This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and Section 27A of the Securities Act of 1933, as amended. For this purpose, any statements contained herein regarding our strategy, future plans or operations, financial position, future revenues, projected costs, prospects and objectives of management, other than statements of historical facts, may be deemed to be forward-looking statements. Without limiting the foregoing, the words believes, anticipates, plans, expects and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. We cannot guarantee that we actually will achieve the plans, intentions or expectations expressed or implied in forward-looking statements. There are a number of factors that could cause actual events or results to differ materially from those indicated or implied by such forward-looking statements, many of which are beyond our control, including the factors discussed in Part I - Item 1A under the heading Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2007, and as referenced in Part II - Item 1A of this report. In addition, the forward-looking statements contained herein represent our estimates only as of the date of this filing and should not be relied upon as representing our estimates as of any subsequent date. While we may elect to update these forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, whether to reflect actual results,

changes in assumptions, changes in other factors affecting such forward-looking statements or otherwise.

Cash and cash equivalents at end of period	$129,437	$114,928

The accompanying notes are an integral part of the condensed consolidated financial statements.

AVID TECHNOLOGY, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. FINANCIAL INFORMATION

The accompanying condensed consolidated financial statements include the accounts of Avid Technology, Inc. and its wholly owned subsidiaries (collectively, Avid or the Company). These financial statements are unaudited. However, in the opinion of management, the condensed consolidated financial statements include all adjustments, consisting of only normal, recurring adjustments, necessary for their fair statement. Interim results are not necessarily indicative of results expected for a full year. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions for Form 10-Q and therefore do not include all information and footnotes necessary for a complete presentation of operations, financial position and cash flows of the Company in conformity with generally accepted accounting principles. The accompanying condensed consolidated balance sheet as of December 31, 2007 was derived from Avid s audited consolidated financial statements, but does not include all disclosures required by generally accepted accounting principles. The Company filed audited consolidated financial statements for the year ended December 31, 2007 in its 2007 Annual Report on Form 10-K, which included all information and footnotes necessary for such presentation. The financial statements contained in this Form 10-Q should be read in conjunction with the audited consolidated financial statements in the Form 10-K.

The Company s preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reported periods. The most significant estimates reflected in these financial statements include accounts receivable and sales allowances, stock-based compensation, inventory valuation, income tax asset valuation allowances and purchase accounting. Actual results could differ from the Company s estimates.

2. NET INCOME (LOSS) PER COMMON SHARE

Basic and diluted net income (loss) per common share are as follows (in thousands, except per share data):

	Three Months Ended		Six Months Ended	
	June 30, 2008	2007	June 30, 2008	2007
Net loss	$(10,385)	$(5,999)	$(31,533)	$(5,979)
Weighted-average common shares outstanding basic and diluted	36,904	40,940	38,133	41,046
Net loss per common share basic and diluted	$(0.28)	$(0.15)	$(0.83)	$(0.15)

The following table sets forth (in thousands) potential common shares, on a weighted-average basis, that are considered anti-dilutive securities and are excluded from the diluted net loss per share calculations because the sum of the exercise price per share and the unrecognized compensation cost per share is greater than the average market price of the Company s common stock for the relevant period.

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
Options	3,005	2,942	2,769	2,805
Warrant	1,155	1,155	1,155	1,155
Non-vested restricted stock and restricted stock units	1,174	129	1,036	6
Anti-dilutive potential common shares	5,334	4,226	4,960	3,966

Certain stock options and restricted stock units granted to executive officers starting in the fourth quarter of 2007 include shares that vest based on performance and market conditions and as a result are considered contingently issuable. The following table sets forth (in thousands) potential common shares, on a weighted-average basis, that are related to such contingently-issuable stock options and restricted stock units and were excluded from the calculation of diluted net loss for the three and six months ended June 30, 2008.

	Three Months Ended	Six Months Ended
	June 30, 2008	June 30, 2008
Performance-based options	1,115	1,009
Performance-based restricted stock units	27	18
Potential common shares from performance-based grants	1,142	1,027

The following table sets forth (in thousands) common stock equivalents excluded from the calculation of diluted net loss per share because the effect would be anti-dilutive due to the net loss for the relevant period.

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
Options	148	527	169	576
Non-vested restricted stock and restricted stock units	4	50	4	31
Anti-dilutive common stock equivalents	152	577	173	607

3. FAIR VALUE OF FINANCIAL INSTRUMENTS

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*, which defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. SFAS No. 157 does not require any new fair value measurements, but its provisions apply to all other accounting pronouncements that require or permit fair value measurement. SFAS No. 157 is effective for the Company s fiscal year beginning January 1, 2008 and for interim periods within that year. In February 2008, the FASB issued FASB Staff Position (FSP) No. 157-2, *Effective Date of FASB Statement No. 157*, which delayed for one year the effective date of SFAS No. 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). As required, the Company adopted SFAS No. 157 for its financial assets on January 1, 2008. Adoption did not have a material impact on the Company s financial position or results of operations. The Company has not yet determined the impact on its financial statements of the January 1, 2009 adoption of SFAS No. 157 as it pertains to non-financial assets and liabilities.

SFAS No. 157 establishes a fair value hierarchy that requires the use of observable market data, when available, and prioritizes the inputs to valuation techniques used to measure fair value in the following categories:

Level 1 Quoted unadjusted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations in which all observable inputs and significant value drivers are observable in active markets.

Level 3 Model derived valuations in which one or more significant inputs or significant value drivers are unobservable, including assumptions developed by the Company.

The following table summarizes the Company s fair value hierarchy for its financial assets and liabilities measured at fair value on a recurring basis as of June 30, 2008 (in thousands):

		Fair Value Measurements at Reporting Date Using		
	June 30, 2008	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Financial Assets:				
Available for sale securities	$56,855	$18,990	$37,865	$
Deferred compensation plan investments	807	807		
Financial Liabilities:				
Foreign currency forward contracts	48		48	
Deferred compensation plan	$807	$807	$	$

4. GOODWILL AND INTANGIBLE ASSETS

Goodwill

Changes in the carrying amount of the Company s goodwill consisted of the following (in thousands):

	Total
Goodwill balance at December 31, 2007	$360,584
Revised restructuring estimates	(345)
Deferred tax liability adjustments, net	282
Goodwill balance at June 30, 2008	$360,521

Amortizable Identifiable Intangible Assets

Amortizable identifiable intangible assets resulting from the Company s acquisitions consisted of the following (in thousands):

	June 30, 2008			December 31, 2007		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Completed technologies and patents	$65,727	$(59,925)	$5,802	$65,727	$(54,099)	$11,628
Customer relationships	71,701	(29,875)	41,826	71,701	(25,205)	46,496
Trade names	21,316	(9,879)	11,437	21,316	(8,284)	13,032
Non-compete covenants				1,704	(1,637)	67
License agreements	560	(432)	128	560	(356)	204
	$159,304	$(100,111)	$59,193	$161,008	$(89,581)	$71,427

Amortization expense related to all intangible assets in the aggregate was $5.6 million and $8.2 million, respectively, for the three-month periods ended June 30, 2008 and 2007, and $12.2 million and $16.1 million, respectively, for the six-month periods ended June 30, 2008 and 2007. The Company expects amortization of these intangible assets to be approximately $9 million for the remainder of 2008, $15 million in 2009, $12 million in 2010, $10 million in 2011, $5 million in 2012, $2 million in 2013 and $6 million thereafter.

5. ACCOUNTS RECEIVABLE

Accounts receivable, net of allowances, consist of the following (in thousands):

	June 30, 2008	December 31, 2007
Accounts receivable	$135,056	$159,476
Less:		
Allowance for doubtful accounts	(2,444)	(2,160)
Allowance for sales returns and rebates	(18,532)	(18,624)
	$114,080	$138,692

The accounts receivable balances as of June 30, 2008 and December 31, 2007 exclude approximately $23.9 million and $24.6 million, respectively, for large solution sales and certain distributor sales that were invoiced, but for which revenues had not been recognized and payments were not then due.

6. INVENTORIES

Inventories, net of related reserves, consist of the following (in thousands):

	June 30, 2008	December 31, 2007
Raw materials	$29,205	$ 31,316
Work in process	9,144	6,179
Finished goods	82,379	79,829
	$120,728	$ 117,324

As of June 30, 2008 and December 31, 2007, the finished goods inventory includes inventory at customer locations of $20.3 million and $22.8 million, respectively, associated with products shipped to customers for which revenues had not yet been recognized.

7. PROPERTY AND EQUIPMENT, NET

Property and equipment, net, consist of the following (in thousands):

	June 30, 2008	December 31, 2007
Computer and video equipment and software	$121,878	$116,413
Manufacturing tooling and testbeds	8,205	7,748
Office equipment	3,523	3,741
Furniture and fixtures	12,033	13,314
Leasehold improvements	31,145	30,762
	176,784	171,978
Less accumulated depreciation and amortization	(132,293)	(125,818)
	$44,491	$46,160

8. LONG-TERM LIABILITIES

Long-term liabilities consist of the following (in thousands):

	June 30, 2008	December 31, 2007
Long-term deferred tax liabilities	$7,381	$7,430
Long-term deferred revenue	5,549	4,581
Long-term deferred rent	2,724	3,008
Long-term accrued restructuring	1,885	2,476
	$17,539	$17,495

9. ACCOUNTING FOR STOCK-BASED COMPENSATION

Stock Incentive Plan

At the Company s 2008 Annual Stockholder Meeting held on May 21, 2008, the Company s stockholders approved the Company s Amended and Restated 2005 Stock Incentive Plan (the Plan). Under the Plan, the Company is authorized to issue, subject to adjustment in the event of stock splits and other similar events, up to 8,000,000 shares of the Company s common stock plus:

- an aggregate of 168,143 shares that remained available for issuance as of May 21, 2008 under the Company s 1993 Director Stock Option Plan, as amended; the Company s 1998 Stock Option Plan; the Company s Amended and Restated 1999 Stock Option Plan; and the Company s Midiman, Inc. 2002 Stock Option/Stock Issuance Plan (the Existing Plans); and

- any shares subject to awards granted under the Existing Plans, which awards expire, terminate or are otherwise surrendered, canceled, forfeited or repurchased by the Company at their original issuance price pursuant to a contractual repurchase right; as of May 21, 2008, there were 1,519,437 shares subject to awards granted under the Existing Plans.

No further awards will be granted under the Existing Plans from and after May 21, 2008. Under the Plan, the Company may grant stock awards or options to purchase the Company s common stock to employees, officers, directors (subject to certain restrictions) and consultants, generally at the market price on the date of grant. The options become exercisable over various periods, typically four years for employees and one year for non-employee directors, and have a maximum term of seven years. Restricted stock and restricted stock unit awards typically vest over four years. As of June 30, 2008, 5,629,145 shares were available for issuance under the Plan, including 1,002,771 shares that may alternatively be issued as awards of restricted stock or restricted stock units.

The Company records stock-based compensation expense in accordance with SFAS No. 123 (revised 2004), *Share-Based Payment* (SFAS 123(R)), which is a revision of SFAS No. 123, *Accounting for Stock-Based Compensation*. The following table sets forth the key assumptions and fair value results for stock options with time-based vesting granted during the three- and six-month periods ended June 30, 2008 and 2007:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	**2007**	**2008**	**2007**
Expected dividend yield	0.00%	0.00%	0.00%	0.00%
Risk-free interest rate	2.67%	4.85%	2.48%	4.80%
Expected volatility	40.9%	31.2%	39.4%	32.9%
Expected life (in years)	4.71	4.63	4.43	4.37
Weighted-average fair value of options granted	$8.67	$11.49	$8.42	$11.80

In December 2007, the Company issued a stock option to purchase 625,000 shares of Avid common stock to the Company s new chief executive officer that has vesting based on market conditions or a combination of performance and market conditions. The compensation cost and derived service periods for this option were recorded based on a Monte Carlo valuation with an assumed volatility of 32.80% and a risk-free interest rate of 3.93%. The weighted-average fair value of this grant is $6.60 and the expected lives range from 3.25 to 4.98 years with a weighted average of 4.44 years.

During the three months ended March 31, 2008, the Company issued stock options to purchase 490,000 shares of Avid common stock to newly hired officers of the Company that have vesting based on market conditions or a combination of performance and market conditions. The compensation cost and derived service periods for these options were recorded based on a Monte Carlo valuation with a weighted-average volatility of 38.44% and a risk-free interest rate of 3.42%. The weighted-average fair value of these grants is $7.11 and the expected lives range from 2.81 to 4.97 years with a weighted average of 4.26 years.

Also during the three months ended March 31, 2008, the Company issued 27,200 restricted stock units to executives as part of the Company s annual grant program that have vesting based on market conditions or a combination of performance and market conditions. The compensation cost and derived service periods for these restricted stock units were estimated using the Monte Carlo valuation method using a volatility of 38.95% and a risk-free interest rate of 3.29%. For restricted stock units with vesting based on a combination of performance and market conditions, compensation costs were also estimated using the intrinsic value on the date of grant factored for probability. Compensation costs for each vesting tranche were recorded based on the higher estimate. The weighted-average fair value of these restricted stock units is $18.61 and the derived service periods range from 3.04 to 4.75 years with a weighted average of 4.17 years.

In accordance with SFAS 123(R), the Company estimates forfeiture rates at the time awards are made based on historical turnover rates and applies these rates in the calculation of estimated compensation cost. For all stock-based awards for the year ended December 31, 2006 and for most of the stock-based awards for the year ended December 31, 2007, the Company applied a 6.5% estimated forfeiture rate. In the fourth quarter of 2007, based on historical turnover rates, the Company segregated non-employee directors into a separate class and applied a 0% estimated forfeiture rate to the calculation of estimated compensation cost for this class. During the three months ended March 31, 2008, based on recent changes in the Company s stock-based compensation structure and executive management staff, the Company determined that the executive management staff should be segregated from the rest of its employees into a separate class for the calculation of stock-based compensation. Accordingly, based on the Company s historical turnover rates for these classes of employees and directors, for grants made during the first quarter of 2008, the Company applied annualized estimated forfeiture rates of 0% to non-employee director awards, 7% to executive management staff awards and 8.75% to awards to all other employees. Similarly, based on a review of updated historical turnover rates during the three months ended June 30, 2008, the Company determined that the annualized forfeiture rates for grants made in that quarter to the executive management staff should be increased to 8%. Accordingly, for grants made during the second quarter of 2008, the Company applied annualized estimated forfeiture rates of 0% to non-employee director awards, 8% to executive management staff awards and 8.75% to awards to all other employees.

During the first and second quarters of 2008, the Company also revised its estimated forfeiture rates for, and began applying the then current revised forfeiture rates to, all outstanding stock options and non-vested restricted stock awards, resulting in a revised estimate of compensation costs related to these stock-based grants. As a result of the application of the changes in forfeiture rates, the Company recorded in its results of operations cumulative adjustments that reduced previously recorded stock-based compensation expense of approximately $1.2 million during the first six months of 2008.

The following table summarizes changes in the Company s stock option plans during the six-month period ended June 30, 2008:

	Stock Options			
	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value (in thousands)
Options outstanding at December 31, 2007	3,825,180	$35.83		
Granted	1,009,430	$23.51		
Exercised	(48,253)	$14.31		
Forfeited or expired	(351,285)	$44.59		
Options outstanding at June 30, 2008	4,435,072	$32.57	6.53	$1,549
Options vested at June 30, 2008 or expected to vest	4,018,182	$33.29	6.41	$1,549
Options exercisable at June 30, 2008	2,074,125	$37.87	5.01	$1,549

The aggregate intrinsic value of stock options exercised during the six-month periods ended June 30, 2008 and 2007 was approximately $0.4 million and $3.5 million, respectively. Cash received from the exercise of stock options was $0.7 million and $3.7 million for the six-month periods ended June 30, 2008 and 2007, respectively. The Company did not realize any actual tax benefit from the tax deductions for stock option exercises during the six-month periods ended June 30, 2008 and 2007 due to the full valuation allowance on the Company s U.S. deferred tax assets.

The following tables summarize the changes in the Company s non-vested restricted stock units and non-vested restricted stock during the six-month period ended June 30, 2008:

	Non-Vested Restricted Stock Units			
	Shares	Weighted-Average Grant-Date Fair Value	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value (in thousands)
Non-vested at December 31, 2007	647,501	$35.39		
Granted	712,254	$23.50		
Vested	(171,585)	$35.46		
Forfeited	(66,325)	$32.24		
Non-vested at June 30, 2008	1,121,845	$28.13	1.90	$19,049

	Non-Vested Restricted Stock			
	Shares	Weighted-Average Grant-Date Fair Value	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value (in thousands)
Non-vested at December 31, 2007	106,463	$26.72		

Granted				
Vested	(2,155)	$47.01		
Forfeited				
Non-vested at June 30, 2008	104,308	$26.30	3.40	$1,771

10

Employee Stock Purchase Plan

On February 27, 2008, the Company s board of directors approved the Company s Second Amended and Restated 1996 Employee Stock Purchase Plan (the ESPP). The amended plan became effective May 1, 2008, the first day of the next offering period under the plan, and offers shares for purchase at a price equal to 85% of the closing price on the applicable offering termination date. Shares issued under the ESPP are considered compensatory under SFAS 123(R). Accordingly, the Company is required to assign fair value to, and record compensation expense for, shares issued from the ESPP starting May 1, 2008. Prior to May 1, 2008, shares were authorized for issuance at a price equal to 95% of the closing price on the applicable offering termination date, and shares offered under this arrangement were considered noncompensatory under SFAS 123(R).

The following table sets forth the key assumptions and fair value results for shares issued under the ESPP starting May 1, 2008:

	Three Months Ended
	June 30, 2008
Expected dividend yield	0.00%
Risk-free interest rate	2.50%
Expected volatility	40.9%
Expected life (in years)	0.25
Weighted-average fair value of shares issued	$3.39

At the 2008 Annual Stockholder Meeting held on May 21, 2008, the Company s stockholders authorized an additional 800,000 shares for issuance under the ESPP. As of June 30, 2008, 1,027,076 shares remained available for issuance under the ESPP.

Stock-Based Compensation Expense

Stock-based compensation was included in the following captions in the Company s condensed consolidated statements of operations for the three- and six-month periods ended June 30, 2008 and 2007 (in thousands):

	Three Months Ended		**Six Months Ended**	
	June 30,		**June 30,**	
	2008	**2007**	**2008**	**2007**
Products cost of revenues	$ 171	$ 182	$ 303	$ 323
Services cost of revenues	166	251	264	448
Research and development expense	1,089	1,354	1,452	2,397
Marketing and selling expense	1,109	1,201	1,638	2,136
General and administrative expense	2,053	1,563	3,076	2,799
Total stock-based compensation expense	$4,588	$4,551	$6,733	$8,103

As of June 30, 2008, the Company had $55.5 million of unrecognized compensation cost before forfeitures related to non-vested stock-based compensation awards granted under its stock-based compensation plans. This cost will be recognized over the next five years.

10. STOCK REPURCHASES

A stock repurchase program was approved by the Company s board of directors and publicly announced on April 26, 2007. Under this program, the Company was authorized to repurchase up to $100 million of the Company s common stock through transactions on the open market, in block trades or otherwise. The stock repurchase program has no expiration date. On February 27, 2008, the Company announced its board of directors approval of a $100 million increase in the authorized funds for the repurchase of the Company s common stock, increasing the total authorized funds for stock repurchases under the program to $200 million. During 2007, the Company repurchased 809,236 shares of the Company s common stock for a total purchase price, including commissions, of $26.6 million,

or $32.92 per share. During the three months ended March 31, 2008, the Company repurchased an additional 4,254,397 shares of the Company s common stock for a total purchase price, including commissions, of $93.2 million. The average price per share paid for the shares repurchased during the first quarter of 2008, including commissions, was $21.90. No shares were repurchased during the three months ended June 30, 2008, and, as of June 30, 2008, $80.3 million remained available for future stock repurchases under the program. This stock repurchase program is being funded using the Company s working capital.

At June 30, 2008 and December 31, 2007, treasury shares held by the Company totaled 5.3 million shares and 1.2 million shares, respectively.

11. CONTINGENCIES

Avid receives inquiries from time to time claiming possible patent infringement by the Company. If any infringement is determined to exist, the Company may seek licenses or settlements. In addition, as a normal incidence of the nature of the Company s business, various claims, charges and litigation have been asserted or commenced from time to time against the Company arising from or related to contractual or employee relations, intellectual property rights or product performance. Settlements related to any such claims are generally included in the general and administrative expenses caption in the Company s consolidated statements of operations. Management does not believe these claims will have a material adverse effect on the financial position or results of operations of the Company.

On May 24, 2007, David Engelke and Bryan Engelke filed a complaint against the Company s Pinnacle subsidiary in Pinellas County (Florida) Circuit Court, claiming that Pinnacle breached certain contracts among them and that the Engelkes are entitled to indemnification for damages (and attorneys fees) awarded against them in litigation with a third party. The complaint, which seeks damages of approximately $17.7 million, was served on September 4, 2007. On September 28, 2007, the Florida appellate court reversed the damages award for which the Engelkes seek indemnification and, on June 16, 2008, remanded the case for a new damages trial with instructions that would limit the potential award to a sum significantly lower than the amount demanded in the Engelkes complaint against Pinnacle. Because the Company cannot predict the outcome of this action at this time, no costs have been accrued for any loss contingency; however, the Company does not expect this matter to have a material effect on the Company s financial position or results of operations.

From time to time, the Company provides indemnification provisions in agreements with customers covering potential claims by third parties of intellectual property infringement. These agreements generally provide that the Company will indemnify customers for losses incurred in connection with an infringement claim brought by a third party with respect to the Company s products. These indemnification provisions generally offer perpetual coverage for infringement claims based upon the products covered by the agreement. The maximum potential amount of future payments the Company could be required to make under these indemnification provisions is theoretically unlimited; however, to date, the Company has not incurred material costs related to these indemnification provisions. As a result, the Company believes the estimated fair value of these indemnification provisions is minimal.

As permitted under Delaware law and pursuant to Avid s Third Amended and Restated Certificate of Incorporation, as amended, the Company is obligated to indemnify its current and former officers and directors for certain events that occur or occurred while the officer or director is or was serving in such capacity. The term of the indemnification period is for each respective officer s or director s lifetime. The maximum potential amount of future payments the Company could be required to make under these indemnification obligations is unlimited; however, Avid has mitigated the exposure through the purchase of directors and officers insurance, which is intended to limit the risk and, in most cases, enable the Company to recover all or a portion of any future amounts paid. As a result of this insurance coverage, the Company believes the estimated fair value of these indemnification obligations is minimal.

The Company, through a third party, provides lease financing options to its customers, including end users and, on a limited basis, resellers. During the terms of these leases, which are generally three years, the Company remains liable for any unpaid principal balance upon default by the customer, but such liability is limited in the aggregate

12

based on a percentage of initial amounts funded or, in certain cases, amounts of unpaid balances. At June 30, 2008 and December 31, 2007, Avid s maximum recourse exposure totaled approximately $9.1 million and $8.8 million, respectively. The Company records revenues from these transactions upon the shipment of products, provided that all other revenue recognition criteria, including collectibility being reasonably assured, are met. Because the Company has been providing these financing options to its customers for many years, the Company has a substantial history of collecting under these arrangements without providing significant refunds or concessions to the end user, reseller or financing party. To date, the payment default rate has consistently been between 2% and 4% per year of the original funded amount. This low default rate results because the third-party leasing company diligently screens applicants and collects amounts due, and because Avid actively monitors its exposures under the financing program and participates in the approval process for any lessees outside of agreed-upon credit-worthiness metrics. The Company maintains a reserve for estimated losses under this recourse lease program based on the historical default rates applied to the funded amount outstanding at period end. At June 30, 2008 and December 31, 2007, the Company s accrual for estimated losses was $0.9 million and $0.8 million, respectively.

Avid provides warranties on externally sourced and internally developed hardware. For internally developed hardware and in cases where the warranty granted to customers for externally sourced hardware is greater than that provided by the manufacturer, the Company records an accrual for the related liability based on historical trends and actual material and labor costs. The warranty period for all of the Company s products is generally 90 days to one year, but can extend up to five years depending on the manufacturer s warranty or local law.

The following table sets forth activity for the Company s product warranty accrual (in thousands):

	Six Months Ended	
	June 30,	
	2008	2007
Accrual balance at beginning of period	$5,803	$ 6,072
Accruals for product warranties	4,180	4,260
Cost of warranty claims	(3,800)	(4,338)
Accrual balance at end of period	$6,183	$ 5,994

12. COMPREHENSIVE LOSS

Total comprehensive loss, net of taxes, consists of net loss and the net changes in foreign currency translation adjustment and net unrealized gains and losses on available-for-sale securities. The following is a summary of the Company s comprehensive loss (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
Net loss	$(10,385)	$(5,999)	$(31,533)	$(5,979)
Net changes in:				
Foreign currency translation adjustment	(510)	2,051	2,659	2,417
Unrealized gains on securities		16	14	27
Total comprehensive loss	$(10,895)	$(3,932)	$(28,860)	$(3,535)

13. SEGMENT INFORMATION

The Company has been organized into three strategic business units, Professional Video, Audio, and Consumer Video, each of which is a reportable segment. During the first quarter of 2008, the Company changed the way it reviews and manages its business by excluding certain corporate infrastructure costs and expenses, including finance, human resources, legal and some information technology expenses, when evaluating segment performance and measuring the profitability of each operating segment. Such expenses, which were previously allocated to

the operating segments, are managed outside the segments and are not controllable at the segment level. The Company believes that excluding these costs provides a better measure of each segment s performance. The Company also

continues to exclude certain other costs and expenses when evaluating segment performance and profitability, including the amortization and impairment of acquired intangible assets, the write-off of acquired in-process research and development, stock-based compensation expenses, restructuring expenses and legal settlements. The Company now reports a contribution margin for each business unit that excludes these costs and has revised the prior period segment disclosures to conform to the current presentation. The change to the current presentation did not affect the Company s consolidated operating results.

The following is a summary of the Company s revenues and contribution margin by reportable segment for the three- and six-month periods ended June 30, 2008 and 2007 and a reconciliation of segment contribution margin to total consolidated operating loss for each period (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
Revenues:				
Professional Video	$115,738	$120,318	$209,988	$232,989
Audio	75,315	76,763	148,554	155,686
Consumer Video	31,810	28,245	62,587	55,549
Total revenues	$222,863	$225,326	$421,129	$444,224
Contribution Margin:				
Professional Video	$10,563	$12,136	$9,243	$23,737
Audio	10,626	12,109	21,496	25,262
Consumer Video	21	1,967	530	2,535
Segment contribution margin	21,210	26,212	31,269	51,534
Less unallocated costs and expenses:				
Common costs and operating expenses	(19,739)	(18,402)	(42,627)	(37,253)
Amortization of acquisition-related intangible assets	(5,593)	(8,192)	(12,234)	(16,096)
Stock-based compensation	(4,588)	(4,551)	(6,733)	(8,103)
Restructuring costs, net	(937)	(1,517)	(2,000)	(1,775)
Legal settlements		(1,025)		(1,025)
Consolidated operating loss	$(9,647)	$(7,475)	$(32,325)	$(12,718)

In July 2008, the Company announced several changes to its previous business unit structure. The Company is taking actions necessary to transition to this new business structure in the second half of 2008. The new business unit structure will be used to evaluate segment performance and measure segment profitability beginning January 1, 2009.

14. RESTRUCTURING COSTS AND ACCRUALS

During the quarter ended March 31, 2008, the Company initiated restructuring plans within the Company s Professional Video business unit and corporate operations to eliminate duplicative business functions and improve operational efficiencies. During the quarter ended March 31, 2008, the Company recorded restructuring charges of $1.2 million under these plans related to employee termination costs for 20 employees, primarily in the marketing and selling teams and general and administrative teams. During the quarter ended June 30, 2008, the Company recorded restructuring charges of $1.0 million under these plans primarily related to employee termination costs for 26 employees, primarily in the research and development teams and marketing and selling teams. The Company expects to incur total expenses, representing cash expenditures, under these restructuring plans of $3 million to $4 million and anticipates that it will complete the actions under the plans by December 31, 2008.

During 2007, the Company implemented restructuring plans within the Professional Video and Consumer Video business units, as well as corporate operations, that resulted in restructuring charges of $12.2 million. In connection with these actions, the Company terminated the

employment of approximately 125 employees, primarily from the

---

research and development teams and marketing and selling teams. The purpose of these plans was to eliminate duplicative business functions, improve operational efficiencies and align business skills with future opportunities. The charges for the estimated costs for the employee terminations totaled $5.2 million. Actions under these restructuring plans also included the closure of facilities in Munich, Germany and Chicago, Illinois and portions of facilities in Tewksbury, Massachusetts; Montreal, Canada; and Mountain View, California, and the Company s exit from the transmission server product line. The costs for the facility closures totaled $2.6 million. As a result of exiting the transmission server product line, the Company recorded non-cash charges totaling $4.3 million in cost of revenues for the write-down of inventory. The Company also recorded a non-cash restructuring charge of $0.1 million related to the disposal of fixed assets. During the first six months of 2008, the Company revised its previous estimated liability for the 2007 restructuring plans and recorded a restructuring recovery of $0.1 million.

The Company recorded these charges in accordance with the guidance of SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. These restructuring charges and accruals require significant estimates and assumptions, including sub-lease income assumptions. These estimates and assumptions are monitored on at least a quarterly basis for changes in circumstances and any corresponding adjustments to the accrual are recorded in the Company s statement of operations in the period when such changes are known.

In connection with the August 2005 Pinnacle acquisition and the January 2006 Medea acquisition, the Company recorded accruals of $14.4 million and $1.1 million, respectively, related to severance agreements and lease or other contract terminations in accordance with Emerging Issues Task Force (EITF) Issue No. 95-3, *Recognition of Liabilities in Connection with a Purchase Business Combination*. During the third quarter of 2007, the Company recorded a $0.7 million increase in the estimate for the Pinnacle restructuring and a corresponding restructuring charge in the Company s statement of operations. Similarly, in the first quarter of 2007, the Company recorded a $0.1 million increase in the estimate for the Medea restructuring and a corresponding restructuring charge. During the second quarter of 2008, the Company recorded a $0.1 million decrease in the estimate for the Medea restructuring and a corresponding decrease in goodwill.

The following table sets forth the activity in the restructuring costs and accruals for the six-month period ended June 30, 2008 (in thousands):

	Non-Acquisition-Related Restructuring Liabilities		**Acquisition-Related Restructuring Liabilities**		
	Employee-Related	**Facilities-Related**	**Employee-Related**	**Facilities-Related**	**Total**
Accrual balance at December 31, 2007	$1,186	$3,256	$2	$2,041	$6,485
New restructuring charges operating expenses	2,020	137			2,157
Revisions of estimated liabilities	(76)	(44)	(2)	(170)	(292)
Accretion		37		2	39
Cash payments for employee-related charges	(1,991)				(1,991)
Cash payments for facilities, net of sublease income		(1,112)		(488)	(1,600)
Foreign exchange impact on ending balance	5	6		(4)	7
Accrual balance at June 30, 2008	$1,144	$2,280	$	$1,381	$4,805

The employee-related accruals at June 30, 2008 represent severance and outplacement costs to former employees that will be paid within the next 12 months and are, therefore, included in the caption accrued expenses and other current liabilities in the condensed consolidated balance sheet at June 30, 2008.

The facilities-related accruals at June 30, 2008 represent estimated losses on subleases of space vacated as part of the Company s restructuring actions. The leases, and payments against the amounts accrued, will extend through 2011 unless the Company is able to negotiate earlier terminations. Of the total facilities-related accruals, $1.8 million is included in the caption accrued expenses and other current liabilities and $1.9 million is included in the caption long-term liabilities in the condensed consolidated balance sheet at June 30, 2008.

15

15. RECENT ACCOUNTING PRONOUNCEMENTS

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*. SFAS No. 161 requires companies with derivative instruments to disclose information that should enable financial-statement users to understand how and why a company uses derivative instruments, how derivative instruments and related hedged items are accounted for under SFAS No. 133 Accounting for Derivative Instruments and Hedging Activities and how derivative instruments and related hedged items affect a company s financial position, financial performance and cash flows. SFAS No 161 is effective for the Company s fiscal year beginning January 1, 2009. Adoption of SFAS No. 161 is not expected to have a material impact on the Company s financial position or results of operations.

In December 2007, the FASB issued SFAS No. 141 (revised 2007) (SFAS 141(R)), *Business Combinations*. SFAS 141(R) makes significant changes to the accounting and reporting standards for business acquisitions. SFAS 141(R) establishes principles and requirements for an acquirer s financial statement recognition and measurement of the assets acquired; the liabilities assumed, including those arising from contractual contingencies; any contingent consideration; and any noncontrolling interest in the acquiree at the acquisition date. SFAS 141(R) amends SFAS No. 109, *Accounting for Income Taxes*, to require the acquirer to recognize changes in the amount of its deferred tax benefits that are recognizable as a result of a business combination either in income from continuing operations in the period of the combination or directly in contributed capital, depending on the circumstances. The statement also amends SFAS No. 142, *Goodwill and Other Intangible Assets*, to, among other things, provide guidance for the impairment testing of acquired research and development intangible assets and assets that the acquirer intends not to use. SFAS 141(R) is effective for the Company s fiscal year beginning January 1, 2009 and may not be adopted early or applied retrospectively. The adoption of SFAS 141(R) will have an impact on the accounting for, and the effect will depend upon the nature of, business combinations occurring on or after the adoption date.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51*. SFAS No. 160 establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. Specifically, this statement requires that a noncontrolling interest, or minority interest, be recognized as equity in the consolidated financial statements and that it be presented separately from the parent s equity. Also, the amounts of net income attributable to the parent and to the noncontrolling interest must be included in consolidated net income on the face of the income statement. SFAS No. 160 clarifies that changes in a parent s ownership interest in a subsidiary are equity transactions if the parent retains its controlling financial interest. In addition, this statement requires that a parent recognize a gain or loss in net income when a subsidiary is deconsolidated, with such gain or loss measured using the fair value of the noncontrolling equity investment on the deconsolidation date. SFAS No. 160 is effective for the Company s fiscal year beginning January 1, 2009 and requires retroactive adoption of the presentation and disclosure requirements for existing minority interests; all other requirements may only be applied prospectively. Adoption of SFAS No. 160 is not expected to have a material impact on the Company s financial position or results of operations.

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

EXECUTIVE OVERVIEW

Our Markets and Strategy

We develop, market, sell and support a wide range of software and hardware products for the production, management and distribution of digital media content. Our products empower users, from the home hobbyist to film studios and media-production companies, to realize their creative vision, whether they aspire to edit blockbuster feature films, write and record hit songs, or design animated characters for games or movies. Our technology also improves customer workflows by enabling collaboration, streamlining processes and securely managing digital assets and allows users to distribute media over multiple platforms, including airwaves, cable and the Internet.

We have been organized into business units that focus on products and services sold to the following markets: Professional Video, Audio and Consumer Video. These business units also reflect our reportable segments and collectively encompass seven brands: Avid Video, Digidesign, M-Audio, Pinnacle, Sibelius, Softimage and Sundance Digital. The following is an overview of the business units and the markets they serve.

Professional Video. This business unit offers innovative solutions including video- and film-editing systems, integrated storage, workflow and asset management tools, 3D and special-effects software, and a comprehensive range of services, from product support and training to consultancy and managed services. We market these solutions under the brand names Avid Video, Softimage and Sundance Digital to a broad range of professional users, broadcast and cable companies, corporations, governmental entities and educational institutions. Professional users include production and post-production companies that produce feature films, music videos, commercials, entertainment programs, documentaries, and industrial videos, as well as professional animators, video-game developers and film studios. Our broadcast and cable customers include national and international broadcasters, as well as network affiliates, local independent television stations, web news providers and local and regional cable operators.

Audio. Under the Digidesign, M-Audio and Sibelius brand names, this business unit offers solutions for audio creation, mixing, post-production, collaboration, distribution and scoring to a range of users from home studio novices to award-winning, multi-platinum recording artists. We also sell our solutions to professional music studios, project studios, film and television production and post-production facilities, television and radio broadcasters, new media production studios (for example, creators of DVD and web content), performance venues, corporations, governmental entities and educational institutions. Customers use our audio products and solutions for a wide variety of tasks in both studio and live environments, including recording, editing, mixing, processing, mastering, composing and performing.

Consumer Video. This business unit markets, under the Pinnacle brand name, video-editing and digital-lifestyle products to the home user who wants to create, edit, share, publish and view video content easily, creatively and effectively. This segment s two vertical markets consist of home video editing and TV-over-PC viewing. The home video-editing market includes novice and advanced home video editors, as well as corporations, governmental entities and educational institutions, who want to edit, enhance and preserve their videos and share those videos on DVD or over the Internet. The TV-over-PC viewing market includes virtually any consumer who wants to watch and record television programming on a personal computer.

In July 2008, we announced several changes to our previous business unit structure. We are taking actions necessary to transition to this new business structure in the second half of 2008. The new business unit structure will be used to evaluate segment performance and measure

segment profitability beginning January 1, 2009.

We continue to focus on strategically enhancing our existing products and broadening our product offerings to satisfy customer demand for new technology across the spectrum of educational to consumer to professional markets. We also continue to position ourselves and deliver new products and services to benefit from a number of

important industry trends, including the move to HD television production, the switch to all-digital broadcast production, the growth of home audio studios, the move to digital audio mixing and the growth of consumer video editing and consumption.

Financial Summary

Our revenues for the three months ended June 30, 2008 were $222.9 million, a decrease of 1% compared to the same period last year. By business unit, compared to the second quarter last year, Professional Video revenues decreased 4%, Audio revenues decreased 2% and Consumer Video revenues increased 13%. Our revenues for the six-months ended June 30, 2008 were $421.1 million, a decrease of 5% compared to the same period last year. By business unit, compared to the first half of last year, Professional Video revenues decreased 10%, Audio revenues decreased 5% and Consumer Video revenues increased 13%. The revenues of each business unit are discussed in further detail in the section titled Results of Operations below.

For both the three- and six-month periods ended June 30, 2008, compared to the same periods in 2007, decreases in our revenues and gross margins, coupled with increased operating expenses, resulted in an overall decline in operating income. The $4.6 million increase in operating expenses in the first six months of 2008, compared to the same period in 2007, included increased expenses of approximately $4.9 million related to investments in strategic consultants assisting management in the transformation of our business and management transition expenses. During the first quarter of 2008, we initiated restructuring plans within our Professional Video business unit and corporate operations and recorded restructuring charges of $2.2 million under these plans during the first six months of 2008.

During the first quarter of 2008, we used $93.2 million in cash to repurchase 4,254,397 shares of our common stock. No additional shares of our common stock were repurchased during the second quarter of 2008. At June 30, 2008, we had authorization from our board of directors for additional repurchases of up to $80.3 million. In the first six months of 2008, our operating activities provided cash flows totaling $14.3 million.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our management s discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. We make estimates and assumptions in the preparation of our consolidated financial statements that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. We base our estimates on historical experience and various other assumptions that we believe to be reasonable under the circumstances. However, actual results may differ from these estimates.

We believe that our critical accounting policies are those related to revenue recognition and allowances for product returns and exchanges, stock-based compensation, allowances for bad debts and reserves for recourse under financing transactions, inventories, business combinations, goodwill and intangible assets, and income tax assets. We believe these policies are critical because they are important to the portrayal of our financial condition and results of operations, and they require us to make judgments and estimates about matters that are inherently uncertain. Additional information about our critical accounting policies may be found in our 2007 Annual Report on Form 10-K in Item 7, Management s Discussion and Analysis of Financial Condition and Results of Operations, under the heading Critical Accounting Policies and Estimates. During the three months ended March 31, 2008 and June 30, 2008, primarily due to the differing types of stock-based awards that are now being granted, we revised our estimates of future forfeitures used in the calculation of estimated compensation costs for these awards. As a result, we have revised our critical accounting policy for Stock-Based Compensation. The revised policy is provided below.

Stock-Based Compensation

On January 1, 2006, we adopted the provisions of, and started to account for stock-based compensation in accordance with, Statement of Financial Accounting Standards, or SFAS, No. 123 (revised 2004), or SFAS 123(R), *Share-Based Payment*, which is a revision of SFAS No. 123, *Accounting for Stock-Based Compensation*. SFAS

123(R) requires employee stock-based compensation awards to be accounted for under the fair value method and eliminates the ability to account for these instruments under the intrinsic value method as prescribed by Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees,* and related interpretations. We adopted SFAS 123(R) using the modified prospective application method as permitted under SFAS 123(R). Under this method, we are required to record compensation cost, based on the fair value estimated in accordance with SFAS 123(R), for stock-based awards granted after the date of adoption over the requisite service periods for the individual awards, which generally equals the vesting period. We are also required to record compensation cost for the non-vested portion of previously granted stock-based awards outstanding at the date of adoption over the requisite service periods for the individual awards based on the fair value estimated in accordance with the original provisions of SFAS No. 123 adjusted for forfeitures as required by SFAS 123(R).

During 2008 and 2007, we granted both restricted stock units and stock options as part of our key performer stock-based compensation program, as well as stock options, restricted stock units and restricted stock to newly hired employees. The vesting of stock option grants may be based on time, performance or market conditions. In the future, we may grant stock awards, options, or other equity-based instruments allowed by our stock-based compensation plans, or a combination thereof, as part of our overall compensation strategy.

The fair values of restricted stock awards with time-based vesting, including restricted stock and restricted stock units, are generally based on the intrinsic values of the awards at the date of grant. As permitted under SFAS No. 123 and SFAS 123(R), we generally use the Black-Scholes option pricing model to estimate the fair value of stock option grants. The Black-Scholes model relies on a number of key assumptions to calculate estimated fair values. Our assumed dividend yield of zero is based on the fact that we have never paid cash dividends and have no present intention to pay cash dividends. Since adoption of SFAS 123(R) on January 1, 2006, the expected stock-price volatility assumption used by us has been based on recent (six-month trailing) implied volatility calculations. These calculations are performed on exchange traded options of our common stock. We believe that using a forward-looking market-driven volatility assumption will result in the best estimate of expected volatility. The assumed risk-free interest rate is the U.S. Treasury security rate with a term equal to the expected life of the option. The assumed expected life is based on company-specific historical experience. With regard to the estimate of the expected life, we consider the exercise behavior of past grants and model the pattern of aggregate exercises.

In accordance with SFAS 123(R), we estimate forfeiture rates at the time awards are made based on historical turnover rates and apply these rates in the calculation of estimated compensation cost. For all stock-based awards for the year ended December 31, 2006 and for most stock-based awards for the year ended December 31, 2007, we applied a 6.5% estimated forfeiture rate. In the fourth quarter of 2007, based on historical turnover rates, we segregated our non-employee directors into a separate class and applied a 0% estimated forfeiture rate to the calculation of estimated compensation cost for this class. During the three months ended March 31, 2008, based on recent changes in our stock-based compensation structure and executive management staff, we determined that the executive management staff should be segregated from the rest of our employees into a separate class for the calculation of stock-based compensation. Accordingly, based on our historical turnover rates for these classes of employees and directors, for grants made during the first quarter of 2008, we applied annualized estimated forfeiture rates of 0% to non-employee director awards, 7% to executive management staff awards and 8.75% to awards to all other employees. Similarly, based on a review of updated historical turnover rates during the three months ended June 30, 2008, we determined that the annualized forfeiture rates for grants made in that quarter to the executive management staff should be increased to 8%. Accordingly, for grants made during the second quarter of 2008, we applied annualized estimated forfeiture rates of 0% to non-employee director awards, 8% to executive management staff awards and 8.75% to awards to all other employees

During the three-month periods ended March 31, 2008 and June 30, 2008, we also revised our estimated forfeiture rates for, and began applying the then current revised forfeiture rates to, all outstanding stock options and non-vested restricted stock awards, resulting in a revised estimate of compensation costs related to these stock-based grants. As a result of the application of the changes in forfeiture rates, we recorded in our results of operations cumulative adjustments that reduced previously recorded stock-based compensation expense of approximately $1.2 million during the first six months of 2008.

In December 2007, we granted a stock option to purchase 625,000 shares of our common stock to our new chief executive officer that has vesting based on market conditions or a combination of performance and market

19

conditions. During the three months ended March 31, 2008, we issued stock options to purchase 490,000 shares of common stock to newly hired executive officers, as well as 27,200 restricted stock units to other executives, as part of our annual grant program, that also have vesting based on market conditions or a combination of performance and market conditions. The compensation costs and derived service periods for all grants with vesting based on market conditions or a combination of performance and market conditions were estimated using the Monte Carlo valuation method. For stock option grants with vesting based on a combination of performance and market conditions, the compensation costs were also estimated using the Black-Scholes valuation method. For restricted stock grants with vesting based on a combination of performance and market conditions, the compensation costs were also estimated using the intrinsic value on the date of grant factored for probability. Compensation costs for these stock option and restricted stock grants were recorded based on the higher estimate for each vesting tranche.

If factors change and we employ different assumptions for estimating stock-based compensation expense in future periods, or if we decide to use a different valuation model, the stock-based compensation expense we recognize in future periods may differ significantly from what we have recorded in the current period and could materially affect our operating income, net income and earnings per share. It may also result in a lack of comparability with other companies that use different models, methods and assumptions. The Black-Scholes option-pricing model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. These characteristics are not present in our option grants. Existing valuation models, including the Black-Scholes and Monte Carlo models, may not provide reliable measures of the fair values of our stock-based compensation. See Note 9 of the unaudited condensed consolidated financial statements in Item 1 of this report for further information regarding stock-based compensation.

RESULTS OF OPERATIONS

Net Revenues

Our net revenues are derived mainly from sales of computer-based digital, nonlinear, media-editing and finishing systems and related peripherals, including shared-storage systems, software licenses, and related professional services and software maintenance contracts.

Three Months Ended June 30, 2008 and 2007
(dollars in thousands)

	2008 Net Revenues	% of Consolidated Net Revenues	2007 Net Revenues	% of Consolidated Net Revenues	Change	% Change in Revenues

Total	148,554	35.3%	155,686	35.0%	(7,132)	(4.6%)
Consumer Video:						
Product revenues	62,587	14.8%	55,549	12.5%	7,038	12.7%
Total	62,587	14.8%	55,549	12.5%	7,038	12.7%
Total net revenues:	$421,129	100.0%	$444,224	100.0%	($23,095)	(5.2%)

The decreases in Professional Video product revenues for both the three- and six-month periods ended June 30, 2008, compared to the same periods in 2007, were primarily due to lower revenues from our video-editing products and, to a lesser extent, decreased revenues from large broadcast deals. We believe the decrease in video-editing revenues was the result of a slowdown in sales in early 2008 in anticipation of our new editor product set, which was released in June 2008, as well as price reductions announced in the first quarter of 2008 in response to competitive pressures. The effect of the price reductions was partially offset by higher unit volumes for these products. The decrease in revenues from large broadcast deals was due to the timing of customer acceptance and revenue recognition.

Professional Video services revenues are derived primarily from maintenance contracts, professional and installation services, and training. There was no significant change in services revenues for the three-month period ended June 30, 2008, compared to the same period in 2007. The increase in services revenues for the six-month period ended June 30, 2008, compared to the same period in 2007, was primarily due to increased revenues generated from maintenance contracts sold in connection with our products and, to a lesser extent, increased revenues from installation and training services. Maintenance revenues increased starting in the second quarter of 2007 due to an increase in new large deals that included maintenance contracts.

The decreases in Audio product revenues for the three- and six-month periods ended June 30, 2008, compared to the same periods in 2007, were primarily the result of decreased revenues from our entry-level Digidesign products, as well as a slowdown in sales of our Digidesign integrated mixing console products. The decreases in revenues from our entry-level Digidesign products were due to temporary delays in the release of products compatible with a new version of Apple s Mac OS X Leopard operating system, as well as increased competitive pressure. The products compatible with the new version of the Mac OS X Leopard operating system were released late in the second quarter of 2008. We believe the slowdown in sales of our Digidesign integrated mixing console products was due to unfavorable macroeconomic conditions.

The increases in Consumer Video product revenues for the three- and six-month periods ended June 30, 2008, compared to the same periods in 2007, were primarily the result of increased revenues, on increased volumes, from our TV-over-PC viewing products, as well as new revenues from our Pinnacle Video Transfer product introduced in the first quarter of 2008.

Net revenues derived through indirect channels were 68% for both the three-month periods ended June 30, 2008 and 2007, and 70% for both the six-month periods ended June 30, 2008 and 2007.

International sales accounted for 61% and 60% of our net revenues for the three- and six-month periods ended June 30, 2008, respectively, compared to 58% for both periods in 2007.

Gross Profit

Cost of revenues consists primarily of costs associated with:

- the procurement of components;
- the assembly, testing and distribution of finished products;
- warehousing;
- customer support costs related to maintenance contract revenues and other services; and
- royalties for third-party software and hardware included in our products.

Cost of revenues also includes amortization of technology, which represents the amortization of developed technology assets acquired in the August 2005 acquisition of Pinnacle and, to a lesser extent, other acquisitions we have made since August 2004. Amortization of technology is described further in the Amortization of Intangible Assets section below.

Gross margin fluctuates based on factors such as the mix of products and services sold, the cost and proportion of third-party hardware and software included in the products sold, the offering of product upgrades, price discounts and other sales promotion programs, the distribution channels through which products are sold, the timing of new product introductions and currency exchange rate fluctuations.

Three Months Ended June 30, 2008 and 2007
(dollars in thousands)

	2008	Gross Margin	2007	Gross Margin	Gross Margin % Change
Product cost of revenues	$ 92,628	51.0%	$ 92,991	51.7%	(0.7%)
Services cost of revenues	19,629	41.8%	17,454	47.0%	(5.2%)
Amortization of intangible assets	2,270		4,761		
Total	$114,527	48.6%	$115,206	48.9%	(0.3%)

Six Months Ended June 30, 2008 and 2007
(dollars in thousands)

	2008	Gross Margin	2007	Gross Margin	Gross Margin % Change
Product cost of revenues	$ 177,701	50.3%	$185,703	51.7%	(1.4%)
Services cost of revenues	37,016	42.0%	33,433	43.7%	(1.7%)
Amortization of intangible assets	5,524		9,233		

Total	$220,241	47.7%	$228,369	48.6%	(0.9%)

The decreases in product gross margin percentage for the three- and six-month periods ended June 30, 2008, compared to the same periods in 2007, primarily reflected decreased revenues on costs of product revenues that have a significant fixed element. A $1.2 million increase in inventory write-downs, due primarily to new product transitions, was a significant contributing factor in the decreased gross margin percentage for the three-month period ended June 30, 2008, compared to the same period in 2007.

The decreases in the services gross margin for the three- and six-month periods ended June 30, 2008, compared to the same periods in 2007, primarily reflected the change in services revenues mix to a higher percentage of installation and training revenues, which have higher labor costs and lower gross margins than maintenance revenues.

Research and Development

Research and development expenses include costs associated with the development of new products and the enhancement of existing products, and consist primarily of employee salaries and benefits, facilities costs, depreciation, costs for consulting and temporary employees, and prototype and other development expenses.

	Three Months Ended June 30, 2008 and 2007 (dollars in thousands)			
	2008	**2007**		
	Expenses	**Expenses**	**Change**	**% Change**
Research and development	$38,972	$38,444	$528	1.4%
As a percentage of net revenues	17.5%	17.1%	0.4%	

	Six Months Ended June 30, 2008 and 2007 (dollars in thousands)			
	2008	**2007**		
	Expenses	**Expenses**	**Change**	**% Change**
Research and development	$77,482	$76,186	$1,296	1.7%
As a percentage of net revenues	18.4%	17.2%	1.2%	

The increase in research and development expenses for the three-month period ended June 30, 2008, compared to the same period in 2007, was due to higher personnel-related costs, as well as increased information systems and facilities infrastructure costs, partially offset by decreased expenses due to increased capitalized research and development costs, as well as decreased costs for outside services and consulting. The higher personnel-related costs were primarily the result of our increased emphasis on the development of new products and increased accruals for our company bonus plan, partially offset by decreased stock-based compensation expenses. Personnel-related costs increased $1.3 million for the three-month period ended June 30, 2008, compared to the same period in 2007. Information systems and facilities infrastructure costs increased $0.5 million for the three-month period ended June 30, 2008, compared to the same period in 2007. The decreased expenses due to increased capitalized research and development costs were $0.6 million for the three-month period ended June 30, 2008, compared to the same period in 2007. Outside services and consulting costs decreased $0.5 million for the three-month period ended June 30, 2008, compared to the same period in 2007. The increase in research and development expenses as a percentage of revenues for the three-month period ended June 30, 2008 was the result of both the increase in expenses and the decrease in revenues for the period compared to the same period in 2007.

The increase in research and development expenses for the six-month period ended June 30, 2008, compared to the same period in 2007, was due to higher personnel-related costs, as well as increased information systems and facilities infrastructure costs. These increases were partially offset by decreased expenses due to an increase in capitalized research and development costs, as well as decreased costs for outside services and consulting and hardware development and computer equipment costs. The higher personnel-related costs were primarily the result of our increased emphasis on the development of new products and increased accruals for our company bonus plan, partially offset by decreased stock-based compensation expenses. Personnel-related costs increased $2.2 million for the six-month period ended June 30, 2008, compared to the same period in 2007. Information systems and facilities infrastructure costs increased $1.1 million for the six-month period ended June 30, 2008, compared to the same period in 2007. The decreased expenses due to increased capitalized research and development costs were $0.4 million for the six-month period ended June 30, 2008, compared to the same period in 2007. Outside services and consulting costs decreased $1.0 million for the six-month period ended June 30, 2008, compared to the same period in 2007. Hardware development and computer equipment costs decreased $0.5 million for the six-month period ended June 30, 2008, compared to the same period in 2007, primarily as a result of expenses for the development of high-end video-editing products during 2007. The increase in research and development expenses as a percentage of revenues for the six-month period ended June 30, 2008 was largely the result of the decrease in revenues for the period compared to the same period in 2007.

23

Marketing and Selling

Marketing and selling expenses consist primarily of employee salaries and benefits for selling, marketing and pre-sales customer support personnel; commissions; travel expenses; advertising and promotional expenses; and facilities costs.

	Three Months Ended June 30, 2008 and 2007 (dollars in thousands)			
	2008	**2007**		
	Expenses	**Expenses**	**Change**	**% Change**
Marketing and selling	$55,259	$56,505	($1,246)	(2.2%)
As a percentage of net revenues	24.8%	25.1%	(0.3%)	

	Six Months Ended June 30, 2008 and 2007 (dollars in thousands)			
	2008	**2007**		
	Expenses	**Expenses**	**Change**	**% Change**
Marketing and selling	$105,586	$108,199	($2,613)	(2.4%)
As a percentage of net revenues	25.1%	24.4%	0.7%	

The decrease in marketing and selling expenses for the three-month period ended June 30, 2008, compared to the same period in 2007, was largely due to decreased advertising, tradeshow and other promotional expenses, as well as favorable foreign exchange translations, and, to a lesser extent, decreased bad debt expenses. These decreases were partially offset by increased personnel-related costs. The decrease in advertising, tradeshow and other promotional expenses was $1.9 million, primarily due to decreased trade show expenses, and the increase in personnel-related costs was $0.8 million, primarily due to increased salaries and bonus accruals, for the three-month period ended June 30, 2008, compared to the same period in 2007. Also in the first three months of 2008, net foreign exchange gains (specifically, remeasurement gains and losses on net monetary assets denominated in foreign currencies, offset by hedging gains and losses), which are included in marketing and selling expenses, were $0.9 million, compared to net foreign exchange losses of $0.2 million in the first three months of 2007. The decrease in marketing and selling expenses as a percentage of revenues for the three-month period ended June 30, 2008 was the result of the decrease in expenses for the period compared to the same period in 2007.

The decrease in marketing and selling expenses for the six-month period ended June 30, 2008, compared to the same period in 2007, was largely due to decreased advertising, tradeshow and other promotional expenses, as well as favorable foreign exchange translations, and, to a lesser extent, decreased bad debt and demonstration equipment expenses. These decreases were partially offset by increased personnel-related costs. The decrease in advertising, tradeshow and other promotional expenses was $3.1 million, primarily due to decreased trade show expenses, and the increase in personnel-related costs was $2.7 million, primarily due to increased salaries and bonus accruals, for the six-month period ended June 30, 2008, compared to the same period in 2007. Also in the first six months of 2008, net foreign exchange gains (specifically, remeasurement gains and losses on net monetary assets denominated in foreign currencies, offset by hedging gains and losses), which are included in marketing and selling expenses, were $1.7 million, compared to net foreign exchange losses of $0.3 million in the first six months of 2007. The increase in research and development expenses as a percentage of revenues for the six-month period ended June 30, 2008 was the result of the decrease in revenues for the period compared to the same period in 2007.

General and Administrative

General and administrative expenses consist primarily of employee salaries and benefits for administrative, executive, finance and legal personnel; audit, legal and strategic consulting fees; and insurance, information systems and facilities costs. Information systems and facilities costs reported within general and administrative expenses are net of allocations to other expenses categories.

	Three Months Ended June 30, 2008 and 2007 (dollars in thousands)			
	2008	2007		
	Expenses	Expenses	Change	% Change
General and administrative	$19,492	$17,698	$1,794	10.1%
As a percentage of net revenues	8.7%	7.9%	0.8%	

	Six Months Ended June 30, 2008 and 2007 (dollars in thousands)			
	2008	2007		
	Expenses	Expenses	Change	% Change
General and administrative	$41,435	$35,550	5,885	16.6%
As a percentage of net revenues	9.8%	8.0%	1.8%	

The increase in general and administrative expenses for the three-month period ended June 30, 2008, compared to the same period in 2007, was primarily due to increased consulting and outside services costs, as well as higher personnel-related costs, partially offset by decreased legal settlements of $1.0 million. The consulting and outside services costs increased $1.6 million for the three-month period ended June 30, 2008, compared to the same period in 2007, largely as a result of consulting costs related to the strategic review and transformation of our business. Personnel-related costs increased $1.4 million for the three-month period ended June 30, 2008, compared to the same period in 2007, primarily due to management transition expenses, including executive severance, and increased accruals for our company bonus plan in the second quarter of 2008. The increase in general and administrative expenses as a percentage of revenues for the three-month period ended June 30, 2008 was largely the result of the increase in expenses for the period compared to the same period in 2007.

The increase in general and administrative expenses for the six-month period ended June 30, 2008, compared to the same period in 2007, was primarily due to increased consulting and outside services costs, as well as higher personnel-related costs, partially offset by decreased legal settlements of $1.0 million. The consulting and outside services costs increased $3.8 million for the six-month period ended June 30, 2008, compared to the same period in 2007, largely as a result of consulting costs related to the strategic review and transformation of our business. Personnel-related costs increased $2.6 million for the six-month period ended June 30, 2008, compared to the same period in 2007, primarily due to management transition expenses, including executive severance, and increased accruals for our company bonus plan in the first six months of 2008. The increase in general and administrative expenses as a percentage of revenues for the six-month period ended June 30, 2008 was largely the result of the increase in expenses for the period compared to the same period in 2007.

Amortization of Intangible Assets

Intangible assets result from acquisitions and include developed technology, customer-related intangibles, trade names and other identifiable intangible assets with finite lives. With the exception of developed technology, these intangible assets are amortized using the straight-line method. Developed technology is amortized over the greater of (1) the amount calculated using the ratio of current quarter revenues to the total of current quarter and anticipated future revenues over the estimated useful life of the developed technology, and (2) the straight-line method over each developed technology s remaining useful life. Amortization of developed technology is recorded within cost of revenues. Amortization of customer-related intangibles, trade names and other identifiable intangible assets is recorded within operating expenses.

	Three Months Ended June 30, 2008 and 2007 (dollars in thousands)			
	2008	**2007**	**Change**	**% Change**
Amortization of intangible assets recorded in cost of revenues	$2,270	$4,761	($2,491)	(52.3%)
Amortization of intangible assets recorded in operating expenses	3,323	3,431	(108)	(3.1%)
Total amortization of intangible assets	$5,593	$8,192	($2,599)	(31.7%)
Total amortization of intangible assets as a percentage of net revenues	2.5%	3.6%	(1.1%)	

	Six Months Ended June 30, 2008 and 2007 (dollars in thousands)			
	2008	**2007**	**Change**	**% Change**
Amortization of intangible assets recorded in cost of revenues	$ 5,524	$ 9,233	($3,709)	(40.2%)
Amortization of intangible assets recorded in operating expenses	6,710	6,863	(153)	(2.2%)
Total amortization of intangible assets	$12,234	$16,096	($3,862)	(24.0%)
Total amortization of intangible assets as a percentage of net revenues	2.9%	3.6%	(0.7%)	

The decreases in amortization of intangible assets for the three- and six-month periods ended June 30, 2008, compared to the same periods in 2007, were primarily the result of the completion during 2007 of the amortization of certain developed technologies related to our acquisition of Pinnacle in 2005.

Restructuring Costs, Net

During the quarter ended March 31, 2008, we initiated restructuring plans within our Professional Video business unit and corporate operations to eliminate duplicative business functions and improve operational efficiencies. During the quarter ended March 31, 2008, we recorded restructuring charges of $1.2 million under these plans related to employee termination costs for 20 employees, primarily in the marketing and selling teams and general and administrative teams. During the quarter ended June 30, 2008, we recorded restructuring charges of $1.0 million under these plans primarily related to employee termination costs for 26 employees, primarily in the research and development teams and sales and marketing teams. We expect to incur total expenses, representing cash expenditures, related to these restructurings of $3 million to $4 million and anticipate that we will complete the restructurings by December 31, 2008. We expect annual cost savings of between $4 million and $5 million to result from actions taken under these restructuring plans.

During 2007, we implemented restructuring plans within our Professional Video and Consumer Video business units, as well as corporate operations, that resulted in restructuring charges of $12.2 million. The purpose of these restructuring plans was to eliminate duplicative business functions, improve operational efficiencies and align key business skill sets with future opportunities. During the first six months of 2008, we revised our previous estimated liability for the 2007 restructuring plans and recorded in our statement of operations restructuring recoveries of $0.1 million.

Interest and Other Income (Expense), Net

Interest and other income (expense), net, generally consists of interest income, interest expense and equity in income of a non-consolidated company.

	Three Months Ended June 30, 2008 and 2007 (dollars in thousands)			
	2008	**2007**	**Change**	**% Change**
Interest and other income (expense), net	$617	$2,023	($1,406)	(69.5%)
As a percentage of net revenues	0.3%	0.9%	(0.6%)	

	Six Months Ended June 30, 2008 and 2007 (dollars in thousands)			
	2008	**2007**	**Change**	**% Change**
Interest and other income (expense), net	$2,098	$3,918	($1,820)	(46.5%)
As a percentage of net revenues	0.5%	0.9%	(0.4%)	

The decreases in other income and expense for the three- and six-month periods ended June 30, 2008, compared to the same periods in 2007, were primarily the result of decreased interest income due to lower average cash balances, as well as lower interest rates paid on the cash balances.

Provision for (Benefit from) Income Taxes, Net

	Three Months Ended June 30, 2008 and 2007 (dollars in thousands)		
	2008	**2007**	**Change**
Provision for income taxes, net	1,355	$547	$808
As a percentage of net revenues	0.6%	0.2%	0.4%

	Six Months Ended June 30, 2008 and 2007 (dollars in thousands)		
	2008	**2007**	**Change**
Provision for (benefit from) income taxes, net	1,306	($2,821)	$4,127
As a percentage of net revenues	0.3%	(0.6%)	0.9%

Our effective tax rate, which represents our tax provision as a percentage of loss before income taxes, was (4%) for the six-month period ended June 30, 2008. Our effective tax rate, which represents our tax benefit as a percentage of loss before income taxes, was 32% for the six-month period ended June 30, 2007. The primary reasons for the change from a tax benefit to a tax provision were a discrete tax benefit of $3.0 million from the favorable settlement of a Canadian research and development credit audit and a discrete tax benefit of $1.0 million from the release of a deferred tax liability in our German entity, both occurring in the first quarter of 2007, and other net discrete tax provisions of $0.6 million for tax return provision differences identified in the second quarter of 2008. These amounts were partially offset by a discrete tax benefit of

approximately $0.5 million from the favorable settlement of a United Kingdom tax audit occurring in the first quarter of 2008.

Excluding the impact of our valuation allowance, our effective tax rates would have been 35% and 61%, respectively, for the six-month periods ended June 30, 2008 and 2007. These rates may differ from the federal statutory rate of 35% due to the net benefits recorded for discrete tax items, the impact of permanent differences in

the United States and the mix of income and losses in foreign jurisdictions, which have tax rates that differ from the statutory rate.

LIQUIDITY AND CAPITAL RESOURCES

Current Cash Flows and Commitments

We have funded our operations in recent years through cash flows from operations and stock option exercises. As of June 30, 2008, our principal sources of liquidity included cash, cash equivalents and marketable securities totaling $138.5 million.

Net cash provided by operating activities was $14.3 million for the six months ended June 30, 2008, compared to $22.6 million for the same period in 2007. For the six months ended June 30, 2008, net cash provided by operating activities primarily reflected our net loss adjusted for depreciation and amortization and stock-based compensation expense, as well as changes in working capital items, in particular a decrease in accounts receivable, partially offset by increases in inventories and prepaid assets and a decrease in accrued liabilities. For the six months ended June 30, 2007, net cash provided by operating activities primarily reflected our net loss adjusted for depreciation and amortization and stock-based compensation, as well as changes in working capital items, in particular a decrease in inventories and an increase in deferred revenues, partially offset by an increase in prepaid expenses and other current assets and a decrease in accrued liabilities.

Accounts receivable decreased by $24.6 million to $114.1 million at June 30, 2008 from $138.7 million at December 31, 2007. These balances are net of allowances for sales returns, bad debts and customer rebates, all of which we estimate and record based primarily on historical experience. Accounts receivable decreased as a result of a decrease in revenues, as well as improved collections in the second quarter of 2008, compared to the fourth quarter of 2007. Days sales outstanding in accounts receivable decreased from 48 days at December 31, 2007 to 46 days at June 30, 2008.

At June 30, 2008 and December 31, 2007, we held inventory in the amounts of $120.7 million and $117.3 million, respectively. These balances include stockroom, spares and demonstration equipment inventories at various locations, as well as inventory at customer sites related to shipments for which we had not yet recognized revenue. The increase of approximately $3.4 million primarily resulted from changes in product mix from those forecasted for the second quarter of 2008, as well as increased product inventories to support the release of new products in the second quarter of 2008. We review all inventory balances regularly for excess quantities or potential obsolescence and make appropriate adjustments as needed to write down the inventories to reflect their estimated realizable value. We source inventory products and components pursuant to purchase orders placed from time to time.

Net cash flow used in investing activities was $2.7 million for the six months ended June 30, 2008, compared to $17.2 million provided by investing activities for the same period in 2007. The net cash flow used in investing activities for the six months ended June 30, 2008 primarily reflected $8.5 million used for the purchase of property and equipment, partially offset by net proceeds of $6.8 million resulting from the timing of the sale and purchase of marketable securities. The net cash flow provided by investing activities for the six months ended June 30, 2007 primarily reflected net proceeds of $32.9 million resulting from the timing of the sale and purchase of marketable securities, partially offset by $14.7 million used for the purchase of property and equipment. Property and equipment purchases in both periods consisted primarily of computer hardware and software to support our research and development activities and information systems.

During the six months ended June 30, 2008, cash used in financing activities was $92.0 million, compared to $19.5 million for the same period in 2007. The cash used in financing activities in 2008 was the result of $93.2 million used for our stock repurchase program in the first quarter of 2008, partially offset by proceeds from the exercise of stock options and purchases under our employee stock purchase plan. During the six months ended June 30, 2007, the cash used in financing activities was the result of $23.7 million used for our stock repurchase program,

partially offset by proceeds from the exercise of stock options and purchases under our employee stock purchase plan.

A stock repurchase program was approved by our board of directors and publicly announced on April 26, 2007. Under this program, we were authorized to repurchase up to $100 million of our common stock through transactions on the open market, in block trades or otherwise. The program has no expiration date. On February 27, 2008, we announced our board of directors approval of a $100 million increase in authorized funds for the repurchase of our common stock under this program. During 2007, we repurchased 809,236 shares of our common stock under the program for a total purchase price, including commissions, of $26.6 million. During the three months ended March 31, 2008, we repurchased an additional 4,254,397 shares of our common stock for a total purchase price, including commissions, of $93.2 million, leaving $80.3 million authorized for future repurchases. There were no additional repurchases of our common stock during the three months ended June 30, 2008. The stock repurchase program is being funded through working capital.

In connection with non-acquisition-related restructuring activities during 2008 and prior periods, as of June 30, 2008, we had restructuring accruals of $2.3 million and $1.1 million related to lease and severance obligations, respectively. Our future cash obligations for leases for which we have vacated the underlying facilities total approximately $7.6 million. The lease accrual represents the excess of our lease commitments on the vacated space over expected payments to be received on subleases of such facilities. The lease payments will be made over the remaining terms of the leases, which have varying expiration dates through 2011, unless we are able to negotiate earlier terminations. The severance payments will be made during the next 12 months. All payments related to restructuring actions are expected to be funded through working capital. See Note 14 of the unaudited condensed consolidated financial statements in Item 1 of this report for the restructuring costs and accruals activity for the six months ended June 30, 2008.

In connection with our Pinnacle acquisition in 2005, we recorded restructuring accruals totaling $14.4 million related to severance ($10.0 million) and lease or other contract terminations ($4.4 million). In connection with our January 2006 Medea acquisition, we recorded $0.7 million for severance obligations and $0.5 million for lease termination costs. As of June 30, 2008, we had future cash obligations of approximately $0.8 million under leases for which we had vacated the underlying facilities and restructuring accruals of $1.4 million related to acquisition-related lease obligations. The lease payments will be made over the remaining terms of the leases, which have varying expiration dates through 2010.

Our cash requirements vary depending upon factors such as our growth, capital expenditures, acquisitions of businesses or technologies and obligations under restructuring plans. We believe that our existing cash, cash equivalents, marketable securities and funds generated from operations will be sufficient to meet our operating cash requirements for at least the next twelve months. In the event that we require additional financing, we believe that we will be able to obtain such financing; however, there can be no assurance that we would be successful in doing so or that we could do so on favorable terms.

Fair Value Inputs

We adopted SFAS No. 157, *Fair Value Measurements*, and SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities - Including an Amendment of FASB Statement No. 115*. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. We elected not to measure any additional financial instruments or other items at fair value.

We value our cash and investment instruments using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. See Note 3 to our unaudited condensed consolidated financial statements included in Item 1 of this report for disclosure of the fair values and the inputs used to determine the fair values of our financial assets and financial liabilities.

RECENT ACCOUNTING PRONOUNCEMENTS

See Notes 3 and 15 to our unaudited condensed consolidated financial statements included in Item 1 of this report for disclosure of the impact that recent accounting pronouncements have had or may have on our consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Foreign Currency Exchange Risk

We have significant international operations and, therefore, our revenues, earnings, cash flows and financial position are exposed to foreign currency risk from foreign currency denominated receivables, payables, sales transactions and net investments in foreign operations.

We derive more than half of our revenues from customers outside the United States. This business is, for the most part, transacted through international subsidiaries and generally in the currency of the end-user customers. Therefore, we are exposed to the risks that changes in foreign currency could adversely impact our revenues, net income and cash flow. To hedge against the foreign exchange exposure of certain forecasted receivables, payables and cash balances, we enter into short-term foreign currency forward contracts. There are two objectives of our foreign currency forward-contract program: (1) to offset any foreign exchange currency risk associated with cash receipts expected to be received from our customers over the next 30-day period and (2) to offset the impact of foreign currency exchange on our net monetary assets denominated in currencies other than the functional currency of the legal entity. These forward contracts typically mature within 30 days of execution. We record gains and losses associated with currency rate changes on these contracts in results of operations, offsetting gains and losses on the related assets and liabilities. The success of this hedging program depends on forecasts of transaction activity in the various currencies and contract rates versus financial statement rates. To the extent these forecasts are overstated or understated during periods of currency volatility, we could experience unanticipated currency gains or losses.

At June 30, 2008, we had foreign currency forward contracts outstanding with an aggregate notional value of $51.7 million, denominated in the euro, British pound and Canadian dollar, as a hedge against actual and forecasted foreign currency denominated receivables, payables and cash balances. The mark-to-market effect associated with these contracts was a net unrealized loss of $48 thousand at June 30, 2008. For the six months ended June 30, 2008, net losses of $2.6 million resulting from forward contracts were included in results of operations, offset by $4.3 million of net transaction and remeasurement gains on the related assets and liabilities.

A hypothetical 10% change in foreign currency rates would not have a material impact on our results of operations, assuming the above-mentioned forecast of foreign currency exposure is accurate, because the impact on the forward contracts as a result of a 10% change would at least partially offset the impact on the asset and liability positions of our foreign subsidiaries.

Interest Rate Risk

At June 30, 2008, we held $138.5 million in cash, cash equivalents and marketable securities, including short-term corporate obligations, asset-backed securities and government-agency obligations. Marketable securities are classified as available for sale and are recorded on the balance sheet at market value, with any unrealized gain or loss recorded in other comprehensive income (loss). A hypothetical 10% increase or decrease in interest rates would not have a material impact on the fair market value of these instruments due to their short maturities.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2008. The term disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Security and Exchange Commission s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company s management, including its principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of June 30, 2008, our chief executive officer and chief financial officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

No change in our internal control over financial reporting occurred during the fiscal quarter ended June 30, 2008 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in legal proceedings from time to time arising from the normal course of business activities, including claims of alleged infringement of intellectual property rights and commercial, employment, piracy prosecution and other matters. We do not believe these matters will have a material adverse effect on our financial position or results of operations. However, our financial position or results of operations may be negatively impacted by the unfavorable resolution of one or more of these proceedings.

ITEM 1A. RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks and uncertainties described in Part I - Item 1A under the heading Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2007 in addition to the other information included or incorporated by reference in this quarterly report before making an investment decision regarding our common stock. If any of these risks actually occurs, our business, financial condition or operating results would likely suffer, possibly materially, the trading price of our common stock could decline, and you could lose part or all of your investment.

During the three months ended June 30, 2008, there were no material changes to the risk factors that were disclosed in Part 1 - Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2007.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

We held our annual meeting of stockholders on May 21, 2008. At the meeting, Elizabeth M. Daley and Youngme E. Moon were re-elected as Class III Directors. The vote with respect to each nominee is set forth below:

	Total Vote For Each Director	**Total Vote Withheld From Each Director**
Ms. Daley	29,496,334	4,760,593
Dr. Moon	29,492,266	4,764,661

The additional directors whose terms of office continued after the meeting were George H. Billings, Gary G. Greenfield, Nancy Hawthorne, Louis Hernandez, Jr. and John H. Park.

At the meeting, the stockholders also approved an amendment to our Second Amended and Restated 1996 Employee Stock Purchase Plan to increase from 1,700,000 to 2,500,000 the number of shares of common stock authorized for issuance under the plan by a vote of 30,828,520

shares for, 113,829 shares against, 10,701 shares abstaining, and 3,303,877 broker non-votes. The stockholders also approved our Amended and Restated 2005 Stock Incentive Plan by a vote of 17,484,326 shares for, 13,457,020 shares against, 11,703 shares abstaining, and 3,303,878 broker non-votes.

In addition, the stockholders ratified the selection of Ernst & Young LLP as our independent auditors for the fiscal year ending December 31, 2008 by a vote of 34,189,124 shares for, 49,447 shares against and 18,355 shares abstaining.

ITEM 6. EXHIBITS

The list of exhibits, which are filed or furnished with this report or which are incorporated herein by reference, is set forth in the Exhibit Index immediately preceding the exhibits and is incorporated herein by reference.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
