Item 1.01. Entry into a Material Definitive Agreement

The information set forth in Item 2.03 hereof is incorporated into this Item 1.01 by reference.

Item 2.03. Creation of a Direct Financial obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

On September 8, 2009, ArvinMeritor, Inc. (“ArvinMeritor”), in anticipation of the expiration of its existing accounts receivable securitization arrangement, entered into a new, two-year U.S. receivables financing arrangement (the “New Facility”). The New Facility contemplates that ArvinMeritor Receivables Corporation (“ARC”), a subsidiary of ArvinMeritor, will purchase eligible accounts receivable from certain other ArvinMeritor subsidiaries (the “Originators”) and will borrow under a credit facility funded by multiple lenders. ARC’s borrowings will be secured by an interest in the purchased receivables, and ARC will use the proceeds of the borrowings to fund purchases of receivables from the Originators. The purchased receivables under the New Facility are expected to be substantially similar to those under the facility it replaces.

In connection with the New Facility, ARC entered into a Loan Agreement with ArvinMeritor, as Initial Collection Agent, the Lenders from time to time party thereto and GMAC Commercial Finance LLC, as Agent (the “Loan Agreement”), providing for borrowings by ARC in an aggregate principal amount outstanding at any one time of not to exceed \$105 million (which may be increased with the Agent’s consent to \$125 million upon the identification of a new or existing Lender willing to provide such additional commitment), secured by an interest in accounts receivable of the Originators sold to ARC from time to time pursuant to a Third Amended and Restated Purchase and Sale Agreement (the “Purchase Agreement”) among ARC and the Originators. Borrowings under the New Facility will be subject to a borrowing base formula that provides for an 80% advance rate against eligible receivables less certain reserves.

Borrowings under the New Facility will bear interest at a rate equal to an applicable margin plus, at ARC’s option, either (a) a base rate determined by reference to the higher of (1) JPMorgan Chase Bank’s prime rate, (2) the federal funds rate plus 1/2 of 1% and (3) three-month LIBOR plus 1.00% or (b) LIBOR. For purposes of determining the appropriate interest rate, LIBOR will be no less than 3.00%. The applicable margin for the New Facility will be 3.50% plus the Base Rate or 4.50% plus the LIBOR rate, as the case may be. The commitment fee on the undrawn amounts under the facility will be 1.00%. As of the closing date, availability under the New Facility is expected to exceed availability under the facility it replaces.

The New Facility, like the previously existing accounts receivable securitization arrangement, contains a number of covenants customary for this type of facility, including a cross-default to ArvinMeritor’s senior secured credit facility. For a further description of the covenants set forth in ArvinMeritor’s senior secured credit facility, please see Note 16 of the Notes to Consolidated Financial Statements and the discussion under the heading “Liquidity” in Item 2. “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in ArvinMeritor’s report on Form 10-Q for the quarter ended June 28, 2009. The New Facility also contains other standard events of default.
