**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

Thirteen Weeks Ended May 4, 2014 and May 5, 2013

(Unaudited)

**NOTE A. FINANCIAL STATEMENTS - BASIS OF PRESENTATION**

These financial statements include Williams-Sonoma, Inc. and its wholly owned subsidiaries ( we, us or our ). The Condensed Consolidated Balance Sheets as of May 4, 2014 and May 5, 2013, the Condensed Consolidated Statements of Earnings, the Condensed Consolidated Statements of Comprehensive Income and the Condensed Consolidated Statements of Cash Flows for the thirteen weeks then ended, have been prepared by us, without audit. In our opinion, the financial statements include all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position at the balance sheet dates and the results of operations for the thirteen weeks then ended. Intercompany transactions and accounts have been eliminated. The balance sheet as of February 2, 2014, presented herein, has been derived from our audited Consolidated Balance Sheet included in our Annual Report on Form 10-K for the fiscal year ended February 2, 2014.

The results of operations for the thirteen weeks ended May 4, 2014 are not necessarily indicative of the operating results of the full year.

Certain information and footnote disclosures normally included in the annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended February 2, 2014.

*New Accounting Pronouncements*

In May 2014, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) 2014-09, *Revenue from Contracts with Customers*, to clarify the principles of recognizing revenue and create common revenue recognition guidance between U.S. GAAP and International Financial Reporting Standards. This ASU is effective retrospectively for fiscal years and interim periods within those years beginning after December 15, 2016. We are currently assessing the potential impact of this ASU on our Condensed Consolidated Financial Statements.

**NOTE B. STOCK-BASED COMPENSATION**

*Equity Award Programs*

Our Amended and Restated 2001 Long-Term Incentive Plan (the Plan ) provides for grants of incentive stock options, nonqualified stock options, stock-settled stock appreciation rights (collectively, option awards ), restricted stock awards, restricted stock units (including those that are performance based), deferred stock awards (collectively, stock awards ) and dividend equivalents up to an aggregate of 25,760,000 shares. As of May 4, 2014, there were approximately 3,659,000 shares available for future grant. Awards may be granted under the Plan to officers, employees and non-employee Board members of the company or any parent or subsidiary. Annual grants are limited to 1,000,000 shares covered by option awards and 400,000 shares covered by stock awards on a per person basis. All grants of option awards made under the Plan have a maximum term of seven years. The exercise price of these option

awards is not less than 100% of the closing price of our stock on the day prior to the grant date. Option awards and stock-awards granted to employees generally vest over a period of four years for service-based awards, and three years for certain performance based awards. Certain option awards, stock awards and other agreements contain vesting acceleration clauses resulting from events including, but not limited to, retirement, merger or a similar corporate event. Option and stock awards granted to non-employee Board members generally vest in one year. Non-employee Board members automatically

**Table of Contents**

receive stock awards on the date of their initial election to the Board and annually thereafter on the date of the annual meeting of stockholders (so long as they continue to serve as a non-employee Board member). Shares issued as a result of award exercises or releases are primarily funded with the issuance of new shares.

*Stock-Based Compensation Expense*

We measure and record stock-based compensation expense for all employee stock-based awards using a fair value method. During the thirteen weeks ended May 4, 2014 and May 5, 2013, we recognized total stock-based compensation expense, as a component of selling, general and administrative expenses, of \$12,368,000 and \$8,991,000, respectively.

*Stock Options*

The following table summarizes our stock option activity during the thirteen weeks ended May 4, 2014:

**Table of Contents****NOTE C. EARNINGS PER SHARE**

Basic earnings per share is computed as net earnings divided by the weighted average number of common shares outstanding for the period. Diluted earnings per share is computed as net earnings divided by the weighted average number of common shares outstanding for the period plus common stock equivalents. Common stock equivalents consist of shares subject to option awards with exercise prices less than or equal to the average market price of our common stock for the period, as well as restricted stock units, to the extent their inclusion would be dilutive.

The following is a reconciliation of net earnings and the number of shares used in the basic and diluted earnings per share computations:

<i>Dollars and amounts in thousands, except per share amounts</i>	Net Earnings	Weighted Average Shares	Earnings Per Share
<b>Thirteen weeks ended May 4, 2014</b>			
Basic	\$ 46,162	93,993	\$ 0.49
Effect of dilutive stock-based awards		1,625	
Diluted	\$ 46,162	95,618	\$ 0.48
<b>Thirteen weeks ended May 5, 2013</b>			
Basic	\$ 39,466	97,704	\$ 0.40
Effect of dilutive stock-based awards		1,811	
Diluted	\$ 39,466	99,515	\$ 0.40

Stock-based awards of 160,000 and 918,000 for the thirteen weeks ended May 4, 2014 and May 5, 2013, respectively, were excluded from the computation of diluted earnings per share, as their inclusion would be anti-dilutive.

**NOTE D. SEGMENT REPORTING**

We have two reportable segments, direct-to-customer and retail. The direct-to-customer segment has seven merchandising concepts (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, PBteen, West Elm, Rejuvenation and Mark and Graham) which sell our products through our e-commerce websites and direct-mail catalogs. Our direct-to-customer merchandising concepts are operating segments, which have been aggregated into one reportable segment, direct-to-customer. The retail segment has five merchandising concepts (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, West Elm and Rejuvenation) which sell our products through our retail stores. Our retail merchandising concepts are operating segments, which have been aggregated into one reportable segment, retail. Management's expectation is that the overall economic characteristics of each of our operating segments will be similar over time based on management's judgment that the operating segments have had similar historical economic characteristics and are expected to have similar long-term financial performance in the future.

These reportable segments are strategic business units that offer similar home-centered products. They are managed separately because the business units utilize two distinct distribution and marketing strategies. Based on management's best estimate, our operating segments include allocations of certain expenses, including advertising and employment costs, to the extent they have been determined to benefit both channels. These operating segments are aggregated at the channel level for reporting purposes due to the fact that our brands are interdependent for economies of scale and we do not maintain fully allocated income statements at the brand level. As a result, material financial decisions related to the brands are made at the channel level. Furthermore, it is not practicable for us to report revenue by product group.

We use operating income to evaluate segment profitability. Operating income is defined as earnings (loss) before net interest income or expense and income taxes. Unallocated costs before interest and income taxes include corporate employee-related costs, occupancy expenses (including depreciation expense), administrative costs and

**Table of Contents**

third-party service costs, primarily in our corporate administrative and systems departments. Unallocated assets include corporate cash and cash equivalents, deferred income taxes, the net book value of corporate facilities and related information systems, and other corporate long-lived assets.

Income tax information by reportable segment has not been included as income taxes are calculated at a company-wide level and are not allocated to each reportable segment.

<sup>1</sup>Includes net revenues of approximately \$51.1 million and \$48.1 million for the thirteen weeks ended May 4, 2014 and May 5, 2013, respectively, related to our foreign operations.

<sup>2</sup>Includes approximately \$59.8 million and \$54.5 million of long-term assets as of May 4, 2014 and May 5, 2013, respectively, related to our foreign operations.

**NOTE E. COMMITMENTS AND CONTINGENCIES**

We are involved in lawsuits, claims and proceedings incident to the ordinary course of our business. These disputes, which are not currently material, are increasing in number as our business expands and our company grows larger. Litigation is inherently unpredictable. Any claims against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in the diversion of significant operational resources. The results of these lawsuits, claims and proceedings cannot be predicted with certainty. However, we believe that the ultimate resolution of these current matters will not have a material adverse effect on our consolidated financial statements taken as a whole.

**NOTE F. STOCK REPURCHASE PROGRAM AND DIVIDEND***Stock Repurchase Program*

During the thirteen weeks ended May 4, 2014, we repurchased 840,761 shares of our common stock at an average cost of \$63.41 per share for a total cost of approximately \$53,309,000 under our current \$750,000,000 stock repurchase

program. As of May 4, 2014, we held treasury stock of \$2,889,000 which represents the cost of shares available for issuance in certain foreign jurisdictions as a result of future stock award exercises or releases.

During the thirteen weeks ended May 5, 2013, we repurchased 800,882 shares of our common stock at an average cost of \$51.41 per share for a total cost of approximately \$41,174,000.

Stock repurchases under this program may be made through open market and privately negotiated transactions at times and in such amounts as management deems appropriate. The timing and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements, capital availability and other market conditions. This stock repurchase program does not have an expiration date and may be limited or terminated at any time without prior notice.

**Table of Contents***Dividend*

We declared cash dividends of \$0.33 and \$0.31 per common share during the thirteen weeks ended May 4, 2014 and May 5, 2013, respectively.

**NOTE G. DERIVATIVE FINANCIAL INSTRUMENTS**

Substantially all of our purchases and sales are denominated in U.S. dollars, which limits our exposure to foreign currency exchange rate fluctuations. However, we are exposed to foreign currency exchange risk related to the transactions of our foreign subsidiaries. While the impact of foreign currency exchange rate fluctuations was not significant in the first quarter of fiscal 2014, as we continue to expand globally, the foreign currency exchange risk related to the transactions of our foreign subsidiaries will increase. To mitigate this risk, we hedge a portion of our foreign currency exposure with foreign currency forward contracts in accordance with our risk management policies. We do not enter into such contracts for speculative purposes.

The assets or liabilities associated with the derivative instruments are measured at fair value and recorded in either other current assets or other current liabilities. As discussed below, the accounting for gains and losses resulting from changes in fair value depends on whether the derivative instrument is designated as a hedge and qualifies for hedge accounting in accordance with the Financial Accounting Standards Board Accounting Standard Codification ( ASC ) 815, *Derivatives and Hedging*.

*Cash Flow Hedges*

We enter into foreign currency forward contracts designated as cash flow hedges for forecasted inventory purchases in U.S. dollars by our foreign subsidiaries. These hedges generally have terms of up to 12 months. The hedges are designed to offset changes to future cash flows on hedged transactions. We record the effective portion of changes in the fair value of our cash flow hedges in other comprehensive income ( OCI ) until the earlier of either the hedged forecasted inventory purchase occurs or the respective contracts reach maturity. Subsequently, as the inventory is sold to the customer, we reclassify the amounts previously recorded in OCI to cost of goods sold. Changes in the fair value of the forward contract related to interest charges or forward points are excluded from the assessment and measurement of hedge effectiveness and are recorded immediately in other income (expense), net. Based on the rates in effect as of May 4, 2014, we expect to reclassify a net gain of approximately \$284,000 from OCI to cost of goods sold over the next 12 months.

We also enter into non-designated foreign currency contracts to reduce the exchange risk associated with our assets and liabilities denominated in a foreign currency. Any foreign exchange gains (losses) related to these contracts are recognized in other income (expense), net.

As of May 4, 2014, and May 5, 2013, we had foreign currency forward contracts outstanding (in U.S. dollars) as follows:

<i>Dollars in thousands</i>	May 4, 2014	May 5, 2013
Contracts to sell Canadian dollars and buy U.S. dollars		
Contracts designated as cash flow hedges	\$ 23,000	\$ 16,100
Contracts not designated as cash flow hedges <sup>1</sup>	\$ 1,500	\$ 0
Contracts to sell Australian dollars and buy U.S. dollars		

Contracts not designated as cash flow hedges	\$	10,000	\$	0
--	----	--------	----	---

*<sup>1</sup>These contracts are no longer designated as cash flow hedges due to the related inventory purchases having occurred.*

**Table of Contents**

Hedge effectiveness is evaluated prospectively at inception, on an ongoing basis, as well as retrospectively using regression analysis. Any measureable ineffectiveness of the hedge is recorded in other income (expense), net. No gain or loss was recognized for cash flow hedges due to hedge ineffectiveness and all hedges were deemed effective for assessment purposes for the thirteen weeks ended May 4, 2014 and May 5, 2013.

The effect of derivative instruments in our Condensed Consolidated Financial Statements, pre-tax, was as follows:

	Thirteen Weeks Ended May 4, 2014	Thirteen Weeks Ended May 5, 2013
<i>Dollars in thousands</i>		
Net loss recognized in OCI	\$ (224)	\$ (169)

*(a) Changes in fair value of the forward contract related to interest charges or forward points*

*(b) Changes in fair value subsequent to de-designation for instruments no longer designated as cash flow hedges, and changes in fair value related to instruments not designated as cash flow hedges*

The fair values of our derivative financial instruments are presented below. All fair values for these derivatives were measured using Level 2 inputs as defined by the fair value hierarchy described in Note H.

We record all derivative assets and liabilities on a gross basis. They do not meet the balance sheet netting criteria as discussed in ASC 210, *Balance Sheet*, because we do not have master netting agreements established with our derivative counterparties that would allow for net settlement.

**NOTE H. FAIR VALUE MEASUREMENTS**

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

We determine the fair value of financial and non-financial assets and liabilities using the fair value hierarchy established by ASC 820, *Fair Value Measurement*, which defines three levels of inputs that may be used to measure fair value, as follows:

Level 1 inputs which include quoted prices in active markets for identical assets or liabilities;

Level 2 inputs which include observable inputs other than Level 1 inputs, such as quoted prices for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability. These inputs either represent quoted prices for similar assets in active markets or have been derived from observable market data; and

Level 3 inputs which include unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the underlying asset or liability.

The fair values of our cash and cash equivalents are based on Level 1 inputs, which include quoted prices in active markets for identical assets.

*Foreign Currency Derivatives and Hedging Instruments*

We use the income approach to value our derivatives using observable Level 2 market data at the measurement date and standard valuation techniques to convert future amounts to a single present value amount, assuming that participants are motivated but not compelled to transact. Level 2 inputs are limited to quoted prices that are observable for the assets and liabilities, which include interest rates and credit risk ratings. We use mid-market pricing as a practical expedient for fair value measurements. Key inputs for currency derivatives are the spot rates, forward rates, interest rates and credit derivative market rates.

The counterparties associated with our foreign currency forward contracts are large credit-worthy financial institutions, and the derivatives transacted with these entities are relatively short in duration, therefore, we do not consider counterparty concentration and non-performance to be material risks at this time. Both we and our counterparties are expected to perform under the contractual terms of the instruments. None of the derivative contracts entered into are subject to credit risk-related contingent features or collateral requirements. Our policy is to present the fair value of our foreign currency derivatives on a gross basis in our Balance Sheet as these instruments are not subject to legal right of offset or other netting arrangements with our counterparties.

There were no transfers between Level 1 and Level 2 categories during the thirteen weeks ended May 4, 2014.

You can identify these and other forward-looking statements by the use of words such as may, should, expects, plans, anticipates, believes, estimates, predicts, intends, potential, continue, or the negative of such terms, or other comparable terminology. risks, uncertainties and assumptions referred to above that could cause our results to differ materially from the results expressed or implied by such forward-looking statements include, but are not limited to, those discussed under the heading Risk Factors in this document and our Annual Report on Form 10-K for the year ended February 2, 2014, and the risks, uncertainties and assumptions discussed from time to time in our other public filings and public announcements. All forward-looking statements included in this document are based on information available to us as of the date hereof, and we assume no obligation to update these forward-looking statements.

**OVERVIEW**

Williams-Sonoma, Inc. is a specialty retailer of high-quality products for the home. These products, representing eight distinct merchandise strategies Williams-Sonoma, Pottery Barn, Pottery Barn Kids, PBteen, West Elm, Williams-Sonoma Home, Rejuvenation and Mark and Graham are marketed through e-commerce websites, direct mail catalogs and 589 stores. Williams-Sonoma, Inc. currently operates in the United States, Canada, Australia and the United Kingdom, offers international shipping to customers worldwide and has an unaffiliated franchisee that operates 27 stores in the Middle East.

The following discussion and analysis of financial condition, results of operations, and liquidity and capital resources for the thirteen weeks ended May 4, 2014 ( first quarter of fiscal 2014 ), as compared to the thirteen weeks ended May 5, 2013 ( first quarter of fiscal 2013 ), should be read in conjunction with our Condensed Consolidated Financial Statements and the notes thereto.

All explanations of changes in operational results are discussed in order of their magnitude.

*First Quarter of Fiscal 2014 Financial Results*

In the first quarter of fiscal 2014, our net revenues increased 9.7% to \$974,330,000, compared to \$887,808,000 in the first quarter of fiscal 2013, with comparable brand revenue growth of 10.0%. Diluted earnings per share in the first quarter of fiscal 2014 increased to \$0.48, versus \$0.40 in the first quarter of fiscal 2013, and we returned \$86,200,000 to our stockholders through stock repurchases and dividends.

Direct-to-customer net revenues in the first quarter of fiscal 2014 increased \$72,205,000, or 17.2%, compared to the first quarter of fiscal 2013, primarily driven by Pottery Barn, West Elm, Williams-Sonoma and Pottery Barn Kids. Direct-to-customer net revenues generated 50% of our total company net revenues in the first quarter of fiscal 2014 compared to 47% in the first quarter of fiscal 2013.

Retail net revenues in the first quarter of fiscal 2014 increased \$14,317,000, or 3.1%, compared to the first quarter of fiscal 2013, driven primarily by West Elm and Pottery Barn, partially offset by a decrease in our international franchise operations.

In Pottery Barn, our largest brand, comparable brand revenues increased 9.7% in the first quarter of fiscal 2014 on top of an increase of 7.6% in the first quarter of fiscal 2013, driven by our furniture categories and improved in-stock positions. In the Williams-Sonoma brand, comparable brand revenues increased 6.0% in the first quarter of fiscal 2014 compared to the first quarter of fiscal 2013. Innovative product offerings, improved execution, strong cross-channel marketing and improved field training and development drove these results. In Pottery Barn Kids, comparable brand

revenues grew by 8.1% in the first quarter of fiscal 2014 compared to the first quarter of fiscal 2013. Strength in our furniture, nursery and seasonal businesses contributed to these results. In West Elm, comparable brand revenues increased 18.8% in the first quarter of fiscal 2014 on top of 11.8% in the first quarter of fiscal 2013. Brand growth continued to be driven by all categories, with success in furniture, textiles, decorative accessories and lighting. In PBteen, comparable brand revenues increased 12.0% in the first quarter of fiscal 2014 on top of 16.1% in the first quarter of fiscal 2013, driven by strong demand and improved in-stock positions.

Table of Contents*Results of Operations***NET REVENUES**

Net revenues consist of direct-to-customer net revenues and retail net revenues. Direct-to-customer net revenues include sales of merchandise to customers through our e-commerce websites and our catalogs, as well as shipping fees. Retail net revenues include sales of merchandise to customers at our retail stores, as well as shipping fees on any products shipped to our customers' homes. Shipping fees consist of revenue received from customers for delivery of merchandise to their homes. Revenues are presented net of sales returns and other discounts.

The following table summarizes our net revenues for the first quarter of fiscal 2014 and fiscal 2013:

<i>Dollars in thousands</i>	Thirteen Weeks Ended			
	May 4, 2014	% Total	May 5, 2013	% Total

<b>Net revenues</b>	<b>\$ 974,330</b>	<b>100.0%</b>	<b>\$ 887,808</b>	<b>100.0%</b>

Net revenues in the first quarter of fiscal 2014 increased by \$86,522,000, or 9.7%, compared to the first quarter of fiscal 2013, with comparable brand revenue growth of 10.0%. This increase was primarily driven by the Pottery Barn and West Elm brands.

*Comparable Brand Revenue Growth*

Comparable brand revenues include retail comparable store sales and direct-to-customer sales, as well as shipping fees, sales returns and other discounts associated with current period sales. Outlet comparable store net revenues are included in their respective brands. Sales related to our international franchised stores have been excluded as these stores are not operated by us. Comparable stores are defined as permanent stores in which gross square footage did not change by more than 20% in the previous 12 months and which have been open for at least 12 consecutive months without closure for seven or more consecutive days.

Percentages represent changes in comparable brand revenues compared to the same period in the prior year.

## COST OF GOODS SOLD

<i>Dollars in thousands</i>	May 4, 2014	Thirteen Weeks Ended		% Net Revenues
		% Net Revenues	May 5, 2013	
Cost of goods sold <sup>1</sup>	\$ 605,922	62.2%	\$ 553,623	62.4%

<sup>1</sup> Includes total occupancy expenses of \$146,439,000 and \$133,005,000 for the first quarter of fiscal 2014 and first quarter of fiscal 2013, respectively.

**Table of Contents**

Cost of goods sold includes cost of goods, occupancy expenses and shipping costs. Cost of goods consists of cost of merchandise, inbound freight expenses, freight-to-store expenses and other inventory related costs such as shrinkage, damages and replacements. Occupancy expenses consist of rent, depreciation and other occupancy costs, including common area maintenance, property taxes and utilities. Shipping costs consist of third-party delivery services and shipping materials.

Our classification of expenses in cost of goods sold may not be comparable to other public companies, as we do not include non-occupancy related costs associated with our distribution network in cost of goods sold. These costs, which include distribution network employment, third party warehouse management and other distribution-related administrative expenses, are recorded in selling, general and administrative expenses.

Within our reportable segments, the direct-to-customer channel does not incur freight-to-store or store occupancy expenses, and typically operates with lower markdowns and inventory shrinkage than the retail channel. However, the direct-to-customer channel incurs higher customer shipping, damage and replacement costs than the retail channel.

*First Quarter of Fiscal 2014 vs. First Quarter of Fiscal 2013*

Cost of goods sold increased by \$52,299,000, or 9.4%, in the first quarter of fiscal 2014 compared to the first quarter of fiscal 2013. Cost of goods sold as a percentage of net revenues decreased to 62.2% in the first quarter of fiscal 2014 from 62.4% in the first quarter of fiscal 2013. This decrease was primarily driven by higher selling margins, as total company occupancy expenses as a percentage of net revenues were flat.

In the direct-to-customer channel, cost of goods sold as a percentage of net revenues increased in the first quarter of fiscal 2014 compared to the first quarter of fiscal 2013 primarily driven by lower selling margins.

In the retail channel, cost of goods sold as a percentage of net revenues increased in the first quarter of fiscal 2014 compared to the first quarter of fiscal 2013 primarily driven by an increase in occupancy expenses, partially offset by higher selling margins.

**SELLING, GENERAL AND ADMINISTRATIVE EXPENSES**

<i>Dollars in thousands</i>	May 4, 2014	Thirteen Weeks Ended		% Net Revenues
		% Net Revenues	May 5, 2013	
Selling, general and administrative expenses	\$ 294,082	30.2%	\$ 270,402	30.5%

Selling, general and administrative expenses consist of non-occupancy related costs associated with our retail stores, distribution warehouses, customer care centers, supply chain operations (buying, receiving and inspection) and corporate administrative functions. These costs include employment, advertising, third-party credit card processing and other general expenses.

We experience differing employment and advertising costs as a percentage of net revenues within the retail and direct-to-customer channels due to their distinct distribution and marketing strategies. Store employment costs represent a greater percentage of retail net revenues than employment costs as a percentage of net revenues within the direct-to-customer channel. However, advertising expenses are higher within the direct-to-customer channel than in the retail channel.

---

**Table of Contents**

*First Quarter of Fiscal 2014 vs. First Quarter of Fiscal 2013*

Selling, general and administrative expenses increased by \$23,680,000, or 8.8%, in the first quarter of fiscal 2014 compared to the first quarter of fiscal 2013. Selling, general and administrative expenses as a percentage of net revenues decreased to 30.2% in the first quarter of fiscal 2014 from 30.5% in the first quarter of fiscal 2013. This decrease as a percentage of net revenues was primarily driven by the leverage of advertising costs due to increasing net revenues and a reduction in year-over-year employee separation charges, partially offset by higher employment costs related to the vesting of long-term incentive compensation.

In the direct-to-customer channel, selling, general and administrative expenses as a percentage of net revenues decreased in the first quarter of fiscal 2014 compared to the first quarter of fiscal 2013 primarily driven by the leverage of advertising costs and employment costs due to increasing net revenues.

In the retail channel, selling, general and administrative expenses as a percentage of net revenues increased in the first quarter of fiscal 2014 compared to the first quarter of fiscal 2013 primarily driven by an increase in employment costs.

**INCOME TAXES**

The effective tax rate was 37.9% for the first quarter of fiscal 2014 and 38.3% for the first quarter of fiscal 2013.

**LIQUIDITY AND CAPITAL RESOURCES**

As of May 4, 2014, we held \$112,870,000 in cash and cash equivalent funds, the majority of which is held in money market funds, interest-bearing demand deposit accounts and time deposits, of which \$67,937,000 was held by our foreign subsidiaries. As is consistent within our industry, our cash balances are seasonal in nature, with the fourth quarter historically representing a significantly higher level of cash than other periods.

Throughout the fiscal year, we utilize our cash balances to build our inventory levels in preparation for our fourth quarter holiday sales. In fiscal 2014, we plan to use our cash resources to fund our inventory and inventory related purchases, advertising and marketing initiatives, stock repurchases and dividend payments and purchases of property and equipment. In addition to our cash balances on hand, we have a credit facility that provides for a \$300,000,000 unsecured revolving line of credit that may be used for loans or letters of credit. Prior to December 22, 2016, we may, upon notice to the lenders, request an increase in the credit facility of up to \$200,000,000 to provide for a total of \$500,000,000 of unsecured revolving credit. During the thirteen weeks ended May 4, 2014 and May 5, 2013, we had no borrowings under the credit facility, and no amounts were outstanding as of May 4, 2014 or May 5, 2013. However, as of May 4, 2014, issued but undrawn standby letters of credit totaling \$2,840,000 were outstanding under the credit facility. Additionally, as of May 4, 2014, we had three unsecured letter of credit reimbursement facilities for a total of \$70,000,000, of which an aggregate of \$11,516,000 was outstanding. These letter of credit facilities represent only a future commitment to fund inventory purchases to which we had not taken legal title. We are currently in compliance with all of our financial covenants and, based on our current projections, we expect to remain in compliance throughout fiscal 2014. We believe our cash on hand, in addition to our available credit facilities, will provide adequate liquidity for our business operations over the next 12 months.

*Cash Flows from Operating Activities*

For the first quarter of fiscal 2014, net cash used in operating activities was \$70,329,000 compared to \$59,822,000 for the first quarter of fiscal 2013. For the first quarter of fiscal 2014, net cash used in operating activities was primarily attributable to a decrease in accrued liabilities and income taxes payable due to the timing of payments, as well as an

increase in prepaid expenses and merchandise inventories. This represents an increase in net cash used compared to the first quarter of fiscal 2013 primarily resulting from an increase in income taxes paid, as well as an increase in prepaid expenses and merchandise inventories, partially offset by a decrease in accounts payable and an increase in net earnings adjusted for non-cash items.

## **Table of Contents**

### *Cash Flows from Investing Activities*

For the first quarter of fiscal 2014, net cash used in investing activities was \$37,986,000 compared to \$46,658,000 for the first quarter of fiscal 2013, and was primarily attributable to purchases of property and equipment. Net cash used compared to the first quarter of fiscal 2013 decreased primarily due to a decrease in purchases of property and equipment.

### *Cash Flows from Financing Activities*

For the first quarter of fiscal 2014, net cash used in financing activities was \$108,568,000 compared to \$64,757,000 for the first quarter of fiscal 2013. For the first quarter of fiscal 2014, net cash used in financing activities was primarily attributable to repurchases of common stock, tax withholding payments related to stock-based awards and the payment of dividends. Net cash used compared to the first quarter of fiscal 2013 increased primarily due to an increase in tax withholding payments related to stock-based awards as well as an increase in the repurchase of common stock and the payment of dividends.

### *Stock Repurchase Program and Dividend*

See Note F to our Condensed Consolidated Financial Statements, *Stock Repurchase Program and Dividend*, within Item 1 of this Quarterly Report on Form 10-Q for further information.

### *Critical Accounting Policies*

Management's Discussion and Analysis of Financial Condition and Results of Operations is based on our Condensed Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. The estimates and assumptions are evaluated on an ongoing basis and are based on historical experience and various other factors that we believe to be reasonable under the circumstances. Actual results may differ significantly from these estimates. During the first quarter of fiscal 2014, there have been no significant changes to the critical accounting policies discussed in our Annual Report on Form 10-K for the year ended February 2, 2014.

### *Seasonality*

Our business is subject to substantial seasonal variations in demand. Historically, a significant portion of our revenues and net earnings have been realized during the period from October through January, and levels of net revenues and net earnings have typically been lower during the period from February through September. We believe this is the general pattern associated with the retail industry. In anticipation of our holiday selling season, we hire a substantial number of additional temporary employees in our retail stores, customer care centers and distribution centers, and incur significant fixed catalog production and mailing costs.

## **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We are exposed to market risks, which include significant deterioration of the U.S. and foreign markets, changes in U.S. interest rates, foreign currency exchange rates, including the devaluation of the U.S. dollar, and the effects of uncertain economic forces which may affect the prices we pay our vendors in the foreign countries in which we do business. We do not engage in financial transactions for trading or speculative purposes.

## **Table of Contents**

### *Interest Rate Risk*

Our line of credit facility is the only instrument we hold with a variable interest rate which could, if drawn upon, subject us to risks associated with changes in that interest rate. As of May 4, 2014, there were no amounts outstanding under our credit facility.

In addition, we have fixed and variable income investments consisting of short-term investments classified as cash and cash equivalents, which are also affected by changes in market interest rates. As of May 4, 2014, our investments, made primarily in money market funds, interest-bearing demand deposit accounts and time deposits are stated at cost and approximate their fair values.

### *Foreign Currency Risks*

We purchase a significant amount of inventory from vendors outside of the U.S. in transactions that are denominated in U.S. dollars. Approximately 2% of our international purchase transactions are in currencies other than the U.S. dollar, primarily the euro. Any currency risks related to these international purchase transactions were not significant to us during the first quarter of fiscal 2014 or the first quarter of fiscal 2013. Since we pay for the majority of our international purchases in U.S. dollars, however, a decline in the U.S. dollar relative to other foreign currencies would subject us to risks associated with increased purchasing costs from our vendors in their effort to offset any lost profits associated with any currency devaluation. We cannot predict with certainty the effect these increased costs may have on our financial statements or results of operations.

In addition, our retail stores in Canada, Australia and the United Kingdom, and operations throughout Asia and Europe, expose us to market risk associated with foreign currency exchange rate fluctuations. Substantially all of our purchases and sales are denominated in U.S. dollars, which limits our exposure to this risk. While the impact of foreign currency exchange rate fluctuations was not significant in the first quarter of fiscal 2014, as we continue to expand globally, the foreign currency exchange risk related to the transactions of our foreign subsidiaries will increase. To mitigate this risk, we hedge a portion of our foreign currency exposure with foreign currency forward contracts in accordance with our risk management policies (see Note G to our Condensed Consolidated Financial Statements).

## **ITEM 4. CONTROLS AND PROCEDURES**

### *Evaluation of Disclosure Controls and Procedures*

As of May 4, 2014, an evaluation was performed by management, with the participation of our Chief Executive Officer ( CEO ) and our Chief Financial Officer ( CFO ), of the effectiveness of our disclosure controls and procedures. Based on that evaluation, our management, including our CEO and CFO, concluded that our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow for timely discussions regarding required disclosures, and that such information is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC.

### *Changes in Internal Control Over Financial Reporting*

There was no change in our internal control over financial reporting that occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

<sup>1</sup> In March 2013, our Board of Directors announced a \$750,000,000 stock repurchase program. Stock repurchases under this program may be made through open market and privately negotiated transactions at times and in such amounts as management deems appropriate. The timing and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements, capital availability and other market conditions. This stock repurchase program does not have an expiration date and may be limited or terminated at any time without prior notice.
