## NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

## 1) BASIS OF PRESENTATION

The accompanying unaudited interim financial statements as of March 31, 2016 and for the three months ended March 31, 2016 and 2015 have been prepared in conformity with accounting principles generally accepted in the United States (“GAAP”) for interim financial statements. The financial information as of December 31, 2015 is derived from the audited financial statements presented in the Willamette Valley Vineyards, Inc. (the “Company”) Annual Report on Form 10-K for the year ended December 31, 2015. Certain information or footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the accompanying financial statements include all adjustments necessary (which are of a normal recurring nature) for the fair statement of the results of the interim periods presented. The accompanying financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2015, as presented in the Company’s Annual Report on Form 10-K.

Operating results for the three months ended March 31, 2016 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2016, or any portion thereof.

The Company’s revenues include direct-to-consumer sales and national sales to distributors. These sales channels utilize shared resources for production, selling and distribution.

Basic earnings per share after preferred stock dividends are computed based on the weighted-average number of common shares outstanding each period. Diluted earnings per share are computed using the weighted average number of shares of common stock and dilutive common shares outstanding during the period. Dilutive shares from stock options and other instruments are excluded from the computation when their effect is anti-dilutive. There were no anti-dilutive shares outstanding as of March 31, 2016 and 2015. 16,608 and 72,538 potentially dilutive shares are included in the computation of dilutive earnings per share for the three month periods ended March 31, 2016 and 2015, respectively.

## 6) STOCK BASED COMPENSATION

The Company has a stock incentive plan, originally created in 1992, and most recently amended in 2001. No additional grants may be made under the plan. Administration of the plan, including determination of the number, term, and type of options to be granted, lies with the Board of Directors or a duly authorized committee of the Board of Directors. Options were generally granted based on employee performance with vesting periods ranging from date of grant to seven years. At the date of the grant, the maximum term before expiration is ten years.

## 8) SEGMENT REPORTING

The Company has identified two operating segments, Direct Sales and Distributor Sales, based upon their different distribution channels, margins and selling strategies. Direct Sales includes retail sales in the tasting room and remote sites, Wine Club sales, on-site events, kitchen and catering sales and other sales made directly to the consumer without the use of an intermediary, including sales of bulk wine or grapes. Distributor Sales include all sales through a third party where prices are given at a wholesale rate.

The two segments reflect how the Company's operations are evaluated by senior management and the structure of its internal financial reporting. The Company evaluates performance based on the gross profit of the respective business segments. Selling expenses that can be directly attributable to the segment, including depreciation of segment specific assets, are included, however, centralized selling expenses and general and administrative expenses are not allocated between operating segments. Therefore, net income information for the respective segments is not available. Discrete financial information related to segment assets, other than segment specific depreciation associated with selling, is not available and that information continues to be aggregated.

The following table outlines the sales, cost of sales, gross margin, directly attributable selling expenses, and contribution margin of the segments for the three month periods ending March 31, 2016 and 2015. Sales figures are net of related excise taxes.

10) COMMITMENTS AND CONTINGENCIES

Litigation – From time to time, in the normal course of business, the Company is a party to legal proceedings. Management believes that these matters will not have a material adverse effect on the Company's financial position, results of operations or cash flows, but, due to the nature of litigation, the ultimate outcome of any potential actions cannot presently be determined.

Grape Purchases - The Company entered into three long-term grape purchase agreements, in 2004, 2006 and 2007, with one of its Willamette Valley wine grape growers that included expiration dates in 2015 and 2016. In March 2016, the Company agreed to contract extensions, for these three contracts, through harvest year 2019. With these contracts, the Company is obligated to purchase, at pre-determined prices, quantities determined annually and produced within the strict quality standards and crop loads. The Company cannot calculate the minimum or maximum payment as such a calculation is dependent on annual agreed upon quantities and the amount of grapes produced that meet the strict quality standards in any given year.

11) SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are issued. The Company recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing the financial statements. The Company's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after the balance sheet date and before financial statements are issued.

In November of 2015 the Board approved a program to repurchase common stock of the Company. Under the November 2015 board action, the Company funded a plan to repurchase up to \$250,000 of common stock through the open market. This plan is intended to remain in place until all funding for the plan is depleted or the plan is expanded or terminated by the Board. As of March 31, 2016, \$128,842 remained unspent under this plan. On April 25, 2016, the Board approved allocating additional funds to increase the plan balance back to the \$250,000 level. This plan is

intended to remain in place until all funding for the plan is depleted or the plan is expanded or terminated by the Board of Directors.

In April of 2015 the Company purchased approximately 42 acres of farmland in the Walla Walla AVA for the development of a vineyard to be named Pambrun Vineyard. Under the terms of the purchase, the Company was granted an option to buy an additional parcel of approximately 45 acres for \$433,000 with the option exercisable no later than December 31, 2016. On April 25, 2016 the Board voted to exercise the option to purchase the additional acreage. Payments for the purchase will be in three equal annual installments with the first payment being made at closing which is anticipated to be in January 2017.

ITEM 2:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Form 10-Q contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks and uncertainties that are based on current expectations, estimates and projections about the Company's business, and beliefs and assumptions made by management. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and variations of such words and expressions are intended to identify such forward-looking statements. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including, but not limited to: availability of financing for growth, availability of adequate supply of high quality grapes, successful performance of internal operations, impact of competition, changes in wine broker or distributor relations or performance, impact of possible adverse weather conditions, impact of reduction in grape quality or supply due to disease, impact of governmental regulatory decisions, and other risks disclosed from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic economic conditions. The forward-looking statements are made as of the date hereof, and, except as otherwise required by law, the Company disclaims any intention or obligation to update or revise any forward-looking statements or to update the reasons why the actual results could differ materially from those projected in the forward-looking statements, whether as a result of new information, future events or otherwise.

Critical Accounting Policies

The foregoing discussion and analysis of the Company's financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company's management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to revenue recognition, collection of accounts receivable, valuation of inventories, and amortization of vineyard development costs. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A description of the Company's critical accounting policies and related judgments and estimates that affect the preparation of the Company's financial statements is set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. Such policies were unchanged during the three months ended March 31, 2016.

Overview

The Company generates revenues from the sales of wine to wholesalers and direct to consumers. Direct to consumer sales primarily include sales through the Company's Tasting Rooms and Wine Club. Direct to consumer sales are more profitable to the Company due to prices received being closer to retail than those prices paid by wholesalers. The Company continues to emphasize growth in direct to consumer sales through the Hospitality Center remodel and expansion and growth in wine club membership. Additionally, the Company's preferred stock sales since August 2015 have resulted in approximately 2,172 new preferred stockholders as of March 31, 2016, many of them wine enthusiasts. When considering joint ownership, these new shareholders represent approximately 3,400 potential

customers of the Company. Wine Club membership decreased by approximately 69 net members, or 1.1%, to a total of 6,301 members for the three months ending March 31, 2016. The Company believes the increase in preferred shareholders, who receive enhanced discounts, has decreased the number of people who would otherwise become Wine Club members.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Periodically, the Company will sell grapes or bulk wine, due to them not meeting Company standards or being excess to production targets, however this activity is not a significant part of the Company's activities.

The Company sold approximately 30,105 and 26,555 cases of produced wine during the three months ended March 31, 2016 and 2015, respectively, an increase of 3,550 cases, or 13.4% in the current year period over the prior year period. The increase in wine sales was the result of increased direct to consumer sales as well as increased sales through distributors.

Cases sold in 2016 include approximately 85 cases of unfulfilled "futures", where a customer prepays for a wine not yet released. Cases sold in 2015 include approximately 268 cases of unfulfilled "futures", where a customer prepays for a wine not yet released. Proceeds from these sales are not recognized as revenue until shipped and are reflected as unearned revenue. Selling expenses for these sales are recognized in the period in which the expense is incurred.

Cost of sales includes grape costs, whether purchased or grown at Company vineyards, winemaking and processing costs, bottling, packaging, warehousing and shipping and handling costs. For grapes grown at Company vineyards, costs include farming expenditures and amortization of vineyard development costs.

At March 31, 2016, wine inventory includes approximately 62,751 cases of bottled wine and 368,000 gallons of bulk wine in various stages of the aging process. Case wine is expected to be sold over the next 12 to 24 months and generally before the release date of the next vintage. The winery bottled approximately 31,261 cases during the three months ended March 31, 2016.

Net income for the three months ended March 31, 2016 and 2015 was \$487,890 and \$314,238, respectively, an increase of \$173,652, or 55.3%, in the current year period over the prior year period.

Income applicable to common shareholders for the three months ended March 31, 2016 and 2015 was \$408,995 and \$314,238, respectively, an increase of \$94,757, or 30.2%, in the current year period over the prior year period.

Overall gross profit for the three months ended March 31, 2016 and 2015 was \$2,599,048 and \$2,304,034, respectively, an increase of \$295,014, or 12.8%, in the current year period over the prior year period. Gross profit percent for the three months ended March 31, 2016 and 2015 was 62.1% and 58.9%, an increase of 3.2 percentage points, in the current year period over the prior year period.

The Company generated \$0.08 and \$0.06 in basic earnings per share after preferred dividends during the three months ended March 31, 2016 and 2015, respectively.

Willamette Valley Vineyards continues to receive positive recognition through national magazines, regional publications, local newspapers and online bloggers.

In June, Willamette Valley Vineyards in Turner, Ore., announced it had purchased 42 acres of land in SeVein, a north-facing area on the Oregon side of the Walla Walla Valley. Jim Bernau, CEO of Willamette Valley Vineyards, has an option to purchase another 45 acres. He is creating a new winery called Pambrun that will use grapes exclusively from SeVein."

The Oregonian newspaper named the Company as "One of the Most Elegant Wineries in Oregon" in the January 2016 article.

The Company's 2012 Bernau Block Pinot Noir was featured as Wine Press Northwest's "Wine of the Week" in January 2016.

Wine Spectator rated the 2014 Riesling with a 90 point and "Best Buy" in the February 2016 issue.

Joey Amato with UNITE Magazine included the Company's 2013 Estate Pinot Noir in his piece on Top Wines for the Holidays saying the wine "exemplifies the 'Oregon style'" and that it is "Exceptionally balanced with silky tannins, lively acidity and a lingering finish."

Stan Reitan selected the Company's Whole Cluster Pinot Noir as his "Pick of the Week" in Seattle Post-Intelligencer newspaper. In addition to giving the wine an "A+" he states "This is intense Pinot Noir without going big" and "The price is right and the wine is incredible."

The Company earned the cover story with a photograph of the winemaking team and company profile in the Enterprise publication produced by the Strategic Economic Development Corporation (SEDCOR), a non-profit entity in Oregon's Mid-Willamette focused on retaining and attracting high value jobs and capital investment to the region.

## RESULTS OF OPERATIONS

### Revenue

Sales for the three months ended March 31, 2016 and 2015 were \$4,183,769 and \$3,912,501, respectively, an increase of \$271,268, or 6.9%, in the current year period over the prior year period. This is caused by an increase in direct

sales of \$190,987, offset by a bulk wine sales decrease of \$246,076, and an increase in sales through distributors of \$326,357 in the current year three month period over the prior year period. The increase in direct sales to consumers is primarily the result of increased wine club, tasting room and kitchen and hospitality sales, offset by a decrease in bulk wine sales in 2016 when compared to 2015. The increase in sales through distributors was not attributable to an isolated factor.

### ITEM 3:

#### QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, the Company is not required to provide the information required by this item.

### ITEM 4:

#### CONTROLS AND PROCEDURES

Disclosure Controls and Procedures – The Company carried out an evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures pursuant to paragraph (b) of Rule 13a-15 and 15d-5 under the

Exchange Act. Based on that review, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective, as of the end of the period covered by this report, to ensure that information required to be disclosed by the Company in the reports the Company files or submit under the Exchange Act (1) is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and (2) is accumulated and communicated to the Company's management, including the Company's principal executive officer and principle financial officer, as appropriate to allow timely decisions regarding required disclosure.

## CONTROLS AND PROCEDURES (CONTINUED)

Changes in Internal Control over Financial Reporting – There have been no changes in our internal control over financial reporting during the quarter ended March 31, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II: OTHER INFORMATION

### Item 1 - Legal Proceedings.

From time to time, the Company is a party to various judicial and administrative proceedings arising in the ordinary course of business. The Company's management and legal counsel have reviewed the probable outcome of any proceedings that were pending during the period covered by this report, the costs and expenses reasonably expected to be incurred, the availability and limits of the Company's insurance coverage, and the Company's established liabilities. While the outcome of legal proceedings cannot be predicted with certainty, based on the Company's review, the Company believes that any unrecorded liability that may result as a result of any legal proceedings is not likely to have a material effect on the Company's liquidity, financial condition or results from operations.

### Item 1A - Risk Factors.

In addition to the other information set forth in this Report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our 2015 Report, which could materially affect our business, results of operations or financial condition. The risks described in our 2015 Report are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may eventually prove to materially adversely affect our business, results of operations or financial condition.

The Company may face liabilities associated with the offer and sale of our preferred stock. In August 2015, the Company commenced a public offering of our Series A Redeemable Preferred Stock pursuant to a registration statement filed with the Securities and Exchange Commission. The Company has registered this transaction with the securities authorities of the States of Oregon and Washington and subsequently listed them on the NASDAQ under the trading symbol WVVIP. The terms of our Series A Redeemable Preferred Stock are unusual for a company of our size, and we believe the structure of these securities and of the offering are not commonplace among issuers of any type. Federal and state securities laws impose significant liabilities on issuers of securities if the related offering documents contain material misstatements of fact, or if the documents omit to state facts necessary, in light of the circumstances as a whole, to prevent the documents from being misleading. These liabilities can include rescission liability to the purchasers of the securities, as well as potential enforcement liability that could give rise to civil money penalties. Securities litigation can be extraordinarily expensive and protracted, and if we are accused of misstatements or omissions in our offering documents, we may face economic harms and management distractions regardless of the ultimate outcome of any such litigation. Further, if we ultimately are adjudged to have actually made a material misstatement or omission, the Company may be liable for the repayment of the purchase price of the related securities, plus interest from the date of purchase. Any one or more of these events or circumstances would have a material adverse impact upon our business, financial condition or results of operations, and may make it more difficult or more expensive to undertake capital-raising efforts in the future.
