There are no family relationships among any of the Executive Officers, nor are there any arrangements or understandings between any Executive Officer and any other person pursuant to which that Executive Officer has been or is to be elected.

The Federal Reserve Act permits the Bank to contract for or purchase property from any of its Directors only when such purchase is made in the regular course of business upon terms not less favorable to the Bank than those offered by others unless the purchase has been authorized by a majority of the Board of Directors not interested in the transaction. Similarly, the Federal Reserve Act prohibits loans to Executive Officers of the Bank unless such loans are on terms not more favorable than those afforded other borrowers and certain other prescribed conditions have been met.

The Bank has had, and expects to have in the future, banking transactions in the ordinary course of its business with Directors, Officers and principal shareholders of the Company and their affiliates. All such transactions have been made upon substantially the same terms, including interest rates and collateral, as those prevailing at the same time for comparable transactions with others. In the opinion of management, such loans have not involved more than the normal risk of collectibility nor have they presented other unfavorable features. The total amount of loans outstanding at December 31, 2002 to the Company's Directors, Executive Officers and their associates was \$7,324,141, which constituted 2.21% of the Bank's total loans outstanding at that date.

(1) Bonuses are listed in the year earned and normally accrued. Such bonuses may be paid in the following year.

(2) Amounts shown include contributions paid by the Company to the respective accounts of the Named Executive Officers in the 401(k) Plan. In 2002 the Company and the Bank contributed to the Bank's Savings and Investment Plan a matching amount for the salary deferred by Mr. Daigneault, Mr. Ward and Mr. Wootton equal to 3.0% of their respective earnings and a profit-sharing component of 3.0% of their respective earnings, which were subject to IRS regulations limiting the maximum amount of an officer's earnings eligible for matching or profit-sharing 401(k) contributions to \$200,000. These percentages were equivalent to the 401(k) Plan match and profit sharing contributions made for all eligible employees. This figure also recognizes the value to the officers of a Company-provided vehicle.

Compensation of the Chief Executive Officer

The Compensation Committee consists of four outside members of the Board of Directors. This Committee has the responsibility for conducting the annual evaluation and determining the compensation level of the Chief Executive Officer. The compensation of the Chief Executive Officer consists of a base salary plus a bonus, under an approved plan adopted for all employees of the Bank, and other cash bonuses which the Committee may deem appropriate based on the overall performance of the Chief Executive Officer and the achievement of prescribed goals. These goals are a combination of financial targets and corporate objectives such as implementation of the strategic plan, satisfactorily addressing issues identified as priorities by the banking regulators and overall performance of the management team and the Company. The financial goals pertain to profitability, loan and deposit growth as well as loan portfolio quality.

The compensation philosophy of the Company for all management personnel is to pay a competitive base salary commensurate with salaries paid by other similar financial institutions, plus a short-term incentive bonus which is tied to the achievement of certain performance goals. In 1994, the Company instituted a formal performance-based compensation program called "Performance Compensation for Stakeholders". The overall objective of the program is to shift a portion of employee compensation from base salary to performance based payments. In 2002, total cash payout under this Stakeholder Performance Compensation program was 15.20% of the participating employees' base salaries.

This performance compensation program's overall objective is to maximize the long-term viability of the Company and increase shareholder value. It addresses this by tying the bonus payout to multiple goals which include profitability, growth, productivity and loan quality. The guiding principle is to reach a balance of profitability, growth, productivity and loan quality which should have a positive impact on maximizing long-term shareholder value. It rewards current performance which contributes toward the achievement of long-term goals. Each year specific key performance indicators are chosen along with financial performance levels. In 2002 some of the indicators were: loan volume, deposit volume, non-performing loan levels, non-interest income, net interest income and operating expenses as a percentage of net income.

The amount of base compensation potentially payable to the Chief Executive

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form DEF 14A

Officer and other executive officers was determined by reviewing independent salary surveys of compensation of officers for similar financial institutions located in New England. The committee took into consideration the actual salaries paid to Presidents and CEOs of these peer banks and the performance of the Company in comparison to this peer group in establishing the 2002 base salary for the Chief Executive Officer.

The Chief Executive Officer is given annual goals relating to both financial performance and corporate objectives, which are established by the Committee pursuant to discussions with the Chief Executive Officer. On an annual basis, the Committee conducts a formal evaluation of the Chief Executive Officer, compares his performance to the established goals, assesses the overall performance of the Company and makes recommendations as appropriate.

The Chief Executive Officer's base compensation for 2002 was reflective of the Company's overall financial performance in 2001, which, in the opinion of the Compensation Committee, was considered excellent. All 2001 goals set for the Chief Executive Officer were met or exceeded, which included reaching certain targets for asset growth, asset quality, and overall profitability. Taking these various factors into consideration and in recognition of his overall performance, the committee increased his base salary by \$35,000 or 18.00% to \$230,000 for 2002.

The Chief Executive Officer's 2002 bonus compensation was 21.70% of base compensation, of which 15.20% was paid in accordance with the Company's Stakeholder Performance Compensation program for all employees. The additional bonus for 2002 is a reflection of the exceptional year the Company had in exceeding its financial performance goals, most notably a \$1,014,000 increase in net income or 18.50% and a return on average equity of 16.34%.

2002 Compensation Committee Members:

Malcolm E. Blanchard, Chair

Robert B. Gregory

Carl S. Poole, Jr.

Stuart G. Smith

Compensation Committee Interlocks and Insider Participation in Compensation Decisions

During 2002, Directors Gregory, Blanchard, Poole and Smith served as members of the Compensation Committee. No member of the Committee was, or ever has been, an officer or employee of the Company or the Bank. All Committee members are customers of and engage in banking transactions with the Bank in the ordinary course of business. As described in the section entitled "Certain Relationships and Related Transactions", all loans to such individuals were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons and, in the opinion of Management, did not involve more than the normal risk of collectibility or present other unfavorable features.

Director Compensation

Each of the outside directors of the Bank, with the exception of the Chairman of the Board, received a director's fee in the amount of \$500 for each meeting attended and \$300 for each meeting attended of a committee of which the

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form DEF 14A

director is a member. The Chairman of the Board received an annual fee of \$18,000. The Chairman of the Executive Committee also received a stipend of \$4,500 in addition to meeting fees paid for meetings attended. Certain Board members were also paid fees for appraisals, consulting services and legal services, and such fees are on terms no more favorable to the recipient than are generally paid by the Bank for such services to other providers in the area. Fees paid by the Bank to its Directors as a group totaled \$91,700 in 2002, but no fees are paid to Directors of the Company. President Daigneault, who is the only director who is also an officer of the Company, receives no additional compensation for serving on the Board of Directors of the Company or the Bank.

The Company has three standing committees of the Board of Directors: Audit, Options and Nominating. The Bank has seven standing committees of the Board of Directors: Executive, Audit, Asset/Liability, Trust, Directors' Loan, Compensation and Nominating. Certain members of management also serve on some committees. All directors attended at least 75% of Board meetings and meetings held by Committees of which they were members, and the aggregate attendance of Board and Committee meetings by all members of the Board of Directors in 2002 was in excess of 90%.

Stock Option Plan

In April 1995, the stockholders approved a Stock Option Plan. The purpose of the Stock Option Plan is to encourage the retention of key employees by facilitating their purchase of a stock interest in the Company and to align their interest with those of the shareholders. The 1995 Stock Option Plan provides for grants of options to purchase Company common stock and is administered by an Options Committee which consists of four outside directors. During 2002, 11,000 stock options were granted under the 1995 Stock Option Plan. The following table sets forth the status of the Stock Option Plan as of December 31, 2002:

Options approved by Shareholders	200,000

Long-Term Compensation

Long-term compensation may be distinguished from annual compensation by the time frame for which performance results are measured to determine awards. While annual compensation covers a calendar year, long-term compensation is provided through the Company's stock option plan, which covers a period of two to ten years. The following table sets forth information with respect to the named executives and all other employees concerning grants of stock options during 2002:

Option Grants During the Year Ended December 31, 2002

	Number of securities underlying options granted	% of options granted in fiscal year	Exercise price per Share (2)	Expiration Date	Potential realizable value at assumed rates of stock appreciation for option term(1)	
					5%	10%

All	11,000	100.0%	\$ 28.00	4/2012	\$ 194,000	\$ 491,000

1) The dollar gains under these columns result from calculations assuming 5% and 10% growth rates compounded over a 10-year period as set by the Securities and Exchange Commission and are not intended to forecast future price appreciation of the Company's common stock. The gains reflect a future value based upon growth at these prescribed rates. The values have not been discounted to present value. It is important to note that options have value to the listed executive and to all option recipients only if the stock price advances beyond the exercise price shown on the table during the effective option period.

2) Under the Stock Option Plan, the exercise price may not be less than the fair market value of the common stock on the date the option is granted.

The following table sets forth information with respect to exercisable and unexercisable options held as of December 31, 2002:

Description of the Company's Benefit Plans

The Company has reserved 160,000 shares of its common stock to be made available to directors and employees who elect to participate in the directors' deferral, employee stock purchase, or 401(k) savings and investment plans. As of December 31, 2002, 110,523 shares had been issued pursuant to these plans, leaving 49,477 shares available for future issuance. The issuance price is based on the market price of the stock at issuance date.

All shares issued under the 401(k) savings and investment plans are issued pursuant to an exemption from registration under the Securities Act of 1933, as amended (the "Securities Act"), contained in Section 3(a)(11) thereof and Rule 147 promulgated thereunder. During the period ending nine months after the date of issuance of these shares, these shares may be transferred only to residents of the State of Maine. Each certificate issued for these plan shares bears a legend referring to this restriction.

Shares issued under the employee stock purchase plan prior to September 11, 1998, were issued pursuant to exemptions from registration under Section 3(a)(11) and Rule 147 of the Securities Act. Shares issued under the employee stock purchase plan on or after September 11, 1998, have been issued pursuant to a registration statement filed under the Securities Act. The members of the Board of Directors and certain officers of the Company, who may be deemed to be "affiliates", may resell shares of the Company's common stock purchased or acquired under this plan only in accordance with certain restrictions imposed by the Securities Act and Rule 144 promulgated thereunder.

The Bank's 401(k) Plan (The First National Bank of Damariscotta Savings

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form DEF 14A

and Investment Plan) is the Bank's sole retirement plan, and was modified in 1996 after termination of the Bank's traditional defined benefit pension plan. It is available to any employee who has attained the age of 21 and completed six months of continuous service. Employees may contribute up to 50.0% of their compensation (not to exceed \$11,000 if under age 50 and \$12,000 if over age 50), and the Bank may provide a match of up to 3.0% of compensation. Subject to a vote of the Board of Directors, the Bank may also make a profit-sharing contribution to the Plan, and in 2002 this contribution equaled 3.0% of each eligible employee's compensation. The 401(k) Plan is administered by a special committee appointed by the Board of Directors.

Employee contributions are 100% vested at all times, while employer contributions are vested over a five-year period. Upon termination of employment for any reason, a plan participant may receive his or her contribution account and earnings allocated to it, as well as the vested portion of his or her employer-matching account and earnings allocated to it. Non-vested amounts are forfeited and are used by the Bank to help defray plan administration expenses incurred by the Bank. The Bank paid \$95,000 in matching contributions and \$121,000 in profit-sharing contributions to this plan in 2002. Plan participants may direct the trustees of the 401(k) Plan to purchase specific assets for their accounts from a selection which includes seven mutual funds as well as the Company's stock. As of December 31, 2002, 57,321 shares of the Company's stock had been purchased by the 401(k) Plan at the direction of plan participants.

The Bank instituted an employee stock purchase plan effective February 1, 1987, and the Board of Directors has allocated 80,000 shares of stock to be available for purchase under this plan. Employees who have been employed by the Bank for three consecutive calendar months are eligible to purchase shares on a quarterly basis through payroll deduction. The price per share for shares sold pursuant to the plan is defined as the closing price on the day the shares are purchased. As of December 31, 2002, 53,202 shares of the Company's stock had been purchased pursuant to the plan.

The Bank provides all full-time employees with group life, health, and long-term-disability insurance through the Independent Bankers' Employee Benefits Trust of Maine. A Flexible Benefits Plan is available to all full-time employees after satisfying eligibility requirements and to part-time employees scheduled to work 20 or more hours a week.

The Bank also sponsors an un-funded, non-qualified supplemental retirement plan for certain officers. The plan provides supplemental retirement benefits payable in installments over 20 years upon retirement or death. The costs for this plan are recognized over the service lives of the participating officers. The projected retirement benefit for Mr. Daigneault, assuming he remains employed by the Bank until normal retirement age of 65, is \$169,329 per year, with such payments beginning in the year 2017. The projected retirement benefit for Mr. Ward, assuming he remains employed by the Bank until normal retirement age of 65, is \$61,127 per year, with such payments beginning in the year 2018. The expense for all participants in this supplemental plan was \$112,000 in 2002, \$141,000 in 2001, and \$123,000 in 2000. As of December 31, 2002 and 2001, the accrued liability of this plan was \$591,000 and \$484,000, respectively.

On December 15, 1994, the Company's board of directors adopted a Stock Option Plan (the "Option Plan") for the benefit of officers and other full-time employees of the Company and the Bank. This plan was approved by the Company's shareholders at the 1995 Annual Meeting. Under the Option Plan, 200,000 shares (subject to adjustment to reflect stock splits and similar events) are reserved from the authorized but unissued common stock of the Company for future issuance by the Company for exercise of stock options granted to certain key employees of the Company and the Bank from time to time. The purpose of the Option Plan is to encourage the retention of such key employees by facilitating their purchase of a stock interest in the Company. The Option Plan is intended to provide for the granting of incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended (the "Code") to employees of the Company or the Bank.

The Option Plan is administered by the Options Committee of the Company's

board of directors, which is comprised solely of directors who are ineligible to receive grants of stock options under the Option Plan and who have not received grants of options within the 12 months preceding their appointment to the Options Committee. The Options Committee selects the employees of the Bank and the Company to whom options are to be granted and designates the number of options to be granted. The Option Plan may be amended only by the vote of the holders of a majority of the Company's outstanding common stock if such amendment would increase the number of shares available for issuance under the Option Plan, change the eligibility criteria for grants of options under the Option Plan, change the minimum option exercise price or increase the maximum term of options. Other amendments may be effected by the Options Committee.

Employees selected by the Options Committee receive, at no cost to them, options under the Option Plan. The option exercise prices are equal to or exceed the fair market value of the shares on the date of the grant, and no option is exercisable after the expiration of 10 years from the date it is granted. The fair market value of the shares is determined by the Options Committee as specified in the Option Plan. The optionee cannot transfer or assign any option other than by will or in accordance with the laws of descent and distribution, and the option may be exercised only by the employee during the employee's lifetime. After an employee's death, options may be exercised by the employee's estate or heirs up to one year following the date of death. Code Section 422 limits option grants by providing that during the term of the Option Plan, no grant may be made to any employee owning more than 10% of the Company's outstanding shares unless the exercise price is at least 110% of the underlying shares' fair market value and such option is not exercisable more than five years following the option grant. The aggregate fair market value of the stock for which any employee may be granted incentive stock options which are first exercisable in any calendar year may generally not exceed \$100,000.

While generally no options may be exercisable before the second anniversary of the grant date, in the event of a change in control involving the Company all options (other than those held by officers or directors of the Company or the Bank for less than six months) shall become immediately exercisable. Also, an employee whose employment is terminated in connection with or within two years after such a change in control event shall be entitled to exercise all options for up to three months following the date of termination; provided that options held by officers or directors shall not be exercisable until six months after the grant date. Employees whose services are terminated, other than following a change in control as described above, shall thereupon forfeit any options held; provided, however, that following termination due to disability an employee shall be entitled to exercise options for up to one year (provided, further, that officers may exercise only with respect to options held for at least six months).

The Company receives no monetary consideration for the granting of incentive stock options. Upon the exercise of options, the Company receives payment in cash from optionees in exchange for shares issued. No federal income tax consequences are incurred by the Company at the time incentive stock options are granted or exercised, unless the optionee incurs liability for ordinary income tax treatment upon exercise of the option, as discussed below, in which event the Company would be entitled to a deduction equal to the optionee's ordinary income attributable to the options. Provided the employee holds the shares received on exercise of a stock option for the longer of two years after the option was granted or one year after it was exercised, the optionee will realize capital gains income (or loss) in the year of sale in an amount equal to the difference between the sale price and the option exercise price paid for shares. If the employee sells the shares prior to the expiration of the period, the employee realizes ordinary income in the year of disposition equal to the difference between the fair market value of the shares on the date of exercise and the exercise price and capital gains income (or loss) equal to the difference (if any) between the sale price of the shares and the fair market value of the shares on the date of exercise.

In addition to the tax consequences discussed above, the excess of the option price over the fair market value of the optioned stock at the time of

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form DEF 14A

option exercise is required to be treated by an incentive optionee as an item of tax preference for purposes of the alternative minimum tax.
