NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Organization and principal accounting policies

Signet Jewelers Limited (“Signet” or the “Company”), a holding company incorporated in Bermuda, is the world's largest retailer of diamond jewelry. The Company operates through its 100% owned subsidiaries with sales primarily in the US, UK and Canada. Signet manages its business as five reportable segments, the Sterling Jewelers division, the Zale division, which consists of Zale Jewelry and Piercing Pagoda, the UK Jewelry division and the Other reportable segment. The Sterling Jewelers division operates retail stores under brands including Kay Jewelers, Kay Jewelers Outlet, Jared The Galleria Of Jewelry, Jared Vault and various regional brands. The Zale Jewelry retail stores operate under brands including Zales Jewelers, Zales Outlet, Peoples Jewellers and various regional brands, while Piercing Pagoda operates through mall-based kiosks. The UK Jewelry division's retail stores operate under brands including H.Samuel and Ernest Jones. The Other reportable segment consists of all non-reportable segments, including subsidiaries involved in the purchasing and conversion of rough diamonds to polished stones and unallocated corporate administrative functions. See Note 4 for additional discussion of the Company's segments.

Signet's sales are seasonal, with the first quarter slightly exceeding 20% of annual sales, the second and third quarters each approximating 20% and the fourth quarter accounting for almost 40% of annual sales, with December being by far the most important month of the year. The “Holiday Season” consists of results for the months of November and December. As a result, approximately 45% to 55% of Signet's annual operating income normally occurs in the fourth quarter, comprised of nearly all of the UK Jewelry and Zale divisions' annual operating income and about 40% to 45% of the Sterling Jewelers division's annual operating income.

Basis of preparation

These condensed consolidated financial statements included herein have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) have been condensed or omitted from this report, as is permitted by such rules and regulations. In the opinion of management, the accompanying condensed consolidated financial statements reflect all adjustments, which are of a normal recurring nature, necessary for a fair presentation of the results for the interim periods. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and notes included in Signet's Annual Report on Form 10-K for the year-ended January 31, 2015.

Use of estimates

The preparation of these condensed consolidated financial statements, in conformity with US GAAP and SEC regulations for interim reporting, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are primarily made in relation to the valuation of accounts receivables, inventories, deferred revenue, derivatives, employee benefits, income taxes, contingencies, and asset impairments, as well as estimates utilized for the depreciation and amortization of long-lived assets and the accounting for business combinations.

Fiscal year

The Company's fiscal year ends on the Saturday nearest to January 31st. Fiscal 2016 is the 52 week year ending January 30, 2016 and Fiscal 2015 was the 52 week year ended January 31, 2015. Within these condensed consolidated financial statements, the first quarter of the relevant fiscal years 2016 and 2015 refer to the 13 weeks ended May 2, 2015 and May 3, 2014, respectively.

Foreign currency translation

The financial position and operating results of foreign operations are consolidated using the local currency as the functional currency. Assets and liabilities are translated at the rates of exchange on the balance sheet date, and revenues and expenses are translated at the monthly average rates of exchange during the period. Resulting translation

gains or losses are included in the accompanying condensed consolidated statements of equity as a component of accumulated other comprehensive income (loss) ("AOCI"). Gains or losses resulting from foreign currency transactions are included within the condensed consolidated income statements, whereas translation adjustments and gains or losses related to intercompany loans of a long-term investment nature are recognized as a component of AOCI.

Revenue recognition

Extended service plans and lifetime warranty agreements

The Company recognizes revenue related to lifetime warranty sales in proportion to when the expected costs will be incurred. The deferral period for lifetime warranty sales in each division is determined from patterns of claims costs, including estimates of future claims costs expected to be incurred. Management reviews the trends in claims to assess whether changes are required to the revenue and cost recognition rates utilized. A significant change in estimates related to the time period or pattern in which warranty-related costs are expected to be incurred could materially

Table of Contents

impact revenues. All direct costs associated with the sale of these plans are deferred and amortized in proportion to the revenue recognized and disclosed as either other current assets or other assets.

The Sterling Jewelers division sells extended service plans, subject to certain conditions, to perform repair work over the lifetime of the product. Revenue from the sale of these lifetime extended service plans is deferred and recognized over 14 years, with approximately 43% of revenue recognized within the first two years (January 31, 2015: 45%; May 3, 2014: 45%).

The Sterling Jewelers division also sells a Jewelry Replacement Plan (“JRP”). The JRP is designed to protect customers from damage or defects of purchased merchandise for a period of three years. If the purchased merchandise is defective or becomes damaged under normal use in that time period, the item will be replaced. JRP revenue is deferred and recognized on a straight-line basis over the period of expected claims costs.

The Zale division also sells extended service plans. Zale Jewelry customers are offered lifetime warranties on certain products that cover sizing and breakage with an option to purchase theft protection for a two-year period. Revenue from the sale of lifetime extended service plans is deferred and recognized over 10 years, with approximately 69% of revenue recognized within the first two years (January 31, 2015: 69%). Revenues related to the optional theft protection are deferred and recognized over the two-year contract period on a straight-line basis. Zale Jewelry customers are also offered a two-year watch warranty and a one-year warranty that covers breakage. Piercing Pagoda customers are also offered a one-year warranty that covers breakage. Revenue from the two-year watch warranty and one-year breakage warranty is recognized on a straight-line basis over the respective contract terms.

Signet also sells warranty agreements in the capacity of an agent on behalf of a third-party. The commission that Signet receives from the third-party is recognized at the time of sale less an estimate of cancellations based on historical experience.

Reclassification

The Company has reclassified the presentation of certain prior year amounts to conform to the current year presentation. See Note 6.

2. New accounting pronouncements

New accounting pronouncements to be adopted in future periods

Revenue recognition

In May 2014, the FASB issued ASU No. 2014-09, “Revenue from Contracts with Customers (Topic 606).” The new guidance affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets, unless those contracts are within the scope of other standards (for example, insurance contracts or lease contracts). The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU No. 2014-09 provides alternative methods of retrospective adoption and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is not permitted. Signet is currently assessing the impact, if any, as well as the available methods of implementation, that the adoption of this accounting pronouncement will have on the Company's financial position or results of operations.

Share-based compensation

In June 2014, the FASB issued ASU No. 2014-12, “Compensation — Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period.” The new guidance requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. As such, the performance target should not be reflected in estimating the grant-date fair value of the award. ASU No. 2014-12 is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015, with early adoption permitted. Signet does not expect the adoption of this guidance to have a material impact on the Company's financial position or results of operations.

Debt issuance costs

In April 2015, the FASB issued ASU No. 2015-03, “Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs.” The new guidance requires that debt issuance costs related to a recognized

debt liability be presented on the balance sheet as a direct deduction from the debt liability, similar to the presentation of debt discounts. ASU No. 2015-03 is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015, with early adoption permitted. Signet does not expect the adoption of this guidance to have a material impact on the Company's financial position or results of operations.

3. Acquisitions

Zale Corporation

On May 29, 2014, the Company acquired 100% of the outstanding shares of Zale Corporation, making the entity a wholly-owned consolidated subsidiary of Signet. Under the terms of the Agreement and Plan of Merger, Zale Corporation shareholders received \$21 per share in cash for each outstanding share of common stock and the vesting, upon consummation of the Acquisition, of certain outstanding Zale Corporation restricted

Table of Contents

stock units and stock options, which converted into the right to receive the merger consideration of \$1,458.0 million, including \$478.2 million to extinguish Zale Corporation's existing debt. The Acquisition was funded by the Company through existing cash and the issuance of \$1,400.0 million of long-term debt, including: (a) \$400.0 million of senior unsecured notes due in 2024, (b) \$600.0 million of two-year revolving asset-backed variable funding notes, and (c) a \$400.0 million five-year senior unsecured term loan facility. See Note 17 for additional information related to the Company's long-term debt instruments.

The transaction was accounted for as a business combination during the second quarter of Fiscal 2015. The Acquisition aligns with the Company's strategy to diversify businesses and expand its footprint. The following table summarizes the consideration transferred in conjunction with the Acquisition as of May 29, 2014:

(in millions, except per share amounts)	Amount
Cash consideration paid to Zale Corporation shareholders (\$21 per share)	\$910.2
Cash consideration paid for settlement of Zale Corporation stock options, restricted share awards and long term incentive plan awards	69.6
Cash paid to extinguish Zale Corporation outstanding debt as of May 29, 2014	478.2
Total consideration transferred	\$1,458.0

Under the acquisition method of accounting, the identifiable assets acquired and liabilities assumed are recorded at acquisition date fair values. During the fourth quarter of Fiscal 2015, the Company finalized the valuation of net assets acquired. The following table summarizes the fair values identified for the assets acquired and liabilities assumed in the Acquisition as of May 29, 2014:

(in millions)	Fair values
Cash and cash equivalents	\$ 28.8
Inventories	856.7
Other current assets	22.4
Property, plant and equipment	103.6
Intangible assets:	
Trade names	417.0
Favorable leases	50.2
Deferred tax assets	132.8
Other assets	25.4
Current liabilities ⁽¹⁾	(206.3)
Deferred revenue	(93.3)
Unfavorable leases	(50.5)
Unfavorable contracts	(65.6)
Deferred tax liabilities	(234.0)
Other liabilities	(28.6)
Fair value of net assets acquired	958.6
Goodwill	499.4
Total consideration transferred	\$ 1,458.0

⁽¹⁾ Includes loans and overdrafts, accounts payable, income taxes payable, accrued expenses and other current liabilities.

The excess of the purchase price over the fair value of identifiable assets acquired and liabilities assumed was recognized as goodwill. The goodwill attributable to the Acquisition is not deductible for tax purposes. See Note 11.

Table of Contents

The following unaudited consolidated pro forma information summarizes the results of operations of the Company as if the Acquisition and related issuance of \$1,400.0 million of long-term debt (see Note 17) had occurred as of February 2, 2013. The unaudited consolidated pro forma financial information was prepared in accordance with the acquisition method of accounting under existing standards and is not necessarily indicative of the results of operations that would have occurred if the Acquisition had been completed on the date indicated, nor is it indicative of the future operating results of the Company.

	13 weeks ended May 3, 2014
(in millions, except per share amounts)	
Pro forma sales	\$1,479.4
Pro forma net income	\$115.0
Pro forma earnings per share – basic	\$1.44
Pro forma earnings per share – diluted	\$1.43

The unaudited pro forma information gives effect to actual operating results prior to the Acquisition and has been adjusted with respect to certain aspects of the Acquisition to reflect the following:

Acquisition accounting adjustments to reset deferred revenue associated with extended service plans sold by Zale Corporation prior to the Acquisition to fair value as of the acquisition date. The fair value of deferred revenue is determined based on the estimated costs remaining to be incurred for future obligations associated with the outstanding plans at the time of the Acquisition, plus a reasonable profit margin on the estimated costs. These adjustments also reflect the impact of deferring the revenue associated with the lifetime extended service plans over a 10-year period as disclosed in Note 1.

Additional depreciation and amortization expenses that would have been recognized assuming fair value adjustments to the existing Zale Corporation assets acquired and liabilities assumed, including intangible assets, favorable and unfavorable leases, and unfavorable contracts and expense associated with the fair value step-up of inventory acquired.

Tax impact of the Company's amended capital structure as a result of the Acquisition and related issuance of \$1,400 million of long-term debt.

Adjustment of valuation allowances associated with US and Canadian deferred tax assets, including net operating loss carryforwards.

- Exclusion of acquisition-related costs of \$9.2 million, which were included in the Company's net income for the 13 weeks ended May 3, 2014. All amounts were reported within the Other segment.

The unaudited pro forma results do not reflect future events that either have occurred or may occur after the Acquisition, including, but not limited to, the anticipated realization of expected operating synergies in subsequent periods. They also do not give effect to acquisition-related costs that the Company expects to incur in connection with the Acquisition, including, but not limited to, additional professional fees, employee integration, retention, and severance costs.

4. Segment information

Financial information for each of Signet's reportable segments is presented in the tables below. Signet's chief operating decision maker utilizes sales and operating income, after the elimination of any inter-segment transactions, to determine resource allocations and performance assessment measures. Signet's sales are derived from the retailing of jewelry, watches, other products and services as generated through the management of its five reportable segments: Sterling Jewelers division, the Zale division, which consists of the Zale Jewelry and the Piercing Pagoda segments, UK Jewelry division and a separate reportable segment, "Other".

The Sterling Jewelers division operated in all 50 states. Its stores operate nationally in malls, outlets and off-mall locations as Kay Jewelers ("Kay") and regionally under a number of well-established mall-based brands. Destination superstores operate nationwide as Jared The Galleria Of Jewelry ("Jared").

The Zale division operated jewelry stores (Zale Jewelry) and kiosks (Piercing Pagoda), located primarily in shopping malls throughout the US, Canada and Puerto Rico. Zale Jewelry includes national brands Zales Jewelers, Zales Outlet

and Peoples Jewellers, along with regional brands Gordon's Jewelers and Mappins Jewellers. Piercing Pagoda operates through mall-based kiosks.

The UK Jewelry division operated stores in the UK, Republic of Ireland and Channel Islands. Its stores operate in major regional shopping malls and prime 'High Street' locations (main shopping thoroughfares with high pedestrian traffic) under brands including H.Samuel and Ernest Jones.

Other consists of all non-reportable operating segments including subsidiaries involved in the purchasing and conversion of rough diamonds to polished stones and unallocated corporate administrative functions that are below the quantifiable threshold for separate disclosure as a reportable segment.

Signet's dividend policy results in the dividend payment date being a quarter in arrears from the declaration date.

⁽¹⁾ As a result, the dividend declared in the fourth quarter of Fiscal 2015 of \$0.18 per share was paid on February 26, 2015 in the aggregate of \$14.4 million.

As of May 2, 2015 and May 3, 2014, \$17.6 million and \$14.4 million, respectively, has been recorded in accrued

⁽²⁾ expenses and other current liabilities in the condensed consolidated balance sheets reflecting the cash dividends declared for the first quarter of Fiscal 2016 and Fiscal 2015, respectively.

Reclassification

During the second quarter of Fiscal 2015, \$234.8 million was reclassified from other reserves within shareholders' equity to retained earnings as the restrictions related to this amount were released. The presentation in previous periods has been adjusted to conform to the current period presentation.

8. Income taxes

Signet has business activity in all states within the US and files income tax returns for the US federal jurisdiction and all applicable states. Signet also files income tax returns in the UK, Canada and certain other foreign jurisdictions. The provision for income taxes is based on the current estimate of the consolidated annual effective tax rate. As of May 2, 2015, the Company expects its annual effective tax rate to be approximately 28.1% compared to 35.1% as of May 3, 2014. The decrease in the effective tax rate is a result of the amended capital structure and financing arrangements utilized to fund the acquisition of Zale Corporation. The estimated effective tax rates exclude the effects of any discrete items that may be recognized in future periods.

During the first quarter of Fiscal 2016, there has been no material change in the amounts of unrecognized tax benefits, or the related accrued interest and penalties (where appropriate), in respect of uncertain tax positions identified as of January 31, 2015.

9. Accounts receivable, net

Signet's accounts receivable primarily consist of Sterling Jewelers' customer in-house financing receivables. The accounts receivable portfolio consists of a population that has similar characteristics and is evaluated collectively for impairment. The allowance is an estimate of the expected losses as of the balance sheet date, and is calculated using a proprietary model that analyzes factors such as delinquency rates and recovery rates. A 100% allowance is made for any amount that is more than 90 days aged on a recency basis and any amount associated with an account the owner of which has filed for bankruptcy, as well as an allowance for those amounts 90 days aged and under based on historical loss information and payment performance. The calculation is reviewed by management to assess whether, based on economic events, additional analyses are required to appropriately estimate losses inherent in the portfolio.

Signet grants credit to customers based on a variety of credit quality indicators, including consumer financial information and prior payment experience. On an ongoing basis, management monitors the credit exposure based on past due status and collection experience, as it has found a meaningful correlation between the past due status of customers and the risk of loss.

Other accounts receivable is comprised primarily of gross accounts receivable relating to the insurance loss replacement business in the UK Jewelry division of \$9.4 million (January 31, 2015 and May 3, 2014: \$13.7 million and \$12.2 million, respectively), with a corresponding valuation allowance of \$0.5 million (January 31, 2015 and May 3, 2014: \$0.5 million and \$0.3 million, respectively). The credit function for the Zale division is outsourced and, as such, no material accounts receivable exist as of May 2, 2015 or January 31, 2015.

There have been no goodwill impairment losses recognized during the fiscal periods presented in the condensed consolidated income statements. If future economic conditions are different than those projected by management, future impairment charges may be required.

Intangibles

Intangible assets with indefinite and definite lives represent Zale trade names and favorable leases acquired, while intangible liabilities with definite lives represent unfavorable leases and contract rights acquired in the Zale acquisition. No other intangible assets or liabilities were recognized prior to the acquisition of Zale Corporation on May 29, 2014. The following table provides additional detail regarding the composition of intangible assets and liabilities as of May 2, 2015 and January 31, 2015:

14. Derivatives

Derivative transactions are used by Signet for risk management purposes to address risks inherent in Signet's business operations and sources of financing. The main risks arising from Signet's operations are market risk including foreign currency risk, commodity risk, liquidity risk and interest rate risk. Signet uses derivative financial instruments to manage and mitigate these risks under policies reviewed and approved by the Board. Signet does not enter into derivative transactions for trading purposes.

Market risk

Signet generates revenues and incurs expenses in US dollars, Canadian dollars and British pounds. As a portion of the UK Jewelry purchases and the purchases made by the Canadian operations of the Zale division are denominated in US dollars, Signet enters into forward foreign currency exchange contracts, foreign currency option contracts and foreign currency swaps to manage this exposure to the US dollar.

Signet holds a fluctuating amount of British pounds reflecting the cash generative characteristics of the UK Jewelry division. Signet's objective is to minimize net foreign exchange exposure to the income statement on British pound denominated items through managing this level of cash, British pound denominated intra-entity balances and US dollar to British pound swaps. In order to manage the foreign exchange exposure and minimize the level of funds denominated in the British pound, dividends are paid regularly by British pound denominated subsidiaries to their immediate holding companies and excess British pounds are sold in exchange for US dollars.

Signet's policy is to minimize the impact of precious metal commodity price volatility on operating results through the use of outright forward purchases of, or by entering into options to purchase, precious metals within treasury guidelines approved by the Board. In particular, Signet undertakes some hedging of its requirements for gold through the use of forward contracts and commodity purchasing, while fluctuations in the cost of diamonds are not hedged.

Liquidity risk

Signet's objective is to ensure that it has access to, or the ability to generate sufficient cash from either internal or external sources in a timely and cost-effective manner to meet its commitments as they become due and payable. Signet manages liquidity risks as part of its overall risk management policy. Management produces forecasting and

budgeting information that is reviewed and monitored by the Board. Cash generated from operations and external financing are the main sources of funding supplementing Signet's resources in meeting liquidity requirements. The main external sources of funding are an amended credit facility, senior unsecured notes and securitized credit card receivables, as described in Note 17.

Table of Contents

Interest rate risk

Signet has exposure to movements in interest rates associated with cash and borrowings. Signet may enter into various interest rate protection agreements in order to limit the impact of movements in interest rates.

Interest rate swaps (designated) — These contracts are entered into to reduce the consolidated interest rate risk associated with variable rate, long-term debt. The Company designates these derivatives as cash flow hedges of the variability in expected cash outflows of interest payments. The Company entered into an interest rate swap in March 2015 with an aggregate notional amount of \$300.0 million that is scheduled to mature through April 2019. Under this contract, the Company agrees to exchange, at specified intervals, the difference between fixed contract rates and floating rate interest amounts calculated by reference to the agreed notional amounts. The Company has effectively converted a portion of its variable-rate senior unsecured term loan into fixed-rate debt.

The fair value of the swap is presented within the consolidated balance sheets, and the Company recognizes any changes in the fair value as an adjustment of AOCI within equity to the extent of their effectiveness. The ineffective portion of all hedges, if any, is recognized in current period earnings. As interest expense is accrued on the debt obligation, amounts in accumulated OCI related to the interest rate swap are reclassified into income resulting in a net interest expense on the hedged amount of the underlying debt obligation equal to the effective yield of the fixed rate of each swap. In the event that an interest rate swap is dedesignated prior to maturity, gains or losses in AOCI remain deferred and are reclassified into earnings in the periods in which the hedged forecasted transaction affects earnings.

Credit risk and concentrations of credit risk

Credit risk represents the loss that would be recognized at the reporting date if counterparties failed to perform as contracted. Signet does not anticipate non-performance by counterparties of its financial instruments, except for customer in-house financing receivables as disclosed in Note 9 of which no single customer represents a significant portion of the Company's receivable balance. Signet does not require collateral or other security to support cash investments or financial instruments with credit risk; however, it is Signet's policy to only hold cash and cash equivalent investments and to transact financial instruments with financial institutions with a certain minimum credit rating. Management does not believe Signet is exposed to any significant concentrations of credit risk that arise from cash and cash equivalent investments, derivatives or accounts receivable.

Commodity and foreign currency risks

The following types of derivative financial instruments are utilized by Signet to mitigate certain risk exposures related to changes in commodity prices and foreign exchange rates:

Forward foreign currency exchange contracts (designated) — These contracts, which are principally in US dollars, are entered into to limit the impact of movements in foreign exchange rates on forecasted foreign currency purchases. The total notional amount of these foreign currency contracts outstanding as of May 2, 2015 was \$16.8 million (January 31, 2015 and May 3, 2014: \$23.5 million and \$40.4 million, respectively). These contracts have been designated as cash flow hedges and will be settled over the next 9 months (January 31, 2015 and May 3, 2014: 12 months and 12 months, respectively).

Forward foreign currency exchange contracts (undesignated) — Foreign currency contracts not designated as cash flow hedges are used to limit the impact of movements in foreign exchange rates on recognized foreign currency payables and to hedge currency flows through Signet's bank accounts to mitigate Signet's exposure to foreign currency exchange risk in its cash and borrowings. The total notional amount of these foreign currency contracts outstanding as of May 2, 2015 was \$8.0 million (January 31, 2015 and May 3, 2014: \$40.3 million and \$39.7 million, respectively).

Commodity forward purchase contracts (designated) — These contracts are entered into to reduce Signet's exposure to significant movements in the price of the underlying precious metal raw material. The total notional amount of these commodity derivative contracts outstanding as of May 2, 2015 was 77,000 ounces of gold (January 31, 2015 and May 3, 2014: 81,000 ounces and 39,000 ounces, respectively). These contracts have been designated as cash flow hedges and will be settled over the next 12 months (January 31, 2015 and May 3, 2014: 11 months and 10 months, respectively).

The bank counterparties to the derivative instruments expose Signet to credit-related losses in the event of their non-performance. However, to mitigate that risk, Signet only contracts with counterparties that meet certain minimum requirements under its counterparty risk assessment process. As of May 2, 2015, Signet believes that this credit risk

did not materially change the fair value of the foreign currency or commodity contracts.

The following table summarizes the fair value and presentation of derivative instruments in the condensed consolidated balance sheets:

15. Fair value measurement

The estimated fair value of Signet's financial instruments held or issued to finance Signet's operations is summarized below. Certain estimates and judgments were required to develop the fair value amounts. The fair value amounts shown below are not necessarily indicative of the amounts that Signet would realize upon disposition nor do they indicate Signet's intent or ability to dispose of the financial instrument. Assets and liabilities that are carried at fair value are required to be classified and disclosed in one of the following three categories:

Level 1—quoted market prices in active markets for identical assets and liabilities

Level 2—observable market based inputs or unobservable inputs that are corroborated by market data

Level 3—unobservable inputs that are not corroborated by market data

Signet determines fair value based upon quoted prices when available or through the use of alternative approaches, such as discounting the expected cash flows using market interest rates commensurate with the credit quality and duration of the investment. The methods Signet uses to determine fair value on an instrument-specific basis are detailed below:

Investments in US Treasury securities and corporate equity securities are based on quoted market prices for identical instruments in active markets, and therefore were classified as a Level 1 measurement in the fair value hierarchy.

Investments in US government agency securities and corporate bonds and notes are based on quoted prices for similar instruments in active markets, and therefore were classified as a Level 2 measurement in the fair value hierarchy. See Note 13 for additional information related to the Company's available-for-sale investments. The fair value of derivative financial instruments has been determined based on market value equivalents at the balance sheet date, taking into account the current interest rate environment, foreign currency forward rates or commodity forward rates, and therefore were classified as a Level 2 measurement in the fair value hierarchy. See Note 14 for additional information related to the Company's derivatives.

The carrying amounts of cash and cash equivalents, accounts receivable, other receivables, accounts payable and accrued liabilities approximate fair value because of the short-term maturity of these amounts.

The fair values of long-term debt instruments were determined using quoted market prices in inactive markets or discounted cash flows based upon current observable market interest rates and therefore were classified as Level 2 measurements in the fair value hierarchy. See Note 17 for classification between current and long-term debt. The carrying amount and fair value of outstanding debt at May 2, 2015, January 31, 2015 and May 3, 2014 were as follows:

Revolving credit facility and term loan (the "Credit Facility")

The Company has a \$400 million senior unsecured multi-currency multi-year revolving credit facility agreement that was entered into in May 2011. The agreement was subsequently amended in May 2014 to extend the maturity date to 2019 and expand the agreement to include a new \$400 million term loan. The \$400 million five-year senior unsecured term loan requires the Company to make scheduled quarterly principal payments commencing on November 1, 2014 equal to the amounts per annum of the original principal amount of the term loan as follows: 5% in the first year, 7.5% in the second year, 10% in the third year, 12.5% in the fourth year and 15% in the fifth year after the initial payment date, with the balance due on May 27, 2019. As of May 2, 2015, \$385.0 million remained outstanding on the term loan. Excluding impact of interest rate swaps designated as cash flow hedges discussed in Note 14, the term loan had a weighted average interest rate of 1.45% during the first quarter of Fiscal 2016.

Borrowings under the Credit Facility bear interest at a rate per annum equal to an applicable margin, plus, at the Company's option, either (a) a base rate or (b) a LIBOR rate. The Credit Facility provides that the Company may voluntarily repay outstanding loans at any time without premium or penalty other than reimbursement of the lender's redeployment and breakage costs in certain cases. In addition, the Credit Facility contains various customary representations and warranties, financial reporting requirements and other affirmative and negative covenants. As with the Company's prior credit facility, the Company is required to maintain at all times a leverage ratio of no greater than 2.50 to 1.00 and a fixed charge coverage ratio of no less than 1.40 to 1.00, both determined as of the end of each fiscal

quarter for the trailing twelve months.

As of May 2, 2015 and January 31, 2015, capitalized fees relating to the amended Credit Facility total \$6.7 million, which were incurred and paid during Fiscal 2015. Accumulated amortization related to these capitalized fees was \$1.2 million and \$0.9 million as of May 2, 2015 and January 31, 2015, respectively. As of May 3, 2014, capitalized fees associated with the May 2011 credit facility agreement were \$2.1 million, with \$1.4 million

of accumulated amortization. Amortization relating to these fees of \$0.3 million and \$0.2 million was recorded as interest expense in the condensed consolidated income statement for the 13 weeks ended May 2, 2015 and May 3, 2014, respectively.

At May 2, 2015, January 31, 2015 and May 3, 2014 there were no outstanding borrowings under the revolving credit facility. The Company had stand-by letters of credit on the revolving credit facility of \$21.0 million, \$25.4 million and \$8.7 million as of May 2, 2015, January 31, 2015 and May 3, 2014, respectively, that reduce remaining availability under the revolving credit facility.

On February 19, 2014, Signet entered into a definitive agreement to acquire Zale Corporation and concurrently received commitments for an \$800 million 364-day unsecured bridge facility to finance the transaction. The bridge facility contained customary fees and incurred interest on any borrowings drawn on the facility. In May 2014, Signet executed its Zale acquisition financing as described in Note 3, replacing the bridge facility commitments in addition to amending its Credit Facility as outlined above, issuing senior unsecured notes and securitizing credit card receivables. No amounts were drawn on the bridge facility commitments prior to replacement by the issuances of long-term debt listed below. Fees of \$4.0 million relating to this unsecured bridge facility were incurred and capitalized during Fiscal 2015, with \$3.0 million being paid during the 13 weeks ended May 3, 2014. Amortization relating to these fees of \$0.8 million was recorded as interest expense in the condensed consolidated income statement for the 13 weeks ended May 3, 2014, with the remaining capitalized fees associated with the bridge facility written off during the second quarter of Fiscal 2015.

Senior unsecured notes due 2024

On May 19, 2014, Signet UK Finance plc ("Signet UK Finance"), a wholly owned subsidiary of the Company, issued \$400 million aggregate principal amount of its 4.700% senior unsecured notes due in 2024 (the "Notes"). The Notes were issued under an effective registration statement previously filed with the SEC. Interest on the notes is payable semi-annually on June 15 and December 15 of each year, commencing December 15, 2014. The Notes are jointly and severally guaranteed, on a full and unconditional basis, by the Company and by certain of the Company's wholly owned subsidiaries (such subsidiaries, the "Guarantors"). The Notes were issued pursuant to a base indenture among the Company, Signet UK Finance, the Guarantors and Deutsche Bank Trust Company Americas as trustee, with the indenture containing customary covenants and events of default provisions. The Company received proceeds from the offering of approximately \$393.9 million, which were net of underwriting discounts, commissions and offering expenses.

Capitalized fees relating to the senior unsecured notes total \$7.0 million, which were incurred and paid during Fiscal 2015. As of May 2, 2015 and January 31, 2015, accumulated amortization related to these capitalized fees was \$0.7 million and \$0.5 million. Amortization relating to these fees of \$0.2 million was recorded as interest expense in the condensed consolidated income statement for the 13 weeks ended May 2, 2015. No amortization expense was recorded in the 13 weeks ended May 3, 2014 as the issuance of the senior unsecured notes occurred during the second quarter of Fiscal 2015.

Asset-backed securitization facility

On May 15, 2014, the Company sold an undivided interest in certain credit card receivables to Sterling Jewelers Receivables Master Note Trust (the "Issuer"), a wholly-owned Delaware statutory trust and a wholly-owned indirect subsidiary of the Company and issued two-year revolving asset-backed variable funding notes to unrelated third party conduits pursuant to a master indenture dated as of November 2, 2001, as supplemented by the Series 2014-A indenture supplement dated as of May 15, 2014 among the Issuer, Sterling Jewelers Inc. ("SJI") and Deutsche Bank Trust Company Americas, the indenture trustee. Under terms of the notes, the Issuer has obtained \$600 million of financing from the unrelated third party commercial paper conduits sponsored by JPMorgan Chase Bank, N.A., which indebtedness is secured by credit card receivables originated from time to time by SJI. The credit card receivables will ultimately be transferred to the Issuer and are serviced by SJI. Signet guarantees the performance by SJI of its obligations under the agreements associated with this financing arrangement. Borrowings under the asset-backed variable funding notes bear interest at a rate per annum equal to LIBOR plus an applicable margin. Payments received from customers for balances outstanding on securitized credit card receivables are utilized to repay amounts outstanding under the facility each period, while proceeds from the facility are received for incremental credit card

receivables originated when the receivables are pledged to the Issuer. Such payments received from customers and proceeds from the facility are reflected on a gross basis in the condensed consolidated statements of cash flows. As of May 2, 2015, \$600.0 million remained outstanding under the securitization facility with a weighted average interest rate of 1.53% during the first quarter of Fiscal 2016.

Capitalized fees relating to the asset-backed securitization facility total \$2.8 million, which were incurred and paid during Fiscal 2015. As of May 2, 2015 and January 31, 2015, accumulated amortization related to these capitalized fees was \$1.3 million and \$0.9 million. Amortization relating to these fees of \$0.4 million was recorded as interest expense in the condensed consolidated income statement for the 13 weeks ended May 2, 2015. No amortization expense was recorded in the 13 weeks ended May 3, 2014 as the issuance of the revolving asset-backed variable funding notes occurred during the second quarter of Fiscal 2015.

Table of Contents

On May 28, 2015, Signet amended the note purchase agreement associated with the asset-backed securitization facility to extend the term of the facility by one year to May 2017 with all terms substantially the same as the original agreement.

Other

As of May 2, 2015, January 31, 2015 and May 3, 2014, the Company was in compliance with all debt covenants.

As of May 2, 2015, January 31, 2015 and May 3, 2014, there were \$16.6 million, \$71.6 million and \$8.8 million in overdrafts, respectively, which represent issued and outstanding checks where no bank balances exist with the right of offset.

19. Warranty reserve

Sterling Jewelers and Zale Jewelry segments provide a product lifetime diamond guarantee as long as six-month inspections are performed and certified by an authorized store representative. Provided the customer has complied with the six-month inspection policy, the Company will replace, at no cost to the customer, any stone that chips, breaks or is lost from its original setting during normal wear. Management estimates the warranty accrual based on the lag of actual claims experience and the costs of such claims, inclusive of labor and material. Sterling Jewelers also provides a similar product lifetime guarantee on color gemstones. The warranty reserve for diamond and gemstone guarantee, included in accrued expenses and other current liabilities, and other non-current liabilities, is as follows:

Legal proceedings

As previously reported, in March 2008, a group of private plaintiffs (the “Claimants”) filed a class action lawsuit for an unspecified amount against SJI, a subsidiary of Signet, in the US District Court for the Southern District of New York alleging that US store-level employment practices are discriminatory as to compensation and promotional activities with respect to gender. In June 2008, the District Court referred the matter to private arbitration where the Claimants sought to proceed on a class-wide basis. The Claimants filed a motion for class certification and SJI opposed the motion. A hearing on the class certification motion was held in late February 2014. On February 2, 2015, the arbitrator issued a Class Determination Award in which she certified for a class-wide hearing Claimants’ disparate impact declaratory and injunctive relief class claim under Title VII, with a class period of July 22, 2004 through date of trial for the Claimants’ compensation claims and December 7, 2004 through date of trial for Claimants’ promotion claims. The arbitrator otherwise denied Claimants’ motion to certify a disparate treatment class alleged under Title VII, denied a disparate impact monetary damages class alleged under Title VII, and denied an opt-out monetary damages class under the Equal Pay Act. On February 9, 2015, Claimants filed an Emergency Motion To Restrict Communications With The Certified Class And For Corrective Notice. SJI filed its opposition to Claimants’ emergency motion on February 17, 2015, and a hearing was held on February 18, 2015. Claimants’ motion was granted in part and denied in part in an order issued on March 16, 2015. Claimants filed a Motion for Reconsideration Regarding Title VII Claims for Disparate Treatment in Compensation on February 11, 2015. SJI filed its opposition to Claimants’ Motion for Reconsideration on March 4, 2015. Claimants’ reply was filed on March 16, 2015. Claimants’ Motion was denied in an order issued April 27, 2015. Claimants filed Claimants’ Motion for Conditional Certification of Claimants’ Equal Pay Act Claims and Authorization of Notice on March 6, 2015. SJI’s opposition was filed on May 1, 2015 and Claimants’ reply is due on June 5, 2015. SJI filed with the US District Court for the Southern District of New York a Motion to Vacate the Arbitrator’s Class Certification Award on March 3, 2015. Claimants’ opposition was filed on March 23, 2015 and SJI’s reply was filed on April 3, 2015. SJI’s motion was heard on May 4, 2015. On April 6, 2015, Claimants filed Claimants’ Motion for Clarification or in the Alternative Motion for Stay of the Effect of the Class Certification Award as to the Individual Intentional Discrimination Claims. SJI filed its opposition on May 12, 2015. Claimants’ reply was filed on May 22, 2015.

Also, as previously reported, on September 23, 2008, the US Equal Employment Opportunity Commission (“EEOC”) filed a lawsuit against SJI in the US District Court for the Western District of New York. The EEOC’s lawsuit alleges that SJI engaged in intentional and disparate impact gender discrimination with respect to pay and promotions of female retail store employees from January 1, 2003 to the present. The EEOC asserts claims for unspecified monetary relief and non-monetary relief against the Company on behalf of a class of female employees subjected to these alleged practices. Non-expert fact discovery closed in mid-May 2013. In September 2013, SJI made a motion for partial summary judgment on procedural grounds, which was referred to a Magistrate Judge. The Magistrate Judge heard oral arguments on the summary judgment motion in December 2013. On January 2, 2014, the Magistrate Judge issued his Report, Recommendation and Order, recommending that the Court grant SJI’s motion for partial summary judgment and dismiss the EEOC’s claims in their entirety. The EEOC filed its objections to the Magistrate Judge’s ruling and SJI filed its response thereto. The District Court Judge heard oral arguments on the EEOC’s objections to the Magistrate Judge’s ruling on March 7, 2014 and on March 11, 2014 entered an order dismissing the action with prejudice. On May 12, 2014 the EEOC filed its Notice of Appeal of the District Court Judge’s dismissal of the action

to United States Court of Appeals for the Second Circuit. The parties have fully briefed the appeal and oral argument occurred on May 5, 2015.

SJI denies the allegations of the Claimants and EEOC and has been defending these cases vigorously. At this point, no outcome or possible loss or range of losses, if any, arising from the litigation is able to be estimated.

Prior to the Acquisition, Zale Corporation was a defendant in three purported class action lawsuits, Tessa Hodge v. Zale Delaware, Inc., d/b/a Piercing Pagoda which was filed on April 23, 2013 in the Superior Court of the State of California, County of San Bernardino; Naomi Tapia v. Zale Corporation which was filed on July 3, 2013 in the US District Court, Southern District of California; and Melissa Roberts v. Zale Delaware, Inc. which was filed on October 7, 2013 in the Superior Court of the State of California, County of Los Angeles. All three cases include allegations that Zale Corporation violated various wage and hour labor laws. Relief is sought on behalf of current and former Piercing Pagoda and Zale Corporation's employees. The lawsuits seek to recover damages, penalties and attorneys' fees as a result of the alleged violations. Without admitting

or conceding any liability, the Company has reached a tentative agreement to settle the Hodge and Roberts matters for an immaterial amount. The deadline to opt-out of the proposed settlement was January 26, 2015 and final approval of the settlement was granted on March 9, 2015.

The Company is investigating the underlying allegations of the Naomi Tapia v. Zale Corporation matter and intends to vigorously defend its position against them. At this point, no outcome or possible loss or range of losses, if any, arising from the litigation is able to be estimated.

Litigation Challenging the Company's Acquisition of Zale Corporation

Five putative stockholder class action lawsuits challenging the Company's acquisition of Zale Corporation were filed in the Court of Chancery of the State of Delaware: Breyer v. Zale Corp. et al., C.A. No. 9388-VCP, filed February 24, 2014; Stein v. Zale Corp. et al., C.A. No. 9408-VCP, filed March 3, 2014; Singh v. Zale Corp. et al., C.A. No. 9409-VCP, filed March 3, 2014; Smart v. Zale Corp. et al., C.A. No. 9420-VCP, filed March 6, 2014; and Pill v. Zale Corp. et al., C.A. No. 9440-VCP, filed March 12, 2014 (collectively, the "Actions"). Each of these Actions was brought by a purported former holder of Zale Corporation common stock, both individually and on behalf of a putative class of former Zale Corporation stockholders.

The Court of Chancery consolidated the Actions on March 25, 2014 (the "Consolidated Action"), and the plaintiffs filed a consolidated amended complaint on April 23, 2014, which named as defendants Zale Corporation, the members of the board of directors of Zale Corporation, the Company, and a merger-related subsidiary of the Company, and alleged that the Zale Corporation directors breached their fiduciary duties to Zale Corporation stockholders in connection with their consideration and approval of the merger agreement by failing to maximize stockholder value and agreeing to an inadequate merger price and to deal terms that deter higher bids. That complaint also alleged that the Zale Corporation directors issued a materially misleading and incomplete proxy statement regarding the merger and that Zale Corporation and the Company aided and abetted the Zale Corporation directors' breaches of fiduciary duty. On May 23, 2014, the Court of Chancery denied plaintiffs' motion for a preliminary injunction to prevent the consummation of the merger.

On September 30, 2014, the plaintiffs filed an amended complaint asserting substantially similar claims and allegations as the prior complaint. The amended complaint added Zale Corporation's former financial advisor, Bank of America Merrill Lynch, as a defendant for allegedly aiding and abetting the Zale Corporation directors' breaches of fiduciary duty. The amended complaint no longer names as defendants Zale Corporation or the Company's merger-related subsidiary. The amended complaint seeks, among other things, rescission of the merger or damages, as well as attorneys' and experts' fees. The defendant's motion to dismiss was heard by the Court of Chancery on May 20, 2015.

At this point, no outcome or possible loss or range of losses, if any, arising from the litigation is able to be estimated.

Appraisal Litigation

Following the consummation of the Company's acquisition of Zale Corporation, on June 4, 2014, two former Zale Corporation stockholders, who, combined, allege ownership of approximately 3.904 million shares of Zale Corporation's common stock, filed a petition for appraisal pursuant to 8 Del. C. § 262 in the Court of Chancery of the State of Delaware, captioned Merion Capital L.P. et al. v. Zale Corp., C.A. No. 9731-VCP. On August 26, 2014, another former Zale Corporation stockholder, who alleges ownership of approximately 2.450 million shares of Zale Corporation's common stock, filed a second petition for appraisal, captioned TIG Arbitrage Opportunity Fund I, L.P. v. Zale Corp., C.A. No. 10070-VCP. On September 24, 2014, several former Zale Corporation stockholders, who allege ownership of approximately 2.427 million shares of Zale Corporation's common stock, filed a third petition for appraisal, captioned The Gabelli ABC Fund et al. v. Zale Corp., C.A. No. 10162-VCP. On October 8, 2014, the Court of Chancery consolidated the Merion Capital, TIG, and Gabelli actions for all purposes (the "Appraisal Action"). Petitioners in the Appraisal Action seek a judgment awarding them, among other things, the fair value of their Zale Corporation shares. "Fair value" under Section 8 Del. C. 262(h) is "exclusive of any element of value arising from the accomplishment or expectation of the merger or consolidation, together with interest, if any, to be paid upon the amount determined to be the fair value." Section 8 Del. C. § 262 provides that unless the Court in its discretion determines otherwise for good cause shown, interest from the effective date of the merger through the date of payment of the judgment shall be compounded quarterly and shall accrue at 5% over the Federal Reserve discount rate

(including any surcharge) as established from time to time during the period between the effective date of the merger and the date of payment of the judgment.

The total number of shares of Zale Corporation's common stock for which appraisal has been demanded and not requested to be withdrawn is approximately 8.8 million, inclusive of the shares allegedly held by petitioners in the Appraisal Action. The parties in the Appraisal Action are currently engaged in discovery. The parties have agreed to a trial in this matter on October 8, 9, 26, and 27, 2015, subject to final order of the Court.

At this point, no outcome or possible loss or range of losses, if any, arising from the litigation is able to be estimated. In the ordinary course of business, Signet may be subject, from time to time, to various other proceedings, lawsuits, disputes or claims incidental to its business, which the Company believes are not significant to Signet's consolidated financial position, results of operations or cash flows.

22. Condensed consolidating financial information

The accompanying condensed consolidating financial information has been prepared and presented pursuant to SEC Regulation S-X, Rule 3-10, "Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered." We and certain of our subsidiaries have guaranteed the obligations under certain debt securities that have been issued by Signet UK Finance plc. The following presents the condensed consolidating financial information for: (i) the indirect Parent Company (Signet Jewelers Limited); (ii) the Issuer of the guaranteed obligations (Signet UK Finance plc); (iii) the Guarantor subsidiaries, on a combined basis; (iv) the non-guarantor subsidiaries, on a combined basis; (v) consolidating eliminations; and (vi) Signet Jewelers Limited and Subsidiaries on a consolidated basis. Each Guarantor subsidiary is 100% owned by the Parent Company at the date of each balance sheet presented. The Guarantor subsidiaries, along with Signet Jewelers Limited, will fully and unconditionally guarantee the obligations of Signet UK Finance plc under any such debt securities. Each entity in the consolidating financial information follows the same accounting policies as described in the consolidated financial statements.

The accompanying condensed consolidating financial information has been presented on the equity method of accounting for all periods presented. Under this method, investments in subsidiaries are recorded at cost and adjusted for the subsidiaries' cumulative results of operations, capital contributions and distributions, and other changes in equity. Elimination entries include consolidating and eliminating entries for investments in subsidiaries, and intra-entity activity and balances.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains statements which are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, based upon management's beliefs and expectations as well as on assumptions made by and data currently available to management, appear in a number of places throughout this document and include statements regarding, among other things, Signet's results of operation, financial condition, liquidity, prospects, growth, strategies and the industry in which Signet operates. The use of the words "expects," "intends," "anticipates," "estimates," "predicts," "believes," "should," "potential," "may," "forecast," "object," "target," and other similar expressions are intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to a number of risks and uncertainties, including but not limited to general economic conditions, a decline in consumer spending, the merchandising, pricing and inventory policies followed by Signet, the reputation of Signet and its brands, the level of competition in the jewelry sector, the cost and availability of diamonds, gold and other precious metals, regulations relating to customer credit, seasonality of Signet's business, financial market risks, deterioration in customers' financial condition, exchange rate fluctuations, changes in Signet's credit rating, changes in consumer attitudes regarding jewelry, management of social, ethical and environmental risks, security breaches and other disruptions to Signet's information technology infrastructure and databases, inadequacy in and disruptions to internal controls and systems, changes in assumptions used in making accounting estimates relating to items such as extended service plans and pensions, risks related to Signet being a Bermuda corporation, the impact of the acquisition of Zale Corporation on relationships, including with employees, suppliers, customers and competitors, the impact of stockholder litigation with respect to the acquisition of Zale Corporation, and our ability to successfully integrate Zale Corporation's operations and to realize synergies from the transaction.

For a discussion of these risks and other risks and uncertainties which could cause actual results to differ materially from those expressed in any forward looking statement, see the "Risk Factors" section of Signet's Fiscal 2015 Annual Report on Form 10-K filed with the SEC on March 26, 2015 and Part II, Item 1A of this Form 10-Q. Signet undertakes no obligation to update or revise any forward-looking statements to reflect subsequent events or circumstances, except as required by law.

OVERVIEW

Signet Jewelers Limited ("Signet" or the "Company") is the world's largest retailer of diamond jewelry. Signet is incorporated in Bermuda and its address and telephone number are shown on the cover of this document. Its corporate website is www.signetjewelers.com, from where documents that the Company is required to file or furnish with the US Securities and Exchange Commission ("SEC") may be viewed or downloaded free of charge.

On May 29, 2014, the Company acquired 100% of the outstanding shares of Zale Corporation (the "Acquisition") for \$1,458.0 million, including \$478.2 million to extinguish Zale Corporation's existing debt. The Acquisition was funded by the Company through existing cash and the issuance of \$1,400.0 million of long-term debt. The Acquisition aligns with each strategic pillar of the Company's Vision 2020. See Notes 3 and 17 of Item 1 for additional information related to the Acquisition and the issuance of long-term debt to finance the transaction, respectively.

The Company manages its business by store brand grouping, a description of which follows:

The Sterling Jewelers division is one reportable segment. It operated 1,522 stores in all 50 states at May 2, 2015. Its stores operate nationally in malls and off-mall locations principally as Kay Jewelers ("Kay") and Jared The Galleria Of Jewelry ("Jared"). The division also operates a variety of mall-based regional brands.

• The Zale division consists of two reportable segments:

Zale Jewelry, which operated 968 jewelry stores at May 2, 2015, is located primarily in shopping malls in North America. Zale Jewelry includes the US store brand Zales and the Canada store brand Peoples Jewellers. The division also operates regional brands Gordon's Jewelers and Mappins Jewellers.

Piercing Pagoda, which operated 599 mall-based kiosks at May 2, 2015, is located in shopping malls in the US and Puerto Rico.

•

The UK Jewelry division is one reportable segment. It operated 500 stores at May 2, 2015. Its stores operate in shopping malls and off-mall (i.e. high street) principally as H.Samuel and Ernest Jones.

Certain company activities (e.g. diamond sourcing) are managed as a separate operating segment and are aggregated with unallocated corporate administrative functions in the segment "Other" for financial reporting purposes. Our diamond sourcing function includes our diamond polishing factory in Botswana. See Note 4 of Item 1 for additional information regarding the Company's operating segments.

Transactions Affecting Comparability of Results of Operations and Liquidity and Capital Resources

The comparability of the Company's operating results for the 13 week periods ended May 2, 2015 and May 3, 2014 presented herein has been affected by certain transactions, including:

• The Zale Acquisition that closed on May 29, 2014, as described in Note 3 of Item 1;

• Certain transaction-related costs;

• Zale Acquisition financing as described in Note 3 and Note 17 of Item 1, including global financing arrangements; and

• Certain non-recurring purchase accounting adjustments.

Non-GAAP measures

Signet provides certain non-GAAP information in reporting its financial results to give investors additional data to evaluate its operations. Management does not, nor does it suggest investors should, consider such non-GAAP measures in isolation from, or in substitute for, financial information prepared in accordance with US GAAP.

The following discussion of results of operations highlights, as necessary, the significant changes in operating results arising from these items and transactions. However, unusual items or transactions may occur in any period.

Accordingly, investors and other financial statement users individually should consider the types of events and transactions that have affected operating trends.

Exchange translation impact

Signet has historically used constant exchange rates to compare period-to-period changes in certain financial data.

Management considers this a useful measure for analyzing and explaining changes and trends in Signet's results. The impact of the re-calculation, including a reconciliation to Signet's US GAAP results, is analyzed below.

1. Income statement at constant exchange rates

Movements in the US dollar to British pound and Canadian dollar exchange rates have an impact on Signet's results. The UK Jewelry division is managed in British pounds and the Canadian reporting unit of the Zale Jewelry segment in Canadian dollars as sales and a majority of operating expenses are incurred in those foreign currencies. The results for each are then translated into US dollars for external reporting purposes. Management believes it assists in understanding the performance of Signet and its segments if constant currency figures are given. This is particularly so in periods when exchange rates are volatile. The constant currency amounts are calculated by retranslating the prior year figures using the current year's exchange rate. Management considers it useful to exclude the impact of movements in the British pound and Canadian dollar to US dollar exchange rates to analyze and explain changes and trends in Signet's sales and costs.

2. Operating data reflecting the impact of Zale operations and acquisition-related costs

The below table reflects the impact of the Zale operations, costs associated with the integration of the acquisition of Zale Corporation, along with certain other accounting adjustments made. Management finds the information useful to analyze the results of the business excluding these items in order to appropriately evaluate the performance of the business without the impact of significant and unusual items.

Includes deferred revenue adjustments related to acquisition accounting which resulted in a reset of deferred revenue associated with extended service plans previously sold by Zale Corporation. Similar to the Sterling Jewelers division, historically, Zale Corporation deferred the revenue generated by the sale of lifetime warranties and recognized revenue in relation to the pattern of costs expected to be incurred, which included a profit margin on activities related to the initial selling effort. In acquisition accounting, deferred revenue is only recognized when a legal performance obligation is assumed by the acquirer. The fair value of deferred revenue is determined based

(1) on the future obligations associated with the outstanding plans at the time of the Acquisition. The acquisition accounting adjustment results in a reduction to the deferred revenue balance from \$183.8 million to \$93.3 million as of May 29, 2014 as the fair value was determined through the estimation of costs remaining to be incurred, plus a reasonable profit margin on the estimated costs. Revenues generated from the sale of extended services plans subsequent to the Acquisition are recognized in revenue in a manner consistent with Signet's methodology.

Additionally, accounting adjustments include the recognition of a portion of the inventory fair value step-up of \$32.2 million and amortization of acquired intangibles.

(2) Transaction costs include transaction-related and integration expenses associated with advisor fees for legal, tax, accounting and consulting expenses. These costs are included within Signet's Other segment.

(3) Includes capital structure and financing costs.

3. Net cash (debt)

Net cash (debt) is the total of cash and cash equivalents less loans, overdrafts and long-term debt, and is helpful in providing a measure of the total indebtedness of the Company.

(in millions)	May 2, 2015	January 31, 2015	May 3, 2014
Cash and cash equivalents	\$122.6	\$193.6	\$249.1

Long-term debt	(1,356.2)	(1,363.8)	—
Net (debt) cash	\$(1,278.4)	\$(1,267.7)	\$240.3

4. Free cash flow

Free cash flow is a non-GAAP measure defined as the net cash provided by operating activities less purchases of property, plant and equipment. Management considers that this is helpful in understanding how the business is generating cash from its operating and investing activities that can be used to meet the financing needs of the business. Free cash flow does not represent the residual cash flow available for discretionary expenditure.

(in millions)	13 weeks ended May 2, 2015	52 weeks ended January 31, 2015	13 weeks ended May 3, 2014
Net cash provided by operating activities	\$67.0	\$ 283.0	\$73.5
Purchase of property, plant and equipment	(42.9)	(220.2)	(28.1)
Free cash flow	\$24.1	\$ 62.8	\$45.4

5. Adjusted earnings before interest, income taxes, depreciation and amortization ("Adjusted EBITDA")

Adjusted EBITDA is a non-GAAP measure defined as earnings before interest and income taxes (operating income), depreciation and amortization, and non-cash acquisition-related accounting adjustments. Adjusted EBITDA is an important indicator of operating performance as it excludes the effects of financing and investing activities by eliminating the effects of interest, depreciation and amortization costs, and non-cash acquisition-related accounting adjustments. Management believes this financial measure is helpful to enhance investors' ability to analyze trends in our business and evaluate our performance relative to other companies.

(1) Total amount of depreciation and amortization reflected on the condensed consolidated statement of cash flows reflects \$41.8 million for the 13 weeks ended May 2, 2015, which includes \$3.5 million related to the amortization of definite-lived intangibles, primarily favorable leases and trade names.

(2) Total net operating loss relating to Acquisition accounting adjustments is \$11.4 million for the 13 weeks ended May 2, 2015 as reflected in the non-GAAP tables above.

Results of operations

The following should be read in conjunction with the financial statements and related notes in Part I of this Quarterly Report on Form 10-Q, as well as the financial and other information included in Signet's Fiscal 2015 Annual Report on Form 10-K. The results for the first quarter of Fiscal 2016 include Zale, which was acquired on May 29, 2014 and therefore affect the comparability of Signet's operating results for the 13 week periods ended May 2, 2015 and May 3, 2014. Signet's results are affected by adjustments related to purchase accounting and transaction costs associated with integrating the acquisition. For comparability purposes, Signet results that exclude adjustments in connection with the acquisition of Zale will be referred to within Management's Discussion and Analysis as "Adjusted Signet." See Non-GAAP measures on pages 36-40.

First quarter sales

In the first quarter, Signet's same store sales increased 3.6%, compared to an increase of 3.3% in the prior year first quarter, and total sales increased 44.9% to \$1,530.6 million compared to \$1,056.1 million in the prior year first quarter. The increase in sales was primarily driven by the addition of the Zale division, which added \$437.1 million of sales. eCommerce sales in the first quarter were \$76.9 million, which included \$28.6 million of Zale eCommerce sales, compared to \$38.7 million in the prior year first quarter. The breakdown of the sales performance is set out in the table below.

Zale sales

As Zale was acquired May 29, 2014, there is no comparable period presented. The Zale division's first quarter total sales were \$437.1 million. Zale Jewelry contributed \$372.9 million and Piercing Pagoda contributed \$64.2 million of revenues. Total Zale division total sales included purchase accounting adjustments of \$(8.6) million related to a reduction of deferred revenue associated with extended warranty sales. Same store sales increased 5.6% driven primarily by sales associate training, new marketing creative and branded bridal and branded diamond fashion merchandise in the Zale Jewelry segment.

UK Jewelry sales

In the first quarter, the UK Jewelry division's total sales decreased 3.4% to \$146.5 million compared to \$151.7 million in the prior year first quarter and increased 6.6% at constant exchange rates. Same store sales increased 6.2% compared to an increase of 4.1% in the prior year first quarter. The increase in sales was primarily driven by branded bridal, fashion diamond jewelry and fashion watches. The average merchandise transaction value increased in both H.Samuel and Ernest Jones primarily driven by increases in diamond sales. The number of merchandise transactions increased in both H.Samuel and Ernest Jones due to strong performance in diamond, fashion jewelry and watch sales. See the table below for further analysis of sales.

Cost of sales and gross margin

In the first quarter, gross margin was \$565.9 million or 37.0% of sales compared to \$407.2 million or 38.6% of sales in the prior year first quarter. Adjusted gross margin was \$581.4 million or 37.8% of adjusted sales. The decrease in the adjusted gross margin rate from prior year of 80 basis points was due to the lower gross margins associated with the Zale division. Zale, which reduced Signet's adjusted gross margin rate by 90 basis points, operates with a lower gross margin structure than the Sterling division and represents an area of focus for improvement. The impact of Zale on Signet's adjusted gross margin rate was partially offset by a higher gross margin rate as follows:

Gross margin dollars in the Sterling Jewelers division increased \$17.9 million compared to the prior year first quarter, reflecting higher sales and a gross margin rate increase of 10 basis points. The gross margin rate expansion was driven principally by an improvement in the merchandise margin due to favorable commodity costs.

In the UK Jewelry division, gross margin dollars decreased \$1.2 million but gross margin rate increased 10 basis points compared to the prior year first quarter. The decrease in dollars was due to lower total sales as a result of foreign currency translation. The gross margin rate increase was a result of lower store occupancy expenses.

Selling, general and administrative expenses ("SGA")

Selling, general and administrative expenses ("SGA") were \$453.2 million or 29.6% of sales compared to \$310.5 million or 29.4% of sales in first quarter Fiscal 2015. The \$142.7 million increase was primarily due to the addition of the Zale division this year. In addition, included in SGA were \$2.3 million of adjustments related to purchase accounting and transaction related expenses in the current year quarter compared to \$8.4 million of pre-transaction expenses in the comparable prior year quarter. Adjusted SGA was \$450.9 million or 29.3% of sales compared to adjusted SGA of \$302.1 million or 28.6% of sales in first quarter Fiscal 2015. The adjusted Signet SGA rate excluding Zale would have also been 29.3%. The difference between the adjusted Signet SGA rate excluding Zale and the prior year first quarter adjusted Signet SGA rate was primarily due to planned higher advertising expense in the Sterling division and higher Signet central costs due to legal and payroll related costs.

Other operating income, net

Other operating income in the first quarter was \$63.5 million or 4.1% of sales compared to \$54.0 million or 5.1% of sales in the prior year first quarter. This increase was primarily due to higher interest income earned from higher outstanding receivable balances.

Operating income

Operating income was \$176.2 million, or 11.5% of sales compared to \$150.7 million or 14.3% of sales last year. Included in operating income were adjustments which reduced operating income by \$17.8 million in the first quarter compared with adjustments of \$8.4 million in the prior year first quarter. Adjusted operating income was \$194.0 million, or 12.6% of sales compared to adjusted operating income of \$159.1 million or 15.1% of sales last year. The 250 basis point decrease in adjusted operating margins was due to the addition of the Zale division this year. Excluding the Zale division, the adjusted Signet operating margin would have been 15.3%, up 20 basis points compared to last year. Operating income consisted of the following components:

	First Quarter of Fiscal 2016		First Quarter of Fiscal 2015		
	\$	% of	\$	% of

(1) Zale division includes net operating loss impact of \$11.4 million for purchase accounting adjustments. Excluding the impact from accounting adjustments, Zale division's operating income was \$26.9 million or 6.0% of sales. The Zale division operating income included \$19.5 million from Zale Jewelry or 5.1% of sales and \$7.4 million from

Piercing Pagoda or 11.5% of sales.

(2) Other includes \$6.4 million of transaction costs in the first quarter of Fiscal 2016 and \$8.4 million of pre-transaction costs in the first quarter of Fiscal 2015. Transaction costs include expenses associated principally for integration consulting, while pre-transaction costs relate to transaction and integration expenses associated with bridge financing and advisor fees for legal, tax, accounting and consulting expenses.

Table of Contents

Interest expense, net

In the first quarter, net interest expense was \$11.0 million compared to \$1.8 million in the prior year first quarter driven by the \$1.4 billion of debt related to financing the acquisition of Zale Corporation.

Income before income taxes

For the first quarter, income before income taxes was up 10.9% to \$165.2 million or 10.8% of sales compared to \$148.9 million or 14.1% of sales in the prior year first quarter.

Income taxes

In the first quarter, income tax expense was \$46.4 million compared to \$52.3 million in the prior year first quarter.

The first quarter effective tax rate was 28.1% compared to 35.1% in the prior year first quarter driven principally by the impact of the Company's amended capital structure and financing arrangements utilized to fund the acquisition of Zale Corporation. The full year effective tax rate is expected to be approximately 28% to 29%.

Net income

For the first quarter, net income was up 23.0% to \$118.8 million or 7.8% of sales compared to \$96.6 million or 9.1% of sales in the prior year first quarter. Adjusted net income was \$130.2 million or 8.5% of adjusted sales compared to \$103.9 million or 9.8% of adjusted sales in the prior year first quarter.

Earnings per share

For the first quarter, diluted earnings per share were \$1.48 compared to \$1.20 in the prior year first quarter, up 23.3%. Adjusted diluted earnings per share were \$1.62, which included a contribution of \$0.20 per share related to the Zale division and a contribution of \$0.07 per share related to Signet's capital structure, net of incremental financing expense. The weighted average diluted number of common shares outstanding was 80.2 million compared to 80.3 million in the prior year first quarter.

Dividends per share

In the first quarter of Fiscal 2016, dividends of \$0.22 per share were approved by the Board of Directors compared to \$0.18 in the first quarter of Fiscal 2015.

Summary cash flow

The following table provides a summary of Signet's cash flow activity for the first quarter of Fiscal 2016 and Fiscal 2015:

(in millions)	13 weeks ended	
	May 2, 2015	May 3, 2014
Net cash provided by operating activities	\$67.0	\$73.5
Net cash used in investing activities	(40.8)	(28.1)
Net cash used in financing activities	(97.3)	(43.5)
(Decrease) increase in cash and cash equivalents	(71.1)	1.9

Effect of exchange rate changes on cash and cash equivalents	0.1	(0.4)
Cash and cash equivalents at end of period	\$122.6	\$249.1

Operating activities

Net cash provided by operating activities was \$67.0 million compared to \$73.5 million in the prior year comparable period. Net income increased by \$22.2 million to \$118.8 million from \$96.6 million and depreciation and amortization increased \$13.8 million to \$41.8 million from \$28.0 million in the prior year comparable period. The increase in depreciation and amortization was primarily due to the Zale Division. The primary drivers of cash used in operating activities were as follows:

Cash provided by accounts receivable was \$67.7 million as compared to \$66.2 million in the prior year first quarter. In the Sterling Jewelers division, credit participation was 60.7% and the average monthly collection rate was 12.6% compared to 58.1% and 13.2%, respectively, in the prior year comparable period. The decrease in the average monthly collection rate is primarily attributed to the continued shift of customers opting for regular credit terms which requires lower monthly payments and no down payment as opposed to the 12-month interests free program.

Cash used for purchases of inventory and inventory-related items was \$43.7 million compared to \$19.9 million in the prior year comparable period. The change in inventories is primarily attributed to new stores and rough diamonds purchases. Accounts payable used \$19.0 million compared to a use of \$4.2 million in the prior year comparable period primarily driven by the Zale Division and timing of payments.

Total inventory as of May 2, 2015 was \$2,487.8 million compared to the January 31, 2015 balance of \$2,439.0 million and prior year comparable quarter balance of \$1,523.9 million. The change in inventories is primarily attributed to the acquisition of Zale which increased inventory by \$895.9 million as well as new stores and higher diamond inventory associated with our bridal business and diamond sourcing initiative.

Cash used for accrued expenses and other liabilities was \$71.1 million compared to \$42.7 million in the prior year comparable period primarily driven by salary and payroll-related items paid in the first quarter related to incentive compensation.

Investing activities

In the first quarter of Fiscal 2016, net cash used in investing activities was \$40.8 million, compared to \$28.1 million in the prior year comparable period. This was driven primarily by capital expenditures of \$42.9 million compared to capital expenditures of \$28.1 million in Fiscal 2015. The overall increase in capital additions was primarily due to new Kay and Jared stores, store remodels and Zale division information technology infrastructure and stores.

The annual net change in selling square footage for Fiscal 2015 for Sterling Jewelers division and UK Jewelry (1) division was 5% and 2%, respectively. As the Acquisition occurred during Fiscal 2015, the Zale division does not have a comparable prior period to show the net change in selling square footage.

Planned store count changes for the remainder of Fiscal 2016:

Signet anticipates opening between 90 - 110 new stores or 30 to 35 new stores net of closures in Fiscal 2016. Net selling square footage is anticipated to grow between 2% to 3% for the year driven principally by the addition of off-mall stores led by Kay and Jared. Square footage growth will be offset in part primarily due to the closure of regional store brands in North America.

	Gross locations	Net locations	Net square feet
Sterling Jewelers division	up 55 to 65	up 30 to 35	up 3% to 4%

Financing activities

In the first quarter of Fiscal 2016, net cash used in financing activities was \$97.3 million, compared to \$43.5 million in the prior year comparable period. This increase of \$53.8 million was driven primarily by payments related to overdrafts in the Zale division and required quarterly principal payments on debt incurred to finance the Acquisition. Details of the major items within financing activities are discussed below:

Dividends

	May 2, 2015		May 3, 2014

Signet's dividend policy results in the dividend payment date being a quarter in arrears from the declaration date.

(1) As a result, the dividend declared in the fourth quarter of Fiscal 2015 of \$0.18 per share was paid on February 26, 2015 in the aggregate of \$14.4 million.

(2)

As of May 2, 2015 and May 3, 2014, \$17.6 million and \$14.4 million, respectively, has been recorded in accrued expenses and other current liabilities in the condensed consolidated balance sheets reflecting the cash dividends declared for the first quarter of Fiscal 2016 and Fiscal 2015, respectively.

Share repurchase

The Company's share repurchase activity was as follows:

On June 14, 2013, the Board authorized the repurchase of up to \$350 million of Signet's common shares (the "2013 Program"). The 2013 Program may be suspended or discontinued at any time without notice. The 2013 Program had \$243.7 million remaining as of May 2, 2015.

As of May 2, 2015 and May 3, 2014, \$2.8 million and \$1.5 million, respectively, has been recorded in accrued expenses and other current liabilities in the condensed consolidated balance sheets reflecting shares repurchased but not yet settled and paid for by the end of the quarter.

Proceeds from issuance of Common Shares

In the first quarter of Fiscal 2016, \$0.1 million was received for the exercise of share options pursuant to Signet's equity compensation programs. This compares to \$1.0 million in the first quarter of Fiscal 2015.

Movement in cash and indebtedness

Net debt was \$1,278.4 million as of May 2, 2015 compared to net cash of \$240.3 million as of May 3, 2014; see non-GAAP measures discussed herein.

Cash and cash equivalents at May 2, 2015 were \$122.6 million compared to \$249.1 million as of May 3, 2014. Signet has significant amounts of cash and cash equivalents invested in various 'AAA' rated liquidity funds and at a number of financial institutions. The amount invested in each liquidity fund or at each financial institution takes into account the credit rating and size of the liquidity fund or financial institution and is invested for short-term durations.

At May 2, 2015, Signet had \$1,383.5 million of outstanding debt, which was incurred to finance the Acquisition during the second quarter of Fiscal 2015. The debt is comprised of \$398.5 million of senior unsecured notes, \$600.0 million of an asset-backed securitization facility and a \$385.0 million term loan facility. The term loan requires the Company to make scheduled quarterly principal payments over the five-year term. During the first quarter of Fiscal 2016, a \$5.0 million principal payment was made. In addition, the Company maintains a \$400 million revolving credit facility, which was undrawn upon as of May 2, 2015. On May 28, 2015, Signet amended the note purchase agreement associated with the asset-backed securitization facility to extend the term of the facility by one year to May 2017 with all terms substantially the same as the original agreement.

At May 3, 2014, Signet maintained a \$400 million revolving credit facility, which was undrawn upon during the first quarter of Fiscal 2015. In addition, Signet entered into an \$800 million 364-day unsecured bridge facility to finance the acquisition of Zale Corporation. No amounts were drawn on this bridge facility, which was replaced in the second quarter of Fiscal 2015 when the Company executed its acquisition financing.

The Company had stand-by letters of credit on the revolving credit facility of \$21.0 million and \$8.7 million as of May 2, 2015 and May 3, 2014, respectively, that reduce remaining availability under the revolving credit facility.

CONTRACTUAL OBLIGATIONS

Signet's contractual obligations and commitments at May 2, 2015 and the effects such obligations and commitments are expected to have on Signet's liquidity and cash flows in future periods have not changed materially outside the ordinary course from those disclosed in Signet's Annual Report on Form 10-K for the year ended January 31, 2015, filed with the SEC on March 26, 2015.

SEASONALITY

Signet's sales are seasonal, with the first quarter slightly exceeding 20% of annual sales, the second and third quarters each approximating 20% and the fourth quarter accounting for almost 40% of annual sales, with December being by far the most important month of the year. The "Holiday Season" consists of results for the months of November and

December. As a result, approximately 45% to 55% of Signet's annual operating income normally occurs in the fourth quarter, comprised of nearly all of the UK Jewelry and Zale divisions' annual operating income and about 40% to 45% of the Sterling Jewelers division's annual operating income.

Table of Contents

CRITICAL ACCOUNTING POLICIES

Critical accounting policies covering areas of greater complexity that are subject to the exercise of judgment due to the reliance on key estimates are listed below. A comprehensive listing of Signet's critical accounting policies are set forth in the financial statements in Item 1.

Revenue recognition

The Company recognizes revenue related to lifetime warranty sales in proportion to when the expected costs will be incurred. The deferral period for lifetime warranty sales in each division is determined from patterns of claims costs, including estimates of future claims costs expected to be incurred. Management reviews the trends in claims to assess whether changes are required to the revenue and cost recognition rates utilized. A significant change in estimates related to the time period or pattern in which warranty-related costs are expected to be incurred could materially impact revenues. All direct costs associated with the sale of these plans are deferred and amortized in proportion to the revenue recognized and disclosed as either other current assets or other assets.

The Sterling Jewelers division sells extended service plans, subject to certain conditions, to perform repair work over the lifetime of the product. Revenue from the sale of these lifetime extended service plans is deferred and recognized over 14 years, with approximately 43% of revenue recognized within the first two years (January 31, 2015: 45%; May 3, 2014: 45%).

The Sterling Jewelers division also sells a Jewelry Replacement Plan ("JRP"). The JRP is designed to protect customers from damage or defects of purchased merchandise for a period of three years. If the purchased merchandise is defective or becomes damaged under normal use in that time period, the item will be replaced. JRP revenue is deferred and recognized on a straight-line basis over the period of expected claims costs.

The Zale division also sells extended service plans. Zale Jewelry customers are offered lifetime warranties on certain products that cover sizing and breakage with an option to purchase theft protection for a two-year period. Revenue from the sale of lifetime extended service plans is deferred and recognized over 10 years, with approximately 69% of revenue recognized within the first two years (January 31, 2015: 69%). Revenues related to the optional theft protection are deferred and recognized over the two-year contract period on a straight-line basis. Zale Jewelry customers are also offered a two-year watch warranty and a one-year warranty that covers breakage. Piercing Pagoda customers are also offered a one-year warranty that covers breakage. Revenue from the two-year watch warranty and one-year breakage warranty is recognized on a straight-line basis over the respective contract terms.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Signet is exposed to market risk from fluctuations in foreign currency exchange rates, interest rates and precious metal prices, which could affect its consolidated financial position, earnings and cash flows. Signet manages its exposure to market risk through its regular operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments. Signet uses derivative financial instruments as risk management tools and not for trading purposes.

As certain of the UK Jewelry division's purchases are denominated in US dollars and its net cash flows are in British pounds, Signet's policy is to enter into foreign currency forward exchange contracts and foreign currency swaps to manage the exposure to the US dollar. Signet also hedges a significant portion of forecasted merchandise purchases using commodity forward contracts. Additionally, the Zale division occasionally enters into foreign currency contracts to manage the currency fluctuations associated with purchases for our Canadian operations. These contracts are entered into with large, reputable financial institutions, thereby minimizing the credit exposure from our counterparties.

Signet has significant amounts of cash and cash equivalents invested at several financial institutions. The amount invested at each financial institution takes into account the long-term credit rating and size of the financial institution. However, with the current financial environment and the possible instability of financial institutions, Signet cannot be assured that it will not experience any losses on these balances. The interest rates earned on cash and cash equivalents will fluctuate in line with short-term interest rates.

Signet's market risk profile as of May 2, 2015 has not materially changed since January 31, 2015. The market risk profile as of January 31, 2015 is disclosed in Signet's Fiscal 2015 Annual Report on Form 10-K, filed with the SEC on March 26, 2015.

Table of Contents**ITEM 4. CONTROLS AND PROCEDURES****Evaluation of Disclosure Controls and Procedures**

Management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended. Based on this review, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of May 2, 2015.

Changes in internal control over financial reporting

During the first quarter of Fiscal 2016, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
