Exhibit 1

Elbit Systems' Elisra to Supply Personal Search and
Rescue Locator Beacons to the French Ministry of Defense

Hundreds of units, for non-combat Search And Rescue (SAR) missions, carried in the aircrew's vest, will be supplied to the French Air Force, Army, Navy and DGA (Direction générale de l'armement)

Haifa, Israel, June 19, 2011 – Elbit Systems Ltd. (NASDAQ and TASE:ESLT) ("Elbit Systems") announced today that its subsidiary Elisra Electronic Systems Ltd. ("Elisra"), was awarded a contract valued at approximately €5 million to supply hundreds of units of its AN/PRC-684 Personal Locator Beacon (formerly SPLB) to the French MoD, equipping the French Air Force, Army, Navy and DGA (Direction générale de l'armement). The project will be performed within 24 months.

The French company INEO Défense is the project's prime contractor.

The contract award followed a tender in which Elisra competed with several world-renowned manufacturers of Search and Rescue (SAR) beacons.

The AN/PRC-684 is one of the few PLBSs in the market to offer voice functions. The AN/PRC-684 has an integral voice transceiver featuring multichannel VHF/UHF capabilities, an advanced over-the-horizon Cospas-Sarsat Personal Locator Beacon (PLB) intended for non-combat SAR missions, when training or flying over friendly territory. Carried in the aircrew's emergency vest, the system is designed to provide a variety of modes of activation using an internal G-switch that automatically activates the beacon upon aircrew bailout, while a lanyard-actuated switch provides for additional mechanical and manual activation options.

About Elbit Systems

Elbit Systems Ltd. is an international defense electronics company engaged in a wide range of programs throughout the world. The Company, which includes Elbit Systems and its subsidiaries, operates in the areas of aerospace, land and naval systems, command, control, communications, computers, intelligence surveillance and reconnaissance ("C4ISR"), unmanned aircraft systems ("UAS"), advanced electro-optics, electro-optic space systems, EW suites, airborne warning systems, ELINT systems, data links and military communications systems and radios. The Company also focuses on the upgrading of existing military platforms, developing new technologies for defense, homeland security and commercial aviation applications and providing a range of support services.

This press release contains forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current fact. Forward Looking Statements are based on management's expectations, estimates, projections and assumptions. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission. All forward-looking statements speak only as of the date of this release. The Company does not undertake to update its forward-looking statements.
