unaudited balance sheet. Gains or losses resulting from transactions denominated in U.S. dollars are recognized in earnings within selling, general and administrative expenses in our condensed consolidated unaudited statements of income.

**Use of Estimates**

## Edgar Filing: WATSCO INC - Form 10-Q

The preparation of condensed consolidated unaudited financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated unaudited financial statements and the reported amounts of revenues and expenses for the reporting period. Significant estimates include valuation reserves for accounts receivable, inventories and income taxes, reserves related to self-insurance programs and the valuation of goodwill and indefinite lived intangible assets. While we believe that these estimates are reasonable, actual results could differ from such estimates.

**Table of Contents****Accounting Changes***Presentation of Comprehensive Income*

In June 2011, the Financial Accounting Standards Board issued guidance that requires companies to present net income and other comprehensive income in one continuous statement or in two separate but consecutive statements. We have elected to present separate condensed consolidated unaudited statements of other comprehensive income, which immediately follow the condensed consolidated unaudited statements of income to our condensed consolidated unaudited financial statements.

Diluted earnings per share for our Common stock assumes the conversion of all of our Class B common stock into Common stock as of the beginning of the fiscal year and adjusts for the dilutive effects of outstanding stock options using the treasury stock method; therefore, no allocation of earnings to Class B common stock is required. As of June 30, 2012 and 2011, our outstanding Class B common stock was convertible into 2,842,055 and 2,854,093 shares of our Common stock, respectively.

### 3. OTHER COMPREHENSIVE (LOSS) INCOME

Other comprehensive (loss) income consists of the currency translation adjustment associated with the use of local currency by our Canadian operations as its functional currency, changes in the unrealized (loss) gain on available-for-sale securities and the effective portion of a cash flow hedge that matured in October 2011. The tax effects allocated to each component of other comprehensive (loss) income are as follows:

**4. DERIVATIVE FINANCIAL INSTRUMENTS**

On a regular basis, we use certain derivatives as economic hedges of foreign currency exposure. Although these derivatives were not designated as hedges and/or did not qualify for hedge accounting, they were effective economic hedges. The changes in fair value of economic hedges are immediately recognized in earnings. During the quarter and six months ended June 30, 2012, we entered into foreign currency forward contracts to offset the earnings impact that foreign currency exchange rate fluctuations have on certain monetary liabilities that are denominated in nonfunctional currencies. The changes in fair value of these foreign currency forward contracts was \$247 for both the quarter and six months ended June 30, 2012, and are included in selling, general and administrative expenses in our condensed consolidated unaudited statements of income. The total notional value of our foreign currency exchange contracts as of June 30, 2012 was \$24,030, and such contracts have varying terms expiring through August 2012. See Note 5.

## Edgar Filing: WATSCO INC - Form 10-Q

We were party to an interest rate swap agreement with a notional amount of \$10,000 that matured in October 2011 and was designated as a cash flow hedge. The swap effectively exchanged the variable rate of 30-day LIBOR to a fixed interest rate of 5.07%. For the quarter and six months ended June 30, 2011, the hedging relationship was determined to be highly effective in achieving offsetting changes in cash flows.

**Table of Contents****5. FAIR VALUE MEASUREMENTS**

The following tables present our assets and liabilities carried at fair value that are measured on a recurring basis:

<i>Description</i>	Fair Value at June 30, 2012	Fair Value Measurements at June 30, 2012 Using		
		Level 1	Level 2	Level 3
<b>Assets:</b>				
Available-for-sale securities	\$ 186	\$ 186		
<b>Liabilities:</b>				
Derivative financial instruments	\$ 247		\$ 247	

<i>Description</i>	Fair Value at December 31, 2011	Fair Value Measurements at December 31, 2011 Using		
		Level 1	Level 2	Level 3
<b>Assets:</b>				
Available-for-sale securities	\$ 163	\$ 163		

The following is a description of the valuation techniques used for these assets and liabilities, as well as the level of input used to measure fair value:

*Available-for-sale securities* the investments are exchange-traded equity securities. Fair values for these investments are based on closing stock prices from active markets and are therefore classified within Level 1 of the fair value hierarchy. The fair value of available-for-sale securities is included in other assets in our condensed consolidated balance sheets.

*Derivative financial instruments* the derivatives are foreign currency forward contracts. Fair value is based on observable market inputs, such as forward rates, in active markets and therefore the derivatives are classified within Level 2 of the valuation hierarchy. The fair value of the derivative financial instruments is included in accrued expenses and other current liabilities in our condensed consolidated balance sheet.

There were no transfers in and out of Level 1 and Level 2 during the six months ended June 30, 2012.

**6. ACQUISITIONS****Carrier Enterprise III**

On April 27, 2012, we completed the formation of a joint venture with UTC Canada Corporation ( UTC Canada ), an affiliate of Carrier, to distribute Carrier, Bryant and Payne branded residential, light-commercial and commercial applied HVAC products in Canada. The newly formed joint venture, Carrier Enterprise Canada, L.P. ( Carrier Enterprise III ), operates 35 locations throughout all of the provinces and territories in Canada. In the formation of the joint venture, UTC Canada contributed its Canadian distribution business and retained a 40% noncontrolling interest in Carrier Enterprise III. Total consideration paid by us for our 60% controlling interest in Carrier Enterprise III included cash consideration of \$82,158 and the issuance to UTC Canada of 1,250,000 shares of Common stock having a fair value of \$93,250. The final purchase price is subject to a working capital adjustment pursuant to the asset purchase agreement that we entered into with UTC Canada and is expected to be finalized during the third quarter of 2012.

Based on our preliminary valuation, we anticipate that the purchase price will result in the recognition of \$219,978 in goodwill and intangibles. The preliminary valuation of fair value is based on the best information available as of the date of this filing and incorporates management's assumptions about expected future cash flows and contemplates other valuation techniques. Future cash flows can be affected by changes in the industry, a declining economic environment or market conditions, among other things. Although management believes that the estimates are reasonable, an adjustment to the future cash flows could materially impact the valuation and our consolidated results of operations or financial position. For Canadian income tax purposes, seventy-five percent of the tax basis of the acquired goodwill is amortized at a rate of 7% annually on a declining balance basis.

## Edgar Filing: WATSCO INC - Form 10-Q

The preliminary purchase price allocation is based upon a purchase price of \$175,408 which represents the fair value of our 60% controlling interest in Carrier Enterprise III. The table below presents the allocation of the total consideration to tangible and intangible assets acquired, liabilities assumed and the noncontrolling interest from the acquisition of our 60% controlling interest in Carrier Enterprise III based on the respective fair values as of April 27, 2012:

10 of 22

**Table of Contents**

Cash	\$ 10
Accounts receivable	45,872
Inventories	55,024
Other current assets	481
Property and equipment	2,517
Goodwill and intangible assets	219,978
Other assets	978
Accounts payable and accrued expenses	(44,208)
Noncontrolling interest	(105,244)
 Total preliminary purchase price	 <b>\$ 175,408</b>

The fair value of the noncontrolling interest was determined by applying a pro-rata value of the total invested capital adjusted for a discount for lack of control that market participants would consider when estimating the fair value of the noncontrolling interest.

**Carrier Enterprise II**

In 2011, we formed a second joint venture with Carrier that comprises the combination of two transactions. **7. DEBT**

On April 27, 2012, we entered into an unsecured, five-year \$500,000 syndicated revolving credit agreement, which replaced in its entirety both our maturing five-year \$300,000 revolving credit agreement and Carrier Enterprise I's three-year \$125,000 secured revolving credit agreement. Proceeds from the new facility were used to repay approximately \$72,000 outstanding under the prior facilities and \$82,000 for the acquisition

Additional proceeds may be used for, among other things, funding seasonal working capital needs and other general corporate purposes, including acquisitions, dividends, stock repurchases and issuances of letters of credit. Included in the facility are a \$50,000 swingline subfacility, a \$50,000 letter of credit subfacility and a \$75,000 multicurrency borrowing sublimit. Borrowings bear interest at either LIBOR-based rates plus a spread which ranges from 100 to 275 basis-points (LIBOR plus 137.5 basis-points at June 30, 2012), depending upon our ratio of total debt to EBITDA, or on rates based on the higher of the Prime rate or the Federal Funds rate, in each case plus a spread which ranges from 0 to 175 basis-points

## 9. COMMITMENTS AND CONTINGENCIES

### Litigation, Claims and Assessments

We are involved in litigation incidental to the operation of our business. We vigorously defend all matters in which we or our subsidiaries are named defendants and, for insurable losses, maintain significant levels of insurance to protect against adverse judgments, claims or assessments that may affect us. Although the adequacy of existing insurance coverage or the outcome of any legal proceedings cannot be predicted with certainty, based on the current information available, we do not believe the ultimate liability associated with any known claims or litigation will have a material adverse affect on our financial condition or results of operations.

**Self-Insurance**

Self-insurance reserves are maintained relative to company-wide casualty insurance and health benefit programs. The level of exposure from catastrophic events is limited by the purchase of stop-loss and aggregate liability reinsurance coverage. When estimating the self-insurance liabilities and related reserves, management considers a number of factors, which include historical claims experience, demographic factors, severity factors and valuations provided by independent third-party actuaries. Management reviews its assumptions with its independent third-party actuaries to evaluate whether the self-insurance reserves are adequate. If actual claims or adverse development of loss reserves occur and exceed these estimates, additional reserves may be required. The estimation process contains uncertainty since management must use judgment to estimate the ultimate cost that will be incurred to settle reported claims and unreported claims for incidents incurred but not reported as of the balance sheet date. Reserves in the amounts of \$4,845 and \$4,631 at June 30, 2012 and December 31, 2011, respectively, were established related to such insurance programs and are included in accrued expenses and other current liabilities in our condensed consolidated balance sheets.

**10. RELATED PARTY TRANSACTIONS**

Purchases from Carrier and its affiliates comprised 60%, 48%, 57% and 45% of all purchases made during the quarters and six months ended June 30, 2012 and 2011, respectively. At June 30, 2012 and December 31, 2011, approximately \$96,000 and \$41,000, respectively, was payable to Carrier and its affiliates, net of receivables. Our joint ventures with Carrier also sell HVAC products to Carrier and its affiliates. Revenues in our condensed consolidated unaudited statements of income for the quarters and six months ended June 30, 2012 and 2011 include \$10,064, \$7,693, \$16,848 and \$11,797, respectively, of sales to Carrier and its affiliates. We believe these transactions are conducted at arm's-length in the ordinary course of business.

Carrier Enterprise II entered into Transactional Services Agreements ( TSAs ) with Carrier, pursuant to which Carrier performs certain business processes on its behalf, including processes involving the use of certain information technologies. The services provided by Carrier pursuant to the TSAs terminated on April 30, 2012. The fees related to these TSAs were \$223, \$148, \$807 and \$148, respectively, for the quarters and six months ended June 30, 2012 and 2011, and are included in selling, general and administrative expenses in our condensed consolidated unaudited statements of income. #### **Company Overview**

Watsco, Inc. and its subsidiaries (collectively, *Watsco*, which may be referred to as *we*, *us* or *our*) was incorporated in 1956 in Florida and is the largest distributor of air conditioning, heating and refrigeration equipment and related parts and supplies ( *HVAC/R* ) in the HVAC/R distribution industry. At June 30, 2012, we operated from 575 locations in 38 states, Canada, Mexico and Puerto Rico with additional market coverage on an export basis to Latin America and the Caribbean.

Revenues primarily consist of sales of air conditioning, heating and refrigeration equipment and related parts and supplies. Selling, general and administrative expenses primarily consist of selling expenses, the largest components of which are salaries, commissions and marketing expenses that are variable and correlate to changes in sales. Other significant selling, general and administrative expenses relate to the operation of warehouse facilities, including a fleet of trucks and forklifts and facility rent, which are payable mostly under non-cancelable operating leases.

## **Table of Contents**

Sales of residential central air conditioners, heating equipment and parts and supplies are seasonal. Furthermore, results of operations can be impacted favorably or unfavorably based on weather patterns during summer and winter selling seasons. Demand related to the residential central air conditioning replacement market is typically highest in the second and third quarters, and demand for heating equipment usually highest in the fourth quarter. Demand related to the new construction sectors throughout most of the markets is fairly consistent during the year, except for dependence on housing completions and related weather and economic conditions.

### **Joint Ventures with Carrier Corporation**

In 2009, we formed a joint venture with Carrier Corporation ( Carrier ), which we refer to as Carrier Enterprise I, in which Carrier contributed 95 of its company-owned locations in 13 U.S. Sun Belt states and Puerto Rico and its export division in Miami, Florida, and we contributed 15 locations that distributed Carrier products. We have a 60% controlling interest in Carrier Enterprise I, Carrier has a 40% noncontrolling interest and we have options to purchase from Carrier up to an additional 20% interest in Carrier Enterprise I (10% in July 2012 and 10% in July 2014). On July 2, 2012, we exercised our option to acquire an additional 10% ownership interest in Carrier Enterprise I, which increased our ownership interest to 70%.

In 2011, we formed a second joint venture with Carrier and completed two additional transactions. In April 2011, Carrier contributed 28 of its company-owned locations in eight Northeast U.S. states, and we contributed 14 locations in the Northeast U.S. In July 2011, we purchased Carrier's distribution operations in Mexico, which included seven locations. Collectively, the Northeast locations and the Mexico operations are referred to as Carrier Enterprise II. We have a 60% controlling interest in Carrier Enterprise II, and Carrier has a 40% noncontrolling interest. Neither we nor Carrier have any options to purchase additional ownership interests in Carrier Enterprise II.

In April 2012, we formed a third joint venture with UTC Canada Corporation ( UTC Canada ), an affiliate of Carrier, which we refer to as Carrier Enterprise III. Carrier contributed 35 of its company-owned locations in Canada to Carrier Enterprise III. We have a 60% controlling interest in Carrier Enterprise III, and UTC Canada has a 40% noncontrolling interest. Neither we nor UTC Canada have any options to purchase additional ownership interests in Carrier Enterprise III.

### **Critical Accounting Policies**

Management's discussion and analysis of financial condition and results of operations is based upon the condensed consolidated unaudited financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the condensed consolidated unaudited financial statements and the reported amount of revenues and expenses during the reporting period. Actual results may differ from these estimates under different assumptions or conditions. At least quarterly, management reevaluates its judgments and estimates, which are based on historical experience, current trends and various other assumptions that are believed to be reasonable under the circumstances.

Our critical accounting policies are included in our Annual Report on Form 10-K for the year ended December 31, 2011 as filed on February 29, 2012. We believe that there have been no significant changes during the quarter or six months ended June 30, 2012 to the critical accounting policies disclosed in our Annual Report on Form 10-K for the year ended December 31, 2011.

**Second Quarter 2012 Compared to Second Quarter 2011**

*Revenues*

Revenues for the quarter ended June 30, 2012 increased \$128.3 million, or 15%, compared to the same period in 2011, including \$110.7 million attributable to the 70 new Carrier Enterprise II and III locations acquired in 2011 and 2012, and \$3.1 million from other locations opened during the preceding 12 months, partially offset by \$5.5 million from closed locations. On a same-store basis, revenues increased \$20.0 million, or 2%, as compared to the same period in 2011, reflecting a 5% increase in sales of HVAC equipment, a 4% decrease in sales of other HVAC products and a 16% increase in sales of commercial refrigeration products. The increase in same-store revenues is primarily due to strong demand for the replacement of commercial HVAC equipment.

*Gross Profit*

Gross profit for the quarter ended June 30, 2012 increased \$25.3 million, or 12%, compared to the same period in 2011, primarily as a result of increased revenues. Gross profit margin for the quarter ended June 30, 2012 declined 50 basis-points to 23.6% versus 24.1% for the same period in 2011, primarily due to a shift in sales mix toward HVAC equipment and growth in sales of commercial products, which generate a lower gross profit margin than non-equipment products.

---

**Table of Contents***Selling, General and Administrative Expenses*

Selling, general and administrative expenses for the quarter ended June 30, 2012 increased \$14.9 million, or 11%, compared to the same period in 2011, primarily as a result of increased revenues. The decrease in selling, general, and administrative expenses as a percentage of revenues was primarily due to leveraging of fixed operating costs as compared to 2011. For the quarters ended June 30, 2012 and 2011, selling, general and administrative expenses include \$0.4 million and \$0.5 million, respectively, of acquisition-related costs. On a same-store basis, selling, general and administrative expenses decreased 2% as compared to the same period in 2011.

*Interest Expense, Net*

The effective income tax rate attributable to us was 36.9% and 38.0% for the quarters ended June 30, 2012 and 2011, respectively. The decrease is primarily due to lower effective tax rates for income generated by our foreign subsidiaries and certain non-recurring tax benefits realized in 2012.

*Net Income Attributable to Watsco, Inc.*

Net income attributable to Watsco for the quarter ended June 30, 2012 increased \$3.1 million, or 9%, compared to the same period in 2011. The increase was primarily driven by higher revenues and reduced selling, general and administrative expenses as a percent of revenues as discussed above.

Net income attributable to Watsco for the six months ended June 30, 2012 increased \$4.0 million, or 9%, compared to the same period in 2011. The increase was primarily driven by higher revenues and reduced selling, general and administrative expenses as a percent of revenues as discussed above.

## **Liquidity and Capital Resources**

We assess our liquidity in terms of our ability to generate cash to execute our business strategy and fund operating and investing activities, taking into consideration the seasonal demand of HVAC/R products, which peaks in the months of May through August. Significant factors that could affect our liquidity include the following:

cash flows generated from operating activities;

the adequacy of our available bank line of credit;

the ability to attract long-term capital with satisfactory terms;

acquisitions;

dividend payments;

capital expenditures; and

the timing and extent of common stock repurchases.

### **Sources and Uses of Cash**

We rely on cash flows from operations and additional borrowing capacity (subject to certain restrictions) under our revolving credit agreement to fund seasonal working capital needs, including our anticipated dividend payments, capital expenditures and funds necessary for business acquisitions, and to support the development of our long-term operating strategies.

We believe that our operating cash flows, cash on hand and funds available for borrowing under our line of credit will be sufficient to satisfy our liquidity needs in the foreseeable future, including the exercise of our option to acquire an additional 10% ownership interest in Carrier Enterprise I in the third quarter of 2012 for approximately \$52.0 million. However, there can be no assurance that our current sources of available funds will be sufficient to meet our cash requirements.

## Edgar Filing: WATSCO INC - Form 10-Q

Any future disruption in the capital and credit markets, such as those experienced in 2008, could adversely affect our ability to draw on our line of credit. Our access to funds under the line of credit is dependent on the ability of the syndicate banks to meet their respective funding commitments. Disruptions in capital and credit markets also may affect the determination of interest rates for borrowers, particularly rates based on LIBOR, such as the rates under our line of credit. Any future disruptions in these markets and their effect on interest rates could result in increased borrowing costs and/or reduced borrowing capacity under our line of credit.

### Working Capital

Working capital increased to \$856.3 million at June 30, 2012 from \$605.1 million at December 31, 2011, reflecting the 35 new locations added by Carrier Enterprise III in 2012, which in aggregate added \$64.8 million of working capital. Excluding these new locations, working capital increased to \$791.5 million, reflecting higher levels of accounts receivable and inventories, primarily due to the seasonality of our business.

### Cash Flows

The following table summarizes our cash flow activity for the six months ended June 30, 2012 and 2011:

	<b>2012</b>	<b>2011</b>	<b>Change</b>
Cash flows used in operating activities	<b>\$ (59.6)</b>	\$ (42.2)	\$ (17.4)
Cash flows used in investing activities	<b>\$ (88.9)</b>	\$ (41.1)	\$ (47.8)
Cash flows provided by (used in) financing activities	<b>\$ 168.0</b>	\$ (24.6)	\$ 192.6

## Table of Contents

### Operating Activities

The increase in net cash used in operating activities was principally attributable to changes in operating assets and liabilities, which were primarily composed of higher levels of inventory due to our seasonal buildup and lower levels of accounts payable and other liabilities in 2012 due to timing of payments, partially offset by higher accounts receivable driven by increased sales volume in 2012.

### Investing Activities

The increase in net cash used in investing activities is due to the purchase of our 60% controlling interest in Carrier Enterprise III for cash consideration of \$82.1 million and higher capital expenditures in 2012.

### Financing Activities

The increase in net cash provided by financing activities was primarily attributable to higher net borrowings under our revolving credit agreement, a decrease in distributions to the noncontrolling interest and a non-recurring \$32.0 million return of capital to the noncontrolling interest in 2011, partially offset by an increase in dividends paid in 2012.

### Revolving Credit Agreement

On April 27, 2012, we entered into an unsecured, five-year \$500.0 million syndicated revolving credit agreement, which replaced in its entirety both our maturing five-year \$300.0 million revolving credit agreement and Carrier Enterprise I's three-year \$125.0 million secured revolving credit agreement. Proceeds from the new facility were used to repay approximately \$72.0 million outstanding under the prior facilities and \$82.0 million for the acquisition of Carrier Enterprise III. Additional proceeds may be used for, among other things, funding seasonal working capital needs and other general corporate purposes, including acquisitions, dividends, stock repurchases and issuances of letters of credit. Included in the facility are a \$50.0 million swingline subfacility, a \$50.0 million letter of credit subfacility and a \$75.0 million multicurrency borrowing sublimit. Borrowings bear interest at either LIBOR-based rates plus a spread which ranges from 100 to 275 basis-points (LIBOR plus 137.5 basis-points at June 30, 2012), depending upon our ratio of total debt to EBITDA, or on rates based on the higher of the Prime rate or the Federal Funds rate, in each case plus a spread which ranges from 0 to 175 basis-points (37.5 basis-points at June 30, 2012), depending upon our ratio of total debt to EBITDA. We pay a variable commitment fee on the unused portion of the commitment, ranging from 12.5 to 40 basis-points (17.5 basis-points at June 30, 2012). At June 30, 2012, \$235.6 million was outstanding under the revolving credit agreement. The credit agreement matures in April 2017. The revolving credit agreement contains customary affirmative and negative covenants including financial covenants with respect to consolidated leverage and interest coverage ratios and other customary restrictions. We believe we were in compliance with all covenants at June 30, 2012.

### Acquisitions

On April 27, 2012, we completed the formation of a joint venture with UTC Canada to distribute Carrier, Bryant and Payne branded residential, light-commercial and commercial applied HVAC products in Canada. The newly formed joint venture, Carrier Enterprise III, operates 35 locations throughout all of the provinces and territories in Canada. In the formation of the joint venture, UTC Canada contributed its Canadian distribution business and retained a 40% noncontrolling interest in Carrier Enterprise III. Total consideration paid by us for our 60% controlling interest in Carrier Enterprise III included cash consideration of \$82.1 million and the issuance to UTC Canada of 1,250,000 shares of Common stock having a fair value of \$93.3 million. The final purchase price is subject to working capital adjustments pursuant to the Asset Purchase Agreement that we entered into with UTC Canada.

On July 2, 2012, we exercised our option to acquire an additional 10% ownership interest in Carrier Enterprise I for cash consideration of approximately \$52.0 million, following which we have a 70% controlling interest in Carrier Enterprise I.

We continually evaluate other potential acquisitions and/or joint ventures and hold discussions with a number of acquisition candidates. Should suitable acquisition opportunities arise that would require additional financing, we believe our financial position and earnings history provide a sufficient basis for us to either obtain additional debt financing at competitive rates and on reasonable terms or raise capital through the issuance of equity securities.

### Common Stock Dividends

## Edgar Filing: WATSCO INC - Form 10-Q

Cash dividends of \$1.24 per share and \$1.09 per share of Common and Class B common stock were paid during the six months ended June 30, 2012 and 2011, respectively. On July 2, 2012, the Board of Directors declared a regular quarterly cash dividend of \$0.62 per share of Common and Class B common stock that was paid on July 31, 2012 to shareholders of record as of July 16, 2012. Future dividends and/or dividend rate increases will be at the sole discretion of the Board of Directors and will depend upon such factors as cash flow generated by operations, profitability, financial condition, cash requirements, restrictions under our revolving credit agreement, future prospects and other factors deemed relevant by our Board of Directors.

### **Company Share Repurchase Program**

In September 1999, our Board of Directors authorized the repurchase, at management's discretion, of up to 7,500,000 shares of common stock in the open market or via private transactions. Shares repurchased under the program are accounted for using the cost method and result in a reduction of shareholders' equity. No shares were repurchased during the quarters ended June 30, 2012 or 2011. In aggregate, 6,370,913 shares of Common and Class B common stock have been repurchased at a cost of \$114.4 million since the inception of the program. The repurchase of up to the remaining 1,129,087 shares authorized for repurchase is subject to certain restrictions included in our revolving credit agreement.

## **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

In the normal course of business we are exposed to fluctuations in foreign currency exchange rates and interest rates. To manage certain of these exposures, we use derivative financial instruments, including forward contracts and swaps. We do not use derivative financial instruments for trading purposes.

Exposure to market risk for changes in foreign currency exchange rates relates primarily to our foreign operations' buying in currencies other than local currencies. The principal foreign currency exchange rates to which we are exposed are the Canadian dollar and Mexican peso. We manage our exposure to foreign currency exchange rate risk by using forward currency option contracts to hedge foreign currency exposure. These instruments are not designated as hedging instruments. The total notional value of foreign currency forward contracts as of June 30, 2012 was \$24.0 million, and such contracts have varying terms expiring through August 2012.

Our revolving credit facility exposes us to interest rate risk because borrowings thereunder accrue interest at one or more variable rates. Our interest rate risk management objectives are to limit the impact of interest rate changes on earnings and cash flows and to lower overall borrowing costs. To achieve these objectives, we have historically entered into interest rate swap agreements with financial institutions that have investment grade credit ratings, thereby minimizing credit risk associated with these instruments. We do not currently hold any derivative contracts that hedge our interest rate exposure, but we may enter into such instruments in the future.

## **ITEM 4. CONTROLS AND PROCEDURES**

### **Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) that are, among other things, designed to ensure that information required to be disclosed by us under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer (CEO), Senior Vice President (SVP) and Chief Financial Officer (CFO), to allow for timely decisions regarding required disclosure and appropriate SEC filings.

Our management, with the participation of our CEO, SVP and CFO, evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report, and, based on that evaluation, our CEO, SVP and CFO concluded that our disclosure controls and procedures were effective, at a reasonable assurance level, at and as of such date.

### **Changes in Internal Control over Financial Reporting**

We are continuously seeking to improve the efficiency and effectiveness of our operations and of our internal controls. This results in refinements to processes throughout the Company. However, there have been no changes in internal controls over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2012, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. In accordance with the rules and regulations of the SEC, we have not yet assessed the internal control over financial reporting of the 35 locations added by Carrier Enterprise II in 2011 or the 35 locations added by Carrier Enterprise III in 2012, which collectively represented approximately 26% of our total consolidated assets at June 30, 2012 and approximately 13% of our consolidated revenues for the six months ended June 30, 2012. From the respective acquisition dates to June 30, 2012, the processes and systems of Carrier Enterprise II and Carrier Enterprise III did not impact the internal controls over financial reporting for our other consolidated subsidiaries.

## **PART II. OTHER INFORMATION**

Although the adequacy of existing insurance coverage or the outcome of any legal proceedings cannot be predicted with certainty, based on the current information available, we do not believe the ultimate liability associated with any known claims or litigation will have a material adverse affect on our financial condition or results of operations.

**ITEM 1A. RISK FACTORS**

Information about risk factors for the quarter ended June 30, 2012 does not differ materially from that set forth in Part I, Item 1A, of our Annual Report on Form 10-K for the year ended December 31, 2011.
