Form 10-Q

August 03, 2017

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 001-11001

FRONTIER COMMUNICATIONS CORPORATION

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

06-0619596
(I.R.S. Employer Identification No.)

Edgar Filing: FRONTIER COMMUNICATIONS CORP - Form 10-Q

401 Merritt 7
Norwalk, Connecticut 06851
(Address of principal executive offices) (Zip Code)

(203) 614-5600

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definition of "accelerated filer," "large accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the

Exchange Act

Edgar Filing: FRONTIER COMMUNICATIONS CORP - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No X

The number of shares outstanding of the registrant's Common Stock as of July 31, 2017 was 78,517,000.

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(1) Summary of Significant Accounting Policies:

(a) Basis of Presentation and Use of Estimates:

Frontier Communications Corporation and its subsidiaries are referred to as “we,” “us,” “our,” “Frontier,” or the “Company” in this report. Our interim unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and should be read in conjunction with the consolidated financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2016. Certain reclassifications of amounts previously reported have been made to conform to the current presentation, as described in Note 2 – Recent Accounting Literature. All significant intercompany balances and transactions have been eliminated in consolidation. These interim unaudited consolidated financial statements include all adjustments (consisting of normal recurring accruals) considered necessary, in the opinion of Frontier’s management, to present fairly the results for the interim periods shown. Revenues, net loss and cash flows for any interim periods are not necessarily indicative of results that may be expected for the full year. For our interim financial statements as of and for the period ended June 30, 2017, we evaluated subsequent events and transactions for potential recognition or disclosure through the date that we filed this Form 10-Q with the Securities and Exchange Commission (SEC).

Effective April 1, 2016, Frontier’s scope of operations and balance sheet changed materially as a result of the completion of the CTF Acquisition, as described in Note 3 – Acquisitions. Historical financial data presented for Frontier is not indicative of the future financial position or operating results for Frontier, and includes the results of the CTF Operations, as defined in Note 3 – Acquisitions, from the date of acquisition on April 1, 2016.

The preparation of our interim financial statements in conformity with GAAP requires management to make estimates and assumptions that affect (i) the reported amounts of assets and liabilities at the date of the financial statements, (ii) the disclosure of contingent assets and liabilities, and (iii) the reported amounts of revenue and expenses during the reporting period. Actual results may differ from those estimates. Estimates and judgments are used when accounting for the allowance for doubtful accounts, asset impairments, indefinite-lived intangibles, depreciation and amortization, income taxes, business combinations, and pension and other postretirement benefits, among others.

We operate in one reportable segment. Frontier provides both regulated and unregulated voice, data and video services to consumer, commercial and wholesale customers and is typically the incumbent voice services provider in its service areas.

On July 10, 2017, we effected a one for fifteen reverse stock split of our common stock. The reverse stock split reduced the number of common shares issued (which includes outstanding shares and treasury shares) from approximately 1,193,000,000 shares to 80,000,000 shares, and reduced shares outstanding from 1,178,000,000 shares to 79,000,000 shares. In addition, and at the same time, the total number of shares of common stock that Frontier is authorized to issue changed from 1,750,000,000 shares to 175,000,000 shares. There was no change in the par value of the common stock, and no fractional shares were issued. All share and per share amounts in the financial statements and footnotes have been retroactively adjusted for all periods presented to give effect to the reverse stock split. As a result of our reverse stock split the conversion rates of our Series A Preferred Stock were proportionately adjusted.

(b) Revenue Recognition:

Revenue is recognized when services are provided or when products are delivered to customers. Revenue that is billed in advance includes monthly recurring network access services (including data services), special access services and monthly recurring voice, video and related charges. The unearned portion of these fees is initially deferred as a component of “Advanced billings” on our consolidated balance sheet and recognized as revenue over the period that the services are provided. Revenue that is billed in arrears includes non-recurring network access services (including data services), switched access services and non-recurring voice and video services. The earned but unbilled portion of these fees is recognized as revenue in our consolidated statements of operations and accrued in “Accounts receivable” on our consolidated balance sheet in the period that the services are provided. Excise taxes are recognized as a

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

liability when billed. Installation fees and their related direct and incremental costs are initially deferred and recognized as revenue and expense over the average term of a customer relationship. We recognize as current period expense the portion of installation costs that exceeds installation fee revenue.

Frontier collects various taxes from its customers and subsequently remits these taxes to governmental authorities. Substantially all of these taxes are recorded through the consolidated balance sheet and presented on a net basis in our consolidated statements of operations. We also collect Universal Service Fund (USF) surcharges from customers (primarily federal USF) that we have recorded on a gross basis in our consolidated statements of operations and included within "Revenue" and "Network related expenses" of \$55 million and \$62 million, and \$108 million and \$101 million for the three and six months ended June 30, 2017 and 2016, respectively.

In 2015, we accepted the FCC's Connect America Fund (CAF) Phase II offer of support, which is a successor to and augments the USF frozen high cost support that we had been receiving pursuant to a 2011 FCC order. Upon completion of the CTF Acquisition, Frontier assumed the CAF Phase II support and related obligations that Verizon had previously accepted with regard to California and Texas. CAF Phase II funding is a program intended to subsidize the high cost of establishing and delivering communications services to certain unserved or underserved areas. We are recognizing these subsidies into revenue on a straight line basis, which is consistent with how the costs related to these subsidies are being and are expected to be incurred. CAF Phase II is a multi-year program which requires us to deploy broadband to a specified number of households in each of the states where funding was accepted. Failure to meet our deployment obligations at the end of the program in 2020 will result in a return of a portion of the funding received. We regularly evaluate our ability to meet our broadband deployment obligations and adjust revenue accordingly.

We categorize our products, services and other revenues among the following five categories:

- Data and Internet services include broadband services for consumer and commercial customers. We provide data transmission services to high volume commercial customers and other carriers with dedicated high capacity circuits ("nonswitched access") including services to wireless providers ("wireless backhaul");

Voice services include traditional local and long distance wireline services, Voice over Internet Protocol (VoIP) services, as well as a number of unified messaging services offered to our consumer and commercial customers. Voice services also include the long distance voice origination and termination services that we provide to our commercial customers and other carriers;

- Video services include revenues generated from services provided directly to consumer customers through the FiOS® and Vantage video brands, and through DISH® satellite TV services;
- Other customer revenue includes sales of customer premise equipment to our commercial customers and directory services, less our provision for bad debts; and
- Switched Access and Subsidy revenues include revenues derived from allowing other carriers to use our network to originate and/or terminate their local and long distance voice traffic (“switched access”). These services are primarily billed on a minutes-of-use basis applying tariffed rates filed with the FCC or state agencies. We also receive cost subsidies from state and federal authorities, including the Connect America Fund Phase II.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

The following table provides a summary of revenues from external customers by the categories of Frontier's products and services:

(\$ in millions)	For the three months ended June 30,		For the six months ended June 30,	
	2017	2016	2017	2016
Data and Internet services	\$ 974	\$ 1,048	\$ 1,967	\$ 1,635
Voice services	724	836	1,475	1,303
Video services	329	419	676	487
Other	79	78	147	145
Customer revenue	2,106	2,381	4,265	3,570
Switched access and subsidy	198	227	395	393
Total revenue	\$ 2,304	\$ 2,608	\$ 4,660	\$ 3,963

(c) Goodwill and Other Intangibles:

Goodwill represents the excess of purchase price over the fair value of identifiable tangible and intangible net assets acquired in a business combination. We have undertaken studies to determine the fair values of assets and liabilities acquired as well as to allocate the purchase price to assets and liabilities, including property, plant and equipment, goodwill and other identifiable intangibles. We examine the carrying value of our goodwill and trade name annually as of December 31, or more frequently as circumstances warrant, to determine whether there are any impairment losses. We test for goodwill impairment at the "operating segment" level, as that term is defined in GAAP.

We determined that we have one operating segment based on a number of factors that our management uses to evaluate and run our business operations, including similarities of customers, products and technology. We tested goodwill for impairment as of June 30, 2017 as a result of the significant decline in share price of our common stock

since March 31, 2017. Refer to Note 6 for a discussion of our goodwill impairment testing and results as of June 30, 2017. As stated in Note 2, we early adopted ASU No. 2017-04, "Simplifying the Test for Goodwill Impairment" during the second quarter of 2017 in conjunction with our goodwill impairment assessment.

Frontier amortizes finite-lived intangible assets over their estimated useful lives on the accelerated method of sum of the years digits. We review such intangible assets at least annually as of December 31 to assess whether any potential impairment exists and whether factors exist that would necessitate a change in useful life and a different amortization period.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(2) Recent Accounting Literature:

Recent Accounting Pronouncements Not Yet Adopted

Revenue Recognition

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, "Revenue from Contracts with Customers." This standard, along with its related amendments, requires companies to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which Frontier expects to be entitled in exchange for those goods or services. This new standard will be adopted by Frontier for annual and interim reporting periods beginning with the first quarter of 2018.

The FASB allows two adoption methods under ASC 606. Companies are permitted to either apply the requirements retrospectively to all prior periods presented, or apply the requirements in the year of adoption, through a cumulative adjustment. We currently plan to adopt the standard in the first quarter of 2018, using the "modified retrospective method." Under that method, we will apply the rules to all contracts existing as of January 1, 2018, recognizing in beginning retained earnings, a cumulative-effect adjustment to include the establishment of contract asset and contract liability accounts with a corresponding adjustment to retained earnings and providing additional disclosures comparing revenue recognized under ASC 606 to revenue reported under the previous accounting standards.

Upon initial evaluation, we believe the key changes in the standard that impact our revenue recognition relate to the allocation of contract revenues among various services and equipment, and the timing of when those revenues are recognized. Additionally, the new standard will impact the timing of recognizing costs to obtain contracts. This includes a change in our existing policy related to the way we account for customer incentives, upfront non-recurring charges, commission payments, customer disputes and the allocation of discounts.

We have established a cross-functional team to implement the standard and are in the process of identifying and implementing changes to our systems, processes, policies and internal controls to meet the standard's reporting and disclosure requirements.

Leases

In February 2016, the FASB issued ASU No. 2016 – 02, “Leases (Topic 842).” This standard establishes the principles to report transparent and economically neutral information about the assets and liabilities that arise from leases. Upon implementation, lessees will need to recognize almost all leases on their balance sheet as a right-of-use asset and a lease liability. It will be critical to identify leases embedded in a contract to avoid misstating the lessee’s balance sheet. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating or finance. Classification will be based on criteria that are largely similar to those applied in current lease accounting, but without explicit bright lines. Lessor accounting is similar to the current model, but updated to align with certain changes to the lessee model and the new revenue recognition standard. Existing sale-leaseback guidance, including guidance for real estate, is replaced with a new model applicable to both lessees and lessors. The new guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early application is permitted. Frontier is in the initial stages of evaluating the potential impact this new standard may have on the consolidated financial statements.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Compensation – Retirement Benefits

In March 2017, the FASB issued ASU No. 2017-07, “Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost”. This standard was established to improve the presentation of net periodic pension cost and net periodic postretirement benefit cost by requiring that an employer disaggregate the service cost component of periodic benefit cost from the other components of net benefit cost. The amendments in the update also provide explicit guidance on how to present the service cost component and other components of net benefit cost in the income statement and allow only the service cost components of net benefit cost to be eligible for capitalization. The new guidance is effective for annual periods beginning after December 15, 2017, including interim periods within those annual periods. Frontier is currently evaluating the impact of adopting the new standard and has not yet determined the impact of adoption on its consolidated financial statements.

Recently Adopted Accounting Pronouncements

Share-Based Payments - Scope of Modification Accounting

In May 2017, the FASB issued ASU No. 2017-09, Scope of Modification Accounting which amends the scope of modification accounting for share-based payment arrangements. This standard provides guidance on the types of changes to the terms or conditions of share-based payment awards to which an entity would be required to apply modification accounting under ASC 718. Specifically, an entity would not apply modification accounting if the fair value, vesting conditions, and classification of the awards are the same immediately before and after the modification. The new guidance is effective for annual periods beginning after December 15, 2017, including interim periods within those annual periods and early adoption is permitted including in any interim period. Frontier has adopted this standard during the second quarter 2017, with no impact to our share-based payment awards.

Intangibles – Goodwill

In January 2017, the FASB issued ASU No. 2017-04, “Simplifying the Test for Goodwill Impairment.” This standard was established to simplify how an entity is required to test goodwill for impairment by eliminating Step 2 from the goodwill impairment test. Step 2 measures a goodwill impairment loss by comparing the implied fair value of a reporting unit’s goodwill with the carrying amount of that goodwill. Under the amendments in this Update, an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount

exceeds the reporting unit's fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. Additionally, an entity should consider income tax effects from any tax deductible goodwill on the carrying amount of the reporting unit when measuring the goodwill impairment loss, if applicable. The FASB also eliminated the requirements for any reporting unit with a zero or negative carrying amount to perform a qualitative assessment and, if it fails that qualitative test, to perform Step 2 of the goodwill impairment test. Therefore, the same impairment assessment applies to all reporting units. An entity is required to disclose the amount of goodwill allocated to each reporting unit with a zero or negative carrying amount of net assets. An entity still has the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. The new guidance is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. Frontier has adopted this standard during the second quarter of 2017 in conjunction with our goodwill impairment assessment. See Note 1 and Note 6 for further discussion.

Compensation – Stock Compensation

In March 2016, the FASB issued ASU No. 2016-09, "Improvements to Employee Share-Based Payment Accounting," to amend ASC Topic 718, "Compensation – Stock Compensation." The ASU is part of the FASB's ongoing simplification initiative, which is designed to reduce cost and complexity while maintaining or improving the usefulness of the information provided to the users of financial statements. The simplifications address a variety of areas for public entities, including the following: 1) accounting for income taxes, 2) classification of excess tax benefits on the statement of cash flows, 3) forfeitures, 4) minimum statutory tax withholding requirements, 5) classifications of employee taxes paid on the statement of cash flows when an employer withholds shares for tax withholding purposes, and 6) classification of awards with repurchase features. This

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

guidance was effective for Frontier as of the second quarter of 2017. During the six months ended June 30, 2017 Frontier recognized \$2 million of income tax expense and recorded a cumulative effect adjustment to beginning accumulated deficit of \$1 million to recognize all unrecognized deferred tax benefits recorded as of January 1, 2017. For the six months ended June 30, 2016, Frontier reclassified \$10 million of taxes paid on behalf of employees related to shares withheld from “Cash flows provided from (used by) operations” to “Cash flows used by financing activities” in accordance with the new standard.

(3) Acquisitions:

The CTF Acquisition

On April 1, 2016, Frontier acquired the wireline operations of Verizon Communications, Inc. in California, Texas and Florida for a purchase price of \$10,540 million in cash and assumed debt (the CTF Acquisition), pursuant to the February 5, 2015 Securities Purchase Agreement, as amended. In addition, Frontier and Verizon settled the working capital and net debt adjustments with \$15 million paid to Frontier in October 2016. As a result of the CTF Acquisition, Frontier now operates these former Verizon properties, which included approximately 2.5 million total customers, 2.1 million broadband subscribers, and 1.2 million FiOS video subscribers as of April 1, 2016 (the CTF Operations).

The final allocation of the purchase price presented below represents the effect of recording the fair value of assets acquired and liabilities assumed as of the date of the CTF Acquisition, based on the total transaction cash consideration of \$9,871 million.

(\$ in millions)

Current assets	\$ 353
Property, plant & equipment	6,096
Goodwill	2,606
Other intangibles - primarily customer list	2,262

Current liabilities	(579)
Long-term debt	(544)
Other liabilities	(323)
Total net assets acquired	\$ 9,871

The fair value estimates related to the allocation of the purchase price to Other intangibles were revised and updated during the first quarter of 2017 from the previous estimates as of December 31, 2016. The allocation that was reported as of December 31, 2016 for Other intangibles increased \$100 million, from \$2,162 million to \$2,262 million. These measurement period adjustments resulted in \$20 million of amortization expense during the first quarter of 2017 that would have been recorded in 2016 if the adjustments had been recognized as of the acquisition date. Other adjustments to the allocation of the purchase price for the CTF Acquisition during the first quarter of 2017 resulted in a \$140 million decrease in Property, plant & equipment, a \$61 million increase in Current liabilities, and a \$98 million increase in Goodwill.

The total consideration exceeded the net estimated fair value of the assets acquired and liabilities assumed by \$2,606 million, which we recognized as goodwill. This goodwill is attributable to strategic benefits, including enhanced financial and operational scale, market diversification and leveraged combined networks that we expect to realize. This amount of goodwill associated with the CTF Acquisition will be deductible for income tax purposes.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

The following unaudited pro forma financial information presents the combined results of operations of Frontier and the CTF Operations as if the CTF Acquisition had occurred as of January 1, 2016. The pro forma information is not necessarily indicative of what the financial position or results of operations actually would have been had the CTF Acquisition been completed as of January 1, 2016. In addition, the unaudited pro forma financial information is not indicative of, nor does it purport to project, the future financial position or operating results of Frontier. The unaudited pro forma financial information excludes acquisition and integration costs and does not give effect to any estimated and potential cost savings or other operating efficiencies that may result from the CTF Acquisition.

(\$ in millions, except per share amounts)	(Unaudited) For the six months ended June 30, 2016
Revenue	\$ 5,322
Operating income	\$ 743
Net loss attributable to Frontier common shareholders	\$ (96)
Basic and diluted net loss per share attributable to Frontier common shareholders	\$ (1.24)

Acquisition and Integration Costs

Acquisition costs include financial advisory, accounting, regulatory, legal and other related costs. Integration costs include expenses that are incremental and directly related to the acquisition, which were incurred to integrate the network and information technology platforms. Integration costs also include costs to achieve synergies and operational efficiencies directly associated with the acquisition.

Frontier incurred operating expenses related to the CTF Acquisition as follows:

(\$ in millions)	For the three months ended June 30,		For the six months ended June 30,	
	2017	2016	2017	2016
Acquisition costs	\$ -	\$ 21	\$ -	\$ 23
Integration costs	12	106	14	242
Total acquisition and integration costs	\$ 12	\$ 127	\$ 14	\$ 265

We also invested \$5 million and \$88 million in capital expenditures related to the CTF Acquisition during the six months ended June 30, 2017 and 2016, respectively.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(4) Accounts Receivable:

The components of accounts receivable, net are as follows:

(\$ in millions)	June 30, 2017	December 31, 2016
Retail and wholesale	\$ 778	\$ 979
Other	84	90
Less: Allowance for doubtful accounts	(73)	(131)
Accounts receivable, net	\$ 789	\$ 938

We maintain an allowance for doubtful accounts based on our estimate of our ability to collect accounts receivable. During the second quarter of 2017 we resolved settlements with carriers resulting in a reduction to our reserves of approximately \$35 million. Bad debt expense, which is recorded as a reduction to revenue, was as follows:

(\$ in millions)	For the three months ended June 30, 2017		For the six months ended June 30, 2016	
	2017	2016	2017	2016

Bad debt expense \$ 25 \$ 34 \$ 57 \$ 48

(5) Property, Plant and Equipment:

Property, plant and equipment, net is as follows:

(\$ in millions)	June 30, 2017	December 31, 2016
Property, plant and equipment	\$ 25,857	\$ 25,541
Less: Accumulated depreciation	(11,375)	(10,639)
Property, plant and equipment, net	\$ 14,482	\$ 14,902

Depreciation expense is principally based on the composite group method. Depreciation expense was as follows:

(\$ in millions)	For the three months ended June 30,		For the six months ended June 30,	
	2017	2016	2017	2016
Depreciation expense	\$ 379	\$ 446	\$ 755	\$ 686

We adopted new estimated remaining useful lives for certain plant assets as of October 1, 2016, as a result of an annual independent study of the estimated remaining useful lives of our plant assets, with an insignificant impact to depreciation expense.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

In 2017, we sold and leased back certain properties, generating \$86 million in net proceeds. We have deferred \$59 million in gains, of which \$26 million and \$33 million are included in Other current liabilities and Other liabilities, respectively on our consolidated balance sheet as of June 30, 2017, and are being amortized over the related lease terms of 2 years.

(6) Goodwill and Other Intangibles:

The activity in goodwill from January 1, 2017 to June 30, 2017 was as follows:

(\$ in millions)

Balance at January 1, 2017	\$ 9,674
CTF Acquisition adjustments	98
Impairment	(670)
Balance at June 30, 2017	\$ 9,102

We are required to perform impairment tests related to our goodwill annually, which we perform as of December 31, or sooner if an indicator of impairment occurs. In the second quarter of 2017, a triggering event prompted us to perform the quantitative impairment test. The triggering event was the significant decrease in the share price of our common stock during the period.

We use a market multiples approach to determine fair value. Marketplace company comparisons and analyst reports within the telecommunications industry have historically supported a range of fair values of multiples between 5.0x

and 7.9x annualized EBITDA (defined as operating income, net of acquisition and integration costs, noncash pension and OPEB costs, pension settlement costs, goodwill impairment and restructuring costs and other charges, as well as depreciation and amortization). We estimated the enterprise fair value using a multiple of 5.8x EBITDA.

Our quantitative assessment indicated that the carrying value of the enterprise exceeded its fair value and, therefore, an impairment existed, principally due to the decline in our profitability during the second quarter of 2017. We elected to early adopt the simplified goodwill method under ASU 2017-04, and recorded our goodwill impairment based on the amount that the enterprise carrying value exceeded the fair value, which resulted in a goodwill impairment of \$670 million.

The market multiples approach that we use incorporates significant estimates and assumptions related to the forecasted results for the remainder of the year including revenues, expenses, and the achievement of other cost synergies. Our assessment includes many qualitative factors that require significant judgment. Alternative interpretations of these factors could have resulted in different conclusions regarding the need for, or size of, an impairment. Continued declines in our profitability or cash flows or in the trading value of our common stock may result in further impairment.

We also considered whether the carrying values of finite-lived intangible assets and property plant and equipment may not be recoverable or whether the carrying value of certain indefinite-lived intangible assets were impaired, noting no additional impairment was present as of June 30, 2017.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

The components of other intangibles are as follows:

(\$ in millions)	June 30, 2017			December 31, 2016		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Other Intangibles:						
Customer base	\$ 5,188	\$ (2,978)	\$ 2,210	\$ 5,088	\$ (2,604)	\$ 2,484
Trade name	122	-	122	122	-	122
Royalty agreement	72	(18)	54	72	(16)	56
Total other intangibles	\$ 5,382	\$ (2,996)	\$ 2,386	\$ 5,282	\$ (2,620)	\$ 2,662

Amortization expense was as follows:

(\$ in millions)	For the three months ended		For the six months ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
Amortization expense	\$ 173	\$ 129	\$ 376	\$ 205

Amortization expense primarily represents the amortization of our customer base acquired as a result of the CTF Acquisition, the Connecticut Acquisition in 2014 and the acquisition of certain Verizon properties in 2010 with each based on a useful life of 8 to 12 years on an accelerated method.

(7) Fair Value of Financial Instruments:

The following table summarizes the carrying amounts and estimated fair values for long-term debt at June 30, 2017 and December 31, 2016. For the other financial instruments including cash, accounts receivable, long-term debt due within one year, accounts payable and other current liabilities, the carrying amounts approximate fair value due to the relatively short maturities of those instruments.

The fair value of our long-term debt is estimated based upon quoted market prices at the reporting date for those financial instruments.

	June 30, 2017		December 31, 2016	
(\$ in millions)	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-term debt	\$ 17,680	\$ 16,505	\$ 17,560	\$ 17,539

- (2) Represents borrowings under the JPM Credit Agreement, as defined below.
- (3) Represents borrowings under the 2016 CoBank Credit Agreement, as defined below.
- (4) Represents borrowings under the JPM Credit Agreement Term Loan B, as defined below.
- (5) Interest rate represents a weighted average of the stated interest rates of multiple issuances.

On April 17, 2017, Frontier used cash available on hand to retire \$210 million of 8.25% Senior Notes that matured on such date.

On February 27, 2017, Frontier entered into a first amended and restated credit agreement with JPMorgan Chase Bank, N.A., as administrative agent, and the lenders party thereto (the JPM Credit Agreement), pursuant to which Frontier combined its revolving credit agreement, dated as of June 2, 2014, and its term loan credit

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

agreement, dated as of August 12, 2015. Under the JPM Credit Agreement, as further amended on June 15, 2017 by Increase Joinder No.1, Frontier has a \$1,625 million senior secured term loan A facility (the Term Loan A) maturing on March 31, 2021, an \$850 million secured revolving credit facility maturing on February 27, 2022 (the Revolver), and \$1,500 million senior secured term loan B facility (the Term Loan B) maturing on June 15, 2024. The maturities of the Term Loan A, the Revolver, and the Term Loan B, in each case if still outstanding, will be accelerated in the following circumstances: (i) if, 91 days before the maturity date of any series of Senior Notes maturing in 2020, 2023 and 2024, more than \$500 million in principal amount remains outstanding on such series; or (ii) if, 91 days before the maturity date of the first series of Senior Notes maturing in 2021 or 2022, more than \$500 million in principal amount remains outstanding, in the aggregate, on the two series of Senior Notes maturing in such year. The determination of interest rates for each of the facilities under the JPM Credit Agreement is based on margins over the Base Rate (as defined in the JPM Credit Agreement) or LIBOR, at the election of Frontier. Interest rate margins on the Term Loan A and Revolver (ranging from 0.75% to 1.75% for Base Rate borrowings and 1.75% to 2.75% for LIBOR borrowings) are subject to adjustment based on Frontier's Total Leverage Ratio (as defined in the JPM Credit Agreement). Interest rate margins on the Term Loan B (2.75% for Base Rate borrowings and 3.75% for LIBOR borrowings) are not subject to adjustment. The JPM Credit Agreement contains a covenant that Frontier's Leverage Ratio (as defined in the JPM Credit Agreement) not be above 5.25 to 1.0 initially, migrating to 5.0 to 1.0 beginning in the second quarter of 2018, 4.75 to 1.0 in the second quarter of 2019, and 4.5 to 1.0 in the second quarter of 2020. The security package under the JPM Credit Agreement includes pledges of the equity interests in certain Frontier subsidiaries and guaranties by certain Frontier subsidiaries. As of June 30, 2017, the revolving credit facility was fully available and no borrowings had been made thereunder. The revolving credit facility is available for general corporate purposes but may not be used to fund dividend payments.

In June 2017, Frontier used cash proceeds from the Term Loan B offering to retire \$763 million of 8.875% Notes due 2020 and \$527 million of 8.500% Notes due 2020. Frontier recorded a loss on early extinguishment of debt of \$90 million driven by premiums paid to retire the notes and unamortized original issuance costs.

Upon completion of the CTF Acquisition on April 1, 2016, we also assumed additional debt of \$600 million, including \$200 million aggregate principal amount of 6.75% Senior Notes due May 15, 2027, \$300 million aggregate principal amount of 6.86% Senior Notes due February 1, 2028 and \$100 million aggregate principal amount of 8.50% Senior Notes due November 15, 2031.

On September 25, 2015, Frontier completed a private offering of \$6,600 million aggregate principal amount of unsecured Senior Notes, as follows: \$1,000 million of 8.875% Senior Notes due 2020; \$2,000 million of 10.500%

Senior Notes due 2022; and \$3,600 million of 11.000% Senior Notes due 2025. Each was issued at a price equal to 100% of its principal amount. Frontier used the net proceeds from the offering (after deducting underwriting fees) to finance a portion of the cash consideration paid in connection with the CTF Acquisition and to pay related fees and expenses. In June 2016, we completed an exchange offer of registered senior notes for the privately placed senior notes.

On February 5, 2015, we entered into a commitment for a bridge loan facility (the Verizon Bridge Facility) and recognized related interest expense of \$10 million during the six months ended June 30, 2016.

Frontier has two senior secured credit agreements with CoBank, ACB, as administrative agent, lead arranger and a lender, and the other lenders party thereto: the first, for a \$350 million senior term loan facility drawn in 2014 (the 2014 CoBank Credit Agreement), matures on October 24, 2019, and the second, for a \$315 million senior term loan facility drawn in October 2016 (the 2016 CoBank Credit Agreement), matures on October 12, 2021. We refer to the 2014 CoBank Credit Agreement and the 2016 CoBank Credit Agreement collectively as the CoBank Credit Agreements.

Repayment of the outstanding principal balance under each of the CoBank Credit Agreements is being made in quarterly installments (\$9 million, with respect to the 2014 CoBank Credit Agreement, and \$8 million, with respect to the 2016 CoBank Credit Agreement), in each case with the remaining outstanding principal balance to be repaid on the applicable maturity date. Borrowings under each of the CoBank Credit Agreements bear interest

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

based on the margins over the Base Rate (as defined in the applicable CoBank Credit Agreement) or LIBOR, at the election of Frontier.

On March 29, 2017, Frontier amended the 2014 and 2016 CoBank Credit Agreements. The amendments provide that interest rate margins under each of these facilities will range from 0.875% to 3.875% for Base Rate borrowings and 1.875% to 4.875% for LIBOR borrowings, subject to adjustment based on our Total Leverage Ratio, as defined in each credit agreement. The interest rate on each of the facilities as of June 30, 2017 was LIBOR plus 3.875%. In addition, the amendments provide for increases in the maximum Leverage Ratio and expansion of the security package identical to those contained in the JPM Credit Agreement.

As of June 30, 2017, we were in compliance with all of our indenture and credit facility covenants.

Our scheduled principal payments are as follows as of June 30, 2017:

(\$ in millions)	Principal Payments
2017 (remaining six months)	\$ 83
2018	\$ 748
2019	\$ 833
2020	\$ 1,156
2021	\$ 2,569
2022	\$ 2,703
Thereafter	\$ 10,010

(9) Restructuring Costs and Other Charges

As of June 30, 2017, restructuring related liabilities of \$13 million pertaining to employee separation charges were included in "Other current liabilities" in our consolidated balance sheet.

Restructuring costs and other charges, primarily consisting of severance and other employee-related costs of \$32 million in connection with workforce reductions, are included in "Restructuring costs and other charges" in our consolidated statement of operations for the six months ended June 30, 2017. During the second quarter of 2017, Frontier sold its Frontier Secure Strategic Partnerships business at a loss of \$9 million, which is also included in restructuring costs and other charges for the six months ended June 30, 2017.

The following is a summary of the changes in the liabilities established for restructuring programs at June 30, 2017:

(\$ in millions)

Balance, January 1, 2017	\$ 47
Severance costs	32
Cash payments during the period	(66)
Balance, June 30, 2017	\$ 13

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(10) Income Taxes:

The following is a reconciliation of the provision for income taxes computed at the federal statutory rate to income taxes computed at the effective rate:

	For the three months ended June 30,		For the six months ended June 30,	
	2017	2016	2017	2016
Consolidated tax provision at federal statutory rate	35.0 %	35.0 %	35.0 %	35.0 %
State income tax provisions, net of federal income tax benefit	1.8	6.0	1.6	4.3
Tax reserve adjustment	(0.1)	(4.9)	(0.1)	(1.2)
Changes in certain deferred tax balances	(0.3)	22.1	(0.2)	4.4
Goodwill impairment	(12.3)	-	(10.9)	-
Shared-based payments	-	-	(0.2)	-
Federal research and development tax credit	0.1	5.2	0.2	1.1
All other, net	(0.2)	0.9	(0.2)	0.2
Effective tax rate	24.0 %	64.3 %	25.2 %	43.8 %

Income taxes for the three and six months ended June 30, 2017 includes the federal tax impact of \$107 million related to the goodwill impairment recorded during the second quarter of 2017.

Income taxes for the six months ended June 30, 2017 includes the impact of \$2 million of income tax expense resulting from the adoption of ASU No. 2016-09, "Improvements to Employee Share-Based Payment Accounting."

Amounts pertaining to income tax related accounts of \$51 million and \$55 million are included in "Income taxes and other current assets" in the consolidated balance sheets as of June 30, 2017 and December 31, 2016, respectively.

During the first half of 2017, we received state income tax refunds of \$3 million.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(11) Net Loss Per Share:

All share and per share amounts in the tables below have been retroactively adjusted for all periods presented to give effect to the reverse stock split. See Note 1 – Summary of Significant Accounting Policies for additional details.

The reconciliation of the net loss per share calculation is as follows:

	For the three months ended June 30,		For the six months ended June 30,	
(\$ in millions and shares in thousands, except per share amounts)	2017	2016	2017	2016
Net loss used for basic and diluted loss per share:				
Net loss attributable to Frontier common shareholders	\$ (715)	\$ (80)	\$ (844)	\$ (320)
Less: Dividends paid on unvested restricted stock awards	(1)	(1)	(2)	(2)
Total basic net loss attributable to Frontier common shareholders	\$ (716)	\$ (81)	\$ (846)	\$ (322)
Effect of loss related to dilutive stock units	(2)	-	(2)	-
Total diluted net loss attributable to Frontier common shareholders	\$ (718)	\$ (81)	\$ (848)	\$ (322)
Basic loss per share:				
Total weighted average shares and unvested restricted stock awards outstanding - basic	78,531	78,198	78,365	78,104
Less: Weighted average unvested restricted stock awards	(736)	(573)	(686)	(493)
Total weighted average shares outstanding - basic	77,795	77,625	77,679	77,611
Basic net loss per share attributable to Frontier common shareholders	\$ (9.20)	\$ (1.05)	\$ (10.88)	\$ (4.14)

Diluted loss per share:

Edgar Filing: FRONTIER COMMUNICATIONS CORP - Form 10-Q

Total weighted average shares outstanding - basic	77,795	77,625	77,679	77,611
Effect of dilutive stock units	156	-	156	-
Total weighted average shares outstanding - diluted	77,951	77,625	77,835	77,611
Diluted net loss per share				
attributable to Frontier common shareholders	\$ (9.21)	\$ (1.05)	\$ (10.89)	\$ (4.14)

In calculating diluted net loss per common share for the three and six months ended June 30, 2016, the effect of all common stock equivalents is excluded from the computation as the effect would be antidilutive.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Stock Options

For the three and six months ended June 30, 2017 and 2016, options to purchase 2,664 shares, issuable under employee compensation plans were excluded from the computation of diluted earnings (loss) per share (EPS) for those periods because the exercise prices were greater than the average market price of our common stock and, therefore, the effect would be antidilutive.

Stock Units

At June 30, 2017 and 2016, we had 155,616 and 108,827 stock units, respectively, issued under the Non-Employee Directors' Deferred Fee Equity Plan (Deferred Fee Plan), the Non-Employee Directors' Equity Incentive Plan (Directors' Equity Plan), the 2013 Equity Incentive Plan and the 2017 Equity Incentive Plan. These securities have not been included in the diluted EPS calculation for 2016 because their inclusion would have an antidilutive effect. Compensation costs associated with the issuance of stock units were \$(3) million and \$1 million for the six months ended June 30, 2017 and 2016, respectively.

Mandatory Convertible Preferred Stock

The impact of the common share equivalents associated with the 19,250,000 shares of Series A Preferred stock were not included in the diluted EPS calculation as of June 30, 2017 and 2016, as their impact was antidilutive.

(12) Stock Plans:

All share and per share amounts in the tables below have been retroactively adjusted for all periods presented to give effect to the reverse stock split. See Note 1 – Summary of Significant Accounting Policies for additional details.

At June 30, 2017, we had seven stock-based compensation plans under which grants were made and awards remained outstanding. No further awards may be granted under six of the plans: the 1996 Equity Incentive Plan (the 1996 EIP), the Amended and Restated 2000 Equity Incentive Plan (the 2000 EIP), the 2009 Equity Incentive Plan (the 2009 EIP), the 2013 Equity Incentive Plan (the 2013 EIP), the Deferred Fee Plan and the Directors' Equity Plan. At June 30, 2017, there were approximately 5,667,000 shares authorized for grant and approximately 4,360,000 shares available for

grant under the 2017 Equity Incentive Plan (the 2017 EIP and together with the 1996 EIP, the 2000 EIP, the 2009 EIP and the 2013 EIPs, the EIPs). Our general policy is to issue treasury shares upon the grant of restricted shares and the exercise of options.

Performance Shares

On February 16, 2017, the Compensation Committee of our Board of Directors granted approximately 157,400 performance shares under the Frontier Long Term Incentive Plan (the LTIP) and set the operating cash flow performance goal for 2017, which applies to the first year in the 2017-2019 measurement period, the second year of the 2016-2018 measurement period and the third year of the 2015-2017 measurement period.

The following summary presents information regarding LTIP target performance shares as of June 30, 2017 and changes during the six months then ended with regard to LTIP shares awarded under the 2013 EIP and the 2017 EIP:

	Number of Shares (in thousands)
Balance at January 1, 2017	190
LTIP target performance shares granted, net	165
LTIP target performance shares earned	(41)
LTIP target performance shares forfeited	(19)
Balance at June 30, 2017	295

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

For purposes of determining compensation expense, the fair value of each performance share is measured at the end of each reporting period and, therefore, will fluctuate based on the price of Frontier common stock as well as performance relative to the targets. For the six months ended June 30, 2017 and 2016, we recognized net compensation expense, reflected in "Selling, general and administrative expenses," of \$0 million and \$3 million, respectively, for the LTIP.

Restricted Stock

The following summary presents information regarding unvested restricted stock as of June 30, 2017 and changes during the six months then ended with regard to restricted stock granted under the 2013 EIP and the 2017 EIP:

	Number of Shares (in thousands)	Weighted Average Grant Date Fair Value (per share)	Aggregate Fair Value (in millions)
Balance at January 1, 2017	549	\$ 78.00	\$ 28
Restricted stock granted	454	\$ 62.25	\$ 8
Restricted stock vested	(217)	\$ 79.80	\$ 4
Restricted stock forfeited	(64)	\$ 63.15	
Balance at June 30, 2017	722	\$ 69.00	\$ 13

For purposes of determining compensation expense, the fair value of each restricted stock grant is estimated based on the average of the high and low market price of a share of our common stock on the date of grant, for shares granted prior to May 10, 2017. Beginning on May 10, 2017, the fair value of each restricted stock grant is estimated based on the close price of a share of our common stock on the date of the grant. Total remaining unrecognized compensation

cost associated with unvested restricted stock awards that is deferred at June 30, 2017 was \$34 million, and the weighted average vesting period over which this cost is expected to be recognized is approximately 2 years.

Shares of restricted stock granted during the first six months of 2016 totaled 364,527. The total fair value of shares of restricted stock granted and vested at June 30, 2016 was approximately \$27 million and \$18 million, respectively. The total fair value of unvested restricted stock at June 30, 2016 was \$44 million. The weighted average grant date fair value of restricted shares granted during the six months ended June 30, 2016 was \$65.85 per share.

We have granted restricted stock awards to employees in the form of our common stock. None of the restricted stock awards may be sold, assigned, pledged or otherwise transferred, voluntarily or involuntarily, by the employees until the restrictions lapse, subject to limited exceptions. The restrictions are time-based. Compensation expense, recognized in "Selling, general and administrative expenses," of \$9 million and \$10 million for each of the six month periods ended June 30, 2017 and 2016, has been recorded in connection with these grants.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(13) Comprehensive Income (Loss):

Comprehensive income (loss) consists of net income (loss) and other gains and losses affecting shareholders' investment and pension/postretirement benefit (OPEB) liabilities that, under GAAP, are excluded from net loss.

The components of accumulated other comprehensive loss, net of tax at June 30, 2017 and 2016, and changes for the six months then ended, are as follows:

(\$ in millions)	Pension Costs	OPEB Costs	Deferred Taxes on Pension and OPEB Costs	Total
Balance at January 1, 2017	\$ (647)	\$ 29	\$ 231	\$ (387)
Other comprehensive income (loss) before reclassifications	25	(5)	(9)	11
Amounts reclassified from accumulated other comprehensive loss to net loss	17	(4)	(2)	11
Recognition of net actuarial loss for pension settlement costs in net loss	62	-	(26)	36
Net current-period other comprehensive income (loss)	104	(9)	(37)	58
Balance at June 30, 2017	\$ (543)	\$ 20	\$ 194	\$ (329)

	Pension Costs	OPEB Costs	Deferred Taxes on Pension and OPEB Costs	Total
Balance at January 1, 2016	\$ (584)	\$ 20	\$ 211	\$ (353)
Amounts reclassified from accumulated other comprehensive loss	21	(4)	(6)	11
Net current-period other comprehensive income (loss)	21	(4)	(6)	11
Balance at June 30, 2016	\$ (563)	\$ 16	\$ 205	\$ (342)

As a result of the pension settlement accounting discussed in Note 14, the Frontier Communications Pension Plan (the Pension Plan) was remeasured as of June 30, 2017. This remeasurement resulted in a decrease in the discount rate from 4.10% at March 31, 2017 to 3.80% at June 30, 2017, resulting in the recording of a loss on remeasurement to Other comprehensive income (loss) during the quarter. For the three and six months ended June 30, 2017, Frontier recorded a net loss on remeasurement of \$28 million and a net gain on remeasurement of \$20 million, respectively, to Other comprehensive income (loss). Additionally, Frontier recorded pension settlement charges totaling \$62 million (\$36 million net of tax) to Other comprehensive income. Refer to Note 14 for details about the settlement accounting.

Amortization of prior service cost/(credit)	(3)	(2)	(5)	(5)
Amortization of unrecognized loss	1	-	1	1
Net periodic postretirement benefit cost	\$ 13	\$ 13	\$ 26	\$ 21

During the first six months of 2017 and 2016, we capitalized \$14 million and \$13 million, respectively, of pension and OPEB expense into the cost of our capital expenditures, as the costs relate to our engineering and plant construction activities.

The Pension Plan contains provisions that provide certain employees with the option of receiving a lump sum payment upon retirement. Frontier's accounting policy is to record these payments as a settlement only if, in the aggregate, they exceed the sum of the annual service and interest costs for the Pension Plan's net periodic pension benefit cost. During the six months ended June 30, 2017, lump sum pension settlement payments to terminated or retired individuals amounted to \$362 million, which exceeded the settlement threshold of \$234 million, and as a result, Frontier recognized non-cash settlement charges totaling \$62 million during the first six months of 2017. The non-cash charge accelerated the recognition of a portion of the previously unrecognized actuarial losses in the Pension Plan. These non-cash charges increased our recorded net loss and accumulated deficit, with an offset to accumulated other comprehensive loss in shareholders' equity. Additional pension settlement charges will be required in each subsequent quarter of 2017, the amount of which will be dependent on the lump sum benefit payments made during the applicable quarter. As a result of the recognition of the settlement charges in the first six months of 2017, the net pension plan liability was remeasured as of June 30, 2017 and March 31, 2017 to be \$711 million and \$665 million, respectively, as compared to the \$699 million measured and recorded at December

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

31, 2016. The remeasured funded status of the Pension Plan was approximately 80%, as of June 30, 2017, similar to December 31, 2016. Frontier did not record any adjustment to the pension plan liability, beyond the settlement charge, as a result of this remeasurement.

Our Pension Plan assets decreased from \$2,766 million at December 31, 2016 to \$2,609 million at June 30, 2017, a decrease of \$157 million, or 6%. This decrease was a result of benefit payments of \$390 million, partially offset by positive investment returns of \$154 million, net of investment management and administrative fees, increased receivable from Verizon and the Verizon pension plan trusts of \$38 million related to the CTF Acquisition, and Frontier contributions of \$41 million during the first six months of 2017.

As part of the CTF Acquisition, Verizon is required to make a cash payment to Frontier for the difference in assets transferred by Verizon into the Pension Plan and the related obligation (the Differential), which is estimated to be \$131 million. We expect to receive the payment from Verizon during the third quarter of 2017. Once received, we will retain \$34 million for contributions paid by Frontier during the second quarter of 2017, and remit the remaining cash received to the Pension Plan to offset future contributions.

(15) Commitments and Contingencies:

Although from time to time we make short-term purchasing commitments to vendors with respect to capital expenditures, we generally do not enter into firm, written contracts for such activities.

In June 2015, Frontier accepted the Federal Communications Commission's (FCC) offer of support to price cap carriers under the Connect America Fund (CAF) Phase II program, which is intended to provide long-term support for broadband in high cost unserved or underserved areas. This program provides \$332 million in annual support, including \$49 million in annual support related to the properties acquired in the CTF Acquisition, through 2020 to make available 10 Mbps downstream/1 Mbps upstream broadband service to approximately 774,000 households across certain of the 29 states where we now operate. To the extent we do not enable the required number of households with 10 Mbps downstream/1 Mbps upstream broadband service by the end of the CAF Phase II term, we will be required to return a portion of the funds previously received.

On April 20, 2017, the FCC issued an Order that will significantly alter how Commercial Data Services are regulated once the rules go into effect. Specifically, the Order adopted a test to determine, on a county-by-county basis, whether price cap ILECs', like Frontier's, DS1 and DS3 services will continue to be regulated. The test is likely to result in deregulation in a substantial number of our markets. Once implemented, the deregulation will allow Frontier to offer its DS1 and DS3 services in a manner that better responds to the competitive marketplace and allows for commercial negotiation. The areas that remain regulated may be subject to price fluctuations depending upon the price cap formula that year. Multiple parties have appealed and requested a stay of this Order. Frontier cannot predict how these regulatory changes will result in changes to revenues at this time.

We are party to various legal proceedings (including individual, class and putative class actions) arising in the normal course of our business covering a wide range of matters and types of claims including, but not limited to, general contracts, billing disputes, rights of access, taxes and surcharges, consumer protection, trademark and patent infringement, employment, regulatory, tort, claims of competitors and disputes with other carriers.

We accrue an expense for pending litigation when we determine that an unfavorable outcome is probable and the amount of the loss can be reasonably estimated. Legal defense costs are expensed as incurred. None of our existing accruals for pending matters, after considering insurance coverage, is material. We monitor our pending litigation for the purpose of adjusting our accruals and revising our disclosures accordingly, when required. Litigation is, however, subject to uncertainty, and the outcome of any particular matter is not predictable. We will vigorously defend our interests in pending litigation, and as of this date, we believe that the ultimate resolution of all such matters, after considering insurance coverage or other indemnities to which we are entitled, will not have a material adverse effect on our consolidated financial position, results of operations, or our cash flows.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

In October 2013, the California Attorney General's Office notified certain Verizon companies, including one of the subsidiaries that we acquired in the CTF Acquisition, of potential violations of California state hazardous waste statutes primarily arising from the disposal of electronic components, batteries and aerosol cans at certain California facilities. We are cooperating with this investigation. We have accrued an amount for potential penalties that we deem to be probable and reasonably estimated, and we do not expect that any potential penalties, if ultimately incurred, will be material in comparison to the established accrual.

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains "forward-looking statements," related to future, not past, events. Forward-looking statements address our expected future business and financial performance and financial condition, and contain words such as "expect," "anticipate," "intend," "plan," "believe," "seek," "see," "will," "would," or "target." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, particular uncertainties that could cause our actual results to be materially different than those expressed in our forward-looking statements include:

- competition from cable, wireless and wireline carriers, satellite, and OTT companies, and the risk that we will not respond on a timely or profitable basis;
- our ability to successfully adjust to changes in the communications industry, including the effects of technological changes and competition on our capital expenditures, products and service offerings;
- our ability to implement successfully our organizational structure changes;
- risks related to the operation of properties acquired from Verizon, including our ability to retain or obtain customers in those markets, our ability to realize anticipated cost savings, and our ability to meet commitments made in connection with the acquisition;
- reductions in revenue from our voice customers that we cannot offset with increases in revenue from broadband and video subscribers and sales of other products and services;
- our ability to maintain relationships with customers, employees or suppliers;
- our ability to attract/retain key talent;

- the impact of regulation and regulatory, investigative and legal proceedings and legal compliance risks;
- continued reductions in switched access revenues as a result of regulation, competition or technology substitutions;
- the effects of changes in the availability of federal and state universal service funding or other subsidies to us and our competitors;
- our ability to effectively manage service quality in our territories and meet mandated service quality metrics;
- our ability to successfully introduce new product offerings;
- the effects of changes in accounting policies or practices, including potential future impairment charges with respect to our intangible assets;
- our ability to effectively manage our operations, operating expenses, capital expenditures, debt service requirements and cash paid for income taxes and liquidity, which may affect payment of dividends on our common and preferred shares;
- the effects of changes in both general and local economic conditions on the markets that we serve;
- the effects of increased medical expenses and pension and postemployment expenses;
- the effects of changes in income tax rates, tax laws, regulations or rulings, or federal or state tax assessments;

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

- our ability to successfully renegotiate union contracts;
- changes in pension plan assumptions, interest rates, regulatory rules and/or the value of our pension plan assets, which could require us to make increased contributions to the pension plan in 2017 and beyond;
- adverse changes in the credit markets;
- adverse changes in the ratings given to our debt securities by nationally accredited ratings organizations;
- the availability and cost of financing in the credit markets;
- covenants in our indentures and credit agreements that may limit our operational and financial flexibility;
- the effects of state regulatory cash management practices that could limit our ability to transfer cash among our subsidiaries or dividend funds up to the parent company;
- the effects of severe weather events or other natural or man-made disasters, which may increase our operating expenses or adversely impact customer revenue;
- the impact of potential information technology or data security breaches or other disruptions; and
- the risks and other factors contained in our other filings with the U.S. Securities and Exchange Commission, including our reports on Form 10-K.

Any of the foregoing events, or other events, could cause our results to vary from management's forward-looking statements included in this report. You should consider these important factors in evaluating any statement in this report or otherwise made by us or on our behalf. The following information is unaudited and should be read in conjunction with the consolidated financial statements and related notes included in this report. We have no obligation to update or revise these forward-looking statements and do not undertake to do so.

Investors should also be aware that while we do, at various times, communicate with securities analysts, it is against our policy to disclose to them selectively any material non-public information or other confidential information. Accordingly, investors should not assume that we agree with any statement or report issued by an analyst irrespective of the content of the statement or report. To the extent that reports issued by securities analysts contain any projections, forecasts or opinions, such reports are not our responsibility.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

Management's Discussion and Analysis

On April 1, 2016, we completed our acquisition of Verizon's wireline properties in California, Texas, and Florida (the CTF Operations). Frontier's scope of operations and balance sheet changed materially as a result of the completion of the CTF Acquisition. Historical financial and operating data presented for Frontier includes the results of the CTF Operations that were acquired in the CTF Acquisition from the date of acquisition on April 1, 2016 and is not indicative of future operating results. The financial discussion below includes a comparative analysis of our results of operations on a historical basis as of and for the six months ended June 30, 2017 and 2016.

On July 10, 2017, we effected a one for fifteen reverse stock split of our common stock. The reverse stock split reduced the number of common shares issued (which includes outstanding shares and treasury shares) from approximately 1,193,000,000 shares to 80,000,000 shares, and reduced shares outstanding from 1,178,000,000 shares to 79,000,000 shares. In addition, and at the same time, the total number of shares of common stock that Frontier is authorized to issue changed from 1,750,000,000 shares to 175,000,000 shares. There was no change in the par value of the common stock, and no fractional shares were issued. All share and per share amounts in the financial discussion below have been retroactively adjusted for all periods presented to give effect to the reverse stock split. As a result of our reverse stock split the conversion rates of our Series A Preferred Stock were proportionately adjusted.

Our financial results for the first half of 2017 include the CTF Operations for the first quarter of 2017. With the acquisition occurring April 1, 2016, there are no comparative results for the same period in 2016. The table below reflects the results of operations for the CTF Operations for the first quarter of 2017. In the narrative that follows for the six month period, unless otherwise noted we will discuss only the remaining variance.

(\$ in millions)	For the three months ended March 31, 2017
Data and Internet services	\$ 422

Voice services	327
Video services	281
Other	5
Customer revenue	1,035
Switched access and subsidy	52
Total revenue	\$ 1,087

Network access expenses	\$ 261
Network related expenses	197
Selling, general and administrative expenses	226
Depreciation and amortization	280
Acquisition and integration costs	-
Pension settlement costs	22
Restructuring costs and other charges	1
Total operating expenses	\$ 987

32

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

The sections below include tables that present customer counts, average monthly revenue per customer (ARPC) and consumer customer churn which we define as the average of the number of consumer customer deactivations during the month divided by the number of consumer customers at the beginning of the month.

Management believes that consumer customer counts and average monthly revenue per customer are important factors in evaluating our consumer customer trends. Among the key services we provide to consumer customers are voice service, data service and video service. We continue to explore the potential to provide additional services to our customer base, with the objective of meeting all of our customers' communications needs.

The following should be read in conjunction with Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Annual Report on Form 10-K for the year ended December 31, 2016.

33

- (1) 2,283,000 consumer customers, 250,000 commercial customers and 2,533,000 total customers were acquired at the time of the April 2016 CTF Acquisition.
- (2) 2,052,000 broadband subscribers and 1,165,000 video subscribers were acquired at the time of the April 2016 CTF Acquisition.
- (3) At December 31, 2016, we had approximately 1,900 employees in our Frontier Secure Strategic Partnerships business, which was sold in May 2017.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

Customer Trends and Revenue Performance

We provide service and product options in our consumer and commercial offerings in each of our markets. As of June 30, 2017, 68% of our consumer broadband customers were subscribed to at least one other service offering.

We had approximately 4,585,000 and 5,189,000 total consumer customers as of June 30, 2017 and 2016, respectively. Our consumer customer churn was 2.24% for the three months ended June 30, 2017 (1.95% for Frontier legacy and 2.69% for CTF Operations) compared to 1.91% (1.71% for Frontier legacy and 2.19% for CTF Operations) for the second quarter of 2016 and 2.37% (1.95% for Frontier legacy and 3.01% for CTF Operations) for the first quarter of 2017, respectively. The consolidated average monthly consumer revenue per customer (consumer ARPC) decreased by \$2.82 or 4% to \$80.38 during the second quarter of 2017 compared to the same period in 2016. The overall decrease in consumer ARPC is a result of lower voice services revenue and lower video revenue from our CTF Operations, partially offset by higher Frontier Secure revenue. We anticipate continuing declines in voice services revenue as fewer consumer customers subscribe to landline voice services.

Our consumer customer churn was 2.31% for the six months ended June 30, 2017 (1.95% for Frontier legacy and 2.85% for CTF Operations) compared to 1.87% (1.77% for Frontier legacy and 2.19% for CTF Operations) for the six months ended June 30, 2016. The consolidated average monthly consumer revenue per customer (consumer ARPC) increased by \$7.71 or 11% to \$80.59 during the first half of 2017 compared to the same period in 2016. The overall increase in consumer ARPC is a result of higher revenue due to having six months of CTF Operations in 2017 and only three months in 2016, partially offset by lower voice services revenue.

We had approximately 473,000 and 528,000 total commercial customers as of June 30, 2017 and 2016, respectively. We lost approximately 11,000 commercial customers during the three months ended June 30, 2017 compared to a gain of 243,000 customers (including 250,000 commercial customers acquired) for the three months ended June 30, 2016 and a loss of 18,000 for the three months ended March 31, 2017. Frontier expects the declines in voice services revenue and wireless backhaul revenues from commercial customers to continue for the remainder of 2017. Our Ethernet product revenues from our SME (small business, medium business and larger enterprise customers) and carrier customers have grown by 13% for the Frontier legacy operations during the second quarter of 2017, compared to the second quarter of 2016, and by 12% (including CTF Operations) compared to the first quarter of 2017.

We had approximately 4,063,000 and 4,462,000 broadband subscribers as of June 30, 2017 and 2016, respectively. During the three months ended June 30, 2017, we lost approximately 100,000 net broadband subscribers compared to a gain of 1,975,000 (including 2,052,000 broadband subscribers acquired) and a loss of 107,000 for the three months ended June 30, 2016 and March 31, 2017, respectively.

We offer video services under the Vantage brand to certain of our customers in portions of Connecticut, North Carolina, South Carolina and Minnesota, and under the FiOS® brand in portions of California, Texas, and Florida (and on a limited basis in Indiana, Oregon and Washington). We also offer satellite TV video service to our customers under an agency relationship with DISH® in all of our markets. For the three months ended June 30, 2017, we lost approximately 70,000 net video subscribers across all markets. At June 30, 2017, we had 1,007,000 linear video subscribers that are served with FiOS or Vantage video service. In addition to our linear video subscribers, we have approximately 254,000 DISH satellite video customers.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

Revenue

We generate revenues primarily through either a monthly recurring fee or a fee based on usage, and revenue recognition is not dependent upon significant judgments by management, with the exception of a determination of the provision for uncollectible amounts.

Consolidated total revenue for the six months ended June 30, 2017 increased \$697 million to \$4,660 million as compared to the first half of 2016. Excluding additional revenue from the CTF Operations for the first quarter of 2017, our revenue for the first half of 2017 decreased \$390 million, or 10%, as compared to the first half of 2016. This decline in 2017 is primarily the result of decreases in voice services revenues, lower switched and nonswitched access revenue, video, and data services revenue, each as described in more detail below.

Customer revenue for the six months ended June 30, 2017 increased \$695 million to \$4,265 million as compared to the first half of 2016. Excluding additional revenue from the CTF Operations for the first quarter of 2017, our customer revenue for the first half of 2017 decreased \$340 million, or 10%, as compared to the first half of 2016.

Consolidated consumer customer revenue for the six months ended June 30, 2017 increased \$373 million, or 19%, as compared to the first half of 2016. Excluding additional consumer customer revenue from the CTF Operations for the first quarter of 2017, revenues for the first half of 2017 decreased \$241 million, or 13%, compared to the first half of 2016, primarily as a result of decreases in voice, video and data services revenue. Similar to other wireline providers, we have experienced declines in the number of traditional voice customers and switched access minutes of use as a result of competition and the availability of substitutes, a trend we expect to continue.

Consolidated commercial customer revenue for the six months ended June 30, 2017 increased \$322 million, or 19%, as compared to the first half of 2016. Excluding additional commercial customer revenue from the CTF Operations for the first quarter of 2017, revenues for 2017 declined \$99 million, or 6%, as compared to the first half of 2016, principally as a result of decreases in our voice services revenue and nonswitched revenue including wireless backhaul revenue.

Consolidated switched access and subsidy revenue of \$395 million represented 8% of our revenues for the six months ended June 30, 2017. Switched access revenue was \$92 million for the first half of 2017, or 2% of our revenues, up

from \$88 million, or 2% of our revenues, in the second quarter of 2016. The Report and Order released by the FCC on November 18, 2011 (the 2011 Order) provided for the gradual elimination of terminating traffic charges by 2017 with a related decline in operating expenses. Switched access revenue declined sequentially in the third quarter of 2016, reflecting the rate reductions mandated by the 2011 Order, and we anticipate that we have experienced nearly all of the rate decline related to the 2011 Order. We have been able to recover a significant portion of these lost revenues through end user rates and other replacement support mechanisms, a trend we expect will continue throughout 2017. We expect declining revenue trends due to reduced volume in switched access revenue to continue in 2017 in our legacy operations. Subsidy revenue, including CAF Phase II subsidies, was \$303 million for the six months ended June 30, 2017, or 7% of our revenues, which decreased from \$305 million, or 8% of our revenues, in the first half of 2016.

We categorize our products, services, and other revenues into the following five categories:

Data and Internet Services

Data and internet services include broadband services for consumer and commercial customers. We provide data transmission services to high volume commercial customers and other carriers with dedicated high capacity circuits (“nonswitched access”) including services to wireless providers (“wireless backhaul”). In addition, we offer our Frontier Secure® suite of products, including computer security, cloud back-up and sharing, identity protection and equipment insurance. Frontier Secure also provides technical support services for businesses.

Data and Internet services revenue for the three months ended June 30, 2017 decreased \$74 million as compared with 2016. Data services revenue for the three months ended June 30, 2017 decreased \$46 million, or 8%, to \$566 million, primarily due to a 10% decrease in the total number of broadband subscribers since June 30, 2016, and an additional month of revenue of \$6 million in the second quarter of 2016 attributable to Frontier Secure Strategic Partnerships. Nonswitched access revenues for the three months ended June 30, 2017 decreased \$28 million, or

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

6%, to \$408 million, primarily due to lower monthly recurring revenues for wireless backhaul and other carrier services.

Consolidated data and Internet services revenue for the six months ended June 30, 2017 increased \$332 million as compared with 2016. Consolidated data services revenue for the six months ended June 30, 2017 increased \$192 million, or 20%, to \$1,148 million as compared with 2016. Excluding additional data service revenue from the CTF Operations for the first quarter of 2017, revenue decreased \$47 million, or 5%, driven by a decrease in Frontier Secure Strategic Partnerships revenue because of its sale on May 31, 2017 and a decrease in the total number of broadband subscribers.

Consolidated nonswitched access revenues for the six months ended June 30, 2017 increased \$140 million or 21% to \$819 million as compared with 2016. Excluding additional nonswitched access revenue from the CTF Operations for the first quarter of 2017, revenue decreased \$42 million, or 6%, due to lower monthly recurring revenue for wireless backhaul and other carrier services. We expect wireless data usage to continue to increase, which may drive the need for additional wireless backhaul capacity. Despite the need for additional capacity, in the near term, we anticipate that our overall wireless backhaul revenues (which comprise approximately 2.9% of consolidated total revenues) will continue to decline in 2017, as our carrier customers migrate to Ethernet solutions at lower price points or migrate to our competitors.

Voice Services

Voice services include traditional local and long distance wireline services, data-based Voice over Internet Protocol (VoIP) services, as well as voice messaging services offered to our consumer and commercial customers. Voice services also include the long distance voice origination and termination services that we provide to our commercial customers and other carriers.

Voice services revenue for the three months ended June 30, 2017 decreased \$112 million, or 13%, to \$724 million as compared with 2016, primarily due to the continued loss of voice customers and decreases in long distance revenue among those customers that do not have a bundled long distance plan.

Voice services revenue for the six months ended June 30, 2017 increased \$172 million, or 13%, to \$1,475 million as compared with 2016. Excluding additional voice services revenue from the CTF Operations for the first quarter of 2017, revenues decreased \$155 million, or 12%, due to the continued loss of voice customers and decreases in long

distance revenue.

Video Services

Video services include revenues generated from services provided directly to consumer customers through the FiOS video and Vantage video brands, and through DISH satellite TV services.

Video services revenue for the three months ended June 30, 2017 decreased \$90 million, or 21%, to \$329 million as compared with 2016 primarily due to a decrease in the total number of video subscribers.

Video services revenue for the six months ended June 30, 2017 increased \$189 million, or 39%, to \$676 million compared with 2016. Excluding additional video services revenue from the CTF Operations for the first quarter of 2017, revenues decreased \$92 million, or 19%, due to a decrease in the total number of video subscribers.

Other

Other customer revenue includes sales of customer premise equipment to our commercial customers and directory services, less our provision for bad debts.

Other revenue for the three months ended June 30, 2017 increased \$1 million, or 1%, as compared with 2016 primarily due to a decrease in uncollectibles, partially offset by a decrease in customer premise equipment sales during the second quarter of 2017. Other revenue for the six months ended June 30, 2017 decreased \$2 million, or 1%. Excluding additional other revenue from the CTF Operations for the first quarter of 2017, revenues decreased \$4 million due to a decrease in uncollectibles, colocation rent, and customer premise equipment sales partially offset by maintenance contracts.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

Switched Access and Subsidy

Switched access and subsidy revenues include revenues derived from allowing other carriers to use our network to originate and/or terminate their local and long distance voice traffic (“switched access”). These services are primarily billed on a minutes-of-use basis applying tariffed rates filed with the FCC or state agencies. We also receive cost subsidies from state and federal authorities, including the Connect America Fund.

Switched access and subsidy revenue for the three months ended June 30, 2017 decreased \$29 million, or 13%, as compared with 2016. Switched access revenue decreased \$3 million for the three months ended June 30, 2017, primarily due to the impact of the decline in minutes of use related to access line losses and the displacement of minutes of use by wireless and other communications services, combined with the lower rates required by the FCC’s 2011 Order on intercarrier compensation reform. Subsidy revenues decreased \$26 million for the three months ended June 30, 2017, primarily due to one-time true-up payments and phasedown support recognized in the second quarter of 2016 in connection with the CAF Phase II program.

Switched access and subsidy revenue for the six months ended June 30, 2017 increased \$2 million, or 1%, as compared with 2016. Switched access revenue for the six months ended June 30, 2017 increased \$3 million.

Excluding additional switched access revenue from the CTF Operations for the first quarter of 2017, revenue decreased \$12 million, or 14%. Subsidy revenues for the six months ended June 30, 2017 decreased \$1 million.

Excluding additional subsidiary revenue from the CTF Operations for the first quarter of 2017, revenue decreased \$37 million, or 12%. We expect that the trends underlying the reduction in switched access revenue will continue through 2017.

OPERATING EXPENSES

NETWORK ACCESS EXPENSES

(\$ in millions)	For the three months ended		\$ Increase (Decrease)	% Increase (Decrease)
	June 30, 2017	2016		

Network access expenses \$ 408 \$ 453 \$ (45) (10) %

(\$ in millions)	For the six months ended		\$ Increase (Decrease)	% Increase (Decrease)	
	June 30, 2017	2016			
Network access expenses	\$ 819	\$ 613	\$ 206	34	%

Network access expenses include access charges and other third-party costs directly attributable to connecting customer locations to our network, and video content costs. Such access charges and other third-party costs exclude network related expenses, depreciation and amortization, and employee related expenses.

Network access expenses for the three months ended June 30, 2017 decreased \$45 million, or 10%, primarily due to lower long distance costs, pole and conduit rental expense, and video content costs as a result of a decline in video customers, partially offset by higher customer premise equipment costs. Excluding additional expenses from the CTF Operations for the first quarter of 2017, network access expenses for the six months ended June 30, 2017 decreased \$55 million, or 9%, primarily due to lower video content and long distance costs.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

NETWORK RELATED EXPENSES

(\$ in millions)	For the three months ended		\$ Increase (Decrease)	% Increase (Decrease)	
	June 30, 2017	2016			
Network related expenses	\$ 477	\$ 546	\$ (69)	(13)	%

(\$ in millions)	For the six months ended		\$ Increase (Decrease)	% Increase (Decrease)	
	June 30, 2017	2016			
Network related expenses	\$ 971	\$ 872	\$ 99	11	%

Network related expenses include expenses associated with the delivery of services to customers and the operation and maintenance of our network, such as facility rent, utilities, maintenance and other costs, as well as salaries, wages and related benefits associated with personnel who are responsible for the delivery of services, operation and maintenance of our network.

Network related expenses for the three months ended June 30, 2017 decreased \$69 million, or 13%, primarily due to a decrease in compensation costs related to lower employee headcount and certain benefits, including incentive compensation, pension and OPEB expense (as discussed below). There was also a reduction in rental costs for vehicles previously under operating leases that were modified during late 2016, resulting in the classification as capital leases. Excluding additional expenses from the CTF Operations for the first quarter of 2017, network related expenses for the six months ended June 30, 2017 decreased \$98 million, or 11%, primarily due to lower compensation and other employee related costs and a reduction in rental costs for vehicles.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

(\$ in millions)	For the three months ended		\$ Increase (Decrease)	% Increase (Decrease)
	June 30, 2017	2016		
Selling, general and administrative expenses	\$ 531	\$ 596	\$ (65)	(11) %

(\$ in millions)	For the six months ended		\$ Increase (Decrease)	% Increase (Decrease)
	June 30, 2017	2016		
Selling, general and administrative expenses	\$ 1,075	\$ 953	\$ 122	13 %

Selling, general and administrative expenses (SG&A expenses) include the salaries, wages and related benefits and the related costs of corporate and sales personnel, travel, insurance, non-network related rent, advertising and other administrative expenses.

SG&A expenses for the three months ended June 30, 2017 decreased \$65 million, or 11%, due to lower costs for compensation, primarily related to decreased employee headcount, lower incentive compensation costs, certain

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

benefits, including pension and OPEB expense (as discussed below), lower information technology and other outside services costs. Approximately \$5 million of the decline in SG&A expense for the three months ended June 30, 2017 is attributable to one less month of costs in 2017 for the Frontier Secure Strategic Partnerships business. Excluding additional expenses from the CTF Operations for the first quarter of 2017, SG&A expenses for the six months ended June 30, 2017 decreased \$104 million, or 11%, primarily due to lower compensation and other employee related costs and reduced costs for outside services.

Pension and OPEB costs

Frontier allocates pension and OPEB costs to network related expenses and SG&A expenses. Total consolidated pension and OPEB costs, excluding pension settlement costs, for the three and six months ended June 30, 2017 and 2016 were as follows:

(\$ in millions)	For the three months ended June 30,		For the six months ended June 30,	
	2017	2016	2017	2016
Total pension/OPEB expense	\$ 32	\$ 35	\$ 64	\$ 62
Less: costs capitalized into capital expenditures	(7)	(7)	(14)	(13)
Net pension/OPEB costs	\$ 25	\$ 28	\$ 50	\$ 49

DEPRECIATION AND AMORTIZATION EXPENSE

The fair value estimates related to the allocation of the purchase price of the CTF Operations to Other intangibles were revised and finalized during the first quarter of 2017 from the previous estimates as of December 31, 2016. The

allocation that was reported as of December 31, 2016 for Other intangibles increased \$100 million, from \$2,162 million to \$2,262 million. These adjustments resulted in higher amortization expense during the six months ended June 30, 2017 (\$20 million of which is attributable to 2016).

(\$ in millions)	For the three months ended		\$ Increase (Decrease)	% Increase (Decrease)	
	June 30, 2017	2016			
Depreciation expense	\$ 379	\$ 446	\$ (67)	(15)	%
Amortization expense	173	129	44	34	%
	\$ 552	\$ 575	\$ (23)	(4)	%

(\$ in millions)	For the six months ended		\$ Increase (Decrease)	% Increase (Decrease)	
	June 30, 2017	2016			
Depreciation expense	\$ 755	\$ 686	\$ 69	10	%
Amortization expense	376	205	171	83	%
	\$ 1,131	\$ 891	\$ 240	27	%

Depreciation and amortization expense for the three and six months ended June 30, 2017 decreased \$23 million, or 4%, and increased \$240 million, or 27%, respectively. Depreciation expense for the three months ended June 30, 2017 decreased \$67 million, or 15%. The decrease was primarily driven by the changes in the remaining lives of certain plant assets and lower net asset bases. Excluding additional expense from the CTF Operations for the first quarter of

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

2017, depreciation expense decreased \$70 million, or 10%, due to changes in the remaining lives of certain plant assets and lower net asset bases.

Amortization expense for the three months ended June 30, 2017 increased \$44 million, or 34%. The increase was primarily driven by an increase in the value of the acquired CTF customer base subsequent to the second quarter of 2016, offset by the accelerated method of amortization related to customer bases acquired in 2010 and 2014. Excluding additional expense from the CTF Operations for the first quarter of 2017, amortization expense increased \$30 million, or 15%, due to an increase in the value of the acquired CTF customer base subsequent to the second quarter of 2016, offset by the accelerated method of amortization related to customer bases acquired in 2010 and 2014.

GOODWILL IMPAIRMENT

As a result of the significant decline in the share price of our common stock in the second quarter of 2017, we tested goodwill for impairment. The results of our quantitative goodwill impairment test resulted in a \$670 million goodwill impairment in the second quarter of 2017, principally due to the decline in our profitability during the period (See Note 6). Further declines in our profitability or share price could result in additional impairment in the future.

ACQUISITION AND INTEGRATION COSTS

(\$ in millions)	For the three months ended		\$ Increase (Decrease)	% Increase (Decrease)
	June 30, 2017	2016		

Acquisition and integration costs \$ 12 \$ 127 \$ (115) (91) %

(\$ in millions)	For the six months ended		\$ Increase (Decrease)	% Increase (Decrease)	
	June 30, 2017	2016			

Acquisition and integration costs \$ 14 \$ 265 \$ (251) (95) %

Acquisition costs include financial advisory, accounting, regulatory, legal and other related costs. Integration costs include expenses that are incremental and directly related to the acquisition, which were incurred to integrate the network and information technology platforms. Integration costs also include costs to achieve synergies and operational efficiencies directly associated with the acquisition.

We invested \$5 million and \$88 million in capital expenditures related to the CTF Acquisition during the six months ended June 30, 2017 and 2016, respectively.

(\$ in millions)	For the six months ended		\$ Increase (Decrease)	% Increase (Decrease)	
	June 30, 2017	2016			
Pension Settlement Costs	\$ 62	\$ -	\$ 62	100	%

The Pension Plan contains provisions that provide certain employees with the option of receiving a lump sum payment upon retirement. Frontier's accounting policy is to record these payments as a settlement only if, in the aggregate, they exceed the sum of the annual service and interest costs for the Pension Plan's net periodic pension benefit cost. During the three and six months ended June 30, 2017, lump sum pension settlement payments to terminated or retired individuals amounted to \$107 million and \$362 million, respectively, which exceeded the settlement threshold of \$234 million, and as a result, Frontier recognized non-cash settlement charges totaling \$62 million during the first half of 2017. The non-cash charge accelerated the recognition of a portion of the previously unrecognized actuarial losses in the Pension Plan. Additional pension settlement charges will be required in each subsequent quarter of 2017, the amount of which will be dependent on the lump sum benefit payments made during the applicable quarter.

RESTRUCTURING COSTS AND OTHER CHARGES

(\$ in millions)	For the three months ended		\$ Increase (Decrease)	% Increase (Decrease)
	June 30, 2017	2016		

Restructuring costs and other charges	\$ 29	\$ -	\$ 29	100 %
---------------------------------------	-------	------	-------	-------

(\$ in millions)	For the six months ended		\$ Increase (Decrease)	% Increase (Decrease)
	June 30, 2017	2016		

Restructuring costs and other charges	\$ 41	\$ -	\$ 41	100 %
---------------------------------------	-------	------	-------	-------

Restructuring costs and other charges consist of expenses related to changes in the composition of our business including workforce reductions, the sale of business lines or divisions, and corresponding changes to our retirement plans.

Restructuring costs and other charges increased in the second quarter of 2017 compared to the second quarter of 2016 primarily due to a reduction in the workforce of approximately 400 employees in 2017, and the loss on the sale of the Frontier Secure Strategic Partnerships business of \$9 million.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

Restructuring costs and other charges increased for the six months ended June 30, 2017 compared to the six months ended June 30, 2016 primarily due to a reduction in the workforce and the loss on the sale of the Frontier Secure Strategic Partnerships business.

OTHER NON-OPERATING INCOME AND EXPENSE

(\$ in millions)	For the three months ended		\$ Increase (Decrease)	% Increase (Decrease)	
	June 30, 2017	2016			
Investment and other income (loss), net	\$ -	\$ -	\$ -	-	%

(\$ in millions)	For the six months ended		\$ Increase (Decrease)	% Increase (Decrease)	
	June 30, 2017	2016			
Investment and other income, net	\$ 3	\$ 11	\$ (8)	(73)	%
Loss on extinguishment of debt and debt exchanges	\$ 90	\$ -	\$ 90	100	%
Interest expense	\$ 776	\$ 759	\$ 17	2	%
Income tax benefit	\$ (249)	\$ (166)	\$ (83)	(50)	%

Investment and other income, net

Investment and other income, net for the six months ended June 30, 2016 included interest income of \$11 million, primarily due to interest earned on restricted cash. The decrease of \$8 million was driven by less restricted cash on hand in 2017.

Loss on Extinguishment of Debt and Debt Exchanges

During the second quarter of 2017, Frontier recorded a loss on early extinguishment of debt of \$90 million driven primarily by premiums paid to retire certain senior notes prior to their maturity and unamortized original issuance costs, as described below.

Interest expense

Interest expense for the three and six months ended June 30, 2017 increased \$2 million, or 1%, and \$17 million, or 2%, as compared to the three and six months ended June 30, 2016. We incurred additional interest of \$16 million in the first half of 2017 on the \$1,625 million term loan facility related to the CTF Acquisition. Our composite average borrowing rate as of June 30, 2017 and 2016 was 8.35% and 8.47%, respectively.

Income tax benefit

Income tax benefit for the three and six months ended June 30, 2017 increased \$162 million and \$83 million, as compared to the three and six months ended June 30, 2016. The effective tax rate on our pretax loss for the six months ended June 30, 2017 was 25.2% as compared with 43.8% for the six months ended June 30, 2016. The increase in income tax benefit was primarily due to the impact of the Goodwill impairment charge incurred during the second quarter of 2017.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

Net loss attributable to Frontier common shareholders

Net loss attributable to Frontier common shareholders for the second quarter of 2017 was \$715 million, or (\$9.20) per share, as compared to a net loss of \$80 million, or (\$1.05) per share, in the second quarter of 2016, and net loss for the first half of 2017 of \$844 million, or (\$10.88) per share, as compared to a net loss of \$320 million, or (\$4.14) per share for the first half of 2016. For both the second quarter and first half of 2017, the increase in net loss was primarily driven by the \$532 million (after-tax) goodwill impairment charge.

Diluted net loss attributable to Frontier common shareholders

Diluted net loss attributable to Frontier common shareholders for the second quarter of 2017 was \$718 million, or (\$9.21) per share, as compared to a net loss of \$80 million, or (\$1.05) per share, in the second quarter of 2016, and diluted net loss for the first half of 2017 was \$848 million, or (\$10.89) per share, as compared to a net loss of \$320 million, or (\$4.14) per share for the first half of 2016. For both the second quarter and first half of 2017, the increase in net loss was primarily driven by the \$532 million (after-tax) goodwill impairment charge.

(b) Liquidity and Capital Resources

Analysis of Cash Flows

As of June 30, 2017, we had cash and cash equivalents aggregating \$387 million. Our primary source of funds during the six months ended June 30, 2017 was cash on hand, cash generated from operations, and cash received from issuance of our Term Loan B. For the six months ended June 30, 2017, we used cash flow from operations, cash on hand, and borrowings to principally fund all of our cash investing and financing activities, primarily capital expenditures, dividends and debt repayments.

At June 30, 2017, we had a working capital deficit of \$554 million, including \$166 million of long-term debt due within one year, as compared to a working capital deficit of \$788 million at December 31, 2016. The decrease in the working capital deficit is primarily due to a decrease in current liabilities of \$465 million, partially offset by a reduction in accounts receivable of \$149 million.

Cash Flows provided by Operating Activities

Cash flows provided by operating activities increased \$188 million to \$829 million for the six months ended June 30, 2017 as compared with the prior year period. The increase was primarily the result of the addition of our CTF Operations, partially offset by unfavorable changes in working capital, along with higher interest expense.

We received \$3 million and \$32 million in cash refunds during the six months ended June 30, 2017 and 2016, respectively.

In connection with the CTF Acquisition, Frontier recognized acquisition and integration costs of \$14 million during the first six months of 2017 compared to \$265 million during the first six months of 2016. Interest expense of \$397 million was incurred during the first six months of 2017 related to the September 2015 debt offering and the term loan credit agreement, dated as of August 12, 2015, with JPMorgan Chase Bank, N.A., as administrative agent, and the lenders party thereto, compared to \$368 million in interest expense during the first six months of 2016. Additionally, Frontier incurred \$10 million of interest expense related to the Verizon Bridge Facility (as defined below) during the first six months of 2016.

Cash Flows used by Investing Activities

Capital Expenditures

For the six months ended June 30, 2017 and 2016, our capital expenditures were \$583 million and \$645 million, respectively, including \$5 million and \$88 million, respectively, of integration related capital expenditures associated with the CTF Acquisition. Capital expenditures related to CAF Phase II are included in our reported amounts for capital expenditures. We anticipate capital expenditures for business operations to be approximately \$1.1 billion to \$1.2 billion in 2017, as compared to \$1.26 billion in 2016.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

Cash Flows used by and provided from Financing Activities

Debt Reduction

During the first six months of 2017, Frontier used cash on hand for the scheduled retirement of \$286 million of debt, including \$210 million of unsecured 8.25% senior notes at maturity, and contractual payments of principal for debt of \$76 million. Additionally, Frontier used cash proceeds from the Term Loan B to retire \$1,290 million of unsecured senior notes prior to maturity, consisting of \$763 million of 8.875% Notes due 2020 and \$527 million of 8.5% Notes due 2020. During the first six months of 2017, Frontier recorded a loss on early extinguishment of debt of \$90 million driven primarily by premiums paid to retire the notes and unamortized original issuance costs.

During the first six months of 2016, Frontier used cash on hand to retire an aggregate principal amount of \$69 million of debt, \$22 million of which was senior unsecured debt and \$47 million of which was secured debt.

Subject to limitations contained in our indentures and credit facilities, we may from time to time make repurchases of our debt in the open market, through tender offers, exchanges of debt securities, by exercising rights to call or in privately negotiated transactions. We may also refinance existing debt or exchange existing debt for newly issued debt obligations.

Capital Resources

We believe our operating cash flows, existing cash balances, existing revolving credit facility and access to the capital markets, as necessary, will be adequate to finance our working capital requirements, fund capital expenditures, make required debt interest and principal payments, pay taxes, pay dividends to our stockholders, and support our short-term and long-term operating strategies for the next twelve months. A number of factors, including but not limited to, losses of customers, pricing pressure from increased competition, lower subsidy and switched access revenues, and the impact of economic conditions may negatively affect our cash generated from operations. As of June 30, 2017, we had \$83 million of debt maturing during the last six months of 2017; \$748 million and \$833 million of debt will mature in 2018 and 2019, respectively.

Term Loan and Revolving Credit Facilities

Borrowings under each of Frontier's credit agreements are secured by a pledge of the stock of certain Frontier subsidiaries and guaranties by certain Frontier subsidiaries, primarily representing Frontier operations in Illinois, Indiana, Michigan, Ohio, and Wisconsin.

On February 27, 2017, Frontier entered into a first amended and restated credit agreement with JPMorgan Chase Bank, N.A., as administrative agent, and the lenders party thereto (the JPM Credit Agreement), pursuant to which Frontier combined its revolving credit agreement, dated as of June 2, 2014, and its term loan credit agreement, dated as of August 12, 2015. Under the JPM Credit Agreement, as further amended on June 15, 2017 by Increase Joinder No.1, Frontier has a \$1,625 million senior secured term loan A facility (the Term Loan A) maturing on March 31, 2021, an \$850 million secured revolving credit facility maturing on February 27, 2022 (the Revolver), and \$1,500 million senior secured term loan B facility (the Term Loan B) maturing on June 15, 2024. The maturities of the Term Loan A, the Revolver, and the Term Loan B, in each case if still outstanding, will be accelerated in the following circumstances: (i) if, 91 days before the maturity date of any series of Senior Notes maturing in 2020, 2023 and 2024, more than \$500 million in principal amount remains outstanding on such series; or (ii) if, 91 days before the maturity date of the first series of Senior Notes maturing in 2021 or 2022, more than \$500 million in principal amount remains outstanding, in the aggregate, on the two series of Senior Notes maturing in such year. The determination of interest rates for each of the facilities under the JPM Credit Agreement is based on margins over the Base Rate (as defined in the JPM Credit Agreement) or LIBOR, at the election of Frontier. Interest rate margins on the Term Loan A and Revolver (ranging from 0.75% to 1.75% for Base Rate borrowings and 1.75% to 2.75% for LIBOR borrowings) are subject to adjustment based on Frontier's Total Leverage Ratio (as defined in the JPM Credit Agreement). Interest rate margins on the Term Loan B (2.75% for Base Rate borrowings and 3.75% for LIBOR borrowings) are not subject to adjustment. The JPM Credit Agreement contains a covenant that Frontier's Leverage Ratio (as defined in the JPM Credit Agreement) not be above 5.25 to 1.0 initially, migrating to 5.0 to 1.0 beginning in the second quarter of 2018, 4.75 to 1.0 in the second quarter of 2019, and 4.5 to 1.0 in the second quarter of 2020. The security package under the JPM Credit Agreement includes pledges of the equity interests in certain Frontier subsidiaries and guaranties by certain Frontier subsidiaries. As of June 30, 2017, the revolving credit facility

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

was fully available and no borrowings had been made thereunder. The revolving credit facility is available for general corporate purposes but may not be used to fund dividend payments.

Frontier has two senior secured credit agreements with CoBank, ACB, as administrative agent, lead arranger and a lender, and the other lenders party thereto: the first, for a \$350 million senior term loan facility drawn in 2014 (the 2014 CoBank Credit Agreement), matures on October 24, 2019, and the second, for a \$315 million senior term loan facility drawn in October 2016 (the 2016 CoBank Credit Agreement), matures on October 12, 2021. We refer to the 2014 CoBank Credit Agreement and the 2016 CoBank Credit Agreement collectively as the CoBank Credit Agreements.

Repayment of the outstanding principal balance under each of the CoBank Credit Agreements is being made in quarterly installments (\$9 million, with respect to the 2014 CoBank Credit Agreement, and \$8 million, with respect to the 2016 CoBank Credit Agreement), in each case with the remaining outstanding principal balance to be repaid on the applicable maturity date. Borrowings under each of the CoBank Credit Agreements bear interest based on the margins over the Base Rate (as defined in the applicable CoBank Credit Agreement) or LIBOR, at the election of Frontier.

On March 29, 2017, Frontier amended the 2014 and 2016 CoBank Credit Agreements. The amendments provide that interest rate margins under each of these facilities will range from 0.875% to 3.875% for Base Rate borrowings and 1.875% to 4.875% for LIBOR borrowings, subject to adjustment based on our Total Leverage Ratio, as defined in each credit agreement. The interest rate on each of the facilities as of June 30, 2017 was LIBOR plus 3.875%. In addition, the amendments provide for increases in the maximum Leverage Ratio and expansion of the security package identical to those contained in the JPM Credit Agreement.

Letters of Credit Facility

Frontier has a Continuing Agreement for Standby Letters of Credit with Deutsche Bank AG New York Branch and Bank of Tokyo – Mitsubishi UFJ, LTD. (the LC Agreements). As of June 30, 2017, \$109 million of undrawn Standby Letters of Credit had been issued under the LC Agreements. Borrowings under the LC Agreement are secured by a pledge of the stock of certain Frontier subsidiaries and guaranties by certain Frontier subsidiaries.

Covenants

The terms and conditions contained in our indentures, the CoBank Credit Agreements and the JPM Credit Agreement include the timely payment of principal and interest when due, the maintenance of our corporate existence, keeping proper books and records in accordance with GAAP, restrictions on the incurrence of liens on our assets securing indebtedness and our subsidiaries' assets, restrictions on the incurrence of indebtedness by our subsidiaries and restrictions on asset sales and transfers, mergers and other changes in corporate control, subject to important qualifications and exceptions. We would be restricted from declaring dividends by the CoBank Credit Agreements and the JPM Credit Agreement if an event of default occurred and was continuing at the time or would result from the dividend declaration. In addition, under the Certificate of Designations of our 11.125% Mandatory Convertible Preferred Stock, Series A, we would be restricted from paying dividends on our common stock if we failed to declare and pay dividends on our Series A Preferred Stock.

Indentures for our senior unsecured debt obligations limit our ability to create liens on our assets securing indebtedness and our subsidiaries' assets or merge or consolidate with other companies, our subsidiaries' ability to borrow funds and to engage in change of control transactions, subject to important exceptions and qualifications. The indentures for our 8.875% Senior Notes due 2020, our 10.50% Senior Notes due 2022, and our 11.00% Senior Notes due 2025 contain covenants that are customary for similarly rated issuers. Among other things, these covenants, subject to important qualifications and exceptions, limit our ability to incur additional indebtedness if our leverage ratio exceeds 4.5 to 1 (as defined in the indentures); limits liens and subsidiary debt to 1.25 times EBITDA and additional monetary thresholds based on capital available for use by the Company (as defined in the indentures); limits cumulative restricted payments, including dividends, to cumulative EBITDA less 1.4 times cumulative interest expense (as defined in the indenture), if our leverage ratio does not exceed 4.5 to 1; limits cumulative restricted payments, including dividends, to a lesser amount during periods, if any, in which our leverage ratio exceeds 4.5 to 1; and restricts our ability to divest substantially all of the assets of Frontier.

As of June 30, 2017, we were in compliance with all of our indenture and credit facility covenants.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

Dividends

We intend to continue to pay regular quarterly dividends on our common and preferred stock. Our ability to fund a regular quarterly dividend will be impacted by our ability to generate cash from operations. Holders of the Series A Preferred Stock are entitled to receive cumulative dividends at an annual rate of 11.125% of the initial liquidation preference of \$100 per share, or \$11.125 per year per share. Series A Preferred Stock dividends of \$107 million were paid during each of the six month periods ended June 30, 2017 and 2016.

On May 2, 2017 (prior to the reverse stock split), we announced that our Board of Directors declared a regular quarterly cash dividend of \$0.04 per share of common stock, payable on June 30, 2017 to holders of record at the close of business on June 15, 2017. The Board of Directors also declared a regular quarterly cash dividend on Frontier's 11.125% Series A Preferred Stock of \$2.78125 per share, payable on June 30, 2017 to holders of record at the close of business on June 15, 2017.

The declaration and payment of future dividends on our common stock is at the discretion of our Board of Directors, and will depend upon many factors, including our financial condition, results of operations, growth prospects, funding requirements, payment of cumulative dividends on Series A Preferred Stock, applicable law, restrictions in agreements governing our indebtedness and other factors our Board of Directors deem relevant.

Off-Balance Sheet Arrangements

We do not maintain any off-balance sheet arrangements, transactions, obligations or other relationships with unconsolidated entities that would be expected to have a material current or future effect upon our financial statements.

Future Commitments

On April 29, 2015, the FCC released its right of first refusal offer of support to price cap carriers under the CAF Phase II program, which is intended to provide long-term support for broadband in high cost unserved or underserved areas. In June 2015, Frontier accepted the CAF Phase II offer, which provides for \$332 million in annual support through 2020, including \$49 million in annual support related to the properties acquired in the CTF Acquisition, to make available 10 Mbps downstream/1 Mbps upstream broadband service to approximately 774,000 households across some of the 29 states where we now operate.

To the extent we do not enable the required number of households with 10 Mbps downstream/1 Mbps upstream broadband service by the end of the CAF Phase II term, we will be required to return a portion of the funds previously received.

Critical Accounting Policies and Estimates

The preparation of our financial statements requires management to make estimates and assumptions. There are inherent uncertainties with respect to such estimates and assumptions; accordingly, it is possible that actual results could differ from those estimates and changes to estimates could occur in the near term.

These critical accounting estimates have been reviewed with the Audit Committee of our Board of Directors.

Other than the updated indefinite-lived intangibles discussion below, there have been no material changes to our critical accounting policies and estimates from the information provided in Item 7. "Management Discussion and Analysis of Financial Condition and Results of Operations" included in our Annual Report on Form 10-K for the year ended December 31, 2016.

Indefinite-lived Intangibles

Our indefinite-lived intangibles consist of goodwill and trade name, which were generated as a result of business combinations. We test for impairment of these assets annually as of December 31 or more frequently, whenever events occur or facts and circumstances change that make it more likely than not that the fair value of a reporting unit has been reduced below its carrying amount. Events that might indicate impairment include, but are not limited to, strategic decisions made in response to economic and competitive conditions, the impact of the economic environment on our customer base, material negative changes in relationships with significant customers, and/or a significant decline in our stock price for a sustained period.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

We early adopted ASU 2017-04 “Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment” (“ASU 2017-04”) during the second quarter of 2017. In accordance with ASU 2017-04, our annual goodwill impairment test (and interim test if determined to be necessary) will consist of comparing the fair value of our reporting unit to its carrying value. To the extent that the carrying value exceeds fair value, an impairment will be recognized.

For the purpose of our goodwill impairment test, we first assess qualitative factors to determine if it is more likely than not that fair value of the reporting unit is less than the carrying amount. If it is less, an additional quantitative evaluation must be performed. Our quantitative assessment consists of using a market multiples approach to determine fair value. Marketplace company comparisons and analyst reports within the telecommunications industry have historically supported a range of fair values of multiples between 5.0x and 7.9x annualized EBITDA (defined as operating income, net of acquisition and integration costs, noncash pension and OPEB costs, pension settlement costs, goodwill impairment and restructuring costs and other charges, as well as depreciation and amortization). In estimating the enterprise fair value we used 5.8x as the multiple.

As a result of the significant decline in the share price of our common stock in the second quarter of 2017, we tested goodwill for impairment. The quantitative assessment, as described above, resulted in a conclusion that the estimated enterprise fair value was lower than its carrying value, principally due to the decline in our profitability during the period. Accordingly, we have recorded goodwill impairment expense of \$670 million in the second quarter of 2017.

The market multiples approach that we use incorporates significant estimates and assumptions related to the forecasted results for the remainder of the year, including revenues, expenses, and the achievement of other cost synergies. Our assessment includes many qualitative factors that require significant judgment. Alternative interpretations of these factors could have resulted in different conclusions regarding need for, or size of, an impairment. Continued declines in our profitability or cash flows or in the share price of our common stock may result in further impairment.

The enterprise fair value is sensitive to the amount of EBITDA generated by Frontier and the EBITDA multiple used in the calculation. Significant changes in the assumptions or estimates used in our impairment analyses, such as a reduction in profitability and/or cash flows, could result in a non-cash goodwill and indefinite-lived intangible asset impairment charge and materially affect our operating results. The market multiples approach is sensitive to changes in the estimated annual EBITDA, with each \$100 million change equating to approximately \$580 million of estimated enterprise value. Similarly, a 1% change in the multiple used would affect the estimated enterprise value by

approximately \$200 million. Declines in our stock price could also affect the reconciliation of our market capitalization and indicate impairment.

We also considered whether the carrying values of finite-lived intangible assets and property plant and equipment may not be recoverable or whether the carrying value of certain finite-lived intangible assets were impaired, noting no additional impairment was present as of June 30, 2017.

Recent Accounting Pronouncements

See Note 2 of the Notes to Consolidated Financial Statements included in Part I of this report for additional information related to recent accounting literature.

Regulatory Developments

On April 29, 2015, the FCC released offers of support to price cap carriers under the CAF Phase II program. The intent of these offers is to provide long-term support for carriers for establishing and providing broadband service with at least 10 Mbps downstream/1 Mbps upstream speeds in high cost unserved or underserved areas. Frontier accepted the CAF Phase II offer in 29 states, including our CTF properties, which provides for \$332 million in annual support through 2020 and a commitment to make broadband available to approximately 774,000 households. CAF Phase II support is a successor to the approximately \$156 million in annual USF frozen high cost support that Frontier had been receiving prior to the CTF acquisition, and the \$42 million in annual transitional USF frozen high cost support that Verizon had been receiving in California and Texas. In addition to the annual support levels, these amounts also include frozen support phasedown amounts in states where the annual CAF II funding is less than the prior annual frozen high cost support funding. The frozen support phasedown support was \$35 million in 2015 and \$27 million in 2016, and is expected to be \$17 million in 2017 and \$6 million in 2018.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

In February 2017, the FCC adopted an Order further explaining its competitive bidding process to continue to distribute CAF Phase II funding in those high-cost areas where price cap carriers declined the FCC's offer of support. This auction could possibly present a new support and deployment opportunity. The FCC's competitive bidding process has not yet been finalized, however. Therefore, Frontier is unable to determine whether it will participate in any competitive bid process at this time.

On April 20, 2017, the FCC issued an Order that will significantly alter how Commercial Data Services are regulated once the rules go into effect. Specifically, the Order adopted a test to determine, on a county-by-county basis, whether price cap ILECs', like Frontier's DS1 and DS3 services will continue to be regulated. The test is likely to result in deregulation in a substantial number of our markets. Once implemented, the deregulation will allow Frontier to offer its DS1 and DS3 services in a manner that better responds to the competitive marketplace and allows for commercial negotiation. The areas that remain regulated may be subject to price fluctuations depending upon the price cap formula that year. Multiple parties have appealed and requested a stay of this Order. Frontier cannot predict how these regulatory changes will affect revenues at this time.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risk in the normal course of our business operations due to ongoing investing and funding activities, including those associated with our pension plan assets. Market risk refers to the potential change in fair value of a financial instrument as a result of fluctuations in interest rates and equity prices. We do not hold or issue derivative instruments, derivative commodity instruments or other financial instruments for trading purposes. As a result, we do not undertake any specific actions to cover our exposure to market risks, and we are not party to any market risk management agreements other than in the normal course of business. Our primary market risk exposures from interest rate risk and equity price risk are as follows:

Interest Rate Exposure

Our exposure to market risk for changes in interest rates relates primarily to the interest-bearing portion of our pension investment portfolio and the related actuarial liability for pension obligations, as well as our floating rate indebtedness. As of June 30, 2017, 80% of our total debt had fixed interest rates. We had no interest rate swap agreements in effect at June 30, 2017. We believe that our currently outstanding obligation exposure to interest rate changes is minimal. Our objectives in managing our interest rate risk are to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, only \$3,577 million

of our outstanding borrowings at June 30, 2017 have floating interest rates. Our undrawn \$850 million revolving credit facility has interest rates that float with the LIBO Rate, as defined. Consequently, we have limited material future earnings or cash flow exposures from changes in interest rates on our debt. An adverse change in interest rates would increase the amount that we pay on our variable rate obligations and could result in fluctuations in the fair value of our fixed rate obligations. Based upon our overall interest rate exposure, a near-term change in interest rates would not materially affect our consolidated financial position, results of operations or cash flows.

At June 30, 2017, the fair value of our long-term debt was estimated to be approximately \$16.5 billion, based on prevailing interest rates, our overall weighted average borrowing rate was 8.35% and our overall weighted average maturity was approximately seven years. As of June 30, 2017, there has been no significant change in the weighted average maturity applicable to our obligations since December 31, 2016.

Equity Price Exposure

Our exposure to market risks for changes in equity security prices as of June 30, 2017 is limited to our pension plan assets. We have no other security investments of any significant amount.

Our pension plan assets decreased from \$2,766 million at December 31, 2016 to \$2,609 million at June 30, 2017, a decrease of \$157 million, or 6%. This decrease was a result of benefit payments of \$390 million, partially offset by positive investment returns of \$154 million, net of investment management and administrative fees, increased receivable from Verizon and the Verizon pension plan trusts of \$38 million related to the CTF Acquisition, and Frontier contributions of \$41 million during the first six months of 2017.

PART I. FINANCIAL INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

We made cash contributions to the Pension Plan during the six months ended June 30, 2017 of \$41 million. We made no non-cash contributions during the six months ended June 30, 2017. As part of the CTF Acquisition, Verizon is required to make a cash payment to Frontier for the difference in assets transferred by Verizon into the Plan and the related obligation (the Differential), which is estimated to be \$131 million. We expect to receive the payment from Verizon during the third quarter of 2017. Once received, we will retain \$34 million for contributions paid by Frontier during the second quarter of 2017, and remit the remaining cash received to the pension plan to offset future contributions.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, regarding the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended). Based upon this evaluation, our principal executive officer and principal financial officer concluded, as of the end of the period covered by this report, June 30, 2017, that our disclosure controls and procedures were effective.

(b) Changes in internal control over financial reporting

We reviewed our internal control over financial reporting at June 30, 2017. There have been no changes in our internal control over financial reporting identified in an evaluation thereof that occurred during the second fiscal quarter of 2017 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

Item 1. Legal Proceedings

See Note 15 of the Notes to Consolidated Financial Statements included in Part I, Item 1 of this report. There have been no material changes to our legal proceedings from the information provided in Item 3. "Legal Proceedings" included in our Annual Report on Form 10-K for the year ended December 31, 2016.

We are party to various legal proceedings (including individual, class and putative class actions) arising in the normal course of our business covering a wide range of matters and types of claims including, but not limited to, general contracts, billing disputes, rights of access, taxes and surcharges, consumer protection, trademark and patent infringement, employment, regulatory, tort, claims of competitors and disputes with other carriers. Litigation is subject to uncertainty and the outcome of individual matters is not predictable. However, we believe that the ultimate resolution of all such matters, after considering insurance coverage or other indemnities to which we are entitled, will not have a material adverse effect on our financial position, results of operations, or our cash flows.

Item 1A. Risk Factors

There have been no material changes to the Risk Factors described in Part 1, Item 1A. "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

PART II. OTHER INFORMATION (Continued)

FRONTIER COMMUNICATIONS CORPORATION AND SUBSIDIARIES

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no unregistered sales of equity securities during the quarter ended June 30, 2017.

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total Number of Shares Purchased	Average Price Paid per Share
April 1, 2017 to April 30, 2017 Employee Transactions (1)	50	\$ 32.08
May 1, 2017 to May 31, 2017 Employee Transactions (1)	33	\$ 26.34
June 1, 2017 to June 30, 2017 Employee Transactions (1)	419	\$ 19.94
Totals April 1, 2017 to June 30, 2017 Employee Transactions (1)	502	\$ 21.57

(1) Includes shares withheld (under the terms of grants under employee stock compensation plans) to offset minimum tax withholding obligations that occur upon the vesting of restricted shares and the LTIP performance shares earned during the period. Frontier's stock compensation plans provide that the value of shares withheld shall be the average of the high and low price of our common stock on the date the relevant transaction occurs.

Item 4. Mine Safety Disclosure

Not applicable.
