PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) NOTE A—BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Pilgrim's Pride Corporation (referred to herein as "Pilgrim's," "the Company," "we," "us," "our" or similar terms) have been prepared in accordance with accounting princip generally accepted in the United States ("U.S.") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the U.S. Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal and recurring adjustments unless otherwise disclosed) considered necessary for a fair presentation have been included. Operating results for the period ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ending September 29, 2007. For further information, refer to the consolidated financial statements and footnotes thereto included in Pilgrim's Annual Report on Form 10-K for the fiscal year ended September 30, 2006.

The consolidated financial statements include the accounts of Pilgrim's and its wholly and majority owned subsidiaries. Significant intercompany accounts and transactions have been eliminated.

The assets and liabilities of the foreign subsidiaries are translated at end-of-period exchange rates, except for any non-monetary assets, which are translated at equivalent dollar costs at dates of acquisition using historical rates. Operations of foreign subsidiaries are translated at average exchange rates in effect during the period.

During July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation Number 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 clarifies the accounting for income taxes by prescribing the minimum requirements a tax position must meet before being recognized in the financial statements. In addition, FIN 48 prohibits the use of Statement of Financial Accounting Standards (SFAS) Number 5, *Accounting for Contingencies*, in evaluating the recognition and measurement of uncertain tax positions. The Company will be required to adopt FIN 48 on September 30, 2007, and has not yet assessed the impact of the adoption of this standard on the Company's financial statements.

During September 2006, the FASB issued SFAS Number 157, *Fair Value Measurements*. SFAS Number 157 establishes a framework for measuring fair value within generally accepted accounting principles, clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements. SFAS Number 157 does not require any new fair value measurements in generally accepted accounting principles. However, the definition of fair value in SFAS Number 157 may affect assumptions used by companies in determining fair value. The Company will be required to adopt SFAS Number 157 on September 28, 2008. The Company has not completed its evaluation of the impact of adoption SFAS Number 157 on the Company's financial statements, but currently believes the impact of the adoption of SFAS Number 157 will not require material modification of the Company's fair value measurement and will be substantially limited to expanded disclosures in the notes to the Company's consolidated financial statements.

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

Total comprehensive income (loss) was \$(40.0) million and \$(31.7) million for the three months and \$(45.5) million and \$(6.1) million for the six months ended March 31, 2007 and April 1, 2006, respectively.

NOTE B—BUSINESS ACQUISITION

On December 27, 2006, through a tender offer we acquired 45,343,812 shares of Gold Kist Inc. ("Gold Kist") common stock representing 88.87% of all outstanding shares. Subsequently we completed the purchase of all remaining shares and on January 9, 2007, Gold Kist became a wholly owned subsidiary of the Company. The acquired assets and assumed liabilities are included in our March 31, 2007 balance sheet using a preliminary allocation of the purchase price. However, we have not completed certain appraisals and other purchase price adjustments. During the quarter ended March 31, 2007, the Company recognized a liability of \$20.0 million for certain of Gold Kist's unfavorable sales contracts. However, the Company has not yet completed its analysis of all its purchase and sales contracts assumed in the acquisition.

The purchase price for Gold Kist was \$21.00 per share for all outstanding common shares plus the assumption of approximately \$143.5 million of Gold Kist's debt. In the second quarter of fiscal 2007, we retired the Gold Kist 10 1/4% Senior Notes due 2014 with a book value of \$128.5 million at a cost of \$149.8 million plus accrued interest and the Gold Kist Subordinated Capital Certificates of Interest at par plus accrued interest and a premium of one year's interest. The Company also paid transaction costs. This acquisition was initially funded by (1) \$780 million borrowed under our revolving-term secured credit facility, and (2) \$450 million borrowed under our \$450 million Senior Unsecured Term Loan Agreement ("Bridge Loan") (see Note D below).

In connection with the acquisition, the Company determined that certain of the Gold Kist benefit plans will be frozen immediately with the intent to ultimately terminate. As a result, the Company recorded an additional purchase price adjustment of \$82.5 million representing the current estimated incremental cost of termination. We do not anticipate any material net periodic benefit costs (income) related to these plans in fiscal 2007. Additionally, we conformed Gold Kist's accounting policies to the Company's accounting policies and provided for deferred income taxes on all related purchase adjustments.

The following summarizes our purchase price at March 31, 2007, (in thousands):

Purchase 50,146,368 shares at	
\$21.00 per share	\$ 1,053,074
Premium paid on retirement of	
debt	22,208
Retirement of various share-based	
compensation awards	25,677
Various costs and fees	45,639
Total purchase price at March 31,	
2007	\$ 1,146,598

The following table summarizes our current estimates of the fair value of the assets acquired and liabilities assumed at the date of acquisition of Gold Kist. The purchase price allocation is preliminary and will be finalized after completion of the independent appraisal of certain of the assets acquired and additional analysis of the liabilities assumed, which is currently underway. Upon completion of our analysis, significant adjustments may be required.

PILGRIM'S PRIDE CORPORATION March 31, 2007 <u>Index</u>

Purchase price allocation: (In thousands):

8

Current Assets	\$ 421,468

On December 15, 2006, the Company borrowed \$100 million at 6.84% under our term credit facility using the majority of the funds to retire the notes payable to an insurance company maturing in 2012 and 2013.

In January 2007, the Company borrowed (1) \$780 million under our revolving-term secured credit agreement and (2) \$450 million under our Bridge Loan agreement. On January 24, 2007, the Company closed on the sale of \$400 million of 7 5/8% Senior Notes due 2015 (the "Senior Notes") and \$250 million of 8 3/8% Senior Subordinated Notes due 2017 (the "Subordinated Notes"), sold at par. Interest is payable on May 1 and November 1 of each year, beginning November 1, 2007. We may redeem all or part of the Senior Notes on or after May 1, 2011. We may redeem all or part of the Subordinated Notes on or after May 1, 2012. Before May 1, 2010, we also may redeem up to 35% of the aggregate principal amount of each of the Senior Notes and the Subordinated Notes with the proceeds of certain equity offerings. Each of these optional redemptions is at a premium as described in the indentures under which the notes were issued. The proceeds from the sale of the notes, after underwriting discounts, were used to (1) retire the Bridge Loan, (2) repurchase \$75.7 million of the Company's 9 1/4% Senior Subordinated Notes due 2013 at a premium of \$7.4 million plus accrued interest of \$1.3 million and (3) reduce the balance owed under our revolving-term secured agreement. Early extinguishment of debt of \$14.5 million includes the \$7.4 million premium along with unamortized loan costs of \$7.1 million.

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

NOTE E—RELATED PARTY TRANSACTIONS

Lonnie "Bo" Pilgrim, the Chairman and, through certain related entities, the major stockholder of the Company (collectively, the "major stockholder"), owns an egg laying and a chicken growing operation. In addition, at certain times during the year, the major stockholder may purchase from the Company live chickens and hens and certain feed inventories during the grow-out process and then contract with the Company to resell the birds at maturity using a market-based formula, with price subject to a ceiling price calculated at his cost plus two percent. No purchases have been made by the Company under this agreement since the first quarter of fiscal 2006 when the major stockholder recognized an operating margin of \$4,539 on gross amounts paid by the Company to the major stockholder as described below in "Live chicken purchases from major stockholder."

Much of the Company's debt obligations have been guaranteed by and entity controlled by the Company's major stockholders. In consideration of such guarantees, the Company has paid to Pilgrim Interests, Ltd., an affiliate of Lonnie "Bo" Pilgrim, the amounts described below in "Loan Guaranty Fees".

Transactions with related parties are summarized as follows:

NOTE F—COMMITMENTS and CONTINGENCIES

At March 31, 2007, the Company had \$86.1 million in letters of credit outstanding relating to normal business transactions.

Among the claims presently pending against the Company are claims brought by current and former employees seeking compensation for the time spent donning and doffing work equipment. We are aware of an industry-wide investigation by the Wage and Hour Division of the U.S. Department of Labor to ascertain compliance with various wage and hour issues, including the compensation of employees for the time spent on activities such as donning and doffing work equipment. Due, in part, to the government investigation and the recent U.S. Supreme Court decision in *IBP*, *Inc.* v. *Alvarez*, it is possible that we may be subject to additional employee claims. We intend to assert vigorous defenses to the litigation. Nonetheless, there can be no assurances that other similar claims may not be brought against the Company. Currently we do not expect these cases to have a material impact on our financial position or results of operations.

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

On December 31, 2003, we were served with a purported class action complaint styled "Angela Goodwin, Gloria Willis, Johnny Gill, Greg Hamilton, Nathan Robinson, Eddie Gusby, Pat Curry, Persons Similarly Situated v. ConAgra Poultry Company and Pilgrim's Pride, Incorporated" in the United States District Court, Western District of Arkansas, El Dorado Division, alleging racial and age discrimination at one of the facilities we acquired from ConAgra. Two of the named plaintiffs, Greg Hamilton and Gloria Willis, were voluntarily dismissed from this action. We believe we have meritorious defenses to the class certification as well as the individual claims and we intend to vigorously oppose class certification and defend these claims. After considering our available resources, we do not expect these cases to have a material impact on our financial position or results of operations.

We are subject to various other legal proceedings and claims which arise in the ordinary course of our business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the Company.

NOTE G—BUSINESS SEGMENTS

We operate in three reportable business segments as (1) a producer and seller of chicken products, (2) a producer and seller of turkey products and (3) and seller of other products.

The following table presents certain information regarding our segments:

- (a) The Company acquired Gold Kist Inc. on December 27, 2006 for \$1,146.6 million plus assumed liabilities. The acquisition has been accounted for as a purchase and the results of operations have been included in our consolidated results of operations since the acquisition date.
- (b) Included in the operating losses for the turkey segment for the three months ended April 1, 2006 are charges of \$3.8 million to write certain assets down to estimated realizable

value. These assets are held for sale and are related to the Franconia, Pennsylvania turkey cooking facility at which the Company ceased production of certain products in March 2006. Also included in the operating losses for the turkey segment for the same three month period are accrued severance expenses totaling \$0.2 million. In addition to the previous items, the operating losses for the turkey segment for the six months ended April 1, 2006 include charges of \$2.5 million to reduce the carrying value of certain packaging and supplies, bringing the total of such charges for the six months ended April 1, 2006 to \$6.5 million.

(c) Includes amortization of capitalized financing costs of approximately \$1.1 million and \$0.9 million for the three month periods and \$1.8 million and \$1.6 million for the six month periods ending March 31, 2007 and April 1, 2006, respectively.

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Description of the Company

The Company is the largest chicken producer in the United States, the second largest producer and seller of chicken in Mexico, the largest producer and seller of chicken in Puerto Rico and has one of the best known brand names in the poultry industry. In the U.S., we produce both prepared and fresh chicken and fresh turkey, while in Mexico and Puerto Rico we exclusively produce fresh chicken. Through vertical integration we control the breeding, hatching and growing of chickens. We operate in three business segments and two geographical areas.

Business Acquisition

On December 27, 2006, we acquired 88.87% of all outstanding shares of common stock of Gold Kist Inc. which was the third largest chicken company in the U.S., accounting for approximately 8.8% of chicken produced in the U.S. in 2005. On January 9, 2007, we acquired all remaining shares of Gold Kist common stock, making Gold Kist a wholly owned subsidiary of the Company. The assets and liabilities of Gold Kist have been included in the accompanying balance sheet using an allocation based on preliminary valuations and purchase price adjustments. See Note B - "Business Acquisition" of the notes to our consolidated financial statements included elsewhere in this Quarterly Report.

We are in the process of fully integrating the operations of Gold Kist into the Company. We intend to do this as rapidly as possible without interrupting the business. We expect the acquisition and its integration will result in significant cost saving opportunities and enhanced growth. We are currently preparing an optimization plan for all production and distribution facilities and determining and implementing a "best practice" approach across all operations.

Executive Summary

During the first six months of fiscal 2007, amid growing demand for corn-based ethanol, feed ingredient prices were at very high levels when compared to the prior year period, which adversely affected our business. The average price of corn during our second quarter of fiscal 2007 was 82.6% higher than during the second quarter of fiscal 2006 and 17.2% higher than during the first quarter of fiscal 2007. While we have succeeded in passing on some of these higher costs to our customers, most of the benefit from these price increases was not fully realized in the second quarter of fiscal 2007. However, our U.S. operations returned to profitability late in the second quarter of fiscal 2007 and we continue to address pricing opportunities in customer contracts as they arise.

The net loss of \$40.1 million for the second quarter of fiscal 2007 is \$8.1 million greater than the net loss of \$32.0 million for the second quarter of fiscal 2006. This increased loss is primarily driven by:

- § Increased cost of sales due to increased feed costs between the two periods, as feed ingredient costs rose 38.2% in the U.S. and 39.0% in Mexico, due primarily to corn and soybean meal prices.
- § Although our average chicken selling prices in the U.S. were up 10.9% over the same period last year, the increase was not sufficient to completely offset the increased feed cost.
 - § Net interest expense increased \$27.6 million due primarily to the financing of the acquisition of Gold Kist.
- § A \$14.5 million loss on the early extinguishment of debt incurred during the financing of the Gold Kist acquisition during the second quarter of fiscal 2007.

The net loss of \$48.8 million for the first six months of fiscal 2007 is \$42.5 million higher than the net loss of \$6.3 million for the first six months of fiscal 2006. This increase is primarily driven by the following items offset by improved market prices for our chicken products:

- § Increased cost of sales due to increased feed costs between the two periods. Feed ingredient costs rose 35.7% in the U.S. and 33.3% in Mexico chicken divisions, respectively, due primarily to corn and soybean meal prices.
- § Net interest expense increased \$31.7 million in the first six months of fiscal 2007, when compared to the same period in fiscal 2006, due primarily to the financing of the acquisition of Gold Kist.
 - § A \$14.5 million loss on the early extinguishment of debt during the second quarter of fiscal 2007.

Business Environment

Profitability in the poultry industry is materially affected by the commodity prices of feed ingredients, chicken and turkey, which are determined by supply and demand factors. As a result, the chicken and turkey industries are subject to cyclical earnings fluctuations. Cyclical earnings fluctuations can be mitigated somewhat by:

- Business strategy;
- Product mix;
- Sales and marketing plans; and
- Operating efficiencies.

In an effort to reduce price volatility and to generate higher, more consistent profit margins, we have concentrated on the production and marketing of prepared foods products. Prepared foods products generally have higher profit margins than our other products. Also, the production and sale in the U.S. of prepared foods products reduces the impact of the costs of feed ingredients on our profitability. Feed ingredient purchases are the single largest component of our cost of sales, representing approximately 32.6% of our consolidated cost of sales in the first six months of fiscal 2007. The production of feed ingredients is positively or negatively affected primarily by weather patterns throughout the world, the global level of supply inventories and demand for feed ingredients, and the agricultural policies of the U.S. and foreign governments. As further processing is performed, feed ingredient costs become a decreasing percentage of a product's total production cost, thereby reducing their impact on our profitability. Products sold in this form enable us to charge a premium, reduce the impact of feed ingredient costs on our profitability and improve and stabilize our profit margins.

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

As a significant portion of the U.S. chicken production is exported, the commodity prices of chicken and turkey can be, and in the first and second quarters of fiscal 2006 were, adversely affected by disruptions in export markets. Disruptions in the first and second quarters of fiscal 2006 included the effects focus and concern over avian influenza had on international demand for poultry products and the need to reroute products in transit to locations other than those intended as these concerns materialized. Disruptions at times may also be caused by restrictions on imports of U.S.-produced poultry products imposed by foreign governments for a variety of reasons, including the protection of their domestic poultry producers and allegations of consumer health issues. For example, Russia and Japan have restricted the importation of U.S.-produced poultry for both of these reasons in recent periods. In July 2003, the U.S. and Mexico entered into a safeguard agreement with regard to imports into Mexico of chicken leg quarters from the U.S. Under this agreement, a tariff rate for chicken leg quarters of 98.8% of the sales price was established. This tariff rate was reduced on January 1, 2007 to 19.8% and is scheduled to be eliminated on January 1, 2008. The tariff was imposed due to concerns that the duty-free importation of such products as provided by the North American Free Trade Agreement would injure Mexico's chicken industry. As such tariffs are reduced, we expect greater amounts of chicken to be imported into Mexico from the U.S., which could negatively affect the profitability of Mexican chicken producers and positively affect the profitability of U.S. exporters of chicken to Mexico. Although this could have a negative impact on our Mexican chicken operations, we believe that this will be mitigated by the close proximity of our U.S. operations to the Mexico border. We have the largest U.S. production and distribution capacities near the Mexican border, which gives us a strategic advantage to capitalize on exports of U.S. chicken to Mexico. Because these disruptions in chicken export markets are often political, no assurances can be given as to when the existing disruptions will be alleviated or that new ones will not arise.

Business Segments

We operate in three reportable business segments as (1) a producer and seller of chicken products, (2) a producer and seller of turkey products and (3) seller of other products.

The following table presents certain information regarding our segments:

Results of Operations

The changes in our results of operations for the three-month and six-month periods ending March 31, 2007, as compared to the same periods in fiscal 2006 are impacted greatly as a result of the acquisition of Gold Kist on December 27, 2006 as discussed in Note B to the financial statements included elsewhere in this quarterly report. The acquisition resulted in significant increases in net sales and related costs, including interest expense.

Fiscal Second Quarter 2007 Compared to Fiscal Second Quarter 2006

Net Sales. Net Sales for the second quarter of fiscal 2007 increased \$728.3 million, or 57.5%, over the second quarter of fiscal 2006. The following table provides additional information regarding net sales (dollars in millions):

			\mathbf{C}			
	Fisc	Fiscal Quarter		scal Quarter

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

- (a) U.S. chicken sales for the quarter increased compared to the same quarter last fiscal year due primarily to the acquisition of Gold Kist Inc., whose results are included for the full quarter, offset in part by a reduction in sales resulting from our previously announced 5% year-over-year production cuts. Also, sales rose due to a 10.9% increase in net revenue per pound sold.
- (b) Mexico chicken sales increased compared to the second quarter of last fiscal year because of a 5.0% increase in revenue per pound sold and a 1.7% increase in pounds sold.
- (c) Turkey sales declined due to our decision in the first quarter of fiscal 2006 to cease production of certain products at our Franconia, Pennsylvania turkey cooking operation although the plant continued to process into March 2006.
- (d) Other product sales increased due to the addition of the distribution centers added through the Gold Kist acquisition offset somewhat by reduced sales in Mexico.

Gross Profit. Gross profit increased \$46.7 million, or 125.5%, in the second quarter of fiscal 2007 compared to the second quarter of fiscal 2006.

The following table provides gross profit information (dollars in millions):

	Quarter	Change From Quarter		Percentage of	Percentage of Net	
	Ended March 31,	Ended April 1,	Percentage	Net Sales Second Quarter	Sales Second Quarter	
Components	2007	2006	Change	Fiscal 2007	Fiscal 2006	
Net sales Cost of sales	\$ 1,994.0 1,910.1	\$ 728.3 681.6	57.5% 55.5%	100.0% 95.8%	100.0% 97.1%	(a)
Gross profit	\$ 83.9	\$ 46.7	125.5%	4.2%	2.9%	(b)

(a) Cost of sales increased compared to the same quarter last fiscal year due to the acquisition of Gold Kist and a 38.2% increase in the cost of feed. These increases were offset by a \$7.7 million decrease in the cost of sales in the turkey division due to the decision to cease production on March 3, 2006, of certain products at our Franconia, Pennsylvania turkey cooking facility. Included in cost of sales for the second quarter of fiscal 2006 was a charge of \$3.8 million to impair the carrying value of certain equipment formerly used in our turkey division and currently held for sale and \$0.2

million for severance costs.

(b) Gross profit increased \$46.7 million due to increased selling prices and the acquisition of Gold Kist offset somewhat by increased cost of feed.

Operating Income (Loss). Operating loss for the second quarter of fiscal 2007 decreased \$26.2 million, or 69.2%, when compared to the second quarter of fiscal 2006.

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

administrative expense		95.6	20.5	27.3%	4.8%	5.9%	(a)
_							
Operating income (loss)	\$	(11.7)\$	26.2	69.2%	(0.6)%	(3.0)%	(b)

- (a) Selling, general and administrative expense increased due to the Gold Kist acquisition.
- (b) Increased operating income is primarily due to the items discussed above under gross profit offset by increased selling, general and administrative expense.

Interest Expense. Interest expense increased \$26.0 million to \$39.3 million in the second quarter of fiscal 2007, when compared to \$13.3 million for the second quarter of fiscal 2006, due primarily to the funds borrowed to complete the Gold Kist acquisition. As a percentage of sales, interest expense in the second quarter of fiscal 2007 increased to 2.0% from 1.0% in the second quarter of fiscal 2006.

Interest Income. Interest income decreased from \$3.2 million in the second quarter of fiscal 2006 to \$1.7 million in the second quarter of fiscal 2007 due to reduced investments. As a percentage of sales, interest income in the second quarter of fiscal 2007 decreased to 0.1% from 0.3% in the second quarter of fiscal 2006.

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

Early Extinguishment of Debt. Early extinguishment of debt of \$14.5 million in the second quarter of fiscal 2007 represents the premium paid of \$7.4 million and the write off of \$7.1 million of unamortized loan costs.

Miscellaneous, Net. Consolidated miscellaneous, net expense (income) of \$(3.7) million for the second quarter of fiscal 2007 consisted mainly of investment and dividend income. Miscellaneous, net was \$(0.7) for the second quarter of fiscal 2006.

Income Tax (Benefit) Expense. Consolidated income tax benefit in the second quarter of fiscal 2007 was \$(20.0) million, compared to \$(15.1) million in the second quarter of fiscal 2006. This income tax benefit was primarily due to the loss before income taxes in the U.S.

First Six Months of Fiscal 2007 Compared to First Six Months of Fiscal 2006

Net Sales. Net Sales for the first six months of fiscal 2007 increased \$721.6 million, or 27.7%, versus the first six months of fiscal 2006. The following table provides additional information regarding net sales (dollars in millions):

		First Six Months Ended		Change from First Six Ionths Ended		
	N	March 31,		April 1,	Percentage	
Source		2007		2006	Change

	\$	318.6	\$	3.9	1.2%	
	\$	3,331.1	\$	721.6	27.7%	

- (a) U.S. chicken sales for the first six months of fiscal 2007 were 27.7% more than the first six months of fiscal 2006 primarily because of the Gold Kist acquisition, offset in part by a reduction in sales resulting from our previously announced 5% year-over-year production cuts which became fully effective in January 2007.
- (b) Mexico chicken sales increased due to a 15.1% increase in net revenue per pound sold during the first six months of fiscal 2007 versus the first six months of fiscal 2006 and a 3.5% increase in pounds sold.
- (c) Turkey sales declined because of the March 2006 discontinuation of certain products discussed above.

Gross Profit. Gross profit decreased \$6.1 million, or 3.9%, in the first six months of fiscal 2007 compared to the first six months of fiscal 2006.

The following table provides gross profit information (dollars in millions):

				Change From		Percentage of	Percentage of	
	F	First Six	Fi	irst Six		Net Sales	Net Sales	
	I	Months	N	I onths

Selling, general and							
administrative expense		164.1	16.8	11.4%	4.9%	5.6%	(a)
·							
Operating income	\$	(14.6)\$	(22.9)	(276.8)%	(0.4)%	0.3%	(b)

- (a) Selling, general and administrative expense decreased as a percentage of net sales due primarily to added revenue from the Gold Kist acquisition. However, overall selling, general and administrative expense increased \$16.8 million, primarily due to the Gold Kist acquisition.
- (b) Decreased operating income is primarily due to the items discussed above under gross profit and the increase in selling, general and administrative expense.

Interest Expense. Interest expense increased to \$53.2 million in the first six months of fiscal 2007, compared to \$25.7 million for the first six months of fiscal 2006, due primarily to financing the Gold Kist acquisition. As a percentage of sales, interest expense in the first six months of fiscal 2007 increased to 1.6% from 1.0% in the first six months of fiscal 2006.

Interest Income. Interest income decreased from \$7.2 million in the first six months of fiscal 2006 to \$3.0 million in the first six months of fiscal 2007 due to decreased investments. As a percentage of sales, interest income in the first six months of fiscal 2007 decreased to 0.1% from 0.3% in the first six months of fiscal 2006.

Early Extinguishment of Debt. Early extinguishment of debt of \$14.5 million in the second quarter of fiscal 2007 represents the premium paid of \$7.4 million and the write off of \$7.1 million of unamortized loan costs.

Miscellaneous, *Net*. Consolidated miscellaneous, net expense (income) of \$(6.2) million for the first six months of fiscal 2007 consisted mainly of investment and dividend income. Consolidated miscellaneous, net expense (income) for the first six months of fiscal 2006 was negligible.

Income Tax (Benefit) Expense. Consolidated income tax benefit in the first six months of fiscal 2007 was \$(25.8) million, compared to an income tax benefit of \$(4.2) million in the first six months of fiscal 2006. This income tax benefit was primarily due to the loss before income taxes in the U.S.

Liquidity and Capital Resources

The following table presents our available sources of liquidity as of March 31, 2007. See our Annual Report on Form 10-K for the fiscal year ended September 30, 2006 for a description of each facility discussed below.

	Facility	Amount	
0 071 141	•		
Source of Liquidity	Amount	Outstanding	Available
(in millions)			
Cash and cash equivalents	\$ 	\$	\$ 69.2
Investments in available for sale securities -			
short-term			24.0
Debt Facilities:			
Revolving credit facilities	300.0		211.6
Revolving/term facility	550.0	25.0	525.0
Receivables purchase agreement	125.0		125.0
Total available			\$ 954.8

At March 31, 2007, our working capital increased \$196.2 million to \$725.0 million and our current ratio decreased to 1.84 to 1, compared with working capital of \$528.8 million and a current ratio of 1.92 to 1 at September 30, 2006, primarily due to the working capital changes discussed below resulting from the acquisition of Gold Kist. See Note B - "Business Acquisition" to our notes to the consolidated financial statements included elsewhere in this Quarterly Report.

Trade accounts and other receivables were \$391.6 million at March 31, 2007, compared to \$263.1 million at September 30, 2006, an increase of \$128.5 million or 48.8%, primarily as a result of the acquisition. In addition to the acquisition, this increase was due to increased revenue per pound sold in the current period.

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

Inventories increased \$310.4 million or 53.0% to \$896.3 million at March 31, 2007, compared to \$585.9 million at September 30, 2006. In addition to the acquisition, this increase was due to higher product costs in finished chicken products, live inventories and feed inventories as a result of higher feed ingredient costs.

Accounts payable increased \$98.4 million, or 33.5%, to \$392.1 million at March 31, 2007, compared to \$293.7 million at September 30, 2006, primarily as a result of the acquisition.

Accrued liabilities increased \$189.5 million or 69.5% to \$462.4 million at March 31, 2007, compared to \$272.8 million at September 30, 2006, primarily as a result of the acquisition.

Cash flows (used for) provided by operating activities were \$(55.7) million and \$2.0 million for the six months ended March 31, 2007 and April 1, 2006, respectively. The decrease in cash flows provided by operating activities for the first six months of fiscal 2007, when compared to the first six months of fiscal 2006, was primarily due to decreased profitability and changes in working capital items.

Cash flows (used for) provided by investing activities were \$(1,111.1) million and \$35.1 million for the six months ended March 31, 2007 and April 1, 2006, respectively. Cash flows used by investing activities for the six months ended March 31, 2007 were primarily for the acquisition of Gold Kist and capital expenditures discussed below.

Capital expenditures of \$94.5 million for the six months ended March 31, 2007 were primarily incurred to improve efficiencies, expand capacity, reduce costs and for the routine replacement of equipment. Capital expenditures of \$74.5 million for the six months ended April 1, 2006 were primarily incurred to improve efficiencies, reduce costs and for the routine replacement of equipment. We anticipate spending approximately \$150 million to \$175 million in fiscal 2007 to improve efficiencies, expand capacities and for the routine replacement of equipment. We expect to finance such expenditures with cash on hand, available operating cash flows and existing revolving/term and revolving credit facilities.

Cash flows provided by (used for) financing activities were \$1,079.6 million and \$(101.9) million for the six months ended March 31, 2007 and April 1, 2006, respectively.

In December 2006, we borrowed \$100 million at 6.84% under our term credit facility and primarily used the proceeds to retire our notes payable to an insurance company maturing in 2012 and 2013. In January 2007, we borrowed \$1,230.0 million to finance the acquisition of Gold Kist. See Note D - "Notes Payable and Long Term Debt" to our notes to the consolidated financial statements included elsewhere in this Quarterly Report.

We are a party to many routine contracts in which we provide general indemnities in the normal course of business to third parties for various risks. We have not recorded a liability for any of these indemnities, as the likelihood of payment in each case is considered remote.

22

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

Accounting Pronouncements

During July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation Number 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 clarifies the accounting for income taxes by prescribing the minimum requirements a tax position must meet before being recognized in the financial statements. In addition, FIN 48 prohibits the use of Statement of Financial Accounting Standards (SFAS) Number 5, *Accounting for Contingencies*, in evaluating the recognition and measurement of uncertain tax positions. The Company will be required to adopt FIN 48 on September 30, 2007, and has not yet assessed the impact of the adoption of this standard on the Company's financial statements.

During September 2006, the FASB issued SFAS Number 157, *Fair Value Measurements*. SFAS Number 157 establishes a framework for measuring fair value within generally accepted accounting principles, clarifies the definition of fair value within that framework and expands disclosures about the use of fair value measurements. SFAS Number 157 does not require any new fair value measurements in generally accepted accounting principles. However, the definition of fair value in SFAS Number 157 may affect assumptions used by companies in determining fair value. The Company will be required to adopt SFAS Number 157 on September 28, 2008. The Company has not completed its evaluation of the impact of adoption SFAS Number 157 on the Company's financial statements, but currently believes the impact of the adoption of SFAS Number 157 will not require material modification of the Company's fair value measurement and will be substantially limited to expanded disclosures in the notes to the Company's consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Feed Ingredients

We purchase certain commodities, primarily corn and soybean meal. As a result, our earnings are affected by changes in the price and availability of such feed ingredients. As market conditions dictate, we will from time to time lock-in future feed ingredient prices using various hedging techniques, including forward purchase agreements with suppliers and futures contracts.

We do not use such financial instruments for trading purposes and are not a party to any leveraged derivatives. Market risk is estimated as a hypothetical 10% increase in the weighted-average cost of our primary feed ingredients as of March 31, 2007. Based on our feed consumption during the six months ended March 31, 2007, such an increase would have resulted in an increase to cost of sales of approximately \$82.9 million, excluding the impact of any hedging in that period. A 10% increase in the aggregate primary feed ingredients purchased by the Company and Gold Kist during the six months ended March 31, 2007, would have increased cost of sales by \$121.2 million.

Interest Rates

Our earnings are also affected by changes in interest rates due to the impact those changes have on our variable-rate interest expense and the fair value of our fixed-rate debt instruments. During the quarter ended March 31, 2007 we refinanced the notes payable to insurance companies through our term facility and entered into a U.S. Treasury Note Rate Lock derivative with a notional amount of \$300 million in anticipation of the offering of Senior Notes issued in January 2007. In January 2007, we settled a U.S. Treasury Note Rate Lock for a gain of \$5.7 million which will be reflected as a reduction to interest expense over the remaining term of such debt obligations. However, at March 31, 2007 we do not believe our interest rate risk has materially changed since September 30, 2006.

PILGRIM'S PRIDE CORPORATION March 31, 2007 <u>Index</u>

Foreign Currency

Our earnings are affected by foreign exchange rate fluctuations related to the Mexico peso net monetary position of our Mexico subsidiaries. We manage this exposure primarily by attempting to minimize our Mexico peso net monetary position, but from time to time, we have considered executing hedges to help minimize this exposure. Such instruments, however, have historically not been economically feasible. We are also exposed to the effect of potential exchange rate fluctuations to the extent that amounts are repatriated from Mexico to the United States. However, we currently anticipate that the cash flows of our Mexico subsidiaries will continue to be reinvested in our Mexico operations. In addition, the Mexico peso exchange rate can directly and indirectly impact our results of operations and financial position in several ways, including potential economic recession in Mexico resulting from a devalued peso. The impact on our financial position and results of operations resulting from a hypothetical change in the exchange rate between the U.S. dollar and the Mexico peso cannot be reasonably estimated. Foreign currency exchange gains and losses, representing the change in the U.S. dollar value of the net monetary assets of our Mexico subsidiaries denominated in Mexico pesos, was a gain of \$1.5 million in the first six months of fiscal 2007 compared to a gain of \$0.8 million for the first six months of fiscal 2006. On March 31, 2007, the Mexico peso closed at 11.02 to 1 U.S. dollar, compared to 11.01 at September 30, 2006. No assurance can be given as to how future movements in the peso could affect our future earnings.

There have been no material changes from the information provided in Item 7A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2006, other than as described above.

Forward Looking Statements

Statements of our intentions, beliefs, expectations or predictions for the future, denoted by the words "anticipate," "believe," "estimate," "expect," "project," "imply," "intend," "foresee" and similar expressions, are forward-looking statements that reflect our current views about future events and are subject to risks, uncertainties and assumptions. Such risks, uncertainties and assumptions include the following:

- · Matters affecting the poultry industry generally, including fluctuations in the commodity prices of feed ingredients, chicken and turkey;
- · Additional outbreaks of avian influenza or other diseases, either in our own flocks or elsewhere, affecting our ability to conduct our operations and/or demand for our poultry products;
- · Contamination of our products, which has previously and can in the future lead to product liability claims and product recalls;
- · Exposure to risks related to product liability, product recalls, property damage and injuries to persons, for which insurance coverage is expensive, limited and potentially inadequate;
 - · Management of our cash resources, particularly in light of our substantial leverage;
 - · Restrictions imposed by, and as a result of, our substantial leverage;
 - · Changes in laws or regulations affecting our operations or the application thereof;
 - · Competitive factors and pricing pressures or the loss of one or more of our largest customers;
- · Inability to consummate, or effectively integrate, any acquisition, including integrating our recent acquisition of Gold Kist, or realize the associated cost savings and operating synergies;
- · Currency exchange rate fluctuations, trade barriers, exchange controls, expropriation and other risks associated with foreign operations;
- The impact of uncertainties of litigation as well as other risks described herein and under "Risk Factors" in our Annual Report on Form 10-K and subsequent reports filed with the Securities and Exchange Commission.

Actual results could differ materially from those projected in these forward-looking statements as a result of these factors, among others, many of which are beyond our control.

In making these statements, we are not undertaking, and specifically decline to undertake, any obligation to address or update any forward-looking statement or any such factor in future filings or communications regarding our business or results, and we are not undertaking to address how any of these factors may have caused changes to information contained in previous filings or communications. Although we have attempted to list comprehensively these important cautionary risk factors, we must caution investors and others that other factors may in the future prove to be important and affecting our business or results of operations.

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

Item 4. Controls and Procedures

An evaluation was performed under the supervision and with the participation of the Company's management, including the Chairman, Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, the Company's management, including the Chairman, Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that information we are required to disclose in our reports filed with the Securities and Exchange Commission is accumulated and communicated to our management, including our Chairman, Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

On December 27, 2006, we acquired 88.87% of the outstanding common stock of Gold Kist and on January 9, 2007, we acquired all remaining shares of Gold Kist. We believe that the internal controls and procedures of Gold Kist have a material effect on our internal control over financial reporting. See Note B - "Business Acquisition" to our notes to consolidated financial statements contained in this Quarterly Report for further details of the transaction. We are currently in the process of assessing and integrating Gold Kist's internal controls over financial reporting into our financial reporting systems.

In connection with the evaluation described above, the Company's management, including the Chairman, Chief Executive Officer and Chief Financial Officer, identified no other change in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended March 31, 2007, and that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

PILGRIM'S PRIDE CORPORATION March 31, 2007 <u>Index</u>

.PART II. OTHER INFORMATION

Item 1. Legal Proceedings

On July 1, 2002, three individuals, on behalf of themselves and a putative class of chicken growers, filed their original class action complaint against the Company in the United States District Court for the Eastern District of Texas, Texarkana Division, styled "Cody Wheeler, et al. vs. Pilgrim's Pride Corporation." In their lawsuit, plaintiffs initially alleged that the Company violated the Packers and Stockyards Act (7 U.S.C. Section 192) and breached fiduciary duties allegedly owed to the plaintiff growers. The plaintiffs also brought individual actions under the Packers and Stockyards Act alleging, among other things, breach of fiduciary duties and breach of contract. On September 30, 2005, plaintiffs amended their lawsuit to join Tyson Foods, Inc. as a co-defendant. Two additional former chicken growers were also added as plaintiffs to the lawsuit. This amendment, which occurred 38 months after the lawsuit's initial filing, virtually re-wrote most of the allegations. Now the plaintiffs contend that the Company and Tyson are involved in a conspiracy to violate federal antitrust laws. The plaintiffs' initial allegations, although still contained in the amended lawsuit, are no longer the sole focus of the case. On January 3, 2006, the Court entered an Order severing the plaintiffs' Packers and Stockyards Act and antitrust claims. The Court ordered that the plaintiffs may proceed with their Packers and Stockyards Act claims as set forth in Plaintiffs' Third Amended Complaint. The Court also ordered that the plaintiffs may proceed with their respective antitrust claims asserted against the Company and Tyson in a separate cause of action styled "Cody Wheeler, et al. vs. Pilgrim's Pride Corporation, et al." On March 6, 2006, the plaintiffs filed their motion for class certification in the original lawsuit. Pilgrim's Pride attacked the plaintiffs' class certification brief on several grounds, and ultimately the plaintiffs voluntarily withdrew their Motion for Class Certification on May 26, 2006. As a result, the Court canceled the class certification hearing and on June 2, 2006 the Court entered an Order withdrawing Plaintiffs' Motion for Class Certification and prohibiting the plaintiffs from filing any additional class-action claims against Pilgrim's Pride in this lawsuit. Additionally, the two former growers who joined the lawsuit on September 30, 2005 withdrew from the case. The lawsuit is currently proceeding with individual claims by the three original individual plaintiffs against Pilgrim's Pride. The Company intends to defend vigorously against the plaintiffs' individual claims. The Company does not expect this matter to have a material impact on its financial position, operations or liquidity.

On January 3, 2006, an action styled "Cody Wheeler, et al. vs. Pilgrim's Pride Corporation, et al.," arising out of the original Wheeler litigation described above, was filed in the United States District Court for the Eastern District of Texas, Texarkana Division. The lawsuit was filed by the three original plaintiffs and a former grower, both in their individual capacities and on behalf of a putative class of chicken growers. In the lawsuit, the four plaintiffs allege that the Company and Tyson are involved in a conspiracy to violate federal antitrust laws. The proceedings are currently in the early stages of discovery. The Company intends to defend vigorously both the certification of the case as a class action and the merits of the four plaintiffs' individual claims. The Company does not expect this matter to have a material impact on its financial position, operations or liquidity.

On December 31, 2003, we were served with a purported class action complaint styled "Angela Goodwin, Gloria Willis, Johnny Gill, Greg Hamilton, Nathan Robinson, Eddie Gusby, Pat Curry, Persons Similarly Situated v. ConAgra Poultry Company and Pilgrim's Pride, Incorporated" in the United States District Court, Western District of Arkansas, El Dorado Division,

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

alleging racial and age discrimination at one of the facilities we acquired from ConAgra. Two of the named plaintiffs, Greg Hamilton and Gloria Willis, were voluntarily dismissed from this action. We believe we have meritorious defenses to the class certification as well as the individual claims and intend to vigorously oppose class certification and defend these claims. The ultimate liability with respect to these claims cannot be determined at this time; however, we do not expect this matter to have a material impact on our financial position, operations or liquidity.

On October 12, 2006, a complaint styled "Gold Kist Inc. v. Pilgrim's Pride Corporation, Protein Acquisition Corporation, et al." was filed in the United States District Court for the Northern District of Georgia, Atlanta Division, alleging that the election of our President's and Chief Executive Officer's nominees to the Gold Kist Board of Directors would violate Section 8 of the Clayton Act and seeking to enjoin our solicitation of the Gold Kist stockholders to elect such persons to the Gold Kist Board. The complaint also alleges that we violated the proxy and tender offer rules by failing to disclose such alleged violation of the Clayton Act.

Pursuant to the Agreement and Plan of Merger by and among Gold Kist, the Company and a wholly-owned subsidiary of the Company dated as of December 3, 2006, Gold Kist agreed that it would dismiss with prejudice the pending litigation upon the occurrence of the "payment date" referenced therein. On January 3, 2007, the "payment date" occurred and accordingly, Gold Kist filed a stipulation of dismissal with prejudice under Rule 41 of the Federal Rules of Civil Procedure. On January 8, 2007, the Court clerk notified the parties that the case had been formally dismissed with prejudice pursuant to the stipulation filed by Gold Kist.

The Wage and Hour Division of the U.S. Department of Labor conducted an industry wide investigation to ascertain compliance with various wage and hour issues, including the compensation of employees for the time spent on such activities such as donning and doffing work equipment. Due, in part, to the government investigation and the recent U.S. Supreme Court decision in IBP, Inc. b. Alvarez, employees have brought claims against the Company. The claims filed against us as of the date of this report include: "Juan Garcia, et al. v. Pilgrim's Pride Corporation, a/k/a Wampler Foods, Inc.", filed in Pennsylvania state court on January 27, 2006 and subsequently removed to the U.S. District Court for the Eastern District of Pennsylvania; "Esperanza Moya, et al. v. Pilgrim's Pride Corporation and Maxi Staff, LLC", filed March 23, 2006 in the Eastern District of Pennsylvania; "Barry Antee, et al. v. Pilgrim's Pride Corporation" filed April 20, 2006 in the Eastern District of Texas; "Stephania Aaron, et al. v. Pilgrim's Pride Corporation" filed August 22, 2006 in the Western District of Arkansas; "Salvador Aguilar, et al. v. Pilgrim's Pride Corporation" filed August 23, 2006 in the Northern District of Alabama; "Benford v. Pilgrim's Pride Corporation" filed November 2, 2006 in the Northern District of Alabama; "Porter v. Pilgrim's Pride Corporation" filed December 7, 2006 in the Eastern District of Tennessee; "Freida Brown, et al v. Pilgrim's Pride Corporation" filed March 14, 2007 in the Middle District of Georgia, Athens Division; "Roy Menser, et al v. Pilgrim's Pride Corporation" filed February 28, 2007 in the Western District of Paducah, KY; and "Victor Manuel Hernandez v. Pilgrim's Pride Corporation" filed January 30, 2007 in the Northern District of Georgia, Rome Division. The plaintiffs generally purport to bring a collective action for unpaid wages, unpaid overtime wages, liquidated damages, costs, attorneys' fees, and declaratory and/or injunctive relief and generally allege that they are not paid for the time it takes to either clear security, walk to their respective workstations, don and doff protective clothing, and/or sanitize clothing and equipment. As of the date of this Quarterly Report, the following suits have been filed against Gold Kist, which make one or more of the allegations referenced above:

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

Merrell v. Gold Kist, Inc., in the U.S. District Court for the Northern District of Georgia, Gainesville Division, filed on December 21, 2006; Harris v. Gold Kist, Inc., in the U.S. District Court for the Northern District of Georgia, Newnan Division, filed on December 21, 2006; Blanke v. Gold Kist, Inc., in the U.S. District Court for the Southern District of Georgia, Waycross Division, filed on December 21, 2006; Clarke v. Gold Kist, Inc., in the U.S. District Court for the Middle District of Georgia, Athens Division, filed on December 21, 2006; Atchison v. Gold Kist, Inc., in the U.S. District Court for the Northern District of Alabama, Middle Division, filed on October 3, 2006; Carlisle v. Gold Kist, Inc., in the U.S. District Court for the Northern District of Alabama, Middle Division, filed on October 2, 2006; Benbow v. Gold Kist, Inc., in the U.S. District Court for the District of South Carolina, Columbia Division, filed on October 2, 2006; and Bonds v. Gold Kist, Inc., in the U.S. District Court for the Northern District of Alabama, Northwestern Division, filed on October 2, 2006. Neither the likelihood of an unfavorable outcome nor the amount of ultimate liability, if any, with respect to any of these cases can be determined at this time. These cases are in various stages of litigation which we intend to vigorously defend.

We are subject to various other legal proceedings and claims, which arise in the ordinary course of our business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect our financial position or results of operations.

Item 1A. Risk Factors.

In addition to the other information set forth in this Quarterly Report, you should carefully consider the risks discussed in our Annual Report on Form 10-K for the fiscal year ended September 30, 2006 and our Quarterly Report on Form 10-Q for the quarterly period ended December 30, 2006, including under the heading "Item 1A. Risk Factors", which risks could materially affect the Company's business, financial condition or future results. The risk factor below updates, and should be read in conjunction with, the risk factors disclosed in our Annual Report on Form 10-K for the fiscal year ended September 30, 2006 and our Quarterly Report on Form 10-Q for the quarterly period ended December 30, 2006. These risks are not the only risks facing the Company. Additional risks and uncertainties not currently known to the Company or that it currently deems to be immaterial also may materially adversely affect the Company's business, financial condition or future results.

Cyclicality and Commodity Prices. Industry cyclicality can affect our earnings, especially due to fluctuations in commodity prices of feed ingredients, chicken and turkey.

Profitability in the chicken and turkey industries is materially affected by the commodity prices of feed ingredients, chicken and turkey, which are determined by supply and demand factors. As a result, the chicken and turkey industries are subject to cyclical earnings fluctuations.

The production of feed ingredients is positively or negatively affected primarily by weather patterns throughout the world, the global level of supply inventories and demand for feed ingredients, and the agricultural policies of the U.S. and foreign governments. In particular, weather patterns often change agricultural conditions in an unpredictable manner. A sudden and significant change in weather patterns could affect supplies of feed ingredients, as well as both the industry's and our ability to obtain feed ingredients, grow chickens and turkeys or deliver products.

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

The cost of corn, our primary feed ingredient, increased significantly from August 2006 to the date of this Quarterly Report, and there can be no assurance that the price of corn will not continue to rise as a result of, among other things, increasing demand for corn products around the world and alternative uses of corn, such as ethanol production.

High feed ingredient prices have had a material adverse effect on our operating results. We periodically seek, to the extent available, to enter into advance purchase commitments or financial hedging contracts for the purchase of feed ingredients in an effort to manage our feed ingredient costs. The use of such instruments may not be successful.

We also seek to adjust our operations in response to high feed prices and other cyclical factors. On October 29, 2006, we announced that we would reduce weekly chicken processing by 5.0% year-over-year, or approximately 1.3 million head per week by January 2007, as part of our continuing effort to better balance supply and demand amid declining chicken prices and sharply higher costs for corn. Although industry chicken prices have risen somewhat in recent weeks, there can be no assurance that corn and other feed ingredient prices will not continue to rise or that chicken prices will not decline.

PILGRIM'S PRIDE CORPORATION March 31, 2007 Index

Item 4. Submission of Matters to a Vote of Security Holders

Pilgrim's Pride Corporation held its Annual Meeting of Shareholders on January 31, 2007. The meeting was held to elect thirteen Directors for the ensuing year; to ratify the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending September 29, 2007; and to transact such other business as was properly brought before the meeting. There were 489,853,972 votes received, constituting 83.59% of the 586,007,381 votes outstanding on the record date and entitled to vote. With regard to the election of Directors for the ensuing year, the following votes were cast:

PILGRIM'S PRIDE CORPORATION March 31, 2007 <u>Index</u>

NOMINEE	FOR	WITHHELD
Lonnie "Bo" Pilgrim	479,102,920	10,751,052
