PROXY STATEMENT

The accompanying proxy is solicited by the Board of Directors of Healthcare Trust of America, Inc. (“HTA”) for exercise at the 2015 Annual Meeting of Stockholders (the “2015 Annual Meeting”) to be held on July 8, 2015 at 9:00 a.m. local time, at The Fairmont Scottsdale Princess, 7575 East Princess Drive, Scottsdale, Arizona 85255, and at any postponement or adjournment thereof, for the purposes set forth in the attached notice. Unless otherwise indicated or required by the context, as used in this proxy statement, “the Company,” “we,” “us,” and “our” refer to HTA.

On or about May 15, 2015, the Notice and these proxy materials for the 2015 Annual Meeting, including this proxy statement, are being made available to stockholders entitled to vote at the 2015 Annual Meeting. We are utilizing the SEC rules that allow issuers to furnish proxy materials to their stockholders on the Internet. As a result, we are mailing to most of our stockholders the Notice instead of a paper copy of this proxy statement and our 2014 Annual Report. The Notice contains instructions on how to access those documents and authorize a proxy online. The Notice also contains instructions on how each stockholder can receive a paper copy of the proxy materials, including this proxy statement, the 2014 Annual Report and a form of proxy card or voting instruction card. All stockholders who do not receive a Notice, such as stockholders who have previously requested to receive paper copies of proxy materials, will receive a paper copy of the proxy materials by mail.

The following questions and answers relate to the 2015 Annual Meeting.

What is the purpose of the 2015 Annual Meeting?

At the 2015 Annual Meeting, stockholders will consider and vote upon the following:

• the election of the eight director nominees named in this proxy statement, each to hold office for a one-year term expiring at the 2016 Annual Meeting of Stockholders and until his successor is duly elected and qualifies; and the ratification of the appointment of Deloitte & Touche LLP (“Deloitte”) as our independent registered public accounting firm for the year ending December 31, 2015. A representative of Deloitte is expected to be present at the 2015 Annual Meeting and will have an opportunity to make a statement if he or she so desires.

Management will also report on our accomplishments to date, including our business and our portfolio of properties.

Management will also respond to questions from stockholders.

What are the Board of Directors’ voting recommendations?

The Board of Directors recommends that you vote or authorize a proxy to vote your shares:

FOR all of the nominees named in this proxy statement for election as directors; and

FOR the ratification of the appointment of Deloitte as our independent registered public accounting firm for 2015.

What happens if additional proposals are presented at the 2015 Annual Meeting?

Other than the matters described in this proxy statement, we are not aware of any additional matters to be presented for a vote at the 2015 Annual Meeting. If other matters are presented and you are voting by proxy, your proxy grants the individuals named as proxy holders the discretion to vote your shares as they see fit on any additional matters properly presented for a vote at the 2015 Annual Meeting.

Who is entitled to vote?

Only stockholders of record at the close of business on April 24, 2015, the record date for the 2015 Annual Meeting, are entitled to receive notice and to vote the shares of common stock that they hold on that date at the 2015 Annual Meeting, including any postponements or adjournments. As of the record date, we had 125,203,394 shares of common stock issued and outstanding and entitled to vote. You are entitled to one vote for each share of common stock you held as of the record date.

What is the difference between a “record holder” and stockholder who holds stock in “street name”?

Stockholders of Record. If your shares are registered in your name with our transfer agent, DST Systems, Inc., you are a stockholder of record with respect to those shares and the Notice or proxy materials were sent directly to you by Broadridge Financial Solutions.

Table of Contents

Street Name Holders. If you hold your shares in an account at a bank or broker, then you are the beneficial owner of shares held in “street name.” The Notice or proxy materials were forwarded to you by your bank or broker, who is considered the stockholder of record for purposes of voting at the 2015 Annual Meeting. As a beneficial owner, you have the right to direct your bank or broker on how to vote the shares held in your account.

What are “routine” and “non-routine” matters and how are broker non-votes counted?

A broker or other nominee holding shares for a beneficial owner may generally vote on “routine” matters without receiving voting instructions, but may not vote on “non-routine” matters without receiving voting instructions. A broker “non-vote” occurs when a broker, bank or other nominee holding shares for a beneficial owner does not vote on a particular “non-routine” proposal because the nominee does not have discretionary voting power with respect to that matter and has not received voting instructions from the beneficial owner. The election of directors (Proposal 1) is considered a “non-routine” matter and, therefore, a broker or nominee may not vote shares held for a beneficial owner without instructions and there may consequently be broker non-votes in connection with Proposal 1. Therefore, we strongly encourage you to instruct your broker or nominee on how you wish to vote your shares on the election of directors. For purposes of the election of directors, abstentions and broker non-votes, if any, will not be counted as votes cast and, therefore, will not affect the outcome of Proposal 1. The ratification of the appointment of Deloitte as the Company’s independent registered public accounting firm for 2015 (Proposal 2) is considered a “routine” matter and, therefore, a broker or nominee may vote shares held for a beneficial owner without instructions and no broker non-votes are expected to occur in connection with Proposal 2. Pursuant to Maryland law, broker non-votes and abstentions are not considered votes cast, but are counted as present for quorum purposes.

What constitutes a quorum?

If stockholders entitled to cast a majority of all of the votes entitled to be cast are present at the 2015 Annual Meeting, either in person or by proxy, we will have a quorum at the meeting, permitting the conduct of business at the meeting. Abstentions and broker non-votes, if any, will be considered present for the purpose of determining the presence of a quorum.

How do I authorize a proxy to vote my shares at the 2015 Annual Meeting?

You can authorize a proxy to vote your shares by following the instructions set forth in the Notice or proxy card.

Can I revoke my proxy after I have voted?

You may revoke your proxy at any time before the proxy is exercised at the 2015 Annual Meeting by:

- delivering to our Secretary a written notice of revocation;
- attending the 2015 Annual Meeting and voting in person (although attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request);
- returning a properly signed proxy card bearing a later date than your first proxy card (if received before the 2015 Annual Meeting);
- authorizing a later dated proxy using the telephone or Internet (if received before the deadline for telephone or Internet proxies); or
- using the Internet or telephone methods described in the Notice.

If you hold shares of our common stock in street name, you will need to contact the institution that holds your shares and follow its instructions for revoking a proxy.

What vote is required to approve each proposal that comes before the 2015 Annual Meeting?

Election of directors. To elect a director nominee, the affirmative vote of a majority of all votes cast at a meeting at which a quorum is present must be cast in favor of the nominee. This means a director nominee must receive more votes “for” than “against” to be elected, with abstentions and broker non-votes not counting as votes “for” or “against.” If an incumbent director nominee fails to receive the required number of votes for reelection, then under Maryland law, he will continue to serve as a “holdover” director until his successor is duly elected and qualifies.

Ratification of auditors. To approve the ratification of the appointment of Deloitte, the affirmative vote of a majority of all votes cast at a meeting at which a quorum is present must be cast in favor of the proposal. Abstentions will have no impact on the proposal to ratify the appointment of Deloitte. The ratification of the appointment of Deloitte is deemed to be a “routine” matter and brokers will be permitted to vote uninstructed shares as to such matter.

How can I find the results of the 2015 Annual Meeting?

Preliminary results will be announced at the 2015 Annual Meeting. We intend to publish final results in a Current Report on Form 8-K filed with the SEC within four business days after the 2015 Annual Meeting.

What happens if the 2015 Annual Meeting is postponed or adjourned?

Your proxy will still be effective and will be voted at the rescheduled 2015 Annual Meeting. You will still be able to change or revoke your proxy until it is voted.

Who will bear the costs of soliciting votes for the 2015 Annual Meeting?

HTA will bear the entire cost of the solicitation of proxies from its stockholders. We have retained Broadridge Financial Solutions to assist us in connection with the solicitation of proxies for a fee of \$4,500, plus reasonable out of pocket expenses. In addition to the mailing of the Notices and these proxy materials, the solicitation of proxies or votes may be made in person, by telephone or by electronic communication by our directors and officers, who will not receive any additional compensation for such solicitation activities. We will also reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for forwarding the Notice and proxy solicitation materials to our stockholders.

How do I get additional copies of SEC filings?

Copies of HTA's financial reports, including its reports to the SEC filed on Forms 10-K and 10-Q, with financial statements and financial statement schedules, but without exhibits, are available without cost by sending your written request to: Healthcare Trust of America, Inc., 16435 N. We file information electronically with the SEC, and the SEC maintains a website that contains reports, proxy and information statements and other information regarding registrants (including HTA) that file electronically with the SEC. The address of the SEC's website is <http://www.sec.gov>. Copies of SEC filings, including exhibits, can also be obtained free of charge by clicking on "SEC Filings" under "Investor Relations" on our website at www.htareit.com. This website address is provided for your information and convenience. Our website is not incorporated into this proxy statement and should not be considered part of this proxy statement. You can obtain a copy of any listed exhibit to a Form 10-K or Form 10-Q by sending your written request to our Secretary at the address furnished above. We will furnish the copy upon payment of a fee to reimburse our expenses.

Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, our actual results and performance could differ materially from those set forth in the forward-looking statements. Factors which could have a material adverse effect on our operations and future prospects include, but are not limited to:

OVERVIEW OF 2014 PERFORMANCE

HTA is a real estate investment trust (“REIT”) and one of the leading owners and operators of medical office buildings (“MOBs”) in the United States (“U.S.”). Our primary objective is to generate stockholder value through consistent and growing dividends and appreciation of real property values.

Effective December 15, 2014, HTA completed a 1-for 2 reverse stock split (the “Reverse Stock Split”) of its common stock. As a result of the Reverse Stock Split, every two issued and outstanding shares of common stock were converted into one share of common stock. Concurrently with the Reverse Stock Split, Healthcare Trust of America Holdings, LP, our operating partnership, effected a corresponding Reverse Stock Split of its outstanding units of limited partnership interests. All share/unit and per share/unit amounts presented have been retrospectively adjusted to reflect the Reverse Stock Split.

We continued to deliver strong financial and operating performance in 2014, including the following:

For the year ended December 31, 2014, we generated one-year cumulative total shareholder return (“TSR”) of 44%, which significantly exceeded the one-year TSR of the SNL US REIT Healthcare Total Return Index by approximately 1,060 basis points and the one-year TSR of the MSCI US REIT Index (RMS) Total Return by approximately 1,340 basis points.

For the year ended December 31, 2014, Normalized Funds From Operations (“FFO”) increased 13% to \$1.46 per diluted share, or \$176.6 million, compared to the year ended December 31, 2013. For additional information on Normalized FFO, see “Non-GAAP Financial Measures” below.

For the year ended December 31, 2014, we achieved Same-Property Cash Net Operating Income (“NOI”) growth of 3.0%. This achievement marks the second year of consistent quarterly growth of 3.0% or more. For additional information on Same-Property Cash NOI, see “Non-GAAP Financial Measures” below.

- During 2014, we entered into new or renewal leases on approximately 1.6 million square feet of gross leasable area (“GLA”), or 10.8% of our portfolio. Tenant retention for the year was 83% by GLA.

As of December 31, 2014, our leased rate (includes leases which have been executed, but which have not yet commenced) was 92.0% by GLA, an increase of 40 basis points from December 31, 2013. The occupancy rate was 91.4% by GLA as of December 31, 2014.

During 2014, we acquired \$439.5 million of high quality MOBs, representing an expansion of total investment by approximately 15%, based on purchase price. These acquisitions totaled approximately 1.2 million square feet of GLA, primarily in our key markets. Based on GLA, 88% of our 2014 acquisitions were either on the campuses of, or aligned with, nationally or regionally recognized healthcare systems.

During 2014, we initiated our asset recycling program and completed three dispositions which generated gross proceeds of \$82.9 million and gains of \$27.9 million.

We ended 2014 with what we believe is a strong and conservative balance sheet. As of December 31, 2014, we had total liquidity of \$868.9 million, including cash and cash equivalents of \$10.4 million and \$858.5 million available on our unsecured credit agreement. Our leverage ratio of debt to capitalization was 29.2%. In addition, we took several steps during the year to improve our liquidity and long-term financial flexibility, including the following items:

In June 2014, we issued and sold \$300 million of 7-year unsecured senior notes at an interest rate of 3.375% per annum.

Table of Contents

During 2014, we amended our unsecured credit agreement which increased the amount available under the unsecured revolving credit facility by \$150 million to \$800 million. In addition, the maturity dates were extended to January 2020 (including extension options) and borrowing costs decreased.

During 2014, we raised \$154.2 million from the sale of shares of common stock and issued \$17.0 million of Class A Units of Healthcare Trust of America Holdings, LP, our operating partnership, in connection with certain acquisitions. In May 2014, Standard & Poor's Rating Services ("S&P") upgraded our investment grade credit rating to BBB, with a stable outlook.

PROPOSAL 1:

ELECTION OF DIRECTORS

The Board of Directors currently consists of eight directors. Our charter and bylaws provide for a minimum of three and a maximum of 15 directors. Our directors are elected to serve a one-year term commencing on the date of the 2015 Annual Meeting and ending on the date of the 2016 Annual Meeting of Stockholders and until their successors are duly elected and qualify. The Board of Directors has nominated Scott D. Peters, W. Bradley Blair, II, Maurice J. DeWald, Warren D. Fix, Peter N. Foss, Larry L. Mathis, Steve W. Patterson and Gary T. Wescombe. Each of Messrs. Peters, Blair, DeWald, Fix, Foss, Mathis, Patterson and Wescombe currently serves as a member of the Board of Directors and all of the director nominees, other than Mr. Foss, were previously elected to the Board of Directors by our stockholders. The Board of Directors believes that such nominees have served and will continue to serve a vital role in our management and operations and our continued growth and success. Mr. Foss has served as a member of the Board of Directors since April 2015, and the Board of Directors believes that such nominee will also continue to play a vital role in our management and operations and our continued growth and success.

Our bylaws permit the Board of Directors to increase the number of directors, from time to time, by a majority of the entire Board of Directors. In April 2015, the Board of Directors, upon recommendation by the Nominating and Corporate Governance Committee, increased the number of directors from seven to eight, and filled the resulting vacancy by appointing Mr. Foss as a new member of the Board of Directors to serve for the remainder of the term until the 2015 Annual Meeting. Mr. Foss was initially identified as a potential director nominee by our lead independent director, Mr. Blair. Following an evaluation and screening of Mr. Foss's proposed candidacy as a director, the Nominating and Corporate Governance Committee recommended his election to the Board of Directors.

Unless otherwise instructed on the proxy, the shares represented by proxies will be voted "FOR ALL NOMINEES" who are named below. Each of the nominees has consented to being named as a nominee in this proxy statement and has agreed that, if elected, he will serve on the Board of Directors for a one-year term and until his successor is duly elected and qualifies. If any nominee becomes unable or unwilling for good cause to serve as a director if elected, the shares represented by proxies may be voted for a substitute nominee designated by the Board of Directors. We are not aware of any family relationship among any of the nominees to become directors or executive officers of HTA. Each of the nominees for election as director has advised us that there is no arrangement or understanding of any kind between him and any other person relating to his election as a director except that such nominees have agreed to serve as our directors if elected.

The Board of Directors recommends a vote "FOR ALL NOMINEES" named above for election as directors.

CORPORATE GOVERNANCE

Board of Directors

The Board of Directors held 11 meetings during the year ended December 31, 2014. Each of our directors attended at least 75% of the aggregate of the total number of meetings of the Board of Directors held during the year and the total number of meetings held by all committees of the Board of Directors on which he served during the periods in which he served.

Board Leadership Structure

The Nominating and Corporate Governance Committee and the Board of Directors believe it is important to select the Chairman of the Board of Directors (the “Chairman”) and Chief Executive Officer in the manner they consider in the best interests of the Company at any given point in time. The members of the Nominating and Corporate Governance Committee and the Board of Directors possess considerable business experience and in-depth knowledge of the issues the Company faces and, therefore, are in the best position to evaluate our needs and how best to organize our leadership structure to meet those needs. Accordingly, the Chairman and Chief Executive Officer positions may be filled by one individual or by two different individuals. The Nominating and Corporate Governance Committee and the Board of Directors believe that the most effective leadership structure for the Company at this time is for Mr. Peters to serve as both our Chairman and Chief Executive Officer. Mr. Peters’ combined role as Chairman and Chief Executive Officer serves as a bridge between the Board of Directors and management and provides unified leadership for developing and implementing our strategic initiatives and business plans.

Lead Independent Director

As discussed above, the Board of Directors periodically reviews the appropriateness and effectiveness of its leadership structure. In 2014, the Board of Directors review validated the continued benefits of Mr. Peters’ service as both our Chairman and Chief Executive Officer. The review also culminated in the approval of amendments to the Company’s Corporate Governance Guidelines in December 2014 which created the position of lead independent director. The lead independent director’s specific responsibilities include, among other things, to preside at all meetings at which the Chairman is not present, including executive sessions of independent directors, to call meetings of independent directors, to function as a liaison with the Chairman, to approve board meeting agendas and to schedule and confer with the Chairman on strategic planning matters and transactions. In December 2014, the Nominating and Corporate Governance Committee approved Mr. Blair as the lead independent director for an initial term of two years until the 2016 Annual Meeting of Stockholders and recommended approval to the Board of Directors. The Board of Directors approved the recommendation in December 2014. Any subsequent lead independent director shall be elected annually for a term of one-year. The Board of Directors believes this allocation of responsibility provides for effective leadership while maintaining independence.

Director Attendance at Annual Meetings of Stockholders

Although we have no policy with regard to attendance by the members of the Board of Directors at our annual meetings of stockholders, we invite and encourage the members of the Board of Directors to attend our annual meeting of stockholders to foster communication between our stockholders and the Board of Directors. PROPOSAL 2:

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our Audit Committee has appointed Deloitte to be our independent registered public accounting firm for the year ending December 31, 2015. A representative of Deloitte is expected to be present at the 2015 Annual Meeting and will have an opportunity to make a statement if he or she so desires. The representative also will be available to respond to appropriate questions from the stockholders.

Although it is not required to do so, the Board of Directors is submitting the Audit Committee's appointment of our independent registered public accounting firm for ratification by the stockholders at the 2015 Annual Meeting in order to ascertain the view of the stockholders regarding such appointment as a matter of good corporate practice. If the stockholders should not ratify the appointment of our independent registered public accounting firm, the Audit Committee will reconsider the appointment.

The Board of Directors recommends a vote "FOR" ratification of the appointment of Deloitte as our independent registered public accounting firm for the fiscal year ending December 31, 2015.

Pre-Approval Policies

The Audit Committee charter imposes a duty on the Audit Committee to pre-approve all auditing services performed for us by our independent auditors, as well as all permitted non-audit services, if any (including the fees and terms thereof) in order to ensure that the provision of such services does not impair the auditors' independence. Unless a type of service to be provided by the independent auditors has received "general" pre-approval, it will require "specific" pre-approval by the Audit Committee.

All requests or applications for services to be provided by the independent auditor that do not require specific pre-approval by the Audit Committee will be submitted to management and must include a detailed description of the services to be rendered. Management will determine whether such services are included within the list of services that have received the general pre-approval of the Audit Committee. The Audit Committee will be informed on a timely basis of any such services rendered by the independent auditors.

Requests or applications to provide services that require specific pre-approval by the Audit Committee will be submitted to the Audit Committee by both the independent auditors and the Principal Financial Officer, and must include a joint statement as to whether, in their view, the request or application is consistent with the SEC's rules on auditor independence. The chairperson of the Audit Committee has been delegated the authority to specifically pre-approve de minimis amounts for services not covered by the general pre-approval guidelines. All amounts, other than such de minimis amounts, require specific pre-approval by the Audit Committee prior to engagement of Deloitte. All amounts, other than de minimis amounts not subject to pre-approval, specifically pre-approved by the chairperson of the Audit Committee in accordance with this policy are to be disclosed to the full Audit Committee at the next regularly scheduled meeting.

All services rendered by Deloitte for the years ended December 31, 2014 and 2013 were pre-approved in accordance with the policies and procedures described above.

Auditor Independence

The Audit Committee has considered whether the provision of the above noted services is compatible with maintaining the independence of our independent registered public accounting firm's independence and has concluded that the provision of such services has not adversely affected the independent registered public accounting firm's independence.

In this context, in fulfilling its oversight responsibilities, the Audit Committee reviewed the 2014 audited financial statements with management, including a discussion of the quality and acceptability of the financial reporting and controls of Healthcare Trust of America, Inc.

The Audit Committee reviewed with Deloitte & Touche LLP, which is responsible for expressing an opinion on the conformity of those audited financial statements with U.S. generally accepted accounting principles, their judgments as to the quality and the acceptability of the financial statements and such other matters as are required to be discussed by the applicable auditing standards as periodically amended (including significant accounting policies, alternative accounting treatments and estimates, judgments and uncertainties). COMPENSATION DISCUSSION AND ANALYSIS

In this Compensation Discussion and Analysis (“CD&A”) we provide an overview and analysis of our compensation program and policies, the material compensation decisions we have made under those programs and policies for 2014 with respect to our named executive officers, and the material factors that we considered in making those decisions. Following this CD&A, under the heading “Executive Compensation” you will find a series of tables containing specific data about the compensation earned in 2014 by the following named executive officers:

• Scott D. Peters, Chief Executive Officer, President and Chairman of the Board;

• Robert A. Milligan, Chief Financial Officer, Secretary and Treasurer;

• Mark D. Engstrom, Executive Vice President - Acquisitions; and

• Amanda L. Houghton, Executive Vice President - Asset Management.

Kellie S. Pruitt resigned as our Chief Financial Officer, Secretary and Treasurer in September 2014. Under SEC rules, she is included as one of our named executive officers for 2014. Except as expressly noted, references to our named executive officers in this CD&A do not include Ms. Pruitt.

Compensation Philosophy and Objectives

Our Compensation Committee is charged with setting compensation for our named executive officers and all other employees. Pursuant to the terms of our Compensation Committee charter, our Compensation Committee has oversight over all of our compensation programs, including plans and programs relating to cash compensation, incentive compensation and equity-based awards.

The objectives of our executive compensation program are set forth below:

• attract, retain and motivate talented executives;

• link compensation realized with the achievement of pre-established short and long-term financial and strategic goals,

• as well as our Compensation Committee’s assessment of an individual’s overall contributions generally and to the achievement of our corporate goals and objectives;

• align management and stockholder interests by encouraging long-term value creation; and

• maintain compensation and corporate governance practices that are designed to create value for our stockholders.

Our Compensation Committee recognizes that effective compensation strategies are critical to recruiting and retaining key employees who contribute to our long-term success and thereby create value for our stockholders. An important objective of our Compensation Committee is to align the financial interests of our executives with those of our stockholders by maintaining a performance and achievement-focused culture that provides our executives with competitive cash incentive opportunities and long-term, equity incentive compensation for strong performance measured against key financial and strategic goals.

Compensation Policies

Our executive compensation program includes a number of features intended to reflect best practices in the market and to help ensure that the program reinforces our stockholders’ interests. These features are described in more detail below in this CD&A and include the following:

Our Compensation Committee is comprised solely of independent directors. Our Compensation Committee engages independent compensation consultants, as further described below, to advise on matters related to our executive compensation program.

The majority of our executives’ compensation is at-risk. For fiscal year 2014, approximately 86% of Mr. Peters’ total direct compensation was performance-based, and approximately 67% to 74% of the three other named executive officers’ total direct compensation was performance-based. As used in this discussion, the term “total direct compensation” means the aggregate amount of the executive’s base salary, annual bonus earned for 2014, and the grant date fair value long-term equity incentive awards earned for 2014 but issued in 2015.

Our executives’ bonuses under our annual incentive program are performance-based cash incentives that reward achievement of performance objectives tied to our annual business plan and objectives. A range of earnings opportunities, expressed as percentages of base salary and corresponding to three levels of performance (i.e., Threshold, Target and High), are established for each of our executives. Actual bonus awards to our executives depend on actual achievement relative to the corporate objectives and our Compensation Committee’s subjective assessment of each executive’s individual performance as described below under “Elements of our 2014 Compensation

Program.”

19

Table of Contents

Our executives also participate in our long-term equity incentive program which rewards executives with restricted common stock based on performance during the fiscal year. Under the program, the Compensation Committee approved Threshold, Target and High award opportunities, with the amount awarded to each executive to be determined based on our actual achievement of pre-established corporate objectives during 2014 and the Compensation Committee's subjective assessment of each executive's individual performance as described below. The amount awarded was then converted into restricted shares issued in January 2015 (based on the value of our common stock at the time of issuance) that would vest over a multi-year period, subject to the executive's continued employment. Thus, the program is designed to create additional incentives to achieve specified performance goals during the performance year and to remain with the Company over the vesting period following the end of the performance year, as well as further aligning the interests of our executives with those of stockholders through their equity interests in the Company.

Each executive's base salary represents our Compensation Committee's view of the appropriate level of fixed compensation necessary to attract and retain executive talent. Salaries are based on a number of factors, including competitive market data, the scope of the executive's role in the Company, the executive's level of experience, and the executive's performance potential.

Our Compensation Committee has established stock ownership guidelines for our executives. Under these guidelines, our Chief Executive Officer and other named executive officers should own a minimum of six and four times the applicable executive's base salary, respectively, of fully vested shares of our common stock.

We do not provide any tax gross-up payments or material perquisites to our named executive officers.

Our Amended and Restated 2006 Incentive Plan (the "2006 Incentive Plan") expressly prohibits pledging awards granted to our executives under the plan.

The Risk Management Committee reviews our compensation policies and practices as a part of its overall review of the material risks or exposures associated with our internal and external risks. Through this review process, our Risk Management Committee has concluded that our compensation policies are not reasonably likely to have a material adverse effect on us or our stockholders.

Compensation Consultant and Peer Groups

Our Compensation Committee periodically reviews the compensation arrangements of our executive officers and employees, and our overall compensation structure. In 2014, our Compensation Committee engaged Towers Watson to assist in its review of our executive compensation program, including the long-term equity compensation plan adopted for 2014 as described below. In 2013, our Compensation Committee engaged FPL Associates, LP ("FPL") to review our executive compensation program relative to two peer groups of publicly traded REITs (i.e., size-based peers, and healthcare REIT peers), or, collectively, the "comparable peers." Other than their engagement by the Compensation Committee, Towers Watson and FPL provide no services to us or any of our subsidiaries. The Compensation Committee has assessed the independence of Towers Watson and FPL and concluded that its engagement of these compensation consultants does not raise any conflict of interest with us or any of our directors or executive officers.

When selecting the comparable peers, our Compensation Committee considered input from consultants and selected a combination of (i) our directly competitive, publicly traded healthcare REIT peers ("Healthcare REIT Peers") and (ii) a group of other REITs based on total capitalization relative to our total capitalization ("Size-Based Peers").

For the Healthcare REIT Peers, our Compensation Committee focused on companies with significant portfolios of MOBs that it believes we compete with on a day-to-day basis for acquisitions, leasing, investor interest, management talent and other similar strategic initiatives. Our Compensation Committee recognizes that certain of the Healthcare REIT Peers are active with property types in addition to MOBs, and in three cases the market capitalization and total capitalization of the Healthcare REIT Peers was substantially larger than ours; however, our Compensation Committee concluded that our performance was both consistently strong throughout 2014 and at the high end of performance relative to the Healthcare REIT Peers with respect to their MOB portfolios. Moreover, our Compensation Committee recognized the intensive level of effort required to actively operate, manage and lease a portfolio of multi-tenant MOBs, such as we must do for the type of portfolio we own. From a relative size perspective, our Healthcare REIT Peers had MOB portfolio asset values that ranged from \$2.7 billion to \$4.0 billion, with an average

of \$3.4 billion. Our primarily MOB portfolio asset value of \$3.3 billion at December 31, 2014 was consistent with the average MOB portfolio asset value of our Healthcare REIT Peers. For these reasons, our Compensation Committee believes it is appropriate to include the Healthcare REIT Peers among the comparable peers in assessing market compensation levels.

Table of Contents

For the Size-Based Peers, our Compensation Committee considered (i) the size and geographic reach of the each company’s portfolios; (ii) whether or not the Size-Based Peers actively managed their portfolios; (iii) the magnitude of growth through acquisitions; (iv) the amount of leverage; and (v) the total stockholder returns. Our Size-Based Peers had market capitalizations that ranged from \$2.3 billion to \$4.4 billion, with an average of \$3.4 billion. Our market capitalization of \$3.4 billion at December 31, 2014 was consistent with our Size-Based Peers. The Compensation Committee believes it is appropriate to include the Size-Based Peers among the comparable peers in assessing market compensation levels.

The Healthcare REIT Peers and the Size-Based Peers for 2014 are identified below. The only change to our peer group from 2013 was to remove one company from our Size-Based Peers as it is no longer publicly traded.

| | |
|--|--|
| Healthcare REIT Peers: | Size-Based Peers: |
| Healthcare Realty Trust, Inc. (NYSE: HR) | BioMed Realty Trust, Inc. (NYSE: BMR) |
| Healthcare REIT, Inc. (NYSE: HCN) | Brandywine Realty Trust (NYSE: BDN) |
| HCP, Inc. (NYSE: HCP) | CubeSmart (NYSE: CUBE) |
| Ventas, Inc. (NYSE: VTR) | Equity One, Inc. (NYSE: EQY) |
| | Healthcare Realty Trust, Inc. (NYSE: HR) |
| | Highwoods Properties, Inc. (NYSE: HIW) |
| | Lexington Realty Trust (NYSE: LXP) |

The review of comparable peers’ compensation programs is just one of the elements our Compensation Committee takes into account in making compensation decisions for our named executive officers. Our Compensation Committee also considers the experience, tenure, and past and recent performance of each executive, as described below, and does not benchmark compensation at any particular level as compared with the peer group. Except as otherwise noted in this CD&A, decisions by the Compensation Committee are subjective and the result of the Compensation Committee’s business judgment, which is informed by the experiences of the members of the Compensation Committee as well as analysis and input from, and comparable peer data provided by, the Compensation Committee’s independent compensation consultants.

The Role of Stockholder Say-on-Pay Votes

We provide our stockholders with the opportunity to cast an advisory vote every three years to approve our executive compensation program (referred to as a “say-on-pay proposal”). At our 2014 Annual Meeting of Stockholders approximately 86% of the votes cast on the “say-on-pay proposal” at that meeting were voted in favor of the proposal. Our Compensation Committee believes this result affirms our stockholders’ support of our approach to executive compensation and, thus, our Compensation Committee did not change its approach in making its executive compensation decisions after the 2014 Annual Meeting of Stockholders. Our next advisory “say-on-pay vote” and “say-on-pay frequency vote” will occur in 2017. Our Compensation Committee will continue to consider the outcome of our “say-on-pay proposals” when making future compensation decisions for our named executive officers.

Employment Agreements

We have entered into employment agreements with each of our named executive officers, which we believe help promote continuity of the management team. In December 2014, our Compensation Committee approved an extension to the term of Mr. Peters’ employment agreement by one year through January 1, 2018. The other terms of Mr. Peters’ employment remain unchanged from the terms presented in our 2014 proxy statement and included as part of the 2014 “say-on-pay vote”. In considering the extension, our Compensation Committee focused on the achievements of the Company and Mr. Peters’ roles and responsibilities in (i) successfully leading a strategy with a goal to consistently deliver attractive returns to stockholders; (ii) overseeing our NOI growth, our level of quality investment activity, the overall occupancy of our portfolio, our debt to total capitalization and our credit rating; (iii) representing us and enhancing our reputation externally, including with tenants, investors, industry organizations and the media; (iv) conducting regular communications with our stockholders and responding to our stockholders’ inquiries; (v) focusing on regular communications with the Board of Directors and committees; (vi) focusing on attention to governance matters and risk oversight; and (vii) attracting, developing and retaining a highly skilled management team and motivating them to create long-term value for our stockholders. A summary of the terms of the employment agreements with our named executive officers is presented below under “Employment Agreements”.

Elements of our 2014 Compensation Program

In 2014, the key elements of compensation for our named executive officers were base salary, non-equity incentive plan compensation and long-term equity incentive awards, as described in more detail below. In addition to these key elements, each employment agreement for our named executive officers provides for severance protection under certain circumstances, as discussed below.

Table of Contents

Base Salary

Base salary provides the fixed portion of compensation for our named executive officers and is intended to attract and retain talented individuals and to reward core competence for each executive in their respective roles relative to skill, experience and contributions to us. The Compensation Committee reviews base salaries on an annual basis in relation to our peers and the roles and responsibilities within the Company. Base salaries for the named executive officers were as follows:

| Executive | 2013 | 2014 | % Increase | 2015 | % Increase | |
|-----------------------------------|-----------|-----------|------------|-------------|------------|---|
| Scott D. Peters | \$800,000 | \$800,000 | 0 | % \$800,000 | 0 | % |
| Robert A. Milligan ⁽¹⁾ | N/A | 300,000 | N/A | 300,000 | 0 | |
| Mark D. Engstrom | 325,000 | 325,000 | 0 | 325,000 | 0 | |
| Amanda L. Houghton | 275,000 | 275,000 | 0 | 300,000 | 9 | |

(1) Mr. Milligan was appointed as our Chief Financial Officer in September 2014. The table above only presents Mr. Milligan's annual rate of base salary in effect for the period he has served as our Chief Financial Officer.

The base salary levels for Mr. Peters, Mr. Engstrom, and Ms. Houghton were originally set as part of their respective employment agreements entered into on January 1, 2013. The base salary for Mr. Milligan was established as part of his amended employment agreement entered into in August 2014.

As noted above under "Compensation Consultant and Peer Groups", with the assistance of FPL, our Compensation Committee conducted a review in 2013 of our executive compensation program for our four named executive officers, in the aggregate, compared to the top four named executive officers, in the aggregate, for the comparable peers. This review concluded that, in the aggregate, the base salaries of our named executive officers, was below the median compensation as compared to the top four named executive officers, in the aggregate, for the comparable peers. Nevertheless, our Compensation Committee determined at that time that the base salary levels for our named executive officers would remain unchanged for 2014 and for 2015 for Mr. Peters, Mr. Engstrom and Mr. Milligan in view of the role of incentive-based pay as a part of the total compensation package. At the time, the Compensation Committee determined that Ms. Houghton's base salary would be increased in 2015 as indicated in the chart above to align more closely with the salary levels provided for comparable positions by our peers.

Annual Bonus

Annual cash bonuses for our named executive officers are intended to reward and recognize contributions by our executives to our financial performance generally and our Compensation Committee's assessment of individual executive contributions to us. A portion of each executive's annual cash incentive is determined based on our performance against pre-established metrics. At the beginning of each performance year, our Compensation Committee determines specific performance metrics and related goals and an award opportunity range (expressed as multiples of base salary and corresponding to Threshold, Target and High levels of performance) for each of our named executive officers. Our Compensation Committee believes that the Target goals established by it are "stretch" (i.e., ambitious) goals, and, accordingly, (i) that strong performance is expected of the Company and an executive in order to achieve a payout at a Target level and (ii) that superior performance is expected of an executive in order to achieve a payout above a Target level. For each of our named executive officers, 50% of the bonus is determined by our Compensation Committee based upon the Company's performance against pre-established standards, and 50% of the bonus is determined by our Compensation Committee based on its subjective assessment of the executive's individual performance.

Company Performance Metrics. Set forth below is a summary of the performance metrics and the rationale as to why our Compensation Committee believes each performance metric is an important component of our pay-for-performance philosophy.

Same-Property Cash NOI Growth. We believe Same-Property Cash NOI is an important and widely-recognized measure of internal growth for REITs, which is the foundation for the cash flows that support our dividend and an important component of TSR. For further description of Same-Property Cash NOI, see "Non-GAAP Financial Measures" below.

•

Normalized FFO Per Share Growth. Normalized FFO is a common measure of operating performance for REITs because FFO excludes, among other items, the effect of gains and losses from real estate sales and real estate depreciation and amortization in order to allow investors, analysts and management to compare operating performance among companies and across time periods on a consistent basis. A REIT's Normalized FFO can have a significant impact on the trading price of its common stock and is, therefore, a significant contributor to TSR. For further description of Normalized FFO, see "Non-GAAP Financial Measures" below.

Table of Contents

Relative TSR. We believe TSR is the most direct measure of a company's creation and preservation of stockholder value. For 2014, this metric measures our one-year TSR as compared to the SNL US REIT Healthcare Total Return Index as of the last trading day of the year. Due to our short duration as a publicly listed company, our Compensation Committee determined to initially use one-year TSR for the bonus program. As time progresses, our Compensation Committee presently intends to also review relative TSR over longer periods.

Gross Acquisitions. We believe quality acquisitions are an important component to our continued growth and future profitability. The long-term impact of these acquisitions is incorporated into other performance metrics including Same-Property Cash NOI growth, Normalized FFO per share growth, and relative TSR performance.

Debt to Gross Assets. Debt to gross assets reflects the strength of our balance sheet, which is fundamental to preserving stockholder value. We believe a strong balance sheet positions us to continue to execute our acquisition strategy, which is important to our growth. This metric also is intended to avoid creating incentives to achieve Normalized FFO per share growth through inappropriate leverage.

The following table sets forth the performance metrics and goals approved by our Compensation Committee at the beginning of 2014 to measure 2014 corporate performance, the relative weighting for each performance metric and the actual performance level achieved. Performance at the Threshold, Target and High levels for a particular performance metric equate to award percentages of 50%, 100% and 150% of the bonus opportunity allocated to that metric, respectively. Award percentages are not pro-rated for performance between the stated levels.

| Metric | Weighting | Threshold | Target | High | Actual | % Awarded (1) | |
|---------------------------------|-----------|-----------------|---------------|---------------|---------------|------------------|---|
| Same-Property Cash NOI growth | 30 | % 2.0 | % 2.5 | % 3.0 | % 3.0 | % 45 | % |
| Normalized FFO per share growth | 20 | % 6 | % 8 | % 10% | 13 | % 30 | % |
| Relative TSR | 20 | % 25 | % 50 | % 75 | % >75% | 30 | % |
| Gross acquisitions | 20 | % \$200 million | \$300 million | \$400 million | \$440 million | 30 | % |
| Debt to gross assets | 10 | % 45 | % 40 | % 35 | % 39 | % 10 | % |

(1) Represents the award percentage for the applicable metric based on performance, multiplied by the weighting for that metric.

Based on these performance results, our Compensation Committee determined that each of our named executive officers would be awarded 145% of their bonus related to the Company performance component of the cash bonus program.

Individual Performance. Factors considered in the assessment of individual performance for each executive include: (i) implementation of targeted acquisition strategies; (ii) effective capital raising, promotion of the Company in the capital markets, and communication with investors; (iii) effectively managing and leasing our portfolio; and (iv) managing a strong balance sheet. Mr. Peters provides our Compensation Committee with recommendations for individual performance for each named executive officer (other than himself) based on his assessment of the executive's achievements during the year. Our Compensation Committee assesses Mr. Peters' performance based on his individual achievements to determine his individual performance score.

For 2014, our Compensation Committee rated the individual performance for each of (i) Mr. Peters as achieving results at High level, (ii) Ms. Houghton as achieving results between the Target and High levels, and (iii) Mr. Milligan and Mr. Engstrom as achieving results between Threshold and Target levels. Mr. Peters' and Ms. Houghtons' High performance rating reflects our strong asset management performance during 2014 which set us apart from our peers. This assessment was not based on specifically proscribed criteria established at the beginning of 2014 but, rather, was based on a subjective determination by our Compensation Committee of a combination of factors relevant to each executive's position and projections that were important to helping the Company achieve its short-term and long-term corporate objectives.

For Mr. Peters, our Compensation Committee considered the following individual achievements: (i) successfully led the Company's strategy, drove financial results and delivered solid returns to stockholders through internal growth and acquisitions while maintaining a strong balance sheet and improving our cost of capital; (ii) enhanced our franchise value through the communication to our tenants, the investor community and the media of our strengths and competitive advantages; and (iii) facilitated the achievement of the personal goals of all of our executive officers and drove excellence as a key component of our culture and organization.

Table of Contents

For Mr. Milligan, our Compensation Committee considered the following individual achievements: (i) managed our liquidity and strengthened our balance sheet, including his role in the successful execution of capital raising activities, including managing our equity raise of over \$170 million, including our debut overnight offering at our then 52 week high, our \$300 million 7-year unsecured bond, and the refinancing of our \$1.1 billion unsecured credit agreement to help us achieve our target leverage, a lower cost of long-term debt, and a well laddered debt maturity schedule; (ii) communicated with the credit rating agencies and our successful achievement of an upgraded rating from BBB- to BBB from S&P and; (iii) provided leadership in managing improvements in our accounting and finance departments that increased efficiency and helped position us for future growth. The Compensation Committee also took into consideration Mr. Milligan's short tenure in his role as Chief Financial Officer.

For Mr. Engstrom, our Compensation Committee considered the following individual achievements: (i) achieved the closing of approximately \$440 million of acquisitions of high quality medical office buildings; (ii) initiating our asset recycling program which generated gains of \$27.9 million; (iii) established multiple new health system and new developer relationships, as well as expanded our existing relationships with our health systems and developers; and (iii) structured acquisitions to increase stockholder value and restructured a significant lease transaction with a key health system to transition the management of its buildings to our internal property management and leasing platform.

For Ms. Houghton, our Compensation Committee considered the following individual achievements: (i) drove industry leading Same-Property Cash NOI for the portfolio ranging from 3.0% to 3.3% per quarter; (ii) advanced our in-housing initiatives by bringing an additional 1.4 million square feet of GLA of our properties onto our in-house asset management platform; and (iii) supervised marketing and leasing of our nationwide portfolio, including bringing seven new markets onto our in-house leasing platform, which increased the leased percentage 40 basis points to 92.0% at year-end.

The following table sets forth the range of the 2014 bonus opportunity for each of our named executive officers and the actual bonus amounts awarded to each executive for their respective 2014 performance, taking into account the Company and individual performance assessments described above. The Target bonus percentage is based on each named executive officers employment agreement. The Compensation Committee established Threshold and High percentages based on 50% and 150%, respectively, of each named executive officer Target percentage.

| Executive | Range of 2014 Bonus Opportunities (as a % of Base Salary) | | | 2014 Bonus Earned | |
|--------------------|--|--------|-------|-----------------------------------|-----------------------|
| | Threshold | Target | High | Actual % of Target ⁽¹⁾ | Amount ⁽²⁾ |

⁽¹⁾ Represents the sum of (i) the Company performance factor (which was 145% based on 2014 performance as described above) multiplied by the weighting of this component for each executive (50% for all executive officers) and (ii) the individual performance factor for each executive multiplied by the weighting of this component for each executive (50% for all named executive officers).

⁽²⁾ Represents the "Actual % of Target" awarded, multiplied by the executive's "Target" bonus percentage, multiplied by the executive's base salary.

Ms. Pruitt was also eligible to participate in the 2014 bonus program at the same Threshold, Target and High bonus opportunity levels as Mr. Milligan, Mr. Engstrom and Ms. Houghton. She was not eligible to receive a bonus under the program as her employment with the Company ended during the year.

Long-Term Equity Incentives

In 2014, our named executive officers participated in our long-term incentive program. The objectives of our long-term incentive program are to promote achievement of performance goals, to focus our executive officers on creating long-term value for our stockholders, and to assist us in attracting and retaining key executives. Like our annual incentive program, long-term incentive awards for the applicable year are based on our achievement of

pre-established corporate goals, and our executives' achievement of individual goals for the performance year. For each named executive officer a range of potential award values, expressed in each case as a dollar amount, is established at the beginning of the applicable performance year corresponding to three levels of performance (i.e., Threshold, Target, and High) for long-term incentive compensation. Performance at the Threshold, Target and High levels for a particular performance metric equate to award percentages of 50%, 100% and 150% of the bonus opportunity allocated to that metric, respectively.

Table of Contents

The amounts awarded under the long-term incentive program are determined by the Compensation Committee following the performance year in the form of restricted shares of our common stock. The number of shares awarded is determined by converting the dollar value of the award into shares using the closing price of our stock on the day prior to our grant date. The shares awarded to each executive under the program are then subject to a multi-year vesting schedule following the performance year. The Compensation Committee believes that this structure creates additional incentives for our executives to achieve superior Company and individual performance during the performance year, as well as an additional retention incentive to remain with the Company through the awards' vesting dates and further alignment of our executives' interests with those of our stockholders through their ownership of the Company's common stock.

Company Performance Metrics. At the beginning of 2014, our Compensation Committee also approved the performance metrics for determining the levels of the 2015 long-term equity incentive awards. Set forth below is a summary of the performance metrics and the rationale as to why our Compensation Committee believes each performance metric is an important component of our pay-for-performance philosophy.

Relative TSR. We believe TSR is the most direct measure of a company's creation and preservation of stockholder value. Given our short duration as a publicly listed company, our Compensation Committee initially measured performance based on our one-year TSR as compared to the one-year TSR for the SNL US REIT Healthcare Total Return Index in 2013. For 2014, our Compensation Committee has increased the duration of this comparative measurement period to two years (i.e. 2013 and 2014). As time progresses, our Compensation Committee presently intends to also review TSR over longer periods for purposes of the long-term equity incentive awards.

Proactive Asset Management. Proactive asset management is an important tool to drive internal growth, mitigate risk and preserve long-term stockholder value. We measure internal growth by evaluating Same-Property Cash NOI. Our expertise in working with tenants to improve the performance of our assets enhances the value of our assets and mitigates the risk of loss and asset impairment. We also create and preserve stockholder value by proactively leasing our vacant space, managing lease expirations and renewals, monitoring tenant compliance and performance, allocating capital and engaging in redevelopment opportunities.

Financial Flexibility. The strength of our balance sheet and our available liquidity demonstrate our ability to generate sufficient earnings to meet our debt obligations and compete successfully for new acquisitions. A strong balance sheet is fundamental to preserving our stockholder value. In addition, we believe a strong balance sheet enables us to successfully execute our acquisition strategy, which is an important component of long-term value creation for our stockholders. Positive ratings movement is an external indicator of the strength of our balance sheet and has a direct impact on our cost of capital through a reduction in interest expense. Our ability to access the various capital markets and our efficiency in accessing those markets are important to our long-term stockholder value because our overall cost of capital is a critical component of our ability to improve earnings with accretive acquisitions.

Franchise Value. We believe the talent of our personnel, processes and systems, and our risk management program both help protect our stockholder value over the long-term and mitigate risk in the Company. Our reputation and the values we consistently demonstrate can enhance our ability to be the landlord of choice for our tenants, compete for new acquisitions, reduce our cost of capital and improve the implied valuation of our equity, each of which has a positive impact on long-term stockholder value. Ensuring that we have the appropriate infrastructure to manage our growth and position ourselves for future opportunities to grow, while preserving our reputation for reliability, is an important component of our long-term stockholder value.

For all named executive officers, 50% of the value of their long-term incentive compensation award is determined by our Compensation Committee based upon the Company's performance against pre-established standards, and 50% of the value of their long-term compensation award is based on individual performance achievements as determined by our Compensation Committee on a discretionary basis at the end of the performance year. The performance goals for 2014, as well as the achievement level for each goal, were as follows:

| Company performance | Weighting | Threshold | Target | High | Actual | |
|---|-----------|-----------|---|------|--------|-----------|
| 2-year TSR v. peers (expressed in percentile) | 50 | % | 25% | 50% | 75% | 75 % |
| Improve value of portfolio-proactive asset management | 30 | % | | | | See below |
| | | | Subjective - At Compensation Committee's Discretion | | | |

| | | | |
|--|----|---|-----------|
| Financial flexibility (leverage, access to capital, ratings) | 10 | % | See below |
| Franchise value | 10 | % | See below |

Our Compensation Committee considered the personal achievements of each named executive officer as set forth above under “Annual Bonus” for the individual performance criteria, and the following relative to the three subjective components of the incentive criteria for Company performance:

Table of Contents

Two-year TSR v peers: Over the last two years, HTA has generated total stockholder returns of approximately 51%, significantly above the approximately 25% generated by the SNL U.S. Healthcare REIT Total Return Index. This placed HTA in the top quartile performance relative to our peers. Our Compensation Committee determined the Company's performance was at the High level for this metric.

Improve value of portfolio - proactive asset management: Our Compensation Committee determined the Company's performance was between the Target and High levels. Our Compensation Committee considered the following accomplishments in making its determination:

- We increased our Same-Property Cash NOI by 3.0% or more each quarter. This achievement marks the second year of consistent quarterly growth of 3.0% or more.

- Our leased rate (includes leases which have been executed, but which have not yet commenced) was 92.0% by GLA, an increase of 40 basis points from December 31, 2013. The occupancy rate was 91.4% by GLA as of December 31, 2014.

- We entered into new and renewal leases on approximately 1.6 million square feet of GLA during the year ended December 31, 2014.

- Our tenant retention for the portfolio was 83%, which we believe is indicative of our commitment to maintain high quality MOBs in desirable locations and fostering strong tenant relationships.

- We recycled portfolio assets at opportune times, completing \$83 million of dispositions which generated gains of \$27.9 million.

Financial flexibility (leverage, access to capital, ratings): Our Compensation Committee determined that the Company's performance was between the Target and High levels. Our Compensation Committee considered the following accomplishments in making its determination:

- As of December 31, 2014, we had total liquidity of \$868.9 million, including cash and cash equivalents of \$10.4 million and \$858.5 million available on our unsecured credit agreement. Our leverage ratio of debt to capitalization was 29.2%.

- During 2014, we raised \$154.2 million from the sale of shares of our common stock and issued \$17.0 million of Class A Units of Healthcare Trust of America Holdings, LP, our operating partnership, in connection with certain acquisitions.

- In June 2014, we issued and sold \$300 million of 7-year unsecured senior notes at an interest rate of 3.375% per annum.

- During 2014, we amended our unsecured credit agreement which increased the amount available under the unsecured revolving credit facility by \$150 million to \$800 million. In addition, the maturity dates were extended to January 2020 (including extension options) and borrowing costs decreased.

- In May 2014, S&P upgraded our investment grade credit rating to BBB, with a stable outlook.

Franchise value: Our Compensation Committee determined that the Company's performance was at the Target level. Our Compensation Committee considered the following accomplishments in making its determination:

- We acquired \$440 million of MOBs in 2014, an increase in our portfolio size by approximately 15% based on purchase price.

- Based on GLA, 88% of our 2014 acquisitions were either on the campuses of, or aligned with, nationally and regionally recognized healthcare systems. The leased rate at closing of these acquired properties was 95%.

- We will continue our emphasis on long-term relationship building as we have over the last eight years. We believe these relationships will result in additional opportunities that will increase the growth and attractiveness of our portfolio over time.

Individual Performance: For the Compensation Committee's assessment of each executive's individual performance during 2014, please see the discussion under "Annual Bonus - Individual Performance" above in this CD&A.

Based on these performance results, our Compensation Committee determined that all named executive officers would be awarded 125% of their long-term incentive related to Company performance. After factoring in the assessment of each named executive officer's individual performance as described above, and certain other market-driven factors, our Compensation Committee exercised its discretion to significantly reduce the value of the equity awards granted as reflected in the table below.

Table of Contents

The following table sets forth the range of the 2014 long-term incentive opportunity for each of our named executive officers and the actual equity grant levels awarded for each executive for their respective 2014 performance. The Threshold, Target and High amounts for each of our named executive officers were determined at the discretion of our Compensation Committee.

| Executive | Threshold | Target | High | Actual % of Target | Amount |
|--------------------|-------------|-------------|-------------|--------------------|---------------|
| Scott D. Peters | \$1,400,000 | \$2,000,000 | \$3,000,000 | 120 | % \$2,400,004 |
| Robert A. Milligan | 300,000 | 400,000 | 500,000 | 75 | 300,004 |
| Mark D. Engstrom | 300,000 | 400,000 | 500,000 | 75 | 300,004 |
| Amanda L. Houghton | 300,000 | 400,000 | 500,000 | 100 | 400,005 |

Accordingly, each of our named executive officers received an award of restricted common stock in January 2015, with the number of shares subject to each award being the grant date value set forth in the table above, divided by \$26.94, which was the closing price of our stock on the day prior to our grant date. The grant to Mr. Peters vested one-third on the grant date, and the remainder of the grant vests in two annual installments. The grant to each of our other named executive officers vests 100% on the third anniversary of the grant date.

Under applicable accounting rules, the named executive officers' awards under our 2014 equity program were not considered "granted" until January 2015 when the Compensation Committee determined the dollar values of the restricted common stock to be awarded to each executive. Accordingly, in accordance with SEC rules, these grants will be reflected in the compensation tables of next year's proxy statement as compensation to each executive in 2015.

2012 Awards of "Founders" LTIP Units

In 2012, our executives and certain other key employees, including each of the named executive officers, received grants of LTIP units in our operating partnership, Healthcare Trust of America Holdings, LP, in order to establish an equity position similar to "founders" shares in the Company to incentivize future performance. The LTIP program was performance-based and subject to achieving or exceeding objective benchmarks over a four year period. Substantially all of these awards vested based on stock price increases prior to 2014. As a result of significant increases in our stock price during 2014, each of our named executive officers' LTIP units that are tied to stock price targets, and had not previously vested, vested during the year.

LTIP units are a special class of partnership interests under our operating partnership. Each LTIP unit awarded is deemed equivalent to an award of one share of our common stock under the 2006 Incentive Plan reducing availability for other equity awards on a one-for-one basis. We do not receive a tax deduction for the value of any LTIP units granted to our employees. As of December 31, 2014, no vested LTIP units have been converted into our common stock by our executives.

Severance Benefits

Our Compensation Committee believes that severance provisions in our named executive officers' employment agreements can be a valuable tool in attracting and retaining key executive officers. Accordingly, we provide such protections for our named executive officers under their respective employment agreements. Our Compensation Committee determines the level of severance benefits to provide to each named executive officer on a case-by-case basis and, in general, we consider these severance protections an important part of an executive's compensation and consistent with competitive market practices. As described in more detail under "Potential Payments upon Termination or Change in Control" below, our named executive officers would be entitled under their employment agreements to severance benefits in the event of a termination of employment by us without "Cause" or by the executive for "Good Reason," as defined in the applicable employment agreement.

Option Exercises and Stock Vested Table - Fiscal 2014

The following table shows the number of shares of common stock acquired and the value realized upon vesting of stock awards for each of the named executive officers during 2014.

| Name | Stock Awards | |
|-----------------------------------|--|---|
| | Number of Shares Acquired on Vesting (#) | Value Realized on Vesting (\$) ⁽¹⁾ |
| Scott D. Peters ⁽²⁾ | 100,250 | 2,258,060 |
| Robert A. Milligan ⁽³⁾ | 210 | 5,657 |

| Amanda L. Houghton ⁽³⁾ | 2,660 | 71,660 |
| Kellie S. Pruitt ⁽⁴⁾ | 20,000 | 483,600 |

- (1) The value realized for restricted common stock awards was based upon the closing price of our common stock on the day prior to the vesting date. The market value per vested LTIP unit is assumed to be the closing market price of our common stock on the NYSE as of December 31, 2014, which was \$26.94 (as these LTIP units have not yet been converted into shares of our common stock).

- (2) Reflects 86,250 shares of common stock that vested pursuant to the terms of Mr. Peters' restricted common stock grants on December 24, 2012, January 1, 2013 and January 2, 2014, and 14,000 LTIP units that vested pursuant to the achievement of the performance objectives under the award agreement.

- (3) Reflects LTIP units that vested pursuant to the achievement of the performance objectives under each respective award agreement.

- (4) Reflects restricted shares of our common stock that vested upon termination of Ms. Pruitt's employment with the Company. See "Pruitt Separation Agreement" below for further discussion.

Potential Payments upon Termination or Change in Control

Summary of Potential Payments upon Termination of Employment. We are a party to an employment agreement with each of our named executive officers, which provide certain benefits to each executive in the event of his or her termination of employment with us under certain conditions. In each case, the amount of the benefits varies depending on the reason for the termination. The following is a summary description of the benefits provided under each executive's employment agreement as in effect as of December 31, 2014.

Termination without Cause; Resignation for Good Reason. If we terminate the executive's employment without Cause, or he or she resigns for Good Reason (as such terms are defined in the applicable employment agreement), the applicable executive will be entitled to the following benefits:

A cash payment equal to the product of (i) the executive's target bonus for the year in which the termination occurs and (ii) a fraction, the numerator of which is the number of days in the current fiscal year through the date of termination, and the denominator of which is 365.

• A lump sum cash severance payment equal to:
• in the case of Mr. Peters, three times the sum of (i) his then-current base salary and (ii) his target bonus for the fiscal year in which the date of termination occurs; and

Table of Contents

in the case of Mr. Milligan, Mr. Engstrom and Ms. Houghton, two times his or her then-current base salary.

Continued healthcare coverage under COBRA for 18 months in the case of Mr. Peters, or six months in the case of Mr. Milligan, Mr. Engstrom and Ms. Houghton, with all premiums paid by us.

- Immediate vesting of the executive's then-outstanding and unvested equity awards (other than the LTIP units).

In each case, the executive's right to receive the severance benefits described above is contingent on the executive providing a general release of claims in favor of the Company.

Disability. If we terminate the executive's employment by reason of his or her disability, the executive will be entitled to continued healthcare coverage under COBRA, with all premiums paid by us, for 18 months in the case of Mr. Peters, or six months in the case of Mr. Milligan, Mr. Engstrom and Ms. Houghton. In addition, unvested equity awards (other than the LTIP units) will become immediately vested.

Death. In the event of a termination due to death, unvested equity awards (other than the LTIP units) will become immediately vested.

Non-Compete Agreement. Each of our named executive officers entered into a non-compete and non-solicitation agreement with us. These agreements generally require the executives to refrain from competing with us within the U.S. and soliciting our customers, vendors, or employees during their employment with us through the occurrence of a change in control (or such shorter period as required by applicable law). These agreements also limit each executive's ability to disclose or use any of our confidential business information or practices.

The following table summarizes the value of the termination payments and benefits that each of our named executive officers would receive if he or she had terminated employment on December 31, 2014 under the circumstances shown. The amounts shown in the tables do not include accrued but unpaid salary, earned annual bonus for 2014, or payments and benefits to the extent they are provided on a non-discriminatory basis to salaried employees generally upon termination of employment.

Represents the value of unvested equity awards that vest upon the designated event. Pursuant to the 2006 Incentive Plan, equity awards generally vest upon the executive's termination of service with us due to death or disability or (3) upon the executive's termination by us without "Cause" or the executive's resignation for "Good Reason" within one year after a change in control. Awards of restricted common stock are valued based upon the closing price of our common stock on the NYSE as of December 31, 2014 of \$26.94.

(4) Represents a lump sum cash severance payment equal to two times the executive's then-current base salary.

Summary of Potential Payments upon a Change in Control. Pursuant to the 2006 Incentive Plan, equity awards under the plan (including awards held by our named executive officers) would generally vest upon the occurrence of a change in control of the Company (as defined in the plan) only if they are not assumed or otherwise continued after the transaction or, in the event such award is assumed or otherwise continued after the transaction, if the holder's employment is terminated by us without Cause or by the holder for Good Reason within one year after the change in control. The following table summarizes the value of each executive's outstanding equity awards that may have vested in connection with a change in control as of December 31, 2014.

(2) Represents the value of 225,000 unvested LTIP units granted to Mr. Peters in May 2012 that would vest only upon a change in control prior to May 16, 2015, which are valued based upon the closing price of our common stock on the NYSE as of December 31, 2014 of \$26.94.

Other Change in Control Provisions. If a change in control of the Company occurs, Mr. Peters would be entitled under his employment agreement to terminate his employment for any reason within 90 days after the change in control and receive the severance benefits described above. This change in control provision is not included in our other named executive officers' employment agreements, and our Compensation Committee does not presently intend to include this provision in future employment agreements with any newly hired executives.

Pruitt Separation Agreement. As noted above, Ms. Pruitt retired as the Company's Chief Financial Officer, Treasurer and Secretary on September 1, 2014. Her employment with the Company ended on September 30, 2014, and she rendered transitional services to the Company in a consulting capacity until December 31, 2014. Subsequent to December 31, 2014, Ms. Pruitt remained available for special projects assigned by the Company from time to time through March 31, 2015. In connection with her retirement, Ms. Pruitt entered into a separation and release agreement with the Company that provided for, among other things, the acceleration of vesting of 20,000 shares of Ms. Pruitt's unvested restricted common stock as of October 10, 2014, following a ten day revocation period, and 10,000 shares of unvested restricted common stock as of March 31, 2015, subject to her continuing to provide services through the applicable vesting date and her providing a general release of claims in favor of the Company. These shares vested as provided in the separation and release agreement. Ms. Pruitt's other outstanding equity awards that were unvested

when her employment ended were canceled on her termination date.

Director Compensation

Our independent directors receive compensation pursuant to the terms of our 2006 Independent Directors Compensation Plan, a sub-plan of our 2006 Incentive Plan, as amended (the "Director Plan"). In April 2014, based upon the recommendation of the Compensation Committee, our Board of Directors approved amendments to our Director Plan to increase the number of restricted shares of our common stock awarded to new directors upon their initial election to the Board of Directors from 2,500 to 3,750 shares.

Our current director compensation policy as set forth in the Director Plan is as follows:

Annual Retainer. Our independent directors receive an annual retainer of \$50,000.

Annual Retainer Lead Independent Director and Committee Chairman. The lead independent director receives an annual retainer of \$35,000. The chairman of the Audit Committee receives an annual retainer of \$15,000, and the chairman of each of the Compensation Committee, the Nominating and Corporate Governance Committee, the Investment Committee and the Risk Management Committee receive an annual retainer of \$12,500. These retainers are in addition to the annual retainer payable to all independent directors.

Meeting Fees. Our independent directors receive \$1,500 for each Board of Director meeting attended in person or by telephone and \$1,000 for each committee meeting attended in person or by telephone. An additional \$500 is paid to the committee chair for each committee meeting attended in person or by telephone. If a Board of Director meeting is held on the same day as a committee meeting, the independent directors will receive a fee for each meeting attended.

Equity Compensation. Upon initial election and re-election to our Board of Directors, an independent director receives an award of 3,750 restricted shares of our common stock, which amount is prorated in the case of the initial election of Mr. Foss. In October 2014, each of our then independent directors received a discretionary grant of 1,250 additional shares of restricted common stock in recognition of their contributions to the Company's strong operating and financial performance. All the awards of restricted common stock granted to our independent directors vest 20% of the shares on the grant date, with the remaining 80% of the shares vesting in equal installments on each anniversary thereafter over four years from the date of grant.

On April 30, 2015, based upon the recommendation of the Compensation Committee, our Board of Directors approved a further amendment to our Director Plan to provide that the number of restricted shares of our common stock awarded to directors upon initial election and re-election to the Board of Directors would be equal to \$100,000 divided by the closing price of our common stock on the day prior to grant (as opposed to an annual grant of 3,750 restricted shares provided in the prior version of the Director Plan). The Board of Directors may, in its discretion, approve additional grants to directors from time to time on such terms as it may determine.

Director Stock Purchase. In May 2012, the Board of Directors of the Company approved a policy whereby each existing member of the Board of Directors at that time shall be required to purchase (subject to the Company's Insider Trading Policy and applicable securities laws) by no later than May 16, 2014 and hold not less than 12,500 shares in the aggregate of the Company's common stock (independent of all grants from the Company) for so long as each such member of the Board of Directors remains a member of the Board of Directors of the Company. All the members of the Board of Directors at that time have purchased the required number of shares of common stock in the Company.

Expense Reimbursement. We reimburse our directors for reasonable out-of-pocket expenses incurred in connection with attendance at meetings, including committee meetings, of our Board of Directors. Additionally, our directors are reimbursed for expenses incurred in connection with attending continuing education programs to assist them in remaining abreast of developments in corporate governance and other critical issues relating to the operation of public company boards.

Independent directors do not receive other benefits from us. Mr. Peters, who is employed by us, does not receive any compensation in connection with his service as a director. The compensation paid to Mr. Peters is presented above under "Executive Compensation."

EQUITY COMPENSATION PLANS

The following table gives information as of December 31, 2014 about the common stock that may be issued under the 2006 Incentive Plan.

| Plan Category ⁽¹⁾ | Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights ⁽²⁾ | Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights | Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans |
|--|--|---|--|

| Equity compensation plans not approved by security holders | 1,244,000 | — | 2,290,860 |
| Total | 1,384,840 | — | 2,290,860 |

The 2006 Incentive Plan was initially approved by our stockholders. In February 2011, our Board of Directors approved an increase in the shares that may be issued under the plan from 1,000,000 to 5,000,000. This increase ⁽¹⁾ was not approved by stockholders. Accordingly, the remaining shares under the plan are reflected in the table above under “Equity compensation plans not approved by security holders.”

⁽²⁾ Does not include 463,050 outstanding restricted shares granted under the 2006 Incentive Plan.

2006 Incentive Plan
We have adopted the 2006 Incentive Plan, which we use to attract and retain qualified independent directors, employees, officers and consultants providing services to us who are considered essential to our long-term success by offering these individuals an opportunity to participate in our growth through awards in the form of, or based on, our common stock. The 2006 Incentive Plan provides for granting awards in the following forms:

- options to purchase shares of our common stock;
- stock appreciation rights, which give the holder the right to receive the difference between the fair market value per share on the date of exercise over the grant price;
- performance awards, which are payable in cash or stock upon the attainment of specified performance goals;
- restricted common stock, which is subject to restrictions on transferability and other restrictions set by the committee;
- restricted stock units, which give the holder the right to receive shares of our common stock, or the equivalent value in cash or other property, in the future;
- deferred stock units, which give the holder the right to receive shares of our common stock, or the equivalent value in cash or other property, at a future time;
- dividend equivalents, which entitle the participant to payments equal to any dividends paid on the shares of our common stock underlying an award; and/or
- other stock based awards in the discretion of the plan administrator, including unrestricted stock grants and units of our operating partnership.

Any such awards will provide for exercise prices, where applicable, that are not less than the fair market value of our common stock on the date of the grant. Any shares issued under the incentive stock plan will be subject to the ownership limits contained in our charter.

Our Board of Directors or a committee of our independent directors administers the 2006 Incentive Plan, with sole authority to select participants, determine the types of awards to be granted and all of the terms and conditions of the awards, including whether the grant, vesting or settlement of awards may be subject to the attainment of one or more performance goals. No awards will be granted under the plan if the grant, vesting and/or exercise of the awards would jeopardize our qualification as a REIT under the Internal Revenue Code (the “Code”) or otherwise violate the ownership and transfer restrictions imposed under our charter.

Table of Contents

The maximum number of shares of our common stock that may be issued upon the exercise or grant of an award under the 2006 Incentive Plan is 5,000,000. In the event of a nonreciprocal corporate transaction that causes the per share value of our common stock to change, such as a stock dividend, stock split, spin-off, rights offering, or large nonrecurring cash dividend, the share authorization limits of the incentive stock plan will be adjusted proportionately. Except as described in the next sentence, shares that are subject to or underlie awards which expire or for any reason are cancelled or terminated, are forfeited, fail to vest, or for any other reason are not paid or delivered under the 2006 Incentive Plan will again be available for subsequent awards under the plan. Shares that are exchanged by a participant or withheld by the Company to pay the exercise price of an award granted under the 2006 Incentive Plan, as well as any shares exchanged or withheld to satisfy the tax withholding obligations related to any award, will not be available for subsequent awards under the plan. To the extent that an award is settled in cash or in a form other than shares, the shares that would have been delivered had there been no such cash or other settlement will again be available for subsequent awards under the 2006 Incentive Plan. To the extent that shares are delivered pursuant to the exercise of a stock appreciation right or stock option granted under the 2006 Incentive Plan, the number of underlying shares as to which the exercise related shall be counted against the applicable share limits, as opposed to only counting the shares actually issued. By way of example only, if a stock appreciation right relates to 100,000 shares and is exercised at a time when the payment due to the participant is 15,000 shares, 100,000 shares shall be charged against the applicable share limits with respect to such exercise.

Unless otherwise provided in an award certificate or any special plan document governing an award, upon the termination of a participant's service due to death or disability (as defined in the plan), (i) all of that participant's outstanding options and stock appreciation rights will become fully vested and exercisable, (ii) all time-based vesting restrictions on that participant's outstanding awards will lapse and (iii) the payout level under all of that participant's outstanding performance-based awards will be determined and deemed to have been earned based upon an assumed achievement of all relevant performance goals at the "target" level, and the awards will payout on a pro rata basis, based on the time within the performance period that has elapsed prior to the date of termination.

Unless otherwise provided in an award certificate or any special plan document governing an award, upon the occurrence of a change in control of the Company (as defined in the plan) in which awards are not assumed by the surviving entity or otherwise equitably converted or substituted in connection with the change in control in a manner approved by the Compensation Committee or our Board of Directors: (i) all outstanding options and stock appreciation rights and other outstanding awards in the nature of rights that may be exercised will become fully vested and exercisable; (ii) all time-based vesting restrictions on outstanding awards will lapse as of the date of termination; and (iii) the payout level under outstanding performance-based awards will be determined and deemed to have been earned as of the effective date of the change in control based upon an assumed achievement of all relevant performance goals at the "target" level, and the awards will payout on a pro rata basis, based on the time within the performance period that has elapsed prior to the change in control. In addition, with respect to awards assumed by the surviving entity or otherwise equitably converted or substituted in connection with a change in control, if within one year after the effective date of the change in control, a participant's employment is terminated without cause or the participant resigns for good reason (as such terms are defined in the plan), then: (i) all of that participant's outstanding options, stock appreciation rights and other awards in the nature of rights that may be exercised will become fully vested and exercisable; (ii) all time-based vesting restrictions on that participant's outstanding awards will lapse as of the date of termination; and (iii) the payout level under all of that participant's performance-based awards that were outstanding immediately prior to effective time of the change in control will be determined and deemed to have been earned as of the date of termination based upon an assumed achievement of all relevant performance goals at the "target" level, and the awards will payout on a pro rata basis, based on the time within the performance period that has elapsed prior to the date of termination.

The 2006 Incentive Plan will automatically expire on the tenth anniversary of the date on which it is adopted, unless extended or earlier terminated by the Board of Directors. The Board of Directors may terminate the plan at any time, but such termination will have no adverse impact on any award that is outstanding at the time of such termination. The Board of Directors may amend the plan at any time, but any amendment would be subject to stockholder approval if, in the reasonable judgment of the Board of Directors, stockholder approval would be required by any law, regulation

or rule applicable to the plan. No termination or amendment of the plan may, without the written consent of the participant, reduce or diminish the value of an outstanding award determined as if the award had been exercised, vested, cashed in or otherwise settled on the date of such amendment or termination. The Board of Directors may amend or terminate outstanding awards, but those amendments may require consent of the participant and, unless approved by the stockholders or otherwise permitted by the anti-dilution provisions of the plan, the exercise price of an outstanding option may not be reduced, directly or indirectly, and the original term of an option may not be extended.

Table of Contents

Under Section 162(m) of the Code, a public company generally may not deduct compensation in excess of \$1 million paid to its Chief Executive Officer and certain other executive officers, although there is an exemption for “performance-based compensation” that meets certain requirements under Section 162(m). Awards granted under the plan currently would not satisfy these requirements. In order for awards granted under the plan to be exempt, the 2006 Incentive Plan must be amended to comply with the exemption conditions and be resubmitted for approval by our stockholders. As a qualifying REIT, the Company does not pay federal income tax; therefore, the unavailability of the Section 162(m) compensation deduction to these amounts did not result in any increase in the Company’s federal income tax obligations and, accordingly, the Compensation Committee has not adopted a policy requiring all compensation to be deductible.

However, any such transaction in which our directors or officers or any of their respective affiliates has any interest would be subject to the restrictions and procedures described below.

Related Person Transactions

In order to reduce or eliminate certain potential conflicts of interest, our charter contains restrictions and conflict resolution procedures relating to transactions we enter into with our directors or their respective affiliates. These restrictions and procedures include, among others, the following:

We will not purchase or lease any asset (including any property) in which any of our directors or officers or any of their affiliates has an interest without a determination by a majority of our directors, including a majority of our independent directors, not otherwise interested in such transaction that such transaction is fair and reasonable to us and at a price to us no greater than the cost of the property to such director or directors or officer or officers or any such affiliate, unless there is substantial justification for any amount that exceeds such cost and such excess amount is determined to be reasonable. In no event will we acquire any such asset at an amount in excess of its appraised value.

We will not sell or lease assets to any of our directors or officers or any of their affiliates unless a majority of our directors, including a majority of our independent directors, not otherwise interested in the transaction determine the transaction is fair and reasonable to us, which determination will be supported by an appraisal obtained from a qualified, independent appraiser selected by a majority of our independent directors.

We will not make any loans to any of our directors or officers or any of their affiliates (other than loans to our subsidiaries). In addition, any loans made to us by our directors or officers or any of their affiliates must be approved by a majority of our directors, including a majority of the independent directors, not otherwise interested in the transaction as fair, competitive and commercially reasonable, and no less favorable to us than comparable loans between unaffiliated parties.

- We will not invest in any joint ventures with any of our directors or any of their affiliates unless a majority of our directors, including a majority of our independent directors, not otherwise interested in the transaction determine the transaction is fair and reasonable to us and on substantially the same terms and conditions as those received by other joint ventures.

Our Board of Directors recognizes that transactions between us and any of our directors, executive officers and significant stockholders can present potential or actual conflicts of interest and create the appearance that our decisions are based on considerations other than the best interests of the Company and our stockholders. Therefore, as a general matter and consistent with our charter and code of ethics, it is our preference to avoid such transactions. Nevertheless, we recognize that there are situations where such transactions may be in, or may not be inconsistent with, the best interests of the Company and our stockholders. Accordingly, in addition to the restrictions and conflict resolution procedures described above and as set forth in our charter, our Board of Directors has adopted a “Related Person Transactions Policy” which provides that the Nominating and Corporate Governance Committee of our Board of Directors will review all transactions in which we are or will be a participant and the amount involved exceeds \$120,000 if a related person had, has or will have a direct or indirect material interest in such transaction. Any such potential transaction is required to be reported to our Nominating and Corporate Governance Committee for their review. Our Nominating and Corporate Governance Committee will only approve or ratify such related person transactions that are (i) in, or are not inconsistent with, the best interests of us and our stockholders, as the Nominating and Corporate Governance Committee determines in good faith, (ii) on terms comparable to those that could be

obtained in arm's length dealings with an unrelated third person and (iii) approved or ratified by a majority of the disinterested members of the Nominating and Corporate Governance Committee.

In making such a determination, the Nominating and Corporate Governance Committee is required to consider all of the relevant and material facts and circumstances available to it including (if applicable, and without limitation) the benefits to us of the transaction, the ongoing impact of the transaction on a director's independence, the availability of other sources for comparable products or services, the terms of the transaction, and whether the terms are comparable to the terms available to unrelated third parties generally. A member of the Nominating and Corporate Governance Committee is precluded from participating in any review, consideration or approval of any transaction with respect to which the director or the director's immediate family members are related persons.

NON-GAAP FINANCIAL MEASURES

FFO and Normalized FFO

We compute FFO in accordance with the current standards established by the National Association of Real Estate Investment Trusts (“NAREIT”). NAREIT defines FFO, as net income attributable to common stockholders (computed in accordance with GAAP), excluding gains or losses from sales of property and impairment write-downs of depreciable assets, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. We present this non-GAAP financial measure because we consider it an important supplemental measure of our operating performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs. Historical cost accounting assumes that the value of real estate assets diminishes ratably over time. Since real asset values have historically risen or fallen based on market conditions, many industry investors have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. Because FFO excludes depreciation and amortization unique to real estate, among other items, it provides a perspective not immediately apparent from net income attributable to common stockholders.

Our methodology for calculating FFO may be different from methods utilized by other REITs and, accordingly, may not be comparable to such other REITs. FFO should not be considered as an alternative to net income attributable to common stockholders (computed in accordance with GAAP) as an indicator of our financial performance or to cash flow from operating activities (computed in accordance with GAAP) as an indicator of our liquidity, nor is it indicative of sufficient cash flow to fund all of our needs. FFO should be reviewed in connection with other GAAP measurements.

We also compute Normalized FFO, which excludes from FFO (i) acquisition-related expenses, (ii) listing expenses, (iii) net gain or loss on change in fair value of derivative financial instruments, (iv) gain or loss on extinguishment of debt, (v) noncontrolling income from partnership units included in diluted shares and (vi) other normalizing items. We present this non-GAAP financial measure because it allows for the comparison of our operating performance to other REITs and between periods on a consistent basis. Our methodology for calculating Normalized FFO may be different from the methods utilized by other REITs and, accordingly, may not be comparable to other REITs. Normalized FFO should not be considered as an alternative to net income attributable to common stockholders (computed in accordance with GAAP) as an indicator of our financial performance or to cash flow from operating activities (computed in accordance with GAAP) as an indicator of our liquidity, nor is it indicative of sufficient cash flow to fund our needs. Normalized FFO should be reviewed in connection with other GAAP measurements.

NOI, Cash NOI and Same-Property Cash NOI

NOI is a non-GAAP financial measure that is defined as net income (computed in accordance with GAAP) before (i) general and administrative expenses, (ii) acquisition-related expenses, (iii) depreciation and amortization expense, (iv) listing expenses, (v) interest expense and net change in fair value of derivative financial instruments, (vi) gain or loss on sales of real estate, (vii) gain or loss on extinguishment of debt and (viii) other income or expense. We believe that NOI provides an accurate measure of the operating performance of our operating assets because NOI excludes certain items that are not associated with the management of our properties. Additionally, we believe that NOI is a widely accepted measure of comparative operating performance of REITs. However, our use of the term NOI may not be comparable to that of other REITs as they may have different methodologies for computing this amount. NOI should not be considered as an alternative to net income (computed in accordance with GAAP) as an indicator of our financial performance. NOI should be reviewed in connection with other GAAP measurements.

Cash NOI is a non-GAAP financial measure which excludes from NOI (i) straight-line rent adjustments, (ii) amortization of below and above market leases and (iii) lease termination fees. We believe that Cash NOI provides another measurement of the operating performance of our operating assets. Additionally, we believe that Cash NOI is a widely accepted measure of comparative operating performance of REITs. However, our use of the term Cash NOI may not be comparable to that of other REITs as they may have different methodologies for computing this amount. Cash NOI should not be considered as an alternative to net income (computed in accordance with GAAP) as an indicator of our financial performance. Cash NOI should be reviewed in connection with other GAAP measurements. To facilitate the comparison of Cash NOI between periods, we calculate comparable amounts for a subset of our owned properties referred to as "Same-Property." Same-Property Cash NOI excludes properties which have not been owned and operated during the entire span of all periods presented or are intended to be sold in the near term, notes receivable interest income and certain non-routine items. Same-Property Cash NOI should not be considered as an

alternative to net income (computed in accordance with GAAP) as an indicator of our financial performance. Same-Property Cash NOI should be reviewed in connection with other GAAP measurements.
