## **Item 8.01 Other Events**

On November 6, 2013, the Company issued a press release announcing that it has been selected by one of the largest electric utilities in the country to serve as one of that utility's new partners to provide transmission infrastructure service on its power grid. The Company began serving this utility customer on a limited basis in late 2012 and, through its work in 2013, has earned the opportunity to become a regular, long-term service provider to that utility customer. While specific volumes of ongoing work will be determined in the coming quarters, the Company currently estimates that in 2014 and 2015 it could be asked to double its work volumes and could realize \$25-\$35 million of revenue annually from this expanded relationship. The Company will not add this potential new business to its revenue backlog until the volume of work is determined.
