PS Business Parks, Inc. Reports Results for the Three Months Ended March 31, 2005

Glendale, California PS Business Parks, Inc. (AMEX:PSB) reported operating results for the three months ended March 31, 2005.

Net income allocable to common shareholders for the three months ended March 31, 2005 was \$7.3 million or \$0.33 per diluted share on revenues of \$55.9 million compared to a net income of \$4.2 million or \$0.19 per diluted share on revenues of \$53.8 million for the same period in 2004.

Revenues increased \$2.1 million for the three months ended March 31, 2005 over the same period in 2004 as a result of continued lease up of the Company's portfolio. Net income allocable to common shareholders increased over the same period by \$3.2 million or \$0.14 per diluted share resulting from the increase in revenues and a gain on the sale of assets of \$2.9 million, partially offset by increased depreciation.

Supplemental Measures

Funds from operations (FFO) allocable to common shareholders and unit holders for the first quarter of 2005 and 2004 were \$25.9 million, or \$0.88 per diluted share, and \$23.5 million, or \$0.81 per diluted share, respectively.

During April 2004, the Company redeemed 2.1 million depositary shares of its 9.250% Cumulative Preferred Stock, Series A for approximately \$52.8 million and 510,000 units of its 8.875% Series B Cumulative Preferred Operating Partnership Units for approximately \$12.8 million. In accordance with the Securities and Exchange Commission's interpretation of Emerging Issues Task Force (EITF) Topic D-42, The Effect on the Calculation of Earnings per Share for the Redemption or Induced Conversion of Preferred Stock, the redemption of the Series A preferred stock resulted in an additional allocation of net income to preferred shareholders for the quarter ended March 31, 2004 and a corresponding reduction of net income allocable to common shareholders of \$1.9 million. The redemption of the Series B preferred units resulted in an additional allocation of net income to preferred unit holders for the quarter ended March 31, 2004 and a corresponding reduction of net income allocable to common shareholders of \$267,000. The Company did not redeem or call for redemption any preferred equity in the first quarter of 2005.

The following table summarizes the impact of the implementation of the SEC's clarification of EITF Topic D-42 on the Company's FFO per common shareholders and unit holders for the three months ended March 31, 2005 and 2004:

(1) Funds From Operations ("FFO") is computed in accordance with the White Paper on FFO approved by the National Association of Real Estate Investment Trusts ("NAREIT"). The FFO as net income, computed in accordance with generally accepted accounting principles, excludes depreciation, amortization, minority interest in income and extraordinary items. FFO should be viewed in conjunction with net income. However, FFO should not be viewed as a substitute for net income as a measure of operating performance or liquidity as it does not reflect depreciation and amortization, the level of capital expenditure and leasing costs necessary to maintain the operating properties of the Company's properties, which are significant economic costs and could materially impact the

Edgar Filing: PS BUSINESS PARKS INC/CA - Form 8-K

from operations. Other REITs may use different methods for calculating FFO and, according to GAAP, FFO may not be comparable to other real estate companies.

- (2) Funds available for distribution ("FAD") is computed by deducting from consolidated FFO the following expenditures, which the Company defines as those costs incurred to maintain the asset base, including improvements, capitalized leasing commissions and straight-line rent from FFO and adding back depreciation and stock-based compensation expense. Like FFO, the Company considers FAD to be a useful measure for investors to evaluate the operations and cash flows of a REIT. FAD does not represent cash flow from operations as defined by GAAP.
