SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains certain forward-looking statements, including, without limitation, statements concerning the conditions in our industry, our operations, our economic performance and financial condition, including, in particular, statements relating to our business, operations, growth strategy and service development efforts. The Private Securities Litigation Reform Act of 1995 provides a “safe harbor” for certain forward-looking statements so long as such information is identified as forward-looking and is accompanied by meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those projected in the information. When used in this Quarterly Report on Form 10-Q, the words “may,” “might,” “should,” “estimate,” “project,” “plan,” “anticipate,” “expect,” “intend,” “outlook,” “believe” and other similar expressions are intended to identify forward-looking statements and information. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. These forward-looking statements are based on estimates and assumptions by our management that, although we believe to be reasonable, are inherently uncertain and subject to a number of risks and uncertainties. These risks and uncertainties include, without limitation, those in our Annual Report on Form 10-K for the year ended December 31, 2017 filed with the Securities and Exchange Commission (SEC) on February 27, 2018 and our other reports filed with the SEC. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law. Reference is also made to such risks and uncertainties detailed from time to time in our other filings with the SEC.

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(1) The Company and Nature of Operations

Organization

CAI International, Inc., together with its subsidiaries (collectively, CAI or the Company), is a transportation finance and logistics company. The Company purchases equipment, primarily intermodal shipping containers and railcars, which it leases to its customers. The Company also manages equipment for third-party investors. In operating its fleet, the Company leases, re-leases and disposes of equipment and contracts for the repair, repositioning and storage of equipment. The Company also provides domestic and international logistics services.

The Company's common stock and 8.50% Series A Fixed-to-Floating Rate Cumulative Redeemable Perpetual Stock are traded on the New York Stock Exchange under the symbols "CAI" and "CAI-PA," respectively. The Company's corporate headquarters are located in San Francisco, California.

Basis of Presentation

The accompanying unaudited consolidated financial statements include the financial statements of CAI International, Inc. and its wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

In the opinion of management, the accompanying unaudited consolidated financial statements contain all normal, recurring adjustments necessary to present fairly the Company's financial position as of June 30, 2018 and December 31, 2017, the Company's results of operations for the three and six months ended June 30, 2018 and 2017, and the Company's cash flows for the six months ended June 30, 2018 and 2017. The results of operations and cash flows for the periods presented are not necessarily indicative of the results of operations or cash flows which may be reported for the remainder of 2018 or in any future period. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) have been condensed or omitted. The accompanying unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2017, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC) on February 27, 2018.

(2) Accounting Policies and Recent Accounting Pronouncements

(a) Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board FASB issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606) (ASU 2014-09), which supersedes previous revenue recognition guidance. Leasing revenue recognition is specifically excluded, and therefore, the new standard is only applicable to the Company's logistics services agreements, management services agreements, and the sale of used rental equipment. The new standard defines a five-step process to achieve the core principle of ASU 2014-09, which is to recognize revenue when promised goods or services are transferred to customers in amounts that reflect the consideration the Company expects to receive in exchange for those goods or services. The Company adopted ASU 2014-09 effective January 1, 2018, which did not have a material impact on the Company's consolidated financial statements and related disclosures. See Note 2(b) for further details.

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (ASU 2016-15), which clarifies the classification of certain cash receipts and cash payments in the statement of cash flows, including debt prepayment or extinguishment costs, settlement of contingent consideration arising from a business combination and insurance settlement proceeds. The Company adopted ASU 2016-15 effective January 1, 2018, which did not result in any changes to the presentation of amounts shown on the Company's consolidated statements of cash flows for all periods presented.

In November 2016, the FASB issued ASU No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash (ASU 2016-18), that requires the inclusion of restricted cash and restricted cash equivalents with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The Company adopted ASU 2016-18 effective January 1, 2018, which resulted in the inclusion of the Company's restricted cash balances along with cash in the Company's consolidated statements of cash flows and separate line items showing changes in restricted cash balances were eliminated from the Company's consolidated statements of cash flows. ASU 2016-18 was applied retrospectively to all periods presented.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Except as described above, there were no changes to the Company's accounting policies during the six months ended June 30, 2018. See Note 2 to the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2017, filed with the SEC on February 27, 2018, for a description of the Company's significant accounting policies.

(b) Revenue Recognition

The Company provides a range of services to its customers incorporating the rental, sale and management of equipment and the provision of logistics services. Revenue for all forms of service is recognized when earned following the guidelines under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 606, Revenue Recognition and FASB ASC Topic 840, Leases. Revenue is reported net of any related sales tax.

Container and Rail Lease Revenue

The Company recognizes revenue from operating leases of its owned equipment as earned over the term of the lease. Where minimum lease payments vary over the lease term, revenue is recognized on a straight-line basis over the term of the lease. The Company recognizes revenue on a cash basis for certain railcar leases that are billed on an hourly or mileage basis through a third-party railcar manager. Early termination of the rental contracts subjects the lessee to a penalty, which is included in lease revenue upon such termination. Finance lease income is recognized using the effective interest method, which generates a constant rate of interest over the period of the lease.

Included in lease revenue is revenue consisting primarily of fees charged to the lessee for handling, delivery, and repairs, which are recognized as earned.

Also included in lease revenue is revenue from management fees earned under equipment management agreements. Management fees are generally calculated as a percentage of the monthly net operating income for an investor's portfolio and recognized as revenue in the month of service.

Logistics Revenue

The Company's logistics business derives its revenue from three principal sources: (1) truck brokerage services, (2) intermodal transportation services, and (3) international ocean freight and freight forwarding services. For truck brokerage services, which typically involve a short transit time, revenue is recognized when delivery has been completed due to the lack of reliable information to reasonably measure progress toward complete satisfaction of the performance obligation. For intermodal transportation services, which can take a longer time to complete, revenue is recognized over time by measuring progress toward complete satisfaction of the performance obligation, utilizing input methods. For any such services completed as of the end of a reporting period, a percentage of completion method based on costs incurred to date is used to allocate the appropriate revenue to each separate reporting period. The Company provides international freight forwarding services as an indirect carrier, sometimes referred to as a Non-Vessel Operating Common Carrier (NVOCC). Due to the lack of reliable information to reasonably measure progress toward complete satisfaction of the performance obligation, revenue for these shipments is recognized at the time the freight departs the terminal of origin, which is when the customer is billed and the Company has no further obligation to the customer.

The Company reports logistics revenue on a gross basis as it is primarily responsible for fulfilling the promise to provide the specified service desired by the customer and has discretion in establishing the price for the specified service.

Unearned Revenue

The Company records unearned revenue when cash payments are received in advance of the Company satisfying its performance obligations.

Payment terms vary by customer and type of service. The term between invoicing and when payment is due is not significant. For certain customers or services, the Company may require payment before the services are delivered to the customer.

Practical Expedients

The Company expenses sales commissions when incurred because the amortization would have been one year or less. These costs are recorded within administrative expenses.

Table of Contents

CAI INTERNATIONAL, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Company does not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts with variable consideration for a distinct good or service that forms part of a single performance obligation.

(3) Consolidation of Variable Interest Entities

The Company regularly performs a review of its container fund arrangements with investors to determine whether or not it has a variable interest in the fund and if the fund is a variable interest entity (VIE). If it is determined that the Company does not have a variable interest in the fund, further analysis is not required and the Company does not consolidate the fund. If it is determined that the Company does have a variable interest in the fund and the fund is a VIE, a further analysis is performed to determine if the Company is a primary beneficiary of the VIE and meets both of the following criteria under FASB ASC Topic 810, Consolidation:

- it has power to direct the activities of a VIE that most significantly impact the VIE's economic performance; and
- it has the obligation to absorb losses of the VIE that could be potentially significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE.

If in the Company's judgment both of the above criteria are met, the VIE's financial statements are included in the Company's consolidated financial statements as required under FASB ASC Topic 810, Consolidation.

The Company currently enters into two types of container fund arrangements with investors which are reviewed under FASB ASC Topic 810, Consolidation. These arrangements include container funds that the Company manages for investors and container funds that have entered into financing arrangements with investors. All of the funds under financing arrangements are Japanese container funds that were established under separate investment agreements allowed under Japanese commercial laws. Each of the funds is financed by unrelated Japanese third-party investors.

Managed Container Funds

The fees earned by the Company for arranging, managing and establishing container funds are commensurate with the level of effort required to provide those services, and are at or above the same level of seniority as other operating liabilities of the funds that are incurred in the normal course of business. As such, the Company does not have a variable interest in the managed containers funds and does not consolidate those funds. The Company recognizes gain

on sale of containers to the unconsolidated funds as sales in the ordinary course of business. No container portfolios were sold to the funds during the three and six months ended June 30, 2018 and 2017.

Collateralized Financing Obligations

The Company has transferred containers to Japanese investor funds while concurrently entering into lease agreements for the same containers, under which the Company leases the containers back from the Japanese investors. In accordance with FASB ASC Topic 840, Sale-Leaseback Transactions, the Company concluded these were financing transactions under which sale-leaseback accounting was not applicable.

The terms of the transactions with container funds under financing arrangements include options for the Company to purchase the containers from the funds at a fixed price. As a result of the residual interest resulting from the fixed price call option, the Company concluded that it may absorb a significant amount of the variability associated with the funds' anticipated economic performance and, as a result, the Company has a variable interest in the funds. The funds are considered VIEs under FASB ASC Topic 810, Consolidation, because, as lessee of the funds, the Company has the power to direct the activities that most significantly impact each entity's economic performance, including the leasing and managing of containers owned by the funds. As the Company has the power to direct the activities that most significantly impact the economic performance of the VIEs and the variable interest provides the Company with the right to receive benefits from the entity that could potentially be significant to the funds, the Company determined that it is the primary beneficiary of these VIEs and included the VIEs' assets and liabilities as of June 30, 2018, and December 31, 2017, and the results of the VIEs' operations and cash flows for the three and six months ended June 30, 2018 and 2017, in the Company's consolidated financial statements.

The containers that were transferred to the Japanese investor funds had a net book value of \$76.3 million as of June 30, 2018. The container equipment, together with \$24.3 million of cash held by the investor funds that can only be used to settle the liabilities of the VIEs, has been included on the Company's consolidated balance sheets with the related liability presented in the debt section of the Company's consolidated balance sheets as collateralized financing obligations of \$96.4 million and term loans held by VIE of \$2.4 million. No gain or loss was recognized by the Company on the initial consolidation of the VIEs. Containers sold to the Japanese investor funds during the three months ended June 30, 2018 and 2017, had a net book value of \$7.3 million and \$7.2 million,

respectively. Containers sold to the Japanese investor funds during the six months ended June 30, 2018 and 2017, had a net book value of \$15.2 million and \$7.2 million, respectively.

(4) Rental Equipment

The following table provides a summary of the Company's rental equipment (in thousands):

	June 30, 2018	December 31, 2017
Dry containers	\$ 1,727,678	\$ 1,533,063
Refrigerated containers	344,831	345,744
Other specialized equipment	202,730	160,529
Railcars	493,399	471,171
	2,768,638	2,510,507
Accumulated depreciation	(550,426)	(505,546)
Rental equipment, net of accumulated depreciation	\$ 2,218,212	\$ 2,004,961

(5) Net Investment in Direct Finance Leases

The following table represents the components of the Company's net investment in direct finance leases (in thousands):

	June 30, 2018	December 31, 2017
Gross finance lease receivables (1)	\$ 473,327	\$ 412,489

Unearned income (2)	(143,540)	(135,976)
Net investment in direct finance leases	\$ 329,787	\$ 276,513

- (1) At the inception of the lease, the Company records the total minimum lease payments, executory costs, if any, and unguaranteed residual value as gross finance lease receivables. The gross finance lease receivables are reduced as customer payments are received. There was \$37.9 million and \$34.4 million unguaranteed residual value at June 30, 2018 and December 31, 2017, respectively, included in gross finance lease receivables. There were no executory costs included in gross finance lease receivables as of June 30, 2018 and December 31, 2017.
- (2) The difference between the gross finance lease receivables and the cost of the equipment or carrying amount at the lease inception is recorded as unearned income. Unearned income, together with initial direct costs, are amortized to income over the lease term so as to produce a constant periodic rate of return. There were no unamortized initial direct costs as of June 30, 2018 and December 31, 2017.

In order to estimate the allowance for losses contained in gross finance lease receivables, the Company reviews the credit worthiness of its customers on an ongoing basis. The review includes monitoring credit quality indicators, the aging of customer receivables and general economic conditions.

The categories of gross finance lease receivables based on the Company's internal customer credit ratings can be described as follows:

Tier 1— These customers are typically large international shipping lines that have been in business for many years and have world-class operating capabilities and significant financial resources. In most cases, the Company has had a long commercial relationship with these customers and currently maintains regular communication with them at several levels of management, which provides the Company with insight into the customer's current operating and financial performance. In the Company's view, these customers have the greatest ability to withstand cyclical down turns and would likely have greater access to needed capital than lower-rated customers. The Company views the risk of default for Tier 1 customers to range from minimal to moderate.

Tier 2— These customers are typically either smaller shipping lines or freight forwarders with less operating scale or with a high degree of financial leverage, and accordingly the Company views these customers as subject to higher volatility in financial performance over the business cycle. The Company generally expects these customers to have less access to capital markets or other sources of financing during cyclical down turns. The Company views the risk of default for Tier 2 customers as moderate.

Tier 3— Customers in this category exhibit volatility in payments on a regular basis.

The Company maintains its revolving credit facilities to finance the acquisition of rental equipment and for general working capital purposes. As of June 30, 2018, the Company had \$976.7 million in total availability under its revolving credit facilities (net of \$0.1 million in letters of credit) subject to the Company's ability to meet the collateral requirements under the agreements governing the facilities. Based on the borrowing base and collateral requirements at June 30, 2018, the borrowing availability under the Company's revolving credit facilities was \$117.1 million, assuming no additional contributions of assets.

On February 28, 2018, CAL Funding III Limited (CAL Funding III), a wholly-owned indirect subsidiary of CAI, issued \$332.0 million of 4.0% Class A fixed rate asset-backed notes and \$16.9 million of 4.8% Class B fixed rate asset-backed notes (collectively, the Series 2018-1 Asset-Backed Notes). Principal and interest on the Series 2018-1 Asset-Backed Notes is payable monthly commencing on March 26, 2018, with the Series 2018-1 Asset-Backed Notes maturing in February 2028. The proceeds were used for general corporate purposes, including repayment of debt by the Company.

On April 19, 2018, the Company entered into a \$30.0 million five-year term loan agreement with a bank. The loan is payable in 19 quarterly installments of \$0.5 million starting July 31, 2018 and a final payment of \$21.5 million on April 30, 2023. The loan bears interest at a variable rate based on LIBOR.

On June 27, 2018, the Company entered into an amendment to its Third Amended and Restated Revolving Credit Agreement, pursuant to which the Company's senior revolving credit facility was amended to, among other things, increase the commitment level from \$960 million to \$1.1 billion with the ability to increase the revolving credit facility by an additional \$250 million without lender approval, subject to certain conditions. The amendment also extended the maturity date of the revolving credit facility to June 26, 2023 and revised certain covenants, restrictions and events of default to provide the Company with additional flexibility, including an increase in the maximum total leverage ratio from 3.75:1.00 to 4.00:1.00, subject to certain conditions.

The agreements relating to all of the Company's debt contain various financial and other covenants. As of June 30, 2018, the Company was in compliance with all of its debt covenants.

For further information on the Company's debt instruments, see Note 10 to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2017, filed with the SEC on February 27, 2018.

(8) Stock-Based Compensation Plan

Stock Options

The Company grants stock options from time to time to certain employees and independent directors pursuant to its 2007 Equity Incentive Plan, as amended (Plan). Under the Plan, a maximum of 3,421,980 share awards may be granted.

Stock options granted to employees have a vesting period of four years from the grant date, with 25% vesting after one year, and 1/48th vesting each month thereafter until fully vested. Stock options granted to independent directors vest in one year. All of the stock options have a contractual term of ten years.

The following table summarizes the Company's stock option activities for the six months ended June 30, 2018 and 2017:

	Six Months Ended June 30,			
	2018		2017	
	Number of	Weighted	Number of	Weighted
	Shares	Average	Shares	Average
		Exercise		Exercise
		Price		Price
Options outstanding at January 1	859,560	\$ 16.44	1,428,255	\$ 16.31
Options granted	-	\$ -	230,500	\$ 16.80
Options exercised	(9,393)	\$ 14.76	(205,100)	\$ 10.30
Options outstanding at June 30	850,167	\$ 16.46	1,453,655	\$ 17.24
Options exercisable	593,043	\$ 17.71	982,531	\$ 18.30
Weighted average remaining term	6.1 years		4.8 years	

The aggregate intrinsic value of stock options exercised during the six months ended June 30, 2018 and 2017 was less than \$0.1 million and \$1.8 million, respectively. The aggregate intrinsic value of all options outstanding as of June 30,

2018 was \$5.9 million based on the closing price of the Company's common stock of \$23.24 per share on June 29, 2018, the last trading day of the quarter.

The Company recognized stock-based compensation expense relating to stock options of \$0.4 million for the three months ended June 30, 2018 and 2017, and \$0.8 million and \$0.7 million for the six months ended June 30, 2018 and 2017, respectively. As of June 30, 2018, the remaining unamortized stock-based compensation cost relating to stock options granted to the Company's employees and independent directors was approximately \$1.6 million, which is to be recognized over the remaining weighted average vesting period of approximately 2.2 years.

The fair value of stock options granted to the Company's employees and independent directors was estimated using the Black-Scholes-Merton pricing model using the following weighted average assumptions:

	Six Months Ended June 30,	
	2018	2017
Stock price	\$ -	\$ 16.80
Exercise price	\$ -	\$ 16.80
Expected term (years)	-	5.50 - 6.25
Expected volatility (%)	-	56.40 - 57.50
Risk-free interest rate (%)	-	1.77 - 2.14
Dividend yield (%)	-	-

The expected option term is calculated using the simplified method in accordance with SEC guidance. The expected volatility was derived from the average volatility of the Company's common stock over a period approximating the expected term of the options. The risk-free rate is based on the daily U.S. Treasury yield curve with a term approximating the expected term of the options. No forfeiture rate was estimated on all options granted during the six months ended June 30, 2017, as the Company accounts for forfeitures as they occur.

Restricted Stock and Performance Stock

The Company grants restricted stock, comprising restricted stock units and restricted stock awards, from time to time to certain employees and non-employee directors pursuant to the Plan. The Company recognizes the compensation cost associated with restricted stock over a specified award vesting period based on the closing price of the Company's common stock on the date of grant.

The Company grants performance stock to selected executives and other key employees. The performance stock vests at the end of a 3-year performance cycle if certain financial performance targets are met. The Company recognizes compensation cost associated with the performance stock ratably over the 3-year term based on the likelihood of performance targets being met. Compensation cost is based on the closing price of the Company's common stock on the date of grant.

The following table summarizes the activity of restricted stock and performance stock under the Plan:

	Number of	Weighted Average Grant Date Fair Value
	Shares	
Outstanding at December 31, 2017	78,542	\$ 14.92
Granted	154,165	\$ 22.48
Vested	(28,359)	\$ 15.96
Outstanding at June 30, 2018	204,348	\$ 20.48

The Company recognized \$0.4 million and \$0.1 million of stock-based compensation expense relating to restricted stock and performance stock awards for the three months ended June 30, 2018 and 2017, respectively, and \$0.6 million and \$0.2 million for the six months ended June 30, 2018 and 2017, respectively. As of June 30, 2018, unamortized stock-based compensation expense relating to restricted stock and performance stock was \$3.7 million, which will be recognized over the remaining average vesting period of 2.5 years.

Stock-based compensation expense is recorded as a component of administrative expenses in the Company's consolidated statements of income with a corresponding credit to additional paid-in capital in the Company's consolidated balance sheets.

(9) Income Taxes

The consolidated income tax expense for the three and six months ended June 30, 2018 and 2017, was determined based upon estimates of the Company's consolidated annual effective income tax rate for the years ending December 31, 2018 and 2017, respectively. The difference between the consolidated annual effective income tax rate and the U.S. federal statutory rate is primarily attributable to foreign income taxes, state income taxes and the effect of certain permanent differences.

The Company's estimated effective tax rate was 3.8% at June 30, 2018, compared to 3.5% at June 30, 2017.

The Company accounts for uncertain tax positions based on an evaluation as to whether it is more likely than not that a position will be sustained on audit, including resolution of any related appeals or litigation processes. This evaluation is based on all available evidence and assumes that the appropriate tax authorities have full knowledge of all relevant information concerning the tax position. Once it has been determined that a tax position is more likely than not to be sustained on its technical merits, the tax benefit recognized is based on the largest amount that is greater than 50% likely of being realized upon ultimate settlement. As of June 30, 2018, the Company had unrecognized tax benefits of \$0.3 million, which if recognized, would reduce the Company's effective tax rate. Total accrued interest relating to unrecognized tax benefits was less than \$0.1 million as of June 30, 2018. The Company does not believe the total amount of unrecognized tax benefits as of June 30, 2018 will change for the remainder of 2018.

The Company was notified on May 1, 2017 that its 2015 federal income tax return was selected for examination. The examination was concluded on June 20, 2018 with no impact to tax expense.

(10) Fair Value of Financial Instruments

The carrying amounts reported in the consolidated balance sheets for cash, accounts receivable and accounts payable approximate fair value because of the immediate or short-term maturity of these financial instruments. The Company's asset-backed notes of \$747.9 million and collateralized financing obligations of \$96.4 million as of June 30, 2018 were estimated to have a fair value of approximately \$763.1 million and \$97.7 million, respectively, based on the fair value of estimated future payments calculated using prevailing interest rates. The fair value of these financial instruments would be categorized as Level 2 in the fair value hierarchy. Management believes that the balances of the Company's revolving credit facilities of \$652.4 million, variable-rate term loans of \$232.3 million, fixed-rate term loans of \$62.1 million, senior secured notes of \$61.9 million, term loans held by VIE of \$2.4 million and net investment in direct finance leases of \$329.8 million approximate their fair values as of June 30, 2018. The fair value of these financial instruments would be categorized as Level 2 in the fair value hierarchy.

(11) Commitments and Contingencies

In addition to its debt obligations described in Note 7 above, the Company had commitments to purchase approximately \$179.7 million of containers and \$61.4 million of railcars as of June 30, 2018, all in the twelve months ending June 30, 2019. The Company also utilizes certain office facilities and equipment under long-term non-cancellable operating lease agreements with total future minimum lease payments of approximately \$4.5 million as of June 30, 2018.

(12) Stockholders' Equity

Common Stock At-the-Market (ATM) Offering Program

In October 2017, the Company commenced an ATM offering program with respect to its common stock, which allows the Company to issue and sell up to 2.0 million shares of its common stock. During the six months ended June 30, 2018, the Company issued 100,000 shares of common stock under the ATM offering program for net proceeds of \$2.8 million. The Company paid commissions to the sales agent of \$0.1 million in connection with the sales of common stock under this ATM offering program during the six months ended June 30, 2018. The net proceeds were used for general corporate purposes. The Company has remaining capacity to issue up to approximately 1.0 million of

additional shares of common stock under this ATM offering program.

Series A Preferred Stock Underwritten Offering

In March 2018, the Company completed an underwritten public offering of 1,600,000 shares of its 8.5% Series A Fixed-to-Floating Rate Cumulative Redeemable Perpetual Preferred Stock, par value \$0.0001 per share and liquidation preference \$25.00 per share (Series A Preferred Stock), resulting in net proceeds to the Company of approximately \$38.3 million, after deducting the underwriting discount and other offering expenses. Dividends on the Series A Preferred Stock accrue daily and are cumulative from and including the date of original issuance and are payable quarterly in arrears on the 15th day of each April, July, October and January. Dividends accrue at the Fixed Dividend Rate (as defined in the certificate of designations for the Series A Preferred Stock (Certificate of Designations)) at an annual rate of 8.5% of the \$25.00 liquidation preference per annum from, and including, the date of original issuance to, but not including, April 15, 2023. On and after April 15, 2023, dividends on the Series A Preferred Stock shall accrue at an annual rate equal to the sum of (a) Three-Month LIBOR (as defined in the Certificate of Designations) as calculated on each applicable date and (b) 5.82% of the \$25.00 liquidation preference per share of Series A Preferred Stock. The Series A Preferred Stock ranks senior to the Company's common stock with respect to dividend rights and rights upon the Company's liquidation, dissolution or winding up.

The Series A Preferred Stock becomes redeemable by the Company beginning April 25, 2023 for cash at a redemption price of \$25.00 per share of Series A Preferred Stock, plus accrued but unpaid dividends thereon to, but not including, the date fixed for redemption. In addition, upon the occurrence of a Change of Control (as defined in the Certificate of Designations), subject to certain restrictions, the Company may, at its option, upon not less than thirty (30) days' nor more than sixty (60) days' written notice, redeem the Series A Preferred Stock, in whole or in part, within one hundred twenty (120) days after the first date on which such Change of Control occurred, for cash at a redemption price of \$25.00 per share, plus any accumulated and unpaid dividends thereon to, but not including, the date fixed for redemption. There is no mandatory redemption of the Series A Preferred Stock or redemption at the option of the holders. Holders of the Series A Preferred Stock generally have no voting rights except for limited voting rights if the Company fails to pay dividends on the Series A Preferred Stock for six or more quarterly periods (whether or not consecutive) or the Company fails to maintain the listing of the Series A Preferred Stock on a National Exchange (as defined in the Certificate of Designations) for a period of 180 consecutive days.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

In April 2018, the Company sold an additional 170,900 shares of Series A Preferred Stock upon the partial exercise by the underwriters of their option to purchase additional Series A Preferred Stock, resulting in net proceeds to the Company of approximately \$4.1 million, after deducting the underwriting discount of \$0.1 million.

Series A Preferred Stock ATM Offering Program

In May 2018, the Company commenced an ATM offering program with respect to its Series A Preferred Stock, which allows the Company to issue and sell up to 2.2 million shares of its Series A Preferred Stock. During the three months ended June 30, 2018, the Company issued 428,710 shares of Series A Preferred Stock under the ATM offering program for net proceeds of \$10.5 million. The Company paid commissions to the sales agent of \$0.2 million in connection with the sales of Series A Preferred Stock under this ATM offering program during the three months ended June 30, 2018. The net proceeds were used for repayment of debt and general corporate purposes. The Company has remaining capacity to issue up to approximately 1.8 million of additional shares of Series A Preferred Stock under this ATM offering program.

(13) Related Party Transactions

In May 2018, the Company purchased, and subsequently cancelled, 1,225,214 shares of its common stock, from an affiliate of Andrew S. Ogawa in a privately-negotiated transaction. Mr. Ogawa is a member of the Company's Board of Directors. The stock was purchased at a price of \$22.81 per share, which represented a 2% discount to the closing price on the date of purchase.

(14) Segment and Geographic Information

The Company organizes itself by the nature of the services it provides which includes equipment leasing (consisting of container leasing and rail leasing) and logistics.

The container leasing segment is aggregated with equipment management and derives its revenue from the ownership and leasing of containers and fees earned for managing container portfolios on behalf of third party investors. The rail

leasing segment derives its revenue from the ownership and leasing of railcars. The logistics segment derives its revenue from the provision of logistics services. There are no inter-segment revenues.

With the exception of administrative expenses, operating expenses are directly attributable to each segment. Administrative expenses that are not directly attributable to a segment are allocated to the segments based upon relative asset values or revenue.

The following tables show condensed segment information for the three and six months ended June 30, 2018 and 2017, reconciled to the Company's income before income taxes as shown in its consolidated statements of income for such periods (in thousands):

Geographic Data

The Company earns its revenue primarily from intermodal containers, which are deployed by its customers in a wide variety of global trade routes. Virtually all of the Company's containers are used internationally and typically no container is domiciled in one particular place for a prolonged period of time. As such, substantially all of the Company's long-lived assets are considered to be international, with no single country of use.

The Company's railcars, with a net book value of \$457.0 million as of June 30, 2018, are used primarily to transport cargo within North America.

(15) Earnings Per Share

Basic earnings per share is computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that would occur if securities or other contracts to issue common stock were exercised or converted into common stock; however, potential common equivalent shares are excluded if their effect is anti-dilutive.

The following table sets forth the reconciliation of basic and diluted net income per share for the three and six months ended June 30, 2018 and 2017 (in thousands, except per share data):

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our audited consolidated financial statements and related notes thereto, included in our Annual Report on Form 10-K for the year ended December 31, 2017 filed with the SEC on February 27, 2018. In addition to historical consolidated financial information, the following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results may differ materially from those contained in or implied by any forward-looking statements. The financial information included in this discussion and in our consolidated financial statements may not be indicative of our consolidated financial position, operating results, changes in equity and cash flows in the future. See "Special Note Regarding Forward-Looking Statements" included earlier in this report.

Overview

We are one of the world's leading transportation finance and logistics companies. We purchase equipment, primarily intermodal shipping containers and railcars, which we lease to our customers. We also manage equipment for third-party investors. In operating our fleet, we lease, re-lease and dispose of equipment and contract for the repair, repositioning and storage of equipment. We also provide domestic and international logistics services.

The following tables show the composition of our fleet as of June 30, 2018 and 2017, and our average utilization for the three and six months ended June 30, 2018 and 2017:

	As of June 30,	
	2018	2017
Owned container fleet in TEUs	1,293,361	962,111
Managed container fleet in TEUs	77,680	149,218
Total container fleet in TEUs	1,371,041	1,111,329
Owned container fleet in CEUs	1,344,842	1,049,057
Managed container fleet in CEUs	70,772	134,400
Total container fleet in CEUs	1,415,614	1,183,457

Owned railcar fleet in units	7,430	6,560
------------------------------	-------	-------

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Average container fleet utilization in CEUs	99.3%	97.1%	99.3%	96.3%
Average owned container fleet utilization in CEUs	99.3%	97.2%	99.3%	96.5%
Average railcar fleet utilization	87.2%	91.0%	87.6%	91.8%

The intermodal marine container industry-standard measurement unit is the 20-foot equivalent unit (TEU), which compares the size of a container to a standard 20-foot container. For example, a 20-foot container is equivalent to one TEU and a 40-foot container is equivalent to two TEUs. Containers can also be measured in cost equivalent units (CEUs), whereby the cost of each type of container is expressed as a ratio relative to the cost of a standard 20-foot dry van container. For example, the CEU ratio for a standard 40-foot dry van container is 1.6, and a 40-foot high cube container is 1.7.

Utilization of containers is computed by dividing the average total units on lease during the period in CEUs, by the average total CEUs in our container fleet during the period. Utilization of railcars is computed by dividing the average number of railcars on lease during the period by the average total number of railcars in our fleet during the period. In both cases, the total fleet excludes new units not yet leased and off-hire units designated for sale. If new units not yet leased are included in the total fleet, utilization would be 97.0% and 97.3% for the total container fleet, 96.9% and 97.2% for the owned container fleet, and 77.9% and 76.6% for the railcar fleet, for the three and six months ended June 30, 2018, respectively.

Three Months Ended June 30, 2018 Compared to Three Months Ended June 30, 2017

The following table summarizes our operating results for the three months ended June 30, 2018 and 2017 (dollars in thousands):

	Three Months Ended		Increase	
	June 30, 2018	2017	Amount	Percent
Total revenue	\$ 105,705	\$ 82,692	\$ 23,013	28 %
Operating expenses	65,786	57,924	7,862	14 %
Total other expenses	18,869	12,173	6,696	55 %
Net income attributable to CAI common stockholders	19,149	12,638	6,511	52 %

Total revenue for the three months ended June 30, 2018 increased \$23.0 million, or 28%, compared to the three months ended June 30, 2017, due to a \$13.4 million, or 24%, increase in container lease revenue, a \$1.0 million, or 12%, increase in rail lease revenue and an \$8.6 million, or 44%, increase in logistics revenue. Operating expenses for the three months ended June 30, 2018 increased \$7.9 million, or 14%, compared to the three months ended June 30, 2017, as a result of a \$7.6 million, or 46%, increase in logistics transportation costs, a \$2.3 million, or 9%, increase in depreciation expense, and a \$2.4 million, or 25%, increase in administrative expenses, partially offset by a \$3.6 million, or 58% decrease in storage, handling and other expenses and a \$1.0 million, or 55%, increase in gain on sale of used rental equipment. Total other expenses for the three months ended June 30, 2018 increased \$6.7 million, or 55%, compared with the three months ended June 30, 2017, primarily due to a \$6.2 million, or 50%, increase in net interest expense. A dividend of \$1.1 million on our 8.50% Series A Fixed-to-Floating Rate Cumulative Redeemable Perpetual Preferred Stock (Series A Preferred Stock) was recorded in the three months ended June 30, 2018. The increase in revenue, partially offset by the increase in operating expenses, the increase in total other expenses, and the Series A Preferred Stock dividend resulted in a \$6.5 million, or 52%, increase in net income attributable to CAI common stockholders for the three months ended June 30, 2018 compared to the three months ended June 30, 2017.

Container lease revenue

	Three Months Ended		Increase	
	June 30, 2018	2017	Amount	Percent
(\$ in thousand)				
Container lease revenue	\$ 68,333	\$ 54,960	\$ 13,373	24 %

The increase in container lease revenue for the three months ended June 30, 2018 compared to the three months ended June 30, 2017 was mainly attributable to a \$9.1 million increase in rental revenue, primarily due to a 28% increase in the average number of CEUs of on-lease owned containers, partially offset by a 1% reduction in the per diem rate. In addition to the net increase in rental revenue, there was an increase of \$4.4 million in finance lease income as a result of an increase in our investment in direct finance leases between the two periods.

Rail lease revenue

(\$ in thousand)	Three Months Ended June 30,		Increase	
	2018	2017	Amount	Percent
Rail lease revenue	\$ 9,119	\$ 8,127	\$ 992	12 %

Rail lease revenue increased for the three months ended June 30, 2018 compared to the three months ended June 30, 2017, primarily as a result of a 9% increase in the average size of our on-lease railcar fleet during the last twelve months and a \$0.2 million increase in repair fee revenue.

Logistics revenue and gross margin

(\$ in thousand)	Three Months Ended June 30,		Increase	
	2018	2017	Amount	Percent
Logistics revenue	\$ 28,253	\$ 19,605	\$ 8,648	44 %
Logistics transportation costs	24,330	16,682	7,648	46 %
Logistics gross margin	\$ 3,923	\$ 2,923	\$ 1,000	34 %

The increase in logistics revenue for the three months ended June 30, 2018, compared to the three months ended June 30, 2017, was due to a combination of increased load numbers and increased rates in our intermodal and truck brokerage operations. Transportation costs increased at a slightly higher rate than revenue due to increased carrier costs and resulted in a decrease in the gross margin percentage from 14.9% for the three months ended June 30, 2017 to 13.9% for the three months ended June 30, 2018.

Depreciation of rental equipment

(\$ in thousand)	Three Months Ended		Increase	
	June 30, 2018	June 30, 2017	Amount	Percent
Container leasing	\$ 26,103	\$ 24,257	\$ 1,846	8 %
Rail leasing	3,299	2,797	502	18 %
	\$ 29,402	\$ 27,054	\$ 2,348	9 %

Container leasing

The increase in depreciation expense for the three months ended June 30, 2018 compared to the three months ended June 30, 2017 was primarily attributable to an increase in the average size of the owned container fleet, the impact of which was partially offset by an increase in container equipment on direct finance leases which is not depreciated.

Rail leasing

The increase in depreciation expense for the three months ended June 30, 2018 compared to the three months ended June 30, 2017 was primarily attributable to an increase in the average size of the railcar fleet during the three months ended June 30, 2018 as well as an increase in the proportion of new railcars in the fleet.

Storage, handling and other expenses

(\$ in thousand)	Three Months		Increase/(Decrease)	
	Ended June 30, 2018	Ended June 30, 2017	Amount	Percent

Logistics	(23)	16	(39)	(244) %
	\$ 2,613	\$ 6,192	\$ (3,579)	(58) %

Container leasing

The decrease in storage, handling and other expenses for the three months ended June 30, 2018 compared to the three months ended June 30, 2017 was primarily attributable to a \$1.4 million credit recorded in recovery costs as a result of insurance proceeds received relating to the bankruptcy of Hanjin Shipping Co. Ltd. (Hanjin) in August 2016, a \$0.9 million decrease in repair and positioning fees and a \$1.1 million decrease in storage and handling expenses, both due to a decrease in the average size of the off-lease fleet and a 2% increase in average utilization between the two periods, and the impact of a \$0.5 million container liability insurance premium recorded during the three months ended June 30, 2017, related to the Hanjin insurance claim.

Rail leasing

The increase in storage, handling and other expenses for the three months ended June 30, 2018 compared to the three months ended June 30, 2017 was primarily attributable to a \$0.2 million increase in storage expenses as the size of the railcar fleet increased and utilization decreased by 3%, between the two periods.

Gain (loss) on sale of used rental equipment

(\$ in thousand)	Three Months		Increase	
	Ended June 30, 2018	2017	Amount	Percent
Container leasing	\$ 2,662	\$ 1,799	\$ 863	48 %
Rail leasing	57	(50)	107	214 %
	\$ 2,719	\$ 1,749	\$ 970	55 %

Container leasing

While we sold approximately 33% fewer CEUs of used containers during the three months ended June 30, 2018 compared to the three months ended June 30, 2017, there was a significant increase in the average sales price per unit, which reflected the recovery in new equipment prices in the last twelve months as well as a limited supply of used equipment.

Administrative expenses

(\$ in thousand)	Three Months Ended June 30,		Increase	
	2018	2017	Amount	Percent
Container leasing	\$ 6,649	\$ 5,204	\$ 1,445	28 %

Logistics	4,371	3,447	924	27 %
	\$ 12,160	\$ 9,745	\$ 2,415	25 %

Container leasing

The increase in administrative expenses for the three months ended June 30, 2018 compared to the three months ended June 30, 2017 was primarily attributable to a \$0.4 million increase in payroll-related costs, largely due to increased incentive compensation, a \$0.2 million increase in rent expense between the two periods, and a \$0.6 million reduction in contingent consideration liability related to acquisitions that was recorded during the three months ended June 30, 2017.

Rail leasing

Administrative expenses for the three months ended June 30, 2018 remained consistent with the three months June 30, 2017.

Logistics

The increase in administrative expenses for the three months ended June 30, 2018 compared to the three months ended June 30, 2017 was primarily attributable to a \$0.4 million increase in payroll-related costs between the two periods due to additional headcount.

Other expenses

(\$ in thousand)	Three Months Ended		Increase/(Decrease)		
	June 30, 2018	2017	Amount	Percent	
Net interest expense	\$ 18,440	\$ 12,285	\$ 6,155	50	%
Other expense (income)	429	(112)	541	483	%
	\$ 18,869	\$ 12,173	\$ 6,696	55	%

Net interest expense

The increase in net interest expense for the three months ended June 30, 2018 compared to the three months ended June 30, 2017 was due primarily to an increase in the average loan principal balance between the two periods, as we continue to increase borrowings to finance the acquisition of additional rental equipment, as well as an increase in the average interest rate on our outstanding debt, caused by an increase in LIBOR, from approximately 3.0% to 3.6%.

Other expense (income)

Other expense, representing a loss on foreign exchange of \$0.4 million for the three months ended June 30, 2018, increased \$0.5 million from a gain of \$0.1 million for the three months ended June 30, 2017, primarily as a result of movements in the U.S. Dollar exchange rate against the Euro.

Income tax expense

(\$ in thousand)	Three Months Ended June		Increase		
	30, 2018	2017	Amount	Percent	
Income tax expense (benefit)	\$ 753	\$ (43)	\$ 796	1,851	%

The estimated effective tax rate at June 30, 2018 was 3.8%, compared to 3.5% for the three months ended June 30, 2017. The increase in estimated effective tax rate at June 30, 2018 was primarily caused by an increase in the amount of interest income generated by foreign direct finance leases subject to both foreign and U.S. income tax.

Preferred stock dividends

(\$ in thousand)	Three Months		Increase	
	Ended June 30, 2018	2017	Amount	Percent
Preferred stock dividends	\$ 1,148	\$ -	\$ 1,148	100 %

An accrual for preferred stock dividends of \$1.1 million was recorded in the three months ended June 30, 2018 as a result of 2.2. million shares of Series A Preferred Stock being issued and sold in 2018. See Note 12 to our consolidated financial statements in this Quarterly Report on Form 10-Q for additional information related to our Series A Preferred Stock.

Six Months Ended June 30, 2018 Compared to Six Months Ended June 30, 2017

The following table summarizes our operating results for the six months ended June 30, 2018 and 2017 (dollars in thousands):

	Six Months Ended June 30,		Increase	
	2018	2017	Amount	Percent
Total revenue	\$ 201,079	\$ 164,198	\$ 36,881	22 %
Operating expenses	126,444	121,479	4,965	4 %
Total other expenses	35,733	24,159	11,574	48 %
Net income attributable to CAI common stockholders	36,266	17,910	18,356	102 %

Total revenue for the six months ended June 30, 2018 increased \$36.9 million, or 22%, compared to the six months ended June 30, 2017, due to a \$25.1 million, or 23%, increase in container lease revenue, a \$2.0 million, or 13%, increase in rail lease revenue and a \$9.8 million, or 24%, increase in logistics revenue. Operating expenses for the six months ended June 30, 2018 increased \$5.0 million, or 4%, compared to the six months ended June 30, 2017, as a result of a \$9.2 million, or 27%, increase in logistics transportation costs, a \$3.2 million, or 6%, increase in depreciation expense, and a \$3.0 million, or 15%, increase in administrative expenses, partially offset by a \$6.4 million, or 49%, decrease in storage, handling and other expenses and a \$4.0 million, or 461%, increase in gain on sale of used rental equipment. Total other expenses for the six months ended June 30, 2018 increased \$11.6 million, or 48%, compared with the six months ended June 30, 2017, primarily due to a \$11.4 million, or 48%, increase in net interest expense. A dividend of \$1.2 million on our Series A Preferred Stock was recorded in the six months ended June 30, 2018. The increase in revenue, partially offset by the increases in operating expenses, total other expenses and the dividend on our Series A Preferred Stock, resulted in an \$18.4 million, or 102%, increase in net income attributable to CAI common stockholders for the six months ended June 30, 2018 compared to the six months ended June 30, 2017.

Container lease revenue

Six Months Ended June 30,	Increase

Edgar Filing: CAI International, Inc. - Form 10-Q

(\$ in thousand)	2018	2017	Amount	Percent
Container lease revenue	\$ 132,967	\$ 107,914	\$ 25,053	23 %

The increase in container lease revenue for the six months ended June 30, 2018 compared to the six months ended June 30, 2017 was mainly attributable to a \$16.9 million increase in rental revenue, primarily due to a 28% increase in the average number of CEUs of on-lease owned containers, and \$2.2 million of container lease revenue from insurance proceeds recognized during the six months ended June 30, 2017. In addition to the increase in rental revenue, there was an increase of \$8.5 million in finance lease income as a result of an increase in our investment in direct finance leases between the two periods.

Rail lease revenue

	Six Months Ended June 30,		Increase	
(\$ in thousand)	2018	2017	Amount	Percent
Rail lease revenue	\$ 18,223	\$ 16,180	\$ 2,043	13 %

Rail lease revenue increased for the six months ended June 30, 2018 compared to the six months ended June 30, 2017, primarily as a result of a 6% increase in the average size of our on-lease railcar fleet during the last twelve months and a \$1.5 million increase in repair fee revenue.

Logistics revenue and gross margin

	Six Months Ended June 30,		Increase	
(\$ in thousand)	2018	2017	Amount	Percent
Logistics revenue	\$ 49,889	\$ 40,104	\$ 9,785	24 %
Logistics transportation costs	42,995	33,753	9,242	27 %
Logistics gross margin	\$ 6,894	\$ 6,351	\$ 543	9 %

The increase in logistics revenue for the six months ended June 30, 2018, compared to the six months ended June 30, 2017, was due to a combination of increased load numbers and increased rates in our intermodal and truck brokerage operations. Transportation costs increased at a slightly higher rate than revenue due to increased carrier costs and resulted in a decrease in the gross margin percentage from 15.8% for the six months ended June 30, 2017 to 13.8% for the six months ended June 30, 2018.

	\$ 58,249	\$ 55,026	\$ 3,223	6 %

Container leasing

Depreciation expense of \$51.3 million for the six months ended June 30, 2018 remained relatively consistent with depreciation expense of \$49.5 million for the six months ended June 30, 2017. While there was an increase in depreciation expense attributable to an increase in the average size of our owned fleet, the increase was partially offset by a \$1.3 million write-off of rental equipment on lease to a bankrupt customer, which was recognized during the six months ended June 30, 2017, and an increase in assets on direct finance leases.

Rail leasing

The increase in depreciation expense for the six months ended June 30, 2018 compared to the six months ended June 30, 2017 was primarily attributable to an increase in the average size of the railcar fleet and an impairment charge of \$0.6 million related to off-lease railcars designated for scrap recognized during the six months ended June 30, 2018.

Container leasing

The decrease in storage, handling and other expenses for the six months ended June 30, 2018 compared to the six months ended June 30, 2017 was primarily attributable to a \$3.6 million decrease in storage and handling expenses, as well as a \$2.0 million decrease in repair and positioning fees, both due to a decrease in the average size of the off-lease fleet and a 2% increase in average utilization between the two periods, a \$1.4 million credit recorded in recovery costs as a result of insurance proceeds received relating to the Hanjin bankruptcy, and the impact of a \$0.5 million container liability insurance premium recorded during the six months ended June 30, 2017, related to the Hanjin insurance claim.

Rail leasing

The increase in storage, handling and other expenses for the six months ended June 30, 2018 compared to the six months ended June 30, 2017 was primarily attributable to a \$0.4 million increase in storage and handling expenses as the size of the railcar fleet increased and utilization decreased by 5%, between the two periods, as well as a \$0.4 million increase in repair related costs.

Container leasing

While we sold approximately 50% fewer CEUs of used containers during the six months ended June 30, 2018 compared to the six months ended June 30, 2017, there was a significant increase in the average sales per unit, which reflected the recovery in the new equipment prices in the last twelve months as well as a limited supply of used equipment.

Container leasing

The increase in administrative expenses for the six months ended June 30, 2018 compared to the six months ended June 30, 2017 was primarily attributable to a \$0.6 million increase in payroll-related costs, largely due to increased incentive compensation, a \$0.4 million increase in rent expense between the two periods, and a \$0.6 million reduction in contingent consideration liability related to acquisitions recorded during the six months ended June 30, 2017.

Rail leasing

Administrative expenses of \$2.6 million for the six months ended June 30, 2018 remained relatively consistent with administrative expenses of \$2.4 million for the six months ended June 30, 2017.

Logistics

The increase in administrative expenses of \$0.5 million for the six months ended June 30, 2018 compared to the six months ended June 30, 2017 was primarily caused by an increase of \$0.5million in payroll related costs due to additional headcount.

Other expense	394	202	192	95 %
	\$ 35,733	\$ 24,159	\$ 11,574	48 %

Net interest expense

The increase in net interest expense for the six months ended June 30, 2018 compared to the six months ended June 30, 2017 was due primarily to an increase in the average loan principal balance between the two periods, as we continue to increase borrowings to finance the acquisition of additional rental equipment, as well as an increase in the average interest rate on our outstanding debt, caused by an increase in LIBOR, from approximately 3.0% to 3.6%.

Other expense

Other expense, representing a loss on foreign exchange of \$0.4 million for the six months ended June 30, 2018, increased \$0.2 million from \$0.2 million for the six months ended June 30, 2017, primarily as a result of movements in the U.S. Dollar exchange rate against the Euro.

	Ended June 30,		Amount	Percent
(\$ in thousand)	2018	2017		
Income tax expense	\$ 1,467	\$ 650	\$ 817	126 %

The estimated effective tax rate at June 30, 2018 was 3.8%, compared to 3.5% at June 30, 2017. The increase in estimated effective tax rate at June 30, 2018 was primarily caused by an increase in the amount of interest income generated by foreign direct finance leases subject to both foreign and U.S. income tax.

See Note 12 to our consolidated financial statements in this Quarterly Report on Form 10-Q for additional information related to our Series A Preferred Stock.

Liquidity and Capital Resources

As of June 30, 2018, we had cash and cash equivalents of \$61.9 million, including \$24.3 million of cash held by variable interest entities (VIEs). Our principal sources of liquidity are cash in-flows provided by operating activities, proceeds from the sale of rental equipment, borrowings from financial institutions, and equity and debt offerings. Our cash in-flows are used to finance capital expenditures and meet debt service requirements.

As of June 30, 2018, our outstanding indebtedness and current maximum borrowing level was as follows (in thousands):

Current	Current

As of June 30, 2018, we had \$976.7 million in availability under our revolving credit facilities (net of \$0.1 million in letters of credit), subject to our ability to meet the collateral requirements under the agreements governing the facilities. Based on the borrowing base and collateral requirements at June 30, 2018, the borrowing availability under our revolving credit facilities was \$117.1 million, assuming no additional contributions of assets.

On February 28, 2018, CAL Funding III Limited (CAL Funding III), our wholly-owned indirect subsidiary, issued \$332.0 million of 4.0% Class A fixed rate asset-backed notes and \$16.9 million of 4.8% Class B fixed rate asset-backed notes (collectively, the Series 2018-1 Asset-Backed Notes). Principal and interest on the Series 2018-1 Asset-Backed Notes is payable monthly commencing on March 26, 2018, with the Series 2018-1 Asset-Backed Notes maturing in February 2028. The proceeds were used for general corporate purposes, including repayment of outstanding debt.

On April 19, 2018, we entered into a \$30.0 million five-year term loan agreement with a bank. The loan is payable in 19 quarterly installments of \$0.5 million starting July 31, 2018 and a final payment of \$21.5 million on April 30, 2023. The loan bears interest at a variable rate based on LIBOR.

On June 27, 2018, we entered into an amendment to our Third Amended and Restated Revolving Credit Agreement, pursuant to which our senior revolving credit facility was amended to, among other things, increase the commitment level from \$960 million to \$1.1 billion, with the ability to increase the revolving credit facility by an additional \$250.0 million without lender approval, subject to certain conditions. The amendment also extended the maturity date of the revolving credit facility to June 23, 2023 and revised certain covenants, restrictions and events of default to provide us with additional flexibility, including an increase in the maximum total leverage ratio from 3.75:1.00 to 4.00:1.00, subject to certain conditions.

For further information on our debt instruments, see Note 7 to the consolidated financial statements in this Quarterly Report on Form 10-Q and Note 10 to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2017, filed with the SEC on February 27, 2018.

Assuming that our lenders remain solvent, we currently believe that cash provided by operating activities and existing cash, proceeds from the sale of rental equipment, and borrowing availability under our debt facilities are sufficient to meet our liquidity needs for at least the next twelve months. We will continue to monitor our liquidity and the credit markets.

In addition to customary events of default, the agreements governing our indebtedness contain restrictive covenants, including limitations on certain liens, indebtedness and investments. In addition, the agreements governing our indebtedness contain various restrictive financial and other covenants. The financial covenants in the agreements governing our indebtedness require us to maintain: (1) in the case of our debt facilities, a consolidated funded debt to consolidated tangible net worth ratio of no more than 3.75:1.00, and in the case of our asset-backed notes, of no more than 4.50:1.00; and (2) in the case of our debt facilities, a fixed charge coverage ratio of at least 1.20:1.00, and in the case of our asset-backed notes, of at least 1.10:1.00. As of June 30, 2018, we were in compliance with all of the applicable debt covenants.

Cash Flows

The following table sets forth certain cash flow information for the six months ended June 30, 2018 and 2017 (in thousands):

Operating Activities Cash Flows

Net cash provided by operating activities was \$78.4 million for the six months ended June 30, 2018, an increase of \$15.4 million compared to \$63.0 million for the six months ended June 30, 2017. The increase was due to a \$21.5 million increase in net income as adjusted for depreciation, amortization and other non-cash items, partially offset by a \$6.2 million increase in our net working capital adjustments. The increase in net income as adjusted for non-cash items was primarily due to an increase of \$19.5 million in net income and an increase of \$3.1 million in depreciation expense, partially offset by a \$4.0 million increase in the gain on sale of used rental equipment. Net working capital used in operating activities of \$18.9 million in the six months ended June 30, 2018, was due to a \$14.2 million increase in accounts receivable, primarily caused by an increase in lease and logistics activity, a \$2.1 million increase in prepaid expenses and other assets, and a \$1.9 million increase in accounts payable, accrued expenses and other liabilities, primarily caused by the timing of payments. Net working capital used in operating activities of \$12.7 million in the six months ended June 30, 2017, was due to a \$5.6 million increase in accounts receivable, primarily caused by an increase in lease and logistics activity, a \$1.8 million increase in prepaid expenses and other assets, primarily due to an increase in the insurance receivable related to the Hanjin bankruptcy, a \$3.6 million decrease in accounts payable, accrued expenses and other liabilities, primarily caused by the timing of payments, and a \$1.7 million decrease in unearned revenue, primarily due a decrease in deferred payments for a Rail contract.

Investing Activities Cash Flows

Net cash used in investing activities was \$227.7 million for the six months ended June 30, 2018, an increase of \$143.6 million compared to \$84.1 million for the six months ended June 30, 2017. The increase in cash usage was primarily attributable to a \$143.4 million increase in the purchase of rental equipment.

Financing Activities Cash Flows

Net cash provided by financing activities was \$163.9 million for the six months ended June 30, 2018, an increase of \$164.1 million compared to net cash used in financing activities of \$0.2 million for the six months ended June 30, 2017. During the

six months ended June 30, 2018, our net cash inflow from borrowings was \$141.4 million compared to a net cash outflow of \$0.9 million for the six months ended June 30, 2017, which reflected an increase in net borrowings used for the acquisition of rental equipment during the six months ended June 30, 2018 compared to the six months ended June 30, 2017. The increase was also a result of a \$56.7 million increase in proceeds received from the issuance of common stock and Series A Preferred Stock during the six months ended June 30, 2018, partially offset by a \$27.9 million repurchase of common stock and a \$6.2 million increase in debt issuance costs during the six months ended June 30, 2018.

Equity Transactions

Stock Repurchase Plan

In December 2015, we announced that our Board of Directors had approved the repurchase of up to one million shares of our outstanding common stock. In February 2016, our Board of Directors approved a one million share increase in the previously approved share repurchase program, bringing the total authorized for repurchase to two million shares of our outstanding common stock. The number, price, structure and timing of the repurchases, if any, will be at our sole discretion and future repurchases will be evaluated by us depending on market conditions, liquidity needs and other factors. Stock repurchases may be made in the open market, block trades or privately negotiated transactions. The repurchase authorization does not have an expiration date and does not oblige us to acquire any particular amount of our common stock. As of June 30, 2018, approximately 0.8 million shares remained available for repurchase under our stock repurchase plan.

In May 2018, we purchased, and subsequently cancelled, 1.2 million shares of its common stock, from an affiliate of Andrew S. Ogawa in a privately-negotiated transaction. Mr. Ogawa is a member of our Board of Directors. The stock was purchased at a price of \$22.81 per share, which represented a 2% discount to the closing price on the date of purchase.

Common Stock At-the-Market (ATM) Offering Program

In October 2017, we commenced an ATM offering program with respect to our common stock, which allows us to issue and sell up to 2.0 million shares of our common stock. During the six months ended June 30, 2018, we issued 100,000 shares of common stock under the ATM offering program for net proceeds of \$2.7 million. We paid commissions to the sales agent of \$0.1 million in connection with the sales of common stock under this ATM offering program during the six months ended June 30, 2018. We did not issue and sell any shares of common stock under this ATM offering during the three months ended June 30, 2018. The net proceeds were used for general corporate purposes. As of June 30, 2018, we have remaining capacity to issue up to approximately 1.0 million of additional shares of common stock under this ATM offering program.

Series A Preferred Stock Underwritten Offering

In March 2018, we completed an underwritten public offering of 1,600,000 shares of our 8.50% Series A Fixed-to-Floating Rate Cumulative Redeemable Perpetual Preferred Stock, par value \$0.0001 per share and liquidation preference \$25.00 per share (Series A Preferred Stock), resulting in net proceeds to us of approximately \$38.3 million, after deducting the underwriting discount and other offering expenses.

In April 2018, we sold an additional 170,900 shares of our Series A Preferred Stock upon the exercise by the underwriters of their option to purchase additional Series A Preferred Stock, resulting in net proceeds to us of approximately \$4.1 million, after deducting the underwriting discount.

See Note 12 to our consolidated financial statements in this Quarterly Report on Form 10-Q for additional information related to our Series A Preferred Stock.

Series A Preferred Stock ATM Offering Program

In May 2018, we commenced an ATM offering program with respect to our Series A Preferred Stock, which allows us to issue and sell up to 2.2 million shares of our Series A Preferred Stock. During the three months ended June 30, 2018, we issued 428,710 shares of Series A Preferred Stock under the ATM offering program for net proceeds of \$10.5 million. We paid commissions to the sales agent of \$0.2 million in connection with the sales of Series A Preferred Stock under this ATM offering program during the three months ended June 30, 2018. The net proceeds were used for debt repayment and general corporate purposes. We have remaining capacity to issue up to approximately 1.8 million of additional shares of Series A Preferred Stock under this ATM program.

(1) Our estimate of interest expense commitment includes \$87.3 million relating to our revolving credit facilities, \$25.9 million relating to our term loans, \$11.0 million relating to our senior secured notes, \$117.0 million relating to our asset back notes, \$2.1 million relating to our collateralized financing obligations, and \$0.1 million relating to our term loans held by VIE. The calculation of interest commitment related to our debt assumes the following weighted-average interest rates as of June 30, 2018: revolving credit facilities, 3.7%; term loans, 3.8%; senior secured notes, 4.9%; asset-backed notes, 3.8%; collateralized financing obligations, 1.2%; and term loans held by VIE, 3.0%. These calculations assume that weighted-average interest rates will remain at the same level over the next five years. We expect that interest rates will vary over time based upon fluctuations in the underlying indexes upon which these rates are based.

Off-Balance Sheet Arrangements

As of June 30, 2018, we had no material off-balance sheet arrangements or obligations that have or are reasonably likely to have a current or future effect on our financial condition, change in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources that are material to investors.

Critical Accounting Policies and Estimates

Except for the adoption of Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers (Topic 606), there have been no changes to our critical accounting policies during the six months ended June 30, 2018. See Critical Accounting Policies and Estimates in our Annual Report on Form 10-K for the year ended December 31, 2017, filed with the SEC on February 27, 2018.

Recent Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board (FASB) issued ASU No. 2016-02, Leases (Topic 842) (ASU 2016-02). The FASB issued ASU 2016-02 to increase transparency and comparability among organizations recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. Under ASU 2016-02, lessors will account for leases using an approach that is substantially equivalent to existing U.S. GAAP for sales-type leases, direct financing leases and operating leases. Unlike current guidance, however, a lease with collectability uncertainties may be classified as a sales-type lease. If collectability of lease payments, plus any amount necessary to satisfy a lessee residual value guarantee, is not probable, lease payments received will be recognized as a deposit liability and the underlying assets will not be derecognized until collectability of the remaining amounts becomes probable. ASU 2016-02 is effective for interim and annual periods beginning after December 15, 2018, with early adoption permitted, and must be adopted using a modified retrospective transition. We plan to adopt this guidance effective January 1, 2019 and are currently evaluating the potential impact adoption will have on our consolidated financial statements and related disclosures. We expect to complete our assessment of the impact towards the end of 2018.

The most recent adopted accounting pronouncements are described in Note 2(b) to our unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk represents the risk of changes in value of a financial instrument, derivative or non-derivative, caused by fluctuations in foreign exchange rates and interest rates. Changes in these factors could cause fluctuations in our results of operations and cash flows. We are exposed to the market risks described below.

Foreign Exchange Rate Risk. Although we have significant foreign-based operations, the U.S. Dollar is our primary operating currency. Thus, most of our revenue and expenses are denominated in U.S. Dollars. We have equipment sales in British Pound Sterling, Euros and Japanese Yen and incur overhead costs in foreign currencies, primarily in British Pound Sterling and Euros. During the six months ended June 30, 2018, the U.S. Dollar increased in value in relation to other major foreign currencies (such as the Euro and British Pound Sterling). The increase in the U.S. Dollar has increased our revenues and expenses denominated in foreign currencies. However, the associated decrease in the value of certain foreign currencies as compared to the U.S. Dollar will also cause assets held at some of our foreign subsidiaries to decrease in value relative to the US dollar. For the six months ended June 30, 2018, we recognized a loss on foreign exchange of \$0.4 million. A 10% change in foreign exchange rates would not have a material impact on our financial position, results of operations or cash flows.

Interest Rate Risk. The nature of our business exposes us to market risk arising from changes in interest rates to which our variable-rate debt is linked. As of June 30, 2018, the principal amount of debt outstanding under the variable-rate arrangements of our revolving credit facilities was \$652.4 million. In addition, at June 30, 2018, we had balances on our variable-rate term loans of \$294.4 million and our variable-rate term loans held by VIE of \$2.4 million. As of June 30, 2018, our total outstanding variable-rate debt was \$885.2 million, which represented 48% of our total debt at that date. The average interest rate on our variable-rate debt was 3.7% as of June 30, 2018, based on LIBOR plus a margin based on certain conditions set forth in our debt agreements.

A 1.0% increase or decrease in underlying interest rates for these debt obligations would increase or decrease interest expense by approximately \$8.8 million annually assuming debt remains constant at June 30, 2018 levels.

While we actively manage our interest exposure, we do not currently participate in hedging in the form of interest rate swaps or other derivative instruments to manage the market risks described above.

ITEM 4. CONTROLS AND PROCEDURES

Management Evaluation of Disclosure Controls and Procedures

In accordance with Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (the Exchange Act), we carried out an evaluation, under the supervision and with the participation of our management, including our President and Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon such evaluation, our President and Chief Executive Officer and our Chief Financial Officer concluded that as of June 30, 2018 our disclosure controls and procedures were effective with respect to controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and are accumulated and communicated to the Company's management, including the Company's principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under Exchange Act) that occurred during the quarter ended June 30, 2018, which has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time we may be a party to litigation matters or disputes arising in the ordinary course of business, including in connection with enforcing our rights under our leases. Currently, we are not a party to any legal proceedings which are material to our business, financial condition, results of operations or cash flows.

ITEM 1A. RISK FACTORS

Before making an investment decision, investors should carefully consider the risks in the “Risk Factors” in Part 1: Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2017 filed with the SEC on February 27, 2018. These risks are not the only ones facing our company. Additional risks not currently known to us or that we currently believe are immaterial may also impair our business operations. Any of these risks could adversely affect our business, cash flows, financial condition and results of operations. The trading price of our common stock could fluctuate due to any of these risks, and investors may lose all or part of their investment. In assessing these risks, investors should also refer to the other information contained or incorporated by reference in this Quarterly Report on Form 10-Q. Except as described below, there have been no material changes in our risk factors from those discussed in our Annual Report on Form 10-K for the year ended December 31, 2017.

Changes to U.S. trade policy, tariff and import/export regulations may have a material adverse effect on our business, financial condition and results of operations.

Changes in U.S. or international, political, regulatory and economic conditions or in laws and policies governing foreign trade and investment in the territories or countries where we currently conduct our business, could adversely affect our business. The U.S. presidential administration has instituted or proposed changes in trade policies that include the negotiation or termination of trade agreements, the imposition of higher tariffs on imports into the U.S., including various types of metal shipping containers manufactured in China (including container types that we own in our fleet), economic sanctions on corporations or countries, and other government regulations affecting trade between the U.S. and other countries where we conduct our business.

As a result of recent policy changes of the U.S. presidential administration and recent U.S. government proposals, there may be greater restrictions and economic disincentives on international trade. The new tariffs and other changes

in U.S. trade policy could trigger retaliatory actions by affected countries, and certain foreign governments have instituted or are considering imposing trade sanctions on certain U.S. goods. We do a significant amount of business that would be impacted by changes to the trade policies of the U.S. and foreign countries (including governmental action related to tariffs, international trade agreements, or economic sanctions). Such changes have the potential to adversely impact the U.S. economy or certain sectors thereof, our industry and the global demand for our products and services, and as a result, could have an adverse effect on our business, financial condition and results of operations.
