PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS ON MARCH 31, 2011

This Proxy Statement and the accompanying Notice of Annual Meeting of Stockholders and proxy card are furnished to stockholders of Akeena Solar, Inc. d/b/a Westinghouse Solar, a Delaware corporation (“Westinghouse Solar” or the “Company”), in connection with the solicitation by order of the Board of Directors of the Company of proxies for use at the annual meeting of stockholders (the “Annual Meeting”) to be held on Thursday, March 31, 2011 at the Company’s corporate offices located at 1475 S. Bascom Ave., Suite 101, Campbell, CA 95008 at 9:30 a.m. local time, and at any adjournment thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. These proxy materials and the accompanying Annual Report on Form 10-K for the year ended December 31, 2010, are being provided on or about March 4, 2011 to stockholders of the Company entitled to vote at the Annual Meeting.

Westinghouse Solar has been in business since February 23, 2001. The Company’s corporate headquarters is located at 1475 S. Bascom Ave., Suite 101, Campbell, CA 95008. The Company’s telephone number is (408) 402-9400.

As indicated in the Notice of Annual Meeting of Stockholders, the Company’s Annual Meeting has been called to (i) elect six (6) directors to the Board of Directors for the ensuing year, (ii) approve an amendment to the Company’s Certificate of Incorporation to change the name of the Company from “Akeena Solar, Inc.” to “Westinghouse Solar, Inc.”, (iii) approve an amendment to the Company’s Certificate of Incorporation to effect a reverse stock split of our Common Stock which shall not exceed a one for eight ratio; the Board of Directors may, at its sole discretion, elect not to implement any reverse stock split, even if approved by the stockholders, (iv) approve the issuance of shares of Common Stock issuable upon: i) certain adjustments to the conversion terms of shares of Series B Convertible Preferred Stock, par value \$0.001 per share (“Series B Preferred”) and ii) adjustments to the exercise price of Common Stock Purchase Warrants (the “Warrants”) to purchase shares of Common Stock, (v) ratify the appointment of Burr, Pilger and Mayer LLP as the Company’s independent auditors for the year ending December 31, 2011, (vi) approve any adjournments of the meeting to another time or place, if necessary in the judgment of the proxy holders, for the purpose of soliciting additional proxies in favor of any of the foregoing proposals, and (vii) consider and act upon such other business as may properly come before the Annual Meeting or any adjournment thereof.

SOLICITATION AND VOTING

Voting Rights and Outstanding Shares

Only stockholders of record at the close of business on February 2, 2011 (the “Record Date”) are entitled to notice of and to vote at the Annual Meeting. The voting securities of the Company issued and outstanding on the Record Date consisted of 45,748,797 shares (the “Shares”) of common stock, par value \$0.001 per share (the “Common Stock”), and entitling the holders thereof to one vote per Share. There was no other class of voting securities of the Company outstanding on such date. The presence at the Annual Meeting in person or by proxy of holders of a majority of the Shares entitled to vote is required for a quorum.

The election of directors will be determined based upon the affirmative vote of a plurality of the Shares present at the Annual Meeting. The affirmative vote of the holders of a majority of the issued and outstanding shares of the Company's Common Stock is required to approve the proposal to amend the Company's Certificate of Incorporation to change the name of the Company from "Akeena Solar, Inc." to "Westinghouse Solar, Inc." and to effect a reverse stock split of our Common Stock. Approval for each of the other proposals being submitted to the stockholders requires the affirmative vote of a majority of the votes cast at the Annual Meeting by the holders of Shares entitled to vote on such proposals. Shares which are voted to abstain on any proposal are counted as votes cast, and therefore have the same effect as a vote against the proposal.

Votes for and against, abstentions and broker "non-votes" are included for purposes of determining whether a quorum of Shares is present at the Annual Meeting. A broker "non-vote" occurs when a broker or nominee holding Shares for a beneficial owner does not vote on a particular proposal because the broker or nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner. Broker "non-votes" are not included in the tabulation of the voting results on the election of directors or on proposals requiring approval of a majority of the votes cast and, therefore, do not have the effect of votes in opposition in such tabulations.

Votes cast by proxy or in person at the Annual Meeting will be tabulated by persons appointed by our Board of Directors to act as Inspectors of Election for the Annual Meeting, as provided by the Company's By-laws. The Inspectors of Election will count the total number of votes cast for approval of each proposal for purposes of determining whether sufficient affirmative votes have been cast.

Solicitation of Proxies

All expenses in connection with the solicitation of proxies will be borne by the Company. The Company expects that the solicitation will be made primarily by mail and e-mail, but regular employees or representatives of the Company may also solicit proxies by telephone, facsimile, e-mail or in person, without additional compensation. The Company will, upon request, reimburse brokerage houses and persons holding Shares in the names of their nominees for their reasonable expenses in sending proxy material to their principals.

Voting Instructions

All Shares represented by properly executed proxies received before or at the Annual Meeting will, unless the proxies are revoked, be voted in accordance with the instructions indicated on those proxies. If no instructions are indicated on the proxy, the Shares will be voted as the Board recommends on each proposal. All proxies delivered pursuant to this solicitation may be revoked by the person executing the same at any time prior to the time they are voted. A proxy may be revoked by notice in writing received at the office of the Company, Attention: General Counsel, by execution of a subsequent proxy or by attendance and voting in person at the Annual Meeting. Attendance at the Annual Meeting will not automatically revoke the proxy.

Stockholders whose shares are registered in their own names may vote (1) by returning a proxy card, (2) via the Internet or (3) by telephone. Specific instructions to be followed by any registered stockholder interested in voting via the Internet or by telephone are set forth in these materials. The Internet and telephone voting procedures are designed to authenticate the stockholder's identity and to allow the stockholders to vote his or her shares and confirm that his or her voting instructions have been properly recorded. If you do not wish to vote via the Internet or telephone, please complete, sign and return the proxy card in a self-addressed, postage paid envelope provided.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

Directors are to be elected at the annual meeting to hold office until the next annual meeting and until their respective successors are elected and qualified. The By-Laws of the Company (the "By-Laws") provide that the Company shall have not less than one nor more than fifteen directors, with the exact number to be fixed by the Board of Directors from time to time. The Board presently consists of six members. The six nominees for election at the Annual Meeting are currently directors of the Company, and upon election will serve, subject to the provisions of the By-Laws, until the next annual meeting of stockholders and until such director's successor is elected and qualified or until such director's prior death, resignation or removal. Management has no reason to believe that any of the nominees will be unable or unwilling to serve as a director, if elected. Should any nominee not be a candidate at the time of the Annual Meeting (a situation which is not now anticipated), proxies may be voted in favor of the remaining nominees and may also be voted for a substitute nominee selected by the Board of Directors.

The names of the nominees for director are Barry Cinnamon, Ed Roffman, Jon Witkin, Ed Bernstein, Gary Effren, and Ron Kenedi. See "Directors and Executive Officers" for information regarding each of the nominees for director.

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS OF THE COMPANY RECOMMENDS A VOTE "FOR" THE ABOVE-NAMED NOMINEES FOR ELECTION AS DIRECTORS OF THE COMPANY. The proxy provided herewith will be voted FOR the above-named nominees for election as directors of the Company unless the stockholder specifically withholds votes for any or all of the nominees. Pursuant to the By-Laws, directors are elected by a plurality of the votes cast at the Annual Meeting, if a quorum is present. If a quorum is present, each of the six nominees receiving the highest number of votes cast "for" any nominee will be elected. Proxies cannot be voted for more than four nominees.

Abstentions, “broker non-votes” and withheld votes will have no effect on the outcome of the vote. The Company’s Certificate of Incorporation does not provide for cumulative voting in the election of directors.

CORPORATE GOVERNANCE

Director Independence and Other Matters

The Board of Directors has determined that, other than Barry Cinnamon, the CEO of the Company, and Gary Effren, each of the members of the Board is an “independent director” as such term is defined in Marketplace Rule 5605(a)(2) of the listing standards of the NASDAQ Stock Market.

Each member of the Nominating, Compensation and Audit committees of our Board of Directors meets the independence requirements applicable to those committees prescribed by the listing standards of the NASDAQ Stock Market and, for purposes of the Audit Committee, Section 10A of The Securities Exchange Act of 1934, as amended (the “Exchange Act”).

In the course of the Board of Director’s determination regarding the independence of each non-management director, it considered any transactions, relationships and arrangements as required by the applicable NASDAQ Marketplace Rules and the rules and regulations of the SEC.

Certain Relationships and Related Transactions

There were no relationships or related party transactions in the fiscal year ended December 31, 2010 (“Fiscal 2010”) requiring disclosure in this Proxy Statement.

Procedures for Approval of Related Person Transactions

Any request for us to enter into a transaction with an executive officer, director or employee, or any of such persons’ immediate family members or affiliates, must first be presented to our Audit Committee for review, consideration and approval. In approving or rejecting the proposed agreement, our Audit Committee will review each such transaction for potential conflicts of interest or improprieties.

Executive Sessions

Our non-management directors meet in executive session without management present periodically after regularly scheduled Board and Committee meetings throughout the year.

Committees of the Board of Directors and Meeting Attendance

The Board of Directors held nine meetings and acted by unanimous written consent six times during the fiscal year ended December 31, 2010. During 2010, the Board was comprised of Ed Roffman, Barry Cinnamon, Pradeep Jotwani, Jon Witkin, Ed Bernstein, and Gary Effren. Mr. Jotwani resigned from the Board in September 2010, and the same month Mr. Bernstein was appointed to the Board. The Board appointed Mr. Effren to the Board on December 30, 2010. In January 2011, Ronald Kenedi was appointed to the Board. During Fiscal 2010, each of our directors attended at least 75% of the total number of meetings of the Board of Directors and all of the committees of the Board of Directors held during the period on which such director served. The Company encourages but does not require members of the Board of Directors to attend the annual meetings of the stockholders.

The Company’s Chairman, Barry Cinnamon, is also the CEO. The Board believes that it is appropriate for Mr. Cinnamon to serve as both the CEO and Chairman due to the relatively small size of the Company and Board, and the fact that Mr. Cinnamon is the founder of the Company with extensive experience in the solar industry.

The Company has standing Nominating and Corporate Governance, Audit, and Compensation Committees of the Board of Directors.

The Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee (the “Nominating Committee”) is comprised of Messrs. Witkin, Roffman, Bernstein, and Kenedi. The Nominating Committee of the Board of Directors performs the functions typical of a nominating committee, including: (i) developing and recommending corporate governance principles and procedures applicable to the Board of Directors and the Company’s employees; (ii) recommending committee composition and assignments; (iii) identifying individuals qualified to become directors; (iv) recommending director nominees; (v) recommending whether incumbent directors should be nominated for re-election to the Board of Directors and (vi) reviewing the adequacy of the Nominating Committee charter. The Nominating Committee has established a charter, a current copy of which is available on the investor relations section of our website at <http://ir.westinghousesolar.com/Governance.cfm>. The Nominating Committee held one meeting in the fiscal year ended December 31, 2010.

The Audit Committee. The Audit Committee is comprised of Messrs. Witkin, Roffman, and Bernstein. Our Board has designated Mr. Roffman our audit committee financial expert as defined in Item 407(d)(5)(ii) of Regulation S-K. The Audit Committee of the Board of Directors has the authority and responsibility to select, evaluate and, when appropriate, replace the company’s independent registered public accounting firm. The Audit Committee monitors the activities of the Company’s external auditors, including the audit scope, the external audit fees, auditor independence matters and the extent to which the independent auditors may be retained to perform advisory services. The Audit Committee also reviews the results of the external audit work to assess the adequacy and appropriateness of the Company’s financial and accounting controls. The Audit Committee reviews changes in accounting standards that impact the Company’s financial statements and discusses with management major events, including legal matters and tax audits, which may have significant financial impact or are the subject of discussions with the independent auditors. In addition, the Audit Committee oversees the Company’s internal audit and compliance programs. The Audit Committee has established a charter, a current copy of which is available on the investor relations section of our website at <http://ir.westinghousesolar.com/Governance.cfm>. The Audit Committee held five meetings in the fiscal year ended December 31, 2010.

The Compensation Committee. The Compensation Committee is comprised of Messrs. Witkin, Roffman, Bernstein, and Kenedi. The Compensation Committee administers the Company’s Stock Plan, including the review and grant of stock options and restricted stock to officers, directors and other employees under the Stock Plan. The Compensation Committee also reviews and approves various other Company compensation policies and matters, and reviews and approves salaries and other matters relating to compensation of the executive officers of the Company. The Compensation Committee has established a charter, a current copy of which is available on the investor relations section of our website at <http://ir.westinghousesolar.com/Governance.cfm>.

The Compensation Committee meets in person, telephonically or otherwise at least twice during each fiscal year for, among other things, the consideration and determination of executive and director compensation. The Compensation Committee may also hold special meetings or act by unanimous written consent as required. The Compensation Committee may request any officer or employee of the Company or the Company’s outside counsel to attend a meeting of the Compensation Committee or to meet with any members of, or consultants to, the Compensation Committee; provided, however, that the Chief Executive Officer may not be present during any discussions or deliberations of the Compensation Committee regarding the Chief Executive Officer’s compensation.

The Compensation Committee reviews and approves on an annual basis the corporate goals and objectives with respect to the compensation for the Company's Chief Executive Officer and other executive officers. The Committee evaluates at least once a year the Chief Executive Officer and other executive officers' performance in light of these established goals and objectives and based upon these evaluations shall recommend to the full Board the Chief Executive Officer and other executive officers' annual compensation, including salary, bonus, incentive and equity compensation. In reviewing and recommending the compensation of the Chief Executive Officer and other executive officers, the Committee may consider the compensation awarded to officers of similarly situated companies, the Company's performance, the individuals' performance, compensation given to the Company's officers in past years or any other fact the Committee deems appropriate. The Chief Executive Officer is not be permitted to participate in any discussions or processes concerning his compensation, but may participate in a non-voting capacity in discussions or processes concerning the compensation of other executive officers.

The Compensation Committee develops and periodically assesses the Compensation Committee's compensation policies applicable to the Company's executive officers and directors, including the relationship of corporate performance to executive compensation. The Compensation Committee reviews and recommends to the Board appropriate director compensation programs for service as directors, committee chairs and committee members. The Compensation Committee held six meetings and acted by unanimous written consent two times in the fiscal year ended December 31, 2010.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee is or has been an officer or employee of the Company during Fiscal 2010. During Fiscal 2010, no member of the Compensation Committee had any relationship with the Company requiring disclosure under Item 404 of Regulation S-K. Director Compensation

In addition to reimbursement for reasonable expenses incurred in the performance of their duties as directors, including participation on the Board of Directors and its committees, the Company compensates its non-employee directors as follows:

- an annual grant of options to purchase 50,000 shares of common stock under the Company's Stock Plan, which vest as to one-fourth of the shares quarterly for one year commencing on the date of grant. These stock options are subject to forfeiture in accordance with the terms of the grant;
- an annual grant of restricted common stock under the Company's Stock Plan with a grant date value of \$30,000, which restriction lapses as to approximately one-fourth of the shares quarterly over one year commencing on the date of grant. Directors are entitled to vote such restricted stock, subject to forfeiture, in accordance with the terms of the grant; and
- travel and lodging expenses for any activities related to the performance of their duties on the Board of Directors.

All grants of options to purchase common stock and restricted common stock received by non-employee directors for services as a Board member are made subject to forfeiture in the event of termination of service on the Board.

The following table sets forth certain information concerning the compensation paid or earned by the Directors who were not Named Executive Officers for services rendered in all capacities during the fiscal year ended December 31, 2010.

Director Nomination Process

The Nominating Committee identifies nominees who have the business background and experience, industry specific knowledge and general reputation and expertise that would allow them to contribute as members of the Company’s Board of Directors and who are willing to serve as directors of a public company. The Board approved the Director Nomination Process by written resolution dated August 1, 2007. To date, the Nominating Committee has not engaged any third parties to assist the Nominating Committee in identifying or evaluating potential nominees. After a possible candidate is identified, the candidate would meet with various members of the Board of Directors to evaluate the candidate’s potential to be an effective member of the Board of Directors.

In considering nominees for election as a director, the Nominating Committee considers a number of factors, including creating and maintaining diversity on the Board. The Nominating Committee implements this policy by ensuring its members have sufficiently diverse backgrounds. The personal and professional backgrounds of all directors are researched and one-on-one interviews with existing directors and management are conducted prior to nomination of each candidate. Subsequently, annual reviews of the Board’s composition and performance are assessed to ensure that sufficiently diverse knowledge and experience is being represented in the Board decision-making. Characteristics expected of all directors include integrity, high personal and professional ethics, sound business judgment and the ability and willingness to commit sufficient time to the proceedings and activities of the Company’s Board of Directors. In evaluating the suitability of candidates for membership on the Board of Directors, the Nominating Committee takes into account many factors, including the candidate’s general understanding of marketing, finance and other disciplines relevant to the success of a publicly traded company in today’s business environment, understanding of the Company’s business and technology, educational and professional background and personal accomplishments.

The Nominating Committee will consider stockholder recommendations for nominees for membership on the Board of Directors. Such recommendations may be submitted in writing to Akeena Solar, Inc. d/b/a Westinghouse Solar, 1475 S. Bascom Ave., Suite 101, Campbell, CA 95008, Attention: General Counsel. Stockholders may recommend candidates at any time, but to be considered by the Nominating Committee for inclusion in the Company's proxy statement for the next annual meeting of stockholders, recommendations must be submitted in writing no later than 60 days in advance of the one year anniversary of the preceding year's annual meeting as first specified in the notice of meeting (without regard to any postponements or adjournments of such meeting after the notice was first given). Any such recommendation must include:

- the name of the stockholder recommending the director candidate for consideration, the name of the director candidate and the written consent of the stockholder and the director candidate to be publicly identified;
- a written statement by the director candidate agreeing to be named in the Company's proxy materials and to serve as a member of the Board of Directors (and any committee of the Board of Directors to which the director candidate is assigned to serve by the Board of Directors) if nominated and elected;
- a written statement by the stockholder and director candidate agreeing to make available to the Nominating Committee all information reasonably requested in connection with the Nominating Committee's consideration of the director candidate; and
- the director candidate's name, age, business and residential address, principal occupation or employment, number of shares of the Company's common stock and other securities beneficially owned, a resume or similar document detailing personal and professional experiences and accomplishments, and all other information relating to the director candidate that would be required to be disclosed in a proxy statement or other filing made in connection with the solicitation of proxies for the election of directors pursuant to the Exchange Act, the rules of the SEC and the listing standards of the NASDAQ Stock Market.

The Company may request additional information from such candidate to assist in its evaluation. The Nominating Committee will evaluate any stockholder recommended nominees using the same criteria set forth above.

Communications with the Board of Directors

Any stockholder and other interested party may communicate with the Board of Directors, any committee of the Board of Directors or any specified member of the Board of Directors. All written communications must identify the intended recipient and the author and be forwarded by certified mail to Akeena Solar, Inc. d/b/a Westinghouse Solar, 1475 S. Bascom Ave., Suite 101, Campbell, CA 95008, Attention: General Counsel. The General Counsel will act as agent for the directors in facilitating these communications. There is no screening process, and all stockholder communications which are received by the General Counsel are forwarded to the Board of Directors.

Code of Ethics and Corporate Governance

The Company adopted a Code of Business Conduct and Ethics (the "Code") on July 18, 2007 that applies to all of the Company's directors and employees, including its chief executive officer and chief financial officer. The purpose of the Code is to, among other things, focus the Company's directors, officers and employees on areas of ethical risk, provide guidance to help them recognize and deal with ethical issues, provide mechanisms to report unethical or unlawful conduct and to help enhance and formalize the Company's culture of integrity, respect and accountability. The full text of the Code is posted on the investor relations section of our website at <http://ir>.

westinghousesolar.com/Governance.cfm. A printed copy of the Code may also be obtained free of charge by writing to Akeena Solar, Inc. d/b/a Westinghouse Solar, 1475 S. Bascom Ave., Suite 101, Campbell, CA 95008, Attention: General Counsel. The Company intends to disclose any amendment to or waiver from, a provision of the Code by posting such information on its web site.

PROPOSAL NO. 2
AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION TO CHANGE THE
NAME OF THE COMPANY FROM AKEENA SOLAR, INC. TO WESTINGHOUSE SOLAR, INC.

Overview

The Company's Board of Directors has unanimously approved a proposal to amend the Company's certificate of incorporation to change the name of the Company from "Akeena Solar, Inc." to "Westinghouse Solar, Inc.", subject to stockholder approval. The Board has declared this amendment to be advisable and recommended that this proposal be presented to the Company's stockholders for approval.

If the stockholders approve this Proposal No. 2, the Company will file a certificate of amendment to the Company's certificate of incorporation with the Secretary of State of the State of Delaware to change the Company's name. Upon filing the certificate of amendment to the Company's certificate of incorporation, the name of the Company will become Westinghouse Solar, Inc.

Reasons for the Name Change

As a result of the Company's action to rapidly expand its manufacturing and distribution business worldwide, the Board of Directors, management and employees of the Company have worked continuously to do business under Westinghouse Solar's name. The new name will assist the Company in communicating the size and range of services provided by the Company to an expanding customer base.

The new name will further allow the Company to take full advantage of the very strong worldwide brand equity that Westinghouse Solar currently enjoys, as their panels are safer, more reliable and easier to install than other products on the market today. Finally, since the Company's NASDAQ ticker symbol had been changed from "AKNS" to "WEST", the change of the Company name at this time will eliminate confusion and reinforce the brand recognition of the Company. The ticker symbol will not only reflect the "WEST" abbreviation and logo of the Company, but will also be the first four letters of the Company name.

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS VOTE FOR APPROVAL OF THE AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO CHANGE THE NAME OF THE COMPANY FROM AKEENA SOLAR, INC. TO WESTINGHOUSE SOLAR, INC. Approval of this proposal requires the affirmative vote of a majority of the issued and outstanding shares of Common Stock. Abstentions and broker non-votes will be counted as present for purposes of determining if a quorum is present and will have the same effect as a negative vote on this proposal.

PROPOSAL NO. 3
AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION TO EFFECT A REVERSE
STOCK SPLIT OF THE COMPANY'S COMMON STOCK

Overview

The Company and its Board of Directors currently believe it would be in the best interests of the Company and its stockholders to adopt an amendment of the Company's certificate of incorporation authorizing a reverse stock split of our outstanding shares of our Common Stock. The intention of the Board of Directors in requesting this amendment is to establish and maintain the most flexibility available to sustain long term compliance with the NASDAQ Capital Market listing rules. Among other requirements, those listing rules provide that listed companies must generally maintain a minimum bid price above \$1 per share.

The Board is proposing that stockholders approve a reverse stock split of our Common Stock which shall not exceed a one for eight ratio. Assuming Proposal No. 4 is approved by the stockholders, the current authorized number of shares of our Common Stock would be maintained at 100 million. The proposed amendment to our certificate of incorporation (the "Reverse Stock Split Amendment") is set forth below.

The entire Article FOURTH shall be amended and restated in its entirety as follows:

"FOURTH: A. Classes and Numbers of Shares. The total number of shares of stock that the Corporation shall have authority to issue is one hundred and one million (101,000,000). The Classes and aggregate number of shares of each class which the Corporation shall have authority to issue are as follows:

1. One hundred million (100,000,000) shares of Common Stock, par value \$0.001 per share (the "Common Stock"); and
2. One million (1,000,000) shares of Preferred Stock, par value \$0.001 per share (the "Preferred Stock"); and

B. Blank Check Powers. The Corporation may issue any class of the Preferred Stock in any series. The Board of Directors shall have authority to establish and designate series, and to fix the number of shares included in each such series and the variations in the relative rights, preferences and limitations as between series, provided that, if the stated dividends and amounts payable on liquidation are not paid in full, the shares of all series of the same class shall share ratably in the payment of dividends including accumulations, if any, in accordance with the sums which would be payable on such shares if all dividends were declared and paid in full, and in any distribution of assets other than by way of dividends in accordance with the sums which would be payable on such distribution if all sums payable were discharged in full. Shares of each such series when issued shall be designated to distinguish the shares of each series from shares of all other series.

Immediately upon the filing of this Reverse Stock Split Amendment to amended the certificate of incorporation, each [____ (___)] outstanding shares of this corporation's Common Stock will be exchanged and combined, automatically, without further action, into one (1) share of Common Stock."

The Board of Directors may, at its sole discretion, elect not to implement the reverse stock split even if this proposal is approved by the stockholders. If the Reverse Stock Split Amendment is approved, the number of issued and outstanding shares of Common Stock could be reduced by an exchange ratio of up to one share for every eight shares currently outstanding (the "Exchange Ratio"), and the current authorized number of shares of our Common Stock would remain at 100 million, without further approval of our stockholders. The exact share exchange ratio would be determined by the Board of Directors, which could be a lesser ratio. For example, the Board may determine that a ratio of one share for every four shares currently outstanding is most appropriate amendment to implement. A

reverse stock split would only become effective upon filing the Reverse Stock Split Amendment with the Delaware Secretary of State, following the Annual Meeting (assuming this Proposal 3 is approved and only if approved by the Board of Directors). The exact date on which the Reverse Stock Split Amendment would be filed is subject to review and final approval by the Board of Directors.

Purpose and Background of the Reverse Split

The Company's Common Stock is listed on the NASDAQ Global Select Market and therefore the Company is subject to certain listing standards and requirements, including a minimum bid price on its Common Stock of at least \$1.00 per share. For example, if the bid price of the Company's Common Stock falls below \$1.00 per share or the market value of the publicly held Common Stock falls below certain amounts for thirty consecutive trading days, the Company's Common Stock may be delisted from the NASDAQ Global Select Market. A delisting of our Common Stock from the NASDAQ Global Select Market could have a negative effect on the Company's stock price, and would increase the cost and have a negative effect on its ability to raise additional capital.

On July 2, 2010, the Company received a notice from the staff of the Listing Qualifications Department of The NASDAQ Stock Market LLC, stating that the minimum bid price of the Company's common stock had been below \$1.00 per share for 30 consecutive business days and that the Company was therefore not in compliance with the minimum bid price requirement for continued listing on The NASDAQ Capital Market set forth in Listing Rule 5550(a)(2). The notice indicated that the Company had been granted 180 calendar days, or until December 28, 2010, to regain compliance. Subsequently, on December 29, 2010, the Company received a further notice from the staff of the Listing Qualifications Department that the Company's common stock is subject to delisting from The NASDAQ Capital Market, pending the Company's opportunity to request a hearing before the NASDAQ Listing Qualifications Panel (the "Panel"). The Company requested a hearing, and as part of the plan for regaining and maintaining compliance with the minimum bid price requirement submitted by the Company in connection with that hearing, the Company agreed to seek to implement a reverse stock split.

The Board of Director's primary objective in requesting the ability to effectuate a proposed reverse split is to establish and maintain the most flexibility available to sustain long term compliance with the NASDAQ listing rules, which could include a reverse split to raise the per share trading price of the Company's Common Stock sufficiently above the \$1.00 minimum bid price requirement that is required for continued listing on the NASDAQ Global Select Market.

The Company anticipates that the decrease in the number of shares of its outstanding Common Stock resulting from the reverse split, and the anticipated increase in the price per share, will also encourage greater interest in its Common Stock among members of the financial community and the investing public and possibly create a more liquid market for the Company's stockholders with respect to those shares presently held by them. However, the possibility exists that stockholder liquidity may be adversely affected by the reduced number of shares which would be outstanding if the reverse split is effected, particularly if the price per share of the Company's Common Stock begins a declining trend after the reverse split is effected. There can be no assurance that the reverse split will achieve any of the desired results. There also can be no assurance that the price per share of the Company's Common Stock immediately after the reverse split will increase proportionately with the reverse split, or that any increase will be sustained for any period of time.

The Company is not aware of any present efforts by anyone to accumulate its Common Stock, and the proposed reverse split is not intended to be an anti-takeover device nor is it part of a broader plan to take the Company private.

Effects of Reverse Split on Common Stock; No Fractional Shares

One principal effect of the reverse split would be to decrease the number of outstanding shares of our Common Stock. Except for adjustments that may result from the treatment of fractional shares as described below (see “Treatment of Fractional Shares; Exchange of Stock Certificates”), the reverse split will not have any dilutive effect on our stockholders since each stockholder would hold the same percentage of our Common Stock outstanding immediately following the reverse split as such stockholder held immediately prior to the reverse split. The relative voting and other rights that accompany the shares of Common Stock would not be affected by the reverse split. Although the reverse split will not have any dilutive effect on our stockholders, the proportion of shares owned by our stockholders relative to the number of shares authorized for issuance will decrease because the Reverse Stock Split Amendment would maintain the current authorized number of shares of Common Stock at 100 million. As a result, the additional authorized shares of Common Stock will be available for issuance at such times and for such purposes as the Board of Directors may deem advisable without further action by our stockholders, except as required by applicable laws and regulations.

Because our Common Stock is traded on the NASDAQ Global Select Market, stockholder approval must be obtained, under applicable NASDAQ listing rules, prior to the issuance of shares for certain purposes, including the issuance of shares of the Company’s Common Stock equal to or greater than 20% of the Company’s then outstanding shares of Common Stock in connection with a private refinancing or an acquisition or merger, unless an exemption is available.

The proposed amendment to our certificate of incorporation will not otherwise alter or modify the rights, preferences, privileges or restrictions of the Common Stock.

Effect on Outstanding Options

As of February 2, 2011, the Company has 3,958,549 options to purchase Common Stock outstanding. Under the terms of the options, when the reverse split becomes effective, the number of shares covered by each option will be decreased and the conversion or exercise price per share will be increased in accordance with the Exchange Ratio. As of February 2, 2011, the Company has 9,337,851 shares authorized for issuance under its 2006 Incentive Stock Plan (the “Plan”). Under the terms of the Plan, when the reverse split becomes effective, the number of shares reserved for issuance under the Plan will be proportionately decreased in accordance with the Exchange Ratio.

No Effect on Legal Ability to Pay Dividends

The Company does not believe that the reverse split will have any effect with respect to future distributions, if any, to the Company’s stockholders. Except for cumulative dividends payable to Series B Preferred holders, as described in Proposal No. 4, the Company does not anticipate paying dividends in the near future. There can be no assurance as to future dividends because they are dependent on the Company’s future earnings, capital requirements and financial conditions.

Treatment of Fractional Shares; Exchange of Stock Certificates

The Company will appoint American Stock Transfer & Trust Company, LLC to act as exchange agent for holders of Common Stock in connection with the reverse split. The Company will not issue fractional shares with respect to the reverse split. In lieu of a fraction of a share of Common Stock, each stockholder who otherwise would have been entitled to a fraction of a share shall be paid cash in an amount determined by the Board of Directors to be the fair value of such fraction of a share as of the effective time of the reverse split. No such stockholder shall be entitled to dividends, voting rights or any other rights in respect of any fractional share interest. The Company’s stockholder list shows that some of the outstanding Common Stock is registered in the names of clearing agencies and broker nominees. Because the Company does not know the number of shares held by each beneficial owner for whom the

clearing agencies and broker nominees are record holders, the Company cannot predict with certainty the number of fractional shares that will result from the reverse split or the total number of additional shares that will be issued as a result of fractional shares. However, the Company does not expect that the amount will be material.

As of the Record Date, the Company had approximately 45 holders of record of the Company's Common Stock (although the Company had significantly more beneficial holders). The Company does not expect the reverse split to result in a significant reduction in the number of record holders. The Company presently does not intend to seek any change in its status as a reporting company for federal securities law purposes, either before or after the reverse split.

On or after the effective date of the reverse split, the Company will mail a letter of transmittal to each stockholder. Each stockholder will be able to obtain a certificate evidencing its post-reverse-split shares only by sending the exchange agent its old stock certificate(s), together with the properly executed and completed letter of transmittal and such evidence of ownership of the shares as the Company may require. Stockholders will not receive certificates for post-reverse-split shares unless and until their old certificates are surrendered. Stockholders should not forward their certificates to the exchange agent until they receive the letter of transmittal, and they should only send in their certificates with the letter of transmittal. The exchange agent will send each stockholder's new stock certificate promptly after receipt of that stockholder's properly completed letter of transmittal and old stock certificate(s). Stockholders who hold shares in street name through a nominee (such as a bank or broker) will be treated in the same manner as stockholders whose shares are registered in their names, and nominees will be instructed to effect the reverse split for their beneficial holders. However, nominees may have different procedures and stockholders holding shares in street name should contact their nominees. Stockholders will not have to pay the Company for any service charges in connection with the exchange of their certificates.

Tax Consequences of the Reverse Split

For most holders of our Common Stock, no tax gain or loss should be recognized upon effectiveness of the reverse stock split. The aggregate tax basis in the Common Stock received pursuant to the reverse stock split should be approximately equal to the aggregate tax basis in the Common Stock surrendered and the holding period for the Common Stock received should include the holding period for the Common Stock surrendered. To the extent that a holder receives cash in lieu of a fractional share of Common Stock, the holder generally will recognize gain or loss equal to the difference between the cash received and the portion of the holder's tax basis in the shares of Common Stock surrendered allocable to that fractional share. However, the tax consequences of the proposed reverse stock split must be determined by each holder in accordance with the facts applicable to the particular circumstances of such holder.

Each stockholder is strongly urged to consult with his, her or its own tax advisor regarding the federal, state, local and foreign income and other tax consequences of the reverse stock split, including tax return reporting requirements and the effect of any proposed change in the tax laws.

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS VOTE FOR APPROVAL OF THE AMENDMENT TO THE CERTIFICATE OF INCORPORATION TO EFFECT A REVERSE STOCK SPLIT OF THE COMPANY'S COMMON STOCK. Approval of this proposal requires the affirmative vote of a majority of the issued and outstanding shares of Common Stock. Abstentions and broker non-votes will be counted as present for purposes of determining if a quorum is present and will have the same effect as a negative vote on this proposal.

PROPOSAL NO. 4
APPROVAL OF THE PRICE ADJUSTMENT PROVISIONS OF THE SERIES B PREFERRED
AND SERIES K WARRANTS AND ANY RESULTING INCREASE IN THE NUMBER OF SHARES OF
COMMON STOCK ISSUED UPON CONVERSION

On February 17, 2011, we entered into a Securities Purchase Agreement (the “Purchase Agreement”) with various accredited investors (the “Purchasers”), pursuant to which we sold to the Purchasers our Series B 4% Convertible Preferred (the “Series B Preferred”) initially convertible into an aggregate of 8,000,000 shares of our Common Stock, and Series K Warrants (the “Series K Warrants”) that are exercisable for an aggregate of 6,800,000 shares of our Common Stock (the “Series B Transaction”). The Series B Preferred has an initial conversion price of \$0.45 per share, subject to future adjustment for various events, and the Series K Warrants have an initial exercise price of \$0.60 per share as of the date hereof, subject to future adjustment for various events. The conversion price of the Series B Preferred is subject to adjustment downward in the event that 1) we sell Common Stock (or securities convertible into or exercisable for shares of Common Stock) at an effective price below the conversion price of the Series B Preferred or the exercise price of the Series K Warrants, and / or 2) the market price of our Common Stock at the one-year anniversary of the Series B Transaction is below the then effective conversion price of the Series B Preferred (together, the “Price Adjustment Provisions”). If the Price Adjustment Provisions are triggered, then the number of shares of Common Stock issuable upon conversion of the Series B Preferred is subject to increase (and the effective price per share would decrease and the relative discount to our current market price would increase), and the exercise price of the Series K Warrants is subject to decrease (however the total number of shares subject to those warrants does not increase). We agreed as part of the terms of the Series B Transaction to submit the Price Adjustment Provisions for approval by our stockholders at the Annual Meeting. Stockholder approval is required before the Price Adjustment Provisions can be effective, as a result of NASDAQ Marketplace Rules, that limit the numbers of shares that can be issued at a discount to current market price without stockholder approval.

Our Common Stock is listed on The NASDAQ Capital Market and is subject to The NASDAQ Marketplace Rules. The listing requirements under those rules require stockholder approval for private placements of securities that are convertible into, or exercisable for, 20% or more of an issuer’s outstanding listed securities prior to the private placement. To ensure compliance with The NASDAQ Marketplace Rules, any anti-dilution or adjustments to the total number of shares of our Common Stock that are issuable upon conversion or exercise, as applicable, of the Series B Preferred and the Series K Warrants is limited as set forth above.

We are therefore seeking stockholder approval for the potential issuance of additional shares of our Common Stock at a discount to the closing price of our Common Stock as of February 16, 2011 (that is, \$0.55 per share) resulting from the operation of the Price Adjustment Provisions that would occur

- upon conversion of the Series B Preferred; and
- upon exercise of the Series K Warrants.

For your consideration of Proposal No. 4, a description of the material terms of the Series B Transaction is set forth below. However, the description below is not a substitute for reviewing the full text of the referenced documents, which were attached as exhibits to the Company’s Current Report on Form 8-K as filed with the SEC on February 17, 2011, and are available upon written request to the Secretary of the Company at its headquarters.

Overview

The Company entered into the Purchase Agreement with the Purchasers, pursuant to which the Company agreed to sell to the Purchasers, in a private placement, Series B Preferred convertible into an aggregate of 8,000,000 shares of Common Stock, and Series K Warrants to purchase 6,800,000 shares of Common Stock. The closing of the transaction contemplated by the Purchase Agreement occurred on February [•], 2011.

In connection with the Series B Transaction, the Company:

- filed the Certificate of Designation with the Secretary of State of the State of Delaware, in order to designate and establish the shares of Series B Preferred;
- entered into a Registration Rights Agreement with the Purchasers (the “Registration Rights Agreement”), pursuant to which the Company agreed to register for resale with the SEC the shares of Common Stock issuable pursuant to the Series B Transaction; and
- entered into a Voting Agreement with Barry Cinnamon, the founder and a director of the Company, dated February [•], 2011 (the “Voting Agreement”), pursuant to which he agreed to vote all of his shares in favor of approval of the issuance of all of the Common Stock issuable upon conversion of the Series B Preferred and exercise of the Series K Warrants.

The shares subject to the Voting Agreement accounted for approximately [•] of all votes entitled to be cast as of the Record Date.

The aggregate purchase price paid by the Purchasers for the Series B Preferred and the Series K Warrants was \$3,600,000 million. After related fees and expenses, the Company received net proceeds of approximately \$[•] million.

The Company entered into the Series B Transaction for a variety of reasons. Our management reviewed our short-term and long-term capital requirements, including projected costs associated with expanding our distribution business to include sales of our Westinghouse Solar Power Systems directly to dealers in California . Our management determined, after reviewing the Company’s capital requirements, that additional working capital was necessary for us to support and pursue our operating plan, and we sought to explore financing alternatives.

Over the course of several months, management explored and evaluated several financing options, including various financing structures. Given the difficult economic environment, securing financing proved to be a challenging endeavor. Our management ultimately determined that the Series B Transaction was the best available alternative and would provide the necessary capital to pursue the Company’s short-term and long-term strategic goals. The Board took into consideration, in light of the Company’s capital requirements and the economic environment, the likelihood and timing of consummating this or similar transactions and the market for available capital. Only after satisfying itself that the terms of the Series B Transaction were reasonable and also in the best interests of the Company and its stockholders, did the Board of Directors authorize management to proceed to consummation of the transaction.

Series B Preferred

To designate and establish the shares of Series B Preferred, the Company filed its Certificate of Designation on February [18], 2011 with the Secretary of State of the State of Delaware.

Dividends, Liquidation and Distributions; Rank

Purchasers of Series B Preferred are be entitled to receive cumulative dividends at the rate per share of, prior to February [17], 2012, 4% per annum, and thereafter 8% per annum (both subject to increase as described in the Certificate of Designation), payable semi-annually on June 30 and December 31, beginning on the first such date after the issuance of the Series B Preferred. The Series B Preferred ranks senior to all shares of Common Stock. So long as any Series B Preferred remains outstanding, neither the Company nor any of its subsidiaries thereof shall redeem, purchase or otherwise acquire directly or indirectly any security that ranks junior to the Series B Preferred. So long as any Series B Preferred remains outstanding, neither the Company nor any of its subsidiaries thereof shall directly or indirectly pay or declare any dividend or make any distribution upon, nor shall any distribution be made in respect of, any junior securities as long as any dividends due on the Series B Preferred remain unpaid, nor shall any monies be set aside for or applied to the purchase or redemption (through a sinking fund or otherwise) of any junior securities or shares pari passu with the Series B Preferred.

Conversion

Each share of Series B Preferred is initially convertible into 2,000 shares of Common Stock, based on the Conversion Price, which is initially \$0.45, subject to adjustment as discussed below.

Notwithstanding the conversion and exercise rights of Purchasers of Series B Preferred and Series K Warrants, the Company may not effect any conversion of Series B Preferred or exercise of Series K Warrants to the extent that, after giving effect to the conversion or exercise, the holder would beneficially own in excess of 4.99% of the number of shares of Common Stock outstanding immediately after giving effect to the issuance of shares of Common Stock issuable upon conversion of the Series B Preferred or exercise of the Series K Warrants.

Anti-Dilution Provisions

The Series B Preferred and the Series K Warrants contain certain anti-dilution provisions (the "Price Adjustment Provisions") that, if triggered, could have the effect of increasing the number of shares of Common Stock into which a share of Series B Preferred is convertible (and reducing the effective conversion price per share), and reducing the exercise price of each Series K Warrant (therefore causing those shares to be issuable at a price per share below our current market price, but without increasing the total number of shares that are subject to the warrants). These provisions come into effect if the Company, among other things, issues shares of Common Stock, options to purchase shares of Common Stock, or securities convertible into or exercisable for shares of Common Stock, in each case at an effective price per share that is lower than the Conversion Price of the Series B Preferred or the exercise price of the Series K Warrants then in effect. These provisions are not triggered by issuances pursuant to any stock incentive plan; conversion of the Series B Preferred or exercise of the Series K Warrants; conversion or exercise of securities convertible into or exercisable for shares of Common Stock outstanding prior to the Series B Transaction; or issuances pursuant to certain strategic transactions. The conversion price of the Series B Preferred is also subject to adjustment if the average of the 20 VWAPs of our Common Stock immediately prior to February 18, 2012 is less than the Conversion Price that is otherwise then in effect.

If the Price Adjustment Provisions are triggered, the conversion price of the Series B Preferred and the exercise price of the Series K Warrants would be reduced to equal the effective price per share of the securities issued in the dilutive issuance. The reduced conversion price of the Series B Preferred would have the effect of increasing the number of shares of Common Stock into which a share of Series B Preferred is convertible, and thus the dilutive effect of the Series B Transaction could be substantially greater. If the Price Adjustment Provisions are triggered as to the Series K Warrants, that could permit the exercise price for those warrants to adjust below \$0.55 per share, but would not increase the number of shares of Common Stock that are subject to those warrants.

Voting

The Series B Preferred has no voting rights, except with respect to specified matters affecting the rights of the Series B Preferred.

Triggering Events

In the event of a Triggering Event (as defined in the Certificate of Designation and described below), any holder of Series B Preferred may require the Company (A) under certain circumstances, redeem all of the Series B Preferred shares then held by such Holder for a redemption price, in cash, equal to the Triggering Redemption Amount (as defined in the Certificate of Designation), or (B) under certain circumstances, at the option of each holder, either (a) redeem all of the Series B Preferred then held by such holder for a redemption price, in shares of Common Stock, equal to a number of shares of Common Stock equal to the Triggering Redemption Amount divided by 75% of the average of the 10 VWAPs immediately prior to the date of election hereunder or (b) increase the dividend rate on all of the outstanding Series B Preferred held by such holder to 18% per annum thereafter. If the Company fails to pay in full the Triggering Redemption Amount on the date such amount is due (whether in cash or shares of Common Stock), the Company will pay interest thereon at a rate equal to the lesser of 18% per annum or the maximum rate permitted by applicable law, accruing daily from such date until the Triggering Redemption Amount, plus all such interest thereon, is paid in full.

Triggering Events include, among other things: (i) the failure of the initial registration statement filed pursuant to the Registration Rights Agreements (as defined below) to be declared effective by the SEC on or prior to the 185th day following the Series B Transaction, provided that so long as Rule 144 is then available to the Purchasers without restrictions or limitations on resale this Triggering Event shall be tolled until such time that Rule 144 is unavailable for the resale of the conversion shares; (ii) if, during the Effectiveness Period (as defined in the Registration Rights Agreement), the effectiveness of the registration statement lapses for more than an aggregate of 60 calendar days (which need not be consecutive calendar days) during any 12 month period, or the Purchasers shall not otherwise be permitted to resell their remittable securities under the registration statement for more than an aggregate of 60 calendar days (which need not be consecutive calendar days) during any 12 month period; provided that so long as Rule 144 is then available to the Purchasers without restrictions or limitations on resale this Triggering Event shall be tolled until such time that Rule 144 is unavailable for the resale of the conversion shares; (iii) the failure by the Company to convert Series B Preferred within ten trading days after the underlying shares of Common Stock are required to be delivered or the Company's delivery of notice to any holder of Series B Preferred of the Company's intention not to comply with requests for conversion of shares of Series B Preferred; (iv) certain events, described in the Registration Rights Agreement, are not cured to the satisfaction of the Purchasers prior to the expiration of 30 calendar days from the occurrence of such events; (v) the failure by the Company for any reason to pay in full the amount of cash due pursuant to a Buy-In (as defined in the Certificate of Designation) within five calendar days after notice therefor is delivered hereunder or failure to pay all amounts owed on account of any Event (as defined in the Registration Rights Agreement) within five days of the date due and payable; (vi) the failure by the Company to have available a sufficient number of authorized and unreserved shares of Common Stock to issue to the Purchasers upon the conversion of the Series B Preferred; (vii) the material failure by the Company to observe or perform any other covenant, agreement or warranty contained in the Transaction Documents (as defined in the Certificate of Designation), and such failure or breach is not cured by the Company within 30 calendar days after the date on which written notice of such failure or breach shall have been delivered; (viii) any material breach of the Voting Agreement; (ix) the failure by the Company to redeem more than a de minimis number of Junior Securities (as defined in the Certificate of Designation), other than for repurchases of Common Stock or Common Stock equivalents from departing officers, employees, directors and independent contractors; (x) the occurrence of a Change of Control Transaction, which includes the acquisition of the Company, the merger of the Company, a sale of substantially all of the Company's assets, or a replacement of more than one-half of the Board within a one-year period that is not approved by a majority of the members of the Board, (xi) the occurrence of a Bankruptcy Event (as defined in the

Certificate of Designation); (xii) the Common Stock fails to be listed or quoted on a trading market for more than five trading days, which need not be consecutive days; or (xiii) any monetary judgment, writ or similar final process is entered or filed against the Company, any subsidiary or any of their respective property or other assets that is not covered by insurance and is for more than \$250,000, and such judgment, writ or similar final process remains unvacated, unbonded or unstayed for a period of 45 calendar days.

Participation in Future Financings

From the execution date of the Purchase Agreement until the 12 month anniversary of the later of the effective date of the initial registration statement and the date that stockholders approve the Price Adjustment Provisions, upon any issuance by the Company or any of its subsidiaries of Common Stock or Common Stock equivalents for cash consideration, indebtedness (other than with a licensed commercial lender), or a combination of units thereof, each Purchaser with an aggregate subscription amount of \$1,000,000 or more has the right to participate in up to the lesser of (i) 100% of the subsequent financing and (ii) such holder's aggregate subscription amount on the closing date of the Purchase Agreement on the same terms, conditions and price provided for in the subsequent financing. Certain transactions are not subject to this participation right, including shares of Common Stock or stock options issued to employees, consultants, officers or directors of the Company pursuant to a stock incentive plan, or underwritten public offerings of Common Stock.

Series K Warrants

The Series K Warrants have a five year term, beginning on the six month anniversary of the Purchase Agreement closing, and an exercise price of \$0.60, subject to future adjustment for various events. The Series K Warrants are exercisable in cash, but if the registration statement to be filed pursuant to the Registration Rights Agreement is not effective and available to a holder of the Series K Warrants at the time of exercise of the Series K Warrants, such holder may also exercise the Series K Warrants on a cashless (net issue) basis.

The exercise price of, and number of shares subject to the Series K Warrants are subject to proportional adjustment in the event of any stock splits, stock dividend, reclassifications or similar event with respect to the Common Stock. The exercise price is also subject to reduction pursuant to anti-dilution provisions similar to those in the Certificate of Designation.

Registration Rights Agreement

In connection with the Purchase Agreement, the Company also entered into the Registration Rights Agreement with the Purchasers. Under the Registration Rights Agreement, the Company granted the Purchasers certain registration rights with respect to the Common Stock issuable upon conversion of the Series B Preferred and exercise of the Series K Warrants. On or prior to March 31, 2011, the Company is required to file an initial registration statement on Form S-3 (or another appropriate form) with the SEC, covering the resale of all or such maximum portion of the shares of Common Stock underlying the Series B Preferred and the Series K Warrants as permitted by guidance from the SEC.

Stockholder Approval and Voting Agreement

Under The NASDAQ Marketplace Rules, the Company may not issue more than an aggregate of 9,254,180 shares of Common Stock upon any anti-dilution or market price adjustments to the conversion price of the Series B Preferred and the exercise price of the Series K Warrants into Common Stock, unless stockholder approval is obtained. The Certificate of Designation and the terms of the Series K Warrants reflect this limitation. The Company is required to seek this approval at a meeting of its stockholders held no later than March 31, 2011. This proposal is requesting the approval of our stockholders of the Price Adjustment Provisions.

On February [•], 2011, the Company entered into a Voting Agreement with Barry Cinnamon, under which Mr. Cinnamon agreed to vote in favor of this approval. The shares subject to the Voting Agreement accounted for [•]% of all votes entitled to be cast as of the Record Date.

Consequences if Stockholder Approval is Not Obtained

We have agreed to seek stockholder approval of the Price Adjustment Provisions at this Annual Meeting, and at subsequent special and annual meetings of our stockholders, as many times as necessary until approval is obtained. If we obtain stockholder approval of this proposal at the 2011 Annual Meeting of Stockholders, this requirement will have been satisfied. However, if stockholder approval is not obtained at the 2011 Annual Meeting, we are obligated under the Purchase Agreement to cause an additional stockholder meeting to be held every six months after the first meeting for 2 additional meetings, and a further meeting every 12 months thereafter to seek stockholder approval until the earlier of the date stockholder approval is obtained or the Series B Preferred is no longer outstanding.

Until stockholder approval is obtained for the Price Adjustment Provisions, the anti-dilution and market price-based adjustments of the Series B Preferred will become effective for purposes of deterring the conversion terms of the Series B Preferred, however those adjustments are not permitted to result in the issuance of more than 9,254,180 shares of our Common Stock, and the exercise price of the Series K Warrants is not permitted to adjust to a price below \$0.55.

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS VOTE FOR APPROVAL OF THE PRICE ADJUSTMENT PROVISIONS OF THE SERIES B PREFERRED AND SERIES K WARRANTS, AND ANY RESULTING INCREASE IN THE NUMBER OF SHARES OF COMMON STOCK ISSUED UPON CONVERSION OF THE SERIES B PREFERRED. Approval of this proposal requires the affirmative vote of a majority of the shares of Common Stock present and voting at the Annual Meeting. Abstentions and broker non-votes will be counted as present for purposes of determining if a quorum is present. Broker non-votes will have no effect on the outcome of this proposal; abstentions will have the same effect as a negative vote on this proposal.

PROPOSAL NO. 5
RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

On December 19, 2006, the Board of Directors retained Burr, Pilger and Mayer LLP (“BPM”), as the Company’s independent registered public accounting firm.

Burr, Pilger and Mayer LLP has audited the Company’s financial statements for each of our two most recent fiscal years. The reports of Burr, Pilger and Mayer LLP, on the Company’s financial statements for the fiscal years ended December 31, 2010 and December 31, 2009 did not contain an adverse opinion or disclaimer of opinion, nor was it qualified or modified as to uncertainty, audit scope or accounting principles.

The Audit Committee selected Burr, Pilger and Mayer LLP to continue in its capacity for the fiscal year ending December 31, 2011. Accordingly, the Company is asking the stockholders to ratify the engagement of Burr, Pilger and Mayer LLP as its independent registered public accounting firm.

Although the engagement of Burr, Pilger and Mayer LLP is not required to be submitted to a vote of the stockholders, the Board of Directors believes that it is appropriate as a matter of policy to request that the stockholders ratify the selection of its independent registered public accounting firm for the fiscal year ending December 31, 2011. If the stockholders fail to ratify the appointment, the Audit Committee of the Board of Directors will consider it as a direction to select other auditors for the subsequent year. Even if the selection is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if the Audit Committee feels that such a change would be in the best interests of the Company and our stockholders.

A representative of Burr, Pilger and Mayer LLP is expected to be present at the annual meeting, with the opportunity to make a statement if the representative desires to do so, and is expected to be available to respond to appropriate questions.

The following table sets forth the aggregate fees billed to us by them for the fiscal years ended December 31, 2010 and 2009:

	2010	2009
Audit Fees (1)	\$ 115,000	\$ 115,000
Audit-Related Fees (2)	52,500	51,600
Tax Fees	—	—
All Other Fees (3)	22,250	30,000
Total	\$ 189,750	\$ 166,600

- (1) Comprised of the audit of our annual financial statements.
- (2) Comprised of the reviews of our quarterly financial statements.
- (3) Comprised of the audit of our 401(k) plan and other audit-related consultation services.

The Audit Committee reviews and pre-approves all proposed audit and non-audit engagements and related fees of BPM. In addition, any audit and non-audit fees for newly proposed professional services to be provided by BPM that arise during the year, or changes to previously approved BPM work, are reviewed and approved in advance of commencement of such services by the Audit Committee at their regularly scheduled meetings throughout the fiscal year. Should a situation arise that requires approval between meetings, the Audit Committee has delegated authority to

its Chairman to authorize such pre-approval and to report on same at the following regularly scheduled meeting. The Audit Committee has the authority to grant pre-approval of audit and non-audit services to one or more designated members of the Audit Committee who are independent directors. Any such delegation shall be presented to the full Audit Committee at its next scheduled meeting.

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS OF THE COMPANY RECOMMENDS A VOTE “FOR” THE APPOINTMENT OF BURR, PILGER AND MAYER LLP AS THE COMPANY’S INDEPENDENT AUDITORS FOR THE FISCAL YEAR ENDING DECEMBER 31, 2011. Approval of this proposal requires the affirmative vote of a majority of the votes cast on the proposal at the Annual Meeting. Broker non-votes will be counted as present for purposes of determining the presence of a quorum but will not have any effect on the outcome of the proposal. Abstentions will have the same effect as a vote against the proposal.

Abstentions will have the same effect as a vote against the proposal.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion & Analysis (“CD&A”) outlines the Company’s executive compensation programs. It explains the decision making process used by our Compensation Committee, the reasoning behind our executive compensation programs, and the actions the Compensation Committee took related to the compensation of the following executives (our “Named Executive Officers”):

- Barry Cinnamon — Chief Executive Officer and Secretary
- Gary Effren — President
- Margaret Randazzo — Chief Financial Officer and Treasurer
- Jeff Kiel — Executive Vice President, Sales and Marketing

I. Overview of Our Compensation Programs

A. Philosophy and Objectives

The Company's executive compensation programs are based on the following philosophies and objectives:

- **Compensation Should Align with Stockholders' Interests** — The Compensation Committee believes that executives' interests should be aligned with those of the stockholders. Executives are granted restricted stock and stock options so that their total compensation is tied directly to the same value realized by our stockholders. Executive bonuses are tied directly to the value that the Company gains from an executive's contribution to the Company's success as a whole.
- **Compensation is Competitive** — The Compensation Committee seeks to provide a total compensation package that attracts, motivates and retains the executive talent that the Company needs in order to maximize its return to stockholders. To accomplish this objective, executive compensation is reviewed annually to ensure that compensation levels are competitive and reasonable given the Company's level of performance and other comparable companies with which the Company competes for talent.
- **Compensation Motivates and Rewards the Achievement of Goals** — The Company's executive compensation programs are designed to appropriately reward both individual and collective performance that meets and exceeds annual, long-term and strategic goals of the Company. To accomplish this objective, a substantial percentage of total compensation is variable, "at risk", both through annual incentive compensation and the granting of long-term incentive awards.

B. Compensation Administration

Role of the Compensation Committee

Pursuant to the terms of its charter, the Compensation Committee is responsible for the review and approval of all aspects of our executive compensation program and makes decisions regarding the compensation of our Named Executive Officers, including our Chief Executive Officer. The Compensation Committee's responsibilities include but are not limited to the following:

- Reviewing and approving on an annual basis the corporate goals and objectives with respect to the compensation of the Chief Executive Officer and other Named Executive Officers.
- Evaluating the Chief Executive Officer's and other Named Executive Officer's performance at least annually in light of those goals and objectives, and based upon these evaluations reviewing on an annual basis those officers' annual compensations, including (i) annual base salary level, (ii) annual incentive compensation, (iii) long-term incentive compensation, (iv) employment, severance and change-in-control agreements, if any, and (v) any other compensation, ongoing perquisites or special benefit items.
- Developing and periodically assessing the Compensation Committee's compensation policies applicable to the Company's Chief Executive Officer and other Named Executive Officers and directors, including the relationship of corporate performance to executive compensation.
-

Periodically reviewing and advising the Board concerning both regional and industry-wide compensation practices and trends in order to assess the adequacy and competitiveness of the Company's compensation programs for the Chief Executive Officer and other Named Executive Officers and directors relative to comparable companies in the Company's industry.

- Granting restricted stock, stock option, and other equity-based or incentive awards to the Company's Named Executive Officers, employees and other individuals under the Company's stock and incentive compensation plans, including any performance criteria relating to the plans or awards, and otherwise assisting the Board in administering awards under these plans.
- Reviewing and approving the Company's employee benefit programs, including reviewing and approving any incentive-compensation and equity-based plans of the Company that are subject to Board approval.

Additional information regarding the Compensation Committee's responsibilities is set forth in its charter, which is posted on our website at <http://ir.westinghousesolar.com/Governance.cfm>.

Role of the Chief Executive Officer

Our Chief Executive Officer, Barry Cinnamon, makes recommendations to the Compensation Committee regarding the compensation of our other Named Executive Officers. The Compensation Committee often requests Mr. Cinnamon to be present at Compensation Committee meetings where executive compensation and the performance of our Named Executive Officers are discussed and evaluated. Within the framework of the compensation programs approved by the Compensation Committee, Mr. Cinnamon may recommend base salary adjustments and make suggestions regarding incentive plan performance measures and equity compensation grants for other Named Executive Officers. Mr. Cinnamon does not participate in any discussions or processes concerning his own compensation, and participates in a non-voting capacity in discussions or processes concerning the compensation of the Company's Named Executive Officers.

C. Program Design

The Compensation Committee uses a simple and straightforward approach in compensating our Named Executive Officers in which base salary, annual incentives and stock options are the principal components. In addition, executives generally participate in the same benefit programs as other full-time employees.

The Company's executive compensation programs are designed to provide executives with a reasonable level of fixed compensation through base salary and benefits, and an opportunity to earn incentive compensation through the annual and long-term incentive programs based on a mix of individual and Company performance and increases in the value of our stock. The incentive plans are designed to pay well when performance meets or exceeds expectations and pay little or no incentive if performance is below expectations.

As an executive's level of responsibility increases, the Compensation Committee generally targets a greater portion of the executive's compensation to be contingent upon performance. For example, the Company's Chief Executive Officer and the other Named Executive Officers have a higher percentage of compensation at risk (and thus greater upside and downside potential) relative to the Company's other employees. The Compensation Committee believes this is appropriate because the Named Executive Officers have the greatest influence on the Company's performance.

D. Compensation Review Process

The Compensation Committee annually reviews compensation for our Named Executive Officers. In making its decisions, the Compensation Committee considers the executive's role and responsibilities, Company and individual performance, and regional and industry-wide compensation practices and trends. This approach is used to set base salaries, annual incentive opportunities, stock option award levels and the mix of compensation elements.

II. Components of Compensation

The Company provides four compensation components to Named Executive Officers:

- Base salary,
- Cash annual and/or quarterly incentives based on the achievement of specified goals and objectives,
- Long-term incentive in the form of restricted stock and stock options, and
- Benefits.

A. Base Salaries

The Company provides its Named Executive Officers a base salary commensurate with their position, responsibilities and experience. The 2010 base salaries, in dollars, and the percentage increase in the 2010 base salaries from the 2009 base salaries, for our Named Executive Officers, are as follows:

Named Executive Officer	2010 Base Salary	Percentage Increase from 2009 Base Salary
Barry Cinnamon Chief Executive Officer and Secretary	\$ 275,000	0.0 %
Gary Effren President	\$ 262,500	5.0 %
Margaret Randazzo Chief Financial Officer and Treasurer	\$ 175,000	16.7 %
Jeff Kiel Executive Vice President Sales and Marketing	\$ 200,000	17.6 %

- (1) Ms. Randazzo joined the Company on December 29, 2008 as the Company's Controller and became a Named Executive Officer after being promoted to Chief Financial Officer on December 24, 2009.

B. Annual and Quarterly Incentives

In 2008, the Compensation Committee established the Company's Executive Bonus Plan (the "Bonus Plan"). Named Executive Officers were to be rewarded bonuses based on whether, in the discretion of the Compensation Committee, the Company met certain revenue and operating income goals that aligned with the business plan to achieve profitability. The Compensation Committee believed that the Bonus Plan was appropriate to motivate the Named Executive Officers to focus on expanding the Company's business and managing profitability.

Based on the executive compensation review, in 2010, the Compensation Committee established a target incentive of up to 70% of salary for Mr. Cinnamon, up to 50% of salary for Mr. Effren, up to 45% for Mr. Kiel and up to 40% of salary for Ms. Randazzo. According to the terms of the Bonus Plan, the Company's targeted revenue and operation income goals must be achieved before annual incentives are paid. The Named Executive Officers have the opportunity to receive up to 100% of their target incentive at maximum performance.

The Company's actual performance in 2010 did not meet revenue and operation income goals. The Compensation Committee decided to follow the recommendation of the Chief Executive office and to not award any cash bonuses given the financial results for the year.

C. Long-Term Incentives

The Compensation Committee has elected to grant restricted stock and stock options to the Named Executive Officers and other key employees as the primary long-term incentive vehicle. In making this determination, the Compensation Committee considered a number of factors including: the accounting impact, potential value of restricted stock and stock option grants versus other equity instruments and cash incentives, and the alignment of equity participants with stockholders. The Company determined that grants of restricted stock and stock options:

- Enhance the link between the creation of stockholder value and executive compensation;
- Provide an opportunity for equity ownership;
- Act as a retention tool; and
- Provide competitive levels of total compensation.

Restrictions on the Named Executive Officer's shares lapse in equal annual increments over a period of four (4) years and in equal quarterly increments over a period of one (1) year, as the case may be, commencing one year or quarter from the date of grant, as applicable. Each Named Executive Officer is entitled to vote such restricted shares, subject to forfeiture in accordance with the terms of the grant. The stock options granted to the Named Executive Officers in 2010 have five-year terms and, with the exception of 38,500 options for Mr. Cinnamon, which vested on January 17, 2009, and 100,000 and 6,918 options for Mr. Effren which vested on January 13, 2011 and January 17, 2009, respectively, 33.33% of the shares underlying the Named Executive Officers' options vest in equal annual installments over a period of three years on each anniversary of the grant date.

The Compensation Committee may make grants of equity awards to Named Executive Officers during their regular quarterly meetings or by special meeting during the year. The Compensation Committee reviews Company performance, potential burn rates and dilution levels to create a restricted stock and option pool that may be awarded to employee participants. Grants to the Named Executive Officers were determined by the Compensation Committee after reviewing market data and considering each executive's performance, role and responsibilities.

The Company does not reprice options if the Company stock price declines after the grant date. The Company does not seek to time equity grants to take advantage of information, either positive or negative, about the Company that has not been publicly disclosed. Option grants are effective on the date the award determination is made by the Compensation Committee and the exercise price of options is the closing market price of Company common stock on the business day prior to the date of the grant or, if the grant is made on a weekend or holiday, on the prior business day.

D. Benefits

Named Executive Officers are eligible to participate in the Company's standard medical, dental, vision, disability insurance, life insurance plans and other health and welfare plans provided to other full time employees.

Retirement Benefits

The Company's retirement savings plans help the Company's employees prepare for retirement. The Company's objectives with regard to retirement savings plans are to provide benefit levels that are competitive when compared to similarly sized companies within the Company's general industry and that are designed with simple and straightforward terms to enable participants to maximize the value they receive from such plans.

All of the Company's Named Executive Officers are entitled to participate in the Company's 401(k) program.

Employment Agreements and Post Termination Compensation

The Company does not maintain employment or other compensatory agreements with any of the Named Executive Officers. If the Company terminates the employment of a Named Executive Officer, it will not be obligated to pay them severance compensation or other benefits. The Compensation Committee believes that the at-will nature of employment of the Named Executive Officers is appropriate because it provides the Company with more flexibility to make a management change if such a change is in the best interests of the Company and stockholders. Upon termination, these executives are bound by confidentiality agreements.

III. Limitation on Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code denies a publicly held corporation a federal income tax deduction for the compensation of certain executive officers exceeding \$1 million per year. "Performance based" compensation is not subject to the limitations on deductibility and the Compensation Committee strives to structure compensation so as to

qualify for deductibility. Currently, the Company believes all compensation is deductible. However, the Compensation Committee may authorize compensation that may not be deductible when it deems it to be in the best interest of the Company and its stockholders.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management and, based on such review and discussions, the Compensation Committee recommended to our Board of Directors that the Compensation Discussion and Analysis be included in the Annual Report on Form 10-K.
