Citizens Communications Reports 82 Percent Increase  
in Third Quarter EBITDA  
Q3 '01 Revenue Increases 46 Percent from Q3 '00 Revenue

Stamford, Conn., November 13, 2001 -- Citizens Communications (NYSE:CZN, CZB) today reported financial results for the quarter ended September 30, 2001. Highlights of the quarter include:

- \* This is the first full quarter reporting 2.5 million telephone access lines, reflecting the acquisition of approximately 1.1 million Frontier Corp. lines on June 29. Annualized Incumbent Local Exchange (ILEC) operating results were in line with previously announced 2001 guidance targets of \$1.55 billion in annual revenue, \$800 million in annual EBITDA before restructuring and acquisition assimilation expenses, and annual capital expenditures of \$400 million.
- \* Completed the replacement of the \$6.15 billion, 364-day credit facilities with \$4.5 billion of debt and committed facilities with a weighted average maturity of 10-1/2 years in conjunction with the issuance of approximately \$750 million of its Common Stock and equity-linked securities.
- \* Began de-leveraging by reducing net debt and long-term debt liabilities (net of cash and short-term investments) by \$340 million.
- \* Completed the divestiture of the Louisiana Gas division for \$363.4 million on July 2, 2001 and recognized a \$139.3 million pre-tax gain.
- \* Citizens recorded restructuring charges in the quarter related to its previously announced consolidation of operations support functions of Citizens and Frontier. The charges include a \$13.0 million charge to operating expenses and \$8.8 million to depreciation.
- \* Results include a \$43.6 million non-cash after-tax charge relating to the discontinuation of FAS No. 71.

Consolidated third-quarter revenue from continuing operations, which includes revenue from the company's telecommunications, electric and gas operations, was \$661.1 million, an increase of 46 percent from the third quarter of 2000. For the nine months ended September 30, 2001, consolidated revenue from continuing operations was \$1,791.1 million, an increase of 36 percent from the same period in 2000.

Third quarter 2001 EBITDA from continuing operations totaled \$251.9 million, an 82 percent increase over third quarter 2000 EBITDA of \$138.3 million. For the nine months ended September 30, 2001, EBITDA from continuing operations was \$620.4 million, an increase of 58 percent from the comparable period in 2000.

Consolidated net loss for the third quarter of 2001 was \$.4 million, compared to net income of \$1.5 million for the same period in 2000. For the nine months

## Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 8-K

ended September 30, 2001, net income was \$18.6 million compared to \$11.8 million for the corresponding period in 2000.

The current and year-ago quarters include EBITDA of \$237.6 million and \$111.0 million, respectively, from the company's ILEC operations. Third quarter 2001 EBITDA loss from the company's Electric Lightwave operation was \$2.1 million compared to \$4.8 million in EBITDA for the comparable period in 2000. The current quarter also includes \$15.9 million in EBITDA from the company's Public Services operations, compared to \$22.3 million for the same period in 2000. The decrease is primarily due to the sale of Louisiana Gas, the largest of Citizens' four gas divisions, which was sold on July 2, 2001 for \$363.4 million, resulting in a pre-tax gain of \$139.3 million.

Citizens' results for the third quarter of 2001 include a \$43.6 million non-cash after-tax charge relating to the discontinuance of FAS No. 71. Citizens has historically applied FAS No. 71 because its ILEC properties were predominantly regulated following a cost of service/rate of return approach. Beginning in the third quarter of 2001, these properties no longer met the criteria for application of FAS No. 71 due to the continuing process of deregulation and the introduction of competition to our existing rural local exchange telephone properties, and our expectation that these trends will continue for all Citizens' properties.

Restructuring expense of \$13.0 million for the three and nine months ended September 30, 2001 is related to Citizens' previously announced plan to close its operations support center in Plano, Texas by April 2002. The restructuring resulted in the reduction of 749 employees. These expenses primarily consist of severance, benefits, retention, early lease termination costs and other planning and communication costs. We expect to incur additional costs of approximately \$3.1 million through the first quarter of 2002.

### Telecommunications - ILEC

The current quarter is the first full quarter reflecting the acquisition of Frontier Corp. on June 29, 2001. Access lines at the end of the third quarter of 2001 totaled approximately 2.5 million and include approximately 1,229,000 access lines acquired since September 30, 2000.

ILEC revenue for the third quarter of 2001 was \$507.2 million, compared to \$246.8 million for the same period in 2000. Acquisitions accounted for \$245.5 million of the increase. Excluding acquisitions, revenue grew by 6 percent, led by access line growth of 3 percent. A 26 percent increase in the third quarter of 2001 in data and long-distance revenue, excluding acquisitions, reflects Citizens' continuing efforts to provide a more comprehensive set of services to its customers. Revenue for the nine months ended September 30, 2001 from the ILEC was \$1,083.3 million, compared to \$700.5 million for the same period in 2000 for a 55 percent increase year-over-year. Acquisitions accounted for \$350.3 million of this increase.

ILEC EBITDA for the third quarter was \$237.6 million, compared to \$111.0 million in the same period of 2000. Third-quarter ILEC EBITDA results were affected by restructuring charges of \$13.0 million and \$5.1 million related to acquisition assimilation expense. Absent these expenses, EBITDA for the third quarter of 2001 would have been \$255.7 million, compared to \$123.5 million for the same period in 2000. The ILEC EBITDA margin for the third quarter of 2001, after restructuring and acquisition assimilation expense, was 50.4 percent, compared to 50.0 percent for the same period in 2000, reflecting the lower margins at the recently acquired Frontier properties as well as the current expenses of operating and consolidating the Citizens and Frontier operations.

The current quarter also includes an \$8.8 million increase in depreciation due

## Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 8-K

to the reduction in useful life of certain assets which will be phased out as a result of the restructuring. Operating results through the second quarter of 2002 will reflect the current expenses of two operations centers until the consolidation and integration is completed during 2002. The accelerated level of depreciation expense will also continue over the next three quarters.

ILEC EBITDA for the nine months ended September 30, 2001 was \$535.7 million, up 72 percent from \$312.1 million in the prior year period, resulting in an EBITDA margin of 49 percent. ILEC EBITDA for the nine months ended September 30, 2001 includes the above-described restructuring charges and assimilation expense related to acquisitions of telephone access lines. Absent these restructuring charges and assimilation expense, continuing ILEC EBITDA was \$566.3 million, a 68 percent increase over the prior year's corresponding period, for an EBITDA margin of 52 percent for the nine months ended September 30, 2001 compared to 48 percent for the same period of 2000.

### ILEC Financings

During the third quarter of 2001, the company completed the long-term financing of Citizens' local exchange access line acquisitions. The company sold \$1.75 billion in long-term debt securities in August and completed bank financings of \$1 billion of committed five-year revolving and 10-year-term debt during October. These financings provide excess liquidity and financial flexibility. Since May 2001, Citizens has issued \$4.5 billion of debt and committed bank facilities with a weighted average maturity of 10 1/2 years in conjunction with the issuance of approximately \$750 million of Common Stock and equity-linked securities.

In the third quarter of 2001, Citizens began de-leveraging by reducing net debt and long-term liabilities (net of cash and short-term investments) by \$340 million.

### Electric Lightwave, Inc. (NASDAQ: ELIX)

Third quarter Electric Lightwave, Inc. (ELI) revenue totaled \$53.3 million, compared to \$63.6 million for the same period in 2000. Although revenue for the quarter was down 16 percent from the corresponding period in 2000, the Network Services component of revenue grew 21 percent due to sales of additional circuits to new and existing customers as ELI concentrated upon its targeted customer base. The revenue decrease was primarily due to reduced rates for reciprocal compensation, the non-renewal of a take-or-pay contract with a major customer, and reduced demand from ISPs and other carriers for Internet-related traffic.

ELI revenue for the nine months ended September 30, 2001 was \$176.3 million, compared to \$181.0 million for the same period in 2000.

ELI's gross margin during the third quarter of 2001 was 68 percent. ELI's third-quarter 2001 EBITDA loss of \$2.1 million was impacted by a workforce reduction with an associated expense of \$1.4 million, and lower-than-anticipated revenue for the quarter. ELI EBITDA for the third quarter of 2000 was \$4.8 million. ELI EBITDA for the nine months ended September 30, 2001 was \$5.2 million, compared to a \$3.3 million EBITDA loss for the same period in 2000.

ELI's Class A Common Stock is currently traded on the Nasdaq National Market System, but the stock does not meet minimum bid price and market value of public float requirements for continued listing that were applicable on September 27, 2001. On that date Nasdaq Stock Market, Inc. implemented a moratorium until January 2, 2002, at which time compliance with the minimum requirements for listing on the Nasdaq National and SmallCap Markets will start anew. If ELI's Class A Common Stock does not meet the requirements of the National Market System for 30 consecutive days, and is unable to regain compliance within 90 days, the stock could be subject to delisting at that time.

## Edgar Filing: CITIZENS COMMUNICATIONS CO - Form 8-K

### Public Services

In September, the California Public Utilities Commission (PUC) approved the sale of Citizens' water operations to American Water Works. The proposed \$835 million sale is still pending an appeal of the PUC order. The company currently is working toward a closing before year end.

Gas and Electric third-quarter revenues totaled \$101.7 million versus \$143.1 million for the prior year's quarter. Public Services EBITDA was \$15.9 million for the third quarter of 2001, compared to \$22.3 million for the same period in 2000, primarily due to the sale of Louisiana Gas.

Revenues for the nine months ended September 30, 2001 totaled \$534.5 million versus \$440.6 million for the same period in 2000. For the nine months ended September 30, 2001, Public Services EBITDA was \$77.4 million compared to \$84.1 million for the same period of 2000.

Guidance for the ILEC for the year ended 2001 is reaffirmed at \$1.55 billion in annual revenue, \$800 million in annual EBITDA before restructuring and acquisition assimilation expenses, and annual capital expenditures of \$400 million. For Electric Lightwave, 2001 guidance is being lowered to \$228 million in revenue, \$10 million in EBITDA, and capital expenditures of \$55 million.

### About Citizens Communications

Citizens Communications serves approximately 2.5 million access lines in 24 states and is acquiring an additional 70,000 access lines. It owns 85 percent of Electric Lightwave, Inc. (NASDAQ: ELIX). More information on Citizens may be found at [www.czn.net](http://www.czn.net).

This document contains forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the statements. These and all forward-looking statements (including oral representations) are only predictions or statements of current plans that are constantly under review by the company. All forward-looking statements may differ from actual results because of, but not limited to, changes in the local and overall economy, changes in market conditions for debt and equity securities, the nature and pace of technological changes, the number and effectiveness of competitors in the company's markets, success in overall strategy, changes in legal or regulatory policy, changes in legislation, the company's ability to identify future markets and successfully expand existing ones, the mix of products and services offered in the company's target markets, the effects of acquisitions and dispositions and the ability to effectively integrate businesses acquired. These important factors should be considered in evaluating any statement contained herein and/or made by the company or on its behalf.
