EXPLANATORY NOTE

The Registrant is a Canadian issuer eligible to file its annual report pursuant to Section 13 of the Securities Exchange Act of 1934 (the “Exchange Act”) on Form 40-F. The Registrant is a “foreign private issuer” as defined in Rule 3b-4 under the Exchange Act. Accordingly, the Registrant’s equity securities are exempt from Sections 14(a), 14(b), 14(c), 14(f) and 16 of the Exchange Act pursuant to Rule 3a12-3.

CAUTIONARY NOTE TO UNITED STATES INVESTORS CONCERNING DIFFERENCES IN UNITED STATES AND CANADIAN REPORTING PRACTICES

The Registrant is permitted, under a multi-jurisdictional disclosure system adopted by the United States, to prepare this annual report on Form 40-F in accordance with Canadian disclosure requirements, which are different from those of the United States. In particular, and without limiting the foregoing, all mineral resource and reserve estimates included in this report have been prepared in accordance with Canadian National Instrument 43-101 and the Canadian Institute of Mining and Metallurgy (“CIM”) Classification System. These standards differ significantly from the requirements of the United States Securities and Exchange Commission (the “Commission”), and mineral resource and reserve information included herein may not be comparable to similar information concerning United States companies.

For definitions of the terms mineral reserve, mineral resource, measured mineral resource, indicated mineral resource and inferred mineral resource under CIM standards, and a summary of the differences between CIM and U.S. standards, see information contained in the section entitled “Cautionary Note to US Investors Regarding Disclosure of Mineral Reserves and Resource Estimates” on page 4, contained in Exhibit 99.1 filed herewith entitled “Annual Information Form”.

A copy of this 40-F and accompanying Exhibits may be found on the Company website: www.nevsun.com.

FORWARD LOOKING STATEMENTS

This report contains forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995 and applicable Canadian securities legislation concerning anticipated developments in the Company’s continuing and future operations in Eritrea and in the putative class action lawsuit, the adequacy of the Company’s financial resources and financial projections. Forward-looking statements include, but are not limited to,

statements concerning or the assumptions related to estimates of capital and operating costs, the timing, nature and extent of future copper and gold production, expanding exploration licenses, the estimation of mineral reserves and resources, methodologies and models used to prepare resource and reserve estimates, the realization of mineral reserve estimates, the conversion of mineral properties to reserves and resources, the potential to expand resources, reserves and mine life, future exploration budgets, plans, targets and work programs, capital expenditures and objectives, anticipated timing of grant of permits, mining and development plans and activities, construction and production targets and timetables, grades, processing rates, life of mine, net cash flows, metal prices, exchange rates, reclamation costs, results of drill programs, dividend plans and policy, litigation matters, integration or expansion of operations, requirements for additional capital, government regulation of mining operations, environmental risks, political risks and uncertainties, unanticipated reclamation expenses, and other events or conditions that may occur in the future. Forward-looking statements are frequently, but not always, identified by words such as “expects,” “anticipates,” “believes,” “intends,” “estimates,” “potential,” “possible,” “budget” and similar expressions, or statements that events, conditions or results “will,” “may,” “could” or “should” occur or be achieved. Information concerning the interpretation of drill results and mineral resource and reserve estimates also may be deemed to be forward-looking statements, as such information constitutes a prediction of what mineralization might be found to be present if and when a project is actually developed, and in the case of mineral reserves, such statements reflect the conclusion based on certain assumptions that the mineral deposit can be economically exploited.

Forward-looking statements are statements about the future and are inherently uncertain, and actual achievements of the Registrant or other future events or conditions may differ materially from those reflected in the forward-looking statements due to a variety of risks, uncertainties and other factors, including, without limitation, those described in the Annual Information Form of the Registrant included in this report. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended.

The Registrant's forward-looking statements are based on the beliefs, expectations and opinions of management on the date the statements are made and the Registrant assumes no obligation to update such forward-looking statements in the future. For the reasons set forth above, investors should not place undue reliance on forward-looking statements.
