Notes to Combined Condensed Consolidated Financial Statements (unaudited)

September 30, 2016

1. Organization

Xenia Hotels & Resorts, Inc. (the "Company" or "Xenia") is a Maryland corporation that invests primarily in premium full service, lifestyle and urban upscale hotels. Prior to February 3, 2015, Xenia was a wholly owned subsidiary of InvenTrust Properties Corp. ("InvenTrust" formerly known as Inland American Real Estate Trust, Inc.), its former parent.

On February 3, 2015, Xenia was spun off from InvenTrust through a taxable pro rata distribution by InvenTrust of 95% of the outstanding common stock, \$0.01 par value per share (the "Common Stock"), of Xenia to holders of record of InvenTrust's common stock as of the close of business on January 20, 2015 (the "Record Date"). Each holder of record of InvenTrust's common stock received one share of Common Stock for every eight shares of InvenTrust's common stock held at the close of business on the Record Date (the "Distribution"). In lieu of fractional shares, stockholders of InvenTrust received cash. On February 4, 2015, Xenia's Common Stock began trading on the New York Stock Exchange ("NYSE") under the ticker symbol "XHR." As a result of the Distribution, the Company became a stand-alone, publicly-traded company. Xenia operates as a real estate investment trust ("REIT") for federal income tax purposes.

Substantially all of the Company's assets are held by, and all the operations are conducted through XHR LP (the "Operating Partnership"). XHR GP, Inc. is the sole general partner of XHR LP. XHR GP, Inc. is wholly owned by the Company. As of September 30, 2016, the Company owned 98.7% of the common limited partnership units issued by the Operating Partnership ("common units"). The remaining 1.3% of the common units are owned by the other limited partners. To qualify as a REIT, the Company cannot operate or manage its hotels. Therefore, the Operating Partnership and its subsidiaries lease the hotel properties to XHR Holding Inc. (collectively with its subsidiaries, "XHR Holding"), the Company's taxable REIT subsidiary ("TRS"), which engages third-party eligible independent contractors to manage the hotels.

The accompanying combined condensed consolidated financial statements include the accounts of the Company, the Operating Partnership, XHR Holding, as well as all wholly owned subsidiaries and consolidated investments in real estate entities. The Company's subsidiaries and consolidated investments in real estate entities generally consist of limited liability companies ("LLCs"), limited partnerships ("LPs") and the TRS. The effects of all inter-company transactions have been eliminated.

As of September 30, 2016, the Company owned 46 lodging properties, 44 of which were wholly owned, with a total of 11,594 rooms. The remaining two hotels are owned through individual investments in real estate entities, in which the Company has a 75% ownership interest in each investment.

2. Summary of Significant Accounting Policies

The unaudited interim combined condensed consolidated financial statements and related notes have been prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP") and in conformity with the rules and regulations of the Securities and Exchange Commission ("SEC") applicable to financial information. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been omitted in accordance with the rules and regulations of the SEC. The unaudited financial statements include normal recurring adjustments, which management considers necessary for the fair presentation of the condensed consolidated balance sheets, combined condensed consolidated statements of operations and comprehensive income, condensed consolidated statements of changes in equity and combined condensed consolidated statements of cash flows for the periods presented. The unaudited combined condensed consolidated financial statements should be read in conjunction with the combined consolidated financial statements and notes thereto as of and for the year ended December 31, 2015, included in the Company's Annual Report on Form 10-K filed with the SEC on March 10, 2016. Operating results for the three and nine months ended September 30, 2016 are not necessarily indicative of actual operating results for the entire year.

Basis of Presentation

As described above, on February 3, 2015, Xenia was spun off from InvenTrust. Prior to the separation, the Company effectuated certain reorganization transactions which were designed to consolidate the ownership of its hotels into its Operating Partnership, consolidate its TRS lessees in its TRS, facilitate its separation from InvenTrust, and enable the Company to qualify as a REIT for federal income tax purposes. The accompanying combined condensed consolidated financial statements prior to the spin-off have been "carved out" of InvenTrust's consolidated financial statements and reflect significant assumptions and allocations. The combined condensed consolidated financial statements reflect the operations of the Company after giving effect to the reorganization transactions, the disposition of other hotels previously owned by the Company, and the spin-off, and include allocations of costs from certain corporate and shared functions provided to the Company by InvenTrust, as well as

XENIA HOTELS & RESORTS, INC.

Notes to Combined Condensed Consolidated Financial Statements (unaudited)

costs associated with participation by certain of the Company's executives in InvenTrust's benefit plans. Corporate costs directly associated with the Company's principal executive offices, personnel and other administrative costs are reflected as general and administrative expenses on the combined condensed consolidated statements of operations and comprehensive income. Additionally, prior to the spin-off, InvenTrust allocated to the Company a portion of its corporate overhead costs based upon the Company's percentage share of the average invested assets of InvenTrust, which is reflected in general and administrative expenses. Based on these presentation matters, the financial statements for the three and nine months ended September 30, 2015 may not be comparable.

As InvenTrust was managing various asset portfolios, the extent of services and benefits a portfolio received was based on the size of its assets. Therefore, using average invested assets to allocate costs was a reasonable reflection of the services and other benefits received by the Company and complied with applicable accounting guidance. However, actual costs may have differed from allocated costs if the Company had operated as a stand-alone entity during such period and those differences may have been material.

Each property maintains its own books and financial records and each entity's assets are not available to satisfy the liabilities of other affiliated entities, except as otherwise disclosed in Note 7.

Use of Estimates

The preparation of the combined condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and revenues and expenses. These estimates are prepared using management's best judgment, after considering past, current and expected economic conditions. Actual results could differ from these estimates.

Consolidation

The Company evaluates its investments in partially owned entities to determine whether such entities may be a variable interest entity ("VIE"). If the entity is a VIE, the determination of whether the Company is the primary beneficiary must be made. The primary beneficiary determination is based on a qualitative assessment as to whether the entity has (i) power to direct significant activities of the VIE and (ii) an obligation to absorb losses or the right to receive benefits that could be potentially significant to the VIE. The Company will consolidate a VIE if it is deemed to be the primary beneficiary, as defined in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 810, Consolidation. The equity method of accounting is applied to entities in which the Company is not the primary beneficiary as defined in FASB ASC 810, or the entity is not a VIE and the Company does not have effective control, but can exercise influence over the entity with respect to its operations and major decisions.

On January 1, 2016, the Company adopted Accounting Standards Update ("ASU") 2015-02, Amendments to the Consolidation Analysis ("ASU 2015-02"), which amended the consolidation guidance for VIE's and general partner's investments in limited partnerships and modifies the evaluation of whether limited partnership and similar legal entities are VIEs or voting interest entities. Upon adoption of ASU 2015-02, the Company concluded there was no change required in the accounting of its two previously identified VIEs in our two investments in real estate entities and therefore will continue to consolidate these VIEs for reporting purposes, as further described in Note 5. However, the Company concluded that the Operating Partnership now meets the criteria as a VIE under ASU 2015-02. The Company's significant asset is its investment in the Operating Partnership, as described in Note 1, and consequently, substantially all of the Company's assets and liabilities represent those assets and liabilities of the Operating Partnership. As such, there is no change in the presentation of the consolidated financial statements of the Company upon adoption of ASU 2015-02.

Impairment

The Company assesses the carrying values of the respective long-lived assets, whenever events or changes in circumstances indicate that the carrying amounts of these assets may not be fully recoverable, such as a reduction in the expected holding period of the asset or a change in demand for lodging at the Company's hotels. If it is determined

that the carrying value is not recoverable because the undiscounted cash flows do not exceed carrying value, the Company records an impairment loss to the extent that the carrying value exceeds fair value. The valuation and possible subsequent impairment of investment properties is a significant estimate that can and does change based on the Company's continuous process of analyzing each property and reviewing assumptions about uncertain inherent factors, as well as the economic condition of the property at a particular point in time.

Notes to Combined Condensed Consolidated Financial Statements (unaudited)

September 30, 2016

The use of projected future cash flows and related holding period is based on assumptions that are consistent with the estimates of future expectations and the strategic plan the Company uses to manage its underlying business. However, assumptions and estimates about future cash flows and capitalization rates are complex and subjective. Changes in economic and operating conditions and the Company's ultimate investment intent that occur subsequent to the impairment analyses could impact these assumptions and result in future impairment charges of the real estate properties.

Investment Properties Held for Sale

In determining whether to classify an investment property as held for sale, the Company considers whether:

(i) management has committed to a plan to sell the investment property; (ii) the investment property is available for immediate sale, in its present condition; (iii) the Company is actively marketing the investment property for sale at a price that is reasonable in relation to its fair value; (iv) the Company has initiated a program to locate a buyer; (v) the Company believes that the sale of the investment property is probable; (vi) the Company has received a significant non-refundable deposit for the purchase of the property; (vii) actions required for the Company to complete the plan indicate that it is unlikely that any significant changes will be made to the plan.

If all of the above criteria are met, the Company classifies the investment property as held for sale. On the day that these criteria are met, the Company suspends depreciation and amortization on the investment properties held for sale. The investment properties and liabilities associated with those investment properties that are held for sale are classified separately on the condensed consolidated balance sheets for the most recent reporting period and all comparative periods, and are presented at the lesser of the carrying value or fair value, less costs to sell. Additionally, if the sale constitutes a strategic shift with a major effect on operations, the operations for the investment properties held for sale are classified on the combined condensed consolidated statements of operations and comprehensive income as discontinued operations for all periods presented.

Share-Based Compensation

The Company has adopted a share-based incentive plan that provides for the grant of stock options, stock awards, restricted stock units, Operating Partnership units and other equity-based awards. Share-based compensation is measured at the estimated fair value of the award on the date of grant, adjusted for forfeitures, and recognized as an expense on a straight-line basis over the longest vesting period for each grant for the entire award. The determination of fair value of these awards is subjective and involves significant estimates and assumptions including expected volatility of the Company's shares, expected dividend yield, expected term and assumptions of whether certain of these awards will achieve parity with other Operating Partnership units or achieve performance thresholds.

Share-based compensation is included in general and administrative expenses in the accompanying combined condensed consolidated statements of operations and comprehensive income and capitalized in building and other improvements in the condensed consolidated balance sheets for certain employees that manage property developments, renovations and capital improvements.

Recently Issued Accounting Pronouncements

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in GAAP when it becomes effective, although it will not affect the accounting for rental related revenues. The new standard is effective for the Company on January 1, 2018, pursuant to ASU No. 2015-09 which deferred the adoption date by one year. Early adoption is permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU No. 2014-09 and related updates will have on its consolidated financial statements and related disclosures. Although the Company is still evaluating the revenue streams and the timing of recognition under the new model, it is not expected to change significantly from current policies. Additionally, the Company has begun evaluating the sale of non-financial assets to entities that are not customers, such as the disposition of real estate assets. Historically, hotel dispositions have been cash sales that required no contingencies for

future involvement in the hotel's operations and therefore the Company does not expect ASU No. 2014-09 to have a material impact on its recognition of hotel sales. The Company has not yet selected a transition method. In September 2015, the FASB issued ASU No. 2015-16, Simplifying the Accounting for Measurement-Period Adjustments, which eliminates the requirement for an acquirer in a business combination to account for measurement-period adjustments retrospectively. Instead, acquirers must recognize measurement-period adjustments during the period in which they determine the amounts, including the effect on earnings of any amounts that would have been recorded in previous periods if the accounting had been completed at the acquisition date. This update was effective for interim and annual periods beginning after

December 15, 2015, with early adoption permitted. The implementation of ASU 2015-16 on January 1, 2016 had no material impact on the Company's combined condensed consolidated financial statements.

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes, which simplifies the presentation of deferred taxes by requiring that deferred tax assets and liabilities be presented as noncurrent on the balance sheet. The new standard is effective for the Company on January 1, 2017. Early adoption is permitted. The Company does not expect ASU No. 2015-17 to have a significant impact on its combined condensed consolidated financial statements and related disclosures.

In February 2016, the FASB issued ASU 2016-02, Leases, which replaces ASC Topic 840, Leases, and requires most lessee leases to be recorded on the Company's balance sheet as either operating or financing leases with a right of use asset with a corresponding lease liability measured at present value. Operating leases will be recognized on the income statement on a straight-line basis as lease expense and financing leases will be accounted for similar to the accounting for amortizing debt. Leases with terms of less than 12 months will continue to be accounted for as they are under the current standard. The new standard is effective for the Company on January 1, 2019, with early adoption permitted. The Company is evaluating the effect that ASU 2016-02 will have on its combined condensed consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

In March 2016, the FASB issued ASU 2016-09, Improvements to Employee Share-Based Award Payment Accounting, which simplifies various aspects of how share-based payments are accounted for and presented in the financial statements. This standard requires companies to record all of the tax effects related to share-based payments through the income statement, allows companies to elect an accounting policy to either estimate the share based award forfeitures (and expense) or account for forfeitures (and expense) as they occur, and allows companies to withhold up to the maximum individual statutory tax rate the shares upon settlement of an award without causing the award to be classified as liability. This guidance is effective for the Company on January 1, 2017, however, early adoption is permitted. The Company does not expect ASU No. 2016-09 to have a significant impact on its combined condensed consolidated financial statements and related disclosures.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments, which changes the way certain cash receipts and cash payments are presented and classified on the statement of cash flows in order to reduce diversity in practice across all industries. The standard clarifies classification for debt prepayment or debt extinguishment costs, proceeds from the settlement of insurance claims, and contingent consideration payments made after business combination among other things. The new standard is effective for the Company on January 1, 2018, however, early adoption is permitted. The Company does not expect ASU No. 2016-15 to have a significant impact on its combined condensed consolidated financial statements and related disclosures.

3. Acquired Properties

In June 2015, the Company entered into a purchase agreement to acquire a portfolio of three hotels: the RiverPlace Hotel in Portland, Oregon, the Canary hotel in Santa Barbara, California, and the Hotel Palomar in Philadelphia, Pennsylvania (the "Kimpton Portfolio") for a total purchase price of \$245 million, excluding closing costs, which were expensed and included in acquisition costs on the combined condensed consolidated statement of operations for the three and nine months ended September 30, 2015. These acquisitions closed in July 2015, and were funded with cash and borrowings under the Company's unsecured credit facility.

The following is a summary of the hotel acquisitions for the nine months ended September 30, 2015:

Property	Location	Rooms	Management Company
Canary Santa Barbara	Santa Barbara, CA	97	Kimpton Hotel & Restaurant Group, LLC
Hotel Palomar Philadelphia	Philadelphia, PA	230	Kimpton Hotel & Restaurant Group, LLC
RiverPlace Hotel	Portland, OR	84	Kimpton Hotel & Restaurant Group, LLC

The Company records identifiable assets, liabilities, and goodwill acquired in a business combination at fair value using significant other observable inputs (Level 2) including available market information and appropriate valuation methodologies available. The following reflects the purchase price allocation for the three hotels acquired during the nine months ended September 30, 2015 (in thousands):

Land	\$49,743
Building and improvements	172,928
Furniture, fixtures, and equipment	21,907
Intangibles and other assets	422
Total purchase price	\$245,000

For the three hotels acquired during the nine months ended September 30, 2015, total revenues and net income from the date of acquisition in July 2015 through September 30, 2015 are included in the accompanying combined condensed consolidated statements of operations for the three and nine months ended (in thousands):

	September 30, 2015
Revenue	\$ 11,421
Net income (excluding acquisition costs)	\$ 3,146

In January 2016, the Company acquired the Hotel Commonwealth located in Boston, Massachusetts for a purchase price of \$136 million, excluding closing costs, which were expensed and included in acquisition costs on the combined condensed consolidated statement of operations for the nine months ended September 30, 2016. The source of funding was proceeds from the \$125 million term loan entered into by the Company, as further described in Note 7, and a \$20 million escrow deposit applied to the purchase price at closing. The hotel has a total of 245-rooms, which includes a 96-room hotel expansion that was completed in December 2015. The Hotel Commonwealth is subject to a long-term ground lease, which expires in 2087, and was assumed by the Company as part of the hotel's acquisition. The following reflects the purchase price allocation for the hotel acquired during the nine months ended September 30, 2016 (in thousands):

Building and improvements	\$103,847
Furniture, fixtures, and equipment	10,238
Intangibles and other assets ⁽¹⁾	21,915
Total purchase price	\$136,000

As part of the purchase price allocation, the Company allocated \$21.7 million to a below market lease intangible (1) that will be amortized on a straight-line basis over the remaining term of the underlying ground lease, which expires in 2087.

The total revenues and net income for Hotel Commonwealth, from the date of acquisition in January 2016 through September 30, 2016, are included in the accompanying combined condensed consolidated statements of operations and comprehensive income for the three and nine months ended September 30, 2016 (in thousands):

4. Disposed Properties

In September 2015, the Company entered into a purchase and sale agreement to sell the Hyatt Regency Orange County, at which time the hotel was determined to have met the held for sale criteria and was presented as assets and liabilities associated with assets held for sale on the Company's combined consolidated balance sheet for all periods presented. In October 2015, the Company sold the Hyatt Regency Orange County hotel for a sale price of \$137 million, and recognized a gain of \$43.0 million on the combined consolidated statement of operations and comprehensive income for the year ended December 31, 2015. The Company received net proceeds of \$70.6 million, after paying off the \$61.9 million outstanding property level mortgage at the time of the sale, and retained the \$5.9 million balance in the hotel's capital expenditure reserve account. The operating results of the hotel are included in the Company's combined consolidated financial statements as part of continuing operations in accordance with ASU No. 2014-08, as it did not represent a strategic shift or have a major effect on the Company's results of operations. Additionally, during the nine months ended September 30, 2015, one land parcel, valued at \$1.2 million, was transferred to InvenTrust on January 15, 2015 and was included in net contributions from InvenTrust in the accompanying combined condensed consolidated statement of changes in equity.

In November 2015, the Company entered into a purchase and sale agreement to sell the Hilton University of Florida Conference Center Gainesville, at which time the hotel was determined to have met the held for sale criteria and was presented as assets and liabilities associated with assets held for sale on the Company's condensed consolidated balance sheet for all periods presented. In February 2016, the Company sold the Hilton University of Florida Conference Center Gainesville for a sale price of \$36 million and recognized a gain of \$0.6 million which is included in gain (loss) on sale of investment properties on the combined condensed consolidated statement of operations for the nine months ended September 30, 2016. The Company was entitled to net proceeds at closing of \$31.1 million, and in conjunction with the sale repaid the \$27.8 million outstanding property level mortgage.

In January 2016, the Company entered into a purchase and sale agreement to sell the DoubleTree by Hilton Washington DC for a sale price of \$65 million, excluding closing costs. The sale of the hotel closed in April 2016 and resulted in net proceeds of \$63.5 million and the recording of a \$0.1 million impairment charge, which is included in the provision for asset impairment on the combined condensed consolidated statement of operations for the nine months ended September 30, 2016.

In February 2016, the Company entered into a purchase and sale agreement to sell the Embassy Suites Baltimore North/Hunt Valley for a sale price of \$20 million, excluding closing costs. As a result of the negotiated sales price, the Company recorded an impairment charge during the nine months ended September 30, 2016 of \$7.6 million. The sale

of the hotel closed in May 2016 and resulted in net proceeds of \$19.5 million and the recording of an additional impairment charge of \$0.4 million, which

12

is included in the provision for asset impairment on the combined condensed consolidated statement of operations for the nine months ended September 30, 2016.

In April 2016, the Company entered into a purchase and sale agreement to sell the Marriott Atlanta Century Center/Emory Area and the Hilton Phoenix Suites for a combined sales price of \$50.8 million, excluding closing costs. As a result of the negotiated sales price, the Company recorded an impairment charge of \$1.9 million for the nine months ended September 30, 2016, which is included in the provision for asset impairment on the combined condensed consolidated statement of operations. The sale of the two hotels closed in June 2016 and resulted in net proceeds of \$50 million.

The major classes of assets and liabilities for the five properties disposed of during the nine months ended September 30, 2016 were as follows at December 31, 2015 (in thousands):

	December
	31, 2015
Land ⁽¹⁾	\$31,698
Building and other improvements	223,392
Total	\$255,090
Less accumulated depreciation	(83,677)

Total assets held for sale	\$181,396

Debt	\$27,775
------	----------

Accounts payable and accrued expenses	3,440
---------------------------------------	-------

Other liabilities	431
-------------------	-----

Total liabilities of assets held for sale	\$31,646
---	----------

The Hilton University of Florida Conference Center Gainesville and the Marriott Atlanta Century Center/Emory (1)Area were subject to ground leases. The Company has no future obligations under the terms of these ground leases as part of the disposition of these hotels.

The operating results of the five hotels sold during nine months ended September 30, 2016, respectively, are included in the Company's combined condensed consolidated financial statements as part of continuing operations in accordance with ASU No. 2014-08 Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity ("ASU 2014-08") through the date of their disposition, as they did not represent a strategic shift or have a major effect on the Company's results of operations.

Discontinued Operations

In November 2014, 52 lodging properties were sold by InvenTrust (the "Suburban Select Service Portfolio"), which were properties previously overseen by the Company. This disposition represented a strategic shift and had a major effect on the Company's results of operations. Accordingly, the results of operations of these 52 lodging properties were presented as discontinued operations pursuant to ASU 2014-08. During early 2015, \$489 thousand in carryover costs related to the Suburban Select Service Portfolio were incurred and have been presented as discontinued operations for the nine months ended September 30, 2015.

5. Investment in Real Estate Entities

Consolidated Entities

During 2013, the Company entered into two investments in real estate entities in order to develop the Grand Bohemian Hotel Charleston and the Grand Bohemian Hotel Mountain Brook. The Company has ownership interests

of 75% in each real estate entity. These entities are considered VIE's as defined in ASU 2015-02 because the entities did not have enough equity to finance their activities without additional subordinated financial support. The Company determined that it has the power to direct the activities of the VIE's that most significantly impact the VIE's economic performance, as well as the obligation to absorb losses of the VIE's that could potentially be significant to the VIE, or the right to receive benefits from the VIE's that

13

XENIA HOTELS & RESORTS, INC.

Notes to Combined Condensed Consolidated Financial Statements (unaudited)

September 30, 2016

could potentially be significant to the VIE. As such, the Company has a controlling financial interest and is considered the primary beneficiary of each of these entities. Therefore, these entities are consolidated by the Company.

The following are the liabilities of the consolidated VIE's, which are non-recourse to the Company, and the assets that can be used to settle those obligations (in thousands):

	September 30, 2016	December 31, 2015
Net investment properties	\$71,943	\$ 74,592
Other assets	4,817	2,548
Total assets	\$76,760	\$ 77,140
Mortgages, notes and margins payable	(45,606)	(45,734)
Other liabilities	(2,803)	(2,848)
Total liabilities	\$(48,409)	\$(48,582)
Net assets	\$28,351	\$ 28,558

In August 2015, the Grand Bohemian Hotel Charleston began operations as a 50-room lifestyle hotel. The total development cost of the property was \$32 million. In October 2015, the Grand Bohemian Hotel Mountain Brook began operations as a 100-room lifestyle hotel. The total development cost of the property was \$45 million.

All operations of the two hotels for the three and nine months ended September 30, 2016 and 2015 were consolidated in the accompanying combined condensed consolidated statements of operations and comprehensive income, with a corresponding allocation for non-controlling interests.

6. Transactions with Related Parties

The following table summarizes the Company's related party transactions (in thousands):

	Three Months Ended September 30, 2015	Nine Months Ended September 30, 2015
General and administrative allocation (a)	\$	—\$ 1,135
Transition services fees (b)	12	514

(a) General and administrative allocations include costs from certain corporate and shared functions provided to the Company by InvenTrust, as well as costs associated with participation by certain of the Company's executives in InvenTrust's benefit plans. InvenTrust allocated to the Company a portion of its corporate overhead costs which was based upon the Company's percentage share of the average invested assets of InvenTrust. As InvenTrust was managing various asset portfolios, the extent of services and benefits a portfolio received was based on the size of its assets. Therefore, using average invested assets to allocate costs was a reasonable reflection of the services and other benefits received by the Company and complied with applicable accounting guidance. However, actual costs may have differed from allocated costs if the Company had operated as a stand-alone entity during such period and those differences may have been material. Following the spin-off, the Company was not allocated any further general and administrative expenses.

(b) In connection with the Company's separation from InvenTrust, the Company entered into a transition services agreement with InvenTrust under which InvenTrust agreed to provide certain transition services to the Company, including services related to information technology systems, financial reporting and accounting and legal services. The expiration date varied by service provided and the agreement terminated on the earlier of March 31, 2016 or the termination of the last service provided under it. In June 2015, the Company terminated all fee-based services provided under the transition services agreement effective July 31, 2015, and thereafter, no additional fees are expected to be incurred for services provided by InvenTrust.

Edgar Filing: Xenia Hotels & Resorts, Inc. - Form 10-Q

As of September 30, 2016 and December 31, 2015, the Company owed \$0 and \$2.6 million, respectively, to InvenTrust which is included in other liabilities in the condensed consolidated balance sheets. As of December 31, 2015, the amount due to InvenTrust was related to purchases of furniture, fixtures and equipment funded by InvenTrust and to taxes paid by InvenTrust on behalf of the Company.

(4) In June 2016, the Company elected its prepayment option and repaid the outstanding balance of the mortgage loan of \$22.3 million.

In March 2016, the Company elected to exercise its rights under the terms of the mortgage loan to extend the (5) maturity date to March 23, 2017. In October 2016, the Company elected its prepayment option and repaid the outstanding balance of the mortgage loan. See additional discussion in Note 15.

XENIA HOTELS & RESORTS, INC.

Notes to Combined Condensed Consolidated Financial Statements (unaudited)

September 30, 2016

The hotel was sold in February 2016, and the related debt was paid off with proceeds from the sale. The \$27.8 million balance of the mortgage was included in liabilities associated with assets held for sale as of December 31, 2015.

In October 2016, the Company modified the loans collateralized by the Marriott Dallas City Center and the Hyatt Regency Santa Clara. The amendments resulted in \$11 million and \$30 million of additional proceeds, respectively, and extended the maturity dates to January 2022. See additional discussion in Note 15.

In August 2016, the Company entered into an interest rate swap agreement for the entire \$41.0 million mortgage loan to fix the interest rate at 2.98% for the remaining term of the loan.

In August 2016, the Company entered into an interest rate swap agreement for the entire \$38.0 million mortgage loan to fix the interest rate at 2.99% for the remaining term of the loan.

In January 2016, the Company entered into a \$60 million mortgage loan with an interest rate of LIBOR plus 260 basis points, maturing in January 2023. Simultaneously with the closing of the mortgage loan, the Company entered into an interest rate swap to fix the interest rate at 4.14% for the remaining term of the loan.

In February 2016, the Company refinanced the mortgage with a new loan bearing a 4.53% fixed interest rate and March 2026 maturity. Additional proceeds of approximately \$11 million were received under the refinanced terms of the mortgage, which increased the principal of the loan from approximately \$49 million to \$60 million.

Represents the weighted average interest rate as of September 30, 2016.

Loan premium/(discounts) on assumed mortgages recorded in purchase accounting.

LIBOR has been fixed for the entire term of the loan. The spread may vary, as it is determined by the Company's leverage ratio.

Funded \$125 million in January 2016 in connection with the acquisition of the Hotel Commonwealth.

In connection with repaying and refinancing mortgage loans during the three and nine months ended September 30, 2016, the Company incurred prepayment and extinguishment fees of approximately \$0.2 million and \$5.0 million which is included in the loss on extinguishment of debt in the accompanying combined condensed consolidated statements of operations and comprehensive income for the period ended September 30, 2016. The loss from extinguishment of debt represents the write off of unamortized deferred financing costs incurred when the original agreements were executed as well as loan premiums or discounts and termination penalty payments.

Debt outstanding as of September 30, 2016 and December 31, 2015 was \$1,176 million and \$1,131 million and had a weighted average interest rate of 3.39% and 3.51% per annum, respectively. Mortgage premiums and discounts were a net \$0.1 million and \$0.7 million as of September 30, 2016 and December 31, 2015, respectively. The following table shows scheduled debt maturities for the next five years and thereafter (in thousands):

	As of September 30, 2016	Weighted average interest rate
2016	\$ 83,000	5.51%
2017	46,925	3.65%
2018	168,462	2.71%
2019	332,344	2.86%
2020	62,385	3.24%
Thereafter	483,000	3.61%

Unamortized deferred financing costs, net	(6,915)	—
Total debt, net of mortgage loan discounts and unamortized deferred financing costs	\$ 1,169,128	3.39%

Of the total outstanding debt at September 30, 2016, approximately \$23.0 million of the mortgage loans were recourse to the Company. Certain loans have options to extend the maturity dates if exercised by the Company, subject to being compliant with certain covenants and the payment of an extension fee. Some of the mortgage loans require compliance with certain covenants, such as debt service coverage ratios, investment restrictions and distribution limitations. As of September 30, 2016, the Company was in compliance with all such covenants.

Senior Unsecured Credit Facility

Prior to the consummation of the spin-off transaction, the Company was allocated \$96 million of InvenTrust's revolving credit facility. Effective February 3, 2015, this allocation was terminated and the Company entered into a new \$400 million senior unsecured credit facility with a syndicate of banks. The new revolving credit facility includes an uncommitted accordion feature which, subject to certain conditions, allows the Company to increase the aggregate availability by up to an additional \$350 million. Borrowings under the revolving credit facility bear interest based on LIBOR plus a margin ranging from 1.50% to 2.45% (or, at the Company's election upon achievement of an investment grade rating from Moody's Investor Services, Inc. or Standard & Poor's Rating Services, interest based on LIBOR plus a margin ranging from 0.875% to 1.50%). In addition, until such election, the Company expects to pay an unused commitment fee of up to 0.30% of the unused portion of the credit facility based on the average daily unused portion of the credit facility; thereafter, the Company expects to pay a facility fee ranging between 0.125% and 0.35% based on the Company's debt rating.

As of September 30, 2016, there was no outstanding balance on the senior unsecured facility and during the three and nine months ended September 30, 2016, the Company incurred unused commitment fees of approximately \$0.3 million and \$0.9 million, respectively. For the three and nine months ended September 30, 2015, the Company incurred unused commitment fees of approximately \$0.2 million and \$0.7 million, respectively.

8. Derivatives

The Company primarily uses interest rate swaps as part of its interest rate risk management strategy. For derivative instruments designated as cash flow hedges, unrealized gains and losses on the effective portion are reported in accumulated other comprehensive income (loss), a component of stockholders' equity. Unrealized gains and losses on the ineffective portion of all designated hedges are recognized in earnings in the current period. At September 30, 2016, all derivative instruments were designated as cash flow hedges.

At September 30, 2016, the aggregate fair value of interest rate swap liabilities of \$9.9 million was included in other liabilities in the accompanying condensed consolidated balance sheet. For the three and nine months ended September 30, 2016, the Company had an unrealized gain of \$1.4 million and an unrealized loss of \$14.3 million, respectively, that is included in the combined condensed consolidated statements of operations and comprehensive income. For the three and nine months ended September 30, 2015, the Company had no unrealized gain or loss as hedging activities were initiated in the fourth quarter of 2015.

The following table summarizes the terms of the derivative financial instruments held by the Company and the liability and asset that has been recorded as of September 30, 2016 and December 31, 2015, respectively (in thousands)⁽¹⁾:

September 30, 2016

For the three and nine months ended September 30, 2016, the Company reclassified \$1.0 million and \$2.9 million, respectively, from accumulated other comprehensive loss to interest expense. The Company expects approximately \$3.1 million will be reclassified from accumulated other comprehensive loss to interest expense in the next 12 months.

9. Fair Value Measurements

In accordance with FASB ASC 820, Fair Value Measurement and Disclosures, the Company defines fair value based on the price that would be received upon sale of an asset or the exit price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company uses a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value. The fair value hierarchy consists of three broad levels, which are described below:

Level 1 - Quoted prices for identical assets or liabilities in active markets that the entity has the ability to access.

Level 2 - Observable inputs, other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The Company has estimated the fair value of its financial and non-financial instruments using available market information and valuation methodologies it believes to be appropriate for these purposes. Considerable judgment and a high degree of subjectivity are involved in developing these estimates and, accordingly, they are not necessarily indicative of amounts that would be realized upon disposition.

Recurring Measurements

For assets and liabilities measured at fair value on a recurring basis, quantitative disclosure of their fair value is as follows (in thousands):

Description	Fair Value	
	September 30, 2016	December 31, 2015
	Significant Unobservable Inputs (Level 2)	Significant Unobservable Inputs (Level 2)
Assets		
Interest rate swaps	\$—	\$ 1,820
Liabilities		
Interest rate swaps	(9,871)	(277)
Total	\$(9,871)	\$ 1,543

The fair value of each derivative instrument is based on a discounted cash flow analysis of the expected cash flows under each arrangement. This analysis reflects the contractual terms of the derivative instrument, including the period to maturity, and utilizes observable market-based inputs, including interest rate curves and implied volatilities, which are classified within level 2 of the fair value hierarchy. The Company also incorporates credit value adjustments to appropriately reflect each parties' nonperformance risk in the fair value measurement, which utilizes level 3 inputs such as estimates of current credit spreads. However, the Company has assessed that the credit valuation adjustments are not significant to the overall valuation of the derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified within level 2 of the fair value hierarchy.

Non-Recurring Measurements

Investment Properties

During the nine months ended September 30, 2016, the Company identified two hotel properties that had a reduction in their expected holding period and reviewed the probability of the assets' disposition. The Company recorded an impairment charge

18

XENIA HOTELS & RESORTS, INC.

Notes to Combined Condensed Consolidated Financial Statements (unaudited)

of \$10.0 million for the nine months ended September 30, 2016, based on the estimated fair value using purchase contracts and average selling costs. These properties were subsequently sold in May and June 2016, respectively. No impairments were recorded for the three and nine months ended September 30, 2015.

Financial Instruments Not Measured at Fair Value

The table below represents the fair value of financial instruments presented at carrying values in the combined condensed consolidated financial statements as of September 30, 2016 and December 31, 2015 (in thousands):

	September 30, 2016		December 31, 2015	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Mortgages payable	\$1,169,128	\$1,172,787	\$1,130,616	\$1,137,149
Total	\$1,169,128	\$1,172,787	\$1,130,616	\$1,137,149

The Company estimates the fair value of its mortgages payable using a weighted average effective interest rate of 3.44% and 3.48% per annum as of September 30, 2016 and December 31, 2015, respectively. The Company has determined that its debt instrument valuations are classified in Level 2 of the fair value hierarchy.

10. Income Taxes

The Company intends to operate in a manner that will allow the Company to qualify as a REIT under the Internal Revenue Code of 1986, as amended. To qualify as a REIT, the Company cannot operate or manage its hotels. So long as the Company qualifies for taxation as a REIT, it generally will not be subject to federal income tax on taxable income that is currently distributed to its stockholders. A REIT is subject to a number of organizational and operational requirements, including a requirement that it currently distribute at least 90% of its REIT taxable income (subject to certain adjustments) to its stockholders. If the Company fails to qualify as a REIT in any taxable year, without the benefit of certain relief provisions, the Company will be subject to federal, state and local income tax on its taxable income at regular corporate tax rates and will not be eligible to re-elect REIT status during the four years following the failure. Even if the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local taxes on its income, property or net worth and federal income and excise taxes on its undistributed income.

Accordingly, the Company, through its Operating Partnership, leases all of its hotels to subsidiaries of its TRS. The TRS is subject to federal, state and local income tax at regular corporate rates. Lease revenue at the REIT landlord subsidiaries and lease expense at the TRS lessees are eliminated in consolidation for financial statement purposes. The Company estimated the TRS income tax expense for the three and nine months ended September 30, 2016 using an estimated federal and state statutory combined rate of 39.37%. For the three and nine months ended September 30, 2016 the Company recognized income tax benefit of \$0.2 million and income tax expense of \$9.6 million, respectively.

During the three and nine months ended September 30, 2015, the Company recognized income tax benefit of \$0.1 million and expense of \$8.3 million, respectively, of which \$1.9 million of the expense for the nine months ended September 30, 2015 related to taxes on a one-time gain on the transfer of a hotel resulting in a more optimal structure in connection with the Company's intention to be taxed as a REIT.

For both the three and nine months ended September 30, 2016 and 2015, the Company's effective tax rate differed from the federal statutory rate predominately due to the dividends paid deduction, state income taxes, and changes to valuation allowances.

11. Stockholders' Equity

Common Shares

On February 4, 2015, in conjunction with the listing of the Company's Common Stock on the NYSE, the Company commenced a modified "Dutch Auction" self-tender offer (the "Tender Offer") to purchase for cash up to \$125 million in value of shares of the Company's Common Stock at a price not greater than \$21.00 nor less than \$19.00 per share, net to the seller in cash, less any applicable withholding of taxes and without interest. The Tender Offer expired on March

5, 2015. As a result of the Tender Offer, the Company accepted for purchase 1,759,344 shares of its Common Stock at a purchase price of \$21.00 per share, for an aggregate purchase price of \$36.9 million (excluding fees and expenses relating to the Tender Offer), which was funded from

cash on hand. The 1,759,344 shares of Common Stock accepted for purchase in the Tender Offer represented approximately 1.6% of the Company's Common Stock outstanding as of February 3, 2015, the last day prior to the commencement of the Tender Offer. Stockholders who properly tendered and did not properly withdraw shares of Common Stock in the Tender Offer at or below the final purchase price of \$21.00 per share had all of their tendered shares of Common Stock purchased by the Company at \$21.00 per share.

Stock Repurchase Program

In December 2015, the Company's Board of Directors authorized a stock repurchase program (the "Repurchase Program") pursuant to which we are authorized to purchase up to \$100 million of the Company's outstanding Common Stock, in the open market, in privately negotiated transactions or otherwise, including pursuant to Rule 10b5-1 plans. The Repurchase Program does not have an expiration date. The Company is not obligated to repurchase any dollar amount or any number of shares of common stock, and repurchases may be suspended or discontinued at any time. For the three and nine months ended September 30, 2016, 337,113 and 4,466,048 shares, respectively, had been repurchased under the Repurchase Program, at a weighted average price of \$16.44 and \$14.84, respectively, per share for an aggregate purchase price of \$5.5 million and \$66.3 million, respectively. As of September 30, 2016, the Company had approximately \$33.7 million remaining under its share repurchase authorization.

Distributions

Non-Controlling Interest of Common Units in Operating Partnership

As of September 30, 2016, the Operating Partnership had 1,378,573 long-term incentive partnership units ("LTIP units") outstanding, representing a 1.3% partnership interest held by the limited partners. Of the 1,378,573 LTIP units outstanding at September 30, 2016, 118,960 units had vested. Only vested LTIP units may be converted to common units of the Operating Partnership, which in turn can be tendered for redemption as described in Note 13.

As of September 30, 2016, the Company had accrued \$97 thousand in dividends related to the LTIP units, which were paid in October 2016.

12. Earnings Per Share

Basic earnings per common share is calculated by dividing income or loss available to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per common share is calculated by dividing income or loss available to common stockholders by the weighted-average number of common shares outstanding during the period, plus any shares that could potentially be outstanding during the period. Any anti-dilutive shares have been excluded from the diluted earnings per share calculation.

Unvested share-based awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are included in the computation of earnings per share pursuant to the two-class method. Accordingly, distributed and undistributed earnings attributable to unvested share-based compensation (participating securities) have been excluded, as applicable, from net income or loss available to common stockholders used in the basic and diluted earnings per share calculations.

Income allocated to non-controlling interest in the Operating Partnership has been excluded from the numerator and Common Units and vested LTIP Units in the Operating Partnership have been omitted from the denominator for the purpose of computing diluted earnings per share since including these amounts in the numerator and denominator would have no impact.

2014 Share Unit Plan

On September 17, 2014, the board of directors of InvenTrust and the Company's Board of Directors adopted and ratified the Xenia Hotels & Resorts, Inc. 2014 Share Unit Plan (the "2014 Share Unit Plan"). The 2014 Share Unit Plan provided for the grant of notional "share unit" awards to eligible participants. Refer to Exhibit 99.1 of the Company's Registration Statement on Form 10, filed on January 9, 2015, as amended, for additional information regarding the 2014 Share Unit Plan. The 2015 Incentive Award Plan, as defined below, replaced the 2014 Share Unit Plan in connection with the Company's separation from InvenTrust, and the 2014 Share Unit Plan was terminated in connection with the implementation of the 2015 Incentive Award Plan. Awards outstanding under the 2014 Share Unit Plan at the time of its termination will remain outstanding in accordance with their terms, and the terms and conditions of the 2014 Share Unit Plan will continue to govern such awards.

2015 Incentive Award Plan

On January 9, 2015, the Company adopted, and InvenTrust as its sole common stockholder approved, the Company's 2015 Incentive Award Plan (the "2015 Incentive Award Plan") effective as of February 2, 2015 (the date prior to the date of the Company's separation from InvenTrust), under which the Company may grant cash and equity incentive awards to eligible service providers in order to attract, motivate and retain the talent for which the Company competes. Refer to Exhibit 99.1 of the Company's Registration Statement on Form 10, filed on January 9, 2015, as amended, for additional information regarding the 2015 Incentive Award Plan. The plan allows for the grant of both share-based awards relating to the Company's Common Stock and partnership units ("LTIP units") in the Operating Partnership.

Restricted Stock Units

In March 2016, the Compensation Committee ("the Compensation Committee") of the Board of Directors of the Company granted share units to certain Company employees (the "2016 Restricted Stock Units"). The 2016 Restricted Stock Units

21

XENIA HOTELS & RESORTS, INC.

Notes to Combined Condensed Consolidated Financial Statements (unaudited)

September 30, 2016

include 104,079 restricted stock units that are time-based and vest over a three year period and 51,782 restricted stock units that are performance-based. Both the time-based and performance-based units are subject to continued employment and have a weighted average grant date fair value of \$13.09 per share.

In April 2016, the Compensation Committee of the Board of Directors of the Company granted an additional 26,738 time-based 2016 Restricted Stock Units to a new executive, with a grant date fair value of \$15.34, with 50% of the time-based 2016 Restricted Stock Units vesting on February 4, 2017 and the remaining 50% vesting on February 4, 2018.

Other than the new awards granted to a new executive, each time-based 2016 Restricted Stock Unit will vest as follows, subject to the employee's continued service through each applicable vesting date: 33% on February 4, 2017, which is the first anniversary of the vesting commencement date of the award (February 4, 2016), 33% on the second anniversary of the vesting commencement date, and 34% on the third anniversary of the vesting commencement date. Of the performance-based 2016 Restricted Stock Units, twenty-five percent (25%) are designated as absolute total stockholder return ("TSR") units (the "Absolute TSR Share Units"), and vest based on varying levels of the Company's TSR over the defined performance period. The other seventy-five percent (75%) of the performance-based 2016 Restricted Stock Units are designated as relative TSR share units (the "Relative TSR Share Units") and vest based on the ranking of the Company's TSR as compared to its defined peer group over the defined performance period.

LTIP Unit Grants

LTIP Units are a class of limited partnership units in the Operating Partnership. Initially the LTIP Units do not have full parity with common units of the Operating Partnership with respect to liquidating distributions. However, upon the occurrence of certain events described in the Operating Partnership's partnership agreement, the LTIP Units can over time achieve full parity with the common units for all purposes. If such parity is reached, vested LTIP Units may be converted into an equal number of common units on a one for one basis at any time at the request of the LTIP Unit holder or the general partner of the Operating Partnership. Common units are redeemable for cash based on the fair market value of an equivalent number of shares of the Company's Common Stock, or, at the election of the Company, an equal number of shares of the Company's Common Stock, each subject to adjustment in the event of stock splits, specified extraordinary distributions or similar events.

In March 2016, the Compensation Committee approved the issuance of 664,515 performance-based LTIP Units (the "2016 Class A LTIP Units") and 78,076 time-based LTIP Units (the "2016 Time-Based LTIP Units") of the Operating Partnership under the 2015 Incentive Award Plan that had a weighted average grant date fair value of \$7.86 per unit. In April 2016, the Compensation Committee approved the issuance of 110,179 2016 Class A LTIP Units and 12,945 2016 Time-Based LTIP Units to a new executive that had an average grant date fair value of \$7.85 per unit.

Each award of Time-Based LTIP Units will vest as follows, subject to the executive's continued service through each applicable vesting date: 33% on February 4, 2017, which is the first anniversary of the vesting commencement date of the award (February 4, 2016), 33% on the second anniversary of the vesting commencement date, and 34% on the third anniversary of the vesting commencement date.

In May 2016, pursuant to the Company's Director Compensation Program, as amended and restated as of September 17, 2015, the Company approved the issuance of 33,894 fully vested LTIP Units of the Operating Partnership under the 2015 Incentive Award Plan to the Company's seven non-employee directors with a weighted average grant date fair value of \$15.49.

A portion of each award of Class A LTIP Units is designated as a number of "base units." Twenty-five percent (25%) of the base units are designated as absolute TSR base units, and vest based on varying levels of the Company's TSR over the defined performance period. The other seventy-five percent (75%) of the base units are designated as relative TSR base units and vest based on the ranking of the Company's TSR as compared to its defined peer group over the defined performance period.

LTIP Units (other than Class A LTIP Units that have not vested), whether vested or not, receive the same quarterly per-unit distributions as common units in the Operating Partnership, which equal the per-share distributions on the

Common Stock of the Company. Class A LTIP Units that have not vested receive a quarterly per-unit distribution equal to 10% of the distribution paid on common units in the Operating Partnership.

(1)Includes time-based and performance-based units.

The fair value of the time-based awards is determined based on the closing price of the Company's Common Stock on the grant date and compensation expense is recognized on a straight-line basis over the vesting period. The grant date fair value of performance awards for the 2016 Restricted Stock Units and the 2016 Class A LTIP Units were determined based on a Monte Carlo simulation method with the following assumptions, and compensation expense is recognized on a straight-line basis over the performance period:

Performance Award Grant Date	Percentage of Total Award	Grant Date Fair Value by Component (in dollars)	Volatility	Interest Rate	Dividend Yield
March 17, 2016 and April 25, 2016					
Absolute TSR Restricted Stock Units	25%	\$6.88	31.42%	0.50% - 1.14%	7.12%
Relative TSR Restricted Stock Units	75%	\$8.85	31.42%	0.50% - 1.14%	7.12%
Absolute TSR Class A LTIPs	25%	\$7.06	31.42%	0.50% - 1.14%	7.12%
Relative TSR Class A LTIPs	75%	\$8.95	31.42%	0.50% - 1.14%	7.12%

The absolute and relative stockholder returns are market conditions as defined by ASC 718, Compensation - Stock Compensation. Market conditions include provisions wherein the vesting condition is met through the achievement of a specific value of the Company's Common Stock, which is total stockholder return in this case. Market conditions differ from other performance awards under ASC 718 in that the probability of attaining the condition (and thus vesting in the shares) is reflected in the initial grant date fair value of the award. Accordingly, it is not appropriate to reconsider the probability of vesting in the award subsequent to the initial measurement of the award, nor is it appropriate to reverse any of the expense if the condition is not met.

Therefore, once the expense for these awards is measured, the expense must be recognized over the service period regardless of whether the target is met, or at what level the target is met. Expense may only be reversed if the holder

of the instrument forfeits the award by leaving the employment of the Company prior to vesting. For the three and nine months ended September 30, 2016 the Company recognized approximately \$2.2 million and \$7.5 million, respectively, of share-based compensation expense (net of forfeitures) related to share units, restricted stock units, and LTIP Units provided to certain of its executive officers, other officers and members of management, which included \$1.2 million of accelerated share-based compensation expense related to management transition and severance agreements, \$0 and \$525 thousand was provided to the Company's Board of Directors, and capitalized approximately \$148 thousand and \$403 thousand, respectively, related to restricted stock units provided to certain members of management that oversee development and capital projects on behalf of the Company. As of September 30, 2016, there was \$12.7 million of total unrecognized

compensation costs related to non-vested restricted share units, Class A LTIP Units and Time-Based LTIP Units issued under the 2014 Share Unit Plan and the 2015 Incentive Award Plan, as applicable, which are expected to be recognized over a remaining weighted-average period of 1.8 additional years.

For the three and nine months ended September 30, 2015, the Company recognized \$0.0 and \$1.1 million, respectively, of share-based compensation expense related to stock payments under the 2014 Incentive Award Plan, of which \$1.1 million was provided to the Board of Directors and \$9 thousand was provided to certain executive officers. In addition, in connection with the 2014 Share Unit Plan and the 2015 Incentive Award Plan, during the three and nine months ended September 30, 2015 the Company recognized approximately \$1.4 million and \$4.0 million, respectively, in compensation expense related to Restricted Stock Units, Class A LTIP Units and Time-Based LTIPs provided to certain of its executive officers and members of management and capitalized approximately \$94 thousand and \$264 thousand, respectively, related to Restricted Stock Units provided to certain members of management that oversee development and capital projects on behalf of the Company. Additionally, this includes a cumulative catch up for compensation expense related to the fourth quarter of 2014 because the effectiveness of the grants was subject to the completion of the spin-off of the Company from InvenTrust, which occurred on February 3, 2015.

14. Commitments and Contingencies

Certain leases and operating agreements require the Company to reserve funds relating to replacements and renewals of the hotels' furniture, fixtures and equipment. As of September 30, 2016 and December 31, 2015, the Company had a balance of \$71.6 million and \$65.7 million, respectively, in reserves for such future improvements. This amount is included in restricted cash and escrows on the condensed consolidated balance sheet as of September 30, 2016.

In January 2016, the Company acquired the Hotel Commonwealth, which is subject to a long-term triple net ground lease. The ground lease expires in December 2087. The hotel is required to pay annual base rent of \$10 per year for the remaining term of the ground lease.

In September 2016, the Company commenced on the amended lease for its corporate office headquarters. The lease expires in September 2028, and requires the Company to make annual rental payments of approximately \$0.4 million which escalate over the term of lease.

The Company is subject, from time to time, to various legal proceedings and claims that arise in the ordinary course of business. While the resolution of these matters cannot be predicted with certainty, management believes, based on currently available information, that the final outcome of such matters will not have a material adverse effect on the financial condition of the Company.

In addition, in connection with the Company's separation from InvenTrust, on August 8, 2014, the Company entered into an Indemnity Agreement, as amended, with InvenTrust pursuant to which InvenTrust has agreed to the fullest extent allowed by law or government regulation, to absolutely, irrevocably and unconditionally indemnify, defend and hold harmless the Company and its subsidiaries, directors, officers, agents, representatives and employees (in each case, in such person's respective capacity as such) and their respective heirs, executors, administrators, successors and assignees from and against all losses, including but not limited to "actions" (as defined in the Indemnity Agreement), arising from: (1) the non-public, formal, fact-finding investigation by the SEC as described in InvenTrust's public filings with the SEC (the "SEC Investigation"); (2) the three related demands (including the Derivative Lawsuit described below) received by InvenTrust ("Derivative Demands") from stockholders to conduct investigations regarding claims similar to the matters that are subject to the SEC Investigation and as described in InvenTrust' public filings with the SEC; (3) the derivative lawsuit filed on March 21, 2013 on behalf of InvenTrust by counsel for stockholders who made the first Derivative Demand (the "Derivative Lawsuit"); and (4) the investigation by the Special Litigation Committee of the board of directors of InvenTrust. In each case, regardless of when or where the loss took place, or whether any such loss, claim, accident, occurrence, event or happening is known or unknown, and regardless of whether such loss, claim, accident, occurrence, event or happening giving rise to the loss existed prior to, on or after February 3, 2015, the separation date or relates to, arises out of or results from actions, inactions, events, omissions, conditions, facts or circumstances occurring or existing prior to, on or after February 3, 2015, the

separation date.

15. Subsequent Events

In October 2016, the Company elected its prepayment option under the terms of three hotel mortgage loans, each of which had maturities in either 2016 or 2017, and repaid the outstanding balances and accrued interest totaling \$130.7 million. In addition

24

Notes to Combined Condensed Consolidated Financial Statements (unaudited)

September 30, 2016

to these repayments, the Company modified two mortgage loans, which resulted in \$41 million of additional proceeds, and extended the maturity dates of the loan through January 2022.

Subsequent to quarter end and as of November 4, 2016, the Company repurchased an additional 402,715 shares for an aggregate purchase price of \$6.2 million. A total of 4,868,763 shares have been repurchased, at a weighted average price of \$14.88 per share, for total consideration of approximately \$72.5 million as of November 4, 2016.

In November 2016, the Company's Board of Directors authorized the repurchase of up to an additional \$75 million of the Company's outstanding common shares. Repurchases may be made in open market, in privately-negotiated transactions or by other means, including Rule 10b5-1 trading plans. This repurchase program may be suspended or discontinued at any time, and does not obligate the Company to acquire any particular amount of shares. Inclusive of this additional authorization, the Company had approximately \$102.5 million remaining under its total repurchase authorization as of November 4, 2016.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Certain statements in this Quarterly Report on Form 10-Q, other than purely historical information, are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These statements include statements about Xenia’s plans, objectives, strategies, financial performance and outlook, trends, the amount and timing of future cash distributions, prospects or future events and involve known and unknown risks that are difficult to predict. As a result, our actual financial results, performance, achievements or prospects may differ materially from those expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by the use of words such as “may,” “could,” “expect,” “intend,” “plan,” “seek,” “anticipate,” “believe,” “estimate,” “guidance,” “predict,” “potential,” “continue,” “likely,” “will,” “would,” “illustrative” and these terms and similar expressions, or the negative of these terms or similar expressions. Such forward-looking statements are necessarily based upon estimates and assumptions that, while considered reasonable by Xenia and its management based on their knowledge and understanding of the business and industry, are inherently uncertain. These statements are not guarantees of future performance, and stockholders should not place undue reliance on forward-looking statements. There are a number of risks, uncertainties and other important factors, many of which are beyond our control, that could cause our actual results to differ materially from the forward-looking statements contained in this Quarterly Report on Form 10-Q. Such risks, uncertainties and other important factors include, among others: the risks, uncertainties and factors set forth in our filings with the U.S. Securities and Exchange Commission, including our Annual Report on Form 10-K, as may be updated elsewhere in this report; and other Quarterly Reports on Form 10-Q that we have filed or will file with the SEC; business, financial and operating risks inherent to real estate investments and the lodging industry; seasonal and cyclical volatility in the lodging industry; macroeconomic and other factors beyond our control that can adversely affect and reduce demand for hotel rooms; contraction in the global economy or low levels of economic growth; levels of spending in business and leisure segments as well as consumer confidence; declines in occupancy and average daily rate; fluctuations in the supply and demand for hotel rooms; changes in the competitive environment in lodging industry and the markets where we own hotels; events beyond our control, such as war, terrorist attacks, travel-related health concerns and natural disasters; our reliance on third-party hotel management companies to operate and manage our hotels; our ability to maintain good relationships with our third-party hotel management companies and franchisers; our failure to maintain brand operating standards; our ability to maintain our brand licenses at our hotels; relationships with labor unions and changes in labor laws; loss of our senior management team or key personnel; our ability to identify and consummate acquisitions of additional hotels; our ability to integrate and successfully operate any hotel properties acquired in the future and the risks associates with these hotel properties; the impact of hotel renovations, repositioning, redevelopments and re-branding activities; our ability to access capital for renovations and acquisitions on terms and at times that are acceptable to us; the fixed cost nature of hotel ownership; our ability to service our debt; changes in interest rates and operating costs; compliance with regulatory regimes and local laws; uninsured or under insured losses, including those relating to natural disasters or terrorism; changes in distribution channels, such as through internet travel intermediaries; our status as an emerging growth company; the amount of debt that we currently have or may incur in the future; provisions in our debt agreements that may restrict the operation of our business; our separation from InvenTrust, our former parent; potential business conflicts of interests with InvenTrust; our organizational and governance structure; our status as a real estate investment trust (a “REIT”); our taxable REIT subsidiary (“TRS”) lessee structure; the cost of compliance with and liabilities under environmental, health and safety laws; adverse litigation judgments or settlements; changes in real estate and zoning laws and increase in real property tax rates; changes in federal, state or local tax law, including legislative, administrative, regulatory or other actions affecting REITs; changes in governmental regulations or interpretations thereof; and estimates relating to our ability to make distributions to our stockholders in the future.

These factors are not necessarily all of the important factors that could cause our actual financial results, performance, achievements or prospects to differ materially from those expressed in or implied by any of our forward-looking statements. Other unknown or unpredictable factors also could harm our results. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth above. Forward-looking statements speak only as of the date they are made, and we do not undertake or

assume any obligation to update publicly any of these forward-looking statements to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting forward-looking statements, except to the extent required by applicable laws. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements. The following discussion and analysis should be read in conjunction with the Company's Unaudited Combined Condensed Consolidated Financial Statements and accompanying notes, which appear elsewhere in this Quarterly Report on Form 10-Q.

Overview

Xenia Hotels & Resorts, Inc. ("we", "us", "our", "Xenia" or the "Company") is a self-advised and self-administered REIT that invests primarily in premium full service, lifestyle and urban upscale hotels, with a focus on the top 25 markets as well as key leisure destinations in the United States. A premium full service hotel refers to a hotel defined as "upper upscale" or "luxury" by STR Inc. ("STR"), but excluding hotels referred to as "lifestyle" hotels. A lifestyle hotel refers to an innovative hotel with a focus on providing a unique and individualized guest experience in a smaller footprint by combining traditional hotel services with modern technologies and placing an emphasis on local influence. An urban upscale hotel refers to a hotel located in an urban or similar high-density commercial area, such as a central business district, and defined as "upscale" or "upper midscale" by STR. As of September 30, 2016, we owned 46 hotels, 44 of which are wholly owned, comprising 11,594 rooms, across 20 states and the District of Columbia, and had a 75% ownership interest in two hotels owned through two consolidated investments in real estate entities. Our hotels are primarily operated by industry leaders such as Marriott®, Kimpton®, Hyatt®, Aston®, Fairmont®, Hilton® and Loews®, as well as leading independent management companies.

Basis of Presentation

On February 3, 2015, Xenia was spun off from InvenTrust Properties Corp. ("InvenTrust" formerly known as Inland American Real Estate Trust, Inc.), its former parent. Prior to the separation, we effectuated certain reorganization transactions which were designed to consolidate the ownership of our hotels into our operating partnership; consolidate our TRS lessees in our TRS; facilitate our separation from InvenTrust; and enable us to qualify as a REIT for federal income tax purposes. The accompanying combined condensed consolidated financial statements prior to the spin-off have been "carved out" of InvenTrust's consolidated financial statements and reflect significant assumptions and allocations. The combined condensed consolidated financial statements reflect our operations after giving effect to the reorganization transactions, the disposition of other hotels previously owned by us, and the spin-off, and include allocations of costs from certain corporate and shared functions provided to us by InvenTrust, as well as costs associated with participation by certain of our executives in InvenTrust's benefit plans. Corporate costs directly associated with our principal executive offices, personnel and other administrative costs are reflected as general and administrative expenses on the combined condensed consolidated statements of operations and comprehensive income. Additionally, prior to the spin-off, InvenTrust allocated to us a portion of its corporate overhead costs based upon our percentage share of the average invested assets of InvenTrust, which is reflected in general and administrative expenses. Based on these presentation matters, these financials may not be comparable to prior periods.

Our Revenues and Expenses

Our revenue is primarily derived from hotel operations, including room revenue, food and beverage revenue and other operating department revenue, which consists of parking, telephone, other guest services and tenant leases. Our operating costs and expenses consist of the costs to provide hotel services, including room expense, food and beverage expense, management fees and other direct and indirect operating expenses. Room expense includes housekeeping wages and associated payroll taxes, room supplies, laundry services and front desk costs. Food and beverage expense primarily includes the cost of food, beverages and associated labor. Other direct and indirect hotel expenses include labor and other costs associated with the other operating department revenue, as well as labor and other costs associated with general and administrative departments, sales and marketing, information technology and telecommunications, repairs and maintenance and utility costs. Our hotels are managed by independent, third-party management companies under long-term agreements under which the management companies typically earn base and incentive management fees based on the levels of revenues and profitability of each individual hotel.

Key Indicators of Operating Performance

We measure hotel results of operations and the operating performance of our business by evaluating financial and non-financial metrics such as RevPAR; average daily rate ("ADR"); occupancy rate ("occupancy" or "OCC"); earnings before interest, income taxes, depreciation and amortization ("EBITDA") and Adjusted EBITDA ("Adjusted EBITDA"); and funds from operations ("FFO") and Adjusted FFO ("Adjusted FFO"). We evaluate individual hotel and company-wide performance with comparisons to budgets, prior periods and competing properties. ADR, occupancy and RevPAR may be impacted by macroeconomic factors as well as regional and local economies and

events. See "Non-GAAP Financial Measures" for further discussion of the Company's use, definitions and limitations of EBITDA and FFO and Adjusted EBITDA and Adjusted FFO.

Results of Operations

Overview

During the three and nine months ended September 30, 2016, there were continued signs of softening trends in the overall US lodging industry. Overall US lodging industry demand increased during the third quarter of 2016, with demand growth slightly out pacing supply growth year to date, and increases in RevPAR continued to be driven by rate. As a result, the industry showed a moderate increase in RevPAR of 3.3% for the third quarter of 2016, driven by ADR growth of 3.4% and a flat occupancy as reported by STR. Our overall portfolio saw similar trends in RevPAR during the third quarter, with a majority of growth from prior year driven by rate and relatively flat occupancy. Our total portfolio RevPAR, which includes the results of hotels that were sold or acquired during the respective periods presented, increased 6.3% to \$156.63 and 5.8% to \$152.49 for the three and nine months ended September 30, 2016, respectively, compared to \$147.31 and \$144.11, for the three and nine months ended September 30, 2015, respectively. The increase in our total portfolio RevPAR during 2016 was partially driven by the moderate pricing increase in the overall US lodging industry but was primarily attributable to changes in our portfolio mix. During the second half of 2015, we acquired three high-quality hotels, opened two hotels that we developed and own through our two consolidated real estate entities and sold one hotel property. During the first quarter of 2016, we completed one hotel acquisition that further contributed to increases in the overall portfolio metrics. Additionally during 2016, we completed the dispositions of five hotels with an average RevPAR significantly below the remainder of our portfolio, which also helped to improve our overall portfolio metrics.

The total portfolio RevPAR for three and nine months ended September 30, 2016 was negatively impacted by the continued declines in our four Houston-area hotels attributable to the volatile energy markets and new supply. On average our Houston-area hotels had an average decrease of 24.5% in RevPAR for the quarter ended September 30, 2016 compared to 2015, which was driven by an 11.5% decrease in ADR and a decrease in occupancy of 1,094 basis points, and an average decrease of 16.4% in RevPAR for the nine months ended September 30, 2016 compared to 2015, driven by a 6.3% decrease in ADR and a decrease in occupancy of 830 basis points.

Net income attributable to common stockholders increased 11.9% and 37.6% for the three and nine months ended September 30, 2016 compared to 2015, primarily attributable to the one-time separation and other start-up related expenses incurred during 2015 as part of our spin-off to a publicly traded company offset by the provision for asset impairment and the loss on extinguishment of debt incurred during 2016. Adjusted EBITDA for the three and nine months ended September 30, 2016 decreased 2.4% and increased 1.6%, respectively, compared to 2015. Adjusted FFO for the third quarter decreased 2.5% and increased 0.5% for the nine months ended September 30, 2016, respectively, compared to 2015, which was primarily attributable to changes in our portfolio mix.

Our hotel portfolio has a focus on the top 25 markets as well as key leisure destinations in the United States. The following charts show the geographic diversification of our hotel properties as of September 30, 2016:

Room revenues

Room revenues decreased by \$8.8 million, or 5.0%, to \$167.1 million for the three months ended September 30, 2016 from \$175.9 million for the three months ended September 30, 2015, of which \$18.8 million was attributed to the disposition of one hotel in October 2015, one hotel in February 2016 and four hotels sold during the second quarter of 2016 and \$4.2 million was attributed to our hotel properties in the Houston-area. These decreases were offset by an increase of \$12.7 million, which was contributed by the acquisition of the Hotel Commonwealth in January 2016, the two hotel developments that began operations in the third and fourth quarter of 2015 and the three hotels acquired in July 2015. The remaining net increase of \$1.5 million was attributable to our remaining hotels that were owned during the three months ended September 30, 2016 and 2015.

Room revenues increased by \$5.6 million, or 1.1%, to \$507.4 million for the nine months ended September 30, 2016 from \$501.8 million for the nine months ended September 30, 2015, of which \$43.3 million was contributed by the acquisition of the Hotel Commonwealth in January 2016, the two hotel developments that began operations in the third and fourth quarter of 2015 and the three hotels acquired in July 2015. An additional net increase of \$9.4 million was contributed by several of our California hotels that were positively impacted by increased business levels resulting from their recent renovations, which was offset by renovation disruption at the Marriott Napa Valley Hotel & Spa during the first half of this year. These increases were offset by decreases of \$40.9 million attributed to the disposition of one hotel in October 2015, one hotel in February 2016 and four hotels sold during the second quarter of 2016 and \$9.1 million from our Houston-area hotels. The remaining net increase of \$2.9 million was attributable to our remaining hotels that were owned during the nine months ended September 30, 2016 and 2015.

Food and beverage revenues

Food and beverage revenues decreased by \$2.8 million, or 4.8%, to \$55.7 million for the three months ended September 30, 2016 from \$58.5 million for the three months ended September 30, 2015, of which \$6.1 million related to one hotel disposed of in October 2015, one hotel in February 2016, and the four hotels we sold during the second quarter of 2016 as well as a \$1.1 million net decrease attributable to the remainder of our portfolio. These decreases were offset by the \$4.4 million increase attributable to the acquisition of the Hotel Commonwealth in January 2016, the two hotel developments that began operations in the third and fourth quarter of 2015 and the three hotels acquired in July 2015.

Food and beverage revenues decreased by \$0.2 million, or 0.1%, to \$185.5 million for the nine months ended September 30, 2016 from \$185.7 million for the nine months ended September 30, 2015, of which \$15.7 million related to the disposition of one hotel in October 2015, one hotel in February 2016, and four hotels during the second quarter of 2016 as well as \$1.1 million attributed to our Houston-area hotels and a \$1.8 million net decrease attributable to the remainder of our portfolio. These decreases were offset by an increase of \$18.4 million attributable to the acquisition of the Hotel Commonwealth in January 2016, the two hotel developments that began operations in the third and fourth quarter of 2015 and the three hotels acquired in July 2015.

Other revenues

Other revenues decreased by \$2.9 million, or 20.5%, to \$11.2 million for the three months ended September 30, 2016 from \$14.1 million for the three months ended September 30, 2015, of which \$1.0 million of the decrease was attributable to the disposition of one hotel in October 2015, one hotel in February 2016, four hotels in the second

quarter of 2016 as well as a \$2.4 million decrease attributable to our Houston-area hotels, a reclassification of certain parking expenses from other direct expenses to other revenue, to be recorded on a net basis, and a net decrease attributable to the remainder of our portfolio. There decreases were offset by \$0.5 million in increases attributable the acquisition of the Hotel Commonwealth in January 2016, the

two hotel developments that began operations in the third and fourth quarter of 2015 and the three hotels acquired in July 2015.

Other revenues decreased by \$2.6 million, or 6.4%, to \$37.5 million for the nine months ended September 30, 2016 from \$40.1 million for the nine months ended September 30, 2015, of which \$5.1 million of the decrease was primarily attributable to the disposition of one hotel in October 2015, one hotel in February 2016, four hotels in the second quarter of 2016 and our Houston-area hotels in addition to a net overall decrease in the remainder of our portfolio and a reclassification of certain parking expenses from other direct expenses to other revenue. These decreases were offset by an increase of \$2.5 million attributable to the acquisition of the Hotel Commonwealth in January 2016, the two hotel developments that began operations in the third and fourth quarter of 2015 and the three hotels acquired in July 2015.

Hotel Operating Expenses

Hotel operating expenses consist of the following (in thousands):

	Three Months Ended September 30,				Nine Months Ended September 30,

Total hotel operating expenses

Total hotel operating expenses decreased \$12.5 million, or 8.1%, to \$143.1 million for the three months ended September 30, 2016 from \$155.7 million for the three months ended September 30, 2015, of which \$18.7 million was attributable to the disposition of one hotel in October 2015, one hotel in February 2016 and four hotels in the second quarter of 2016. Additionally, there was a decrease of \$2.4 million in hotel operating expenses attributed to our Houston-area hotels and \$1.5 million attributed to the remainder of our portfolio, which was partially due to the reclassification of parking expenses from other direct expenses to room revenues, to be recorded on a net basis. These decreases were offset by an increase of \$10.1 million primarily contributed by the acquisition of the Hotel Commonwealth in January 2016, the two hotel developments that began operations in the third and fourth quarter of 2015 and the three hotels acquired in July 2015. Room expense, food and beverage expense and other operating department costs fluctuate based on various factors, including occupancy, labor costs, utilities and insurance costs.

Total hotel operating expenses decreased \$0.6 million, or 0.1%, to \$452.3 million for the nine months ended September 30, 2016 from \$452.9 million for the nine months ended September 30, 2015, of which \$5.3 million was attributable to renovation disruption at the Marriott Napa Valley Hotel & Spa in the first half of this year, from our Houston-area hotels as well as an overall net decrease of \$0.1 million attributable to the remainder of our portfolio. Additional decreases of \$40.5 million were due to the to the disposition of one hotel in October 2015, one hotel in February 2016, and four sold in the second quarter of 2016. These decreases were offset by increases of \$41.0 million primarily attributable to the acquisition of the Hotel Commonwealth in January 2016, the two hotel developments that began operations in the third and fourth quarter of 2015 and the three hotels acquired in July 2015 and \$4.3 million attributable to several of our California hotels that were positively impacted by increased business levels resulting from their recent renovations, particularly as compared to the first half of 2015 when business was impacted by the disruption created by the renovations.

Depreciation and amortization

Depreciation and amortization expense increased \$5.0 million, or 4.5%, to \$115.1 million for the nine months ended September 30, 2016 from \$110.1 million for the nine months ended September 30, 2015, of which \$12.2 million of the increase was contributed by the acquisition of the Hotel Commonwealth in January 2016, the two hotel developments that began operations in the third and fourth quarter of 2015 and the three hotels acquired in July 2015. The remaining \$1.9 million increase is the result of capital expenditures to improve our properties offset by decreases of \$9.2 million attributed to the sale of one hotel in October 2015, one hotel in February 2016, and four hotels in the second quarter of 2016.

Real estate taxes, personal property taxes and insurance

Real estate taxes, personal property taxes and insurance expense decreased \$0.7 million, or 5.3%, to \$12.3 million for the three months ended September 30, 2016 from \$13.0 million for the three months ended September 30, 2015, of which \$1.5 million was attributable to the sale of one hotel in October 2015, one hotel in February 2016 and four hotels in the second quarter of 2016, offset by the \$1.1 million increase attributable to the acquisition of the Hotel Commonwealth in January 2016, the two hotel developments that began operations in the third and fourth quarter of 2015 and the three hotels acquired in July 2015. The remaining decrease of \$0.3 million was primarily attributable to a decrease in real estate taxes as a result of tax appeals and refunds and from property and casualty insurance for the remainder of our hotel portfolio.

Real estate taxes, personal property taxes and insurance expense decreased \$2.1 million, or 5.7%, to \$34.9 million for the nine months ended September 30, 2016 from \$37.0 million for the nine months ended September 30, 2015, of which \$2.9 million was attributable to the sale of one hotel in October 2015, one hotel in February 2016 and four in the second quarter of 2016, offset by \$2.5 million in increases from the acquisition of the Hotel Commonwealth in January 2016, the two hotel developments that began operations in the third and fourth quarter of 2015 and the three hotels acquired in July 2015. The remaining decrease of \$1.7 million was primarily attributable to a decrease in real estate taxes as a result of tax appeals and refunds and from property and casualty insurance for the remainder of our hotel portfolio.

Ground lease expense

Ground lease expense increased \$0.2 million, or 6.3%, to \$4.1 million for the nine months ended September 30, 2016 from \$3.9 million for the nine months ended September 30, 2015, primarily attributable to the acquisition of the Hotel

Commonwealth, which is subject to a ground lease, in January 2016, offset by the disposition of two hotels with ground leases during 2016.

General and administrative expenses

General and administrative expenses increased \$1.8 million, or 33.6%, to \$7.2 million for the three months ended September 30, 2016 from \$5.4 million for the three months ended September 30, 2015, which was primarily attributable to

salaries, stock compensation and employee related expenses, as well as costs related to the amended lease for the corporate office headquarters in 2016.

General and administrative expenses increased \$6.1 million, or 31.2%, to \$25.5 million for the nine months ended September 30, 2016 from \$19.4 million for the nine months ended September 30, 2015, of which \$3.1 million of the increase was primarily attributable to non-recurring management transition and severance costs incurred during the first quarter of 2016. The remaining increase was partially due to salaries, stock compensation and employment related expenses as well as costs related to the new office space leased in 2016.

Acquisition transaction costs

Acquisition transaction costs were \$0.1 million during the nine months ended September 30, 2016. Typically, acquisition transaction costs consist of legal fees, other professional fees, transfer taxes and other direct costs associated with our pursuit of hotel investments. As a result, these costs vary with our level of ongoing acquisition activity. The primary decrease during the nine months ended September 30, 2016 was attributable to the acquisition of three hotels in 2015 compared to one hotel in 2016.

Provision for asset impairment

During the nine months ended September 30, 2016, a provision for asset impairment of \$10.0 million was recorded on two hotels which were identified to have a reduction in their expected hold period when they met the held for sale criteria, and were written down to their estimated fair value, less costs to sell. The hotels were subsequently sold in May and June 2016, respectively. There were no asset impairments recorded for the three and nine months ended September 30, 2015.

Separation and other start-up related expenses

The \$0.4 million and \$26.9 million in separation and other start-up related expenses for the three and nine months ended September 30, 2015, respectively, related to fees paid to unrelated third parties attributable to one-time costs incurred related to our spin-off from InvenTrust, the listing of our Common Stock, on the NYSE, costs related to start-up costs incurred while transitioning to a stand-alone, publicly-traded company and related to the repurchase of common shares in a modified "Dutch Auction" self-tender offer (the "Tender Offer") that commenced in conjunction with the listing of the Company's Common Stock on the NYSE.

Results of Non-Operating Income and Expenses

Non-operating income and expenses consist of the following (in thousands):

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2016	2015	Increase / (Decrease)	Variance	2016	2015	Increase / (Decrease)	Variance

Net loss from discontinued operations	—	—	—	—	—	(489)	489	100.0 %
Gain (loss) on sale of investment properties								

The gain (loss) on sale of investment properties for the three and nine months ended September 30, 2016 was primarily related to the sale of one hotel in February. There were no sales during the three and nine months ended September 30, 2015.

Other income

Other income decreased \$2.5 million, or 73.0%, for the nine months ended September 30, 2016, which was primarily attributable to the involuntary loss and business interruption insurance recovery income of \$2.5 million that was received for the nine months ended September 30, 2015 and \$0.5 million of other expenses. These decreases were offset by an increase of \$0.5 million in other reimbursements income and a reduction in expenses related to termination of management agreements incurred in 2015.

Interest expense

Interest expense decreased \$0.1 million, or 1.0%, to \$12.4 million for the three months ended September 30, 2016 from \$12.5 million for the three months ended September 30, 2015 and \$0.7 million, or 1.8%, to \$38.0 million for the nine months ended September 30, 2016 from \$38.7 million for the nine months ended September 30, 2015. This was primarily the result of a lower weighted average interest rate of 3.39% for the nine months ended September 30, 2016 compared to 3.93% for the nine months ended September 30, 2015.

Loss on extinguishment of debt

Loss on extinguishment of debt was \$244 thousand for the three months ended September 30, 2016 which was related to the repayment of one mortgage loan during the quarter.

Loss on extinguishment of debt increased \$4.7 million to \$5.0 million for the nine months ended September 30, 2016 from \$0.3 million for the nine months ended September 30, 2015, which was attributable to the early repayment of one mortgage loan with proceeds from the sale of the property in February 2016, one mortgage loan in the first quarter of 2016, and one in the third quarter of 2016.

Income tax expense

Income tax expense increased \$1.3 million, or 15.2%, to \$9.6 million for the nine months ended September 30, 2016 from \$8.3 million for the nine months ended September 30, 2015, which was primarily attributable to increases in taxable income at the Company's taxable REIT subsidiary. In 2015, the Company utilized federal net operating loss ("NOL") carry forwards to offset current taxable income. These NOLs were fully utilized during 2015 and were no longer available to offset income tax expense in the first nine months of 2016. Additionally, in 2015, the Company incurred a one-time \$1.9 million income tax expense associated with transferring a hotel between entities in connection with electing REIT status.

Net loss from discontinued operations

Net loss from discontinued operations decreased \$489 thousand, or 100.0%, for the nine months ended September 30, 2016. In November 2014, 52 lodging properties were sold by InvenTrust (the "Suburban Select Service Portfolio"), which were properties previously overseen by the Company, and the sale represented a strategic shift and had a major effect on the Company's results of operations. During early 2015, \$489 thousand in carryover costs related to the Suburban Select Service Portfolio were incurred and have been presented as discontinued operations for the nine months ended September 30, 2015 combined condensed consolidated statements of operations and comprehensive income.

Liquidity and Capital Resources

We expect to meet our short-term liquidity requirements from cash on hand, cash flow from operations, borrowings under our unsecured revolving credit facility and the ability to refinance or extend our maturing debt as it becomes due. The objectives of our cash management policy are to maintain the availability of liquidity and minimize operational costs. Further, we have an investment policy that is focused on the preservation of capital and maximizing the return on new and existing investments.

On a long-term basis, our objectives are to maximize revenue and profits generated by our existing properties and acquired hotels, to further enhance the value of our portfolio and produce an attractive current yield, as well as to generate sustainable and predictable cash flow from our operations to distribute to our stockholders. To the extent we are able to successfully improve the performance of our portfolio, we believe this will result in increased operating cash flows. Additionally, we may meet our long-term liquidity requirements through additional borrowings, the issuance of equity and debt securities, and/or proceeds from the sales of hotels.

We may, from time to time, seek to retire or purchase additional amounts of our outstanding equity through cash purchases and/or exchanges for other securities in open market purchases, privately negotiated transactions or otherwise, including pursuant to a Rule 10b5-1 plan. Such repurchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material. In December 2015, the Company's Board of

Directors authorized a share repurchase program pursuant to which we are authorized to purchase up to \$100 million of the Company's outstanding common stock, par value \$0.01, per share, in the open market, in privately negotiated transactions or otherwise, including pursuant to Rule 10b5-1 plans (the "Repurchase Program"). The Repurchase Program does not have an expiration date. The Company is not obligated to repurchase any dollar amount or any number of shares of common stock, and repurchases may be suspended or discontinued at any time.

For the three and nine months ended September 30, 2016, 337,113 and 4,466,048 shares had been repurchased under the Repurchase Program, at a weighted average price of \$16.44 and \$14.84, respectively, per share, for an aggregate purchase price of \$66.3 million. As of September 30, 2016, the Company had approximately \$33.7 million remaining under its share repurchase authorization.

As of September 30, 2016, we had \$185.3 million of consolidated cash and cash equivalents and \$85.6 million of restricted cash and escrows. The restricted cash as of September 30, 2016 primarily consists of cash held in restricted escrows of \$5.1 million for real estate taxes and insurance, \$8.9 million in disposition related escrow and capital spending reserves, and \$71.6 million related to lodging furniture, fixtures and equipment reserves as required per the terms of our management and franchise agreements.

Credit facility

We have a \$400 million unsecured revolving credit facility with a syndicate of banks. The revolving credit facility includes an uncommitted accordion feature which, subject to certain conditions, allows us to increase the aggregate availability by up to an additional \$350 million. As of September 30, 2016, we had no outstanding balance under the unsecured revolving credit facility.

Unsecured Term Loans and Mortgages

In January 2016, we borrowed \$125 million on the unsecured term loan with an interest rate of LIBOR plus the applicable rate, as defined per the respective agreement, maturing in October 2022. In December 2015, the Company entered into forward starting swap agreements to fix LIBOR at 1.83% for the entire term of the loan. The term loan was obtained in October 2015, however, funding was delayed until January 2016 in connection with the acquisition of the Hotel Commonwealth.

Additionally, in January 2016, the Company obtained a \$60 million mortgage loan with an interest rate of LIBOR plus 260 basis points and maturing in January 2023. Simultaneously with the closing of the mortgage, the Company entered into an interest rate swap to fix the interest rate at 4.14% for the remaining term of the loan.

In February 2016, we refinanced one mortgage loan to fix the interest rate at 4.53% and extend maturity to March 2026. Additional proceeds of approximately \$11 million were received under the refinanced terms of the mortgage, which increased the principal of the loan from approximately \$49 million to \$60 million.

In March 2016, we elected to exercise our right under the terms of one of our mortgage loan to extend the maturity date to March 2017.

In August 2016, the Company entered into an interest rate swap agreement for a \$41.0 million mortgage loan to fix the interest rate at 2.98% for the remaining term of the loan.

Also in August 2016, the Company entered into an interest rate swap agreement for a \$38.0 million mortgage loan to fix the interest rate at 2.99% for the remaining term of the loan.

During the nine months ended September 30, 2016, we paid off three hotel mortgage loans totaling \$147.0 million with proceeds from asset sales and cash on hand. As of September 30, 2016, our outstanding debt was \$1,176 million and had a weighted average interest rate of 3.39%.

Sources and Uses of Cash

Our principal sources of cash are cash flows generated from operations and borrowings under debt financings, including draws on our revolving credit facility. We may also obtain cash from various types of equity offerings or the sale of our hotels. Our principal uses of cash are asset acquisitions, capital investments, routine debt service and debt repayments, operating costs, corporate expenses and dividends. We may also elect to use cash to buy back our common stock under the Repurchase Program.

Comparison of the Nine Months Ended September 30, 2016 to the Nine Months Ended September 30, 2015

The table below presents summary cash flow information for the combined condensed consolidated statements of cash flows (in thousands):

	Nine Months Ended	
	September 30,	
	2016	2015
Net cash flows provided by operating activities	\$172,573	\$141,690
Net cash flows used in investing activities	(2,239)	(331,589)
Net cash flows (used in) provided by financing activities	(107,177)	126,276
Increase (decrease) in cash and cash equivalents	63,157	(63,623)
Cash and cash equivalents, at beginning of period	122,154	163,053
Cash and cash equivalents, at end of period	\$185,311	\$99,430

Operating

Cash provided by operating activities was \$172.6 million and \$141.7 million for the nine months ended September 30, 2016 and 2015, respectively. Cash provided by operating activities for the nine months ended September 30, 2016 increased due to (i) the non-recurring separation and other start-up related expenses of \$26.9 million that were incurred in 2015 related to our separation from InvenTrust and (ii) an increase in cash flows generated from our hotel portfolio including cash flows generated by the three hotels acquired in July 2015, the two hotel developments that began operations in the third and fourth quarter of 2015, and the acquisition of the Hotel Commonwealth in January 2016. These increases were offset by lost operating cash flow attributable to the sale of one hotel in October 2015 and five hotels during the nine months ended September 30, 2016.

Investing

Cash used investing activities was \$2.2 million and \$331.6 million for the nine months ended September 30, 2016, and 2015, respectively. Cash provided by investing activities for the nine months ended September 30, 2016 was primarily due to proceeds of \$161.1 million from the sale of five hotels in the nine months ended September 30, 2016, which was offset by cash used in investing activities for (i) \$38.1 million in capital improvements at our hotel properties and (ii) the acquisition of the Hotel Commonwealth for net cash at closing of \$116 million. Cash used in investing activities during the nine months ended September 30, 2015 was primarily due to capital improvements at our hotels and two development properties and the initial deposit on the acquisition of the Hotel Commonwealth.

Financing

Cash used in financing activities was \$107.2 million and cash provided by financing was \$126.3 million for the nine months ended September 30, 2016, and 2015, respectively. Cash used in financing activities for the nine months ended September 30, 2016 was primarily comprised of (i) cash used for mortgage principal payments of \$4.4 million, (ii) the payoff of \$147.0 million in mortgage loans, (iii) \$66.3 million used to repurchase common shares under the Repurchase Program and (iv) the payment of \$85.3 million in dividends to common stockholders and Operating Partnership unit holders, which was partially offset (v) by proceeds from mortgage debt of \$71.3 million and the \$125 million funding of the term loan in January 2016. Cash provided by financing activities for the nine months ended September 30, 2015 was primarily comprised of (i) a net contribution of \$153.3 million from InvenTrust, (ii) net borrowings on our revolving credit facility of \$117 million, (iii) and proceeds from mortgage debt of \$19.6 million, which was partially offset by (iv) cash used for mortgage principal payments of \$6.7 million, (v) the payoff of \$81.5 million in mortgage loans, (vi) \$36.9 million related to the repurchase of common shares in the Tender Offer and (vii) \$42.2 million dividends to common stockholders.

Capital Expenditures and Reserve Funds

We maintain each of our properties in good repair and condition and in conformity with applicable laws and regulations, franchise agreements and management agreements. Routine capital expenditures are administered by the property management companies. However, we have approval rights over the capital expenditures as part of the annual budget process for each of our properties. From time to time, certain of our hotels may be undergoing renovations as a result of our decision to upgrade portions of the hotels, such as guest rooms, public space, meeting space and/or restaurants, in order to better compete with other hotels in our markets. In addition, upon the acquisition of a hotel we often are required to complete a property improvement plan in order to bring the hotel up to the

respective brand standards. If permitted by the terms of the management agreement, funding for a renovation will first come from the furniture, fixtures and equipment reserves. We are obligated to maintain reserve funds with respect to certain agreements with our hotel management companies, franchisors and lenders to provide

funds, generally 3% to 5% of hotel revenues, sufficient to cover the cost of certain capital improvements to the hotels and to periodically replace and update furniture, fixtures and equipment. Certain of the agreements require that we reserve this cash in separate accounts. To the extent that the furniture, fixtures and equipment reserves are not available or adequate to cover the cost of the renovation, we may fund a portion of the renovation with cash on hand, borrowings from our unsecured revolving credit facility and/or other sources of available liquidity. As of September 30, 2016 and December 31, 2015, we held a total of \$71.6 million and \$65.7 million, respectively, of furniture, fixtures and equipment reserves. We have been and will continue to be prudent with respect to our capital spending, taking into account our cash flows from operations.

During the three and nine months ended September 30, 2016, we made total capital expenditures of \$17.3 million and \$38.1 million. During the three and nine months ended September 30, 2015, we made total capital expenditures of \$9.9 million and \$40.9 million, including \$2.7 million for Napa hotel earthquake repairs.

Contractual Obligations

The table below presents, on a combined consolidated basis, obligations and commitments to make future payments under debt obligations (including interest) and lease agreements as of September 30, 2016 (in thousands):

	Total	Payments due by period			
		Less than 1 year	1-3 years	3-5 years	More than 5 years

Off-Balance Sheet Arrangements

As of September 30, 2016, we have no off-balance sheet arrangements.

Non-GAAP Financial Measures

We consider the following non-GAAP financial measures useful to investors as key supplemental measures of our operating performance: EBITDA, Adjusted EBITDA, FFO and Adjusted FFO. These non-GAAP financial measures should be considered along with, but not as alternatives to, net income or loss, operating profit, cash from operations, or any other operating performance measure as prescribed per GAAP.

EBITDA and Adjusted EBITDA

EBITDA is a commonly used measure of performance in many industries and is defined as net income or loss (calculated in accordance with GAAP) excluding interest expense, provision for income taxes (including income taxes applicable to sale of assets) and depreciation and amortization. We consider EBITDA useful to an investor regarding our results of operations, in evaluating and facilitating comparisons of our operating performance between periods and between REITs by removing the impact of our capital structure (primarily interest expense) and asset base (primarily depreciation and amortization) from our operating results, even though EBITDA does not represent an amount that accrues directly to common stockholders. In addition, EBITDA is used as one measure in determining the value of hotel acquisitions and dispositions and along with FFO and Adjusted FFO, it is used by management in the annual budget process for compensation programs. We present EBITDA attributable to common stock and unit holders, which includes our Operating Partnership units because our Operating Partnership units may be redeemed for common stock. We believe it is meaningful for the investor to understand EBITDA attributable to all common stock and Operating Partnership units.

We further adjust EBITDA for certain additional items such as hotel property acquisitions and pursuit costs, amortization of share-based compensation, equity investment adjustments, the cumulative effect of changes in accounting principles, impairment of real estate assets, operating results from properties sold and other costs we believe do not represent recurring operations and are not indicative of the performance of our underlying hotel

property entities. We believe Adjusted EBITDA provides investors with another financial measure in evaluating and facilitating comparison of operating performance between periods and between REITs that report similar measures.

FFO and Adjusted FFO

We calculate FFO in accordance with standards established by the National Association of Real Estate Investment Trusts (NAREIT), which defines FFO as net income or loss (calculated in accordance with GAAP), excluding real estate-related depreciation, amortization and impairments, gains (losses) from sales of real estate, the cumulative effect of changes in accounting principles, similar adjustments for unconsolidated partnerships and joint ventures, and items classified by GAAP as extraordinary. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, most industry investors consider presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. We believe that the presentation of FFO provides useful supplemental information to investors regarding our operating performance by excluding the effect of real estate depreciation and amortization, gains (losses) from sales for real estate, impairments of real estate assets, extraordinary items and the portion of these items related to unconsolidated entities, all of which are based on historical cost accounting and which may be of lesser significance in evaluating current performance. We believe that the presentation of FFO can facilitate comparisons of operating performance between periods and between REITs, even though FFO does not represent an amount that accrues directly to common stockholders. Our calculation of FFO may not be comparable to measures calculated by other companies who do not use the NAREIT definition of FFO or do not calculate FFO per diluted share in accordance with NAREIT guidance. Additionally, FFO may not be helpful when comparing us to non-REITs. We present FFO attributable to common stock and unit holders, which includes our Operating Partnership units because our Operating Partnership units may be redeemed for common stock. We believe it is meaningful for the investor to understand FFO attributable to all common stock and Operating Partnership units. We further adjust FFO for certain additional items that are not in NAREIT's definition of FFO such as hotel property acquisition and pursuit costs, amortization of debt origination costs and share-based compensation, operating results from properties that are sold and other expenses we believe do not represent recurring operations. We believe that Adjusted FFO provides investors with useful supplemental information that may facilitate comparisons of ongoing operating performance between periods and between REITs that make similar adjustments to FFO and is beneficial to investors' complete understanding of our operating performance.

Use and Limitations of Non-GAAP Financial Measures

EBITDA, Adjusted EBITDA, FFO, and Adjusted FFO do not represent cash generated from operating activities under GAAP and should not be considered as alternatives to net income or loss, operating profit, cash flows from operations or any other operating performance measure prescribed by GAAP. Although we present and use EBITDA, Adjusted EBITDA, FFO and Adjusted FFO because we believe they are useful to investors in evaluating and facilitating comparisons of our operating performance between periods and between REITs that report similar measures, the use of these non-GAAP measures has certain limitations as analytical tools. These non-GAAP financial measures are not measures of our liquidity, nor are they indicative of funds available to fund our cash needs, including our ability to fund capital expenditures, contractual commitments, working capital, service debt or make cash distributions. These measurements do not reflect cash expenditures for long-term assets and other items that we have incurred and will incur. These non-GAAP financial measures may include funds that may not be available for management's discretionary use due to functional requirements to conserve funds for capital expenditures, property acquisitions, and other commitments and uncertainties. These non-GAAP financial measures as presented may not be comparable to non-GAAP financial measures as calculated by other real estate companies.

We compensate for these limitations by separately considering the impact of these excluded items to the extent they are material to operating decisions or assessments of our operating performance. Our reconciliations to the most comparable GAAP financial measures, and our combined condensed consolidated statements of operations and comprehensive income, include interest expense, and other excluded items, all of which should be considered when evaluating our performance, as well as the usefulness of our non-GAAP financial measures. These non-GAAP financial measures reflect additional ways of viewing our operations that we believe, when viewed with our GAAP results and the reconciliations to the corresponding GAAP financial measures, provide a more complete understanding of factors and trends affecting our business than could be obtained absent this disclosure. We strongly encourage investors to review our financial information in its entirety and not to rely on a single financial measure.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of our financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts may differ significantly from these estimates and assumptions. We evaluate our estimates, assumptions and judgments are reasonable and appropriate on an ongoing basis, based on information that is then available to us as well as our experience and various matters. All of our significant accounting policies, including certain critical accounting policies, are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015 and Note 2 in the combined condensed consolidated financial statements included herein.

Inflation

We rely on the performance of the hotels to increase revenues to keep pace with inflation. Generally, our hotel operators possess the ability to adjust room rates daily, except for group or corporate rates contractually committed to in advance, although competitive pressures may limit the ability of our operators to raise rates faster than inflation or even at the same rate.

Seasonality

Demand in the lodging industry is affected by recurring seasonal patterns which are greatly influenced by overall economic cycles, the geographic locations of the hotels and the customer mix at the hotels. Generally, our hotels will have lower revenue, operating income and cash flow in the first quarter and higher revenue, operating income and cash flow in the third quarter.

Subsequent Events

In October 2016, the Company elected its prepayment option under the terms of three hotel mortgage loans, which had maturities in 2016 and 2017, and repaid the outstanding balances and accrued interest totaling \$130.7 million. In addition to these repayments, the Company modified two mortgage loans, which resulted in \$41 million of additional proceeds, and extended the maturity dates to January 2022.

Subsequent to quarter end and as of November 4, 2016, the Company repurchased an additional 402,715 shares for an aggregate purchase price of \$6.2 million. A total of 4,868,763 shares have been repurchased, at a weighted average price of \$14.88 per share, for total consideration of approximately \$72.5 million as of November 4, 2016.

In November 2016, the Company's Board of Directors authorized the repurchase of up to an additional \$75 million of the Company's outstanding common shares. Repurchases may be made in open market, in privately-negotiated transactions or by other means, including Rule 10b5-1 trading plans. This repurchase program may be suspended or discontinued at any time, and does not obligate the Company to acquire any particular amount of shares. Inclusive of this additional authorization, the Company had approximately \$102.5 million remaining under its total repurchase authorization as of November 4, 2016.

New Accounting Pronouncements Not Yet Implemented

See Note 2 to our combined condensed consolidated financial statements included herein for additional information related to recently issued accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to market risk associated with changes in interest rates both in terms of variable-rate debt and the price of new fixed-rate debt upon maturity of existing debt and for acquisitions. Our interest rate risk management objectives are to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. If market rates of interest on all of the variable rate debt as of September 30, 2016 permanently increased or decreased by 1%, the increase or decrease in interest expense on the variable rate debt would decrease or increase future earnings and cash flows by approximately \$5.0 million per annum. If market rates of interest on all of the variable rate debt as of December 31, 2015 permanently increased or decreased by 1%, the increase or decrease in interest expense on the variable rate debt would decrease or increase future earnings and cash flows by approximately \$5.8 million per annum.

With regard to our variable rate financing, we assess interest rate cash flow risk by continually identifying and monitoring changes in interest rate exposures that may adversely impact expected future cash flows and by evaluating hedging opportunities. We maintain risk management control systems to monitor interest rate cash flow risk attributable to both of our outstanding or forecasted debt obligations as well as our potential offsetting hedge positions. The risk management control systems involve the use of analytical techniques, including cash flow sensitivity analysis, to estimate the expected impact of changes in interest rates on our future cash flows.

We monitor interest rate risk using a variety of techniques, including periodically evaluating fixed interest rate quotes on all variable rate debt and the costs associated with converting the debt to fixed rate debt. Also, existing fixed and variable rate loans that are scheduled to mature in the next year or two are evaluated for possible early refinancing or extension due to consideration given to current interest rates. We have taken significant steps in reducing our variable rate debt exposure by paying off property-level mortgage debt and entering into various interest rate swap agreements to hedge the interest rate exposure risk related to several variable rate loans. Refer to Note 7 in the combined consolidated financial statements included herein, for our debt principal amounts and weighted average interest rates by year and expected maturity to evaluate the expected cash flows and sensitivity to interest rate changes. Refer to Note 8 in the combined consolidated financial statements included herein for more information on our interest rate swap derivatives.

We may continue to use derivative instruments to hedge exposures to changes in interest rates on loans secured by our properties. To the extent we do, we are exposed to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. We maintain credit policies with regard to our counterparties that we believe reduce overall credit risk. These policies include evaluating and monitoring our counterparties' financial condition, including their credit ratings, and entering into agreements with counterparties based on established credit limit policies. Market risk is the adverse effect on the value of a financial instrument that results from a change in interest rates. The market risk associated with interest-rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

The following table provides information about our financial instruments that are sensitive to changes in interest rates. For debt obligations outstanding as of September 30, 2016, the following table presents principal repayments and related weighted-average interest rates by contractual maturity dates (in thousands):

Item 4. Controls and Procedures

Disclosure Controls and Procedures. As required by Rules 13a-15(b) and 15d-15(b) under the Exchange Act, our management, including our principal executive officer and our principal financial officer evaluated, as of the end of the period covered by this quarterly report, the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and Rule 15d-15(e) of the Exchange Act. Based on that evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures, as of the end of the period covered by this quarterly report, were effective at a reasonable assurance level for the purpose of ensuring that information required to be disclosed by us in this quarterly report is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Exchange Act and is accumulated and communicated to management, including our principal executive officer and our principal financial officer as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting. There has been no change in the Company's internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

We are involved in various claims and lawsuits arising in the normal course of business, including proceedings involving tort and other general liability claims, workers' compensation and other employee claims and claims related to our ownership of certain hotel properties. Most occurrences involving liability, claims of negligence and employees are covered by insurance with solvent insurance carriers. We recognize a liability when we believe the loss is probable and reasonably estimable. We currently believe that the ultimate outcome of such lawsuits and proceedings will not, individually or in the aggregate, have a material effect on our combined condensed consolidated financial position, results of operations or liquidity.

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in response to Item 1A. to Part I of our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.
