Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act

Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act

ITEM 8.01

OTHER EVENTS

Plandai Biotechnology, Inc., is providing an update on the 100 million Rand (approx. \$13 million USD) financing which was approved by the Land and Agriculture Bank of South Africa in December, 2011.

In February 2011, the Land and Agriculture Bank of South Africa notified the company that the debt equity for the Senteeko tea estate would not be implemented with Dunn Roman Holdings Africa (Pty) Limited but through the two subsidiary companies, Breakwood Trading 22 (Pty) Limited, (the farming company) and the botanical extraction company, Green Gold Biotechnologies (Pty) Limited.

With these required changes new agreements between the various stakeholders then became necessary including the decision by the Board of Dunn Roman Holdings Africa (Pty) Limited to ensure that the understandings with the Land and Agriculture Bank with the operating entities complied with the country's Black Economic Empowerment (BEE) initiative. South Africa's Black Empowerment Initiative was established in the post-Apartheid era to attempt to bridge the economic gap between the previously racially segregated populations.

Under the BEE initiative, companies receiving government-backed financing, such as that being received by the subsidiary companies of Dunn Roman Holdings Africa (Pty) Limited, (a subsidiary of Plandai Biotechnology Inc.) from the Land and Agriculture Bank of South Africa, should endeavor to have a minimum black ownership of 26%.

While the subsidiary farming company, Breakwood Trading 22 (Pty) Limited, is BEE compliant through the issuance of 26% equity in the company to the Shamile Communal Property Association, the botanical extraction company, Green Gold Biotechnologies (Pty) Limited was not. On March 19th, 2012 the company finalized the necessary documents, which were duly submitted to the Land Bank for approval. In the new agreements, Dunn Roman Holdings Africa (Pty) Limited gifted and transferred an additional 11% in Green Gold Biotechnologies (Pty) Limited, thereby increasing the equity holding of the Shamile Communal Property Association to 16%, with the remaining 10% transferred in prior agreements to the Pamoja Consortium.

This agreement does not impact the equity structure of the South African holding entity, Dunn Roman Holdings Africa (Pty) Limited, which is 81% owned by Plandai Biotechnology, Inc. and is exclusively licensed to market the botanical extracts worldwide.

Management is unaware of any additional unmet requirements relating to the loan and is waiting to execute the final loan documents and proceed to funding.
