NEWS RELEASE

INDEPENDENCE HOLDING COMPANY ANNOUNCES

2007 FIRST QUARTER RESULTS

Stamford, Connecticut, May 10, 2007. Independence Holding Company (NYSE: IHC) today reported 2007 first quarter results.

Financial Results

Revenues increased 26% to \$109,071,000 for the three months ended March 31, 2007 compared to revenue for the three months ended March 31, 2006 of \$86,840,000. Net income per share increased 11% to \$.30 per share, diluted, or \$4,602,000, including net realized investment gains of \$420,000 for the three months ended March 31, 2007 compared to \$.27 per share, diluted, or \$4,029,000, including net realized investment gains of \$417,000 for the three months ended March 31, 2006.

Chief Executive Officer's Comments

Roy Thung, Chief Executive Officer, commented, "We are pleased to report that our revenues have grown for nine consecutive quarters. In fact, our 2007 first quarter revenues of \$109.1 million are 93% greater than those we reported in the fourth quarter of 2004. We are also gratified that our net income per share increased 11% to \$.30 per share, diluted, for the three months ended March 31, 2007 compared to \$.27 per share, diluted, for the comparable 2006 quarter and increased 30% from \$.23 per share, diluted, for the sequentially prior quarter. Our first quarter results were positively impacted by improved loss ratios on our medical stop-loss line, partially offset by development and implementation costs associated with our expanding fully insured division including increased investments in systems and personnel. In addition, we strengthened reserves in the fully insured segment in the first quarter relating to

business written in prior periods, however, IHC's total block of fully insured business has produced underwriting profits of 8% or greater in both 2005 and 2006.

Mr. Thung, continued, "We are moving toward a balanced portfolio of medical stop loss, fully insured health and traditional life and disability products. In particular, we are confident that our fully insured health business will continue its strong growth while maintaining favorable profit margins. We expect that by the end of 2007, on an annualized basis, our fully insured health block of business will be at least as large as our medical stop-loss block. Our fully insured business is itself diversified, with multiple products and distribution strategies which bring stability to the block and make IHC less susceptible to market or regulatory changes. For all these reasons we remain optimistic as to our future. "
