OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF MARCH 31, 2014

Table of Contents

TELECOM ARGENTINA S.A.

Services revenues amounted to \$6,559 (+18.8% vs. 1Q13) and represented 87.9% of consolidated revenues (vs. 91.0% in 1Q13). Equipment revenues increased 66.4%, amounting to \$907 and represented 12.1% of consolidated revenues (vs. 9.0% in 1Q13).

Fixed services

During 1Q14, services revenues generated by this segment amounted to \$1,952, +\$350 or 21.8% vs. 1Q13, where Internet revenues have grown the most (+\$151 or 26.3% vs. 1Q13), followed by data transmission services (+\$106 or 49.8% vs. 1Q13) and voice retail services (+\$53 or 8.4% vs. 1Q13).

Voice

Voice retail revenues amounted to \$682 in 1Q14 (+8.4% vs. 1Q13). The results of this line of business are still affected by frozen tariffs of regulated services. Revenues from regulated services reached approximately 30% of the segment revenues in 1Q14 (vs. 34% in 1Q13).

Monthly Charges and Supplementary Services increased \$26 or 9.7% vs. 1Q13, to \$295, as a consequence of an increase in supplementary services (not regulated), mainly due to an increase of their prices and, to a lesser extent, to the increase in the subscriber base.

Revenues generated by measured services (Local Measured Service, Domestic Long Distance and International Long Distance services) amounted to \$359 (+\$30 or 9.1% vs. 1Q13) mainly due to the increase of domestic plans and long national distance plans. In relative terms, revenues from local measured service increased 7.7% vs. 1Q13 and DLD revenues increased 10.6% vs. 1Q13.

Voice wholesale revenues (including fixed and mobile interconnection revenues and lease of circuits, together with the revenues generated by the subsidiary Telecom USA -amounting to \$22-) amounted to \$224 in 1Q14 (+21.1% vs. 1Q13). Interconnection fixed and mobile revenues amounted to \$149 (+17.3% vs. 1Q13 as a result of the general increase in prices and, to a lower extent, by a slight increase in traffic with mobile operators). The other wholesale revenues amounted to \$75 in 1Q14 (+29.3% vs. 1Q13), mainly due to higher prices related to cell sites rentals due to the variation of the \$/US\$ exchange rate.

Internet

Internet revenues amounted to \$726 (+\$151 or 26.3% vs. 1Q13) mainly due to the expansion of the Broadband service (+5% of customers vs. 1Q13) and an increase in average prices resulting in an improvement in the Average Monthly Revenue per User (ARPU), that amounted to \$138.0 pesos per month in 1Q14 vs. \$114.9 pesos per month in 1Q13. As of March 31, 2014, Telecom Argentina reached approximately 1,714,000 ADSL customers. These connections represent approximately 42% of Telecom Argentina s fixed lines in service (vs. 40% in 1Q13).

Internet revenues represent 9.7% of consolidated revenues (similar to 1Q13) and 37.2% of fixed services segment revenues (vs. 35.8% in 1Q13).

Data

Data transmission revenues amounted to \$319 (+\$106 vs. 1Q13), where the focus was to strengthen Company's position as an integrated TICs provider (Datacenter, VPN, among others) for wholesale and government segments. The increase is primarily due to higher prices related to the variation of the \$/US\$ exchange rate, the growth of *Integra* services mainly in the Large Customer segment and an increase in VPN IP services (private data networks services that replaces the point to point services) in the Retail segment. Additionally the increase was also due to an increase in the IP traffic in the Wholesale segment and to an increase in the monthly charges and transmission Datacenter services (especially in *Hosting* and *Housing* monthly charges, and Value added services transmission).

Personal Mobile Services

During 1Q14, total services revenues amounted to \$4,264 +\$596 or 16.2% vs. 1Q13, being the principal business segment in revenues terms (57.1% and 60.5% of consolidated revenues in 1Q14 and 1Q13, respectively). Personal reached 19.9 million subscribers in Argentina (+4% vs. 1Q13) maintaining the leadership in revenues in the mobile industry. Approximately 68% of the subscriber base is prepaid subscribers and 32% is postpaid subscribers (including Cuentas Claras plans and Mobile Internet dongles).

Voice

Voice retail revenues amounted to \$1,345 in 1Q14 (+11.1% vs. 1Q13). The increase was mainly due to the increase in the lines billed, mainly fueled by the increase in monthly charges prices and the increase in the subscriber base (specially prepaid and Cuentas Claras subscribers), partially offset by a slight decrease in postpaid customers. The Minutes of Use (MOU) reached 82.6 per month in 1Q14 compared to 93.7 per month achieved in 1Q13, representing a decrease of 11.8%.

OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF MARCH 31, 2014

Table of Contents

TELECOM ARGENTINA S.A.

Voice wholesale revenues amounted to \$488 in 1Q14 (+8.9% vs. 1Q13). The increase was mainly due to higher TLRD traffic, to an increase in domestic roaming sales and to the increase of mobile leases, mainly due to new agreements and to the renegotiation of the existing ones.

Internet

Mobile Internet revenues amounted to \$644 (+\$232 or 56.3% vs. 1Q13). This increase is mainly explained by the increase in consumption of Personal s subscribers, which was mainly fueled by the increase in the offer of services, plans and packs (including VAS) launched by Personal. This growth was fueled by new subscribers and the migration of existing ones to higher-value plans, partially offset by the revenues decrease generated by the decrease of Mobile Internet dongles subscribers.

Data

Mobile data services revenues amounted to \$1,787 (+\$190 or 11.9% vs. 1Q13). This increase was mainly due to the constant SMS sales increase as a result of several campaigns launched by Personal and specially the growth of the offers of SMS consumption, which represented an inter-annual increase of \$165 vs. 1Q13. This increase was reflected both in prepaid and postpaid customers and is mainly due to average prices increases and, to a lesser extent, to the increase of the subscribers base.

As a consequence of the voice traffic increase and the VAS use (Internet and data), ARPU increased to \$68.3 pesos per month in 1Q14 (vs. \$62.1 pesos per month in 1Q13), which represents an increase of 10.0%.

VAS revenues (data and Internet) amounted to \$2,431 (+21.0% vs. 1Q13) and represented 57.0% of Personal Mobile Services s services revenues (vs. 54.8% in 1Q13).

Núcleo Mobile Services

This segment generated services revenues equivalent to \$343 during 1Q14 (+\$94 or 37.8% vs. 1Q13) mainly due to the increase in the subscriber base (+3.3%), the appreciation of the Guaraní respect to the Argentine peso (+36% inter-annual) generating a positive effect in Núcleo s revenues conversion and the increase of Mobile Internet revenues (+69.4% vs. 1Q13) related to the increase of subscribers traffic with mobile equipment prepared for that purpose. As of March 31, 2014, Núcleo s subscriber base reached 2.4 million customers. Prepaid and postpaid subscribers (including Plan Control s subscribers and mobile Internet subscribers) represented 80% and 20% in 1Q14, respectively. The MOU reached 54.0 per month in 1Q14 compared to 61.5 per month achieved in 1Q13, representing a decrease of 12.2%.

VAS revenues (data and Internet) amounted to \$190 (+35.7% vs. 1Q13) and represented 55.4% of Núcleo Mobile Services segment services revenues (vs. 56.2% in 1Q13).

Equipment

Revenues from equipment amounted to \$907, +\$362 or 66.4% vs. 1Q13. This increase is mainly related to the Personal Mobile services segment with an increase of \$361 vs. 1Q13. The increase was mainly due to an increase in handset s average sale prices (+82.9% vs. 1Q13), partially offset by lower handsets sold (-6.2% vs. 1Q13). This situation was mainly generated by a subsidy reduction policy, the increase in average prices related to higher-value handsets demand, the business strategy to attract high-value subscribers, a decrease in discounts as a result of the finalization of commercial promotions and lower retail revenues. In the Núcleo Mobile Services segment the increase was mainly due to the effect of the appreciation of the Guaraní respect to the Argentine peso, partially offset by a decrease in the units of handsets sold. The equipment sale result amounted to a gain of \$132 in 1Q14 vs. a loss of \$13 in 1Q13, net of SAC capitalization.

Operating costs

Consolidated operating costs including depreciations, amortizations and gain on disposal of PP&E totaled \$6,099 in 1Q14, which represents an increase of \$1,141 or +23.0% vs. 1Q13. The increase in costs is mainly a consequence of a higher revenues, higher expenses related to competition in mobile and Internet businesses, higher direct and indirect labor costs on the cost structure of the Telecom Group in Argentina, the increase in fees for services related to higher supplier prices, the increase in taxes, the increase in provisions related to regulatory matters, the increase of VAS costs and the effect of the appreciation of the Guaraní (+36% inter-annual) respect to the Argentine peso, affecting the operations in Paraguay.

The costs breakdown is as follows:

Employee benefit expenses and severance payments

Employee benefit expenses and severance payments amounted to \$1,183 (+\$315 or 36.3% vs. 1Q13). The increase was mainly due to increases in salaries agreed by Telecom Argentina with several trade unions for the unionized employees and also to non-unionized employees, together with related social security charges and to increases in severance payments. With a total headcount of 16,523 by the end of 1Q14, slightly lower than 1Q13, lines in service per employee reached 373 in the Fixed Services segment (slightly higher than 1Q13), subscribers per employee reached 3,911 in the Personal Mobile Services segment (+7.4% vs. 1Q13) and subscribers per employee reached 5,761 (+7.6% vs. 1Q13) in the Núcleo Mobile Services segment.

Interconnection costs and other telecommunication charges

Interconnection costs and other telecommunication charges (including charges for TLRD, Roaming, Interconnection costs, cost of international outbound calls and lease of circuits) amounted to \$515 (+\$31 or 6.4% vs. 1Q13) mainly due to higher traffic volume in the domestic market.

Fees for services, maintenance, materials and supplies

Fees for services, maintenance, materials and supplies amounted to \$755, +\$199 or 35.8% vs. 1Q13. The increase was mainly due to higher maintenance costs of radio bases, systems and buildings in the mobile services segments, as a result of the variation in the \$/US\$ exchange rate, an increase in technical assistance cost of radio bases, higher system licenses maintenance costs and higher costs of building maintenance. There were also increases in other maintenance costs and fees for services, mainly due to higher costs recognized to suppliers in all segments.

Taxes and fees with the Regulatory Authority

Taxes and fees with the Regulatory Authority (including turnover tax, fees with the Regulatory Authority, IDC, municipal and other taxes) amounted to \$755 (+25.4% vs. 1Q13), influenced mainly by the increase in revenues of fixed and mobile services, by the increase in equipment sales and by the increase of the IDC related to the dividends payment.

Commissions

Commissions (including Agent, distribution of prepaid cards and other commissions) amounted to \$674 (+\$69 or 11.4% vs. 1Q13), mainly due to the increase in commercial agents commissions (associated to higher revenues) as a result of higher customer acquisition and retention, higher cards sales and prepaid recharges and the increase in sales outsourcing commissions and in collections commissions.

On the other hand, agent commissions capitalized as SAC amounted to \$133, +\$30 or 29.1% vs. 1Q13, and it is directly related to the increase in the Cuentas Claras subscribers base in the Personal Mobile Services segment and the increase in the commissions prices.

Cost of equipment and handsets

Cost of equipments and handsets amounted to \$806 (+\$145 or 21.9% vs. 1Q13) mainly due to an increase in the average unit cost of sales (+31.2% vs. 1Q13), partially offset by a decrease in the units of handsets sold (-6.2% vs. 1Q13) in the Personal Mobile Services segment.

OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF MARCH 31, 2014

Table of Contents

TELECOM ARGENTINA S.A.

On the other hand, SAC deferred costs from handsets sold amounted to \$31, -\$72 or -69.9% vs. 1Q13. The lower capitalized amount was mainly due to the significant reduction of subsidies provided to customers in the Personal Mobile Services segment.

Advertising

Advertising amounted to \$164 (+\$10 or 6.5% vs. 1Q13), mainly due to higher commercial campaigns of Personal as compared to 1Q13.

Cost of VAS

Cost of VAS amounted to \$191 (+\$60 vs. 1Q13), mainly due to the increase of VAS sales in the Personal Mobile Services segment (mainly the SMS service) as a consequence of several campaigns launched by Personal and specially to higher offers oriented to the consumption of SMS with contents.

Provisions

Provisions amounted to \$37, -\$3 or -7.5% vs. 1Q13. The decrease was mainly due to lower labor claims (-\$13 vs. 1Q13) and lower civil and commercial claims (-\$4 vs. 1Q13), partially offset by higher regulatory and municipal claims (+\$14 vs. 1Q13).

Bad debt expenses

Bad debt expenses amounted to \$118 (+\$25 vs. 1Q13), representing approximately 1.6% and 1.5% of the consolidated revenues in 1Q14 and 1Q13, respectively. The increase is observed in the Personal Mobile Services segment as a consequence of higher aging of the accounts receivables.

Other operating costs

Other operating costs amounted to \$330 (+\$44 vs. 1Q13). The increase was mainly due to higher prices on related services, especially in transportation, freight and travel expenses, among others, in the operations in Argentina; and the increase of rent prices, as a result of new agreements and the renegotiation of some of the existing ones.

Operating income before depreciation and amortization

Operating income before depreciation and amortization amounted to \$2.112 (+\$313 or 17.4% vs. 1Q13), representing 28.3% of consolidated revenues in 1Q14 vs. 29.7% in 1Q13. This growth was mainly fueled by the Personal Mobile Services segment (+\$241 or 19.7% vs. 1Q13).

Depreciation and amortization

Depreciation and amortization amounted to \$739 (+\$48 or +6.9% vs. 1Q13). The increase in PP&E depreciation amounted to \$71 partially offset by a decrease in amortization of SAC and service connection costs of \$24 due to

lower levels of capitalization of subsidies from the sale of mobile handsets and the extension of the contractual terms for mobile customers from 18 to 24 months. The increase in depreciation and amortization corresponds 87.5% to the Fixed Services segment and 12.5% to the mobile services segments.

Gain on disposal of PP&E

The gain amounted to \$4, (vs. \$7 in 1Q13) and corresponds mainly to the sale of vehicles in the Fixed Services segment.

Operating income

Operating income amounted to \$1,377 in 1Q14 (+\$262 or +23.5% vs. 1Q13). The margin over consolidated revenues represented 18.4% in 1Q14 and 1Q13. Personal Mobile Services segment shows the higher increase (+\$262 vs. 1Q13).

Financial results, net

Financial results, net resulted in a net loss of \$32, representing a decrease of \$167 vs. 1Q13. The decrease was mainly due to higher foreign currency exchange losses (+\$293 vs. 1Q13) and higher interests on provisions (+\$20 vs. 1Q13), partially offset by higher financial interest on time deposits and other investments (+\$90 vs. 1Q13), higher gains on mutual funds (+\$27 vs. 1Q13), higher gains on NDF (+\$23 vs. 1Q13), and higher interests on receivables (+\$11 vs. 1Q13).

Net income

Telecom Argentina reached a net income of \$906 in 1Q14, +\$93 or +11.4% when compared to 1Q13. Net income attributable to Telecom Argentina amounted to \$889 in 1Q14, +\$87 or +10.8% as compared to 1Q13.

OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF MARCH 31, 2014

Table of Contents**TELECOM ARGENTINA S.A.****Net financial assets**

As of March 31, 2014, Net financial assets (Cash and Cash Equivalents plus financial investments minus Financial debt) amounted to \$5,080, showing an increase of \$1,060 as compared to March 31, 2013 (amounting to \$4,020). This increase was mainly due to an increase in the generation of cash from operating activities of the Telecom Group, partially offset by cash dividends paid to its shareholders for a total amount of \$1,000 (including tax withholding on cash dividends). The Fixed Services segment has a financial asset of \$1,571 and the Personal Mobile Services segment has a financial asset of \$3,745, while the Núcleo Mobile Services segment has a net financial debt of \$236.

Capital expenditures (CAPEX)

CAPEX composition for 1Q14 and 1Q13 is as follows:

	In millions of \$		% of participation		Variation	
	1Q14	1Q13	1Q14	1Q13	\$	%
Fixed Services	396	284	37%	38%	112	39

Núcleo Mobile Services	54	64	5%	9%	(10)	(16)
Total CAPEX	1,062	741	100%	100%	321	43

PP&E CAPEX amounted to \$880 and intangible assets CAPEX amounted to \$182 in 1Q14, while in 1Q13 amounted to \$519 and \$222, respectively.

In relative terms, CAPEX represented 14% of consolidated revenues in 1Q14 (12% in 1Q13), and were intended mainly for the External wiring and network access equipment, Transmission and Switching equipment, Computer equipment and SAC.

PP&E and intangible assets additions (CAPEX plus materials additions) for 1Q14 and 1Q13 are as follows:

	In millions of \$		% of participation		Variation	
	1Q14	1Q13	1Q14	1Q13	\$	%
Fixed Services	511	313	43%	39%	198	63
Personal Mobile Services	618	396	52%	50%	222	56
Núcleo Mobile Services	58	84	5%	11%	(26)	(31)
Total additions	1,187	793	100%	100%	394	50

Main PP&E CAPEX projects are related to the expansion of fixed broadband services in order to improve transmission and speed offered to customers; deployment of 3G services to support the growth of mobile Internet together with the launch of innovative VAS services and the expansion of transmission and transport networks to meet the growing demand of services of our fixed and mobile customers.

7. Outlook

In this fiscal year the evolution prospects for fixed line services will continue in line with the trend of recent years, influenced by the maturity of the market and the replacement of the fixed-service for the mobile-service. *Arnet* Broadband business got well-positioned to continue to capture market opportunities.

During 2014 Personal will continue to work on the mass of the mobile Internet experience, assuming the responsibility over quality of services, the continuity of the technological upgrading of the national network and maintaining the expectations of a resolution on the spectrum needs for the mobile industry. To do this, it is expected the definition of new criteria to allow mobile operators who have not reached the maximum radio spectrum provided by the regulation the increase of their spectrum in order to make feasible the provision of mobile services with the quality provided by the investments made in infrastructure. The Regulatory Authority should also continue working with the operators in order to enable the municipalities to install the necessary sites to improve the network coverage of all operators.

Coverage expansion and speed access improvement to 3G and HSPA+ networks with the more complete portfolio of advanced mobile devices will continue to be the drivers to revenues through proposals of value. The opportunity to grow in capacity data will come from the network evolution to 4G, once the spectrum availability enables its development.

During 1Q14 some changes to the economic policy of the Government which, among other things, seek to improve public finances, competitiveness of the country, the BCRA reserves and lower inflation rates were introduced. These changes have depreciated the Argentine peso against the U.S. dollar and new inflation rates calculated by the INDEC using a new methodology have been determined, impacting directly over the pricing policies, the cost and investment structures of the companies, the levels of employment and consumption of the population and of our customers in particular. The Telecom Group's Management will continue to monitor these macroeconomic variables to achieve its strategic objectives of improving quality of service, strengthening its market position and increasing its operational efficiency to meet the growing demands of the dynamic telecommunication market without neglecting the return on investment for the shareholders. The investment plans of the Telecom Group are based on the Telecom Group's commitment to its country and its people.

- (a) Percentage of equity interest owned has been rounded.
- (b) Dormant entity as of March 31, 2014 and December 31, 2013 and for the three-month periods ended March 31, 2014 and 2013, respectively.
- (c) Non-controlling interest of 32.50% is owned by the Paraguayan company ABC Telecomunicaciones S.A. For the preparation of these consolidated financial statements, the Company followed the same accounting policies applied in the most recent annual financial statements. As from January 1, 2014 certain amendments to IAS 32 have come into effect, clarifying the meaning of "currently has a legally enforceable right to compensation" and how compensation requirements which offset gross amounts that do not operate simultaneously should be applied. The Telecom Group mainly offset financial assets and liabilities that relate to Interconnection transactions, TLRD and Roaming with other national and foreign operators. See Note 2.ad). The application of these new provisions has not had a significant impact on these consolidated financial statements.

The preparation of these consolidated financial statements in conformity with IFRS requires the Company's Management to use certain critical accounting estimates. Actual results could differ from those estimates.

These consolidated financial statements (except for cash flow information) are prepared on an accrual basis of accounting. Under this basis, the effects of transactions and other events are recognized when they occur. Therefore income and expenses are recognized at fair value on an accrual basis regardless of when they are perceived or paid. When significant, the difference between the fair value and the nominal amount of income and expenses is recognized as finance income or expense using the effective interest method over the relevant period.

These consolidated financial statements have also been prepared on a going concern basis, as there is a reasonable expectation that Telecom Argentina and its subsidiaries will continue its operational activities in the foreseeable future (and in any event with a time horizon of more than twelve months).

Publication of these consolidated financial statements for the period ended March 31, 2014 was approved by resolution of the Board of Directors meeting held on May 7, 2014.

b) Financial statement formats

The financial statement formats adopted are consistent with IAS 1, In particular:

the consolidated statements of financial position have been prepared by classifying assets and liabilities according to current and non-current criterion. Current assets and liabilities are those that are expected to be realized/ paid settled within twelve months after the period-end;

the consolidated income statements have been prepared by classifying operating expenses by nature of expense as this form of presentation is considered more appropriate and representative of the specific business of the Telecom Group as evaluated by the Management, and are in line with the industrial sector of telecommunications;

Table of Contents

TELECOM ARGENTINA S.A.

the consolidated statements of comprehensive income include the profit or (loss) for the period as shown in the consolidated income statement and all components of other comprehensive income;

the consolidated statements of changes in equity have been prepared showing separately (i) profit (loss) for the period, (ii) other comprehensive income (loss) for the period, and (iii) transactions with shareholders (controlling and non-controlling);

the consolidated statements of cash flows have been prepared by presenting cash flows from operating activities according to the indirect method, as permitted by IAS 7.

These consolidated financial statements contain all material disclosures required under IAS 34. Some additional disclosures required by the LSC and/or by the CNV have been also included, among them, complementary information required in the last paragraph of Article 1 Chapter III Title IV of the CNV General Resolution No. 622/13. Such information is disclosed in Notes 2 and 6 to these consolidated financial statements, as admitted by IFRS.

c) Segment reporting

An operating segment is defined as a component of an entity that engages in business activities from which it may earn revenues and incur expenses, and whose financial information is available, held separately, and evaluated regularly by the Chief Executive Officer (CEO).

Operating segments are reported in a consistent manner with the internal reporting provided to the CEO, who is responsible for allocating resources and assessing performance of the operating segments at the net income (loss) level and under the accounting principles effective (IFRS) at each time for reporting to the Regulatory Bodies. The accounting policies applied for segment information are the same for all operating segments.

Information regarding segment reporting is included in Note 4.

d) Net income per share

The Company computes net income per common share by dividing net income for the period attributable to Telecom Argentina (Controlling Company) by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing the net income for the period by the weighted average number of common and dilutive potential common shares then outstanding during the period. Since the Company has no dilutive potential common stock outstanding, there are no dilutive earnings per share amounts.

For the three-month period ended March 31, 2013 the weighted average number of shares outstanding totaled 984.380.978, consistent with subscribed shares. For the three-month period ended March 31, 2014 the weighted average number of shares outstanding decreased to 969.159.605 shares, as a consequence of the changes caused by the Treasury Shares Acquisition Process that began in May 2013. For further information, see Note 7 to the consolidated

financial statements.

Table of Contents**TELECOM ARGENTINA S.A.****NOTE 4 SEGMENT INFORMATION**

Until fiscal year ended December 31, 2013, the Telecom Group carried out its activities through six companies, each identified as an operating segment. On February 19, 2014 Personal sold its equity interest in Springville; which results, assets and liabilities were included in the Personal Mobile Services segment and which figures were immaterial, as disclosed in Note 10.8 to the consolidated financial statements. Therefore, as from March 31, 2014, the Telecom Group carries out its activities through the five remaining companies which were consolidated by the end of fiscal year 2013 (Note 1.a).

The Telecom Group has combined the operating segments into three reportable segments: Fixed services, Personal Mobile Services and Núcleo Mobile Services based on the nature of products provided by the entities and taking into account the regulatory and economic framework in which each entity operates.

Segment financial information for the three-month periods ended March 31, 2014 and 2013 was as follows:

(b) Related parties

For the purposes of these financial statements, related parties are those individuals or legal entities which are related (in terms of IAS 24) to the Telecom Italia Group or W de Argentina Inversiones SL, except Nortel and companies under sect. 33 of Law No. 19,550 (subsidiaries or affiliates).

Under IAS 24, Telefónica, S.A. (of Spain) and its controlled companies, including Telefónica de Argentina S.A. and Telefónica Móviles de Argentina S.A. are not considered related parties. As of the date of these consolidated financial statements, such situation has been confirmed by the commitments assumed before the CNDC to ensure the separation and independence between the Telecom Italia Group and the Telecom Group, on one hand, and Telefónica S.A. (of Spain) and its controlled companies, on the other, with respect to their activities in the Argentine telecommunications market, such as it has been corroborated by the applicable authorities.

The Telecom Group has transactions in the normal course of business with certain related parties. For the periods presented, the Telecom Group has not conducted any transactions with executive officers and/or persons related to them.

- (c) Corresponds to an agreement of lease-mode IP international capacity until December 2016. Telecom Argentina paid approximately \$267.6 in February 2013 for this agreement.

The transactions discussed above were made on terms no less favorable to the Company than would have been obtained from unaffiliated third parties. The Board of Directors approved transactions representing more than 1% of the total shareholders' equity of the Company, after being approved by the Audit Committee in compliance with Law No. 26,831.

e) Key Managers

Compensation for the Key Managers, including social security contribution, amounted to \$26 and \$13 for the three-month periods ended March 31, 2014 and 2013, respectively, and was recorded as expenses under the item line Employee benefits expenses and severance payments. The total expense remuneration is comprised as follows:

(*) Gross compensation. Social security and income tax retentions are in charge of the employee. As of March 31, 2014 and December 31, 2013, an amount of \$6 and \$25 remained unpaid, respectively.

Table of Contents**TELECOM ARGENTINA S.A.**

As of March 31, 2014 and 2013, the Telecom Group has recorded a \$4 and \$2 provision for the fees of the Telecom Argentina's Board of Directors members, respectively. The members and alternate members of the Board of Directors do not hold executive positions in the Company or Company's subsidiaries.

NOTE 6 COMMITMENTS AND CONTINGENCIES OF THE TELECOM GROUP**a) Purchase commitments**

The Company has entered into various purchase orders amounting in the aggregate to approximately \$4,953 as of March 31, 2014 (of which \$2,134 corresponds to PP&E commitments), primarily related to the supply of switching equipment, external wiring, infrastructure agreements, inventory and other service agreements.

b) Contingencies

The Telecom Group is a party to several civil, tax, commercial, labor and regulatory proceedings and claims that have arisen in the ordinary course of business. In order to determine the proper level of provisions, Management of the Company, based on the opinion of its internal and external legal counsel, assesses the likelihood of any adverse judgments or outcomes related to these matters as well as the range of probable losses that may result from the potential outcomes. A determination of the amount of provisions required, if any, is determined after an analysis of each individual case.

The determination of the required provisions may change in the future due to new developments or unknown facts at the time of the evaluation of the claims or changes as a matter of law or legal interpretation. Consequently, as of March 31, 2014, the Telecom Group has recorded provisions in an aggregate amount of \$1,344 to cover potential losses under these claims (\$85 for regulatory contingencies deducted from assets and \$1,259 included under provisions) and certain amounts deposited in the Company's bank accounts have been restricted as to their use due to some judicial proceedings. As of March 31, 2014, these restricted funds totaled \$52 (included under Other receivables item line in the consolidated statement of financial position).

Provisions consist of the following:

(a) Capital information

The capital stock of Telecom Argentina amounted to \$984,380,978, represented by an equal number of ordinary shares, of \$1 Argentine peso of nominal value and entitled to one vote per share. The capital stock is fully integrated and registered with the Public Registry of Commerce.

The Company's shares are authorized by the CNV, the Buenos Aires Stock Exchange (the BCBA) and the New York Stock Exchange (the NYSE) for public trading. Only Class B shares are traded since Nortel owns all of the outstanding Class A shares; and Class C shares are dedicated to the employee stock ownership program, as described below.

Telecom Argentina's breakdown of capital stock as of March 31, 2014 is as following:

Shares	Registered, subscribed and authorized for public offering		
	Outstanding shares	Treasury shares	Total capital stock
Ordinary shares, \$1 Argentine peso of nominal value each			
Class A	502,034,299		502,034,299
Class B	466,857,868	15,221,373	482,079,241
Class C	267,438		267,438
Total	969,159,605	15,221,373	984,380,978

Each ADS represents 5 Class B shares and are traded on the NYSE under the ticker symbol TEO.

(b) Acquisition of Treasury Shares

The Company's Ordinary Shareholders Meeting held on April 23, 2013, which was adjourned until May 21, 2013, approved at its second session of deliberations, the creation of a Voluntary Reserve for Capital Investments of \$1,200, granting powers to the Company's Board of Directors to decide its total or partial application, and to approve the methodology, terms and conditions of such investments.

In connection with the above mentioned, on May 22, 2013, the Board of Directors approved the following terms and conditions of the Company's Treasury Shares Acquisition Process in the market in Argentine pesos so as to avoid any possible damages to the Company and its shareholders derived from fluctuations and unbalances between the shares price and the Company's solvency:

Maximum amount to be invested: \$1,200.

Maximum amount of shares subject to the acquisition: the amount of Class B ordinary shares of the Company, \$1 Argentine peso of nominal value and with one vote each, that may be acquired with the maximum amount to be invested, which amount may never exceed a limit of 10% of the capital stock.

Price to be paid by share: between a minimum of \$1 Argentine peso and a maximum of \$32.50 Argentine pesos by share. The maximum price to be paid by share may be modified by the Company's Board of Directors.

Deadline for the acquisitions: until April 30, 2014.

The Company's Board of Directors, on its meeting held on August 29, 2013, modified the terms and conditions only regards the price to be paid by share, which resulted to be between a minimum of \$1 Argentine peso and a maximum of \$40 Argentine pesos per share.

Pursuant to Section 67 of Law No. 26,831, the Company must sell its treasury shares within three years of the date of acquisition. Pursuant to Section 221 of the LSC, the rights of treasury shares shall be suspended until such shares are sold, and shall not be taken into account to determine the quorum or the majority of votes at the Shareholders Meetings. No restrictions apply to Retained Earnings as a result of the creation of a specific reserve for such purposes named Voluntary Reserve for Capital Investments.

Table of Contents**TELECOM ARGENTINA S.A.**

As of March 31, 2014 the treasury shares acquisition cost amounted to \$461. According to the offer made in November 7, 2013 by the Fintech Group for the acquisition of controlling interest of Telecom Italia Group in Telecom Argentina (see Note 5.a to these consolidated financial statements), Telecom Argentina suspended the acquisition of treasury shares and considered appropriate to request the opinion of the CNV on the scope of the new provisions in the rules of that entity (Title II, Chapter I, Art.13 and concurring) with respect to the continuation of the process acquisition of treasury shares of the Company in the market. As of the date of issuance of these financial statements, the Company is awaiting the response of the CNV. So, the last acquisition made by the Company was on November 5, 2013.

NOTE 8 RESTRICTIONS ON DISTRIBUTION OF PROFITS

The Company is subject to certain restrictions on the distribution of profits. Under the LSC, the by-laws of the Company and rules and regulations of the CNV, a minimum of 5% of net income for the year in accordance with the statutory books, plus/less previous years adjustments and accumulated losses, if any, must be appropriated by resolution of the shareholders to a legal reserve until such reserve reaches 20% of the outstanding capital (common stock plus inflation adjustment of common stock).

NOTE 10 RECENT DEVELOPMENTS CORRESPONDING TO THE THREE-MONTH PERIOD ENDED MARCH 31, 2014 OF THE TELECOM GROUP**1. Resolution SC No. 5/13**

On July 2, 2013, SC Resolution No. 5/13 was published approving the Telecommunication service quality regulation , which establishes, among others, exigent quality parameters required for telecommunication services provided through mobile and fixed public networks, for all the operators in Argentina and the obligation to provide periodic information to the CNC.

CNC Resolution No. 3,797/13 was published on November 13, 2013, supplementing SC Resolution No. 5/13 and approving the Audit Procedures and Technical Verification of Service Quality Regulation of Telecommunications Services Manual.

As of the date of issuance of these financial statements, Telecom Argentina and Personal continue analyzing the operational aspects required by the new regulations as well as its regulatory and economic impact and applicable actions to be taken. However, pursuant to the provisions of CNC Resolution No. 3,797/13 Telecom Argentina and Personal have made their presentations providing the required information and have complied with the presentation of the Technical Reports (detailed technical specifications of the measurement process) established in the above mentioned Resolution. Notwithstanding this, the enforcement of this Resolution is subject to compliance with specific items for implementation with prior approval of the CNC.

2. Changes in the pricing method of mobile services and the information requirements on the commercial conditions of mobile services plans

SC Resolution No. 26/13 issued on December 17, 2013 changed the pricing method of calls originating on mobile services and the mechanism for informing the CNC of the commercial conditions of existing plans. The new resolution establishes that calls originated by users of mobile communications will be charged per second and the pricing of each call will comprise a fixed value corresponding to the Initial Communication Block (including up to 30 seconds), plus additional charges per second after the 30th second of communication has elapsed.

Table of Contents

TELECOM ARGENTINA S.A.

Personal has filed a request for extension of the time limits required by the resolution. However, Personal has made the necessary implementations to comply with the new provisions.

As of the date of these financial statements, the CNC has initiated audits to Personal in order to verify compliance with the implementation of the new pricing method and the verification of the customer's claims related to this matter.

3. Universal Service

Telecom Argentina

On March 19, 2014 the CNC notified Telecom Argentina of an accusation in connection with an alleged breach of Resolution No. 2,516/13 (and its amendment Resolution No. 3,998/13) stating that Telecom Argentina had omitted to submit the SU calculations corresponding to the period January 2001 June 2007 and ordering Telecom Argentina to submit such calculations and, if applicable, to make the corresponding payments.

Telecom Argentina's Management believes that no payments should be made based on the arguments timely included in the administrative complaints filed against Resolutions No. 2,516/13 and No. 3,998/13. As of the date of issuance of these consolidated financial statements, Telecom Argentina is preparing its defense against such accusation.

Personal

Personal has filed, pursuant to the SC's request, a new adaptation of the Project filed in connection with Resolution No. 9/11. This new filing consists only of additional detailed information about the Project's scope.

4. Increase in the Regulator's Penalty Activities

Telecom Argentina is subject to various penalty procedures, in most cases promoted by the Regulatory Authority, for delays in the reparation and installation of service to fix-line customers. Although generally a penalty considered on an individual basis does not have a material effect on Telecom Argentina's equity, there is a significant disproportion between the amounts of the penalty imposed by the Regulatory Authority and the revenue that the affected customer generates to Telecom Argentina.

Since fiscal year 2013, the CNC significantly increased its penalty activities, increasing the amount of accusations and penalties, as well as the individual amount of each of the latter. In several cases the penalties imposed during 2013 had twice the economic value of the penalties imposed to Telecom Argentina in previous periods for the same alleged offences.

As a result of the above, and notwithstanding the defense arguments submitted by Telecom Argentina at the administrative level, sanctions and penalties received in 1Q14 vs. 1Q13 (measured in terms of alleged violations) increased 43% and 486%, respectively. Likewise, losses recorded during the three-month period ended on March 31, 2014 for contingencies of regulatory nature in Telecom Argentina have significantly increased, reaching an amount of \$25 (vs. \$7 in 1Q13 or +257%), which is included in item Provisions in the Income Statement. In determining the provisions for regulatory sanctions, the Telecom Argentina's Management, with the assistance of its legal counsel, has determined the likelihood of such sanctions being imposed and the amount thereof based on historical information and

contemplating various probable scenarios of prescription of sanctions and penalties received.

5. Profit Sharing Bonds

Different legal actions were brought, mainly by former employees of Telecom Argentina, against the Argentine government and Telecom Argentina, requesting that Decree No. 395/92 which expressly exempted Telefónica de Argentina S.A. and Telecom Argentina from issuing the profit sharing bonds provided in Law No. 23,696 be struck down as unconstitutional and, therefore, claiming compensation for the damages they had suffered because such bonds had not been issued.

Supreme Court Verdict *Dominguez c/ Telefónica de Argentina S.A.*

In December 2013, the Argentine Supreme Court ruled on a similar case to the above referred legal actions, *Domínguez c/ Telefónica de Argentina S.A.*, overturning a lower court ruling that had barred the claim as having exceeded the applicable statute of limitations since ten years had passed since the issuance of Decree No. 395/92.

The Argentine Supreme Court ruling states that the Civil and Commercial Proceedings Court must hear the case again to consider statute of limitations arguments raised by the appellants that, in the opinion of the Argentine Supreme Court, were not considered by the lower court and are relevant to the resolution of the case.

Table of Contents**TELECOM ARGENTINA S.A.**

After the Argentine Supreme Court's verdict in the case *Domínguez c/ Telefónica de Argentina S.A.* and until the date of issuance of these financial statements, only two chambers of the Civil and Commercial Federal Proceedings Court have issued opinions interpreting the doctrine developed by the Argentine Supreme Court in its verdict. On March 7, 2014, Chamber I, in the case *Cufre, Pedro c/ Telecom*, following the doctrine that derives from the Argentine Supreme Court's verdict, acknowledged that the statute of limitations must be applied periodically as of the time of each balance sheet-. However, it has limited the statute of limitations period to five years, applying statute of limitations rules specifically applicable to periodic obligations.

On April 15, 2014, Chamber III in the case *Luna, Tadeo c/ Telecom* ruled, by a majority of votes, that the statute of limitations must not be applied periodically, but that instead, was exceeded ten years after the issuance of Decree No. 395/92, therefore upholding the interpretation Chamber III had prior to the Argentine Supreme Court's verdict.

As of the date of issuance of these consolidated financial statements, the chambers of the Civil and Commercial Proceeding Court do not seem to hold a uniform interpretation of the Argentine Supreme Court's verdict in the case *Dominguez c/ Telefónica*, therefore not allowing to accurately assess the effect that the Argentine Supreme Court's verdict would eventually have over the financial condition and results of operations of Telecom Argentina.

Ruling of the Civil and Commercial Federal Proceedings Court in Plenary Session *Parota c/ Estado Nacional y Telefónica de Argentina S.A.*

On February 27, 2014, the Civil and Commercial Federal Proceedings Court issued a verdict in plenary session in the case *Parota, Cesar c/ Estado Nacional*, as a result of a complaint filed against Telefónica de Argentina S.A. In its verdict the court ruled: *that the determination of the credit corresponding to the former employees of Telefónica de Argentina S.A. as a result of the profit sharing bonuses shall be calculated based on the net taxable income of Telefónica de Argentina S.A. on which the income tax liability is to be assessed*.

The Court explained that in order to make such determination: *it is necessary to clarify that taxable income (pre-tax income) means the amount of income subject to the income tax that the company must pay, which generally means gross income, including all revenue obtained during the fiscal year (including contingent or extraordinary revenue), minus all ordinary and extraordinary expenses accrued during such fiscal year*.

As of the date of issuance of these consolidated financial statements, the effect of the above referred ruling on the cases in which Telecom Argentina is a party cannot be determined, since it will depend on the interpretation to be made by each chamber of the Court as to which accounting items must be considered in those cases in which Telecom Argentina is a party.

6. Sales representative claims

During 1Q14, two former sales representatives of Personal have brought legal actions for alleged untimely termination of their contracts and have submitted claims for payment of different items such as commission differences, value of customers lists and lost profit. Personal believes, based on the assistance of its legal counsel, that certain items included in the claims would not be sustained while other items, if sustained, would result in significantly lower amounts. As of the date of this consolidated financial statements, Personal's Management, based on the assistance of legal counsel, has recorded provisions that it estimates are sufficient to cover the risks associated with these claims,

and wouldn't have a negative impact on Personal results and financial statements.

7. Financial transactions to mitigate foreign exchange risk

Considering the fluctuations of the exchange rate between the US Dollar and the Argentine Peso during 1Q14 (+23%), and due to the existence of commercial commitments denominated in US Dollars as of March 31, 2014 Personal entered into several NDF agreements during 1Q14 to purchase a total amount of US\$ 92 million (US\$ 86 million maturing in April, May and June 2014). The purpose of these NDF is to eliminate the risks associated to the fluctuation of the future exchange rate and to align the payment currency of Personal's commercial commitments (item covered) to its functional currency.

Table of Contents

TELECOM ARGENTINA S.A.

Personal Management has classified those agreements as effective cash flow hedges and has assessed the documentation requirements, the qualitative and quantitative effectiveness assessment and the possibility to designate partial hedges, as permitted by IFRS 9. As the effect of the fluctuation of the exchange rate over the hedged items is recognized in the Income Statement, changes in the fair value of NDF (net gain of approximately \$23) have also been recognized in the Income Statements, within Finance income and expenses NDF. Personal recognizes the hedging instruments results, distinguishing between gains and losses of such agreements that generate assets and liabilities, as appropriate, without offsetting balances with different counterparties.

Also, in order to mitigate the currency risk Personal acquired in 1Q14 Government bonds denominated in U.S. dollars (Bonar 2017), at a cost of \$537, with an annual interest rate of 7%, also in U.S. dollars. Foreign exchange differences generated by the purchase of these government bonds were recognized in Foreign currency exchange losses .

8. Sale of the equity interest in Springville

On February 10, 2014 Personal s Board of Directors decided to approve the sale of such equity interest (representative of 100% of Springville capital stock) for a total amount of US\$ 27,223.

According to the terms and conditions of the offer accepted by Personal, on February 19, 2014 the transfer of the shares was concluded and Personal collected the mentioned amount, equivalent to \$0.2, generating a gain of \$0.4 for the reversal of the amount included in Currency translation adjustments .

Accounting treatment

In accordance with IFRS 5, investment in Springville was classified as *Asset available for sale* . This asset was valued at the lower amount between the booked value and the fair value less costs of sale as of December 31, 2013. The results were presented as results in discontinuation as of March 31, 2013. Assets, liabilities, operating expenses and cash flows considered by Personal accounts related to Springville, are not material, and in any case reach the minimum magnitude to be segregated in the statement of financial position, income statement, statement of comprehensive income or statement of cash flow of Personal. Below are detailed information on the assets, liabilities, net results and cash flows in discontinuation net of eliminations- related to Springville that were consolidated as of December 31, 2013 and March 31, 2013:

LIMITED REVIEW REPORT ON CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders, President and Directors of

Telecom Argentina S.A.

Legal address: Alicia Moreau de Justo 50

Autonomous City of Buenos Aires

Tax Code No.: 30-63945373-8

Introduction

We have reviewed the accompanying condensed interim consolidated financial statements of Telecom Argentina S.A. and its subsidiaries (Telecom or the Company), which comprise the consolidated statement of financial position as of March 31, 2014, the consolidated statements of income and of comprehensive income, the statement of changes in shareholders equity and the cash flow statement for the period of three months ended March 31, 2014 and selected explanatory notes.

The balances and other information for the fiscal year 2013 and interim periods within that year are an integral part of the above-mentioned financial statements and therefore they should be considered in relation with those financial statements.

Management Responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of the financial statements in accordance with International Financial Reporting Standards, adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and incorporated by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standards Board (IASB), and is therefore responsible for the preparation and presentation of the condensed interim consolidated financial statements mentioned in the first paragraph, in accordance with International Accounting Standard 34 Interim Financial Information (IAS 34). Our responsibility is to express a conclusion based on the review we have performed with the scope detailed in section Scope of our review .

Scope of our review

Our review was limited to the application of the procedures established under International Standards on Review Engagements ISRE 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity , adopted as a review standard in Argentina by Technical Pronouncement No. 33 of the FACPCE and approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of inquiries of Company personnel responsible for preparing the information included in the condensed interim consolidated financial statements and of analytical and other review procedures. This review is substantially less in scope than an audit conducted in accordance with international auditing standards; consequently, a review does not enable us to obtain assurance that we will get to know all significant matters that could be identified in an audit.

Therefore, we do not express an opinion on the consolidated financial position, the consolidated comprehensive income and the consolidated cash flow of the Company.

Conclusion

On the basis of our review, nothing has come to our attention that causes us to believe that the condensed interim consolidated financial statements mentioned in the first paragraph of this report are not prepared, in all material respects, in accordance with International Accounting Standard 34.

Report on compliance with current regulations

In compliance with provisions currently in force, we inform, as regards Telecom, that:

- a) The condensed interim consolidated financial statements of Telecom are transcribed into the Inventory and Balance Sheet book and are in compliance, as regards matters within our field of competence, with the provisions of the Commercial Companies Law and pertinent resolutions of the National Securities Commission;
- b) The separate condensed interim financial statements are derived from accounting records kept in their formal respects in conformity with legal provisions;
- c) We have read the Operating and financial review and prospects, on which, as regards those matters that are within our competence, we have no observations to make;
- d) As of March 31, 2014, the debt of Telecom accrued in favor of the Argentine Integrated Social Security System, as shown by the Company's accounting records, amounted to \$ 74,424,211.12 and was not claimable at that date.
